SB 57 – Channel Islands Marine Park

Sponsor Statement

SB 57 adds 14 islands adjacent to Juneau to the state's system of Marine Parks. They range from Lincoln and parts of Shelter Island, where Southeast residents hunt deer, to Indian and Suedla Islands, which are just big enough for a picnic.

By adding these gems to the Marine Park system, the state makes it possible for local outdoor groups to partner with the Division of Parks and Outdoor Recreation to build amenities and improvements for the benefit of the general public. Cabins, outhouses, picnic areas, and boat ramps can be built by recreation and hunting groups at minimal cost to the state. The bill also ensures the Marine Parks cannot be closed to hunting, protecting this piece of Alaska's outdoor heritage.

Access to recreational areas is also an important component of Southeast Alaska's economy. Recreational guides, boat rental companies, and purveyors of outdoor clothing and accessories all benefit financially from expanding the Marine Park, as do the Alaskans who enjoy expanded access to hunting, fishing, and recreation.

Developed in consultation with the division of parks, SB 57 excludes private landholdings from addition to the Marine Parks. It is supported by local tourism companies, the Juneau Parks and Recreation Advisory Committee, and the Juneau Area State Parks Advisory Committee.

I respectfully ask for your support.

MEMORANDUM

February 19, 2008

To: Representative Kevin Meyer, Co-Chair
House Finance Committee

From: Kim Elton

Re: Sectional Analysis, SB 57

Sec. 1 of the bill makes legislative findings describing the purpose and benefits of marine parks. It ensures consistent Fish and Game management of uplands, tidelands, and submerged parklands for public use.

Sec. 2 prevents the Department of Natural Resources from prohibiting fishing, hunting or trapping in any marine park unit in the state.

Sec. 3 adds the portions of Shelter Island not already in private ownership to the marine parks. A small piece of Shelter Island is currently in marine park status. Privately owned portions of the island are not included.

Sec. 4 adds thirteen islands or portions of islands to the marine parks. The names of the islands are listed in the section. A small privately owned parcel is identified for exclusion.

Re: Senate Bill 57

Dear Senator Elton,

On behalf of the Southeast Alaska Land Trust's Board of Directors and our entire membership, I want to thank you for sponsoring SB 57 to properly classify the State-owned islands adjacent to Juneau as State Marine Park.

Each year residents and visitors alike enjoy the use of these islands for hunting, subsistence, recreation and open space. These green emeralds bring a unique quality and character to our commercial ocean-going tours and provide locals with safe, accessible marine destinations for family picnics and remote camping experiences.

Naming the 14 small islands and areas of the larger Shelter Island to the Marine Park System brings a positive recognition to their highest and best use for Juneau's business and pleasure. With the fate of the islands finally established in law, the State can move forward and partner with private and non-profit entities to provide the amenities needed for managing their existing uses and increasing popularity.

The Southeast Alaska Land Trust appreciates your vision and commitment to growing our economy in accord with the natural assets that attract people to this place year after year. You have our whole-hearted support for SB 57.

Sincerely,

Diane Mayer
Executive Director

Dear ^{Kim,} ~~Senator Elton~~:

We support passage of HB 94, the Marine Park Island Bill. While it is true that Goldbelt no longer operates cruise tours in the area of these proposed island parks, we feel that preservation of these islands would allow continued enjoyment by residents and visitors alike. Moreover, we and our partners are considering reinstating the tours in the area, so they remain important parts of our future plans.

I would be happy to discuss our views should you find that helpful.

Dear Senator Elton:

Our family owns 6-acres of private property which is located at Hand Trollers Cove on the northwest end of Shelter Island. We have owned this property since 1994. Our property is formally designated as U.S. Survey 356 and is located within the boundaries of Shelter Island State Marine Park. Our property is one of two parcels of private property located with this park and was formerly a fish trap site.

Our family supports your legislation—S.B. 57—to expand the boundaries of Shelter Island State Marine Park and to add other state-owned islands to the State marine park system.

There are compelling reasons why S.B. 57 should be passed by the Legislature. When Shelter Island State Marine Park was created in 1983, the parcels of land proposed to be added to the park in S.B. 57 (portions of Section 5 and 9 and all of Sections 6 and 8) were owned by the Federal government and were then part of the Tongass National Forest. After the park was created, the State selected these lands and they are now in the ownership of the State. Therefore, it is entirely appropriate that these recently-acquired state lands should be added to the Shelter Island park.

As you know, the waters and land in and around the Shelter Island State Marine Park are heavily used by both Alaskans and tourists. This area is prime whale watching territory and is one of the best fishing locations in Southeast Alaska. It should be incorporated into the existing park' boundaries and we hope the Legislature will act expeditiously to pass S.B. 57.

Alaska State Legislature

State Capitol

Juneau, AK 99801-1182

Dear Representatives Kerttula and Doll and Senator Elton,

The Juneau State Parks Advisory Board unanimously and strongly supports the creation of the Juneau Channel Islands State Marine Park.

These islands, located in upper Stephens Passage and lower Lynn Canal, are currently managed under the auspices of the Alaska Department of Natural Resources, Division of Mining, Land, and Water. The Department through adoption of the Juneau State Land Plan classified the islands as Public Recreation lands, and they are passively managed as such. As you well know, the islands have especially high values for recreation: they are well known throughout the Juneau Borough, and are heavily used for camping, boating, fishing, hunting, picnicking, and wildlife viewing. Many of the islands are important for birds and wildlife. There are several haulouts that are used by Steller sea lions. Large concentrations of nesting sea birds can be found on some of the islands. Putting these islands into parks would be beneficial to all the people currently using them, to future generations and to wildlife.

Creating the Channel Islands State Marine Park would help formally recognize these islands for their important recreational values. The suggested change in law effectively transfers the management of the lands within the Department of Natural Resources. The Division of Parks and Outdoor Recreation would manage them instead of the Division of Mining, Land, and Water. The islands would still retain their public recreational status, but management will be much more effective under the Division of Parks.

Many significant improvements have been made to state recreational lands in the Juneau area that are managed by the Division of Parks and Outdoor Recreation. For example, public-use cabins

have been added at very little cost to the state through donations from the Juneau Territorial Sportsmen and the Taku Conservation Society. Trails and picnic areas have also been created or upgraded - again, at little or no cost to the state through grants made available to the Division of Parks or to Trail Mix, Juneau's trails stewardship organization.

We are excited for the possibility of the creation of this park. We would be happy to entertain any questions you may have, or provide more information. We look forward to working with you on this important goal.

Sincerely,

Senator Charlie Huggins
Alaska State Legislature
State Capitol (MS 3100)
Juneau, AK 99801-1182

Dear Senator Huggins:

The Territorial Sportsmen, Inc. would like to go on record as supporting SB 57 that expands the existing Alaska State Marine Parks Units in Southeast Alaska. This legislation also contains important language which assures that hunting, fishing and trapping activities conducted legally under state laws and regulations will be continued.

Attached is a Resolution adopted by the Territorial Sportsmen which strongly supports the expansion of the Alaska Marine Park System in northern Southeast Alaska.

The Territorial Sportsmen, Inc. is a Juneau based conservation and sportsmen organization dedicated to maintaining our outdoor resources and opportunities as Alaskans. Our organization has over 1200 members, mostly located in Juneau and surrounding communities. In the past, our members have opposed some large single purpose withdrawals like Parks and Preserves because of the tendency for the traditional activities like hunting, fishing, trapping and general outdoor recreation to be closed or severely restricted. Our support for the local State Marine Park system is, however, based on the close cooperative working relationship our organization has established with the regional staff members and their record of incorporating some of our goals and objectives into their plans.

The Marine Park Units are relatively small and are designed to enhance the public's use resources available within and near each unit. Our organization has entered into a cooperative public cabin building arrangement with the State Park Regional office which combines volunteer labor, local business support and limited legislative appropriations. This partnership has allowed us to construct public cabins on State Marine Park lands at a considerable savings to the State and for the maximum benefit of the user public. Not only are these types of facilities important to enhance the public's use of Alaska's outdoor opportunities, they serve as critical emergency shelters for the commercial and recreational boating public. These public use cabins are managed and reserved under the State Park reservation system. Our organization also helps to maintain specific remote cabins. An examination of the data compiled by the State Park System will show that these cabins are so popular that the user fees are adequately covering the annual maintenance costs to the state.

Because we feel that the establishment of additional Marine Park Units in this area will continue to be extremely beneficial to the general public, we strongly encourage the legislature to pass this legislation.

Thank you for considering our recommendations.

Sincerely,

Drake Peterson, President
Territorial Sportsmen, Inc.
