CS FOR HOUSE BILL NO. 113(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTIETH LEGISLATURE - FIRST SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:

Referred:

Funding Information:	General Fund	\$11,230,199
	Other Funds	<u>48,024,594</u>
		\$59,254,793

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

1 "An Act making and amending appropriations; amending an appropriation from
 2 the constitutional budget reserve fund under art. IX, sec. 17(c), Constitution of
 3 the State of Alaska; and providing for an effective date."

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

5 * Section 1. DEPARTMENT OF ADMINISTRATION. (a) The sum of \$333,400 is
 6 appropriated to the Department of Administration for the leasing and facilities program for the
 7 fiscal year ending June 30, 1997 from the following sources:

8	General fund	\$ 23,600
9	Interagency receipts	309,800

10 (b) The sum of \$210,500 is appropriated from the general fund to the Department of
 11 Administration, office of public advocacy, for operating costs for the fiscal year ending
 12 June 30, 1997.

13 (c) The sum of \$268,900 is appropriated from the general fund to the Department of
 14 Administration, public defender agency, for operating costs for the fiscal year ending June 30,

1 1997.

2 (d) The sum of \$65,600 is appropriated from the general fund to the Department of
3 Administration for the elected public officers retirement system for the fiscal year ending
4 June 30, 1997.

5 (e) The sum of \$243,300 is appropriated from the general fund to the Department of
6 Administration to pay for settlement of ABBA, Inc. v. State (1JU-96-1773 C. , relating to a
7 procurement dispute concerning a state lease for the fiscal year ending June 30, 1997.

8 (f) The sum of \$104,000 is appropriated from the general fund to the Department of
9 Administration to pay costs associated with adjudicatory claims relating to the Department of
10 Environmental Conservation laboratory for the fiscal year ending June 30, 1997.

11 * Sec. 2. ALASKA AEROSPACE DEVELOPMENT CORPORATION. (a) The sum of
12 \$5,000,000 is appropriated from the earnings reserve of the Alaska science and technology
13 endowment (AS 37.17.020(a)) to the Alaska Science and Technology Foundation for payment
14 as a grant under AS 37.17.090(k)(1) to the Alaska Aerospace Development Corporation for
15 the Kodiak launch complex.

16 (b) The sum of \$28,000,000 is appropriated to the Alaska Aerospace Development
17 Corporation revolving fund (AS 14.40.841) for construction of the Kodiak launch complex
18 from the following sources:

19	Federal receipts	\$ 18,000,000
20	Alaska Science and Technology Foundation grant made	
21	under (a) of this section	5,000,000
22	Corporate receipts	5,000,000

23 * Sec. 3. DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT. The
24 sum of \$60,000 is appropriated from the general fund to the Department of Commerce and
25 Economic Development for the coordinated response to the Southeast Alaska pulp mill closure
26 for the fiscal year ending June 30, 1997.

27 * Sec. 4. DEPARTMENT OF COMMUNITY AND REGIONAL AFFAIRS. (a) The sum
28 of \$1,500,000 is appropriated from the general fund to the power cost equalization and rural
29 electric capitalization fund (AS 42.45.100).

30 (b) The sum of \$1,500,000 is appropriated from the power cost equalization and rural
31 electric capitalization fund (AS 42.45.100) to the Department of Community and Regional

1 Affairs for the power cost equalization program for the fiscal year ending June 30, 1997.

2 (c) The sum of \$50,000 is appropriated from federal receipts to the Department of
3 Community and Regional Affairs, division of community and rural development, for the Head
4 Start program for the fiscal year ending June 30, 1997.

5 * **Sec. 5. DISASTER RELIEF FUND.** The sum of \$415,000 is appropriated from the
6 general fund to the disaster relief fund (AS 26.23.300) to capitalize the fund.

7 * **Sec. 6. DEPARTMENT OF EDUCATION.** (a) The sum of \$3,750,000 is appropriated
8 from federal receipts to the Department of Education, division of teaching and learning
9 support, for Title I and Migrant Education programs for the fiscal year ending June 30, 1997.

10 (b) The sum of \$600,000 is appropriated from federal receipts to the Department of
11 Education, division of vocational rehabilitation, for costs of client service programs for the
12 fiscal year ending June 30, 1997.

13 (c) The sum of \$150,000 is appropriated from federal receipts to the Department of
14 Education, division of vocational rehabilitation, for vocational rehabilitation administration
15 costs for the fiscal year ending June 30, 1997.

16 (d) The sum of \$1,080,000 is appropriated from federal receipts to the Department of
17 Education, division of teaching and learning support, for the school to work programs for the
18 fiscal year ending June 30, 1997.

19 (e) The sum of \$30,000 is appropriated from general fund program receipts to the
20 Department of Education, division of libraries, archives, and museums, for computer and
21 software upgrades for the fiscal year ending June 30, 1997.

22 (f) The sum of \$22,000 is appropriated from general fund program receipts to the
23 Department of Education, Mt. Edgecumbe Boarding School, for summer programs for the
24 fiscal year ending June 30, 1997.

25 * **Sec. 7. EMERGENCY EQUIPMENT AND DEFERRED MAINTENANCE.** (a) The
26 sum of \$632,000 is appropriated from the general fund to the Department of Corrections for
27 replacement of the boiler system at the Fairbanks Correctional Center.

28 (b) The sum of \$100,000 is appropriated from the general fund to the Department of
29 Military and Veterans' Affairs for radio equipment.

30 (c) The sum of \$120,000 is appropriated from the general fund to the Department of
31 Natural Resources for emergency repairs to the Perseverance Trail.

1 * Sec. 8. DEPARTMENT OF FISH AND GAME. The sum of \$430,000 is appropriated
2 from federal receipts to the Department of Fish and Game, division of wildlife conservation,
3 for services required by federal grant awards for the fiscal year ending June 30, 1997.

4 * Sec. 9. DEPARTMENT OF HEALTH AND SOCIAL SERVICES. (a) The sum of
5 \$939,000 is appropriated from the general fund to the Department of Health and Social
6 Services to meet the costs of the adult public assistance program caseload for the fiscal year
7 ending June 30, 1997.

8 (b) The sum of \$10,000,000 is appropriated from federal receipts to the Department
9 of Health and Social Services for increased Indian Health Service Medicaid reimbursement
10 rates for the fiscal year ending June 30, 1997.

11 (c) The sum of \$750,000 is appropriated from the general fund to the Department of
12 Health and Social Services, division of family and youth services, for foster care program
13 costs for children in the department's custody who require placement for the fiscal year ending
14 June 30, 1997.

15 (d) The sum of \$685,000 is appropriated from the general fund to the Department of
16 Health and Social Services, division of family and youth services, McLaughlin Youth Center,
17 for increased costs caused by population increases for the fiscal year ending June 30, 1997.

18 (e) The sum of \$99,300 is appropriated from federal receipts to the Department of
19 Health and Social Services, division of public health, for operating costs for the fiscal year
20 ending June 30, 1997.

21 * Sec. 10. DEPARTMENT OF LAW. (a) Section 26(a), ch. 94, SLA 1995, is amended
22 to read:

23 (a) The sum of \$20,000,000 is appropriated to the Department of Law from
24 the following sources, for costs relating to legal proceedings and audit activity
25 involving oil and gas revenue due or paid to the state or state title to oil and gas land,
26 for the fiscal years [YEAR] ending June 30, 1996, and June 30, 1997:

27	State corporation receipts	\$ 3,160,000
28	Budget reserve fund (art. IX, sec. 17,	
29	Constitution of the State of Alaska)	16,840,000

30 (b) The sum of \$252,339 is appropriated to the Department of Law to pay judgments
31 and claims against the state for the fiscal year ending June 30, 1997 from the following

1 funding sources:

2	General fund	\$ 236,395
3	Public employees' retirement fund	12,766
4	Teachers' retirement fund	3,178

5 * Sec. 11. DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS. (a) The sum
6 of \$121,900 is appropriated from the general fund to the Department of Military and Veterans'
7 Affairs for emergency alert system equipment.

8 (b) The sum of \$17,200 is appropriated to the disaster relief fund (AS 26.23.300) from
9 amounts deposited in the general fund program receipts as premium payments for flood
10 insurance from victims of the Southcentral flood.

11 (c) The sum of \$17,200 is appropriated from the disaster relief fund (AS 26.23.300)
12 to the Department of Military and Veterans' Affairs for payment of premiums for flood
13 insurance under the federal flood insurance pilot program authorized specifically for victims
14 of the Southcentral flood.

15 * Sec. 12. MISCELLANEOUS CLAIMS. The following amounts are appropriated from
16 the general fund to the following departments to pay miscellaneous claims and stale-dated
17 warrants for the fiscal year ending June 30, 1997:

18	DEPARTMENT	APPROPRIATION
19	Administration	\$ 33,388
20	Corrections	9,275
21	Fish and Game	1,271
22	Health and Social Services	22,235
23	Law	473
24	Public Safety	4,254
25	Transportation and Public Facilities	903

26 * Sec. 13. DEPARTMENT OF NATURAL RESOURCES. (a) The sum of \$3,788,300
27 is appropriated from the general fund to the Department of Natural Resources for fire
28 suppression activities for the fiscal year ending June 30, 1997.

29 (b) The sum of \$280,000 is appropriated from the general fund to the Department of
30 Natural Resources for refunds owed by the veterans' land discount program (AS 38.05.940)
31 for the fiscal year ending June 30, 1997. The appropriation made by this subsection may not

1 be used for administrative expenses.

2 (c) The sum of \$20,000 is appropriated from the general fund to the Department of
3 Natural Resources for the fiscal year ending June 30, 1997, for costs of administering the
4 refunds owed to veterans by the veterans' land discount program (AS 38.05.940) appropriated
5 under (b) of this section.

6 (d) The sum of \$100,000 is appropriated from the general fund to the Department of
7 Natural Resources for removal of existing buildings and other associated facilities at the Old
8 Eagle School site for the fiscal year ending June 30, 1997.

9 * **Sec. 14. DEPARTMENT OF PUBLIC SAFETY.** (a) The unexpended and unobligated
10 balance of the appropriation made in sec. 30, ch. 117, SLA 1996, page 43, line 32 and
11 allocated on line 34 (Village Public Safety Officer Program, Contracts, \$4,965,500) lapses into
12 the general fund June 30, 1998.

13 (b) The sum of \$205,494 is appropriated from federal receipts to the Department of
14 Public Safety, council on domestic violence and sexual assault, for costs related to
15 implementation of the Domestic Violence Prevention and Victim Protection Act of 1996 for
16 the fiscal year ending June 30, 1997.

17 * **Sec. 15. RATIFICATIONS OF THE ACCOUNTING SYSTEM.** The following
18 departmental expenditures made in fiscal years 1985 to 1995 are ratified to reverse the
19 negative account balances in the Alaska state accounting system in the amounts listed for each
20 AR number. The appropriations from which these expenditures were actually paid are
21 amended by increasing them by the amount listed, as follows:

22 (1) Department of Administration

23 (A) AR 3583-85 Property Management \$47,182.23

24 (B) AR 3581-86 Retirement and Benefits 654.29

25 (2) Department of Labor

26 (A) AR 27540-91 Workers' Incentive 17,423.03

27 (B) AR 27849-93 Alaska Work Program 7,756.15

28 (3) Department of Health and Social Services

29 (A) AR 22750-85 Fairbanks DOE Food Service 3,236.50

30 (B) AR 22751-85 Johnson Center Doc 151.84

31 (C) AR 22783-85 Laboratories 84 1,069.00

26	(G) AR 34532-85 Arm Facility Maintenance	1,754.18

27 * Sec. 16. DEPARTMENT OF REVENUE. (a) The sum of \$25,000 is appropriated from
 28 the general fund to the Department of Revenue, treasury division, for equity investment
 29 management fees for the constitutional budget reserve fund (art. IX, sec. 17, Constitution of
 30 the State of Alaska) for the fiscal year ending June 30, 1997.

31 *Del* (b) The sum of \$3,350,000 is appropriated from the earnings reserve account in the

1 permanent fund (AS 37.13.145) to the dividend fund (AS 43.23.045) for payment of
2 permanent fund dividends.

3 * **Sec. 17. DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES.** (a)
4 The sum of \$130,000 is appropriated from the general fund to the Department of
5 Transportation and Public Facilities, Alaska marine highway system fund (AS 19.65.060(a)),
6 for increased fuel costs for the fiscal year ending June 30, 1997.

7 (b) The sum of \$444,500 is appropriated from the general fund to the Department of
8 Transportation and Public Facilities to implement the consent decree in Trustees for Alaska
9 v. Hickel (the Copper River Highway case) (Case No. A92-245 CIV (JKS) (Consolidated)).

10 * **Sec. 18. ALASKA COURT SYSTEM.** (a) The sum of \$32,200 is appropriated from
11 the general fund to the Alaska Court System to address the effect of ch. 107, SLA 1996
12 (welfare reform legislation) on the trial courts for the fiscal year ending June 30, 1997.

13 (b) The sum of \$30,400 is appropriated from the general fund to the Commission on
14 Judicial Conduct for increased operating costs and mandatory statutory salary increases for the
15 fiscal year ending June 30, 1997.

16 * **Sec. 19.** The appropriation made by sec. 5 of this Act is to capitalize a fund and does
17 not lapse under AS 37.25.010.

18 * **Sec. 20.** The appropriations made by secs. 2 and 7 of this Act are for capital projects and
19 lapse under AS 37.25.020.

20 * **Sec. 21.** The appropriations made by secs. 11 and 16(b) of this Act lapse into the general
21 fund June 30, 1998.

22 * **Sec. 22.** The appropriation from the budget reserve fund amended by sec. 10(a) of this
23 Act is made under art. IX, sec. 17(c), Constitution of the State of Alaska.

24 * **Sec. 23.** Sections 2 and 10(a) of this Act are retroactive to July 1, 1996.

25 * **Sec. 24.** This Act takes effect immediately under AS 01.10.070(c).

STATE OF ALASKA

OFFICE OF THE GOVERNOR

OFFICE OF MANAGEMENT AND BUDGET

TONY KNOWLES, GOVERNOR

P.O. BOX 110020
JUNEAU, ALASKA 99811-0020
PHONE: (907) 465-4660
FAX: (907) 465-3008

March 19, 1997

The Honorable Mark Hanley
The Honorable Gene Therriault
The Honorable Drue Pearce
The Honorable Bert Sharp
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182

Dear Finance Committee Co-Chairs:

As you continue your review of the Governor's supplemental appropriations bill, please consider the amendments below.

Note: All section numbers below refer to the draft House Finance Committee C/S HB 113 released yesterday.

Adopted
* **Delete sec. 16(b), DEPARTMENT OF REVENUE**, earnings reserve account appropriation. Further review by the department indicates that sufficient funds exist to cover expected permanent fund dividend payments.

Adopted
* **Amend sec. 10(b), DEPARTMENT OF LAW**, judgments and claims to read as follows:

The sum of \$716,907 [\$252,339] is appropriated to the Department of Law to pay judgments and claims against the state for the fiscal year ending June 30, 1997 from the following funding sources:

General fund	\$700,964 [\$236,395]
Public employees retirement fund	12,765
Teachers retirement system fund	3,178

This amendment reflects addition of one additional item, Triplett v. State Department of Corrections. Additional information about this settlement is attached.

Adopted

* Amend sec. 12 in the draft CS HB 113, MISCELLANEOUS CLAIMS, at page 12 line 23 to read as follows to reflect an additional miscellaneous claim reported by the department:

Law

626 [473]

Amended
Adopted

Add a new appropriation to section 8, DEPARTMENT OF FISH AND GAME

(b) The sum of \$115,000 is appropriated from the general fund to the Department of Fish and Game for ongoing litigation costs for the fiscal year ending June 30, 1997.

Adopted

Add a new appropriation to section 13, DEPARTMENT OF NATURAL RESOURCES:

(e) The sum of \$977,000 is appropriated from the Exxon Valdez oil spill settlement trust recognized in AS 37.14.400 to the Department of Natural Resources to purchase the following parcels in the amounts stated:

Resources

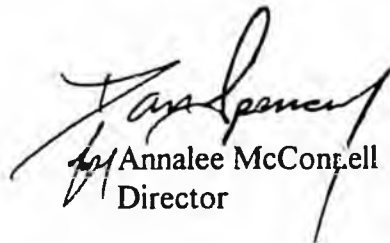

Roberts parcel	\$698,000
Overlook Park parcel	279,000

Amended

* Amend Sec. 20 (references to CAPITAL PROJECTS) to include the new section 13(e) above.

If you have any questions, please call me or our chief budget analyst, Dan Spencer.

Sincerely,

Annalee McConnell
Director

AMENDMENT # 1
TO CS/HB 113 (FIN)

Adopted

BY REP. HANLEY

ADD A NEW SECTION

ADD: \$150.0 MH Trust Authority Receipts
FOR: Alaska Psychiatric Institute Due Diligence Activities

Discussion: Please see attached backup. By funding this in the supplemental rather than in the regular capital budget, the Trust will be able to immediately begin the process of gathering the data for the final implementation plan which is due August 1.

From: Jeff Jessee, Executive Director 

Date: March 18, 1997

Re: FY97 Capital Appropriation for API Due Diligence Activities

This memo is to forward to you the Trust Authority's recommendation for an FY97 Capital Appropriation for the Trust Land Office (TLO) in the DNR to perform due diligence activities required to develop a final set of recommendations for completion of the API 2000 project.

I have attached a CF-1 which describes this proposed supplemental in more detail.

*3/18/97
Jessee*

3:30pm

This is the Trust Authority's follow-up to your conversation with Jeff + Nelson about API. I got it when I returned from House Finance. Thought you might want to deal with it tomorrow (non-GF!)

Project Title: Alaska Psychiatric Institute Due Diligence Activities Location: Statewide
 Category: Health/Safety Prog. Priority: Election District: 99
 Project Type: Planning Agency Priority: AP/AL: AP Completion Date (mmyr): 06/98

FUNDING	FY97 Capital Request	Annual State Operating / Maintenance	FY97 New State PFT	CAPITAL REQUESTS					Total Req. FY98-FY02
				FY98	FY99	FY00	FY01	FY02	
1002 Federal Receipts									0.0
1004 General Fund									0.0
1005 GF Program Receipts									0.0

BRIEF PROJECT SUMMARY:

Exercising due diligence activities in planning for construction of a new Alaska Psychiatric Institute to confirm, review and analyze prior API capital project information, and to explore API 2000 financing, demolition, rehabilitation and new construction options and costs.

DETAIL PROJECT DESCRIPTION AND JUSTIFICATION:

The Alaska Mental Health Trust Authority (AMHTA) is involved in the planning for a new Alaska Psychiatric Institute (API) because the proposed site and existing facility are on Mental Health Trust Authority land, and because API provides services to an important Trust beneficiary group. With this capital project, the Trust will exercise due diligence activities within the planning process for construction of a new Alaska Psychiatric Institute to confirm, review and analyze prior API capital project information, and to explore API 2000 financing, demolition, rehabilitation and new construction options and costs. By beginning immediately on this planning, AMHTA Trustees will have this information in a timely manner for their budget planning process for FY99.

Does capital project:

	<u>Yes</u>	<u>No</u>
1) Meet state constitutional or statutory responsibility?	X	
2) Address life, health or safety issue?	X	
3) Reduce state operating costs?	X	
4) Leverage private sector or local funds?		X
5) Create ongoing private sector jobs?		X
6) Facilitate transfer of responsibility to local or private sector?		X

AGENCY: NATURAL RESOURCES

AMENDMENT # 2
TO CS/HB 113 (FIN)

Adopt

BY REP. HANLEY

ADD A NEW SECTION

(a) The funding source for the fiscal year 1997 appropriation to the Department of Law set out in sec. 32, ch. 117, SLA 1996, page 67, line 8, is amended to read:

General Fund Match (97,500) 107,500

(b) The funding source for the fiscal year 1997 appropriation to the Department of Law set out in sec. 32, ch. 117, SLA 1996, page 67, line 10 is amended to read:

General Fund Program Receipts (596,600) 586,600

Discussion: This request has been revised down by the agency. It gives them 10.0 more GF match due to the fact they will not be able to collect all the GF/Program Receipts. A memo explaining this is attached.

Honorable Mark Hanley
House Finance Committee
State Capitol, Room 507
Juneau, AK 99801-1162

Re: Use of Program Receipts by the Medicaid Fraud Control Unit

Dear Representative Hanley:

As director of Alaska's Medicaid Fraud Control Unit, I have been asked to respond to a question posed by you as co-chair of the House Finance Committee, namely, why the Fraud Unit cannot generate program receipts or rely on them as a source of program income. The brief answer is that because the principal purpose of the Fraud Unit is criminal prosecution, reliance on program receipts to fund the unit is contrary to state and federal law, violates the terms of Alaska's federal grant, and creates potential conflicts of interest.

Criminal cases do not generate program receipts.

Program receipts should not be confused with other types of recoveries obtained by the Fraud Unit. The Fraud Unit has identified and referred for recoupment over \$458,000 in Medicaid overpayments. The Fraud Unit has obtained for the Division of Medical Assistance over \$700,000 in restitution and civil penalties. The Fraud Unit has recovered to the general fund over \$154,000 in fines and penalties. However, none of these recoveries are program receipts which may be used to fund Fraud Unit activities. In criminal cases, program receipts are investigation or prosecution costs (which are substantial) and discovery fees obtained from defendants (which are minimal). However, a criminal defendant in Alaska cannot be assessed the costs of prosecution. AS 12.80.030 provides that no costs may be taxed to the defendant in a criminal action. A criminal defendant cannot be assessed with the state's cost of bringing the defendant to justice. Discovery fees are an exception to this ban and are provided for by court rule.

All states receiving Medicaid funds must have a Medicaid Fraud Control Unit or show that there is minimal fraud in the state (Federal Omnibus Reconciliation Act of 1993). A Fraud Unit is a separate identifiable state entity conducting a statewide program

J:\ADMINSVCP\HANLEY.LPD

investigating and prosecuting instances of Medicaid provider fraud and cases of patient abuse or neglect in facilities receiving Medicaid funds if, as part of a criminal facility or other provider, the unit has civil as well as criminal collection authority. But the unit's focus must remain on proving criminal violations. If the initial review of a case does not indicate a substantial potential for criminal prosecution, the unit must refer the matter to another appropriate state agency. 42 C.F.R. § 1007.1.

Therefore, because criminal cases do not generate program receipts, such receipts are not a viable or reliable source of program income.

Reliance on program receipts is prohibited by the terms of the Fraud Unit's federal grant.

The federal requirement that each state maintain a Fraud Unit is softened by the availability of annual grants providing for federal financial participation during a Fraud Unit's first three years, federal financial participation is 90%, and in subsequent years 75%. The Alaska Medicaid Fraud Control Unit began in 1992 and has since received annual calendar year grants from the Office of Inspector General/Health and Human Services (OIG/HHS). In January 1995, when the Fraud Unit began its fourth year of operation, federal funding was reduced from 90% to 75%. However, the Fraud Unit's BRU component for FY 1995 mistakenly did not anticipate this federal funding reduction becoming effective, as it did, in the middle of the state fiscal year. The result was a shortfall of 7.5% in state matching funds. This mistake was perpetuated in the Fraud Unit's budgets for FY 1996 and FY 1997.

The shortfall was "made up" by spending less than the grant award total (thus requiring fewer matching funds) and by using program receipts as part of the 25% state match. All program receipts obtained by the Fraud Unit have been the result of settlements. However, reliance on voluntary settlements as a source of state matching funds is not permitted by the Fraud Unit's grant.

The OIG/HHS has advised the Department of Law that reliance on program receipts is not an acceptable funding source under the grant for any of the state's 25% general matching funds. As currently constituted, the Fraud Unit barely satisfies the minimum size requirements imposed by federal law. The OIG considers the Fraud Unit undersized given the monetary size of the Alaska Medicaid program, the geographical size of Alaska. Failure to provide a full 25% appropriation for general fund matching funds will:

- (1) impair the Fraud Unit's performance (one dollar in

matching funds provides four dollars in available expenditures),

(2) jeopardize the Fraud Unit's annual certification by OIG/HSS,

(3) invite OIG/HSS recoupment of federal grants to the Fraud Unit retroactively to January 1995, and

(4) invite HSS recoupment and penalties directly against the Alaska Medicaid Program, and thereby jeopardize the availability of Medicaid funds for needy Alaskans.

Reliance on program receipts creates the potential for conflicts of interest.

The level of program receipts obtained has diminished since the Fraud Unit began in 1996 to investigate allegations of abuse of the elderly in Medicaid fraud assisted-living homes. This happened because provider fraud cases focus on money and abuse cases do not. Requiring a reliance on program receipts may have the effect of forcing a choice between investigating fraud cases with a potential for monetary settlements versus abuse cases having no such potential. Such choices create a potential for conflicts of interest and are not conducive to effective law enforcement.

Program receipts obtained are not necessarily Alaska's to keep.

Because the Fraud Unit receives 75% federal funding, 75% of all program receipts obtained should be reimbursed to the OIG/HSS. That they are not is the result of a dispensation granted by the OIG/HSS to the Fraud Unit which permits it to keep 100% of program receipts. The dispensation is given to assist new units in getting established, building credibility, and contributing to their success. However, the dispensation can be terminated at any time. This is another reason why program receipts are not a reliable source of program income.

The funds being requested are critical to the Fraud Unit's success.

For FY 1997 the Medicaid Fraud Unit anticipates a shortfall in program receipts of up to \$10,000. This shortfall would violate the terms of the federal grant requirement full funding of the 25% state match, and would affect the unit's ability to fulfill its statutory obligation to prosecute Medicaid fraud. A Medicaid fraud trial is scheduled to begin May 5, 1997, is expected to last two weeks, and to involve up to eleven out-of-state witnesses for the prosecution. This trial is among the unit's prosecution activities to be negatively affected by a shortfall.

For FY 1998 the Fraud Unit is requesting a transfer of \$41,500 from the program receipts to the general fund match component. Because these are matching funds, they represent a significant portion of the total funds available for the prosecution of cases. One dollar in matching funds makes four dollars available for use. Therefore, \$41,500 represents \$166,000 not available for use by the Fraud Unit in FY 1998.

Conclusion.

For all of the above reasons, the Fraud Unit cannot be expected to generate or to rely upon program receipts as a source of program income. Please call on me should you need additional details or background on this matter.

Sincerely,

BRUCE M. BOTELHO
ATTORNEY GENERAL

RECEIVED
MEMORANDUM
MAR 15 1997

State of Alaska
Department of Law

TO: Annalee McConnell, Director
Office of Management & Budget

DATE: March 14, 1997

FILE NO.:

TEL. NO.: 465-3672

SUBJECT: FY 97 Supplemental
Request Addendum

FROM: *Fred Fisher*
Fred Fisher, Director
Administrative Services Division
Department of Law

The Department of Law hereby requests supplemental appropriations for the following items.

1. Additional FY 97 Judgments & Claims - The attached schedule, now totaling \$716,906.17 reflects additional items totaling \$464,568.92. Additionally the bill should reflect the following fund sources and amounts:

700963.29 General Funds
12765.73 PERS
3177.15 TRS

2. Additional miscellaneous claims in the amount of \$153.60 in general funds related to an unpaid FY 94 invoice should be included in the Miscellaneous Claims/State-dated Warrants section of the request for supplemental appropriation. Inclusion would bring our total request for these items to \$625.85.

Thank you for your consideration of these requests. Please contact me should you have questions or need additional information.

Judgment Award Questionnaire

The following information needs to be provided on all judgment awards made against the state. This information is used to respond to legislative questions concerning the annual supplemental request. (Use additional pages if necessary)

Case Name: ROBERT TRIPLETT V. DEPT OF CORRECTIONS Case No. 3AN-94-4812 CIVIL

1. Describe the circumstances or events resulting in this case and ultimately this judgment against the state.

FORMER CORRECTIONS OFFICER WAS ADMINISTRATIVELY TERMINATED BASED ON A PSYCHOLOGIST'S CONCLUSION THAT HE WAS NOT FIT FOR DUTY. OFFICER CLAIMED THAT DEPARTMENT VIOLATED DISABILITY DISCRIMINATION LAWS AND RETALIATED AGAINST HIM FOR WHISTLEBLOWING. WE SETTLED THE CASE.

2. Describe issues of state policy or law involved in this case, if they are relevant to and resulted in substantial effort and expense for the department to bring or defend this case.

ISSUES INCLUDED DEFINITION OF DISABILITY UNDER STATE LAW, DUTY TO ACCOMMODATE DISABILITIES UNDER STATE LAW, AND RELIEF AVAILABLE UNDER STATE LAW.

3. Did the state prevail on any issues, if so, describe those. NO - SETTLEMENT.

4. Did we challenge plaintiffs' request for costs and fees or in other ways seek to reduce the costs to the state? If so, describe to what extent we were successful.

NO - SETTLEMENT

5. Any recommendations concerning cases of this type in the future? MORE CAREFUL CONSIDERATION OF DISABILITY DISCRIMINATION REQUIREMENTS BEFORE TERMINATIONS.

TO: Barbara Ritchie
Deputy Attorney General
Civil Division

DATE: March 12, 1997

FILE NO: 231-94-1071

TEL. NO: 269-5169

SUBJECT: Triplett v. DOC --
Explanation of
Settlement

FROM: 
David T. Jones
Assistant Attorney General
Governmental Affairs Section, Anchorage

Barbara, you requested additional explanation of the settlement of Mr. Triplett's claims. I have attempted to provide that information below. If you require additional information, please let me know.

Mr. Triplett's Claims: Mr. Triplett claimed that the department failed to accommodate his disabilities in violation of the state anti-discrimination statutes. He also claimed that the department retaliated against him for whistleblowing activities. Mr. Triplett asked for back wages, future wages, emotional distress damages, and punitive damages.

Strength of Claims: The department's exposure on the discrimination claim was significant. Exposure on the whistleblower claim was less troubling.

Sources of Exposure:

1. The department did not grant Mr. Triplett's repeated requests for accommodation of his medical or psychological conditions, without seeking expert verification that accommodation was not warranted.

2. When Mr. Triplett refused an assignment in reliance on his conditions, the department sent him for a fitness-for-duty evaluation. The department's contract psychologist concluded that Mr. Triplett was not fit for duty, so the department terminated his employment. The department did not, however, consider reassigning Mr. Triplett to a vacant position with essential functions that he could perform. The Americans with Disabilities Act lists reassignment to a vacant position as an example of reasonable accommodation.

3. After Mr. Triplett filed suit, a psychologist provided an opinion that he was fit for duty. The department's contract psychologist re-evaluated him and concluded otherwise. As a result, the department and Mr. Triplett agreed to consult a third psychologist, who concluded that he was, at least temporarily, fit to return to duty.

Timing: The refusals to accommodate and termination of Mr. Triplett occurred in 1992-93 (during former Governor Hickel's administration). The department had a new human resource manager during that period who did not make it through his probationary period.

Damages:

1. Back Pay: Mr. Triplett was not able to obtain significant substitute employment in the three years after his termination. His net back pay loss through the date of settlement was approximately \$155,000.

2. Reinstatement: Mr. Triplett also had a claim to reinstatement, which he gave up as part of the settlement. When the department administratively terminated Mr. Triplett, it informed him that he would be eligible to return to work once he proved fit for duty. When the third psychologist concluded that he was, at least temporarily, fit for duty, Mr. Triplett was arguably entitled to return to work. The department had liability concerns about returning him to work as a gun-carrying correctional officer. As part of the settlement agreement, he gave up his right to reinstatement and agreed never to apply for work with the department. Mr. Triplett had approximately 12 years to go before qualifying for the 20-year retirement. His annual wages and benefits were between \$55,000 and \$60,000.

3. Other Damages: His front pay, emotional distress, and punitive damages claims were viable, but not easy to estimate. He also made a viable claim for actual, reasonable attorney fees.

Procedural Posture: The parties had conducted extensive discovery in the case, involving many depositions and written discovery requests. No dispositive motions had been filed by the time we settled.

\dtj

RELEASE AND SETTLEMENT AGREEMENT

1. Settlement Compensation. Robert L. Triplett agrees that, in consideration of the State of Alaska's (the "State") payment to him of Four Hundred Fifty Thousand and 00/100ths Dollars (\$450,000.00), Mr. Triplett agrees never to pursue employment with the State of Alaska, Department of Corrections and fully releases all claims that he has or could have asserted against the State, the Department of Corrections, or their agencies, officers, employees, agents, representatives, or insurers (collectively, the "Released Parties"), in Case No. 3AN-94-4812 Civil in the Superior Court for the State of Alaska, Third Judicial District, arising out of Mr. Triplett's employment with the State of Alaska, Department of Corrections as a Correctional Officer, and the termination of that employment ("the Employment"). The State will also change Mr. Triplett's personnel records to indicate that he resigned and place all of the State's records concerning Mr. Triplett's psychological conditions under seal in a confidential medical file, separate from his regular personnel file. The sealed records will be available only if a court orders their production, if Mr. Triplett seeks employment with the Department of Corrections, or if the validity of this settlement agreement and release becomes an issue in a judicial or administrative proceeding. Mr. Triplett

may view the envelopes containing the sealed records for the purpose of ensuring that they have remained sealed. The State will change Mr. Triplett's final evaluation to indicate that he resigned. ~~A copy of the revised final evaluation is attached as Exhibit A.~~ *dy lit* The State will provide Mr. Triplett a letter of reference indicating the dates of his employment with the Department of Corrections, the positions that he held, and that he resigned. ~~A copy of the letter of reference is attached as Exhibit B.~~ *dy lit* Interest on the payment to Mr. Triplett will accrue at the legal rate of 10.5% per year, from October 8, 1996. Within 30 days of receiving the funds that the legislature appropriates for the settlement payment, the State will issue that payment to Mr. Triplett.

2. Allocation of Settlement Compensation. Mr. Triplett has claimed that actions of the State caused Mr. Triplett to suffer a physical sickness and emotional distress emanating from that physical sickness. The \$450,000.00 paid under this Agreement and Release is intended to compensate Mr. Triplett for his claimed physical sickness, emotional distress emanating from that physical sickness, and all consequential damages resulting therefrom, including but not limited to all claims which Mr. Triplett could assert, as articulated in Paragraph 1, Settlement Compensation, RELEASE AND SETTLEMENT AGREEMENT/Page 2

above. Mr. Triplett and the State agree that, in the unlikely event that any governmental agency finds any portion of the settlement proceeds to be taxable, Mr. Triplett will be responsible for any and all taxes ultimately found to be due. Mr. Triplett and the State agree that no representation is made by either the Released Parties or their attorneys concerning the taxability of the settlement proceeds.

3. Claims Released. Mr. Triplett releases, acquits, and forever discharges the Released Parties from all causes of action, claims, and demands for damages, costs, losses of services, expenses, attorneys' fees, and compensation, known or unknown, that he now has, or may later have, on account of, or arising out of, any matter concerning the Employment including -- but not limited to -- claims for violations of the Alaska Whistleblower Act, the Americans with Disabilities Act, and AS 18.80.

4. Unknown Losses. Mr. Triplett acknowledges that injuries, losses, or damages that he does not know about now may be discovered later, and that injuries, losses, or damages that he knows about now may later prove to be greater than he now believes them to be. Mr. Triplett agrees to discharge the Released Parties from all liability for all injuries, losses, and damages, both

those known now and those that may be discovered later, arising from the Employment. Mr. Triplett assumes all risk that his damages may be greater than he now knows or anticipates.

5. No Admission of Liability. Mr. Triplett acknowledges that this settlement is the compromise of a disputed claim. Mr. Triplett acknowledges that the State's \$450,000.00 payment mentioned above does not constitute an admission of liability by the Released Parties, and that the Released Parties expressly deny such liability.

6. Insurance Claims. Mr. Triplett hereby releases the Released Parties from all claims that he may have against them or their insurers under any insurance agreements that might apply because of his claims concerning the Employment.

7. Further Suits or Claims. Mr. Triplett agrees that he will not individually, or in concert with others, through further judicial, contractual, or administrative proceedings of any kind whatsoever, make or cause to be made, acquiesce in, or assist in the bringing of any future action against any of the Released Parties for damages arising out of the Employment. Mr. Triplett agrees to indemnify, defend, and hold harmless the Released Parties from any such actions that any individual or entity might bring on

his behalf, including any class action from which Mr. Triplett does not opt out.

8. Assignment and Liens. Mr. Triplett declares that he has not assigned to any other individual or entity any interest in any of his claims arising out of the Employment. Mr. Triplett agrees to satisfy all liens that have been or may be asserted against the amounts to be paid in settlement of his claims, and to defend, indemnify, and hold harmless the Released Parties from all actions relating to such liens.

9. Dismissing Suit. Upon receipt of the settlement compensation, Mr. Triplett further agrees to execute, through his attorney, a stipulation for dismissal with prejudice of Case No. 3AN-94-4812 Civil, with each party to bear its own costs and attorneys' fees.

10. Opportunity to Review. Mr. Triplett acknowledges that he has had sufficient time and opportunity to consult with his attorney regarding this Release and Settlement Agreement. Mr. Triplett acknowledges that this agreement was not secured under duress or in haste instigated by any of the Released Parties. Mr. Triplett acknowledges that he has had the opportunity to review the Alaska Supreme Court's decisions in the cases of Witt v.

Watkins, 579 P.2d 1065 (Alaska 1978), and Young v. State, 455 P.2d 889 (Alaska 1969), and waives the protection of those decisions.

11. Entire Agreement. Mr. Triplett acknowledges that no promise or agreement not expressed in this Release and Settlement Agreement has been made by or to him, that this Release and Settlement Agreement contains the entire agreement between the parties to the agreement, and that the terms of this Release and Settlement Agreement are contractual, not merely a recital.

12. Binding Agreement. This Release and Settlement Agreement is and shall be binding upon Mr. Triplett and his heirs, executors, administrators, legal representatives, successors, and assigns.

13. Interpretation. This Release and Settlement Agreement will be interpreted under, and governed by, the laws of the State of Alaska.

CAUTION: THIS IS A COMPLETE AND FINAL RELEASE. READ IT CAREFULLY BEFORE SIGNING.

MEMORANDUM

TO: Annalee McConnell
Office of Management and Budget

FROM: *Molly McCannan*
Molly McCannan
Executive Director

DATE: March 10, 1997

RE: RPL 10-7-4048

RECEIVED
MAR 10 1997

On behalf of the Department of Natural Resources, authority to receive and expend \$977,000 from Exxon Valdez oil spill settlement trust funds is requested for acquisition of two small parcels.

Consistent with the revised procedures, attached is a summary that outlines the intended use of the funds. Also attached are maps indicating the locations of the proposed parcels.

Since the landowners have asked that the state expedite acquisition, it is requested that this revised program be submitted to the Legislative Budget and Audit Committee for consideration at their next meeting.

If you have any questions about this RPL, please do not hesitate to contact me at (907) 278-8012.

Subject of RPL: **Authority to receive and expend Exxon
Valdez oil spill settlement funds**

AND/RPL # 10-7-4048

Amount requested: **\$9,77,000**

Appropriation Authority: **Ch 123, SLA 96, pg 44, ln 1**

Funding source: **Exxon Valdez oil spill settlement funds**

Statutory Authority: **AS 37.14.405(b)**

SUMMARY

The acquisition of land is a means of restoring not only injured resources, but also the services (human uses) dependent on those resources. The small parcel program was initiated in the spring of 1994. Parcels are nominated by the landowners and are ranked according to the potential benefits that purchase would provide to injured resources and services.

PROGRAM INFORMATION

Funding was not requested in the budget approved by the Legislature, as the evaluations and appraisals had not been completed for these parcels.

As a capital project, authority to receive and expend subject to AS 37.25.020 is requested.

FUNDING INFORMATION

The Exxon Valdez Oil Spill Trustee Council has approved the acquisition of the Roberts Parcel which is located in Soldotna on the Kenai River and is adjacent to the Kenai Peninsula Visitors Center. The parcel contains 3.34 acres, including about 600 feet of Kenai River frontage. The owner is willing to sell the parcel to the State of Alaska for \$698,000 based on a fair market value appraisal that has been independently reviewed and approved by both federal and state review appraisers. Acquisition of the parcel will allow for managed access to the Kenai River and thereby protect habitat for pink salmon, Dolly Varden and recreation. Acquisition of this parcel is of particular interest to sport fishermen and the Alaska Sportfish Association because it would permanently secure access to the "Soldotna Fishwalk".

Agency contact & phone: Traci Cramer (907) 586-7238

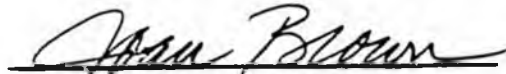

March 5, 1997

The *Exxon Valdez* Oil Spill Trustee Council has also approved the acquisition of the Overlook Park parcel which is located three-quarters of a mile north of Bluff Point and is situated below the Sterling Highway scenic overlook near Homer. The parcel contains 97 acres and is appraised at \$279,000. Acquisition of the parcel would protect intertidal/subtidal habitat and ensure public access. Substantial public support has been expressed for acquisition of this parcel. A petition, signed by more than 350 people, was submitted by the Kachemak Heritage Land Trust and a resolution was adopted by the Homer City Council.

March 19, 1997

The Honorable Mark Hanley
Co-Chair House Finance Committee
Alaska State House of Representatives
Alaska State Capitol
Juneau, AK 99811

Dear Representative Hanley:

CS HB 113(Fin) proposes a reduction of the Leasing supplemental from \$993.7 to \$333.4 of which \$309.8 is I/A; an effective reduction to \$23.6. The full \$993.7 is needed to pay state lease contract obligations for the remainder of the year. I have attached a copy of affected leases and options for handling a shortfall.

If the supplemental is not approved, payments on these leases will not be paid until such time as a supplemental is approved, presumably next legislative session. Over this period of time, late payment penalties will accrue at a rate of 1.5% per month resulting in a supplemental request next session of the \$970.1 plus penalties of approximately \$145.0. We may also be liable for additional damages for late payment. This is the picture assuming we are allowed to remain in the leases. However, it is doubtful that all lessors will allow the state to occupy their space for 10 months without payment, and many agencies will need to be moved to other space which will result in contract default litigation as well as undetermined moving costs.

The CS also reduces the Office of Public Advocacy request by \$37.3. We recently revised the projection for this program and amended our request down by \$69.7. Any bills we are unable to pay at the end of this fiscal year must await payment until a supplemental authorizing payment can be passed next legislative session, again leaving contractors, who have worked for the state in good faith, footing the bill for 10 to 11 months. The 1.5% penalty will apply to these bills as well, and it is likely that these contractors will not be available when we need them in the future.

We urge you to fully fund both of these obligations.

Sincerely,

Mark Boyer
Commissioner

Attachment

cc: Annalee McConnell
Dugan Petty
Sharon Barton
House Finance Committee Members

- 211 leases are paid on a monthly basis at a cost of \$2,456.3 per month.
- Approximately 28.4% (\$6,985.8) of the lease costs are funded by Interagency receipts. (RSA)
- 12 leases that are paid monthly by Administration are currently on a month to month basis.
- 8 leases that are paid monthly by Administration will be expiring between 5/15/97 and 6/30/97.
- A shortage of \$970.1 in GF would be equal to approximately 20% of the remaining FY 97 obligation or 40% of a single months obligation.

If the Leasing BRU does not receive the requested supplemental amount, one, or some combination, of the following options must be initiated immediately.

- ◆ **Option:** Pay only 80% of both the May and June rents.

This is not a good option. Although fair to all lessors, the damage done to the state is immense. Most, if not all, lessors would a.) sue the state for costs and damages; b.) raise the rental rates; c.) evict the state tenants.

- ◆ **Option:** Pay the full monthly cost for May and pay only 60% of all June rents.

This is not a good option. The effect would be the same as above, it would just postpone the lessors actions.

- ◆ **Option:** Select some of the 211 leases to be paid in full, and some that will not be paid for the month of June. A listing of the leases is included as Attachment No. 1.

This is not a good option. The state's exposure to the number of defaults and suits would be smaller, but the damages would likely be the same.

- ◆ **Option:** Pay rents based on the amount of GF required for each. As approximately 28.4% of rents are funded by the occupying agencies through RSA's, the percentage of GF leases costs that could not be paid increases to 68.4%.

This is not a good option. It is more fair to the agencies who have paid (us) for their rents, but would be hard to explain to the lessors. Many of the services that would be disrupted receive grants or other funds from the Federal government. The state may be at risk for re-payment or reduced future funding if services are not provided.

- **Option:** The expiring leases and the month to month extensions could legally be extinguished with a thirty day notice.

This is not a good option. The expiring and month to month leases have a combined value of \$58.3 per month. IF they were vacated in May, less than \$100.0 in rents would be reduced. The cost of emergency moves and relocation of essential personnel and storage of equipment would outweigh the rents avoided

None of the options available are acceptable. All would adversely impact landlords. Potential damages and litigation would likely result from non-payments. Payment of shortages in FY 97 with FY 98 funds would contribute to a higher supplemental need in FY 98.

March 11, 1997

The Honorable Drue Pearce
The Honorable Bert Sharp
The Honorable Mark Hanley
The Honorable Gene Therriault
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182

Dear Finance Committee Co-Chairs:

As you continue your review of the Governor's supplemental appropriations bill please consider the amendments below. The first amendment is a technical addition to complete the power cost equalization supplemental. The second new section will make an additional deposit to the permanent fund dividend fund. As I discussed with Senator Pearce and Representative Hanley last Friday, this new appropriation is needed because of the substantial progress the Department of Revenue has made in clearing up the backlog of permanent fund dividends applications under appeal or awaiting more information before approval.

The construction of a women's dormitory and a shooting range for the Training Academy was a high priority for the Department of Public Safety which could not be accommodated in the FY 98 capital budget. However, in partnership with the City and Borough of Sitka, we have worked out a plan using FY 97 AHFC corporate receipts (which were within the \$53 million available but not committed last spring) plus a \$300,000 contribution from Sitka and a DPS reappropriation.

Add new sections:

DEPARTMENT OF COMMUNITY AND REGIONAL AFFAIRS Add a new subsection (b) to the power cost equalization fund appropriation (requested in my letter of February 27):

The sum of \$1,500,000 is appropriated from the power cost equalization and rural electric capitalization fund (AS 42.45.100) to the Department of Community and Regional Affairs, power cost equalization program for the purposes of that program for the fiscal year ending June 30, 1997.

Sec. 12. (DEPARTMENT OF REVENUE) Add a new subsection:

(c) The sum of \$3,350,000 is appropriated from the earnings reserve account (AS 37.13.145) to the dividend fund (AS 43.23.045) for the payment of permanent fund dividends.

Sec. __. DEPARTMENT OF PUBLIC SAFETY TRAINING ACADEMY (a) The sum of \$2,104,400 is appropriated from the fiscal year 1997 corporate receipts of the Alaska Housing Finance Corporation to the Department of Public Safety, Training Academy for construction of a women's addition, building improvements, and construction of a shooting range.

(b) The sum of \$60,000 is appropriated from the general fund to the Department of Public Safety, Training Academy for construction of a women's addition, building improvements, and construction of a shooting range.

(c) Section. 10, ch. 4, FSSLA 1994, Page 12, line 24 is amended to read:

	Allocations	Appropriation Items	General Fund	Other Funds
Statewide Deferred Building		<u>440,000</u>	<u>440,000</u>	
Maintenance (ED 99)		[500,000]	[500,000]	

Amend the following section:

Sec. 16. Amend the references to CAPITAL PROJECTS to include subsections (a) and (b) of the new Training Academy section described above.

Back-up materials for the permanent fund dividend amendment is attached, and back-up information on the Training Academy will be provided tomorrow. If you have any questions, please call me or our chief budget analyst, Dan Spencer.

Sincerely,

for AnnaLee McConnell
Director

MEMORANDUM

STATE OF ALASKA
DEPARTMENT OF REVENUE
OFFICE OF THE COMMISSIONER

TO: Annalee McConnell, Director
Office of Management and Budget
Office of the Governor

DATE: March 11, 1997

FILE:

FROM: Wilson L. Gordon
Commissioner

TELEPHONE: (907) 465-2300

SUBJECT: Supplemental Appropriation

The Permanent Fund Dividend Division has approved more dividend applications for payment than was anticipated last September. Further, we have reduced the backlogs of pending applications more rapidly than we thought possible. For example, one year ago there were more than five thousand applications in appeals. There are now about 700. As a result, the permanent fund dividend fund is currently depleted. By this memorandum, I request that you add to the Governor's supplemental appropriations bill a request for an additional \$3.35 million dollars for the Permanent Fund Dividend Fund, to be used to pay dividends for the remainder of this fiscal year. The Earnings Reserve Account would be the appropriate funding source for the request.

Let me explain in more detail the reasons that the fund has been depleted. First, each year, when we calculate the amount for the current year's dividend, we count not only those applications that have already been qualified for payment, but estimate the number of still-pending applications that we think will be paid. We do this by assigning a percentage to each category of pending dividend applications (those in review, those in appeals, and those needing further information), thereby estimating the likely number that will be paid in each category. Last year, there were a comparatively large number (25,497) of pending applications when we calculated the dividend amount; we estimated that 12,555 of these would be paid. At the 1996 dividend amount of \$1130.67, these individuals would be paid \$14.2 million. There were also a comparatively small number of applications pending from prior years; we estimated (again, projecting the likely outcome) that we would need \$985,316 to pay these. Our estimates of the likely outcomes of these pending applications appear to have been low. As a result, the calculation for the 1996 dividend was slightly high.

One of the reasons that these estimates were low is that we have been making a number of changes that make the program less of an obstacle course, and have been endeavoring to assist Alaskans with their applications. For example, the prior administration adopted a rule under which, when an applicant was asked to submit supporting information (like rent receipts or airline tickets) the applicant was denied if the information was not submitted promptly. Now, an applicant has much more time to submit the information and, even on appeal, can qualify if the information shows that the applicant is eligible. Thus, we only deny folks if they don't qualify, not because they didn't meet an arbitrary deadline for back-up information.

The second factor relates to the speed with which we have been reviewing applications. Because of the backlog of existing cases, each year we begin the year with (1) an inventory of pending cases and (2) a roll-over from the previous year's dividend fund. The dividend division has worked very hard this year to reduce the backlog of cases pending in appeals

and review, and to process the 1996 dividend applications as quickly possible. We have exceeded our expectations. The division is now more caught up than it has been in a good many years. The result of this quick work is that we are much further along in actually paying current year dividends than we have been in previous years. This year, because of the quick work in the division, the cushion of applications carrying over into the next year has substantially disappeared.

Unfortunately, it did not come to the attention of the Commissioner's Office that the speed of the resolution of cases was out pacing the available funds until we were actually out of money in the fund. The division normally runs warrants each Tuesday night for the applications that have been cleared for payment the past week. This last week, we were notified that the March 4 run would result in an over expenditure of approximately \$330,000 in that appropriation. In order to protect both the applicants who were entitled to the dividends, and the banks at which they would be presented, we took immediate action to assure that those warrants would not be returned for insufficient funds. We changed the coding from the permanent fund dividend fund appropriation to the permanent fund dividend division operating budget. This was our only option at the time to protect both the Alaskans and the banks. As Representative Hanley was quoted in recent press coverage, "If these guys are owed their money, then they should get it."

As the dividend payment appropriation is replenished by credits created through the cancellation of warrants or the Division's collection efforts, we will transfer these charges against the operating budget back against the dividend payment appropriation. When the supplemental appropriation request is enacted and the funds have been added to the dividend payment appropriation, all residual charges against the dividend operating budget will be reversed and the normal payment stream will resume.

We have reviewed our inventory of currently pending applications, and estimate that we will qualify an additional 2665 applicants for payment between now and the end of the fiscal year. With available funding, we will continue to pay these applicants the dividend amount of \$1131, or \$3,014,115. Thus, our total request is for \$3.35 million.

We are currently taking steps to ensure that this type of over expenditure does not happen again. Ever since the state began using AKSAS, batch interface files like those for paying dividends have a "hard coded" approval. This means that no on-line balance verification and certification is required for the transaction to go forward. This differs from the process that is used for normal operating expenditures, in which a certifying officer makes an actual verification of funds. This historic practice is not adequate. We need an internal control that requires a visual check of the fund balance. Effective immediately, we are requiring that the director review the appropriation status *each* time a batch interface file is produced that expends part of that fund. We will devise a reporting system that ensures that a timely appropriation status check is made.

In the meantime, we will issue no further warrants until Legislative action is taken on the supplemental request. We will notify applicants who become qualified that the fund has been depleted, and that payment of their dividend must await action on our supplemental request. No action is required at this time by the staff of the Permanent Fund Corporation or its Board of Trustees.

STATE OF ALASKA

TONY KNOWLES, GOVERNOR

OFFICE OF THE GOVERNOR

OFFICE OF MANAGEMENT AND BUDGET
DIVISION OF BUDGET REVIEW

P.O. BOX 110020
JUNEAU, ALASKA 99811-0020
PHONE: (907) 465-2178
FAX: (907) 465-2090

March 7, 1997

The Honorable Drue Pearce
The Honorable Bert Sharp
The Honorable Mark Hanley
The Honorable Gene Therriault
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182

Dear Finance Committee Co-Chairs:

As you continue your review of the Governor's supplemental appropriations bill please consider the following amendments.

Add a new section:

Sec. __ ALASKA AEROSPACE DEVELOPMENT CORPORATION (a) The sum of \$5,000,000 is appropriated from the Alaska science and technology foundation endowment earnings reserve to the Alaska Science and Technology Foundation to award as a grant to the Alaska Aerospace Development Corporation for the Kodiak launch complex under AS 37.17.090(k)(1).

(b) The sum of \$28,000,000 is appropriated from the following funding sources to the Alaska Aerospace Development Corporation revolving fund for construction of the Kodiak Launch Complex:

Federal Receipts	\$18,000,000
Alaska Science and Technology Foundation Grant	5,000,000
Corporate Receipts	5,000,000

Amend the following sections:

Sec. 1. (DEPARTMENT OF ADMINISTRATION) Reduce the leasing and facilities amount in section 1(a) to \$993,700 and the office of public advocacy amount in section 1(b) to \$247,800.

Sec. 5. (DEPARTMENT OF HEALTH AND SOCIAL SERVICES) Reduce the foster care program amount in section 5(c) to \$750,000 as a result of updated projections of funding needs.

Sec. 6. (DEPARTMENT OF LAW) Replace section 6(b) on judgments and claims with the language below to bring the requirement for all judgments and claims current as of today.

The sum of \$252,339 is appropriated to the Department of Law to pay judgments and claims against the state for the fiscal year ending June 30, 1997 from the following funding sources:

General fund	\$236,395
Public employees retirement fund	12,766
Teachers retirement system fund	3,178

Technical corrections:

Sec. 7(b) (*which was proposed in my letter of March 5*) The sum of \$17,200 is appropriated from general fund program receipts to the disaster relief fund (AS 26.23.300) to allow for the receipt of flood insurance premiums from Southcentral flood victims and subsequent payment of those premiums to the [FEDERAL EMERGENCY MANAGEMENT AGENCY UNDER THE TERMS OF A]national flood insurance pilot program authorized specifically for victims of the Southcentral flood.

Sec. 8 (MISCELLANEOUS CLAIMS) Amend the Department of Corrections amount:
 Corrections [8,330] 9,275

Sec. 13. (DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES) Insert the word "fund" after "Alaska marine highway system" to be consistent with the existing appropriation.

Sec. 16. Amend the references to CAPITAL PROJECTS to include subsections (a) and (b) of the new Alaska Aerospace Development Corporation section described above.

Sec. 18. (RETROACTIVE EFFECTIVE DATE) Delete reference to Sec. 6(a) and insert a reference to subsection (a) of the new Alaska Aerospace Development Corporation section described above.

Without this change, the ASTF board of directors would have to take action after the effective date of the supplemental to re-approve the \$5,000,000 grant to AADC for the Kodiak launch facility which was conditioned on AADC securing the federal receipts noted in subsection (b).

Revised Programs (RPLs)

Several of the revised programs (RPLs) which we submitted for the Legislative Budget and Audit Committee's February 27 meeting were not voted on at that time. Some of these have significant timing problems — in fact, timing is the reason why the RPL process has been used for years instead of waiting for supplemental bills which often do not pass until late in the session. For instance, we have received more than \$5 million of federal funds which the Department of Education should be allowed to pass through to school districts. Federal receipt authority for Fish and Game will enable them to begin preparing now for some marine mammal and other projects scheduled to begin this spring.

As a consequence of the recent LB&A meeting, it is not clear what criteria the committee will be using to decide whether or not to consider RPLs, especially during the session. I am concerned about the risk of

having worthwhile projects delayed or not funded while the Finance and LB&A committees work out a process for deciding whether federal and program receipts changes should be handled as a supplemental request or an RPL.

The following sections translate the still-pending RPLs into supplemental appropriations. However, if the supplemental bill is not going to be sent to the governor before the end of the month, I would strongly urge that these items be taken up in a March LB&A meeting rather than hold up the projects.

RPL 05-7-0626 Sec. __. The sum of \$3,750,000 is appropriated from federal receipts to the Department of Education, division of teaching and learning support for Title I and Migrant Education programs for the fiscal year ending June 30, 1997.

RPL 05-7-0680 Sec. __. The sum of \$600,000 is appropriated from federal receipts to the Department of Education, division of vocational rehabilitation, for costs of client services programs for the fiscal year ending June 30, 1997.

RPL 05-7-0681 Sec. __. The sum of \$150,000 is appropriated from federal receipts to the Department of Education, division of vocational rehabilitation, for vocational rehabilitation administration costs for the fiscal year ending June 30, 1997.

RPL 05-7-0700 Sec. __. The sum of \$1,080,000 is appropriated from federal receipts to the Department of Education, division of teaching and learning support for the school to work programs for the fiscal year ending June 30, 1997.

RPL 05-7-0738 Sec. __. The sum of \$30,000 is appropriated from general fund program receipts to the Department of Education, division of libraries, archives, and museums programs for computer and software upgrades for the fiscal year ending June 30, 1997.

RPL 05-7-0748 Sec. __. The sum of \$22,000 is appropriated from general fund program receipts to the Department of Education, Mt. Edgecumbe Boarding School for summer programs for the fiscal year ending June 30, 1997.

RPL 06-7-0144 Sec. __. The sum of \$200,000 is appropriated from general fund program receipts to the Department of Health and Social Services, Alaska Psychiatric Institute for program costs for the fiscal year ending June 30, 1997.

RPL 06-7-0196 Sec. __. The sum of \$99,300 is appropriated from federal receipts to the Department of Health and Social Services, division of public health for operating costs for the fiscal year ending June 30, 1997.

RPL 08-7-0163 Sec. __. The sum of \$4,300 is appropriated from general fund designated program receipts to the Department of Commerce and Economic Development, division of measurement standards

RPL 08-7-0163 Sec. __. The sum of \$4,300 is appropriated from general fund designated program receipts to the Department of Commerce and Economic Development, division of measurement standards for travel costs related to activities of the National Conference of Weights and Measures for the fiscal year ending June 30, 1997.

RPL 11-7-0234 Sec. __. The sum of \$430,000 is appropriated from federal receipts to the Department of Fish and Game, division of wildlife conservation to provide services required by federal grant awards for the fiscal year ending June 30, 1997.

RPL 12-7-0124 Sec. __. The sum of \$205,494 is appropriated from federal receipts to the Department of Public Safety, council on domestic violence and sexual assault, for costs related to implementation of the Domestic Violence Prevention and Victim Protection Act of 1996 for the fiscal year ending June 30, 1997.

RPL 21-7-0165 Sec. __. The sum of \$50,000 is appropriated from federal receipts to the Department of Community and Regional Affairs, division of community and rural development for costs of the Head Start program for the fiscal year ending June 30, 1997.

Back-up materials for these amendments are attached. If you have any questions, please call me or our chief budget analyst, Dan Spencer.

Sincerely,

Annalee McConnell

Subject: Supplemental
Amendments

We are reducing the amounts for two FY97 supplemental requests. The two requests are for the Office of Public Advocacy (OPA) and the Leasing and Facilities program.

OPA staff recalculated their FY97 projections and determined that the supplemental need for FY97 is reduced by \$69.7 from what was earlier projected. The revised supplemental number for OPA is \$247.8

In the case of the Leasing and Facilities reduction, the original supplemental request included funding for tenant improvement costs for a Department of Corrections Lease in Kenai. Original cost projections for the project totaled \$25.0. DOT/PF estimates for project cost now total \$90.0. We have determined that the project does not make sense in the \$90.0 range and have canceled plans to proceed. The revised supplemental number for Leases is \$993,700.

If you have any questions or need additional information, please call.

MEMORANDUM

State of Alaska

OFFICE OF
MANAGEMENT & BUDGET

TO: Annalee McConnell, Director
Office of Management and Budget

DATE: 03/06/97

MAR 06 1997

TELEPHONE NO: 465-2505

FROM: Guy Bell, Director 
Division of Administrative Services
Department of Commerce and
Economic Development

SUBJECT: FY 97 Supplemental:
Kodiak Launch Complex

The Department of Commerce and Economic Development requests inclusion of a \$28 million capital appropriation for the Kodiak Launch Complex (KLC) in the 1997 supplemental appropriations bill. In addition, we request the deletion of the proposed capital appropriation for the Kodiak Launch Complex from SB 107/HB 172, the Governor's FY 98 capital appropriations bill. This request is being made because expenditure authority is required by the Alaska Aerospace Development Corporation (AADC) this fiscal year to keep the project on schedule.

The \$28 million capital request represents \$5 million from the Alaska Science and Technology Foundation authorized in SLA 1995, Chapter 76, \$18 million in federal funds, and an amount not to exceed \$5 million in corporate receipts. The corporate receipts will be comprised of any funds specifically received for the purpose of developing the KLC as well as any interest earnings on the funds, for a total authorization of \$28 million. These funds will be deposited into the AADC revolving fund. Pursuant to AS 14.40.841, the AADC revolving fund was established to consist of "appropriations made to the fund by the legislature, and rents, fees, or other money or assets transferred to the revolving fund by the corporation." Further, AADC received an Attorney General's Opinion in March of 1995 which concluded that interest earnings on the revolving fund may be retained by AADC and expended subject to legislative appropriation.

Under AS 37.17.090(k), the Alaska Science and Technology Foundation (ASTF) may, subject to appropriation, make a grant of up to \$5,000,000 to the AADC for the Kodiak Launch Complex. The Attorney General's Office has informed us that this statutory provision requires specific legislative appropriation authority before the grant can be made. We request the following language be added to the supplemental appropriations bill to give ASTF specific grant authority for this project, and to give AADC the authority to expend these receipts, federal receipts and corporate receipts on the Kodiak Launch Complex.

Sec. ____ (a). The sum of \$5,000,000 is appropriated from the Alaska science and technology foundation endowment earnings reserve to the Alaska Science and Technology Foundation to award as a grant to the Alaska Aerospace Development Corporation for the Kodiak launch complex under AS 37.17.090(k)(1).

(b). The sum of \$28,000,000 is appropriated from the following funding sources to the Alaska Aerospace Development Corporation revolving fund for the construction of the Kodiak Launch Complex:

Federal Receipts	\$18,000,000
Alaska Science and Technology Foundation Grant	5,000,000
Corporate Receipts	5,000,000

In addition, we request that the current section 18 of the supplemental bill be amended as follows:

Sec. 18 Sections 6 (a) and ____ (a) of this Act are retroactive to July 1, 1996.*

* The Department of Law recommends a retroactive date to July 1, 1996, for the appropriation to ASTF under (a), so that the ASTF board of directors' recent action approving the \$5,000,000 grant to AADC for the Kodiak launch facility (which was conditioned on AADC securing the federal receipts noted in subsection (b)) will not have to be re-approved after the supplemental appropriations bill takes effect.

Approval of this supplemental appropriation is necessary to ensure that construction of the project stays on schedule. A complete description of this capital project is included in the attached capital project summary.

BRIEF PROJECT SUMMARY:
 The Alaska Aerospace Development Corporation (AADC) is a public corporation created by the Alaska State Legislature to develop aerospace related economic and technical opportunities within the State of Alaska. AADC is working with private corporations, government agencies, and universities to develop a comprehensive low earth orbit launch complex. The Kodiak Launch Complex (KLC) will be located on Narrow Cape, Kodiak Island, on 3100 acres of state-owned land and serve as a dual-use launch facility able to capture customers from both the private and government sectors. AADC's pursuit of this project has brought international recognition to Alaska as a premier location for polar, low-earth orbit satellite launches.

DETAIL PROJECT DESCRIPTION AND JUSTIFICATION:
Summary:
 The capital project funds requested are for \$28 million to complete the Kodiak Launch Complex (KLC) at Narrow Cape, Kodiak Island. The KLC will be the first commercial spaceport in the US and will provide facilities needed to support a rocket launch complex capable of launching up to 8,000 pound payloads (satellites) into low earth polar orbit. The facilities consist of a Launch Control and Management Center, Payload Processing Facility, Integration and Processing Facility, an Integrated Spacecraft Assembly and Transfer Facility, and a Launch Pad.

Development of the Project:
 The Alaska Aerospace Development Corporation (AADC) has completed the design of the KLC and has obtained all state and federal permits necessary to begin construction. Additionally, the project has met requirements under the National Environmental Protection Act by receiving a Finding Of No Significant Impact for the Environmental Assessment of the KLC. (continued)

Does capital project:	Yes	No
1) Meet state constitutional or statutory responsibility?	x	
2) Address life, health or safety issue?		x
3) Reduce state operating costs?		x
4) Leverage private sector or local funds?	x	
5) Create ongoing private sector jobs?	x	
6) Facilitate transfer of responsibility to local or private sector?	x

FY 98 - FY03

PROJECT TITLE: Kodiak Launch Complex

DETAIL PROJECT DESCRIPTION AND JUSTIFICATION:

Development of the Project: (continued)

With the completion of the Environmental Assessment, AADC has initiated the site operators licensing process for the KLC with the Office of the Associate Administrator for Commercial Space Transportation. Finally, qualified contractors have been identified through a Solicitation for Statements of Qualifications for Phase 1 and Phase 2 construction of the KLC.

Financing and Contributions:

The project has leveraged federal and private funds to finance nearly all early development efforts for the KLC. AADC secured \$1.85 million in federal grant funds and nearly \$360,000 in private industry matching funds, cash contributions and contracts. AADC has also received direct in-kind technical assistance and business advice from the aerospace industry. AADC was recently awarded a spaceport grant from NASA in the amount of \$831,250 for the primary purpose of developing a mission control system for the KLC. Additionally, the Universities Space Research Association has notified AADC of funding in the amount of \$5 million for the construction of the Payload Processing Facility (reference RPL 09-7-0091).

The \$28 million capital request represents \$5 million from the Alaska Science and Technology Foundation authorized in SLA 1995, Chapter 76, \$18 million in federal funds, and an amount not to exceed \$5 million in corporate receipts. The corporate receipts will be comprised of any funds specifically received for the purpose of developing the KLC as well as any interest earnings on the funds, for a total authorization of \$28 million. These funds will be deposited into the AADC revolving fund. Pursuant to AS 14.40.841, the AADC revolving fund was established to consist of "appropriations made to the fund by the legislature, and rents, fees, or other money or assets transferred to the revolving fund by the corporation." Further, AADC received an Attorney General's Opinion in March of 1995 which concluded that interest earnings on the revolving fund may be retained by AADC and expended subject to legislative appropriation.

Economic Impacts:

The socioeconomic impacts of the construction and operation of the KLC extend well beyond the usage fees paid by the rocket launch companies. The KLC will make significant contributions to the Kodiak economy and maintain a year-round demand for housing, food, recreation and other services. Operation of the KLC will also establish a consistent demand for industrial and technical services in the city and throughout the state. The KLC will also provide substantial income to Alaska-based airlines, shipping and transportation companies. A typical KLC rocket launch campaign will require the regional and local business support for up to two hundred technicians and scientists and their associated industrial needs for approximately sixty days. In addition to launch fees, annual cash infusion may result from the following: tug and barge shipping of rocket motors and equipment vans; in-state personal air transportation (does not include travel to Alaska); lodging, food and other personal services; on-island transportation; i.e., rocket motor and van movement, rental cars, and contract bus services; local telecommunications services; local industrial services; i.e., electrical, mechanic, electronic, plumbing, heating, etc.; local purchase of industrial commodities; and local service contracts for security, maintenance, solid waste disposal, etc.

The Institute of Social and Economic Research of the University of Alaska Anchorage completed an Economic Impact Study of the Kodiak Launch Complex regarding construction and operations. Economic impacts of the construction phase are estimated to total \$10.8 million for the state. The

PROJECT TITLE: Kodiak Launch Complex

DETAIL PROJECT DESCRIPTION AND JUSTIFICATION:

total effect on the state for operation of the facility based on three, six and nine launches per year is estimated at \$4.3, \$9.2 and \$12.9 million, respectively.

Educational Benefit:

The educational benefit of the Kodiak Launch Complex is incalculable. Having access to some of the brightest engineers and scientists in the world to address elementary and high school students, to participate in business seminars, and to act as visiting university professors will be a significant bonus. Also, with the construction of a successful spaceport, Alaska will be recognized as a part of the high technology community and will be better positioned for further technology based industry development.

Commitments:

AADC has received, in writing, a commitment from the Atmospheric Interceptor Technology program for two launches from the KLC. Furthermore, a Flight Test Working Group (FTWG), which is formed after a program is funded and firm launches are being planned, has been developed. AADC is a Charter member of the FTWG and the KLC is listed as the launch site for two launches, the first of which is scheduled for July 1998. The US Congress funded the JAV/SAT satellite to be launched from the KLC and is scheduled for late 1998. In the recently passed FY97 Department of Defense appropriations, there are an additional four launches funded. The US Air Force has been holding the issuance of a Request For Proposal until AADC begins construction.

Judgment Award Questionnaire

The following information needs to be provided on all judgment awards made against the state. This information is used to respond to legislative questions concerning the annual supplemental request. (Use additional pages if necessary)

Case Name: Jensen, et al. v. SOA, Department of Administration

Case No.: Supreme Court No. S-6220

1. Describe the circumstances or events resulting in this case and ultimately this judgment against the state.

The Alaska Supreme Court overruled the lower court's order granting the State's summary judgment, and remanded the case for trial. The Supreme Court remanded the case because there were material issues of fact on the issue of misrepresentation. Jensen claims that the state misrepresented facts to induce Jensen to settle a lease claim against the Department of Administration.

2. Describe issues of state policy or law involved in this case, if they are relevant to and resulted in substantial effort and expense for the department to bring or defend this case.

N/A

3. Did the state prevail on any issues, if so, describe those.

Yes, the court denied the Jensen's cross-motion for summary judgment.

4. Did we challenge plaintiffs' request for costs and fees or in other ways seek to reduce the costs to the state: If so, describe to what extent we were successful.

No. We did not challenge the request for costs and fees because the request was reasonable.

5. Any recommendations concerning cases of this type in the future?

State officials should be very careful in what they say, so as not to make any sort of misrepresentation which could be viewed as inducing a party to enter into a settlement agreement.

MEMORANDUM

DATE: March 6, 1997

TO: Annalee McConnell
Division of Budget Review
Office of Management & Budget

FROM: Janet Clarke *J. Clarke*
Director of Administrative Services

SUBJECT: Revised Supplemental for Foster Care

The Division of Family and Youth Services within the Department of Health and Social Services has done an update using February data on the Foster Care budget. The estimate now shows that the Foster Care supplemental can be reduced by \$250,000 from \$1,000,000 to \$750,000. The reduction is primarily due to a reduction in estimates of utilization to foster care parents and a better estimate of funds needed to serve high cost children, currently housed in Charter North.

If you need additional information concerning this change, please let me know.

OFFICE OF
MANAGEMENT & BUDGET

MAR 06 1997

The Department of Fish and Game, Commercial Fisheries Management and Development Division requests approval to seek legislative reappropriation of \$115.0 from the unexpended balance of its FY96 operating budget (Chapter 94, SLA 1995, page 31, line 20).

The division has been involved in a protracted legal case that has required ongoing support by the Department of Law (DOL). This funding was previously encumbered by the division (EN 1163552) for pending litigation costs and if this request is approved, would be used for an FY97 RSA with DOL for paralegal and other direct costs of the litigation such as travel and expert witnesses. Funding for the staff attorney representing the department is included in the general fund budget of the DOL.

These costs were not anticipated for FY97 and therefore not included in our budget request. Thank you for your consideration of this request. If you have any questions or require additional information, please contact me.

Department of Education

RPL #05-7-0626

**Special and Supplemental Services
\$3,750,000 Federal Funds**

Appropriation Authority: Ch 117 SLA 96, page 21, line 29
Statutory Authority: AS 14.07.030

This request, deferred at the January 13, 1997 committee meeting, has been resubmitted for consideration. The amount is amended upward due to anticipated increase in carryforward from the earlier request of \$3,000,000.

The Division of Teaching and Learning Support requests authority to receive and expend \$3,750,000 new and carryforward funding for the Title I and Migrant Education programs. Funds are granted to school districts to assist in the implementation of supplemental or school-wide reforms to help migratory and/or disadvantaged children meet established educational standards.

State authorization for federal Title I and Migrant Education funding spans a federally established 27 month grant period. Changes/adjustments at the individual district level, combined with fluctuations in the affected student populations make projections for available carryforward less difficult from year to year.

No state matching funds are required. No new positions will be created or funded with these funds, as one hundred percent of these funds will be passed through to school districts and other educational service providers.

The agency has included an incremental \$3,000,000 federal funds request for Title I/Migrant Education grants program in FY98. Failure to approve this request at this time may restrict the agency's federal grant authority for Title I/Migratory Education programs for the remainder of this fiscal year.

Legislative Fiscal Analyst Recommendation: Approval is recommended in this particular instance where the department is serving simply as a funding conduit for federal funds to school districts and other eligible service providers.

Department of Education

RPL # 05-7-0680

Division of Vocational Rehabilitation/Client Services
\$600,000 Federal Funds

Appropriation Authority: Ch. 117 SLA 96, page 23, line 8
Statutory Authority: 14.07.030

The Division of Vocational Rehabilitation requests authority to receive and expend \$600,000 in new and carryforward federal funds to address the needs of an estimated additional 50 unserved or under-served customers in FY97. Increased federal authorization requested in RPL #05-7-0681 supports the division's administration and oversight of the direct services provided under this component. Direct services to be provided with these new funds include:

- working with school districts to support skill building programs for students with disabilities to enhance their options for obtaining and maintaining employment after graduation;
- increased access for vocational rehabilitation counselors to clients living in the more rural/remote areas of the state;
- increased financial support through grants to non-profit organizations to establish or enhance the ability to provide rehabilitation services to individuals with disabilities.

Funds will support increased travel (\$24,400), contractual services (\$221,000), supplies (\$11,400), equipment (\$29,500), and grants (\$313,700). No position costs will be supported, and no impact on the general fund will result from the receipt of these additional funds. The division's FY98 budget request

includes a \$600,000 federal fund increment to continue the higher funding level into FY98.

Legislative Fiscal Analyst's Recommendation: Defer action on this request until later in the fiscal year when a more accurate assessment of required federal fund authorization will be available. Actual federal fund expenditures for the FY95 and FY96 client services program were substantially below the amount of federal funds authorized for those same years (\$1,306.5 below authorized in FY95, \$648.6 below authorized in FY96).

Department of Education

RPL #05-7-0681

**Division of Vocational Rehabilitation/Vocational Rehabilitation Administration
\$150,000 in Federal Funds**

*Appropriation Authority: Ch. 117 SLA 96, page 23, line 10
Statutory Authority: AS 14.07.030*

The Division of Vocational Rehabilitation requests authority to receive and expend \$150,000 in new and carryforward federal funds. Increased federal authorization requested in RPL#05-7-0680 supports direct client services. The federal fund increase requested for this component supports the division's administration and oversight of those direct services provided under client services.

Funds would support increased travel (\$41,400), contractual services (\$95,000), supplies (\$5,200), and equipment (\$8,400). No position costs will be supported, and no impact on the general fund will result from the receipt of these additional funds. The division's FY98 budget request includes a \$231,200 federal fund increment to continue this higher funding level into FY98.

Legislative Fiscal Analyst's recommendation: Defer action on this request until later in the fiscal year when a more accurate assessment of required federal fund authorization will be available. Actual federal fund expenditures for FY95 and FY96 vocational rehabilitation administration were sufficiently below the amounts of federal funds authorized for those same years to warrant deferral (only 79% of FY95 authorized, 77% of FY96 authorized).

Department of Education

RPL #05-7-0700

**School To Work/Teaching and Learning Support
\$1,080,000 Federal Funds**

Appropriation Authority: Ch. 117 SLA 96 page 22, line 8
Statutory Authority: 14.07.030

The Division of Teaching and Learning Support requests authority to receive and expend \$1,080,000 federal carryforward funds for the School To Work program. The purpose of this program is to link school based and work based learning at the local level; provide connecting activities between education, employers, training programs, secondary and postsecondary education; increase the range of career options for all students; and continue collaborative efforts within communities and local school districts to create a system that provides a planned, well orchestrated transition from school to employment. Funds will be allocated as follows:

Contractual	\$ 80,000.0
Grants	<u>1,000,000.0</u>
Total:	\$1,080,000.0

At its November 1995 meeting, the Legislative Budget and Audit Committee approved RPL# 05-6-0692, allowing the department to receive and expend \$1,300,000 in new federal funds from the U.S. Department of Labor under the School-to-Work Opportunities State Implementation Grant Program. At the time, the department anticipated passing through between 65% and 70% (approximately \$910,000) of those new grant funds to local communities through a competitive RFP process.

The balance (\$390,000) was to be spent training teachers, developing guidelines for integrating job training needs into academic programs and courses, and training local community representatives how to become active in local projects in their respective communities. General technical and administrative delays prevented the department from issuing the grant awards until May 1996. In addition, not all of the contracts were completed as anticipated in FY96. Consequently this significant carryforward balance exists for FY97.

Funds will be used to complete the services outlined in the state's original Statewide School To Work Opportunities System Plan. No new services will be provided. An increment for \$1,005,000 increased federal funds is included in the division's FY98 budget request, Quality Schools component, to continue the funding into FY98.

Legislative Fiscal Analyst's recommendation: Approval is recommended subject to the in-session opportunity for the finance committees to consider the request in the regular budget process.

Department of Education

RPL #05-7-0738

**Museum Operations/Division of Libraries, Archives and Museums
\$30,000 General Fund Program Receipts**

Appropriation Authority: Ch. 117 SLA 96, page 23, line 22

Statutory Authority: AS 14.07.030

The Division of Libraries, Archives and Museums requests authority to receive and expend \$30,000 general fund program receipts to complete computer upgrades at the State Museum and the Sheldon Jackson Museum. Funds are available due to increases in general admissions and annual pass fees effective April 19, 1995 (4 AAC 58.010). Funds would be expended for the following purposes:

- purchase new computer hardware and software to electronically link both institutions;
- provide access to the Statewide Library Electronic Doorway (SLED);
- upgrade the museums' collections database to begin providing the general public with on-line access to the 25,000-plus artifacts in the state's collections.

The legislature approved a general fund program receipt increase in the FY 96 supplemental appropriation of \$57.0 for museum operations (Ch. 123 SLA 96, section 49), and a general fund program receipt increase of \$50.0 in the division's FY97 operating budget request. The museums anticipate collecting \$80.0 program receipts in FY97. No intent language was formally adopted by the legislature directing the department to request authority to receive and expend

additional authority from this committee should the program receipts actually collected by the department exceed the amount authorized.

The department has submitted an FY98 budget amendment request to the Office of Management and Budget for the anticipated \$30.0 increase general fund program receipts in FY98.

Legislative Fiscal Analyst's recommendation: Approval is recommended but subject to the in-session opportunity for the finance committees to consider the request in the regular budget process, which may be particularly appropriate due to the FY98 budget implications.

Department of Education

RPL # 05-7-0748

**Mt. Edgecumbe Boarding School
\$22,000 General Fund Program Receipts**

Appropriation Authority: Ch 117 SLA 96, page 23, line 6

Statutory Authority: AS 14.07.030

This request, deferred at the January 13, 1997 committee meeting, has been resubmitted for consideration. \$4,000 of the original \$26,000 request was approved at that time.

The Mount Edgecumbe Boarding School requests approval to receive and expend \$22,000 in general fund program receipts. Funds would be provided by two sources:

- Alaska Arts Southeast would contribute \$18,000 to host a summer fine arts program for approximately 80 students from throughout southeast Alaska during June 1997. Funds will be used to purchase paper, sculpting materials, drama sets, and other basic program supplies in addition to costs associated with the use of the Mt. Edgecumbe facility.

Alaska Arts Southeast has provided program receipts to the department for its summer arts program at Mt. Edgecumbe for the past two years (RPL# 05-6-0801 in FY96), but those funds have not been included in the annual operating budget request.

- Sitka Skippers would contribute \$4,000 to host a summer jump rope camp for approximately 125 students. Funds would cover costs associated with the use of the Mt. Edgecumbe facility.

Arts Southeast and Sitka Skippers will be responsible for all personnel related costs. Receipt of these additional program receipts will have no impact on the general fund. No matching funds are required.

These receipts were not included in the agency's FY97 budget as their availability was not known at the time the FY97 budget was prepared.

Legislative Fiscal Analyst Recommendation: Approval is recommended. The request is fully supported by the users of the facility, and does not affect the school's academic program.

Department of Health and Social Services

RPL # 06 -7- 0144

**Alaska Psychiatric Institute Component
\$200,000 in General Fund Program Receipts**

Appropriation Authority: Chapter 117, SLA 96, pg 34. Ln 38

Statutory Authority: AS 44.29.022

History

The Department of Health and Social Services presented this RPL request at the November 7, 1996, and the January 13, 1997. Legislative Budget and Audit Committee meetings. The Committee deferred the request based on the Legislative Finance Division's recommendation to allow the opportunity for Finance Committee review.

Request

The Department of Health and Social services requests \$200,000 in general fund program receipts for the Alaska Psychiatric Institute. The source of these funds are billings from third-party payors. The general fund program receipts are available to replace Medicaid Disproportionate Share (DSH) funds because receipts from third party payors are expected to be in excess of what was budgeted. Payments from third party payors were expected to decline when API downsized in FY95. This has not been the case. In FY95, general fund program receipts were \$1.7 million, collections in FY96 exceeded \$2.0 million. FY97 authorized general fund program receipts were \$1,322,600.

The Department of Health and Social Services estimates that there is a shortfall of \$962,200 because of reduced Medicaid DSH funding. The department has identified \$705,600 in alternative funding sources. Of this amount \$180,600 is one-time DSH indirect costs, \$325,000 is from CIP receipts from two capital projects which are funding 3 maintenance positions and 2 planner positions at API. The remaining \$200,000 is general fund program receipts from third party payors.

At the Alaska Mental Health Trust Authority's August 13th board meeting the department requested \$256,600 of Mental Health Trust Authority Authorized Receipts which is the difference between the projected shortfall of \$962,200 and funding sources of \$705,600 identified. The Alaska Mental Health Trust Authority denied this request.

Department of Health and Social Services

The department characterizes this request as one-time only because of budgetary changes requested for FY98. Included in the department's FY98 budget request is a transfer of the general fund match to the Division of Medical Assistance. DMA would manage the general fund match as well as the federal receipts. Other mental health expenditures may be used as match rather than only expenditures in the API component. This change may increase Medicaid Disproportional Share federal receipts in FY98.

API reports that Admission and Discharge rates are rising. API has consistently averaged more than 90 admissions per month at the 79-bed facility. The department presents this request as managing their budget within existing total authorization.

The reduction in DSH funds was unanticipated. The general fund program receipts would be deposited in the general fund as unrestricted revenue if this request is not approved.

The department's most current projects continue to show a shortfall of \$320,800. They plan to absorb \$120,800 of this by transferring general fund mental health funds from the Harborview Development component.

Legislative Fiscal Analyst's recommendation: Continue to defer until the finance subcommittees have had a chance to review this FY97 RPL along with the FY98 budget request for API.

Addendum to recommendation: Current budget projections made by this office indicate that not all of the additional funds may be necessary, in which case, a recommendation for a reduced approval amount may be offered. The difference in the projections is for personal services costs. Because of the high daily census, API's overtime costs have been increasing and must be taken into consideration as budget projections are updated.

Department of Health and Social Services

RPL #06-7-0196

Division of Public Health

\$99,300 in Federal Receipts

Appropriation Authority: Chapter 117, SLA 96, pg 35, ln 17

Statutory Authority: AS 44.29.022

The Department of Health and Social Services, Division of Public Health requests authority to receive and expend \$99,300 in federal funds. The request was originally presented to the January 13, 1997, Legislative Budget and Audit Committee meeting and deferred for response to committee member questions: (1) What is the scope of the radon problem? (2) Where the problem areas are located? and (3) How can the problem best be addressed.

Indoor Radon Monitoring Grant - \$78,000

A one-time federal grant has been awarded to the Radiological Health unit from the US Environmental Protection Agency for an Indoor Radon Monitoring program. The Division of Public Health would pass \$71,100 of the grant to the University of Alaska. The University would develop and present radon education/mitigation workshops with the grant money. The balance would remain in the Radiological Health Unit to cover administrative costs. The required match for the grant can be met with existing general fund authority.

Late in 1986, high radon levels were discovered in the community of Fairbanks. In 1990, a study was published about how much radon was in homes. Radon is radioactive and is associated with lung cancer. The study was conducted by the US Environmental Protection Agency (EPA) and the Alaska Department of Natural Resources Division of Geological and

Geophysical Survey. The results of the study showed that Interior Alaska has the highest proportion of homes with elevated radon concentration as well as the individual homes with the highest concentration. Southcentral Alaska also contains communities with homes with elevated radon concentrations. However, the maximum radon concentrations detected in Southcentral Alaska are not as high as those measured in the Fairbanks area. Survey data also indicated that Anchorage, Southeastern Alaska and Northern and Western Alaska have very few homes with elevated radon concentrations. In summary, Fairbanks and the interior region have the highest radon concentrations in the state.

Since the late 1980's, the University of Alaska, Fairbanks has been the recipient of the US EPA's state Indoor Radon grant. The Energy and Building Specialist for the Cooperative Extension Service has been the staff on this project. He has coordinated a statewide information effort as well as providing community outreach for radon mitigation training.

Department of Health and Social Services

Tuberculosis Control and Elimination - \$21,300

This would be funded with carryforward from a previous federal grant of \$75,000 from the US Centers for Disease Control for Tuberculosis (TB) Control and Elimination in Alaska. There is sufficient federal receipt authority in state FY97 to accommodate all but \$21,300. The purpose of the TB grant is to assist State and local health agencies in the prevention, control and eventually the elimination of TB. The funding authority will be used to purchase additional TB specific supplies and equipment.

Legislative Fiscal Analyst recommendation: Approval is recommended based upon the one-time nature of the request and that future budgets will not be affected. However, the request is not time-critical and if the committee's questions remain unanswered, the request can be deferred to a later meeting.

Department of Commerce & Economic Development

RPL #08-7-0163

Division of Measurement Standards
\$4,300 General Fund/Program Receipts

Appropriation Authority: Ch 117 SLA96, page 14, line 22

Statutory Authority: AS 44.33.010 and 44.33.020

The Division of Measurement Standards requests authority to receive and expend \$4,300 in general fund/designated program receipts in FY97. The Chief of the Weights and Measures Section was recently elected Chairman of the National Conference of Weights and Measures (NCWM). NCWM will reimburse the division for all travel costs for the individual to attend meetings.

The \$4,300 represents about 3.8 % of the FY97 travel budget and about .3% of the general fund program receipt authority.

In answer to the question of why this request is not in the current budget the Division gives this explanation:

“The appointment of the Weight and Measure Chief to the NCWM Executive Committee was recent. A budget amendment will be submitted to include funds in the FY98 budget request.”

A review of the FY97 budget shows that \$3,000 was budgeted for Convention and Meeting Travel and specifically mentions the National Conference of Weights and Measures.

Legislative Fiscal Analyst Recommendation: The committee consider either of two approaches to this request:

- 1) Deny the request with the understanding that the agency would attempt to fit this travel into its existing receipt authority;
- 2) Approve the request and provide additional authority specific to this activity.

Denial is recommended with the understanding that conference attendance be provided within the agency's existing program receipt authority if it can be accommodated without compromising other budget needs.

Department of Fish and Game

RPL #11-7-0234

**Wildlife Conservation/Special Projects
\$430,000 Federal Funds**

Appropriation Authority: Ch. 117 SLA 96, page 14, line 22

Statutory Authority: AS 16.05.050(13)

The Division of Wildlife Conservation requests authority to receive and expend \$430,000 in federal funds in FY97 - \$250,000 carryforward funds, and \$180,000 new federal funds. Carryforward funding is available due to inclement weather conditions in late winter/early spring for planned game surveys (\$150,000), and delays associated with the National Oceanographic and Atmospheric Administration/National Marine Fisheries Service (NOAA/NMFS) multi-year harbor seal project (\$100,000). Funds will support the following projects in FY97:

- NOAA/NMFS Sea Lion Recovery: \$250,000 of a \$750,000 federal grant will be expended in FY97 to continue research into understanding the dramatic decline (and subsequent listing as a threatened species under the U.S. Endangered Species Act and a depleted species under the Marine Mammal Protection Act of 1990) of the steller sea lion. The steller sea lion recovery plan includes projects such as the identification and designation of critical habitat; continued population surveys; determination of food requirements; determination of feeding areas/strategies; mapping haulouts and rookeries; and continued deployment of satellite transmitters on pups and juveniles to attempt to learn more about the nutritional status of the steller sea lion.
- U.S. Fish & Wildlife Service: \$10,000 of a \$20,000 federal grant will be expended in FY97 to estimate the density of wolves using scientific sampling techniques and aerial surveys in GMU 21E (along the Yukon River).
- U.S. Fish & Wildlife Service: \$10,000 of a \$20,000 federal grant will be expended in FY97 to conduct hunter education clinics in the use of steel shot for waterfowl hunting. The clinics would be offered in mid-April through early May.
- U.S. Fish & Wildlife Service: \$44,000 of a \$70,000 federal grant will be expended in FY97 to continue the "goshawk habitat and population ecology on the Tongass National Forest" project.
- U.S. Fish & Wildlife Service: \$6,000 to support the Fourth International Moose Symposium to be held May 17-23, sponsored by the Alaska Department of Fish and Game. The symposium will provide a forum for the department, U.S. Fish and Wildlife Service, other resource agencies, Native organizations and communities, and other key people involved in moose management/research to discuss future management strategies going into the 21 century.

- U.S. Army - \$100,000 to determine a sustainable harvest level for a heavily hunted population of black bear in the Yukon Maneuver Area of Ft. Wainwright (GMU 20B), and to develop management strategies for this population. Funds will cover the costs of radio collars and collaring equipment, staff salaries, and air charter contracts.

No new positions will be created as a result of these funds, only additional staff months for existing seasonal positions. Their receipt will not obligate the department to spend any general funds.

It has been the practice of the division to allocate budgeted federal funds on a "first-in-first-out" basis. At its June 24, 1996 meeting, this committee reviewed a similar request from the Division of Wildlife Conservation for additional federal funding for carryforward and new projects. At that time Legislative Finance Division recommended the division "...should reserve a sufficient amount of federal authority to accommodate multi-year grants continuing into the new state fiscal year." The division's FY98 budget for wildlife conservation/special projects includes a request to increase its federal fund authorization to accommodate project continuation into next fiscal year.

Legislative Fiscal Analyst's recommendation: Approval is recommended (subject to the in-session opportunity for the finance committees to consider the request in the regular budget process) due to the particular nature of these funds where the provider is purchasing a specific service from the agency.

Department of Public Safety

RPL # 12-7- 0124

**Council on Domestic Violence and Sexual Assault
\$205,493.77 in Federal Funds**

*Appropriation Authority: Ch 117 SLA 96, Sec. 30, pg. 44
Statutory Authority: AS 18.66*

The Council on Domestic Violence and Sexual Assault is requesting authority to receive and expend an additional \$205,494 in federal funds during FY97 for two new one-time-only federal grants.

The Council has received notice of award of two 18 month grants totaling \$1,096,870, which would span state fiscal years 1997 and 1998, with completion dates of June 1998. This request is for federal authority needed for the balance of FY97 only. FY98 authority of \$846,879 will be included in the Governor's budget amendments.

The two federal grants would assist Alaska in implementing the Domestic Violence Prevention and Victim Protection Act of 1996, which stipulates several statewide policies to improve the systematic response to domestic violence crimes. Funds would be used as follows:

Rural Domestic Violence and Child Victimization Grant:

\$ 346,870 - (a) rewrite Alaska's Interdepartmental Child Sexual Abuse Agreement to include all forms of child abuse; (b) develop policies and procedures for DFYS to incorporate screening for and case management of domestic violence in child abuse and neglect; (c) provide 11 regional trainings to law

enforcement, child protection, village personnel and victim advocates, on domestic violence and its impact on children.

Grants to Encourage Mandatory Arrest - \$ 750,000 - (a) develop and implement a statewide registry for domestic violence protective orders; (b) expand existing law enforcement training on domestic violence to include VPSOs; (c) improve investigative and prosecution techniques by providing law enforcement units with Domestic Violence Kits; (d) improve victim outreach and support by developing a volunteer advocacy program through prosecution offices; (e) improve offender accountability by initiating a pilot misdemeanor probation project in the Mat-Su valley.

Additional expenditure authority is needed as follows:

FY 97 expected grant expenditures

Rural Domestic Violence	\$ 100,000
Mandatory Arrests	150,000
Available FY 97 authorization	<u>(44,506)</u>

FY97 additional authority needed: \$ 205,494

Department of Public Safety

FY 97 grant funds would be expended as follows:

- *Rural Domestic Violence Prevention and Child Victimization*

Travel	\$ 31,100
Contractual	44,400
Grants/Claims	<u>24,500</u>
	\$100,000

- *Mandatory Arrests*

Supplies	\$ 7,240
Grants/Claims	<u>142,760</u>
	\$150,000

Legislative Fiscal Analyst's recommendation: Approval is recommended subject to the in-session opportunity for the finance committees to consider the request in the regular budget process. The agency should also be instructed not to create an expectation for state funding after these one-time federal grants end.

Department of Community and Regional Affairs

RPL # 21-7-0165

**Head Start
\$50,000 Federal Funds**

Appropriation Authority: Ch 117 SLA 96, pag17, line 23
Statutory Authority: AS 44.47.030

This request, deferred at the January 13, 1997 committee meeting, has been resubmitted for consideration.

The Division of Community and Rural Development requests authority to receive and expend \$50,000 additional one-time federal receipts. These funds will enhance the federally funded Partners for Quality Early Care and Education project.

This project, begun in Alaska in FY93 with federal receipts approved by the Legislative Budget and Audit Committee (RPL #21-3-0160), is a collaborative five year effort involving state and federal agencies to develop career development options for child care providers and early childhood educators.

These additional funds will support increased training opportunities for early childhood providers, and ongoing efforts to establish basic standards guiding current and future early childhood training and education programs.

No new matching funds are required. No new positions will be established or funded under this grant.

Legislative Fiscal Analyst Recommendation: Approval is recommended subject to the in-session opportunity for the finance committees to consider the request in the regular budget process.

FY 98 - FY 03

WOMEN'S DORMITORY ADDITION NEW CONSTRUCTION:

When the state's public safety academy was constructed 21 years ago, no female quarters were included. At that time there were few women in law enforcement positions and there were fewer training obligations which included women. Over the last two decades much has changed. There has been an ever increasing number of female students at the academy. Not only are there more women in traditional law enforcement positions, but the range of necessary instruction has expanded to include courses which have significantly greater female populations. Courses which have higher ratios of women students include those provided for the Department of Environmental Conservation, the Department of Fish & Game, the Division of Motor Vehicles, First line Supervisors and Radio Dispatchers. The Academy has had to restrict numbers of female students in many courses. Several attempts have been made at the Academy to provide residential facilities for women. All have been less than adequate. Currently women are housed in a converted video studio which lacks privacy and security. The current women's residential area opens onto the building's principal lobby. Women's showers have been fashioned from a former copy machine room. Water pressure and ventilation are inadequate. Quarters are cramped. A proper long term solution is necessary for equitable accommodation.

The areas for the proposed addition are as follows:

1) Second Floor

Four occupant rooms	5@320 SF	1,600 SF
Shower/toilets	5@160 SF	800 SF
Circulation, etc.	30%	720 SF
Sub total		3,120 SF

2) First Floor

Gym	1@1,000 SF	1,000 SF
Toilets	2@120 SF	240 SF
Storage	1@400 SF	400 SF
Circulation, etc.	30%	492 SF
Sub total		2,132 SF

Total Addition 5,252 SF

New rooms are proposed to accommodate four occupants just as the current dorm rooms. Shower and toilet facilities will be provided for each room.

The estimated cost of the building addition is as follows:

SHOOTING RANGE

The current shooting range at the Academy has several problems. Encroaching development makes its use an increasing public liability. In addition the structure of the current backstops are in a near failure mode.

A new location and facilities are needed.

As the matching part of this Capital Project, City & Borough of Sitka is providing cash and in-kind contributions totaling approximately \$300,000 and the Department of Public Safety is providing \$60,00 from prior year CIP project (via reappropriation of FSSLA 94, Chapter 4, Section 10, Line 24) to provide a shooting range for the Sitka Academy. The cost to construct a new modern ten lane, 100 yard shooting range is estimated to be \$360,000.

ACCESSIBILITY (ADA)

The approach to accessibility will be to make the first floor totally accessible including an accessible residential suite in the area currently used as the women's residence. Based on a 1996 survey of the existing facility, the following improvements are required to make the first floor accessible.

Location	Description	Construction
		Cost
Site	Provide parking spaces	2,000
Main entry	Reconstruct for dimensional compliance	25,000
West entry	Reconstruct for dimensional compliance	10,000
First floor	Adjust drinking fountain level	1,000
Men's first floor toilets	Various adjustments for dimensional compliance	20,000
Women's first floor toilets	Various adjustments for dimensional compliance	15,000
Computer room	Remove raised floor	5,000
Tiered classrooms	Provide a wheelchair accessible space	2,000
Women's dorm	Reconstruct toilet & shower for access	30,000
First Floor	Raise outlets to 15 inches	3,500
First Floor	Revise fire alarm signals and pull stations	7,500

MEMORANDUM

STATE OF ALASKA
DEPARTMENT OF REVENUE
OFFICE OF THE COMMISSIONER

TO: Annalee McConnell, Director
Office of Management and Budget
Office of the Governor

DATE: March 11, 1997

FILE:

FROM: Wilson L. Cordon
Commissioner

TELEPHONE: (907) 465-2300

SUBJECT: Supplemental Appropriation

The Permanent Fund Dividend Division has approved more dividend applications for payment than was anticipated last September. Further, we have reduced the backlogs of pending applications more rapidly than we thought possible. For example, one year ago there were more than five thousand applications in appeals. There are now about 700. As a result, the permanent fund dividend fund is currently depleted. By this memorandum, I request that you add to the Governor's supplemental appropriations bill a request for an additional \$3.35 million dollars for the Permanent Fund Dividend Fund, to be used to pay dividends for the remainder of this fiscal year. The Earnings Reserve Account would be the appropriate funding source for the request.

Let me explain in more detail the reasons that the fund has been depleted. First, each year, when we calculate the amount for the current year's dividend, we count not only those applications that have already been qualified for payment, but estimate the number of still-pending applications that we think will be paid. We do this by assigning a percentage to each category of pending dividend applications (those in review, those in appeals, and those needing further information), thereby estimating the likely number that will be paid in each category. Last year, there were a comparatively large number (25,497) of pending applications when we calculated the dividend amount; we estimated that 12,555 of these would be paid. At the 1996 dividend amount of \$1130.67, these individuals would be paid \$14.2 million. There were also a comparatively small number of applications pending from prior years; we estimated (again, projecting the likely outcome) that we would need \$985,316 to pay these. Our estimates of the likely outcomes of these pending applications appear to have been low. As a result, the calculation for the 1996 dividend was slightly high.

One of the reasons that these estimates were low is that we have been making a number of changes that make the program less of an obstacle course, and have been endeavoring to assist Alaskans with their applications. For example, the prior administration adopted a rule under which, when an applicant was asked to submit supporting information (like receipts or airline tickets) the applicant was denied if the information was not submitted promptly. Now, an applicant has much more time to submit the information and, even on appeal, can qualify if the information shows that the applicant is eligible. Thus, we only deny folks if they don't qualify, not because they didn't meet an arbitrary deadline for back-up information.

The second factor relates to the speed with which we have been reviewing applications. Because of the backlog of existing cases, each year we begin the year with (1) an inventory of pending cases and (2) a roll-over from the previous year's dividend fund. The dividend division has worked very hard this year to reduce the backlog of cases pending in appeals

and review, and to process the 1996 dividend applications as quickly possible. We have exceeded our expectations. The division is now more caught up than it has been in a good many years. The result of this quick work is that we are much further along in actually paying current year dividends than we have been in previous years. This year, because of the quick work in the division, the cushion of applications carrying over into the next year has substantially disappeared.

Unfortunately, it did not come to the attention of the Commissioner's Office that the speed of the resolution of cases was out pacing the available funds until we were actually out of money in the fund. The division normally runs warrants each Tuesday night for the applications that have been cleared for payment the past week. This last week, we were notified that the March 4 run would result in an over expenditure of approximately \$330,000 in that appropriation. In order to protect both the applicants who were entitled to the dividends, and the banks at which they would be presented, we took immediate action to assure that those warrants would not be returned for insufficient funds. We changed the coding from the permanent fund dividend fund appropriation to the permanent fund dividend division operating budget. This was our only option at the time to protect both the Alaskans and the banks. As Representative Hanley was quoted in recent press coverage, "If these guys are owed their money, then they should get it."

As the dividend payment appropriation is replenished by credits created through the cancellation of warrants or the Division's collection efforts, we will transfer these charges against the operating budget back against the dividend payment appropriation. When the supplemental appropriation request is enacted and the funds have been added to the dividend payment appropriation, all residual charges against the dividend operating budget will be reversed and the normal payment stream will resume.

We have reviewed our inventory of currently pending applications, and estimate that we will qualify an additional 2665 applicants for payment between now and the end of the fiscal year. With available funding, we will continue to pay these applicants the dividend amount of \$1131, or \$3,014,115. Thus, our total request is for \$3.35 million.

We are currently taking steps to ensure that this type of over expenditure does not happen again. Ever since the state began using AKSAS, batch interface files like those for paying dividends have a "hard coded" approval. This means that no on-line balance verification and certification is required for the transaction to go forward. This differs from the process that is used for normal operating expenditures, in which a certifying officer makes an actual verification of funds. This historic practice is not adequate. We need an internal control that requires a visual check of the fund balance. Effective immediately, we are requiring that the director review the appropriation status *each* time a batch interface file is produced that expends part of that fund. We will devise a reporting system that ensures that a timely appropriation status check is made.

In the meantime, we will issue no further warrants until Legislative action is taken on the supplemental request. We will notify applicants who become qualified that the fund has been depleted, and that payment of their dividend must await action on our supplemental request. No action is required at this time by the staff of the Permanent Fund Corporation or its Board of Trustees.

Dear Finance Committee Co-Chairs:

As you continue your review of the Governor's supplemental appropriations bill please consider the amendments below. The first amendment is a technical addition to complete the power cost equalization supplemental. The second new section will make an additional deposit to the permanent fund dividend fund. As I discussed with Senator Pearce and Representative Hanley last Friday, this new appropriation is needed because of the substantial progress the Department of Revenue has made in clearing up the backlog of permanent fund dividends applications under appeal or awaiting more information before approval.

The construction of a women's dormitory and a shooting range for the Training Academy was a high priority for the Department of Public Safety which could not be accommodated in the FY 98 capital budget. However, in partnership with the City and Borough of Sitka, we have worked out a plan using FY 97 AHFC corporate receipts (which were within the \$53 million available but not committed last spring) plus a \$300,000 contribution from Sitka and a DPS reappropriation.

Add new sections:

DEPARTMENT OF COMMUNITY AND REGIONAL AFFAIRS Add a new subsection (b) to the power cost equalization fund appropriation (requested in my letter of February 27):

The sum of \$1,500,000 is appropriated from the power cost equalization and rural electric capitalization fund (AS 42.45.100) to the Department of Community and Regional Affairs, power cost equalization program for the purposes of that program for the fiscal year ending June 30, 1997.

Sec. 12. (DEPARTMENT OF REVENUE) Add a new subsection:

(c) The sum of \$3,350,000 is appropriated from the earnings reserve account (AS 37.13.145) to the dividend fund (AS 43.23.045) for the payment of permanent fund dividends.

Sec. __. DEPARTMENT OF PUBLIC SAFETY TRAINING ACADEMY (2) The sum of \$2,104,400 is appropriated from the fiscal year 1997 corporate receipts of the Alaska Housing Finance Corporation to the Department of Public Safety, Training Academy for construction of a women's addition, building improvements, and construction of a shooting range.

(b) The sum of \$60,000 is appropriated from the general fund to the Department of Public Safety, Training Academy for construction of a women's addition, building improvements, and construction of a shooting range.

(c) Section. 10, ch. 4, FSSLA 1994, Page 12, line 24 is amended to read:

	Allocations	Appropriation Items	General Fund	Other Funds
Statewide Deferred Building Maintenance (ED 99)		<u>440,000</u> [500,000]	<u>440,000</u> [500,000]	

Amend the following section:

Sec. 16. Amend the references to CAPITAL PROJECTS to include subsections (a) and (b) of the new Training Academy section described above.

Back-up materials for the permanent fund dividend amendment is attached, and back-up information on the Training Academy will be provided tomorrow. If you have any questions, please call me or our chief budget analyst, Dan Spencer.

Sincerely,

for Annalee McConnell
Director

March 5, 1997

The Honorable Drue Pearce
The Honorable Bert Sharp
The Honorable Mark Hanley
The Honorable Gene Therriault
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182

Dear Finance Committee Co-Chairs:

As you continue your review of the Governor's supplemental appropriations bill please consider the following amendments.

Add a new section to read as follows:

Sec. __. DEPARTMENT OF COMMERCE AND ECONOMIC DEVELOPMENT The sum of \$60,000 is appropriated from the general fund to the Department of Commerce and Economic Development to implement the coordinated response to the Southeast Alaska pulp mill closure for the fiscal year ending June 30, 1997.

Amend section 6 (DEPARTMENT OF LAW) as follows:

Delete sec. 6(a) and renumber the subsections accordingly. The subsection was originally submitted to inform the legislature that funds from this appropriation had been administratively encumbered. Most of the bills relating to the encumbrances have been paid and the legislature is now aware of the encumbrance, so the language can be deleted.

Add to section 6 the following three subsections:

(c) The amendments in (d) and (e) of this section will reduce general fund program receipts and instead make general fund match available for the Medicaid/Provider Fraud appropriation made in sec. 30, ch. 117, SLA 1996 at page 37, line 56 (Civil Division) and allocated at page 38, line 4.

(d) The funding source for the fiscal year 1997 appropriation to the Department of Law set out in sec. 32, ch. 117, SLA 1996, page 67 at line 8 is amended to read:

March 5, 1997

General Fund Match

[97,500] 126.800

(e) The funding source for the fiscal year 1997 appropriation to the Department of Law set out in sec. 32, ch. 117, SLA 1996, page 67 at line 10 is amended to read:

General Fund Program Receipts

[596,600] 567.300

Sec. 7. (DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS) Make the current appropriation subsection (a) and add a new subsection as follows:

(b) The sum of \$17,200 is appropriated from general fund program receipts to the disaster relief fund (AS 26.23.300) to allow for the receipt of flood insurance premiums from Southcentral flood victims and subsequent payment of those premiums to the federal emergency management agency under the terms of a national flood insurance pilot program authorized specifically for victims of the Southcentral flood.

Sec. 13. (DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES) Make the current appropriation subsection (a) and add a new capital appropriation subsection as follows:

(b) The sum of \$444,500 is appropriated from the general fund to the Department of Transportation and Public Facilities to implement the Copper River Highway Consent Decree (case No. A92-245 CIV (JKS) (Consolidated)).

Sec. 15. Amend the references to CAPITALIZATION OF FUNDS to include the new subsection 7(b) described above.

Sec. 16. Amend the references to CAPITAL PROJECTS to include the new subsection 13(b) described above.

Back-up materials for these amendments are attached. If you have any questions, please call me or our chief budget analyst, Dan Spencer.

Sincerely,

Annalee McCorneil
Director

The Honorable Bert Sharp
The Honorable Mark Hanley
The Honorable Gene Therriault
Alaska State Legislature
State Capitol
Juneau, AK 99801-1182

Dear Finance Committee Co-Chairs:

As you continue your review of the Governor's supplemental appropriations bill please consider the following amendments.

Add new sections to read as follows:

Sec. __. DEPARTMENT OF FISH AND GAME Notwithstanding the lapse date of the appropriation made by sec. 47, ch. 94, SLA 1995, page 31, line 20 (Commercial Fisheries Management and Development, \$42,118,000), the sum of \$115,000 which was encumbered from that appropriation in encumbrance document No. 1163552 (litigation) is reappropriated to the Department of Fish and Game for ongoing litigation costs for the fiscal year ending June 30, 1997

Sec. __. DEPARTMENT OF COMMUNITY AND REGIONAL AFFAIRS The sum of \$1,500,000 is appropriated from the general fund to the power cost equalization and rural electric capitalization fund (AS 42.45.100).

Amend the following sections:

Sec. 6. Delete current section 6(b) and replace it as follows:

The sum of \$251,054.69 is appropriated to the Department of Law to pay judgments and claims against the state for the fiscal year ending June 30, 1997 from the following funding sources:

General fund	\$235,111.81
Public employees retirement fund	12,765.73
Teachers retirement system fund	3,177.15

Sec. 8. Amend as follows:

Department of Administration	\$33,388
	[\$27,273]

Add the following appropriations

Department of Fish and Game	1,271
Department of Law	473

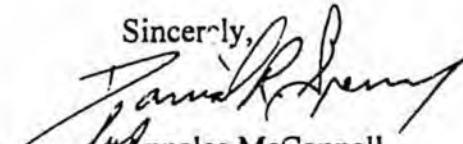

Sec. 11. Add the following ratifications:

(J) Department of Military and Veterans Affairs	
(A) 34538-85 Alaska Military Academy	90.15
(B) 34538-89 State Active Duty	144.10
(C) 34565-88 Federal Community Assistance	7,500.00
(D) 34537-85 Air Training Support	15,218.98
(E) 34537-86 Air Training Support	1,419.79
(F) 34537-87 Air Training Support	15,794.56
(G) 34532-85 Arm Facility Maintenance	1,754.18

Sec. 15. (Specifies which appropriations are to capitalize funds) Amend to include a reference to the power cost equalization fund appropriation above.

If you have any questions, please call me or the agency contact.

Sincerely,

Annalee McConnell
Director

MEMORANDUM

State of Alaska

Page 1 of 2

TO: Annalee McConnell, Director
Office of Management and Budget

DATE: March 5, 1997

FROM: 
William L. Hensley
Commissioner
Department of Commerce and
Economic Development

TELEPHONE NO: 465-2500

SUBJECT: Supplemental Budget
Request

The Department of Commerce and Economic Development, Office of the Commissioner, requests a supplemental appropriation in the amount of \$60,000 to implement the coordinated response to the Southeast Alaska pulp mill closure during fiscal year 97.

When the closure of the Ketchikan Pulp Mill was announced in October 1996, Governor Knowles took immediate action by establishing a state coordinated response partnership team. The team was charged with developing a comprehensive plan of action to mitigate the impacts of the closure on the affected communities' economies. DCED's special assistant, Veronica Slajer, was assigned to be the coordinator of the State's response.

In November, the department hired a community liaison position on a temporary basis to establish an office and referral point in Ketchikan. This was initially intended to be a three-month temporary position, and was funded with a \$10,000 RSA from the Office of the Governor. Since this position was established, it has become evident that it must be retained for longer than we originally intended. In this supplemental request, we are asking for sufficient funding to cover the cost of this position through the end of this fiscal year.

Other costs to the department of the coordinated response partnership include travel, meeting costs, telephone charges, etc. This supplemental request would provide the department sufficient money to cover these expenses through end of the fiscal year.

Finally, we have included a request for \$15,000 to contract for targeted technical assistance to small timber businesses in the impacted communities. With this contractual funding, the department hopes to jump start their expansion efforts, thereby stimulating job creation.

The Governor's FY 98 capital budget includes a \$120,000 request by the Department of Community and Regional Affairs which complements this supplemental budget request. The Governor is working with the federal government to establish a Community Economic Revitalization Team (CERT), of which the Commissioner of DCED will be a member. The Department of Community and Regional Affairs will be providing the administrative support for the CERT effort once it is established later in this fiscal year, and will use the money in the capital budget to do so. The CERT will be the long term group addressing the Southeast mill closure. Once it is established, the rapid response coordinated response partnership effort will come to closure.

A budget detail page is attached.

Southern Southeast Economic Revitalization Initiative

Supplemental Budget Request for FY 97

Item	Estimate	
<u>Personnel</u>		
Community Liaison	25.0	Based in the impact area, provide outreach and local-region response support
<u>Travel</u>		
	10.0	Primarily travel among communities southern SE, travel to attend regional CERT meetings and participate in federal-level activities
<u>Contractual Services</u>		
<i>Economic Development</i>	15.0	<i>Facilitate project development for small timber businesses</i>
Community technical support	2.5	Provide local planning, technical assistance support (e.g. project scoping workshops), and project scoping training
Phone	3.0	Long distance, including teleconf. with the region, video teleconferences
Supplies and other costs	2.0	Public meeting announcements, printing project scoping and preapplications
Equipment	2.5	Printer/fax for Ketchikan Office
Rent and utilities	0.0	In-kind from other state agencies
Total Cost	60.0

MEMORANDUM

State of Alaska

Department of Transportation & Public Facilities
Administrative Services Division

FEB 5 1997

to: Annalee McConnell
Director
Office of Management and Budget

DATE: February 1, 1997

TEXT NO: (907) 465-3652

FAX NO: (907) 586-8365

TELEPHONE NO: (907) 465-3900

FROM: Joseph L. Perkins, P.E.
Commissioner

SUBJECT: Copper River Highway

As was requested during last session, the Department of Transportation and Public Facilities requires additional funding to implement the Copper River Highway Consent Decree (case No. A92-245 CIV (JKS) (Consolidated)). The agreement related to Clean Water Act violations was signed with an effective date of March 27, 1996. This agreement requires the parties to conduct coordination, training, planning and restoration by certain specific dates.

I am requesting the following amounts to meet our legal commitment:

Activity Description	Date Action Needed	Funding Required
Restoration plan development Coordinated planning for historic structures and riverbank protection, structural assessment of existing trestles, and implementation plan to perform reinforcement work on these structures.	4/1/97	\$43,500
Restoration project Riverbank protection and drainage improvements at six sites including culvert installation, removal of trees and woody material from wetland areas, revegetation and placement of boulders for erosion prevention.	End of 1997 construction season	\$170,000
Historic Issues Develop master plan and rehabilitation or stabilization of four line shacks and Uranatina River workshop located on the Copper River Highway.	12/31/99	\$201,000
Training Training of all field maintenance and operations personnel on the requirements of the Clean Water Act, section 404. program, applicable laws and state policies that protect historical and cultural resources.	10/1/97 (annual requirement)	\$30,000

The restoration plans must be completed by April 1, 1997, and a meeting with the Corp of Engineers is required by May 1, 1997. A supplemental appropriation is necessary for this portion.

We would appreciate your approval of this request.

DEPARTMENT OF HEALTH & HUMAN SERVICES

Office of Inspector General

FEB 22 1996

Washington, D.C. 20201

Peter Gamache
 Director, Medicaid Fraud Control Unit
 Department of Law
 1031 West 4th Avenue, Suite 200
 Anchorage, Alaska 99501-1994

RECEIVED

FEB 26 1996

Department of Law
 Medicaid Provider Fraud

Dear Mr. Gamache:

As part of the annual recertification process, we have reviewed documentation submitted by your office, including the Unit Annual Report, quarterly statistical reports, and the Unit response to our questionnaire. Also reviewed were responses to questionnaires submitted to the Office of Inspector General, San Francisco Field Office, and the Alaska Department of Health and Social Services.

The information provided reflects that the Unit's activities have been directed towards fraud against the Medicaid program. This fulfills the statutory requirements of sections 1903 (a) (6); 1903 (b) (3); and 1903 (1) of the Social Security Act, as amended by the Medicare/Medicaid Anti-fraud and Abuse Amendments (P. L. 94-142) and section 3367 of the Omnibus Budget Reconciliation Act of 1980, P. L. 96-499.

The Alaska Unit is certified as meeting the Federal requirements applicable to the operation of a State Medicaid Fraud Control Unit (42 CFR, Subpart C). Regarding State funding for the Unit, we again maintain that we do not consider the dependence by the Unit on self-generated funding for the required State match as conducive to the proper and professional role of a Federal law enforcement grantee. The State should appropriate adequate matching funds to ensure an effective and efficient Unit.

This certification covers a period of 1-year ending December 31, 1996. For Federal financial participation to continue after that date, application for recertification, including a budget request and annual report, must be made to the State Medicaid Oversight and Policy Staff no later than November 1, 1995.

If you have any questions concerning this certification, please contact John Wright at (202) 619-3557.

Sincerely yours,

Paul F. Conroy
 Assistant Inspector General for
 Investigations Policy and Oversight

 Nico Bus
 Budget Coordinator

SUBJECT: 1997 Ratification
Request - DMVA

The Department of Military & Veterans Affairs request ratification of the following "overspent" appropriations:

AR #	Entity Name	Reason	Amount
34538-85	Alaska Military Academy	Overspent-GF	\$ 90.15
34538-89	State Active Duty	Overspent-I/A Shortfall	144.10

The following appropriation allocation zero balancing problems are a result of revenues posted to incorrect state years and the revenue subsequently lapsing in other years.

AR #	Entity Name	Reason	Amount
34565-88	Federal Community Assistance	Cancel Warrants*	\$ 7,500.00
34537-85	Air Training Support	Revenue Shortfall	15,218.98
34537-86	Air Training Support	Revenue Shortfall	1,419.79
34537-87	Air Training Support	Revenue Shortfall	15,794.56
34532-85	Army Facility Maintenance	Revenue Shortfall	1,754.18

*Warrants canceled and credit posted to the incorrect state fiscal year.

A ratification for the \$41,921.76 is needed in order to "zero" balance the overspent general fund appropriation allocations and the revenue shortfall appropriation allocations. This ratification once approved will eliminate all overspent Department of Military and Veterans Affairs appropriation allocations through the current state fiscal year.

If you have any questions or require additional information. Please contact me. Thank you for your assistance in clearing these appropriation entities so they may eventually zero balance.

SUBJECT: FY97 PCE Funding Shortage

The Division previously estimated that \$20 million would be needed for full funding of PCE in FY 97. However, the amount appropriated was \$17 million – 85% of the full funding estimate. Therefore, PCE payments have been pro-rated at 85% of the program requirement for the first 7 months of FY 97.

Due mostly to unexpected rate increases over the last several months, the Division now estimates that \$21.8 million would be needed for full funding of PCE in FY 97. If we continue to issue PCE payments at 85% of the program requirement, the \$17 million appropriation will be short by about \$1.5 million and will be exhausted before the end of the fiscal year.

Rising fuel prices are mostly responsible for the utility rate increases, which began to take effect last fall after the utilities reported their fuel costs to APUC. Higher fuel prices increase the cost of diesel-generated electricity in rural Alaska.

Action is needed to contain, or provide for, the increased cost of the PCE program. This could be achieved through: 1) further pro rata reduction of the PCE rates; 2) a supplemental PCE appropriation from the General Fund; or 3) a combination of options 1 and 2.

1. PCE pro rata reduction.

As noted above, PCE payments have been pro rated at 85% during the first 7 months of FY 97. If PCE payments are now pro-rated at 67% of the program requirement from February through June, the \$17 million appropriation will be sufficient to fund the program through the end of the fiscal year.

In other words, if this option is selected, PCE payments will have been paid at 15% below the program requirement for the first 7 months of FY 97, and 33% below the program requirement for the last 5 months of FY 97.

**Power Cost Equalization Program
Bullet Sheet**

We thought we needed \$20 million for full funding during FY97. We have been paying at 85% of the formula requirement. Had our \$20 million estimate been correct, we would have paid out as follows:

- 85% of \$20 million = \$17 million (full year)

It turns out that \$21.8 million would be needed for full funding during FY97. If we continue to pay out at 85% of the formula requirement over the entire year, the following would be required:

- 85% of \$21.8 million = \$18.5 million (full year)

PCE will be paid at 85% over the first 7 months of the fiscal year. Therefore, the amount already committed for eligible claims during this period is:

- 7/12 of \$18.5 million = \$10.8 million (first 7 months - amount committed)

Because \$17 million was appropriated for the entire year, the amount we have left for PCE payments during the final 5 months of the fiscal year is:

- \$17 million - \$10.8 million = \$6.2 million (available for last 5 months)

The estimated amount that would be needed for full funding of the program formula during the last 5 months of the fiscal year is:

- 5/12 of \$21.8 million = \$9.1 million (full funding for last 5 months)

To stretch the available funding over the last 5 months of the fiscal year, PCE payments must be made at about 68% of the full formula requirement:

- \$6.2 million / \$9.1 million = 68%

In other words, PCE payments must be set about 32%** below the full formula requirement for the period February 1 through June 30 to avoid exhausting the \$17 million appropriation before the end of the fiscal year.

**The 32% estimate differs from the 33% actually implemented due to rounding.

2. FY97 supplemental funding.

Considering that the PCE funding shortage results from the higher cost of oil, that the State is receiving about \$500 million in additional revenue due to the high price of oil, and that rural electric customers are already shouldering a 15% PCE reduction, consideration should be given to request supplemental funds to cover the FY 97 increased demand.

A supplemental appropriation of \$1.5 million would permit continued funding of PCE at the 85% level previously approved by the Governor and by the Legislature.

3. Combination of pro-rata reduction and supplemental funding.

This option would apportion the burden of the additional PCE requirement between the PCE eligible customers and the State.
