PROCEDURE FOR ALL APPOINTMENTS.
XT Appointments shall be made in the following manner:

(1) The appointing authority shall, within 30 days of the convening of the legislature in regular session, present to the legislature for confirmation the names of the following persons: (A) persons appointed to a position or membership who have not previously been confirmed by the legislature or either house of it; (B) persons appointed by him subject to confirmation to fill an existing position or membership vacancy; (C) persons to be appointed subject to confirmation to fill a position or membership the term of which shall expire before July 2, following the session of the legislature. If an appointment is made after the deadline but while the legislature is in session, the appointing authority shall, within five calendar days after the appointment is made, present to the legislature for confirmation the name of the person appointed. The deadline may be extended by the legislature by the approval of a concurrent resolution.

(2) When appointments are presented to the legislature for confirmation,

(A) the presiding officer of each house shall assign the name of each appointee to a standing committee of that house for a hearing, report and recommendation; standing committees of the two houses assigned the same person's name for consideration may meet jointly to consider the qualifications of the person appointed and may issue either a separate or a joint report and recommendation concerning that person;

(B) the legislature shall, before the end of the session in which the appointments are presented, in joint session assembled, act on the appointments by confirming or declining to confirm by a majority vote of all of the members the appointments presented.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the appointing authority of its action and a vacancy in the position or membership exists which the appointing authority shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the appointing authority of the legislature's notification of its refusal to confirm the prior appointment. If the name of a person is submitted and is not confirmed, the appointing authority may not, upon resubmission of appointments, submit again the name of the person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, and have the powers and be charged with the duties prescribed by law for the appointive positions or membership.
