	1992	49,163,683.10	36,871,025.87	86,034,708.97
	1993	51,309,853.00	37,445,062.00	83,757,165.00

Note: This acreage does not reflect land acquired under our Other State Land (OSL) program from exchanges, purchases or gifts, nor submerged land acquired at Statehood. Additionally, the majority of the acreage is for both land and mineral estates but in some cases only a portion of the minerals were acquired or only a portion of certain minerals were acquired without the land estate. Any combination is possible.
