Sponsor Statement SB 36

“An Act relating to state procurement of certain computer-related contracts.”

SB 36 will require any new State of Alaska government computer hardware or software purchases to be Y2K compatible. Each computer hardware and software product or item to be delivered or developed under a state contract must be able to interact or accurately process date data from, into, during, and between the 20th and 21st centuries when used in accordance with the documentation provided by the contractor.
