ANALYSIS: (Attach a separate page if necessary)

To calculate the potential revenue change to the Fish and Game Fund created by passage of HB 93 as written the following information was collected and assumptions made.

1. In calendar year 2000, Division of Sport Fish issued 16,100 personal use permits for the Cook Inlet area.
2. In calendar year 2000, 1,385 permits were reported as actively fished in the Kasilof River and 6,721 actively fished in the Kenai River.
3. For calendar year 2001 and beyond, these participation numbers were rounded to 1,500 and 7,000 respectively for purposes of this analysis.
4. Approximately 10% of the active dip net fishers participate in both the Kenai and Kasilof fisheries.
5. A total of 9,350 permits would be issued for both Kenai and Kasilof River fisheries.
6. Revenue deposited to the Fish and Game Fund is estimated to total \$79,475 (\$93,500 less vendor fees of approximately \$14,025).

SPONSOR STATEMENT

For

HOUSE BILL 93

"Establishing the permit fee for the personal use dip net fisheries for the Kenai River and the Kasilof River"

This piece of legislation will require a \$10.00 charge to dip net fish on the Kenai River and the Kasilof River. Being the largest sockeye salmon producer in the State of Alaska, there is a real abuse to this fishery.

Annually there are 10,000 to 15,000 permits issued. At \$10.00 per permit roughly \$100,000 to \$150,000 could be generated. The fishery opens on July 10 and runs until the end of the month. It is opened for 21 days. With this many fishermen in the area, there is complete disregard for habitat, environment, and the banks of these rivers. In addition there has been complaints during this period of time of private property trespass (those people trying to get access to the Rivers). Clean up on these two rivers has increased over the years due to the lack of enforcement. It has been reported that fishermen are fishing without licenses, taking more than the 25 fish they are allocated to harvest and an abuse of this fishery. Temporary enforcement officers need to be hired for this 21 day period. It is the intent of this legislation that the monies raised will be used for enforcement. In addition dollars would be used for habitat protection and bank area cleanup. The program should pay for itself. Additionally it has been reported that non-residents are participating in this fishery illegally, as they are not allowed by Statute (16.05.340).

Fax: 465-3835

Dear Representative Lancaster:

Subject: HB 93

Enclosed is City of Kenai Resolution No. 2001-12 supporting HB 93 entitled "Kenai Dip Net Fishery Permit Fee." This resolution passed our City Council by unanimous vote on March 7, 2001.

Also enclosed is a detailed description and justification of the City of Kenai's request for a State grant for "State of Alaska Dip Net Fishery Projects." The City of Kenai appreciates your support for these badly needed projects.

Sincerely,

A handwritten signature in cursive script that reads "Keith Kornells".

**CITY OF KENAI
RESOLUTION NO. 2001-12**

A RESOLUTION OF THE COUNCIL OF THE CITY OF KENAI, ALASKA, SUPPORTING HB 93 ENTITLED "KENAI DIP NET FISHERY PERMIT FEE."

WHEREAS, Representative Ken Lancaster is sponsoring HB 93, which is an act establishing the permit fee of \$10 for the personal use dip net fisheries for the Kenai River and the Kasilof River with an effective date of July 1, 2001; and,

WHEREAS, the City of Kenai has listed "State of Alaska Dip Net Fishery Projects" for \$900,000 as one of its top CIP requests for State Grant funds in 2001-2002; and,

WHEREAS, the projects consist of the following:

a.	Dock Area Paving	\$425,000
b.	New Launch Ramps	275,000
c.	New Dock Access Road	200,000
	TOTAL	\$900,000

;and,

WHEREAS, the State should provide grant funds to the City to cover the costs of the impact of the dip net fishery since the State governs or regulates this fishery on City-owned lands; and,

WHEREAS, there is an estimated 15,000 dip net permits issued each year; and therefore, a \$10 permit fee would increase State revenue by approximately \$150,000 per year; and,

WHEREAS, it would take the State only six years of \$150,000/year permit revenues to recoup the \$900,000 capital costs that are needed for the dip net fishery project listed above.

NOW, THEREFORE, BE IT RESOLVED THAT THE COUNCIL OF THE CITY OF KENAI, ALASKA, supports HB 93 entitled "Kenai Dip Net Fishery Permit Fee."

PASSED BY THE COUNCIL OF THE CITY OF KENAI, ALASKA, this 7th day of March 2001.

John J. Williams, Mayor

ATTEST:

Carol L. Freas, City Clerk
Approved by Finance 

**CITY OF KENAI
REQUEST FOR STATE GRANT
2001 - 2002 CAPITAL IMPROVEMENT PROJECT**

NAME: STATE OF ALASKA DIP NET FISHERY PROJECTS

TOTAL PROJECT COST: \$900,000

PROJECT DESCRIPTION: (See Drawing)

a. Dock Area Paving \$425,000

This part of the project is to rebuild the Boat Launch Road and a portion of the Boating Facility parking lot, which is presently gravel. The project includes asphalt paving, parking striping, and signage.

b. New Launch Ramps \$275,000

This part of the project is to add two new launch ramps with a floating dock between the ramps. It would be similar to the existing launch ramps.

c. New Dock Access Road \$200,000

This part of the project is to add a new road as an exit access to the boating facility.

PROJECT JUSTIFICATION:

The Boat Launch Road, Parking Lot, and Launch Ramps are heavily used by personal dip net fishermen using the Boating Facility. Over 15,000 dip net permits for households are issued each year, and over 100,000 fish are caught in this Kenai River fishery. The City Boat Facility handles most of this fishery. This project will improve the Boating Facility operation and make it a lot cleaner.

This project will greatly enhance the health and quality of life of its users. At the present time, users of the Boating Facility use staging areas that are gravel surfaced and often dirty and unsanitary. Dust in the area is a problem since dust retardants cannot be used due to the closeness to the water. Users spend time in staging areas getting their boats ready to load and unload onto their trailers and in parking. This project would definitely enhance recreational opportunities for dip net fishermen. Informational signs would also enhance the understanding of the area.

The biggest bottleneck that restricts the number of dip net users is having only two launch ramps. This project would provide users an additional two ramps allowing more users and faster access to the river. Under the present conditions, sometimes

Dip Net Fishery Projects
Page 2

there is a two-hour wait to get a boat into the water plus another two-hour wait to get the boat out of the water.

At times, the line of vehicles with boats or trailers extends down Boat Launch Road almost to Bridge Access Road. This presents many problems of access on this narrow road. Users often have to exit the facility and drive down Bridge Access Road to find a place to turn around and then back to Boat Launch Road to get in line to retrieve their boats. A new one-way exit from the facility would allow users with their boats to exit directly or allow vehicles with a trailer to make a loop to the line on Boat Launch Road to retrieve their boats.

The three parts of this project are very badly needed, and they are a direct result of the heavy use of dip net fishermen. Since the dip net fishery is governed or regulated in this area by the State of Alaska, the City of Kenai is requesting funds to help relieve some of the costs caused by the impact of this fishery. That is also why this project is entitled "State of Alaska Dip Net Fishery Projects."

Date: 3-13-01

Please accept the enclosed original(s) of written testimony for
the House Fisheries teleconference hearing that was
scheduled on 3-12-01.

A copy of this testimony was transmitted to your committee via
fax on 3-13-01.

Thank You,

Alaska State Legislature

Please enter into the record my testimony
to the House Fisheries Committee on HB 93

3/12/01

I believe that HB 93 is
is a highly suspicious action which
is intended to cap this highly efficient
method of harvest of these common property
public trust fishery resources.

I applaud the enforcement of fair
and equal regulations of the harvest
of these fish as managed on a sustained
yield bases. I also support measures
taken to protect the habitat along
any and all waters of Alaska.

But I also support the public
right of access to all public waters
and fisheries of the state.

I raise questions, under both the
US and Alaska Constitutions as to
whether we have the right to exclude
non-residents from equal consideration
to participate in these fisheries.

Alaska just lost a \$30,000,000 Court
decision because they were permitting
residents advantages over non residents
in the commercial fisheries.

(2)

Alaska's fish, wildlife and waters are common property resources that belong to all citizens. We have in operation a sport fish licensing fee rate differential, in which non residents are charged eight (8) as much as are resident Alaskans. The State of Alaska made a survey of all other State and British Columbia in which they found that the fish bag limits were the same for residents and non residents, alike.

Some time the non residents citizens of the United States are going to sue Alaska and then we will lose the State share of the federal excise tax matching funds. These funds are a major source of financing the management of Alaska's fish and wildlife resources.

The loss of these funds plus Court judgements will make the \$30,000,000 fine in the Carlson case look like peanuts.

Thank you.

BRIEFING

Sources of Funds and Apportionment Formula

Federal Aid in Wildlife Restoration

Source of Funds:

11% excise tax on sporting arms and ammunition

10% excise tax on pistols and revolvers

11% excise tax on certain archery equipment

Apportionment Formula:

- The Service is authorized to deduct up to 8% for administration. After making the deduction, the remainder is apportioned as follows.

- For Wildlife Restoration - Funds from tax on arms and ammunition plus 1/2 of the taxes on handguns and archery equipment.

50% on the basis of land area

50% on the basis of paid hunting license holders.

Maximum apportionment to a State - 5% of total funds apportioned

Minimum apportionment to a State - 1/2 of 1% of total funds apportioned

Puerto Rico receives 1/2 of 1% of total funds apportioned. Guam, American Samoa, the Virgin Islands, and Northern Mariana Islands each receive 1/6 of 1% of total funds apportioned.

- For Hunter Education - Funds from the remaining 1/2 of the taxes on handguns and archery equipment.

Apportioned on the basis of population of each State.

Maximum apportionment to a State - 3% of total funds apportioned

Minimum apportionment to a State - 1% of total funds apportioned

Guam, American Samoa, the Virgin Islands, and Northern Mariana Islands each receive 1/6 of 1% of total funds apportioned. (Puerto Rico does not receive an apportionment for Hunter Education.)
