OBJECTIVE: Alternate Chief Examiner for GED Program

HIGHLIGHTS OF QUALIFICATIONS

- Twenty-five years experience as a professional Biologist/Fish Culturist
- Graduate Degree in Wildlife Management
- Assisted in developing sockeye salmon egg-take procedures for the State of Alaska and instructed crews in implementing these procedures
- Authored one of the first documented studies on salmon fry growth rates during a hatchery rearing operation in Alaska
- Supervised crews in the operation of one of the largest salmon rearing programs at the time in the State of Alaska
- Developed and oversaw construction of several major public sportfishing access facilities in Alaska, including the ADA upgrades at Susitna Landing and ADA and other improvements to "The Nick Dudiak Fishing Hole" in Homer, Alaska
- Had outdoor articles published in a nationally circulated magazine and currently serves as the weekly Outdoor Columnist for the Frontiersman newspaper in the Mat-Su Valley

REVELANT SKILLS AND ABILITIES

- Is a certified and active Hunter Education Instructor for the Alaska Department of Fish and Game for all three disciplines of: Basic, Bow Hunter and Muzzleloading
- Is a certified Boating Safety Instructor for the Alaska Department of Natural Resources, Division of Parks and Outdoor Recreation, using the nationally recognized Alaska Water Wise curriculum
- Currently holds the Chair position for the Matanuska Valley Fish and Game Advisory Committee, one of 82 committees statewide which review and make recommendations on proposals and regulation being considered by the Alaska Boards of Fisheries and Game
- Currently holds a seat, by appointment of the Governor, on the Alaska Boating Safety Advisory Council, which advises the Office of Boating Safety for the State of Alaska
- Owns and operates his own outdoor writing business

WORK HISTORY

2000-present Owner/operator Howard Delo's Outdoors Big Lake, Alaska

WORK HISTORY (continued)

1978-1999	Biologist/Fish Culturist	ADF&G	South-central Alaska
1975-1977	Asst. Hatchery Manager	Georgia Game and Fish Division	

EDUCATION

- Master of Science (MS) in Wildlife Management, University of Maine, Orono, 1979
- Bachelor of Science (BS) in Wildlife Management/Fisheries Biology (a double major), University of Alaska, Fairbanks, 1972
- Bachelor of Science (BS) in Biological Sciences, University of Alaska, Fairbanks, 1972

AWARDS

- Was named Alaska's Muzzleloader Hunter Education Instructor of the Year for 2006 by the Hunter Information and Training Program of the Alaska Department of Fish and Game.

Date of birth:

I have no conflicts of interest. I am retired from the Alaska Dept of Fish and Game, and I am a retired charter boat owner/operator. No member of my family has any financial interests in fishing.

In the summer of 2006, I owned a king crab pot that was involved in a misdemeanor violation (set hours too early). Another individual was authorized to set or retrieve my pot under his own permit. I was not present for the violation, but was the owner of the pot and received a ticket which I paid.

I was a fishery biologist for the Alaska Dept of Fish and Game during my career from 1963 - 1986.. I was also Deputy Director of the Division of Commercial Fisheries, and Assistant Executive Director of the Boards of Fisheries and Game. I owned a charter fishing service from 1986 to 1998. I have written humor columns for the Juneau Empire and Anchorage Daily News, plus several magazines, periodically over the past 20 years.

Please advise if additional information is necessary.

Sincerely,
Larry Edfelt

Claude V. Webster (Vince)
P.O. Box 121
King Salmon, AK 99613

Background:

I was raised on a farm in Indiana. My life dream was to go to Alaska. I joined the Air Force to support my family and was rewarded by a transfer to King Salmon, Alaska in 1978. There I was introduced to commercial fishing in Bristol Bay and the greatest Rainbow Trout fishing in the world. I was transferred to Elmendorf Air Force Base from 1979-1982 where I continued to enjoy the great outdoors. I was offered a job, in the maritime ship yards, on the west coast from 1982-1988. I purchased my first Bristol Bay set net permit in 1984. My wife (Sherry) and I moved our family (Troy and Derek) back to King Salmon in 1989 for a more intimate education. Our sons went on to graduate from Eastern Connecticut and Yale University with honors. We continue to reside in King Salmon and enjoy sharing our fishing operation with our sons and grand daughter every summer.

Work Experience:

1984-Present...Set gillnet operator in the Kvichak District of Bristol Bay.

2000-Present...Facilities & Maintenance Director for Lake & Peninsula School District.

2004-Present...Drift Gillnet Operator in the Naknek District of Bristol Bay.

1997-2000...Maintenance & construction for Katmia National Park.

1989-1990...Cannery construction for BKR & Associates at Cordova, Kodiak, Petersburg & Naknek.

1982-1988...Ship Repair Coordinator & Branch Manager for Donco Inc. in California & Washington.

1975-1982...US Air Force.

1978...Managed Air Force boat dock & operated Air Force charter boat at King Salmon.

Other Fisheries Experience:

Togiak Herring, Cinder River Salmon, Chignik Salmon, Bristol Bay Halibut and numerous sport fisheries throughout the state.

Volunteer Work:

Naknek/Kvichak Fish and Game Advisory Committee, over 15 years, Co-Chair.
Numerous fish committees & task forces.

Education:

Graduated Jennings Co. High School, Indiana 1974.
Versailles Vocational School, Indiana 1973 (While attending High School).
Air Force Aircraft Weapon's Release Systems Tech School 1976.

MEMORANDUM

Date: April 2, 2007

To: All Committees

From: Suzi Lowell
Chief Clerk

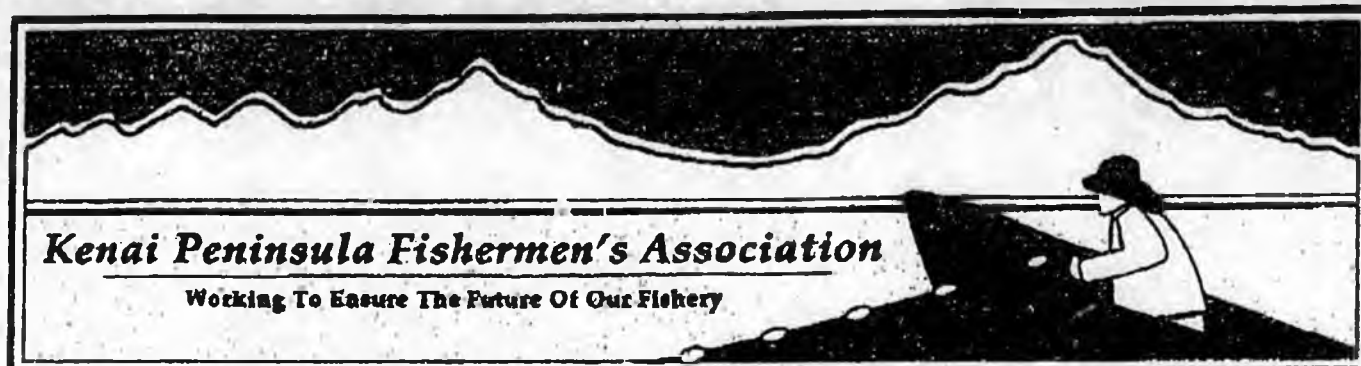

Subject: Confirmation Committee Report (Signature Page) for Governor's
Appointments

The attached Confirmation Committee Report (signature page) should be used in conjunction with the Referral for Confirmation form for the Governor's appointments to boards and commissions requiring legislative confirmation. After a committee has reviewed the qualifications of the appointee(s), the Referral for Confirmation form(s) should be dated and attached to a signature page. Have members sign the signature page and return the confirmation packet to the Chief Clerk's office.

Please use a single signature page for multiple appointees if the names of all members signing the report are the same for each attached referral. This change allows members to sign once for multiple appointments.

Attached are several signature pages for your use. We used colored paper to make them easier to identify. If you anticipate needing more forms or need assistance, please call Nancy McMullen at 6809.

March 2, 2007

The Honorable Sarah Palin
Governor of Alaska
P.O. Box 110001
Juneau, AK 99811-0001

Governor Palin,

The Board of Directors of The Kenai Peninsula Fishermen's Association would like to inform your office that on February 11th, 2007 a motion was made to support Dwight Kramer, Roland Maw and Paul Shadura as candidates for the Alaska Board of Fisheries.

Dwight Kramer has been involved with fisheries issues through his involvement with the Kenai-Soldotna Fish and Game Advisory Committee and the Kotzebue Fish and Game Advisory Committee. His Alaskan residency and his exposure to different parts of the state can only enhance his ability to communicate with different stakeholders around the state. Dwight has shown an ability to immerse himself in community issues and has always maintained respect for the public process.

Roland Maw is well educated and is a tireless advocate for fisheries. He researches issues and comes prepared to discuss them with the best information at hand. Mr. Maw has a strong skill in communications. This ability facilitates guidance in contentious issues and helps groups to formulate a clear course of action. Roland is concerned for the states resources and will protect and expand to preserve opportunity for all stakeholders while preserving our resources for the future.

Paul Shadura has deep roots within south-central Alaska and has years of experience working with community organizations. Mr. Shadura is a successful commercial fisherman and believes that sustainability is the key to ensuring the future of our States resources. He has attended many years of the Board of Fisheries regulatory meetings and has supported the public process through testimony, proposals, agenda change requests, petitions and support documentation. Paul believes that if all users become part of the solution, more reasonable decisions will be made. He is committed to this idealism.

With all due respect,

The Kenai Peninsula Fishermen's Association, Board of Directors

The Honorable Sarah Palin
Governor of Alaska
P.O. Box 110001
Juneau, AK 99811-0001

February 28, 2007

Governor Palin,

It is with great respect for the people of Alaska and the deep rooted concerns for the future of our great State, that I submit my name for consideration for the Department of Fish & Game, Board of Fisheries (BOF). Please be assured that if I am recommended for a Board position, my years of involvement with the local community have given me a broad perspective on biological, economic and social issues. The economy of the Kenai Peninsula and the Cook Inlet area is a cross section of all the regions in the State. Many decisions made at Cook Inlet regulatory meetings have resulted in many statewide policy changes.

I am a third generation commercial fisherman, with a century of history in Alaskan waters. Currently I hold a limited entry salmon set net permit, gill net for herring and longline for halibut. Since 1990 I have operated a sixty-one foot tender and a shore based buying station.

On the matter of regional and user representation, Alaska Statutes address these concepts as non-issues to appointment. The reality is that this is a very large state with many different users in many unique regions. I firmly believe that we should pass the *baton* to different interests from time to time so as to *balance* the Board's policies and decisions for the long term.

In the past, some Board Members have expressed their disdain for the *public process*. They have stated that they could make their decisions without public testimony. I believe the public is the most important part of the BOF regulatory process. My personal vision is that every resident of this State should be heard and considered on an equal basis. My objective on this Board would be to listen, learn, and then speak. I truly believe that if all users become part of the solution, a less contentious decision will be made. I am committed to this idealism.

AS 16.05.221. Boards of fisheries and games. (a) ...the Governor shall appoint each member on the basis of interest in public affairs, with good judgment, knowledge, and ability in the field of action of the board, and with a view to providing diversity of interest and points of view in the membership.

AS 16.05.251. Regulations of the Board of Fisheries. (a)(17) promoting fishing and preserving the heritage of fishing in the state.

Respectfully,

Paul A. Shadura II

EDUCATION AND CERTIFICATES

- B.S. 1977. University of Alaska-Fairbanks. Magna cum laude; major in Biological Sciences. Emphasis in fisheries; secondary focus in economics.
- M.S. 1985. University of Alaska-Fairbanks. Biological Oceanography from the Institute of Marine Science; additional work in management.

Certified Fisheries Scientist - American Fisheries Society, 1988.
Associate - American Institute of Fishery Research Biologists, 1987.

PROFESSIONAL EXPERIENCE

Sept 2005 Director - Division of Commercial Fisheries
to Alaska Department of Fish and Game
Present Juneau, Alaska

Direct the operations of the largest division in the Alaska Department of Fish and Game, with 300 permanent full-time employees and another 300 seasonal workers, annual budget of approximately \$60 million, 24 area and regional offices, some 80 field camps, five major research vessels and a number of aircraft. Responsible for the management of all commercial fisheries, as well as subsistence and personal use fisheries, within state waters, plus several in adjacent federal waters. Oversee applied research programs to assess abundance and distribution of salmon, herring, groundfish, and shellfish. Direct policy development and interaction with the Alaska Board of Fisheries, the North Pacific Fishery Management Council, the Alaska Legislature, federal resource and land management agencies, as well as with public interest and industry groups.

Oct 2000 Regional Supervisor - Div. of Commercial Fisheries
to Alaska Department of Fish and Game
Sept 2005 Kodiak, Alaska

Administered all fishery management and research functions for the Division of Commercial Fisheries in the Westward Region, including areas around Kodiak Island, Chignik, the Alaska Peninsula, the Aleutians Islands and the Bering Sea. Supervised 55 permanent full-time employees, administered an annual budget of approximately \$ 11.5 million, oversaw one regional and six area offices, and supported two research vessels and four aircraft. Implemented management and research programs for salmon, herring, groundfish, and shellfish within state waters, plus in federal waters for specific species under delegation or direction. Duties involved significant interaction with local government and industry interests, the Alaska Board of Fisheries, and the North Pacific Fishery Management Council process.

June 1998 Regional Finfish Research Supervisor
to
Oct 2000 Alaska Department of Fish and Game
Kodiak, Alaska

Administered the salmon and herring research programs for the Westward Region of the Division of Commercial Fisheries, involving projects in the Kodiak, Chignik, Alaska Peninsula, and Aleutian Islands areas. Supervised ten permanent employees, administered budgets of approximately \$2.5 million, and established goals and objectives for projects to estimate the distribution and abundance of juvenile and adult salmon and spawning herring. Research included not only estimating abundance, but also establishing spawner-recruit relationships, escapement goals, and forecasting future run strength. Worked under a variety of funding sources, which required close coordination with state, federal, and local governments as well as regional non-profit aquaculture associations, native corporations, and industry groups.

May 1992 Chief Resource Analyst
to
June 1998 Aleutians East Borough
Anchorage/Juneau, Alaska

Compiled and analyzed biological and socioeconomic information on natural resources, and regulatory issues, important to residents and fishermen in the eastern Aleutian Islands/lower Alaska Peninsula. Promoted and defended regional commercial fishing, subsistence hunting and fishing, and recreational activities. Represented local interests to the Alaska Board of Fisheries, the North Pacific Fishery Management Council, the state administration and legislature, and the federal government. Assisted with local land use and coastal zone issues, including planning and approval of port, harbor, and airport construction and seafood processing.

Nov 1990 Director - Division of Commercial Fisheries
to
May 1992 Alaska Department of Fish and Game
Juneau, Alaska

Responsible for administration and supervision of a division with a permanent staff of 200 employees and a budget of \$29 million per year, operating 50 specific programs to manage the commercial and subsistence salmon, herring, crab, groundfish and other fisheries of the State of Alaska, with a commercial exvessel value of over \$1 billion per year. Set policy and direction, and provided budgetary oversight, for management and research activities; oversaw personnel and administrative functions. Represented the division and the department to the Alaska Legislature, the Alaska Board of Fisheries, the North Pacific Fishery Management Council, and the public.

Jan 1989 Special Assistant for Natural Resources
to Office of the Governor
Nov 1992 Juneau, Alaska

As Special Assistant for Natural Resources, was the Governor's direct liaison with the departments of Fish and Game, Natural Resources, Environmental Conservation, and Revenue. Chaired the Governor's Resource Cabinet: led negotiation of policy positions among, resolved disputes between, and related Governor's directions to agency commissioners. Represented the Governor on resource issues to the public, industry, legislature, and federal agencies. Acted as the Governor's personal advisor on natural resource issues, including fishery management and development, the Exxon Valdez oil spill, subsistence fish and game management, oil and gas leasing, and land use and coastal zone planning.

Dec 1986 Plan Coordinator/Management Analyst
to North Pacific Fishery Management Council
Jan 1989 Anchorage, Alaska

As Plan Coordinator/Management Analyst, coordinated multi-agency teams of biologists, economists, statisticians, and regulatory specialists to support regional council management of groundfish fisheries in the Bering Sea/Aleutian Islands under provisions of the Magnuson Fishery Conservation and Management Act (MFCMA). Duties required derivation, analysis, and presentation of regulatory measures and estimates of acceptable harvest levels for 13 species groups in the two-million ton per year fishery. Also, coordinated development of management plans for king and Tanner crabs, high seas salmon fisheries, and the allocative aspects of Alaskan halibut fisheries.

Mar 1983 Habitat Biologist III - Habitat Division
to Alaska Department of Fish and Game
July 1986 Anchorage, Alaska

As Projects Review Coordinator for Habitat Division, Region IV, was responsible for the department's review and permitting of private and public development projects in western and southwestern Alaska. Decisions required evaluation of construction and industrial projects (such as ports and harbors, mining, roads, timber harvests, seafood processing) in relation to state and federal environmental requirements, research of natural resources at risk, and negotiation of terms with industry and agency personnel to mitigate impacts to fish and wildlife. Also reviewed and analyzed state and federal land use plans and prepared departmental position papers on water quality issues.

Jan 1982 Habitat Biologist II
to
Mar 1983 Alaska Department of Fish and Game
Anchorage, Alaska

Evaluated potential impacts of development projects, most specifically coal mine proposals, on fish, wildlife, and their habitat. Recommended mitigation measures to industry planners and agency permittees. Also prepared departmental comments on surface mining regulations, coastal zone consistency determinations, and oil spill contingency plans. Routinely negotiated with consultants on design and execution of aquatic habitat and fisheries baseline studies.

Jan 1979 Research Assistant - Institute of Marine Science
to
Dec 1981 University of Alaska - Fairbanks
Fairbanks, Alaska

As a graduate research assistant, participated in projects investigating the oceanography and ecology of the Bering Sea and Prince William Sound. Primarily responsible for a project relating seabirds to their ocean environment. Conducted miscellaneous field work at Pt. Barrow, Chukchi Sea, Bering Sea, Pribilof Islands, Bristol Bay, Izembek Lagoon, Aleutian Islands, and Prince William Sound.

April 1978 Fishery Biologist
to
Dec 1978 National Marine Fisheries Service
Juneau, Alaska

Within the Environmental Assessment Division, reviewed permit applications and proposals for development projects and prescribed mitigation for marine and wetland organisms and their habitats. Coordinated permitting decisions with state and federal agencies and justified policy positions of the NMFS. Conducted field assessments of habitat quality and species distribution at several locations in southeast Alaska.

1973 to 1978 Fishery Technician/Biologist (seasonal)
ADF&G/University of Alaska

Held several positions involving field work in fisheries and oceanography, and laboratory work in environmental chemistry. Assisted in projects throughout much of the coastal zone and waters of Alaska.

COMMITTEE APPOINTMENTS/ASSIGNMENTS

NMFS Steller Sea Lion Recovery Team
 NPFMC Steller Sea Lion Mitigation Committee
 ADF&G Marine Protected Area (MPA) Task Force
 Alaska Steller Sea Lion Restoration Team
 ADF&G Technical Panel for the Sustainable Salmon Fisheries Policy
 Alaska Board of Fisheries Public Panel for the Sustainable Salmon Fisheries Policy

Office of the Governor
Her Honor, Governor Sarah Palin
P.O. Box 110001
Juneau, AK 99811

Governor Palin,

The Kenai Peninsula Fishermen's Association (KPFA) has been a South Central fishing community advocate group for over fifty years. Originally formed as a cooperative many of our fishing families have operated and remain operating as family cooperatives to this day.

We are the principal set net representation group of the approximately seven hundred and forty five limited entry salmon permit holders within Cook Inlet waters and also facilitate as a set net fishing voice for individual Bristol Bay set net members who have joined as a coalition.

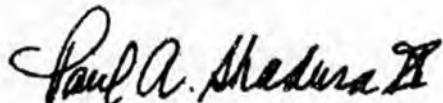

We have members who live within the South Central region and throughout Alaska and as far away as New York and Florida in the Continental United States. Many of us have remained in the fishery since the initiation of the limited entry program and others have deep ancestral roots for over a century.

We are over eighty-eight percent Alaskan Residents and are your doctors, lawyers, teachers, politician's, waiter's, mechanics and laborers. We are involved with the community and support the churches, senior citizens and those that just need a neighborly hand. We are the back bone of the south-central small communities and we will be here long after the other non-renewable resources are gone. We are the stewards of our environment because we depend on the ecosystem to sustain and nourish us.

With this in mind, we cannot over emphasize the necessity for you to appoint an honest, hard working individual to the position of Commissioner of Fish and of Game for the entire state of Alaska. Leadership and intelligence must go hand and hand for this crucial role in managing Alaska's bounty. A keen eye must be kept open for sustaining her resources through constant vigilance of a fragile yet at times a violent environment.

KPFA believes that the Choice of Denby Lloyd fulfills these requirements and will be looking forward to improve and sustain our common fishery resource with your trust and support and Mr. Lloyd's willingness to do what is right!

With all respect,

Paul A. Shadura II
Executive Director

RE: Support for confirmation of Commissioner Denby Lloyd

Dear Representative Johnson:

Cordova District Fishermen United (CDFU) support the confirmation of Denby Lloyd as Commissioner of the Alaska Department of Fish and Game.

Mr. Lloyd has a long and distinguished career working on behalf of Alaska's fisheries. With his past leadership experience in fishery management, and his background in biological oceanography and science research, Mr. Lloyd has the experience and knowledge that is needed to continue science based fisheries management throughout the commercial fishing industry in Alaska.

CDFU has represented the interests of the commercial fishermen of the Copper River and Prince William Sound area E fishery since 1935. We have a history of constructive and successful involvement in supporting sustainable fishing practices, fisheries research and promoting the economic stability of the fishing industry.

Thank you for your consideration,

Catherine Crawford
Executive Director

To: Rep. Craig Johnson
Subject: Denby Lloyd Confirmation

From: Tom McLaughlin – President/CEO – Seafood Producers Cooperative

Seafood Producers Cooperative urges you to support Denby Lloyd for Legislative confirmation as the Commissioner of the Alaska Department of Fish and Game. He is amply qualified to serve as Commissioner.

During the last decade that Mr. Lloyd has worked for Fish and Game, most recently as Acting Commissioner, he has exhibited the leadership, dedication, and experience required to head the agency. We are confident that Mr. Lloyd will do a superlative job as Commissioner of the fishing industry's most vital state resource agency.

From the agency's budgetary considerations, to the regulations and policies that mold and direct the uses of Alaska's fish and game resources, he will judiciously and effectively lead the department.

Seafood Producers Cooperative is the largest fisherman owned cooperative in the United States. Established in 1944, our 500 fisherman owners harvest throughout Alaska. Our processing plant in Sitka is open year round. It is vital to our business and the health of the Alaskan seafood industry to have a capable, qualified person such as Mr. Lloyd in the position of Commissioner of Alaska Department of Fish and Game.

Sincerely,
Tom McLaughlin
President/CEO

House Resources Committee
Alaska State Legislature
Juneau, AK 99801

Dear Co-chairs Johnson and Gatto,

As an Alaskan born in the territory of Alaska, having spent 20 years in the commercial fishing industry and over 40 years enjoying sports fishing and hunting in the State, I strongly support Denby Lloyd for confirmation to position of Commissioner of the Alaska Department of Fish and Game. Denby has an extensive background in fisheries management and has earned the respect of Alaskans with whom he has worked over the years. I have found Denby to be an approachable individual who will give due consideration to different points of view on issues and make a fair judgment on those issues. He has demonstrated strong administrative skills and a capability to build consensus between diverse groups. In short, I believe he has the qualifications and abilities to do an outstanding job for Alaska as the Commissioner of the Alaska Department of Fish and Game.

I appreciate your considering our support for Mr. Lloyd and hope your committee will confirm him for Commissioner of the Alaska Department of Fish and Game.

Yours truly,

William F. Auger

Honorable Craig Johnson
Co-Chairs, House Resources Committee
Alaska State Legislature
Juneau, Alaska 99801

Sent by Fax: Representative Gatto - 465-2381
Representative Johnson - 465-3872

Representative Gatto and Representative Johnson:

This letter is in support of the confirmation of Denby Lloyd as Commissioner for the Alaska Department of Fish & Game.

I have known Denby for nearly twenty years. As an avid hunter and sport fisherman, Denby and I have a lot in common. We've had the opportunity to compare favorite hunts and sport fishing trips.

While Denby's last position was director for Commercial Fisheries for ADF&G, I know that he will be an active voice in good resource management for both game and fish in his new role. With his background as a biologist and his years in management, Denby is uniquely qualified for this position and will be a huge asset for the state.

As a municipal department head, I can appreciate how important it is to have a manager that has the support of staff. The morale and job satisfaction necessary to keep good employees is vital, especially in light of the salary disparity between state and federal employees. Denby is someone who has earned the support of his staff and he will work hard to maintain the trust and confidence they place in him.

With Alaska facing resource issues and declining oil revenues, it is vital that our leadership be of the highest caliber. You are truly privileged to have the opportunity to confirm Denby Lloyd as Commissioner of ADF&G.

Some may be contributing the voice of dissent. I would ask that you consider the motives and facts behind any concerns expressed.

Thank you for considering my recommendation.

Sincerely,

Mark L. Kozak

Fairbanks Fish and Game Advisory Committee
P.O. Box 289
Ester, Alaska 99725
March 14, 2007

Resolution Opposing the Confirmation of Mr. Denby Lloyd as
Commissioner of Fish and Game

Whereas, the Joint Board's process for selecting a "one name" list of qualified persons is, in our opinion, illegal under Alaska statutes; and,

Whereas, his confirmation could only result in less than the status quo management of Alaska's fish and wildlife; and,

Whereas, Mr. Lloyd's comments to the Alaska Senate Resources Committee and others indicate clearly that he does not understand either the statutory "responsibilities of the Commissioner" or the requirements of the Intensive Management Law; and,

Whereas, Mr. Lloyd has not introduced any plan or planning for abundance management and his comments indicate to us that his only concept of abundance management is predator control,

Therefore be it resolved, the Fairbanks Fish and Game Advisory Committee voted at their regular meeting on March 14, 2007 to oppose his confirmation as Commissioner; and,

Be it further resolved that this opposition be communicated to the Legislature and other interested F&G Advisory Committee's as soon as possible.

Passed this 14th day of March, 2007

Voting 10 In favor, 0 Opposed, 1 Abstaining and 4 Absent

For the FAC, Mike Tinker, Vice-Chairman

House Resources Committee
Attn: Rep. Carl Gatto & Rep. Craig Johnson
Via Fax(s): 907/465-2381; 907/465-3872

Dear Sirs,

I would like to lend my support in favor of Denby Lloyd for the position of Commissioner of ADF&G. I first fished in Alaska in 1967, and my father fished before I did. I was a resident of Kodiak for 11 years, and now reside in Oregon.

Over the years, I have dealt with many officials with the State of Alaska. Mr. Lloyd is a proven administrator, and an advocate for the stocks of fish and game over which he will preside, providing the Alaska legislature confirms his nomination. As a commercial fisherman, I am looking for sustainability and stability. I am confident that Denby Lloyd's guiding hand will provide that, whether the issue is in commercial fisheries, or the sport area of fish and game management.

Even when I don't happen to agree with Denby, I respect his position, because I know that his first goal is protection of the stocks. That is also my goal, and should be the goal of all fishermen.

I have a great interest in proper resource management in the State of Alaska, and I trust Mr. Lloyd's skill in achieving this.

Thank you for your consideration,

Gary Painter

Representative Craig Johnson, Co-Chair
House Resources Committee
Alaska State Legislature
State Capitol, Room 126
Juneau, AK 99801-1182

Dear Representative Johnson:

The Gulf of Alaska Coastal Communities Coalition (GOAC3), a non-profit organization representing over 45 communities in the Gulf of Alaska on fisheries resource issues, supports legislative confirmation of Denby Lloyd for the position of Commissioner, Alaska Department of Fish and Game.

Given the importance of commercial, sport and subsistence fisheries for not just coastal communities, but the State as a whole, it is essential to have an ADF&G Commissioner who understands the critical issues and complexities of the overlapping state and federal management systems.

Mr. Lloyd's experience with the North Pacific Fisheries Management Council, Alaska Board of Fisheries, and State of Alaska, provides him with an extensive knowledge base. As a long-time public figure known to many fishing industry participants, Mr. Lloyd has shown his ability to accommodate the type of diverse interests that will be encountered in both the fishery and wildlife issues that are the Commissioner's responsibility.

GOAC3 supports Mr. Lloyd for ADF&G Commissioner for the following additional reasons:

- (1) Fishery resources are the lifeblood of Alaska's coastal and river communities and residents and provide economic, cultural and social benefits through a combination of commercial, sport, subsistence and tourism activities.
- (2) Federal and state waters fisheries issues are incredibly complex and making well informed decisions is critical to the protection of the resource for coastal community survival, commercial fishing, sports and subsistence utilization and in providing a management system that allows all resource user groups to prosper.

The learning curve for understanding the complexity of fisheries is long and steep. We believe Mr. Lloyd is the only commissioner candidate who has the institutional understanding to analyze these complexities and make appropriate recommendations.

- (3) Mr. Lloyd has a demonstrated ability to
- a. deal with controversial issues
 - b. apply sophisticated knowledge required for understanding Alaska's critical wildlife issues
 - c. work with local area advisory committees
 - d. work with all user groups for the best interests of the Alaska.

It is imperative that we have a commissioner that has the understanding and the ability to effectively cope with the fish and wildlife issues that are of critical importance to Alaska and its communities. GOAC3 believes that Mr. Lloyd is the best option available for managing Alaska's Department of Fish and Game with fairness and integrity and to best assure sustainability of our resources.

We urge you to confirm Denby Lloyd as Commissioner of the Alaska Department of Fish and Game for the benefit of all Alaskans.

Thank you.

Sincerely

Freddie Christiansen, Chairman, GOAC3

Rep. Johnson:

RE: Denby Lloyd, Commissioner - Fish & Game

Denby Lloyd is extremely well qualified to be Commissioner of Fish and Game. He has a wide range of experience within the Department from test fishing the Kenai River as a temporary employee during his college years to his present position as Acting Commissioner. He has worked from Dutch Harbor to Juneau as a fishery manager, researcher and with habitat issues.

He is not impulsive and puts a lot of thought into dealing with the issues put before him. He has an excellent reputation among his staff and former employees for being a considerate boss. He is not politically motivated which seems to be a characteristic held in high esteem by people who want to manage Alaska's fish and wildlife with polling data.

I can't think of a person more qualified than Denby to be commissioner of Fish and Game.

Sincerely,

Beaver Nelson - Box 130, Homer, AK 99603

March 20, 2007

Senator Charlie Huggins, Chair
Senate Resources Committee
Alaska Legislature
Juneau, Alaska

Dear Senator Huggins:

I am writing in support of the confirmation of Denby Lloyd as Commissioner of the Alaska Department of Fish & Game. Mr. Lloyd is uniquely qualified to be Commissioner and should be confirmed by the Alaska Legislature.

I am a life-long resident of the State of Alaska and since the early 1970's I have interacted with ADF&G biologists, managers, and commissioners. Serving on ADF&G and Board of Fisheries advisory boards, which dealt with both fish and game issues in the Kodiak, Westward, and Statewide Regions, I have experienced a number of management styles, competency levels, and varying degrees of even-handedness in dealing with resource management and the public by the various ADF&G personnel. Mr. Lloyd is one of those rare individuals who is both exceedingly capable, and puts the resource first in his decisions. I have worked with Mr. Lloyd on a number of issues and have been impressed with his ability to rise above the fray of special interest and political pressure. I have not always agreed with Mr. Lloyd's decisions and I am confident we will not always agree in the future; however, I have come to appreciate that whatever decision he makes, and leadership he exercises, it will be thoughtful, and in the end, be done to bring the greatest benefit to the State of Alaska and its resources.

It appears to me a campaign is being waged by those who don't know Mr. Lloyd, and by special interest groups trying to tarnish his record of service to further their cause. I encourage you not to be misled by the misinformation being circulated. For those of us who have worked with Denby over the years on a variety of issues, we know the truth which is Denby Lloyd is the best choice to be Commissioner and should be confirmed.

Thank you for your consideration.

Sincerely,

Wallace Fields

Dear Representative Johnson,

The Kodiak Regional Aquaculture Association (KRAA) is a private nonprofit corporation that includes among its members the 605 Kodiak area commercial salmon fishery limited entry permit holders, local sport fishermen, sport fishing charter organizations, subsistence fishermen, as well as others interested in the salmon resources of the Kodiak area.

I write to offer the support of the members of KRAA for the confirmation of DENBY LLOYD to the position of Commissioner of the Alaska Department of Fish and Game.

Members of KRAA have been acquainted with Mr. Lloyd for many years, some as far back as when he began his career in resource protection as a seasonal worker for ADF&G here in Kodiak. We all became acquainted when he returned to Kodiak as the Westward Region's chief salmon research biologist and eventually the Regional Supervisor for Commercial Fisheries Division for Kodiak, the Alaska Peninsula, Aleutian Islands and the Bering Sea.

We have found Mr. Lloyd to be extremely well versed in all aspects of fish and game issues, a fair arbitrator of problems among resource user groups, and a dedicated professional willing to accept personal sacrifices for the betterment of the people of the State of Alaska and the protection of our natural resources.

We feel that a better candidate for the position of Commissioner of ADF&G will not be found.

Please support his confirmation to this important position.

On behalf of the Board of Directors and members of KRAA,

Sincerely,

Representative Craig Johnson, Co-chair
House Resources Committee
Alaska Legislature
Juneau, Alaska

RE: Support for confirmation of Commissioner Denby Lloyd

Dear Representative Johnson:

Cordova District Fishermen United (CDFU) support the confirmation of Denby Lloyd as Commissioner of the Alaska Department of Fish and Game.

Mr. Lloyd has a long and distinguished career working on behalf of Alaska's fisheries. With his past leadership experience in fishery management, and his background in biological oceanography and science research, Mr. Lloyd has the experience and knowledge that is needed to continue science based fisheries management throughout the commercial fishing industry in Alaska.

CDFU has represented the interests of the commercial fishermen of the Copper River and Prince William Sound area E fishery since 1935. We have a history of constructive and successful involvement in supporting sustainable fishing practices, fisheries research and promoting the economic stability of the fishing industry.

Thank you for your consideration,

Catherine Crawford
Executive Director
