SUBJ: Willow Creek State Recreation Area

DATE: April 23, 1987

The intention of CSHB18 (Resources) is to create a state recreational area in a highly used area of the Matanuska-Susitna Borough. The mouth of Willow Creek is a prime destination for many southcentral residents, especially during the summer sportfishing season.

HB18 allows for development of a cooperative effort between the Mat-Su Borough and the state for the identified 3581 acres (2747-borough/834-state with no mental health land). This bill sets aside public land and offers directives for its future management.

The natural theme of the Matanuska-Susitna valley is tourism. We see this bill as a major step towards that destiny. This Willow Creek concept has been placed high on the local legislative priorities for years.

This bill has a history dating back several years. As of this date the Sportfishing Association, Alaska Miners' Association, Alaska Outdoor Council, and the Alaska Environmental lobby have all offered support for this bill. I am hopeful that this year Willow Creek State Recreational Area will receive your committee's unanimous support.

Governor Steve Cowper
Pouch A
Juneau, AK 99811

Dear Governor Cowper:

RE: LEGISLATIVE PRIORITIES

The Alaska Sportfishing Association is a statewide organization headquartered in Anchorage. We currently have approximately 2,000 individual members and 135 business members. This organization stands ready to work cooperatively with you for good resource legislation.

Since we publish a monthly newsletter, we regularly pass along information to our members about resource and sportfishing issues. We feel we can assist your administration in disseminating information to sportfishing interests. We have worked with ADF&G in the past to this end.

We appreciate your support for the sportfishing industry as evidenced by your answers to our questionnaire last July. We understand the difficult job that you and the legislature face this session determining the course this great state must take for continued progress under a greatly restricted budget. This restriction may have a major impact on our short and long-term future. Thus our legislative priorities for 1987 address legislation that is important to the economic future of this state, but legislation without cost to the General Fund of the state.

All three of the Alaska Sportfishing Associations' legislative priorities address an important step forward in the necessary expansion of recreational fishing for Alaskans, and of Alaska's fledgling tourism industry of which recreation fishing is the major drawing card. As you have identified, development and expansion of this one industry will lead to increased trade with Pacific Rim and other countries. There are many actions that need to be taken to improve our ability to attract and provide suitable facilities for Alaskans, as well as U.S. and foreign tourists. The following are important steps forward and are our top priorities:

1. *Letter of Support
(see 2nd page for Willow
Creek endorsement)*

Governor Steve Cowper
Page 2
February 9, 1987

1. Passage of HB 93 to create an effective Recreational Rivers system that will protect both the fishery and environmental resource of six rivers in the Susitna drainage. Members of our organization will be in contact with legislators to work out details and work for passage. This legislation is of top priority to just about every outdoor and environmental organization in the state.
2. Passage of legislation which creates an effective public access acquisition and/or development program. Passage of SB 62 (and SB 26) will go a long way toward making possible the acquisition of critically needed public access sites and/or development of those sites. This legislation will not result in any General Fund expenditures. These bills raise the percentage of Federal Aid Breaux-Wollop funds which must be committed to access from 10 percent to 20 percent. The Breaux-Wollop funds are generated at the federal level by a tax on certain fishing items, and the funds must be used for sport fish projects. Since those funds are generated by sportfishermen, the sport fishing community should have a strong hand in deciding how they should be spent. Sport fishermen strongly support SB 62 and SB 26.
3. Passage of legislation to establish the Willow Creek State Recreational Area. HB 18 is enabling legislation which jointly involves Mat-Su Borough and state lands. It is not a duplication of the Recreation Rivers Bill mentioned above and will go a long way toward long-term protection of the Willow Creek area and access to a series of Susitna Drainage salmon and trout fisheries. }

We wish you, your administration, and the 1987 legislature the best in your endeavors.

Sincerely,

MEMORANDUM

March 31, 1987

SUBJECT: CSHB 18 (Resources): Willow Creek State
Recreation Area A sectional analysis

TO: Representative Ron Larson

FROM: Richard A. Bradley
Legislative Counsel

You have requested a sectional analysis of the above described bill.

As a preliminary matter, note that a sectional analysis or summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents. If you would like an interpretation of the bill as it may apply to a particular set of circumstances, please advise.

Section 1 states the purpose of the bill. The provision of the CS vary "purpose (2)."

Section 2 adopts the substantive, permanent law provisions of the bill. The provisions are additions to AS 41.21, a chapter dealing with "parks and recreational facilities."

Sec. 41.21.491(a) establishes the Willow Creek State Recreation Area. It described the land and water that are to be included within the Area.

Sec. 41.21.491(b) permits the Mat-Su Borough to agree that the Department of Natural Resources will manage borough land described in Sec. 41.21.491(a) as a part of the Area.

Sec. 41.21.491(c) constitutes a declaration that the land described in Sec. 41.21.491(a) be dedicated to a less than multiple purpose use. Compare art. VIII, sec. 7, Alaska Constitution.

Representative Larson

March 31, 1987

Page 2

Sec. 41.21.491(d) permits oil and gas development within the area and otherwise closes the Area to mining development.

Sec. 41.21.492(a) assigns the land within the Area to the Department of Natural Resources for management. The CS makes stylistic changes to the subsection.

Sec. 41.21.492(b) constitutes reassurances to the Department of Fish and Game, the Board of Fisheries, the Board of Game, the Department of Environmental Conservation, and other state agencies and municipalities about the continued vitality of certain of their responsibilities.

Sec. 41.21.493 directs the commissioner of natural resources to prepare a comprehensive management plan with the concurrence of the Mat-Su Borough.

Sec. 41.21.494 directs the commissioner of natural resources to adopt regulations necessary to implement the Act and the management plan. The regulations are directed to address five stated concerns of the legislature.

Sec. 41.21.495 permits the commissioner of natural resources to acquire land or an interest in land that is within or adjacent to the boundaries of the Area to further the purposes of the Act. The acquisition must be voluntary.

Sec. 41.21.496 permits cooperative management agreements.

Sec. 41.21.497 permits the commissioner to request the attorney general to seek an injunction or damages for violation of a regulation either implementing the management plan or otherwise generally applicable to the Area.

Section 3 of the Act is uncodified temporary law directing the commissioner of natural resources to adopt the management plan for the Area within two years of the effective date of the Act. The CS provides that boating activities within the area may not be restricted until a boat launch is established.

Section 4 constitutes an immediate effective date.

If I may be of further assistance, please advise.

RE: CSHB 18 (Resources) - "An Act establishing the Willow Creek State Recreation Area; and providing for an effective date."

In this packet is a memo from Rep. Larson, maps of the willow creek area, the legislation, a zero fiscal note from DNR, a resolution of support from the Mat-Su Assembly, a letter of support from the Alaska Sportfishing Association and a sectional analysis of the bill by legal services.

This bill enjoys support from an unusually broad spectrum of groups ranging from the Alaska Miners' Association to the Alaska Environmental Lobby. It is hoped that it can be moved today.
