Estimate of current year (FY 93) impact: 0

ANALYSIS: (Attach a separate page if necessary.)

This bill would extend the termination date of the APUC by one year until June 30, 1994. Although it would require an increase in the commission's level of effort, to respond to a second sunset audit, the magnitude would not be significant. No increase in funds is requested.

April 9, 1993

Honorable Drue Pearce
Senator
Alaska State Senate
Room 508, Capitol
State Capitol
Juneau, Alaska 99801-1182

Ref: Alaska Public Utilities Commission Sunset Legislation :

Dear Senator Pearce:

Senate Bill 87, "extending the termination date of the Alaska Public Utilities Commission to June 30, 1994", is in your Finance Committee at this time. I wanted to convey to you the Alaska Public Utilities Commission (Commission's) request to amend the bill to extend the sunset review period for more than one year.

The is scheduled to sunset on June 30, 1993. If no legislative action is taken to extend that sunset date this year, the Commission is required to close down during FY94. According to an Attorney General's legal opinion recently prepared at the request of Tuckerman Babcock, this could mean that the Commission would not be able to take on new proceedings during the wind-down year. A copy is attached for your information.

Unless significant statutory re-assignment to another agency were adopted this year, at least the following regulatory gridlock would result:

No Power Cost Equalization calculations would be interpreted and could interfere with payments paid to utilities in high-cost areas of the state (AS 44.83).

No new certification of utilities, extension of utility service areas, or transfer/sale of utilities would be possible. The same would be true of in-state pipeline carriers. Ironically, the deregulation of a telephone or electric cooperative by membership ballot or deregulation of other utility in the public interest could not occur. No increase or decrease in regulated utility rates or change in tariff provisions would be possible. For example, if Alascom or any other regulated carrier decided that it wanted to lower in-state rates in response to AT&T's announced intention to serve Alaska directly (as it applied to do to the Federal Communications Commission yesterday for interstate rates) that could not occur.

Letter to Honorable Drue Pearce
April 9, 1993
Page 2 of 2

Consumer Protection complaints concerning regulated utilities would not be handled. Investigations into quality of service or over-charging allegations would not be handled.

Marine pilot tariffs could not be considered by the Commission, even if specific statutory assignment to it were to occur this year (HB 237).

AS 44.66.050(b) places the burden on this agency to demonstrate the need for its continued existence. The Legislative Audit Report #08-1404-93 of the Alaska Public Utilities Commission dated January 26, 1993 confirms that the Commission has met its public purpose. In fact, the audit recommends a ten-year extension. However, since this would require substantive revision of the sunset statutes (such as is proposed in SB 79), the Commission supports a four-year extension. I believe you mentioned during the Labor & Commerce meeting that you thought ten years was probably excessive, but believe that four years or so was probably appropriate.

In Senate SB 87, "extending the termination date of the Alaska Public Utilities Commission to June 30, 1994, is in the Finance Committee at this time. During the only Senate Labor & Commerce Hearing no utilities turned out to testify on the bill. The Commission believes this legislation should be amended to four year extension, because it would require a re-audit next year by the Legislative Auditor and diversion of agency resources from utility/pipeline carrier regulation toward justifying its existence.

I fully recognize that you are nearing the end of this legislative year and that your Committee is very busy. Nevertheless, as Co-Chair of the Senate Finance Committee, please review the audit. If you agree that the Commission appears to be meeting its public purpose, I respectfully request you to amend SB 87 to extend the Commission for four years. The Commission would be available to testify on such legislation and would attempt to respond affirmatively to any legitimate concerns raised. If appropriate, I would appreciate the opportunity to meet with you on this matter.

Sincerely,

Don Schröer
Chairman

STATE OF ALASKA

WALTER J. HICKEL, GOVERNOR

DEPARTMENT OF COMMERCE AND
ECONOMIC DEVELOPMENT

ALASKA PUBLIC UTILITIES COMMISSION

1016 WEST 6TH AVENUE, SUITE 400

MEMORANDUM

DATE: March 31, 1993

TO: Bill Miles
Senator Drue Pearce's Office

FROM: Bob Lohr *BL*
Alaska Public Utilities Commission

SUBJECT: Adjustment of Commissioner Term

The Legislative Audit Report #08-1404-93 of the Alaska Public Utilities Commission (Commission) dated January 26, 1993 contained the following recommendation:

Recommendation No. 5

The APUC member's terms of office should be staggered.

A copy of that recommendation is attached for your information.

During the discussion of SB 87 (a simple one-year extension of the Commission's sunset date to June 30, 1994) by the Senate Labor & Commerce Committee, Senator Pearce correctly pointed out that this recommendation could not be carried out if legislative action on it were delayed until next year. This is because the term of the Engineering member of the Commission is scheduled to expire October 31, 1993. If the temporary or special act to change the term is not adopted by the Legislature before Governor Hickel appoints or re-appoints a Commissioner to fill this seat next Fall, the term for the seat will remain at six years. That would be the same terms as that established for one of the Consumer seats on the Commission.

The Commission supports the change recommended by the Legislative Auditor. Please let me know if we could be of further assistance in this matter.

Enclosure: Legislative Audit Recommendation No. 5.

Recommendation No. 5

The APUC member's terms of office should be staggered.

The Alaska Public Utilities Commission has five members who are appointed by the governor and confirmed by the legislature in joint session to serve six-year terms. On October 31, 1993 two commission seats become available. Because the potential for

disruption of commission activity would be high with two new members coming in at the same time, we recommend the terms be staggered.

Currently, the terms are scheduled to end as follows:

Consumer seat (1)	October 31, 1993
Engineering seat	October 31, 1993
Legal seat	October 31, 1994
Consumer seat (2)	October 31, 1996
Finance seat	October 31, 1998

We propose this staggering be implemented by modifying the upcoming term of the engineering seat. We propose the following language be added to a temporary or special act:

The term of the Alaska Public Utilities Commission Engineering seat, which is scheduled to begin on November 1, 1993, shall end on October 31, 1995. This adjustment to the normal six-year term, as established under AS 42.05.030(a), is necessary to appropriately stagger commission membership.
