SPONSOR STATEMENT

CS HB 139 (HESS) - Pollution Prevention & Recycling Recognition Awards

CS HB 139 (HESS)

CS HB 139 (HESS) would provide for the public recognition of pollution prevention, waste reduction and recycling efforts.

Specifically, the legislation would:

- 1) Establish an Alaska school recycling awards program. Subject to available funding, DEC would be authorized to award grants of up to \$2,000 each to public schools in recognition of their waste reduction and recycling efforts;
- 2) Authorize DEC to "identify, document and publicly acknowledge exemplary pollution prevention achievements by individuals, businesses or government agencies;" and
- 3) Authorize DEC to accept contributions from private sources to fund the recognition awards.

Discussion

Each day, Alaskans produce approximately 3 to 5 pounds of solid waste per person. Each year, it is estimated that the state produces as much as 1 billion pounds of trash. Many communities throughout Alaska are confronted with a landfill capacity shortage that will require substantial capital investments to address. The Department of Environmental Conservation has identified the need for tens of millions of dollars in additional investment for new landfills and to address solid waste management problems. At the same time, new federal landfill design requirements are making the development of new landfills increasingly expensive.

Last legislative session, the legislature enacted a statutory hierarchy as part of HB 478 (see AS 46.06.021) that promotes solid and hazardous waste management practices in the following order of priority:

- 1) waste source reduction
- 2) recycling of waste
- 3) waste treatment; and
- 4) waste disposal.

Waste reduction and recycling must be a fundamental part of Alaska's solid waste management effort. While significant opportunities exist for waste reduction and recycling, public education is essential to ensure that individuals are aware of these opportunities. Furthermore, the future success of Alaska waste reduction and recycling is critically dependent upon the positive attitudes and behavior of young Alaskans.

CS HB 139 (HESS) is a cost-effective investment in Alaska's future solid waste management. By establishing a recognition awards program for waste reduction and recycling efforts, the state can help educate and promote opportunities for pollution prevention. The extent to which Alaskans can succeed in diverting solid waste from our landfills and establish successful recycling programs will enable the state to avoid the needless expenditure of millions of dollars for costly landfill capacity additions.

Recognition awards for successful pollution prevention efforts will also help small business by identifying positive solutions to pollution problems that can have economic as well as environmental benefits. Some examples include,

- the efforts of an Anchorage manufacturing company to automate its bottle filling process resulting in the reduction of discharged ammonia;
- the decrease in solvent waste by an Anchorage dry-cleaner through a modification of its process allowing for the reuse of solvent and a reduction in solvent discharges; and
- the success of an Alaska newspaper to substitute non-toxic soy-based inks for petroleum based inks resulting in a reduction in the paper's hazardous waste management liabilities as well as a reduction in occupational health hazards.

These are the kinds of pollution prevention, waste reduction and recycling efforts that CS HB 139 (HESS) will recognize, encourage and award.

A recent survey of Alaska consumers found that 90% of the respondents felt that solid waste recycling was a community priority. The survey also found that about a third (31%) of the respondents lacked sufficient information about how to recycle more. In significant part, these impediments can be overcome by better education together with the kind of positive incentives and reinforcement provided through CS HB 139 (HESS).

CS FOR HOUSE BILL NO. 139 (HES)
IN THE LEGISLATURE OF THE STATE OF ALASKA
SEVENTEENTH LEGISLATURE - FIRST SESSION

BY THE HOUSE HEALTH, EDUCATION AND SOCIAL SERVICES COMMITTEE

Offered: 3/15/91

Referred: Resources, Finance

Sponsor(s): REPRESENTATIVES BROWN, Ellis, Ulmer, Boyer, Finkelstein, Koponen, Kubina, Navarre

A BILL

FOR AN ACT ENTITLED

1 "An Act relating to public recognition of, and incentives for, pollution prevention and
2 waste reduction and recycling efforts; and providing for an effective date."

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. FINDINGS. The legislature finds that

5 (1) waste reduction and recycling must be a fundamental part of a comprehensive solid
6 waste management effort;

7 (2) the success of waste reduction and recycling initiatives is largely dependent upon the
8 current and future behavior of consumers in the state; and

9 (3) while significant opportunities for waste reduction and recycling exist, public
10 education is required to ensure that consumers are aware of these opportunities.

11 * Sec. 2. AS 46.03 is amended by adding a new section to article 2 to read:

12 Sec. 46.03.045. PUBLIC RECOGNITION OF POLLUTION PREVENTION EFFORTS.

13 In addition to the school awards program under AS 46.11.070, the department may identify,
14 document, and publicly acknowledge exemplary pollution prevention achievements by individuals.

1 businesses, or government agencies in the state.

2 * Sec. 3. AS 46.11 is amended by adding a new section to read:

3 Sec. 46.11.070. WASTE REDUCTION AND RECYCLING AWARDS FOR SCHOOLS.

4 (a) In consultation with the Department of Education, the Department of Environmental
5 Conservation shall establish a waste reduction and recycling awards program under which the
6 Department of Environmental Conservation may annually, subject to available funding, award
7 grants of up to \$2,000 each to public schools in recognition of their efforts and the efforts of
8 their students to reduce and recycle waste generated in the administrative offices, classrooms,
9 laboratories, cafeterias, and maintenance operations of the schools.

10 (b) The Department of Environmental Conservation shall, on request, provide technical
11 assistance to schools concerning their opportunities to reduce and recycle wastes.

12 (c) The Department of Environmental Conservation shall adopt regulations to implement
13 the awards program. For purposes of evaluating school waste reduction and recycling programs,
14 the department may group schools according to geographical location, student population,
15 distance to recycling markets, or other criteria considered appropriate by the department.

16 (d) The Department of Environmental Conservation may accept and use restricted grants
17 of money or other assistance from private persons or groups to fund the awards made under (a)
18 of this section.

19 (e) The Department of Environmental Conservation may not use state money to fund
20 awards made under (a) of this section unless an appropriation is made specifically for the
21 purposes of (a) of this section.

22 * Sec. 4. This Act takes effect immediately under AS 01.10.070(c).

Sectional Analysis

CSHB 139 (HESS) — Pollution Prevention Recognition Awards

Section 1

Findings.

Section 2

Provides authority for the Department of Environmental Conservation to "identify, document, and publicly acknowledge exemplary pollution prevention achievements by individuals, businesses or government agencies in the state."

Section 3

Establishes a school recycling awards program to be administered by the Department of Environmental Conservation in consultation with the Department of Education. Subject to available funding, DEC is authorized to award recognition grants of up to \$2,000 each to public schools in recognition of efforts to reduce and recycle waste generated by the school. The department would provide technical assistance to schools upon request.

Allows the department to accept contributions from private sources to fund the recognition awards and requires that the department may not use state money to fund awards unless an appropriation is made specifically for that purpose.

Section 4

Effective date.

FISCAL NOTE ANALYSIS

\$10.0 will be used to publicly recognize exemplary pollution prevention efforts by individuals, businesses, or government agencies and to promote the waste reduction and recycling awards for schools. \$20.0 will be used to award grants of up to \$2.0 each to public school in recognition of their reduction and recycling efforts. \$10.0 is anticipated as being collected from private sources in each of the first two fiscal years. By FY 94, the Department would propose to fund all school grants from private donations.

Survey by Anchorage Recycling Center-Sent to Anchorage
Refuse customers in April 1990:

1. Do you consider a solid waste recycling program a community priority?

YES: 3162/3514 90% NO: 367/3514 10%

2. Do you currently recycle?

YES: 2701/3514 77% NO: 812/3514 23%

3. Would you be willing to separate your recyclables if pick-up occurred at your home?

YES: 3307/3514 94% NO: 207/3514 6%

4. The value of recyclables will not support curbside pick-ups. Will you be willing to pay more than your current refuse bill for curbside pick-up of recyclables?

YES: 1994/3514 57% NO: 1520/3514 43%

5. If yes, how much more?

\$5.00: 1617/3514 46% \$10.00: 291/3514 8%

\$15.00: 75/3514 2% N/A: 1532/3514 44%

6. Should recycling be subsidized by:

Grants: 969/3514 28% Taxes: 673/3514 19%

User: 967/3514 27% None:1018/3514 29%

N/A: 545/3514 16%

7. What prevents you from recycling more?

Does not pay:	437/3514	13%
Not sure where to take it:	1095/3514	31%
Inconvenient	1894/3514	54%
Not interested	44/3514	1%
N/A	702/3514	20%

8. Do you believe garbage pick-up should be mandatory in Anchorage?

Yes: 1901/3514	54%	NO: 1611/3514	46%
----------------	-----	---------------	-----

9. Business using cardboard: Will you put cardboard in a separate dumpster if you receive a 10% rebate on disposal pick-up?

YES: 1139/3514	32%	NO: 2313/3514	66%
----------------	-----	---------------	-----

Focus

THE WASTE NOT WASHINGTON ACT

The 1989 Washington Legislature passed ESHB 1671, a comprehensive solid waste bill that will bring about significant changes in the way Washington citizens handle their garbage. The bill calls for waste reduction and source separation to become the fundamental strategies of solid waste management and establishes an aggressive state goal to achieve a fifty percent recycling rate by 1995. Local governments will play a very important role in meeting this goal by including waste reduction and recycling elements in their comprehensive solid waste management plans. Other key provisions of the bill are outlined below.

Funding for the activities under the bill will be provided partly through a surcharge of one percent on solid waste collection. A family setting out one garbage can per week will pay a maximum of 96¢ per year. Those with two cans or more per week will pay up to \$1.44 per year. Counties may also impose a fee on collection services in unincorporated areas to pay for solid waste planning and administration expenses.

Waste Reduction and Recycling Elements of Local Plans

Local governments have been required to prepare solid waste management plans detailing how they will manage their garbage since the early 1970s. Now, cities and counties will be required to include waste reduction and recycling elements in their solid waste management plans written according to guidelines developed by the Department of Ecology. Curbside collection of recyclable materials will likely be required in most urban areas of the state. The plans must also address collection of recyclables in rural areas, monitoring of collection at nonresidential sites, and collection of yard wastes.

Waste Reduction and Recycling Education

A comprehensive statewide public information program to encourage waste reduction, source separation, and recycling will be developed by the Department of Ecology. Local governments must also conduct educational programs to inform residents how to reduce and recycle their wastes. The Department will provide grants to local governments to assist with their educational efforts.

Waste Composition/Recycling Survey

The Department of Ecology will conduct a yearly waste composition and recycling survey to track the progress toward meeting waste reduction and recycling goals. Washington was one of the first states in the nation to conduct waste stream analysis and will continue to lead the way in this regard.

Collection Authority for Recyclables

The bill clarifies under what circumstances a city, county, or the Utilities and Transportation Commission has the authority to arrange for the collection of recyclable materials. Haulers regulated by the UTC will be required to use rate structures which encourage waste reduction and recycling.

State Agency Waste Reduction and Recycling

State government will put additional emphasis on its own waste reduction and recycling program to ensure that all employees have the opportunity to participate in waste reduction and recycling at work. State agencies must also increase their use of recycled paper products by 50 percent.

School Recycling

Public schools will be required to implement waste reduction and recycling programs according to guidelines developed by the Department. Schools will be provided with an incentive to maximize waste reduction and recycling through a new award's program. Three awards of \$10,000 will be given each year to public schools in the state.

HB 139 - POLLUTION PREVENTION RECOGNITION

I am a volunteer with the Alaska Environmental Lobby which is a coalition of 19 member groups throughout the State. We strongly support HB 139 and applaud the Representatives who introduced and support this bill.

I believe we are all familiar with the merits of recycling and waste reduction. We know it will save energy and natural resources, reduce air and water pollution, and reduce the amount of waste entering our landfills.

This bill through public recognition will make a positive step toward reducing the waste stream in Alaska.

By encouraging recycling and waste reduction in schools we can provide environmentally sound knowledge and skills to future generations.

We encourage you to approve this bill and provide the recognition that those involved in preventing pollution deserve.

A BILL

FOR AN ACT ENTITLED

1 "An Act relating to public recognition of, and incentives for, pollution prevention and
2 waste reduction and recycling efforts; and providing for an effective date."

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. FINDINGS. The legislature finds that

5 (1) waste reduction and recycling must be a fundamental part of a comprehensive solid
6 waste management effort;

7 (2) the success of waste reduction and recycling initiatives is largely dependent upon the
8 current and future behavior of consumers in the state; and

9 (3) while significant opportunities for waste reduction and recycling exist, public
10 education is required to ensure that consumers are aware of these opportunities.

11 * Sec. 2. AS 46.03 is amended by adding a new section to article 2 to read:

12 Sec. 46.03.045. PUBLIC RECOGNITION OF POLLUTION PREVENTION EFFORTS.

13 In addition to the school awards program under AS 46.11.070, the department may identify,
14 document, and publicly acknowledge exemplary pollution prevention achievements by individuals,

1 businesses, or government agencies in the state.

2 * Sec. 3. AS 46.11 is amended by adding a new section to read:

3 Sec. 46.11.070. WASTE REDUCTION AND RECYCLING AWARDS FOR SCHOOLS.

4 (a) In consultation with the Department of Education, the Department of Environmental
5 Conservation shall establish a waste reduction and recycling awards program under which the
6 Department of Environmental Conservation may annually, subject to available funding, award
7 grants of up to \$2,000 each to public schools in recognition of their efforts and the efforts of
8 their students to reduce and recycle waste generated in the administrative offices, classrooms,
9 laboratories, cafeterias, and maintenance operations of the schools.

10 (b) The Department of Environmental Conservation shall, on request, provide technical
11 assistance to schools concerning their opportunities to reduce and recycle wastes.

12 (c) The Department of Environmental Conservation shall adopt regulations to implement
13 the awards program. For purposes of evaluating school waste reduction and recycling programs,
14 the department may group schools according to geographical location, student population,
15 distance to recycling markets, or other criteria considered appropriate by the department.

16 (d) The Department of Environmental Conservation may accept and use restricted grants
17 of money or other assistance from private persons or groups to fund the awards made under (a)
18 of this section.

19 (e) The Department of Environmental Conservation may not use state money to fund
20 awards made under (a) of this section unless an appropriation is made specifically for the
21 purposes of (a) of this section.

22 * Sec. 4. This Act takes effect immediately under AS 01.10.070(c).

HEADING HOME—Tim Cater gets ready to skijor home from the Alaska Biological Research building. Cater skijors to and from work to save fuel. ABR compensates him \$3 per day not to drive his car.

It pays to save fuel for these workers

By **KELLY BOSTIAN**
Staff Writer

Bob Ritchie is paying his employees not to drive to work.

They still have to come to work, mind you. They just have to find another way of getting there.

And so employees of Alaska Biological Research, Inc. are walking, bicycling, skiing and car pooling their way to work these days.

Their reward? The knowledge that they're conserving fuel—and getting a \$3 daily bonus.

Ritchie, who is a co-founder and manager of

the environmental consulting firm, confesses that the idea first was one of convenience. The business was outgrowing its 2-acre plot in Goldstream Valley. "We were running out of parking space," he said.

The idea worked so well they continued with it. The program cost the company \$700 last year and Ritchie figures the 25-employee company saved at least 1,000 gallons of gas.

Among the benefits to the company have been lower electricity costs to keep cars warm in winter and not having to expand the parking lot, he said.

Employees are taking the challenge in stride, so to speak. Those who live close walk or jog. Several bedeck themselves in lights and reflectors and bicycle even at 40 below.

"Rick Johnson is our hero. He pedaled 100 days last winter," Ritchie said.

Tim Cater skijors the seven or so miles from his home on the Old Nenana Highway with the help of his two dogs, Frankie and Tipper. "We made it to work in 42 minutes today," Cater said Thursday. "That's about as fast as it gets."

The company is so proud of its energy-

saving efforts that it has expanded into nearly every facet of company operations, from the toilets to the copy machine, with the help of Suzann Speckman.

Speckman has been appointed "conservation officer," for lack of a more formal title, Ritchie said.

She is gathering as much information as she can to help the company become more energy-efficient. She rattles off ways to save energy and reduce pollution: water-saving dams in the toilets, energy-efficient light bulbs, the "energy save" button on the copy machine, and receptacles for recycling trash.

Speckman doesn't nag, but puts up a lot of signs and reminders. "People seem to catch on to things eventually and then it becomes a

habit. I don't push," she said.

Speckman posts announcements and energy-saving tips on a bulletin board near the entrance to the office building.

Ritchie helps by providing company support. Before recycle bins were put up in most areas of town, Ritchie arranged for the company expediter to make a weekly trip to Sandy's Recycling.

"Most people want to do these kinds of things, and he just makes it available," Speckman said.

Ritchie also kicks in dollars for volunteerism and contributions to social or environmental organizations. The company matches up to \$25 donated to any organization and pays employees' out-of-pocket hours spent volunteering to local organizations.

"Those are all real incentives,

but it all comes back as profit for us as a company and as individuals," Ritchie said. "And, actually, I think people here are ethical enough that they would do it without the incentives."

Speckman is available to talk with other businesses about creating incentives at their workplaces. She can be reached at 455-6778.
