## Kodiak Island Borough School District

### RESOLUTION 867-10

RE: HB 33, an act relating to inoperative schools

WHEREAS, the Board of Education of the Kodiak Island Borough has reviewed HB 33, "Inoperative Schools", and

WHEREAS, the Board finds that it is important and necessary that the Alaska State Legislature set standards for determination of when there are sufficient students served by both elementary and/or secondary education programs, and

WHEREAS, the Board feels that delivery of these programs for small populations are not cost-effective in the light of inadequate revenues from the state, and

WHEREAS, the Board wishes to see the legislation modified to allow local school districts flexibility in providing programs where elementary and secondary programs are coordinated within one facility and utilizing shared staff, and

WHEREAS a threshold level of elementary or secondary students should not restrict the ability of local school districts to provide for all students at a rural school site if a threshold level is obtained, in either the elementary or secondary program when a rural school is operative.

NOW THEREFORE BE IT RESOLVED, that the Kodiak Board of Education endorses, in concept, the need for the legislature to set reasonable thresholds for state and local responsibility for primary and secondary programs in remote locations, and

FURTHER BE IT RESOLVED, that the Kodiak Board of Education encourages the legislature to set reasonable standards for the determination of the necessary number of students needed to provide formalized school programs but eliminate unnecessary program changes for students in rural schools where threshold levels are met for either an elementary or a secondary program by adding a threshold for combined K-12 programs.
