SPONSOR STATEMENT

SB 304, CFEC as Information Source

There are eleven Alaska regional development organizations (ARDOR) established under AS 44.33.895. These are nonprofit organizations comprised of representatives of the economic, political, and social interests in each region. Their purpose is to encourage and assist economic development in their individual areas. For eight of these organizations, commercial fishing activities provide a substantial portion of their regions' economic base.

For example, the wholesale value of the 2005 commercial fishing activities exceeded \$3 billion. Earnings of the 27,700 participating fishermen accounted for \$1.2 billion. Another 22,500 persons participated in the seafood processing workforce earning \$277 million dollars in wages. For coastal communities, approximately 37% of private workers were employed in fish harvesting or seafood processing.

SB 304 allows ARDORs to benefit free of charge from the fisheries information and analyses generated by the Commercial Fisheries Entry Commission. This information can be critical for ARDOR understanding of the economic trends in their region and development opportunities that may be present.
