

CONFIRMATION

HEARING -

4-22-87

Alaska State Legislature

HOUSE OF REPRESENTATIVES
COMMITTEE ON RESOURCES

POUCH V
JUNEAU, ALASKA 99811
(907) 465-3715

MEMORANDUM

FROM: Rep. Sam Cotten *SC*
TO: Resources Committee members
DATE: April 14, 1987
SUBJECT: Confirmations

Thank you for letting me know which Board appointees and commissioners you wish to have before the Committee.

We have scheduled a "confirmation day" for April 22. In the morning, from 8:30-10:00, the Committee will have Commissioner Kelso from the Department of Environmental Conservation and Commissioner Brady from the Department of Natural Resources. Mr. Kelso has to leave by 9:30 so we will start with him.

In the afternoon, from 1:00-4:00, we will have the Fish and Game Board appointees. This meeting will be teleconferenced. Please contact Ned Farquhar soon if there are teleconference sites that you wish to have on line.

I am attaching biographies for all the appointees, except for Commissioner Kelso, whose biography I will send along as soon as it is received.

So far there has been no interest in seeing Guide Board appointees before the Committee. We have four appointees (McNutt, Weir, Ballenger, Frost) before the Committee, not two as stated in my earlier memo. Their biographies are attached. Let me know if you wish to see them.

EMPLOYMENT HISTORY:

March 1962 to December 30, 1985 STATE OF ALASKA
ALASKA DEPARTMENT OF FISH & GAME
GAME DIVISION

At the beginning of employment with the State my position was that of Fish and Game Aide. This consisted of performing the following duties:

Under general direction, conduct ground and aerial game surveys of deer, elk, bear, goat, caribou and moose. Collect and preserve specimens used for reproduction and aging studies from elk, deer, bear and caribou. Conduct hunter surveys, analyze and compute harvest data including sex and age composition of deer and elk from analysis of the lower mandibles. Participate in the bear-cattle program, including predator control, determination of the extent of predation, public relations and capturing and tagging brown bears. Conduct range surveys to determine the trend and utilization of key plants used by elk. Conduct winter mortality surveys to determine its effect on elk and deer populations. Assist in transplant of elk and moose including capturing and caring for the young animals until their release. Recommend regulation changes pertaining to Unit 8 to my immediate supervisor.

As the Department grew in management techniques and responsibilities and the hunt pressure increased so did the responsibilities of my position resulting in a new job classification.

July 1970-December 30, 1985 FISH AND GAME TECHNICIAN V

The main purpose of this position was to assist the Area Game Biologist in all phases of game management duties in the Kodiak area. In his absence assume all the responsibilities of the Area Game Biologist.

Primarily, duties consisted of setting up and accomplishing the mammal inventories and aerial and ground surveys. Issue permits and harvest tickets for hunts in Alaska; inform hunters as to where, when and how to hunt on Kodiak. Continual elk and deer range evaluations to determine the condition of the winter food supply. Collecting data and specimens from various animals. Answer correspondence from the public on securing permits, licenses, and other information on hunting, viewing, photographing wildlife on Kodiak and adjacent islands in GMU 8. Also during the open hunt seasons went on enforcement patrols which required checking hunters for licenses and permits. Conducted winter mortality transects for deer and elk. This work consisted of in the field inspections of key winter areas; searching the area for deer/elk carcasses; determine sex and age, physical conditions and cause of death. When time permitted I also gave talks to civic groups, school classes, sportsmans groups on hunting and wildlife management programs. Attend all meetings held by the public and speak on game regulations and policies in an effort to secure public support for our programs; inform people on regulations and laws. There was also the need for capturing of live animals, use of drugs in the captures and utilizing other marking equipment.

Because of the close work with the public and the Kodiak/Aognak/Shuyak area guides it was extremely important to have a knowledge of the State and Federal laws and Alaska State Game Regulations. In this way it is easier to to make recommendations to the staff regarding changes in the hunting and trapping regulations that the public and guides were most concerned about. Then these regulation changes would be recommend to the Board of Game.

December 1941 - November 1961 Chief Boatswain's Mate

U.S. NAVY, deck supervisor, various responsibilities in connection with maintaining, seamanship, gunnery, navigation, boat handling, marlin spike seamanship and training junior officers of the deck-duties.

March 1956 - July 1958

U.S. Deputy Game Warden, Game and fish patrol on road system of Kodiak.

Resumé (Continued)

During my employment with the State of Alaska I also assisted in various wildlife projects throughout the State. These projects are listed below:

Southeastern Alaska - elk transplant in the summers of 1962 and 1963.

Alaska Peninsula - moose and bear hunt monitoring in winter 1967.

Kenai Peninsula - collect biological specimens from moose kills early 70's.

Point Hope/Kotzebue - monitoring polar bear hunts, data and specimen collection for polar bear research teams. Also collected wolf specimens for research teams in Fairbanks.
Winters of 1969 and 1970.

Anchitka - live capturing of sea otters for reintroduction into Washington Oregon and other parts of Alaska. late 60's.

Administered the Guide Test to individuals in Kodiak in 1962 and 1963 then mailed to Anchorage for correction and evaluation.

Kodiak shrimp trawl fishery, the food/bait Herring trawl fishery Kodiak.

Been involved in joint venture trawl operations around Kodiak Island and have been involved with the domestic shore-based bottom fisheries for the past three winters. I also have participated in the Halibut fishery for several years.

On the West coast, I fished for Albacore tuna for several years, spent a short time in the salmon troll fishery, fished for Dungeness crab, and gill-net salmon on the Columbia River.

I am currently employed in the Tanner crab pot fishery, Kodiak Island, will be changing over into domestic trawl bottom fish fishery soon, will participate in the Halibut longline openings, operate in Cook Inlet this summer as a salmon drift fisherman, and most likely fish the food/bait Herring season in Kodiak during 1987.

Concerning the meeting attendance percentage: I would like to say I could give 100% of my time and effort to the position. I have taken the steps to have an alternate skipper run the vessel I own and operate while I would be away. This then would be in theory, able to leave me free. Though the people I have employed are stable, responsible adults, I cannot say that a situation could not arise that I would be called upon to remedy for the short term. Specific example, something unexpectedly happening to my skipper, health, family, etc. The fall is no problem, the vessel is normally in maintenance. On the other hand, March is presently the peak month for trawling. April again is a slow month.

I don't want to make it sound like I expect something to happen because I don't. However, I can not say that there are no circumstances because in the fishing business, anything is possible.

BIOGRAPHICAL SKETCH

Judith M. Brady, Commissioner
Department of Natural Resources
State of Alaska
March, 1987

Judy Brady was appointed Commissioner of the Alaska Department of Natural Resources in January, 1987 by Governor Steve Cowper. As commissioner she is responsible for management of approximately 30 million acres of state land and water, and all the natural resources on that land, except fish and game. The Department has an annual budget of \$52,000,000 and employs nearly 870 employees. During the fire season, as many as 2,000 more temporary employees may be hired.

Brady, 45, graduated from Seattle University in 1963 with a B.A. in Journalism. She has worked as a journalist and editor; was Chief Administrative Judge for the Alaska Native Claims Appeal Board, U.S. Department of the Interior from 1974-1982; and served as Executive Director of Commonwealth North from 1982 -1986. Commonwealth North is a private, non-partisan organization of business and political leaders with an interest in public policy issues facing Alaska.

Brady was born and raised on a wheat farm in Idaho. She is actively involved with her family and in community service. She is the mother of three: Steve, 20, a student at Arizona State, and twin daughters, Meghan and Erin, age sixteen.

COMMONWEALTH NORTH is a private, non-partisan organization of business and political leaders that makes recommendations on public policy issues facing Alaska. Three of Alaska's five Governors are founding board members.

THE ALASKA NATIVE CLAIMS APPEAL BOARD was a quasi-judicial board whose members were appointed by the Secretary of the Interior to hear and decide appeals on land selection decisions under the Alaska Native Claims Settlement Act. The Board decided title to over 13 million acres of land; no decisions were overturned during court appeal. The Chief Judge served as

the representative of the Secretary of the Interior and advised the Secretary on matters requiring broad policy determination. The Board's function was transferred to Washington D.C. in 1982.

THE ALASKA NATIVE FOUNDATION was established as the non-political arm of the Alaska Federation of Natives. The Alaska Native Management Report was developed to provide an information link between regional and village corporations, the Department of the Interior, and the private business community.

COMMUNITY ENTERPRISE DEVELOPMENT CORPORATION is a non-profit, private corporation established to provide financing and business support to Native-owned cooperative businesses in rural Alaska.
