MEMORANDUM

TO: Representative Peter Goll, Co-Chair
Representative Max Gruenberg, Co-Chair
House Judiciary Committee

FROM: Senator Lloyd Jones *LJ*

DATE: February 14, 1989

SUBJECT: Senate Bill 26, relating to the crime of joyriding

Senate Bill 26 strengthens the penalty associated with the first time offense of motor vehicle theft. This bill was developed in response to requests from around the State. Under current law a thief going into a home and stealing a microwave oven worth \$600 will be charged with a felony, and yet the same person can take a \$15,000 vehicle and be let off with a misdemeanor, often with no penalty whatsoever.

SB 26 imposes a mandatory minimum sentence for the misdemeanor offense of joyriding. While the crime remains a misdemeanor, the mandatory jail time and fine will provide a greater deterrent effect. The bill also calls for restitution to be paid to the victim.

Thank you for hearing SB 26. I believe it is a law which will have a very practical, positive impact on crime in our State.

MEMORANDUM

TO: Representative Peter Goll, Co-Chair
House Judiciary Committee

FROM: Senator Lloyd Jones *LJ*

DATE: April 18, 1989

SUBJECT: Senate Bill 26, regarding penalties associated with
criminal mischief III (Joyriding)

Attached is a copy of statistics compiled by Dean Guaneli of the department of law, which show sentences imposed for joyriding referrals in FY 88. I have marked cases found guilty, but which received less than three days jail time, with a red mark. The total number of these cases is 56, or roughly 14.2 percent of all cases. Some of these cases are referred to as a suspended imposition of sentence, other cases received sentences, but had all the jail time suspended. I believe this will be self explanatory once you take a look at the statistics.

Thank you for taking the time to look at these statistics. I appreciate your concern regarding this bill and all other legislation coming before your committee. If I, or my staff, can be of further assistance regarding this legislation, please let me know.

Dear Senator Jones:

A petition has been circulated by Petersburg residents calling for the crime of Criminal Mischief in the Third Degree (a Class A misdemeanor) (for vehicle theft) be increased to a felony offense category.

The Petersburg Police Chief has advised the City Manager that the District Attorney's office has been reluctant to charge persons stealing cars in Petersburg with Theft in the Second Degree, a C Felony, because one of the elements of that offense is that the person taking the vehicle has the intent to deprive the owner of the property indefinitely. In that Petersburg is on an island, the District Attorney's office feels that proving that element would be difficult or impossible and have elected to charge under the criminal Mischief statutes. Unless there is damage done over \$500 to the vehicle taken, Criminal Mischief statutes require that the person be charged with Criminal Mischief in the Third Degree, an A Misdemeanor.

It seems somewhat incongruent that a person in Petersburg can enter a home and take a \$600 VCR and be later apprehended and charged with Burglary in the Second Degree, a C Felony, and that another person can take a \$10,000 vehicle from the street or a driveway and when apprehended only be charged with Criminal Mischief in the Third Degree, an A Misdemeanor.

During 1987, registered owners reported ten vehicles stolen and the investigations into these thefts showed the registered owners suffered a property damage loss totaling \$481.30. These losses did not include losses such as inconvenience to the owners such as towing, etc. So far in 1988, the police department has had three vehicles reported stolen and property damage has amounted to \$15,771.72 which should result in one to two felony charges due to the excessive damages.

Most other states classify auto theft as a felony and with the increasing cost of vehicles and the inconvenience of such a loss, it seems appropriate that the State of Alaska increase the penalty and level of this offense so that it is consistent with the theft of other valuable property.

Sincerely,

Patricia Curtis

Dear Representative Goll:

On October 8, 1989, my car was stolen along with over \$8,000 worth of tools and electronic testing equipment. My car was locked and parked in my driveway. As of this date it has not been recovered.

I, as a concerned citizen, continued to investigate as to why our Police Department cannot locate my car. Les Withers, head of the Property & Crimes Section, Auto Theft Unit, Anchorage Police Department, informed me that there are between 1,000 - 1,500 cars stolen each year in Anchorage and about 80% - 85% are recovered. Les and I started what we call A.C.T. (Auto Car Theft) and we now have a growing group of very interested people providing assistance wherever possible (information enclosed).

We find the laws so lax that a car theft is out of jail before the police can fill out the paperwork. I met with Senator Pat Pourchot and Representative David Finkelstein at a recent constituent meeting and Pat informs me S.B. 26 (copy enclosed) passed the Senate 18-2 (February 7, 1989) and was moved to the House chaired by you and there it sits.

I urge you, Representative Goll, to get this bill on the floor and get it passed this session. We need to have the teeth in the laws to prosecute these car thieves.

I trust you will act immediately.

Help find stolen cars

Many times we do not pay attention to what goes on in our city or state until something happens to us. My 1981 Chevrolet Malibu (four-door, burgundy, license number BGF-489) was stolen Oct. 8 while locked up in my driveway. As of this writing, it has not been recovered.

The Bible reads in the Ten Commandments: "Thou shall not steal." Where did we get these bums? There are over 1,000-1,500 vehicles stolen in Anchorage and Alaska a year. I, with the assistance of the police department and the Anchorage Daily News, now have a description and license number of vehicles stolen each week in the Daily News' Monday Briefing section.

If you see an unfamiliar vehicle near your home or business, check the Daily News' stolen vehicle list; it may have been stolen. Do this first, as the police are busy. Take a description and license number of the vehicle and call the police (786-8900) and ask for records. They will tell you if the vehicle is stolen.

My thanks to Les Withers, property crime section, auto theft unit, Anchorage Police Department; to Stephanie Kind Brown and the management of the Anchorage Daily News for making the stolen vehicle list available to us.

City police tracking car thieves

Tipster leads dealer to stash of Subarus

By JACQUES PICARD
 Times Writer

Police late Sunday were searching for thieves who may have rammed a truck through a fence at the Port of Anchorage to steal five new cars.

The cars were recovered during the weekend.

The thieves apparently drove five top-of-the-line Subarus through a hole in the fence enclosing the Wrightway Auto Carriers storage lot Thursday, said Chuck Webster, a manager at Continental Motors. The hole may have been made by a truck, Webster said.

The dealer's cost for the vehicles was \$80,000, he said.

Webster said he found the five cars parked at the Richardson Vista Apartments on Government Hill late Saturday after a man telephoned and said he had information about the theft.

"It was fairly late at night and I couldn't get anybody else around here. I figured it was worth the risk. I just told him I'd meet him on a street corner downtown," Webster said.

The man led him to the cars, Webster said.

Three people were in one of the vehicles when Webster and the tipster approached.

"When they saw us they just abandoned the car and ran off," Webster said.

Webster said he left the informant with the vehicles and went to call police.

The cars had less than a gallon of gasoline in the tanks, and the thieves may have been getting gas to drive them off, Webster said.

"If we catch the people, believe me, it would be quite good for everybody, because these are the same people who have been stealing quite a few cars."

Anchorage policeman Dan Seely said there have been similar thefts from Wrightway in the past two weeks and investigators have leads.

Webster said he did not know how the tipster knew about the stolen cars.

The cars were shipped from Portland, Ore. They were being stored at the lot awaiting transportation to the dealership, Webster said.

Dear Senator Jones:

We, of the Petersburg Volunteer Fire Department, are in accord with the proposed compromised legislation, on joy-riding. We feel that the person who takes an automobile without permission must have a deterrent, in order to make him think twice about it in the first place.

By making the punishment, a mandatory three days in jail, a minimum fine of Two Hundred and Fifty Dollars, and restitution to the vehicle owner, we feel that justice will have been served.

Thank you in your efforts to help us.

Dear Senator Jones,

The Alaska Peace Officers Association and the Alaska Association of Chiefs of Police are very much in favor of Senate Bill 26, amending the penalty for joyriding.

When the bill was introduced, and passed, a couple of years ago making a second conviction of joyriding a felony we had expressed a very real concern. That concern was that so many times a first time offender is given a suspended imposition of sentence; no record is made on the first offense; and the offender could realistically become a repeat offender with no deterrence from this act.

This bill would alleviate that from ever occurring. The Anchorage Police Department receives 1,500 cases per year which fit under the statute of Criminal Mischief in the Third Degree. Approximately 85% of these are repeat offenders.

There are many cases in which an offender steals one car; leaves it in the spot of the second car they steal; and on and on. We frequently handle cases where cars worth \$20,000 or more are stolen. Since it is a misdemeanor the offender is merely given a suspended imposition of sentence. Thefts in these amounts is a Class C felony and have been recognized for their seriousness. This amendment will certainly send a clear message that we are serious about the theft of our citizens' vehicles and create a stronger deterrent for the true first time offender.

Dear Mr. Matiashowski,

In regard to SB 26, Joyriding Legislation.

National Car Rental is the largest car rental in the State of Alaska. We are pleased and we do support SB 26 which amends the penalty of joyriding.

National can cite many cases in which our vehicles have been used for "joyriding" and we are then left helpless because of a lean joyride law.

We strongly urge a stiff sentence to those individuals who use an automobile for joyriding purposes. It costs everyone in the long run and it seems the person who is not affected is the joyrider himself.

Please do what you can to pass SB 26.

Re: Joyriding Legislation

Dear Senator Jones:

As owner and Manager of a Car Rental Agency in Anchorage, Alaska,
do support your efforts to strengthen the Joyriding Legislation.

On many occasions we have reported this instance to the local
authorities; but complaints go to naught. Last year, 1988, on three
different occasions, automobiles were taken from our lot on a "joyride"
we reported as stolen but were not able to prosecute, only if we wanted
to file a civil suit at our expense.

Please help us all in the Rental Business.

Dear Senator Jones:

AVIS/ALASKA RENT A CAR would like to take this opportunity to express our support of Senate Bill 26 (increasing the penalty for "joyriding" in the State of Alaska).

We are sure our experience with stolen vehicles are similar to many - not only to other businesses but also to the general public. Frustration and a sense of helplessness is felt each time one of our vehicles is involved in a "joyriding" incident. Frustration because the vehicle is usually returned to our inventory damaged from abuse; a sense of helplessness because it is extremely hard to obtain restitution; and knowing that the people involved will walk away with barely a slap on the wrist even though in many instances the perpetrators had no intention of ever returning the vehicle.

For many people an automobile is their largest investment. The average cost of a new automobile has reached \$15,000.00. This is a lot of money. People are sitting in jail for stealing far less.

The time has come to act on this. We believe by increasing the penalty for the unauthorized taking of a vehicle there would be a clear message to would-be thieves that the State of Alaska is getting tough on crime.

Cordially,

AVIS/ALASKA

RE: BILL #26 JOYRIDING

Please accept my support for Senate Bill #26. I would like to show what has happened to me, because of the lax of the present law.

On December 1, 1986 the lock on my security fence was broken and 4 cars stolen by John Weber and friends. One 1987 Chrysler 5TH Avenue was torched a total loss of \$15000.00, one 1987 Chrysler 5TH Avenue wrecked a loss of \$7,500.00, one 1987 Plymouth Reliant left damaged stuck in the ice on Campbell Creek a loss of \$1,211.61, one 1986 Dodge Colt abandoned minor damage of \$10.

The prosecuting attorney in Anchorage would not prosecute, when these men were caught and admitted to the thefts. Because the "Jails are to full" the judge will let them go on account of the way the law reads.

You can see from the attached subpoena from Palmer's District Attorneys Office. We finally found someone who was willing to do something as Mr. Weber was involved in several separate thefts in that area.

We need some relief from these people who have no responsibility for damages they cause with and to a stolen vehicle. In my grandfather's days they hung horse thieves.

Sincerely,

A handwritten signature in cursive script that reads "Clair A. Floyd".

RE: Case # 86-108647

To whom it may concern,

The damage breakdown for the December 1, 1986 break in is as follows:

1987 Chrysler Fifth Avenue Plate # 1234567890 the vehicle on fire.	\$ 15,000.00
1987 Chrysler Fifth Avenue involved in a Hit and Run accident.	\$ 7,500.00
1986 Plymouth Reliant found in Campbell Creek with car broke through ice.	\$ 1,211.61
1986 Dodge Colt damaged fuse link when car found.	\$ 10.00

Total loss amount*	\$ 23,721.61

* This is the amount of repairs not accounting for interest on the money from the date of the repairs. Loss of use has not been included in these figures also.

The above damages can be documented with repair estimates or copies of the invoices on the total loss car.

All license plates were removed and the cars were being operated on Temporary License Plates.

MEMORANDUM

February 6, 1989

SUBJECT: Criminal offenses and juvenile justice
(SB 26)

TO: Senator Lloyd Jones

FROM: Jack Chenoweth
Legislative Counsel 

By way of follow-up to Thursday's Judiciary Committee conversation about joyriding juveniles, let me try to address the relationship between criminal offenses and juvenile justice.

For any crime for which an adult may be prosecuted and convicted, a minor (defined as a person under the age of 18) may also be charged. Charges against minors are referred to the juvenile justice system and handled not under AS 12 (the criminal procedure provisions), but under AS 47.10.010 - 47.10.100. There are exceptions, discussed below, but as a general rule, if the minor has violated a criminal law, the superior court must inquire to determine whether the minor should be treated as a "delinquent." Treatment under the delinquency statutes precludes imposition of the criminal penalties normally applicable to convicted adults.

Procedurally, a delinquency adjudication literally involves a preliminary investigation or inquiry and the preparation of a petition. The minor and his or her parents may be required to appear voluntarily, or summons may issue. Following a hearing, the court may enter an order. The penalties that may be imposed may include commitment to the custody of the Department of Health and Social Services or probation back to the minor's parents, and may include an order directing payment of suitable restitution, but specifically exclude incarceration or the payment of a fine. A delinquency adjudication is not a conviction, and no civil liabilities that might attach to a criminal conviction follow from the adjudication.

There are two exceptions.

One category involves specific exceptions. AS 47.10.010(b) provides that, for certain criminal offenses, the minor shall be treated as an adult:

When a minor is accused of violating a traffic statute or regulation, a traffic ordinance or regulation of an incorporated municipality, AS 11.76.105 relating to the purchase of tobacco by a minor, a fish and game statute or regulation under AS 16, or a parks and recreational facilities statute or regulation under AS 41.21, excepting a statute the violation of which is a felony, the procedure prescribed in AS 47.10.020 - 47.10.090 may not be followed The minor accused of an offense specified in this subsection shall be charged, prosecuted, and sentenced in the district court in the same manner as an adult.

Subsection (d) of that same section also directs that AS 47.10 is inapplicable to proceedings against the driver's license of a minor under AS 28.15.185, directing that proceedings involving license revocations shall proceed as in the manner for adults. (This latter exception is the one alluded to by Commissioner Humphrey-Barnett.)

The second involves waivers of juvenile justice proceedings. Under AS 47.10.060:

(a) If the court finds at a hearing on a [delinquency] petition that there is probable cause for believing that a minor is delinquent and finds that the minor is not amenable to treatment under [AS 47.10], it shall order the case closed. After a case is closed under this subsection, the minor may be prosecuted as an adult.

(b) A minor is unamenable to treatment under this chapter if the minor probably cannot be rehabilitated by treatment under this chapter before reaching 20 years of age. In determining whether a minor is unamenable to treatment, the court may consider the seriousness of the offense the minor is alleged to have committed, the minor's history of delinquency, the probable cause of the minor's delinquent behavior, and the facilities available . . . for treating the minor.

Senator Lloyd Jones

Page 3

February 6, 1989

The waiver procedure is covered by Delinquency Rule 20, and there are a number of cases that define the application of the statutory standards in waiver determinations.

In sum, non-criminal treatment of minors is the rule. Excepting only criminal offenses for which delinquency adjudication is specifically made inapplicable, the system presumes treatment of juveniles within the delinquency adjudication process, not under criminal law. The court may, nevertheless, find, at the conclusion of a waiver hearing, that a juvenile is "unamenable to treatment under [AS 47.10]" and allow prosecution of the juvenile as an adult.

Hope this helps . . .

LEGISLATIVE AFFAIRS AGENCY

MEMORANDUM

January 25, 1989

SUBJECT: Amending the penalty for misdemeanor
joyriding (Senate Bill 26)

TO: Senator Lloyd Jones, Chair
Senate Transportation Committee

FROM: Jack Chenoweth
Legislative Counsel

The legislation imposes a mandatory minimum sentence for a first conviction for the offense of misdemeanor joyriding ("criminal mischief in the third degree") involving the taking of a propelled vehicle in which the damage or expenses are less than \$500. A first conviction for the offense is defined as a class A misdemeanor, with normal maximum penalties of a \$5000 fine and one year in jail. Under this bill, one convicted would face a mandatory sentence of

- imprisonment for a minimum of 72 hours;
- a minimum fine of \$250; and
- payment of restitution as the court may order.

The court would be precluded from suspending imposition or execution of sentence and would be precluded from admitting the convicted defendant to probation unless the minimum sentence was served.

In essence, the penalty incorporates the content of the penalty for first offense Driving While Intoxicated (AS 28.35.030(c)).

As we learned during last year's review of SB 497, although the Senate Bill 26 suggests a "go to jail" approach, under AS 33.30.151 - 33.30.161, the mandatory sentence required by the bill may be served in a correctional restitution center.

Senator Lloyd Jones

Page 2

January 25, 1989

The penalty for felony joyriding, involving damage to the vehicle of \$500 or more--a class C felony--is unchanged: a maximum fine of \$50,000 and maximum term of imprisonment of five years.

Dear Senator Jones:

Enclosed please find copies of the petition that has been circulating in Petersburg. The citizens of Petersburg would like the Legislature to change the Laws regarding Stolen Vehicles. We feel that a person who steals a vehicle, be it an automobile, boat, or airplane; should be prosecuted as having committed a Felony, rather than Criminal Mischief. The fact that we live on an island is immaterial, and should not make a difference in the level of punishment for stealing a vehicle.

Only you, as our elected representative, can author a Bill to change the Law. So we are formally requesting you to do this.

If I can be of any assistance to you in doing this, please feel free to contact me.

We still have petitions out, in Petersburg, but it appears that we have 100% of the adult population in favor of the above change; AND we also have the endorsement of the Petersburg City Council.

Respectfully yours,

Gayle M. Eastwood

Representative Taylor

We, the citizens of Petersburg, feel the need for a change from "Joy-riding" to Grand Theft Auto, if a person steals a vehicle. We feel that it is immaterial if we live on an island or not. It is a crime of taken someone's property without their permission and should receive the penalty for their actions. If the owners leave their key in the ignition, that is between their insurance company and themselves. The thief should be prosecuted as a car thief.

William E. [unclear]	Petersburg AK Del	Steal a car go to jail

We, the citizens of Petersburg, feel the need for a change from "Joy-riding" to Grand Theft Auto, if a person steals a vehicle. We feel that it is immaterial if we live on an island or not. It is a case of taken someone's property without their permission and should receive the penalty for their actions. If the owners leave their key in the ignition, that is between their insurance company and themselves. The thief should be prosecuted as a car thief.

MEMORANDUM

TO: Representative Peter Goll

FROM: Brad Pierce *BP*
Legislative Analyst

RE: Joyriding Cases in Southeast
Research Request 89.359

You asked that we provide information on the disposal of joyriding cases (criminal mischief) by the courts in Ketchikan, Wrangell and Petersburg during the past five years. Specifically, you wanted to know the number of cases charged, convictions and sentences. You are interested in determining if the disposition of cases in these three courts is consistent with other jurisdictions in the state.

Attached is a Department of Law printout of criminal misdemeanor joyriding cases--involving 60 individuals during the past five years--recorded by the courts in these three cities. The printout entries are self-explanatory. (Apparently the department has not yet received the paperwork for the five cases with missing disposition entries.) According to Dean Guaneli, assistant attorney general, the disposition of these cases is quite similar to those in other courts around the state. The vast majority of those convicted (or who plead guilty or no contest) served at least some jail time--14 of the 19 individuals convicted in Ketchikan went to jail, three of the four in Petersburg and nine of the ten in Wrangell also received jail sentences.

I hope this is enough information for your purposes. Please call if you have questions.

ANALYSIS : (Attach a separate page if necessary)

This legislation will have minimal impact on the Department of Corrections. Very few persons actually serve jail time for the offense of Criminal Mischief III and if they actually do, the time served tends to be greater than this mandatory minimum.

CONTINUATION of FISCAL NOTE ANALYSIS

For Bill/Resolution No. ^{SB}~~HB~~ 26

This bill amends AS 11.46.484 by adding a new subsection that imposes a mandatory minimum sentence for joyriding of a term of imprisonment of not less than 72 hours, a fine of not less than \$250, and restitution. These sentencing provisions will not have a fiscal impact on the Department of Law. It should be noted that some additional prosecutor time will be needed because defendants can be expected to offer a more vigorous defense in the face of a mandatory jail term. Prosecutor workload in most of the state's district attorney offices is currently at or near the saturation point. Consequently, adoption of this bill and other similar measures, that do not individually have a fiscal impact, will cumulatively diminish the department's ability to handle more serious offenses. Lastly, the bill could have a substantial impact on the Department of Corrections.

ANALYSIS: (Attach a separate page if necessary)

This bill would require a mandatory minimum sentence of three days in jail and a \$250 fine for a first offense "joy-riding" conviction. (Second and subsequent offenses are felonies.) This is the same mandatory minimum sentence imposed upon first offense drunk drivers.

Passage of this legislation would have no fiscal impact on the Department of Public Safety.
