SPONSOR STATEMENT

HB-296, "An Act relating to the authority of the State of Alaska over fish and game", would codify the primacy of the State of Alaska over the federal government on matters concerning the management of fish and game resources. It is a State's right enjoyed by 49 other states.

The power to manage fish and game was given to the State of Alaska as a condition of our becoming a state and as a condition of entry into the union. This power cannot be abridged or altered, except by mutual agreement of the people of the State of Alaska and the federal government.

This bill will give the State of Alaska a tool with which it can enforce the right of the state to manage its fish and game resources. The bill also provides that state funds cannot be used to implement or enforce federal fish and game regulations.

This bill will send a message to the Congress and people of the United States that the State of Alaska or an agency created by the state, will be the only one permitted to manage fish and game within the borders of the state of Alaska.
