HOUSE COMMITTEE REPORT

(9)  
Date Referred: March 15, 1989

FURTHER REFERRALS: JUDICIARY

Date of Committee Action: 4-4-89

The RESOURCES Committee considered:

HB 219

HOUSE BILL NO. 219 [BAN BROWN BEAR TAKING NEAR GARBAGE SITES]  
"An Act prohibiting the taking of brown or grizzly bear near solid waste disposal facilities; and providing for an effective date."

RECOMMENDATIONS:

- be replaced with CS HB 219 (RES)  the same title
- have attached amendment(s)  a new title
- do pass
- do not pass
- no recommendation
- individual recommendations
- additional referral to the \_\_\_\_\_ Committee

ADOPTS: \_\_\_\_\_ letter of intent

## MEMORANDUM

To: Rep. Ben Grussendorf  
Chairman  
House Rules Committee

From: Doug Rickey *DR*  
Special Assistant  
House Rules Committee

Date: April 19, 1989

Subject: Analysis of HB 219 (Judiciary)

House Bill 219 (Judiciary) provides that any person who, with criminal negligence, takes a brown or grizzly within one mile of a solid waste disposal facility is guilty of a class A misdemeanor.

In addition to the penalty provided under current law (up to one year in jail and up to a \$5,000 fine), a person convicted under this statute would be required to forfeit the hide and skull of the bear to the state. If the person fails to salvage and deliver the hide and skull to the state, the court would impose an additional fine of up to \$10,000.

A person charged under this statute could assert an affirmative defense: the bear was taken in defense of the person's life or property. If such a defense is asserted, the person would then be required to show, by a preponderance of the evidence, that (1) the necessity for taking the bear was not brought about by the harassment or provocation of the bear; (2) the necessity was not brought about because of negligent disposal of garbage or creation of a similar attractive nuisance by the person who took the bear; and (3) the person exhausted all other practicable means to protect life and property before the bear was taken.

## MEMORANDUM

To: Rep. Ben Grussendorf  
Chairman  
House Rules Committee

From: Doug Rickey  
Special Assistant  
House Rules Committee

Date: April 18, 1989

Subject: House Bill 219

The House Judiciary CS for HB 219 differs from the House Resources CS in the following ways:

(All page and line references refer to the Resources CS)

Page 1, line 17 : "and delivered to the department" has been inserted after "salvaged". Defendants who fail to salvage and deliver the hide and skull to the Department of Fish & Game will be subject to an additional fine. (This more closely tracks language in existing regulations that require a person who takes a brown or grizzly bear in defense of life or property to salvage and deliver the hide and skull of the bear to the department).

Page 1, line 18: "equal to the fair market value of the bear" has been deleted and replaced with "of up to \$10,000". This change was made at the request of the Alaska Court System on behalf of rural magistrates who anticipate having difficulty determining the fair market value of the bears. (See letter from Jan Strandberg, dated April 11, 1989).

Page 1, line 19: "a" has been deleted and replaced with "an affirmative" prior to the word "defense". This change was made at the request of the Department of Law. A defendant who asserts that the bear was taken in defense of life or property would be required to prove it by a preponderance of the evidence.

Page 1, line 20: "person who took the bear shows by a preponderance of the evidence that" has been added. This language makes clear that it is incumbent upon the defendant to prove the defense asserted.

Page 1, lines 22 & 23: "or by an unreasonable invasion of the bear's habitat" was deleted at the request of the Department of Law. The department felt that the phrase was too vague and could invite litigation on the issue.

Page 1, line 25: "improper" was deleted and replaced with "negligent". The Department of Law felt that "improper" was imprecise. "Negligent" has a more precise definition in the law.

STEVE COWPER, GOVERNOR

## DEPT. OF ENVIRONMENTAL CONSERVATION

### POSITION PAPER FOR HB 219

#### Title

An Act prohibiting the taking of brown or grizzly bear near solid waste disposal facilities; and providing for an effective date.

#### Effect of the Bill

The bill would prohibit a person from recklessly taking a brown or grizzly bear within one mile of a solid waste disposal facility, except in defense of life or property, as provided by the bill.

#### Department Position

The Department supports the intent of the legislation.

The Department is well aware of the problems associated with the attraction of bears to community landfills. We have been working with the Departments of Public Safety, Fish and Game, the U.S. Forest Service, and many communities in Southeast Alaska, to try to correct the underlying causes of these problems. A prohibition on the hunting of brown bears near solid waste disposal facilities seems appropriate. DEC defers to Department of Fish and Game to set hunting regulations.

#### Fiscal Effect

The bill will have no fiscal effect on the Department.

and Senate HB 219 Committees

HB 219 PROHIBITION OF BROWN BEAR HUNTING AT DUMPS

Alaska Reform is a hunter organization researching garbage bear problems and illegal game parts trafficking in North America.

Since Oct. 1, 1988, when N.E. Chichagof Island was emergency closed to brown bear hunting due to overharvest, we began surveying successful hunters to precisely locate kills for 1986, 1987 and 1988. ADF&G recommended sustainable harvest was exceeded each year, specifically from bears taken within one mile of logging camp and community dumps.

Harvest records statewide indicate numerous other areas with similar situations. Because bears will gather at remote dump sites in numbers far beyond immediate carrying capacity, they become extremely susceptible to over-exploitation in these areas. Studies show that most (70 to 80 %) bears will visit dumps within their range, although some individuals may not. There is no distinct dump bear population which might be eventually eliminated through hunting.

ADF&G biologist John Schoen and Forest Service officials believe most illegal kills are linked to garbage dumps. Schoen also believes unreported kills outnumber legal take. Alaskas garbage management lags far behind the rest of the country.

Solutions to Alaska garbage problems are being actively adressed within the severely limited DEC budget capability. Progress is slow and protection of bears at dumps is vital if we are to maintain healthy populations. Illegal and defense kills are difficult to control. Legitimate sport hunting is controllable to a large extent.

In most other states, specific hunting restrictions near dumps are unnecessary due to local ordinances against discharge of firearms in public areas. Many states and provinces have specific distances from dumps closed to bear hunting. Reasons for such restrictions include 1. poor hunter image, unsportsmanlike, 2. vulnerability of bears and 3. public safety

Because of public complaints of wounded bears in 1983, the community of Craig closed their dump to hunting and imposed a \$10,000 fine. In a Jan. 1989 letter from the Craig P.D. it stated that since the closure, "complaints about problem bears are virtually nonexistent."

In Dillingham, (Nov. 13, Bristol Bay Times) "A young brown bear had to be destroyed after a trigger happy bear watcher critically wounded it." In Hoonah, July 1988, a brown bear had to be control killed by Hoonah P.D. near dump after being gut shot with a small caliber gun.

Few of these cases make the news. Few hunters actually identify the word "dump" on harvest tickets. The general public assumes it is illegal to hunt at dumps.

COMMENTS ON CURRENT BROWN BEAR POPULATIONS

Brown bear populations in AK have never been surveyed. There has, in fact, never been a method established to survey bears with any reliable degree of accuracy. The standard method used by ADF&G is harvest reports. Kill numbers can indicate relative densities if seasons, bag limits, access, method of hunting and hunter effort remain constant throughout the study period. Extrapolation from harvest data can reveal population trends, however quantitative densities cannot be determined.

A review of ADF&G biologist reports through 1988, area by area, year by year, shows brown bear populations in Alaska either "unknown", "decreasing", "possibly stable", and in 2 out of 26 units, "possibly increasing". These reports do not suggest an upward trend.

Personal observations of hunters, guides, myself and numerous other lifetime residents indicate fewer brown and black bear sightings statewide.

The most reliable method used to determine population stability is age chronology, percentage of females in the harvest and skull measurements of bears. All this information is available. Less exploited populations produce larger and older bears. More females and younger bears are killed in more exploited areas when larger males become depleted. All of these factors strongly suggest increased exploitation, with dramatic increases since 1985.

Apr. 1 - 1989

Rep. Gressendorf

I AM writing you this letter in support of your House Bill 219 - I support the closing of Garbage Dump Hunting in S.E. Alaska - FOR Brown Bears - I would like to see this state wide on ALL species of Bears - (Grizzly Black & c)

I AM state licensed Master Guide Lic # 37 - and a Member of IGLW # 4 FBKS Pioneers of Alaska - I have hunted S.E. Alaska since Territorial Days - and until June 1<sup>st</sup> of this year it is one of my state of Alaska Guide Board assigned restrictive guide areas - #SE-5

Due to the Methods of Harvesting Timber and Practices of Federal Government - and the Timber industry (Loggers) I have seen Bear Habitat and Bear Populations Deteriorate DRASTICALLY in the last 40 years - and I know, House Bill 219 is one step in the right direction to help the Bear survive - ~~AS~~ AS WE ALL KNOW - once they are gone that's it. Thank you  
J. Erickson

# ATTENTION HUNTERS!

-----

## Hunt bears and wolves in GMU 12 & 20E (and help manage our wildlife!)

-----

Moose and caribou numbers in Units 12 and 20E declined dramatically in the early 1970's and have been kept at low levels by bears and wolves since then.

Recent studies show that about 70% of moose calves and 7% of adult moose in this area are killed by predators each year. The high rate of caribou calf mortality (42-56%) between birth and fall is slowing growth of caribou numbers.

Moose and caribou numbers can be increased. The available habitat can support many more animals. By actively hunting bears and wolves, you are part of the management team temporarily reducing predation. In the long run, more prey will support more hunting and more predators. Success depends on you!

The Board of Game has increased grizzly bear hunting opportunities by relaxing regulations near Tok:

- |              |              |  |
|--------------|--------------|--|
| In 20E:      | -            | no \$25 bear tag required.   |
| In 12 & 20E: | -            | bears killed here don't count against the 1 bear per 4 year statewide limit. |
| Seasons:     | Grizzly bear | - GMU 12 - Sept. 1-June 30<br>GMU 20E- Aug. 10-June 30                       |
|              | Black bear   | - GMU 12 & 20E- no closed season   |
|              | Wolf         | - GMU 12 & 20E- Aug. 10-April 30   |

If you are hunting moose or caribou in GMU 12 or 20E, we encourage you to legally take a bear or wolf. You'll not only take a fine trophy, and possibly some excellent meat, you'll also be taking an active part in management of Alaska's wildlife.

-----

### Do your part.

Ben—

Hunt bears and wolves in Units 12 & 20E this fall.

The Grizzly and Black Bears of GMU 12 & 20 are fastly becoming very scarce - you can not put on a quality guided hunt for Grizzly at this time - yet - now flyer is the kind of information being handed out by our local state biologist) Kelly Jones

RECEIVED MAR 30 1988

March 28, 1989

Representative Cliff Davidson  
House of Representatives  
P.O. Box V  
Juneau, AK 99811

Dear Representative Davidson:

We urge support of HB 219 to ban hunting of Brown Bears statewide within one mile of a dump. Research shows a disproportionate harvest in areas around dumps since the bears tend to be extremely vulnerable when feeding within the dumps. Bears have a slow reproductive rate so we need support HB 219 and make efforts to clean dumps in areas of bear concentrations if we are going to maintain a healthy population within the state.

Sincerely,

Suzanne J. Murray  
Regional Associate

MY NAME IS JAY MASSEY AND MY ADDRESS IS P.O. BOX 429, GIRDWOOD, AK 99587. I'VE LIVED IN ALASKA FOR THE PAST 21 YEARS, AND WAS EMPLOYED BY THE ALASKA DEPARTMENT OF FISH & GAME FOR NINE YEARS. I'M A FORMER MEMBER OF THE ALASKA BOARD OF GAME.

I'M PLEASED TO TESTIFY ON HB 219 BECAUSE I FEEL THIS LEGISLATION IS BADLY NEEDED. GARBAGE DUMPS ACT AS UNNATURAL ATTRACTANTS TO BEARS. BEARS ARE ~~IS LIKE SOME HUMAN BEINGS. THERE~~ <sup>opportunistic.</sup> BASICALLY LAZY. MOST OF THEM WOULD PREFER A FREE HANDOUT OVER FORAGING FOR FOOD IN THE WILD. SO IT SHOULD BE NO SURPRISE TO ANYONE THAT A GARBAGE DUMP WILL DRAW IN BEARS FROM ALL DIRECTIONS.

I FEEL HUNTING BROWN/GRIZZLY BEARS SHOULD BE ILLEGAL AT ALL GARBAGE DUMPS IN ALASKA, AND THAT PERHAPS YOU SHOULD CONSIDER EXTENDING THIS PROHIBITION TO BLACK BEARS AS WELL. I HAVE THREE MAJOR CONSIDERATIONS: FIRST IS THAT GARBAGE DUMP BEAR HUNTING CAN <sup>have</sup> - AND HAS - HAD A CONSIDERABLE IMPACT ON SOME LOCAL BEAR POPULATIONS. IT'S A VERY EFFICIENT MEANS OF HARVESTING BEARS, <sup>and it is easily abused.</sup>

<sup>is all too often</sup> SECONDLY, GARBAGE DUMP BEAR HUNTING ~~SOMETIMES HAS COME TO BE~~ ASSOCIATED WITH ILLEGAL HUNTING - HUNTING OUT OF SEASON AND TAKING OVERLIMITS AND SOWS WITH CUBS. I THINK MOST OF THESE ILLEGAL BEARS WOULD NOT HAVE BEEN TAKEN HAD THERE BEEN A FLAT PROHIBITION ON <sup>which were</sup> HUNTING FROM GARBAGE DUMPS. I PERSONALLY KNOW OF SEVERAL BEARS TAKEN ILLEGALLY AT SUCH SITES.

MY THIRD OBJECTION TO GARBAGE DUMP HUNTING HAS TO DO WITH THE CONCEPT OF FAIR CHASE HUNTING. IT IS SIMPLY NOT GOOD FOR THE SPORT. IT IS AN UGLY SIDE OF HUNTING AND IT BOTHERS ME PERSONALLY.

I THINK YOU ALSO MIGHT *check into the definition of* ~~SPEND SOME TIME DEFINING WHAT CONSTITUTES~~ *solid waste disposal site.*  
"GARBAGE DUMP." I KNOW OF AT LEAST THREE ~~SHOULD BE~~ LEGAL BEAR BAITING STATIONS WITHIN 15 MILES OF MY HOME WHICH COULD ACCURATELY BE DESCRIBED AS GARBAGE DUMPS. THE LAST TIME I CHECKED THEM, EACH OF THESE BEAR BAITING STATIONS CONTAINED AT LEAST ONE HUNDRED POUNDS OF ASSORTED TRASH...OLD BEEF BONES, FISH CARCASSES, PLASTIC BAGS, GREASE CANS, ETC. *I'd like to see some restrictions placed on the amount of trash & garbage a person can dump out into the woods*

I THANK YOU FOR THE OPPORTUNITY TO TESTIFY ON THIS NEEDED BILL.

## House of Representatives

### MEMORANDUM

To: Rep. Cliff Davidson  
Rep. Curt Menard  
Co-Chairmen  
House Resources Committee

From: Rep. Ben Grussendorf

Date: March 28, 1989

Subject: House Bill 219

Over the past several years, the number of bears killed in and around solid waste disposal facilities - at least in my legislative district - has increased dramatically. The reason is simple: bears are naturally attracted to the waste food found in garbage dumps. The closer these dumps are to the bears' natural habitat, the easier it is for the bears to access them and, not surprisingly, be killed by hunters.

House Bill 219 would prohibit the taking of brown or grizzly bears within one mile of any solid waste disposal facility in Alaska, except in those instances when life or property is directly threatened by the bear. Anyone found guilty of violating the prohibition would be subject to a \$5,000 fine, a jail sentence of up to one year, and the forfeiture of the bear's hide and skull or an additional fine equal to the fair market value of the bear.

I realize that HB 219 is not a cure for the larger problem of improper waste disposal in those areas of rural Alaska where industries such as timber and mining must co-exist with wildlife. Several departments of the state and federal governments have been grappling with that issue for a number of years and have achieved limited success in certain instances. For example, in those areas where industry has been required to install incinerators for waste disposal, the incidence of "problem bears" will decrease. While I applaud and fully endorse the efforts being made to deal with the waste disposal issue, it appears to me that the solutions to those problems are several years down the road. I'm not at all sure that Alaska's brown and grizzly bear populations can stand the wait.

I want to bring to the Committee's attention the fact that the Alaska Board of Game this past week adopted a regulation which prohibits the taking of brown or grizzly bear within one-quarter mile of any solid waste disposal facility located on Admiralty, Baranof or Chichigof Islands. Because these areas are in my legislative district, and are home to a relatively high number of bears, my concern about this issue has been somewhat alleviated. I'm not yet convinced that one-quarter mile is a large enough area of prohibition, but it is a step in the right direction.

The decision of the Board of Game has no effect in other areas of the state. For this reason, I believe it is important for other House members to have a chance to review the issue in light of any concerns about their own districts and as matter of state policy. Attached to this memorandum is a list of those solid waste disposal facilities that have received operating permits from the Department of Environmental Conservation. This should give the Committee members a good indication of the facilities in their own districts that would be affected by the legislation.

Finally, I would urge the Committee to give particular attention to the testimony of Mr. Charles Rice; his research confirmed my suspicions about the high number of bears being taken in my district, and I believe he will be able to shed light on the problem as it relates to other areas of Alaska. A number of supporting documents provided to my office by Mr. Rice are also attached to this memorandum.

My thanks to the Co-Chairmen for granting me the opportunity to bring this matter to the attention of the House Resources Committee.

3-22-89

March 20, 1989

Rep. Grussendorf  
Box V (MS 3100)  
Juneau Alaska 99811

Dear Mr. Grussendorf,

I wholeheartedly support your efforts to close sport hunting of brown bears within one mile of designated dumps. In reality, it is a misnomer; one cannot sport hunt at a dump because there is no sport involved. This is hunting at its nadir- there is no planning, stalking or skill involved in taking animals at a dump. Brown bears are an important resource to many people throughout Alaska and the nation. They should be managed wisely and harvested in a fashion which guarantees a high quality hunt. This is especially so when dump hunting appears to be threatening brown bear populations in Southeast.

I urge you to include black and glacier bears in your bill. Dump hunting has no merit and does not deserve to be continued in any form.

This problem would not exist at all if the dumps were properly managed. The bears are attracted to the dumps because there is food there for them. If the people managing the lumber and mining dumps were to be more careful and incinerate their organic wastes, the bears would have little reason to frequent them. I'm not sure if you can do anything about more responsible management of those dumps, but would strongly encourage you to do so if it is possible.

Sincerely,

Larry Landry

March 9, 1989

Rep. Ben Grussendorf  
Box V (MS 3100)  
Juneau, AK 99811

Dear Representative Grussendorf,

I grew up in Anchorage and am currently a resident there. I am an avid outdoorsperson and love Alaska for many reasons, one of which is its unique wildlife.

I am pleased to hear that you are writing a bill to close the one mile radius around designated dump and landfill areas to the hunting of brown bears. I encourage you to also prohibit the dumphunting of glacier and black bears.

Not only is dumphunting a poor use of a valuable and unique wildlife resource, but shooting a bear at a dump shows a complete lack of sportsmanship. Tracking an animal and meeting it on its own terms are elements of a "quality hunt." I have no objection to well-managed harvest of animals through hunting, however dumphunting is cruel, unnecessary and irresponsible.

Besides this, bears are attracted to dumps because humans have failed to act responsibly towards our environment and towards the other creatures with whom we live. If we kept our landfills clean and buried our waste, bears would be less likely to forage for food in dump areas and would be less of a threat to human safety.

In addition, Alaska's bear population is sensitive to continued exploitation. A 1979 Alaska Department of Fish and Game report recommended that the harvest of brown bears be cut in half; since then, the harvest has doubled in some areas. We can not afford to stand idle as a species is legally over-hunted.

I support your efforts. I favor at least a one mile radius of protected area around dumps, and the protection of brown, black and glacier bears. Though I am not in your district, when you introduce your bill I will contact my legislators (Red Boucher, Virginia Collins, and Arliss Sturgulewski) and voice my feelings on this issue. I have sent a letter similar to this to the Board of Game.

Sincerely,

Karen Wood

March 20, 1989 →

Dear Sirs:

I support the closure of dumps to bear hunting. I am a bear hunter. I also enjoy seeing bears. Many bears are killed at dumps which is not what I call bear hunting, but is a needless waste of a dwindling natural resource. I would like to see stricter rules and penaltys regarding sanitary landfills, but in pursuing this the State must be on guard against other problems (such as the situation in one Southeast community that I'm very familiar with that was required to cover their sanitary landfill, so instead I understand that they now just haul their garbage out to the middle of the bay and dump it overboard.)

Juneau, Alaska  
March 9, 1989

Rep. Ben Grussendorf  
Alaska House of Representatives

Dear Rep. Grussendorf:

I am writing to thank you for your concern about the hunting of brown bears in the vicinity of garbage dumps. I am not entirely clear whether your bill to prohibit the hunting of bears within one mile of a dump is in conflict with the tradition that has developed of keeping the Legislature out of the province of the Boards of Fish and Game. However, I strongly believe that the Legislature needs to act in this area of an overwhelming threat to our brown bear populations, by one means or another.

The Greens Creek Mine, situated in one of the highest concentrations of brown bears in the world, has avoided problems for bears by strict dumping and littering regulations, strictly enforced, and by burning garbage in a high heat incinerator. Although such methods probably cannot be required of long-time existing villages, the State should require them of all logging camps and new resource-exploitation settlements in brown bear country. Otherwise, with the present rate of road building, logging and mining, we are going to run out of brown bears in your and my lifetimes.

I would particularly like to see the Legislature turn its attention to a portion of the Gulf of Alaska coast between Yakutat and Cordova that is home to a population of especially large-size brown bears. I'm talking about the coast between Icy Bay and Cape Suckling. I believe the bears in this area rival those of Kodiak Island in size, and most important part of their habitat extends from the beach to not very far inland. The State owns large stretches of land along the coast, including the whole stretch between Icy Bay and Cape Yakataga, with possibly some minor exceptions. The State has been selling the timber and a large logging show has been working its way for some years from Icy Bay toward Cape Yakataga, and has clear-cut the area from the beach back in (how far inland I'm not certain) from Icy Bay to at least the White River, with plans to continue onward.

In other words a great swath of once beautiful, pristine coast (exceptionally beautiful coast and exceptionally pristine, the kind of thing that has become exceedingly rare in the world) is being ruined as prime brown bear habitat. I would like to see you request a report on garbage dumping practices there and on the effect on brown bears of the logging activity in that region. I know that the Southeast Alaska Conservation Council has been taking an interest in this area and might be a source of information.

Again, thank you for your interest in the survival of brown bears. This part of the world would be sadly different without them.

Yours truly,  

Judy Brakel

Representative Ben Grussendorf  
Box V (MS 3100)  
Juneau, Alaska 99811

Dear Representative Grussendorf,

I strongly support your concern for the plight of Alaska's overhunted brown bears, and your determination to pass a bill closing dumpsites to hunting of brown bears. I hope that your bill also includes black and glacier bears, for they are vulnerable as well, and it is tragic that we so often merely attempt to correct our environmental blunders without learning from them. It is not only imminent danger of extinction from a range that should entitle wildlife to protection; often by the time such danger is recognized, the future of the population has already been jeopardized by depletion of its gene pool.

I urge you to hold to at least a one-mile radius in dump closure, and to the bill affecting all of Alaska. Thankyou for authoring and introducing this important legislation.

Respectfully,

Cynthia Monroe

P.S. I have sent a similar letter to the Board of Game.

March 2, 1989

Rep. Grussendorf  
Box V (MS 3100)  
Juneau, Alaska 99811

Dear Rep Grussendorf:

It has come to my attention that you are proposing a bill to close all designated dump areas to the hunting of brown bear. I urge you to continue with the endeavor and to expand the bill to include all bears within a three mile limit.

Actually I would like to see the complete closure of all brown and grizzly bear hunting. This species is in short supply all over the State and should be granted a reprieve from the constant and increasing hunting pressure. To my mind its a terrible shame that we kill an animal of this stature "just for fun" and call it sport. Our society is sick.

Please do what you can to end this useless slaughter.

Sincerely,

  
Thomas J. Classen

3-6-89

February 28. 1989

Rep. Ben Grussendorf  
PO Box V  
Juneau, AK 99811

Dear Representative Grussendorf,

I am writing to you about need to clean up dumps in villages and timber camps and to close the dump areas to any kind of sport (or other) hunting.

First, DEC needs clear direction and funding for getting villages and timber camps to clean up their dump sites. Enforcement is also needed - on an ongoing basis! People don't like the dump sites all smelly and spreading who-knows-what-diseases!

Hunting at dump sites isn't hunting - it's target practice! Our game - and in particular all our bears - are being killed off and wasted for the sake of fun and entertainment. I strongly support your legislation to close all designated dump areas to hunting of brown bears within a mile radius. What about polar, glacier and black bears? "Dump bears" are a problem throughout our state. When I lived in Dillingham, folks used to go out to the city dump to watch the bears -- for entertainment. Inevitably, a brown bear would get too close - and end up dead.

I applaud your efforts on behalf of keeping Alaska wild!

Sincerely,

Eleanor Thompson

Re: House Bill 219 "An Act prohibiting the taking of brown or grizzly bear near solid waste disposal facilities; and providing for an effective date."

Dear Representatives Goll and Gruenberg:

Some of our magistrates located in rural courts have suggested the additional fine in Sec 1 (b) be defined as a specific amount rather than the fair market value of the bear. The fair market value may be difficult to determine and may require additional evidentiary hearings.

Thank you for this opportunity to comment. I'll be happy to answer any questions about this suggestion.

Very truly yours,

  
Jan Strandberg

malicious publi- alicious defama-

made public by any printing or provoke him to wrath and to de-benefits of public confidence and It is a misdemeanor at common

er modern statutes unless it has been made a felony which is not common. Four elements are included: (1) defamation, (2) durable, (3) publication and (4) malice. It should be noted however that criminal sanctions for defamation of public officials is subject to same constitutional limitations as for civil actions. *Garrison v. State of Louisiana*, 379 U.S. 64, 85 S.Ct. 209, 13 L.Ed.2d 125. See also *Libel*.

**Criminal malversion.** A broad category of corrupt official practices. *Jimenez v. Aristeguieta*, C.A.Fla., 311 F.2d 547, 562.

**Criminal mischief.** A species of wilful and malicious injury to property made punishable by statutes in most jurisdictions.

**Criminal motive.** Something in the mind or that condition of the mind which incites to action or induces action, or gives birth to a purpose. Distinguishable from intent which represents the immediate object in view while motive is the ulterior intent.

**Criminal negligence.** That failure to use the degree of care required to avoid criminal consequences. Sometimes equated erroneously with wanton and reckless conduct. See *Criminal gross negligence, supra*; also, *Negligence*.

**Criminal non-support.** The wilful and unreasonable failure to support one whom the law requires a person to support (i.e. spouse and children). See *Non-support*; *Support*.

**Criminal proceeding.** One instituted and conducted for the purpose either of preventing the commission of crime, or for fixing the guilt of a crime already committed and punishing the offender; as distinguished from a "civil" proceeding, which is for the redress of a private injury. Strictly, a "criminal proceeding" means some step taken before a court against some person or persons charged with some violation of the criminal law. See also *Criminal procedure*.

**Criminal process.** Process which issues to compel a person to answer for a crime or misdemeanor; e.g. arrest warrant. See also *Indictment*; *Information*; *Process*; *Warrant*.

**Criminal prosecution.** An action or proceeding instituted in a proper court on behalf of the public, for the purpose of securing the conviction and punishment of one accused of crime.

**Criminal syndicalism.** Any doctrine or precept advocating, teaching or aiding and abetting the commission of crime of sabotage or unlawful acts of force and violence or unlawful methods of terrorism as a means of accomplishing a change in industrial ownership or control or affecting any political change. *Gitlow v. New York*, 268 U.S. 652, 45 S.Ct. 625, 69 L.Ed. 1138. The advocacy of sabotage, violence, terrorism, or other unlawful methods for revolutionary purposes. See also *Syndicalism*.

**Criminal trespass.** The offense committed by one who, without license or privilege to do so, enters or surreptitiously remains in any building or occupied

structure. Model Penal Code, § 221.2. Offense is committed when a person without effective consent enters or remains on property or in building of another knowingly or intentionally or recklessly when he had notice that entry was forbidden or received notice to depart but failed to do so. *Day v. State*, Tex.Cr.App., 532 S.W.2d 302, 306.

**Criminalist.** One versed in criminal law, one addicted to criminality, and, also, a psychiatrist dealing with criminality. *People v. Taylor*, 152 Cal.App.2d 29, 312 P.2d 731, 734; *Douglas v. State*, 42 Ala.App. 314, 163 So.2d 477, 486.

**Criminalistics.** The science of crime detection, based upon the application of chemistry, physics, physiology, psychology, and other sciences. See also *Criminology*.

**Criminaliter** /krimōnēylōdər/. Lat. Criminally. This term is used, in distinction or opposition to the word "civiliter," civilly, to distinguish a criminal liability or prosecution from a civil one.

**Criminalization.** The rendering of an act criminal and hence punishable by the government in a proceeding in its name.

**Criminal justice system.** The network of courts and tribunals which deal with criminal law and its enforcement.

**Criminal law.** The substantive criminal law is that law which for the purpose of preventing harm to society, (a) declares what conduct is criminal, and (b) prescribes the punishment to be imposed for such conduct. It includes the definition of specific offenses and general principles of liability. Substantive criminal laws are commonly codified into criminal or penal codes; e.g. U.S.C.A. Title 18, California Penal Code, Model Penal Code. Compare *Criminal procedure*.

**Criminal procedure.** Criminal procedure is concerned with the *procedural* steps through which a criminal case passes, commencing with the initial investigation of a crime and concluding with the unconditional release of the offender. Generic term to describe the network of laws and rules which govern the procedural administration of criminal justice; e.g. laws and court rules (e.g. Rules of Criminal Procedure) governing arrest, search and seizure, bail, etc. Compare *Criminal law*. See also *Code of criminal procedure*.

**Criminal protector.** An accessory after the fact to a felony. *Skelly v. U. S.*, 10th Cir., 76 F.2d 483. One who aids or harbors a felon after the commission of a crime.

**Criminal registration.** Statutes in certain jurisdictions require that persons who are convicted felons register with the police so that their presence in the community will be known at all times. *Lambert v. California*, 355 U.S. 225, 78 S.Ct. 240, 2 L.Ed.2d 228.

**Criminal sanctions.** Punishments attached to conviction of crimes such as fines, probation and sentences. See also *Civil death*.

**Criminal statutes or codes.** Federal and state laws enacted by legislative bodies which define, classify,

AMENDMENT

Offered in the SENATE

To: CSHB 219 (Jud)

Page 2, line 11:

Delete "has the meaning given in AS 46.03.900."

*garbage*  
Insert "means a solid waste disposal facility for which a  
permit has been issued under AS 46.03.100."

SE AK

Sec. 46.03.080. Quality and purity standards. After study and public hearings held upon due notice, the department may establish standards of quality and purity or group the designated waters of the state into classes as to minimum quality and purity, or both. The department shall classify waters in accordance with considerations of best usage in the interest of the public. The department may alter and modify classifications after hearing. (§ 3 ch 120 SLA 1971)

Collateral references. — Statute prescribing standard of purity of water furnished for human consumption. 6 ALR 475.

Sec. 46.03.090. Plans for pollution disposal. The department may require the submission of plans for sewage and industrial waste disposal or treatment or both for a publicly or privately owned or operated industrial establishment, community, public or private property subdivision or development. (§ 3 ch 120 SLA 1971)

Sec. 46.03.100. Waste disposal permit. (a) A person who conducts an operation which results in the disposal of solid or liquid waste material or heated process or cooling water into the waters or onto the land of the state must procure a permit from the department before disposing of the waste material or water. The permit must be obtained for direct disposal and for disposal into publicly operated sewerage systems.

(b) A permit for disposal of a hazardous waste may not be adopted under this section unless the applicant for the permit has furnished proof to the commissioner of financial ability to control the hazardous waste. Proof of financial responsibility may be demonstrated by self-insurance, insurance, surety, or guarantee, under regulations adopted by the department. Acceptance of proof of financial responsibility under this subsection expires

- (1) one year from its issuance for self-insurance;
- (2) on the effective date of a change in the surety bond, guarantee, or insurance agreement; or
- (3) on the expiration or cancellation of the surety bond, guarantee, or insurance agreement.

(c) This section does not apply to a person discharging only domestic sewage into a sewerage system.

(d) This section does not apply to injection projects permitted under AS 31.05.030(h). (§ 3 ch 120 SLA 1971; am § 3 ch 220 SLA 1976; am § 9 ch 93 SLA 1981; am § 4 ch 91 SLA 1984)

Revisor's notes. — Reorganized in 1987 by designating former subsections (b) and (c) as present subsections (c) and (b).  
Effect of amendments. — The 1984 amendment added subsection (d).

Cross references. — For compliance Opinions of attorney general. — This

(18) "pesticide" means any chemical or biological agent intended for preventing, destroying, repelling, or mitigating plant or animal life and any substance intended for use as a plant regulator, defoliant or desiccant, including but not limited to insecticides, fungicides, rodenticides, herbicides, nematocides and biocides;

(19) "pollution" means the contamination or altering of waters, land or subsurface land of the state in a manner which creates a nuisance or makes waters, land or subsurface land unclean, or noxious, or impure, or unfit so that they are actually or potentially harmful or detrimental or injurious to public health, safety or welfare, to domestic, commercial, industrial, or recreational use, or to livestock, wild animals, bird, fish, or other aquatic life;

(20) "resource recovery" means the recovery of materials or energy from solid wastes for industrial use, agriculture, heat production, power production, or other processes or purposes and includes the reuse of materials or products to conserve natural resources;

(21) "restricted-use pesticides" means pesticides that are classified for restricted use under 7 U.S.C. 136a(d)(1)(C) (sec. 3(d)(1)(C), Federal Insecticide, Fungicide, and Rodenticide Act), as amended;

(22) "sewage" means the water-carried human or animal wastes from residences, buildings, industrial establishments, or other places, together with ground water infiltration and surface water as may be present; the admixture with sewage of industrial wastes or other wastes is "sewage";

(23) "sewer system" or "sewerage system" means pipelines or conduits, pumping stations, and force mains, and all other appurtenant constructions, devices, and appliances used for conducting sewage, industrial waste, or other wastes to a point of ultimate disposal;

(24) "solid waste" means all unwanted, abandoned, or discarded solid or semi-solid material whether or not subject to decomposition, originating from any source;

(25) "solid waste disposal facility" means a facility for the discharge, deposit, injection, consolidation, or placement of solid waste into or onto the land and includes transfer stations and sanitary landfills;

(26) "solid waste processing facility" means a facility for the extraction of materials from solid waste, volume reduction, conversion to energy, or other separation and preparation of solid waste for reuse or disposal and includes incinerators, shredders, balers, and transfer stations;

(27) "standard" means the measure of purity or quality for air, water, and land in relation to their reasonable and necessary use as established by the department;

(28) "storage" means the containment of hazardous waste, either on a temporary basis or for a period of years, in a manner that does not constitute disposal of the hazardous waste;

section confers upon the Department of Environmental Conservation permit authority over dredge or fill activities, including residential subdivisions, within wetlands, estuaries, and inland and coastal marshes periodically inundated by discernible bodies of fresh or salt water upland from the mean high tide line to the extent of the aquatic or salt water vegetation line. November 13, 1975 Op. Att'y Gen.

Dredge or fill activities in coastal and fresh water wetlands shoreward to the aquatic vegetation line do result in the

disposal of solid waste material into the waters of the state within the meaning of this section and thus, to the extent that these activities are of a commercial or industrial nature, do require a permit from the Department of Environmental Conservation. November 13, 1975 Op. Att'y Gen.

The state has jurisdiction to require permits of government contractors discharging sewage from a federally-owned treatment plant. June 28, 1977 Op. Att'y Gen.

**Sec. 46.03.110. Waste disposal permit procedure.** (a) An application for a permit shall be made on forms prescribed by the department or on forms prescribed by the United States Environmental Protection Agency and shall contain the name and address of the applicant, a description of the applicant's operations, the quantity and type of waste material sought to be disposed of, the proposed method of disposal, and any other information considered necessary by the department. Application for permit shall be made at least 60 days before commencement of a proposed discharge.

(b) Upon receipt of a proper application the department shall publish notice of the application in two separate publications of a newspaper of general circulation within the general area in which the disposal of waste material is proposed to be made. The notice may also be published in other appropriate information media. The notice shall include a statement that a person who wants to present views to the department in regard to the application may do so in writing to the department within 30 days of the second publication of the notice. The written response entitles the writer to a copy of the application.

(c) When the department receives an application, the commissioner shall immediately send copies of the application to the commissioner of fish and game, the commissioner of natural resources, the commissioner of commerce and economic development and the commissioner of health and social services.

(d) The department may specify in a permit the terms and conditions under which waste material may be disposed of. The terms and conditions shall be directed to avoiding pollution and to otherwise carry out the policies of this chapter. A permit may not be effective for a period in excess of five years from the date of issuance.

(e) If the department has certified a National Pollutant Discharge Elimination System permit under 33 U.S.C. 1341 (sec. 401, Federal Water Pollution Control Act Amendments of 1972), and the United States Environmental Protection Agency has issued that permit to a person, the department may waive the requirements of this section, and adopt the federal permit as the permit required under AS

March 13, 1989

The Honorable Ben F. Grussendorf  
Alaska State Representative  
P.O. Box V  
Juneau, AK 99811

Dear Representative Grussendorf:

Thank you for the opportunity to comment on draft legislation pertaining to the taking of brown/grizzly bears near solid waste disposal sites. I have discussed the issue of brown bear hunting near dumps with Lew Pamplin, Director of the Division of Wildlife Conservation, who in turn has considered this issue in detail with his senior staff. As a result of these discussions, we offer the following observations.

It is our view that the regulation of bear hunting near waste disposal sites is a matter that most appropriately should be addressed by the Board of Game. The board will consider this question when it deliberates on proposal #130 during its current meeting being held in Anchorage (March 6-22).

The department has a number of concerns related to the content of the proposed legislation. Although the taking of bears at garbage dumps is not aesthetically attractive, it does not pose a threat to the welfare of brown bears in most areas of the state. Currently local residents can harvest "problem" bears during open seasons, thereby eliminating the need for government action to eliminate problem bears. In areas of the state where settlements are few and bear populations are healthy, denying the public this option is difficult to justify. In many cases, problem bears would be killed anyway, and simply not reported, resulting in a loss of information and a waste of the resource.

Northeastern Chichagof Island in Game Management Unit 4 is an area where we do have serious concerns about the impact of refuse disposal on brown bears. However, the establishment in 1988 of the Northeast Chichagof Controlled Use Area and the accompanying prohibition on use of motorized land vehicles to hunt brown bears will make legal taking very difficult near dumps such as the Hoonah disposal site.

The Honorable Ben F.  
Grussendorf

-2-

March 13, 1989

It is important to realize that bears frequenting garbage dumps near communities will eventually have to be destroyed one way or the other. The real problem is improper handling of refuse. The Department of Fish and Game is working cooperatively with the Department of Environmental Conservation, the Department of Public Safety, and the U. S. Forest Service to scrutinize all permitted disposal sites and to make permit renewal contingent upon elimination of food items which will attract bears and other wildlife. Considerable progress has been made in the two years this forum has existed.

When the Board of Game deliberates on proposal #130, we will express our concern over bears in Unit 4, and will be prepared to work toward a regulatory solution if the board so desires.

I hope these comments will serve to point out the complexity of this issue. The department does not endorse hunting bears at dumps. But we do see the elimination of dumps as attractive nuisances as the ultimate and best solution where real problems exist.

Sincerely,

  
Don W. Collinsworth  
Commissioner

4 SIXTEENTH LEGISLATURE - FIRST SESSION

5 A BILL

6 For an Act entitled: "An Act prohibiting the taking of brown or grizzly  
7 bear near solid waste disposal facilities; and pro-  
8 viding for an effective date."

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

10 \* Section 1. AS 16.05 is amended by adding a new section to read:

11 Sec. 16.05.782. TAKING OF BROWN OR GRIZZLY BEAR NEAR SOLID WASTE  
12 DISPOSAL FACILITY PROHIBITED. (a) A person who with criminal negli-  
13 gence takes a brown or grizzly bear within one mile of a solid waste  
14 disposal facility is guilty of a class A misdemeanor.

15 (b) In addition to the penalty imposed by law, the court shall  
16 order forfeiture of the hide and skull of the bear, but if the hide  
17 and skull are not salvaged then the court shall impose an additional  
18 fine equal to the fair market value of the bear.

19 (c) It is a defense to prosecution under this section that the  
20 person took the bear in defense of life or property if the

21 (1) necessity for the taking is not brought about by  
22 harassment or provocation of the bear or by an unreasonable invasion  
23 of the bear's habitat by the person who takes the bear;

24 (2) necessity for the taking is not brought about by the  
25 improper disposal of garbage or the creation of a similar attractive  
26 nuisance by the person who takes the bear; and

27 (3) person exhausts all other practicable means to protect  
28 life and property before the bear is taken.

29 (d) In this section

1 (1) "criminal negligence" has the meaning given in AS 11.-  
2 81.900(a);

3 (2) "property" means

4 (A) a dwelling, permanent or temporary;

5 (B) an aircraft, boat, automobile, or other convey-  
6 ance;

7 (C) a domestic animal;

8 (D) other property of substantial value necessary for  
9 the livelihood or survival of the owner;

10 (3) "solid waste disposal facility" has the meaning given  
11 in AS 46.03.900.

12 \* Sec. 2. This Act takes effect July 1, 1989.

## House of Representatives

### MEMORANDUM

To: Sen. Bettye Fahrenkamp  
Chairman  
Senate Resources Committee

From: Rep. Ben Grussendorf

Date: April 25, 1989

Subject: House Bill 219  
"An Act prohibiting the taking of bears near solid waste disposal facilities; and providing for an effective date."

House Bill 219 provides that any person who, with criminal negligence, takes a brown or grizzly bear within one mile of a solid waste disposal facility is guilty of a class A misdemeanor, unless that person can show by a preponderance of the evidence that the bear was taken in defense of life or property. In addition to the present penalty for class A misdemeanors (up to one year in jail and a fine of up to \$5000), the person would be required to forfeit the hide and skull of the bear to the state. If the person fails to deliver the hide and skull to the state, the court would impose an additional fine of up to \$10,000.

The purpose of House Bill 219 is to relieve some of the pressure being felt by brown and grizzly bear populations in those areas of the state where garbage dumps and other man-made attractants are serving as large "bait stations". Bears are naturally attracted to these areas and are becoming easy prey for hunters. Given the fact that the "bait hunting" of brown and grizzly bears has been prohibited by the Alaska Board of Game, it makes little sense to allow hunters to take these bears around garbage dumps and landfills. The bill in no way restricts the power of the Board of Game to set seasons and bag limits for bear hunters; it does, however, correct what I believe to be a glaring inconsistency in state policy relative to the taking of brown and grizzly bears.

House Bill 219 received solid support in the House, and I hope to see it enacted during the closing days of this legislative session. To that end, I respectfully request that you give consideration to House Bill 219 when preparing the schedule of bills to be heard by the Senate Resources Committee during the next two weeks.
