# DEPARTMENT OF FISH AND GAME POSITION PAPER

**BILL No:** SB147

**SPONSOR:** Senator Torgerson

**DIVISION:** Habitat and Restoration

**DEPARTMENT POSITION:** Support SB147 with sponsor clarification of Sec. 2. AS 29.45.046(d) intent.

SB147 deletes the existing AS 29.45.046(b) requirement that the ADF&G prepare and adopt regulations for a fish habitat protection and restoration tax credit program for the Kenai River. It also eliminates the requirement that the department review each application and inspect and certify each project to determine if the project qualifies for a tax credit under the regulations. These are positive changes. Although a higher level of habitat protection would have been provided if the department could have developed regulations with criteria for projects which restore or protect fish habitat, and department habitat biologists had been able to review each project application, and inspect each completed project to insure that the project met the criteria for a tax credit, the department was never provided with staff or funding for either of these tasks.

SB147 adds a new section (d) which requires the Commissioner of ADF&G to review and approve draft Kenai River tax credit ordinances prepared by the Kenai Peninsula Borough Assembly within 60 days of receipt of the ordinance. It further requires the ADF&G to approve the ordinance "if the improvements for which a credit is authorized aid in protecting or restoring habitat as required under this section without regard to the scope of the protection or restoration that would be achieved by the improvements." The requirement that ADF&G review and approve a draft ordinance to ensure that projects that receive tax credits will truly provide a commensurate level of habitat protection and restoration seems like a reasonable cost-effective compromise between writing the tax credit regulations and inspecting each project, versus no participation. This amendment would provide department habitat and fisheries specialists with an opportunity to review the draft ordinance and determine if the taxes foregone by the borough as credits for habitat protection and restoration would actually buy a commensurate amount of habitat protection or restoration.

DEPARTMENT OF FISH AND GAME  
POSITION PAPER  
CONTINUATION PAGE FOR SB147

The intent of the section that requires the department to approve the ordinance "without regard to the scope of the protection or restoration that would be achieved by the improvement," is not clear. One interpretation would be that the department would be expected to approve the ordinance even if it believed that a type of very costly tax incentive project would only provide a small amount of habitat protection or restoration. Because it seems unlikely that this is what the bill sponsors intended, they may want to rewrite this section to clarify its intent.

**ANALYSIS:** (Attach a separate page if necessary)

This legislation amends legislation passed last year which provides for tax credits for municipalities which have provisions for river habitat protection. The law applies only to the Kenai River. The amendment would relieve the Department of Fish and Game from the requirement of certifying the habitat improvement. Under the proposed legislation, ADFG would also have to approve ordinances passed by a municipality in this regard. These changes have no effect on DCRA and, consequently, no fiscal impact.

SB147 amends AS 29.45.048(b) to eliminate existing requirements that the Alaska Department of Fish and Game prepare habitat tax credit regulation for the Kenai River, and that the department inspect projects to make sure that they meet the criteria. SB147 adds a new requirement that the department review and approve the Kenai Peninsula Borough's tax credit ordinance within 60 days of receipt.

The department does not believe that review of the borough's tax credit ordinance will entail substantial cost to the department. Therefore a zero fiscal note is recommended.

DON GILMAN  
MAYOR

April 6, 1995

APR 11 1995

The Honorable Loren Leman, Chairman  
Senate Resources Committee  
State Capitol  
Juneau, AK 99801

Re: HB 279: Municipal River Habitat Tax Credit  
SB 147: Municipal River Habitat Tax Credit

Dear Sir:

The Kenai Peninsula Borough supports the enactment of HB 279, and its companion Senate Bill 147. The Legislature in its last session enacted a provision for an optional tax credit for improvements that protected or restored habitat in the Kenai River. However, in order to implement the tax credit program protecting the Kenai River, regulations had to be adopted by the Alaska Department of Fish & Game defining improvements that qualified as being protective or restorative. This requirement for the adoption of regulations has delayed the process and complicated the matter. The intent of having the Alaska Department of Fish & Game adopt regulations was to bring expertise into the matter so that the credit would be granted only for protective or restorative improvements. Cities and boroughs generally do not have staff who can address those issues. At the same time, the legislation sought to insure that municipalities did not choose to grant credits under the guise of the improvement being a protective measure. We think the proposed change in these bills will accomplish the original objective of allowing municipalities to provide an incentive for protection of the Kenai River without the cumbersome process of the Alaska Department of Fish & Game having to adopt regulations.

The proposed changes would eliminate the regulations and allow a local government to define improvements and measures which it deems would be protective or restorative. The ordinance defining these eligible activities would be subject to review by the Commissioner of Alaska Department of Fish & Game. The Commissioner's review would be to determine that the eligible improvements in an ordinance were protective or restorative. It would allow the municipality to define the eligible improvements in its ordinance with oversight to insure that the program is limited to protective and restorative improvements. This allows the expertise of the Alaska Department of Fish & Game to be utilized by the municipality in crafting the ordinance and a final review by the Commissioner before the ordinance goes into

The Honorable Loren Leman

Page 2

effect. The Commissioner's involvement would not look at the extent of the credit or the choice of activities to be granted the credit other than to determine whether they were truly protective measures or not.

The Honorable Don Gilman  
Mayor  
Kenai Peninsula Borough  
144 North Binkley  
Soldotna, AK 99669-7599

Dear Mayor Gilman:

Thank you for your leadership in getting HB 306 passed by the legislature. This statute will provide an important tax incentive for private property owners to protect and restore valuable habitat that produces our Kenai River fisheries, which are so important to the economy of the Kenai Peninsula and the state.

As you know, the Kenai Peninsula Borough will have to develop a local ordinance, and the Alaska Department of Fish and Game (ADF&G) will need to develop regulations to implement this statute. The department would like to coordinate the development of these regulations with the borough. This will require that department staff work closely with borough staff to formulate criteria, forms, and procedures for this process. We will need to hold public workshops to get the landowners' perspective and acceptance and public hearings will be required to adopt the regulations. I anticipate that the development of good regulations will require considerable staff time.

Because of the downsizing of state government, ADF&G does not have funds for the senior staff person needed to begin development of these regulations at this time, however we are actively looking for funding to provide the necessary support for the HB 306 regulations and hope to begin full scale work soon. In the interim, the Habitat and Restoration Division, which has responsibility for the regulations plans to contact the borough in the near future to begin the scoping and background work for the project. Please let me know who in the borough we should contact to begin developing a coordinated approach to implementing HB 306.

Thank you for all your help on this and other Kenai River issues. We look forward to working with you on the successful implementation of the tax incentive program.

Sincerely,

A handwritten signature in cursive script that reads 'Carl L. Rosier'.

## S.B. 147 - Municipal River Habitat Tax Credit Sponsor Statement

HB 306 was enacted in 1994. That legislation provided the authority for a municipality to establish, by ordinance, a Kenai river habitat protection credit against property taxes. The current statute requires the Department of Fish and Game to develop criteria for accomplishing the tax credits and the department is also responsible for reviewing and certifying land owner applications.

This bill, SB 147, revises the review and certification process. The bill provides for the Commissioner of the Department to approve criteria set forth in an ordinance developed by the municipality. Also, the Department would no longer be required to review and then certify the land owner applications. The municipality will be responsible for the process, based on the criteria established in the ordinance.

## S.B. 147 - Municipal River Habitat Tax Credit Sectional Analysis

Sec. 1: Amends subsection (b) by deletion of language requiring credits to be certified by the Department of Fish and Game.

Sec. 2: Adds new subsection (d), establishing that the municipal ordinance is the vehicle for certification of the credits, subject to the approval of the Commissioner of Fish and Game.

Sec. 3: Repeals subsection (c), language which requires the Department of Fish and Game to certify, and the criteria under which it is would be certified.
