HOUSE CS FOR CS FOR SENATE BILL NO. 287(CRA)

IN THE LEGISLATURE OF THE STATE OF ALASKA

NINETEENTH LEGISLATURE - SECOND SESSION

BY THE HOUSE COMMUNITY AND REGIONAL AFFAIRS COMMITTEE

Offered:
Referred:

Sponsor(s): SENATOR TORGERSON

A BILL

FOR AN ACT ENTITLED

1 "An Act relating to the unincorporated community capital project matching
2 grant program; and providing for an effective date."

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

4 * Section 1. AS 37.06.020(b) is amended to read:

5 (b) The unincorporated community capital project matching grant fund is
6 established in the department and consists of appropriations to the fund. Appropriations
7 to the fund do not lapse except as provided in (h) of this section. The money in the
8 fund is held by the department in custody under this subsection for each
9 unincorporated community eligible for an allocation under this subsection. The
10 department shall establish an individual grant account within the fund for each eligible
11 unincorporated community [THAT WAS ENTITLED TO RECEIVE STATE AID
12 UNDER AS 29.60.140 DURING THE PRECEDING FISCAL YEAR]. As provided
13 in this subsection, each fiscal year the department shall allocate, to the individual grant
14 accounts, appropriations to the fund. An unincorporated community is eligible for an

1 allocation in a fiscal year if the requirements of (d) are met and the community was
2 a place in the state in which 25 or more individuals resided as a social unit
3 [ELIGIBLE TO RECEIVE STATE AID UNDER AS 29.60.140] during the preceding
4 fiscal year. The department shall credit interest earned on money in an individual
5 grant account to that account. Except as provided in (c) of this section, the amount
6 allocated under this subsection to an individual grant account in a fiscal year is the
7 amount needed to fund the projects presented to the legislature under (e) of this
8 section [DETERMINED BY DIVIDING THE TOTAL AMOUNT APPROPRIATED
9 TO THE FUND DURING THAT FISCAL YEAR BY THE NUMBER OF
10 UNINCORPORATED COMMUNITIES ELIGIBLE FOR AN ALLOCATION
11 DURING THAT FISCAL YEAR].

12 * Sec. 2. AS 37.06.020(c) is amended to read:

13 (c) A maximum [MINIMUM] of \$25,000 may [SHALL] be allocated to each
14 eligible unincorporated community's grant account each fiscal year under (b) of this
15 section. If appropriations are not sufficient to fully fund the [MINIMUM] amount for
16 each eligible unincorporated community, the amount appropriated shall be allocated
17 on a pro rata basis [EQUALLY] among the eligible unincorporated communities.
18 If appropriations exceed the amount necessary to fully fund the amount for each
19 eligible unincorporated community, the excess amount lapses into the general
20 fund.

21 * Sec. 3. AS 37.06.020(d) is amended to read:

22 (d) The department shall designate, in each eligible unincorporated community,
23 a [AN INCORPORATED] nonprofit corporation [ENTITY] or a Native village
24 council that agrees to receive and spend grant money allocated to the unincorporated
25 community's individual grant account under (b) of this section. If the community is
26 located in a borough or a unified municipality, the department may only designate
27 the entity that has been approved by the assembly and the department must have
28 written evidence of that approval. If there is more than one qualified entity in a
29 community in the unorganized borough, the department shall designate the entity that
30 the department finds most qualified to make draws from that unincorporated
31 community's individual grant account and spend the money. If there is no qualified

1 [INCORPORATED] nonprofit corporation [ENTITY] or Native village council in an
 2 unincorporated community that will agree to receive and spend money allocated to the
 3 community under (b) of this section, draws may not be made from the unincorporated
 4 community's individual grant account and the amount allocated to the account lapses
 5 into the general fund. An entity qualifies for designation under this subsection only
 6 if it

7 (1) was formed to serve a public or civic purpose;

8 (2) is registered and in good standing with the Department of
 9 Commerce and Economic Development if it is a nonprofit corporation;

10 (3) agrees to use the grant money for a public purpose;

11 (4) provides the residents of the community with a public facility
 12 or service;

13 (5) has held a public meeting to give residents of the community the
 14 opportunity to express their preferences and ideas for use of the grant money;
 15 and

16 (6) agrees to make a facility provided with grant money available
 17 to every person in the community.

18 * Sec. 4. AS 37.06.020(e) is amended to read:

19 (e) By October 1 of each fiscal year, the [INCORPORATED] nonprofit
 20 corporation [ENTITY] or Native village council designated by the department under
 21 (d) of this section shall submit to the governor a prioritized list of capital projects and
 22 estimated costs to be financed with money from the community's individual grant
 23 account established under (b) of this section. The list must include the amount and
 24 source of the local share required by AS 37.06.030. If the community is located in
 25 a borough or unified municipality, the list is subject to approval of the assembly
 26 and must be accompanied by written evidence of that approval. The governor
 27 shall include in the capital improvements program presented to the legislature under
 28 AS 37.07.060 the projects submitted by designated entities under this subsection that
 29 the governor recommends for funding. If, in the capital improvements program, the
 30 governor includes projects in other than the priority order submitted by a designated
 31 entity, the governor shall provide the legislature with a written statement of the reasons

1 for that action.

2 * Sec. 5. AS 37.06.030(b) is amended to read:

3 (b) For each draw made by an entity or council under AS 37.06.020, the
4 incorporated entity or Native village council that makes the draw shall contribute a local
5 share of the cost of the capital project for which the draw is made. The amount of the
6 local share for an unincorporated community in a borough or unified municipality
7 is the amount of the local share for that borough or unified municipality as
8 calculated under (a) of this section. The amount of the local share for an
9 unincorporated community in the unorganized borough equals the local share
10 percentage as calculated under (1) of this subsection, divided by the state share
11 percentage as calculated under (2) of this subsection, multiplied by the amount of the
12 draw. For purposes of this subsection,

13 (1) the local share percentage is five percent;

14 (2) the state share percentage equals one minus the local share
15 percentage;

16 (3) the local share may be satisfied from (A) federal or local money; (B)
17 labor, materials, or equipment used directly in the construction of the project, or land,
18 including land transferred by the state; the department shall determine the value of a
19 contribution under this subparagraph; (C) money from another nonstate source; (D)
20 money received by the unincorporated community under AS 29.60.010 - 29.60.375; or
21 (E) money obtained from the sale or lease of land or other assets transferred by the state;
22 except as provided in this paragraph, the local share may not be satisfied with money
23 from, or with the portion of an asset that was obtained with money from, an
24 appropriation, allocation, entitlement, grant, or other payment from the state.

25 * Sec. 6. This Act takes effect July 1, 1996.

Estimate of current (FY94) impact \$ none

ANALYSIS: (Attach a separate page if necessary)

Based on the definition of communities eligible for program participation under this legislation, the department has determined an additional 60 unincorporated communities could participate. The program provides for a possible \$25,000 for each unincorporated participant. Therefore, an additional \$1,500,000 would be needed to fully fund the unincorporated element of the amended Capital Match Program administered by the department. Appropriations for this program are provided at the discretion of the Legislature.

Fiscal Note Analysis Continued

The addition of 60 new participants in the unincorporated Capital Match Program administered by the department will translate into increased burdens of grant tracking and community assistance for department staff. Existing staff would not be able to absorb the increased work load. The department feels these additional duties could only be absorbed by a new grant administration position. Therefore, a Grants Administrator I (range 13) with full-time funding is included in the fiscal note. It is important that full funding be attached due to the imminent general fund reductions to the component.

Senator John Torgerson

COMMITTEE SUBSTITUTE FOR SENATE BILL 287(FIN) SPONSOR STATEMENT

The purpose of the capital project matching grant programs is to "(1) provide a capital project funding system that is equitable to municipalities and unincorporated communities throughout the state; (2) enhance the role of communities in initiating and prioritizing the construction of capital projects; (3) encourage a sense of local ownership in capital projects by requiring local participation . . . ; and (4) improve the process for making grants for capital projects by providing a more orderly and thoughtful planning process that involves the local community, the executive branch, and the legislature."

CSSB 287(FIN) revises the **Unincorporated Community Capital Project Matching Grant Program** by:

- Expanding the program to include unincorporated communities within boroughs and unified municipalities
- Changing the grant amount from an automatic minimum of \$25,000 per year to a maximum of \$25,000 per year based on approved projects;
- Requiring that only nonprofit corporations may administer grants;
- Requiring borough assembly approval of an unincorporated community's nonprofit entity and its list of requested projects;
- Revising the timeline of grants from automatically receiving funds and then applying for grants to first applying for grant and then receiving funds for approved projects;
- Maintaining local share requirements of 5 percent for unincorporated communities in the unorganized borough but requiring that unincorporated communities within boroughs provide the same local share percentage as their borough; and
- Changing the time in which unexpended and unobligated funds are spent from five years to four years.

Senator John Torgerson

MEMORANDUM

April 26, 1996

TO: Representative Ivan Ivan, Co-Chair
House Community and Regional Affairs Committee

FROM: Senator John Torgerson 

RE: Schedule Request for CSSB 287(FIN)

Please schedule CSSB 287(FIN), "an Act relating to the unincorporated community capital project matching grant; and providing for an effective date," for a hearing at your convenience.

Attached for your information are the following:

- CSSB 287(FIN)
- Fiscal Note
- Sponsor Statement
- Sectional Analysis
- Comparison of the existing program with CSSB 287
- Table of Communities
- Affected Statute and regulations
- List of grant recipients and the approved projects, FY 94 - FY 97 request

Thank you for your time and consideration in this matter.

Attachments

COMMITTEE SUBSTITUTE FOR SENATE BILL 287 (FIN)
SECTIONAL ANALYSIS

Section 1: Amends AS 37.06.020(b) to include any unincorporated community which meets the requirements of AS 37.06.020(d) and was a place in which 25 or more individuals resided as a social unit; deletes reference to revenue sharing statute.

States that funds will be allocated to community accounts based on the cost of projects requested.

Section 2: Amends AS 37.06.020(c) to read that a maximum of \$25,000 may be allocated to each eligible unincorporated community's account in a fiscal year. If the appropriation to the fund is not sufficient to fully fund the amount for each account, allocations will be pro rated. If the appropriation is more than what is necessary to fully fund the individual allocations, the excess lapses into the general fund.

Section 3: Amends AS 37.06.020(d) to require that only a nonprofit corporation that meets the following qualifications may administer the grant funds received:

- was formed to serve a public or civic purpose
- is registered and in good standing with the Department of Commerce & Economic Development if it is a nonprofit corporation;
- agrees to use the grant money for a public purpose
- provides the residents of a community with a public facility or service
- has held a public meeting to give residents the opportunity to express their preferences and ideas for use of the grant money; and
- agrees to make the facility provided with grant money available to every person in the community.

Requires a borough assembly's written approval of the administering nonprofit corporation for unincorporated communities located within its boundaries. Deletes reference to Native village councils.

- Section 4: Amends AS 37.06.020(e) to require that written assembly approval must accompany an unincorporated community's list of requested projects for communities within its boundaries. Deletes reference to Native village councils.
- Section 5: Amends AS 37.06.020(h) to change the lapse date from five years to four for projects that do not have substantial, ongoing work being done.
- Section 6: Amends AS 37.06.030(b) to state that the local share for an unincorporated community located within a borough is calculated the same as for that borough.
- Section 7: Provides a transition period so that Native village councils who have a project in process may continue to withdraw the approved funds for that project.
- Section 8: Repeals AS 37.06.020(g) which required Native village councils to sign waivers before receiving grants.

Comparison of the Unincorporated Community Project Matching Grant Program with Changes made by CS SB 287(Fin)

CURRENT PROGRAM

CSSB 287(Fin)

Participants

Unincorporated communities in the unorganized borough who were eligible to participate in the revenue sharing program the preceding year

Any unincorporated community in the state that meets the definition of a social unit of 25 or more and have a nonprofit corporation to administer the funds

Funding

One appropriation divided evenly among all eligible participants regardless of whether they have requested a project. Minimum allocation is \$25,000.

One appropriation allocated to individual communities based upon the amount of the project requested, up to a maximum of \$25,000 per year

Entity Qualifications

Nonprofit entity or Native village council that meets the standards currently in regulation for the revenue sharing program.

Must be a nonprofit corporation. The same qualifications apply except the basic qualifications are now in statute. The DCRA has the ability to adopt regulations to further clarify and define them.

DCRA determines the entity's eligibility. The department determines the most qualified if there is more than one in a community

DCRA determines the entity's eligibility. Entities for communities within boroughs must also obtain their assembly's written designation and approval

Grant Request Procedure

Unincorporated community submits prioritized list of projects including estimated costs and source of local share.

Procedure is the same, however communities within boroughs must obtain written assembly approval of the list of projects

Grant Approval

Governor places list in capital budget request, with appropriations from the individual accounts. If project is approved, the appropriation stands, if not approved, it is deleted by the legislature in the appropriation process.

This process technically does not change, except that initial appropriations are made to individual accounts for projects.

Allocation of Funds

Money is allocated to a community account regardless of whether there is a project requested or if the requested project requires less funding than the allocation. Communities may keep the excess funds in their accounts for up to five years.

Money is allocated to a community account based on the amount of the project requested, up to a maximum of \$25,000 each year. Only the amount of the project requested may go into the account. If a project is not requested, the community receives no funds.

Lapse of Funds

Communities have five years in which to start substantial, ongoing work on an approved project. If this is not done, or if a project is not requested in that time, the funds in the community's account lapses into the general fund

Communities have four years in which to start substantial, ongoing work.

Local Contribution Required

The percentage used for calculating the required local contribution is 5 percent

The percentage used for calculating the required local contribution for communities in the unorganized borough is 5 percent. Local share requirements for communities within boroughs are calculated using the borough's percentage (normally 30 percent)

(f) A municipality shall repay to the department money drawn from its individual grant account if substantial, ongoing work on the capital project is not started within five years after the effective date of the appropriation from which the draw is funded. Money repaid shall be deposited into the general fund. Money from an allocation to a municipality's individual grant account that has not been drawn out by the municipality within five years after the effective date of the appropriation from which the allocation is funded lapses into the general fund.

(g) For purposes of this section, in calculating the population of a borough the population of each city in the borough is excluded. The determination of population shall be based upon data used by the Department of Community and Regional Affairs under AS 29.60.020.

(h) The provisions of AS 37.05.321 apply to a grant and draws made under this section, and to earnings from the grant and draws.

(i) In this section, unless specified otherwise, "department" means the Department of Administration. (§ 3 ch 80 SLA 1993)

Sec. 37.06.020. Unincorporated community capital project matching grant program. (a) The unincorporated community capital project matching grant program is established in the department. Grants to unincorporated communities under the program shall be administered as provided in this section.

(b) The unincorporated community capital project matching grant fund is established in the department and consists of appropriations to the fund. Appropriations to the fund do not lapse except as provided in (h) of this section. The money in the fund is held by the department in custody under this subsection for each unincorporated community eligible for an allocation under this subsection. The department shall establish an individual grant account within the fund for each unincorporated community that was entitled to receive state aid under AS 29.60.140 during the preceding fiscal year. As provided in this subsection, each fiscal year the department shall allocate, to the individual grant accounts, appropriations to the fund. An unincorporated community is eligible for an allocation in a fiscal year if the community was eligible to receive state aid under AS 29.60.140 during the preceding fiscal year. The department shall credit interest earned on money in an individual grant account to that account. Except as provided in (c) of this section, the amount allocated under this subsection to an individual grant account in a fiscal year is determined by dividing the total amount appropriated to the fund during that fiscal year by the number of unincorporated communities eligible for an allocation during that fiscal year.

(c) A minimum of \$25,000 shall be allocated to each eligible unincorporated community's grant account each fiscal year under (b) of this section. If appropriations are not sufficient to fully fund the mini-

num amount for each eligible unincorporated community, the amount appropriated shall be allocated equally among the eligible unincorporated communities.

(c) The department shall designate, in each eligible unincorporated community, an incorporated nonprofit entity or a Native village council that agrees to receive and spend grant money allocated to the unincorporated community's individual grant account under (b) of this section. If there is more than one qualified entity in a community, the department shall designate the entity that the department finds most qualified to make draws from that unincorporated community's individual grant account and spend the money. If there is no qualified incorporated nonprofit entity or Native village council in an unincorporated community that will agree to receive and spend money allocated to the community under (b) of this section, draws may not be made from the unincorporated community's individual grant account and the amount allocated to the account lapses into the general fund.

(e) By October 1 of each fiscal year, the incorporated nonprofit entity or Native village council designated by the department under (d) of this section shall submit to the governor a prioritized list of capital projects and estimated costs to be financed with money from the community's individual grant account established under (b) of this section. The list must include the amount and source of the local share required by AS 37.06.030. The governor shall include in the capital improvements program presented to the legislature under AS 37.07.060 the projects submitted by designated entities under this subsection that the governor recommends for funding. If, in the capital improvements program, the governor includes projects in other than the priority order submitted by a designated entity, the governor shall provide the legislature with a written statement of the reasons for that action.

(f) The legislature may make appropriations, from an unincorporated community's individual grant account established under (b) of this section, for the unincorporated community for capital projects under this section. Subject to appropriations under this subsection and to the local share requirements of AS 37.06.030, an entity designated by the department under (d) of this section may draw, on behalf of the unincorporated community, amounts from that community's individual grant account for a capital project in accordance with an appropriation for that project. In accepting a draw, an entity designated by the department under (d) of this section acknowledges that the state is not responsible for operating or maintaining a capital project for which the draw is used, or for paying for its operation or maintenance. The acknowledgment does not apply to use of money from a draw for repair or improvement of an existing facility that is operated or maintained by the state at the time that the draw is made if the repair or improvement for which the draw is used will not substantially increase the

operating or maintenance costs to the state. No more than 10 percent of the total amount of money from a draw for land acquisition, or planning, design, construction, or repair of a facility may be used for administrative expenses. No more than five percent of the total amount of money from a draw for equipment or equipment repairs may be used for administrative expenses. The designated entity and its agents, contractors, and subcontractors shall comply with the hiring preferences under AS 36.10 in hiring employees to be paid wholly or in part with money from a draw.

(g) An entity designated by the department under (d) of this section that is a Native village council may not draw money from an unincorporated community's individual grant account unless the council waives immunity from suit for claims arising out of activities of the council related to the draw. A waiver of immunity from suit under this subsection must be on a form provided by the Department of Law. Neither this subsection nor any action taken under it enlarges or diminishes the governmental authority or jurisdiction of a Native village council.

(h) An entity designated by the department under (d) of this section shall repay to the department money it has drawn from an unincorporated community's individual grant account if substantial, ongoing work on the project is not started within five years after the effective date of the appropriation from which the draw is funded. Money repaid shall be deposited into the general fund. Money from an allocation to an unincorporated community's individual grant account that has not been drawn out by a designated entity within five years after the effective date of the appropriation from which the allocation is funded lapses into the general fund.

(i) The limitations of AS 44.47.140 do not apply to a grant made under this section.

(j) The provisions of AS 37.05.321 apply to a grant and draws made under this section, and to earnings from the grant and draws.

(k) In this section, unless specified otherwise, "department" means the Department of Community and Regional Affairs. (§ 3 ch 80 SLA 1993)

Sec. 37.06.030. Local share requirements. (a) For each draw made by a municipality under AS 37.06.010, the municipality shall contribute a local share to the cost of the capital project for which the draw is made. The amount of the local share equals the local share percentage as calculated under (1) of this subsection, divided by the state share percentage as calculated under (2) of this subsection, multiplied by the amount of the draw. For purposes of this subsection,

(1) the local share percentage is

(A) 30 percent for a municipality with a population of 5,000 or more;

(B) for a municipality with a population of 1,000 — 4,999, the greater of

(i) 15 percent; or

(ii) the percentage obtained by dividing the amount that would be received by the municipality from a property tax levy of 1/1000th of a mill per \$1,000 of grant funds received by the sum of that first amount plus the amount of the grant or draw, but not more than 30 percent;

(C) for a municipality with a population of under 1,000, the greater of

(i) five percent; or

(ii) the percentage obtained by dividing the amount that would be received by the municipality from a property tax levy of 1/1000th of a mill per \$1,000 of grant funds received by the sum of that first amount plus the amount of the grant or draw, but not more than 30 percent;

(2) the state share percentage equals one minus the local share percentage;

(3) the local share to be contributed by a municipality may be satisfied with (A) federal, municipal, or local money; (B) labor, materials, or equipment used directly in the construction of the project, or land, including land transferred by the state to the municipality; the department shall determine the value of a contribution under this subparagraph; (C) money from another nonstate source; (D) money received by the municipality under AS 29.60.010 — 29.60.375; (E) state taxes refunded or reimbursed to the municipality whose use for the purposes of this subsection is not prohibited; (F) allocations of state aid for the costs of school construction debt under AS 14.11.100; and (G) money obtained from the sale or lease of land or other assets transferred by the state to the municipality; except as provided in this paragraph, the local share may not be satisfied with money from, or with the portion of an asset that was obtained with money from, an appropriation, allocation, entitlement, grant, or other payment from the state.

(b) For each draw made by an entity or council under AS 37.06.020, the incorporated entity or Native village council that makes the draw shall contribute a local share of the cost of the capital project for which the draw is made. The amount of the local share equals the local share percentage as calculated under (1) of this subsection, divided by the state share percentage as calculated under (2) of this subsection, multiplied by the amount of the draw. For purposes of this subsection,

(1) the local share percentage is five percent;

(2) the state share percentage equals one minus the local share percentage;

(3) the local share may be satisfied from (A) federal or local money; (B) labor, materials, or equipment used directly in the construction of the project, or land, including land transferred by the state; the department shall determine the value of a contribution under this sub-

paragraph; (C) money from another nonstate source; (D) money received by the unincorporated community under AS 29.60.010 — 29.60.375; or (E) money obtained from the sale or lease of land or other assets transferred by the state; except as provided in this paragraph, the local share may not be satisfied with money from, or with the portion of an asset that was obtained with money from, an appropriation, allocation, entitlement, grant, or other payment from the state.

(c) For purposes of (a) of this section, in calculating the population of a borough the population of each city in the borough is excluded. The determination of population shall be based upon data used by the Department of Community and Regional Affairs under AS 29.20.060. (§ 3 ch 80 SLA 1993)

Sec. 37.06.080. Adoption of regulations. The Department of Administration for grants under AS 37.06.010 and the Department of Community and Regional Affairs for grants under AS 37.06.020

(1) may adopt regulations that impose additional requirements or procedures to implement, interpret, make specific, or otherwise carry out the applicable provisions of this chapter for grants administered by the department;

(2) shall adopt regulations providing for periodic audits of the use of money for grants administered by the department under this chapter, including audit of the department's determination of the value of, and adequacy of the verification of the actual use of, locally funded or contributed labor on projects funded by a grant under this chapter. (§ 3 ch 80 SLA 1993)

Sec. 37.06.090. Definition of "capital project." In this chapter, "capital project" means a project with a cost exceeding \$10,000 to acquire or improve an asset with an anticipated life exceeding one year and includes land acquisition, construction, repair or structural improvement of a facility, engineering and design for a facility, and acquisition or repair of equipment. (§ 3 ch 80 SLA 1993) .

DETERMINATION OF COMMUNITY.

(a) In determining whether a population comprises a community or social unit, the commission will, in its discretion, consider relevant factors, including whether the people

(1) reside permanently in a close geographical proximity that allows frequent personal contacts and has a population density that is characteristic of neighborhood living;

(2) residing permanently at a location are a discrete and identifiable unit, as indicated by such factors as school enrollment, number of sources of employment, voter registration, precinct boundaries, permanency of dwelling units, and the number of commercial establishments and other service centers.

(b) Absent a specific and persuasive showing to the contrary, the commission will presume that a population does not constitute a community or social unit if

(1) public access to or the right to reside at, the location of the population is restricted;

(2) the population is contiguous or closely adjacent to a community or social unit and is dependent upon that community or social unit for its existence; or

(3) the location of the population is provided by an employer and is occupied as a condition of employment primarily by persons who do not consider the place to be their permanent residence.

STANDARDS FOR PAYMENTS OF STATE AID TO INCORPORATED COMMUNITIES.

An applicant that is an entity qualified to receive an entitlement under AS 29.60.140 must meet the following standards to receive payment:

(1) the applicant must agree to irrevocably dedicate for a public purpose the payment that the applicant receives under AS 29.60.140;

(2) the applicant must be providing the residents of the unincorporated community with a public facility or service as of October 1 of the computation year;

(3) the applicant must have held a public meeting to give residents the opportunity to express their ideas and preferences for the use of money received under AS 29.60.140 and must have posted notice of the meeting in three public and prominent places in the community for at least 15 days before the meeting; and

(4) the applicant must agree to make a service or facility provided with the money received under AS 29.60.140 available to every person in the community regardless of race, religion, color, national origin, age, physical handicap, sex, marital status, changes in marital status, pregnancy, parenthood, or political affiliation.
