Subject: Board of Fish Vacancy

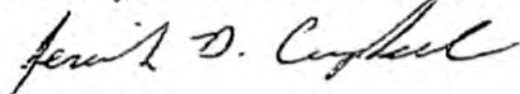

Dear Office of the Governor,

My name is Jeremiah Campbell and I am a lifelong Alaskan, growing up in Seward, and now raising my family in Seward. I am interested in the Board of Fish Seat that was vacated by Ed Dersham.

Being born and raised in Alaska has given me the opportunity to experience a multitude of the fisheries that Alaska has to offer. Since starting off as a kid commercial fishing in the Lower Cook Inlet, I have been involved in various aspects of the industry over the years, to include partners in a small seafood plant that did custom processing and smoking of fish, and also having a small Seafood Restaurant in Seward. We currently own and operate a Sportfishing & Sightseeing business in Seward called Alaska Northern Outfitters, LLC. My Partners and I have recently purchased a 100' Crabber/Tender the (f/v Mary J) and will be working the boat around the state in various Salmon & Herring fisheries.

I was elected secretary of our local Fish & Game Advisory committee in the fall of 2004, and am also the vice president of our local Seward Charterboat Association.

I believe I would make a good choice for the Board of Fish if given the opportunity. As complex as some of our fisheries are around the state, I believe that my ability to rationalize and use good judgment when presented with good factual data, sound biology, and rational input from all sides of the issues would make me a good asset to the board. I believe there are some hard choices to make in the future involving a good number of our fisheries around the state and I would like to be a part of the decision making process. I have enclosed my packet for consideration.

Respectfully,
Jeremiah D. Campbell

Jeremiah Campbell

P.O. Box 1586
Seward, AK 99664

Objective

To obtain a position on the Board of Fisheries for the State of Alaska.

Education

1987 High School Diploma, Seward High School, Seward, Alaska
2004 Master/Mate USCG 100 ton program, Alaska Vocational Technical Center

Professional Licenses

United States Coast Guard License #1088800
Master of Steam or Motor Vessels of not more than 50 tons upon near coastal waters.

2003/4/5 Sportfish Guide License, State of Alaska #2159
2004/5 Migratory Bird Hunting Guide, State of Alaska #041483

Work Experience

12/02-current Owner/Partner Alaska Northern Outfitters, LLC
Sportfishing, Sightseeing, & Hunting Charter Vessel Co.
Responsible for management of vessel & crew operations, to include crew & passenger safety, vessel maintenance, and daily operations.

5/98-12/02 Owner Campbell Construction Co.
General Construction Contractor
Specialized in residential construction of new custom homes. Responsible for contracting and completing timely construction of new homes, while ensuring crew safety & customer satisfaction.

10/93-12/98 Owner/Partner Smoke'n Alaska Seafoods
Custom Fish Processing & Smoking/ Seafood Restaurant & retail seafood.
Responsible for plant operations to include processing, packaging, and overall cleanliness & safety of product. Developed HACCP plan and worked with DEC inspectors to ensure plant and fisheries product safety.

10/87-10/93 United States Marine Corps
Maintenance Administration Clerk
Responsible for managing aircraft maintenance logbooks in a helicopter squadron. The accuracy of the logbooks was vital to crew & aircraft safety in regards to component replacement.

5/85-10/96 Commercial Fishing Crewmember
Crewmember on various fishing vessels, and participated in numerous fisheries to include salmon purse seining in Lower Cook Inlet, Setnet Gillnet salmon in Bristol Bay, Longline for Halibut Area 3A & 3B. Purse Seine for Herring in Togiak & Lower Cook Inlet.

Volunteer Work

Seward Charterboat Association/Vice President
Fish & Game Advisory Board/Secretary (local Seward)

Subject: *****SPAM***** Confirmation of Mr. Jerimiah Campbell to the Alaska Board of Fisheries

Members of the House Special Committee on Fisheries:

First of all, I want to apologize for not being able to testify at your hearing last week (Feb 8) in support of Mr. Jerimiah Campbell's appointment to the Alaska Board of Fisheries.

As you heard at your committee meeting last week, there are a few people that would like to see his confirmation fail. However, after subsequently hearing some of their reasons, I feel I need to weigh in, albeit after the fact.

As Chairman of the Board, I watch every Board member closely and push them to work hard and help the Board process along. Since being appointed by Governor Murkowski in September of last year, Mr. Campbell has proven himself to be a strong Board member. For those that have watched our meetings, it is apparent that Mr. Campbell does his "homework" before each meeting...reading the Department of Fish and Game's reports, as well as reviewing public comment. He is also an active and engaged Board member during our meetings, not only drawing out salient discussion points, but also in helping to build a strong administrative record of our proceedings.

While Mr. Campbell and I have not seen things the same way on a few recent, high-profile issues, I cannot fault him in the least for this. As Legislators, I'm sure you can understand that there is no such thing as an "easy decision" when it comes to the major issues. There are always two sides (at least) to each issue, and everyone thinks they're right.

As the Chairman of this process, all I can ask of my fellow Board members is that they do their work, respect the process, and justify the decisions that they feel are right, no matter if I (personally) agree with them or not. Mr. Campbell has done this, and has done it well. He deserves to be confirmed.

I urge you to confirm Mr. Jerimiah Campbell to the Alaska Board of Fisheries.

Respectfully,
Art Nelson
Chairman, Alaska Board of Fisheries.

Subject: Board of Fish hearing

Honorable Sirs and Madams

Sorry that most of you missed my testimony at the end of the hearing in House Fisheries this morning. I realize the hearing ran into the floor session and therefore you all had to run.

I'd like to point out a couple of issues that were brought up this morning in the hearing.

1. I am paid to represent fishermen, notably the Southeast Alaska Seiners and the Sitka Herring Group. To a lesser degree, I work with infrastructure consulting and lobbying with Wrangell Seafoods and Armstrong Keta. It was pointed out by Mr. Campbell that I was being paid at the Ketchikan board of fish meeting representing fishermen and that is indeed true.

I am proud to represent commercial fishermen and, other than volunteering to represent them as I still do at UFA and have done for over a decade prior to being paid, I believe it is the highest calling that someone could endeavor to do. Commercial fishermen and commercial fishing communities are the salt of the earth. I do not apologize to Mr. Campbell or his backers, Mr. Penney, the Alaska Charter Boat Association, or Kenai River Sportsmen's Association, all of whom have plenty of hired guns in their stable, including Mr. Campbell's "investment" partners in his tender and charter operations. Who are these partners? I guess it didn't come out in today's hearing.

2. Mr. Campbell's vote on Sitka Herring Equal Split, while a huge economic blow to my closest constituents and local communities in Petersburg, Ketchikan and Sitka, was not the litmus test for UFA's opposition to Mr. Campbell. Only myself, representing the SE salmon and herring guys, along with Scott McAllister, President of the Herring Marketing Association were swayed by this issue.

16 other UFA groups voted to oppose Mr. Campbell's confirmation for entirely other reasons, mostly having to do with Copper River, Cook Inlet and Halibut Charter issues. The Southeast folks involved with salmon and herring were among the last groups to offer up opposition to Mr. Campbell's confirmation. Fortunately we have had Mr. Campbell on for only 3 meetings over the past 5 months. We are trying to nip this in the bud right now prior to having more and more problems statewide.

Now that we have seen the breadth of Mr. Campbell's support from Bob Penney, Kenai River Sportsfishing Association and the Alaska Charter Boat Operators, **I believe that UFA will be even more determined than ever to oppose his confirmation.** It is patently obvious that he was selected for the board of fish not for his open mind but rather for an agenda for other users to usurp traditional and historic users of salmon and halibut resources. As he himself stated, "I was approached by a group of sportsfishermen". Ask him where this was? Was it not indeed Bob Penney's lodge on the Kenai River?

On another note, however, it must be mentioned that the Sitka Tribe supported Sitka Herring Equal Split in order to help facilitate a dispersal of fishing effort to accommodate subsistence users in the Sitka area. The board, including Mr. Campbell, refused to act in any manner that would help to resolve the subsistence issue in Sitka.

And last but not least, this confirmation hearing brought to light that Mr. Campbell is potentially bringing his tender to Southeast Alaska. This is the first we have heard of this. We will be watching closely to see who his tender contract is with as he only met with one company while in Ketchikan.

Sincerely

Bob Thorstenson
President, UFA
Executive Director, SEAS

Representative Gabrielle LeDoux
State Capitol (Interdepartmental Mail Stop 3100)
Juneau, AK 99801

Dear Representative LeDoux,

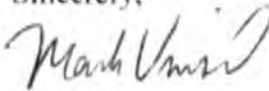

United Fishermen of Alaska (UFA) includes 31 member Commercial fishing organizations, representing fisheries from across the State. The UFA board has voted overwhelmingly to oppose the confirmation of Jeremiah Campbell for the Board of Fisheries.

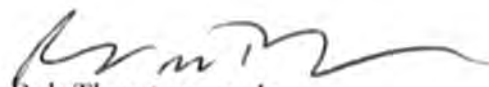

Mr. Campbell's testimony at the North Pacific Fisheries Management Council on December 8, in which he related that he assumed in late 2002 that the Council's 2001 action regarding halibut would not be enacted, and therefore purchased charter vessels that would not be eligible under the Council's action, shows an alarming disregard for the public fisheries management process. His disdain for the Council members, procedure and process was evident in the remaining testimony he provided.

Thus far, Mr. Campbell has been "learning on the job" with the Board of Fisheries. There is too much at stake in Alaska's fisheries to have people who are just developing their fisheries knowledge while our livelihoods and fish resources are at stake.

UFA has a long tradition of supporting fisheries management through Board of Fisheries and Council public process. We appreciate your consideration of our position regarding Mr. Campbell and the Alaska Board of Fisheries.

Sincerely,

Mark Vinsel
Executive Director

Dear Ms. Wallace:

I appreciate receiving the fisheries committee updates. Thank you.

On the issue of the confirmation of Bonnie Williams, I have only one question-wasn't there anybody else more qualified to serve on the Board of Fisheries than her? With a whole state full of highly experienced fishermen and women from coastal communities, it just doesn't appear to make sense to nominate somebody with only four years of fishing experience to serve on the Board.

The Governor's appointment of this candidate speaks of party politics and ulterior motives. I think she is not qualified for the position and should not be confirmed.

Respectfully,
Izetta Chambers

It is absolutely absurd and quite ridiculous that we would appoint someone to the Board of Fisheries that has no experience with fisheries other than to have purchased a sport fishing license. Having been involved with the public comment portion of the Board of Fish proposals, I am a witness to the extreme importance that the members of the Board of Fisheries have a solid understanding of fishery issues--commercial, sport, and subsistence. The public testimony on issues is limited to a total of five minutes per person and participants must be willing to sit through days of proceedings just to have a chance to make their comment. The Board has a broad authority to make dramatic changes to fishery regulation that can have dramatic affects on an industry that has invested millions of dollars and that peoples very livelihood and existence

4/28/2006

depends upon. The Board of Fish members should be highly educated in fishery issues--not a political appointment.
