HB 179: An Act extending the termination date of the Board of Psychologist and Psychological Associate Examiners and providing for an effective date.

HB 179 extends the Board of Psychologist and Psychological Associate Examiners from June 30, 1987 to June 30, 1991. In December 1986 the Legislative Budget and Audit Committee issued a performance report on the board which recommended they be reestablished.

The department maintains its support for continuation of the Board of Psychologist and Psychological Associate Examiners and recognizes the important functions they provide. The board has the expertise to evaluate and approve applicants for licensure and provides a mechanism for disciplining incompetent or dishonest professionals.

  
J. Anthony Smith, Commissioner

## THE LEGISLATURE

BUDGET AND AUDIT COMMITTEE

January 14, 1987

SUMMARY OF: A Performance Report on the Department of Commerce and Economic Development, Board of Psychologist and Psychological Associate Examiners, December 19, 1986.

### PURPOSE OF THE REPORT

In accordance with the intent of Titles 24 and 44 of the Alaska Statutes (sunset legislation), we have reviewed the activities of the Board of Psychologist and Psychological Associate Examiners. Our examination was conducted to determine if the Board has been operating in an efficient, effective manner and whether the Board should be reestablished. The law now specifies that the Board will terminate on June 30, 1987.

### REPORT CONCLUSION

In our opinion, the Board of Psychologist and Psychological Associate Examiners should be reestablished. The regulation and licensing of qualified professionals is necessary to protect the public's health, safety, and welfare. The Board provides this service by establishing minimum educational and experience requirements that provide reasonable assurance that persons licensed are qualified. Also, assurances that those licensed act in a competent manner are provided by active investigation of complaints and revocation or suspension of licenses when appropriate.

### FINDINGS AND RECOMMENDATION

1. The Board should adhere to regulations concerning Board powers to deny applicants from licensure by examination.

## PURPOSE OF THE REPORT

In accordance with the intent of Titles 24 and 44 of the Alaska Statutes (sunset legislation), we have reviewed the activities of the Board of Psychologist and Psychological Associate Examiners to determine if the Board has been operating in an efficient and effective manner.

As required by legislative intent, this report shall be considered during the legislative oversight function in determining whether the Board of Psychologist and Psychological Associate Examiners should be reestablished. The law currently specifies that this Board will terminate on June 30, 1987.

The major areas of our examination were the licensing, examination, administration, complaint, and affirmative action functions of the Board. We reviewed and evaluated the following:

1. Applicable statutes and regulations.
2. Tests of files and documents of licensees.
3. Interviews with the licensing examiner.
4. Complaints filed with the Division of Occupational Licensing, Equal Employment Opportunity Office, Attorney General's Office, and the Ombudsman Office.
5. Discussions with Board members.
6. Minutes of Board meetings and Division correspondence files.
7. Attorney General's Opinions applicable to professional boards.

(Intentionally left blank)

## ORGANIZATION AND FUNCTION

The Board of Psychologist and Psychological Associate Examiners (PPAE) was established under the provisions of Title 8, Chapter 86 of the Alaska Statutes. The Board consists of four licensed psychologists and one public member appointed by the Governor and approved by the Legislature.

The Board regulates licensed psychologists and psychological associates in the State. A psychologist is licensed to use psychological principles, methods, and procedures for the treatment of emotional and mental disorders. A psychological associate is licensed to perform psychological services under the supervision of a licensed psychologist. Legislation recently passed (Chapter 63, SLA 1986) allows a psychological associate who has completed at least five years of licensed practice to petition the Board for certification to practice without supervision.

The Board's duties are basically the following:

1. Examining and issuing licenses to qualified applicants.
2. Establishing or amending rules and regulations necessary and desirable to enforce State statutes.
3. Holding hearings in order to revoke or suspend the license of a person violating the psychologist and psychological associate statutes and regulations.

An applicant may be licensed by passing an exam given by the Board or by credentials. For credentials, an applicant must provide proof of licensure by another authority with equal licensing requirements.

In order to qualify for licensure as a psychologist by examination, an applicant must pass a written examination, have a doctorate degree, and one year of experience. The examination is composed of two parts: an objective national examination composed by the Professional Examination Service and an essay examination composed by the Board.

Psychological associates may qualify for the examination if they have three years supervised experience after obtaining a Master's degree.

(Intentionally left blank)

## REPORT CONCLUSION

### Policy Issues

This report contains policy issues raised as a result of our evaluation of various Board practices. The final policy decisions affecting these practices are not within the scope of this report but require legislative consideration. In debating these issues, the oversight committees should take into consideration the findings and recommendation presented in this report so the potential impact of policy changes can be evaluated.

### Report Conclusion

In our opinion, the Board of Psychologist and Psychological Associate Examiners should be reestablished. The regulation and licensing of qualified professionals is necessary to protect the public's health, safety, and welfare. The Board provides this service by establishing minimum educational and experience requirements that provide reasonable assurance that persons licensed are qualified. Also, assurances that those licensed act in a competent manner is provided by active investigation of complaints and revocation or suspension of licenses when appropriate.

However, the following finding describes an area where weaknesses or conflicts exist. We have made a recommendation which, if implemented, will improve the efficiency and effectiveness of the Board.

The Board should adhere to regulations for denying applicants the right to take the psychology examination. Two applicants were improperly denied the right to take the psychology examination.

(Intentionally left blank)

## FINDINGS AND RECOMMENDATION

### Recommendation No. 1

The Board should adhere to regulations concerning Board powers to deny applicants from licensure by examination.

The Board inappropriately denied a person the right to take the psychology exam based on the allegation of unethical conduct. The Attorney General's Office determined that the Board's action was not authorized under existing statute or regulation.

12 AAC 60.055 permits the Board to deny an applicant for licensure if the applicant has . . .

- (1) been found guilty of incompetence by another state or jurisdiction;
- (2) violate the ethical standards for providers of psychological services as established by another state agency or jurisdiction;
- (3) misrepresented his or her qualifications to the board in any way; or
- (4) been found to be practicing psychological services without a license.

In this instance there was no actual finding or decision by another State agency or jurisdiction.

Similarly, another applicant for licensure by examination was not allowed to take the examination pending the outcome of an investigation by the Division of Occupational Licensing. Board of Psychology regulations do not prohibit a person from taking the psychology exam merely based on an investigation. According to the Licensing Examiner, the Board tabled their decision to act on the application without even reviewing the applicant's file.

Alaska Statute 08.86.070 provides for the Board to impose disciplinary sanctions. Those disciplinary sanctions apply to licensed psychologists and psychological associates. The Board does not have the authority to deny applicants the right to take the psychology examination as long as other minimum requirements are met. Denial of that right cannot be based on mere allegations or outstanding investigations.

(Intentionally left blank)

## ANALYSIS OF PUBLIC NEED

### Limited Analysis

The following analyses of board activities relate to the public need factors defined in the "sunset" law. These analyses are not intended to be comprehensive, but address those areas we were able to cover within the scope of our review.

- I. The extent to which the board, commission, or program has operated in the public interest.
  - A. The Board has promulgated regulations concerning continuing education requirements. In addition, public hearings have been held to consider regulation changes regarding course requirements for graduate programs in psychology, criteria for practicing psychology without supervision as a psychological associate, and the qualifications for persons performing psychological-related activities that are exempt from licensure. The public is notified about upcoming examinations and meetings and is invited to provide input at Board meetings.
  - B. The Board has developed goals and objectives. Some of the goals the Board achieved in 1986 includes:
    - (1) Reviewing applications for licensure and examination.
    - (2) Conducting examinations twice a year.
    - (3) Reviewing investigative reports.
    - (4) Considering regulatory changes to psychology regulations.
  - C. The Board prepared forms to document continuing education by licensed psychologists.
- II. The extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices which it has adopted, and any other matter, including budgetary, resource, and personnel matters.
  - A. The Board needs to clarify AS 08.86.180 which defines the Board's jurisdiction over the practice of psychology. The statutes which govern the Board prohibit any person, unless they are licensed or exempt, to practice psychology in the State.

Alaska Statute 08.86.130(b)(1) specifically exempts persons from licensure that are employed by a governmental unit, educational institution, or private agency who may be required to engage in some phase of work "of a psychological nature" if the employer maintains "appropriate supervision" of the psychological activities and professional conduct. What constitutes "appropriate supervision" and what is considered activity "of a psychological nature" has not been defined in the statutes.

The lack of specific statutory guidelines has caused confusion among other professions as to whether their practice is covered by Title 8, Chapter 86 of the Alaska Statutes.

- B. The Division of Occupational Licensing (OL) does not have an allocation plan for indirect cost; for each individual board. They have recently implemented procedures to recoup costs for all boards under their purview.
- C. Legislation was recently passed (Ch. 63, SLA 86) that requires the Board to submit proposed regulations establishing the requirements for graduate programs in psychology under AS 08.86.130 (psychologists licensing requirements) and establishing the criteria for practice without supervision under AS 08.86.164 (e) (as a psychological associate). Part of the proposed regulations requires psychological associates (PAs) to obtain 60 hours of graduate program study, including a Master's degree, in order to practice without supervision after five years of supervised practice.

Currently, PAs are required to have three years of supervised experience prior to getting their license and an additional five years of supervised experience after receiving their license. Eight years of experience combined with 60 hours of graduate program study seems overly restrictive in order for PAs to practice without supervision. Based on public response to the draft regulations, it may not be in the public's best interest to require this additional amount of education.

III. The extent to which the board, commission, or agency has recommended statutory changes which are generally of benefit to the public interest.

- A. The Board has proposed statutory changes for the temporary licensure of applicants. The legislation would change this process from a licensing process

to a permit process and allow applicants for licensure by credentials to be issued a temporary permit provided they meet criteria similar to licensing requirements.

- B. The Board has proposed statutory changes to clarify exactly when confidentiality may be waived if a client threatens serious harm to her/himself or to another person, or to property in such a way that a person's life might be in danger. In addition, the Board has proposed legislation to clarify under what conditions the board may impose disciplinary sanctions against a psychologist for lewd conduct.

IV. The extent to which the board, commission, or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service which it has provided.

- A. The public is invited to attend Board meetings. Notices of meetings and examinations are published in at least 3 major newspapers and a time for public comment is reserved at Board meetings.

V. The extent to which the board, commission, or agency has encouraged public participation in the making of its regulations and decisions.

- A. Public notices of proposed regulations are published in major newspapers. Public comment to proposed regulations, both written and oral, are considered at Board meetings.

VI. The efficiency with which public inquiries or complaints regarding the activities of the board, commission, or agency filed with it, with the department to which a board or commission is administratively assigned, or with the Office of the Ombudsman have been processed and resolved.

- A. Most complaints filed with OL allege unlicensed activity. For the most part, these complaints are investigated and resolved in a timely manner. Investigations could be hampered because statutory language concerning licensing exemptions to the practice of psychology is difficult to interpret (see II. A.). Based on records at OL, there were 6 complaints filed at OL in FY 86, 20 filed in FY 85, and 19 filed in FY 84. Currently, only one investigative case is outstanding.
- B. Review of recently closed Ombudsman's case files showed no significant complaints.

- VII. The extent to which a board or commission which regulated entry into an occupation or profession has presented qualified applicants to serve the public.
- A. As of June 30, 1986, the Board regulated 94 psychologists and 14 psychological associates. Fifty-three new licenses have been issued since FY 82.
  - B. Due to problems with the exemption statute, it is difficult to tell where the Board's jurisdiction begins and where it ends.
- VIII. The extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission, or agency to its own activities and the area of activity or interest.
- A. Psychology and psychological associate applications require unnecessary information such as an applicant's age, birth place, and picture.
- IX. The extent to which statutory, regulatory, budgeting, or other changes are necessary to enable the agency, board, or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.
- A. Please refer to the previous sections and Findings and Recommendation.

APPENDIXES

(Intentionally left blank)

APPENDIX A  
BOARD OF PSYCHOLOGIST AND PSYCHOLOGICAL ASSOCIATE EXAMINERS  
REVENUES COMPARED WITH EXPENDITURES  
 For the Fiscal Year Ended June 30, 1986  
 (Unaudited)  
 (Note 1)

Average Revenue (See Schedule 1 and Note 2)	\$ 8,808.00
Expenditures (See Note 3)	<u>22,045.28</u>
Excess of Revenues over Expenditures	<u><u>\$(13,237.28)</u></u>

Schedule 1  
Types of Revenues

Revenues	Amount Prior to 11/20/86	Amount Effective 11/20/86	Collection Time
Application Fee	\$ 25	\$ 20	With submittal of application
Examination Fee	\$125	\$ 90	With submittal of application
Credential Review Fee	\$125	\$ 50	With submittal of application
Initial License Fee	\$200	\$200	With submittal of application
License Renewal	\$200	\$200	Every Four Years

Note 1

This revenue/expenditure comparison was prepared from available records and discussions with Occupational Licensing personnel. The records were not audited by us and, accordingly, we do not express an opinion on the Board's Statement of Revenues Compared with Expenditures.

Note 2

A significant portion of revenues is composed of license renewal fees. Licenses are renewed every four years and the last renewal date was June 30, 1985. Because of the renewals, revenues vary substantially every fourth year. Therefore, we averaged revenues collected in fiscal years 83, 84, 85 and 86 in order to obtain a representative amount of average annual revenues collected.

Note 3

Expenditures consist of direct costs resulting from Board activities, which includes travel, per diem, and miscellaneous contractual expenditures incurred by the Board members and the Board's licensing examiner. This amount does not include indirect administrative expenditures of the Division of Occupational Licensing or expenditures for efforts of other departments assisting the Board.

OFFICE OF THE COMMISSIONER

February 6, 1987

Mr. Gerald Wilkerson  
Legislative Auditor  
Division of Legislative Audit  
P.O. Box W  
Juneau, AK 99811

FEB 17 1987

Dear Mr. Wilkerson:

The department agrees that the Board of Psychologist and Psychological Associate Examiners should be continued and concurs with the recommendation that the board should adhere to regulations concerning the board powers to deny applicants from licensure by examination. It should be noted, however, that, although the board initially inappropriately denied an applicant from licensure by examination, an attorney general's opinion was sought prior to the examination and the candidate was permitted to take the examination on schedule.

The issue was whether or not the board has the power to deny a license by examination or licensure by credentials based on allegations of unethical conduct or pending the results of ongoing investigations. Under its current regulations, the board does not have this authority. Since the board has the responsibility to ensure only qualified, competent individuals receive licenses to practice, the department would recommend that the board amend 12 AAC 60.055 to add another section: "(5) is not the subject of an unresolved complaint, review procedure or disciplinary proceeding." There is a current applicant for licensure who has been accused of several counts of sexual misconduct in another state. Under the existing regulation, the board is required to license the applicant. The department believes the public safety will be in danger if this applicant is licensed prior to the allegation being substantiated. Several regulatory boards have similar provisions in statute or regulation.

Thank you again for the opportunity to comment on your findings.

Sincerely,

  
J. Anthony Smith  
Commissioner

Mr. Gerald L. Wilkerson  
Legislative Auditor  
Legislative Audit Division  
P.O. Box W  
Juneau, AK 99811

Dear Mr. Wilkerson:

Re: Audit Control #08-1270-87R

We received the report of the Legislative Audit Division and, with the exception of corrections noted below, we will continue to work on areas set forth in the report. These areas are already priorities for us.

With reference to recommendation I, the board approved the application pending a response from the Attorney General. An opinion was received and the person in question did take the examination.

With reference to recommendation II(c) in the "Analysis of Public Need" regarding education requirements for psychological associates, the board decided on requiring 60 credit hours for program study because, as it now stands, the five-year period of experience can be for any number of hours, and supervision must only be one time per month by telephone and one face-to-face meeting quarterly. This is not adequate protection for the public. For example, there is no protection against a person who sees three clients per week for a year (three hours) and has three face-to-face supervision sessions each year. Under current regulations, the psychological associate is only required to have one year of graduate education before going into full-time supervised practice. We believe that the combination of education and experience is inadequate and should be increased.

Sincerely,

*Linda Olsen Webber*  
by *UET*

## THE LEGISLATURE

BUDGET AND AUDIT COMMITTEE

February 23, 1987

Members of the Legislative Budget  
and Audit Committee:

We have reviewed the Board's response to the preliminary audit report on the Performance Report on the Department of Commerce and Economic Development, Board of Psychologist and Psychological Associate Examiners. Our comments follow.

The Board has proposed regulations requiring a psychological associate (PA) to have 60 credit hours of program study after five years of supervised experience in order to practice unsupervised. In the Board's opinion, 60 credit hours of study is necessary to insure adequate public protection. The Board gave an example of a PA practicing but only seeing three clients per week for a year (three hours) and has three face-to-face supervision sessions each year. We believe the 60 credit hour educational requirement is excessive.

Currently, a PA is required to have a Master's degree (24 credit hours) and three years of weekly supervision and pass a national examination in order to be licensed as a PA. Legislation amending AS 08.86.164 recently passed that allows a PA who has completed at least five years of licensed practice to petition the Board for certification to practice without supervision (monthly contact and quarterly face-to-face meetings). The Board is required to grant the petition if the PA satisfies the criteria established by the Board by regulation. Proposed regulations include requiring the PA to have documented at least five years of supervised practice which included at least an average of 1,500 hours of supervised practice per year. This would prevent a non-experienced PA from being certified to practice unsupervised.

The new legislation also requires the Board to propose regulations defining the academic programs that are required to be included in obtaining the Master's degree. Testimony was given by the Division of Occupational Licensing during the legislative hearings. At the hearings it was stated that the main purpose of the bill was to define an acceptable masters program through regulation so that the Board could agree that a PA can practice psychology after a certain amount of time. Therefore, the Board's definition of programs to be included in a PA's Master's degree along with supervised experience should be adequate to protect the public.

In addition to supervised experience, the Board also requires 20 hours per year of continuing education in order for a PA to renew their license to practice. We question whether an additional 36 credit hours of education will better protect the public from a PA practicing unsupervised considering they have eight years of supervised experience and meet continuing education requirements.

Gerald L. Wilkerson, CPA  
Legislative Auditor  
Division of Legislative Audit
