MEMORANDUM

TO: Representative Dave Donley, Chair
House Judiciary Committee

FROM: Senator Virginia Collins 

DATE: March 28, 1991

RE: Request for hearing: Senate Bill 43,
"An Act authorizing a registered nurse to determine and
pronounce death under certain circumstances."

I respectfully request that you schedule the above-referenced bill, SB 43, for hearing at your earliest convenience. This bill passed the Senate by a unanimous vote and it passed the House HESS Committee with a unanimous "do-pass."

Attached herewith are the following:

1. Sponsor statement
2. A zero fiscal note from the Department of Health & Social Services
3. A zero fiscal note from the Department of Commerce & Economic Development
4. A zero fiscal note from the Department of Administration
5. A position paper from the Department of Health & Social Services
6. A position paper from the Department of Commerce & Economic Development
7. A position paper from the Department of Administration
8. Back-up which includes:
 - a. A written statement by Carol Clausson, R.N.
 - b. A letter from Division of Occupational Licensing
 - c. A letter of support from the Alaska Medical Association

If you have any questions regarding the above, please do not hesitate to contact me or Marveen Palmer at 465-2828. Thank you for your attention to this request.

SPONSOR STATEMENT

Senate Bill 43

Senate Bill 43, "An Act authorizing a registered nurse to determine and pronounce death under certain circumstances."

This bill would clarify statutes and allow registered nurses to pronounce death when death is anticipated and the physician has given written authorization for the nurse to make the pronouncement. If death occurs in a health care facility, a registered nurse would be allowed to pronounce death when the physician has given written authorization and when it is in accordance with the written regulations of that facility.

This would alleviate undue stress and emotional trauma for the family of the individual who died. Currently, nurses have to wait for many hours (often 4-10 hours) until the attending physician or emergency room physician arrives to pronounce death. Until that pronouncement is made, the family is kept in turmoil while life-sustaining care is continued (such as the continuation of IV's, etc.). Not only could there be reduction of mental stress, but costs could be reduced.

Once pronouncement is made, the life-sustaining measures can cease. The physician would still be required to sign the certification of death except in certain circumstances already in statute or regulation. Those exceptions primarily address isolated areas of the bush.

SB 43 is supported by the Alaska Board of Nursing, the Alaska Nurses' Association, the Alaska Medical Association, the Department of Health and Social Services, the Department of Commerce and Economic Development, and the Department of Administration. SB 43 has 3 zero fiscal notes. It passed the Senate by an 18-0 vote.

Approximately 14 states allow a nurse to pronounce death under certain circumstances. Most of these laws have been enacted within the past 10 years as more nurses have become involved with the terminally ill patient.

NOTE: The Senate Hess Committee substitute reflects only technical changes.

I would appreciate your support of Senate Bill 43.

Committee Substitute
Senate Bill No. 43

For an Act entitled: "An Act authorizing a registered nurse to determine and pronounce death under certain circumstances."

SB 43 allows Registered Nurses to determine and pronounce death in a specific set of circumstances with written prior approval of finite duration from an attendant physician.

While the Department believes that current statutes and regulations are permissive enough to allow this activity, current practice in many facilities appears to exclude RNs from determining and pronouncing death. This practice, at least in the limited context of SB43, results in unnecessary delays and could result in unnecessary and potentially life-threatening calls to EMTs.

The Department believes that SB 43, as it is currently structured, will have no impact on the Department. Since the bill addresses actual and potential problems, the Department supports its passage.

Recommended:

Alfred G. Zangri
Acting Director
Division of Public Health

Date: 2/1/91

Approved:

Theodore Mala, M.D., M.P.H.
Commissioner
Department of Health
and Social Services

Date: 2/1/91

CSSB 43 (HESS): An Act authorizing a registered nurse to determine and pronounce death under certain circumstances.

CSSB 43 (HESS) adds a new section to AS 08.68 which will allow registered nurses to pronounce death under certain circumstances. These circumstances include: (1) that an attending physician has documented in the person's medical or clinical record that the person's death is anticipated; (2) that upon documentation by the physician, the physician may authorize a specific registered nurse or nurses to make the death pronouncement; and (3) that nurses employed by health facilities may also pronounce death under established facility procedures.

At the November 1990 meeting of the Board of Nursing, the board endorsed the concept of nurses pronouncing death. The board believes registered nurses to be educationally and clinically prepared to pronounce death under the circumstances described. The board also believes it is in the best interests of the patient's family to have the nurse, who has been working with the family, to make the death pronouncement rather than calling paramedics and/or local law enforcement individuals into the home to pronounce death for the person who chooses to die at home.

The department's previous concern over item (f) which grants the Department of Health and Social Services the authority to adopt regulations to implement this section has been resolved and, therefore, the department supports passage of CSSB 43 (HESS).

Glenn A. Olds, Commissioner

1991 LEGISLATION
POSITION PAPER
DEPARTMENT OF ADMINISTRATION

Division Pioneers' Benefits Bill Number CSSB43 (HES)

Bill Title An act authorizing a registered nurse to determine and pronounce death under certain circumstances.

Position Statement: Explain briefly what bill does, its impacts and Department's position, i.e.
a) support, b) do not support, c) neutral or d) oppose.

This is a bill that appears long overdue within the practice of long-term care nursing, because the physicians have comfortably relied on the skills of the registered nurses to determine and pronounce death. A physician is very seldom present when a resident dies and may not be readily available to complete the required documentation. The nursing staff in the homes expressed support for this bill.

This bill is also supported by the Alaska Medical Association and the Alaska Nurses' Association.

Carol Clausson
13200 Ridgeview Drive
Anchorage, Alaska 99516

Dear Carol:

Thank you for attending the Board of Nursing Meeting on November 1, 1990, where the Board of Nursing addressed the issue of registered nurses pronouncing death.

The board did pass a motion at that meeting to support the Alaska Nurses Association's proposal for pronouncement of death by registered nurse if the death is anticipated, that is which is in the opinion of the attending physician expected due to illness, infirmity or disease. The board appreciates the information that you shared from the research which you conducted which explored the issue in other states.

Carol, you are to be commended for your efforts to pursue this issue. The Board of Nursing wishes you the best of luck in meeting your goal during the next legislative session. If we can be of any further assistance, do not hesitate to contact us.

Sincerely,

Gail M. McGuill, RN
Executive Secretary
Alaska Board of Nursing

**THE FOLLOWING PAGES MAY
NOT FILM LEGIBLY BECAUSE OF
THE POOR QUALITY OF THE ORIGINAL**

The Alaska Nurses Association State Legislative Committee is making an effort to allow the Registered Nurse in Alaska to pronounce death under certain circumstances.

In the hospital setting, we assert that having either the attending physician or emergency room physician pronounce death can result in a delay in the pronouncement which may in turn result in a period of anxiety for the patients family. The same holds true for the Home health/Hospice setting where EMTS may pronounce. In Alaska's unique rural setting, where State Troopers may pronounce, there could be quite a delay.

This issue was voted on at the ANA Convention in March of 1990 and there were no opposing votes. The State Board of Nursing voted to endorse our efforts.

Research was conducted exploring the issue in other states. Forty states responded to our inquiry. The results were as follows: Nurses may pronounce death in fifteen states. Seventeen states do not allow for it. Six other states do not allow for it; however, attempts are being conducted to change this. Two states responses were unclear.

We propose that a Registered Nurse in the State of Alaska be permitted to pronounce death under these circumstances: if the death is an anticipated death, a death which is, in the opinion of the attending physician, expected due to illness, infirmity or disease.

Carol Claussion R.N.
ANA District : Board Member
ANA State Legislative Committee
