counting purposes. However, these costs are based on the assumption that all candidates and issues will fit on three ballot cards, which is the norm. It should be noted, however that should the inclusion of this issue require a 4th ballot to be printed, the cost increase would have to be calculated at 16 cents per ballot x approximately 320,000 voters. The total cost of printing the additional ballot card would be \$51.2.

Under these circumstances the fiscal note would be:

COMMITTEE PROPOSAL NO. 12

Commentary on the Article on General and Miscellaneous Provisions

Section 1. Merit Principle: Only employment in certain Federally aided programs of the Territory is now governed by the merit principle. This section would call upon the legislature to establish a system under which employment generally by the state would be governed by the merit principle. A system governed by the merit principle would be one, for example, which comprehended professional, technical, clerical, and administrative positions of the state government. The positions comprehended within the system would be classified according to duties and responsibilities. Salary ranges would be established for the various classes of positions. Appointments would be made according to merit and fitness which would be ascertained, so far as practicable, by competitive examinations.

Section 2. Employee's Retirement. This will assure state and municipal employees who are now tied into various retirement plans that their benefits under these plans will not be diminished or impaired when the Territory becomes a state.

Section 3. Disqualification for Disloyalty. T conforms with the language of the Congressional enabling bill

Section 4. Oath of Office. The oath is self-explanatory.

Section 5. Intergovernmental Relations. This provision is recommended mainly in order to make it clear that the state can participate in cooperative programs such as the Western Interstate Compact on Higher Education even though such programs may involve the expenditure of public funds outside the state. Some states have had to amend their constitutions in order to participate in such programs.

This provision would also authorize local government units in Alaska to cooperate with Federal agencies on grant-in-aid programs such as housing and airport construction. Local government units could maintain direct relations with Federal agencies, but the Governor would serve as agent for the state in developing the intergovernmental relations of state agencies.

In view of the close relationships which Alaska will have with the neighboring Canadian provinces, explicit authority is granted to the state to cooperate with foreign nations to the extent consistent with the laws of the United States.
