# STATE OF ALASKA

**DEPT. OF ENVIRONMENTAL CONSERVATION**

STEVE COWPER, GOVERNOR

## POSITION PAPER FOR HB 219

### Title

An Act prohibiting the taking of brown or grizzly bear near solid waste disposal facilities; and providing for an effective date.

### Effect of the Bill

The bill would prohibit a person from recklessly taking a brown or grizzly bear within one mile of a solid waste disposal facility, except in defense of life or property, as provided by the bill.

### Department Position

The Department supports the intent of the legislation.

The Department is well aware of the problems associated with the attraction of bears to community landfills. We have been working with the Departments of Public Safety, Fish and Game, the U.S. Forest Service, and many communities in Southeast Alaska, to try to correct the underlying causes of these problems. A prohibition on the hunting of brown bears near solid waste disposal facilities seems appropriate. DEC defers to Department of Fish and Game to set hunting regulations.

### Fiscal Effect

The bill will have no fiscal effect on the Department.

Dennis D. Kelso, Commissioner

RECEIVED MAR 30 1988

March 28, 1989

Representative Cliff Davidson  
House of Representatives  
P.O. Box V  
Juneau, AK 99811

Dear Representative Davidson:

We urge support of HB 219 to ban hunting of Brown Bears statewide within one mile of a dump. Research shows a disproportionate harvest in areas around dumps since the bears tend to be extremely vulnerable when feeding within the dumps. Bears have a slow reproductive rate so we need support HB 219 and make efforts to clean dumps in areas of bear concentrations if we are going to maintain a healthy population within the state.

Sincerely,

Suzanne J. Murray  
Regional Associate

MY NAME IS JAY MASSEY AND MY ADDRESS IS P.O. BOX 429, GIRDWOOD, AK 99587. I'VE LIVED IN ALASKA FOR THE PAST 21 YEARS, AND WAS EMPLOYED BY THE ALASKA DEPARTMENT OF FISH & GAME FOR NINE YEARS. I'M A FORMER MEMBER OF THE ALASKA BOARD OF GAME.

I'M PLEASED TO TESTIFY ON HB 219 BECAUSE I FEEL THIS LEGISLATION IS BADLY NEEDED. GARBAGE DUMPS ACT AS UNNATURAL ATTRACTANTS TO BEARS. BEARS ARE ~~LIKE SOME HUMAN BEINGS. THEY'RE~~ BASICALLY <sup>opportunistic.</sup> LAZY. MOST OF THEM WOULD PREFER A FREE HANDOUT OVER FORAGING FOR FOOD IN THE WILD. SO IT SHOULD BE NO SURPRISE TO ANYONE THAT A GARBAGE DUMP WILL DRAW IN BEARS FROM ALL DIRECTIONS.

I FEEL HUNTING BROWN/GRIZZLY BEARS SHOULD BE ILLEGAL AT ALL GARBAGE DUMPS IN ALASKA, AND THAT PERHAPS YOU SHOULD CONSIDER EXTENDING THIS PROHIBITION TO BLACK BEARS AS WELL. I HAVE THREE MAJOR CONSIDERATIONS: FIRST IS THAT GARBAGE DUMP BEAR HUNTING CAN <sup>have</sup> - AND HAS - HAD A CONSIDERABLE IMPACT ON SOME LOCAL BEAR POPULATIONS. IT'S A VERY EFFICIENT MEANS OF HARVESTING BEARS, <sup>and it is easily abused.</sup>

SECONDLY, GARBAGE DUMP BEAR HUNTING ~~SOMETIMES HAS COME TO BE~~ ASSOCIATED WITH ILLEGAL HUNTING - HUNTING OUT OF SEASON AND TAKING OVERLIMITS AND SOWS WITH CUBS. I THINK MOST OF THESE ILLEGAL BEARS WOULD NOT HAVE BEEN TAKEN HAD THERE BEEN A FLAT PROHIBITION ON <sup>which were</sup> HUNTING FROM GARBAGE DUMPS. I PERSONALLY KNOW OF SEVERAL BEARS TAKEN ILLEGALLY AT SUCH SITES.

MY THIRD OBJECTION TO GARBAGE DUMP HUNTING HAS TO DO WITH THE CONCEPT OF FAIR CHASE HUNTING. IT IS SIMPLY NOT GOOD FOR THE SPORT. IT IS AN UGLY SIDE OF HUNTING AND IT BOTHERS ME PERSONALLY.

I THINK YOU ALSO MIGHT ~~SPEND SOME TIME DEFINING WHERE CONSTITUTED~~ <sup>check into the definition of</sup> ~~SOLID WASTE DISPOSAL SITE.~~  
 "GARBAGE DUMP." I KNOW OF AT LEAST THREE ~~SUPPOSEDLY LEGAL~~ BEAR BAITING STATIONS WITHIN 15 MILES OF MY HOME WHICH COULD ACCURATELY BE DESCRIBED AS GARBAGE DUMPS. THE LAST TIME I CHECKED THEM, EACH OF THESE BEAR BAITING STATIONS CONTAINED AT LEAST ONE HUNDRED POUNDS OF ASSORTED TRASH...OLD BEEF BONES, FISH CARCASSES, PLASTIC BAGS, GREASE CANS, ETC. ~~I'd like to see some restrictions placed on the amount of trash & garbage a person can hunt out into the woods.~~

I THANK YOU FOR THE OPPORTUNITY TO TESTIFY ON THIS NEEDED BILL.

### MEMORANDUM

To: Rep. Cliff Davidson  
Rep. Curt Menard  
Co-Chairmen  
House Resources Committee

From: Rep. Ben Grussendorf

Date: March 28, 1989

Subject: House Bill 219

Over the past several years, the number of bears killed in and around solid waste disposal facilities - at least in my legislative district - has increased dramatically. The reason is simple: bears are naturally attracted to the waste food found in garbage dumps. The closer these dumps are to the bears' natural habitat, the easier it is for the bears to access them and, not surprisingly, be killed by hunters.

House Bill 219 would prohibit the taking of brown or grizzly bears within one mile of any solid waste disposal facility in Alaska, except in those instances when life or property is directly threatened by the bear. Anyone found guilty of violating the prohibition would be subject to a \$5,000 fine, a jail sentence of up to one year, and the forfeiture of the bear's hide and skull or an additional fine equal to the fair market value of the bear.

I realize that HB 219 is not a cure for the larger problem of improper waste disposal in those areas of rural Alaska where industries such as timber and mining must co-exist with wildlife. Several departments of the state and federal governments have been grappling with that issue for a number of years and have achieved limited success in certain instances. For example, in those areas where industry has been required to install incinerators for waste disposal, the incidence of "problem bears" will decrease. While I applaud and fully endorse the efforts being made to deal with the waste disposal issue, it appears to me that the solutions to those problems are several years down the road. I'm not at all sure that Alaska's brown and grizzly bear populations can stand the wait.

I want to bring to the Committee's attention the fact that the Alaska Board of Game this past week adopted a regulation which prohibits the taking of brown or grizzly bear within one-quarter mile of any solid waste disposal facility located on Admiralty, Baranof or Chichigof Islands. Because these areas are in my legislative district, and are home to a relatively high number of bears, my concern about this issue has been somewhat alleviated. I'm not yet convinced that one-quarter mile is a large enough area of prohibition, but it is a step in the right direction.

The decision of the Board of Game has no effect in other areas of the state. For this reason, I believe it is important for other House members to have a chance to review the issue in light of any concerns about their own districts and as matter of state policy. Attached to this memorandum is a list of those solid waste disposal facilities that have received operating permits from the Department of Environmental Conservation. This should give the Committee members a good indication of the facilities in their own districts that would be affected by the legislation.

Finally, I would urge the Committee to give particular attention to the testimony of Mr. Charles Rice; his research confirmed my suspicions about the high number of bears being taken in my district, and I believe he will be able to shed light on the problem as it relates to other areas of Alaska. A number of supporting documents provided to my office by Mr. Rice are also attached to this memorandum.

My thanks to the Co-Chairmen for granting me the opportunity to bring this matter to the attention of the House Resources Committee.

ALASKA SPORT AND NONSPORT HARVESTS OF BROWN BEAR 10 YRS PRECEDING LEGAL BAITING OF BLACK BEARS (1984-1987)

YEAR	1974	75	76	77	78	79	80	81	82	BAITING				
										* 83	84	85	86	87
<u>SPORT</u>	779	827	832	774	819	883	882	887	823	974	1118	1155	1105	1190
<u>NONSPORT</u>	52	47	39	45	59	34	47	56	50	60	68	81	73	64
	47.6 AVERAGE									71.5 AVERAGE (51% INCREASE IN DEFENSE NONSPORT KILLS OF BROWN BEARS)				
<u>TOTAL KILL</u>	831	874	871	819	878	917	929	943	873	1034	1186	1237	1178	1254
	882 AVERAGE									1214 AVERAGE (38% INCREASE IN TOTAL BROWN KILLS)				

\* IN 1983 BAIT WAS LEGAL FOR ½ SEASON

THERE HAS BEEN A DECREASE IN HUMAN POPULATION IN AK SINCE 1984  
SEASONS AND BAG LIMITS HAVE CHANGED LITTLE

IN A SPOT CHECK OF ABOUT 10% OF TOTAL DLPS AND AFFIDAVITS FROM PUBLIC SAFETY RECORDS  
WE FOUND AT LEAST 12 GRIZZLIES KILLED AT BAIT SITES.

THIS DOES NOT INDICATE THAT THE TOTAL INCREASE IS DUE TO ILLEGAL HARVEST, BUT BEARS WOULD UNDOUBTEDLY BE ATTRACTED TO  
MORE POPULATED AREAS DUE TO DIFFICULTY IN HAULING BAIT LONG DISTANCES FROM ROAD, FLOAT OR AIR ACCESS. THIS WILL  
ALSO CAUSE MORE HUMAN ENCOUNTERS AND DEFENSE KILLS.

IN AREAS WITH FEW OR NO BLACK BEAR AND DIFFICULT ACCESS, HARVESTS HAVE CHANGED LITTLE. UNITS 13, 14, 15, 16 AND 20  
WITH CONVENIENT AND EASY ACCESS, AND BLACK BEARS, HAVE EXPERIENCED FROM 28 TO 135% INCREASES OVER THE FIVE YEARS  
PRECEDING THE LEGALIZATION OF BAITING.

HUNTER EFFORT HAS INCREASED BY ABOUT 400 PER YEAR (FROM # TAGS SOLD), HOWEVER HUNTER SUCCESS HAS DECREASED  
FROM 21% IN 1977 TO 14% IN 1986/87

Rep. Grussendorf  
Box V (MS 3100)  
Juneau Alaska 99811

Dear Mr. Grussendorf,

I wholeheartedly support your efforts to close sport hunting of brown bears within one mile of designated dumps. In reality, it is a misnomer; one cannot sport hunt at a dump because there is no sport involved. This is hunting at its nadir- there is no planning, stalking or skill involved in taking animals at a dump. Brown bears are an important resource to many people throughout Alaska and the nation. They should be managed wisely and harvested in a fashion which guarantees a high quality hunt. This is especially so when dump hunting appears to be threatening brown bear populations in Southeast.

I urge you to include black and glacier bears in your bill. Dump hunting has no merit and does not deserve to be continued in any form.

This problem would not exist at all if the dumps were properly managed. The bears are attracted to the dumps because there is food there for them. If the people managing the lumber and mining dumps were to be more careful and incinerate their organic wastes, the bears would have little reason to frequent them. I'm not sure if you can do anything about more responsible management of those dumps, but would strongly encourage you to do so if it is possible.

Sincerely,

Larry Landry

Rep. Ben Grussendorf  
Box V (MS 3100)  
Juneau, AK 99811

Dear Representative Grussendorf,

I grew up in Anchorage and am currently a resident there. I am an avid outdoorsperson and love Alaska for many reasons, one of which is its unique wildlife.

I am pleased to hear that you are writing a bill to close the one mile radius around designated dump and landfill areas to the hunting of brown bears. I encourage you to also prohibit the dumphunting of glacier and black bears.

Not only is dumphunting a poor use of a valuable and unique wildlife resource, but shooting a bear at a dump shows a complete lack of sportsmanship. Tracking an animal and meeting it on its own terms are elements of a "quality hunt." I have no objection to well-managed harvest of animals through hunting, however dumphunting is cruel, unnecessary and irresponsible.

Besides this, bears are attracted to dumps because humans have failed to act responsibly towards our environment and towards the other creatures with whom we live. If we kept our landfills clean and buried our waste, bears would be less likely to forage for food in dump areas and would be less of a threat to human safety.

In addition, Alaska's bear population is sensitive to continued exploitation. A 1979 Alaska Department of Fish and Game report recommended that the harvest of brown bears be cut in half; since then, the harvest has doubled in some areas. We can not afford to stand idle as a species is legally over-hunted.

I support your efforts. I favor at least a one mile radius of protected area around dumps, and the protection of brown, black and glacier bears. Though I am not in your district, when you introduce your bill I will contact my legislators (Red Boucher, Virginia Collins, and Arliss Sturgulewski) and voice my feelings on this issue. I have sent a letter similar to this to the Board of Game.

Sincerely,

Karen Wood

REP. GRASSBENDER -  
BOX # 483100  
SHELDON AK 99811

Dear Rep. Grassbender,

I'm writing to show my support for Rep. Bill  
Hosier all designated dump areas to protect  
brown bears. I also believe that this bill  
should include all bears as well, and a  
1 mile distance from the dumps. I hope  
you will continue to fight for  
us all passed and remove all bears  
in all dump throughout the state.

Sincerely,

— Mark Ball

Representative Ben Grussendorf  
Box 7 (MS 2100)  
Juneau, Alaska 99811

Dear Representative Grussendorf:

We understand you are drafting a bill that will close all designated dump areas to the hunting of brown bears within one mile. The Kachemak Bay Conservation Society supports your efforts in this area and urges you to include black and glacier bears in the ban. All bears, not just the brown bear, are vulnerable to over-hunting around dump areas. With more and more dump sites around the state associated with logging camps, mining development, fish camps, and other facilities it is important to encourage people in remote sites to operate safe, clean dumps and not use them as permanent bait stations to wipe out local bear populations. We support a closure of at least one mile from dumps.

Thank you for your efforts in this area.

Sincerely,

Nina Faust  
President

March 20, 1989 →

Dear Sirs:

I support the closure of dumps to bear hunting. I am a bear hunter. I also enjoy seeing bears. Many bears are killed at dumps which is not what I call bear hunting, but is a needless waste of a dwindling natural resource. I would like to see stricter rules and penaltys regarding sanitary landfills, but in pursuing this the State must be on guard against other problems (such as the situation in one Southeast community that I'm very familiar with that was required to cover their sanitary landfill, so instead I understand that they now just haul their garbage out to the middle of the bay and dump it overboard.)

Sincerely,

Mr. Kim Turley

March 9, 1989

Rep. Ben Grussendorf  
Alaska House of Representatives

Dear Rep. Grussendorf:

I am writing to thank you for your concern about the hunting of brown bears in the vicinity of garbage dumps. I am not entirely clear whether your bill to prohibit the hunting of bears within one mile of a dump is in conflict with the tradition that has developed of keeping the Legislature out of the province of the Boards of Fish and Game. However, I strongly believe that the Legislature needs to act in this area of an overwhelming threat to our brown bear populations, by one means or another.

The Greens Creek Mine, situated in one of the highest concentrations of brown bears in the world, has avoided problems for bears by strict dumping and littering regulations, strictly enforced, and by burning garbage in a high heat incinerator. Although such methods probably cannot be required of long-time existing villages, the State should require them of all logging camps and new resource-exploitation settlements in brown bear country. Otherwise, with the present rate of road building, logging and mining, we are going to run out of brown bears in your and my lifetimes.

I would particularly like to see the Legislature turn its attention to a portion of the Gulf of Alaska coast between Yakutat and Cordova that is home to a population of especially large-size brown bears. I'm talking about the coast between Icy Bay and Cape Suckling. I believe the bears in this area rival those of Kodiak Island in size, and most important part of their habitat extends from the beach to not very far inland. The State owns large stretches of land along the coast, including the whole stretch between Icy Bay and Cape Yakataga, with possibly some minor exceptions. The State has been selling the timber and a large logging show has been working its way for some years from Icy Bay toward Cape Yakataga, and has clear-cut the area from the beach back in (how far inland I'm not certain) from Icy Bay to at least the White River, with plans to continue onward.

In other words a great swath of once beautiful, pristine coast (exceptionally beautiful coast and exceptionally pristine, the kind of thing that has become exceedingly rare in the world) is being ruined as prime brown bear habitat. I would like to see you request a report on garbage dumping practices there and on the effect on brown bears of the logging activity in that region. I know that the Southeast Alaska Conservation Council has been taking an interest in this area and might be a source of information.

Again, thank you for your interest in the survival of brown bears. This part of the world would be sadly different without them.

Yours truly,

Judy Brakel

March 23, 1989

Representative Ben Grussendorf  
Box V (MS 3100)  
Juneau, Alaska 99811

Dear Representative Grussendorf,

I strongly support your concern for the plight of Alaska's overhunted brown bears, and your determination to pass a bill closing dumpsites to hunting of brown bears. I hope that your bill also includes black and glacier bears, for they are vulnerable as well, and it is tragic that we so often merely attempt to correct our environmental blunders without learning from them. It is not only imminent danger of extinction from a range that should entitle wildlife to protection; often by the time such danger is recognized, the future of the population has already been jeopardized by depletion of its gene pool.

I urge you to hold to at least a one-mile radius in dump closure, and to the bill affecting all of Alaska. Thankyou for authoring and introducing this important legislation.

Respectfully,

Cynthia Monroe

P.S. I have sent a similar letter to the Board of Game.

Rep. Grussendorf  
Box V (MS 3100)  
Juneau, Alaska 99811

Dear Rep Grussendorf:

It has come to my attention that you are proposing a bill to close all designated dump areas to the hunting of brown bear. I urge you to continue with the endeavor and to expand the bill to include all bears within a three mile limit.

Actually I would like to see the complete closure of all brown and grizzly bear hunting. This species is in short supply all over the State and should be granted a reprieve from the constant and increasing hunting pressure. To my mind its a terrible shame that we kill an animal of this stature "just for fun" and call it sport. Our society is sick.

Please do what you can to end this useless slaughter.

Sincerely  
  
Thomas J. Classen

February 28, 1989

Rep. Ben Grussendorf  
PO Box V  
Juneau, AK 99811

Dear Representative Grussendorf,

I am writing to you about need to clean up dumps in villages and timber camps and to close the dump areas to any kind of sport (or other) hunting.

First, DEC needs clear direction and funding for getting villages and timber camps to clean up their dump sites. Enforcement is also needed - on an ongoing basis! People don't like the dump sites all smelly and spreading who-knows-what-diseases!

Hunting at dump sites isn't hunting - it's target practice! Our game - and in particular all our bears - are being killed off and wasted for the sake of fun and entertainment. I strongly support your legislation to close all designated dump areas to hunting of brown bears within a mile radius. What about polar, glacier and black bears? "Dump bears" are a problem throughout our state. When I lived in Dillingham, folks used to go out to the city dump to watch the bears -- for entertainment. Inevitably, a brown bear would get too close - and end up dead.

I applaud your efforts on behalf of keeping Alaska wild!

Sincerely,

Eleanor Thompson
