ANALYSIS: (Attach a separate page if necessary)

It is predictable that passage of this bill will result in an increase in the amount of traffic stops performed on the motoring public as well as the number of citations issued. These traffic stops would be performed by available law enforcement who were on patrol. It is reasonable to expect an increase in the amount of time spent at traffic court as a result. This increase cost in court time is not predictable. Enforcement of this legislation would be absorbed using existing resources within the Department of Public Safety.
