March 10, 1987

To: Rep. Niilo Koponen & Rep. Johnny Ellis, Co-Chairs  
Members, House HESS Committee

Re: CS for Senate Bill No. 115 (Finance); "An Act making supplemental appropriations to the Department of Education for pupil transportation, tuition students, multi-handicapped students, the Kotzebue Technical Center, and districts losing more than 10 percent of their foundation funding in a single year; and providing for an effective date."

NEA-Alaska supports and encourages early passage of the CS for SB 115.

The recent reductions in the amount of state funding available to public schools through the funding formula has, in many instances, caused a serious reduction in the programs and services available to students.

With the immediate revenue prognosis being for continued constraints on the amount of funds which are available, it is essential that the state fulfill its commitment to the kind of programs and services addressed in CS for SB 115 so that other general fund monies will not have to be diverted to cover these kinds of costs.

Thank you for your consideration.

Respectfully submitted,

Robert Manners  
Executive Secretary
