Subject: CS for House Bill 187

Date: 2 April 1992

CS for HB187 is intended to amend AS 05.15.180(b) in order to make dart matches and other contests of skill, permissible forms of charitable gaming.

In order to keep the code consistent throughout, CS for HB187 also amends 05.15.210(7) to extend the definition of contests of skill.

Rationale: this amendment clarifies the current laws in order to make certain such charitable activities, involving contests of skill, are within the proper constructs of state law.

Discussions with John Hanson, head of the charitable gaming section of the Division of Occupational Licensing, Department of Commerce and Economic Development, have resulted in the development of this bill.

A BILL

FOR AN ACT ENTITLED

1 "An Act including contests of skill as a form of charitable gaming that may be licensed
2 regardless of whether it existed and was conducted in substantially the same form and
3 manner in the state before January 1, 1959, and defining 'contest of skill' to mean a
4 contest or game that is conducted to benefit a municipality or qualified organization and
5 that consists of dart matches, bowling or billiards matches, and other games of
6 marksmanship."

7 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

8 * Section 1. AS 05.15.180(b) is amended to read:

9 (b) With the exception of raffles, lotteries, bingo games, pull-tab games, rain classics,
10 goose classics, mercury classics, salmon classics, king salmon classics, contests of skill, and
11 other activities authorized under AS 05.15.100(b), an activity may not be licensed under this
12 chapter unless it existed in the state in substantially the same form and was conducted in
13 substantially the same manner before January 1, 1959.

1 * Sec. 2. AS 05.15.210(7) is amended to read:

2 (7) "contest of skill" means a contest or game that is conducted to benefit a
3 municipality or qualified organization and in which prizes are awarded for the demonstration
4 of human skills in dart matches, bowling or billiards matches, and other games of
5 marksmanship [, RACES, AND OTHER ATHLETIC EVENTS];

HB 187 An Act relating to the definition of contest of skill in the charitable gaming statutes.

The Department of Commerce and Economic Development supports passage of House Bill 187.

FROM: CONCERNED ALASKAN DART PLAYERS

IN REGARD: REGULATIONS GOVERNING DART PLAY IN ALASKA

Recent actions by the Alcohol Beverage Control Board have brought dramatic attention to the sport of darts. Please help dart players by supporting or changing legislation which would allow tournaments to be held without violation of Alaskan statutes. The following facts and examples will illustrate why darts need and deserve your support.

Approximately 2500 Alaskan dart players participate in local and national league play. Darts is a sport like bowling and marksmanship where skill and technique are critical factors in determining the outcome of the game. Under AS 11.66.280 Dart Associations have been threatened with violations of the gambling laws. By prosecuting darts under this statute, the ABC and Gaming commission is defining darts as a game of chance. This is not the case. By adding the word "Darts" to the definition of marksmanship in Alaska Administrative Code 15 AAC 105 160, darts would be immune from prosecution and placed in the category where they belong.

Dart Associations in this state are run as non-profit organizations. Positions on the Board of Directors and Executive Board are voluntary positions whose sole purpose is to manage and formulate league play and tournaments, not unlike softball, bowling, and pool. Dart Associations throughout the state host many charitable tournaments such as; Darts for Diabetes, Hospice of Tanana Valley, Jerry's Kids (MS), Youth League, Child Abuse and Youth Scholarship Programs.

Thank you for the opportunity to explain why dart players need changes made if the sport is to continue to grow and flourish in Alaska. Please inform me of actions needed to correct this inappropriate persecution. Dart players and their supporters are more than willing to advocate and support any legislator or agency that will benefit the sport of darts.

Thank you for your support.

Sincerely,

Sylvia W. Hughes

MEMORANDUM

TO: Representative Mike Navarre, Co-Chair
Representative Eileen MacLean, Co-Chair
House Finance Committee

FROM: Representative Dave Donley, Chair *LD*
House Judiciary Committee

RE: Scheduling CSHJR 45 (JUD), "Proposing amendments
to the Constitution of the State of Alaska
relating to reapportionment of the legislature".

DATE: March 3, 1992

The House Judiciary Committee has completed its work on CSHJR 45 (Jud) and, on behalf of the committee, I am requesting an expeditious hearing on this important piece of legislation.

After more than three decades of contentious debate and litigation over every reapportionment effort, we felt that it was time to recognize that our constitution's reapportionment framework does not and cannot work in the manner envisioned by the framers.

Why amend the state constitution regarding reapportionment?

First

Much of the Alaska Constitution's language on reapportionment is in violation of the federal constitution or is obsolete. Because of this, it is impossible by reading our state constitution to obtain an accurate explanation of the reapportionment process in Alaska. The following sections or portions of sections of Article VI of the Alaska Constitution are either unconstitutional or are obsolete:

Section 2, Senate Districts, is not constitutional as written. In Wade v. Nolan, 414 P.2d 689 (Alaska 1966), the Alaska Supreme Court concluded that the state's senate districts did not comport with the U.S. Constitution.

Section 3, Reapportionment of House, is outmoded in part and unconstitutional in part. The constitution gives reapportionment authority to the governor and the board only as to the house. However, since Nolan, this authority has been interpreted to allow reapportionment of the senate as well as the house. The second sentence, requiring reapportionment to be based solely on civilian population, was declared unconstitutional in Egan v. Hammond, 502 P.2d 856 (Alaska 1972), because it disenfranchises the military.

Sections 4 and 5, Method of Reapportionment and Districts, are inconsistent with U.S. Supreme Court decisions and are no longer considered by the reapportionment boards or cited by the courts in their reapportionment decisions.

Section 6, Redistricting, insofar as it refers to the retaining or combining of election districts provided for in Sections 4 and 5 and refers to civilian population, is unconstitutional. Otherwise Section 6 is still viable.

Section 7, Modification of Senate Districts, is clearly unconstitutional and dead. Its intent was to preserve senate districts based on geographic area and not population.

Sections 8 - 11 retain their viability.

Second

Alaska is the only state which places exclusive power of reapportionment with the governor. The reason for this unique system no longer exists and Alaska should adopt a fairer system in conformity with other states.

The framers of the Alaska Constitution decided to provide for reapportionment of the legislature through a reapportionment board in the executive branch rather than allowing the legislature to reapportion itself, as is the case in a vast majority of the states.

The Alaska Supreme Court addressed this question in Wade v. Nolan, 414 P.2d 689, 694-695, which concerned reapportionment of the Alaska Senate after the U.S. Supreme Court's "one person, one vote" decisions: "... the Alaska Constitutional Convention purposely avoided placing any authority or responsibility for reapportionment in the legislature. The Convention was aware of the notorious and frequent failure or downright refusal of state legislatures to comply with their constitutional or statutory duty to reapportion."

At the time of the drafting of Alaska's Constitution, the U.S. Supreme Court had consistently held that suits challenging malapportionment of state legislatures were nonjusticiable. However, in 1962, in Baker v. Carr, 369 U.S. 186, the U.S. Supreme Court reversed several decades of precedent to the contrary and held that federal courts could indeed hear such suits on equal protection grounds. Then, in 1964 the court upheld the authority of a federal district court to impose its own interim reapportionment plan on a state legislature that had been unable to reapportion itself constitutionally. Reynolds v. Sims, 377 U.S. 533. Thus, if the legislature had the responsibility of reapportioning itself and it failed to do the job adequately, either federal or state courts could step in, as was definitely not the case when our constitution was written.

Changing circumstances have basically done away with the reasons for reapportionment being a function of the executive branch in Alaska. These circumstances, when combined with the fact that not a single gubernatorial reapportionment since Statehood has ever failed to be followed by a judicial challenge, should say to us that we need to get politics out of this process to as great an extent as we can and look for a new way of accomplishing redistricting and reapportionment.

That is why an independent board under the legislative branch was chosen for this task. Eighteen states use independent boards or commissions in some manner and half of these give the boards the absolute responsibility for developing those states' plans. We have combined what seemed like the best of those plans, with particular emphasis on Hawaii's framework, to come up with HJR 45.

What does this amendment do?

I. It provides for a reapportionment board to develop and establish a redistricting and reapportionment plan after each decennial census. In addition to most of the existing criteria for drawing boundaries, a new criterion of political fairness is added.

II. Makeup of board (nine members).

A. Appointed by:

1. governor - one member;
2. majority caucus in house - two members;
3. minority caucus in house (second largest number of representatives) - two members;
4. majority caucus in senate - two members;
5. minority caucus in senate (second largest number of senators) - two members.

B. Qualifications and disqualifications.

1. Can't be public official or public employee.
2. Can't run for legislative office in the next two elections after term of office on board expires.
3. No more than five members can be members of the same political party.*
4. No more than five can be from the same judicial district and there must be at least one member from each judicial district.

C. Chairperson - elected by the board from the members.

III. Reapportionment plan.

A. Public hearings must be held in each judicial district after issuance of draft plan and before issuance of

B. Draft plan must be completed 18 months before the date of the first general election following the official reporting of each decennial census.

C. Final plan must be completed 14 months before the general election.**

* Currently, there is no absolute restriction on party membership.

** This shortens the current time provisions to provide the greatest possible public notice of changes. This is possible largely because of computerization of the reapportionment process.

D. Adoption of final plan takes votes of 6 of the 9 members. If any one plan is unable to get 6 votes:

1. the Supreme Court shall appoint a three judge panel;
2. within 45 days, the three judge panel shall select one proposal from the three proposals receiving the most number of votes by the board; and
3. the proposal selected may not be changed and becomes the final plan.

IV. Provides for expedited hearings and appeals if the final plan is challenged in the state courts.

V. Repeals existing sections of the constitution which have been found unconstitutional by Alaska and federal courts.

In conclusion, Alaska needs a fairer and less political way of accomplishing reapportionment, recognize that the process is political per se. However, the system proposed attempts to balance a variety of interests which will require compromise in order to craft a solution. We certainly don't have such a system now and desperately need one.

Alaska State Legislature

House of Representatives House Judiciary Committee Chairman Dave Donley

CSHJR 45 (JUD) REAPPORTIONMENT

In May of last year, the House Judiciary Committee introduced HJR 45, proposing constitutional amendments relating to reapportionment of the legislature. CSHJR 45(JUD) is now in the Rules Committee awaiting scheduling for the House Floor. In order to have an informed debate, it is very important that members read this memorandum and familiarize themselves with the provisions of the proposed constitutional amendments.

After more than three decades of contentious debate and litigation over every reapportionment effort, we felt that it was time to recognize that our constitution's reapportionment framework does not work in the manner envisioned by the framers.

Why amend the state constitution regarding reapportionment?

First

Much of the Alaska Constitution's language on reapportionment is in violation of the federal constitution or is obsolete. It is impossible to read our state constitution and understand the reapportionment process in Alaska. The following sections or portions of sections of Article VI (the Reapportionment Article) of the Alaska Constitution are either unconstitutional or are obsolete:

Section 2, Senate Districts, is not constitutional as written. In Wade v. Nolan, 414 P.2d 689 (Alaska 1966), the Alaska Supreme Court concluded that the state's senate districts did not comport with the U.S. Constitution.

Section 3, Reapportionment of House, is outmoded in part and unconstitutional in part. The constitution gives reapportionment authority to the governor and the board only as to the house. However, since Nolan, this authority has been interpreted to allow reapportionment of the senate as

well as the house. The second sentence, requiring reapportionment to be based solely on civilian population, was declared unconstitutional in Egan v. Hammond, 502 P.2d 856 (Alaska 1972), because it disenfranchises the military.

Sections 4 and 5, Method of Reapportionment and Districts, are inconsistent with U.S. Supreme Court decisions and are no longer considered by the reapportionment boards or cited by the courts in their reapportionment decisions.

Section 6, Redistricting, insofar as it refers to the retaining or combining of election districts provided for in Sections 4 and 5 and refers to civilian population, is unconstitutional. Otherwise Section 6 is still viable.

Section 7, Modification of Senate Districts, is clearly unconstitutional and dead. Its intent was to preserve senate districts based on geographic area and not population.

Sections 8 - 11 retain their viability.

Second

Alaska is the only state which places exclusive power of reapportionment with the governor. The reason behind this atypical system no longer exists and Alaska should adopt a fairer system in conformity with other states.

The framers of the Alaska Constitution decided to provide for reapportionment of the legislature through the governor rather than allowing the legislature to reapportion itself, as is the case in a vast majority of the states.

The Alaska Supreme Court addressed this question in Wade v. Nolan, 414 P.2d 689, 694-695, which concerned reapportionment of the Alaska Senate after the U.S. Supreme Court's "one person, one vote" decisions: "... the Alaska Constitutional Convention purposely avoided placing any authority or responsibility for reapportionment in the legislature. The Convention was aware of the notorious and frequent failure or downright refusal of state legislatures to comply with their constitutional or statutory duty to reapportion."

At the time of the drafting of Alaska's Constitution, the U.S. Supreme Court had consistently held that suits challenging malapportionment of state legislatures were nonjusticiable. However, in 1962, in Baker v. Carr, 369 U.S. 186, the U.S. Supreme Court reversed several decades of precedent to the contrary and held that federal courts could indeed hear such suits on equal protection grounds. Then, in 1964 the court upheld the authority of a federal district court to impose its own interim reapportionment plan on a

state legislature that had been unable to reapportion itself constitutionally. Reynolds v. Sims, 377 U.S. 533. Thus, if the legislature had the responsibility of reapportioning itself and it failed to do the job adequately, either federal or state courts could step in, as was definitely not the case when our constitution was written. The Alaska Constitutional Convention copied Hawaii's original constitution which gave the power to its governor.

Accordingly, the entire premise behind giving the governor the reapportionment power is archaic. In fact, following these legal changes in the 1960's, Hawaii amended its constitution to take the power completely away from their governor and create an independent board.

These circumstances, and the fact that every gubernatorial reapportionment since Statehood has been followed by a successful legal challenge, makes it clear that Alaska needs to look for a new, less political way of accomplishing reapportionment.

That is why the Judiciary Committee chose an independent board for this task. Eighteen states use independent boards or commissions in some manner and half of these give the boards the absolute responsibility for developing those states' plans. The best of those plans, with particular emphasis on Hawaii's framework, were combined to come up with HJR 45.

What does this amendment do?

I. It provides for a reapportionment board to develop and establish a redistricting and reapportionment plan after each decennial census. In addition to most of the existing criteria for drawing boundaries, extensive new safeguards to promote political fairness were added.

II. Makeup of board (nine members).

A. Appointed by:

1. governor - one member;
2. majority caucus in house - two members;
3. minority caucus in house (second largest number of representatives) - two members;
4. majority caucus in senate - two members;
5. minority caucus in senate (second largest number of senators) - two members.

B. Qualifications and disqualifications.

1. Can't be public official or public employee.
2. Can't run for legislative office in the next two elections after term of office on board expires.
3. No more than five members can be members of the same political party.*

* Currently, there is no absolute restriction on party membership.

4. No more than five can be from the same judicial district and there must be at least one member from each judicial district.

C. Chairperson - elected by the board from the members.

III. Reapportionment plan.

A. Public hearings must be held in each judicial district after issuance of draft plan and before issuance of final plan.

B. Draft plan must be completed 18 months before the date of the first general election following the official reporting of each decennial census.

C. Final plan must be completed 14 months before the general election.**

D. Adoption of final plan takes votes of 6 of the 9 members. If any one plan is unable to get 6 votes:

1. the Supreme Court shall appoint a three judge panel;

2. within 45 days, the three judge panel shall select one proposal from the three proposals receiving the most number of votes by the board; and

3. the proposal selected may not be changed and becomes the final plan.

IV. Provides for expedited hearings and appeals if the final plan is challenged in the state courts.

V. Adds a transitional section regarding reapportionment following the 1990 census.

A. Provides that existing reapportionment proclamation remains in effect if court has upheld it or timely appeal from unfavorable ruling has not been made.

B. Requires reapportionment to be conducted under this constitutional amendment if the court has made significant and substantial changes in the existing proclamation.

VI. Repeals existing sections of the constitution which have been found unconstitutional by Alaska and federal courts.

Conclusion

Alaska needs a fairer and less political way of accomplishing reapportionment, recognizing that the process is political per se. However, CSHJR 45(JUD) uses the best ideas we could find to create the fairest, least political process possible for reapportionment.

** This shortens the current time provisions to provide the greatest possible public notice of changes. This is possible largely because of computerization of the reapportionment process.

TIME FRAMES UNDER HJR 45 FOR REAPPORTIONMENT PLAN IF THE
AMENDMENT HAD BEEN IN EFFECT AT THE TIME OF 1990 CENSUS

Official reporting of 1990 census - January 1991

Next general election - November 1992

Board shall adopt proposed reapportionment plan - May 1991
(18 months prior to '92 general election)

Final plan must be adopted - September 1991
(14 months prior to '92 election)

If board unable to adopt final plan, three judge panel has
45 days to adopt final plan. (mid- to end of Oct.)

If data from census is not available by July 1991, plan
doesn't take effect until second general election
following census and previous reapportionment plan
stays in effect til then.

Board must adopt a proposed plan within 6 months of
receipt of census data and a final plan within four
months of the adoption of a proposed plan.

An appeal to superior court to correct errors in
redistricting or reapportionment must be filed within
30 days following adoption of final plan.

Superior court has 90 days to make a decision.

The Supreme Court has 45 days to decide an appeal from the
Superior Court.

CS FOR HOUSE JOINT RESOLUTION NO. 45 (RULES)

IN THE LEGISLATURE OF THE STATE OF ALASKA

SEVENTEENTH LEGISLATURE - SECOND SESSION

BY THE HOUSE RULES COMMITTEE

Offered:

Referred:

Sponsor(s): HOUSE JUDICIARY COMMITTEE

Adopted

A RESOLUTION

1 Proposing amendments to the Constitution of the State of Alaska relating to
2 reapportionment of the legislature.

3 BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. Article VI, sec. 1, Constitution of the State of Alaska, is amended to read:

5 SECTION 1. ELECTION DISTRICTS. Members of the house of representatives shall
6 be elected by the qualified voters of the respective election districts. The boundaries of the
7 election districts shall be set under this article after each decennial census of the United
8 States [UNTIL REAPPORTIONMENT, ELECTION DISTRICTS AND THE NUMBER OF
9 REPRESENTATIVES TO BE ELECTED FROM EACH DISTRICT SHALL BE AS SET
10 FORTH IN SECTION 1 OF ARTICLE XIV].

11 * Sec. 2. Article VI, sec. 2, Constitution of the State of Alaska, is amended to read:

12 SECTION 2. SENATE DISTRICTS. Members of the senate shall be elected by the
13 qualified voters of the respective senate districts. The boundaries of the senate districts shall
14 be set under this article after each decennial census of the United States [SENATE
15 DISTRICTS SHALL BE AS SET FORTH IN SECTION 2 OF ARTICLE XIV, SUBJECT TO
16 CHANGES AUTHORIZED IN THIS ARTICLE].

1 * Sec. 3. Article VI, sec. 3, Constitution of the State of Alaska, is amended to read:

2 SECTION 3. REAPPORTIONMENT OF HOUSE AND SENATE. The
3 Reapportionment Board [GOVERNOR] shall reapportion the house of representatives and the
4 senate immediately following the official reporting of each decennial census of the United
5 States. Reapportionment shall be based upon resident [CIVILIAN] population within each
6 election district as reported by the census.

7 * Sec. 4. Article VI, sec. 4, Constitution of the State of Alaska, is amended to read:

8 SECTION 4. METHOD. Reapportionment shall be by the method of equal proportions.
9 The Reapportionment Board shall establish single-member election districts unless, in the
10 judgment of the board, circumstances require the use of dual-member election districts or
11 a combination of single-member and dual-member election districts. A dual-member
12 election district may not elect more than two representatives. A senate district shall be
13 composed of one dual-member election district or two contiguous single-member election
14 districts, but each senate district shall elect only one senator [, EXCEPT THAT EACH
15 ELECTION DISTRICT HAVING THE MAJOR FRACTION OF THE QUOTIENT OBTAINED
16 BY DIVIDING TOTAL CIVILIAN POPULATION BY FORTY SHALL HAVE ONE
17 REPRESENTATIVE].

18 * Sec. 5. Article VI, sec. 6, Constitution of the State of Alaska, is amended to read:

19 SECTION 6. DISTRICT BOUNDARIES. Election districts and senate districts
20 [REDISTRICTING. THE GOVERNOR MAY FURTHER REDISTRICT BY CHANGING THE
21 SIZE AND AREA OF ELECTION DISTRICTS, SUBJECT TO THE LIMITATIONS OF THIS
22 ARTICLE. EACH NEW DISTRICT SO CREATED] shall be formed of contiguous and compact
23 territory containing as nearly as practicable a relatively integrated socio-economic area. [EACH
24 SHALL CONTAIN A POPULATION AT LEAST EQUAL TO THE QUOTIENT OBTAINED
25 BY DIVIDING THE TOTAL CIVILIAN POPULATION BY FORTY.] Consideration may be
26 given to local government boundaries. Drainage and other geographic features shall be used in
27 describing boundaries wherever possible. Election district and senate district boundaries may
28 not be drawn with the intent of giving an advantage to a political party.

29 * Sec. 6. Article VI, sec. 8, Constitution of the State of Alaska, is amended to read:

30 SECTION 8. REAPPORTIONMENT BOARD. (a) There shall be a Reapportionment
31 Board [THE GOVERNOR SHALL APPOINT A REAPPORTIONMENT BOARD TO ACT IN
32 AN ADVISORY CAPACITY TO HIM]. It shall consist of nine [FIVE] members, all of whom

1 shall be residents of the state and none of whom may be public employees or officials. At
2 least one member [EACH] shall be appointed from each judicial district established by law
3 under Section 1 of Article IV and no more than five members shall be appointed from a
4 judicial district. Members shall be residents of the judicial district from which appointed
5 [THE SOUTHEASTERN, SOUTHCENTRAL, CENTRAL, AND NORTHWESTERN SENATE
6 DISTRICTS]. Appointments shall be made without regard to political affiliation, and no more
7 than five members may be members of the same political party. Board members shall be
8 compensated as provided by law.

9 (b) Board members shall be appointed during the first fifteen days of the first
10 regular session of the legislature that convenes in a year following a year in which the
11 census is taken. Board members shall be appointed as follows:

12 (1) one member shall be appointed by the governor;

13 (2) two members shall be appointed by a caucus of the members of the house
14 of representatives representing the political party with the largest number of members in
15 the house of representatives;

16 (3) two members shall be appointed by a caucus of the members of the house
17 of representatives representing the political party with the second largest number of
18 members in the house of representatives;

19 (4) two members shall be appointed by a caucus of the members of the senate
20 representing the political party with the largest number of members in the senate; and

21 (5) two members shall be appointed by a caucus of the members of the senate
22 representing the political party with the second largest number of members in the senate.

23 (c) The legislature shall provide by law for a random selection process to make the
24 appointments of board members under this section. If the legislature fails to make
25 provision by law, the governor may establish a random selection process to make the
26 appointments.

27 (d) A board member may be removed for misfeasance or nonfeasance in office by
28 the entity that appointed the member. A vacancy on the board shall be filled by the entity
29 that appointed the member whose seat is vacant.

30 (e) A member of the Reapportionment Board may not be a candidate for the
31 legislature in the two general elections following the adoption of a final reapportionment
32 plan under this article.

1 • Sec. 7. Article VI, sec. 9, Constitution of the State of Alaska, is amended to read:

2 SECTION 9. ORGANIZATION. The board shall elect one of its members chairman and
3 may employ temporary assistants. Concurrence of five [THREE] members is required for a
4 ruling or determination, except for the adoption of a final reapportionment plan, but a lesser
5 number may conduct hearings or otherwise act for the board.

6 • Sec. 8. Article VI, sec. 10, Constitution of the State of Alaska, is amended to read:

7 SECTION 10. REAPPORTIONMENT PLAN [AND PROCLAMATION]. (a) Except
8 as provided under (c) of this section, no later than the date that is eighteen months before
9 the date of the first general election following the official reporting of each decennial census,
10 the Reapportionment Board shall adopt a proposed reapportionment plan. The board shall
11 hold public hearings on the proposed plan and shall hold at least one hearing in each
12 judicial district established by law under Section 1 of Article IV. No later than the date
13 that is fourteen months before the date of the first general election following the official
14 reporting of each decennial census, the board shall adopt a final reapportionment plan
15 [WITHIN NINETY DAYS FOLLOWING THE OFFICIAL REPORTING OF EACH
16 DECENNIAL CENSUS, THE BOARD SHALL SUBMIT TO THE GOVERNOR A PLAN FOR
17 REAPPORTIONMENT AND REDISTRICTING AS PROVIDED IN THIS ARTICLE. WITHIN
18 NINETY DAYS AFTER RECEIPT OF THE PLAN, THE GOVERNOR SHALL ISSUE A
19 PROCLAMATION OF REAPPORTIONMENT AND REDISTRICTING. AN
20 ACCOMPANYING STATEMENT SHALL EXPLAIN ANY CHANGE FROM THE PLAN OF
21 THE BOARD]. The final reapportionment plan adopted under this section shall set out
22 election district and senate district boundaries and [REDISTRICTING] shall be effective for
23 the election of members of the legislature until after the official reporting of the next decennial
24 census.

25 (b) Adoption of a final reapportionment plan shall require the affirmative votes of
26 six members of the board.

27 (c) If the board is unable to adopt a final plan by the date specified in (a) or (d)(3)
28 of this section, the supreme court shall appoint a panel of three superior court judges. The
29 board shall, within ten days, transmit to the panel the three proposed plans receiving the
30 greatest number of votes by the board. Within forty-five days of the transmittal, from
31 among the plans received from the board the panel shall adopt one of the proposed plans
32 without change as a final plan. The supreme court shall adopt rules for proceedings before

1 the three-judge panel under this subsection.

2 (d) If the data from a decennial census is not available to the board by the date that
3 is sixteen months before the date of the first general election following a decennial census
4 year,

5 (1) a plan adopted shall not take effect until the second general election
6 following the decennial census year;

7 (2) for the first general election following the decennial census year, members
8 of the legislature shall be elected from districts in existence as a result of the previous
9 reapportionment plan or proclamation; and

10 (3) the board shall adopt a proposed plan within four months of the receipt
11 of the census data and shall adopt a final plan within four months of the adoption of the
12 proposed plan.

13 * Sec. 9. Article VI, sec. 11, Constitution of the State of Alaska, is amended to read:

14 SECTION 11. ENFORCEMENT. Any qualified voter may apply to the superior court
15 to compel the governor, the members of the legislature, or the Reapportionment Board [BY
16 MANDAMUS OR OTHERWISE,] to perform their [HIS] reapportionment duties or to correct
17 any error in redistricting or reapportionment. Application to compel performance of [THE
18 GOVERNOR TO PERFORM HIS] reapportionment duties must be filed within thirty days of
19 the date that an act is required to be done under [EXPIRATION OF EITHER OF THE TWO
20 NINETY-DAY PERIODS SPECIFIED IN] this article. Application to compel correction of any
21 error in redistricting or reapportionment must be filed within thirty days following the adoption
22 of the final plan by the Reapportionment Board or by the three-judge superior court panel
23 appointed by the supreme court under Section 10 of this article [PROCLAMATION].
24 Original jurisdiction in these matters is hereby vested in the superior court. On appeal, the cause
25 shall be reviewed by the supreme court upon the law and the facts. A disposition by the
26 superior court and an appeal before the supreme court under this section shall have priority
27 over all other matters pending before the respective court. The superior court shall render
28 a decision in a matter before it under this section not more than ninety days after
29 application is made to compel correction, and the supreme court shall render a decision in
30 a matter on appeal not more than forty-five days after submission of a complete record of
31 appeal.

32 * Sec. 10. Article XV, Constitution of the State of Alaska, is amended by adding a new section to

1 read:

2 SECTION 29. REAPPORTIONMENT OF LEGISLATURE FOLLOWING 1990

3 CENSUS. (a) A proclamation of reapportionment issued by the governor following the 1990
4 census shall remain in effect until the decennial census in the year 2000 if, on the effective date
5 of the 1992 amendments to Article VI,

6 (1) the proclamation has been in effect for over thirty days without judicial review
7 being sought;

8 (2) the proclamation has been upheld by the superior court under Section 11 of
9 Article VI and the time for appeal to the supreme court has run without an appeal being taken;

10 (3) the proclamation has been upheld by the supreme court and the time to request
11 reconsideration of the supreme court's ruling has run;

12 (4) the proclamation is still subject to a request for judicial review under Section
13 11 of Article VI and a request is not made in a timely fashion; or

14 (5) the proclamation is undergoing judicial review under Section 11 of Article VI
15 and the proclamation is upheld by the courts.

16 (b) Reapportionment of the legislature following the 1990 census shall be done by the
17 Reapportionment Board established in Section 8 of Article VI, as amended by the 1992
18 amendments, if, on the effective date of the 1992 amendments to Article VI,

19 (1) there is no valid proclamation of reapportionment in effect because of judicial
20 invalidation of a prior proclamation; or

21 (2) a proclamation of reapportionment is undergoing judicial review under Section
22 11 of Article VI and that judicial review results in the invalidation of that proclamation or results
23 in a court order making significant and substantial changes to that proclamation.

24 * Sec. 11. Article VI, secs. 5 and 7, and Article XIV, Constitution of the State of Alaska, are
25 repealed.

26 * Sec. 12. The amendments proposed by this resolution shall be placed before the voters of the state
27 at the next general election in conformity with art. XIII, sec. 1, Constitution of the State of Alaska, and
28 the election laws of the state.

MEMORANDUM

February 5, 1991

SUBJECT: Constitutionality under U.S. Constitution of Article VI sections of Alaska constitution (Work Order No. 7LS0653)

TO: Representative Dave Donley
Attn: Laurie Otto

FROM: John B. Gaguine *JBG*
Legislative Counsel

Since the "one person, one vote" decisions of the U.S. Supreme Court in the early 1960s (Baker v. Carr, 369 U.S. 186, 7 L.Ed.2d 663 (1962); Reynolds v. Sims, 377 U.S. 533, 12 L.Ed.2d 506 (1964); and many others), it is obvious that many of the provisions of the reapportionment article of the Alaska Constitution, article six, are unconstitutional under the federal constitution. Some of these have been specifically held unconstitutional by the Alaska Supreme Court, and others have been simply ignored. You have asked for an analysis of the constitutionality of Article VI, sections 1 - 7.

Section 1 is still constitutional. That section provides that members of the house of representatives shall be elected by the qualified voters of the respective election districts. Under section 3, the election districts are to be reapportioned "immediately following the official reporting of each decennial census of the United States." This has been done by the governor and the Reapportionment Board (sections 8 - 10), and the most recent reapportionment of house districts (Article XIV, Sections 1 and 3, proclaimed by the governor in 1984) has been upheld by the Alaska Supreme Court. Kenai Peninsula Borough v. State, 743 P.2d 1352, 1358-61 (Alaska 1987).

Section 2 is not constitutional as written. It provides that members of the senate shall be elected by the qualified voters of the respective senate districts set forth in Article XIV, Section 2 of the original constitution, subject to changes authorized in Article VI. In Wade v. Nolan, 414 P.2d 689 (Alaska 1966), the Alaska Supreme Court reached the inescapable conclusion that those senate districts did not comport with the U.S. Constitution. The court also ruled that the governor and the Reapportionment Board could reapportion the senate on a constitutional basis, even though the

Alaska Constitution only gave the governor and the board reapportionment authority as to the house.

Since Wade the Alaska constitution has been treated as though amended. The governor and the Reapportionment Board are now seen by all, including the courts, as having the power to reapportion the senate as well as the house. Thus, for instance, current Article XIV, Section 2, relating to senate districts, was promulgated by the governor, with the advice of the board, under Article VI, Section 10. Kenai Peninsula Borough, supra at 1364 (citing Egan v. Hammond, 502 P.2d 856, 874 (Alaska 1972)), notes that because the constitution has never been amended with regard to senate reapportionment, "the governor's implied power to reapportion senate districts therefore remains in force under Wade."

The first sentence of section 3 ("The governor shall reapportion the house of representatives immediately following the official reporting of each decennial census of the United States") is still constitutional, although, as noted, it is now being interpreted as allowing reapportionment of the senate as well. The second sentence ("Reapportionment shall be based upon civilian population within each election district as reported by the census") was ruled unconstitutional by the Alaska Supreme Court in Egan v. Hammond, supra at 868-69, because it totally disenfranchised the military in Alaska, in violation of several decisions of the U.S. Supreme Court. Egan also ruled that the portion of the sentence requiring use of census data in reapportionment was also unconstitutional, because it could not be severed from the unconstitutional "civilian population" part. Id. at 870-71.

However, the Egan court ruled, id. at 869, that the state could legitimately exclude some (but not all) military personnel as a permissible device for limiting the impact of transients and non-residents; specific formulas for such exclusion were upheld by the court in Groh v. Egan, 526 P.2d 863, 869-74 (Alaska 1974), and in Carpenter v. Hammond, 667 P.2d 1204, 1210-13 (Alaska), appeal dismissed, 464 U.S. 801, 78 L.Ed.2d 67 (1983). And the Groh v. Egan court ruled that, although the Reapportionment Board was not constitutionally required to use 1970 census data when it reapportioned in 1973, it did not abuse its discretion in using this data, especially since it explained in its order why using more recent data would be impractical. 526 P.2d at 867-69. Thus, the second sentence of section 3 still has considerable validity.

Sections 4 and 5 are rather turgid. I believe that their intent is that the governor, in reapportioning, should adhere to the election districts set out in original Article XIV even if such adherence leads to districts with quite different populations. If my reading is correct, then these sections are inconsistent with the U.S. Supreme Court decisions, which have only tolerated very small variances. At any rate, sections 4 and 5 appear to be a dead letters, no longer considered by the reapportionment boards or cited by the courts in their reapportionment decisions.

Representative Dave Donley
February 5, 1991
Page 3

Insofar as section 6 refers to the retaining or combining election districts provided in sections 4 and 5, it too is unconstitutional and a dead letter. Its reference to the "civilian" population is also unconstitutional. Other than that, section 6 appears alive and well. No one has argued that the governor and the board may not or should not give consideration to local government boundaries, or that they may not or should not use drainage and other geographic features wherever possible in describing district boundaries. As to the requirement that house election districts contain "as nearly as practicable a relatively integrated socio-economic area," that was upheld in Carpenter, supra (where the court held that Cordova was improperly joined with House District 2, the Southeast "iceworm" district), even though the likely result would be to increase the population disparities between house districts. (The court in Kenai Peninsula Borough, supra at 1358-61, upheld a smaller "iceworm" district established by the Reapportionment Board as the result of Carpenter. Kenai Peninsula Borough also ruled, at 1364-65, that the "integrated socio-economic area" requirement did not apply to senate districts.)

Section 7 is clearly unconstitutional and dead. Like Section 2, its intent was to preserve senate districts based on geographic area and not population. Thus, although it allowed the governor to modify senate districts based on changes in election (house) districts, it required that each senate district retain its total number of senators and its approximate perimeter.

I hope that this memorandum has been of assistance to you. Please let me know if I can be of further assistance.

MEMORANDUM

February 5, 1991

SUBJECT: Reason for reapportionment board (W.O. 7LS0652)

TO: Representative Dave Donley
Attn: Laurie Otto

FROM: John B. Gaguine ^{JBG}
Legislative Counsel

You have asked why the framers of the Alaska constitution decided to provide for reapportionment of the legislature through a reapportionment board in the executive branch, rather than allowing the legislature to reapportion itself, as is the case in the vast majority of states. The Alaska Supreme Court addressed this question in Wade v. Nolan, 414 P.2d 689, 694-95 (Alaska 1966), which concerned reapportionment of the Alaska Senate after the U.S. Supreme Court's "one person, one vote" decisions: "Whereas, traditionally, reapportionment had been made the responsibility of state legislatures, the Alaska Constitutional Convention purposely avoided placing any authority or responsibility for reapportionment in the legislature. The Convention was aware of the notorious and frequent failure or downright refusal of state legislatures to comply with their constitutional or statutory duty to reapportion." I am attaching the relevant portion of the Wade opinion, where the court quotes at length from the comments of the Chairman of the Committee on Suffrage, Elections and Apportionment of the Alaska Constitutional Convention.

You have also asked whether the concerns that led to the establishment of the Reapportionment Board still exist. They do not. In 1962, in Baker v. Carr, 369 U.S. 186, 7 L.Ed.2d 663, the U.S. Supreme Court overruled several decades of precedent and held that federal courts could hear suits challenging on equal protection grounds the malapportionment of state legislatures. (Such suits had previously been held non-justiciable.) Two years later the Court upheld the authority of a federal district court to impose its own interim reapportionment plan on a state legislature that had been unable to reapportion itself constitutionally. Reynolds v. Sims, 377 U.S. 533, 12 L.Ed.2d 506 (1964). Thus, if the legislature had the responsibility of reapportioning

• Representative Dave Donley
February 5, 1991
Page 2

itself, and it failed to do the job adequately, the courts, either federal or state, could step in, as was decidedly not the case when the Alaska constitution was written and adopted.

If I may be of further assistance, please advise.

Enclosure

than according to population, the Convention was following the pattern established by the United States Constitution and later followed by many of the states of the Union with respect to one or the other of their legislative bodies. The Convention obviously did not want the Senate apportioned on a population basis; it had practical reasons for not doing so and had no reason to anticipate that it would ever be necessary to reapportion the Senate on a population or on any other basis, hence no specific provision was made for its reapportionment.

The question which is squarely presented is whether the acts of the Governor and his advisory Reapportionment Board in reapportioning the Senate were authorized by the Alaska Constitution.

Before attempting to discuss this question it is well to explain the origin of a unique feature of the reapportionment provisions of the Alaska Constitution. Whereas, traditionally, reapportionment had been made the responsibility of state legislatures, the Alaska Constitutional Convention purposely avoided placing any authority or responsibility for reapportionment in the legislature. The Convention was aware of the notorious and frequent failure or downright refusal of state legislatures to comply with their constitutional or statutory duty to reapportion. The Alaska Convention's reason for placing reapportionment responsibility in the Governor was well stated by its Chairman of the Committee on Suffrage, Elections and Apportionment, John S. Helleenthal, as follows:

HELLEENTHAL: • • • Now on the method of the composition of the reapportionment and redistricting board, because redistricting, as we have explained would be necessary, the Committee recommends that the stress be placed on the executive in determining which of these election districts and where redistricting shall take place, or reapportionment, and it recommends the creation of

a five-man advisory board to advise the governor with regard to the redistricting and reapportionment. • • • The reason that this plan was adopted is that the students and writers seem generally in accord that reapportionment, for some reason or other, I don't know why, but it has been neglected where it has been left to the legislators. Maybe it's that human element I spoke of earlier, but anyway the experience of the nation shows that the thing is delayed—procrastination; that in the State of Washington they waited for years and years and years, and finally, only by resorting to the courts and the initiative were they able to reapportion Washington. It was costly, the people suffered. And based on that experience and the recommendations, and it's almost universal of the advisors, and by advisors I don't mean the men that were here necessarily—but the writers throughout the country, the executive board was chosen, an advisory board. (Minutes of the Alaska Constitutional Convention, January 11, 1956, at 1839).

Now there are other plans. There is no end of variations of plans that can be devised for the reapportionment with the mandamus feature, and you could have variance where a board can be picked—three from the legislature, three nominated by the judicial council, if you want, three of them nominated by some other group of civilians, some appointed by the governor, and get a good cross-section, and they could have the authority themselves to make the redistricting and reapportionment. There is no end to it, but the best thought seemed to indicate that the people would be best helped if it [reapportionment] were an executive function. • • • But it is the inaction of the legislature, as testified to by the universal history of the 48 states, that we're trying to overcome. [Id. at 1859.]
HELLEENTHAL: It was felt that it [reapportionment] was a proper executive

function as contrasted to the legislative.
• • • [Id. at 1853.]

In its "Report to the People of Alaska" issued in February of 1956 the Constitutional Convention stated:

Representation [in the legislature] will be kept up to date every ten years by an automatic reapportionment carried out by the governor on the advice of a board representing each of the four major districts and subject to review by the courts. Thus, the constitution guards against what has become a great evil in many states: a legislature that becomes more and more unrepresentative and loses public confidence because it refuses to reapportion itself. Alaska Legislative Council, Legislative Apportionment in Alaska, 1912-1961, p. 4 (1962).

A reading of the Convention minutes in relation to the reapportionment provisions makes it abundantly clear that it was the specific intent of the Convention to grant no authority to and to place no responsibility in the legislature with respect to reapportionment. In a clear and clean-cut departure from tradition, all of the authority and responsibility for reapportionment granted or assigned was placed in the Governor, assisted by a Reapportionment Board, including the authority to make minor changes in Senate districts. In an effort to make the reapportionment provisions as nearly self executing as possible, the Convention provided that the Reapportionment Board should automatically commence to function after the decennial census, without any direction from the Governor; that it must submit its plan within ninety days and that the Governor must proclaim a plan within ninety days of receipt from the Board, explaining any deviation from the Board's plan. Any qualified voter was empowered to resort

to the courts to force the Governor to perform his reapportionment duties or to correct any error in redistricting or reapportionment.

Baker v. Carr and Reynolds v. Sims resulted in court declarations in many states that one or both of the legislative bodies was malapportioned. In almost every instance the state constitution had made no provision for reapportioning the "frozen" body on an interim basis until the constitution could be amended. Because of the wide variations in factual situations, most of the court decisions dealing with the question of where the authority lay to reapportion a frozen legislative body on an interim basis are not of great assistance.

It is significant, however, that in some states where reapportionment was a legislative responsibility, the courts have approved reapportionment by those state legislatures on an interim basis even though the respective state constitutions gave no specific authority to reapportion the particular frozen legislative body. Illustrative is Buckley v. Hoff¹² decided by the United States District Court in Vermont. In a previous decision, that court had declared both the House and the Senate malapportioned. The constitution required the legislature to reapportion the Senate after each United States census, but the House was frozen to provide one representative for each inhabited town, forever. The General Assembly, consisting of the members of the Senate and House, was only empowered by the constitution to regulate the mode of filling vacancies in House seats. Without any specific constitutional authority, the General Assembly provided reapportionment plans for the Senate and the House which were approved by the court. The authority of the General Assembly to reapportion was not questioned.¹³

tures of New Jersey, Connecticut and North Dakota, was accomplished even though the constitutions gave no such specific authority. Pages 295-297, 374-375 and 304-306.

HJR 45 -- "Reapportionment Board and Reapportionment"

Number 076

[The testimony of Brian Rogers appears in verbatim form at the request of the House Judiciary Committee]

"Thank you Mr. Chairman. I'm Brian Rogers from Fairbanks, here representing myself and not the institution for whom I work. What I want to bring today is some information which I think may be helpful to the committee's consideration and then highlight one area where amendment is needed to this amendment in order to make it functional. As some of you know, last fall a conference was held sponsored by the Office of the Lieutenant Governor, University of Alaska, League of Women Voters, Commonwealth North and the AFN, entitled "Shall There Be a Constitutional Convention?" It was a conference on the future of Alaska's Constitution. I was the conference convener and moderator and I know that several of you attended some of the sessions. What I wanted to report to you today is that the article that this resolution addresses was highlighted as the article most in need of amendment in Alaska's Constitution. As I was looking over my notes from all of the committees that reported, let me quote what I got from the chair of the apportionment committee, and this was open to anybody that wanted to attend. We had legislators, former executives, general public, a fairly broad representation. That committee reported that the apportionment article is badly in need of repair. If there is a constitutional convention held, pursuant to a vote this fall, this article needs attention--really for two reasons.

First, the method of reapportionment laid out in Article 6 has been held to be unconstitutional by the United States Supreme Court. There's a sense by a lot of us, and there was at the time, that Alaska lost something in the requirement that the Senate not be apportioned as set out. But the fact is that is what the Supreme Court has ruled; that is the law of the land. Now there may be an issue as to how much leeway there is under federal law under one person-one vote, but clearly for twenty-five years we've had a section of the constitution that is inoperative. The legislature has not chosen to fix it, and one of the arguments that was made very persuasively by some members that were there--the late, former Senator Ed Murdy spoke on this--the legislature can't fix this article. The people have to by a constitutional convention.

The second issue was regarding the mechanism for reapportionment, there was a sense that it was not working well; that the gubernatorial appointed panel and the governor

issuing the proclamation was a mechanism that's not working well. In talking with the experts from other states, we had two constitutional experts--Janice May from the University of Texas and Sam Gobe from the University of Illinois--they said that when the legislature does the reapportionment, people generally feel that doesn't work well either. Reapportionment's a very tough thing because it is so important to the people who are being reapportioned as voters and so vitally important to those who are being reapportioned as legislators. The one suggestion that came out of the committee was for an independent, reapportionment authority. The suggestion again came out of the committee that it may require a constitutional convention to do so because this committee felt that probably the legislature would never address this issue. You have one method of creating an independent reapportionment authority before you, and I think to that extent, it's consistent with what came out of that conference this fall. Certainly, a convention is another way of addressing this issue, but I think that many people would like to see this dealt with as a separate issue and one that you can deal with and correct a twenty-five year old problem with Alaska's constitution.

I said I would also speak on a technical amendment. I see one defect that's a perfect one for this committee to address. I'm going to speak to section 7 which begins at the bottom of page two, but my concern is really on page three. On page three, line two through nine, this provides that of a nine member reapportionment board at least one member has to be appointed from each judicial district and no more than five from a single district and no more than five from the same political party. I think--and I would support that--I think that's a very good section. We then go on, on the same page, section (b) on line ten through twenty-three, saying one member's appointed by the governor, two from the majority caucus and, two from the minority caucus in each House. Hypothetically, every one of those appointing authorities could appoint someone from the same judicial district, and my question to you is which one of those appointments are invalid because in section one no more than five can be from the same district? So there is a defect in the drafting, and I don't have a suggestion--I'm sorry--except that one could say once the governor appoints one and maybe the two majority parties each appoint their two, then the minority parties have to pick people from other districts or something like that. Or, once the Senate appoints, the House has to. But section (b) and section (a) do not work together, and that does need amendment. And I really don't have the right answer for you. I do think that the independent board as set out in this does meet the suggestions from the conference last fall. Once again, Article Six came in first, I think, Article Two--the legislature--is the second one that people would like to change in a convention, but everyone seemed to agree on this article.

MEMORANDUM

To: Hayden Kaden
 From: Tim Storey
 Date: February 4, 1992
 Re: Proposed House Joint Resolution No. 45

As you requested, I have reviewed the proposed amendments to the Alaska Constitution regarding the establishment of a reapportionment commission. Currently, nine states have some type of commission with original authority for producing a state legislative redistricting map. The enclosed parts, which I think you may already have, describe the commissions in those states.

I strongly encourage you to contact some legislative staff colleagues in a sample of the states that presently utilize commissions. They will be able to give you insight into the advantages and disadvantages of a commission system as compared with redistricting within the traditional legislative process. I have attached a list of contacts to assist you.

I realize that Alaska is unique in this area since the governor actually has the authority to issue the final plan. In no other state does the governor have such powers in relation to redistricting. Of course in most states, the governor has veto power over any plan enacted by the legislature. In Maryland, the governor drafts the initial legislative maps, but they must then be approved by the legislature. Arkansas's governor also has considerable influence by virtue of his seat on their redistricting commission with only the attorney general and the secretary of state as the other members.

Having read through your proposal, I note that it incorporates aspects of various commissions in other states. For example, three states preclude commissioners from running for the legislature under the lines that they draw. Your proposal also is commendable for establishing specific deadlines for action. And, your attention to public input is important to the process. A notable change in the 1990's round of redistricting has been the emphasis placed on the issue of public access, so it is good that your proposal addresses this issue. You may even want to consider public hearings after the proposed plan has been issued by the commission. It is also noteworthy that you have provided a mechanism in the event that the commission is unable to come up with a plan. In many states there is no formal backup, so it requires parties to file suit in either state or federal court.

Please feel free to contact me if you have further questions. I am eager to assist in any way I possibly can.

Contacts from other states with redistricting commissions:

Colorado:

Becky Lennahan
Deputy Director
Office of Legislative Legal Services
(303) 866-2045

*** Becky is the lead staff person for the Colorado commission.

Hawaii:

Anne Lee
League of Women Voters
(808) 395-0115

*** She is very knowledgeable on the Hawaii system and was an active participant in their process.

New Jersey

Donald Stokes
Dean of the Woodrow Wilson School
Princeton University
(609) 258-4800

*** Stokes was the "public member" of New Jersey's commission in both 1980 and 1990. He believes strongly that the commission model is the best way to go.

Ohio

Jim Tilling
Chief of Staff
Ohio Senate President's Office
(614) 466-2510

*** Jim was the key staff person to Ohio's commission from the Ohio Senate and is a long time observer of redistricting. He is currently the Vice-Chair of NCSL's Reapportionment Task Force.

Pennsylvania:

Barbara Brown
(215) 875-7038

*** She was the independent counsel to Pennsylvania's commission.

Mark McKillop
(717) 783-5193

*** Mark works for the Pennsylvania House Democrats and has some strong opinions about the role of politics in redistricting whether by commission or not.

Washington:

Jennifer Helget
(206) 786-7935

*** Jennifer staffs Washington's rather unique public redistricting commission.

Iowa:

Gary Kaufman
Legal Counsel
Legislative Service Bureau
(515) 281-3994

*** Although Iowa does not have a commission system per se, their method is very unique and eliminates much of the political discord that often accompanies redistricting.

DRAFT

INTRODUCTION

This report focuses on the role that independent redistricting commissions play in the state legislative redistricting process. It does not deal with reapportionment. Redistricting and reapportionment, while often used interchangeably, are two different things. Reapportionment is the process of allotting the seats of a legislative body among a given number of units. Redistricting is the redrawing of the boundary lines after the number of seats has been allotted through reapportionment.

Goals

While independent commissions are a relatively new phenomena, this report describes what caused their creation, their roles in redistricting today, and the advantages and disadvantages of using an independent redistricting commission.

HISTORY/BACKGROUND

The history of legislative redistricting has been one of the legislature itself doing the redistricting.¹ Since the formation of the nation, legislatures have redistricted themselves based on a variety of criteria and they had free reign to do so in whatever manner they pleased.

As a result, prior to thirty years ago, there were several examples of districting plans based on malapportionment. The most common was where a small minority of the population could elect a majority of the lawmakers based on districting plans that held an overwhelming rural bias.

Such a case existed in Missouri. Before the courts stepped into the redistricting arena, the Missouri Constitution guaranteed every county, regardless of population, at least one seat in the House of Representatives. The result was that in 1965, 82 rural counties, which contained less than one-fifth of the state's total population, controlled a majority of seats in the house.² The vote of the rural voter carried more clout than that of the urban dweller.

Redistricting Changes

In the early 1960s, the United States Supreme Court intervened in the redistricting process to change the rules of how a legislature could redistrict. Starting with the case of Baker v. Carr (1962), where the Supreme Court held that

1. "Independent Commissions: The Next Step in the Reapportionment Revolution?" McGehee, John Michael. p. 2.
2. Reapportionment Politics: The History of Redistricting in the 50 States. p. 181.

redistricting plans could be challenged in court, the methods of legislative redistricting began to change drastically. Later cases include Gray v. Sanders (1963), which established the "one man, one vote" rule, and Reynolds v. Sims (1964), which declared that the constitutional standard of equal protection required that both houses of a bicameral state legislature had to be reapportioned, and therefore redistricted, on a population basis. The Supreme Court ruled that the equal protection clause of the Fourteenth Amendment to the Constitution meant that every person's vote had to have equal weight. Chief Justice Warren wrote, "An individual's right to vote for state legislators is unconstitutionally impaired when its weight is in a substantial fashion diluted when compared with votes of citizens living in other parts of the state."³ Therefore, the only practical way to have equality in voting strength was to have population equality between districts.

With the major changes brought about by the court decisions mandating population equality as the dominant factor in redistricting, gerrymandering was brought to the forefront of the redistricting process. A gerrymander is defined as the process of drawing districts with odd shapes to create an unfair partisan advantage.⁴ The party in power, seeking to maintain its majority in the legislature, creates districts that favor the election of a candidate from its party. While the political gerrymander enrages the opposing party and disturbs the proponents of "good government," the plans have withstood legal challenges, with the courts saying that redistricting is a political decision that should be handled in the political arena. (However, this may change with the recent Supreme Court decision, Davis v. Bandemer (1986), which held that a redistricting plan resulting from a partisan gerrymander is now a justiciable issue).

The result of these changes is that legislative redistricting has been turned on its head. All plans now must consider equality of population as the major factor in any redistricting plan and the court has demonstrated that it is willing to step in and take part in the redistricting process. In addition, legislatures have the ability to gerrymander districts, which gives them a powerful, and many would say unfair, tool in the redistricting process. These changes have resulted in the opening up of a brave new world of redistricting which bares little resemblance to the redistricting of prior years.

Independent Commissions

A new option coming out of the redistricting upheaval of the 1960s was the use of an independent redistricting commission. While a few states used one before the 1960s, their existence expanded after the redistricting revolution. Many states saw the

3. Reynolds v. Sims

4. Wattson, Peter S. "How To Draw Redistricting Plans That Will Stand Up In Court." p. 2.

new problems that existed with the legislatures developing redistricting plans and decided that it was impossible for a legislature to draw a fair plan. These states opted to remove redistricting from the hands of the legislature and place it in the care of an independent redistricting commission. The commission was free of the legislature and it had the sole responsibility for redistricting. The hope was that the establishment of an independent commission would fix the perceived problems of the redistricting process.

Commission creation developed with the intention of having a disinterested body draw up the redistricting plan. One of the major causes of a gerrymander is that the legislators drawing up the plan have a direct interest in its operation. They create the districts that regulate upcoming elections. The worry is that incumbents will sculpt districts that best suit their desires to be re-elected, rather than develop districts that will be fair and competitive. The general feeling is that the gerrymander subverts the democratic process. It is hoped that independent commissions will make redistricting a technical and scientific exercise and eliminate the partisanship and gerrymandering that exist when the legislature is in charge of promulgating the redistricting plan.

While the independent commission is the more popular name for this redistricting body, some states have chosen to form an independent redistricting board. Despite the difference in the name, both have the same function: to redistrict the state independent of the legislature.

REDISTRICTING COMMISSIONS IN THE STATES

Today, eighteen states use independent redistricting boards or commissions in some manner. Of those eighteen, nine have given the commission the responsibility for developing the redistricting plan, thereby totally removing the legislature from the redistricting process; four states use commissions to advise the redistricting authority; and five states use them as backups in case the redistricting authority fails to act by a certain deadline. Here are some charts that briefly describe their composition and deadlines.

INITIAL REDISTRICTING COMMISSIONS: STATE LEGISLATIVE PLANS

STATE	ROLE	NUMBER OF MEMBERS	SELECTION REQUIREMENTS	FORMATION DATE	INITIAL DEADLINE	FINAL DEADLINE
Arkansas	Develop a plan	3	Commission is the governor, secretary of state, and the attorney general	none listed	by February 1, 1991	plan becomes official 30 days after it is filed
Colorado	Develop a plan	11	-Legislature selects 4 (speaker of the house, house minority leader, senate majority and minority leaders, or their delegates) -Governor selects 3 -Judiciary selects 4 -Maximum of 4 from the legislature -Maximum of 3 from the same political party -Each congressional district must have at least 1 person, but no more than 4 people representing it on the commission -At least 1 member must live west of the continental divide	by August 1, 1991	30 days after the availability of the census data, or after the formation of the committee, whichever is later	March 15, 1992
Hawaii	Develop a plan	8	-President of the senate selects 2 -Speaker of the house selects 2 -Minority senate party selects 2 -Minority house party selects 2 -These 8 select the 8th member, who is the chair -No commission member may run for the legislature in the two elections following redistricting	by March 1, 1991	30 days after the commission forms	150 days after commission formation
Missouri	Develop a plan	House - 18 Senate - 10	-There are two separate redistricting committees -Governor picks one person from each list of two submitted by the two main political parties in each congressional district to form the house committee -Governor picks 8 people from two lists of 10 submitted by the two major political parties in the state to form the senate committee -No commission member may hold office in the legislature for 4 years after redistricting	within 60 days of the census data becoming available	6 months after the commission forms	6 months after formation
Montana	Develop a plan	5	-Majority and minority leaders of both houses of the legislature each select one member -Those 4 select a 5th, who is the chair -If the 4 cannot select a 5th within 30 days, then a majority of the supreme court will select the chair -Members cannot be public officials -Members cannot run for public office in the two years after the completion of redistricting	the legislative session after the census data is available	The commission must give the plan to the legislature at the first regular session after its appointment	30 days after the plan is returned by the legislature
New Jersey	Develop a plan	10	-The chairs of the two major parties select 5 members each -If these 10 members cannot develop a plan in the allotted time, the chief justice of the state supreme court will appoint an 11th member	December 1, 1990	February 1, 1991, or one month after the census data becomes available	The initial deadline, or one month after the 11th member is picked
Ohio	Develop a plan	5	Board is the governor, auditor, secretary of state, and two people selected by the legislative leaders of each major political party	Between August 1 and October 1, 1991		October 5, 1991
Pennsylvania	Develop a plan	8	-Majority and minority leaders of the legislative houses each select 1 member -These 4 select a 5th to chair -If they fail to do so within 45 days, a majority of the state supreme court will select the 5th member -The chair cannot be a public official	none listed	30 days after the availability of the census data or after the commission formation, whichever is later	30 days after the legislative session begins, or public exception or filed against the initial plan
Washington	Develop a plan	4	-Majority and minority leaders of the house and senate each select one -These 4 select a non-voting 5th to chair the commission -If they fail to do so by January 1, 1991, the state supreme court will select the 5th by February 5, 1991 -No commission member may be a public official	January 31, 1991	none listed	January 1, 1992

ADVISORY COMMISSIONS: STATE LEGISLATIVE PLANS

<u>STATE</u>	<u>ROLE</u>	<u>NUMBER OF MEMBERS</u>	<u>SELECTION REQUIREMENTS</u>	<u>INITIAL DEADLINE</u>	<u>FINAL DEADLINE</u>
Alaska	Advisory to the governor	5	-Governor selects all 5 -Members cannot be public officials or public employees -Each of the 4 regions of the state must have at least one representative on the board	The board submits a plan to the governor within 90 days of receiving the census data	-Governor issues the final plan within 90 days after receiving the board's plan -Governor must justify any changes that he makes in the board's proposal
Idaho	Advisory to the legislature	9	-Senate majority leader selects 1 -Senate minority leader selects 1 -House majority leader selects 1 -House minority leader selects 1 -These 4 select the 5th, who is chair -Commission members cannot hold public office or political party office	This commission is advisory only and does not draw up any plans	
Maine	Advisory to the legislature	15	-3 from the majority party in the house -3 from the minority party in the house -3 from the majority party in the senate -3 from the minority party in the senate -The chairs of the 2 major political parties -3 members from the public (1 democrat, 1 republican) -These 2 pick a third member from the public	90 days after the 1980 legislature convenes	-Legislature must enact a plan by a 2/3 vote by 30 days after receiving the commission plan
Vermont	Advisory to the legislature	6	-Chief justice appoints the chair -Governor appoints 1 member from each political party who received 25% of the vote in the last gubernatorial election -Those parties then each select 1 -Secretary of state is a non-voting member -No commissioner may be a member of the legislature	February 1, 1981	Legislature must adopt the official plan at the biennial session following the decennial census

BACKUP COMMISSIONS: STATE LEGISLATIVE PLANS¹

<u>STATE</u>	<u>ROLE</u>	<u>NUMBER OF MEMBERS</u>	<u>SELECTION REQUIREMENTS</u>	<u>FORMATION DATE</u>	<u>FINAL DEADLINE</u>
Connecticut	Backup to the legislature	5	-President pro tem selects 2 -Speaker of the House selects 2 -Senate minority leader selects 2 -House minority leader selects 2 -These 5 must select the 5th within 30 days	After the legislative deadline which is August 1, 1991	October 31, 1991
Illinois	Backup to the legislature	8	-Senate president selects 2 -Speaker of the House selects 2 -Senate minority leader selects 2 -House minority leader selects 2 -In each pairing of two, one is to be a legislator and the other is not -Maximum of 4 from the same political party -If the commission cannot develop a plan by August 10, 1991, then the state supreme court will select 2 people and one of the pair will be chosen at random to be the commission chairperson	July 10, 1991, which follows the legislative deadline of June 30, 1991	October 5, 1991
Mississippi	Backup to the legislature	5	Commission is composed of the chief justice of the supreme court (chair), attorney general, secretary of state, speaker of the House, and president pro tempore of the Senate	60 days after the legislative deadline, which is the last day of the regular session	180 days after legislative adjournment
Oklahoma	Backup to the legislature	3	Board is composed of the attorney general, superintendent of public instruction, and state treasurer	60 days after the convening of the first regular session following the decennial census	None listed, but the state supreme court has the right to compel the commission to act
Texas	Backup to the legislature	5	Board is composed of the lieutenant governor, speaker of the House, attorney general, comptroller of public accounts, and commissioner of the general land office	Within 60 days after the final adjournment of the 1991 legislative session	60 days after formation

¹The responsibility for redistricting in these states originally lies with the legislature. These commissions take action only if the legislature fails to develop a plan by its redistricting deadline.

Role

Of the eighteen states, half use commissions to develop the entire plan, four use commissions to advise the redistricting authority, and five have commissions to redistrict only if the legislature fails to redistrict by its deadline. The commissions that promulgate a redistricting plan have the most power because the legislature has been removed from the redistricting process. The advisory commissions are influential only to the extent that the redistricting authority listens to them. The commissions that draw up an initial plan are more powerful than those that draw no plans. The backup commissions only come into play after the legislature fails to enact a plan. They act as a safety valve, providing the state another opportunity to redistrict before the court system becomes involved.

Composition

The number of commission members ranges from three in Arkansas to eighteen in Missouri. Even though the numbers span this wide range, commissions and boards separate into two basic categories: "small" and "large." The small commission has less than six members while the large commission has more than eight members. A small commission has an advantage in that it should have an easier time developing a plan because it has fewer people that have to reach agreement. Its disadvantage comes from the fact that with the fewer members it has, the fewer viewpoints that are represented. A large commission benefits from the fact that many viewpoints are represented on the commission. Technically, the more viewpoints on the commission, the better represented the people of the state will be in the redistricting process. Some states [Alaska, Colorado, and Missouri (senate)] write this into law by requiring that each segment of the state be represented on the redistricting commission. That way, the viewpoints of the whole state, rather than just one segment, are represented on the commission. The drawback of a large commission is that with more people, it is harder to get them all to agree on a plan.

These commissions may not be as independent as they appear. Even though commissions were established to be independent of legislatures, certain legislators hold great influence over their formation. Of the nine states that have commissions which develop the plan, six commissions have members who are either legislators or chosen by the legislature. Of the three states remaining, two of them have their composition dictated by the executive branch and only one commission, New Jersey, has its composition determined by a group outside of the direct political process. But even in that case the members are determined by the heads of the two major parties, so the influence is shifted from members of the government to the political parties themselves. Very likely, the result is that these independent commissioners will be tied to the political agenda of the people who select

them and that greatly restricts the independence of the commission.

Direct Comparison

While eighteen states choose to use commissions in some form, most states leave redistricting responsibilities with the legislature. By no means is there a consensus on the effectiveness of these commissions. Many good government groups, such as Common Cause, feel that commissions are the best way to redistrict; while other interests feel that commissions are unnecessary and anti-democratic. The use of an independent commission has many pros and cons. Here is a brief summary of both sides:

PROS

- An ideal redistricting plan is drawn by a body that has no direct stake in the final outcome
- A commission takes the politics out of an extremely political and divisive issue, and the process would become scientific and technical, thereby enabling a fair plan to be drawn
- Commissions are more willing to create a plan where the districts would be more balanced, thereby allowing for competitive elections
- Commission creation serves the public interest and its operation is in the best interests of good government
- Incumbents who redraw the political map are made the judge and jury; and are thus susceptible to exploiting this conflict of interest, which undermines the democratic process

CONS

- The reliance on a commission assumes that the public has little ability to look out for its own interest
- Redistricting will always be a political issue. It is not possible to take the politics out of it. Therefore, the legislature, which is best equipped to deal with political issues, should redistrict
- Commissions are anti-democratic in their nature and less accountable to the public than the legislature
- Bipartisan commissions will inevitably feel the strains of partisan discord. Therefore, the process should be left to the legislature, which is designed to deal with partisanship
- Pluralism requires that policy be created by the give and take of groups in competition. By creating a commission, pluralism is undermined

-Commissions reduce the need for court intervention because the plans they draw will be fair to start with

-Redistricting is not a perfectible exercise. Conflict will exist, so the best that can be done is to manage the conflict through the legislature

-As long as legislatures redistrict, the specter of a gerrymander will hang over any plan drawn. The only way to eliminate the gerrymander is to have an independent commission redistrict

-While the idea of a gerrymander is distasteful to most people, giving redistricting to a commission may be going a step too far. The court system is a sufficient check on the temptation for the legislature to gerrymander

PERFORMANCE TEST

Purpose

One way to judge whether or not using an independent redistricting commission is better than having the legislature redistrict is to see how effective each method has been. This is done by judging whether or not the redistricting authority in each state has lived up to its redistricting expectations. Those that meet expectations are rated as "successful" and those that have not are judged as failing. This test judges successes to be only those states who meet the strict criteria of a redistricting success. Those that do not meet these criteria will be classified as having failed to successfully redistrict.

Methodology

Most states conduct legislative redistricting every ten years, after the data from the Federal Census becomes available. The results of the redistricting process in the 1970s and 1980s are used to judge the effectiveness of a state's redistricting body. A success is achieved when the body responsible for legislative redistricting develops the final plan without any interference from an outside force (i.e. the court system); and that final plan is the one that lasts through the decade. A failure is any state whose legislative redistricting is done by a group other than the one that was originally responsible for it (i.e. a backup commission developing a plan after the legislature fails to enact one); or if a body outside of the redistricting process forces the redistricting authority to alter its final plan (i.e. the court system overturning a plan and forcing the redistricting authority to draw a new one). This test only considers 48 states because the redistricting power in Alaska and Maryland rests with the governor. In the two decades, these are the results:

Senate plan success rate: 63% (25 of 40)
Overall success rate: 65% (51 of 79)

5. All data on the 1970s comes from "Independent Commissions: The Next Step in the Redistricting Revolution?" by John Michael McGehee

*Percentages are formulated by dividing the number of total plans into the number of successful plans. In 39 states, there are 77 plans (Each state must draw a house and a senate plan, with the exception of Nebraska, which is unicameral)

COMMISSION SUCCESSES

<u>STATE</u>	<u>REDISTRICTING AUTHORITY</u>

Michigan	Commission	Court drew plan
Missouri (house)	Commission	Court drew plan
New Jersey	Commission	Court forced a redraw

Commission failure: 31% (5 of 16)

Summary

The data shows that the ratings are stable from one decade to the next. Commissions have a slightly better percentage point rating than do legislatures. On average, for every three plans that a commission draws, it succeeds on slightly more than two. For every three plans the legislature draws, it succeeds on slightly less than two. Overall, it appears that no matter who does the redistricting, the overall success rate percentage will hover in the mid-sixties.

These statistics deal with just two rounds of redistricting. While the statistics show that commissions and legislatures have had about the same success rate in the past (about two out of three), that could change drastically in the next redistricting period. The existence of commissions has been brief and it will take more redistricting rounds before their success rate can be definitively judged. The best one can do now is look at the data and form some preliminary conclusions.

CONCLUSION

Commissions were created in the hope of reforming the redistricting process, however there are pros and cons to using these commissions. There is no evidence that commissions are free of the evils of gerrymandering, nor does the performance test show that one redistricting method outperforms the other. The jury remains out as to whether or not independent legislative redistricting commissions are the way to go.

The rise in the creation of independent redistricting commissions came out of the desire to correct the problems that existed in redistricting when the legislature did it. However, even if a state opts to use an independent commission, these problems may remain. There are other factors that influence the redistricting process regardless of what the redistricting authority is. The main factor is the composition of the state's population. A state with a homogenous population should have an easier redistricting job than a state with a heterogeneous population. Heterogeneity can arise from differences in ethnicity, political affiliation, and geography. States with such a diversity in population will encounter redistricting controversy no matter what the redistricting authority is. Redistricting is the process of drawing lines. When many groups need to be considered, the process of drawing a line will give an advantage to one group over another. No plan can satisfy everyone because there will always be some group who feels that the redistricting plan is unfair. States must be cautious and realize that redistricting problems may not be controllable by the redistricting authority. The creation of an independent commission may not cure the redistricting problems that exist within a state.

Section 4 - Method.

Reapportionment shall be by the method of equal proportions, except that each election district having the major fraction of the quotient obtained by dividing total civilian population by forty shall have one representative.

Section 5 - Combining Districts.

Should the total civilian population within any election district fall below one-half of the quotient, the district shall be attached to an election district within its senate district, and the reapportionment for the new district shall be determined as provided in Section 4 of this article.

Section 6 - Redistricting.

The governor may further redistrict by changing the size and area of election districts, subject to the limitations of this article. Each new district so created shall be formed of contiguous and compact territory containing as nearly as practicable a relatively integrated socio-economic area. Each shall contain a population at least equal to the quotient obtained by dividing the total civilian population by forty. Consideration may be given to local government boundaries. Drainage and other geographic features shall be used in describing boundaries wherever possible.

Section 7 - Modification of Senate Districts.

The senate districts, described in Section 2 of Article XIV, may be modified to reflect changes in election districts. A district, although modified, shall retain its total number of senators and its approximate perimeter.

Section 8 - Reapportionment Board.

The governor shall appoint a reapportionment board to act in an advisory capacity to him. It shall consist of five members, none of whom may be public employees or officials. At least one member each shall be appointed from the Southeastern, Southcentral, Central, and Northwestern Senate Districts. Appointments shall be made without regard to political affiliation. Board members shall be compensated.

Article VI

Legislative Apportionment

Section 3 - Methods of Voting; Election Contests.

Methods of voting, including absentee voting, shall be prescribed by law. Secrecy of voting shall be preserved. The procedure for determining election contests, with right of appeal to the courts, shall be prescribed by law.

Section 4 - Voting Precincts; Registration.

The legislature may provide a system of permanent registration of voters, and may establish voting precincts within election districts.

Section 5 - General Elections.

General elections shall be held on the second Tuesday in October of every even-numbered year, but the month and day may be changed by law.

Revisor's note - Exercising its authority under this section, the legislature has provided that the date of general elections is the Tuesday after the first Monday in November in every even-numbered year. See AS 15.15.020.

Article VI

Legislative Apportionment

Section 1 - Election Districts.

Members of the house of representatives shall be elected by the qualified voters of the respective election districts. Until reapportionment, election districts and the number of representatives to be elected from each district shall be as set forth in Section 1 of Article XIV.

Section 2 - Senate Districts.

Members of the senate shall be elected by the qualified voters of the respective senate districts. Senate districts shall be as set forth in Section 2 of Article XIV, subject to changes authorized in this article.

Section 3 - Reapportionment of House.

The governor shall reapportion the house of representatives immediately following the official reporting of each decennial census of the United States. Reapportionment shall be based upon civilian population within each election district as reported by the census.

Article XIV

Apportionment Schedule

Section 1 - Election Districts.

Members of the house of representatives shall, according to the reapportionment proclamation of the governor, dated February 15, 1984, be elected from the election districts and in the numbers shown below:

Election District	Name of District	Number of Representatives
1	Ketchikan-Wrangell-Petersburg	2 (Seats A & B)
2	Inside Passage	1
3	Baranof-Chichagof	1
4	Juneau	2 (Seats A & B)
5	Kenai-Cook Inlet	2 (Seats A & B)
6	Prince William Sound	1
7	North Kenai-South Anchorage	1
8	Campbell-Hillside	2 (Seats A & B)
9	Turnagain-Sand Lake	2 (Seats A & B)
10	Mid-Town	2 (Seats A & B)
11	Spenard	2 (Seats A & B)
12	Downtown	2 (Seats A & B)
13	Elmendorf AFB-Mountain View	2 (Seats A & B)
14	South Muldoon	2 (Seats A & B)
15	Chugiak-Eagle Rivers-Ft. Richardson	2 (Seats A & B)
16	Matanuska-Susitna	2 (Seats A & B)
17	Interior Highways	1
18	Southeast North Star Borough	1
19	Outer Fairbanks	1
20	Fairbanks City	2 (Seats A & B)
21	West Fairbanks	1
22	North Slope-Kotzebue	1
23	Norton Sound	1
24	Interior Rivers	1
25	Lower Kuskokwim	1
26	Bristol Bay-Aleutian Islands	1
27	Kodiak-East Alaska Peninsula	1

In all two member house districts candidates will run for designated seats indicated by Seat A and Seat B. Candidates will file for one of the available seats. Each qualified voter in the district may cast one vote for their choice among the candidates for each seat. The candidate receiving the greatest number of votes cast for each seat is elected.

Section 2 - Senate Districts.

Members of the senate shall, according to the reapportionment proclamation of the governor, dated February 15, 1984, be elected from the election districts and in the numbers shown below:

Senate District	Composed of Election Districts	Number of Senators
A	Ketchikan-Wrangell-Petersburg	1
B	Inside Passage-Baranof-Chichagof	1
C	Juneau	1
D	Kenai-Cook Inlet	1
E	Prince William Sound-North Kenai-South Anchorage-Matanuska-Susitna	2 (Seats A & B)
F	Campbell-Hillside-Mid-Town	2 (Seats A & B)
G	Turnagain-Sand Lake-Spenard	2 (Seats A & B)
H	Downtown-Elmendorf AFB-Mountain View	2 (Seats A & B)
I	Muldoon-Chugiak-Eagle River-Fort Richardson	2 (Seats A & B)
J	Interior Highways-Southeast-North Star Borough	1
K	Outer Fairbanks-Fairbanks City-West Fairbanks	2 (Seats A & B)
L	North Slope-Kotzebue-Norton Sound	1
M	Interior Rivers-Lower Kuskokwim	1
N	Bristol Bay-Aleutian Islands-Kodiak-East Alaska Peninsula	1

In all two member senate districts candidates will run for designated seats indicated by Seat A and Seat B. Candidates will file for one of the available seats. Each qualified voter may cast one vote for their choice among the candidates for each seat. The candidate receiving the greatest number of votes cast for each seat is elected.

Section 3 - Description of Election Districts.

The election districts set forth in Section 1 shall include the following territory:

1. **Ketchikan-Wrangell-Petersburg** - District 1 is an area within a line proceeding from Dixon Entrance in a northerly direction up Clarence Strait, passing west of Zarembo Island, northerly up Duncan Canal, across Frederick Sound to a point west of Cape Fanshaw, then north-easterly to the Canadian border and southerly along the Canadian border to the point of beginning at Dixon Entrance, excluding the area on Annette Island. The district includes the Ketchikan Gateway Borough, Wrangell, Petersburg, Hyder, Saxman, Meyers Chuck, and Kupreanof. It has a population of 16,601.58 and a variance of -9.9 percent. It will elect two house members to designated seats and one senator.

2. **Inside Passage** - District 2 is composed of that portion of Southeast Alaska between Dixon Entrance and Boundary Point 187 on the U.S./Canadian International Boundary that is not contained in Districts 1, 3, and 4. Included within its boundaries are the communities of Yakutat, Haines, Skagway, Klukwan, Gustavus, Hoonah, Angoon, Kake, Metlakatla, Thorne Bay, Klawock, Craig, and Hydaburg. The district has a population of 8,924.35 and a variance of -3.1 percent. It will elect one house member and, with District 3, one senator.

3. **Baranof-Chichagof** - District 3 consists of Baranof Island, Yakobi Island, Chichagof Island, and all of the smaller adjacent islands offshore, excluding the area within the City of Hoonah. The communities on the islands include Sitka, Pelican, Elfin Cove, Tenakee Springs, and Port Alexander. The district has a population of 8,448.97 and a variance of -8.3 percent. It will elect one house member and, with District 2, one senator.

4. **Juneau** - District 4 boundaries coincide with those of the City and Borough of Juneau. The district has a population of 19,332.75 and a variance of +4.9 percent. It will elect two house members to designated seats and one senator.

5. **Kenai-Cook Inlet** - District 5 includes all of the coastal areas on the east and west sides of Cook Inlet inside the Kenai Peninsula Borough, that lie south and west of Nikiski. Communities within the district include Kenai, Soldotna, Sterling, Ninilchik, Anchor Point, Homer, Seldovia, Port Graham, and English Bay. The district has a population of 19,189.95

and a variance of +4.2 percent. It will elect two house members to designated seats and one senator.

6. **Prince William Sound** - District 6 includes the area along Prince William Sound from Boundary Point 187 on the U.S./Canadian International boundary on the east to the Kenai National Moose Range boundary on the west. Included in the district are the communities of Hope, Cooper Landing, Moose Pass, Seward, Whittier, Valdez, Chitina, McCarthy, Tatitlek, and Cordova. It has a population of 8,753.19 and a variance of -4.9 percent. It will elect one house member, and with Districts 7 and 16, two senators to designated seats.

7. **North Kenai-South Anchorage** - District 7 contains the Nikiski area on the northern Kenai Peninsula, and the southeastern reaches of the Municipality of Anchorage, including the community council areas of Old Seward/Oceanview, Rabbit Creek, Turnagain Arm, and Girdwood Valley. Its northern boundary proceeds east from Turnagain Arm along Klatt Road to the New Seward Highway, southerly on the New Seward Highway to Huffman Road, westerly along Huffman Road to the Old Seward Highway, southerly on the Old Seward Highway to DeArmoun Road, east on DeArmoun Road to Rabbit Creek, and easterly and southerly along Rabbit Creek. The district has a population of 9,580.1 and a variance of +4.0 percent. It will elect one house member and, with Districts 6 and 16, two senators to designated seats.

8. **Campbell-Hillside** - District 8 is bounded on the south by Rabbit Creek, DeArmoun Road, the Seward Highway, and Klatt Road, and on the west by Turnagain Arm. Dimond Boulevard and Abbott Road form the northern boundary, and the Chugach Mountains are the eastern boundary. This district includes the neighborhood council areas of Bayshore/Klatt, Huffman/O'Malley, Mid-Hillside, Hillside East and Glen Alps. The district has a population of 19,230.7 and a variance of +4.4 percent. It will elect two house members to designated seats and, with District 10, two senators to designated seats.

9. **Turnagain-Sand Lake** - District 9 is bounded by a line beginning at Turnagain Arm and proceeding east on Dimond Boulevard to Arctic Boulevard, then north to International Airport Road, then west to Spenard Road, then northerly to Fish Creek and continuing north to W. 36th Avenue, then west to Wisconsin Street and north on Wisconsin to Northern Lights Boulevard, then east on Northern Lights to Minnesota Drive and north on Minnesota Drive to Chester Creek, then west on

Chester Creek to Kaik Arm. The district includes the community council areas of Turnagain and Sand Lake. It has a population of 19,155.9 and a variance of +4.0 percent. It will elect two house members to designated seats and, with District 11, two senators to designated seats.

10. Midtown - District 10 is bounded by a line beginning at the intersection of Arctic Boulevard and Dimond Boulevard, then north to International Airport Road, east to the Old Seward Highway, north to Chester Creek, easterly to Bragaw Street and E. 20th Avenue, east to Pine Street, south to Tudor Road, then westerly and southerly along the Bureau of Land Management boundary to Birch Road, south to Abbott Road, and west along Abbott Road to the New Seward Highway, north to Dimond Boulevard, and west to the point of beginning. The district includes the community council areas of Rogers Park, Tudor, Taku-Campbell, Lake Otis, and University. It has a population of 18,183.5 and a variance of -1.3 percent. It will elect two house members to designated seats and, with District 8, two senators to designated seats.

11. Spenard - District 11 is bounded by District 10 on the east, International Airport Road on the south, Wisconsin Street, Fish Creek, and Spenard Road on the west, and Chester Creek and W. 23rd Avenue on the north. It includes the community council areas of Spenard and North Star. It has a population of 18,804.1 and a variance of +2.1 percent. It will elect two house members to designated seats and, with District 9, two senators to designated seats.

12. Downtown - District 12 is bounded by Chester Creek on the south, Bragaw Road on the east, Commercial Drive and the Elmendorf reservation boundary on the north and the inlet on the west. Included are the community council areas of Government Hill, Downtown, Penland Park, South Addition, Fairview, and parts of the areas of North Mountain View and Airport Heights. The district has a population of 18,678.4 and a variance of +1.4 percent. It will elect two house members to designated seats and, with District 13, two senators to designated seats.

13. Elmendorf Air Force Base-Mountain View - District 13 is bounded by a line beginning at the intersection of Bragaw Street and E. 20th Avenue proceeding east to Baxter Road, north to DeBarr Avenue, east to Muldoon Road, north to E. 4th Avenue, west to Patterson Street, north to the Glenn Highway, east on the Glenn Highway to the common boundary between Elmendorf Air Force Base and Fort Richardson, then following the Elmendorf military reservation boundary to Commercial

Drive, then east to Mountain View Drive, then southwesterly to the Glenn Highway, then east to Bragaw Road and south to the point of beginning. The district includes the community council areas of Russian Jack Park, North and South Mountain View, Airport Heights, and North Muldoon. It has a population of 19,173.1 and a variance of +4.1 percent. It will elect two house members to designated seats and, with District 12, two senators to designated seats.

14. South Muldoon - District 14 includes Stuckagain Heights and the community council areas of Northeast, South Muldoon, and Scenic Park. The District is bounded by District 13 on the north, District 15 on the north and east, District 8 on the east and south, and District 10 on the south and west. District 14 has a population of 18,265.4 and a variance of -.8 percent. It will elect two house members to designated seats and, with District 15, two senators to designated seats.

15. Chugiak-Eagle River-Fort Richardson - District 15 includes the northern portion of the Municipality of Anchorage from Fort Richardson on the west to the municipality's border on the north and east, and by District 14 on the south. It includes the community council areas of Eklutna Valley, Chugiak, Birchwood, and Eagle River Valley. Also included are Fort Richardson, and the area of the North Muldoon community council area bounded by Chester Creek, Muldoon Road, E. 4th Avenue, Patterson Street, and the Glenn Highway. The district has a population of 18,395 and a variance of -.1 percent. It will elect two house members to designated seats and, with District 14, two senators to designated seats.

16. Matanuska-Susitna - District 16 is comprised of the Matanuska-Susitna Borough, including the communities of Talkeetna, Willow, Houston, Big Lake, Wasilla, Bodenburg Butte, Palmer, Sutton, Peter's Creek, Montana, and Chickaloon. It has a population of 17,692.23 and a variance of -3.9 percent. It will elect two house members to designated seats and, with Districts 6 and 7, two senators to designated seats.

17. Interior Highways - District 17 is made up of those areas outside of the Matanuska-Susitna Borough and the Fairbanks North Star Borough which are along the Glenn, Parks, Richardson, and Alaska Highways. Included are Paxson, Gulkana, Glennallen, Copper Center, Tonsina, Tazlina, Eagle, Delta, Fort Greely, Tanacross, Tok, Tellin, Northway, Nenana, Anderson, Healy, and Cantwell. The district has a population

of 8,753.57 and a variance of -4.9 percent. It will elect one house member and, with District 18, one senator.

18. Southeast North Star Borough - District 18 encompasses the southeast section of the Fairbanks North Star Borough. It includes North Pole, Eielson Air Force Base, Salcha, and Harving Lake. Its population is 9,300, with a variance of +.9 percent. It will elect one house member and, with District 17, one senator.

19. Outer Fairbanks - District 19 includes Livengood, Ester, Goldstream Road, the Steese Highway, the eastern half of Farmers Loop Road, Fort Wainwright, Chena Hot Springs Road, Circle, Central, and Circle Hot Springs. It has a population of 8,934.3 and a variance of -3.0 percent. It will elect one house member and, with Districts 20 and 21, two senators to designated seats.

20. Fairbanks City - District 20 is bounded by the Noyes Slough and University Avenue on the west, the Fairbanks International Airport on the southwest, the Tanana River on the south, and Fort Wainwright on the east. The Creamers Field area is included as the northern edge of the district. The district has a population of 18,319.7 and a variance of -.5 percent. It will elect two house members to designated seats and, with Districts 19 and 21, two senators to designated seats.

21. West Fairbanks - District 21 includes the western half of Farmers Loop Road and the area west of Noyes Slough and University Avenue to, but not including, the Ester area. It has a population of 9,247.1 and a variance of +.4 percent. It will elect one house member and, with Districts 19 and 20, two senators to designated seats.

22. North Slope-Kotzebue - District 22 includes the areas of the North Slope Borough, Arctic Slope Regional Corporation, and the Northwest Alaska Native Association. It has a population of 8,999.06 and a variance of -2.3 percent. The district will elect one house member and, with District 23, one senator.

23. Norton Sound - District 23 includes the area of the Bering Straits Regional Corporation; Shishmaref, Diomedes, Teller, Nome, Koyuk and Saint Michael, and the coastal communities as far south as Hooper Bay and Paimiut. Chevak is also included along with Yukon River villages down river from Mountain Village. The district has a population of 9,338.86 and a variance of +1.4 percent. It will elect one house member and, with District 22, one senator.

24. Interior Rivers - District 24 includes the communities on or near the great interior rivers, the Yukon, the Koyukuk, and the Kuskokwim, as far down river as Mountain Village on the Yukon and Tuluksak on the Kuskokwim. The district has a population of 8,936.12 and a variance of -3.0 percent. It will elect one house member and, with District 25, one senator.

25. Lower Kuskokwim - District 25 includes the Kuskokwim River communities down river from Akiak and Akiachak, and the coastal communities from Newtok to Platinum. It has a population of 9,432.35 and a variance of +2.4 percent. It will elect one house member and, with District 24, one senator.

26. Bristol Bay-Aleutian Islands - District 26 includes all of the Bristol Bay Native Corporation area except Ivanof Bay, Perryville, Chignik Lake, Chignik, and Chignik Lagoon. Included are the remainder of the Alaska Peninsula communities, the Aleutian communities, the Bristol Bay communities as far west as Twin Hills, and communities as far up river as Aleknagik and Koliganek. The Bristol Bay Borough is also included. The district has a population of 9,157.61 and a variance of -.6 percent. It will elect one house member and, with District 27, one senator.

27. Kodiak-East Alaska Peninsula - District 27 covers the Kodiak Island Borough and the Alaska Peninsula communities of Ivanof Bay, Perryville, Chignik Lake, Chignik, and Chignik Lagoon. It has a population of 9,592.4 and a variance of +4.1 percent. It will elect one house member and, with District 26, one senator.

Article XV

Schedule of Transitional Measures

Section 1 - Continuance of Laws.

All laws in force in the Territory of Alaska on the effective date of this constitution and consistent therewith shall continue in force until they expire by their own limitation, are amended, or repealed.

Section 2 - Saving of Existing Rights and Liabilities.

Except as otherwise provided in this constitution, all rights, titles, actions, suits, contracts, and liabilities and all civil, criminal, or administrative proceedings shall continue unaffected by the change from territorial to

Mass. Wins Redistricting Fight

Leg. Ref. 3808
A.G. 206-753-6804

BOSTON (AP) - Massachusetts on Thursday won the right to keep its 11 congressional seats in a court ruling that could set the stage for a Supreme Court battle with Washington state over representation in Congress.

Massachusetts was to lose one seat this year, due to population shifts calculated in the 1990 U.S. Census, while Washington gained a seat.

But a special panel of three federal judges agreed with Massachusetts that ~~it was improper to include overseas residents, such as military personnel, in apportioning congressional seats.~~ State officials claimed the census undercounted the number of overseas residents from Massachusetts, leading to the loss of a seat.

Washington officials said they would appeal the decision to the U.S. Supreme Court, which on March 4 is hearing a congressional apportionment case filed by Montana. It, also, is challenging the apportionment of the 435 House seats.

If Massachusetts wins, Washington state would lose a ninth seat it gained.

Officials in both Massachusetts and Washington expressed confidence their states would win a Supreme Court showdown.

Washington officials say they already have certification from the chief clerk of the U.S. House of Representatives saying Washington is entitled to a ninth congressional seat.

"We feel we're on fairly firm ground in claiming that there's no way to alter that," said David Brine, spokesman for Washington's Secretary of State.

The federal court gave Massachusetts until March 30 to come up with an 11-district plan. Failure to do so would cost the state the seat.

~~The three judges agreed in a unanimous decision, saying the Census Bureau relied on "precisely the same data that it had consistently found to be too unreliable" in the past.~~

The three judges agreed in a unanimous decision, saying the Census Bureau relied on "precisely the same data that it had consistently found to be too unreliable" in the past.

All states must redraw their congressional districts after the federal census, which takes place every 10 years. The apportionment of seats is based on the census numbers as well as a complex formula that assures that the U.S. House of Representatives remains at 435 members.

The panel included U.S. Circuit Judge Hugh Bowmes of New Hampshire, U.S.

District Judge Francis Boyle of Rhode Island and U.S. District Judge Douglas Woodlock of Massachusetts.

Assistant Attorney General James Johnson of Washington said he didn't believe the three-judge panel had jurisdiction.

Joseph Krovisky, a spokesman for the U.S. Department of Justice, which represented the federal government in the case, had no comment on any future action.

Plaintiffs,CIVIL ACTION NO.
91-11234-WD

V.

ROBERT MOSBACHER, AS SECRETARY OF
THE UNITED STATES DEPARTMENT OF
COMMERCE; MICHAEL DARBY, AS
UNDERSECRETARY OF ECONOMIC AFFAIRS
OF THE UNITED STATES DEPARTMENT OF
COMMERCE; THE BUREAU OF THE CENSUS;
BARBARA BRYANT, AS DIRECTOR OF THE
BUREAU OF THE CENSUS; GEORGE
HERBERT WALKER BUSH, AS PRESIDENT
OF THE UNITED STATES; AND DONNALD
K. ANDERSON, AS CLERK OF THE UNITED
STATES HOUSE OF REPRESENTATIVES,
Defendants.FINAL DECREES AND ORDERS
February 20, 1992

In accordance with the Memorandum issued this day, it is
hereby ORDERED, ADJUDGED and DECREED:

1. That 2 U.S.C. §2(a)(a), insofar as it requires
apportionment of seats in the House of Representatives among the
states by the method known as equal proportions, is not in
violation of the United States Constitution;

2. That the administrative practice of the Executive
Branch Defendants in counting overseas federal employees in the
1990 census for the purpose of apportioning seats in the United
States House of Representatives among the states was arbitrary
and capricious and an abuse of discretion in violation of the
Administrative Procedure Act, 5 U.S.C. §706(2)(A), and that
consequently the use of the overseas census counts by the

defendants in the certification of state entitlements to seats in the House of Representatives was improper;

3. That the Executive Branch Defendants shall submit to defendant Anderson on or before March 31, 1992, a statement showing the number of Representatives to which each state would be entitled as a result of the 1990 decennial census under 2 U.S.C. §2(a)(2), without inclusion of the overseas census counts in the apportionment count;

4. That defendant Anderson, as he is the Clerk of the United States House of Representatives, shall on or before April 10, 1992, send the executive of each state a recertification of the number of Representatives to which such state is entitled in accordance with paragraph 3 of this Order;

5. That the plaintiff Commonwealth of Massachusetts shall, on or before March 30, 1992, submit a certification to be docketed in this action affirming that there has been prepared a plan--adopted by the General Court of the Commonwealth and approved by the Governor--for the redistricting of eleven Congressional seats in Massachusetts, in accordance with the 1990 decennial census, without inclusion of the overseas census counts;

6. That the failure of the Commonwealth of Massachusetts to certify the adoption and approval of the plan called for by

paragraph 5 of this Order on or before March 30, 1992 will relieve the defendants of their obligations under paragraphs 3 and 4 of this Order.

Dickering Over the Districts

You can take redistricting out of the legislature but the politics remain.

Tim Storey

Most states now have new state legislative district maps in place for the upcoming fall elections, but at least 23 of them are being challenged in court.

Every 10 years the U.S. Census Bureau counts Americans, and then states begin the arduous and often agonizing task of redrawing political boundaries for state legislative and congressional seats. In most states, it's the lawmakers who do the map drawing, and routinely they do it in a politically charged, contentious atmosphere. Inevitably, passing a redistricting plan comes down

to the closing days of the session and is adopted in a cloud of partisanship. Not long after, disgruntled members, editorialists and public interest groups call for reform. "There must be a better way," they declare.

But is there?

Donald Stokes, dean of Princeton's Woodrow Wilson School, points out that the United States is the only nation with representative districts that leaves remapping to the normal legislative process. As a two-time member of New Jersey's redistricting commission, he argues that the public interest—not political interests—is served best when law-

makers are removed from redistricting. And indeed, nine states rely on commissions to redraw district lines, contending that lawmakers' priorities are to maximize partisan control and entrench incumbents rather than develop fair plans that can stand up in court.

But others argue that politics will never be absent from a process inherently political. For after all, commission members are appointed by politicians and bring their own agendas to the table. Some in Pennsylvania have called for an overhaul of their commission system and suggested that redistricting be brought back into the legislative process because they believe that the commission system invests too much power in the hands of too few people. Pennsylvania has a five-person commission for legislative redistricting.

Nevertheless, the appeal of removing redistricting from the legislative environment can be particularly tantalizing at least once every 10 years.

Following a contentious redistricting battle in Virginia in 1991, Delegate Steven Agee announced that he would introduce a bill during Virginia's next regular session calling for the creation of a redistricting commission. In Louisiana, several prominent public figures such as former governor Buddy Roemer and Senator Dennis Bagneris, who chairs the committee that handled redistricting, have been joined by various newspaper editorial writers in calling for the creation of some sort of entity to draw Bayou State districts that will take the process out of the hands of the Legislature.

Currently, redistricting of legislative seats is the responsibility of the legislature in 39 states. (In Alaska the governor is charged with redistricting, and Maryland's governor submits legislative maps to the legislature.) Reformers contend that redistricting done within the normal legislative process creates a clear conflict of interest since the outcome will have so many political ramifications.

Nine states have lifted the task of redistricting out of the legislature and given an independent commission the

Redistricting Via Commission

State	Members	Selection Requirements
Ark.	3	Governor, secretary of state and the attorney general serve.
Colo.	11	Legislature selects 4, governor 3, judiciary 4. Maximum of 4 from legislature; 6 from the same party. Each congressional district must have at least 1 but no more than 4 representatives; at least 1 member must live west of the Continental Divide.
Hawaii	9	Senate president selects 2, speaker 2, minority Senate 2, minority House 2. These 8 select 9th member to chair. No member may run for legislature in the two elections following redistricting.
Mo.	House—18 Senate—10	There are two committees. Governor picks 1 person from 2 lists submitted by the main political parties in each Congressional district to form the House committee. Governor picks 5 from lists of 10 submitted by the two parties to form the Senate committee. No member may hold legislative office for next 4 years.
Mont.	5	Majority and minority leaders of both houses each select a member. Those 4 select a 5th chair. If the 4 cannot select a 5th within 20 days, then a majority of the Supreme Court selects the chair. Public officials may not serve. Members may not run for office for 2 years.
N.J.	10	The chairs of the two major parties select 5 members each. If they cannot develop a plan in the allotted time, the chief justice of the Supreme Court appoints an 11th member.
Ohio	5	Board is the governor, auditor, secretary of state and 2 members selected by the legislative leaders of each major party.
Pa.	5	Majority and minority leaders of both houses each select 1 member. These 4 select a 5th to chair. If they fail to do so within 45 days, a majority of the Supreme Court will select the 5th. Chair may not be a public official.
Wash.	4	Majority and minority leaders of both houses each select 1. These 4 select a non-voting chair. If they fail to do so by a specific date, the Supreme Court selects the 5th. No commission member may be a public official.

Todd Rosenkrantz, NCSL

doned properties or construct new apartments for poor families. The tenants of these properties actually use their own labor in lieu of the more traditional down payment—a process called “sweat equity”—to prepare the apartments for residence; eventually the tenants own and manage the properties themselves.

El Hogar del Futuro, Spanish for “home of the future,” is a non-profit community development corporation in Hartford that makes good use of the state’s limited equity cooperative program. Started by the Catholic Church in the 1970s, El Hogar has built or rehabilitated 130 housing units in poor neighborhoods in Hartford. “We carefully select families for these projects while they are being built,” explains Dennis Cunningham, director of El Hogar. The families must meet income eligibility criteria and agree to put 300 hours of sweat equity into the project.

A recent project called “La Esquina Brillante” (brilliant corner) was built in the Clay Hill neighborhood with funding from the state as well as Phoenix Mutual, a local insurance company. Cunningham always makes an effort to supplement the state’s funds with those of private companies. In the case of Phoenix Mutual, “they realized the benefits to be gained from community involvement. The combined energy from the state, private and non-profit organizations and housing recipients is the key to our program’s success,” says Cunningham.

What has precipitated this new wave of state-level activity in housing? Without hesitation, housing specialists across the country say the impetus is a problem shared by communities urban and rural, wealthy and poor—a lack of affordable housing. Federal guidelines define housing as affordable if it consumes no more than 30 percent of a household’s adjusted monthly income. The American Housing Survey of the U.S. Census found that in 1965, four of every five households living below the poverty line lived in housing that cost more than this standard. From 1978 to 1985, the number of low-rent housing units declined by 500,000 na-

tionwide while the number of low-income renters rose by 3.6 million.

Exacerbating the problem, according to the Congressional Budget Office, is the reduction in appropriations for the subsidized housing programs of the Department of Housing and Urban Development (HUD), which fell from a peak of \$32.2 billion in FY 1978 to \$9.8 billion in FY 1988, a decline in inflation-adjust-

organizations, including community development corporations like El Hogar del Futuro, have become important participants in low-cost construction and rehabilitation. These organizations, when they have acquired the necessary experience in housing construction, are able to attract funds because they are non-profit and build or renovate housing for minimal cost.

NAHA requires that 15 percent of the funds from the new HOME block grant go to these community-based development organizations. States also are recognizing the value of working with these non-profit organizations to carry out housing construction and rehab programs. Connecticut, for example, goes beyond the federal guidelines by requiring that 30 percent of HOME funds be channeled to non-profit groups.

The CHAS process, the HOME block grant and the increased importance of non-profit community-based development organizations have brought new emphasis to the state role in construction and rehabilitation of affordable housing. And future efforts to turn the tide of homelessness will hinge on the ability of state governments to make use of every available resource.

“The states play a role that is hard to understate,” said Benson Roberts at NCSL’s 1991 Annual Meeting. “You guys provide the leadership that is really necessary to be responsive to local communities—a job that, quite frankly, the federal government will never be able to do.”

The road ahead holds obstacles. Many of the successful state programs do require at least some commitment of state general fund money—and the fiscal woes of most states make even a minimal increase in housing allocations difficult. Furthermore, state mandates for local practices, such as Connecticut’s new emphasis on affordable housing in high-rent communities, will face severe local challenges. Ultimately, however, states and localities will have to hammer out their differences in order to qualify for federal funds and to keep the numbers of homeless or near-homeless from increasing. 

Eight families invested 2,750 hours of “sweat equity” to renovate this building in Hartford, Conn., where they are now proud first-time homeowners in La Esquina Brillante.

ed funding of more than 80 percent.

Passage of the National Affordable Housing Act (NAHA) in 1990 demonstrated a renewed federal commitment to housing in the form of the new HOME block grant. But the act also requires a new level of state involvement and commitment to housing rehabilitation and construction. Each state is now required to produce a Comprehensive Housing Affordability Strategy (CHAS) in order to qualify for federal HOME and homelessness program funds. As they draft their housing plans, states must identify their housing needs and what they must do to meet them.

In Connecticut, the CHAS strategy is to scatter low-cost housing throughout the state and give highest priority for new construction funds to those wealthy and suburban communities that currently lack inexpensive housing. Sandy Bergin, CHAS task force coordinator from the Department of Housing says, “Our CHAS strives to promote housing choice and diminish the exclusionary practices that have perpetuated housing segregation in Connecticut.”

State contracts for housing construction or renovation have traditionally been with for-profit homebuilders or local housing authorities. In recent years, however, non-profit community-based

initial responsibility for redrawing the lines. The states are Arkansas, Colorado, Hawaii, Missouri, Montana, New Jersey, Ohio, Pennsylvania and Washington. The makeup of these commissions varies. Arkansas has a three-member commission composed of the governor, secretary of state and attorney general. In Washington, the redistricting commission comprises four members, one each appointed by the minority and majority leaders in each house of the Legislature. None of the commissioners may hold public office while serving on the commission. The four appointed members select a fifth non-voting chairman. Several states have specific restrictions barring commission members from running for the legislature in subsequent elections.

Of the states that completed redistricting in 1991, several used the commission system successfully. New Jersey held legislative elections in November under districts drawn by an 11-member commission earlier in the year. The New Jersey commission adopted plans that have not been challenged in court, and no challenge is expected. Each of the two state party chairmen appoints five members to the commission, and the 10 commissioners have 30 days to produce new district maps. If they are unable to do so, an 11th commissioner is appointed by the chief justice of the state Supreme Court to break the tie and ensure the adoption of a fair plan with the public's interest as its top priority.

In 1991, as in 1981, Princeton's Donald Stokes was tapped by the chief justice as New Jersey's 11th member. Stokes lauds the New Jersey system as a model because it infuses the process with the wisdom of politics yet eliminates the conflict of interest that he believes is inherent when the legislature redistricts itself. Stokes says that the conflict of interest is so clear that "legislatures have been catching hell for the mischief that results (since) the early 19th century period in which Elbridge Gerry gave us the term *gerrymander*."

In 1981, Stokes was joined by the commission's five Democrats to pass a plan, and in 1991, the five Republicans voted with Stokes.

Iowa's method of redistricting is the most radical of the states. The Iowa approach seeks to eliminate political con-

cerns as the main force behind the line drawing. During the '60s and '70s, the courts repeatedly threw out redistricting proposals from the Iowa legislature; and in 1972, the Iowa Supreme Court imposed its own plan. With the frustrations of the past clear in their minds, Iowa lawmakers enacted the current redistricting statute in 1979.

Under Iowa law, the non-partisan Legislative Service Bureau submits a set of proposed redistricting maps to the legislature, which must approve or deny the plans without amending them. If the legislature rejects the first set of plans, the bureau supplies a second set also to be voted up or down without amendments. If the legislature rejects the second set, it gets a third set that it may amend. Only by stretching out the process to the third round can the legislature retake control of the line drawing.

Iowa's redistricting statute prohibits the Legislative Service Bureau from using any political data such as voter registration or past election results when drawing up the plans. Neither may the bureau take into consideration the residences of incumbent legislators. The bureau may use only population figures provided by the Census Bureau and apply criteria such as creating compact districts and preserving communities of interest.

Using this unusual system, Iowa became the first state in 1991 to adopt both state legislative and congressional districts, and no court challenges have been filed. Wyoming was actually the first state to complete redistricting using a process of apportioning seats out to counties, but their plans were thrown out by a federal court for violating the one person, one vote rule.

The Iowa experience was not without its anxious moments. One local television station declared the plans dead on arrival once the political results of the plans were revealed. The Iowa plans paired 20 of 50 incumbent senators and 40 of 100 incumbent representatives in the same districts; the Senate majority and minority leaders and the House speaker and majority leader were not spared. Nevertheless, the Iowa General Assembly accepted the first plans.

Iowa's ability to remove politics from redistricting is unusual. Even states with a commission or board admit that

politics still play a key role. Mark McKillop, who was the supervisor of the Senate Democratic reapportionment project in Pennsylvania, responds to those wanting to strip the process of politics by saying, "They're kidding themselves if they think they can take politics out of it." He does endorse a commission system like the one used in Pennsylvania on the grounds of efficiency. "If this were done in the legislature, we would still be doing it," McKillop said.

Anne Lee, the reapportionment chair for the League of Women Voters in Hawaii, agreed that politics were still very evident in the commission process used in her state. She did point out that the commission lifted the contentious process from the Legislature, thus allowing them to focus on substantive issues rather than being consumed by redistricting. She also noted that each political party had an equal voice on the Hawaii commission instead of one party dominating the process, which might occur if it were done within the Legislature.

Many states successfully adopt each decade redistricting plans that stand up in court and are produced within the crucible of the normal legislative process. Virginia Delegate Ford Quillen pointed out that his state "produced a good product using the typical legislative committee system." He also said that it would be very difficult "to design a pure commission system where the commission members don't have their own agendas." One of the principal criticisms of commissions is that the members invariably have political motives, and it merely concentrates substantial power in the hands of a smaller group than the legislature.

Using a commission system does not guarantee that new district plans will not be challenged. The Hawaii commission had its plans thrown out in 1982 and replaced by temporary court-drawn plans. Missouri, Ohio and Pennsylvania are currently in court defending plans drawn by commissions.

It is certain that redistricting will continue to be a divisive and time-consuming chore for legislatures every 10 years. Redistricting plans, whether drawn by the legislature or an independent commission, will always have dramatic political results. Whether you are a winner or loser in the redistricting sweepstakes may determine which system you advocate. 

Statement Submitted for the Record
of the Hearing on H.R. 2661 before
The Subcommittee on Census and Population
House Post Office and Civil Service Committee
August 1, 1989

Michael R. Darby
Under Secretary of Commerce for Economic Affairs

The United States Department of Commerce stands by our existing policy of counting all persons in the 1990 Decennial Census. The Department of Justice has advised previous Congresses based on constitutional considerations that illegal aliens must be included within the census counts for purposes of apportioning congressional representation. Moreover, based on practical considerations, the Department has determined that changing our procedures to exclude illegal aliens would be both infeasible and undesirable.

We believe there are compelling legal and public policy grounds for counting all persons irrespective of their citizenship. The Census Bureau's enumeration procedure has been guided by the requirement in the 14th amendment to count "the whole number of persons in each State." The Census Bureau has interpreted its constitutional charge and its statutory mandate to require counting every person who has a usual residence in any State. The concept of 'usual residence' dates back to the Census Act of 1790 and, while the wording of various Census Acts has changed over the decades, the concept has remained the same -- to enumerate all inhabitants.

The Department of Commerce strongly believes that to change existing policy would be entirely infeasible and would considerably undermine critical efforts being undertaken by the Bureau to assure an effective and complete count in 1990.

First, we have no way of effectively determining the legal status of individual respondents. Any attempt to reduce the "whole number of persons" of particular ethnic groups by some statistical allowance for an estimated number of illegal aliens is clearly objectionable in counting observed whole persons as fractions.

Second, adoption of this policy would undermine far-reaching progress in the area of outreach directed at the minority community. Given the importance of these programs to achieve a full and accurate count, we oppose undertaking policies which are likely to disrupt our cooperation with community organizations which provide assistance to our efforts.

Finally, the Bureau is reluctant to undertake actions which would undermine the general public's perception of the confidentiality of census data. The absolute prohibition on any disclosure of confidential census data and the public's acceptance of these assurances are essential to the accuracy of census results.

Given that a decision to exclude undocumented aliens from the census apportionment counts would be neither feasible nor desirable, we strongly oppose the enactment of H.R. 2661.

Enumeration and Residence Rules of the 1990 Census

Prepared for the Alaska Reapportionment Board

**by Kathryn Lizik
Alaska Department of Labor
February 28, 1991**

The purpose of this report is to provide information on how the enumeration and residence rules for the 1990 Census affected the population count.

Enumeration Rule

Traditionally, the Census Bureau has interpreted the U.S. Constitution to mean "count all persons who are inhabitants of the U.S." as of Census day, rather than just citizens, property owners, or adults. This enumeration rule addresses "who to count". As the rule implies, all persons residing within Alaska were counted during the 1990 Census. However, this does not mean that they were all included in the state count.

Residence Rules

The Census Act of 1790 established the concept of usual residence as the guiding principle for determining where to count a person. The usual residence concept requires the Census Bureau to count a person where he or she lives and sleeps most of the time or where he or she considers their usual residence. Clear, well-communicated residence rules are needed to minimize both over- and under-counting. With few exceptions, it is this residence concept that the Bureau used in 1990. These residence rules address "where to count".

There are, however, situations where a need exists to establish special rules for those persons whose usual residence is not the place where they are on Census day or whose usual residence is ambiguous. In many cases, these individuals fill out an individual census report (ICR) which collects, among other information, the address of the housing unit they consider to be their usual place of residence. This address allows the eventual matching of the ICR to the original census questionnaire assigned to the housing unit and adds the person to that location. This address matching takes place nationwide and allows the individual to be counted back to any state.

The following list identifies those situations where special rules are utilized.

- 1) **Persons away from their usual residence on census day.** This category includes persons traveling, living temporarily in hotels and motels, or maintaining a usual home elsewhere. These people are not counted at the temporary location but are allocated back to their usual residence.

On Census day, these persons are asked to provide the address of their usual residence. This address is then matched to the census form for that address, and they are added to the count for that location. If these people cannot be matched to a specific residence, the bureau assumes that a neighbor or family member already reported these persons at the usual residence.

- 2) **Persons with multiple residences.** The 1990 questionnaire allows these persons to self identify one residence as their usual residence.

- 3) **Persons with no permanent residence.** All persons who do not claim a usual home elsewhere (the homeless, those in transient quarters, or those living temporarily with

friends or relatives) will be counted in the area they are contacted. A special enumeration of pre-identified transient locations was conducted about one week prior to Census day to capture this transient population.

4) **Persons away at college.** The residence of college students is identified as the location of the college they are attending.

5) **Persons away at boarding school.** Students below the college level, away attending boarding school, are counted at their parental home, due to their age and dependency on their parents.

6) **Crews of merchant vessels.** Some crew members have no home other than the ship on which they work, others maintain a home on shore that they consider to be their usual residence. For those crew with a shore based residence, their SCR or Shipboard Census Report will be matched to the census form for the residence they report and they will be added to that location.

For crew who consider the ship their residence, the following rules guide where they are counted:

a) For ships berthed in a U.S. port on Census day, the crew will be counted at that port.

b) For ships not berthed at a U.S. port but in territorial waters, the crew is counted at the port of destination, provided it is within the U.S. or its territories.

c) For ships in territorial waters headed for a non U.S. port, the ships port of departure will be used.

d) Crew of merchant ships not within territorial waters or that are not american flag vessels, will not be counted.

The above rules also apply to crew of canneries, freezer ships, and tuna ships.

7) **Land based military personnel.** Members of the armed forces, including the U.S. Coast Guard, are counted at the area where they are permanently stationed, subject to the conditions as described below (see Residency of Military Personnel Based on the Census Bureau Guidelines).

8) **Crews of military ships.** If the person's usual residence is the ship, the person will be counted at the homeport location where the ship is actually docked. Crew members will also be able to identify a usual residence ashore and be matched to their home address.

9) **Movers.** If an individual is in the process of moving to a new location he or she will be counted at their Census day address.

10) Migrant workers. Residents of migrant worker camps may designate the camp as their residence. If they have a usual residence other than the camp, the ICR will cross match them to that address.

11) Institutionalized residents. This category includes all residents living under formally authorized, supervised care or custody. The facilities housing this population include correctional schools, penitentiaries, wards for juveniles, specialized hospitals, nursing homes for the elderly, and homes for the physically and mentally handicapped.

The Census Bureau differentiates between long-term and short-term facilities. Persons residing in long-term facilities (for example, penitentiaries, and mental hospitals) will be counted as residents of the institution. Persons residing in short-term facilities (such as county jails and general hospitals) will be given the opportunity to identify a usual place of residence if they have one.

RESIDENCY OF MILITARY PERSONNEL BASED ON CENSUS BUREAU GUIDELINES

For purposes of census enumeration all active duty military personnel were distributed a MCR (military census report) on-base, whether or not they lived in on-base barracks and housing units, or off-base housing units. For barracks based personnel, this was the only census form they filled out.

If the MCR listed that the address where the individual usually stayed at least 4 nights a week was the barracks, the individual was counted as an on-base resident.

All on and off-base personnel living in housing units, however, also received and filled out regular census questionnaires just like the rest of the civilian population.

If the MCR listed that the residence address was either an on- or off-base housing unit, the MCR was search/matched to the census questionnaires collected from the housing units, to verify the non-barracks location. When a match occurred, the count was assigned to the housing unit. If it was on-base, the count became part of the total on-base count. If it was off-base, the count became part of the regular off-base block count.

If the MCR listed that the residence address was out of state, the search/match would look for the listed address for the out of state residence. These search/matches were limited, however, to the three states (AK, CA, WA) served by the Census Bureau's processing office in San Diego. If a match occurred, the individual was added to that out of state address. If an address for any other state than the 3 listed above was filled in on the MCR, a match did not occur and the count by default was added to the base count.

It is my opinion that based on the above procedures, most on-base barracks personnel would have been counted at their base location due to two factors:

1) Matches were limited to only two other states than Alaska. Since tours of duty

originate from bases nationwide and the service is made up of individuals from 50 states, it is highly unlikely all non-state matches would have by chance been exclusively from California or Washington State.

2) The MCR form is constructed to generally elicit an on-base residence response. The address information block lies within Question 2 which sets the respondent up to automatically write in his or her on-base residence. The instructional guidelines do not provide extensive definitions of how one determines ones residency. "Where you usually stay at least 4 nights a week" is only one of many considerations.

I have requested from the Census Bureau a report which would show how many MCR's were matched to out of state locations. To date, that report has not been generated, and may not become available during the scope of the redistricting time frame.

For the on-base and off-base housing unit respondents, the regular census questionnaire also provided the opportunity to list a usual residence location. In this case, however, if an out of state address were given, the address matching would be conducted nationwide and the individual adjusted back to the out of state residence reported. In order for this match to be successful, a specific out of state street address is required.

DRAFT

AFTER COMPLETING THIS FORM

- Please check it to be sure you have answered all the required questions completely.
- To return your form, please follow the instructions on the envelope that the form came in.

THANK YOU FOR YOUR COOPERATION.

The Census Bureau estimates that, on average, each respondent will take 7 minutes to complete this form, including the time for reviewing instructions and answers. Comments about this estimate should be directed to the Associate Director for Management Services, Bureau of the Census, Washington, DC 20233, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

DRAFT

FORM D-20B
(11-14-88)

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

1990 INDIVIDUAL CENSUS REPORT

1. Please print your name —
Last name First name Middle Initial

2a. Are you — Mark (X) the box that applies.

- (1) ☐ A person WHO USUALLY LIVES HERE or who stays here most of the week while working? } Please continue with question 3, on page 2
- (2) ☐ A person with NO USUAL PLACE OF RESIDENCE?
- (3) ☐ A person AWAY FROM YOUR USUAL HOME FOR A SHORT TIME, such as on a vacation or business trip?

Is there someone at your usual address who will include you on the census form there?

☐ Yes } Print your home address in b, and continue with question 3, on page 2.
☐ No }

b. House number, street name, apartment number

Rural route number

Box number

City

County or foreign country

State

ZIP Code

FOR CENSUS USE

Person with _____ children under 15 years present with him/her

AFTER COMPLETING THIS FORM

1. Please check it to be sure you have answered all the required questions completely.
2. Then return your form to the person in charge of distributing these reports.
3. Military personnel living away from this installation, but within the census area, will also receive a census form at home. To ensure that such personnel are assigned to the correct jurisdiction, it is important that **YOU MAKE SURE YOU ARE INCLUDED ON BOTH FORMS** — this report and the census form sent to your home.

THANK YOU FOR YOUR COOPERATION.

The Census Bureau estimates that, on average, each respondent will take either 2 minutes (100-percent items only) or 7 minutes (sample items as well) to complete this form, including the time for reviewing the instructions and answers. Comments about these estimates should be directed to the Associate Director for Management Services, Bureau of the Census, Washington, DC 20233, and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

FORM D-21
(6-13-78)

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

1990 MILITARY CENSUS REPORT

This is your official Census form. Your cooperation in carefully filling out the form will help make the census successful. If you do not know the exact answer to any question, please give your best estimate.

This census is authorized by Title 13, United States Code, and you are required by law to answer the questions to the best of your knowledge.

The same law protects the confidentiality of your answers. Census employees are subject to fine and/or imprisonment for any disclosure of your answers. The person on base collecting your information is sworn in as a census employee and is subject to these same penalties.

Thank you for your cooperation.

1. Please print your name —
Last name First name Middle initial

2a. What is the name of your unit?

b. What is the address where you usually stay at least 4 nights a week?

Building or barracks number or identification (if applicable)

House No. Street name Apt. No.

City County or foreign country

State ZIP Code

Names of nearest intersecting streets or roads

c. Is the above address on a military installation or base?

☐ Yes — Give name ☐ No

d. Is the place where you usually stay family-type housing (house, apartment, etc.) or group quarters (barracks, BOQ, hospital, etc.)?

☐ Family-type housing — How many persons, including yourself, were living at the above address on April 1, 1990?

----- Persons — Please complete questions 3 through 7 on page 2. Then return your form to the person in charge of distributing these reports.

☐ Group quarters — Continue with question 3 and follow the instructions at the bottom of page 2.

This form may be reproduced before distribution if additional copies are needed.

5 ☐ Never married

2 ☐ Widowed

4 ☐ Separated

7. Are you of Spanish/Hispanic origin?

Mark (X) ONE box.

1 ☐ No (not Spanish/Hispanic)

2 ☐ Yes, Mexican, Mexican-Am., Chicano

3 ☐ Yes, Puerto Rican

4 ☐ Yes, Cuban

5 ☐ Yes, other Spanish/Hispanic (Print one group, for example: Argentinean, Colombian, Dominican, Nicaraguan, Salvadoran, Spaniard, and so on.)

• What are the last 4 digits of your Social Security Number?

X X X — X X —

If the last four digits are 8333 or more, please continue with question 8. Persons who continue with question 8 represent a sample randomly selected on the basis of these digits. If the digits are less than 8333, stop here and return the form.

8. In what U.S. State or foreign country were you born?

(Name of State or foreign country; or Puerto Rico, Guam, etc.)

9. Are you a CITIZEN of the United States?

1 ☐ Yes, born in the United States — Skip to 11

2 ☐ Yes, born in Puerto Rico, Guam, the U.S. Virgin Islands, or Northern Marianas

3 ☐ Yes, born abroad of American parent or parents

4 ☐ Yes, U.S. citizen by naturalization

5 ☐ No, not a citizen of the United States

10. When did you come to the United States to stay?

0 ☐ 1987 to 1990

5 ☐ 1970 to 1974

1 ☐ 1985 or 1986

6 ☐ 1965 to 1969

2 ☐ 1982 to 1984

7 ☐ 1960 to 1964

3 ☐ 1980 or 1981

8 ☐ 1950 to 1959

4 ☐ 1975 to 1979

9 ☐ Before 1950

11. At any time since February 1, 1990, have you attended regular school or college? Include only schooling which leads to a high school diploma or a college degree.

1 ☐ No, have not attended since February 1

2 ☐ Yes, public school, public college

3 ☐ Yes, private school, private college

12. How much school have you COMPLETED?

Mark (X) ONE box for the highest level COMPLETED or degree RECEIVED. If currently enrolled, mark the level of previous grade attended or highest degree received.

35 ☐ Less than 9th grade

36 ☐ 9th grade

37 ☐ 10th grade

38 ☐ 11th grade

39 ☐ 12th grade. NO DIPLOMA

40 ☐ HIGH SCHOOL GRADUATE — high school DIPLOMA or the equivalent (For example: GED)

41 ☐ Some college but no degree

42 ☐ Associate degree in college — Occupational program

43 ☐ Associate degree in college — Academic program

44 ☐ Bachelor's degree (For example: BA, AB, BS)

45 ☐ Master's degree (For example: MA, MS, MEng, MEd, MSW, MBA)

46 ☐ Professional school degree (For example: MD, DDS, DVM, LLB, JD)

47 ☐ Doctorate degree (For example: PhD, EdD)

13. What is your ancestry or ethnic origin?

(For example: German, Italian, Afro-Amer., Croatian, Cape Verdean, Dominican, Ecuadorian, Haitian, Cajun, French Canadian, Jamaican, Korean, Lebanese, Mexican, Nigerian, Irish, Polish, Slovak, Taiwanese, Thai, Ukrainian, etc.)

14a. Did you live at the address reported in question 2b 5 years ago (on April 1, 1985)?

- 1 ☐ Yes — Skip to 15a
2 ☐ No or no address in 2b

b. Where did you live 5 years ago? If you had no residence except on a ship, report the home port of that ship on April 1, 1985.

(1) Name of U.S. State or foreign country 7

(If outside U.S., print answer above and skip to 15a)

(2) Name of county in the U.S. 7

(3) Name of city or town in the U.S. 7

(4) Did you live inside the city or town limits?

- 1 ☐ Yes 2 ☐ No, lived outside the city/town limits

15a. Do you speak a language other than English at home?

- 1 ☐ Yes 2 ☐ No — Skip to 17a

b. What is this language? 7

(For example: Chinese, Italian, Spanish, Vietnamese)

c. How well do you speak English?

- 1 ☐ Very well 2 ☐ Well 3 ☐ Not well 4 ☐ Not at all

16.

17a. Have you ever been on active-duty military service in the Armed Forces of the United States or ever been in the United States military Reserves or the National Guard? Active duty does not include training in the Reserves or National Guard.

- 1 ☐ Yes, now on active duty
2 ☐ Yes, on active duty in past, but not now
3 ☐ Yes, service in Reserves or National Guard only
4 ☐ No } Skip to 20

b. Was active-duty military service during — Mark (X) a box for each period in which you served.

- 1 ☐ September 1980 or later 6 ☐ World War II (September 1940 — July 1947)
2 ☐ May 1975 to August 1980 7 ☐ World War I (April 1917 — November 1918)
3 ☐ Vietnam era (August 1964 — April 1975) 8 ☐ Any other time
4 ☐ February 1955 — July 1964
5 ☐ Korean conflict (June 1950 — January 1955)

c. In total, how many years of active-duty military service have you had?

Years

18.

19.

20. If you are female — How many babies have you ever had, not counting stillbirths? Do not count stepchildren or children you have adopted.

- 0 ☐ None 1 ☐ 1 4 ☐ 4 7 ☐ 7 10 ☐ 10
2 ☐ 2 5 ☐ 5 8 ☐ 8 11 ☐ 11
3 ☐ 3 6 ☐ 6 9 ☐ 9 12 ☐ 12 or more

21a.

21b. How many hours did you work LAST WEEK (at all jobs)? Subtract any time off; add overtime or extra hours worked.

Hours OR 0 ☐ Did not work last week — Skip to 28

22. Did you work on this ship LAST WEEK?

- 1 ☐ Yes } Skip to 28
2 ☐ No, different ship
3 ☐ No

At what location did you work LAST WEEK? If you worked at more than one location, print where you worked most last week.

a. Address (Number and street) 7

(If the exact address is not known, give a description of the location such as the name of the building or the nearest street or intersection, etc.)

b. Name of city, town, or post office 7

c. Is the work location inside the limits of that city or town?

- 1 ☐ Yes 2 ☐ No, outside the city/town limits

d. County 7

e. State 7

f. ZIP Code 7

23a. How did you usually get to work LAST WEEK? If you usually used more than one method of transportation during the trip, mark (X) the box of the one used for most of the distance.

- 1 ☐ Car, truck, or van 8 ☐ Motorcycle
2 ☐ Bus or trolley bus 9 ☐ Bicycle
3 ☐ Streetcar or trolley car 10 ☐ Walked
4 ☐ Subway or elevated 11 ☐ Worked at home
5 ☐ Railroad Skip to 28
6 ☐ Ferryboat
7 ☐ Taxicab 12 ☐ Other method

If "car, truck, or van" is marked in 23a, go to 23b. Otherwise, skip to 24a.

b. How many people, including yourself, usually rode to work in the car, truck, or van LAST WEEK?

- 1 ☐ Drove alone 4 ☐ 4 people 7 ☐ 7 to 9 people
2 ☐ 2 people 5 ☐ 5 people 8 ☐ 10 or more people
3 ☐ 3 people 6 ☐ 6 people

24a. What time did you usually leave home to go to work LAST WEEK?

1 ☐ a.m.
2 ☐ p.m.

b. How many minutes did it usually take you to get from home to work LAST WEEK?

Minutes — Skip to 28

25.

26.

27.

28. Are you now on active duty in the U.S. Armed Forces?

- 1 ☐ Yes, Navy
 2 ☐ Yes, Marine Corps
 3 ☐ Yes, Coast Guard
 4 ☐ Yes, Army
 5 ☐ Yes, Air Force
 6 ☐ No — Describe the kind of business of your employer 7

29. Occupation**a. What kind of work are you doing?**

(For example, aircraft engine mechanic, electronic technician, able seaman, sonar technician, tactical intelligence officer)

b. What are your most important activities or duties?

(For example, repair seaplanes, research on electronic components, maintain ship's gear, repair sonar equipment, edit intelligence manuals)

c. If Armed Forces:

- (1) What is your primary job specialty? If you have more than one specialty, list the one at which you spend the most time.

MOS/Rating/Designator/AFSC 7

- (2) What is your paygrade? Enter two-character code.
 (For example: E-4, O-3)

Paygrade

30.**31a. Last year (1989), did you work, even for a few days, at a paid job, business, farm or on active-duty military service?**

- 1 ☐ Yes 2 ☐ No — Skip to 32

b. How many weeks did you work in 1989? Count paid vacation, paid sick leave, and military service.

Weeks

c. During the weeks WORKED in 1989, how many hours did you usually work each week?

Hours

32. Income in 1989 —

Mark (X) the "Yes" box below for each income source you received during 1989. Otherwise, mark (X) the "No" box. If "Yes," enter the total amount received during 1989. If exact amount is not known, please give best estimate. If net income in 32b, c, or d was a loss, write "Loss" above the dollar amount.

- a. Pay as a member of the ARMED FORCES including special, incentive, and bonus pay. Also wages, salaries, tips, and commissions from CIVILIAN JOBS —**
 Report total amount from all jobs BEFORE DEDUCTIONS for taxes, bonds, dues, or other items.

1 ☐ Yes — \$.00
 2 ☐ No
 Annual amount — Dollars

- b. Self-employment income from own nonfarm business, including proprietorship and partnership —**
 Report NET income after business expenses.

1 ☐ Yes — \$.00
 2 ☐ No
 Annual amount — Dollars

- c. Farm self-employment income —**
 Report NET income after operating expenses. Include earnings as a tenant farmer or sharecropper.

1 ☐ Yes — \$.00
 2 ☐ No
 Annual amount — Dollars

- d. Interest, dividends, net rental income or royalty income, or income from estates and trusts —**
 Report even small amounts credited to an account.

1 ☐ Yes — \$.00
 2 ☐ No
 Annual amount — Dollars

- e. Any other income received regularly, such as social security, public assistance or welfare payments, child support, or unemployment compensation —**
 Do NOT include lump-sum payments such as money from an inheritance or the sale of a home.

1 ☐ Yes — \$.00
 2 ☐ No
 Annual amount — Dollars

- 33. What was your total income in 1989?**
 Add entries in questions 32a through 32e; subtract any losses. If total amount was a loss, write "Loss" above amount.

\$.00
 Annual amount — Dollars
 OR 0 ☐ None

AFTER COMPLETING THIS FORM

1. Please check it to be sure you have answered all the required questions completely.
2. Then return your form to the person in charge of distributing these reports.
3. Military personnel living away from this installation, but within the census area, also will receive a census form at home. To ensure that such personnel are assigned to the correct jurisdiction, it is important that **YOU MAKE SURE YOU ARE INCLUDED ON BOTH FORMS** — this report and the census form sent to your home.

THANK YOU FOR YOUR COOPERATION.

The Census Bureau estimates that, on average, each respondent will take either 2 minutes (first seven questions) or 7 minutes (all thirty-three questions) to complete this form, including the time for reviewing instructions and answers. Comments about these estimates should be directed to the Associate Director for Management Services, Bureau of the Census, Washington, DC 20233, Attn: CEN-90, and to the Office of Management and Budget, Paperwork Reduction Project CEN-90, Washington, DC 20503.

right) to determine the number of Representatives each State receives.

"... as nearly as is practicable one man's vote in a congressional election is to be worth as much as another's."

— *Wesberry v. Sanders*

But our job doesn't end there. Court decisions and legislation have given the Census Bureau a major role in redistricting, the process by which State

it is only in the last two decades that the Census Bureau has played a role in the redistricting process.

U.S. Supreme Court decisions handed down during the 1960's clarified the Constitution's intention to provide equality of representation for all Americans. In 1964, the *Wesberry v. Sanders* decision held that, "as nearly as is practicable one man's vote in a congressional election is to be worth as much as another's." That same year, in *Reynolds v. Sims*, the Court ruled that State legislative districts must be "as nearly of equal population as is practicable."

Both U.S. Congressional Districts and State legislative districts must be

Who Is Counted?

The U.S. Constitution (Amendment 14, Section 2) states, "Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State. . . ." Consequently, the Census Bureau counts *all* persons — the "whole number" — who are residents of the United States.

Specifically excluded are persons living on the grounds of a foreign embassy, ministry, legation, chancellery, or consulate. Since these locations are legally considered foreign soil, people living there are not considered U.S. residents. Also, citizens of foreign countries temporarily visiting or traveling in the United States are not counted because they have not established a residence.

Americans temporarily abroad on vacations or business trips are counted at their usual place of residence within the United States. For the second time in history, Defense Department employees overseas, both military and civilian, and their families are included in the census count.

Apportionment

How does the method of equal proportions work?

Adopted in 1941 (title 2, Section 2a, United States Code), the method of equal proportions helps us compile a priority list of the States. Priority value is determined by dividing a State's population by the geometric mean of its current and next seats.

Following the 1980 census, each of the 50 States was awarded one seat out of the current 435 total. Then, the 51st seat went to the State that had the highest priority value for its second seat.

In computing the apportionment from the 1980 State totals, seat 51 went to California, whose priority value under the method of equal proportions was 16,736,300. The next seat, number 52, went to New York, with a second-seat priority value of 12,414,877, and Texas received seat number 53, with a priority value of 10,060,986.

Once the number of seats assigned to the individual States is determined, the task of drawing the new congressional districts is generally that of each State legislature.

where we microfilm them and use optical scanning devices to extract data. We compile preliminary housing unit counts for each block and then send them to officials of the appropriate county, county subdivision, and incorporated place. Called "local review," this process gives officials the opportunity to examine our counts and to identify blocks where they believe there are discrepancies.

Once we have completed the collection and processing, we begin to compile final counts in the Census Bureau's Washington office.

Census Day may be our most conspicuous deadline, but it's not our only one. Now we face several deadlines in processing the final census counts.

Off to the President

Next, the Census Bureau must prepare the final, official State population counts required for the apportionment of the U.S. House of Representatives. These official counts are reported to the President on or before December 31, 1990, a brief 9 months after Census Day.

According to the U.S. Code, the President must then report these figures to the Congress. He does this in early January 1991, during the first week of the 102nd Congress. This report will show —

- the population of each State
- the total number of Representatives (435)
- the number of Representatives each State may have

The apportionment section of the U.S. Code also tells the steps that are to be followed after the Congress receives the President's report. Within 15 calendar days, the Clerk of the House of Representatives must send to each State's Governor a certificate showing how many Representatives the State may send to the next Congress.

Testimony on
House Joint Resolution 45
To
House Finance Committee
Alaska State Legislature

By
Johnny T. Hawk
Fish & Game Fund

House Joint Resolution No. 45

House Joint Resolution No. 45 (HJR 45) was introduced on May 1, 1991 to the State Affairs, Judiciary and Finance Committees that proposes to amend the Constitution of the State of Alaska reapportionment laws. Representative Donley's reapportionment legislation would require a statewide vote.

HJR 45 would restructure the reapportionment board. HJR 45 would take away the power of the governor to appoint all five members of the reapportionment board. HJR 45 would increase the size to a nine-member board appointed by the governor, majority caucus and minority caucus of house, majority and minority caucus of senate. Increasing size of board will increase cost.

HJR 45 intend^t is to take out the politics on reapportionment? The Fish & Game Fund is not in support of HJR 45. because the new board will be more political than ever.

We do not want to see any changes to Alaska's Constitution that will give the Alaska State Legislature control of how the reapportionment board is chosen.

HOUSE RULES COMMITTEE
April 1, 1992

MOTION REGARDING EQUIPMENT PURCHASE:

I move that \$6,500 be approved for expenditure out of session funds, equipment budget, for the joint purchase with the Senate for a new copy machine.

Moved by
C. Newby & Approval

STATE OF ALASKA THE LEGISLATURE

LEGISLATIVE AFFAIRS AGENCY

Legislative Affairs
Supply
State Capitol
Juneau, AK 99801-1182

MEMORANDUM

TO: Warren W. Endicott, Executive Director

FROM: Mark T. Woods, Supply Officer

SUBJECT: Copiers

DATE: March 25, 1992

The Senate Rules Committee has made a verbal request to replace the three IBM Model 70 Copiers located on the 1st, 4th, and 5th floors of the Capitol. The machines are six years old and I have recommended purchasing Pitney Bowes Model 9070 copiers on State Contract Award for \$12,997.00. In addition to this amount, after a 90-day warranty, yearly full service maintenance agreements that include all supplies, except paper and staples, would cost \$607.86 a month per machine. The IBM Model 70 machines have cost an average of \$437.06 per month each for maintenance and supplies.

The Xerox Model 1075 copier at the Anchorage LIO has been without a maintenance agreement for five years and is seven and one-half years old. Xerox has diagnosed this machine as "requiring extensive maintenance to restore to Xerox specifications". Xerox estimates a cost of \$25,000.00 to restore the machine before entering into a maintenance agreement. The Xerox 1075 has cost an average of \$668.05 per month for maintenance and supplies. I recommend purchasing the Pitney Bowes 9070 at the same price mentioned above.

The IBM Model 70 copier located at our Agency has required extensive maintenance in the past year and is of the same vintage as the Model 70's in the Capitol. Average cost to operate this machine is \$433.75 per month for maintenance and supplies. I recommend purchasing the Pitney Bowes 9070 as mentioned above.

In January 1992 the Legislature purchased three Pitney Bowes D964 copiers for the Capitol. Pitney Bowes has offered to replace these machines with the current Pitney Bowes 9070's on contract award, if we purchase the five machines mentioned above. The Pitney Bowes D964's have a 90-day maintenance warranty, including supplies, expiring this month. The 9070 is newer technology than the D964, identical in price, carry a 90-day warranty, and is faster and more compact. If a trade were made on these machines prior to April 1, 1992, a savings of \$5,471.00 would be realized from the warranties provided.

I recommend taking advantage of Pitney Bowes offer to swap with our purchase of the aforementioned machines.

PITNEY BOWES

9070

COPIER SYSTEM

- *Highly Productive*
- *Simply Reliable*

PITNEY BOWES

9070

COPIER SYSTEM

*An easy-to-use
productive system for
the high-volume
copy center.*

- 70 Copies Per Minute
- 3,500 Sheet Capacity
- Automatic Duplexing

Other Features

- First Copy In Less Than 4 Seconds
- Automatic 7-Day Timer Function
- Zoom Magnification (64% to 141%)
- Energy Saver Mode
- 50-Account Copy Management System
- 3-Job Programming
- Margin Shift
- Automatic and Manual Exposure
- Convenient Cartridge Toner System
- Exclusive Image Quality Cycle

Easy-To-Use Control Panel

Fast and easy copying for any operator. Just select from 1 to 999 copies from the easy-to-understand keyboard layout. The 9070 automatically sets exposure, makes the copies, sorts and staples them with the touch of a key.

Recirculating Document Handling

Perfect copies at a single touch. Originals feed automatically for high-speed duplication and reverse automatically for duplex copying. Automatic paper selection matches copy paper size to original size. And you can copy to any size instantly with the built-in Automatic Reproduction Ratio.

Large Paper Capacity

Spend less time loading paper with the 9070. It features a standard 2,500-sheet tray, one 500-sheet cassette, and two 250-sheet cassettes that give you 3,500 sheets on-line in sizes from 8-1/2"x11" to 11"x17", plus a 50-sheet bypass tray for transparencies, labels or other special paper.

Automatic Sorter/Stapler

Maximum productivity from start to finish. The 9070 automatically sorts and staples up to 20 sets of copies instantly. Twenty bins hold up to 50 copies each.

Automatic Duplexing and Presentation Simplicity

Two-sided copies at the touch of a button. The 9070 automatically makes 2-sided copies from books, 1-sided or 2-sided originals. It even adds covers to a presentation or report, and automatically inserts a slip sheet between transparencies for simple, convenient handling.

PHYSICAL DESCRIPTION

DIMENSIONS (WxDxH):
MAXIMUM SYSTEM
INCLUDING CASSETTES,
SORTER & SORTER RAIL: 70" (W) x 28" (D) x 47" (H)
WEIGHT:
COPIER W/STANDARD
RDH & LCT: 551 lbs.
SORTER/STAPLER: 88 lbs.
SORTER: 75 lbs.

POWER REQUIREMENTS: 120 V, 60 Hz, 16 Amps

*VAMS (Value Added Maintenance System) - Continuous Preventative Maintenance Program.

9070 INSTALLATION REQUIREMENTS

ROOM SIZE:	Greater than (10' W x 10' L x 10' H)
POWER REQUIREMENTS:	120 V, 60 HZ, 16 Amps
TEMPERATURE RANGE:	50° F to 95° F
HUMIDITY RANGE:	15% to 85%
VENTILATION:	Room air should turn over at least 3 times/hour
AMBIENT ILLUMINATION:	Do not expose to direct sunlight
WEIGHT:	551 lbs. - Copier w/standard RDH & LCT 626 lbs. - Copier with Sorter 639 lbs. - Maximum System (with Sorter/Stapler)

POWER CONSUMPTION:

	<u>Watts</u>	<u>BTUs/Hr.</u>
Maximum	1780W	6070
Ready Mode	216W	736
In Operation	1533W	5288

MINIMUM SPACE REQUIREMENTS

1.	Front:	30"
2.	Back:	6"
3.	Right:	24"
4.	Left:	24"
