ANALYSIS: (Attach a separate page if necessary)

This legislation would authorize the department to convey lands to the City of Skagway that they inadvertently subdivided and sold as subdivision lots on filled shore lands within the Skagway River. Conveyance of these lands will eliminate a cloud of title to the private property owners. This legislation will automatically be repealed in 1998 after the conveyance to Skagway has been completed. There are no known public interest values that would be impacted by this conveyance.

There will be no fiscal impact to the department associated with passage of this legislation. The cost to convey land to the City of Skagway will be partially absorbed by the department as part of the municipal entitlement conveyance program work, or paid by the City of Skagway. There is no anticipated loss of revenue associated with this legislation as the lands to be conveyed to Skagway are not currently under lease agreements.

Amendments to this bill and HB20 could be combined as they are very similar, but address different tide and submerged land conveyance issues.

Re: Request for a hearing on HB 79.

I respectfully request a committee hearing of HB 79 at your earliest convenience. Attached is a sponsor statement, a copy of the bill, and other backup material. The Department of Natural Resources is in the process of Preparing a zero fiscal note.

Thank you for your attention to this request.

SPONSOR STATEMENT ON HB 79

I introduced HB 79 at the request of the City of Skagway to correct a long standing land ownership problem in Skagway. Fifty years ago a dike was constructed along the Skagway River to protect the town from flooding. Over the years, the area between the original river bank and the dike has been reclaimed and subdivided by the city with lots sold and built upon (see attached map). Even the High school is located in the area.

The problem is that the city did not have clear title to this land from the start. Hence, the title for subsequent private property owners is also clouded. Not only are the owners' investments and improvements at risk, but bank financing for further improvements or sales is foreclosed.

In the past several years, the city and the Department of Natural Resources have unsuccessfully sought an administrative remedy for the problem. While current statute allows DNR administrative discretion in resolving land ownership errors and omissions for individual citizens [AS 38.05.035 (b) (2) and (b) (3)], there is no similar provision for errors and omissions of a municipality.

HB 79 would add such a provision. The new proposed subsection, AS 35.05.035 (b) (11), allows the director of the division of lands the discretion to quitclaim land to a municipality to correct past errors and omissions. The director may also set any terms or conditions that is deemed appropriate for the transaction. Furthermore, land title transferred to a municipality in this manner is counted against the municipality's general land grant entitlement from the state.

Section 2 provides a January 1, 1998 repeal of AS 35.05.035 (b) (11). Thus, the opportunity to correct municipal land ownership errors is limited to a two and one-half year period.

Finally, this bill was introduced in the last session. It progressed through the House and Senate until time ran out in the Senate Rules committee. It is my hope that the bill will be enacted this year so that the problem is resolved.

Representative Jerry Mackie
Room 602, Court
State Capitol
Juneau 99801-1182

Dear Jerry,

I would like to take this opportunity to request your assistance in supporting legislation which would correct a land use problem in Skagway.

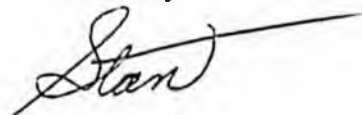

The details of the situation focus on a section of the community which was flooded by the Skagway River on a regular basis then protected by the construction of a dike approximately 50 years ago. The newly dried out land was subdivided as an extension of the existing street and lot grid and sold or used for community purposes.

The problem that has resulted today from these earlier efforts involves reluctance on the part of a title insurance company to provide coverage on a lot in the reclaimed zone.

Dave Gray has been working diligently with the city in arriving at a solution to this problem that will serve all parties well.

Your support will help bring resolution to a problem which cannot be solved in another way. Thank you for your help on this issue and I look forward to working with you on other matters of state or local concern.

Sincerely,

Stan Selmer
Mayor

Skagway River Subdivision

I would recommend consideration of the following legislation to Representative Mackie, unless you want to just sell the land to the City of Skagway at "fair market value" or feel that we already have the right under AS 38.05.010 to convey for "less than fair market value" without any overriding state benefit, without imposing a reverter, and without establishing a president we cannot live with

"The director, pursuant to AS 38.05.035 (b), may without classification or reverter, convey lands to a municipality ~~which made application to the Division for lease or purchase prior to~~ with or without compensation, to allow the municipality to correct an error inadvertently created by its inclusion of these lands in a subdivision and conveyance to third parties."

I believe the language is generic enough to not be labeled special, and would recommend a deadline which would just cover applications existing at the time of the deadline. If you approve I will pass this language to Dave Gray for consideration of Representative Mackie.

Appears that this would affect most of 22 lots and a fraction of 9 others. All are small lots. Have FAXED a plat.

Re: City of Skagway Title Problem

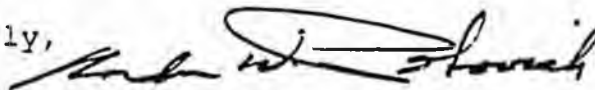

Dear Meg:

Sorry for the delay, but enclosed please find the map indicating the lands at Skagway that are involved in the title problem which we would like to have released from the list of PSL lands and convey to the City of Skagway. I have also attached a copy of the draft legislation that Representative Mackie may want to advance.

The heavy black line on the attached City of Skagway Base Map represents the eastern boundary of the Skagway River (original meander) in the problem area and the western boundary, in that area, of the original townsite prior to construction of the dike by the Navy in the 40's. The low land behind the dike was later filled, and some of the newly elevated area subdivided and deeded by the city to the respective purchasers. A few of the newly created lots are also in use by the City for public purposes, including the school. To add to the problem, although there are deeds and a base map depicting the new lots, the inclusion of this land into the original townsite subdivision as depicted on the Skagway Base Map is not covered by a proper plat (no recorded plat). Please let me know if you need more. We would like to obtain the release of all lands, including platted right-of-ways, e.g Alaska Street west of the dike. Any suggestions?

I would recommend dropping from the PSL all lands east of the dike abutting the eastern boundary of the Skagway River lying south of the northern boundary of 23rd Street, and west of the original townsite survey.

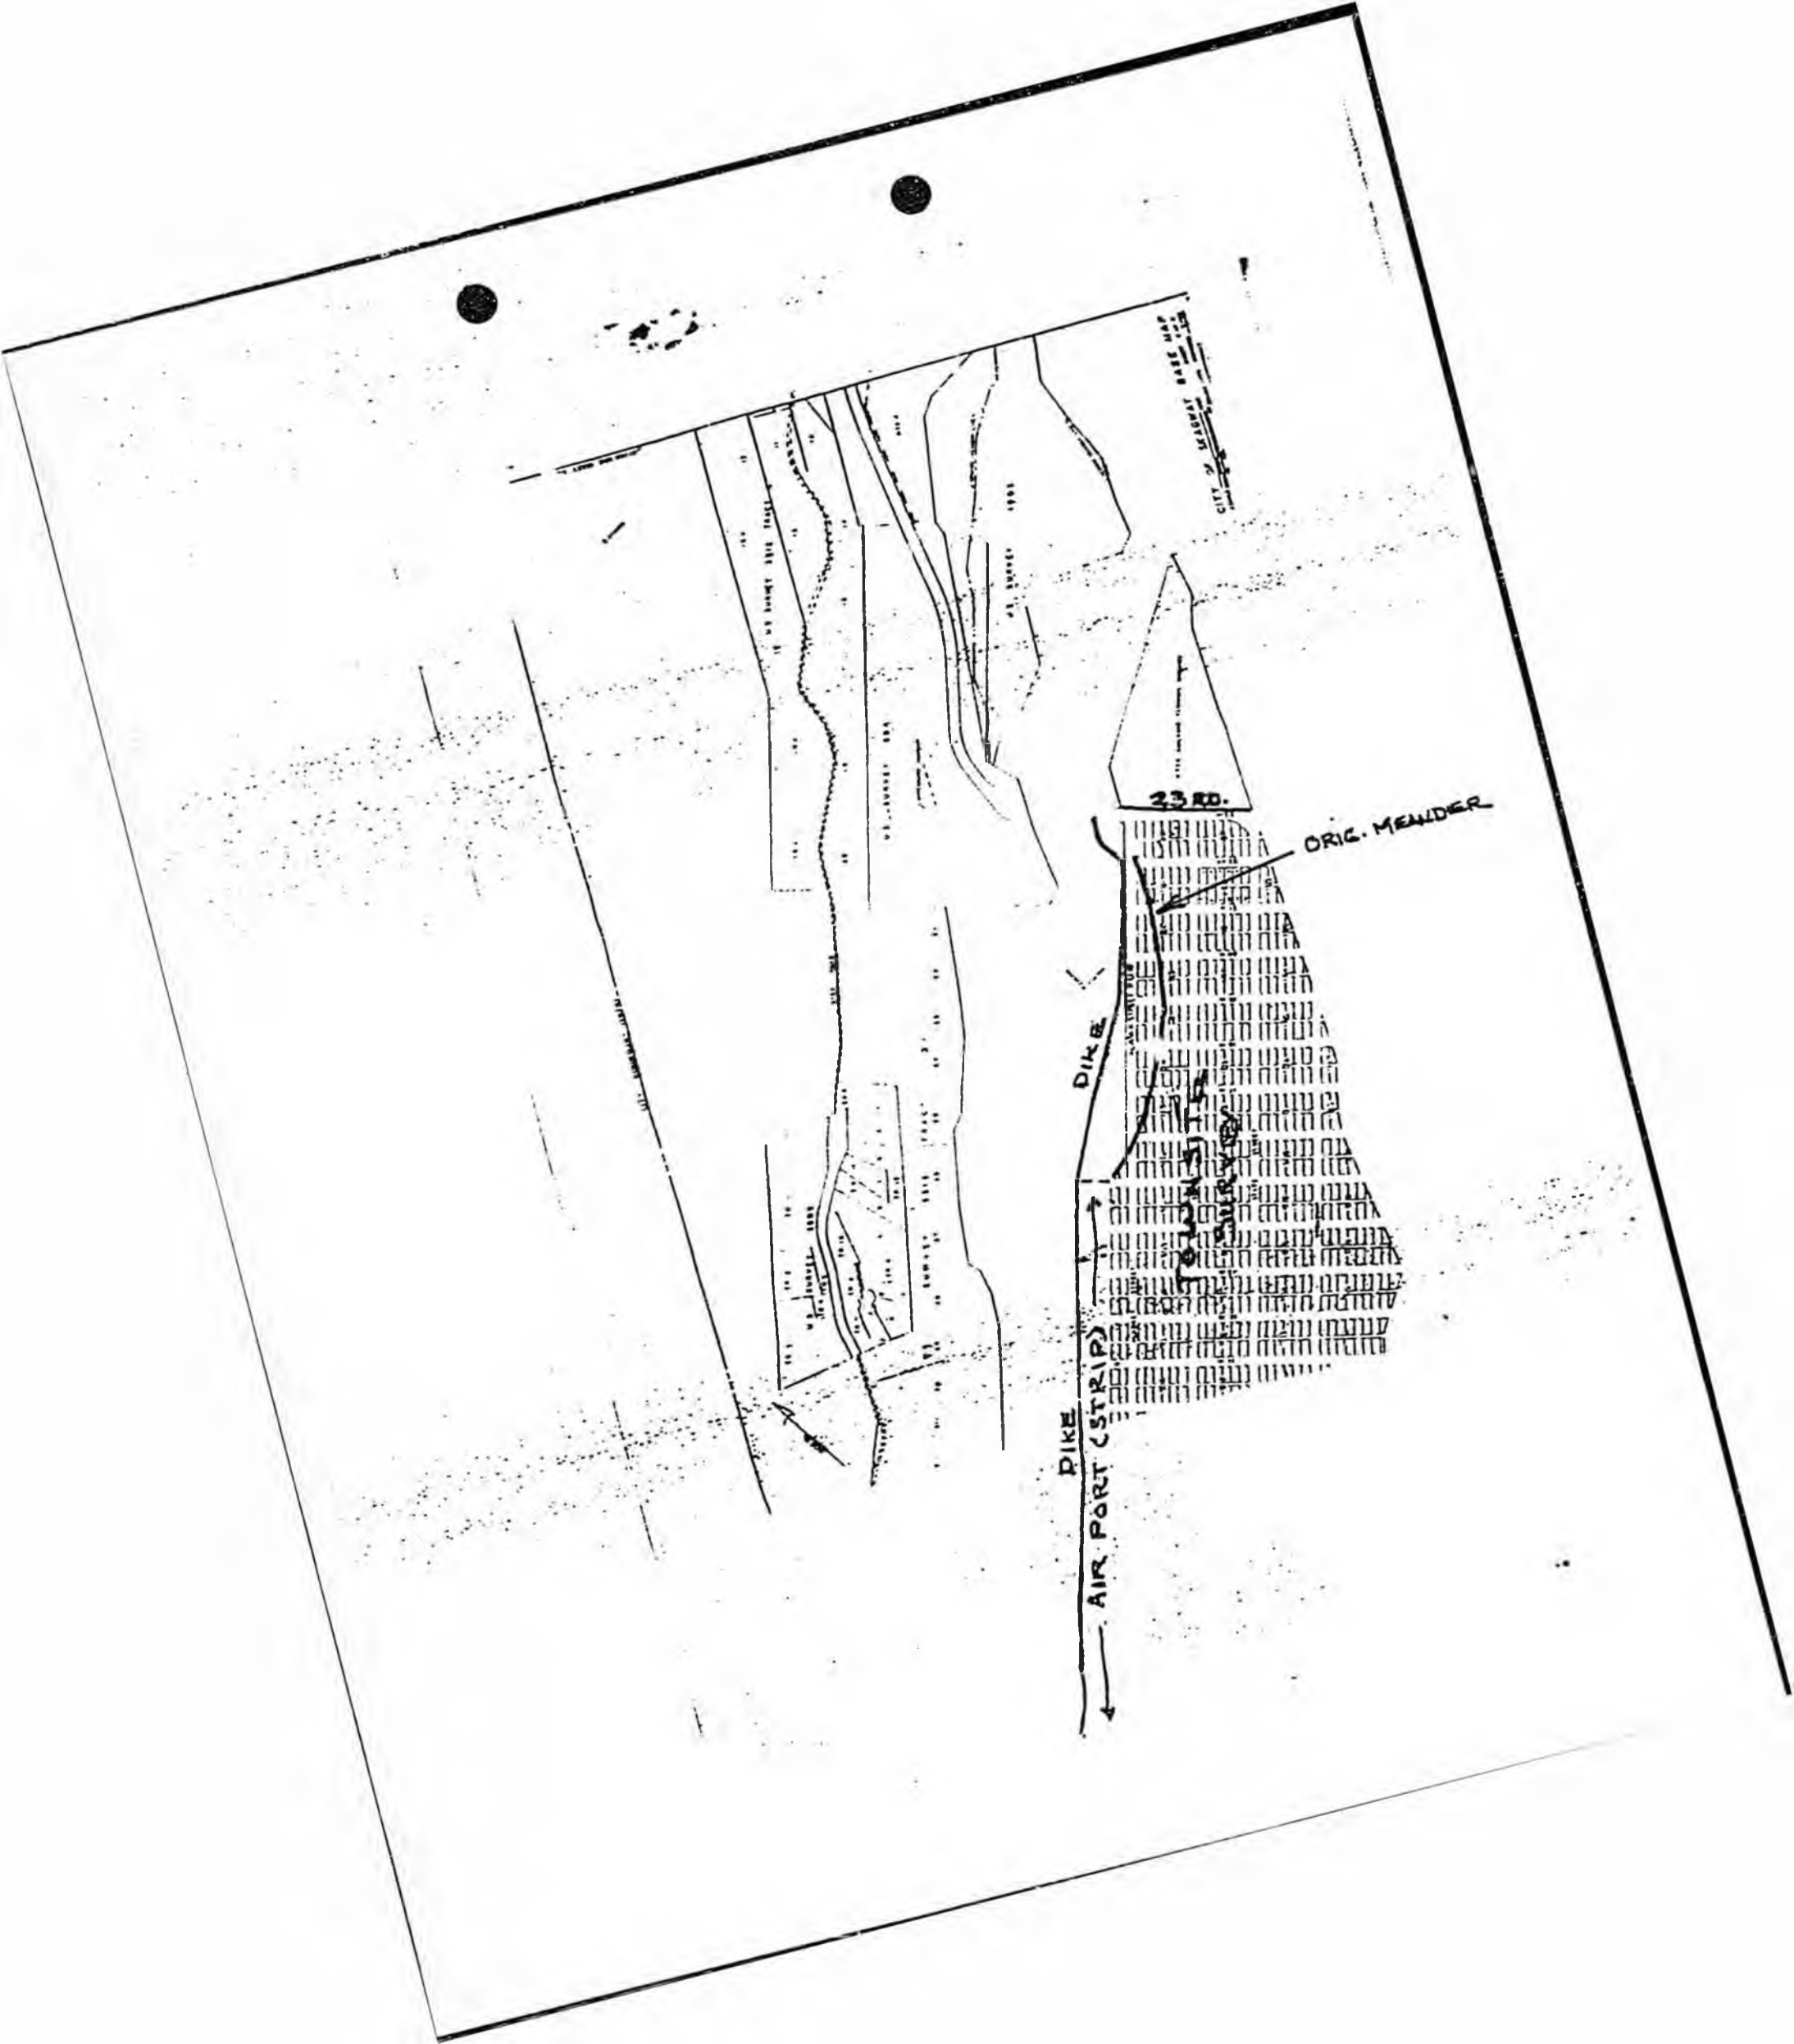

Sincerely,

Andrew W. Pekovich
Manager, Southeast Region
