REVIEW AND COMMENTS ON HB403

AN ACT MAKING AN APPROPRIATION TO THE UNIVERSITY OF ALASKA FOR A
CENTER FOR INFORMATION TECHNOLOGY

Regarding HB403, Section 2, beginning on Line 13 of the bill, this causes the committee some concern. It states that the appropriation lapses into the general fund effective June 30, 1991 which raises the question as to whether or not there would be continuation of general fund support for the center. It is the view of the committee that the center can only effectively function if there is a continuing general fund appropriation over and above anything currently contained within the budgets of UAA or UAF. It seems to us that this section of the bill should be deleted so that the original appropriation rolls forward. Additionally, we are concerned that the portions of the appropriation directed to the GIS faculty in the various departments be imbedded as part of those departmental budgets and not as a part of the center. Thus, there needs to be flexibility so that this portion of the funds could appropriately be lodged in the Department of Architecture and Engineering Technology at UAA and in the Department of Land Resources at UAF.

One additional concern that we have with this bill is not so much with the language of the bill itself but in the back-up budgetary information which led to the \$940,300 figure. Attached you will find a revised budget proposal for Year 1 and then a revised and continuing budget proposal for Year 2 and thereafter. The difference between the two is to allow for important equipment acquisitions in Year 1 and to allow a sum of money for sponsoring research to continue throughout the future years of the center.

In general, we are all concerned about other Board of Regents priorities within the University of Alaska System budget request for FY91. Lin Bauer from the University of Alaska Anchorage indicates that he has an important request for equipment for his programs contained within that request, and it is his desire that that request be dealt with as well. It is our belief that this proposal should be dealt with aside from the regular budgetary process and, therefore, not interfere with Board of Regents priority requests.
