ANALYSIS: (Attach a separate page if necessary)

See attached page for assumptions used in revenue fund source estimates.

Prepared by: Wayne Regelin, Director *WR* Phone: 465-4191
 Division: Wildlife Conservation Date: 2/2/96
 Approved by Commissioner: *Geran Bunde for* Date: 2/2/96
 Agency: Alaska Department of Fish and Game

Assumptions:Operating Expenditures:

Approximately \$1.0 in contracting, advertising, and postage costs would be spent biennially to establish, develop, and provide opportunities for qualified organizations to participate in the program.

Revenue:

The department anticipates that the Fish & Game fund will earn between 25.0 and 100.0 annually from the auction/raffle of big game hunting permits, depending on the number of permits offered, state of the economy, and other variables.

Anticipated earnings are based on experience of other states and raffle of the Delta bison permit. The single Delta bison permit that was raffled in support of the Alaska Fish & Wildlife Safeguard program earned the F&G Fund between 15.0 and 20.0 per annum. The auction of bighorn sheep permits in different western states has raised amounts ranging from 20.0 to 250.0. Permits for other species (e.g., moose, bison, deer, elk, antelope) have earned from 3.0 to 16.0 at auction.

Because of the possibilities Alaska has to offer in the way of hunting opportunity and combination hunts, we expect that as the program develops and becomes established, the long-term potential for revenue will increase.

1 use of fish and game populations for hunting and fishing, subject to the terms of a
2 memorandum of understanding developed by the department.

3 (c) The department, subject to regulations adopted by the commissioner, may
4 issue, through a competitive auction or raffle, up to two harvest permits each year for
5 each of the following big game species: Dall sheep, bison, musk ox, brown or grizzly
6 bear, moose, caribou, and wolf. Notwithstanding AS 36.30, the department may
7 authorize a qualified organization to conduct the auction or raffle on behalf of the
8 department. If the department does authorize a qualified organization to conduct an
9 auction or raffle for a big game species, the department shall make available to a
10 qualified organization based in the state at least one harvest permit for that species.
11 If the auction or raffle is conducted by a qualified organization, the organization may
12 retain an amount from the gross proceeds of the auction or raffle equal to the
13 administrative cost of the auction or raffle plus an amount not to exceed 10 percent
14 of the net proceeds. The proceeds from the auction or raffle of a big game harvest
15 permit may not be used to make a contribution to any candidate for political office or
16 to any organization supporting or opposing ballot propositions or to pay expenses
17 associated with lobbying the legislature or administration. All proceeds from the
18 auction or raffle of the big game harvest permit less the amount that is retained by a
19 qualified organization under this subsection shall be deposited in the fish and game
20 fund under AS 16.05.100. A person who is issued a big game harvest permit under
21 this subsection shall receive upon the person's request a complimentary hunting license
22 and a big game tag for the big game species for which the big game harvest permit
23 is issued. A hunting license issued under this subsection must bear the inscription
24 "Governor's license" or a similar designation. A person who receives a big game
25 harvest permit, hunting license, or big game tag under this subsection may exercise the
26 privileges conveyed by the permit, license, or tag only in accordance with applicable
27 law. In this subsection, "qualified organization" means a nonprofit corporation
28 established to promote fish and game law enforcement or an organization that is
29 established to promote management of hunted game species and use of game
30 populations for hunting and that complies with applicable laws governing activities
31 under this subsection.

- 1 (d) Auctions and raffles of harvest permits authorized under this section are
- 2 not subject to AS 05.15.
- 3 * Sec. 2. This Act takes effect immediately under AS 01.10.070(c).

SPONSOR STATEMENT CSHB 59 (RES)

The purpose of HB 59 is to allow qualified organizations to raffle or auction big game permits as a revenue source for game management. A qualified organization which auctions a permit can retain a percentage of the sale plus administrative costs, while the remaining amount will be returned to the state for fish and game activities.

HB 59 authorizes the Dept. of Fish and Game to issue one bison harvest permit each year for a bison from the Delta bison herd. The permit may be auctioned or raffled by a qualified organization on behalf of the Dept. of Fish and Game. The organization is entitled to receive reimbursement for expenses plus up to ten percent of the net proceeds to use for the promotion of fish and game law enforcement, and up to 10 percent of the net proceeds.

This legislation will allow the Department of Fish and Game to issue, through a competitive auction or raffle, up to two harvest permits each year for each of the following species: Dall sheep, bison, musk ox, brown or grizzly bear, moose, caribou, and wolf. The qualified organization that conducts the auction may retain up to ten percent of the profits plus administrative costs. The remaining profit will be deposited into the Fish and Game fund.

There are at least 11 western states that have provisions for auctioning or raffling big game harvest permits. Every state with a similar program has had a positive impact on their budget. This legislation will provide another revenue source for the Dept of Fish and Game and will enable the continuation of game management programs for the common use of the people.

February 9, 1996

The Honorable Con Bunde
Alaska State Legislature
State Capitol, Room 108
Juneau, AK 99801-1182

Dear Representative Bunde:

At the House Finance committee hearing on February 6, committee members asked why auctions/raffles authorized by HB 59 should not be subject to AS 05.15.

The primary purpose of the bill is to provide revenue for the department's wildlife management programs. Requiring a qualified organization to purchase an annual permit (at an estimated cost of \$100 plus one percent of net proceeds) would amount to a direct transfer of funds from the fish and game fund to the Department of Commerce and Economic Development via the general fund. These permit fees, which could amount to several thousand dollars, would be part of the administrative costs of the "qualified organization" and are wholly deductible from the gross proceeds prior to the organization receiving its ten percent of the net proceeds. In other words, this department would be paying the permit fees to the general fund.

In addition to maximizing revenue to the fish and game fund, waiving the requirements of AS 05.15 will simplify the administration of the proposed program, both for the agencies and the qualified organization. For example, AS 05.15 applies to in-state organizations but not to outside organizations. It applies to raffles but not to auctions. We anticipate that the majority of permits would be offered at auction and that at least half of all permits offered would be to national organizations headquartered outside Alaska.

Finally, an additional level of regulatory control by DCED would be duplicative and unnecessary. There is no danger of a proliferation of raffles or auctions under this bill, and this department will exercise appropriate regulatory oversight over all qualified organizations.

Sincerely

Frank Rue
Commissioner

cc: Rep. Kay Brown

NEVADA

George Tsukamoto, Chief, Division of Game

All monies from all tags auctioned, elk, deer, antelope and sheep are directed solely for the purchase of helicopters.

George feels this helicopters are the single most effect tool in gathering census information for wildlife.

They have contracted helicopters in the past, however, this is sometimes difficult, i.e. during fire season, and costly - they average 1400 hours of flying time per year at \$475 an hour equals \$665,000.

They started with one helicopter, a B-1 piston, they have since sold that one and purchased two jet ranger helicopters. Their ultimate goal is to have three helicopters.

NEW MEXICO

Andrew Sandoval, Chief Habitat Director, Bighorn Sheep Coordinator

By legislative mandate, the monies from the sheep permit that is auctioned must only go to programs for wild sheep. They are also on a federal aid program, where for every dollar they generate from tags, the federal government will match it with three dollars. For example, this year the auction tag brought \$55,000 for New Mexico, the federal government will match it with \$165,000 for a total of \$220,000, which can only be used for sheep programs.

Projects which they use the money for include: 2 transplants for desert sheep, a historical evaluation of habitat for desert and bighorn sheep. A salting program to separate the recreational users of the land from the sheep to cause them less stress. Follow up of transplants and census and survey work.

Mr. Sandoval expressed his appreciation of FNAWS and hopes that our good working relationship will continue. He is very appreciative of the fact, that without FNAWS, a good many of his sheep programs would not exist.

NORTH DAKOTA

Ron Stromstad, Chief

The monies generated from the tags and GLA funding make up 60% of the budget designated for sheep programs, consequently, all monies from the permits are designated for sheep programs and their administrative costs.

In general, the programs include sheep census, baiting and treating lungworm, analyzing new sites for release of sheep and lambing surveys.

An ongoing program that they have been dealing with for the last two years is multi year bighorn research project, underwritten by FNAWS, Cenex, Meridian Oil, and FNAWS MN-WI chapter, to attempt to isolate methods of mitigating oil and gas developments to the bighorn herd.

OREGON

Walt Van Dyke, Assistant Staff Biologist, Big Game

By department policy, the money from the auction permits is earmarked specifically for sheep projects in an account called "The Bighorn Sheep Donation Fund". Sheep programs have been elevated within the department because of the money generated from the auction permits and our grant-in-aid monies. The auction of the permits also is popular with the general public.

75% of the money is used for trapping and transplants. This year the Oregon Department of fish & wildlife plans to ask for an additional 14 tags for sheep. Walt feels that this is a direct result of the trapping and transplanting programs that have been funded by the auction permits.

The rest of the money goes to disease research in Oregon and support research efforts with University of Washington and University of California, and cooperative programs with other agencies involving habitat improvement i.e. prescribed burns, range rehabilitation and guzzler installments.

Walt says he appreciates the Foundation for all the efforts, and without FNAWS they would not have the money to accomplish all that they have in the last 5 years.

UTAH

Wes Shields - Big Game Program Coordinator

The money from the auction tag permits goes into a dedicated account for wild sheep only (which is approved by the Utah). This money makes up 90% of the budget for the programs for desert and bighorn sheep. All other monies from the routine drawing of permits goes into a general fund, consequently, the money from the auction permit means alot to them.

From the permits that were auctioned this year, the major project is:

They will be giving \$40,000 of the permit money to the Utah Chapter of FNAWS who will in turn buy out the AUM domestic sheep. This will directly affect the Rattlesnake bighorn sheep population that currently competes with 3,000 domestic sheep for grazing land.

The other monies go to survey and transplant work. They are currently working on a program where they have received 25 sheep from Colorado for transplant . They are also working with Arizona on a cooperative management program for the herd near St. George and the Arizona border.

IDAHO

Lloyd Oldenberg, Wildlife Game and Research Manager

All the monies from the auction tags go into a special account that can only be used for wild sheep. This is Idaho Fish & Game Department policy. These funds are supplemented by the Department's budget to complete the projects. As of June 9, 1993, there was \$30,000 in this special account. They are currently doing a sheep census until June 30th. The money will undoubtedly go to paying for the helicopter time.

A list of all the projects that have benefited from the auction permit monies is attached.

One of the things the monies do not support is administrative costs.

COLORADO

Tom Lytle, DNR, Division of Wildlife

Under Colorado law, all monies obtained from the permit must be spent on bighorn sheep. This is exclusive of the in-house budget already targeted for the sheep.

Habitat work is their first priority. They work in cooperation with the Forest Service for habitat improvement. This includes controlled burning, patch cutting and re-vegetation.

One project they had been working on was the compatibility between bighorn sheep and mountain goats. This was a three year project, however the funds ran out after two years. The funds from the auction of the permit will now enable them to finish this project.

Another area where the money is spent is on educational displays.

Colorado is primarily a deer and elk state, and Tom Lytle feels that without the proceeds raised by the FNAWS, the majority of projects for sheep would not have been possible.

CALIFORNIA

Steve Torres, Statewide Program Coordinator for bighorn sheep

The monies generated from the tag goes into a "pot" that is specifically earmarked for bighorn sheep. The \$61,000 raised in 1992 made up about 1/5th of the budget. The attached report outlines all the programs for the sheep, which includes, the collaring of sheep, general research, and translocation.

This year, with the \$100,000 generated, they are excited. They are working on opening a 4th hunting area for bighorn sheep. It will be in the Chocolate Mountains, which is located in the southeastern part of the state, bordering Mexico and Arizona. Most of the money will be used for aerial surveys to determine if populations are ready for harvest.

All monies generated from the sale of tags for bighorn sheep is legislatively mandated to go to the sheep.

ARIZONA

Ray Lee, Big Game Management Supervisor

Under Arizona law, every dollar from the purchase of the permits has to be returned to the Arizona Game and Fish. The money is deposited into an interest bearing account until the Game & Fish department and the Arizona Society of Bighorn sheep can reach an agreement of how the money should be spent. Major projects include: transplants, helicopter fees, capture equipment and medical supplies for injured animals, and water development.

This is their tenth year doing this. Last years expenditures are attached.

ANALYSIS: (Attach a separate page if necessary)

See attached page for assumptions used in revenue fund source estimates.

Prepared by: Wayne Regelin, Director *WR*
 Division: Wildlife Conservation
 Approved by Commissioner: *Geran Bunde for*
 Agency: Alaska Department of Fish and Game

Phone: 465-4191
 Date: 2/2/96
 Date: 2/2/96

Assumptions:Operating Expenditures:

Approximately \$1.0 in contracting, advertising, and postage costs would be spent biennially to establish, develop, and provide opportunities for qualified organizations to participate in the program.

Revenue:

The department anticipates that the Fish & Game fund will earn between 25.0 and 100.0 annually from the auction/raffle of big game hunting permits, depending on the number of permits offered, state of the economy, and other variables.

Anticipated earnings are based on experience of other states and raffle of the Delta bison permit. The single Delta bison permit that was raffled in support of the Alaska Fish & Wildlife Safeguard program earned the F&G Fund between 15.0 and 20.0 per annum. The auction of bighorn sheep permits in different western states has raised amounts ranging from 20.0 to 250.0. Permits for other species (e.g., moose, bison, deer, elk, antelope) have earned from 3.0 to 16.0 at auction.

Because of the possibilities Alaska has to offer in the way of hunting opportunity and combination hunts, we expect that as the program develops and becomes established, the long-term potential for revenue will increase.

SENATE COMMITTEE REPORT
First Committee of Referral

DATE: 3/14/96
