ANALYSIS: (Attach a separate page if necessary)

SCR 8 establishes a nine member Long-Term Care Task Force consisting of three members of the House, three members of the Senate, and three public members. The task force will review the recommendations of the 1998 Long-Term Care Task Force and prepare a plan for establishment of an actuarially sound system of long-term care and proposed funding options. Senator Wilken has proposed a reappropriation amendment which would make funds from the previous task force available to this task force. If the amendment passes, funds from this fiscal note will not be needed.

Senate Concurrent Resolution No. 8

"Creating the Long-Term Task Force of 1999"

Senate Concurrent Resolution 8 establishes a nine-member Long-Term Care Task Force of 1999 to provide a focal point for further discussion and action concerning the needs of Alaskans for equitable and affordable long-term care options. This new task force will be in a position to provide leadership and guidance to ensure careful consideration of the 1998 Long-Term Care Force's suggestions and recommendations.

The work of the 1998 task force was only the first step in meeting the ultimate goal of developing a suitable and equitable plan for providing access to long-term care for all Alaskans. Additional work needs to be done, including further analysis of current long-term care options and further exploration of new options.

The creation of a new Long-Term Care Task Force will provide an opportunity for a formally recognized group of legislators, state officials, and interested public members to continue the review and monitoring of long-term care in Alaska. I urge your support for SCR 8.

LTC **TASK FORCE**
Long-Term Care Task Force

FINAL REPORT
January 1999

*Representative Con Bunde, Co-chairman:
Senator Gary Wilken, Co-chairman*

*State Capitol Building
Juneau, Alaska 99801-1182*

CREATION OF A NEW TASK FORCE

RECOMMENDATION

31

The Task Force requests the Senate and House Health, Education and Social Services Committees, in consultation with the legislative leadership, strongly consider the creation of a new task force to continue the review and monitoring of long-term care in Alaska.

“Oversight by a group of legislators, state officials, and the public interested in long-term health care is important.”

Senate Concurrent Resolution 11 created the Long-Term Care Task Force, but also terminated the task force upon the convening of the First Regular Session of the Twenty-First Alaska State Legislature, January 19, 1999.

As acknowledged throughout this report, the study and review conducted by this Task Force is only the first step in meeting its ultimate goal in developing a suitable and equitable plan for providing access to long-term care for all Alaskans. Additional work needs to be done; current long-term care options must be further analyzed and new options explored.

The Task Force recognizes that oversight by a group of legislators, state officials, and the public interested in long-term health care is important. Such a commission, if appointed, would be in a position to monitor the state's long-term care programs as they evolve to meet the needs of all Alaskans. This group would provide the necessary leadership and guidance to ensure success of the Task Force's suggestions and recommendations.

The representatives of the public may include people who are receiving long-term care, have relatives who are receiving long-term care, are from an organization that represents the interests of people in need of long-term care, are health care providers whose services include long-term care, or have had experience with an Alaska Native organization that delivers long-term care services in a rural area of the state.

The Task Force requests the Senate and House Health, Education and Social Services Committees, in consultation with the legislative leadership, strongly consider the creation of a new task force to continue the review and monitoring of long-term care in Alaska.

Alaska Commission on Aging

Resolution 99-1

In support of renewal of the Legislative Long Term Care Taskforce

Whereas the Long Term Care Task Force created by the Twentieth Alaskan Legislature terminated upon convening of the First Regular Session of the Twenty-First Alaska State Legislature on January 19, 1999; and

Whereas the Legislative Long Term Care Task Force Report of January, 1999, concluded that the identification of central issues concerning long-term care, and crafting of 31 recommendations was "only the first step in meeting the ultimate goal in developing a suitable and equitable plan for providing access to long-term care for all Alaskans," and

Whereas the Task Force found that a new oversight group "would be in a position to monitor the state's long term care programs as they evolve to meet the needs of all Alaskans," and that "additional work needs to be done; current long-term care options must be further analyzed and new options explored," and

Whereas the January, 1999 Legislative Long Term Care Task Force Report effectively introduces, summarizes and links together many of the issues central to appropriate and cost-effective long-term care in Alaska, and identifies necessary research, analysis, public education, and service development now needed across the public and private sector to shape a coherent and comprehensive approach to the state's involvement in long-term care,

Now therefore the Alaska Commission on Aging strongly encourages the Twenty-First Alaska Legislature to create a standing Legislative Long-Term Care Task Force.

ALASKA STATE LEGISLATIVE COMMITTEE

LONG-TERM CARE
POSITION PAPER
1999

AARP POSITION:

Advocate for a state long-term care plan which provides quality home and community-based care that promotes independence in the least restrictive setting necessary.

DISCUSSION:

State statistics show that older Alaskans constitute the fastest growing segment of the Alaskan population. As a result of the passage of SCR 11 during the 1998 Legislative Session, the State Long-Term Care Task Force must plan for the extraordinary acceleration in the number of older Alaskans over the age of 65. The same planning efforts include disabled Alaskans of any age.

State Law should be established which addresses accessibility, quality, affordability and safety. The State long-term care system should:

- Respond quickly to Alaskans in need of home and community-based services;
- Maintain and expand affordable home and community-based services as needed;
- Preserve the integrity, independence and safety of individuals and their families;
- Explore public/private options for affordable long-term care insurance;
- Protect Alaskans from fraud and abuse in the long-term care delivery system;
- Promote a transportation system which supports independence and access to community-based services;
- Strengthen and expand the State Long-Term Care Ombudsman Program.
