HB 531: An Act extending the termination date of the Board of Chiropractic Examiners; and providing for an effective date.

The Board of Chiropractic Examiners is presently in its sunset year and scheduled to terminate on June 30, 1988. HB 531 extends the board to June 30, 1992.

The performance report conducted by the Legislature's Budget and Audit Committee found the process of licensure by the board to be neither unduly restrictive nor too lax, and no found violations of statute or regulations by the board. In addition, the performance report found that the licenses were correctly granted strictly on the basis of the applicant's professional qualifications.

We believe the board is necessary for the regulation of qualified professionals in order to protect the public's health, safety and welfare; the department concurs with the audit report's finding that the board should be reestablished.

## THE LEGISLATURE

BUDGET AND AUDIT COMMITTEE

December 31, 1987

Members of the Legislative Budget  
and Audit Committee:

According to the provisions of Titles 24 and 44 of the Alaska Statutes, the Division of Legislative Audit is required to conduct a "Sunset" review of the Board of Chiropractic Examiners.

At the request of the Chairman, during Fiscal Year 1988 budget deliberations, the Audit Division's budget was revised to reflect certain changes in the organization of the Committee's two Divisions. The revised budget of the Audit Division reflected efficiencies that might be obtained by utilizing the staff of the Legislative Finance Division on selected audit assignments during the interim.

As a result, the audit of the Board of Chiropractic Examiners was conducted and this report has been prepared by the Legislative Finance Division. We feel this report discharges our responsibility under Titles 24 and 44. The report is submitted for your review.

Randy S. Welker, CPA  
Acting Legislative Auditor  
Division of Legislative Audit

## PURPOSE AND SCOPE OF THE REPORT

### PURPOSE

In accordance with the intent of Titles 24 and 44 of the Alaska Statutes (sunset legislation), we have examined the activities of the Board of Chiropractic Examiners for the past four fiscal years. Our examination was conducted to determine if the Board has been operating in a effective and efficient manner.

Legislative intent requires consideration of this report during legislative oversight hearings to determine whether the Board of Chiropractic Examiners should be reestablished. The law now specifies that the Board will terminate June 30, 1988 and have one year from that date to conclude its affairs.

### SCOPE

The major areas reviewed were the Board's operations and its licensing, examination, administration, complaint and affirmative action functions. Our review consisted of analyzing and evaluating the following:

1. Applicable statutes and Board regulations.
2. Interviews with Board members.
3. Discussions with the Division of Occupational Licensing personnel.
4. Tests of the records and documents of the Board and the Division of Occupational Licensing.
5. Complaints filed with the Division of Occupational Licensing, Ombudsman's Office, Consumer Protection Agency, Equal Employment Opportunity Office, and the Human Rights Commission.

## ORGANIZATION AND FUNCTION

Created in 1939, the Alaska Board of Chiropractic Examiners is a regulatory board comprised of five members appointed by the Governor. Four are licensed chiropractors and one is a public individual.

The underlying reasons for this Board are fourfold. First, the Board is responsible for reviewing the applications of individuals desiring to enter the chiropractic profession in Alaska. Secondly, the Board has the responsibility of administering an examination to test the applicant's ability. Third, the Board is responsible for the adoption of regulations regarding the standards of professional practice in Alaska and fourth, to investigate and act upon complaints filed against members of the regulated profession.

To assist the Board, it has the staff support of the Division of Occupational licensing (OL), Department of Commerce and Economic Development which is comprised of two sections. The licensing section processes applications, maintains license files, collects statistics, answers inquires, and provides administrative help to the Board. The investigation section provides investigative services to the Board in the event of consumer or other professional complaints.

The Board of Chiropractic Examiners issues licenses to applicants that have met all licensing requirement and have taken and passed the State examination. The Board may also issue a license without examination if the applicant holds a current license in another state whose licensing requirements are essentially equivalent to those of Alaska.

## REPORT CONCLUSION

In our opinion, the Board of Chiropractic Examiners should be reestablished. The regulation and licensing of qualified professionals is necessary to protect the public's health, safety and welfare. The Board establishes minimum educational and experience requirements that provide reasonable assurance that persons licensed are qualified. Further, active investigation of complaints and revocation or suspension of licenses, as appropriate, insure that licensees act in a competent manner.

## ANALYSIS OF PUBLIC NEED

### Limited Analysis

The following analyses indicate both positive and negative factors as they relate to the public need as defined in the "sunset" law. These analyses are not intended to be comprehensive, but to address those areas we were able to cover during our examination.

- I. The extent to which the board, commission or program has operated in the public interest.

The Board has addressed each of the recommendations made in the previous review. The balance between public protection and ease of licensure is adequate and appropriate.

- II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.

Reductions in the agency budget have limited staff support to all professional licensing boards. Present levels of funding are adequate, but further reductions would be detrimental.

- III. The extent to which the board, commission, or agency has recommended statutory changes which are generally of benefit to the public interest.

The Board has supported Senate Bill 264, which provides a statutory basis for the continuing education requirement now in regulation. An additional bill, not yet introduced, provides for locum tenens licensure to replace temporary licensing and clarifies license by credential requirements.

- IV. The extent to which the board, commission, or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

The Board publishes public notices of all examinations, meetings, and regulation changes.

- V. The extent to which the board, commission, or agency has encouraged public participation in the making of its regulations and decisions.

APPENDIXES

Note 3

Expenditures consist of FY88 budgeted direct costs associated with board member activities (i.e. travel and per diem) and a allocation of direct and indirect costs of DOL. It should be noted that represented expenditures do not include expenses incurred by other Departments or other divisions of the Department of Commerce and Economic Development in assisting the Board.

Note 4

This schedule represents the licensing fees currently in effect. Fees were raised in November 1986 in response to legislative intent to make the Boards more self supporting.
