Sec. 39.05.080. Procedure for all appointments.

Except as otherwise provided in a law relating to the positions or memberships on a specific board or commission, appointment to a position or membership shall be made in the following manner:

(1) Each governor shall present to the legislature the names of the persons appointed by that governor; each governor may present the name of a person appointed by a previous governor; only presentment that occurs during the time that the legislature is in regular session constitutes presentment under this section. The governor shall, within the first 30 days after the legislature convenes in regular session, present to the legislature for confirmation the names of the following persons: (A) persons appointed to a position or membership who have not previously been confirmed by the legislature, and (B) persons to be appointed to fill a position or membership the term of which will expire March 1 during that session of the legislature. If an appointment is made after the first 30 days of the convening of the regular session but while the legislature is in regular session, the governor shall, within five calendar days after the appointment is made, present to the legislature for confirmation the name of the person appointed. The deadline may be extended by the legislature by the approval of a concurrent resolution.

(2) When appointments are presented to the legislature for confirmation,

(A) the presiding officer of each house shall assign the name of each appointee to a standing committee of that house for a hearing, report, and recommendation; standing committees of the two houses assigned the same person's name for consideration may meet jointly to consider the qualifications of the person appointed and may issue either a separate or a joint report and recommendation concerning that person; then

(B) the legislature shall, before the end of the session in which the appointments are presented, in joint session assembled, act on the appointments by confirming or declining to confirm by a majority vote of all of the members the appointments presented.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the governor of its action and a vacancy in the position or membership exists which the governor shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the governor of the legislature's notification of its refusal to confirm the prior appointment. The governor may not appoint again the same person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the same position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, have the powers, and be charged with the duties prescribed by law for the appointive positions or membership. However, the duration of an appointment made during the time period between regular sessions of the legislature by a person who is not still the governor on the first day of the next regular session ends on the date during the next regular session that the sitting governor presents for confirmation an appointment to the office. For the purpose of applying laws that limit the number of terms or parts of terms that may be served by a member of a board or commission, the part of the term of office that is served under an interim appointment immediately before the member is reappointed under this paragraph is considered to be merged with the part of the term of office that is served immediately after reappointment so that the two periods of service constitute only one part of a term. The duration of an appointment made during a regular session of the legislature and not presented to the legislature by the governor during that session ends no later than the last day of that session. The duration of an appointment made during an interim by a governor who is not in office at the beginning of the next regular session of the legislature ends no later than the last day of that regular session unless the governor who is in office during that session presents the person's name for confirmation. The same governor may not appoint the same person to the same position or membership if the person's appointment ends because of the governor's failure to present the person's name for confirmation.

Sec. 39.05.080. Procedure for all appointments.

Except as otherwise provided in a law relating to the positions or memberships on a specific board or commission, appointment to a position or membership shall be made in the following manner:

(1) Each governor shall present to the legislature the names of the persons appointed by that governor; each governor may present the name of a person appointed by a previous governor; only presentment that occurs during the time that the legislature is in regular session constitutes presentment under this section. The governor shall, within the first 30 days after the legislature convenes in regular session, present to the legislature for confirmation the names of the following persons: (A) persons appointed to a position or membership who have not previously been confirmed by the legislature, and (B) persons to be appointed to fill a position or membership the term of which will expire March 1 during that session of the legislature. If an appointment is made after the first 30 days of the convening of the regular session but while the legislature is in regular session, the governor shall, within five calendar days after the appointment is made, present to the legislature for confirmation the name of the person appointed. The deadline may be extended by the legislature by the approval of a concurrent resolution.

(2) When appointments are presented to the legislature for confirmation,

(A) the presiding officer of each house shall assign the name of each appointee to a standing committee of that house for a hearing, report, and recommendation; standing committees of the two houses assigned the same person's name for consideration may meet jointly to consider the qualifications of the person appointed and may issue either a separate or a joint report and recommendation concerning that person; then

(B) the legislature shall, before the end of the session in which the appointments are presented, in joint session assembled, act on the appointments by confirming or declining to confirm by a majority vote of all of the members the appointments presented.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the governor of its action and a vacancy in the position or membership exists which the governor shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the governor of the legislature's notification of its refusal to confirm the prior appointment. The governor may not appoint again the same person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the same position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, have the powers, and be charged with the duties prescribed by law for the appointive positions or membership. However, the duration of an appointment made during the time period between regular sessions of the legislature by a person who is not still the governor on the first day of the next regular session ends on the date during the next regular session that the sitting governor presents for confirmation an appointment to the office. For the purpose of applying laws that limit the number of terms or parts of terms that may be served by a member of a board or commission, the part of the term of office that is served under an interim appointment immediately before the member is reappointed under this paragraph is considered to be merged with the part of the term of office that is served immediately after reappointment so that the two periods of service constitute only one part of a term. The duration of an appointment made during a regular session of the legislature and not presented to the legislature by the governor during that session ends no later than the last day of that session. The duration of an appointment made during an interim by a governor who is not in office at the beginning of the next regular session of the legislature ends no later than the last day of that regular session unless the governor who is in office during that session presents the person's name for confirmation. The same governor may not appoint the same person to the same position or membership if the person's appointment ends because of the governor's failure to present the person's name for confirmation.

University of Alaska Board of Regents

Mr. Joshua B. Horst of Douglas

Appointed: 06/29/1999 Expires: 06/01/2001

Sec. 39.05.080. Procedure for all appointments.

Except as otherwise provided in a law relating to the positions or memberships on a specific board or commission, appointment to a position or membership shall be made in the following manner:

(1) Each governor shall present to the legislature the names of the persons appointed by that governor; each governor may present the name of a person appointed by a previous governor; only presentment that occurs during the time that the legislature is in regular session constitutes presentment under this section. The governor shall, within the first 30 days after the legislature convenes in regular session, present to the legislature for confirmation the names of the following persons: (A) persons appointed to a position or membership who have not previously been confirmed by the legislature, and (B) persons to be appointed to fill a position or membership the term of which will expire March 1 during that session of the legislature. If an appointment is made after the first 30 days of the convening of the regular session but while the legislature is in regular session, the governor shall, within five calendar days after the appointment is made, present to the legislature for confirmation the name of the person appointed. The deadline may be extended by the legislature by the approval of a concurrent resolution.

(2) When appointments are presented to the legislature for confirmation,

(A) the presiding officer of each house shall assign the name of each appointee to a standing committee of that house for a hearing, report, and recommendation; standing committees of the two houses assigned the same person's name for consideration may meet jointly to consider the qualifications of the person appointed and may issue either a separate or a joint report and recommendation concerning that person; then

(B) the legislature shall, before the end of the session in which the appointments are presented, in joint session assembled, act on the appointments by confirming or declining to confirm by a majority vote of all of the members the appointments presented.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the governor of its action and a vacancy in the position or membership exists which the governor shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the governor of the legislature's notification of its refusal to confirm the prior appointment. The governor may not appoint again the same person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the same position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, have the powers, and be charged with the duties prescribed by law for the appointive positions or membership. However, the duration of an appointment made during the time period between regular sessions of the legislature by a person who is not still the governor on the first day of the next regular session ends on the date during the next regular session that the sitting governor presents for confirmation an appointment to the office. For the purpose of applying laws that limit the number of terms or parts of terms that may be served by a member of a board or commission, the part of the term of office that is served under an interim appointment immediately before the member is reappointed under this paragraph is considered to be merged with the part of the term of office that is served immediately after reappointment so that the two periods of service constitute only one part of a term. The duration of an appointment made during a regular session of the legislature and not presented to the legislature by the governor during that session ends no later than the last day of that session. The duration of an appointment made during an interim by a governor who is not in office at the beginning of the next regular session of the legislature ends no later than the last day of that regular session unless the governor who is in office during that session presents the person's name for confirmation. The same governor may not appoint the same person to the same position or membership if the person's appointment ends because of the governor's failure to present the person's name for confirmation.

RE: Recommendation for Sally Rue for State Board of Education

Knowing that you will be considering confirmation of appointments to the State Board of Education in the near future, We'd like to offer our recommendation Sally Rue of Juneau.

We are well acquainted with Sally from her years of experience on the Juneau School Board. She is one of those individuals who distinguished herself during her school board service as meeting and exceeding Board Standards, even before they were thought of. She has demonstrated her commitment to being an active community advocate for education for years before serving on a school board, and will continue to be an active contributor in this new position as a State Board member.

Sally is extremely knowledgeable about the challenges school districts are facing today. She researches issues carefully and provides leadership in making sound decisions. Sally has demonstrated a statewide perspective and appreciation for the needs of schools in both urban and rural settings.

We believe someone of Sally's experience and commitment will play a valuable role in advancing public education statewide. I'm sure you will find a wide range of support for her appointment. The Association of Alaska School Boards would like to add our voice to that support. We would look forward to working with her in this capacity.

Respectfully,

Carl Rose

Sec. 39.05.080. Procedure for all appointments.

Except as otherwise provided in a law relating to the positions or memberships on a specific board or commission, appointment to a position or membership shall be made in the following manner:

(1) Each governor shall present to the legislature the names of the persons appointed by that governor; each governor may present the name of a person appointed by a previous governor; only presentation that occurs during the time that the legislature is in regular session constitutes presentation under this section. The governor shall, within the first 30 days after the legislature convenes in regular session, present to the legislature for confirmation the names of the following persons: (A) persons appointed to a position or membership who have not previously been confirmed by the legislature, and (B) persons to be appointed to fill a position or membership the term of which will expire March 1 during that session of the legislature. If an appointment is made after the first 30 days of the convening of the regular session but while the legislature is in regular session, the governor shall, within five calendar days after the appointment is made, present to the legislature for confirmation the name of the person appointed. The deadline may be extended by the legislature by the approval of a concurrent resolution.

(2) When appointments are presented to the legislature for confirmation,

(A) the presiding officer of each house shall assign the name of each appointee to a standing committee of that house for a hearing, report, and recommendation; standing committees of the two houses assigned the same person's name for consideration may meet jointly to consider the qualifications of the person appointed and may issue either a separate or a joint report and recommendation concerning that person; then

(B) the legislature shall, before the end of the session in which the appointments are presented, in joint session assembled, act on the appointments by confirming or declining to confirm by a majority vote of all of the members the appointments presented.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the governor of its action and a vacancy in the position or membership exists which the governor shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the governor of the legislature's notification of its refusal to confirm the prior appointment. The governor may not appoint again the same person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the same position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, have the powers, and be charged with the duties prescribed by law for the appointive positions or membership. However, the duration of an appointment made during the time period between regular sessions of the legislature by a person who is not still the governor on the first day of the next regular session ends on the date during the next regular session that the sitting governor presents for confirmation an appointment to the office. For the purpose of applying laws that limit the number of terms or parts of terms that may be served by a member of a board or commission, the part of the term of office that is served under an interim appointment immediately before the member is reappointed under this paragraph is considered to be merged with the part of the term of office that is served immediately after reappointment so that the two periods of service constitute only one part of a term. The duration of an appointment made during a regular session of the legislature and not presented to the legislature by the governor during that session ends no later than the last day of that session. The duration of an appointment made during an interim by a governor who is not in office at the beginning of the next regular session of the legislature ends no later than the last day of that regular session unless the governor who is in office during that session presents the person's name for confirmation. The same governor may not appoint the same person to the same position or membership if the person's appointment ends because of the governor's failure to present the person's name for confirmation.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the governor of its action and a vacancy in the position or membership exists which the governor shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the governor of the legislature's notification of its refusal to confirm the prior appointment. The governor may not appoint again the same person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the same position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, have the powers, and be charged with the duties prescribed by law for the appointive positions or membership. However, the duration of an appointment made during the time period between regular sessions of the legislature by a person who is not still the governor on the first day of the next regular session ends on the date during the next regular session that the sitting governor presents for confirmation an appointment to the office. For the purpose of applying laws that limit the number of terms or parts of terms that may be served by a member of a board or commission, the part of the term of office that is served under an interim appointment immediately before the member is reappointed under this paragraph is considered to be merged with the part of the term of office that is served immediately after reappointment so that the two periods of service constitute only one part of a term. The duration of an appointment made during a regular session of the legislature and not presented to the legislature by the governor during that session ends no later than the last day of that session. The duration of an appointment made during an interim by a governor who is not in office at the beginning of the next regular session of the legislature ends no later than the last day of that regular session unless the governor who is in office during that session presents the person's name for confirmation. The same governor may not appoint the same person to the same position or membership if the person's appointment ends because of the governor's failure to present the person's name for confirmation.

Board of Education Confirmation

Ms. Paula Rae Pawlowski – Anchorage

Appointed: 08/27/98 Reappointed:03/23/00 Expires 01/31/05

Sec. 39.05.080. Procedure for all appointments.

Except as otherwise provided in a law relating to the positions or memberships on a specific board or commission, appointment to a position or membership shall be made in the following manner:

(1) Each governor shall present to the legislature the names of the persons appointed by that governor; each governor may present the name of a person appointed by a previous governor; only presentment that occurs during the time that the legislature is in regular session constitutes presentment under this section. The governor shall, within the first 30 days after the legislature convenes in regular session, present to the legislature for confirmation the names of the following persons: (A) persons appointed to a position or membership who have not previously been confirmed by the legislature, and (B) persons to be appointed to fill a position or membership the term of which will expire March 1 during that session of the legislature. If an appointment is made after the first 30 days of the convening of the regular session but while the legislature is in regular session, the governor shall, within five calendar days after the appointment is made, present to the legislature for confirmation the name of the person appointed. The deadline may be extended by the legislature by the approval of a concurrent resolution.

(2) When appointments are presented to the legislature for confirmation,

(A) the presiding officer of each house shall assign the name of each appointee to a standing committee of that house for a hearing, report, and recommendation; standing committees of the two houses assigned the same person's name for consideration may meet jointly to consider the qualifications of the person appointed and may issue either a separate or a joint report and recommendation concerning that person; then

(B) the legislature shall, before the end of the session in which the appointments are presented, in joint session assembled, act on the appointments by confirming or declining to confirm by a majority vote of all of the members the appointments presented.

(3) When the legislature declines to confirm an appointment, the legislature shall notify the governor of its action and a vacancy in the position or membership exists which the governor shall fill by making a new appointment. The new appointment shall be presented for confirmation to the legislature within 20 calendar days following receipt by the governor of the legislature's notification of its refusal to confirm the prior appointment. The governor may not appoint again the same person whose confirmation was refused for the same position or membership during the session of the legislature at which confirmation was refused. The person whose name is refused for appointment by the legislature may not thereafter be appointed to the same position or membership during the interim between legislative sessions. Failure of the legislature to act to confirm or decline to confirm an appointment during the session in which the appointment was presented is tantamount to a declination of confirmation on the day the session adjourns.

(4) Pending confirmation or rejection of appointment by the legislature, persons appointed shall exercise the functions, have the powers, and be charged with the duties prescribed by law for the appointive positions or membership. However, the duration of an appointment made during the time period between regular sessions of the legislature by a person who is not still the governor on the first day of the next regular session ends on the date during the next regular session that the sitting governor presents for confirmation an appointment to the office. The duration of an appointment made during an interim by a governor who is not in office at the beginning of the next regular session of the legislature ends no later than the last day of that regular session unless the governor who is in office during that session presents the person's name for confirmation. The same governor may not appoint the same person to the same position or membership if the person's appointment ends because of the governor's failure to present the person's name for confirmation.

RE: Recommendation for Sally Rue for State Board of Education

Knowing that you will be considering confirmation of appointments to the State Board of Education in the near future, We'd like to offer our recommendation Sally Rue of Juneau.

We are well acquainted with Sally from her years of experience on the Juneau School Board. She is one of those individuals who distinguished herself during her school board service as meeting and exceeding Board Standards, even before they were thought of. She has demonstrated her commitment to being an active community advocate for education for years before serving on a school board, and will continue to be an active contributor in this new position as a State Board member.

Sally is extremely knowledgeable about the challenges school districts are facing today. She researches issues carefully and provides leadership in making sound decisions. Sally has demonstrated a statewide perspective and appreciation for the needs of schools in both urban and rural settings.

We believe someone of Sally's experience and commitment will play a valuable role in advancing public education statewide. I'm sure you will find a wide range of support for her appointment. The Association of Alaska School Boards would like to add our voice to that support. We would look forward to working with her in this capacity.

Respectfully,

Carl Rose
Executive Director
