SENATE FINANCE
COMMITTEE

Health, Education, and Social Services Committee Alaska State Senate

SB 364—Letter of Intent

It is the intent of the legislature that the Department of Health and Social Services continue to develop and support a continuum of mental health care that includes community-based outpatient and supportive services, community hospital-based inpatient evaluation and treatment services, and tertiary mental health care through the Alaska Psychiatric Institute. In developing this system the Department of Health and Social Services shall be guided by the principles that mental health services should be clinically appropriate, cost effective, offered in the least restrictive setting available, and provided as close to the client's home as possible.

It is further the intent of the legislature that in the event of a shortfall in appropriations for mental health evaluation and treatment at community hospitals to stabilize persons experiencing a psychiatric emergency or crisis, and who meet the criteria for involuntary commitment under AS 47.30.700 – AS 47.30.915, the Department of Health and Social Services shall make every effort to identify additional financing sources or reallocate appropriations available for the purpose from lesser priorities to continue these important services for the remainder of the fiscal year.

ANALYSIS: (Attach a separate page if necessary)

This bill will provide the Department with management tools necessary to contain costs for DET services on an annual basis. Changes to the eligibility requirements and time frames for applying for financial assistance will allow the department to better project and manage costs within the available funding levels. Current application timelines, i.e. 180 days after date of discharge results in bills for prior year service coming in the first six months of the current fiscal year. This lag makes it extremely difficult for program staff to project the level of funding available for current year program costs. (Continued on next page)

FISCAL NOTE

FN # 1

STATE OF ALASKA
2004 LEGISLATIVE SESSION

SB 364

ANALYSIS CONTINUATION

DET program expenditures for the last few years have averaged \$500.0 more in general funds than the original budget. In past years, either a supplemental budget request has been appropriated or excess year-end funds within the appropriation were available to cover these additional costs. However, with FY04 budget reductions this is not an option. The program currently anticipates approximately \$500.0 in FY03 claims being received between July 1 - December 31, 2003 having to be paid out of its FY04 budget.

In FY2005 this program will lose federal receipts of \$724.9 (which are reflected in the Governor's budget) that have previously been available for program costs. With these compounding circumstances it is important to implement changes to allow for fiscal management of this program to stay within budgetary authorization. This bill will allow the department to cap payments to the funding levels available, rather than the current open-ended process.

Due to the FY04 and FY05 budget reductions the most that could be expected in FY05 general fund savings would be \$100.0. This represents approximately a 10% general fund reduction.

If these legislative changes are not made to the DET program, the only alternatives available to the department for this program would be requests for supplemental appropriations or to decline payment of the bill which could result in legal action.

SB 364

House HESS Questions 3/25/04 ~~HB 535~~

Draft 3/31/04

- 1) If a person has been sent to a DET facility on a court order, would the DBH have any authority to question or overthrow the court order.

Attn Gen – the DBH would be obligated to follow that order

However, the treating physician can discharge a person who does not meet admission criteria.

- 2) How many youth are treated in DET facilities?

Seven (under 3%) admissions occurred in FY 03 out of a total 244 admissions; one youth entered the hospital twice. None exceeded the evaluation phase of up to 7 days.

- 3) What is the explanation for the increased length of stay at Bartlett?

See attached list of reasons for extended stays as explained by Bartlett justified by clinical reasons in the best interests of the patient

- 4) Why is cost of care at Mt. Edgecumbe so high compared to Bethel for example?

All IHS hospitals have a nationally determined rate that is the same for all hospitals

General answer is full cost studies are conducted every four years which include facility depreciation and are used to collect Medicaid funds.

- 5) What would happen if API were full?

- See # 3 – We can ask a DET facility to keep someone longer
- API is being more assertively managed to avoid being full – Current CEO has not turned anyone away

- 6) Could we send anyone to a correctional facility if API is full?

Attn Gen. -- DHSS will pay for another placement – we will not send to correctional facility (notwithstanding hold in jail while transportation being arranged for combative patients – leads to discussions about developing more assertive local DET and other medication options including Dr. to Dr. discussions with local physicians and API physicians.

- 7) Why are there different poverty levels eligibility definitions -- example between DET and Denali Kid Care.

There are at least 9 categorical programs using poverty definitions ranging from 100 – 250% of federal poverty guidelines. Each was developed at different times, under different climates and different administrations.

See attached data summary sheet.

- 8) What is the comparable API Daily Medicaid Rate?

I was in error reporting the daily cost at API as \$669. That rate did not include depreciated facility costs. The Medicaid Rate was calculated at \$757.46/day calculated with the same standardized procedure used to calculate the other Medicaid rates used for other hospitals.

A rate for the new facility has not been calculated.

- 9) Are the Medicaid Rates cost shifting from higher Medical Costs such as surgery?

(Note: DHSS efforts to restructure psychiatric hospital rate.)

- 10) How will be using First Health and MD to monitor program?

See Summary of Proposed DET Monitoring Process

- 11) How have other states managed DET like programs in terms of an entitlement vs. limitations of budget.

Dan Branch, Att. Gen. Office has been asked to attend on 4/2/04

Length of Stay Extensions at Bartlett FY 03

- Difficulty in stabilizing on medications; developed many side effects to medications
- Placement, working w/ courts to get guardianship
- Difficulty in stabilizing medications, many reactions
- Placement, unable to release safely by self, not appropriate for API
- MD felt API placement inappropriate, better to stay within the southeast community
- Stabilizing on medications
- Difficulty in stabilizing on medications related to reactions/EPS
- Was off medication completely, restarted and stabilized
- Stabilizing on medications
- Co-occurring ETOH abuse, needing extra time
- Newly diagnosed, stabilizing on medication

Hospital CEO notes that most delays occurred with patients sent from across the region where resources tend to be less than in Juneau. Sixty-four percent of the delays were related to medication issues. More assertive discharge planning may be able to facilitate earlier discharges. Discharge planning should begin on Day of Admission by hospital staff and local programs. More active management by DBH/API/First Health may facilitate more timely discharges.

SB 364 / HB 535 -- DET Bill Summary -- 3/31/04

Background/Intent

The existing statutes require the State to cover the costs of diagnosis, evaluation and treatment (DET) for financially eligible patients who need to be involuntarily committed to non-state-operated hospitals. The costs of these services and the related transportation cost have increased over the years. The intent of this bill is to:

- Establish that this is not an entitlement
- Clearly communicate that costs incurred will only be covered up to the amount appropriated by the legislature
- Require hospitals to notify the Department within 24 hours of admission of a potentially eligible individual, allowing the Department to assist in timely and appropriate discharge to community based programs
- Establish that the Department is under no obligation to pay for services a hospital delivers to a patient beyond recommended discharge date
- Funding is decreased between FY04 and FY05

Program Effects

- Contains costs on an annual basis
- 24-hour registration assists Department to determine costs at time they are incurred and thus allow for fiscal management
- Limit State responsibility to funds appropriated by legislature

Cost Progression 2000-2005

FY00	\$	1,901,480	
FY01		2,055,420	
FY02		2,284,930	
FY03		3,384,430	
FY 04 Budget		3,096,800	
FY 05 Budget		1,901,480	Strategies being explored to expand federal participation via Disproportionate Share (DSH)

Cost Saving Strategies

- Update transportation polices and procedures
 - Ambulances

DET Sites

- Fairbanks
- Juneau

Other Sites

Palmer, Ketchikan, Cordova, Homer, Valdez, Sitka,
Bethel, Kodiak

Cost Comparisons between API and DET/S Facilities

- API daily rate 757.46
- Fairbanks 1,646.91
- Bartlett 1,636.04
- Ketchikan 1,800.68
- Mt. Edgecombe 2,049.00
- Bethel 2,049.00

Explanation for Cost Increases over years

100% of Hospital cost increases between 01 and 03

27% of Hospital increases in average daily Medicaid between 01 and 03

27% of Hospital increases in total beds used between 01 and 03

Management of Costs

Costs within existing budget – if retrospective reviews are changed from DBH staff to First Health the cost would be about \$31,800/year based on a current charge of \$111.44/review X 275 reviews (average # of admissions / last 3 years).

If we add an early review at 8th day of admission (transitioning from evaluation to treatment) we can also add discussion about eligibility and discharge planning, the cost would increase by \$7,000 based on 63 admissions over 8 days in FY03. The total First Health review costs would be about \$40,000/year.

STATE OF ALASKA

DEPT. OF HEALTH AND SOCIAL SERVICES

OFFICE OF THE COMMISSIONER

FRANK H. MURKOWSKI, GOVERNOR

P.O. BOX 110601
JUNEAU, ALASKA 99811-0601
PHONE: (907) 465-3030
FAX: (907) 465-3068

April 8, 2004

Honorable Gary Wilken, Co-Chair
Senate Finance Committee
Alaska State Capitol; Rm. 518
Juneau, AK 99801-1182

Dear Senator Wilken,

The Department of Health and Social Services respectfully requests a hearing in the Senate Finance Committee on Senate Bill 364 "An Act relating to liability for expenses of placement in certain mental health facilities; relating to the mental health treatment assistance program; and providing for an effective date."

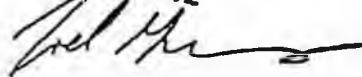

The purpose of this bill is to provide the department with additional tools to contain costs in the Designated Evaluation and Treatment (DET) program. The bill will require hospitals that participate in this program to provide the department with more timely information on persons receiving services, thereby allowing the department to better control total program costs over the course of the year. The bill also makes it clear that the State's obligation to pay for these services is limited to the amount appropriated by the legislature for this purpose.

The Senate Health, Education, and Social Services Committee heard SB 364 and recommends that it be replaced with a Senate (HES) committee substitute. The Department of Health and Social Services supports the committee substitute.

The Governor's transmittal letter and fiscal note relating to SB 364 are on file with the committee. A brief history of the DET program is attached.

Your favorable consideration of this request will be appreciated.

Sincerely,

Joel Gilbertson
Commissioner

ATTACHMENT
Designated Evaluation and Treatment Program

Beginning in the late 1970s, the Designated Evaluation and Treatment Program provided funding on a fee-for-service basis to local community hospitals and specialty hospitals. This funding covered psychiatric inpatient care to certain persons, enabling them to receive care close to home and family. The population initially served by the program was anyone who did not have the means to pay the bill for hospital and related services. The budget, while limited, enabled the program to compensate hospitals for psychiatric inpatient care provided to "indigent" persons, without any further restrictions.

Growth in the program and increases in hospital rates pushed program costs beyond the available budget, and the first restriction was imposed. The program policy was changed to provide payment only for persons who were under civil commitment. A task force, appointed to resolve payment issues, recommended that the hospitals be paid at the Medicaid rate.

The Designated Evaluation and Treatment Program has become a vital part of the necessary array of community services that must be in place before the Alaska Psychiatric Institute can assume its role as the tertiary care facility for Alaska. It provides acute hospital psychiatric care treatment close to ones home community and support network.

In 1998, the federal government made funds available to assist low-income individuals in paying for evaluation and treatment services in designated mental health facilities. The funding was available through FY 01. During the 21st session of the Alaska State Legislature, Senate Bill 97 became law. It created the Mental Health Treatment Assistance Program (AS 47.31.005 – 47.31.100) and directed the department to adopt regulations to implement the program (after consulting with the Alaska Mental Health Trust Authority).

March 5, 2004

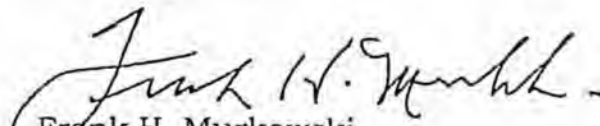

The Honorable Gene Therriault
President of the Senate
Alaska State Legislature
State Capitol, Room 111
Juneau, AK 99801-1182

Dear President Therriault:

Under the authority of article III, section 18, of the Alaska Constitution, I am transmitting a bill related to the mental health treatment assistance program. The bill would give the Department of Health and Social Services additional tools to control costs. Costs would be controlled by limiting financial assistance to persons meeting the eligibility criteria after registration. Registration would require contacting the department in a timely manner and supplying information on medical and financial need. The department would also gain some flexibility to reduce rates when there is a shortfall of funds.

I urge your support of this important bill.

Sincerely yours,

Frank H. Murkowski
Governor
