ANALYSIS: (Attach a separate page if necessary)

HB 179 creates a class B misdemeanor crime of "habitual minor consuming." Upon conviction the court is to require the individual to receive treatment specified under AS 28.35.030(h). AS 28.35.030(h) is geared toward the sentencing of adult DWI offenders. ASAP is responsible for the screening, referral and subsequent monitoring of person who need substance abuse education or treatment. Those persons needing treatment would be referred to existing treatment providers in their community. This fiscal note would fund the necessary treatment expansion to meet the demand.

The existing service system for youth is under capacity and this new demand must be met with increased service capacity. The need to provide treatment to the expected 410 new cases requires expansion of the treatment capacity for youth.

Prepared by: Ernie Turner Phone 465-2071
 Division: Alcohol and Drug Abuse Date/Time 4/25/01 9:14 AM
 Approved by: Elmer A. Lindstrom, Special Assistant Date 4/25/01 9:14 AM
 Agency: Department of Health & Social Services

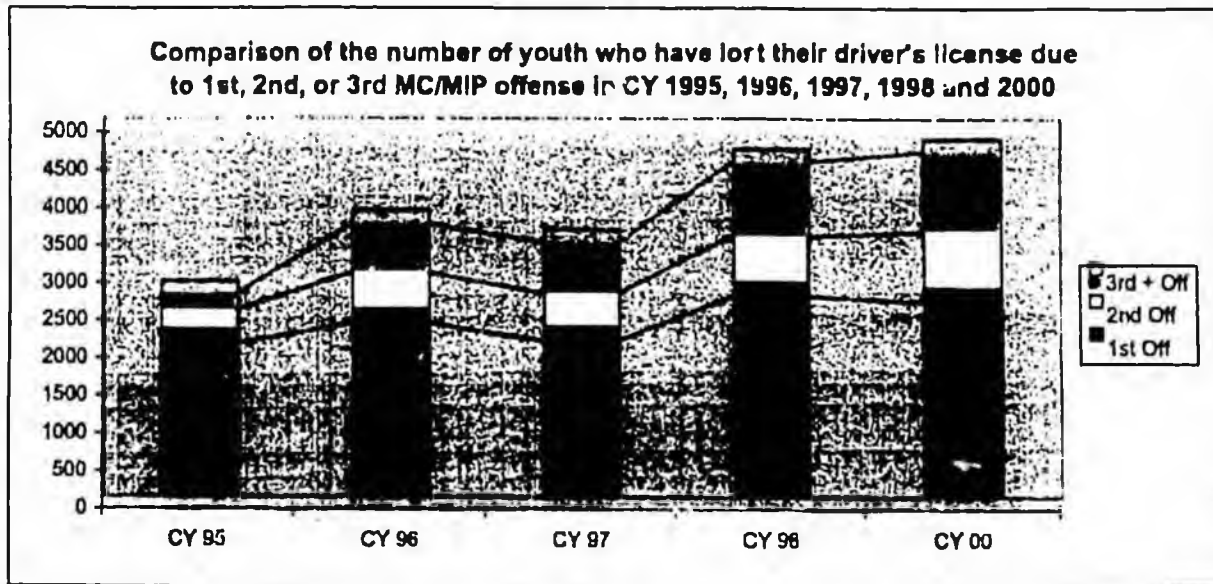

For distribution information, call the Governor's Legislative Office

ANALYSIS: (continued)

For youth who have committed their third offense, after the fines and community work services sanction from the first and second offenses, must be considered to be at high risk. Thus all should be referred to some level of treatment. For many youth this may only require brief interventions and for some possible residential placement. It is difficult to predict what the level of care required would be for the expected number of persons. In the Division presentation to the Judiciary committee on HB 4, the Division indicated that the costs per adult treated was \$1,854. This would include care from detox to brief interventions averaged across all levels of care. No similar figures exist for treatment of youth. This request is based on our estimate that we could provide appropriate levels of care for these persons by using an average that would be a little more than half the adult costs. This estimate results in the need for \$975 per youth estimated to be affected by this bill. Thus for the estimated 410 new persons needing some level of treatment (third offenses), a total treatment cost of \$400,000 is projected. This will provide treatment services at four pilot sites; Ketchikan, Fairbanks, Kotzebue and Juneau.

The Division of Motor Vehicles has been keeping records of the number of youth who lose their driver's license under existing statutes since CY 95. As review of this data indicates that in CY 2000 1,048 youth lost their driver's license due to having had their third minor consuming or minor in possession offense. Since the number of youth with a third offense has grown each year since CY 95 we would project that under this crime we could expect to see that many youth being sent to ASAP under this bill.

As can be seen by the data from the Division of Motor Vehicles (shown in the chart below), it indicates that over the past years the number of youth losing their driving licenses for minor consuming has been increasing. The number that have lost their license for second and third or more offenses has also risen. The chart below is from this data and clearly shows that the number of youth that could be determined to be guilty of "habitual minor consuming" would be high.

ANALYSIS: (Attach a separate page if necessary)

CSHB 179 (JUD) would change the minor consuming or in possession statutes by increasing fines and creating a series of graduated sanctions for repeat offenses. Under this version, only second and subsequent underage drinking offenses would entitle the minor to a jury trial and public counsel. The first offense would be handled similar to a traffic citation.

The Division of Motor Vehicles reports that prior to the *Niedermeyer* decision, they revoked about 4,800 drivers' licenses per year for alcohol violations by minors. Not all these violations were pursued in court, because many police officers believed it was better and easier to simply refer the matter to DMV for license revocation. We will assume, however, that now all such violations will result in a citation being filed in court.

The citations for second and subsequent offenses would come to the Department of Law, and a file would be opened. Based on Division of Juvenile Justice historical data, we estimate approximately 1,300 such citations would be filed annually. We believe that

FISCAL NOTE

**STATE OF ALASKA
2001 LEGISLATIVE SESSION**

BILL NO. CSHB 179 (JUD)

ANALYSIS CONTINUATION

In approximately 1 percent of the cases the defendant would request a jury trial. The estimated 13 new jury trials per year statewide could be handled within existing Criminal Division resources.

The division could not, however, absorb the increased clerical duties associated with opening more than 1,300 new files each year, and dealing with the paperwork and pleadings in all those cases. We would need to add one Administrative Clerk II position in Anchorage, where we anticipate the most citations will be filed, for a first-year cost of \$49,344, including one-time equipment costs of \$6,500.

ANALYSIS: (Attach a separate page if necessary)

Committee Substitute for HB 179 (JUD) makes several changes to the minor consuming alcohol (MCA) laws. Section 1 of the bill increases penalties for first-time offenders and allows for alternative sentencing. Section 2 increases penalties and includes provisions for license suspension and community work service for those convicted of their 2nd offenses and misdemeanor penalties for those convicted of their 3rd and subsequent offenses.

Under the terms of this bill, those charged with a second or subsequent offense will be entitled to appointed counsel and a jury trial. The Department of Law estimates that approximately 1300 cases with those rights will come through the district court annually.

Because MCA cases already require a court appearance, the only significant difference for the court system between a MCA violation and a MCA with a right to an attorney and a jury trial is the costs associated with jury trials. The misdemeanor trial rate is approximately 1%. This note, therefore, reflects the costs associated with 13 misdemeanor jury trials.

ANALYSIS: (Attach a separate page if necessary)

This bill would increase the penalties for the offense of Minor Consuming or in Possession of Alcohol (MCA). Under current law, MCA is a violation punishable by a \$100 fine. A minor cited for MCA was also subject to an administrative drivers license revocation under AS 28.15.183 (the "use it, lose it" law). However, in a recent Alaska Supreme Court case, State v. Niedermeyer, the "use it, lose it" law was found to violate due process. The court decided that a minor has a right to a jury trial and court-appointed counsel before a license can be revoked for MCA.

Under this bill, for a first offense, the court can place the person on probation and refer the case to a "community diversion panel." Alternatively, the court shall impose a fine of at least \$200 but not more than \$600.

Continued on Page Two

Prepared by: Barbara Brink, Director Phone 907 334-4414

CS HB 179 (JUD) ANALYSIS: (continued)

For a second offense (repeat MCA), the mandatory fine is \$1,000. But \$500 can be suspended if the defendant completes probation. There is a mandatory minimum community work service of 48 hours.

A third offense (habitual MCA) would be a class B misdemeanor. A mandatory minimum of 96 hours of community work service must be imposed. The court also must revoke a minor's drivers license or privilege to drive for six months. The juvenile delinquency statutes would be amended so that habitual (third offense) MCA would be handled by the Division of Juvenile Justice and juvenile courts.

The Public Defender Agency will have a substantial fiscal impact from this bill. As the bill is currently drafted, we would be appointed to represent people charged with both repeat and habitual MCA.

Repeat MCA (second offense) is a violation. The Public Defender Agency does not generally represent people on violations. However, the Alaska Court of Appeals in *Booth v. State*, 903 P.2d 1079 (Alaska App. 1995) decided that before community work service can be imposed a defendant has a right to a jury trial and court-appointed counsel. Therefore, the Public Defender Agency would be appointed in these cases as well as the habitual (third offense) MCA's.

According to Division of Motor Vehicles and Department of Health and Social Services (DHSS) statistics, there will be about 1330 second and subsequent MCA offenses. Of these 738 will be repeat MCA and 592 will be habitual MCA.

It is difficult to estimate how many of these cases the Public Defender Agency will be appointed to. The repeat MCA is a violation. But, with the prospect of a \$500 mandatory minimum fine and 48 hours of community work service, there will be a significant percentage of defendants who will request an attorney. Even if only 40% of the repeat MCA defendants request a court-appointed attorney, the Public Defender Agency will have 295 new cases. Habitual MCA is a class B misdemeanor with a mandatory 96 hours community service and loss of a drivers license for six months. We estimate we will be appointed in 75% of these cases. The result will be 444 additional misdemeanor cases.

Under national standards, a Public Defender attorney should handle no more than 400 new misdemeanor cases per year. The repeat MCA cases will be less difficult than the average misdemeanor, so we will increase this number to 600 new repeat MCA's per year per attorney. With the addition of a half-time attorney, the Public Defender Agency will be able to handle the increased caseload due to repeat MCA. An additional full-time attorney will be needed to handle the additional caseload due to habitual MCA.

According to the DHSS statistics, the majority of these cases are filed in Anchorage, Fairbanks, and Palmer. We would place the half-time attorney in Anchorage because it would be easier to hire a part-time attorney for Anchorage. The other attorney would be placed in Palmer.

The cost per attorney includes clerical support and one-time equipment costs in the initial year.

ANALYSIS: (Attach a separate page if necessary)

This bill would make a 3rd time conviction for minor consuming or in possession or control a class B Misdemeanor. It also provides graduated sanctions for 1st and 2nd time offenders and requires treatment for 3rd time offenders. It is anticipated that the first year, the Department of Corrections would be able to absorb any incarceration associated with this legislation since the bill will not encompass those with convictions prior to the effective date of the legislation.

It is the Department of Corrections' position that providing JSAP and making it a requirement of probation, in concert with graduated sanctions, will lessen the ultimate fiscal impact on the Department. Early intervention is believed to aid in prevention of further drinking and concomitant dependence. If the treatment component is not required/available, it is likely that Corrections will be taxed in subsequent years and may require additional funding. It is unclear at this time what that impact would be but court records indicate that there were 1,744 unduplicated individuals who were 18 or older as of 1/1/01 and had 2 convictions for MCA and 1,427 who had 3 or more convictions. Depending on what sanctions the court

ANALYSIS: (Attach a separate page if necessary)
 HB 179 creates a class B misdemeanor crime of "habitual minor consuming." Upon conviction the court is to require the individual to receive treatment specified under AS 28.35.030(h). AS 28.35.030(h) is geared toward the sentencing of adult DWI offenders. The existing Alcohol Safety Action Program (ASAP) program does not serve minors (persons under 18). ASAP functions not as treatment but as the monitor of compliance with conditions of the court as part of the sentence. The ASAP office in Anchorage provides the ASAP services in Anchorage as well as providing oversight and technical assistance to other grantee ASAP statewide. This position will work on establishing new standards for dealing with youth under this program for both Anchorage and other programs statewide. These standards would establish how the ASAP programs will make certain that the screening and referral process is appropriate for these person convicted under this new crime.

ANALYSIS: (Attach a separate page if necessary)

HB 179 creates a class B misdemeanor crime of "habitual minor consuming." Upon conviction the court is to require the individual to receive treatment specified under AS 28.35.030(h). AS 28.35.030(h) is geared toward the sentencing of adult DWI offenders. Alcohol Safety Action Program (ASAP) functions not as treatment but as the monitor of compliance with conditions of the court as part of the sentence. The existing ASAP program does not serve minors (persons under 18). Based on DMV data about youth that lose their driver's license due to MC/MIP, we are projecting that an additional 1,048 person statewide would be found guilty under this bill and referred to ASAP programs. Current ASAP programs are under funded and could not absorb this increase without increased funding. These funds would allow the Division to fund programs that would be specific for the person guilty of "habitual minor consuming."

ANALYSIS: (continued)

AS 47.37.045 established the Community Action Against Substance Abuse program. Under this program 47.37.045(7) allows for the funding of "youth assessment and referral programs that provide substance abuse screening services to and monitor compliance with a minor required to participate in..." alcohol or drug education or treatment. As such these funds are requested under that grant component.

The Division of Motor Vehicles has been keeping records of the number of youth who lose their driver's license under existing statutes since CY 95. As review of this data indicates that in CY 2000 1,048 youth lost their driver's license due to having had their third minor consuming or minor in possession offense. Since the number of youth with a third offense has grown each year since CY 95 we would project that under this crime we could expect to see that many youth being sent to ASAP under this bill.

As can be seen by the data from the Division of Motor Vehicles (shown in the chart below), it indicates that over the past years the number of youth losing their driving licenses for minor consuming has been increasing. The number that have lost their license for second and third or more offenses has also risen. The chart below is from this data and clearly shows that the number of youth that could be determined to be guilty of "habitual minor consuming" would be high.

Comparison of the number of youth who have lost their driver's license due to 1st, 2nd, or 3rd MC/MIP offense in CY 1995, 1996, 1997, 1998 and 2000

PILOT JUVENILE ALCOHOL TREATMENT PROGRAM. The Department of Health and Social Services, beginning July 1, 2001 and ending June 30, 2003, shall, in Fairbanks, Juneau, Ketchikan and Kotzebue, establish a pilot alcohol treatment program.

TALKING POINTS HB179, MINOR CONSUMING

The introduction of House Bill 179 was necessitated by the difficulties encountered in the courts with the "use it lose it" law passed previously by the Legislature. In addition, this bill was introduced resulting from the alarming increase in habitual minor consumers across the state. As you can see from the information supplied to you, both the number of minor consumer cases and more importantly, the number of repeat offenses have increased dramatically. We believe that these increases will continue without quality Juvenile Alcohol Safety Action Programs and increased education and outpatient services across the state.

Passage of this legislation, in its current form will increase monitoring, education and access to treatment services for this underserved population. The adult ASAP program has been successful in reducing repeat offenses for a population that is much harder to work with and therefore the Department feels that we can successfully reduce the number of repeat offenders among the youthful offenders in the state. Passage of this legislation has the potential to reduce the number of adult offenders as well as treating youth prevents them from becoming adult offenders.

Current Situation

There are currently two sites in the state that provide Juvenile Alcohol Safety Action Programs, in Juneau and more recently in Fairbanks. These programs have attempted to deal with the needs in those communities without adequate available treatment resources and have had some success. Both of the programs have no promise of funding beyond June 30, 2001.

Fiscal Notes

There are three fiscal notes attached to this bill. Two of these notes together provide the resources for the development of eight sites for Juvenile Safety Action Programs and the third will provide treatment services in those communities. The ASAP fiscal notes are separated as the Anchorage ASAP monitors, collects data and provides technical assistance for all ASAP sites and is run by the State. Funds for the other sites come through the grant in aid process.

Education services are monitored by the ASAP offices and do not require funding beyond the development of curriculum and monitoring completion for the court system.

The \$1,010, 500 fiscal note for treatment is based upon the need for treatment services for 1,048 habitual offenders @ \$964 each. That is not the actual cost of services but is an estimate of services that could not be paid for by the families of the offenders. The fiscal note would establish the infrastructure for youth treatment in 8 communities that currently have ASAP services that would be enhanced through passage of this bill.

Performance Measures

As with the inception of any new program, baseline data and performance measures are needed to determine the viability of future funding. Fortunately we have excellent records on both the number of first time and repeat minor consuming offenses. We have provided you with benchmark data and current status in your packets. The intervention proposed in this legislation would target the number of repeat offenders. Our objective will be to reduce repeat offenses. We believe that the strategies that we will employ will reduce the alarming increases in habitual minor consuming offenses in the State. By tracking the performance of these programs we can make adjustments that will insure success.

Pilot Site Amendment

The amendment that would reduce the number of sites from 8 to three would reduce the fiscal note for treatment from \$1,010,500 to \$261,244 (total offenders=1085x.25=271x\$964=\$261,244)

The reduction in the JASAP fiscal note from 8 sites to three sites would reduce the fiscal note for grants to ASAP from ~~\$426,000~~ to \$183,180. The Anchorage ASAP from \$63,500 to \$31,750 (monitoring and technical assistance would still be required).

If the pleasure of the committee were to reduce the scope of this project to three pilot sites the Department would strongly recommend that the JASAP portion of the fiscal note be retained at \$426,000 and \$63,500. This would insure that ASAP services are available in more communities and would at least offer those services to the court and to what treatment services are currently available. This would fall far short of need but would be significantly better in administering this statewide law.

Handwritten calculations:

$$\begin{array}{r} 426,000 \\ + 63,500 \\ \hline 489,500 \\ - 228,256 \\ \hline 261,244 \end{array}$$

75. ASAP

<p>Note: This proposal "wipes the slate clean" and only applies to minor consuming offenses after the effective date of the Act.</p>				

The Division of Alcoholism and Drug Abuse

Measure

The number of new and repeat convictions for minor consuming or minor in possession of alcohol.

Current Status	We have the number of convictions for Fiscal Years 1995 through 2000. From this we can compute the percentage of those convictions that represent repeat offense.
Benchmark	For the period FY 95 – FY 2000 27% of all convictions were for second or subsequent offenses. For just FY 2000 35% of all convictions were for second or subsequent offenses.
Background And Strategies	<p>HB 179 changes the penalty structure for minor consuming and minor in possession convictions. Since 1995 these offenses have been violations and the major penalty has been loss of driver's license. Due to court rulings, this penalty could no longer occur unless the offender had the ability to request a jury trial.</p> <p>The only statistical measure we would have upon passage of HB 179 would be conviction data from the Court system. The Division of Juvenile Justice has been working with the court system to be able to obtain the data in a consistent manner so that we can follow these statistics over the years.</p> <p>HB 179, however, wipes the slate clean, so that once adopted any conviction from that point becomes the first offense, even if there were previous convictions under the current law. Using data from past studies with new data we would be able to estimate repeat offenses. However, from the effective date of HB 179 we would be able to replicate the chart below and would target the repeat offenses both as a percentage of the total number of convictions as well as the rate of growth of repeat offense based on the baseline set in the FY 1995 – FY 2000 period.</p> <p>In addition we will monitor the data reported in "Underage Drinking Needs Assessment" report completed in October 2000 related to motor vehicle accidents and alcohol-related injuries requiring hospitalization.</p>

Sponsor Statement for HB 179 (JUD)

In 1994, the Legislature enacted the "Use It, Lose It" law (AS 28.15.183) for minors who are caught possessing or using alcohol. If a minor is caught using alcohol, his/her driver's license would be administratively revoked for a period of time.

In December, in a case called *State v. Niedermeyer*, the Alaska Supreme Court found that taking away a minor's driver's license for possession or consumption of alcohol or a controlled substance, without giving them a trial, was in violation of a minor's constitutional right to due process.

If a minor is caught using alcohol or drugs, they are sent a letter from the DMV stating that the DMV will not revoke their license until there has been a court conviction for the offense. At present, the district attorney's office is not prosecuting minors caught for consumption of alcohol, because the court system is not prepared to handle jury trials for this type of case.

The effect of the *Niedermeyer* decision is that minors now go virtually unpunished for possessing or consuming alcohol. The maximum penalty that may currently be enforced on minors who are caught consuming or possessing alcohol is a \$100 fine.

This law will impose appropriate punishments on minors who use alcohol, and will be a deterrent to minors when they consider drinking. Statistics show that the earlier a person begins drinking, the more likely they are to have problems with alcohol later in life. By sending a message early to minors that their actions will not go unpunished, we hope to deter alcohol problems in the future.

This bill will establish a graduated system of punishment for minors who are caught consuming, possessing or controlling alcohol. On a minor's first offense, he/she would be subject to a fine of between \$200-600, must attend alcohol information school, and will be placed on probation. On a minor's second offense, the minor would be guilty of repeat minor consuming and would be subject to a fine of \$1000, at least 48 hours of community work service, a three-month license revocation, and probation. A minor's third offense would cause them to be guilty of habitual minor consuming. This is a class B misdemeanor, which results in up to a \$1000 fine and 90 days in jail. In addition, the minor will lose his/her license for a period of six months, will be required to complete at least 96 hours of community work service, and will be placed on probation.

The committee urges your support of this bill.

Sectional Analysis for HB 179 (JUD)

- Section 1:** Establishes penalty for first-time minors caught consuming, possessing or controlling alcohol. Penalty: \$200-600 fine, alcohol information school and probation. Allows court to divert minor into a community diversion panel.
- Section 2:**
- Subsection (c):* Establishes penalty for minors caught consuming, possessing or controlling alcohol for a second time. Penalty: \$1000 fine (\$500 of which is suspended), 48 hours community work service, revocation of driver's license for three months, and probation.
- Subsection (d):* Establishes penalty for minors caught consuming, possessing or controlling alcohol three or more times. Penalty: class B misdemeanor, 96 community work service, revocation of driver's license for six months, and probation.
- Subsection (e):* Probation last for one year, or until the person is 21 years of age, whichever is later. The defendant cannot refuse probation. The court may order the defendant to pay for and enroll in a juvenile alcohol safety action program (JSAP). Conditions of probation are then listed.
- Subsection (f):* Requires that any community work service imposed be performed within 120 days of the entry of judgment for a conviction. Requires defendant to prove completion of work service.
- Subsection (g):* Treatment recommended by JSAP may include inpatient treatment.
- Subsection (h):* Failure to complete any JSAP evaluation or requirements, treatment, education, or community work service may lead to a reinstatement of any suspended fines or

incarceration. In addition, a minor who has had his/her license revoked shall continue to do so for an additional six months.

Subsection (i): Requires the court to also look to the financial resources of the parent in determining eligibility for court-appointed counsel.

Subsection (j): Sets forth when a license revocation is consecutive vs. concurrent.

Subsection (k): Definition section

- Section 3:** Conforms statute reference.
- Section 4:** Conforms statute references.
- Section 5:** Creates a statute, AS 28.15.176, that allows for administrative revocation of licenses for minors who consume or possess alcohol or drugs.
- Section 6:** Requires the court convicting a minor of repeat or habitual consuming to revoke the minor's license.
- Section 7:** Removes possession or use of a controlled substance, and possession or consumption of alcohol from the current administrative revocation of license statute, AS 28.15.183.
- Section 8:** Same as Section 6.
- Section 9:** Once a license has been revoked under AS 28.15.183(g), the license may not be reinstated unless, if required to do so, the minor has successfully completed any education or treatment required by JSAP.
- Section 10:** Deletes the requirement of immediate renewal of a license if there is no prosecution, the prosecution results in a dismissal, or the person is found not guilty.
- Section 11:** Removes possession or use of a controlled substance, and possession or consumption of alcohol from the administrative hearing process for revocations under AS 28.15.183.

- Section 12:** Amends the ages when a court can revoke a minor's license for misconduct involving a controlled substance, or for an offense involving illegal use or possession of a firearm.
- Section 13:** Adds repeat and habitual minor consuming, possessing or control to the list of offenses that require the court to revoke a minor's license.
- Section 14:** Prohibits the DMV from issuing or renewing a minor's revoked driver's license, unless, if required to do so, the minor has successfully completed any education or treatment required by JSAP.
- Section 15:** Exempts minor consuming, possessing or controlling alcohol from the juvenile justice system. Habitual minor consumers are excluded from this exemption, however, and are to be placed in the juvenile justice system on their third or subsequent offense.
- Section 16:** Requires that when making an informal adjustment of a delinquent minor, the informal adjustment:
- (1) must be made with the agreement and consent of the minor and minor's parents
 - (2) must give the minor's foster parents an opportunity to be heard
 - (3) must include notice that restitution will be necessary
 - (4) for a violation of habitual consuming, possession or control, must include an agreement that the minor perform 96 hours of community work service, and have this/her license revoked for six months
 - (5) for an offense described in AS 28.15.185 (a)(1), must include an agreement that the minor's license be revoked as if the minor has been adjudicated delinquent.
- Section 17:** Requires the court adjudicating a delinquent minor for repeat or habitual possession, consumption or control of alcohol, for an offense involving a controlled substance, or involving a firearm to revoke the minor's license.
- Section 18:** Requires the Dept. of Health & Social Services to develop and implement a juvenile alcohol safety action program.

Section 19: Makes this act applicable to offenses committed on or after the effective date, except that references to previous convictions includes convictions occurring before, on or after the effective date.

Section 20: Effective date is July 1, 2001.

Mothers Against Drunk Driving • Juneau Chapter
211 Fourth St. Suite 102 • Juneau, AK 99801

April 18, 2001

MADD thanks the Judiciary committee for sponsoring HB 179 and we wish to speak in support of it.

MADD believes there should be more effective and stringent enforcement of the minimum drinking age law, by means of administrative, civil and criminal measures, to further limit illegal underage access to alcohol and thus reduce youthful involvement in alcohol and other drug-related traffic crashes.

MADD advocates that it be illegal for those under 21 to drive with any measurable level of blood alcohol. Zero tolerance shall establish as a maximum legal limit, a blood alcohol level of .02 BAC.

MADD advocates that each state adopt and implement laws which provide driver's license sanctions for underage persons convicted of purchasing or possession of alcoholic beverages.

MADD advocates that each state adopt laws providing that persons under 21 receive driver's licenses which are more restrictive than full licenses, under which violations would result in driver improvement actions and license revocation and civil sanctions in addition to any criminal sanctions and penalties. MADD advocates that each state adopt laws providing for graduated licensing privileges to persons under 21. Early driving experiences must be acquired in lower risk environment through extended restriction of no alcohol use, primary belt enforcement, limitation on night time driving and teenage passengers. Appropriate restriction should be lifted in stages, base in clean driving records.

MADD feels HB 179 addresses some of the above statements and therefore would make a difference in preventing underage drinking as well as drinking & driving in the #2 state in the nation for drunk driving fatalities.

Here is the testimony of Volunteers of America Alaska regarding House Bill 179 - underage drinking. I have included the statistics Chairman requested after I testified this afternoon.

(H)Jud

Volunteers of America®
Alaska

My name is Laura Goss and I am the Community Outreach Coordinator for Volunteers of America Alaska's Adolescent Alcohol and other Drug Treatment Programs. Volunteers of America Alaska offers a Youth Intervention Program for first time offenders aged 13-21, Outpatient and Intensive Outpatient Treatment Programs in Anchorage for youths aged 12 - 18, and a Residential Treatment Center serving adolescents aged 12 - 18 from statewide.

Thank you for allowing me this opportunity to convey our opinions on House Bill 179.

House Bill 179 does not go far enough. It is attempting to get tougher on underage drinking, but it fails to address the underlying issues that lead to that behavior. Youths who are misusing alcohol and other substances need to be screened for dependency and educated about the choices they are making early on, before they develop into problem drinkers, before they escalate and become a danger to those around them on the roads and in their homes.

It is imperative for the well being of each individual in the community to intervene on youth that are engaging in high-risk behaviors. To allow a known substance abuser to continue in life without the benefit of learning just how consequential his or her behavior can be is nothing but irresponsible. Not only is it irresponsible toward that youth, but it is irresponsible toward the entire community.

We would like to see a provision added to the Act that would allow the courts to offer first and second time violators an incentive for participating in alcohol screening and any education or treatment recommendations indicated. Incentives would include fine reduction or offset screening costs and citation dismissal, if appropriate. Such a provision would allow the courts to respond to the problem of underage drinking in a more flexible manner, and would help to ensure that the youth appearing before them received appropriate intervention at an earlier, more treatable stage.

For youth charges with driving under the influence or driving while intoxicated, it is further proposed that the individual's driving privileges not be reinstated until the youth complies with the assessment process and follows through on the subsequent recommendation.

In addition, we would ask that you consider the impact of the community work service component upon the first and second time offenders. As written, it is an unenforceable consequence. There is little or no recourse in those instances where the youth fail to comply. That sends the wrong message to youth that have already shown a disregard for the law. Should it be left in the act, we encourage you to consider the creation of a

juvenile monitoring program, similar to the adult monitoring program, to track compliance and report back to the court.

The importance of consistent imposition of sanctions and adequate monitoring cannot be emphasized enough. We as a community have the responsibility to clearly and consistently convey the message that substance abuse is a high-risk behavior that has potentially deadly consequences and will not be tolerated as simply a matter of "kids will be kids". We want our kids to be kids, and we want them to grow up to be happy, functional, and productive adults. We certainly do not want our children's behavior to be the factor in the loss of life in our community.

In summary, we believe that intervention and education are of paramount importance in combating the problem of underage drinking and should be included at an earlier stage. We also urge you to include a diversion provision into the act.

Thank you.

* Mr. Chairman, you asked me some statistical and financial information about our programs after my testifying. I'd like to accurately address that information:

- Volunteers of America Alaska is a non-profit organization funded by grants from the State of AK Division of Alcoholism and Drug Abuse, and by private donations. Assessments for all of our programs are FREE of charge.
- ARCH, our residential treatment program, served 46 youths in fiscal year 2000. It is a 16-bed facility, with 12 male beds and 4 female beds. The length of stay ranges from 4 - 6 months. Monthly cost varies from \$5,500 to \$6,500 depending on activities client and parents participate in. We bill insurance, Medicaid/Denali Kid Care, offer a sliding fee scale, and do not turn anyone away for the inability to pay for services.
- Assist, our Outpatient and Intensive Outpatient programs, served 152 clients in fiscal year 2000. The average length of treatment for Outpatient is 12 weeks and for Intensive Outpatient it is 24 weeks (6 months). Average cost of Outpatient treatment per month is about \$650 and average cost of Intensive Outpatient per month is about \$2,400, depending on activities the client and parents participate in. We bill insurance, Medicaid/Denali Kid Care, offer a sliding fee scale, and do not turn anyone away for the inability to pay for services.
- Youth Intervention Program is a 10-hour reality and experiential-based substance abuse education class and served 256 youth in fiscal year 2000. It costs \$125.00. Scholarships are available to those who cannot afford the course fee.

March 27, 2001

Representative Norm Rokeberg
Chairman of House Judiciary Committee
Juneau, Alaska

MAR 27 2001

Representative Rokeberg,

I am writing in response to HB 179 "relating to underage drinking... " I have been coordinating a very committed group of judicial officers, social workers, parents, DMV administrators, Division of Alcohol and Drug Abuse for *2 years and 7 months* because we know that underage drinking is a precursor to all future alcohol related problems. We have followed legislation and its impact on minor consuming since 1996, when the "Use it and Loose It" legislation was passed. Recent Alaska studies report that minor consuming continues to increase.

Though this bill tries to build on increasing monetary sanctions, it does not go far enough for 1st and/or 2nd alcohol infractions. We would like to see a provision that allows the therapeutic model to be offered right away. Magistrates, statewide, need to be able to offer incentives to youth who agree to comply with an alcohol screening, specific for adolescents, and treatment or education recommendations. Recommendations may include an approved adolescent alcohol education/intervention program or treatment if so recommended. Recommendations can be flexible to allow for regional differences. A Juvenile Monitoring Program, like we have for adults, is needed to communicate compliance back to the courts. Incentives should include the option of allowing for a reduction in the fine to offset the costs screening and treatment or education and, in appropriate cases, dismissal of the charges upon proof of compliance with the screening recommendations.

We have personally seen the escalation of young people, who drink before 15 years, never held accountable, and become the problem drinkers who drive and assault the people around them. We encourage some changes to the bill that reflect a mandatory screening (specific for adolescents) and compliance with recommendations that include monitoring of effective education/intervention and/or treatment.

Attached is a list of people who are involved on the Teenage Alcohol Infractions Working Committee. We will be available at the hearing on March 28, 2001 at 1:00PM.

Sincerely,

Joan Diamond

For your information.

Janet

Subject: HB 179
Date: Wed, 11 Apr 2001 12:03:27 -0800
From: "Diamond, Joan W." <DiamondJW@ci.anchorage.ak.us>
To: "'Representative_Norman_Rokeberg@legis.state.ak.us'" <Representative_Norman_Rokeberg@legis.state.ak.us>

To Norm Rokeberg,

I have been following most of the Alcohol control legislation this session in hopes that more conservative bills would come out of the House. So far, the legislation continues to support very liberal measures that will do very little to reduce the tragedies from drinking and driving.

As to HB 179, underage drinking, I am hoping to see a bill where the magistrates will have the flexibility to offer sanctions for first time offenders of alcohol infractions, to be screened (less costly than an assessment) and comply with the recommendations instead of paying a fine and getting an alcohol education class. For some, alcohol education is ok but education is not standardized to adolescents and is ineffective as a preventive tool to reduce underage drinking by itself. Most teenagers need to be screened in some standard way so that early diagnosis and followup is completed. We have so much to gain in the way of school success etc. by picking up the early problems before they interfere in school performance and community crime.
