SPONSOR STATEMENT SB - 86 "COMMEMORATIVE GOLD RUSH LICENSE PLATES"

Senate Bill 86 would allow those interested to purchase from Division of Motor Vehicles a specialty license plate commemorating the many gold rush events in our states history. The Commissioner of Public Safety will design the license plate in consultation with the Alaska Gold Rush Centennial Task Force.

This legislation was requested by the Alaska Gold Rush Centennial Task Force which has over 125 members in 25 Alaskan communities, and Canada. The Gold Rush Task Force was established to coordinate statewide celebrations of the 100th anniversaries in order to promote the understanding of the importance of the gold rush era in Alaska's history and to enhance tourism opportunities.

SB 86 Should be familiar to many legislators, the 18th Alaska Legislature passed SB 407 relating to Gold Rush license plates but Governor Hickel vetoed the bill.

ANALYSIS: (Attach a separate page if necessary.)
Contractual costs are associated with the design, ordering and purchase of 900 special request license plates. This type of special license plate must be ordered with a minimum order of 900 sets of plates. Because the order is for a relative small number of plates, the manufacture charges \$8.50 per set of license plates. The total operating cost is \$7.7.

The response and success of this type of program depends on the number of persons purchasing the special gold rush centennial license plates. Approximately 260 sets of plates must be sold to recover the costs of this program. At such time the Gold Rush Centennial Committee can provide their estimate on the number of people who would purchase this type of plate, a revised fiscal note will be submitted to reflect new general fund revenue.

ANALYSIS: (Attach a separate page if necessary.)

The response and success of this type of license plate program is difficult to predict but the division expects the number issued to be small with the majority being issued in the first year of the program. A good example is the license plate for custom collector vehicles that passed the House and Senate in 1993. That law set up a program to issue a special license plate for owners of custom collector vehicles. From the effective date of the act to date, the Division of Motor Vehicles has sold only 16 sets of license plates. The minimum number of sets of special license plates the division must order from the supplier is 1,000. The costs to design, manufacture and order the special plates is \$17,400.
