This is an existing program that is scheduled to sunset 6/30/03. Reauthorization will continue the program for 5 years (until 6/30/08). The \$650.0 comes to the department via a Reimbursable Services Agreement (RSA) from the Alaska Industrial Development and Export Authority (AIDEA). The funding for the RSA is included in AIDEA's operating budget. The department awards \$620.0 in grants to 13 existing Alaska Regional Development Organizations (ARDORs). \$30.0 in personal services pays for a portion of DCED staff time associated with administering the grants and the ARDOR program in general. This funding is included in the current fiscal year budget and is included in the Governor's proposed FY 2004 budget.

This is an existing program that is scheduled to sunset 6/30/03. Reauthorization will continue the program for 5 years (until 6/30/08). The \$650.0 comes to the department via a Reimbursable Services Agreement (RSA) from the Alaska Industrial Development and Export Authority (AIDEA). The funding for the RSA is included in AIDEA's operating budget. The department awards \$620.0 in grants to 13 existing Alaska Regional Development Organizations (ARDORs). \$30.0 in personal services pays for a portion of DCED staff time associated with administering the grants and the ARDOR program in general. This funding is included in the current fiscal year budget and is included in the Governor's proposed FY 2004 budget.

Re: HB 79

Dear Representative Morgan,

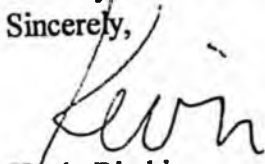

The Alaska Municipal League supports the reauthorization of the ARDOR Program.  
The 2003 Alaska Municipal League Policy Statement reads:

**Alaska Regional Development Organizations:** The League urges the state legislature to increase funding to the Alaska Regional Development Organizations (ARDOR), to allow for greater amounts of private funds to be leveraged with public monies and to require DCED and other state agencies to coordinate their economic development activities with local ARDOR organizations.

The purpose of the ARDOR Program, established in 1988 by the State Legislature, is to facilitate economic development by establishing a network of regional development organizations designed to advance local control of economic development efforts and to increase the flow and retention of dollars in local economies. The program provides matching grants of up to \$100,000 per year for financial assistance to each designated regional development organization. The legislation establishing the program allows for a maximum of fifteen regional development organizations to be funded in any year. At the present time, almost all regions of the state are organized into ARDORs.

- a. **Performance Based Outcomes:** As a condition of state funding, the League supports establishment of practices that ensures maximum local participation from all communities within the ARDOR. Further the League supports creation of performance measures for the goals and employees of the ARDOR. The legislature has moved to performance-based budgeting. This will enhance efforts to increase funding to the ARDOR's and support for a regionally based statewide economic development plan.

Thank you for the opportunity to support this bill.  
Sincerely,

Kevin Ritchie  
Executive Director

During June, the unit began the attachment process for the 2002 permanent fund dividends. Writ packages were prepared and mailed to courts statewide to allow seizure of criminal defendants' dividends. The unit also reviewed all civil collection files, closed 28 files which were considered uncollectable, and prepared 27 Writs of Execution for attachment of permanent fund dividend checks. The unit closed three OSHA penalty collection files and prepared Writs of Execution for garnishments of bank accounts in two cases. On the criminal side, the unit sent 35 letters responding to inquiries from defendants and courts regarding payment agreements and other collection issues.

### \$40,000 IN RESTITUTION PAYMENTS RECEIVED IN JUNE

In June, the collections unit received 115 criminal restitution judgments and 24 juvenile restitution orders for collection. Initial notices were sent to 141 recipients. We received voluntary payments totaling \$29,018.76

Based on Makinson's testimony, Ms. Carson revised her request for modified support to an occupational wage statistic from Florida for an airline mechanic. Makinson's counsel objected strenuously, but the court granted Ms. Carson's request and found that Makinson is clearly underemployed and has demonstrated his experience and skill as an airline mechanic. On June 28, 2002, the court signed the order for modification requiring Makinson to pay \$472 per month for one child.

### KUROSHIMA SPILL SETTLEMENT

The state and United States jointly settled the governments' natural resource damages claims resulting from the spill of 39,000 gallons of fuel from the M/V Kuroshima in Dutch Harbor in November 1997.

The approximately \$1,000,000 settlement will be used to reimburse the state and U.S. for costs related to natural resource injuries and for projects to restore natural resources injured by the fuel spill. The projects include operation of a fish weir on a local salmon stream, revegetation of the banks and stabilization of a road along a local salmon spawning lake, removal of debris from a local recreational beach, a bird restoration project to remove nonindigenous foxes from a nearby island, a public education project, and a project to build tent platforms and weatherport style tents for community use. The Qawalangin Tribe participated in the negotiations with the vessel owners and will implement some of the restoration projects.

The state's cost recovery and penalty claims against the vessel owners were settled last year for approximately \$650,000. As part of that settlement the vessel owners also conveyed title to a container of response and cleanup equipment to ADEC. The container is stored in Dutch Harbor and is available for use in future

spills. AAG Alex Swiderski represented the state in this matter.

### OCCUPATIONAL LICENSING SUSPENDS LICENSES OF MIDWIFE AND NURSE

On May 21, 2002, the Division of Occupational Licensing suspended the license of a Kodiak direct-entry midwife due to her breach of a prior memorandum of agreement (MOA) in which she had agreed to a suspension of her license while she complied with certain continuing education requirements. The division contends that the midwife continued to practice during the time of the voluntary suspension, which violated the MOA, and the division invoked the automatic suspension provision included in it. On June 11, 2002, the midwife requested a hearing with regard to the suspension. AAG Robert Auth is representing the division in the disciplinary proceeding.

On June 26, 2002, the Board of Nursing adopted a memorandum of agreement (MOA) between the Division of Occupational Licensing and an Anchorage registered nurse, which settled an ongoing disciplinary action. The nurse agreed to a 30-day suspension and a \$4,000 fine (with \$1,000 suspended) based on the fact that on two separate occasions, her conduct with a patient went outside the scope of practice allowed by a registered nurse. AAG Auth represented the division in the disciplinary action.

# Frequently Asked Questions

**What is an ARDOR?** A nonprofit organization of local volunteers, representing numerous public and private interests, working together to achieve economic development in their region. An ARDOR is organized in accordance with Alaska Statute 44.33.026 and the Alaska Administrative Code (3 AAC 57).

**Why have a regional organization do economic development?** The Legislature established the ARDOR Program in 1988, and again in 2000, in support of the widely held belief that a locally driven initiative, in partnership with the State and other entities, can most effectively stimulate economic development and produce healthy, sustainable local economies.

**How does an ARDOR get established?** The State Department of Community and Economic Development (DCED) approves an ARDOR designation. To be approved, the ARDOR must (1) be large enough and contain adequate resources to support a regional economic development program, and (2) be an economically viable unit with shared interests, resources, traditions, and goals. Currently, there are 13 ARDORs in all regions of Alaska, except for most of the Doyon region.

**How does an ARDOR work?** Each ARDOR is guided by a Board comprised of the economic development interests in the region. Board members are usually appointed by organizations in the region; however some are elected. The Board hires an Executive Director to work with the Board to ensure the annual work plan is implemented. The Board oversees and directs the activities of the ARDOR.

**What are the ARDOR Program goals?** Encourage a healthier economic climate to increase the number of jobs, strengthen existing businesses, attract new businesses, and encourage economic diversification.

**What does an ARDOR actually do?** Each ARDOR is different with regard to existing

economic development infrastructure, a marketable natural resource; an educated work force, and a cohesive leadership organization-factors in achieving economic development. Thus, ARDOR activities are unique to that ARDOR. Generally, however, ARDOR's:

- conduct economic development related research and planning including develop and implement a regional economic development strategy,
- respond to information requests,
- coordinate ARDOR's activities with other economic development activities,
- provide services designed to encourage economic development,
- collect and distribute economic information,
- develop and maintain community and village economic profiles,
- coordinate State economic or business development efforts, and
- serve as a liaison between State government and the region.

**How is an ARDOR funded?** DCED annually awards a State grant to each ARDOR that satisfies the statutory and regulatory requirements, including the requirement that each ARDOR provide a local, non-State match. For FY03, each ARDOR is receiving an average of \$47,692. The State grant and required match is usually not the ARDOR's only source of funding. ARDORs can and do receive funding from a variety of sources.

**How much money does the State contribute to the ARDORs?**

# Overview

The Alaska Regional Development Organizations (ARDOR) Program is the State's contribution to regional initiatives for developing Alaska's economy. In 1988, the Legislature recognized that a locally driven initiative, in partnership with the State, is the most effective approach to creating and sustaining a strong and healthy economy. The Legislature established the ARDOR Program to create a network of organizations to plan and support economic development at the regional level.

There are currently 13 ARDORs. The ARDORs, like their counterparts nationwide:

- enable local officials and businesses to pool their limited resources and work together on economic development issues;
- develop partnerships among public, private and other organizations; and,
- provide needed technical assistance via direct links with local citizens.

It's not the State trying to determine what's best for the region; rather, it's the residents and those doing business in the region working together to create their economic future.

**The ARDOR Program is providing a return for the State's investment.** The State provides \$620,000 in grant funds for the ARDOR Program. As indicated on the following pages, the accomplishments of the ARDORs are impressive. Additionally, for FY02, the ARDOR's used the \$620,000 in State grant funds to leverage over \$3 million in other funds.

**Board member participation reflects a local commitment to the ARDOR Program.** The 13 ARDOR boards, each with 10-20 members, constitute 150+ local, civic minded individuals who volunteer their time to achieve a stronger economic base in their region.

The original intent of the ARDOR Program was to create regional entities that could improve the local economy and eliminate regionwide economic development barriers, such as inadequate transportation or uncoordinated marketing efforts. As reflected on the following pages, the ARDORs are meeting this Legislative intent. The ARDORs work on a wide range of projects. Some, like Anchorage's Industrial Park project, have regional or statewide impacts. Other projects, such as the Northwest Arctic Borough's Revolving Loan Fund, assist individuals and businesses.

## Legislative Performance Measures

The Legislature established performance measures for the ARDOR Program. Using these measures, each ARDORs performance is reported on the following pages.

Legislative Performance Measures:

1. The number of coordinated regional efforts resulting in the creation of new business opportunities. (The reporting period used on the following pages is 7/1/01-6/30/02.)

**Comment:** This measure counts certain ARDOR activities but it does not reflect the range of ARDOR activities. For example, many ARDORs provide training opportunities ranging from small business development to grant writing.

2. The % of goals identified through regional processes that are achieved. (The percentage reported on the following pages was derived by comparing the goals stated in the January 2002 ARDOR Annual Report with the final progress report submitted by each ARDOR for the period 7/1/01-6/30/02.)

The difficulty in applying this measure is that the ARDORs' goals varied in specificity. For example, ARDORs devote time to improving their organizations. Some ARDORs have simple short term goals, while others have multi-year goals that can't be accomplished in one year.

3. The amount of non-State funds leveraged by the ARDOR grants. (The dollar amount reported on the following pages provided is the amount reported by each ARDOR in their FY03 ARDOR grant application submitted in July, 2002.)

Following is a summary of the ARDOR budgets for all 13 ARDOR's.

### *FY 2003 ARDOR Program Budget*

|             |  |
|-------------|--|
| \$ 620,000  | State ARDOR grants                                     |
| 748,470     | Other State funds                                      |
| 1,165,068   | Federal funds  |
| 1,017,579   | Private sector funds                                   |
| 944,159     | Any other non-federal, non-State funds                 |
| \$4,495,276 | Total ARDOR Budget (total of above 5 lines)            |
| \$3,126,806 | Amount of Non-State Funds Leveraged (7/1/02 - 6/30/03) |
| \$549,700   | Total ARDOR In-Kind Contributions                      |

The ARDORs and Department of Community and Economic Development (DCED) support the notion of using performance measures. The ARDORs and DCED look forward to working together and with the Legislature to develop performance measures that will be effective in evaluating ARDOR performance.

### **FY 2002 Goals \*** (Percentages of goal achieved: 100%. A ✓ indicates the goal was accomplished.)

- ✓ Develop and execute a well-organized plan to encourage expansion of existing businesses.
- ✓ Implement a strategic marketing plan focused on attracting new businesses in select industries with the most potential for leveraging growth, incorporating a network of Anchorage business leaders who can help build relationships with others in the industry sector.
- ✓ Provide Anchorage economic development data and information to businesses.
- ✓ Align with other appropriate organizations in Anchorage to prevent duplication of efforts and to communicate and market a common vision for economic development and growth.
- ✓ Communicate the direction of AEDC to all members and better align them to AEDC efforts, ensuring they see positive contributions and value for their investment in AEDC.
- ✓ Oversee management of financial and personnel resources, ensuring resources are allocated properly to achieve the strategies above in a positive team environment.

**ANALYSIS:** (Attach a separate page if necessary)

This is an existing program that is scheduled to sunset 6/30/03. Reauthorization will continue the program for 5 years (until 6/30/08). The \$650.0 comes to the department via a Reimbursable Services Agreement (RSA) from the Alaska Industrial Development and Export Authority (AIDEA) Enterprise Development Fund (AS 44.88.155). The department awards \$620.0 in grants to 13 existing Alaska Regional Development Organizations (ARDORs) (\$47.7 each). \$30.0 in personal services pays for a portion of DCED staff time associated with administering the grants and the ARDOR program in general. This funding is included in the current fiscal year budget and is included in the Governor's proposed FY 2004 budget.
