The Honorable Pete Kott
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Kott:

Under the authority of article III, section 18, of the Alaska Constitution, I am transmitting a joint resolution proposing amendments to the Alaska Constitution relating to and limiting appropriations from the Alaska Permanent Fund based on an averaged Percent of Market Value (POMV) approach. The question presented to legislators by the joint resolution is whether to allow Alaskans to decide if management of the Alaska Permanent Fund should be modernized to a POMV approach. The POMV approach limits annual spending to five percent of the Alaska Permanent Fund's market value.

If adopted by the voters, the constitutional amendments in this joint resolution would change the way in which amounts available for appropriation from the Alaska Permanent Fund are determined. The joint resolution contains the same provisions as CS House Joint Resolution 26(FIN), which passed the House of Representatives during the second session of this Legislature. Under the provisions of this joint resolution, the Legislature could appropriate an amount that would not exceed five percent of the averaged market values of the Alaska Permanent Fund for the first five of the six fiscal years immediately preceding the fiscal year in which the money is appropriated. The provisions do not allocate the amount available for appropriation for a specific purpose.

I remain convinced that Alaskans expect us to resolve the state's long-term fiscal problem this year. This resolution is an important part of what must be a bipartisan solution to the state's fiscal gap.

I urge your prompt and favorable action on this measure.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Frank H. Murkowski".
Frank H. Murkowski
Governor

ANALYSIS: (Attach a separate page if necessary)
 This resolution would ask voters in the next general election whether to approve a constitutional amendment that would limit annual appropriations to no more than 5% of the average year-end market value of the Fund for the preceeding five years.

 This resolution would not affect the budgeted costs to manage and invest the Permanent Fund, nor would it change the amount of income earned by Permanent Fund investments.

 See the attached schedule for financial projections of the Fund comparing the "Status Quo" to a 5% POMV spending limit.

Sectional Analysis of WD 0168

Overview

The Resolution proposes changes to the Alaska Constitution Article IX, Section 15, which governs the Alaska Permanent Fund.

Summary of Changes

- 1) Page 1, line 9. Adds a reference to the new subparagraph (b) being added to the constitution.
- 2) Page 1, line 10. Removes the words "the principal of which" from the constitution. This change removes the distinction between the principal and the earnings reserve. The Fund becomes one pool of money versus two.
- 3) Page 1, lines 12 & 13. Deletes the guidance for where income of the Fund should be deposited. The intent is for all income to remain in the Fund until appropriated by the Legislature.
- 4) Page 2, lines 1 - 3. Adds a new subparagraph (b) that establishes an annual payout limit of 5% of the total market value of the Fund. The market value will be based on a five-year average. This is to protect the Fund from inflation and preserve the real value over the long term. Additionally, this provision allows the legislature and the administration to know one year in advance the amount available for appropriation.
- 5) Page 2, lines 6 - 9. Adds a transitional provision that makes clear the balance in the Fund's earnings reserve remains in the Permanent Fund. Some have argued that the earnings reserve belongs in the General Fund.
- 6) Page 2, lines 10 - 12. States that the changes first apply to appropriations for fiscal year 2006.
- 7) Page 2, lines 13 - 15. States that the amendments will be placed before the voters at the next general election.

Alaska Permanent Fund

A Fund overview and discussion of POMV

ACCOUNTABILITY

1

TO ALASKANS, FOR ALASKANS

"To benefit all generations..."

AS 37.13.020 (1)

...the Fund should provide
a means of conserving a portion
of the state's revenue from mineral resources
to benefit all generations of Alaskans.

Permanent Fund market value

- Realized income account
- Unrealized earnings
- Contributions

Fund's historical asset allocation

What is POMV?

POMV is a spending limit for the Permanent Fund.

Under POMV, no more than five percent of the Fund's market value may be withdrawn each year.

Under the current system, all realized earnings are available for spending from the Fund.

Inflation Proofing

	FY94 to FY03	FY05 to FY14
Total return	7.8%	7.6%
Inflation rate	2.5%	2.6%
Real rate of return	5.3%	5.0%

If no more than 5% is withdrawn from the Fund each year, the gains that result from inflation will remain in the Fund. This will preserve the Fund's purchasing power for future generations.

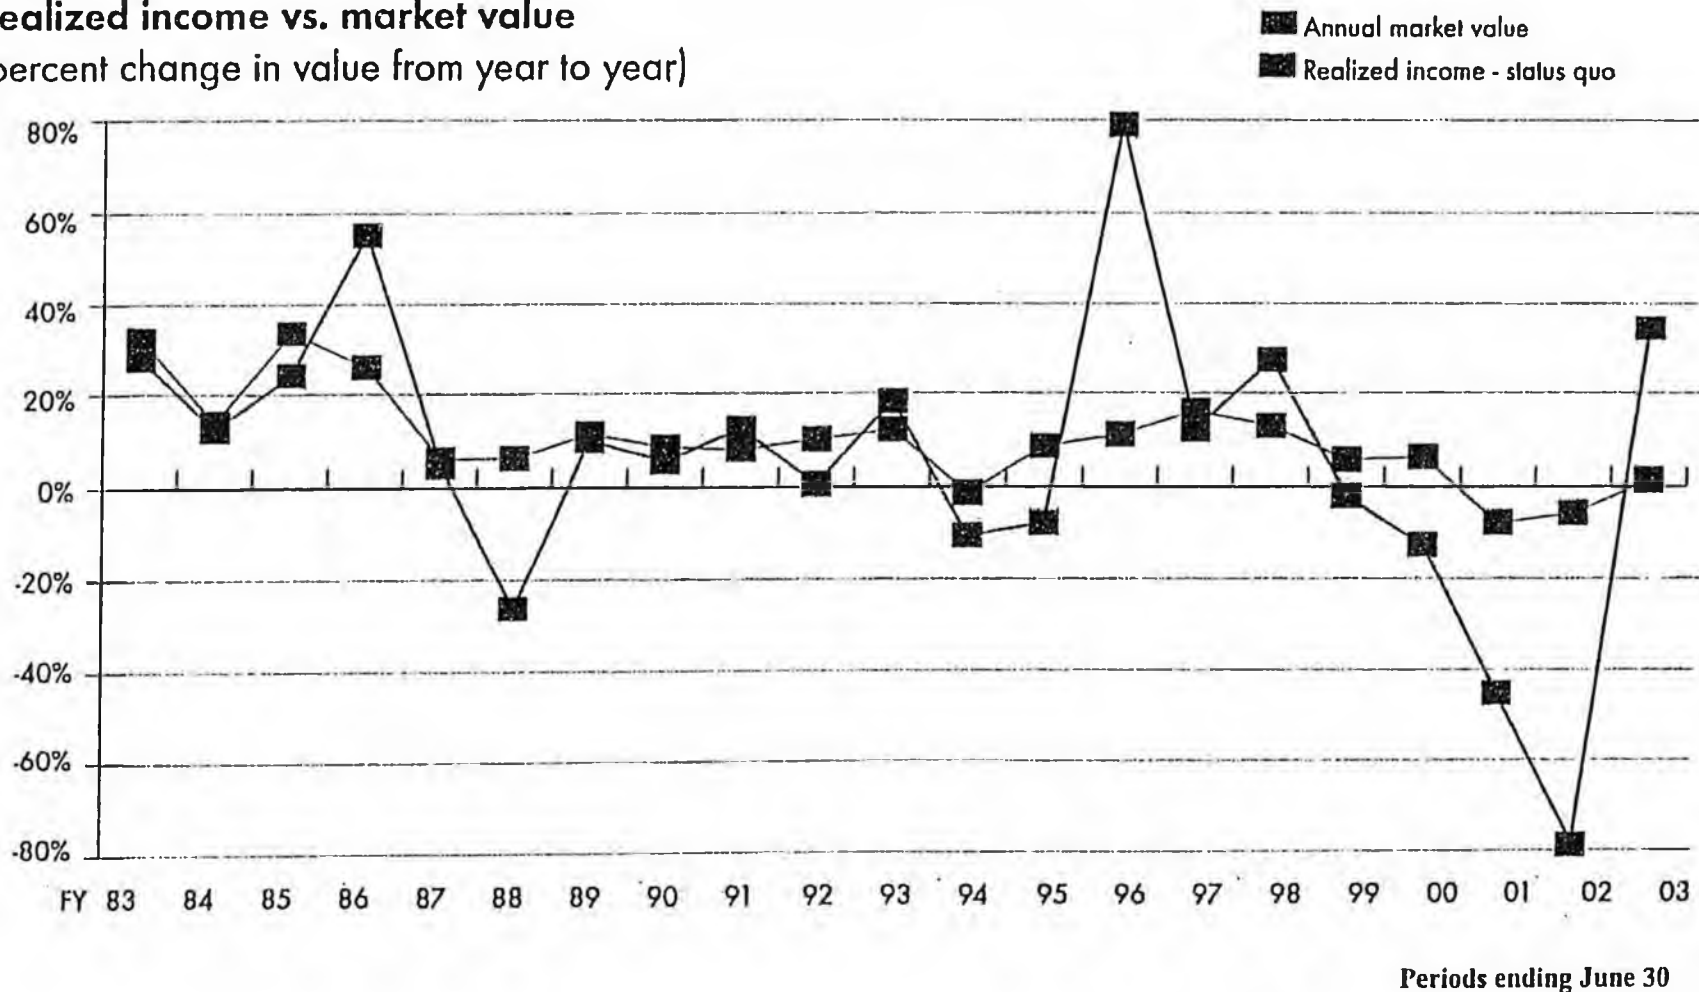

Realized income v. market value

Volatility

Realized income vs. market value

(percent change in value from year to year)

ACCOUNTABILITY

The dangers of overspending

- Overspending in good years means there will be no cushion for down years, and funds may not be available for distribution.
- Overspending in the present decreases a fund's benefit to future generations.
- Overspending can cause recipients to become dependant on an inflated income stream. This will cause hard decisions in the down years, when income isn't as high.

The dangers of overspending

Alaska Permanent Fund Principal value vs total market value

Assumption: June 30, 2000 all available earnings are paid out, total Fund value equals principal, all realized earnings are paid out in distributions and inflation proofing when possible.

Who uses POMV?

- Anchorage, Fairbanks, North Slope Borough and Sitka residents voted to use POMV for municipal trust accounts.
- Private foundations such as the Rasmuson Foundation and the Ford Foundation are required by the IRS to pay out at least 5% of their market value.
- 83% of colleges and universities polled by the National Association of College and University Business Officers use some form of a POMV payout method.

Why do we need POMV?

For the present

- Ensure the option of an annual payout
- Make payout amounts more stable from year to year
- Make payout method compatible with investment strategy

For the future

- Prevent overspending in the good years
- Maintain purchasing power for the entire Fund

What are Alaskans asking?

- **Will this change leave the principal unprotected?**
- **How will POMV affect my dividend?**
- **Is POMV a raid on the Permanent Fund?**
- **Why fix the Permanent Fund if it isn't broken?**

The Honorable Pete Kott
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Kott:

Under the authority of article III, section 18, of the Alaska Constitution, I am transmitting a bill relating to the income of and appropriations from the Alaska permanent Fund under article IX, section 15(b), Constitution of the State of Alaska, and making conforming amendments. This bill is substantially the same as CS House Bill 298(FIN) am, which passed the House during the second regular session, but with a few new provisions.

I have separately transmitted to you a joint resolution proposing a "Percent of Market Value" (POMV) amendment to the Alaska Constitution. This bill would make conforming amendments to the enabling act of the Alaska Permanent Fund Corporation necessary to implement that amendment. This bill also would make allocations of the amount available for appropriation from the Alaska Permanent fund after the POMV amendment is adopted. These allocations make provision for aid to municipalities and other communities, public education, and the Permanent Fund dividend. The allocation provisions would give moral force to the Legislature's intent to pay for these important public purposes. A new provision has been added that would adjust the allocation of amounts available for appropriation from the Alaska Permanent Fund so that the dividend will be kept at \$1,000 or more each year. The bill also contains provisions that will conform the Mental Health Trust fund revenue availability and accounting provisions to those proposed for the Alaska Permanent Fund. The Mental Health Trust fund is invested by the Alaska Permanent Fund Corporation and it will be more efficient if the computation of revenue available for appropriation is consistent for both funds.

The Honorable Pete Kott
June 21, 2004
Page 2

I believe that this bill provides a vehicle the Legislature can use to resolve how the POMV amendment would be implemented. By placing the implementing provisions in statute, the Legislature retains the power to make necessary adjustments to meet unforeseeable events.

I urge your prompt and favorable consideration of this bill.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Frank H. Murkowski". The signature is written in a cursive style with a large initial "F" and a long horizontal stroke at the end.
