BY THE HEALTH, EDUCATION AND
SOCIAL SERVICES COMMITTEE

2 CS FOR SENATE BILL NO. 96 (HESS)

3 IN THE LEGISLATURE OF THE STATE OF ALASKA

4 FIFTEENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act relating to the Alaska Mental Health Trust;
7 and providing for an effective date."

8 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

9 * Section 1. FINDINGS AND PURPOSE. (a) The legislature finds

10 (1) the United States Congress passed the Alaska Mental Health
11 Enabling Act of 1956, P.L. No. 84-830, 70 Stat. 709, "To confer upon Alaska
12 autonomy in the field of mental health, transfer from the Federal Govern-
13 ment to the Territory the fiscal and functional responsibility for the
14 hospitalization of committed mental patients, and for other purposes;"

15 (2) in sec. 202 of the Alaska Mental Health Enabling Act, the
16 Congress granted the territory the right to select up to one million acres
17 of federal land to serve as a source of funds to support the territory's
18 mental health program;

19 (3) in subsection 202(e), the Congress specifically provided
20 that the land so granted, as well as any income from the land and proceeds
21 from dispositions of the land, were to be administered as "a public trust
22 and such proceeds and income shall first be applied to meet the necessary
23 expenses of the mental health program of Alaska," that "Such lands, income,
24 and proceeds shall be managed and utilized in such manner as the Legisla-
25 ture of Alaska may provide," that the land may be "sold, leased, mortgaged,
26 exchanged or otherwise disposed of in such manner as the Legislature of
27 Alaska may provide, in order to obtain funds or other property to be in-
28 vested, expended or used by the Territory of Alaska," and that the Alaska
29 legislature must exercise this broad authority "in a manner compatible with

1 the conditions and requirements imposed by this Act;"

2 (4) in requiring that the proceeds and income of the 1,000,000-
3 acre land grant "first be applied to meet the necessary expenses of the
4 mental health program of Alaska," it was the intent of the Congress that
5 additional public funds be appropriated by the legislature to supplement
6 the proceeds and income from the land grant if those proceeds and income
7 are insufficient to meet the necessary expenses of the mental health pro-
8 gram of Alaska;

9 (5) if the proceeds and income from the 1,000,000-acre land
10 grant exceed the necessary expenses of the mental health program of Alaska,
11 the Congress authorized the legislature to appropriate the excess proceeds
12 and income for other public purposes;

13 (6) because of the highly desirable location and character of
14 much of the land selected by the state under the Act, for example, in and
15 around major population centers, suitable for parks and game refuges, and
16 other uses, and the difficulties associated with disposing of or dedicating
17 the land for purposes that would not result in the receipt of funds that
18 could be used for mental health purposes, for example, satisfaction of
19 municipal entitlements, placement in parks and game refuges, and other
20 uses, without compensation to the trust, the Tenth Alaska State Legislature
21 enacted ch. 181 and 182, SLA 1978, which, among other things, redesignated
22 all mental health lands as general grant lands;

23 (7) both ch. 181 and 182, SLA 1978, also created the mental
24 health fund into which, as compensation to the trust, a sum equal to one
25 and one-half percent of all revenue received from the management of state
26 land was to be deposited and from which only the income could be appro-
27 priated exclusively for mental health purposes;

28 (8) a significant difference between ch. 181 and 182, SLA 1978,
29 was that ch. 182 made the deposit of one and one-half percent of all public

1 land revenue into the mental health fund "subject to legislative appropri-
2 ation of sufficient funds";

3 (9) because ch. 182, SLA 1978 became law after ch. 181, SLA 1978
4 became law, the provisions of ch. 182, SLA 1978 have been considered con-
5 trolling, including specifically the provision that deposits to the mental
6 health fund would be "subject to legislative appropriation of sufficient
7 funds";

8 (10) the legislature has never appropriated funds to the mental
9 health fund;

10 (11) a class-action lawsuit, Weiss v. State, 4FA-82-2208, was
11 filed on November 26, 1982, seeking a judicial determination that the
12 Alaska Mental Health Enabling Act had established a "public trust" under
13 which the state had received the 1,000,000-acre land grant, that the 1978
14 legislation redesignating mental health land as general grant land was a
15 breach of that trust, and that the appropriate remedy was to invalidate the
16 1978 legislation and return mental health land to trust status;

17 (12) in State v. Weiss, 706 P.2d 681 (Alaska 1985), the Alaska
18 Supreme Court held that the Alaska Mental Health Enabling Act established a
19 public trust, that the 1978 legislation redesignating mental health land as
20 general grant land was a breach of the trust, and that the appropriate
21 remedy was to return mental health land still in state ownership to trust
22 status and, for mental health land that the state had "sold" between 1978
23 and the date of the court's decision, to compensate the trust for the fair
24 market value of mental health land so "sold" as of the date of their
25 "sale," subject to a set-off for state mental health expenditures during
26 the same period;

27 (13) while the court returned mental health land to trust status,
28 it did not specify the nature of the state's obligations with respect to
29 managing the trust land, leaving significant questions unanswered that may

1 require additional costly and time-consuming litigation;

2 (14) continued costly and time-consuming litigation over mental
3 health trust land management is not in the public interest because it
4 diverts attention from the goal the Congress sought to achieve through the
5 Act's land grant, the funding of a mental health program;

6 (15) continued costly and time-consuming litigation over mental
7 health trust land management is not in the public interest because it has
8 the potential to be extremely divisive, pitting the advocates of stringent
9 mental health trust land management against those who envision state-owned
10 mental health land managed for its highest and best use, including convey-
11 ance to municipalities in satisfaction of municipal entitlements, placement
12 in parks and game refuges, and other uses, without a major expenditure to
13 compensate the mental health trust for the fair market value of the land;

14 (16) continued costly and time-consuming litigation over mental
15 health trust land management is not in the public interest because advo-
16 cates of stringent mental health trust land management may seek the in-
17 validation of state conveyances of mental health land to third parties,
18 particularly municipalities and Native corporations organized under the
19 Alaska Native Claims Settlement Act, a course of action that at best will
20 place a cloud on the third parties' title to those lands and at worst will
21 result in those third parties losing title to their lands, causing economic
22 and other harm and further dividing those who advocate stringent mental
23 health trust land management from those who believe all state-owned land,
24 including mental health land, should be managed for its highest and best

25 use;

26 (17) continued costly and time-consuming litigation over mental
27 health trust land management is not in the public interest because advo-
28 cates of stringent mental health trust land management may seek the in-
29 validation of legislative designations of mental health land as state

1 parks, state game refuges, state forests, etc., placing the future use of
2 the land for the designated purposes in doubt and further dividing those
3 who advocate stringent mental health trust land management from those who
4 believe all state-owned land, including mental health land, should be
5 managed for its highest and best use;

6 (18) the failure of the Alaska Legislature to deal with the
7 current situation by properly reconstituting the mental health trust at
8 this time will lead to continued costly, time-consuming, and divisive liti-
9 gation, which is not in the public interest;

10 (19) the same problems that led to the 1978 redesignation of
11 mental health land as general grant land, for example, the desirability of
12 managing mental health land for its highest and best use, including the
13 satisfaction of municipal entitlements, inclusion in parks and game ref-
14 uges, will continue to pose difficulties in the state's efforts to accom-
15 modate the public's needs generally with the obligation to administer
16 mental health land as a trust;

17 (20) under art. VIII, sec. 2, Constitution of the State of
18 Alaska, as construed by the Alaska Supreme Court in State v. University of
19 Alaska, 624 P.2d 807 (1981), the legislature has the authority to remove
20 land from trust status if the trust is compensated for the fair market
21 value of the land;

22 (21) the state is not now, and in the foreseeable future will not
23 be, in a position to compensate the mental health trust in money for the
24 fair market value of mental health land;

25 (22) even if the state were able to compensate the mental health
26 trust in money for the fair market value of mental health land, there is a
27 substantial legal question whether that compensation, as the corpus of the
28 trust, could be preserved in perpetuity or whether the prohibition on
29 dedicated funds in art. IX, sec. 7, Constitution of the State of Alaska,

1 would require that those funds be made available for appropriation by the
2 legislature under the terms of the Alaska Mental Health Enabling Act;

3 (23) under art. VIII, sec. 2, Constitution of the State of
4 Alaska, and subsection 202(e) of the Alaska Mental Health Enabling Act, the
5 legislature has broad authority over all state land, including mental
6 health land, and can permissibly remove mental health land from trust
7 status if, consistent with its trust responsibilities, it simultaneously
8 designates other state land of equivalent value as mental health land;

9 (24) the Congress' goal of funding a mental health program, and
10 the public interest in having attention focused on the problems of the
11 mentally ill and not questions regarding mental health trust land manage-
12 ment, will be best served by establishing a mechanism for generating reve-
13 nue from mental health land that minimizes the number and complexity of
14 related land management decisions;

15 (25) reconstituting the mental health trust with state land that
16 has a substantial likelihood of remaining in state ownership in perpetuity,
17 and compensating the mental health trust for state use of that land through
18 annual identification of an amount of state general fund revenue equal to
19 the fair market rental value of the land as a separate account in the
20 general fund, would minimize the number and complexity of land management
21 decisions and would result in the following benefits to the mental health
22 trust:

23 (A) it would ensure that the mental health trust corpus
24 will be preserved in perpetuity; *- Is this required*

25 (B) it would reconstitute a mental health trust corpus
26 equal in value to the original 1,000,000-acre mental health trust
27 corpus, with no reduction (in the nature of a set-off) for state
28 mental health expenditures;

29 (C) it would make the entire mental health trust corpus

1 productive in that each acre of mental health trust land would produce
2 its fair market rental value annually;

3 (D) the mental health trust would not incur administrative
4 expenses;

5 (E) it would focus attention on questions related to the
6 state's mental health programs and the levels of appropriations for
7 those programs;

8 (26) reconstituting the mental health trust with state land that
9 has a substantial probability of remaining in state ownership in perpetuity
10 would result in the following benefits to the state generally:

11 (A) it would free all mental health land not in legisla-
12 tively designated areas for nontrust uses;

13 (B) the only significant expenditure of public funds that
14 would be required would be appropriations for appraisal of the land to
15 ensure equal value, an expenditure that would be required no matter
16 what form of trust reconstitution is selected; and

17 (C) it would establish an additional safeguard against
18 disposal of the newly designated mental health trust land, that is,
19 those in legislatively designated areas, in that, prior to such dis-
20 posal, equal value replacement land would have to be identified and
21 redesignated as trust land;

22 (27) the legislature will best serve the public interest by
23 reconstituting the mental health trust with land in legislatively des-
24 ignated areas, continuing to use that land for the legislatively designated
25 purposes, compensating the trust for the use of the land through annual
26 identification of an amount of general fund revenue equal to the fair
27 market rental value of the land and designation in the general fund of that
28 amount of funds as the special mental health trust income account, and
29 creating a board to assist and advise the legislative and executive

1 branches of government on matters relating to the mental health program of
2 Alaska.

3 (b) The purposes of this Act are

4 (1) to implement the intent of the Congress underlying sec. 202
5 of the Alaska Mental Health Enabling Act that mental health land be admin-
6 istered in a way that makes funds available for the support of Alaska's
7 mental health program;

8 (2) to the extent practicable, to eliminate the need for costly,
9 time-consuming and divisive litigation over the state's management of
10 mental health land;

11 (3) to ensure that the attention of the public and the govern-
12 ment is focused on mental health programs, as contemplated by the Congress,
13 and not on issues relating to the management of mental health land;

14 (4) to reconstitute a mental health land trust through identi-
15 fication of land in legislatively designated areas that is equal in value
16 to the land selected by and patented to the state under sec. 202 of the
17 Alaska Mental Health Enabling Act;

18 (5) to remove from trust status the land selected by and pat-
19 ented to the state under sec. 202 of the Alaska Mental Health Enabling Act
20 that is not in legislative designated areas, thereby freeing them for other
21 uses;

22 (6) to validate each deed, contract for sale, lease, easement,
23 right-of-way, permit, mineral lease disposal, reservation of land for
24 public use by statute, or land management actions, including use classi-
25 fications under AS 38.05.300 and interagency land management assignments by
26 the Department of Natural Resources, that may have been called into ques-
27 tion by the Supreme Court's decision in State v. Weiss, 706 P.2d 681
28 (Alaska 1985), returning mental health land to trust status;

29 (7) to identify a portion of annual state general fund revenue,

1 equal in amount to the fair market rental value of mental health land, as
2 compensation to the trust for the continued use of the land in legisla-
3 tively designated areas for the legislatively designated purposes; and

4 (8) to create a board to assist and advise the legislative and
5 executive branches of government on matters relating to the mental health
6 program of Alaska.

7 * Sec. 2. AS 37.14 is amended by adding a new section to read:

8 Sec. 37.14.011. MENTAL HEALTH TRUST INCOME ACCOUNT. (a) There
9 is established, as a separate account in the general fund, the mental
10 health trust income account.

11 (b) The amount determined under (c) of this section as the fair
12 market rental of the land constituting the mental health trust corpus
13 is the earnings of the trust and the commissioner of revenue annually
14 shall allocate that amount to the mental health trust income account.

15 (c) The fair market rental value of the land constituting the
16 mental health trust corpus is equal to eight percent of the fair
17 market value of the land. Following the initial determination of the
18 fair market value of the land selected by and patented to the state
19 under sec. 202 of the Alaska Mental Health Enabling Act, the com-
20 missioner of natural resources shall redetermine the fair market value
21 of the land constituting the mental health trust corpus at least every
22 five years, and provide the redetermined value to the commissioner of
23 revenue and the board established under AS 47.30.661.

24 * Sec. 3. AS 37.14 is amended by adding a new section to read:

25 Sec. 37.14.021. UTILIZATION OF THE MENTAL HEALTH TRUST INCOME
26 ACCOUNT. Money in the mental health trust income account established
27 in AS 37.14.011(a) shall first be appropriated by the legislature to
28 meet the necessary expenses of the mental health program of the state.
29 In making annual appropriations from the mental health trust income

1 account, the legislature shall consider the recommendations of the
2 Alaska Mental Health Board established under AS 47.30.661, including
3 recommendations regarding capital improvements. After the necessary
4 expenses of the state's mental health program have been funded, the
5 legislature may make appropriations from the mental health trust
6 income account for other public purposes.

7 * Sec. 4. AS 38.05 is amended by adding a new section to article 11 to
8 read:

9 Sec. 38.05.800. RECONSTITUTION AND ADMINISTRATION OF MENTAL
10 HEALTH LAND TRUST. (a) The commissioner of natural resources, under
11 procedures approved by the interim mental health trust commission,
12 shall determine the fair market value, as of the effective date of
13 this Act, of all land selected by and patented to the state under the
14 Alaska Mental Health Enabling Act. The commissioner shall report the
15 determination of that value to the board established under AS 47.30.-
16 661.

17 (b) The commissioner of natural resources, with the approval of
18 the interim mental health trust commission, shall identify land within
19 legislative designations that is equal in value to all land selected
20 by and patented to the state under sec. 202 of the Alaska Mental
21 Health Enabling Act that is not in legislative designations.

22 (c) All land selected by and patented to the state under the
23 Alaska Mental Health Enabling Act that is within legislative desig-
24 nations, together with all land identified by the commissioner under
25 (b) of this section, constitutes the corpus of the mental health lands
26 trust.

27 (d) Upon reconstitution of the trust under this subsection, land
28 selected by and patented to the state under sec. 202 of the Alaska
29 Mental Health Enabling Act that is not within legislative designations

1 is removed from trust status.

2 (e) The land within legislative designations that constitutes
3 the mental health land trust shall continue to be administered for the
4 legislatively designated purposes. The trust shall be compensated for
5 the continued use of the mental health trust land for the legisla-
6 tively designated purposes as provided in AS 37.14.011.

7 (f) Before the state may remove land that is part of the mental
8 health trust corpus from trust status, and in addition to any other
9 requirements of law, the commissioner of natural resources, consistent
10 with the state's trust responsibilities, shall identify replacement
11 land, equal in value at the time of replacement, within legislative
12 designations and incorporate them into the mental health trust corpus.
13 The commissioner of natural resources annually shall report any
14 actions under this subsection to the board established under AS 47.-
15 30.661.

16 * Sec. 5. AS 39.25.120(c)(9) is amended by adding a new subparagraph to
17 read:

18 (L) Alaska Mental Health Board;

19 * Sec. 6. AS 47.30 is amended by adding new sections to read:

20 Sec. 47.30.661. ALASKA MENTAL HEALTH BOARD. The Alaska Mental
21 Health Board is established. For budgetary purposes, the board is
22 located within the Department of Health and Social Services. The
23 board is the state planning and coordinating agency for the purposes
24 of federal and state laws relating to the mental health program of the
25 state. The purpose of the board is to assist the state in ensuring an
26 integrated comprehensive mental health program.

27 Sec. 47.30.662. COMPOSITION. (a) The board consists of the
28 commissioner of health and social services, or the commissioner's
29 designee, and not fewer than nine nor more than 12 other members,

1 appointed by the governor, with due regard for balanced geographic
2 representation of the state.

3 (b) At least one-third of the members shall be consumers of
4 mental health services, or parents or guardians of consumers.

5 (c) At least one-third of the members shall be either public or
6 private providers of mental health services.

7 (d) The remaining members shall be representatives of the public
8 at large.

9 Sec. 47.30.663. TERM OF OFFICE. (a) Board members serve
10 staggered terms of three years.

11 (b) A vacancy occurring in the membership of the board shall be
12 filled by appointment of the governor for the unexpired portion of the
13 vacated term.

14 (c) Members may be removed only for cause, including, but not
15 limited to, poor attendance or lack of contribution to the board's
16 work.

17 Sec. 47.30.664. OFFICERS AND STAFF. (a) The board, by a major-
18 ity of its membership, shall annually elect a chair and other officers
19 it considers necessary from among its membership.

20 (b) The board will have a paid staff provided by the Department
21 of Health and Social Services, including, but not limited to, an
22 executive director who shall be selected by the board from candidates
23 provided by the department. The executive director is in the partial-
24 ly exempt service and may hire additional employees in the classified
25 service of the state. The executive director and the staff of the
26 board shall be directly responsible to the board in the performance of
27 their duties.

28 Sec. 47.30.665. BYLAWS. The board, on approval of a majority of
29 its membership and consistent with state law, shall adopt and amend

1 bylaws governing its composition, proceedings, and other activities
2 consistent with state law and including, but not limited to, pro-
3 visions concerning a quorum to transact board business and other
4 aspects of procedure, frequency and location of meetings, and estab-
5 lishment, functions, and membership of committees.

6 Sec. 47.30.666. POWERS, DUTIES, AND RESPONSIBILITIES OF THE
7 BOARD. The board shall

8 (1) measure the extent of the mental health need and, as
9 necessary, conduct independent studies, evaluate the statewide mental
10 health information system, and review the current mental health pro-
11 gram of the state;

12 (2) provide a public forum for discussion of issues regard-
13 ing current and potential services to persons served by the mental
14 health program of the state;

15 (3) determine the needs, including those currently unmet,
16 of the persons to be served by the mental health program of the state;

17 (4) review reports from the Department of Natural Resources
18 regarding the valuation of the mental health land trust and the status
19 of mental health trust land, from the Department of Revenue regarding
20 allocations to the mental health income account, and from other de-
21 partments regarding the current and projected revenue for the support
22 of the mental health program of the state;

23 (5) subject to disclosure restrictions imposed by state or
24 federal confidentiality or privacy laws, have access to information in
25 the possession of state agencies;

26 (6) in conjunction with the Department of Health and Social
27 Services, prepare and annually update a long-term comprehensive state
28 mental health plan, to include the projected need and the services,
29 facilities, and resources for the mental health program of the state

1 to meet that need;

2 (7) in conjunction with the Department of Health and Social
3 Services, develop, prepare, adopt, and periodically review and revise
4 as necessary an annual state implementation plan to meet the needs of
5 persons served by the mental health program of the state;

6 (8) in conjunction with the Department of Health and Social
7 Services, and before developing the annual state implementation plan,
8 evaluate the effectiveness of the prior year's implementation plan and
9 evaluate program performance and recommend improvements, set priori-
10 ties, and establish criteria to utilize in funding allocations;

11 (9) report at least annually to the legislature, governor,
12 and commissioner of health and social services, and meet with appro-
13 priate legislative committees, concerning the board's activities,
14 including its evaluation of the effectiveness of the prior year's
15 implementation plan, and its recommendations to meet the necessary
16 operating and capital expenses of the mental health program of the
17 state;

18 (10) serve as an advocate before the executive and legisla-
19 tive branches of government and the public on behalf of those served
20 by the mental health program of the state;

21 (11) discourage duplication of services and promote effi-
22 cient and coordinated use of federal, state, and private resources in
23 the provision of mental health services; and

24 (12) review applicable statutes, regulations, and policies
25 and recommend appropriate changes.

26 Sec. 47.30.669. DEFINITION. In AS 47.30.661 - 47.30.669,
27 "board" means the Alaska Mental Health Board established in AS 47.30.-
28 661.

29 * Sec. 7. Section 1(b), ch. 132, SLA 1986, is amended to read:

1 (b) The commission established under (a) of this section con-
2 sists of three [FIVE] members, including the commissioner of natural
3 resources, or the commissioner's designee [AND THE COMMISSIONER OF
4 HEALTH AND SOCIAL SERVICES, OR THEIR DESIGNEES], and two [THREE]
5 members and two [THREE] alternates [APPOINTED BY THE GOVERNOR] as
6 follows:

7 (1) a member and an alternate representing the plaintiffs
8 who were [,] appointed by the governor from a list of three names
9 submitted to the governor by the plaintiffs in Weiss v. State, 4 FA
10 82-2208 Civil;

11 (2) a member and an alternate representing the intervenors
12 who were [,] appointed by the governor from a list of three names
13 submitted to the governor by the intervenors in Weiss v. State, 4 FA
14 82-2208 Civil [; AND

15 (3) A MEMBER AND AN ALTERNATE REPRESENTING THE GOVERNOR'S
16 MENTAL HEALTH ADVISORY COUNCIL, APPOINTED BY THE GOVERNOR FROM A LIST
17 OF THREE NAMES SUBMITTED TO THE GOVERNOR BY THE GOVERNOR'S MENTAL
18 HEALTH ADVISORY COUNCIL].

19 * Sec. 8. Section 1(c), ch. 132, SLA 1986, is amended to read:

20 (c) The members of the commission shall elect a presiding offi-
21 cer. A majority of the commission constitutes a quorum. The affirma-
22 tive vote of two [THREE] members is required to take official action.
23 A vacancy does not impair the power of the remaining members to exer-
24 cise the powers of the commission.

25 * Sec. 9. Section 2, ch. 132, SLA 1986, is repealed and reenacted to
26 read:

27 Sec. 2. RESPONSIBILITIES OF THE COMMISSION. (a) The commission
28 shall review procedures proposed by the commissioner of natural re-
29 sources to determine the fair market value, as of the effective date

1 of this Act, of all land selected by and patented to the state under
2 sec. 202 of the Alaska Mental Health Enabling Act, and review the
3 final determination of the fair market value determined under those
4 procedures.

5 (b) The commission shall review the identification by the com-
6 missioner of natural resources under AS 38.05.800 of land within
7 legislative designations that is equal in value to all land selected
8 by and patented to the state under sec. 202 of the Alaska Mental
9 Health Enabling Act that is not in legislative designations.

10 (c) In the exercise of the commission's responsibilities under
11 this section, the commission and its staff may review the records of
12 the Department of Natural Resources that are made confidential by law
13 or regulation. An individual who acquires information made confiden-
14 tial by law or regulation in the performance of functions authorized
15 by this Act and discloses it without proper authority violates AS 11.-
16 56.860.

17 * Sec. 10. Section 6, ch. 132, SLA 1986, is repealed and reenacted to
18 read:

19 Sec. 6. This Act is repealed on the certification of the commis-
20 sioner of natural resources that the mental health land trust has been
21 reconstituted under AS 38.05.800 to

22 (1) the Alaska Mental Health Board established under
23 AS 47.30.661;

24 (2) the lieutenant governor; and

25 (3) the revisor of statutes.

26 * Sec. 11. TRANSITIONAL PROVISIONS. Beginning in fiscal year 1989, and
27 continuing until the commissioner of natural resources certifies to the
28 commissioner of revenue that the mental health land trust has been recon-
29 stituted under AS 38.05.800, as enacted in sec. 4 of this Act, the

1 commissioner of revenue shall make allocations to the mental health trust
2 income account so that the total of allocations during the year equals five
3 percent of all revenue received by the state's general fund during that
4 fiscal year.

5 * Sec. 12. Notwithstanding AS 47.30.663(a), as added by sec. 6 of this
6 Act, of the initial appointees to the Alaska Mental Health Board appointed
7 under AS 47.30.662, as added by sec. 6 of this Act, one-third shall serve
8 for one year terms, one-third shall serve for two year terms, and one-third
9 for three year terms.

10 * Sec. 13. AS 37.14.010, 37.14.020, 37.14.030, 37.14.040, 37.14.050;
11 AS 47.30.605; and sec. 3, ch. 132, SLA 1986, are repealed.

12 * Sec. 14. This Act takes effect July 1, 1987.

IN THE HOUSE

CS FOR HOUSE BILL NO. 92

IN THE LEGISLATURE OF THE STATE OF ALASKA

FIFTEENTH LEGISLATURE - FIRST SESSION

A BILL

For an Act entitled: "An Act relating to the Alaska Mental Health Trust;
and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

* Section 1. FINDING AND PURPOSE. (a) The legislature finds:

(1) the United States Congress passed the Alaska Mental Health Enabling Act of 1956, Pub. L. No. 84-830, 70 Stat. 709, "[t]o confer upon Alaska autonomy in the field of mental health, transfer from the Federal Government to the Territory the fiscal and functional responsibility for the hospitalization of committed mental patients, and for other purposes;"

(2) in section 202 of the Alaska Mental Health Enabling Act, Congress granted the territory the right to select up to one million acres of federal land to serve as a source of funds to support the territory's mental health program;

(3) in subsection 202(e), Congress specifically provided that the lands so granted, as well as any income therefrom and proceeds from dispositions thereof, were to be administered as "a public trust and such proceeds and income shall first be applied to meet the necessary expenses of the mental health program of Alaska," that "[s]uch lands, income, and proceeds shall be managed and utilized in such manner as the Legislature of Alaska may provide," that the lands may be "sold, leased, mortgaged, exchanged or otherwise disposed of in such manner as the Legislature of Alaska may provide, in order to obtain funds or other property to be invested, expended or used by the Territory of Alaska," and that the Alaska legislature must exercise this broad authority "in a manner compatible with

1 the conditions and requirements imposed by this Act;"

2 (.) in requiring that the proceeds and income of the one million
3 acre land grant "first be applied to meet the necessary expenses of the
4 mental health program of Alaska," it was the intent of Congress that addi-
5 tional public funds be appropriated by the legislature to supplement the
6 proceeds and income from the land grant if those proceeds and income are
7 insufficient to meet the necessary expenses of the mental health program of
8 Alaska;

9 (5) if the proceeds and income from the one million acre land
10 grant exceed the necessary expenses of the mental health program of Alaska,
11 the Congress authorized the legislature to appropriate the excess proceeds
12 and income for other public purposes;

13 (6) because of the highly desirable location and character of
14 many of the lands selected by the state under the Act (e.g., in and around
15 major population centers, suitable for parks and game refuges, etc.) and
16 the difficulties associated with disposing of or dedicating these lands for
17 purposes which would not result in the receipt of funds which could be used
18 for mental health purposes (e.g., satisfaction of municipal entitlements,
19 placement in parks and game refuges, etc.) without compensation to the
20 trust, the Tenth Alaska Legislature enacted ch. 181 and 182, SLA 1978 which
21 (among other things) redesignated all mental health lands as general grant
22 lands;

23 (7) both ch. 181 and 182, SLA 1978 also created the Mental
24 Health Fund into which, as compensation to the trust, a sum equal to one
25 and one-half percent of all revenues received from the management of state
26 lands was to be deposited and from which only the income could be appro-
27 priated exclusively for mental health purposes;

28 (8) a significant difference between ch. 181 and 182, SLA 1978
29 was that ch. 182 made the deposit of one and one-half percent of all public

1 land revenues into the Mental Health Fund "subject to legislative appropri-
2 ation of sufficient funds;"

3 (9) since ch. 182, SLA 1978 became law after ch. 181, SLA 1978
4 became law, the provisions of ch. 182, SLA 1978 -- and specifically the
5 provision that deposits to the Mental Health Fund would be "subject to
6 legislative appropriation of sufficient funds" -- have been considered
7 controlling;

8 (10) the legislature has never appropriated any funds to the
9 Mental Health Fund;

10 (11) a class-action lawsuit, Weiss v. State, 4FA-82-2208, was
11 filed on November 26, 1982, seeking a judicial determination that the
12 Alaska Mental Health Enabling Act had established a "public trust" under
13 which the state had received the one-million acre land grant, that the 1978
14 legislation redesignating mental health lands as general grant lands was a
15 breach of that trust, and that the appropriate remedy was to invalidate the
16 1978 legislation and return mental health lands to trust status;

17 (12) in State v. Weiss, 706 P.2d 681 (Alaska 1985), the Alaska
18 Supreme Court held that the Alaska Mental Health Enabling Act established a
19 public trust, that the 1978 legislation redesignating mental health lands
20 as general grant lands was a breach of that trust, and that the appropriate
21 remedy was to return mental health lands still in state ownership to trust
22 status and, for mental health lands which the state had "sold" between 1978
23 and the date of the court's decision, to compensate the trust for the fair
24 market value of mental health lands so "sold" as of the date of their
25 "sale," subject to a set-off for state mental health expenditures during
26 the same period;

27 (13) while the Court returned mental health lands to trust sta-
28 tus, it did not specify the nature of the state's obligations with respect
29 to managing those trust lands, leaving significant questions unanswered

1 which may require additional costly and time-consuming litigation;

2 (14) continued costly and time-consuming litigation over mental
3 health trust land management is not in the public interest because it
4 diverts attention from the goal Congress sought to achieve through the
5 Act's land grant, the funding of a mental health program;

6 (15) continued costly and time-consuming litigation over mental
7 health trust land management is not in the public interest because it has
8 the potential to be extremely divisive, pitting the advocates of stringent
9 mental health trust land management against those who envision state-owned
10 mental health lands managed for their highest and best use (including
11 conveyance to municipalities in satisfaction of municipal entitlements,
12 placement in parks and game refuges, etc.) without a major expenditure to
13 compensate the mental health trust for the fair market value of the lands;

14 (16) continued costly and time-consuming litigation over mental
15 health trust land management is not in the public interest because advo-
16 cates of stringent mental health trust land management may seek the in-
17 validation of state conveyances of mental health lands to third parties,
18 particularly municipalities and Native corporations organized pursuant to
19 the Alaska Native Claims Settlement Act, a course of action which at best
20 will place a cloud on the third parties' title to those lands and at worst
21 will result in those third parties losing title to their lands, causing
22 economic and other harm and further dividing those who advocate stringent
23 mental health trust land management from those who believe all state-owned
24 lands, including mental health lands, should be managed for their highest
25 and best use;

26 (17) continued costly and time-consuming litigation over mental
27 health trust land management is not in the public interest because advo-
28 cates of stringent mental health trust land management may seek the in-
29 validation of legislative designations of mental health lands as state

1 parks, state game refuges, state forests, etc., placing the future use of
2 those lands for the designated purposes in doubt and further dividing those
3 who advocate stringent mental health trust land management from those who
4 believe all state-owned lands, including mental health lands, should be
5 managed for their highest and best use;

6 (18) the failure of the Alaska Legislature to deal with the
7 current situation by properly reconstituting the mental health trust at
8 this time will lead to continued costly, time-consuming and divisive liti-
9 gation, which is not in the public interest;

10 (19) the same problems which led to the 1978 redesignation of
11 mental health lands as general grant lands -- e.g., the desirability of
12 managing mental health lands for their highest and best use, including the
13 satisfaction of municipal entitlements, inclusion in parks and game ref-
14 uges, etc. -- will continue to pose difficulties in the state's efforts to
15 accommodate the public's needs generally with the obligation to administer
16 mental health lands as a trust;

17 (20) under article VIII, section 2 of the Alaska Constitution, as
18 construed by the Alaska Supreme Court in State v. University of Alaska, 624
19 P.2d 807 (1981), the legislature has the authority to remove lands from
20 trust status if the trust is compensated for the fair market value of the
21 lands;

22 (21) the state is not now, and in the foreseeable future will not
23 be, in a position to compensate the mental health trust in money for the
24 fair market value of mental health lands;

25 (22) even if the state were able to compensate the mental health
26 trust in money for the fair market value of mental health lands, there is a
27 substantial legal question whether that compensation, as the corpus of the
28 trust, could be preserved in perpetuity or whether the prohibition on
29 dedicated funds in article IX, section 7 of the Alaska Constitution would

1 require that those funds be made available for appropriation by the legis-
2 lature under the terms of the Alaska Mental Health Enabling Act;

3 (23) under article VIII, section 2 of the Alaska Constitution and
4 section 202(e) of the Alaska Mental Health Enabling Act, the legislature
5 has broad authority over all state lands, including mental health lands,
6 and can permissibly remove mental health lands from trust status if, con-
7 sistent with its trust responsibilities, it simultaneously designates other
8 state lands of equivalent value as mental health lands;

9 (24) Congress' goal of funding a mental health program, and the
10 public interest in having attention focused on the problems of the mentally
11 ill and not questions regarding mental health trust land management, will
12 be best served by establishing a mechanism for generating revenues from
13 mental health lands which minimizes the number and complexity of related
14 land management decisions;

15 (25) reconstituting the mental health trust with state lands
16 which have a substantial likelihood of remaining in state ownership in
17 perpetuity, and compensating the mental health trust for state use of those
18 lands through annual identification of an amount of state general fund
19 revenues equal to the fair market rental value of those lands as a separate
20 account in the general fund, would minimize the number and complexity of
21 land management decisions and would result in the following benefits to the
22 mental health trust:

23 (i) it would ensure that the mental health trust corpus
24 will be preserved in perpetuity;

25 (ii) it would reconstitute a mental health trust corpus
26 equal in value to the original one million acre mental health trust
27 corpus, with no reduction (in the nature of a set-off) for state
28 mental health expenditures;

29 (iii) it would make the entire mental health trust corpus

1 productive in that each acre of mental health trust land would produce
2 its fair market rental value annually;

3 (iv) the trust would not incur any administrative expenses;

4 (v) it would focus attention on questions related to the
5 state's mental health programs and the levels of appropriations for
6 those programs;

7 (26) reconstituting the mental health trust with state lands
8 which have a substantial probability of remaining in state ownership in
9 perpetuity would result in the following benefits to the state generally:

10 (i) it would free all mental health lands not in legisla-
11 tively designated areas for non-trust uses;

12 (ii) the only significant expenditure of public funds which
13 would be required would be appropriations for appraisal of the lands
14 to ensure equal value, an expenditure which would be required no
15 matter what form of trust reconstitution is selected; and

16 (iii) it would establish an additional safeguard against
17 disposal of the newly designated mental health trust lands (i.e.,
18 those in legislatively designated areas) in that, prior to such dis-
19 posal, equal value replacement lands would have to be identified and
20 redesignated as trust lands;

21 (27) the legislature will best serve the public interest by
22 reconstituting the mental health trust with lands in legislatively des-
23 ignated areas, continuing to use those lands for the legislatively des-
24 ignated purposes, compensating the trust for the use of those lands through
25 annual identification of an amount of general fund revenues equal to the
26 fair market rental value of those lands and designation in the general fund
27 of that amount of funds as the special mental health trust income account,
28 and creating a board to assist and advise the legislative and executive
29 branches of government on matters relating to the mental health program of

1 Alaska.

2 (b) The purposes of this Act are:

3 (1) to effectuate the intent of Congress underlying section 202
4 of the Alaska Mental Health Enabling Act that mental health lands be admin-
5 istered in such a way as to make funds available for the support of
6 Alaska's mental health program;

7 (2) to the extent practicable, to eliminate the need for costly,
8 time-consuming and divisive litigation over the state's management of
9 mental health lands;

10 (3) to ensure that the attention of the public and the govern-
11 ment is focused on mental health programs, as contemplated by Congress, and
12 not on issues relating to the management of mental health lands;

13 (4) to reconstitute a mental health lands trust through identi-
14 fication of lands in legislatively designated areas which are equal in
15 value to those selected by and patented to the state under section 202 of
16 the Alaska Mental Health Enabling Act;

17 (5) to remove from trust status those lands selected by and
18 patented to the state under section 202 of the Alaska Mental Health En-
19 abling Act which are not in legislative designated areas, thereby freeing
20 them for other uses;

21 (6) to remove from trust status lands selected by and patented
22 to the state under section 202 of the Alaska Mental Health Enabling Act
23 which are not in legislatively designated areas and to validate each deed,
24 contract for sale, lease, easement, right-of-way, permit, mineral lease
25 disposal, reservation of land for public use by statute, or land management
26 actions, including use classifications under AS 38.05.300 and interagency
27 land management assignments by the Department of Natural Resources, that
28 may have been called into question by the Supreme Court's decision in State
29 v. Weiss, 706 P.2d 681 (Alaska 1985), returning mental health land to trust

1 status; and

2 (7) to identify a portion of annual state general fund revenues,
3 equal in amount to the fair market rental value of mental health lands, as
4 compensation to the trust for the continued use of the lands in legisla-
5 tively designated areas for the legislatively designated purposes; and

6 (8) to create a board to assist and advise the legislative and
7 executive branches of government on matters relating to the mental health
8 program of Alaska.

9 * Sec. 2. AS 37.14 is amended by adding new sections to read

10 Sec. 37.14.011. MENTAL HEALTH TRUST INCOME ACCOUNT. (a) There
11 is established, as a separate account in the general fund, the mental
12 health trust income account.

13 (b) The amount determined under (c) of this section as the fair
14 market rental of the lands constituting the mental health trust corpus
15 is the earnings of the trust and the commissioner of revenue annually
16 shall allocate that amount to the mental health trust income account.

17 (c) The fair market rental value of the lands constituting the
18 mental health trust corpus shall be equal to 8 percent of the fair
19 market value of the lands. Following the initial determination of the
20 fair market value of the lands selected by and patented to the state
21 under section 202 of the Alaska Mental Health Enabling Act, the com-
22 missioner of natural resources shall redetermine the fair market value
23 of the lands constituting the mental health trust corpus at least
24 every five years, and provide the redetermined value to the commis-
25 sioner of revenue and the board established under AS 47.30.661.

26 Sec. 37.14.021. UTILIZATION OF THE MENTAL HEALTH TRUST INCOME
27 ACCOUNT. Money in the mental health trust income account established
28 in AS 37.14.011(a) shall first be appropriated by the legislature to
29 meet the necessary expenses of the mental health program of Alaska.

1 In making annual appropriations from the mental health trust income
2 account, the legislature shall consider the recommendations of the
3 Alaska Mental Health Board established under AS 47.30.661, including
4 any recommendations regarding capital improvements. After the neces-
5 sary expenses of the state's mental health program have been funded,
6 the legislature may make appropriations from the mental health trust
7 income account for other public purposes.

8 * Sec. 3. AS 38.05 is amended by adding a new section to read:

9 Sec. 38.05.800. RECONSTITUTION AND ADMINISTRATION OF MENTAL
10 HEALTH LANDS TRUST. (a) The commissioner of natural resources, under
11 procedures approved by the interim mental health trust commission,
12 shall determine the fair market value, as of the effective date of
13 this Act, of all lands selected by and patented to the state under the
14 Alaska Mental Health Enabling Act. The commissioner shall report the
15 determination of that value to the board established under AS 47.30.-
16 661.

17 (b) The commissioner of natural resources, with the approval of
18 the interim mental health trust commission, shall identify lands
19 within legislative designations which are equal in value to all lands
20 selected by and patented to the state under section 202 of the Alaska
21 Mental Health Enabling Act which are not in legislative designations.

22 (c) All lands selected by and patented to the state under the
23 Alaska Mental Health Enabling Act which are within legislative desig-
24 nations, together with all lands identified by the commissioner under
25 (b) of this section, shall constitute the corpus of the mental health
26 lands trust.

27 (d) Upon reconstitution of the trust as provided in this sub-
28 section, lands selected by and patented to the state under section 202
29 of the Alaska Mental Health Enabling Act which are not within

1 legislative designations are removed from trust status.

2 (e) The lands within legislative designations which constitute
3 the mental health lands trust shall continue to be administered for
4 the legislatively designated purposes. The trust shall be compensated
5 for the continued use of the mental health trust lands for the legis-
6 latively designated purposes as provided in AS 37.14.011.

7 (f) Before the state may remove any lands which are part of the
8 mental health trust corpus from trust status, and in addition to any
9 other requirements of law, the commissioner of natural resources,
10 consistent with the state's trust responsibilities, must identify
11 replacement lands, equal in value at the time of replacement, within
12 legislative designations and incorporate them into the mental health
13 trust corpus. The commissioner of natural resources annually shall
14 report any actions under this subsection to the board established
15 under AS 47.30.661.

16 * Sec. 4. AS 47.30 is amended by adding new sections to read:

17 Sec. 47.30.661. ALASKA MENTAL HEALTH BOARD. There is created
18 the Alaska Mental Health Board. For budgetary purposes, the board is
19 located within the Department of Health and Social Services. The
20 board is the state planning and coordinating agency for the purposes
21 of federal and state laws relating to the mental health program of
22 Alaska. The purpose of the board is to assist the state in ensuring
23 an integrated comprehensive mental health program.

24 Sec. 47.30.662. COMPOSITION. (a) The board shall consist of
25 the commissioner of health and social services, or the commissioner's
26 designee, and not less than nine nor more than 12 other members,
27 appointed by the governor, with due regard for balanced geographic
28 representation of the state.

29 (b) At least one-third of the members shall be consumers of

1 mental health services (or parents or guardians of such persons).

2 (c) At least one-third of the members shall be either public or
3 private providers of mental health services.

4 (d) The remaining members shall be representatives of the public
5 at large.

6 Sec. 47.30.663. TERM OF OFFICE. (a) Board members' terms are
7 three years. Of the initial appointees, one-third shall be appointed
8 for one-year terms, one-third for two-year terms, and one-third for
9 three-year terms.

10 (b) A vacancy occurring in the membership of the board shall be
11 filled by appointment of the governor for the unexpired portion of the
12 vacated term.

13 (c) Members may be removed only for cause, including, but not
14 limited to, poor attendance or lack of contribution to the board's
15 work.

16 Sec. 47.30.664. OFFICERS AND STAFF. (a) The board, by a major-
17 ity of its membership, shall elect a chairman and other officers it
18 considers necessary from among its membership to serve on a yearly
19 basis.

20 (b) The board will have a paid staff provided by the Department
21 of Health and Social Services, including, but not limited to, an
22 executive director who shall be selected by the board from candidates
23 provided by the department. The executive director is in the partial-
24 ly exempt service and may hire additional employees in the classified
25 service of the state. The staff of the board shall be directly re-
26 sponsible to the board in the performance of their duties.

27 Sec. 47.30.665. BYLAWS. The board, on approval of a majority of
28 its membership and consistent with state law, shall adopt and amend
29 bylaws governing its composition, proceedings, and other activities

1 consistent with state law and including, but not limited to, pro-
2 visions concerning a quorum to transact board business and other
3 aspects of procedure, frequency and location of meetings, and estab-
4 lishment, functions and membership of committees.

5 Sec. 47.30.666. POWERS, DUTIES, AND RESPONSIBILITIES OF THE
6 BOARD. The board shall

7 (1) measure the extent of the mental health need and, as
8 necessary, conduct independent studies, evaluate the statewide mental
9 health information system, and review the current mental health pro-
10 gram of Alaska;

11 (2) provide a public forum for discussion of issues regard-
12 ing current and potential services to persons served by the mental
13 health program of Alaska;

14 (3) determine the needs, including those currently unmet,
15 of the persons to be served by the mental health program of Alaska;

16 (4) review reports from the Department of Natural Resources
17 regarding the valuation of the mental health lands trust and the
18 status of mental health trust lands, from the Department of Revenue
19 regarding allocations to the mental health income account, and from
20 other departments regarding the current and projected revenues for the
21 support of the mental health program of Alaska;

22 (5) subject to disclosure restrictions imposed by state or
23 federal confidentiality or privacy laws, have access to information in
24 the possession of state agencies;

25 (6) in conjunction with the Department of Health and Social
26 Services, prepare and annually update a long-term comprehensive state
27 mental health plan, to include the projected need and the services,
28 facilities, and resources for the mental health program of Alaska to
29 meet that need;

1 (7) in conjunction with the Department of Health and Social
2 Services, develop, prepare, adopt, and periodically review and revise
3 as necessary an annual state implementation plan to meet the needs of
4 persons served by the mental health program of Alaska;

5 (8) in conjunction with the Department of Health and Social
6 Services, and prior to developing the annual state implementation
7 plan, evaluate the effectiveness of the prior year's implementation
8 plan and evaluate program performance and recommend improvements, set
9 priorities and establish criteria to utilize in funding allocations;

10 (9) report at least annually to the legislature, governor,
11 and commissioner of health and social services, and meet with appro-
12 priate legislative committees, concerning the board's activities,
13 including its evaluation of the effectiveness of the prior year's
14 implementation plan, and its recommendations to meet the necessary
15 operating and capital expenses of the mental health program of Alaska;

16 (10) serve as an advocate before the executive and legisla-
17 tive branches of government and the public on behalf of those served
18 by the mental health program of Alaska;

19 (11) discourage duplication of services and promote effi-
20 cient and coordinated use of federal, state, and private resources in
21 the provision of mental health services; and

22 (12) review applicable statutes, regulations, and policies
23 and recommend appropriate changes.

24 Sec. 47.30.669. DEFINITION. In AS 47.30.661 -- 47.30.669,
25 "board" means the Alaska Mental Health Board established in AS 47.30.-
26 661.

27 * Sec. 5. Section 1(b), ch. 132, SLA 1986 is amended to read:

28 (b) The commission established under (a) of this section con-
29 sists of three [FIVE] members, including the commissioner of natural

resources, or the commissioner's designee, [AND THE COMMISSIONER OF HEALTH AND SOCIAL SERVICES, OR THEIR DESIGNEES] and two [THREE] members and two [THREE] alternates [APPOINTED BY THE GOVERNOR] as follows:

(1) a member and an alternate representing the plaintiffs who were[,] appointed by the governor from a list of three names submitted to the governor by the plaintiffs in Weiss v. State, 4 FA 82-2208 Civil;

(2) a member and an alternate representing the intervenors who were[,] appointed by the governor from a list of three names submitted to the governor by the intervenors in Weiss v. State, 4 FA 82-2208 Civil[;AND

(3) A MEMBER AND AN ALTERNATE REPRESENTING THE GOVERNOR'S MENTAL HEALTH ADVISORY COUNCIL, APPOINTED BY THE GOVERNOR FROM A LIST OF THREE NAMES SUBMITTED TO THE GOVERNOR BY THE GOVERNOR'S MENTAL HEALTH ADVISORY COUNCIL].

* Sec. 6. Section 1(c), ch. 132, SLA 1986 is amended to read:

(c) The members of the commission shall elect a presiding officer. A majority of the commission constitutes a quorum. The affirmative vote of two [THREE] members is required to take official action. A vacancy does not impair the power of the remaining members to exercise the powers of the commission.

* Sec. 7. Section 2, ch. 132, SLA 1986 is repealed and reenacted to read:

Sec. 2. RESPONSIBILITIES OF THE COMMISSION. (a) The commission shall review procedures proposed by the commissioner of natural resources to determine the fair market value, as of the effective date of this Act, of all lands selected by and patented to the state under section 202 of the Alaska Mental Health Enabling Act, and review the

1 final determination of the fair market value determined under those
2 procedures.

3 (b) The commission shall review the identification by the com-
4 missioner of natural resources, under AS 38.05.800, of lands within
5 legislative designations which are equal in value to all lands select-
6 ed by and patented to the state under section 202 of the Alaska Mental
7 Health Enabling Act which are not in legislative designations.

8 (c) In the exercise of the commission's responsibilities under
9 this section, the commission and its staff may review the records of
10 the Department of Natural Resources that are made confidential by law
11 or regulation. An individual who acquires information made confiden-
12 tial by law or regulation in the performance of functions authorized
13 by this Act and discloses it without proper authority violates AS 11.-
14 56.860.

15 * Sec. 8. Section 6, ch. 132, SLA 1986 is amended to read:

16 * Sec. 6: This Act is repealed upon certification by the commis-
17 sioner of natural resources to the Alaska Mental Health Board estab-
18 lished under sec. 4 of this Act that the mental health lands trust has
19 been reconstituted as provided in AS 38.05.800 [JULY 1, 1987].

20 * Sec. 9. TRANSITIONAL PROVISIONS. Beginning in fiscal year 1989, and
21 continuing thereafter until the commissioner of natural resources certifies
22 to the commissioner of revenue that the mental health lands trust has been
23 reconstituted as provided in sec. 2 of this Act, the commissioner of reve-
24 nue shall make allocations to the mental health trust income account so
25 that the total of allocations during the year equals five percent of all
26 revenue received by the state's general fund during that fiscal year.

27 * Sec. 10. The following laws are repealed: AS 37.14.010, 37.14.020,
28 37.14.030, 37.14.040, 37.14.050, AS 47.30.605, and sec. 3, ch. 132, SLA
29 1986.

* Sec. 11. Sections 5 -- 8 of this Act take effect July 1, 1987.

POSITION PAPER
CSSB 96(HSS)

Committee Substitute for Senate Bill 96 (Health and Social Services Committee) establishes the Alaska Mental Health Board.

Section 47.30.664 specifies that the board shall hire an executive director and other staff. The proposed language clearly and appropriately places the employees of the board in the classified service. This section also stipulates that the executive director is in the partially exempt service. This legislation requires an amendment to AS 39.25.120 in order to list the executive director in the partially exempt service.

The following amendments are suggested:

1. On Page 12, Line 24 add "under AS 39.25.120" after the word "service."
2. Add another section to the bill which states:

AS 39.25.120(9) is amended by adding a new paragraph to read:

(L) the executive director of the Alaska Mental Health Board.

The Department of Administration's position on this bill is neutral.

Diana DeSimone, Director
Division of Personnel
