ANALYSIS: (Attach a separate page if necessary)
 This proposed legislation costs nothing, but would eliminate inefficiency associated with "staledating" state warrants under AS 37.05.180. Under current law, warrants that are not cashed within two years revert to the general fund unless specifically exempted. When valid claims are made on these warrants, agencies must submit new appropriation language to pay them. The resulting wait for vendors, grantees, or employees with such claims can be up to a year depending upon the timing.

The Unclaimed Property Section within the Department of Revenue was established under AS 34.45.230 to match rightful owners with unclaimed property. Adding uncashed state warrants to this mix is an efficient use of existing state resources. The cash will still reside in the general fund until a valid claim is made, but at that time it could be paid immediately.

New Funding Procedures for Stale-Dated State Warrants & Misc. Claims

Sponsor Statement

This bill changes the period after which a state warrant may no longer be presented for payment. The changes made by the bill reconcile the existing inconsistency between the payment of warrants statute (AS 37.05.180) and the unclaimed property statute (AS 34.45.230). Unless excepted under existing AS 37.05.180, a state warrant currently must be presented for payment within two years after the date of issuance. After two years, money held for the payee is released to the state treasury. If the payee subsequently presents the stale-dated warrant for payment, the issuing agency must obtain a new appropriation in order to pay for it.

Under the bill, a state warrant would be presumed abandoned after six months from the date it was issued. The money held to cover presentment of the warrant would be transmitted to the custody of the administrator of unclaimed property, in the Department of Revenue. A payee who subsequently presents a warrant after the six-month period could claim payment under the unclaimed property procedures in AS 34.45. The advantage of this change is that the stale-dated warrant could be paid immediately from the standing appropriation for unclaimed property rather than awaiting enactment of another appropriation expressly made to validate the stale warrant. Pending a valid claim to recover the abandoned money, money held to pay the warrant would be available in the general fund for appropriation by the legislature for other public purposes.

The Finance Committee made similar modifications to how miscellaneous claims are handled. Currently when a claim is presented that is over two years old, the department must process it through the supplemental budget process. HB 109 allows claims from earlier fiscal years to be paid from the department's current operating appropriation as long as the department has sufficient lapsed balance in the year of the original claim. However, if the miscellaneous claim cannot be accommodated in the current operating appropriation or is larger than the lapsed funds for the related earlier year, the department would still have to request funding in the supplemental budget request.

Miscellaneous Claims

The Department of Correction's miscellaneous claims request is in the amount of \$5,829.85. The Department has received invoices for services and purchases rendered during prior fiscal years. These claims have been examined and verified as obligations not yet paid. Research indicated that these invoices were not received in the department during the fiscal year in which the obligation occurred and were not included in the final expenditure determinations. Therefore, a valid claim exists and payment is due.

Attached for your review is a spreadsheet summarizing these claims and copies of the invoices.

Your consideration and approval of this request is appreciated. Should you have any questions or need additional information, please contact me.

The department entered into a lease/purchase agreement for a Sharp Digital Imager copier on November 19, 1999. No invoices were received for this purchase. Once the error was discovered, Sharp Electronics Corporation worked with the department to submit invoices for each fiscal year. We are unable to pay the FY2000 invoice as it exceeds the department's authority. A miscellaneous claim supplemental is requested to cover this invoice.

Documentation regarding the lease/purchase and the correspondence is attached.

This is in response to your letter of February 19, 2002 regarding the purchase of a Sharp Digital Imager copier on November 19, 1999. On the letter, you claimed that your company never invoiced the department for this purchase.

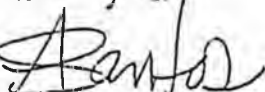

We were able to identify the equipment by the serial number on the copy of the installation report you provided with your letter, however we were unable to find invoices for this purchase.

Based on the information you have provided and our files, this purchase was based on a lease/option to purchase with 36 equal monthly payments with the terms as shown below:

\$5,107.28	Fiscal year 2000	→ Invoice is <u>Attached</u>
\$7,660.92	Fiscal year 2001.	
\$7660.92	Fiscal year 2002	
\$2554.64	Fiscal year 2003	
\$1.00	purchase option at the end of the 36 months.	

Please submit separate original invoices for each fiscal year. The department will immediately pay for the fiscal years 2001 and 2002. For the fiscal year 2000, we will need to request a miscellaneous claim supplemental appropriation on January 2003. If our request is approved, the payment would be issued in July 2003. Fiscal year, 2003 will be paid after July 1, 2002.

Thank you.

SUBJECT: Miscellaneous Claim

FEB 06 2003

The Department of Environmental Conservation requests a miscellaneous claim in the amount of \$568.03 to pay for an FY01 copier lease charge for the month of January 2001.

This lease payment for \$568.03 was paid by warrant no. 26835286 on 12/29/00. Subsequent monthly lease payments were made from invoices that usually were received with insufficient time to turnaround and get the payment posted before the next month invoice was issued, hence they had a balance forward from the previous month. When a past due notice was received it was just assumed that the payment and invoice had once again crossed in the mail as the past due notice did not mention a specific invoice number or date to reference, only the account number and past due amount. When a past due notice dated September 4, 2002 was received, the last payment showed that the vendor had redeemed the warrant before that date so was contacted to find out why it had been sent. That is when it was discovered that this past due balance was from an invoice dated 12/21/2000. The invoice number given by the vendor was put into AKSAS and showed that the warrant issued (26835286) to pay that invoice had a stop pay put on it 7/27/2001. AKSAS also revealed that the Dept of Corrections had done the stop pay. Corrections was contacted directly by the vendor that they had not received this payment so Corrections did a stop pay, but did not reissue the warrant or contact the Dept of Environmental Conservation about it, therefore was never reissued.

The request to waive this claim due to the circumstances and age was denied by the vendor's corporate office.

MEMORANDUM

State of Alaska
Department of Law
Administrative Services Division

TO: Cheryl Frasca, Director
Office of Management and Budget

DATE: 02/14/03

FROM: Kathryn Daughbete, Director
Administrative Services Division

PHONE: 465-3573

SUBJECT: FY 2003 Supplemental Items

The Department of Law hereby requests the following FY 2003 supplemental budget appropriations as part of the regular supplemental bill:

- Fairbanks District Attorney's Office Move and Lease Costs

BRU - Criminal Division
Component - Fourth Judicial District
Funding - \$95,000 General Funds

Justification

After the opening of the new Rabinowitz Courthouse in Fairbanks, the District Attorney's office there either needed additional staff, or needed to move because the distance from the new courthouse was impacting the workload and resources. The move was forced when the Department of Transportation and Public Facilities (DOTPF) decided to "cold close" the old Fairbanks Courthouse in the wake of FY 2003 reductions to its own budget. The move into the newly refurbished Northward Building took place on November 1, 2002. Because the Fairbanks DA's office had previously occupied space in a state owned facility, lease costs for that office had never been budgeted or paid from department funds. Savings in the DOTPF budget were used to keep the old courthouse open until the move took place with the balance of the savings made available to pay a portion of the move and lease costs. Those savings are transferred to the Department of Law in the base of the FY 2004 budget. This supplemental request will completely pay for the FY 2003 lease and one-time costs associated with the move and setting up the office.

- Judgments and Claims

BRU - N/A
Component - N/A
Funding - \$1,064,246.51 GF
\$ 72,053.97 PERS

Justification

The above reflects the current level of judgments and claims awaiting legislative appropriation. The Department anticipates that between \$4 and \$5 million will be needed for judgments and claims in FY 2003. This amount represents a significant increase over the original projection and is attributed to a number of large tort cases that are either settled or the subject of a court award. One of those cases recently settled for \$2,750,000. That settlement is awaiting the final paperwork for inclusion in the supplemental request. Historically, the State's tort obligations have been funded by the Catastrophic Reserve Fund (statutorily capped at \$5 million). That fund is now not sufficient to absorb these expenditures as it has been utilized to fund routine smaller claim obligations of the state's self-insurance program. This request will continue to be updated as judgments and claims are finalized.

- **Miscellaneous Claims/State-dated Warrants**

**BRU - Administration and Support
Component - Administrative Services
Funding - \$17,947.82**

The Department of Law requests these funds to pay prior year bills not received in time for payment. As a result of carryforward of FY 2002 remaining general funds in a number of Law's budget areas, prior year lapse is not available to pay these bills absent a new appropriation.

SUBJECT: FY03 Supplemental Request

OFFICE OF
MANAGEMENT & BUDGET

FEB 11 2003

The Department of Fish and Game has identified the following supplemental requests for FY2003.

MISCELLANEOUS CLAIMS

Under the provisions of AS 37.23.010, a department cannot pay invoices that are more than two years old. In such instances, it is necessary to ensure sufficient funds were lapsed and to obtain supplemental funding before these bills can be legally paid. We are currently aware of miscellaneous claims totaling \$3,000.00 against the department. Attached is a copy of the backup for these transactions.

RATIFICATIONS

The department has identified two prior year appropriations that will require ratifications to address an over-expenditure situation.

The first appropriation is a prior year capital project (AR 43655-01) for a Fish Pass that was funded by EVOS receipts. The over-expenditure occurred when a periodic interface that allocates holiday and leave charges processed an \$8.05 assessment after the appropriation had terminated. The condition was not discovered until after the reappropriation period ended. Consequently, we request a ratification in the amount of \$8.05 to correct the problem.

The second ratification is for \$16,437.65 in the Division of Administrative Services.

AR 42100

During the reappropriation period for the fiscal year ending June 30, 2002, the department established accounts receivable related to anticipated receipts for several grants and programs for which the state was owed money. The following month, the Administrative Services component provided \$53,300 of the Department's contribution to replenish the State's Insurance Catastrophe Fund under AS 37.05.289.

Subsequent to the reappropriation period and the general fund sweep to the Insurance Catastrophe Fund, it was determined that some federal and non-federal program receipts were unrealizable. The department initiated corrective action to minimize the deficiency and reduce the need to less than the component's contribution to the Insurance Catastrophe Fund. Because the transaction affected a prior year appropriation, the Division of Finance was unable to accommodate our request to return a portion of the contribution, which would have fully corrected the problem. Accordingly, we must request a legislative ratification for \$16,437.65 to correct the shortfall in AR 42100-02.

Thank you for your consideration of this request. If you have any questions, or require additional information, please contact me or Kevin Brooks at 465-5999.

Subject: Stale Dated Warrant Supplemental Appropriation 2003-1

Attached is the first submission of the annual request for a supplemental appropriation to cover approved requests to reissue stale dated warrants. The total of this first memorandum is \$44,916.88. Please add this amount to the miscellaneous appropriation your division prepares for the Department. Attached are copies of the researched stale dated warrant files.

We anticipate adding to the supplemental request through March 31st as agencies receive and evaluate additional requests. If you have any questions about any part of this file, please contact Sandra Rasmussen at 465-5591 or Chrisie Zepp at 465-5609.
