March 21, 1988

TO: Rep. Henry Springer, Chairman HCRA

FROM: David C. Harrison, P. A., HCRA *DCH*

RE: HB 494 " An Act making a special appropriations to the Department of Community and Regional Affairs for grants to collect marine garbage; and providing for an effective date."

Section 1. Requests \$100,000 to be appropriated to the DCRA under state law AS 44.47.750 to various communities in Birstol Bay.

During the fishing season, many processors anchor outside borough and city limits where the authority for the clean environment is the responsibility of the state. It is in such community waters as given in the appropriation request that garbage collection is very much needed.

It may be suggested here that communities so affected my be assisted by the DCRA to find means to have the garbage collected. It could be by commercial scows located in and near the communities so affected.

Foreign ships that come into the bay have often discarded crates, boxes, and plastic strapping into the waters causing pollution to float or wash up on shores near these communities.

The need for this is based upon the fact that much of the pollution is done just outside local community jurisdictions.
