ANALYSIS: (Attach a separate page if necessary)

This bill authorizes sale of \$24 million in certificates of participation (in a state lease financing obligation) to finance construction of a virology laboratory on the University of Alaska Fairbanks Campus. This fiscal note and analysis contemplates 15-year level debt service, debt issuance costs of 200,000, a competitive sale, and state credit ratings remaining at current levels. The financing could take place 60 to 90 days after authorization became effective.

Financing assumptions include debt service beginning in FY07, and a 4.9% interest rate/true interest cost.

ANALYSIS: (Attach a separate page if necessary)

The Department is requesting funds for construction of a new virology laboratory in Fairbanks. The project would be financed through Certificates of Participation (COPs). As a result of the project, the operational expenses of the building will increase. The Department currently pays \$150,000 annually to the University under a lease for the cost of building operational expenses. This includes all utilities, building insurance, fire and police protection, waste disposal, custodial, grounds keeping, maintenance and repair, and snow removal. This cost will increase by an estimated \$200,000 annually due to the increased size of the proposed virology laboratory. Since maintenance and repair are included in this amount, the Department will not need to include this building in the Department's overall deferred maintenance capital request when renovation and repair needs arise. The increase will take effect in FY 2010, when the new lab is expected to be completed and occupied by public health staff.

ANALYSIS: (Attach a separate page if necessary)

The legislation identified \$24.2 million in funding for the design, construction and equipping of a state owned and operated virology laboratory in Fairbanks. The funding is comprised of \$24,000,000 in proceeds from the sale of Certificates of Participation (COP); and \$200,000 in investment earning on the COPs.

Annual debt service on the \$24.2 million is estimated at \$2,375,000 using the assumptions of a 15-year term and a true interest cost of 4.09%. Debt service will begin in fiscal year 2007, with total repayment estimated at just under \$35,575,000. The interest rate listed here is an estimate based on current rates. The rate at the time of the sale of the bonds may slightly differ.

An appropriation of debt service in the language section of the annual operating or capital budget will be made to the debt service fund.

Honorable Peggy Wilson, Chair
House Health, Education and
Social Services Committee
Alaska State Capitol; Rm. 108
Juneau, AK 99801

Dear Representative Wilson,

The Department of Health and Social Services respectfully requests a hearing in the House Health, Education, and Social Services Committee on House Bill 100 "An Act relating to a lease-purchase agreement for the construction, equipping, and financing of a state virology laboratory in Fairbanks, on land provided by the University of Alaska, Fairbanks, to be operated by the Department of Health and Social Services; relating to the issuance of certificates of participation for the laboratory; relating to the use of certain investment income for certain construction and equipment costs for the laboratory; and providing for an effective date."

This bill would authorize the construction of a public health virology laboratory to replace the existing substandard Fairbanks facility.

The House State Affairs Committee has heard the bill and recommends it be replaced with CS HB 100 (STA). The department supports the House State Affairs Committee amendments.

A copy of Governor Murkowski's transmittal letter providing additional information on the project and the associated fiscal notes should be on file with the committee.

Your favorable consideration of this request will be appreciated.

Sincerely,

Sherry Hill, Special Assistant
Office of the Commissioner

February 10, 2005

The Honorable Paul Seaton
Alaska House of Representatives
State Capitol Room 102
Juneau, AK 99801-1182

Dear Representative Seaton,

Enclosed is an amendment to HB 100, related to the construction of a new state virology laboratory in Fairbanks, for consideration by the House State Affairs Committee.

The original language of the bill states that the laboratory will be built on land provided by the University. Since the University is a land grant college and also holds title to the property, the Legislature does not have the power to direct the University as to the use of their property. This amendment makes a few minor adjustments to change references to the University providing the land, to the state leasing the land. On that issue, we have negotiated an agreement with the University for a no-cost lease should this legislation pass.

Thank you for your consideration and assistance in advancing the proposed amendment. Please contact me if you have any questions.

Sincerely,

Richard Mandsager, M.D.
Director, Division of Public Health

Re: HB 100, related to the construction of a new state virology laboratory in Fairbanks

Dear Representative Seaton,

Enclosed is a copy of a memo from Theresa Bannister of Legal Services to Senator Dyson regarding SB 73, the companion bill in the Senate to HB 100. Ms. Bannister recommends amending the wording of the bill in sec. 2(b) to clarify meaning relating to costs.

The Department of Health and Social Services and Department of Law have no objection to this proposed amendment, and have notified Senate Finance (the committee of referral for CS SB 73) of our support. Please consider adopting this same amendment to HB 100 when it comes up for hearing in House State Affairs next week.

Thank you for your consideration and assistance in advancing this proposed amendment. Please contact me if you have any questions.

Sincerely,

Richard Mandsager, M.D.

MEMORANDUM

February 10, 2005

SUBJECT: CSSB 73(HES) (Work Order No. 24-GS1117G)

TO: Senator Fred Dyson
Attn: Jason

FROM:  Theresa Barnister
Legislative Counsel

This memo accompanies the bill described above. The following is a suggestion for the bill. Since the bill has passed out of your committee, you may wish to send this memo along with the bill to the next committee of referral.

In sec. 2(b) of the bill, the use of "other costs" suggests that the preceding reference to "acquisition" means the cost of acquisition. However, the bill does not actually say that because of the way the words are arranged and used. So I suggest that the phrase, "cost of construction, acquisition, and other costs," be replaced with the phrase, "cost of construction, cost of acquisition, and other costs."

If I may be of further assistance, please advise.

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

January 20, 2005

The Honorable John Harris
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Harris:

Under the authority of art. III, sec. 18, of the Alaska Constitution, I am transmitting a bill relating to a lease-purchase agreement for the construction, equipping, and financing of a state virology laboratory in Fairbanks, on land provided by the University of Alaska, Fairbanks, to be operated by the Department of Health and Social Services; relating to the issuance of certificates of participation for the laboratory; and relating to the use of certain investment income for certain construction and equipment costs for the laboratory.

It is imperative that Alaska maintain the capacity for rapid and accurate virological laboratory services as a core element of our public health system. Testing for significant diseases of public health concern such as rabies, measles, mumps, rubella, Norovirus, human immunodeficiency virus (HIV), and influenza, and the threat of emerging diseases, including severe acute respiratory syndrome (SARS) and West Nile virus, requires a modern, well-equipped laboratory.

A virology laboratory has been in operation in Alaska since 1948. The existing facility has been located on the University of Alaska, Fairbanks (UAF) campus since 1967. An independent assessment by the Association of Public Health Laboratories and the Centers for Disease Control and Prevention concluded that the existing facility has severe space limitations and the physical plant itself does not provide for the necessary bio-safety containment processes and facilities necessary for virological testing. The assessment team recommended that a new virology laboratory should be built on the UAF campus, which would preserve the existing technical expertise in virology and enhance the collaboration between the UAF and the Department of Health and Social Services.

The state Public Health Laboratory, located in Anchorage and built in 1999, lacks the space and physical infrastructure to perform the services provided by

The Honorable John Harris
January 20, 2005
Page 2

the existing Fairbanks virology laboratory. The Anchorage facility provides testing for diseases caused by bacteria, fungi, tuberculosis, and parasites, as well as analytical chemistry services for clinical diagnostics, forensic toxicology, and bio-monitoring. The Anchorage laboratory is also the only biological-safety-level-three facility in the state and thus serves as the central analytical agency for state and federal biological and chemical terrorism response.

The UAF has agreed to provide land and supporting infrastructure for the new state facility under a long-term lease at no cost. Co-location of the state's virology laboratory on the Fairbanks campus would have many advantages for both academic researchers and public health practitioners. This would include providing additional biological-safety-level-three space that should fulfill the need for surge capacity and provision of basic services in the event of a natural disaster affecting the Anchorage laboratory. It also will provide opportunity for enhanced collaboration with UAF's health research program.

This bill would authorize a lease-purchase agreement under AS 36.30.085, subject to annual appropriation, to finance the new laboratory. It would authorize the state bond committee to issue certificates of participation in the aggregate principal amount of \$24,000,000 for the construction of the virology laboratory. Additionally, the bill would provide that the remaining balance and equipping costs be paid from investment income of \$200,000 earned on the proceeds of the sale of the certificates of participation. The estimated annual amount of rental obligations under the lease-purchase agreement would be \$2,375,000. The estimated total cost of construction, acquisition, and other costs of the project, would be \$24,200,000. An immediate effective date is requested in the bill.

Your support for this virology laboratory would further Alaska's commitment to provide a modern public health system.

I urge your prompt and favorable action on this measure.

Sincerely yours,

Frank H. Murkowski
Governor

PUBLIC HEALTH

**PROTECTING AND PROMOTING THE
HEALTH OF ALL ALASKANS**

HB 100: Construction of a State Public Health Virology Laboratory in Fairbanks

Presentation to the House HESS Committee

March 1, 2005

Richard Mandsager, M.D., Director

Alaska Department of Health & Social Services

Division of Public Health

The Alaska State Virology Laboratory

- Provides specialized testing services for the purpose of diagnosing human and animal viral infections, such as
 - Influenza
 - Rabies
 - Hepatitis A, B and C
 - HIV
 - SARS
 - West Nile Virus
 - Norovirus
 - Measles
 - Mumps
 - Rubella

- Tested 36,267 specimens in FY 04
- FY 05 GF Budget = \$991.0

PUBLIC HEALTH
PROTECTING AND PROMOTING THE
HEALTH OF ALL ALASKANS

Current Fairbanks Virology Laboratory

- Located on UAF Campus since 1967
- 5,255 sq. ft. in Cold War-era Building
- Problem:
 - Severe space limitations
 - Inadequate lighting and ventilation
 - Fails to meet today's laboratory building and ADA accessibility standards
 - Potential for future eviction
 - “an accident waiting to happen”

PUBLIC HEALTH

PROTECTING AND PROMOTING THE
HEALTH OF ALL ALASKANS

Proposed Virology Laboratory Solution

- **Collaboration with UAF on a new Laboratory Facility in Fairbanks**
 - Provides critical laboratory capacity for rapid identification of known and “new” viruses
 - Provides redundant and surge capacity in the event of a terrorist attack or natural disaster
 - Retains valuable trained and experienced scientific staff resources

- Facilitates sharing of ideas and new knowledge between UAF Health Research Program and DHSS

HB 100: Construction of a State Public Health Virology Laboratory in Fairbanks

- **Cost: \$24.2 Million for**
 - Design
 - Construction
 - Equipping
- **Financing: Certificates of Participation (COPs)**
- **Annual Lease-Purchase (estimated)**
 - 15-year term
 - 4.90% interest
 - \$2,375.0/year

- **Long term land lease negotiated with UAF (no cost)**
