Representative Tom Anderson

MEMORANDUM

Date: February 24, 2004

To: Representative Kurt Olson, Co-Chair
Representative Bill Thomas, Co-Chair
House Community & Regional Affairs Committee

From: Representative Tom Anderson, Chair
House Labor & Commerce Committee *Tom*

Re: HB 108

I would request you schedule HB 108 for a hearing before your committee at your earliest convenience.

This legislation would require an exemption from regulation by the Regulatory Commission of Alaska (RCA), something that every other municipally owned utility in Alaska, except one, already enjoys (the City of Pelican requested continued RCA regulation of its water utility when it was sold). Anchorage as the largest, most highly sophisticated city in the state is fully capable of soundly regulating its own municipally owned utilities. Self-regulating Anchorage's water utility would save ratepayers money and enhance local control.

Anchorage has extensive experience regulating other municipally owned enterprises. The Port of Anchorage, Merrill Field, and Solid Waste Services are all financially sound and provide first class customer service. Actually, Anchorage has self-regulated its public utilities for more years than have state regulators. RCA regulation is slow, expensive and partially duplicates the review process that the municipal administration and assembly already apply. AWWU ratepayers pay in excess of \$500,000 per year to the RCA to cover the cost of regulation. The greater cost is in the form of regulation lag, the delay in obtaining approval of a requested rate change.

Thank you for your consideration of this request. Please contact Josh Applebee at 4954 in my office if you have any additional questions.

SPONSOR STATEMENT FOR HB 108

BY: Representative Tom Anderson

TITLE: "An Act relating to the regulation of water and sewer utilities of political subdivisions that are not in competition with other water and sewer utilities."

House Bill 108 would exempt Anchorage Waste Water Utility from regulation by the Regulatory Commission of Alaska (RCA). Except for the City of Pelican, no other municipal owned water/wastewater utility is regulated by the RCA. (Pelican requested regulation of its water utility by the RCA).

The Municipality of Anchorage believes the current RCA regulation processes are cumbersome, slow, expensive, and non-responsive to local needs. Ratepayers are required to pay for the expensive RCA regulatory process as a surcharge on every bill, whether or not their utility has a case pending. For example, from 1993 until 2003 AWWU never had a rate increase from the RCA or the APUC, yet ratepayers have paid a regulatory assessment to the RCA as part of every bill. In 2004 AWWU ratepayers are projected to pay about \$500,000 to the RCA to cover the costs of regulation. The greatest costs appear in the form of regulatory delay in obtaining approval of a requested change.

The MOA is directly accountable to ratepayers served by the utilities - they are voters. The Municipality has experience successfully regulating enterprise activities. The Port of Anchorage, Solid Waste Services and Merrill Field are all financially sound and provide first class customer service. Municipal public hearings are held on any proposed rate increase and the public is very involved in the hearing process.

HB 108 changes existing law by adding lines 5 thru 8 on Page 2. This language states that a water or sewer utility owned by a political subdivision not directly competing with another water or sewer utility is exempt from RCA regulation.

I would ask for your support on HB 108.

Mayor Mark Begich

Office of the Mayor

MEMORANDUM

DATE: February 3, 2004

TO: The Honorable Tom Anderson, Chair
House Labor & Commerce Committee

FROM: Anchorage Mayor Mark Begich 

SUBJECT: Self-regulation of Anchorage Water and Wastewater Utilities

The Municipality of Anchorage and the Anchorage Assembly have designated "Regulating Anchorage's Own Water/wastewater Utilities" as a top municipal legislative priority for 2004. This would require an exemption from regulation by the Regulatory Commission of Alaska (RCA), something that every other municipally owned utility in Alaska, except one, already enjoys.* Anchorage as the largest, most highly sophisticated city in the state, is fully capable of soundly regulating its own municipally owned utilities. Self-regulating Anchorage's water utility would save rate-payers money and enhance local control.

AWWU has provided its customers excellent service, low, stable rates and sound finances, as well as continuity of management. Over the years, the mayor and assembly have made sound decisions in their oversight of municipally owned utilities. Municipal public hearings are held on any proposed rate increase. Municipal regulation will continue to balance consumer protection with the financial soundness of the public utility. It will allow the utilities to continue to operate on a sound business basis. The process will be accountable to local people, more responsive, timely and economical than current RCA regulation.

Anchorage has extensive experience regulating other municipally owned enterprises. The Port of Anchorage, Merrill Field and Solid Waster Services are all financially sound and provide first class customer service. Actually, Anchorage has self-regulated its public utilities for more years than have state regulators.

RCA regulation is slow, expensive and partially duplicates the review process that the municipal administration and assembly already apply. AWWU ratepayers pay in excess of \$500,000 per year to the RCA to cover the cost of regulation. The greater cost is in the form of regulatory lag, the delay in obtaining approval of a requested rate change.

* The City of Pelican requested continued RCA regulation of its water utility when it was sold.

Community, Security, Prosperity

The Municipality in 1991 petitioned the APUC (predecessor to the RCA) to exempt AWWU and the electric utility from regulation. The Commission denied the request for self-regulation of the electric utility. By a 2-2 vote, the commission split on the question of exempting AWWU. The opinion by the commissioners who opposed self-regulation cited competition by the electric utility with other electric utilities as the reason why AWWU should remain regulated by the state.

To accomplish the exemption from RCA regulation a new section is needed in AS 42.05.711:

"A water/wastewater utility owned by and serving a first class or home rule municipality is exempt from regulation by the Commission, other than AS 42.05.221 - 42.05.281 and 42.05.385."

This section was amended as recently as the year 2000 by SB 324 to protect Ketchikan's public utilities, which have been self-regulated for 50 years, from the risk of regulatory takeover by the RCA in light of possible telephone competition.

**2004 STATE LEGISLATIVE PROGRAM
MUNICIPAL PRIORITY ISSUES
LEGISLATION**

ISSUE/PROJECT NAME: Regulating our own utilities

ISSUE/IMPROVEMENT TYPE: Legislation- Utility

STATE GRANT REQUEST: None

LOCAL MATCH: N/A

PRIORITY: 1

ISSUE/PROJECT DESCRIPTION:

We support state legislation that would include the Municipality of Anchorage utilities in the existing exemption from regulation by the Regulatory Commission of Alaska (RCA) already provided to other municipally owned utilities.

Anchorage utilities are the only municipal utilities in Alaska subjected to state regulation. The sole exception is the City of Pelican's water utility, where Pelican requested to be regulated by the RCA. Anchorage ratepayers pay higher rates for this state "service" but these regulatory charges are not imposed on any other municipal utility, except Pelican. Currently Anchorage ratepayers pay \$930,000 per year.

Municipal regulation would continue to balance consumer protection with the financial soundness of the utilities. It would be:

Directly accountable to local people
More responsive
More timely
More economical
Simpler

The Municipality has extensive experience regulating other municipally owned enterprises. They are all financially sound and also provide first class customer service. For example, the Solid Waste Services Collection Utility has been regulated by the Municipality for many years. Its customers enjoy among the lowest refuse collection rates in the country. The rates for residential and commercial refuse collection have not increased in the past thirteen years.

Voters in the Municipality would hold the Mayor and Assembly members, those elected officials who would set and approve utility rates, fully accountable – and they do vote.

During the recent California energy crisis the utilities regulated by the state public utilities commission got in trouble, with the largest gas and electric utility having to file bankruptcy. On the other hand, municipally owned utilities fared very well.

ANALYSIS: (Attach a separate page if necessary)

This legislation would remove the Municipality of Anchorage d/b/a AWWU (water and sewer utilities) from Regulatory Commission of Alaska (RCA) oversight. The RCA's budget is funded through the Regulatory Cost Charge (RCC) mechanism and direct charge mechanisms. No general funds are allocated for support of the agency. The RCC is recalculated each year and allows the agency to recover its operating costs through an assessment on the revenues of the utilities and pipeline carriers it regulates.

AWWU is expected to pay a total of approximately \$406,550 in RCC's in FY 2004. The RCA estimates loss of this revenue will result in the loss of 2 positions within the agency for a total reduction of \$258.8 in this component. The precise distribution of operating expense reductions has not been determined at this time. Some RCC's would be realized in FY 2005 if an effective date of July 1, 2004 is assumed.

ANALYSIS: (Attach a separate page if necessary)

This legislation would remove the Municipality of Anchorage d/b/a AWWU (water and sewer utilities) from Regulatory Commission of Alaska (RCA) oversight. The RCA Audits & Investigations component will see a reduced workload as a result of this legislation. The RCA's budget is funded through the Regulatory Cost Charge (RCC) mechanism and direct charge mechanisms. No general funds are allocated for support of the agency.

AWWU is expected to pay a total of approximately \$406,550 in RCCs in FY 2004. The RCA estimates \$45.7 of this reduction would occur in RCA Audits & Investigations. Some RCCs would be realized in FY 2005 if an effective date of July 1, 2004 is assumed.
