### REPORT ON CONFIRMATION OF APPOINTMENTS

February 28, 2005

The Honorable Ben Stevens  
President of the Senate  
State Capitol  
Juneau, Alaska 99801-1182

Dear President Stevens:

In accordance with AS 39.05.080, the Senate Resources Committee reviewed the following and recommends the appointment be forwarded to a joint session for consideration

Daniel Seamount, Commissioner: Alaska Oil and Gas Conservation Commission

There were no stated objections to the confirmation of the named individual(s) by committee members. This does not reflect an intent by any of the members to vote for or against the individual during any further sessions.

Respectfully,

COMMISSION /6

DANIEL TAYLOR SEAMOUNT Jr.

Home Address

23747 Hilltop Dr.  
Chugiak, AK 99567  
WK: 279-1433

OCCUPATIONAL GOAL: Geologist

WORK EXPERIENCE:

Union Oil Co. of Ca., 2/8/93 to present  
P.O. Box 196247, Anchorage, AK 99519-6247

Title: Senior Advising Geologist

Duties: For last year have worked regional exploration and specific prospects in Cook Inlet. Prospect areas have included North Middle Ground Shoal, Sunfish, Redoubt Shoal, coal bed methane, South Cook Inlet, Susitna Basin and west side. Utilized Atlas's WDS well log system and Landmark's Stratworks, Petroworks, and Seisworks packages. For 3 1/2 years prior, was project manager and Team leader of a group which exploited development, exploration, and business opportunities in Cook Inlet and Alaska North Slope. Heavily involved in planning and budgeting wells, forming partnerships, facilities construction & re-mediation, and safety and environmental projects. Made numerous written and oral presentations to management and partners to update them on project progress and presented to state agencies (DNR & AOGCC) to form units, drilling PA's, and Plan of Operations. Provided geological input on well bore disposal of platform effluent. Presently working on plan of operations for Matanuska Valley Coal Bed Methane project. Also worked on Kuparuk and Endicott Fields on North Slope.

Union Oil Co. of Ca., 5/16/88 to 2/8/93  
3300 N. Butler, Farmington, NM 87401  
P.O. Box 2620, Casper, WY 82602-2620

Titles: District Development Geologist: 8/89 to present  
Geologist: 5/88 to 8/89

Duties: Supervised and worked development and exploration geology of UNOCAL operated properties in the San Juan, Paradox, and Piceance Basins. Exploited tight sandstone reservoirs (27 wells), coal seam gas (57 wells), and conventional sandstone and carbonate oil and gas reservoirs. Horizontal, deviated, and vertical well bores were utilized. Additional work included managing geological contractors, progress reporting of drilling programs and field mapping. Also assisted in exploration projects in the Green River & DJ Basins. Presented San Juan Dakota reservoir characterization results to NM State O&G Comm. in approval process of tight gas sands designation. Worked with Utah O&G Comm. in forming Lisbon Field Unit.

Presented to numerous potential partners and was on a team which sold Unocal's alternative fuel tax credit to outside investors.

Marathon Oil Co., 7/13/81 to 5/16/88  
P.O. Box 120, Casper, WY 82602

Titles: Staff Geologist: 1986 to 1988  
Project Supervisor: 1984 to 1986  
Geologist: 1981 to 1984

Duties: Oil and gas prospecting in the D-J Basin (one Paleozoic discovery), the Green River Basin (assisted in two Moxø Arch Frontier and Dakota gas discoveries and one sub-economic oil well), the Las Animas Arch (a number of Morrow Prospects on hold), and the central Kansas uplift (Pennsylvanian basal ss and Lansing-Kansas City Fm.). Work included regional & local mapping of structures, thickness', and facies of Rocky Mountain petroleum reservoirs and presentation of prospects to management. Was expert witness in Nebraska lawsuit between Marathon and KN Energy.

Chevron U.S.A. Inc., 8/18/73 to 1/3/79

2525 N. Chester, Oildale, CA 93308 (10/75 to 1/79)  
575 Market St., San Francisco, CA 94105 (8/73 to 10/75)

Titles: Geologic Assistant: 1975-1979

Computer Analyst : 1973-1975

Duties: Utilized geologic and geophysical computer programs. Performed well site work and prospect generation in California onshore and offshore.

Institute of Geophysics and Planetary Physics, 1/3/79 to 7/13/81

University of Ca, Earth Science Dept. Riverside, CA 92521

Title: Research Associate (half time while finishing MS)

Duties: Assisted research scientists in geothermal, seismic, and earthquake studies. Also, supervised the drilling of heat flow test holes.

EDUCATION:

M.S. - Geology, 6/81, University of CA, Riverside, CA.

Emphasis on geothermal development and exploration. Thesis titled, " Well Log Study of the Hydrothermally Altered Sediments of Cerro Prieto Geothermal Field, Baja California, Mexico".

B.S. - Geology, 5/73, University of CA, Riverside

## Summary of qualifications

Strong problem-solving and people skills, intelligence, and integrity. 25+ years of broad petroleum industry experience from technical to management, from research to operations, and from the Gulf of Mexico to the North Slope of Alaska.

## Education

1973 – 1977                      University of Texas                      Austin, Texas  
Bachelor of Science in Mechanical Engineering with Highest Honors

## Professional experience

2002 – Present                      PRA  
Reservoir Engineer: Provide technical consulting on a variety of projects, including Kuparuk exploration evaluation for Pioneer Resources, Facilities Access study for DNR, and Lisburne redevelopment study for BP.

2000 – 2001                      BP  
Director, BP Energy Center: Managed construction and final design details, stressing safety, cost containment, and quality control. Coordinated development of energy education displays and presentations. Collaborated with community leaders, non-profits, and educators.

1999 – 2000                      ARCO Alaska, Inc.  
Government Relations Director: Represented ARCO's interests as lobbyist before Alaska state legislators and other public officials.

1994 – 1998                      ARCO Alaska, Inc.  
Planning and New Field Development Supervisor: Supervised engineers and geoscientists in developing new satellite fields on the North Slope of Alaska. Managed long range plan, budget, reserves reports, and performance analyses.

1992 – 1994                      ARCO Alaska, Inc.  
Production Superintendent: Managed non-rig wellwork and drillsite support operations with over \$100 million annual budget for the Eastern Operating Area of Prudhoe Bay Field.

1989 – 1992 ARCO Exploration & Production Technology, Inc.  
 Research Director. Managed production engineering research and technical support efforts of engineers and scientists in well stimulation, rock mechanics, reservoir geochemistry, artificial lift, and profile modification. Served as liaison between R&D staff and operations clients. Represented ARCO's interests in various research consortia.

1987 – 1989 ARCO Oil & Gas Co.  
 Reservoir Coordinator. Served as technical liaison between executives in company headquarters and technical personnel in operating districts on financial evaluations, engineering and exploration project proposals, competitor analyses, and acquisition evaluations.

1982 – 1987 ARCO Oil & Gas Co.  
 Area Engineer. Led various production and reservoir engineering groups that developed and managed onshore South Texas and offshore Gulf of Mexico fields. Interacted extensively with Texas oil and gas regulatory agency officials.

1979 – 1982 ARCO Oil & Gas Co.  
 Operations Engineer. Developed and managed various oil and gas fields onshore in South Texas.

1978 – 1979 Exxon Gas System, Inc.  
 Facilities Engineer. Provided facilities engineering support for an intra-state gas pipeline system.

1977 – 1978 Exxon Company USA  
 Reservoir Engineer. Performed reservoir and surveillance engineering for oil and gas fields onshore in South Texas.

**Objective**

Employment using my oil & gas, problem-solving, and business management skills and experience

Dear Senator Wagoner,

At its recent meeting the UFA board considered potential nominees for the three Board of Fisheries seats that are open for appointment this year.

UFA supports the reappointment of Mel Morris, Rupert Andrews, and John Jensen to additional terms on the board. These board members have shown a balanced consideration of all users and the importance of Alaska's fishery resources to Alaska's economy and quality of life.

We appreciate your consideration of this important matter.

Sincerely,

Mark Vinsel  
Executive Director

Dear Senator Wagoner,

United Fishermen of Alaska (UFA) supports the reappointment of McIvan Morris, John Jensen, and Rupert Andrews to the Alaska Board of Fisheries. These individuals bring essential experience from the Department of Fish and Game, and a balance of commercial and sport fishing backgrounds to the Board. All three have served the Board well in their initial terms, with the necessary hard work required for fair consideration of the complex issues that are the responsibility of the Board of Fisheries.

UFA represents 31 Alaska commercial fishing organizations and hundreds of individual fishermen and fishing related businesses. We appreciate your consideration and support.

Sincerely,

Mark Vinsel  
Executive Director

### EDUCATION

M.S. 1976 Environmental Studies, California State University Fullerton  
B.A. 1974 Geography, California State University Fullerton

### PROFESSIONAL EXPERIENCE

**2/1999 to Present: Deputy Commissioner**  
**Alaska Department of Environmental Conservation**

I currently serve as the second in command of Alaska's environmental agency which is responsible for managing air and water quality, solid waste disposal, food safety and sanitation, spill prevention and response, and community sewer and water construction projects. The department operates with an annual budget of approximately \$50 million and 450 employees. I serve as the commissioner's representative on a number of Boards and Commissions including the Pacific Northwest Environmental Directors group, British Columbia and Western States Oil Spill Task Force, the Board of Storage Tank Assistance, Alaska Regional Response Team, State Emergency Response Commission and Alaska Coastal Policy Council.

As deputy commissioner I worked to change the department's traditional "command and control" regulatory approach to a more collaborative problem solving approach. Economic reuse of the contaminated pulp mill site in Sitka, permitting air discharges from Cominco's Red Dog mine, developing site specific criteria for wastewater discharges to Cook Inlet from the Anchorage sewage treatment plant and improving the spill response capability for offshore development in the Beaufort Sea and tanker traffic in Prince William Sound are a few of the accomplishments made under the new problem solving approach. I was also responsible for approving the public review of all department regulations and their adoption for filing with the Lieutenant Governor.

**4/1990 to 2/1999: Director, Division of Spill Prevention and Response**  
**Alaska Department of Environmental Conservation**

Following the Exxon Valdez oil spill the department created a new Division of Spill Prevention and Response with significant new authority and resources to approve industry oil spill prevention and response contingency plans, assess and cleanup contaminated sites, and close or upgrade commercial underground fuel storage tanks. As the first deputy director and then beginning in 1995 as the division's director, I led the division's work with industry, regional citizen advisory groups, federal agencies and other stakeholders to put in place the nation's most advanced spill prevention, preparedness and response network.

**4/1983 to 4/1990: Senior Project Analyst, Division of Governmental Coordination  
Alaska Governor's Office**

Working in the Governor's office throughout the administrations of Governor's Hammond, Sheffield, and Cowper I prepared the state's position on major development projects in consultation with other state agencies and interest groups. I directly supervised staff in Juneau, Anchorage and Fairbanks who were responsible for conducting pre-application meetings, mediating disputes between the project applicant and reviewers, and issuing a final state decision. Major projects reviewed during my tenure included nearshore oil and gas development causeways in the Beaufort Sea, all offshore oil and gas lease sales, exploration and development plans, onshore leasing proposals for NPRA and ANWR, the Trans Alaska Gas System right-of-way lease, Alyeska ballast water treatment plant discharges in Valdez, and offshore mining in western Alaska.

During the first month of the Exxon Valdez oil spill, I established a Governor's office in the fishing community of Cordova and served as the Governor's representative to assist the local community in dealing with reimbursement of local spill response costs and general assistance from state agencies in community recovery.

**9/1979 to 8/1983: Deputy Director, Alaska Office of Coastal Management  
Alaska Governor's Office**

As the second in charge I served as staff to the Alaska Coastal Policy Council. The Council members included state agency commissioners and local elected officials that oversaw the development and approval of community specific coastal development plans. I managed the office budget and administrative operations including hiring and interagency agreements. I also supervised special project staff that produced a number of studies including an analysis of wellands permitting options, an analysis of government service delivery systems in Alaska's unorganized borough, and publication of an index of major state regulations governing land and water uses in Alaska.

## McKie Campbell

10608 Horizon Dr.  
Juneau, AK 99801

ne: McKie Campbell

---

### *Experience:*

Mr. Campbell is currently the principal of the Campbell Group, a project management firm that specializes in permitting and natural resource consulting, and the management of multi-discipline teams of scientists performing EIS's and EA's. Mr. Campbell has 25 years of governmental and private sector natural resources experience in Alaska. He has extensive experience working with local, state, and federal agencies as well as natural resource advocacy groups on all sides of issues, and specializes in working in the interface between science and government to bring diverse interests together.

Mr. Campbell is currently managing the preliminary engineering and environmental documentation for the Nelson Island Road System. He has recently completed project management of the Greens Creek Mine Tailings Expansion EIS, the King Cove Access Project EIS, and a rewrite of the state's Coastal Zone Management Standards.

Mr. Campbell managed the Flightseeing Noise Analysis and Alternative Heliport Siting Study for the City and Borough of Juneau, served as the assistant project manager for the Pogo Mine EIS, and managed all local contractors and was liaison to state agencies for the AJ Mine SEIS. Mr. Campbell was project manager for EA's for Adesta fiber optic lines across Colorado (CDOT) and Utah (UDOT) and management of a \$700,000+ Alaska Science and Technology Foundation research project for the Alaska Department of Fish and Game, the Department of Environmental Conservation, and the Alaska Council of Producers.

Permitting work has included work for the Alaska Natural Gas Transportation System for the Alaska Northwest Natural Gas Transportation Company (Foothills), the Kenai/Kachemak Pipeline for Unocal and Marathon, and Homer Electric Association's Moose Pass to Soldotna Fiber Optic Cable Feasibility Study. Prior to the Fort Knox Mine project receiving construction financing of \$374 million, it was the subject of an independent third-party due diligence review. Mr. Campbell was the team member responsible for reviewing all environmental issues and permits on behalf of the lending institutions. Mr. Campbell has also worked on the Pebble Deposit, Beluga Coal, and transportation issues for the Ambler Mining District.

Mr. Campbell has worked with the U.S. Congress to evaluate innovative approaches to mine reclamation issues and with the Alaska Legislature on behalf of the Alaska Council of Producers on water quality issues (HB 258, a bill supported by both development and environmental interests).

In government, Mr. Campbell last served as Deputy Commissioner of the Alaska Department of Fish and Game. In that capacity he worked with virtually every issue the department deals with as well as representing the Commissioner on selected issues with the Legislature and with the U.S. Congress. Mr. Campbell has also served as Special

Assistant to the Commissioner of ADF&G, as Legislative staff for nine years, as Deputy Chief of Staff in Governor Hickel's office, and as a volunteer team leader on Governor Murkowski's transition team.

From small legislative hearings, to the public comment process for the King Cove EIS that received over 19,000 written comments, Mr. Campbell has extensive experience with dealing with controversial issues through public outreach and the public meeting process. He has organized and moderated statewide meetings on subsistence and wolf control and hearings in Juneau on flight-seeing. In both public and private service, Mr. Campbell has a successful history of working with Tribes, villages, and other Native organizations. Of particular importance is Mr. Campbell's reputation and ability to manage complicated or controversial projects while maintaining the respect of all parties for the integrity of the process.

***Employment History:***

- 2003–Present - Principal of the Campbell Group, a project management firm specializing in NEPA, permitting, and natural resource consulting.
- 1998–2003 - Prior to reestablishing his consulting firm, Campbell was the Senior Environmental Manager in Alaska for Michael Baker, Jr. Inc.
- 1995–2003 - Principal of North Coast, a project management firm specializing in NEPA, permitting, and natural resource consulting.
- 1993–1994 - Deputy Commissioner - Alaska Department of Fish and Game, Juneau, AK. Responsible for much of the day-to-day management and administration of ADF&G. Particularly responsible for work with legislature and involved in resolution of difficult resource development / habitat issues. Represented the Commissioner on selected issues in Washington D.C.
- 1991–1993 - Alaska Governor's Office - Deputy Chief of Staff for Operations. Temporarily assigned to Governor Hickel's Office to resolve difficult natural resource issues. Appointed Deputy Chief of Staff to deal with operational issues throughout state government
- 1991 - Special Assistant to the Commissioner, Alaska Department of Fish and Game. Legislative liaison for ADF&G and represented the commissioner on special issues and with constituent groups
- 1990 - Campaign Manager, Arliss Sturgulewski's statewide Republican gubernatorial campaign
- 1981–1990 - Alaska State Senate. Professional Assistant. Nine years as legislative committee staff. During this time, Mr. Campbell focused on resource issues
  - 1989–1990 - Senate Rules Committee. Senator Sturgulewski, Chairman
  - 1987–1988 - Senate Community & Regional Affairs Committee. Senator Sturgulewski, Chairman
  - 1985–1987 - Senate Resources Committee. Senator Sturgulewski, Chairman
  - 1984 - Regulation Review Committee. Senator Ferguson, Chairman
  - 1983 - Senate Community & Regional Affairs Committee. Senator Ferguson, Chairman (from Senator Gilman's office)
  - 1981–1983 - Senate Community & Regional Affairs Committee. Sen. Gilman, Chairman

- 1979-1981 - Alaska\*Department of Community & Regional Affairs. Graduate Intern, Local Government Specialist III, Local Government Specialist IV. Worked with small rural communities throughout Alaska on contract management and grant administration.
- 1975-1979 - Investigator, Washington County Sheriff's Department, Marietta, Ohio
- 1972-1975 - Police Officer, Marietta Police Department, Marietta, Ohio

***Public and Community Service:***

- Volunteer Coordinator - Capitol Planning Committee, 2003-2004
- Co-Chair of Golden North Salmon Derby 2002 and 2003
- Candidate for Juneau's State Senate seat - lost primary 1998
- City and Borough of Juneau. Eaglecrest Board of Directors, 1992 to 2000 (Juneau's Municipal Ski Area, served two terms as President)
- Assembly member, 1987-1990. Served one term, did not run again because of managing Sturgulewski gubernatorial campaign at the time. Testified before Congress on wetlands issues.
- Juneau Planning Commission, 1983-1987, Chairman
- Juneau Parks and Recreation Commission, 1981-1983
- KTOO (Public radio and television station for Juneau and Southeast Alaska). Board of Directors., Board member and Secretary/Treasurer, 1991-1994
- Southeast Conference (a nonprofit group of local governments and businesses addressing regional issues in Southeast Alaska). Member, Second Vice President, First Vice President. Lobbied Congress and federal departments on transportation, Tongass timber, and other issues. 1987-1990

***Education:***

- B.A. Marietta College, Marietta, Ohio 1974

Senator Tom Wagoner, Chair  
Senate Resources Committee  
State Capitol (Mail Stop 3100)  
Juneau AK 99801-1182

Dear Senator Wagoner,

The United Fishermen of Alaska (UFA) Board of Directors recently met to discuss the position of Commissioner of the Alaska Department of Fish and Game (ADF&G). We interviewed Mr. McKie Campbell and were impressed with his awareness of the vital importance of Alaska's fish and game resources to Alaska's economy, the role of the commissioner, and the importance of Alaska's reputation for leadership in responsible and sustainable fish and game management.

UFA supports the confirmation of the Governor's appointment of McKie Campbell for ADF&G Commissioner, and we encourage the support of the Alaska legislature in the confirmation process.

United Fishermen of Alaska represents thirty-one Alaska commercial fishing organizations, and hundreds of individual fishermen and fishing related businesses. If you would like to discuss the appointment of Mr. Campbell, or other aspects of commercial fishing, please do not hesitate to call.

Thank you for your consideration.

Mark Vinsel  
Executive Director

MEMO

TO: All Legislative Members  
FROM: Rep. Tom Anderson  
DATE: April 25, 2005  
RE: Concerns Regarding Proposed Food Code Changes

*CONFIRMATION*  
*DEC - Fredriksson*

---

The Joint Administrative Regulation Review Committee received much testimony at its recent hearing regarding the proposed Food Codes changes by DEC. **All of the public comment was firmly opposed to the implementation of these proposed Food Codes.**

**Comments included many concerns.** For instance: there is no real problem being addressed by this regulation overhaul; these are sweeping changes; this is over-regulation; this is overkill; this will increase the paperwork sent to the department, taking away the department's focus on inspections; this is asking the bad operators to inspect themselves; the program being implemented, called "Active Managerial Control," is the first of its kind being implemented in the nation; the schedule of fines is arbitrary; much of the language is unclear; it requires food workers to wear gloves at all times but that does not ensure safety, only the appearance of it; the timeline for public comment was too short; the advisory suggestions were not followed; the whole thing needs to be scratched; it is affecting seafood processing operators who have no incidents of food borne illness to speak of and have their own mechanisms for safety already in place; these are unprecedented and novel regulations; etcetera; etcetera.

**These proposed changes represent a major rewrite to the Alaska Food Code,** including several novel regulations. Nineteen of the new codes have no equivalent requirement in either the existing Alaska Food Code or the federal FDA Food Code. These proposed Food Code changes, while attempting to improve inspection procedures and public health and safety, must not disregard the businesses responsible for their implementation.

**These regulations fail the tests of necessity, effectiveness, cost-savings, public responsiveness, and legislative intent.** We can all agree to the need for public health and safety, which is a constitutional mandate in Alaska. The food service industry shares those same concerns. In fact, for them fulfilling those concerns means good business. These proposed changes fail to reflect the concerns voiced by the industry in the months prior to their development. These proposed regulations have greatly disturbed the food service industry, because their implementation will cost them more in compliance, rather than actually improving safety and health concerns. Additionally, these regulations do not promote the intent of its enabling legislation, HB 378, which was to reduce inspection costs. No cost-savings were attributed to this Food Code rewrite.

**The worthwhile attribute of these proposed regulations is the requirement to have food-workers better trained and for the industry to develop standard operating procedures (SOP).** The intent of these regulations is to allow self-inspection to help reduce the costly and mandated function of the department to inspect and ensure that food establishments are operating in a safe and healthy manner.

**Report from the  
Joint Administrative Regulation Review Committee  
Hearing on Proposed Food Codes by DEC  
April 20, 2005**

The Joint Administrative Regulation Review Committee heard testimony regarding the 108 pages of proposed Food Code changes by the Department of Environmental Conservation now in its final stages of drafting. The public comment period to the DEC has been closed since March 15, 2005.

Testimony was received from:

Kurt Fredriksson, Acting Commissioner to the DEC  
Kristin Ryan, Director of the Division of Environmental Health

Testimony opposed to the Food Code changes was received from:

Karen Rogina, Alaska Hospitality Alliance  
Meghan Popley, Cape Fox Lodge, Ketchikan  
Karen Lynch, Cape Fox Lodge, Ketchikan  
Tim Frank, Cape Fox Lodge, Ketchikan  
Fernando Salvador, Talkeetna Alaskan Lodge  
Patrick Wilson, Petersburg Fisheries  
Brian Lynch, Small Take-out Food Operator  
Larry Hackenmiller, Fairbanks CHARR  
Tim Montgomery, Steamers Restaurant, Ketchikan  
Doug Donegan, Self  
Dale Fox, Alaska CHARR  
Earl Hubbard, Trident Seafoods, Seattle  
Kenny Lum, Food Products Association, Seattle  
Joe Frazer, Food Products Association  
Jim Yonker, Ocean Beauty  
Liz Best, Alaska General Seafoods

The following issues regarding proposed Food Code changes were addressed at the hearing:

- Adds Paperwork to Food Service Industry and to the Department
- Does Not Streamline Process of Inspections
- Does Not Decrease Costs of Inspections (Intent of the Enabling Legislation HB378)
- May Reduce Inspection Levels
- Allows All Operators, Good and Bad, to Self-Monitor
- Does Not Solve Budgetary Issues Regarding Health Inspections
- Adds Costs to Doing Business
- Requirement for No Bare Hand Contact Is Not Practical Nor Warranted
- Posting of Signs Unanimously Opposed
- Requires Wrapping of Silverware
- Initiates Active Managerial Control (AMC), a New Methodology
- Introduces Several Novel Regulations with No Federal or State Equivalent
- Increases Training for Food Service Workers
- Requires Food Workers to Be Tested and Given Certification Card
- Requires Certified Food Service Managers to Always Be On-Hand
- Fails to Document the Problems in Food Industry Being Solved
- Increases Governmental Control or "Over-Regulation"
- Applies Ambiguous Fine Schedule
- Affects Seafood Processors Detrimentally
- An Exception Is Being Requested by the Seafood Processors

**Brief Overview of HB378:**  
**Enabling Legislation for Proposed Food Codes**

HB378 passed in 2004

In the Minutes of Legislative Committee meetings held in 2004 on HB378 this bill:

**Intent:** "The need [for this bill]," said Rep. Bill Williams, who sponsored it, "stems from concern that bar and restaurant owners are concerned about paying high fees but seldom receiving and inspection. Since 1995, the fees have risen from \$50 to \$450." Regarding this bill, he said he hoped that the food inspection program fees decrease as a result of HB 378.

**Authorized DEC:**

- To add to the powers and duties of the commissioner: "the training, testing, and certification requirements for individuals who handle or prepare food, their supervisors, and their employers to ensure their knowledge of food safety and sanitation principles and requirements."
- To set up a program that allows facility owners to do their own inspections, of which DEC will monitor. This new program, which the department calls Active Managerial Control (AMC), that relies upon three elements:
  1. The training and certification of a knowledgeable workforce;
  2. Managing risks and food handling through standard operating procedures (SOP);
  3. Enforcement.

## PROPOSED FOOD CODES FAIL FIVE TESTS

### NECESSITY:

No studies, no statistics, no problems were documented showing the need for the stringent new requirements these proposed regulations would place upon the food service industry in Alaska. The State of Alaska Epidemiology Bulletin reported six restaurant outbreaks of food borne illness for the four years of 2000 to 2003. Several novel regulatory approaches, which have never before introduced either in Alaska Codes or Federal FDA Codes, are included in these new regulations.

### EFFECTIVENESS:

These proposed regulations require more reporting from businesses, adding paperwork both to themselves and to the department. These are self-assessment reports, which means that those businesses with poor sanitation will not necessarily be directly monitored. The posting of complaint signs, the usage of gloves at all times by food workers, may improve the appearance of food safety though not actual food safety.

The training program for certifying food workers is considered an improvement. The practical implementation of it still has questions and concerns. Requiring a certified manager on hand at all times may increase business costs without necessarily improving public health; it could cause hardship to a business, during its transitions of personnel when a replacement is not readily available.

### LEGISLATIVE INTENT:

The original intent of the enabling legislation HB378, according to Rep. Bill Williams its sponsor, was to reduce fees for inspections. In the minutes to committee hearings on this legislation, he said, "The need [for HB378] stems from concern that bar and restaurant owners are concerned about paying high fees but seldom receiving an inspection. Since 1995, the fees have risen from \$50 to \$450." He went on to say that he hopes the food inspection program fees decrease as a result of HB378.

### COST-SAVINGS:

From testimony from the businesses that will be affected by these proposed regulations, there will be added costs imposed upon them. They will be purchasing gloves; they will be wrapping all their silverware; they will be spending staff time to fill out compliance paperwork. These extra expenses do not affect directly public health and safety but do improve the appearance of public health and safety. If the proposed regulations increase the number of reports the DEC will be receiving from businesses, it may move their time away from actual inspections toward the review of paperwork. No documentation or discussion was presented at the Food Code Hearing indicating that costs would be reduced because of these proposed regulations.

## RESPONSIVENESS TO PUBLIC COMMENT:

Admirably, the DEC engaged the food service industry prior to writing these proposed regulations in advisory discussions over several months. Advisory group members felt these discussions were helpful during the writing process.

The draft proposal of regulations, however, did not reflect their concerns. Food establishments run their businesses to serve the public and to stay in business; they are, in general, the most concerned regarding public health and safety for, simply, it is good for business.

The seafood processing industry specifically sought, at the ARRC Food Code Hearing, an exception to the proposed regulatory oversight. They expressed major concerns that these proposed regulations will place an expensive and unnecessary burden on them, as they have been operating with a perfect record and have self-regulating mechanisms built into their operations.

These regulations initiate a new paradigm called Active Managerial Control (AMC), with the intent to address the problem of doing inspections to all food industry establishments. Such sweeping changes demand more time for public scrutiny.

The Honorable Frank H. Murkowski  
Governor of the State of Alaska  
P. O. Box 110001  
Juneau, Alaska 99811-0001

Dear Governor Murkowski:

I am writing to express my strong desire to serve the state as a commissioner on the Commercial Fisheries Entry Commission (CFEC). I have already discussed this ambition with your Chief of Staff, Jim Clark, and your Director of Boards and Commissions, Laraine Derr.

I will soon be ending my judicial career and have long had a deep interest in commercial fishing and its regulation. This interest goes back to my years as a crew member in the Kodiak king crab and tanner crab fisheries in the early 70's, and to my season as a crewman on a salmon tender in the Kodiak seine fishery during the same period. It was sharpened while I spent three seasons as an active permit holder in the salmon hand troll fishery, from 1979 to 1981.

Between these two periods of commercial fishing, I worked in the Attorney General's Office (AGO) as the primary attorney for the CFEC for over three years (1976 - 1979). I advised the commissioners and their staff, drafted their regulations and legislation proposals and represented them in court, as the number of entry permit denial appeals surged. When I returned to the AGO in 1981, my duties included acting as the final editor of all CFEC regulations and the drafter of all proposed CFEC legislation until taking the bench in 1989.

This rich variety of experience, along with my 15 years as a judge, makes me uniquely qualified to serve as a CFEC commissioner. I will bring my working knowledge of commercial fishing and my legal knowledge of CFEC statutes, regulations, and caselaw, as well as my judicial knowledge of dispute resolution techniques and decision-making. This is the ideal combination for what I know is the perfect job for me - one that I will truly enjoy, while serving both the commercial fishing industry and all Alaskans, to whom our resources belong.

I would welcome the opportunity to further discuss my interest in and qualifications for one of the upcoming vacancies on the CFEC with you or your staff.

Thank you very much for your consideration.

Sincerely,

Peter B. Froehlich

cc: Jim Clark, Chief of Staff  
Laraine Derr, Boards and Commissions

OFFICE OF THE GOVERNOR  
Frank Murkowski, Governor  
Boards and Commissions  
P.O. Box 110001  
Juneau, AK 99811-0001

The Honorable Frank Murkowski,

I would like to take this opportunity to thank you for my appointment to the Board of Fisheries for this past term of service; June 2002-June 2005. With this letter, I am seeking reappointment to the Alaska State Board of Fisheries for the upcoming term, June 2005-June 2008.

I feel that my first three-year term was a very valuable introduction towards my participation with the entire Board of Fish process. I have learned a great deal about the procedure and the very diverse and complex issues of the fisheries of Alaska. I believe that with this indoctrination behind me, I am better prepared and would like to continue to work on the many issues that come before the Board of Fish. I have seen the current board work well together and we have had a positive and productive three years.

My primary goal is to maintain sustainable fisheries throughout Alaska. We must continue to provide for reliable tools for the ADF&G to best manage the fisheries and provide for opportunities to optimize the product and promote harvesting efficiencies for the fisherman (sport & commercial) and the processors. Balance must be maintained between all user groups.

I thank you for this opportunity to request reappointment and appreciate your consideration for a seat on the AK Board of Fisheries.

Respectfully submitted,

John E. Jensen

STATE OF ALASKA  
 OFFICE OF THE GOVERNOR  
 P.O. Box 110001, Juneau, AK 99811-0001  
 Phone: (907) 465-3500 Fax: (907) 465-3532

**BOARDS AND COMMISSIONS APPLICATION FORM**

**INSTRUCTIONS**

A separate application is required for each position for which you apply. Complete and specific answers will aid in rapid and accurate processing of your resume. Please type or print legibly in ink. Forward to the above address. Be sure your answers are true. A willfully false answer may result in your disqualification or removal from office if you are appointed.

Board or Commission and seat for which I am applying: BOARD OF FISHERIES  
 (For example, Board of Agriculture, public seat)

Please list any other State Boards or Commissions on which you currently or previously have served:  
BOARD OF FISHERIES

## RESUME

**Background:** I was born in Petersburg, AK, February 16, 1951. I am a lifetime resident of Petersburg. I graduated from Petersburg High School in 1969. I attended Yakima Valley College for 1 year before purchasing my first fishing vessel and beginning my fishing career. I am a third generation Alaska fisherman. I have fished commercially since 1965. I have owned and operated five fishing vessels from 1972-2005. I have participated in fisheries in SE Alaska, Bristol Bay, Gulf of Alaska, Bering Sea/Aleutians, Alaska Peninsula, Cook Inlet Prince William Sound, and Western Alaska. I attended Merchant Marine Training Services in Seattle, WA and acquired my Master 100 GT and Assistance Towing license.

**Other Interests:**

**Personal:** Hunting and sport fishing, camping, woodworking, reading, Alaskan history and my family and travel.

**Membership:**

Petersburg Lutheran Church

**Public Service:**

Petersburg Planning and Zoning Commission - member  
Alaska State Board of Fisheries - member

**Professional and Service Organizations:**

United Fishermen of Alaska  
Petersburg Vessel Owners Association  
Southeast Alaska Fishermen's Alliance  
King and Tanner Task Force - BOF liaison  
Salmon Restructuring Panel - BOF member

**Family:** I have been married to Pamela R. (Meeks) of Petersburg, AK. Since 1972. We have two sons, Jeremy and Samuel.

**Work Experience:** Listed separately.

Honorable Frank Murkowski  
Governor, State of Alaska  
P.O. Box 110001  
Juneau, Ak. 99811

RECEIVED

JAN - 5 2005

OFFICE OF THE GOVERNOR

Dear Governor Murkowski,

Please consider my request for reappointment to the Alaska Board of Fisheries. I am currently serving on the Board of Fisheries; however, my term expires in June, 2005. I was appointed to my first term in January, 2003. As I noted in my first request, I have been involved in Alaska's fisheries for over 45 years. My experience includes all commercial and sport species throughout Alaska. My involvement has been as a biologist, production manager, business owner, salesman and commercial fisherman.

I am currently on the Joint Protocol Committee that meets with our counterparts on the North Pacific Fisheries Management Council, the Gulf of Alaska Groundfish Rationalization Committee, the Crab Rationalization Committee and chair the Prince William Sound Allocation Committee. I believe that my continued service on the Board and the committees can help provide continuity to process and goals of the Board of Fisheries.

I look forward to representing Alaska's resources and the fisheries stakeholders for another three years.

Sincerely,

*Mel Morris*

*Melvan E. Morris Jr.*

Alaska Outdoor Council

Hobbies

Hunting, fishing, photography, skiing, basketball, softball, flying  
and music.

Professional Background

The first two years and one half years of my professional career were  
involved with big game research and management. This included  
research on caribou, moose, brown bear and polar bear.  
Responsibilities included research design, budgeting, implementation  
and reporting.

My M.S. thesis was concerned with the brown and grizzly bear research and management program instituted during the early 1960's.

In 1966, I was hired to start the new statewide lands program within the Alaska Department of Fish and Game. This program included participation in land planning and management activities of the various land managing agencies, including federal and state. Public access, developmental planning, land disposal, water pollution, land selections and other related activities were addressed by this new program. Eventually this program became a major part of the Habitat Division within the Department.

The Regional Supervisor position was for the South-central region. In this capacity, I was responsible for supervising all management and research programs within the region. The Regional Supervisor also served in a staff capacity to the Director.

From 1976 - 1978 I served on the Governor's task force dealing with proposed legislation eventually leading to the Alaska National Interest Lands Conservation Act.

As Director of the Game Division, I was responsible for administering all the programs of the Division. This included management and research programs. The Director also served as staff to the Commissioner for special assignments. The Division included a permanent staff of 118 employees and an annual budget in excess of \$10 million. The Division Director was responsible for all fiscal and personnel matters within the Division, legislative liaison, federal matters affecting the division and inter agency coordination between state and federal agencies.

As Executive Director of the Alaska Outdoor Council, I was responsible for administering all the programs of the Council. This included legislative lobbying at the state and federal level, fund raising, media communications, budgeting, personnel management and other administrative duties. The Council was a statewide organization with about 50 affiliated clubs and a membership of over 10,000.

The Director of International and National Affairs position for the Wildlife Legislative Fund of America was responsible for establishing and managing the Washington D.C. office for the organization. It also included lobbying on national and international issues, establishing communications with all federal agencies in Washington, D.C., raising funds and coordinating with national and international conservation organizations.

As Deputy Commissioner and eventually Special Assistant to the Commissioner of the Alaska Department of Fish and Game, my primary responsibilities were federal/state relations, federal legislation, and coordination with national and international organizations, state legislative liaison, budgets, Endangered Species Act implementation, habitat issues and litigation supervision.

Ted H. Spraker  
Soldotna, Ak 99669

I was raised in Wyoming and completed my college education at the University of Wyoming. I hold a bachelor's degree in Wildlife Management and Master's in Range Management. Graduate school was completed in May of 1973 and I moved to Alaska in July. I have never been out of the state except for vacations.

*Work:*

I worked for U.S. Fish and Wildlife Service for five months, three in Southeast and two at the Kenai Moose Research Center in 1973.

I was hired by the Alaska Department of Fish and Game on February 1, 1974, following one month of volunteer work. I worked in the Anchorage office for eight months before being promoted to Assistant Wildlife Biologist and transferred to Glennallen.

In July 1978, I was promoted to Area Wildlife Biologist and transferred to Soldotna as the biologist for the Kenai Peninsula. I remained in that position until I retired June 1, 2002, 28 years 4 months service.

*Accomplishments with the Department:*

I made many changes during my near three decades career with the Department concerning wildlife, and hunting and trapping opportunities. Some of the most important projects were: In 1981, I presented survey data to the Board of Game to change the goat hunting on the Kenai. This hunting program is still in place.

I served as the project leader when caribou were relocated from Glennallen to the Kenai in 1985 and 1986 to establish the Twin Lakes, Killey River and Fox River herds. Eighty animals were released that grew to over 800 by fall 2002. One of the reasons we moved caribou was to establish new herds for hunting.

In 1987, I worked with the five local Fish and Game Advisory Committees and Board of Game to change the bag limit for moose from an "any bull" program to a Selective Harvest System. This effort was successful in restoring the bull to cow ratio, resulting in an improvement in our local moose population's health and longer hunting seasons. Success on the Kenai inspired the Board of Game to approve this system for other Game Management Units across the state.

I received several conservation awards including the Life Time Conservation award from Safari Club International and a conservation award from the local trappers association.

I'm a member of the Alaska Trappers Association, Safari Club International and a lifetime member of NRA. I'm an avid hunter, trapper and fisherman. I have commercial halibut fished every year since 1979 and currently hold a small IFQ.

In addition to completing the state provided First Aid and CPR courses, I'm a state certified Hunter Education Instructor. I have taught Hunter Ed for about 15 years. Classes are comprised of all ages with the main emphasis directed towards firearm safety. I also taught bear safety classes for Kenai Borough field staff, staff at Trading Bay Oil facility, and survey crews out of Ninilchik and locals schools. These classes stressed the need for patience and awareness when in bear habitat but also included firearm handling and shot placement in the event of a bear attack. As a department employee, I was required to be certified annually using a hand gun, rifle and shotgun for bear protection and safe firearm handling procedures.

I also attended a one week Trooper Training Course taught by the Alaska State Troopers to become certified as a Commissioned Peace Officer for the Department. Upon retirement I was required to surrender my badge and Peace Office status.

*After retirement:*

In November 2002, Governor Frank Murkowski appointed me to the seven member Board of Game. This board is authorized by Alas' a Statues and the state Constitution to set regulations for seasons, bag limits and methods and means of hunting and trapping for the state. Appointed members are confirmed by the legislature and serve three year terms.

April 27, 2005

Senator Thomas Wagoner, Co-Chair  
Senator Ralph Seekins, Co-Chair  
Senate Resources Committee  
Alaska State Legislature  
Juneau, AK 99811

Dear Senators Wagoner and Seekins:

The Alaska Trollers Association supports the re-appointment of John Jensen, Mel Morris, and Rupe Andrews to the Board of Fisheries.

Mr. Jensen has an impressive fishing resume that spans the state in terms of region and species harvested. He is well versed in all aspects of the industry and has been involved in the issues related to the production seafood for many years.

Mr. Morris has approached fisheries from both the biology and processing aspects. He is familiar with Alaskan harvesting methods and recognizes well the importance of balancing the structure of our fisheries to maintain sustainability, quality, and jobs in coastal communities.

Mr. Andrews spent many years with the state protecting fish and their habitats while providing opportunity for sportsmen. During his time on the Board we have been impressed with his ability to fairly allocate between the user groups, to help ensure healthy resources and strong community structures.

These fine men are worthy of another term and are precisely the kind of people ATA looks for when searching out candidates for the Board of Fisheries. The fact that they are seasoned in the board process makes them extremely valuable to the state's interests. Each of them is knowledgeable, reasonable, and has an excellent rapport with the fishing public. We urge you to support their re-appointment.

Best Regards,

Executive Director

### REPORT ON CONFIRMATION OF APPOINTMENTS

April 27, 2005

The Honorable Ben Stevens  
President of the Senate  
State Capitol  
Juneau, Alaska 99801-1182

Dear President Stevens:

In accordance with AS 39.05.080, the Senate Resources Committee reviewed the following and recommends the appointment be forwarded to a joint session for consideration

Peter Froehlich, Member – Alaska Commercial Fisheries Entry Commission

There were no stated objections to the confirmation of the named individual(s) by committee members. This does not reflect an intent by any of the members to vote for or against the individual during any further sessions.

Respectfully,
