SPONSOR STATEMENT for HCR 25

Alaska Wild Salmon Week

Relating to declaring June 28 – July 4, 2004 as Alaska Wild Salmon Week

Alaska is the largest commercial wild salmon fishery in the world and employs more than 29,000 people. Nearly 95% of all commercially caught salmon in the United States are harvested in Alaska. In the last decade, state salmon harvest totaled more than \$4.5 billion, making salmon extremely vital to Alaska's economy.

For both visitors and Alaskans, the sport of fishing is one of the most popular activities in the state. Last year, approximately 470,000 resident and non-resident licenses were issued for sport fishing.

Beyond the importance of commercial and sport fishing, salmon has been a nutritional source for generations of Alaskans and is a large part of the state's heritage. Rich in Omega 3 oils, salmon is a healthy food that can help lower cholesterol and reduce the risk of heart disease.

House Concurrent Resolution 25 would proclaim June 28 – July 4, 2004 as "Alaska Salmon Week". This proclamation will recognize the salmon industry as a huge part of all Alaskan's lives and raise public awareness of one of Alaska's most important industries by promoting and celebrating the catching and eating of salmon.

Dear Representative Wolf:

On behalf of the commercial fishing industry, we would like to thank you for your recognition and continued support.

The goal of Cook Inlet Salmon Brand is to revive and enhance the commercial fishing industry by establishing a quality certification program for Cook Inlet salmon and to promote that product to high-end niche markets. This program has received statewide and national recognition for its efforts to revitalize the commercial fishing industry.

Your resolution, designating June 28 to July 4, 2004 as **Alaska Wild Salmon Week**, would definitely assist us and acknowledge the importance of our efforts. I wish to add my support of your resolution.

Please let me know if you have any questions.

Sincerely,

Dear Representative Wolf:

The Small Business Development Center is very aware of the phenomenal effort put forth by our Alaska fishing industry to establish a quality certification program for Cook Inlet salmon, that would gain recognition through-out the United States and beyond our borders.

Your resolution, to designate June 28 to July 4, 2004 as **Alaska Wild Salmon Week**, would definitely assist and recognize the importance of their program goals. I wish to join in support of your resolution.

Please let me know if you have any questions.

Dear Representative Wolf:

Re: HCR 25: Alaska Wild Salmon Week

Thank you for again sponsoring a resolution promoting and proclaiming Alaska Wild Salmon Week. I look forward to June 28-July 4, 2004 to do my part to participate in activities focused on the catching and eating of salmon.

The five species of wild Alaska salmon are recognized worldwide as a superior product that provides outstanding nutritional benefits. Our State is well recognized, by resident and tourist alike, for providing incredible opportunities to harvest and enjoy this fish.

Alaskans have historically harvested salmon for hundreds, perhaps thousands of years. The commercial salmon industry has developed and changed during the past century and still contributes greatly to our workforce and economy. Many people now also enjoy recreational harvesting of salmon.

As you know, my own family has been engaged in the harvesting, processing and consumption of salmon for several generations. I heartily endorse your resolution.

Sincerely,

Loren Leman
Lieutenant Governor

Re: HCR 25, Relating to Alaska Wild Salmon Week June 28 – July 4, 2004

Dear Representative Wolf,

United Fishermen of Alaska wholeheartedly supports the designation of Alaska Wild Salmon Week for June 28 – July 4, 2004.

This designation will promote public awareness of the importance of salmon to Alaska's way of life and economy. Not only is salmon a mainstay of the state economy, exports of salmon help reduce the national trade balance of payments deficit.

We especially appreciate the inclusion of the term "wild". With the recent international and nationwide press concerning the PEW-funded study that shows generally higher toxins in farmed fish than in wild fish, including the word "wild" will help spread awareness of the distinction that Alaska salmon are wild, and safe to eat.

We also appreciate the good timing of the week you have chosen. This will give a good opportunity for promotions leading up to the biggest barbeque day of the year on the Independence Day holiday. In addition, it comes during the peak of the tourist season when visitors to Alaska from throughout the world will take notice.

We appreciate your efforts to raise public awareness of the importance of salmon.

Sincerely,

Mark D. Vinsell
Interim Executive Director

Dear Representative Wolf,

The United Southeast Alaska Gillnetters Association (USA(G)) represents about 150 small business owners who catch salmon by drift gillnetting in Southeast Alaska and market salmon throughout the United States. Many of our members participate in other fisheries such as crab, shrimp, longline, and dive fisheries. We support HCR 25 that designates June 28, to July 4, 2004 as Alaska Wild Salmon Week. This is particularly important as it will draw public awareness to Alaska wild salmon during our July 4th Independence Day celebration when salmon barbeques are especially popular. We also hope it will increase all Alaskans awareness of the importance of our salmon industry to the states economy. We appreciate your efforts in introducing this resolution and supporting our salmon fishery.

If we can further assist in supporting this legislation, please do not hesitate to contact us.

Yours truly,

Kenneth Duckett
Executive Director

Dear Representative Seaton and Committee Members:

The Alaska Trollers Association supports HCR 25, which establishes Alaska Wild Salmon Week.

Given salmon's contribution to the culture, lifestyle, and economy of Alaskans throughout the state, it is only fitting that this great animal should garner a special week of celebration.

We encourage your support of HCR 25 and hope that the state and others will work with the Alaska Seafood Marketing Institute to find ways to encourage people to sample the many benefits of utilizing wild salmon in their diets, as well as highlighting the need to continue our efforts to protect salmon and their habitats.

Please don't hesitate to contact me if I can be of assistance on this or other matters.

Best Regards,

Dale Kelley
