AMEND. #1

AMENDMENT

OFFERED IN THE SENATE  
TO: CSSB100 (FIN)

BY SENATOR WILKEN

**Technical Amendments:**

Page 25, line 14 and 15

Delete: "and Back-up Generator"

Page 8, line 17

Insert: Municipality of Anchorage - Mike Street, Bonanza Road, Nielson Way  
- Chip Sealing, Drainage, and Recycled Asphalt Program (ED 17-32)

Page 55, line 13

Insert: Anchorage Chugiak Birchwood Eagle River Rural Road Service Area  
(CBERRRSA) Road and Drainage Rehabilitation (ED 17-32)

Page 29, line 12

Delete: 200,000 General Funds

Add: 200,000 Other Funds

**Explanation: This change replaces general funds with receipt supported services funding.**

Page 4, lines 12 - 15

Delete all material

Page 6, following line 13

Insert:

Allocation	Appropriation Items	General Funds	Other Funds
"Kenai Peninsula Borough/ Kachemak Emergency Service Area - Fast Attack Fire Engine (ED 33-35)	135,000	135,000	

Page 6, lines 11 - 13:

Delete all material

Page 33, following line 13:

Insert:

Allocation	Appropriation Items	General Funds	Other Funds
"Fairbanks: Improvements to the 23 Mile Slough Road between the service area and Boondox (ED 7-11)"	302,500	302,500	

Page 6, lines 22 – 25:

Delete all material

Page 4, following line 20:

Insert:

Allocation	Appropriation Items	General Funds	Other Funds
“City of Kenai – Joint Municipal Water and Sewer System Analysis (ED 33-35)	75,000	75,000	

Page 5, following line 19:

Insert:

Allocation	Appropriation Items	General Funds	Other Funds
“City of Soldotna – Joint Municipal Water and Sewer System Analysis (ED 33-35)	75,000	75,000	

**Explanation:** A net-zero amendment to a \$150,000 appropriation to the Kenai Peninsula Borough. The utilities conducting the analysis are owned by the city, and therefore, the funds will be divided equally between the two local governments.

## AMENDMENT

OFFERED IN THE SENATE

BY SENATOR WILKEN

TO: CSSB 100 (FIN), Draft Version "Q"

Page 78, line 25:

Delete: "made for"

Insert: "that take effect in"

Page 78, following line 27:

Insert a new subsection to read:

"(c) The sum of \$125,000 is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the Department of Revenue, treasury division, for the fiscal year ending June 30, 2004, for investment management fees for the budget reserve fund (art. IX, sec 17, Constitution of the State of Alaska)."

Reletter the following subsection accordingly.

Page 78, line 28:

Delete "(a) and (b)"

Insert "(a) - (c)"

# AMEND.# 3

## AMENDMENT

OFFERED IN THE SENATE  
TO: CSSB100 (FIN)

BY SENATOR WILKEN

### **DOT&PF**

Page 33, line 14 - Statewide Federal Programs, Other Funds

**Delete:** 79,475,000

**Add:** 82,475,000

### **Insert new allocation:**

Statewide Congestion Mitigation and Air Quality (CMAQ) Projects  
3,000,000 Other Funds

### **Following new allocation, insert the following intent language:**

It is the intent of the legislature that these funds are to meet air quality objectives as determined by ADEC recommendations, including a priority on ensuring that federally designated non-attainment areas under the federal Clean Air Act achieve and sustain a 'Maintenance' status as defined in the Act.

### **Explanation:**

This amendment creates a new allocation under the appropriation for Statewide Federal Programs. There is an additional \$3,000,000 expected for statewide CMAQ projects from the Federal-Highway Administration.

**Statewide: Congestion Mitigation and Air Quality  
Implementation Plan**

**FY2004 Request: \$3,000,000  
Reference No: AMD38583**

**APIAL: Allocation**

**Project Type: Construction**

**Category: Transportation**

**Location: Statewide**

**Contact: John MacKinnon**

**Election District: Statewide**

**Contact Phone: (907)465-6973**

**Estimated Project Dates: 07/01/2003 - 06/30/2008**

**Appropriation: Surface Transportation Program**

**Brief Summary and Statement of Need:**

Provide funding to projects that are identified in the State Implementation Plan (SIP) for Air Quality that offer the highest total air quality benefits. The SIP is prepared periodically by the Dept. of Environmental Conservation, in response to the Clean Air act. USDOT is requiring that we allocate CMAQ funds, using a competitive process that applies these funds to projects with the greatest air quality benefits.

<b>Funding:</b>	<b>FY2004</b>	<b>FY2005</b>	<b>FY2006</b>	<b>FY2007</b>	<b>FY2008</b>	<b>FY2009</b>	<b>Total</b>

AMENDMENT

OFFERED IN THE SENATE  
TO: CSSB100 (FIN)

BY SENATOR WILKEN

**Department of Natural Resources**

Division of Parks - Lower Kenai River Public Use Impact Study  
\$100,000 Fish/Game Fund

Explanation:

This project allows the Department of Natural Resources to conduct a public analysis on the impact of overcrowding on the lower Kenai River by recreational user groups. The previous administration imposed a hasty guide moratorium on the Kenai River and the current administration rescinded that moratorium. This CIP will enable the Department to seek the input of recreational users and businesses before any further use restrictions are imposed.

**Department of Fish and Game**

Division of Wildlife Conservation – Laboratory Remodel  
\$150,000 Fish/Game Fund

Explanation:

This CIP request was submitted by the Office of Management and Budget on March 24, 2003. Backup is attached.

THE  
FOLLOWING  
DOCUMENT(S)  
ARE  
POOR  
ORIGINAL  
COPIES

**Wildlife Conservation Laboratory Remodel**

**FY2004 Request: \$150,000**  
**Reference No: AMD38528**

**APIAL:** Appropriation  
**Category:** Development  
**Location:** Anchorage Areawide  
**Election District:** Anchorage Areawide  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008

**Project Type:** Renovation and Remodeling  
**Contact:** Kevin A Brooks  
**Contact Phone:** (907)465-5999

**Brief Summary and Statement of Need:**

The Division of Wildlife Conservation has a need for additional research laboratory space in Anchorage. There is existing space within the Anchorage Regional Office that can be remodeled, and combined, while upgrading an existing lab that will result in a dual function research laboratory to meet our needs. Funds will be utilized for professional design services, construction and the purchase and upgrade of necessary equipment. Some new laboratory equipment planned for the remodeled facility will be acquired with existing federal project funds. The department has received a positive preliminary permitting and code compliance review from the Municipality of Anchorage.

Funding:	FY2004	FY2005	FY2006	FY2007	FY2008	FY2009	Total
Fish/Game	\$150,000						\$150,000
Total:	\$150,000	\$0	\$0	\$0	\$0	\$0	\$150,000

**Operating & Maintenance Costs:**

	Amount	Staff
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

**Prior Funding History:**

None

**Project Description/Justification:**

Laboratory space is proposed for remodeling/upgrading at the Anchorage Regional Office located at 333 Raspberry Road to support physiological ecology research conducted by several research groups within the Division of Wildlife Conservation. The project will include the upgrading of approximately 600 square feet of existing lab space, the remodeling and combining of approximately 700 square feet of space adjacent to the existing lab, and the installation of necessary laboratory equipment. Commercial rental of additional lab space is cost prohibitive and unnecessary due to the availability of existing space that can be converted within the Regional Office building.

Biological staff requires a clean environment to perform research on bears, furbearers, marine mammals, and other species. The primary function of the existing space has been as a necropsy laboratory. Expanded uses of the remodeled/upgraded lab will provide a clean facility which allows for additional and highly sophisticated physiological ecology research of bears, furbearers, and marine mammals. The majority of the questions addressed in the research conducted by these groups center on determination of body condition, diet and health of various terrestrial and marine species (bears, walrus, sea lions etc.). These research avenues require a "clean" lab space for the processing of animal blood and tissue samples, plus a relatively dust free environment, both for sample integrity and for the sensitive electronic equipment involved in the various analyses.

This type of research laboratory often resembles a general biochemistry laboratory, with a great deal of electronic analytical instrumentation coexisting with frequent use of organic solvents requiring constant fume hood access. A portion of the laboratory space is also dedicated to maintenance of 5 ultra cold (-80 C) tissue storage freezers that house the collection of tissues currently being analyzed as well as those archived for future analyses.

Dear Finance Committee Co-Chairs:

I am submitting the following Department of Transportation and Public Facilities **capital budget amendments** for your consideration:

### Amendment 1

Delete the following two project allocations in the Surface Transportation Program appropriation:

[ALASKA MARINE HIGHWAY: 40,000,000  
JUNEAU-PETERSBURG FAST  
VEHICLE FERRY (ED 1-5)]

ALASKA MARINE HIGHWAY: 28,000,000  
KETCHIKAN-WRANGELL-SOUTH  
MITKOF FAST VEHICLE FERRY (ED 1-5)]

(The fund source for both allocations is Federal Receipts.)

### Amendment 2

Insert a new project allocation in the Surface Transportation Program appropriation:

Alaska Marine Highway: Ferries, 68,000,000  
Terminals and Connector Roadways

(The fund source for this new allocation is Federal Receipts.)

Alaska Marine Highway: Ferries, terminals and connector roadways      FY2004 Request: \$68,000,000

Dear Finance Committee Co-Chairs:

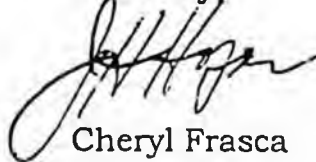

I am submitting the following **capital budget amendments** for your consideration:

### Amendment Package 1

The Department of Transportation and Public Facilities has submitted several project revisions, deletions, and additions. Please see DOT's attached memo and spreadsheet for a listing of all the changes. Also attached are the individual project descriptions.

If you have any questions, please call me (465-4660) or Joan Brown (465-4681).  
Thank you.

Sincerely,

Cheryl Frasca  
Director

# MEMORANDUM

State of Alaska  
Department of Transportation & Public Facilities  
Commissioner's Office

TO: Cheryl Frasca, Director  
Office of Management and Budget

DATE: May 2, 2003

FAX NO: (907) 586-8365  
TELEPHONE NO: (907) 465-3900

FROM: Mike Barton  
Commissioner

SUBJECT: Amend FY04  
Capital Request

The Department of Transportation and Public Facilities (DOT&PF) is requesting amendments to the capital budget bills (HB 150 and SB 100) before the Legislature.

## RURAL AIRPORT PROJECTS

The Department is requesting the following changes to rural airport capital projects:

### Amend

#### **Chevak: Snow Removal Equipment Building –**

Increase from \$50,000 to \$200,000 federal receipt authority. The cost to build this structure has increased over previous estimates. This amount is needed in addition to an FY03 appropriation to bring the total estimated cost to \$750,000.

### Add

#### **Scammon Bay: Airport Snow Removal Equipment Building –**

\$100,000 federal receipts. Reflects revised Airport Improvement Program request. This project will upgrade the Scammon Bay Snow Removal Equipment Building.

#### **Statewide: Various Airport Snow Removal Equipment –**

\$4,300,000 federal receipts. This was inadvertently omitted from the department's original request. The project provides federal authority to purchase new or replacement snow removal equipment at several rural airports.

## SURFACE TRANSPORTATION PROJECTS

The Department's current AMATS and Surface Transportation requests are \$68,734,000 and \$416,092,600.

The following reductions are being requested to various highway projects:

(\$39,906,000) - Over the past year there has been a decrease in the amount of federal fuel tax revenues collected, which have caused a corresponding reduction in the highway construction program. A reduction in specific projects is being requested to reflect delays due to the decreased federal funding.

(\$48,125,000) - This amendment requests project reductions where the department has determined that adequate project authority already exists to continue work through FY04.

(\$1,205,000) - Also being requested is a reduction in TRAAK projects to reflect a program allocation decrease.

The following additions are being requested:

\$55,416,000 - New or increased federal project authority is being requested where scope changes, funding breakdown, updated estimates or priorities have changed.

\$21,700,000 - Project authority is needed for earmarks contained within the recently approved congressional appropriation bill.

Finally, the amendment contains the elimination of individual pavement and bridge projects and combines them into regionwide allocations. This will provide the regions flexibility in determining their greater need, pavement or bridge repair. Similar adjustments are taking place for AMATS and FMATS projects.

The net effect of these amendments is a reduction of \$12,220,000 to the AMATS and Surface Transportation appropriation requests. A spreadsheet with the changes is attached.

If you have any questions or need further information, please contact Nancy Slagle at 465-3911.

**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Anchorage Metropolitan Area Transportation System (AMATS) Projects

**Brief Summary and Statement of Need:**

This amendment updates the project's allocation based on reduced federal funding of \$5.33 million. The Anchorage Metropolitan Planning Organization (MPO) must select surface transportation improvement projects except on the National Highway System. The amount represented here is based on a formula derived in state regulation 17 AAC 05.155. As the Anchorage MPO has not completed its Transportation Improvement Program for 2004, this is the amount available from the State Transportation Improvement Program.

<b>Funding:</b>	<b>FY2004</b>	<b>FY2005</b>	<b>FY2006</b>	<b>FY2007</b>	<b>FY2008</b>	<b>FY2009</b>	<b>Total</b>

**Anchorage Metropolitan Area Transportation System 2004**    **FY2004 Request:**    **\$2,750,000**  
**Mandatory Congestion Mitigation and Air Quality Program**    **Reference No:**    **AMD38517**

**AP/AL:** Allocation    **Project Type:** Construction  
**Category:** Transportation  
**Location:** Anchorage Areawide    **Contact:** John Mackinnon  
**Election District:** Anchorage Areawide    **Contact Phone:** (907)465-6973  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Anchorage Metropolitan Area Transportation System (AMATS) Projects

**Brief Summary and Statement of Need:**

This amendment adjusts federal funding by \$30,000. The Anchorage Metropolitan Planning Organization (MPO) must select Congestion Mitigation and Air Quality (CMAQ) projects that address air quality standards non-attainment. Since the Anchorage MPO has not completed its Transportation Improvement Program for 2004, these funds are shown as a block. This amount is in addition to the formula amount based on state regulation 17 AAC 05.155 allocated to combat air quality problems in Anchorage.

**Brief Summary and Statement of Need:**

Road resurfacing, rut repair, and road resurface and transfer program within the Anchorage Metropolitan Area. This program is for state roads only. The State owns and maintains many roads that would in other states be the responsibility of the metropolitan area or county. The State is prohibited from selecting projects except on the National Highway System. This program will encourage the Anchorage Metropolitan Planning Organization (AMATS) to select projects on state roads by providing funds for that purpose. This program may also be aimed at improving state roads for ownership transfer to the Municipality of Anchorage.

**Election District:** Fairbanks Areawide  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

This amendment adjusts the project's cost by \$30.0. When designated by the Governor (must be done by May 1, 2003) the Fairbanks Metropolitan Planning Organization (MPO) must select Congestion Mitigation and Air Quality (CMAQ) projects that address air quality standards non-attainment. This amount is in addition to the formula amount based on state regulation 17 AAC 05.155 allocated to combat air quality problems in Fairbanks.

<b>Operating &amp; Maintenance Costs:</b>	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

**Prior Funding History:**

FY2003 - \$380,000. Project description updated.

**Project Description/Justification:**

Install trail markers/tripods along winter trails in the Northern Region, beginning with the Lower, Middle, and Upper Yukon areas. As funding permits, priorities for construction are:

- 1) Mountain Village - Russian Mission (Completion: 80 miles)
- 2) Tanana - Alakaket (120 miles)
- 3) Hughes - Alakaket (75 miles)
- 4) Hughes - Huslia (90 miles)
- 5) Tanana - Manley (65 miles)

These trails are the winter transportation routes between remote communities in Alaska. Winter travelers get lost every year traveling between villages on unmarked trails. This project will provide safe winter travel for rural Alaska residents.

This work will complete the Lower Yukon Trail marking and start marking identified trails in the Middle and Upper Yukon Area. Use of local force account labor is anticipated. The estimated cost for trail staking is \$1,000-\$1,500/Mile depending on the spacing of the markers.

**Camp Gorsuch Road & Related Improvements**

**FY2004 Request: \$500,000**  
**Reference No: AMD38594**

**AP/AL:** Allocation **Project Type:** Construction  
**Category:** Transportation  
**Location:** Anchorage Areawide **Contact:** John MacKinnon  
**Election District:** Anchorage Areawide **Contact Phone:** (907)465-6973  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

This is a federal earmark from the 2003 Federal Omnibus Appropriations Act. This project will upgrade Camp Gorsuch Road (0.7 mile) to a 2-lane gravel road with pullouts and parking areas, including drainage and safety improvements.

The project will provide improved access into the Rasmuson Boy Scout Reservation, Municipal Park land and Heritage Land Bank land. More than 7,000 children and adults use these areas year-round for skiing, horseback riding, fishing, day hikes, bird watching as well as scouting activities by the Boy Scouts of America. Upgrade of the road will alleviate erosion caused by traffic on the unimproved road and protect traffic from rolling into ravines paralleling the existing roadway.

**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

Road resurfacing, rut repair, and road resurface and transfer program within the Fairbanks Metropolitan Area. This program is for state roads only. The State owns and maintains many roads that would in other states be the responsibility of the metropolitan area or county. The State is prohibited from selecting projects except on the National Highway System. This program will encourage the future Fairbanks Metropolitan Planning Organization (FMATS) to select projects on state roads by providing funds for that purpose. This program may also be aimed at improving state roads for ownership transfer to Fairbanks.

**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

Two major projects are underway within the future Fairbanks Metropolitan Planning Area (FMATS). These projects will become part of the FMATS program in the future. The projects: Illinois/Barnette and Bridge, and University Avenue Widening. They are large dollar-wise and cannot be accommodated within the funding allocation. To transition the allocation and carry these projects forward, this transitional allocation is being made only for these two projects. It represents one-half of the value of the projects in 2004.

Funding:	FY2004	FY2005	FY2006	FY2007	FY2008	FY2009	Total

**Estimated Project Dates:** 07/01/2003 - 06/30/2008

**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

This is a federal earmark from the 2003 Federal Omnibus Appropriations Act.

The downtown bike path and related amenities was a project envisioned by the late Dr. William Wood. His wish was to enhance the downtown Fairbanks waterfront and encourage passers-by to pause and enjoy the area. The funding will assist in extending an active city beautification project shared by the City of Fairbanks, Fairbanks North Star Borough, local non-profits and the Department.

<b>Funding:</b>	<b>FY2004</b>	<b>FY2005</b>	<b>FY2006</b>	<b>FY2007</b>	<b>FY2008</b>	<b>FY2009</b>	<b>Total</b>

**Project Description/Justification:**

This is a federal earmark from the 2003 Federal Omnibus Appropriations Act.

The downtown bike path and related amenities was a project envisioned by the late Dr. William Wood. His wish was to enhance the downtown Fairbanks waterfront and encourage passers-by to pause and enjoy the area. The funding will assist in extending an active city beautification project shared by the City of Fairbanks, Fairbanks North Star Borough, local non-profits and the Department.

**Key project benefits:**

Continue a successful public and private sector partnership.

Encourage further rehabilitation of the downtown area.

Improve the lighting and encourage user safety.

Rehabilitate pedestrian walkways.

Provide a non-motorized transportation link through the downtown area.

Enhance the use and maintain the health of the green belt along the Chena River.

**Fort Wainwright: Alternative Access and Chena River Crossing**

**FY2004 Request: \$1,500,000**  
**Reference No: AMD38592**

**Estimated Project Dates: 07/01/2003 - 06/30/2008**

**Appropriation: Surface Transportation Program**

**Brief Summary and Statement of Need:**

This is a federal earmark from the 2003 Federal Omnibus Appropriations Act to be used to extend Dennis Road north approximately one mile from the Badger Road Intersection to provide access to the residential area isolated by the Chena River and Fort Wainwright. Project will include a 230' bridge across the Chena River and intersection improvements at Badger Road. Lighting, extension of drainage facilities, a bike/pedestrian pathway to connect with the existing facility on Badger Road, and relocation of six utility poles are also included in the project.

<b>Funding:</b>	<b>FY2004</b>	<b>FY2005</b>	<b>FY2006</b>	<b>FY2007</b>	<b>FY2008</b>	<b>FY2009</b>	<b>Total</b>

One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

**Prior Funding History:**

None.

**Project Description/Justification:**

This is a federal earmark from the 2003 Federal Omnibus Appropriations Act.

This project is needed to alleviate a long-standing access issue for an expanding residential area that is restricted by Fort Wainwright and the Chena River. The recent heightened security severely restricted access to essential services. The Fairbanks North Star Borough and Fort Wainwright are seeking a resolution to this access problem.

Total project estimate: \$7,260,000

**Geographic Information Systems (GIS) Development**

**FY2004 Request:**

**\$750,000**

**Reference No:**

**AMD38572**

**AP/AL:** Allocation

**Project Type:** Construction

**Location:** Sutton    **Contact:** John MacKinnon  
**Election District:** Richardson/Glenn Highways    **Contact Phone:** (907)465-6973  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Surface Transportation Program

**Brief Summary and Statement of Need:**

This project will repair two embankment failures and replace the pavements on the Glenn Highway at MP 58 and at MP 97. The failure at MP 58 is about 1,300 feet, and the other failure extends about 350 feet. Project will include additional geotechnical investigations to include drilling, sampling and soils testing to determine the cause of the failure and develop slide stabilization alternatives. Both repairs will stabilize the embankment failures and eliminate the need for long term maintenance.

**Brief Summary and Statement of Need:**

Planned is a pedestrian walking path from Soldotna Creek Park to the right-of-way of Binkley Circle. The pathway is expected to be 6' to 12' wide and may be a gravel trail, paved trail or elevated grate (or boardwalks). The pathway may include picnic areas and viewing benches. This project also includes expansion and improvements to the trailheads. Trail system is used by tourists, visitors and local residents to the Soldotna area and the Kenai River. Project is being coordinated with the Corps of Engineers, Kenai River Special Managements Area Board, National Resource Conservation Service, EPA staff and other state and local agencies.

amended  
(Pg. 2)

**AMENDMENT A TO AMENDMENT #8**

OFFERED IN THE SENATE  
TO: CSSB 100 (FIN)

BY SENATOR WILKEN

*The following amends Senate Finance amendment #8 for the Department of Transportation and Public Facilities.*

(Page 5, lines 78-80 on the DOT&PF revised spreadsheet)

Delete the following three project allocations in the Surface Transportation Program appropriation:

[CENTRAL REGION: PAVEMENT AND BRIDGE REFURBISHMENT (ED 12-35)	20,000,000
---	------------

NORTHERN REGION: PAVEMENT AND BRIDGE REFURBISHMENT (ED 6-11)	20,000,000
--	------------

SOUTHEAST REGION: PAVEMENT AND BRIDGE REFURBISHMENT (ED1-55)]	6,000,000
---	-----------

The fund source for the three allocations is Federal Receipts.

CSSB 100 (FIN): amendment to amendment #8  
Senate Finance Committee  
May 7, 2003

Insert a new project allocation in the Surface Transportation Program appropriation:

**NHS and Non-NHS Pavement and Bridge Refurbishment** **46,000,000**

The fund source for this new allocation is Federal Receipts.

Effective Date: <sup>July 1</sup>~~June 30~~, 2003

Lapse: Add to capital project lapse provision

**Add the following intent language:**

It is the intent of the Legislature that not less than 27.75% of the funds received for pavement and bridge refurbishment shall be used for transportation projects, including local roads, within the AMATS boundary and not less than 6.86% shall be used for transportation projects, including local roads, within the FMATS boundary.

Responses to Senate Finance Questions raised on May 5, 2003  
By Alaska Department of Transportation and Public Facilities – May 6, 2003

*Q. There are several different allocations being reduced or deleted, and several other new allocations being created. They do not appear to add-up or mathematically balance.*

A. The several allocations being reduced all consist of one form or another of preventative maintenance, some specific as to the nature of the work, others specific as to the geographic allocation. (The attached spreadsheet depicts the changes reflected in the amendment.)

Given the great uncertainty in predicting the actual funding level for 2004, it was felt that combining these allocation into single, more comprehensive and flexible authority would best serve the state. This new allocation would be eligible for all road classes, and both MPOs and areas outside the two MPOs. MPOs would receive a share based on the formula established under state regulations.

Simultaneously, we opted to enlarge the total authority by about \$10 million in order to provide excess authority in the event that the estimate of federal formula funds is too low. Preventative maintenance is one of the best places to put any additional funds received, as it is:

- vitally needed to preserve and improve existing investments
- very scalable work as to funds actually received
- easy to implement often requiring few permits and environmental approvals.

*Q. The MPOs appear to have taken a 16% reduction in funds. Can you demonstrate in the capital budget reductions how the other areas of the state have also taken a like percentage reduction.*

A. The capital budget only reflects projects that need legislative authority, in part or in whole, in order to proceed in 2004. Many on-going projects that will be undertaken in 2004 received their legislative authority in 2003 or earlier. Also, capital budget contains projects not subject to the STIP formulas including earmarks, non-flexible categories such as Public Lands Discretionary, and funds not part of the surface transportation program such as aviation. Thus, the best way to demonstrate that the formula funds for projects planned in 2004, including any reductions or increases, will be equitably distributed between MPOs and non-MPOs is the STIP programming targets (see attached spreadsheet).

The spreadsheet demonstrates that all funding to MPOs and other areas is driven by the percentages and formulas set out in 17 AAC 05 155 & 190. The target programming levels for each category of work (NHS, AHS, CTP, TRAAK) and the target transfer levels of funds to MPOs (AMATS, FMATS) vary with the actual level of federal formula funds received. The changes to all recipient categories are proportionate to the change in federal funds ensuring equity to all recipients.

backup to Amend. # 8 5/7/03

**Comparison of Project Adds and Deducts  
Based on DOT&PF FY 04 Capital Budget - Revised Amendment**

Line #	Component	Project Description	Deducts	Adds
<b>Summary of Deleted Projects</b>				
1	AMATS	NHS Rut Repair	6,900,000	
2	AMATS	NHS Intersection Impr.	3,300,000	
10	CR	Guardrail end treatment	2,000,000	
11	CR	NHS Rehab	7,000,000	
12	CR	Non NHS Rehab	5,000,000	
36	NR	NHS Rehab	7,348,500	
37	NR	Non NHS Rehab	3,275,000	
48	Statewide	Hightower Lighting Replac.	1,500,000	
49	Statewide	Road Surface Treatment	4,600,000	
		Column Total:	40,923,500	
<b>Summary of Added Projects</b>				
74	FMATS	PM on State or Local Roads		1,375,000
73	AMATS	PM on State or Local Roads		3,200,000
78-80	Statewide	NHS and Non-NHS Pvmt. and Bridge Refurb.		46,000,000
-	FMATS	Suballocation	6.86%	3,155,600
-	AMATS	Suballocation	27.75%	12,765,000
-	Other areas	Suballocation	Remainder	30,079,400
		Column Totals:		50,575,000

- Notes:
- 1) New allocation is available both statewide and within MPOs; it is eligible for wide range of preventative maintenance activity as determined by inspection reports for pavement, bridges, guardrail and other highway features.
  - 2) Enlarged allocation provides scalable program, to match actual federal aid realized in 2004.
  - 3) Actual funding will be distributed to MPO and non-MPO areas proportionally.

**Alaska Department of Transportation and Public Facilities**

BY: Senators Hoffman, Olson

Sec. 1, Page 24, Line 20

ADD

	Appropriation Items	General Funds	Federal Funds
Juneau Public Health Center Heating and Ventilation Upgrades, Phase 2 (ED 3)	\$789,257	\$647,191	\$142,066

### Rationale:

The heating and ventilation systems at the Juneau Public Health Center are on the edge of failure. Restoring funding for this governor's request will complete a phased project for which the legislature has appropriated startup money in recent years.

The current systems at the Public Health Center are inadequate for patient care, staff comfort, and the air quality necessary at a medical facility. The systems are in such dire need of work that they are out of compliance with building codes. The existing stopgap measures are expensive electric baseboard heaters and opening and closing windows. Should the systems fail completely, patient care will be compromised and the center may face closure.

Because the heating and ventilation systems must be completely replaced, further phasing of this project is not possible.

**Juneau Public Health Center Heating and Ventilation Upgrades - Phase 2**

**FY2004 Request: \$789,257**  
**Reference No: 32451**

**AP/AL:** Appropriation  
**Category:** Health/Human Services  
**Location:** Juneau (Juneau/Downtown/Douglas)  
**Election District:** Juneau/Downtown/Douglas  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008

**Project Type:** Deferred Maintenance  
**Contact:** Larry Streuber  
**Contact Phone:** (907)465-1870

**Brief Summary and Statement of Need:**

This facility has no ventilation system and the heating system is on the verge of failure. The legislature provided funds in FY2002 for the design of a new heating and ventilation system. A detailed evaluation conducted by Southeast Energy Consulting found that the heating and ventilation system at the Juneau Public Health Center is out of compliance with the 1991 and 1994 Uniform Building Code requirements. This request would provide funding to replace the current heating system and to provide a new ventilation system.

**Operating & Maintenance Costs:**

	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

**Prior Funding History:**

CH135/SLA00/P14/L23 \$107.3 AHFC and \$24.4 Federal  
 CH61/SLA01/P19/14 \$73.8 GF and \$16.2 Federal

**Project Description/Justification:**

A detailed evaluation and plan conducted by Southeast Energy Consulting found that the heating and ventilation system (HV) at the Juneau Public Health Center (JPHC) is out of compliance with the 1991 and 1994 Uniform Building Code requirements. This evaluation found that the HV system at the JPHC is incapable of providing adequate thermal comfort and indoor air quality, and must be replaced.

There have been consistent problems with the HV system since the facility was purchased by the state in 1991. The current system was initially designed for two clinic areas on the upper level and two proposed suites on the lower level, using four zones with heat pump technology. This system is not adequate for the increased occupant load and separate room layout required of the health center and is failing. In an effort to improve the ventilation and heating, operable windows were installed on both floors and supplemental electric baseboard heating units were installed on the lower floor. The electric heaters have increased heating capacity and thermal comfort in the exterior rooms on the lower level at increased operating cost and serve only as a temporary solution to overall facility heating problems. The design for the new system will be complete by August of 2003, and the construction portion of the project will be ready to bid by September of 2003.

The HV problems have been analyzed completely and replacement of the heating system is the only viable solution. There is no alternative. The construction of this project cannot be phased. If there is not adequate heating and ventilation, clinical services to patients may be curtailed. The temporary fixes are costly and only partially address the lack of heating and ventilation. Heating and adequate ventilation are essential for a health facility to provide clinical services for the public.

**Juneau Public Health Center Heating and Ventilation  
Upgrades - Phase 2****FY2004 Request: \$789,257  
Reference No: 32451**

The overall condition, appearance and function of the JPHC is good and it serves the public well. Resolution of the HV problem is an essential maintenance issue to insure the health and safety of patients and nursing personnel at the JPHC. The department has exhausted all intermediate repairs to keep the existing system functioning. There is an immediate and compelling need for the State of Alaska to fix this problem.

The following photograph shows the air-to-air heat pumps that are the primary heat source for the health center. The two covered in snow are non-operational and the two that are working are marginal at best. When the temperature drops below 30 degrees Fahrenheit, the supplemental electrical heaters must be activated, substantially increasing the heating costs for the facility.

## AMENDMENT

Offered in the Senate  
To: CS SB100(FIN)

By Senator Wilken

### **Department of Fish and Game**

ADD:

Division of Sport Fish – Lower Kenai River Public Use Impact Study  
\$100,000 Fish and Game Fund

It is the intent of the Legislature that the Department of Fish and Game enter into an agreement for services with the Department of Natural Resources to conduct a public analysis on the impact of overcrowding on the lower Kenai River by recreational user groups.

#### Explanation:

This project and accompanying intent language, allows the Department of Fish and Game to contract with the Department of Natural Resources (DNR) for an analysis on the impact of overcrowding on the lower Kenai River by recreational user groups. The previous administration imposed a hasty guide moratorium on the Kenai River and the current administration rescinded that moratorium. This project will enable the DNR to seek the input of recreational users and businesses before any further use restrictions are imposed.

ADD:

Division of Wildlife Conservation – Laboratory Remodel  
\$150,000 Fish and Game Fund

#### Explanation:

This project was submitted by the Office of Management and Budget on March 24, 2003. Backup is attached.

## AMENDMENT

OFFERED IN THE SENATE  
TO: CSSB 100 (FIN)

BY SENATOR WILKEN

DELETE:

Page 9, Lines 13-16:

Municipality of Anchorage	\$270,000
Laurel St. Upgrade, Dowling Rd. to 64 <sup>th</sup> Avenue (ED 17-32)	

INSERT:

Page 9, Lines 13-16:

Municipality of Anchorage	\$270,000
Raspberry Road Upgrade, Minnesota Drive to Arctic Boulevard (ED 17-32)	

According to the Municipality of Anchorage, sufficient local bond funding is available to complete the Laurel Street Upgrade. This amendment would utilize \$270,000 previously identified for Laurel Street Upgrade to fund the state owned portion of the Raspberry Road Upgrade project.

DELETE:

Page 8, Lines 29-31:

Municipality of Anchorage	\$50,000
Arlon St./88 <sup>th</sup> Avenue Area	
Drainage (ED 17-32)	

INSERT:

Page 8, Lines 29-31:

Municipality of Anchorage	\$50,000
Chuck Albrecht Fields	
(ED 17-32)	

According to the Municipality of Anchorage, only \$100,000 is needed for the Arlon Street/88<sup>th</sup> Avenue Area Drainage project. This amendment would utilize \$50,000 previously identified for Arlon to fund the completion of the Chuck Albrecht ballfield complex.

Dear Finance Committee Co-Chairs:

I am submitting the following Department of Transportation and Public Facilities **capital budget amendments** for your consideration:

### **Amendment 1**

**Amends the title** of the Surface Transportation Program allocation

From:

"Anchorage Metropolitan Area Transportation System 2004 Preventative Maintenance on State Roads"

To:

"Anchorage Metropolitan Area Transportation System 2004 Preventative Maintenance State and Local Roads".

### **Amendment 2**

**Amends the title** of the Surface Transportation Program allocation

From:

"Fairbanks Metropolitan Area Transportation System 2004 Preventative Maintenance on State Roads"

To:

"Fairbanks Metropolitan Area Transportation System 2004 Preventative Maintenance on State and Local Roads".

Capital Budget Amendments

**Anchorage Metropolitan Area Transportation System 2004**    **FY2004 Request:**    **\$3,200,000**  
**Preventative Maintenance on State and Local Roads**    **Reference No:**    **AMD38588**

**AP/AL:** Allocation    **Project Type:** Construction  
**Category:** Transportation  
**Location:** Anchorage Areawide    **Contact:** John MacKinnon  
**Election District:** Anchorage Areawide    **Contact Phone:** (907)465-6973  
**Estimated Project Dates:** 07/01/2003 - 06/30/2008  
**Appropriation:** Anchorage Metropolitan Area Transportation System (AMATS) Projects

**Brief Summary and Statement of Need:**

Road resurfacing, rut repair, and road resurface and transfer program within the Anchorage Metropolitan Area. This program is for state roads only. The State owns and maintains many roads that would in other states be the responsibility of the metropolitan area or county. The State is prohibited from selecting projects except on the National Highway System. This program will encourage the Anchorage Metropolitan Planning Organization (AMATS) to select projects on state roads by providing funds for that purpose. This program may also be aimed at improving state roads for ownership transfer to the Municipality of Anchorage.

--	--	---------------------------	---------------------------

Explanation:

The net impact of this amendment to CSSB 100(FIN) is zero. Eagle Avenue is a significant collector street connecting the Glenn Highway with north Palmer neighborhoods and the Sherrod School and Swanson School complex. The street is presently a gravel street. This project will reconstruct approximately 2,000 feet of Eagle Avenue from the Glenn Highway to the North Valley Way intersection to a paved street with drainage and sidewalk improvements. This project is important to the City as a new elementary school located at the end of Eagle Avenue is opening in the fall of 2003.

Insert:

	Allocations	Appropriation Items	General Funds	Other Funds
"Pt. McKenzie Agricultural Equipment (ED 13-16)"		100,000	100,000	

Explanation:

The Governor's FY 2004 operating budget included a request for \$100,000 to upgrade outdated equipment and obtain additional farm equipment for the purpose of increased production of livestock feed and consumable vegetables for the prisoner population.

The House denied this increment in the operating budget with the intent it be placed more appropriately in the capital budget. The Senate accepted the increment. Therefore, the item came before the Conference Committee on HB 75/HB76.

The Conference Committee agreed with the House's action and deleted it from the operating budget with the intent that it be funded in the FY 2004 capital budget.

**Change Record Detail - Multiple Scenarios With Description**

**Department of Corrections**

Component: Point MacKenzie Correctional Farm (1884)

BRU: Administration & Operations (271)

Change Record Title	Trans Type	Totals	Personal Services	Travel	Contractual	Supplies	Equipment	Land/ Buildings	Grants Claims	Misc.	Positions		
											PFT	PPT	NP
***** Changes From FY2003 Management Plan To FY2004 Governor *****													
GF Across the Board Contractual Reduction	Dec	-11.4	0.0	0.0	-11.4	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		-11.4	1/2% GF Reduction in all Institutional, Regional Probation and the Inmate Health Care components and a 1% GF reduction in all other components.										
Pt. MacKenzie Agricultural Enhancement	Inc	100.0	0.0	0.0	100.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		100.0	<p>Point MacKenzie Rehabilitation Program is requesting an increment of 100.0 to assist in upgrading outdated equipment and obtaining additional farm equipment, which will allow increased production of livestock feed and consumable vegetables for the prisoner population. Immediate goals include placing more acreage into production and providing services to institutions throughout the year. The following equipment will assist in reaching these goals:</p> <p><b>Disc Mower w/Conditioner 19.5</b>                      Point MacKenzie does not possess this necessary piece of equipment and must borrow one from area farmers. The Disc Mower w/ Conditioner allows the harvest of hay in conjunction with the Hay Rake and Hay Bailer that the facility currently has. The necessity of this equipment will increase as additional acreage is brought into production.</p> <p><b>Hay Tedder 7.5</b>                      After hay is cut the Hay Tedder "fluffs" up the hay on the ground. This aids in drying out the hay and allows preparation for bailing. It is a very useful piece of equipment in Alaska with the frequency of summer rains.</p> <p><b>Tractor w/attachments 43.0</b>                      Designated primarily for use in the 10-12 acres of vegetables. This equipment will improve the planting, maintenance, and harvesting of the vegetables. In FY 2002 Point MacKenzie harvested 98,074 lbs. of fresh vegetables which supplemented the facilities food budget. Vegetables not used by Point MacKenzie were distributed to correctional facilities statewide and non-profit organizations in the south central region.                      Tractor 25.5, Transplanter attachment 2.0, Seeder attachment 9.0, Cultivator attachment 6.5</p> <p><b>Grain Seeder 33.5</b>                      Point MacKenzie does not have the necessary equipment for planting Barley Seed. The Point Mackenzie contract farm technician has been lending his grain seeder to the farm, but this is a short-term solution and should not be counted on for future plantings. There is currently 40 acres of Barley in production, which in FY 2002 yielded 22,400 lbs. of Barley and 7,250 bales of Straw. Our goal is to increase our Barley production to 80 acres.</p>

BY SENATOR WILKEN

### Department of Military and Veterans Affairs

	Appropriation Items	Other Funds
State Homeland Security Grant Program (ED 99)	<u>18,225,000</u> [4,995,000]	<u>18,225,000</u> [4,995,000]

#### Explanation:

There is currently \$4,995,000 in federal authorization for this CIP request. The Department has requested additional federal receipt authority in the amount of \$13,230,000 for the recently awarded FY 2003 State Homeland Security Grant Program. Additional backup from the Department is attached.

# MEMORANDUM

State of Alaska

Department of Military & Veterans Affairs  
Division of Administrative Services

TO: Cheryl Frasca, Director  
Office of Management & Budget  
Governor's Office

DATE: May 1, 2003

FILE: OMB-SUP03-2

FROM: John W. Cramer, Director  
Administrative Services Division  
Department of Military & Veterans' Affairs

SUBJECT: Capital Bill Funding  
Request

The Department of Military and Veterans' Affairs requests your assistance in obtaining two additions to the capital funding bill. They are as follows:

### **Disaster Relief Fund Supplemental**

Supplemental funding for the Disaster Relief Fund is needed for the recently declared Southcentral Windstorm Disaster. This disaster was declared by the Governor on March 28, 2003 and subsequently declared by the President on April 26, 2003. The disaster recovery financial plan at this time estimates a total cost of \$6,046,400 for this federally declared disaster. Of this amount, \$4,644,900 is federal authorization and \$1,401,500 is state authorization. Attached is detail cost estimate documentation and disaster declaration correspondence. There is sufficient federal authorization in the fund to cover the federal portion. We are requesting a supplemental appropriation to the fund of \$1,401,500 in general funds for the state share of the disaster.

### → **Homeland Security Grant Capital Appropriation - Federal**

Federal authorization in the capital budget in the amount of \$13,230,000 is needed for the recently awarded FY2003 State Homeland Security Grant Program. This program is 100% federal funds and has been awarded to the Department by the Office of Domestic Preparedness. The funds are to be used for first responder preparedness and to mitigate the costs of enhanced security at critical infrastructure facilities during the period of hostilities with Iraq and future periods of heightened threat. At least eighty percent (80%) of this funding allocation will be passed through to local communities. The line item breakdown is as follows:

Contractual	\$ 3,175,200
Grants	\$10,054,800

This authorization will be added to the Homeland Security Grant Project already in the capital budget. Attached is an amended capital project description.

If you have any questions or require additional information, please contact me. Thank you for your assistance in this matter.

**Brief Summary and Statement of Need:**

This requests federal receipt authority for an expected grant award of \$18,225,000 from the US Department of Homeland Security to provide financial assistance to states for Homeland Security needs. This project has been amended from its initial request of \$4,995,000 with the announcement of a second phase to the grant program.

Funding:	FY2004	FY2005	FY2006	FY2007	FY2008	FY2009	Total
Fed Rcpts	\$18,225,000						\$18,225,000
Total:	\$18,225,000	\$0	\$0	\$0	\$0	\$0	\$18,225,000

**Operating & Maintenance Costs:**

	Amount	Staff
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

**Prior Funding History:**

**Project Description/Justification:**

Phase 1

Funding of \$4,995,000 is available from the federal Department of Homeland Security. The application for these funds is due to the federal government April 22, 2003, with an expected award from them in June of 2003. These funds are expected to have a 24 month performance period, and are one-time funds available for four distinct categories:

1. equipment,
2. FY 2003 Assessment Strategy Update,
3. exercise program, and
4. training program.

There is no match required in order to receive and expend these funds.

Phase 2

Phase 2 of the State Homeland Security Grant Program provides an additional \$13,230,000 to supplement Phase 1 funding for first responder preparedness and to mitigate the costs of enhanced security at critical infrastructure facilities during the period of hostilities with Iraq and future periods of heightened threat. The application is due by May 30, 2003.

There is no match required in order to receive and expend these funds.

The project costs are broken down as follows:

	Pass thru to local communities	State of Alaska
<u>Phase 1</u>		
Equipment	2,804,000	701,000
Exercise Program	400,000	476,000
Training	263,000	0
Planning	351,000	0
 <u>Phase 2</u>		
First responder Preparedness	9,172,800	2,293,200
Critical Infrastructure	<u>882,000</u>	<u>882,000</u>
Total	13,872,800	4,352,200

None of the funds will replace funding already included in the operating budget, but will instead be used to support the activities required within the new Division of Homeland Security. This is one-time funding that is not expected to be available each year.

---

## I. Background

The U.S. Department of Homeland Security (DHS), through the Office for Domestic Preparedness (ODP), is providing additional financial assistance directly to each of the nation's states and territories through the Fiscal Year (FY) 2003 State Homeland Security Grant Program - Part II (SHSGP II). This financial assistance is being provided to supplement funding available through the FY 2003 State Homeland Security Grant Program for first responder preparedness, and to mitigate the costs of enhanced security at critical infrastructure facilities during the period of hostilities with Iraq and future periods of heightened threat.

The Office for Domestic Preparedness transferred from the U.S. Department of Justice, Office of Justice Programs (OJP), to the U.S. Department of Homeland Security effective March 1, 2003. The OJP Office of the Comptroller (OC) will continue to provide fiscal support and oversight to the SHSGP II for the effective period of performance for the grant.

## II. The FY 2003 State Homeland Security Grant Program - Part II

### A. Authorized Program Purpose

Funding for the FY 2003 SHSGP II is authorized by: 1) Public Law 108-11, the Warlike Supplemental Appropriations Act of 2003; 2) Public Law 107-56, the USA Patriot Act of 2001; and, 3) Public Law 107-296, the Homeland Security Act of 2002. The FY 2003 SHSGP II seeks to provide the resources necessary for states and local communities to supplement funding available through the FY 2003 State Homeland Security Grant Program for first responder preparedness, and to mitigate the costs of enhanced security at critical infrastructure facilities during the period of hostilities with Iraq and future periods of heightened threat.

### B. Program Requirements

Receipt of funds under ODP's FY 2003 SHSGP II is contingent upon submission of the on-line grant application described in Section V of the FY 2003 SHSGP II Program Guidelines and Application Kit. *Applications for funding under this program must be submitted by May 30, 2003. In addition, funds provided as part of the FY 2003 SHSGP II must be obligated within 45 days of the grant award date.*

---

**C. Authorized Program Expenditures**

**1. Critical Infrastructure Protection:** Funds provided as part of the FY 2003 SHSGP II may be used for: 1) public safety agency overtime costs; 2) contract security personnel costs; and, 3) state-ordered National Guard deployments required to augment security at critical infrastructure during the period of hostilities with Iraq and future periods of heightened threat. *Guidance on the use of funds for future periods of heightened threat, should these arise, will be provided to each grantee by the Department of Homeland Security.* A list of critical infrastructure eligible for security funding support with funds provided through the FY 2003 SHSGP II may be found in Appendix A.

*States are advised that at least 50 percent of this funding allocation MUST be provided to local communities.*

**2. First Responder Preparedness:** Funds provided as part of the FY 2003 SHSGP II may be used to supplement activities initiated with the state's Fiscal Year 2003 State Homeland Security Grant, including: 1) procurement of specialized emergency response and terrorism incident prevention equipment; 2) design, development, conduct and evaluation of combating terrorism exercises; 3) institutionalizing awareness and performance level training at the state and local level; and, 4) planning and administrative costs associated with updating and implementing the state's homeland security strategy. A complete list of allowable equipment, exercise, training and planning/ administrative costs may be found in Appendix B.

*States are advised at least 80 percent of this funding allocation MUST be provided to local communities.*

**D. Unauthorized Program Expenditures**

**1. Critical Infrastructure Protection:** Grant funds awarded under this program may not be used to pay for enhanced security costs *incurred prior to March 17, 2003, or after April 16, 2003, unless otherwise specified by the Department of Homeland Security.*

Note: Funds not used to cover costs of heightened security at critical infrastructure sites during the period of hostilities with Iraq as defined above may be retained through the end of the award period for use in conjunction with future periods of heightened threat. *Guidance on the use of funds for future periods of heightened threat, should these arise, will be provided to each grantee by the Department of Homeland Security.*

**2. First Responder Preparedness:** Grant funds awarded under this program may not be used for emergency responder programs inconsistent with the state's homeland security strategy, or for equipment, exercise, training or planning/ administrative costs

## AMENDMENT

OFFERED IN THE SENATE  
TO: CSSB 100 (FIN)

BY SENATOR WILKEN

### Department of Transportation and Public Facilities

Add two new allocations to the Airport Improvement Program:

	Allocations
Ted Stevens Anchorage International Airport: Terminal Redevelopment Project	<u>50,000,000</u>
Alaska International Airport System: Finance Costs	<u>15,100,000</u>

### Explanation:

The Department has requested these two additional allocations to the Airport Improvement Program. The fund source is the International Airport Construction Fund. The funds will be used to complete the construction of Concourse C at the Ted Stevens Anchorage International Airport and to cover costs associated with issuing airport revenue bonds.

# MEMORANDUM

# State of Alaska

Department of Transportation & Public Facilities  
Office of the Commissioner

TO: Cheryl Frasca, Director  
Office of Management and Budget

DATE: May 8, 2003

TELEPHONE NO: 465-3901  
TEXT TELEPHONE: 465-3652  
FAX NUMBER: 586-8365

FROM: Mike Barton  
Commissioner

SUBJECT: Amend FY04  
Capital Request

The Department of Transportation and Public Facilities (DOT&PF) is requesting amendments to the capital budget bills (SB 100) before the Legislature.

The following additional projects are being requested:

**Ted Stevens Anchorage International Airport: Terminal Redevelopment Project**  
\$50,000,000 International Airport Construction Fund  
This will complete construction of Concourse C. Costs have increased due to new security needs, additional footage and permit issues.

**Alaska International Airport System: Finance Costs**  
\$15,100,000 International Airport Construction Fund  
This provides issuance costs, capitalized interest and a debt service reserve fund associated with issuing airport revenue bonds.

If you have any questions or need further information, please contact Nancy Slagle at 465-3911.

## NORTH AFOGNAK ISLAND/PERENOSA BAY HABITAT RESTORATION PROJECT

- \$10.45 million in program receipts from *Exxon Valdez* Oil Spill Trustee Council (EVOS) to the Alaska Department of Natural Resources for habitat acquisition on Northern Afognak Island.
- 8 Alaska Native corporations and partners (Rocky Mountain Elk Foundation, Brown Bear Trust and American Land Conservancy) joined together in 1999 to pursue conservation of critical wildlife habitat on Afognak Island, home to the largest of Alaska's two elk herds and key populations of species injured by the 1989 *Exxon Valdez* oil spill, particularly marbled murrelets, salmon, sea otters, and harlequin ducks.
- 16,000 acres of critical habitat on north coast of Afognak Island would go into public ownership, completing the restoration efforts initiated in the 1990s to protect one of the most biologically rich areas in the entire oil spill area.
- The partners have committed to raising as much as \$10.45 million through private fundraising efforts – half the amount needed for the package – to be matched by contributions from the *Exxon Valdez* Oil Spill Trustee Council.
- This package will complete the restoration program for the Kodiak/Afognak region envisioned by Kodiak public officials and stakeholders in the early 1990s that included habitat protection through land acquisition or easements from willing sellers and targeting public access to prime hunting and fishing areas and to salmon rivers critical to commercial fisheries; fisheries and marine research technology (accomplished through expansion of Kodiak's Fisheries Industry Technology Center); and cultural tourism development through the building of the Alutiiq Museum and Artifact Repository.
- Proposal has strong support of Kodiak Island Borough, local legislators, and commercial and sport fishing and hunting groups.

RE: RECEIPT AUTHORITY AMENDMENT FOR COASTAL GRANT TO DNR

Information provided below clarifies the federal program that is the source of the National Coastal Wetlands Conservation Grant for Perenosa Bay totaling \$2 million to be awarded over 2 years as phase 1 and phase 2 at \$1 million each. A total of 5,000 acres of wetland habitats in the Waterfall and Paul's and Laura drainages were identified as suitable for this type of wetland conservation.

The \$2 million in coastal wetland funds will be matched 1-to-1 by oil spill funding and therefore represents \$4 million toward to the total \$20.9 million authorized by EVOS Trustee Council Resolution 03-01. The coastal wetland grant will be responsible for 31% of the total acres in the Perenosa Bay project.

The Afognak Perenosa Bay phase I application scored in the top 21 grants in a national competition based on its productive wetland characteristics for anadromous fish and waterfowl. A total of \$15.7 million will go to projects in 15 states for fiscal year 2003.

- In addition to the amendment to the House Capital Budget for receipt authority for the \$10.45 million in Exxon Valdez oil spill funds, **an additional \$2 million in receipt authority requires its own amendment in ADNR's capital budget.** Like EVOS funding, these funds require receipt authority for federal dollars have no Alaska general fund impact.

The program originated from the 1990 passed Coastal Wetlands Planning, Protection, and Restoration Act. To date, about \$121 million in grant monies have been awarded to 25 coastal States and one U.S. Territory and over 148,000 acres of coastal wetland ecosystems have been acquired, protected, or restored. The internet website [www.fws.gov/cep/cwrcover.html](http://www.fws.gov/cep/cwrcover.html) is provided if you wish to explore further.

Michael Roy is the FWS Region 7 Coordinator for Partners for Fish and Wildlife Coastal Program in Alaska and can be reached at 907-786-3925.
