ANALYSIS: *(Attach a separate page if necessary)*

HB204 proposes to facilitate the expansion of the annual class size of Alaskan participants in the Washington, Wyoming, Montana, Idaho, and Alaska regional medical education program at the University of Washington School of Medicine (UWSM). Using cost projections provided by UWSM, this fiscal note reflects additional general fund expenses assuming the annual class size is increased from 20 to 24 participants effective 2011, with the first twenty-four-student cohort entering the program in fall 2010. The first year of the program is conducted at the University of Alaska Anchorage, and, therefore, first year fiscal impacts are not reflected herein. The increased costs in the ACPE budget take affect when the first class of 24 begin their second year of training at UWSM.

Sponsor Statement
House Bill 204

An Act increasing the number of students pursuing a medical education who are provided postsecondary educational services and programs; and providing for an effective date

The intent of House Bill 204 is to help ensure that Alaska has an adequate supply of doctors to meet the health care needs of its citizens. It would expand the number of Alaskan students able to receive medical training through the Wyoming, Washington, Alaska, Montana, and Idaho (WWAMI) program each year from 20 to 24. This is the maximum number that the University of Alaska can accommodate within its existing facilities and with its current faculty. Expansion of this program over time to train 30 Alaskan students annually is one of the primary recommendations of the Alaska Physician Supply Task Force.

This task force was established to address the severe shortage of doctors in Alaska. In its 2006 report, the task force found that Alaska has 375 fewer doctors than needed and the 17th lowest physician-to-population ratio in the nation. This shortage is undermining Alaskans' access to health care and increasing costs throughout the state. Seniors are having particular difficulty finding primary care physicians, causing many to forego treatment or face dangerously long wait times. Internal medicine specialists and psychiatrists are in especially short supply as are doctors of all types in rural Alaska.

This shortage is expected to worsen as Alaska's population increases and ages. The task force reported that over the next 20 years, nearly twice as many practicing physicians will be needed – about 1,100 more than the current 1,347 in patient care – to meet demand as the state's senior population triples. To complicate matters, one-third of our existing physicians are expected to retire in the next 10-15 years.

Additionally, Alaska is far behind other states in the production of doctors. Alaska is one of six states without an independent in-state medical school. The state's primary vehicle for training doctors is the regional WWAMI program. In 2007, the legislature expanded the number of Alaska-funded seats in the program from 10 to 20. This bill continues the incremental expansion of the program as it has been shown to be an effective means of recruiting doctors to the state. Fifty percent of Alaskans who enter WWAMI end up practicing in Alaska. The percentage increases to 80% when graduates from other WWAMI states are counted as returned.

As the national supply of physicians shrinks, recruitment of doctors to Alaska will become ever more competitive. Expanding the number of Alaskans trained through WWAMI is one effective step the state can take to ensure that all Alaskans have access to needed health care.

I respectfully request favorable support of House Bill 204.

*All facts displayed are from a 2006 report from the Alaska Physician Supply Task Force

Alaska's Shortage of Doctors

- Alaska faces a severe shortage of doctors. A 2006 report from the Alaska Physician Supply Task Force estimates that Alaska has 375 fewer doctors than needed.
- Alaska ranks 17th lowest in the nation in terms of its physician-to-population ratio with 2.05 doctors per thousand residents compared to the national average of 2.38 per thousand.
- This shortage is affecting access to care throughout the state and increasing costs. Patients with Medicare are having particular difficulty finding primary care physicians. Many face dangerously long wait times to see a doctor.
- The shortage is likely to worsen over the next 20 years as Alaska's population increases and ages. Experts predict that by 2025, nearly twice as many physicians in practice will be needed – about 1,100 more than the current 1,347 in patient care – to meet expected demand as the state's elderly population triples. To complicate matters, one-third of the physicians in Alaska are expected to retire in the next 10-15 years.
- To correct this deficit and reach an adequate supply of doctors by 2025, Alaska needs to add more than 60 physicians per year. Unfortunately, as the national supply of physicians shrinks, recruitment will become even more competitive.
- Alaska also lags far behind other states in the production of doctors. We are one of six states without an independent in-state medical school.
- We do, however, fund 20 seats at the regional WWAMI medical school. One of the primary recommendations of the Physician Supply Task Force is to incrementally increase the number of Alaska-funded WWAMI seats to 30.
- SB 18 calls for the increasing the number to 24 as that is all UAA can handle in its current facility and with existing faculty.
- 50% of Alaskan students who enter WWAMI end up practicing in Alaska. The percentage increases to 88% when WWAMI graduates from other states are included.
- Building in-state capacity for medical education will help make Alaska more self-sufficient and less susceptible to outside factors that can undermine the health of Alaskans.
- Expanding the WWAMI class is one of many strategies being proposed to address this problem. Others include instating a loan repayment program (such as that proposed in SB 139), increasing support for residency programs in Alaska, and expanding training programs for mid-level practitioners, such physician's assistants.
- A combination of strategies is likely to achieve the greatest success for Alaska as we compete nationally for doctors and other health care providers.

March 30, 2009

Representative Nancy Dahlstrom
Alaska State Capitol, Room 411
Juneau, AK 99801-1182

Subject: Support for HB 204

Dear Representative Dahlstrom:

The Alaska Commission on Aging (ACoA) supports HB 204, a bill to expand Alaska's participation in the WWAMI Medical School program to increase the supply of doctors needed to meet the growing health care needs of all Alaskans. WWAMI is a unique five-state collaborative program that presently allows 20 Alaskan medical students to enroll. HB 204 would increase the number of slots from 20 to 24 students on July 1, 2010. This bill is authored by you and co-sponsored by Representative Kerttula.

Alaska, as with the rest of the nation, is experiencing a shortage of health care workers, particularly doctors and nurses. For many doctors in our state, retirement is just around the corner and replacing those experienced medical providers with newly trained doctors is a priority for all Alaskans, and a critical need for people 65 years and older who have multiple medical conditions.

The Alaska Physician Supply Task Force Report states that Alaska will need nearly twice as many physicians in the next twenty years as it currently has if the state is to meet the expected demands from a growing population of seniors. Similarly, the demand for registered nurses is increasing during a period when many health care professionals are retiring. The pool of qualified medical providers continues to shrink as the demand for services increases.

Alaska now has the highest rate of growth of persons 65 and older in the nation, according to the 2007 report by the U.S. Administration on Aging. This increased growth rate is due to the fact that Alaska's seniors and high proportion of Baby Boomers are now choosing to remain in state following retirement, close to their families and friends, which is made possible by improved health care and home and community based services. As a result, Alaska's economy benefits through seniors' contribution of approximately $1.6 billion of revenue to the state each year from their retirement pensions, other income, as well as medical payments in addition to their volunteering, caregiving, and mentoring to younger generations. If older Alaskans are unable to find a physician willing to serve them, they may be forced to leave the state in search of access to health care professionals, which will result in a significant financial and social loss for Alaska.

The Alaska Commission on Aging supported Senator Meyer's bill in 2007 to increase the number of WWAMI slots from ten to twenty. HB 204 offers another meaningful opportunity to increase the number of slots for medical students and for our state to prepare for the health care demands of Alaska's growing senior population. The University of Washington, which is ranked first in primary care medical schools nationwide and seventh in geriatrics, not only allows WWAMI medical students to pay in-state tuition, but the program also provides an incentive for those completing medical school to return to Alaska to practice medicine.

ACoA supports HB 204 to improve primary health care access for all Alaskans, including Alaska seniors. We thank you for sponsoring this important legislation. Please feel free to contact Denise Daniello, ACoA's executive director (465-4879), should you have any questions regarding our position.

Sincerely,

Sharon Howerton-Clark
Chair, Alaska Commission on Aging

Sincerely,

Denise Daniello

WWAMI Overview and Frequently Asked Questions (FAQs):

WWAMI Overview

WWAMI provides Alaska residents with high quality medical education. WWAMI is a collaboration among universities in five northwestern states (Washington, Wyoming, Alaska, Montana and Idaho) under the overarching administration of the University of Washington School of Medicine (UWSOM). After admission, Alaska students attend the University of Alaska Anchorage for the 1st year of medical school. Students attend the 2nd – 4th years of medical school at UWSOM with 3rd and 4th years including opportunities for training rotations throughout the region.

Each year 20 Alaskans are admitted to Alaska WWAMI. Alaska's WWAMI medical students take their first-year courses at the University of Alaska Anchorage. Students from all WWAMI states take second-year courses in Seattle. The series of clinical clerkships that comprise the third and fourth years of the curriculum may be taken in any of the five WWAMI states. The "Alaska Track" allows students the option to take nearly all of these clerkships in Alaska.

The Alaska Commission on Postsecondary Education (ACPE) is the fiscal agent for the State of Alaska which funds Alaska's WWAMI participation and is the servicer for the WWAMI loan obligation.

WWAMI FAQS

Who should Alaskans contact if they are interested in information about the WWAMI program?
The Director of the WWAMI program at the University of Alaska Anchorage can be contacted at 3211 Providence Drive Engr 331, Anchorage, AK 99508. The e-mail address is aywwami@uaa.alaska.edu and the phone number is (907)786-4789.

How are new participants selected for participation in the WWAMI program?
Each year the Alaska WWAMI and the UWSOM Admissions Committees work together to interview and select 20 Alaskans for the program. The Alaska WWAMI office at UAA certifies an applicant's eligibility for the program based on responses to an Eligibility Questionnaire. Once an Alaska applicant is admitted, ACPE is prompted to send the individual the WWAMI service obligation Master Promissory Note (MPN) and a related cover letter. Individuals who accept the offers of admission must sign the MPN and return it to ACPE by July 30, prior to beginning their program of study.

What is the annual WWAMI repayment obligation based upon?
During the first year of medical school at University of Alaska Anchorage, the principal balance of the loan will be zero. However, by signing the WWAMI Master Promissory Note, each participant has entered into a loan contract and will have a loan repayment obligation for their second, third, and fourth years of medical school at UWSOM. In accordance with state statute governing the WWAMI program, the financial support to be repaid is equal to 50 percent of the amount the State pays to UWSOM, on behalf of the participant, plus interest.

How is Alaska's payment disbursed to UWSOM?
ACPE annually issues a single warrant to UWSOM to cover the entire amount the State pays for Alaska's contractual costs for the program. An annual Notification of Award letter is sent to each participant advising them of the amount of their financial obligation for the related program year.

How does the service obligation discharge a WWAMI participant's financial obligation?
The participant who successfully completes the graduate education program for which the financial support was provided and is employed within Alaska in a qualifying medical residency program or other qualifying professional medical practice and who is otherwise qualified shall have the outstanding principal[1] and accrued interest forgiven and considered a grant in accordance with the following percentages:

(1) for employment in rural[2] areas of the state,
  (a) up to three years of employment, 33 1/3 percent for each year;

[1] No amount due and payable prior to the participant entering deferment or forgiveness-qualifying employment is subject to forgiveness.
[2] "Rural" is defined in Alaska law as a community with a population of 7,500 or less that is not connected by road or rail to Anchorage or Fairbanks or with a population of 3,500 or less that is connected by road or rail to Anchorage or Fairbanks.

(2) for employment in areas of the state that do not qualify under the program definition as rural,
(a) up to five years of employment, 20 percent for each year.

Participants employed as physicians in the state must immediately notify ACPE of the date their qualifying employment began. ACPE will make available to the participant the necessary forms for documenting completion of each annual period of documenting employment until such time as the obligation is fully discharged.

What are the impacts on my forgiveness benefits if I move from a rural to a non-rural community while performing my qualifying service, or vice versa?
Participants who initially practice medicine in a rural community will receive their first forgiveness of 33 and 1/3 percent of the loan after their first year of practice. If the participant should then choose to move to a non-rural community and practice medicine, he or she will then receive forgiveness benefits of 20 percent of the remaining loan amount for each year they practice medicine until the balance of the loan is forgiven. The same is true for a participant who practices medicine in a non-rural community and receives forgiveness of 20 percent of the loan and then moves to a rural community to practice medicine. The subsequent forgiveness will be for 33 and 1/3 percent of the remaining loan balance until the loan balance is forgiven.

Forgiveness Benefit	Forgiveness % for all rural practice	Forgiveness % for 2 years of rural practice	Forgiveness % for 1 year of rural practice	Forgiveness % for all non-rural practice
1	33 1/3%	33 1/3%	33 1/3%	20 %
2	66 2/3%	66 2/3%	53 1/3%	40%
3	100%	86 2/3%	73 1/3%	60%
4		100%	93 1/3%	80%
5			100%	100%

Are participants required to make payments while engaged in employment which satisfies their WWAMI service obligation?
Generally not. It is critical for a participant to immediately advise ACPE of qualifying employment. Once ACPE is in receipt of documentation the participant is in full-time, qualifying employment in Alaska, the repayment requirement will be deferred. The deferment continues until either the entire period of service is completed or the participant ends the full-time employment or leaves the state, whichever occurs first. However, if a participant enters otherwise qualifying employment after the start of repayment and has past due payments, that participant must pay the loan obligation current **before the employment will be considered part of the qualifying period.** Additionally, those payments made prior to entering into qualifying repayment will not be subject to forgiveness.

Who is required to repay a WWAMI loan?
Any participant who fails to fully satisfy the terms of their service obligation is required to repay their outstanding WWAMI financial obligation plus accrued interest. The obligation converts to a regular loan status at the time the participant fails to qualify for a permitted deferment and the active repayment period begins. In the event a participant is in active repayment for a period of time and thereafter enters qualifying employment, any amount of the loan obligation which was not yet due and payable may be deferred and subsequently be subject to forgiveness in the increments noted above.

Will ACPE facilitate payment arrangements for participants in a contractual arrangement with a third-party organization for payment of their WWAMI loan?
ACPE cannot facilitate payment arrangements or otherwise bill a third party but will accept payment on behalf of the borrower from any source.

What repayment deferment provisions are available to WWAMI participants?
In addition to the qualifying employment deferment, WWAMI participants are eligible for deferment:

- while enrolled in a medical education residency program or fellowship required for their specialty field of practice;
- while performing a service obligation to the National Health Services Corps, the Indian Health Service, or a Uniformed Services Scholarship Program; or,
- while totally, temporarily disabled.

What if a WWAMI participant is in a medical education residency program in Alaska?
WWAMI participants in an Alaska medical education residency program can claim that period of service as qualifying under their WWAMI obligation so long as they hold an Alaska medical license or residency permit and have proof of full-time employment for the relevant period.

March 24, 2009

Honorable Nancy Dahlstrom
Alaska State House
Capitol, Room 411
Juneau, Alaska

RE: HB 204 – Increase WWAMI Class Size

Dear Representative Dahlstrom:

The Alaska State Medical Association (ASMA) represents Alaska physicians statewide and is primarily concerned with the health of all Alaskans.

ASMA supports HB 204 and thanks you for taking the leadership and initiative in introducing it.

ASMA has long supported increasing the WWAMI class size and worked hard several years ago to double the matriculants from 10 to 20 per year. In fact, ASMA has had a policy to increase the class size to 30 when it is practicable to do so.

Finally, "growing" our own physicians, we believe, will help in attracting and retaining physicians to practice in Alaska. However, we are still going to have to make a concerted effort to recruit physicians from other parts of the country to meet with Alaska's need for well trained physicians to provide the health care necessary for all Alaskans.

Sincerely,

Thomas P. Vasileff

The Honorable Paul Seaton, Chair
House Education Committee
Alaska State Capitol, Room 102
Juneau, AK 99801-1182

RE: HB 204 (Dahlstrom)–Support

Dear Chair Seaton:

On behalf of the members of AARP in Alaska, we encourage you and your colleagues on the House Education Committee to support HB 204, authored by Representative Nancy Dahlstrom and co-sponsored by Representative Beth Kerttula.

It is no secret that Alaska has a shortage of physicians which is expected to get worse over the next few years. AARP members in many Alaska communities already tell us that they are unable to find a physician who will accept them as Medicare beneficiaries.

The one bright spot in this shortage is the WWAMI program which has traditionally provided ten slots for family practice physicians to spend their residency in Alaska. Senator Meyer's bill last year increased the number to twenty. Upon completion of their medical education, most of these physicians have chosen to stay here and practice in our cities as well as in our remote communities.

You and your colleagues have seen the Alaska Physician Supply Task Force report produced jointly by the University of Alaska and the Department of Health and Social Services. This excellent report should serve us as a roadmap for our future directions in physician training.

The former exodus of Alaska retirees has been reversed over the past few years. Because of our improved health services and provider community, older Alaskans have determined that they can remain here after retirement, close to their friends and families.

If older Alaskans are unable to find a physician willing to see them, we will be back with the situation of retirees leaving the state so they can be assured of access to health professionals.

HB 204 offers us another real meaningful opportunity to begin to meet this need. Adding another four family practice residents to bring the total to twenty-four won't solve our problem but it is an excellent step to address our long term needs for an expanded physician workforce.

Our AARP members, your constituents, want to stay here after retirement. An affirmative vote on HB 204 will help accomplish that.
AARP requests an "AYE" vote on HB 204.

Should you have any questions about our position, please feel free to contact me (586-3637) or Patrick Luby, AARP Advocacy Director (907-762-3314).

Thank you for your consideration.

Sincerely,

Marie Darlin

April 14, 2009

The Honorable Rep. Anna Fairclough
State Capitol, Room 411
Juneau, AK 99801-1182

Dear Rep. Fairclough:

Thank you for your comments at the House Finance Committee hearing this morning. I appreciate your interest in medical education and physician supply for the State of Alaska. It's a major driving force for me on a daily basis. I'm writing to provide substantiation for the information that I provided verbally during the hearing.

First, you are correct that the location of Residency training is the #1 determinant of location of physician practice, and in Alaska WWAMI we are working to develop new Residency training opportunities in Alaska wherever we can find the ability to do so – sufficient number of clinical cases in a specialty area, critical mass of physicians capable of doing the instruction, and funding to support the positions. As Suzanne Tryck mentioned these factors limit our ability to rapidly ramp up Residency opportunities.

With limitations on Residency opportunities we can turn to the 2nd most important determinant of the practice location of physicians, namely where they attended medical school. The national average for "rate of return" for public medical schools in the US is less than 40% (data from Assn. Amer. Med. Coll., *Key Physician Data by* State, Jan '06, Fig. 8). By contrast Alaska WWAMI returns nearly 50% of Alaskans who enter medical school at UAA to practice in the State.

- Return rate – 124/263 (47%) practicing or have practiced in Alaska (National Average: less than 40%)

Return rate is calculated based on data from the Alaska WWAMI database which tracks each Alaska WWAMI entrant since the program began in 1971.

In addition, the database tracks WWAMI graduates from Wyoming, Washington, Montana and Idaho who, as part of medical school in WWAMI, have trained in Alaska during their 3rd and 4th years of medical school and who subsequently return to practice here. This boosts Alaska's "return on investment" to 88%. For every 10 medical

students supported by the State, 8.8 WWAMI graduates practice here.

- Return on Investment – 230/263 (88%)graduates from all WWAMI states practicing or have practiced in Alaska

Supplying an adequate number of physicians for Alaska will require a multi-faceted approach. Increasing medical school positions is effective in the long term, requiring at least seven years before a new medical student can practice independently. Increasing Residency positions can provide independent practitioners in as little as 3 years. Currently, our only Alaskan Residency trains family medicine doctors; we have no Residencies to train in other specialties – pediatrics, psychiatry, surgery, internal medicine, *etc*. The challenges to Residency opportunities in these other specialties were cited above. An effective strategy requires development of both options as well as means to improve the practice environment to retain physicians who start a practice here.

Our goal in Alaska WWAMI is to provide physicians to supply the needs of Alaska and to provide opportunity for Alaska's best and brightest who want to pursue a career in medicine. "Growing our own" is an excellent way to accomplish *both* of those goals, as part of a multi-faceted approach. We continually seek new and better ways to accomplish this mission and we endorse the recommendation of the Alaska Physician Supply Task Force Report (2006) to empanel a group to determine the optimal means of providing medical education for the State, an effort which to our knowledge has not been performed, to date.

If you have additional questions, or if I can clarify any of these issues, please do not hesitate to contact me.

Sponsor Statement
HB 207

An Act increasing the allowances for injury, disability, or heart attack payable from the fisherman's fund

The Alaska Fisherman's Fund was established 1951 to provide for the treatment and care of Alaska licensed commercial fishermen and crew who have been injured while fishing on shore or off shore in Alaska. The upper limit on claims in the fund has been $2,500 since 1959. If $2,500 in 1959 dollars was adjusted for the Consumer Price Index, it would be worth approximately $18,229.64 today. While the limitation in state law has remained unchanged, health care costs have steadily risen.

Access to health insurance and health care is a concern among fishermen and especially presents an obstacle to younger fishermen who are seeking to continue as the next generation in Alaska's sustainable fisheries.

HB 207 updates the Alaska Fishermen's Fund limit to $10,000. This is intended to help ensure that Alaska's fishermen have better access to health care when injured while fishing. Updating the claim limit to $10,000 will bring this very worthwhile program back to providing a meaningful level of assistance as the payer of last resort for commercial fishermen and crew that sustain injuries or illness while fishing.

The fund is financed from revenue received from each resident and nonresident commercial fisherman's license and permit fee. Commercial fishermen and crew members pay 39% -- or up to $50 each -- of their annual license fees into this account. In 2008, there were 13,706 commercial fishing permit holders who contributed to the fund.

The account has grown to $11.5 million even as health care costs have risen, due in part to continuing improvements in fish industry safety.

This increase is not projected to jeopardize the sustainability of the fund.

ANALYSIS: *(Attach a separate page if necessary)*

This legislation increases the total allowance for a claim that can be approved by the Fishermen's Fund Administrator before it must go before the Fishermen's Fund Council from $2,500 to $10,000. Currently there are claims that exceed the current approval level, that are approved for payment and paid up to the $2,500 limit, but the claimant does not take the next step to go to the council for payment of the remainder of those claims. With the higher approval level some of those claims would be paid to a higher level and thus increase our expenditures. Based on past claims history the department estimates that expenditures could increase by approximately $63,700. The program has sufficient budgeted expenditure authorization to absorb this cost increase.

HOUSE BILL NO. 212

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY REPRESENTATIVES CRAWFORD, Tuck

Introduced: 4/1/09
Referred: Labor and Commerce, Finance

A BILL

FOR AN ACT ENTITLED

"An Act modifying the Alaska unemployment insurance statutes to comply with the requirements of the federal economic stimulus bill by redefining the base period for determining eligibility for unemployment benefits; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** The uncodified law of the State of Alaska is amended by adding a new section to read:

LEGISLATIVE FINDINGS AND INTENT. The legislature finds that

(1) the federal government has enacted a federal economic stimulus bill that makes it possible to obtain from the federal government additional funding to address the needs of the state's unemployed;

(2) it is desirable to address the needs of the state's unemployed;

(3) it is desirable to address the needs of the state's employers;

(4) in order for the state to receive the additional federal funding made available by the federal economic stimulus bill it may be necessary to amend state law;

(5) because eligibility for federal economic stimulus funds may be contingent on amending state law, and because that federal funding will address the needs of the state's unemployed, and, by offsetting some of the costs associated with providing benefits to the state's unemployed, will address the needs of the state's employers, the amendment of state law to ensure the state is eligible to receive federal economic stimulus funds is an important goal.

*** Sec. 2.** AS 23.20.520(3) is amended to read:

(3) "base period" means the first four of the last five completed calendar quarters immediately preceding the first day of an individual's benefit year, **except that if an individual would not otherwise be eligible for unemployment compensation because of the use of a base period that does not include the most recently completed calendar quarter immediately preceding the first day of an individual's benefit year, "base period" means, and eligibility shall be determined using, the four most recently completed calendar quarters before the start of the benefit year**;

*** Sec. 3.** This Act takes effect immediately under AS 01.10.070(c).

ANALYSIS: *(Attach a separate page if necessary)*

There is no anticipated fiscal impact to the department as a result of this legislation.

This legislation makes changes to the Unemployment Insurance base period used to determine eligibility for benefits by allowing use of the most recent completed quarter if an individual would not be eligible using the prior four quarters. Based on a review of 2008 unemployment insurance benefit applications, 1,293 additional unemployed workers would have been eligible for unemployment insurance benefits if the alternate base period were in place in 2008, resulting in $1.95 million in unemployment insurance benefits paid from the Unemployment Insurance Trust Fund.

SPONSOR STATEMENT: HOUSE BILL HB 212

HB 212 is a bill to modify the Alaska unemployment insurance statute to comply with requirements of the federal stimulus bill. HB 212 changes the definition of the base period for the calculation of unemployment benefits. The change in the calculation will cause an increase in the yearly payout of benefits by $ 2 million. This change will allow the Department of Labor to receive $15.6 million in stimulus money.

The intent language in the bill is provided to give the Department guidance as to how the legislature wants the Department to use the money. If the Department deposits the money into the Unemployment Trust Fund, the money would be available to pay benefits and would more than offset the cost of the increase benefits. This would allow the additional benefits to be paid without any increase in unemployment tax to employers.

I believe this bill will help unemployed workers and benefit employers at the same time. I strongly encourage the Legislature to pass HB 212.

Sectional Analysis: HOUSE BILL 212

Section # 1 Provides intent language to provide Legislative guidance to the Department of Labor as to the use of the Federal unemployment stimulus money. This section says that the Legislature wants the Department to use the money to offset employer costs for any increases in benefits.

Section #2

Amends AS 23.30.520(3) to change the definition of the base period in the unemployment benefits law. It allows a second "look back" period that would include the most recent quarter immediately proceeding the first day of the benefit year.

Section#3

Provides an effective date.

HB 214
Sponsor Statement

"An Act authorizing the Department of Environmental Conservation to award grants for the control of air emissions or the development and administration of air quality control programs; and providing for an effective date."

House Bill 214 provides statutory authority for the Department of Environmental Conservation (DEC) to grant funds for the control of air emissions or the development or administration of air quality control programs in the state. The authority is needed so that DEC can distribute funds available through the Air Quality Grant – Diesel Emission Reduction program in the American Recovery and Reinvestment Act of 2009. This program would provide $2,000,000 to grantees for energy efficiency upgrades such as new, more efficient power generation equipment and public transportation vehicles.

4/3/2009

Ausel, Joey K (DEC)

From: Beason, Laura K (DEC)
Sent: Tuesday, March 31, 2009 1:56 PM
To: Ausel, Joey K (DEC)
Subject: FW: Air Stimulus Funding

Joey, I received a message that message is undeliverable for some unknown reason. Can you please contact Paulyn and get her fax number and get this over to her. Thank you.

From: Beason, Laura K (DEC)
Sent: Tuesday, March 31, 2009 12:43 PM
To: Swanson, Paulyn M (LAA)
Subject: Air Stimulus Funding

Hi Paulyn I just wanted to follow-up on our conversation this morning about the needed granting authority. Shown below is some information Mike Maher sent to Larry Persily on Friday. The last section of this information contains the grant language that we would need in order for us to issue grants with this funding. Just wanted to make sure this would be included in case the funding did make it into the stimulus bill. If you have any other questions please let me know. Thank you.

Larry, the Air Non-Point Mobile Source program within the Division of Air Quality in DEC is responsible for mobile and area sources of air contaminants. As part of their responsibilities for mobile source they were assigned management of the grant funding being distributed by EPA under the State Clean Diesel Grant program. FFY08 was the first year of this allocation funding to states through a formula outlined in the Energy Policy Act of 2005. EPA's program is designed with the idea that states will fund grants or loan programs for clean diesel projects, but other competitive processes were allowed.

To distribute this funding DEC could execute agreements with other agencies or establish contracts or grants to municipalities and others throughout the state for projects such as:

- Purchasing and installing pollution controls on diesel engines for vehicle fleets such as bus or construction equipment fleets;
- Replacing older diesel generators in villages with newer, more efficient diesel engines;
- Repowering or replacing state, municipal or school bus fleets with cleaner, more efficient engines or vehicles;
- Providing plug-ins and other means to reduce the need to idle diesels in cold weather; and
- Converting vehicle fleets from diesel power to cleaner fuels such as natural gas or propane.

A variety of entities are eligible for this funding, they are:

- Regional, state, local, tribal or port agencies with jurisdiction over transportation or air quality;
- Nonprofit organizations or institutions that represent or provide pollution reduction or educational services to persons or organizations that operate diesel fleets;
- Entities whose principle purpose is the promotion of transportation or air quality

In FFY08 DEC received $295,320. To date projects identified as eligible for this funding this fiscal year include:

- Alaska Energy Authority to conduct a feasibility assessment of operating a small organic rankine cycle powered generator utilizing waste heat from the exhaust stack of a diesel engine.
- Alaska Department of Transportation diesel equipment retrofits.
- Alaska Railroad diesel equipment retrofits and assessment of anti-idling technologies.
- Contract to be issued for other diesel emission reduction projects throughout Alaska.

The funding available for the diesel emissions program through the American Recovery and Reinvestment Act of 2009 provides approximately $2.0 million to support the efforts of Alaska State Clean Diesel Grant programs.

Allowing DEC granting authority would allow a distribution of funding to other entities beyond governmental agencies or contractors. The statutory language we need in order to have this granting authority would be something like the following:

Section 1. AS46.14 is amended by adding a new section to read:

Sec 46.14.535. Grants. (a) Subject to appropriation, the department may award grants of federal or other funds received by the department for the control of air emissions or the development or administration of air quality control programs in this state.

(b) The department may adopt regulations under AS44.62 (Administrative Procedure Act) to carry out the purposes of this section.

If you have any questions please let me know.

House Bill 221, Mortgage Lending Regulation

"An act relating to the state's participation in the federal Nationwide Mortgage Licensing System and Registry, and to mortgage lending regulation and licensing; and providing for and effective date."

HB 221 will allow the Department of Commerce, Community and Economic Development to participate in the National Mortgage Licensing System (NMLS) as prescribed by the federal Secure and Fair Enforcement of Mortgage Licensing Act of 2008 (SAFE). By authorizing the state to join the national database and testing system, mortgage lenders in Alaska can continue being licensed to do business by the state while the legislature and department work to revise mortgage lending licensing laws to make the many small changes needed to be fully SAFE compliant.

The SAFE Act requires that all states implement a mortgage law that conforms to its requirements by July 30, 2009, and that all states use a national database for licensing mortgage loan originators. States may comply through statute and regulation and may implement more comprehensive mortgage lending laws than are provided under the federal SAFE Act, which provides minimum standards and requirements.

Alaska is scheduled to join the NMLS on August 1, 2009, and to begin licensing through the NMLS at that time. It is important for the state to show our intent to comply with the SAFE Act by joining the NMLS on schedule. This will further support our application for an extension to the U.S. Department of Housing and Urban Development (HUD).

The advantages to joining the NMLS are the sharing of information among states, and the ability to conduct joint exams with other states for out-of-state mortgage loan originators doing business in Alaska. These are important steps in strengthening our already strong mortgage lending licensing laws and will protect consumers from shady lenders coming in from out of state and doing business without proper oversight and review.

I urge your support and the timely passage of HB 221

Alaska State Legislature

Please enter into the record my testimony to the House Labor + Commerce committee name committee on HB221 bill/subject, dated 4-10-09.

Good Afternoon Mr. Chairman and Committee Members:

I am John Martin, President of the Alaska Association of Mortgage Brokers. Our organization along with the Alaska Mortgage Bankers Association worked closely with the Division of Banking and Securities to get our existing mortgage licensing law passed several years ago. It was passed unanimously in the House and Senate.

Since that time the Federal Government has passed the Secure and Fair Enforcement Act (SAFE Act), which pertains to mortgage licensing. It sets the minimum standards all states must comply with by July 31, 2009. If the standards are not met in time, HUD has the authority to grant an extension to the states based on their good faith efforts to comply with the SAFE Act.

Recently legislation was introduced to conform to the SAFE Act, SB145. That legislation has undergone changes with more to come. There is not enough time in this legislation period to iron it all out. Consequently, we will be working closely with the Department and the Alaska Mortgage Bankers Association to finalize the language.

During the interim, the state can apply for an exemption from HUD in regards to the SAFE Act based upon; pending legislation; the fact that our present statute substantially already complies with the SAFE Act; and by joining the Nationwide Mortgage Licensing System and Registry (NMLSR.)

This particular bill today, will grant the State the necessary authority to join the NMLSR and once signed into law will help Alaska get closer to compliance.

I would urge you to expedite this bill and pass it out of committee so the state can meet their target date for joining the NMLSR on August 1,2009 as per their letter of intent.

Thank you for your consideration and attention to this matter.

Respectfully,

John Martin, CMC, CMPS
President,
Alaska Association of Mortgage Brokers

ANALYSIS: *(Attach a separate page if necessary)*

This bill will amend statute to allow the state to enroll in the National Mortgage Lending System (NMLS) database and national testing system prior to the federally mandated July 31, 2009 deadline.

Alaska's state mortgage lending law (effect July 1, 2008) requires that mortgage lenders, brokers, and originators apply for and obtain a mortgage license to do business in Alaska. The federal S.A.F.E. Act (enacted July 30, 2008) requires, in part, that all states utilize a national database licensing system called the National Mortgage Lending System (NMLS) to license mortgage loan originators.

Prepared by: Lorie Hovanec, Director — Phone 465-5448
Division: Banking and Securities — Date/Time 04-08-09/ 5:00pm
Approved by: Emil Notti, Commissioner — Date 4/8/2009
Department of Commerce, Community and Economic Development

(Revised 9/10/2008 OMB)

STATE OF ALASKA
2009 LEGISLATIVE SESSION

BILL NO. CSHB 221(L&C)

ANALYSIS CONTINUATION

The contractual component in this fiscal note reflects and a one-time fee of $50,000 to join the NMLS; and $20,000 for system upgrades to interface with the NMLS.

The travel component in this fiscal note reflects necessary attendance by the licensing examiner and the regulatory examiners at training seminars held at the NMLS headquarters in Richmond, VA in FY10. Another training seminar will be held in FY 11 that would be attended by a regulatory examiner. Travel to Richmond, VA is necessary to provide hands-on training where the database is housed. It also allows two very distinct areas of training on the NMLS system. One area is to accept the application for licensure issued by each state and the second area is for the regulatory examiners to access information for enforcement actions.

At some time in the future the state is required to pass legislation that would bring the state into full compliance with the federal S.A.F.E. act. At that time approximately $30,000 in legal fees would be needed for regulation drafting and review.

After FY11 this bill will have a zero fiscal impact for the Department. Any additional workload required to to implement this legislation will be absorbed by existing staff.

CSBS/AARMR
Nationwide Mortgage Licensing System

Improving Supervision of the Mortgage Industry through Collaboration and Technology

In order to protect their citizens and bring greater accountability and transparency to the mortgage industry, state mortgage regulators developed the Nationwide Mortgage Licensing System ("NMLS"). NMLS increases and centralizes information available to state regulators and the mortgage industry about the professionals and companies that originate home mortgages.

State regulators recognized that the rapid expansion and evolution of the mortgage industry demanded a regulatory framework that was efficient and effective. In 2003, a nationwide taskforce of regulators began developing a uniform licensing registry, which was launched on January 2, 2008 as the Nationwide Mortgage Licensing System.

NMLS

Nineteen states currently use the system to manage their mortgage licenses. In January 2009, four more states will join. Thus, in the first year of operations, nearly half of the states will be part of a system that:

- Improves the efficiency and effectiveness of supervision of the mortgage industry;
- Enhances consumer protection;
- Fights mortgage fraud and predatory lending that costs consumers and the industry hundreds of millions of dollars each year;
- Increases accountability among mortgage industry professionals; and
- Unifies and streamlines state license processes for mortgage lenders and brokers.

In the first 11 months of operations, NMLS is already managing:

- Over 11,300 mortgage companies
- Over 10,200 mortgage company branch locations
- Over 50,800 loan officers

Through NMLS, licensed mortgage lenders, bankers, broker companies and loan officers in participating states are able to complete a *single* uniform form electronically, regardless of the number of states in which they are licensed. This information is housed in a secure centralized repository available to mortgage regulators. Licensees are able to access their own record 7 days a week through the NMLS website to update, amend and renew their licenses, or apply for new licenses.

Increasing Transparency and Accountability in the Mortgage Industry

As mortgage companies and/or individuals create a record for themselves and submit to their regulators, NMLS will permanently assign a unique identifying number to each record. The unique identifying number allows regulators to definitively track companies and professionals across states and over time.

Additionally, consumers and the industry will eventually be able to check on the license status and history of the companies and professionals with which they wish to do business in order to make a more informed decision.

Raising Standards through the S.A.F.E. Act

On July 30, 2008, the President signed into law the Housing and Economic Recovery Act of 2008. Title V of this Act, entitled *The Secure and Fair Enforcement Mortgage Licensing Act of 2008* ("S.A.F.E. Act"), recognizes and builds on states efforts by requiring all mortgage loan originators, regardless of the type of entity they are employed by, to be either state-licensed or federally-registered. All mortgage loan originators must be licensed or registered through the expanded Nationwide Mortgage Licensing System and Registry.

Under the S.A.F.E. Act, all states must implement a mortgage loan originator licensing process that meets certain minimum standards and must license loan originators through NMLS.

More information about NMLS is available at http://www.stateregulatoryregistry.org/NMLS.

HB

222

<target><bill>HB 222</bill><subject>HB 222</subject><comm>HFIN26</comm></target>

Representative Lindsey Holmes

House Bill 222 Sponsor Statement

HB 222 is a bill that will update several sections of Alaska's health insurance code to comply with recent changes made in federal law. If we do not update Alaska's code to reflect the federal changes, our Division of insurance will not be able to enforce the law when the federal changes go into effect. These updates include:

- Prohibiting health care insurers from discriminating against individuals on the basis of genetic information.
- Requiring that insurers continue to cover college students under their parent's health insurance coverage when the students take leave from school for medical reasons.
- Requiring insurers to provide parity in mental health and substance abuse treatment coverage.
- Requiring insurers to allow eligible employees and their dependents to enroll in the employer's health insurance plans when the employee or dependent loses Medicaid or state child health coverage or when an employee or dependent becomes eligible for assistance for their employer plan.
- Updating the definition of dentist for insurance purposes to include dentists who are licensed outside the state of Alaska

HB 222 also updates the law to bring substance abuse treatment coverage in line with the new mental health parity requirements. It would replace the mandate that insurers provide coverage for substance abuse treatment. In place of the mandate, it would require that insurers offer coverage for substance abuse treatment and prohibit insurers from placing extra restrictions on substance abuse treatment coverage.

Please join me in supporting HB 222 to ensure that our Division of Insurance can continue enforcing insurance law in the state of Alaska.

State Capitol, Juneau, Alaska 99801 · (907) 465-4919 · Fax: (907) 465-2137
Rep.Lindsey.Holmes@legis.state.ak.us

Representative Lindsey Holmes

House Bill 222 Sectional Analysis

Section 1: This section incorporates requirements in 42 U.S.C. 300gg-53 into state law. 42 U.S.C. 300gg-54 prohibits health care insurers from discriminating against individuals on the basis of genetic information. It prohibits health care insurers from requiring individuals to undergo genetic testing as a condition of insurance.

Section 2: This section changes the requirements for insurance coverage for treatment of alcoholism or drug abuse. Currently, insurers are mandated to provide coverage for treatment of alcoholism and drug abuse to employer groups with 20 or more employees and mandates that insurers offer such coverage to employer groups with fewer than 20 employees. This section would replace that mandate and only require insurers to offer coverage for substance abuse to all employer groups. Under the mental health parity provisions in Section 6 of the bill insurers are prohibited from placing limits on substance abuse coverage that are not placed on the general medical coverage of the plan.

Section 3: This section amends the definition of dentist for insurance purposes to cover dentists who are not licensed in Alaska.

Section 4: This section incorporates requirements in 42 U.S.C. 300gg-54 and 42 U.S.C. 300gg-7 into state law. Those sections of federal statute require that health care insurers continue to cover college students under their parent's health insurance coverage when the students take leave from school for medical reasons.

Section 5: This section has two changes to enrollment requirements for employees who are eligible for their employer's health insurance plans but have previously chosen to not enroll in that plan. The first change allows a person who was covered by Medicaid or similar plan and loses eligibility for that plan, to enroll in their employer's health insurance plan. The second change allows a person to enroll in their employer's health insurance plan if they become eligible for assistance to help pay for their employer's health insurance plan from Medicaid or a similar plan.

Section 6: This section incorporates requirements in 42 U.S.C. 300gg-5 to apply to state law. The federal requirements are that a health care insurer may not place restrictions on mental health and substance use coverage in an insurance plan that are not placed on the general medical coverage of that plan.

Section 7: This section provides an effective date for section 1 of the bill.

ANALYSIS: *(Attach a separate page if necessary)*

This bill will not result in increased costs to the Mediciaid program. It could reduce Medicaid benefit costs by continuing coverage for dependent students during medically necessary leaves of absence from college and requiring group health insurers to allow an employee to request coverage under a group health insurance plan within 60 days if the employee or a dependent loses medical assistance coverage or becomes eligible for medical assistance. The costs avoided are indeterminate but are likely to be small because most medical assistance enrollees do not have access to private health insurance.

"An Act relating to the State Procurement Code..."

House Bill 225 makes numerous changes to the state's procurement code. Collectively, these changes streamline the procurement code to ensure consistent application of the law, and results in a more understandable, efficient procurement process. These changes are needed to prevent failed procurements and provide modern procurement tools and techniques to the State's workforce.

Streamlining is accomplished in part by simplifying the application of our many preferences, which is currently complex and confusing for our employees and vendors. The bill makes application of the preferences uniform – currently, preferences do not contain the same language so they must be applied differently. The bill eliminates the Alaska Offeror's preference and Employers of people with disabilities preference. The Offeror's preference is only contained in regulations, has no basis in statute, and limits competition for our RFPs. The employers of people with disabilities preference is a seldom used preference that is very difficult for the Division of Vocational rehabilitation to administer. As of today there are only two vendors receiving this preference, both of which are in the business of leasing office space to the state. This bill also eliminates bidder preferences for our office lease procurements and contains an Alaska Veteran preference, which mirrors HB 24.

Another problem we have in state procurement is solved by clarifying the Alaska business license requirements. Under the current law, a high percentage of offers on high dollar, complex projects are rejected on a technicality. The bill also modifies protest procedures to reduce frivolous protests, and affords us greater flexibility to renegotiate contracts.

HB 225 modernizes our Procurement Code and provides tools and techniques to our employees that have proven cost effective in the private sector. For example, the bill allows for electronic receipt of bids, and for successive rounds of negotiations which has been a very successful technique in other states and the private sector. The bill also eliminates the requirement to maintain outdated vendor lists in a time when commerce is moving online.

The dollar threshold for informal or small procurements is also increased, which will simplify many purchases that are now procured via time consuming and more complex formal procurement rules.

It has been many years since our procurement code has been modernized. These changes will position us to become more efficient and cost effective in our purchasing and contracting.

I urge your support on this piece of legislation.

Explanation of Changes

Page 20 Line1,

Inserted a new Section that amends the uncodified law of the State of Alaska. It adds in transition language stating that the Dept. of Administration shall include in the two successive biennial reports after the effective date of this Act information on the savings that have been achieved by Sections 14 and 28 of this Act.

Alaska State Legislature

Representative Anna Fairclough – House District 17

CSHB 225 (STA)
Sectional Analysis

*** Section 1:** Amends AS 24.55.275

Updates a citation to reflect the renumbering of a preference.

*** Section 2:** Amends AS 36.15.050(a)

Amends the local agricultural preference to grant a seven percent cost preference to the qualifying bid rather than to the low bid, making this preference consistent with other procurement preferences.

*** Section 3:** Amends AS 36.15.050(b)

Amends the local fisheries preference to grant a seven percent cost preference to the qualifying bid rather than to the low bid, making this preference consistent with other procurement preferences.

*** Section 4:** Amends AS 36.15.050 by adding a new subsection (h)

Amends the local agricultural and fisheries preferences to disallow a bidder from being granted both a local agricultural/fisheries preference and an Alaska product preference under another statute.

*** Section 5:** Amends AS 36.30.015(e)

Updates a citation to reflect the renumbering of a preference.

*** Section 6:** Amends AS 36.30.015(f)

Adds the Alaska Industrial Development Authority and the Alaska Energy Authority to a list of agencies exempt from the procurement code and updates a citation to reflect the renumbering of a preference.

*** Section 7:** Amends AS 36.30.015(h)

Updates a citation to reflect the renumbering of a preference.

Session: Alaska State Capitol • Juneau, AK 99801 • 907-465-3777 • Fax 907-465-2819
Interim: 10928 Eagle River Road, Suite 238 • Eagle River, AK 99577 • 907-694-8944
Representative_Anna_Fairclough@legis.state.ak.us

*** Section 8:** Amends AS 36.30.020

Updates a citation to reflect the renumbering of a preference.

*** Section 9:** Amends AS 36.30.030

Updates a citation to reflect the renumbering of a preference.

*** Section 10:** Amends AS 36.30.080(f)

Increases the threshold limit for small procurements of leased space from 3,000 square feet to 7,000 square feet, consistent with section 24.

*** Section 11:** Amends AS 36.30.110(b)

Clarifies Alaska business license requirements for competitive sealed bids and qualification for the Alaska bidder preference. Change would require bidders to show proof of their Alaska Business License prior to award, but would require the license at the time of bid submission in order to qualify for the Alaska bidder preference.

AA

*** Section 12:** Amends AS 36.30.130(a)

Eliminates reference to a procurement officer's use of vendor lists, reflecting the repeal of the statute establishing the vendor lists.

*** Section 13:** Amends AS 36.30.170

Updates a citation to reflect the renumbering of the Alaska bidder preference.

*** Section 14:** Amends AS 36.30 by adding a new section 36.30.195

Adds a new section to the procurement code that allows for multi-step revised sealed bidding, a new process that will allow a procurement officer to use successive steps of sealed bidding to obtain the best and final bid price for purposes of award.

*** Section 15:** Amends AS 36.30.200(b)

Minor modification to language regarding construction procurements.

*** Section 16:** Amends AS 36.30.210(b)

Clarifies construction contractor registration requirements, now explicitly requiring registration before award of a contract.

Session: Alaska State Capitol • Juneau, AK 99801 • 907-465-3777 • Fax 907-465-2819
Interim: 10928 Eagle River Road, Suite 238 • Eagle River, AK 99577 • 907-694-8944
Representative_Anna_Fairclough@legis.state.ak.us

* **Section 17:** Amends AS 36.30.210(e)

Clarifies Alaska business license requirements for competitive sealed proposals and qualification for the Alaska bidder preference using language consistent with that used in Section 11.

* **Section 18:** Amends AS 36.30 by adding a new section 36.30.245

Adds a new section to the procurement code that allows for multi-step negotiations. This has essentially the same effect as Section 14, but it applies to the competitive sealed proposal process. A procurement officer will be able to gain the best and final proposal for purposes of award through successive steps of negotiation and proposal submission.

* **Section 19:** Amends AS 36.30.250(a)

Updates a citation to reflect the renumbering of a preference.

* **Section 20:** Amends AS 36.30 by adding a new section 36.30.255

Directs procurement officers to consider only the preferences listed in statute when applying preferences under a competitive sealed proposal process, and instructs them to apply the preferences only to the price portion of a proposal. This effectively eliminates the Alaska offeror's preference contained in regulation at 2 AAC 12.260(e), and which has no basis in statute.

* **Section 21:** Amends AS 36.30 by adding a new section 36.30.290

AA

Adds a new section allowing an agency to accept electronic bids and proposals.

* **Section 22:** Amends AS 36.30.308(b)

Revises the approval process for innovative procurements to require review by the chief procurement officer or commissioner of the department of transportation and public facilities rather than the Department of Law, consistent with other alternate procurement processes.

* **Section 23:** Amends AS 36.30.310

Revises the statute relating to emergency procurements, clarifying that the commissioner of administration shall adopt regulations defining emergency conditions and who shall be responsible for written determinations of the basis for an emergency procurement.

Session: Alaska State Capitol • Juneau, AK 99801 • 907-465-3777 • Fax 907-465-2819
Interim: 10928 Eagle River Road, Suite 238 • Eagle River, AK 99577 • 907-694-8944
Representative_Anna_Fairclough@legis.state.ak.us

*** Section 24:** Amends AS 36.30.320(a)

Increases the threshold under which a state agency may use informal procurement process to $100,000 for goods and professional services, to $200,000 for construction, and 7,000 square feet for lease of space.

*** Section 25:** Amends AS 36.30 by adding a new section 36.30.321

Adds a new section consolidating the Alaska bidder and related preferences formerly at AS 36.30.170(b). This section also simplifies the qualification for the disability and employment program preferences, eliminates the seldom used employers of people with disabilities preference, and establishes the Alaska veteran preference and its qualifications.

*** Section 26:** Amends AS 36.30.322(a)

Modifies the use of local forest products statute to grant a seven percent cost preference to the qualifying bid rather than to the low bid, making this preference consistent with other preferences.

*** Section 27:** Amends AS 36.30.336 by repealing and reenacting

Clarifies which preferences are cumulative and which may not be combined. (example: bidders can not claim both an employment program preference and disabled bidder preference)

*** Section 28:** Amends AS 36.30 by adding a new section 36.30.364

Adds a new section allowing the chief procurement officer to renegotiate a contract without an additional competitive process, subject to several conditions ensuring that the renegotiated contract is at least as favorable to the state as the original contract and that the additional period of performance does not exceed five years.

*** Section 29:** Amends AS 36.30.560

Clarifies the timeframe within with a protest must be filed.

*** Section 30:** Amends AS 36.30.565(b)

Clarifies the meaning of "good cause" requiring that a protestor show why they could not file a protest before the deadline, allowing a procurement officer to better determine whether to consider a filed protest that is not timely.

Session: Alaska State Capitol • Juneau, AK 99801 • 907-465-3777 • Fax 907-465-2819
Interim: 10928 Eagle River Road, Suite 238 • Eagle River, AK 99577 • 907-694-8944
Representative_Anna_Fairclough@legis.state.ak.us

*** Section 31:** Amends AS 36.30 by adding a new section 36.30.567

AA

Adds new sections relating to protests, requiring a protest filing to be accompanied by a refundable $250 filing fee.

*** Section 32:** Amends AS 36.30 by adding a new section 36.30.572

Adds a new section to allow a procurement officer to temporarily delay award of a contract in order to address a protest, rather than issue a stay of award.

*** Section 33:** Amends AS 36.30.655

Eliminates reference to the removal of debarred or suspended persons from vendor lists, reflecting the repeal of a law establishing the vendor lists.

*** Section 34:** Amends AS 36.30.700

Adds language to the cooperative purchasing section that allows the state to more effectively use contracts established by other public procurement units.

*** Section 35:** Amends AS 36.30.700 by adding a new subsection (b)

Adds a new section explicitly authorizing the state to participate in cooperative procurements with other governments and waiving procurement preferences that otherwise prevent other public purchasing units from participating in cooperative purchase agreements sponsored or conducted by the state.

*** Section 36:** Amends AS 36.30.850(b) by adding new paragraphs

Adds new exemptions for; contracts for lease space located outside the state; for contracts for investigative services entered into by the department for the Alaska personnel board, the office of public advocacy, and the Alaska Public Offices Commission; for commodities used in the prisoner employment program; and for professional training.

*** Section 37:** Amends AS 36.30.900 by adding new paragraphs

Moves the definition for "Alaska bidder" (formerly contained in 36.30.170(b)), and adds new definitions for "electronic signature," "in writing," "signature," and "written."

Session: Alaska State Capitol • Juneau, AK 99801 • 907-465-3777 • Fax 907-465-2819
Interim: 10928 Eagle River Road, Suite 238 • Eagle River, AK 99577 • 907-694-8944
Representative_Anna_Fairclough@legis.state.ak.us

* **Section 38:** Amends AS 36.90.049(a)

Updates a citation to reflect the renumbering of a preference.

* **Section 39:** Amends AS 38.35.017(a)

Updates a citation to reflect the renumbering of a preference.

* **Section 40:** Amends AS 44.62.310(d)

Adds language to clarify that the Administrative Procedure Act does not apply to meetings with offerors under the multi-step negotiation process contained in section 18 or to renegotiation of contracts in section 29.

* **Section 41:** Amends AS 44.88.085(a)

Technical change regarding application of the Administrative Procedure Act to AIDEA.

* **Section 42:** Repeals statutes establishing the vendor list and relationships to other preferences.

* **Section 43:** Amends the uncodified law of the State of Alaska

Clarifies the application of the procurement act to pending solicitations during transition period.

* **Section 44:** Amends the uncodified law of the State of Alaska

Adds in transition language stating that the Dept. of Administration shall include in the two successive biennial reports after the effective date of this Act information on the savings that have been achieved by Sections 14 and 28 of this Act.

* **Section 45:** Amends the uncodified law of the State of Alaska

Changes the catch line of 36.30.360 from "Determination of responsibility" to Determination of nonresponsibility."

* **Section 46:** Effective Date

Language making the procurement act effective immediately.

MEMORANDUM March 15, 2010

SUBJECT: Questions regarding draft CSHB 225(FIN) relating to state procurement (Work Order No. 26-LS0791\P)

TO: Representative Anna Fairclough
Attn: Crystal Koeneman

FROM: Theresa Bannister
Legislative Counsel

You have asked several questions regarding the bill described above.

1. Why is the insurance provision at sec. 36.30.321(c) (page 9, ll. 20 - 22 of this bill) different from Department of Law's original draft? The bill version was a result of reorganization of the material and, with two exceptions, is basically the same as Law's draft. AS 36.30.170(d) reads:

> (d) The procurement officer shall award an insurance-related contract based on solicited bids to the lowest responsive and responsible bidder after an Alaska bidder preference of five percent. In this subsection, "Alaska bidder" means a person who meets the criteria set out in (b)(1) - (5) of this section and who is an Alaska domestic insurer.

Law's draft was almost identical to AS 36.30.170(d), except that it added "is applied to cost" after "five percent." The bill version uses "price" instead of "cost," which, as I understand it, amounts to the same thing. The bill version also applies to proposals as well as bids.

In this bill, the direction to award the contract based on bids "to the lowest responsive and responsible bidder" after application of a preference is found in the general language at sec. 36.30.170 (p. 6, ll. 7 - 12) of the bill. Since the language at sec. 36.30.321(c) now covers proposals as well as bids, the corresponding general language for awarding a proposal found at sec. 36.30.255 (p. 8, ll. 8 - 13) would apply to proposals.

The bill requires the bidder or offeror to qualify as an Alaska bidder. In the bill, the meaning of "Alaska bidder" has been moved (from AS 36.30.170) to a general definition in AS 36.30.990 (sec. 37 of the bill). Since there is a general definition, the bill uses the term and does not refer to a person who "meets the criteria set out in (b)(1) - (5) of this section."

The meaning of "Alaska domestic insurer" is not defined in the current procurement statutes or in the bill. The term would be interpreted to mean an insurer who is organized under the laws of this state. The term, "domestic insurer," is defined at AS 21.90.900 for AS 21.90 to have this meaning. If you want to clarify the meaning for the bill, a definition could be added to refer to that meaning.

2. Exemptions from preferences. There has been a question whether the bill could exempt contracts for insurance, medical services, and legal services from the preference provisions. Contracts for medical doctors and dentists are exempted from the procurement code under AS 36.30.850(b)(4).

The exemptions could be added if they satisfy state and federal equal protection requirements. It is likely that the right to receive a preference for a state contract would be characterized as an economic right. Under federal law, the scrutiny is minimal and, unless the objective is economic protectionism, a legitimate state objective will suffice. Under state equal protection requirements, as an economic matter, minimum scrutiny requires showing that the state's objectives are legitimate and that the legislation bears a substantial relationship to its purpose.[1] Aside from these considerations, whether or not to adopt the exemptions will be a policy call.

3. Changes to "Alaska bidder" requirements. There has been a question whether the "Alaska bidder" preference could be changed to require that the business's principal place of business be located in Alaska or that the majority of the business be owned by state residents.

Since the state is buying services and products for itself directly, it would be considered a market participant, and the commerce clause has an exception when the state is acting as a market participant. So that clause does not appear to present a problem.[2]

The privileges and immunities clause probably is not an issue here because these contracts do not appear to be closely enough tied to employment to qualify as affecting a fundamental right. Even if they were determined to affect a fundamental right, the privileges and immunities clause has an exception for when the state is acting as a market participant. However, a variable standard is applied to determine what amount of deference is due to a state when acting as a market participant, so it is not clear how much deference would be given in this situation.[3]

---

[1] See Glover v. State, Department of Transportation, Alaska Marine Highway Sys., 175 P.3d 1240, 1257 (Alaska 2008).

[2] See White v. Massachusetts Council of Construction Employers, Inc., 460 U.S. 204, 214 - 215 (1983).

[3] See Robison v. Francis, 713 P.2d 259, 264 - 265 (1986).

With regard to the federal equal protection clause,[4] which has a very lenient test in commercial matters, it must at least be shown that the provision does not have a rational relationship to the achievement of a legitimate state goal. This clause becomes an issue only if the reason for these changes is economic protectionism, which is not considered a legitimate state goal for state laws.[5] The state equal protection clause[6] does not appear to be an issue because art. I, sec. 23, allows the state to give preferences to state residents to the extent allowed by federal law. However, this provision has not been interpreted.

If I may be of further assistance, please advise.

A BILL

FOR AN ACT ENTITLED

"An Act relating to the State Procurement Code; relating to the procurement of supplies, services, professional services, construction services, state fisheries products, state agricultural products, state timber, and state lumber; relating to procurement preferences; relating to procurement by the office of the ombudsman, the Alaska Industrial Development and Export Authority, the Alaska Energy Authority, and other state agencies and public corporations; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 24.55.275 is amended to read:

Sec. 24.55.275. Contract procedures. The ombudsman shall adopt by regulation procedures consistent with AS 36.30 to be followed by the office of the ombudsman in contracting for services. However, the procedure for requests for proposals does not apply to contracts for investigations under AS 24.55.100, and the office of the ombudsman shall comply with **the five percent preference for bidders**

under AS 36.30.321(a) [AS 36.30.170(b)].

*** Sec. 2.** AS 36.15.050(a) is amended to read:

(a) When agricultural products are purchased by the state or by a school district that receives state money, **a seven percent preference shall be applied to the price of the products harvested in the state** [ONLY AGRICULTURAL PRODUCTS HARVESTED IN THE STATE SHALL BE PURCHASED WHENEVER PRICED NO MORE THAN SEVEN PERCENT ABOVE PRODUCTS HARVESTED OUTSIDE THE STATE, AVAILABLE, AND OF LIKE QUALITY COMPARED WITH AGRICULTURAL PRODUCTS HARVESTED OUTSIDE THE STATE].

*** Sec. 3.** AS 36.15.050(b) is amended to read:

(b) When fisheries products are purchased by the state or by a school district that receives state money, **a seven percent preference shall be applied to the price of the products harvested or processed within the jurisdiction of the state** [ONLY FISHERIES PRODUCTS HARVESTED OR PROCESSED WITHIN THE JURISDICTION OF THE STATE SHALL BE PURCHASED WHENEVER PRICED NO MORE THAN SEVEN PERCENT ABOVE PRODUCTS HARVESTED OR PROCESSED OUTSIDE THE JURISDICTION OF THE STATE, AVAILABLE, AND OF LIKE QUALITY COMPARED WITH FISHERIES PRODUCTS HARVESTED OR PROCESSED OUTSIDE THE JURISDICTION OF THE STATE].

*** Sec. 4.** AS 36.15.050 is amended by adding a new subsection to read:

(h) A bidder receiving a preference under this section may not receive a preference under AS 36.30.322.

*** Sec. 5.** AS 36.30.015(e) is amended to read:

(e) The board of directors of the Alaska Railroad Corporation and the board of directors of the Alaska Aerospace Corporation shall adopt procedures to govern the procurement of supplies, services, professional services, and construction. The procedures must be substantially equivalent to the procedures prescribed in this chapter and in regulations adopted under this chapter. Notwithstanding the other provisions of this subsection, the Alaska Railroad Corporation and the Alaska

Aerospace Corporation shall **apply the five percent preference for bidders under AS 36.30.321(a)** [COMPLY WITH AS 36.30.170(b)], and, when the Department of Transportation and Public Facilities authorizes the Alaska Railroad Corporation to perform construction work instead of the Department of Transportation and Public Facilities, the Alaska Railroad Corporation shall use competitive sealed bidding or competitive sealed proposals under AS 36.30.100 - 36.30.270 to procure the supplies, services, professional services, and construction services necessary for the work and, to ensure the state obtains the lowest cost for the project, may submit a bid or proposal for the work.

*** Sec. 6.** AS 36.30.015(f) is amended to read:

(f) The board of directors of the Alaska Housing Finance Corporation, notwithstanding AS 18.56.088, **members of the Alaska Industrial Development and Export Authority,** [AND] the board of directors of the Knik Arm Bridge and Toll Authority under AS 19.75.111, **and the board of directors of the Alaska Energy Authority under AS 44.83.080** shall adopt regulations under AS 44.62 (Administrative Procedure Act) and the board of trustees of the Alaska Retirement Management Board shall adopt regulations under AS 37.10.240 to govern the procurement of supplies, services, professional services, and construction for the respective public corporation and board. The regulations must reflect competitive bidding principles and provide vendors reasonable and equitable opportunities to participate in the procurement process and must include procurement methods to meet emergency and extraordinary circumstances. Notwithstanding the other provisions of this subsection, the Alaska Housing Finance Corporation, **the Alaska Industrial Development and Export Authority,** the Knik Arm Bridge and Toll Authority, **the Alaska Energy Authority,** and the Alaska Retirement Management Board shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 7.** AS 36.30.015(h) is amended to read:

(h) The board of directors of the Alaska Seafood Marketing Institute shall adopt procedures to govern the procurement of supplies, services, and professional services. The procedures must be similar to the procedures prescribed in this chapter

and in regulations adopted under this chapter, except that the Alaska Seafood Marketing Institute shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 8.** AS 36.30.020 is amended to read:

Sec. 36.30.020. Legislature. The legislative council shall adopt and publish procedures to govern the procurement of supplies, services, professional services, and construction by the legislative branch. The procedures must be based on the competitive principles consistent with this chapter and must be adapted to the special needs of the legislative branch as determined by the legislative council. The procedures must contain provisions for prohibiting procurement from a person that has headquarters in a country listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures may contain provisions for restricting procurement from a person that conducts business in but does not have headquarters in a country listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures must be consistent with the provisions of AS 36.30.080(c) - (e) and 36.30.085. Notwithstanding the other provisions of this section, the legislative agencies subject to the legislative council's regulations shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 9.** AS 36.30.030 is amended to read:

Sec. 36.30.030. Court system. The administrative director of courts shall adopt and publish procedures to govern the procurement of supplies, services, professional services, and construction by the judicial branch. The procedures must be based on the competitive principles consistent with this chapter and must be adapted to the special needs of the judicial branch as determined by the administrative director of courts. The procedures must contain provisions for prohibiting procurement from a person that has headquarters in a country listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures may contain provisions for restricting procurement from a person that conducts business in but does not have headquarters in a country

listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures must be consistent with the provisions of AS 36.30.080(c) - (e) and 36.30.085. Notwithstanding the other provisions of this section, the judicial branch shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 10.** AS 36.30.080(f) is amended to read:

(f) When the department is acquiring leased space of **7,000** [3,000] square feet or less, the department may procure the leased space using the procedures for small procurements under AS 36.30.320, providing public notice is given to prospective offerors in the market area.

*** Sec. 11.** AS 36.30.110(b) is amended to read:

(b) The bidder **shall** [MUST] have a valid Alaska business license at the time designated in the invitation to bid for bid opening **in order to qualify as an Alaska bidder and to receive a preference under AS 36.30.321. If a bidder does not have a valid Alaska business license at the time designated in the invitation to bid for bid opening, the bidder shall provide proof that the bidder has a valid Alaska business license before the contract may be awarded, but does not qualify for a preference under AS 36.30.321**. A bidder for a construction contract shall also submit **proof** [EVIDENCE] of the bidder's registration under AS 08.18 **before the contract may be awarded**.

*** Sec. 12.** AS 36.30.130(a) is amended to read:

(a) The procurement officer shall give adequate public notice of the invitation to bid at least 21 days before the date for the opening of bids. If the procurement officer determines in writing that a shorter notice period is advantageous for a particular bid and adequate competition is anticipated, the 21-day period may be shortened. Notice shall be posted on the Alaska Online Public Notice System (AS 44.62.175). The time and manner of notice must be in accordance with regulations adopted by the commissioner of administration. When practicable, notice may include

(1) publication in a newspaper calculated to reach prospective bidders;

and

(2) notices posted in public places within the area where the work is to be performed or the material furnished [; AND

(3) NOTICES MAILED TO ALL ACTIVE PROSPECTIVE CONTRACTORS ON THE APPROPRIATE LIST MAINTAINED UNDER AS 36.30.050].

*** Sec. 13.** AS 36.30.170 is repealed and reenacted to read:

Sec. 36.30.170. Contract award after bids. After applying any preferences that apply under AS 36.15.050 and AS 36.30.321 - 36.30.338, a procurement officer shall award a contract based on the solicited bids with reasonable promptness by written notice to the lowest responsible and responsive bidder whose bid conforms in all material respects to the requirements and criteria set out in the invitation to bid.

*** Sec. 14.** AS 36.30 is amended by adding a new section to article 2 to read:

Sec. 36.30.195. Multi-step revised sealed bidding. (a) As provided in an invitation to bid and as conducted by a procurement officer under regulations adopted by the commissioner, a multi-step process that begins with an initial round of competitive sealed bidding may, when approved by the chief procurement officer, include successive steps of sealed bidding to obtain the best and final bid price from responsible bidders for the purpose of award.

(b) The provisions of (a) of this section do not apply to a procurement for a construction contract.

*** Sec. 15.** AS 36.30.200(b) is amended to read:

(b) The commissioner may provide by regulation that it is either not practicable or not advantageous to the state to procure [SPECIFIED TYPES OF] supplies, services, or construction by competitive sealed bidding that would otherwise be procured by that method. When the procurement officer determines in writing with particularity that the use of competitive sealed proposals is more advantageous to the state than competitive sealed bidding, a contract may be entered into by competitive sealed proposals.

*** Sec. 16.** AS 36.30.210(b) is amended to read:

(b) An offeror for a construction contract shall submit **proof** [EVIDENCE] of

the offeror's registration as a contractor under AS 08.18 **before the contract may be awarded**. A request for sealed proposals for a construction contract, except a design-build construction contract, must require the offeror, no later than five working days after the proposal that is the most advantageous to the state is identified, to list subcontractors the offeror proposes to use in the performance of the construction contract. The list must include the information required under AS 36.30.115(a). The provisions of AS 36.30.115(b) - (g) that apply to a construction contractor or an apparent low bidder apply to offerors submitting competitive sealed proposals for construction contracts, except design-build construction contracts.

*** Sec. 17.** AS 36.30.210(e) is amended to read:

(e) The offeror **shall** [MUST] have a valid Alaska business license at the time designated[,] in the request for proposals[,] for opening of the proposals **in order to qualify as an Alaska bidder and to receive a preference under AS 36.30.321. If an offeror does not have a valid Alaska business license at the time designated in the request for proposals for proposal opening, the offeror shall provide proof that the offeror has a valid Alaska business license before the contract may be awarded, but does not qualify for a preference under AS 36.30.321**.

*** Sec. 18.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.245. Multiple submissions and negotiations. (a) In a procurement that uses competitive sealed proposals, in order to obtain the best proposal for purposes of award, an agency may require more than one submission of proposals and may negotiate after each submission with the offerors whose proposals from that submission are reasonably susceptible of being selected for award. The negotiations conducted under this section may cover price, specifications, terms, or conditions or a combination of these items, and these items may be negotiated separately or in any combination. The submissions and negotiations allowed under this section are in addition to any discussions and revisions allowed under AS 36.30.240. The requirements for submissions and negotiations under this section shall be established by the department by regulation and in the request for proposals.

(b) The provisions of (a) of this section do not apply to a procurement for a construction contract.

* **Sec. 19.** AS 36.30.250(a) is amended to read:

(a) The procurement officer shall award a contract under competitive sealed proposals to the responsible and responsive offeror whose proposal is determined in writing to be the most advantageous to the state taking into consideration price and the evaluation factors set out in the request for proposals. **Except as provided by AS 36.30.255 and 36.30.336, other** [OTHER] factors and criteria may not be used in the evaluation. The contract file must contain the basis on which the award is made.

* **Sec. 20.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.255. Preferences applied to competitive sealed proposals. When determining which proposal is most advantageous to the state under a competitive sealed proposal solicitation, the procurement officer shall apply the preferences provided in AS 36.15.050 and AS 36.30.321 - 36.30.338, but may not apply other preferences. The preferences shall be applied only to the price portion of a proposal.

* **Sec. 21.** AS 36.30 is amended by adding a new section to article 4 to read:

Sec. 36.30.290. Electronic bids. An agency may allow bids or proposals to be submitted in electronic form under AS 09.80.010 - 09.80.195 (Uniform Electronic Transactions Act).

* **Sec. 22.** AS 36.30.310 is amended to read:

Sec. 36.30.310. Emergency procurements. Procurements may be made under emergency conditions as defined in regulations adopted by the commissioner **of administration** when there exists a threat to public health, welfare, or safety, when a situation exists that makes a procurement through competitive sealed bidding or competitive sealed proposals impracticable or contrary to the public interest, or to protect public or private property. An emergency procurement need not be made through competitive sealed bidding or competitive sealed proposals but shall be made with competition that is practicable under the circumstances. A written determination by the chief procurement officer **or, for construction contracts or procurements of the state equipment fleet, the commissioner of transportation and public facilities** of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file. The written determination must include findings of fact that support the determination. Except when there is insufficient time for the chief

procurement officer **or the commissioner of transportation and public facilities, as appropriate,** to make the written determination required by this section, the **authority to make the determination** [CHIEF PROCUREMENT OFFICER] may not **be delegated** [DELEGATE THE AUTHORITY TO MAKE THE DETERMINATION].

*** Sec. 23.** AS 36.30.320(a) is amended to read:

(a) A procurement for supplies, services, or professional services that does not exceed an aggregate dollar amount of **$100,000** [$50,000], construction that does not exceed an aggregate dollar amount of **$200,000** [$100,000], or lease of space that does not exceed **7,000** [3,000] square feet **shall** [MAY] be made **under** [IN ACCORDANCE WITH] regulations adopted by the commissioner for small procurements.

*** Sec. 24.** AS 36.30 is amended by adding a new section to article 5 to read:

Sec. 36.30.321. Alaska bidder and related preferences. (a) If the bidder or offeror is an Alaska bidder, a preference of five percent shall be applied to the price in the bid or proposal.

(b) Except as otherwise provided under (d), (e), or (g) of this section, if a bidder or offeror qualifies as an Alaska bidder and is offering services through an employment program, a 15 percent preference shall be applied to the price in the bid or proposal.

(c) If a bidder or offeror qualifies as an Alaska bidder and is an Alaska domestic insurer, and if the procurement is for an insurance-related contract, a five percent preference shall be applied to the price in the bid or proposal.

(d) A 10 percent preference shall be applied to a price in a bid or proposal if the bidder or offeror qualifies as an Alaska bidder and is a

(1) sole proprietorship owned by a person with a disability;

(2) partnership under AS 32.06, or AS 32.11 if each of the partners is a person with a disability;

(3) limited liability company organized under AS 10.50 if each of the members is a person with a disability;

(4) corporation that is wholly owned by individuals and each of the individuals is a person with a disability; or

(5) a joint venture that is composed of ventures that qualify under (1) - (4) of this subsection.

(e) The division of vocational rehabilitation in the Department of Labor and Workforce Development shall add to its current list of qualified employment programs a list of individuals who qualify as persons with a disability under (d) of this section. A person must be on this list at the time the bid or proposal is opened in order to qualify for a preference under (d) of this section.

(f) If a bidder or offeror qualifies as an Alaska bidder and is a qualifying entity, a five percent preference shall be applied to the price in the bid or proposal. The preference may not exceed $5,000. In this subsection,

(1) "Alaska veteran" means an individual who is both a resident of the state and a veteran;

(2) "qualifying entity" means a

(A) sole proprietorship owned by an Alaska veteran;

(B) partnership under AS 32.06 or AS 32.11 if a majority of the partners are Alaska veterans;

(C) limited liability company organized under AS 10.50 if a majority of the members are Alaska veterans; or

(D) corporation that is wholly owned by individuals and a majority of the individuals are Alaska veterans;

(3) "veteran" means an individual who

(A) served in the

(i) armed forces of the United States, including a reserve unit of the United States armed forces; or

(ii) Alaska Territorial Guard, the Alaska Army National Guard, the Alaska Air National Guard, or the Alaska Naval Militia; and

(B) was separated from service under a condition that was not dishonorable.

(g) A bidder or offeror may not receive a preference under both (b) and (d) of this section for the same contract.

(h) Except as provided by (j) of this section, this section applies to all

insurance contracts involving state money. In this subsection, "state money" has the meaning given in AS 36.30.990, but also includes state grants and reimbursements to municipalities, school districts, and other entities.

(i) In order to qualify for a preference under (b), (d), or (f) of this section, a bidder or offeror must add value by actually performing, controlling, managing, and supervising the services provided, or the bidder or offeror must have sold supplies of the general nature solicited to other state agencies, governments, or the general public.

(j) This section does not apply to solicitations or contracts for lease space under AS 36.30.080, to procurements under AS 36.30.305 - 36.30.310, or, except as provided otherwise by regulation under AS 36.30.320, to small procurements under AS 36.30.320.

(k) In this section, "person with a disability" means an individual who

(1) has been determined to be permanently disabled by the

(A) United States Social Security Administration under 42 U.S.C. 1381 - 1385 (Social Security Act) or 42 U.S.C. 423 (Social Security Act);

(B) the teachers' retirement system under AS 14.25, the judicial retirement system under AS 22.25, the public employees' retirement system under AS 39.35, or the elected public officers' retirement system under former AS 39.37;

(C) federal civil service retirement system under 5 U.S.C. 2107, 3323, and 8331 - 8351;

(D) federal employees' retirement system under 5 U.S.C. 8401 - 8479; or

(E) division of vocational rehabilitation in the Department of Labor and Workforce Development using disability standards under 42 U.S.C. 1381 - 1385 (Social Security Act) for eligibility for certain state disability program purposes;

(2) is receiving permanent total disability under AS 23.30 (Alaska Workers' Compensation Act);

(3) has been discharged from military service under honorable

conditions and is certified by the United States Department of Veterans Affairs as having incurred a 50 percent or greater disability during military service; or

(4) has served in the Alaska Territorial Guard and incurred a 50 percent or greater disability while serving in the Alaska Territorial Guard.

*** Sec. 25.** AS 36.30.322(a) is amended to read:

(a) Only timber, lumber, and manufactured lumber products originating in this state from Alaska forests may be procured by an agency or used in construction projects of an agency unless the manufacturers and suppliers who have notified the commissioner of commerce, community, and economic development of their willingness to manufacture or supply Alaska forest products

(1) have been given reasonable notice of the forest product needs of the procurement or project; and

(2) **are not the low bidder after all applicable preferences have been applied to the price of the qualifying forest product under AS 36.30.336** [ARE UNABLE TO SUPPLY THE PRODUCTS AT A COST THAT IS WITHIN SEVEN PERCENT OF THE PRICE OFFERED BY A MANUFACTURER OR SUPPLIER OF NON-ALASKA FOREST PRODUCTS].

*** Sec. 26.** AS 36.30.336 is repealed and reenacted to read:

Sec. 36.30.336. Application of preferences. (a) Except as provided in AS 36.15.050(h) and AS 36.30.321(g), the preferences provided in AS 36.15.050 and AS 36.30.321 - 36.30.338 are cumulative. A bidder who would otherwise qualify for preferences under AS 36.30.321 may not be given a preference over another bidder who qualifies for the same preferences.

(b) Notwithstanding the other provisions of this chapter, AS 36.30.321 - 36.30.338 apply to all procurements subject to this chapter, except as provided in AS 36.15.050 and AS 36.30.322(b).

*** Sec. 27.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.364. Renegotiation. (a) The chief procurement officer may renegotiate the terms and conditions, including the contract period of performance and price, of a contract without using an additional competitive process, and may amend the contract if the procurement officer determines that

(1) the amendment is in the best interest of the state;

(2) the renegotiated contract is at least as favorable to the state as the original contract; and

(3) the additional period of performance of the renegotiated contract does not exceed five years, or, if an innovative procurement process under AS 36.30.308 was used to procure the original contract, does not exceed the approval under AS 36.30.308(b).

(b) The chief procurement officer, under regulations adopted by the commissioner, may delegate the authority to make the determination under (a) of this section to a state procurement officer.

(c) This section does not apply to lease extensions under AS 36.30.083.

*** Sec. 28.** AS 36.30.560 is amended to read:

Sec. 36.30.560. Filing of a protest. An interested party may protest the award of a contract, the proposed award of a contract, or a solicitation for supplies, services, professional services, or construction by an agency. The protest shall be filed with the procurement officer of the contracting agency in writing **within the time period provided in AS 36.30.565,** and include the following information:

(1) the name, address, and telephone number of the protester;

(2) the signature of the protester or the protester's representative;

(3) identification of the contracting agency and the solicitation or contract at issue;

(4) a detailed statement of the legal and factual grounds of the protest, including copies of relevant documents; [AND]

(5) the form of relief requested**; and**

(6) the protest filing fee required under AS 36.30.567.

*** Sec. 29.** AS 36.30.565(b) is amended to read:

(b) If the protester shows good cause **why the protestor did not file a protest by the deadline established under (a) of this section**, the procurement officer of the contracting agency may consider a filed protest that is not timely.

*** Sec. 30.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.567. Protest filing fee. To file a protest under AS 36.30.560, the

protester shall pay a $250 filing fee to the agency that conducted the procurement. The filing fee shall be refunded if the protest is sustained by the procurement officer under AS 36.30.585 or if the protest is withdrawn by the protester before an appeal is filed under AS 36.30.590.

* **Sec. 31.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.572. Temporary delay of award. (a) If a protest of a proposed award of a contract is filed timely under AS 36.30.565, the procurement officer may temporarily delay the award of the contract in order to make a decision under AS 36.30.580, extend the time for making the decision under AS 36.30.580, or address other circumstances that warrant temporarily delaying the award.

(b) Notice of a temporary delay of a contract award under (a) of this section shall be provided in writing to the protester and all other interested parties. The written notice must indicate when the temporary delay of the award will expire.

(c) A temporary delay of a contract award under this section does not constitute a stay of award under AS 36.30.575.

* **Sec. 32.** AS 36.30.655 is amended to read:

Sec. 36.30.655. List of persons debarred or suspended; removal from contractor lists. The commissioner shall maintain a list of all persons debarred or suspended from consideration for **the** award of contracts. [THE COMMISSIONER SHALL REMOVE A PERSON DEBARRED OR SUSPENDED FROM THE LISTS OF CONTRACTORS UNDER AS 36.30.050 FOR THE PERIOD OF DEBARMENT OR SUSPENSION.]

* **Sec. 33.** AS 36.30.700 is amended to read:

Sec. 36.30.700. Cooperative purchasing authorized. A public procurement unit may [EITHER] participate in, sponsor, conduct, or administer a cooperative purchasing agreement for the procurement of supplies, services, professional services, or construction with one or more public procurement units or external procurement activities in accordance with an agreement entered into between the participants. Cooperative purchasing may include joint or multi-party contracts between public procurement units and open-ended state public procurement units contracts that are made available to local public procurement units. **A state public procurement unit**

may use or participate in a contract procured by another public procurement unit or external procurement activity without being named in the solicitation for the contract.

*** Sec. 34.** AS 36.30.700 is amended by adding a new subsection to read:

(b) When, under AS 36.30.700 - 36.30.790, a state public procurement unit participates with a public procurement unit or external procurement activity in cooperative purchasing or participates in a contract procured by an external procurement activity, the state public procurement unit is considered to have complied with AS 36.30.005 - 36.30.540, and AS 36.15 and AS 36.30.321 - 36.30.338 do not apply.

*** Sec. 35.** AS 36.30.850(b) is amended by adding new paragraphs to read:

(48) contracts for lease space for an agency's offices that are located in other states, the District of Columbia, or foreign countries;

(49) contracts for investigative services entered into by the department for the state personnel board established under AS 39.25.030, the office of public advocacy created under AS 44.21.400, or the Alaska Public Offices Commission created under AS 15.13.020;

(50) purchases of commodities used in the manufacture of products sold through an employment program of prison inmates subject to AS 23.15.580;

(51) contracts for training services provided by a professional organization.

*** Sec. 36.** AS 36.30.990(1) is amended to read:

(1) "agency"

(A) means a department, institution, board, commission, division, authority, public corporation, the Alaska Pioneers' Home, the Alaska Veterans' Home, or other administrative unit of the executive branch of state government;

(B) does not include

(i) the University of Alaska;

(ii) the Alaska Railroad Corporation;

(iii) the Alaska Housing Finance Corporation;

(iv) a regional Native housing authority created under AS 18.55.996 or a regional electrical authority created under AS 18.57.020;

(v) the Department of Transportation and Public Facilities, in regard to the repair, maintenance, and reconstruction of vessels, docking facilities, and passenger and vehicle transfer facilities of the Alaska marine highway system;

(vi) the Alaska Aerospace Corporation;

(vii) the Alaska Retirement Management Board;

(viii) the Alaska Seafood Marketing Institute;

(ix) the Alaska Industrial Development and Export Authority;

(x) the Alaska Energy Authority;

*** Sec. 37.** AS 36.30.990 is amended by adding new paragraphs to read:

(25) "Alaska bidder" means a person who

(A) holds a current Alaska business license;

(B) submits a bid or proposal for goods, services, or construction under the name as appearing on the person's current Alaska business license;

(C) has maintained a place of business within the state staffed by the bidder or offeror or an employee of the bidder or offeror for a period of six months immediately preceding the date of the bid or proposal;

(D) is incorporated or qualified to do business under the laws of the state, is a sole proprietorship and the proprietor is a resident of the state, is a limited liability company organized under AS 10.50 and all members are residents of the state, or is a partnership under former AS 32.05, AS 32.06, or AS 32.11 and all partners are residents of the state; and

(E) if a joint venture, is composed entirely of ventures that qualify under (A) - (D) of this subsection;

(26) "in writing" has the meaning given to "written" in this section;

(27) "signature" means a manual identifier or electronic signature

attached to or logically associated with a record that is intended by the person using it to have the same force and effect as a manual signature; in this paragraph, "electronic signature" has the meaning given in AS 09.80.190;

(28) "written" means the product of forming characters on paper, other materials, or viewable screens, that can be read, retrieved, and reproduced, including information that is electronically transmitted and stored.

*** Sec. 38.** AS 36.90.049(a) is amended to read:

(a) A marine vessel owned by the state shall be maintained and repaired at a shipyard facility located in the state unless the commissioner of the department that operates the marine vessel determines in writing that there is no shipyard facility located in the state that is equipped or qualified to perform the particular maintenance or repair required, or, after taking into consideration the **five percent** Alaska bidder preference **for bidders under AS 36.30.321(a)** [SET OUT IN AS 36.30.170] and the interport differential, that the proposed cost of the maintenance or repair work is unreasonable. A detailed list of the costs and factors considered in calculating the interport differential must be provided to each person who expresses an interest in submitting a bid to perform maintenance or repair work on a marine vessel owned by the state.

*** Sec. 39.** AS 38.35.017(a) is amended to read:

(a) Consistent with and in furtherance of the statements of general state policy guiding resource development set out in art. VIII, sec. 1, Constitution of the State of Alaska, that the resources of the state be developed "by making them available for maximum use consistent with the public interest" and in art. VIII, sec. 2, Constitution of the State of Alaska, directing that provision shall be made by the legislature for "the utilization, development, and conservation of all natural resources belonging to the State . . . for the maximum benefit of its people," and consistent with and in furtherance of the general legislative declaration of policy for this chapter set out in AS 38.35.010, it is the policy of this state that the overall strategy for development, use, and control of a pipeline or pipelines to develop the state's substantial North Slope natural gas resources be directed

(1) to enhance the standard of living of state residents by

(A) ensuring that, in conjunction with out-of-state market driven commercial demand for North Slope natural gas, state residents and businesses will have access, directly or indirectly, to that portion of the gas that will meet the reasonably foreseeable in-state demands for it, including substitution of the North Slope natural gas for depleting gas reserves in Southcentral Alaska in order to maintain a vital domestic and industrial energy source, and ensuring that the pipeline or pipelines for the transportation of North Slope natural gas will be designed and located to be responsive to these requirements;

(B) making the maximum contribution to the development of job opportunities in this state by

(i) providing direct short-term construction and long-term operation- and maintenance-related employment on the pipeline or pipelines, to the end that the resources be developed with qualified contractors and firms in this state for work to be performed, including the fabrication and installation of required facilities, and that state residents be employed, consistent with law; for purposes of this sub-subparagraph, a person is considered a resident if the person is physically present in the state with the intent to remain in the state indefinitely and has a home in the state, and a contractor or firm is considered as qualified if the contractor or firm qualifies as an Alaska bidder**; in this sub-subparagraph, "Alaska bidder" has the meaning given in AS 36.30.990** [UNDER AS 36.30.170(b)]; and

(ii) providing necessary support services; and

(C) adding significant long-term property value to the tax base of the state and local governments, thereby providing the means to support public education, public health, transportation, and other essential state and local government projects and services;

(2) to ensure that the design, location, and construction of a pipeline or pipelines for delivery of North Slope natural gas to North American markets through connection to the North American natural gas pipeline network enhance opportunities

for implementing gas deliveries using alternative technologies and the construction of other pipelines to deliver North Slope natural gas to foreign and domestic markets; and

(3) to ensure construction of the pipeline or pipelines consistent with careful protection of the state's natural environment, with minimum environmental degradation, to the greatest extent possible, and with protection of fish, wildlife, and biotic resources for the use of persons who depend upon them by using available transportation infrastructure to initiate and complete project construction and maintenance and by avoiding duplication of facilities.

* **Sec. 40.** AS 44.62.310(d) is amended to read:

(d) This section does not apply to

(1) a governmental body performing a judicial or quasi-judicial function when holding a meeting solely to make a decision in an adjudicatory proceeding;

(2) juries;

(3) parole or pardon boards;

(4) meetings of a hospital medical staff;

(5) meetings of the governmental body or any committee of a hospital when holding a meeting solely to act upon matters of professional qualifications, privileges, or discipline;

(6) staff meetings or other gatherings of the employees of a public entity, including meetings of an employee group established by policy of the Board of Regents of the University of Alaska or held while acting in an advisory capacity to the Board of Regents;

(7) meetings held for the purpose of participating in or attending a gathering of a national, state, or regional organization of which the public entity, governmental body, or member of the governmental body is a member, but only if no action is taken and no business of the governmental body is conducted at the meetings; [OR]

(8) meetings of municipal service area boards established under AS 29.35.450 - 29.35.490 when meeting solely to act on matters that are administrative or managerial in nature**; or**

(9) meetings with offerors in negotiations for state procurement under AS 36.30.245, or meetings to renegotiate a contract under AS 36.30.364.

*** Sec. 41.** AS 44.88.085(a) is amended to read:

(a) Except for AS 44.62.310 and 44.62.312 regarding public meetings **and AS 36.30.015(f) regarding procurement**, the provisions of the Administrative Procedure Act regarding the adoption of regulations (AS 44.62.040 - 44.62.320) do not apply to the authority. The authority shall make available to members of the public copies of the regulations adopted under this section. Within 45 days after adoption of a regulation under this section, the **chair** [CHAIRMAN] of the authority shall submit the regulation adopted to the **chair** [CHAIRMAN] of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460.

*** Sec. 42.** AS 36.30.050, 36.30.250(b), 36.30.335, 36.30.362, 36.30.850(b)(22), and 36.30.850(b)(34) are repealed.

*** Sec. 43.** The uncodified law of the State of Alaska is amended by adding a new section to read:

TRANSITION: PENDING SOLICITATIONS FOR PROCUREMENTS AND CONTRACTS. (a) This Act does not apply to

(1) solicitations for procurement and the resulting contracts, if the solicitations are pending on the effective date of this Act and if the invitation to bid or other solicitation was issued before the effective date of this Act; and

(2) procurement contracts entered into before the effective date of this Act, including extensions of those contracts.

(b) Notwithstanding (a) of this section, this Act applies to procurements or contracts described in (a)(1) of this section if all parties to the procurement or contract agree in writing that the applicable provisions of this Act apply to the solicitation or contract.

*** Sec. 44.** The uncodified law of the State of Alaska is amended by adding a new section to read:

TRANSITION: INFORMATION IN BIENNIAL REPORTS. In addition to the information that must be included in the biennial report under AS 36.30.540, the Department of Administration shall include in the two successive biennial reports that are prepared under AS 36.30.540 after the effective date of this Act information on the savings that have been

achieved during the reporting period by using AS 36.30.195, enacted by sec. 14 of this Act, and AS 36.30.364, enacted by sec. 27 of this Act.

*** Sec. 45.** The uncodified law of the State of Alaska is amended by adding a new section to read:

REVISOR'S INSTRUCTION. The revisor of statutes shall change the catch line of AS 36.30.360 from "Determination of responsibility" to "Determination of nonresponsibility."

*** Sec. 46.** This Act takes effect immediately under AS 01.10.070(c).

CS FOR HOUSE BILL NO. 225(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): REPRESENTATIVE FAIRCLOUGH

A BILL

FOR AN ACT ENTITLED

"An Act relating to the State Procurement Code; relating to the procurement of supplies, services, professional services, construction services, state fisheries products, state agricultural products, state timber, and state lumber; relating to procurement preferences; relating to procurement by the office of the ombudsman, the Alaska Industrial Development and Export Authority, the Alaska Energy Authority, and other state agencies and public corporations; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 24.55.275 is amended to read:

Sec. 24.55.275. Contract procedures. The ombudsman shall adopt by regulation procedures consistent with AS 36.30 to be followed by the office of the ombudsman in contracting for services. However, the procedure for requests for proposals does not apply to contracts for investigations under AS 24.55.100, and the office of the ombudsman shall comply with **the five percent preference for bidders**

under AS 36.30.321(a) [AS 36.30.170(b)].

*** Sec. 2.** AS 36.15.050(a) is amended to read:

(a) When agricultural products are purchased by the state or by a school district that receives state money, **a seven percent preference shall be applied to the price of the products harvested in the state** [ONLY AGRICULTURAL PRODUCTS HARVESTED IN THE STATE SHALL BE PURCHASED WHENEVER PRICED NO MORE THAN SEVEN PERCENT ABOVE PRODUCTS HARVESTED OUTSIDE THE STATE, AVAILABLE, AND OF LIKE QUALITY COMPARED WITH AGRICULTURAL PRODUCTS HARVESTED OUTSIDE THE STATE].

*** Sec. 3.** AS 36.15.050(b) is amended to read:

(b) When fisheries products are purchased by the state or by a school district that receives state money, **a seven percent preference shall be applied to the price of the products harvested or processed within the jurisdiction of the state** [ONLY FISHERIES PRODUCTS HARVESTED OR PROCESSED WITHIN THE JURISDICTION OF THE STATE SHALL BE PURCHASED WHENEVER PRICED NO MORE THAN SEVEN PERCENT ABOVE PRODUCTS HARVESTED OR PROCESSED OUTSIDE THE JURISDICTION OF THE STATE, AVAILABLE, AND OF LIKE QUALITY COMPARED WITH FISHERIES PRODUCTS HARVESTED OR PROCESSED OUTSIDE THE JURISDICTION OF THE STATE].

*** Sec. 4.** AS 36.15.050 is amended by adding a new subsection to read:

(h) A bidder receiving a preference under this section may not receive a preference under AS 36.30.322.

*** Sec. 5.** AS 36.30.015(e) is amended to read:

(e) The board of directors of the Alaska Railroad Corporation and the board of directors of the Alaska Aerospace Corporation shall adopt procedures to govern the procurement of supplies, services, professional services, and construction. The procedures must be substantially equivalent to the procedures prescribed in this chapter and in regulations adopted under this chapter. Notwithstanding the other provisions of this subsection, the Alaska Railroad Corporation and the Alaska

Aerospace Corporation shall **apply the five percent preference for bidders under AS 36.30.321(a)** [COMPLY WITH AS 36.30.170(b)], and, when the Department of Transportation and Public Facilities authorizes the Alaska Railroad Corporation to perform construction work instead of the Department of Transportation and Public Facilities, the Alaska Railroad Corporation shall use competitive sealed bidding or competitive sealed proposals under AS 36.30.100 - 36.30.270 to procure the supplies, services, professional services, and construction services necessary for the work and, to ensure the state obtains the lowest cost for the project, may submit a bid or proposal for the work.

*** Sec. 6.** AS 36.30.015(f) is amended to read:

(f) The board of directors of the Alaska Housing Finance Corporation, notwithstanding AS 18.56.088, **members of the Alaska Industrial Development and Export Authority,** [AND] the board of directors of the Knik Arm Bridge and Toll Authority under AS 19.75.111, **and the board of directors of the Alaska Energy Authority under AS 44.83.080** shall adopt regulations under AS 44.62 (Administrative Procedure Act) and the board of trustees of the Alaska Retirement Management Board shall adopt regulations under AS 37.10.240 to govern the procurement of supplies, services, professional services, and construction for the respective public corporation and board. The regulations must reflect competitive bidding principles and provide vendors reasonable and equitable opportunities to participate in the procurement process and must include procurement methods to meet emergency and extraordinary circumstances. Notwithstanding the other provisions of this subsection, the Alaska Housing Finance Corporation, **the Alaska Industrial Development and Export Authority,** the Knik Arm Bridge and Toll Authority, **the Alaska Energy Authority,** and the Alaska Retirement Management Board shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 7.** AS 36.30.015(h) is amended to read:

(h) The board of directors of the Alaska Seafood Marketing Institute shall adopt procedures to govern the procurement of supplies, services, and professional services. The procedures must be similar to the procedures prescribed in this chapter

and in regulations adopted under this chapter, except that the Alaska Seafood Marketing Institute shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 8.** AS 36.30.020 is amended to read:

Sec. 36.30.020. Legislature. The legislative council shall adopt and publish procedures to govern the procurement of supplies, services, professional services, and construction by the legislative branch. The procedures must be based on the competitive principles consistent with this chapter and must be adapted to the special needs of the legislative branch as determined by the legislative council. The procedures must contain provisions for prohibiting procurement from a person that has headquarters in a country listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures may contain provisions for restricting procurement from a person that conducts business in but does not have headquarters in a country listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures must be consistent with the provisions of AS 36.30.080(c) - (e) and 36.30.085. Notwithstanding the other provisions of this section, the legislative agencies subject to the legislative council's regulations shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 9.** AS 36.30.030 is amended to read:

Sec. 36.30.030. Court system. The administrative director of courts shall adopt and publish procedures to govern the procurement of supplies, services, professional services, and construction by the judicial branch. The procedures must be based on the competitive principles consistent with this chapter and must be adapted to the special needs of the judicial branch as determined by the administrative director of courts. The procedures must contain provisions for prohibiting procurement from a person that has headquarters in a country listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures may contain provisions for restricting procurement from a person that conducts business in but does not have headquarters in a country

listed in Tier 3 of the most recent Trafficking in Persons Report published by the United States Secretary of State under 22 U.S.C. 7107(b)(1)(C). The procedures must be consistent with the provisions of AS 36.30.080(c) - (e) and 36.30.085. Notwithstanding the other provisions of this section, the judicial branch shall comply with **the five percent preference for bidders under AS 36.30.321(a)** [AS 36.30.170(b)].

*** Sec. 10.** AS 36.30.080(f) is amended to read:

(f) When the department is acquiring leased space of **7,000** [3,000] square feet or less, the department may procure the leased space using the procedures for small procurements under AS 36.30.320, providing public notice is given to prospective offerors in the market area.

*** Sec. 11.** AS 36.30.110(b) is amended to read:

(b) The bidder **shall** [MUST] have a valid Alaska business license at the time designated in the invitation to bid for bid opening **in order to qualify as an Alaska bidder and to receive a preference under AS 36.30.321. If a bidder does not have a valid Alaska business license at the time designated in the invitation to bid for bid opening, the bidder shall provide proof that the bidder has a valid Alaska business license before the contract may be awarded, but does not qualify for a preference under AS 36.30.321**. A bidder for a construction contract shall also submit **proof** [EVIDENCE] of the bidder's registration under AS 08.18 **before the contract may be awarded**.

*** Sec. 12.** AS 36.30.130(a) is amended to read:

(a) The procurement officer shall give adequate public notice of the invitation to bid at least 21 days before the date for the opening of bids. If the procurement officer determines in writing that a shorter notice period is advantageous for a particular bid and adequate competition is anticipated, the 21-day period may be shortened. Notice shall be posted on the Alaska Online Public Notice System (AS 44.62.175). The time and manner of notice must be in accordance with regulations adopted by the commissioner of administration. When practicable, notice may include

(1) publication in a newspaper calculated to reach prospective bidders;

and

(2) notices posted in public places within the area where the work is to be performed or the material furnished [; AND

(3) NOTICES MAILED TO ALL ACTIVE PROSPECTIVE CONTRACTORS ON THE APPROPRIATE LIST MAINTAINED UNDER AS 36.30.050].

*** Sec. 13.** AS 36.30.170 is repealed and reenacted to read:

Sec. 36.30.170. Contract award after bids. After applying any preferences that apply under AS 36.15.050 and AS 36.30.321 - 36.30.338, a procurement officer shall award a contract based on the solicited bids with reasonable promptness by written notice to the lowest responsible and responsive bidder whose bid conforms in all material respects to the requirements and criteria set out in the invitation to bid.

*** Sec. 14.** AS 36.30 is amended by adding a new section to article 2 to read:

Sec. 36.30.195. Multi-step revised sealed bidding. (a) As provided in an invitation to bid and as conducted by a procurement officer under regulations adopted by the commissioner, a multi-step process that begins with an initial round of competitive sealed bidding may, when approved by the chief procurement officer, include successive steps of sealed bidding to obtain the best and final bid price from responsible bidders for the purpose of award.

(b) The provisions of (a) of this section do not apply to a procurement for a construction contract.

*** Sec. 15.** AS 36.30.200(b) is amended to read:

(b) The commissioner may provide by regulation that it is either not practicable or not advantageous to the state to procure [SPECIFIED TYPES OF] supplies, services, or construction by competitive sealed bidding that would otherwise be procured by that method. When the procurement officer determines in writing with particularity that the use of competitive sealed proposals is more advantageous to the state than competitive sealed bidding, a contract may be entered into by competitive sealed proposals.

*** Sec. 16.** AS 36.30.210(b) is amended to read:

(b) An offeror for a construction contract shall submit **proof** [EVIDENCE] of

the offeror's registration as a contractor under AS 08.18 **before the contract may be awarded**. A request for sealed proposals for a construction contract, except a design-build construction contract, must require the offeror, no later than five working days after the proposal that is the most advantageous to the state is identified, to list subcontractors the offeror proposes to use in the performance of the construction contract. The list must include the information required under AS 36.30.115(a). The provisions of AS 36.30.115(b) - (g) that apply to a construction contractor or an apparent low bidder apply to offerors submitting competitive sealed proposals for construction contracts, except design-build construction contracts.

* **Sec. 17.** AS 36.30.210(e) is amended to read:

(e) The offeror **shall** [MUST] have a valid Alaska business license at the time designated[,] in the request for proposals[,] for opening of the proposals **in order to qualify as an Alaska bidder and to receive a preference under AS 36.30.321. If an offeror does not have a valid Alaska business license at the time designated in the request for proposals for proposal opening, the offeror shall provide proof that the offeror has a valid Alaska business license before the contract may be awarded, but does not qualify for a preference under AS 36.30.321**.

* **Sec. 18.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.245. Multiple submissions and negotiations. (a) In a procurement that uses competitive sealed proposals, in order to obtain the best proposal for purposes of award, an agency may require more than one submission of proposals and may negotiate after each submission with the offerors whose proposals from that submission are reasonably susceptible of being selected for award. The negotiations conducted under this section may cover price, specifications, terms, or conditions or a combination of these items, and these items may be negotiated separately or in any combination. The submissions and negotiations allowed under this section are in addition to any discussions and revisions allowed under AS 36.30.240. The requirements for submissions and negotiations under this section shall be established by the department by regulation and in the request for proposals.

(b) The provisions of (a) of this section do not apply to a procurement for a construction contract.

* **Sec. 19.** AS 36.30.250(a) is amended to read:

(a) The procurement officer shall award a contract under competitive sealed proposals to the responsible and responsive offeror whose proposal is determined in writing to be the most advantageous to the state taking into consideration price and the evaluation factors set out in the request for proposals. **Except as provided by AS 36.30.255 and 36.30.336, other** [OTHER] factors and criteria may not be used in the evaluation. The contract file must contain the basis on which the award is made.

* **Sec. 20.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.255. Preferences applied to competitive sealed proposals. When determining which proposal is most advantageous to the state under a competitive sealed proposal solicitation, the procurement officer shall apply the preferences provided in AS 36.15.050 and AS 36.30.321 - 36.30.338, but may not apply other preferences. The preferences shall be applied only to the price portion of a proposal.

* **Sec. 21.** AS 36.30 is amended by adding a new section to article 4 to read:

Sec. 36.30.290. Electronic bids. An agency may allow bids or proposals to be submitted in electronic form under AS 09.80.010 - 09.80.195 (Uniform Electronic Transactions Act).

* **Sec. 22.** AS 36.30.308(b) is amended to read:

(b) The procurement officer shall submit a procurement plan to the **chief procurement officer or, for construction contracts or procurements for the state equipment fleet, to the commissioner of transportation and public facilities,** [DEPARTMENT OF LAW] for review and approval as to form before issuing the notice required by (c) of this section.

* **Sec. 23.** AS 36.30.310 is amended to read:

Sec. 36.30.310. Emergency procurements. Procurements may be made under emergency conditions as defined in regulations adopted by the commissioner **of administration** when there exists a threat to public health, welfare, or safety, when a situation exists that makes a procurement through competitive sealed bidding or competitive sealed proposals impracticable or contrary to the public interest, or to protect public or private property. An emergency procurement need not be made through competitive sealed bidding or competitive sealed proposals but shall be made

with competition that is practicable under the circumstances. A written determination by the chief procurement officer **or, for construction contracts or procurements of the state equipment fleet, the commissioner of transportation and public facilities** of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file. The written determination must include findings of fact that support the determination. Except when there is insufficient time for the chief procurement officer **or the commissioner of transportation and public facilities, as appropriate,** to make the written determination required by this section, the **authority to make the determination** [CHIEF PROCUREMENT OFFICER] may not **be delegated** [DELEGATE THE AUTHORITY TO MAKE THE DETERMINATION].

*** Sec. 24.** AS 36.30.320(a) is amended to read:

(a) A procurement for supplies, services, or professional services that does not exceed an aggregate dollar amount of **$100,000** [$50,000], construction that does not exceed an aggregate dollar amount of **$200,000** [$100,000], or lease of space that does not exceed **7,000** [3,000] square feet **shall** [MAY] be made **under** [IN ACCORDANCE WITH] regulations adopted by the commissioner for small procurements.

*** Sec. 25.** AS 36.30 is amended by adding a new section to article 5 to read:

Sec. 36.30.321. Alaska bidder and related preferences. (a) If the bidder or offeror is an Alaska bidder, a preference of five percent shall be applied to the price in the bid or proposal.

(b) Except as otherwise provided under (d), (e), or (g) of this section, if a bidder or offeror qualifies as an Alaska bidder and is offering services through an employment program, a 15 percent preference shall be applied to the price in the bid or proposal.

(c) If a bidder or offeror qualifies as an Alaska bidder and is an Alaska domestic insurer, and if the procurement is for an insurance-related contract, a five percent preference shall be applied to the price in the bid or proposal.

(d) A 10 percent preference shall be applied to a price in a bid or proposal if the bidder or offeror qualifies as an Alaska bidder and is a

(1) sole proprietorship owned by a person with a disability;

(2) partnership under AS 32.06, or AS 32.11 if each of the partners is a person with a disability;

(3) limited liability company organized under AS 10.50 if each of the members is a person with a disability;

(4) corporation that is wholly owned by individuals and each of the individuals is a person with a disability; or

(5) a joint venture that is composed of ventures that qualify under (1) - (4) of this subsection.

(e) The division of vocational rehabilitation in the Department of Labor and Workforce Development shall add to its current list of qualified employment programs a list of individuals who qualify as persons with a disability under (d) of this section. A person must be on this list at the time the bid or proposal is opened in order to qualify for a preference under (d) of this section.

(f) If a bidder or offeror qualifies as an Alaska bidder and is a qualifying entity, a five percent preference shall be applied to the price in the bid or proposal. The preference may not exceed $5,000. In this subsection,

(1) "Alaska veteran" means an individual who is both a resident of the state and a veteran;

(2) "qualifying entity" means a

(A) sole proprietorship owned by an Alaska veteran;

(B) partnership under AS 32.06 or AS 32.11 if a majority of the partners are Alaska veterans;

(C) limited liability company organized under AS 10.50 if a majority of the members are Alaska veterans; or

(D) corporation that is wholly owned by individuals and a majority of the individuals are Alaska veterans;

(3) "veteran" means an individual who

(A) served in the

(i) armed forces of the United States, including a reserve unit of the United States armed forces; or

(ii) Alaska Territorial Guard, the Alaska Army National

Guard, the Alaska Air National Guard, or the Alaska Naval Militia; and

(B) was separated from service under a condition that was not dishonorable.

(g) A bidder or offeror may not receive a preference under both (b) and (d) of this section for the same contract.

(h) Except as provided by (j) of this section, this section applies to all insurance contracts involving state money. In this subsection, "state money" has the meaning given in AS 36.30.990, but also includes state grants and reimbursements to municipalities, school districts, and other entities.

(i) In order to qualify for a preference under (b), (d), or (f) of this section, a bidder or offeror must add value by actually performing, controlling, managing, and supervising the services provided, or the bidder or offeror must have sold supplies of the general nature solicited to other state agencies, governments, or the general public.

(j) This section does not apply to solicitations or contracts for lease space under AS 36.30.080, to procurements under AS 36.30.305 - 36.30.310, or, except as provided otherwise by regulation under AS 36.30.320, to small procurements under AS 36.30.320.

(k) In this section, "person with a disability" means an individual who

(1) has been determined to be permanently disabled by the

(A) United States Social Security Administration under 42 U.S.C. 1381 - 1385 (Social Security Act) or 42 U.S.C. 423 (Social Security Act);

(B) the teachers' retirement system under AS 14.25, the judicial retirement system under AS 22.25, the public employees' retirement system under AS 39.35, or the elected public officers' retirement system under former AS 39.37;

(C) federal civil service retirement system under 5 U.S.C. 2107, 3323, and 8331 - 8351;

(D) federal employees' retirement system under 5 U.S.C. 8401 - 8479; or

(E) division of vocational rehabilitation in the Department of

Labor and Workforce Development using disability standards under 42 U.S.C. 1381 - 1385 (Social Security Act) for eligibility for certain state disability program purposes;

(2) is receiving permanent total disability under AS 23.30 (Alaska Workers' Compensation Act);

(3) has been discharged from military service under honorable conditions and is certified by the United States Department of Veterans Affairs as having incurred a 50 percent or greater disability during military service; or

(4) has served in the Alaska Territorial Guard and incurred a 50 percent or greater disability while serving in the Alaska Territorial Guard.

*** Sec. 26.** AS 36.30.322(a) is amended to read:

(a) Only timber, lumber, and manufactured lumber products originating in this state from Alaska forests may be procured by an agency or used in construction projects of an agency unless the manufacturers and suppliers who have notified the commissioner of commerce, community, and economic development of their willingness to manufacture or supply Alaska forest products

(1) have been given reasonable notice of the forest product needs of the procurement or project; and

(2) **are not the low bidder after all applicable preferences have been applied to the price of the qualifying forest product under AS 36.30.336** [ARE UNABLE TO SUPPLY THE PRODUCTS AT A COST THAT IS WITHIN SEVEN PERCENT OF THE PRICE OFFERED BY A MANUFACTURER OR SUPPLIER OF NON-ALASKA FOREST PRODUCTS].

*** Sec. 27.** AS 36.30.336 is repealed and reenacted to read:

Sec. 36.30.336. Application of preferences. (a) Except as provided in AS 36.15.050(h) and AS 36.30.321(g), the preferences provided in AS 36.15.050 and AS 36.30.321 - 36.30.338 are cumulative. A bidder who would otherwise qualify for preferences under AS 36.30.321 may not be given a preference over another bidder who qualifies for the same preferences.

(b) Notwithstanding the other provisions of this chapter, AS 36.30.321 - 36.30.338 apply to all procurements subject to this chapter, except as provided in

AS 36.15.050 and AS 36.30.322(b).

* **Sec. 28.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.364. Renegotiation. (a) The chief procurement officer may renegotiate the terms and conditions, including the contract period of performance and price, of a contract without using an additional competitive process, and may amend the contract if the procurement officer determines that

(1) the amendment is in the best interest of the state;

(2) the renegotiated contract is at least as favorable to the state as the original contract; and

(3) the additional period of performance of the renegotiated contract does not exceed five years, or, if an innovative procurement process under AS 36.30.308 was used to procure the original contract, does not exceed the approval under AS 36.30.308(b).

(b) The chief procurement officer, under regulations adopted by the commissioner, may delegate the authority to make the determination under (a) of this section to a state procurement officer.

(c) This section does not apply to lease extensions under AS 36.30.083.

* **Sec. 29.** AS 36.30.560 is amended to read:

Sec. 36.30.560. Filing of a protest. An interested party may protest the award of a contract, the proposed award of a contract, or a solicitation for supplies, services, professional services, or construction by an agency. The protest shall be filed with the procurement officer of the contracting agency in writing **within the time period provided in AS 36.30.565,** and include the following information:

(1) the name, address, and telephone number of the protester;

(2) the signature of the protester or the protester's representative;

(3) identification of the contracting agency and the solicitation or contract at issue;

(4) a detailed statement of the legal and factual grounds of the protest, including copies of relevant documents; [AND]

(5) the form of relief requested**; and**

(6) the protest filing fee required under AS 36.30.567.

* **Sec. 30.** AS 36.30.565(b) is amended to read:

(b) If the protester shows good cause **why the protestor did not file a protest by the deadline established under (a) of this section**, the procurement officer of the contracting agency may consider a filed protest that is not timely.

* **Sec. 31.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.567. Protest filing fee. To file a protest under AS 36.30.560, the protester shall pay a $250 filing fee to the agency that conducted the procurement. The filing fee shall be refunded if the protest is sustained by the procurement officer under AS 36.30.585 or if the protest is withdrawn by the protester before an appeal is filed under AS 36.30.590.

* **Sec. 32.** AS 36.30 is amended by adding a new section to read:

Sec. 36.30.572. Temporary delay of award. (a) If a protest of a proposed award of a contract is filed timely under AS 36.30.565, the procurement officer may temporarily delay the award of the contract in order to make a decision under AS 36.30.580, extend the time for making the decision under AS 36.30.580, or address other circumstances that warrant temporarily delaying the award.

(b) Notice of a temporary delay of a contract award under (a) of this section shall be provided in writing to the protester and all other interested parties. The written notice must indicate when the temporary delay of the award will expire.

(c) A temporary delay of a contract award under this section does not constitute a stay of award under AS 36.30.575.

* **Sec. 33.** AS 36.30.655 is amended to read:

Sec. 36.30.655. List of persons debarred or suspended; removal from contractor lists. The commissioner shall maintain a list of all persons debarred or suspended from consideration for **the** award of contracts. [THE COMMISSIONER SHALL REMOVE A PERSON DEBARRED OR SUSPENDED FROM THE LISTS OF CONTRACTORS UNDER AS 36.30.050 FOR THE PERIOD OF DEBARMENT OR SUSPENSION.]

* **Sec. 34.** AS 36.30.700 is amended to read:

Sec. 36.30.700. Cooperative purchasing authorized. A public procurement unit may [EITHER] participate in, sponsor, conduct, or administer a cooperative

purchasing agreement for the procurement of supplies, services, professional services, or construction with one or more public procurement units or external procurement activities in accordance with an agreement entered into between the participants. Cooperative purchasing may include joint or multi-party contracts between public procurement units and open-ended state public procurement units contracts that are made available to local public procurement units. **A state public procurement unit may use or participate in a contract procured by another public procurement unit or external procurement activity without being named in the solicitation for the contract.**

*** Sec. 35.** AS 36.30.700 is amended by adding a new subsection to read:

(b) When, under AS 36.30.700 - 36.30.790, a state public procurement unit participates with a public procurement unit or external procurement activity in cooperative purchasing or participates in a contract procured by an external procurement activity, the state public procurement unit is considered to have complied with AS 36.30.005 - 36.30.540, and AS 36.15 and AS 36.30.321 - 36.30.338 do not apply.

*** Sec. 36.** AS 36.30.850(b) is amended by adding new paragraphs to read:

(48) contracts for lease space for an agency's offices that are located in other states, the District of Columbia, or foreign countries;

(49) contracts for investigative services entered into by the department for the state personnel board established under AS 39.25.030, the office of public advocacy created under AS 44.21.400, or the Alaska Public Offices Commission created under AS 15.13.020;

(50) purchases of commodities used in the manufacture of products sold through an employment program of prison inmates subject to AS 23.15.580;

(51) contracts for training services provided by a professional organization.

*** Sec. 37.** AS 36.30.990(1) is amended to read:

(1) "agency"

(A) means a department, institution, board, commission, division, authority, public corporation, the Alaska Pioneers' Home, the Alaska

Veterans' Home, or other administrative unit of the executive branch of state government;

(B) does not include

(i) the University of Alaska;

(ii) the Alaska Railroad Corporation;

(iii) the Alaska Housing Finance Corporation;

(iv) a regional Native housing authority created under AS 18.55.996 or a regional electrical authority created under AS 18.57.020;

(v) the Department of Transportation and Public Facilities, in regard to the repair, maintenance, and reconstruction of vessels, docking facilities, and passenger and vehicle transfer facilities of the Alaska marine highway system;

(vi) the Alaska Aerospace Corporation;

(vii) the Alaska Retirement Management Board;

(viii) the Alaska Seafood Marketing Institute;

(ix) the Alaska Industrial Development and Export Authority;

(x) the Alaska Energy Authority;

*** Sec. 38.** AS 36.30.990 is amended by adding new paragraphs to read:

(25) "Alaska bidder" means a person who

(A) holds a current Alaska business license;

(B) submits a bid or proposal for goods, services, or construction under the name as appearing on the person's current Alaska business license;

(C) has maintained a place of business within the state staffed by the bidder or offeror or an employee of the bidder or offeror for a period of six months immediately preceding the date of the bid or proposal;

(D) is incorporated or qualified to do business under the laws of the state, is a sole proprietorship and the proprietor is a resident of the state, is a limited liability company organized under AS 10.50 and all members are

residents of the state, or is a partnership under former AS 32.05, AS 32.06, or AS 32.11 and all partners are residents of the state; and

(E) if a joint venture, is composed entirely of ventures that qualify under (A) - (D) of this subsection;

(26) "in writing" has the meaning given to "written" in this section;

(27) "signature" means a manual identifier or electronic signature attached to or logically associated with a record that is intended by the person using it to have the same force and effect as a manual signature; in this paragraph, "electronic signature" has the meaning given in AS 09.80.190;

(28) "written" means the product of forming characters on paper, other materials, or viewable screens, that can be read, retrieved, and reproduced, including information that is electronically transmitted and stored.

*** Sec. 39.** AS 36.90.049(a) is amended to read:

(a) A marine vessel owned by the state shall be maintained and repaired at a shipyard facility located in the state unless the commissioner of the department that operates the marine vessel determines in writing that there is no shipyard facility located in the state that is equipped or qualified to perform the particular maintenance or repair required, or, after taking into consideration the **five percent** Alaska bidder preference **for bidders under AS 36.30.321(a)** [SET OUT IN AS 36.30.170] and the interport differential, that the proposed cost of the maintenance or repair work is unreasonable. A detailed list of the costs and factors considered in calculating the interport differential must be provided to each person who expresses an interest in submitting a bid to perform maintenance or repair work on a marine vessel owned by the state.

*** Sec. 40.** AS 38.35.017(a) is amended to read:

(a) Consistent with and in furtherance of the statements of general state policy guiding resource development set out in art. VIII, sec. 1, Constitution of the State of Alaska, that the resources of the state be developed "by making them available for maximum use consistent with the public interest" and in art. VIII, sec. 2, Constitution of the State of Alaska, directing that provision shall be made by the legislature for "the utilization, development, and conservation of all natural resources belonging to the

State . . . for the maximum benefit of its people," and consistent with and in furtherance of the general legislative declaration of policy for this chapter set out in AS 38.35.010, it is the policy of this state that the overall strategy for development, use, and control of a pipeline or pipelines to develop the state's substantial North Slope natural gas resources be directed

(1) to enhance the standard of living of state residents by

(A) ensuring that, in conjunction with out-of-state market driven commercial demand for North Slope natural gas, state residents and businesses will have access, directly or indirectly, to that portion of the gas that will meet the reasonably foreseeable in-state demands for it, including substitution of the North Slope natural gas for depleting gas reserves in Southcentral Alaska in order to maintain a vital domestic and industrial energy source, and ensuring that the pipeline or pipelines for the transportation of North Slope natural gas will be designed and located to be responsive to these requirements;

(B) making the maximum contribution to the development of job opportunities in this state by

(i) providing direct short-term construction and long-term operation- and maintenance-related employment on the pipeline or pipelines, to the end that the resources be developed with qualified contractors and firms in this state for work to be performed, including the fabrication and installation of required facilities, and that state residents be employed, consistent with law; for purposes of this sub-subparagraph, a person is considered a resident if the person is physically present in the state with the intent to remain in the state indefinitely and has a home in the state, and a contractor or firm is considered as qualified if the contractor or firm qualifies as an Alaska bidder**; in this sub-subparagraph, "Alaska bidder" has the meaning given in AS 36.30.990** [UNDER AS 36.30.170(b)]; and

(ii) providing necessary support services; and

(C) adding significant long-term property value to the tax base

of the state and local governments, thereby providing the means to support public education, public health, transportation, and other essential state and local government projects and services;

(2) to ensure that the design, location, and construction of a pipeline or pipelines for delivery of North Slope natural gas to North American markets through connection to the North American natural gas pipeline network enhance opportunities for implementing gas deliveries using alternative technologies and the construction of other pipelines to deliver North Slope natural gas to foreign and domestic markets; and

(3) to ensure construction of the pipeline or pipelines consistent with careful protection of the state's natural environment, with minimum environmental degradation, to the greatest extent possible, and with protection of fish, wildlife, and biotic resources for the use of persons who depend upon them by using available transportation infrastructure to initiate and complete project construction and maintenance and by avoiding duplication of facilities.

*** Sec. 41.** AS 44.62.310(d) is amended to read:

(d) This section does not apply to

(1) a governmental body performing a judicial or quasi-judicial function when holding a meeting solely to make a decision in an adjudicatory proceeding;

(2) juries;

(3) parole or pardon boards;

(4) meetings of a hospital medical staff;

(5) meetings of the governmental body or any committee of a hospital when holding a meeting solely to act upon matters of professional qualifications, privileges, or discipline;

(6) staff meetings or other gatherings of the employees of a public entity, including meetings of an employee group established by policy of the Board of Regents of the University of Alaska or held while acting in an advisory capacity to the Board of Regents;

(7) meetings held for the purpose of participating in or attending a gathering of a national, state, or regional organization of which the public entity,

governmental body, or member of the governmental body is a member, but only if no action is taken and no business of the governmental body is conducted at the meetings; [OR]

(8) meetings of municipal service area boards established under AS 29.35.450 - 29.35.490 when meeting solely to act on matters that are administrative or managerial in nature; **or**

(9) meetings with offerors in negotiations for state procurement under AS 36.30.245, or meetings to renegotiate a contract under AS 36.30.364.

*** Sec. 42.** AS 44.88.085(a) is amended to read:

(a) Except for AS 44.62.310 and 44.62.312 regarding public meetings **and AS 36.30.015(f) regarding procurement**, the provisions of the Administrative Procedure Act regarding the adoption of regulations (AS 44.62.040 - 44.62.320) do not apply to the authority. The authority shall make available to members of the public copies of the regulations adopted under this section. Within 45 days after adoption of a regulation under this section, the **chair** [CHAIRMAN] of the authority shall submit the regulation adopted to the **chair** [CHAIRMAN] of the Administrative Regulation Review Committee under AS 24.20.400 - 24.20.460.

*** Sec. 43.** AS 36.30.050, 36.30.250(b), 36.30.335, 36.30.362, 36.30.850(b)(22), and 36.30.850(b)(34) are repealed.

*** Sec. 44.** The uncodified law of the State of Alaska is amended by adding a new section to read:

TRANSITION: PENDING SOLICITATIONS FOR PROCUREMENTS AND CONTRACTS. (a) This Act does not apply to

(1) solicitations for procurement and the resulting contracts, if the solicitations are pending on the effective date of this Act and if the invitation to bid or other solicitation was issued before the effective date of this Act; and

(2) procurement contracts entered into before the effective date of this Act, including extensions of those contracts.

(b) Notwithstanding (a) of this section, this Act applies to procurements or contracts described in (a)(1) of this section if all parties to the procurement or contract agree in writing that the applicable provisions of this Act apply to the solicitation or contract.

Eagle River AK, 99577

RE: HB 225

Representative Anna Fairclough:

Please consider disabled employees when revising the current structure of the State Procurement Code. As proposed the revised code will have grave consequences for our company and its present/future employee(s). As a young professional, a business owner, and an employer of persons with disabilities preference holder I can assure you that eliminating this program we depend on will lead to the dismissal of disabled persons that have become and are currently productive members of society. Not all disabled persons are capable of owning a business under the proposed structure of HB 225.

Please consider modifying the following:

- **Remove section, "(j) This section does not apply to solicitations or contracts for lease space 11 under AS 36.30.080, to procurements under AS 36.30.305 - 36.30.310, or, except as12 provided otherwise by regulation under AS 36.30.320, to small procurements under 13 AS 36.30.320"**
- **Do not delete the preference, "employers of people with disabilities"**

Thank you for understanding our dire need to revise these two items. Please feel free to contact me at anytime with questions or concerns.

Sincerely,

Adam Blomfield

RE: Questions regarding CSHB 225(FIN) relating to State Procurement

Dear Representative Hawker and Stoltze:

In response to questions from House Finance during our testimony on HB 410, Representative Fairclough specifically, regarding how CSHB 225(FIN) would affect the investments of the Alaska Industrial Development and Export Authority (AIDEA), we offer the following as it relates to AIDEA's investment securities and investments in projects:

AIDEA's investment powers are established in AS 44.88.060 and AS 37.10.071 with respect to the investment of amounts held in the Revolving Fund. Under AS 36.30.850(b)(13) and AS 36.30.850(b)(15), purchases of income-producing assets and investment powers are already exempt from the procurement code. The proposed change to the procurement code under HB 225 does not affect this; therefore there would be no change to AIDEA's investment powers.

Under HB 225, generally (assuming no specific statutory exemption), AIDEA's Development Projects will continue to be subject to competitive bidding and competitive proposals, requiring Little Davis Bacon where applicable. The primary difference created by HB 225 is procurement authority, which comes from the Board of the Authority to the Executive Director, versus the Commissioners of the Department of Transportation and Public Facilities and/or the Department of Administration.

Per the proposed legislation, AIDEA will "adopt regulations that reflect competitive bidding principles and provide vendors reasonable and equitable opportunities to participate in the procurement process."

Please feel free to contact me if you have further questions.

Sincerely,

ALASKA INDUSTRIAL DEVELOPMENT
AND EXPORT AUTHORITY

CS for House Bill 226- Naming Veterans' Way in Mat-Su

Sponsor Statement

Alaska has one of the nation's largest per-capita populations of veterans. These are the true heroes of Alaska, men and women who have served in the armed forcers of our great country to keep us free.

CS for House Bill 226 is an opportunity for us as a legislature to say thank you for keeping America and Alaska free. Thank you for interrupting your life to serve at home and abroad. Thank you for offering to make the supreme sacrifice for your country.

Upon passage of CSHB 226, Bogard, Seldon and East Colony Schools Roads will become Veteran's Way. In addition to honoring our veterans the name change will also provide an easier understanding of directions as this one road will have one name rather than the current three names. We urge your passage of this bill in support of our veterans.

Valley Veterans For "Veterans Way"

Thank you for taking the time to read our petition. The purpose of this committee is to obtain your support in renaming one of the most confusing roadways located in the Wasilla/Palmer area. Some know it as Seldon or Bogard or a variation of those two names. Sometime in the next two years the Borough and the State will extend this roadway from Colony Schools drive down Colony way crossing the intersection of 49th state street near Colony High School. This roadway will continue on to Arctic Avenue near Palmer High school providing an alternate route for all valley residents who might normally use the Palmer/Wasilla Highway. The completion of this bypass is a much needed alternative to the Palmer Wasilla highway. This will help alleviate congestion and provide an alternate route for traffic whenever there is emergency shutdowns. We propose to name the thoroughfare from Palmer to Church Road **"Veterans Way"** in honor of all of those who have served our nation. The roadway currently has over 6 names for all of the different segments, Bogard, Bogard extension, Seldon, Seldon extension, Colony Schools drive, Colony way, and Arctic Avenue. We hope that you will support our efforts by signing our petition to show support for all of our valley, state and nations veterans. Please sign the line below to attest to your support of the road name "Veterans Way" Also by signing please share this idea with 3 friends or co-workers to get the word out

Valley Veterans For "Veterans Way"

Thank you for taking the time to read our petition. The purpose of this committee is to obtain your support in renaming one of the most confusing roadways located in the Wasilla/Palmer area. Some know it as Seldon or Bogard or a variation of those two names. Sometime in the next two years the Borough and the State will extend this roadway from Colony Schools drive down Colony way crossing the intersection of 49th state street near Colony High School. This roadway will continue on to Arctic Avenue near Palmer High school providing an alternate route for all valley residents who might normally use the Palmer/Wasilla Highway. The completion of this bypass is a much needed alternative to the Palmer Wasilla highway. This will help alleviate congestion and provide an alternate route for traffic whenever there is emergency shutdowns. We propose to name the thoroughfare from Palmer to Church Road **"Veterans Way"** in honor of all of those who have served our nation. The roadway currently has over 6 names for all of the different segments, Bogard, Bogard extension, Seldon, Seldon extension, Colony Schools drive, Colony way, and Arctic Avenue. We hope that you will support our efforts by signing our petition to show support for all of our valley, state and nations veterans. Please sign the line below to attest to your support of the road name "Veterans Way" Also by signing please share this idea with 3 friends or co-workers to get the word out

Valley Veterans For "Veterans Way"

Thank you for taking the time to read our petition. The purpose of this committee is to obtain your support in renaming one of the most confusing roadways located in the Wasilla/Palmer area. Some know it as Seldon or Bogard or a variation of those two names. Sometime in the next two years the Borough and the State will extend this roadway from Colony Schools drive down Colony way crossing the intersection of 49th state street near Colony High School. This roadway will continue on to Arctic Avenue near Palmer High school providing an alternate route for all valley residents who might normally use the Palmer/Wasilla Highway. The completion of this bypass is a much needed alternative to the Palmer Wasilla highway. This will help alleviate congestion and provide an alternate route for traffic whenever there is emergency shutdowns. We propose to name the thoroughfare from Palmer to Church Road **"Veterans Way"** in honor of all of those who have served our nation. The roadway currently has over 6 names for all of the different segments, Bogard, Bogard extension, Seldon, Seldon extension, Colony Schools drive, Colony way, and Arctic Avenue. We hope that you will support our efforts by signing our petition to show support for all of our valley, state and nations veterans. Please sign the line below to attest to your support of the road name "Veterans Way" Also by signing please share this idea with 3 friends or co-workers to get the word out

Subject: Veterans Way Bill - Support

Dear Representative Wilson,

My name is John G. Davies. I first came to Alaska in 1970 with the US Army. I am a Viet Nam veteran, a life member of the Veterans of Foreign Wars, and a Charter Member of the American Legion Post 35. I practiced law in the Matanuska Valley for about 30 years before joining the Alaska State Legislature as a staff member for the District 14 Representative.

I am very familiar with the Veterans Way road corridore and support the Bill changing the road name. The old name, Bogard Road is confusing, and the name change will clarify and simplify matters, especially with the new extensions to be built on each end of the road way. Right now Bogard turns into Sledon Rd. at a 4 way stop sign where there used to be a sharp turn in Bogard Rd. If you now are traveling west on Bogard and stop at the stop sign, when you cross the intersection the road turns into Seldon Rd. You have to turn left in order to proceed on Bogard. Also at the Palmer end of the roadway new construction is planned, and extension of the present Bogard will take up a few other street names. So, renaming the entire east to west roadway and the new extensions all Veterans Way will not only honor all the Valley veterans, but clarify and simplify matters a lot.

Thank you for considering my opinion.

Very Truly Yours,

John G. Davies
Voter # 1000659

I talked with Janet from your office a bit and understand that you are working on a draft bill to designate the Bogard-Seldon Corridor as Veteran's Way. We at the Borough have been discussing this since last year and think that this name would be appropriate in regard to completely re-naming the road corridor. It would make giving directions much easier in that you would no longer have to say, "travel up Arctic Avenue for X distance until it turns into Bogard Extension, then travel X distance until it becomes Colony Way, then travel X distance until it becomes Bogard Road, then travel X distance until it becomes Seldon Road, then travel X distance until it becomes Beverly Lakes Road.
Let me know what we can provide that would be helpful to you in supporting the name change. We may be able to provide a resolution from the MSB Transportation Advisory Board, Planning Commission or Assembly. I also talked to the Community Transportation Coalition (with representatives from Palmer and Wasilla present) about this and they are also willing to provide a resolution.

ALASKA STATE LEGISLATURE

MAT-SU VALLEY DELEGATION

March 1, 2010

Representative Peggy Wilson
Chair, House Transportation Committee

Re: House Bill 226 – Naming Veterans' Way in Mat-Su

Dear Representative Wilson:

As members of the Mat-Su delegation, we urge you to schedule HB 226, legislation establishing Veterans' Way in the Mat-Su Borough. The heroic service of Alaskan veterans is recognized in this bill, which renames the collective corridor of Seldon Road and a segment of Bogard Road to "Veterans' Way," while maintaining the individual road names. This is an excellent opportunity for the State of Alaska to pay tribute to the multitude of Alaskans who have served in the armed forces in defense of our liberties. We express our deepest thanks to the men and women who have selflessly put themselves at risk in the service of our country, and ask for the scheduling and favorable consideration of this legislation as a sign of our gratitude and respect to Alaskan veterans.

Respectfully,

I talked with Janet from your office a bit and understand that you are working on a draft bill to designate the Bogard-Seldon Corridor as Veteran's Way. We at the Borough have been discussing this since last year and think that this name would be appropriate in regard to completely re-naming the road corridor. It would make giving directions much easier in that you would no longer have to say, "travel up Arctic Avenue for X distance until it turns into Bogard Extension, then travel X distance until it becomes Colony Way, then travel X distance until it becomes Bogard Road, then travel X distance until it becomes Seldon Road, then travel X distance until it becomes Beverly Lakes Road.

REPRESENTATIVE MIKE CHENAULT

SPEAKER OF THE HOUSE

SPONSOR STATEMENT

COMMITTEE SUBSTITUTE FOR HOUSE BILL 229 (RES)

"An Act amending and extending the exploration and development incentive tax credit under the Alaska Net Income Tax Act for operators and working interest owners directly engaged in the exploration for and development of gas from a lease or property in the state; providing for an effective date by amending the effective date by amending the effective date for sec. 2, ch. 61, SLA 2003; and providing for an effective date."

Committee Substitute for House Bill 229 (RES) amends and extends the exploration and development incentive tax credit that was originally enacted in the 23rd legislature in 2003 as HB 61. This tax credit continues to apply under the Alaska Net Income Tax Act for operators and working interest owners directly engaged in the exploration for and development of natural gas primarily in the Cook Inlet area.

To more strongly encourage companies to invest additional capital in exploring for and developing new natural gas reserves, this legislation makes the following changes to current law:

1. Increasing the amount of the credit from 10% to 25% of the amount of qualified capital investment and qualified services spending.
2. Removes the 50% limitation on the amount of credits that can apply in a single year increasing the "time-value of money" for the credits.
3. Removes the "successful efforts" requirement that disallows the credit for wells that are drilled, with all the same costs, but end up being non-productive.
4. Clarifies that the credits can be taken on a current tax return, on a timely filed tax return or on a timely filed tax return for the year immediately following the year the qualified capital investment is made.
5. Clarifies that the credits can be applied to a gas reserve regardless of whether or not there has been previous gas production in the area.
6. Clarifies that the credits do not apply to North Slope gas that is brought into Southcentral.
7. Extends the sunset date of the investment tax credit from January 1, 2013 to January 1, 2020.

This legislation makes no changes to definitions of qualified capital investment or qualified services.

Representative_Mike_Chenault@legis.state.ak.us

Annual natural gas production and supply in the Cook Inlet area have been declining for a number of years. During the same time, demand has been increasing steadily. Therefore, a sharp increase in drilling to find new reserves is drastically needed. The original Investment Tax Credit enacted in 2003, while modestly successful in stimulating new drilling, needs to be made a much more effective incentive to developers to increase capital spending in a large manner. These changes will go a long way to achieving that goal.

REPRESENTATIVE MIKE CHENAULT
SPEAKER OF THE HOUSE

SECTIONAL ANALYSIS
COMMITTEE SUBSTITUTE FOR HOUSE BILL 229 (RES)

"An Act amending and extending the exploration and development incentive tax credit under the Alaska Net Income Tax Act for operators and working interest owners directly engaged in the exploration for and development of gas from a lease or property in the state; providing for an effective date by amending the effective date by amending the effective date for sec. 2, ch. 61, SLA 2003; and providing for an effective date."

Section 1: Amends 43.20.043(a), Gas exploration and development tax credit. Adds before January 1, 2010, to the time in a tax year for which a credit against state tax liability may be applied. Also further adds language that for a tax year beginning after December 31, 2009, 25 per cent of the taxpayer's qualified investment and 25 per cent of the annual cost incurred by the taxpayer for qualified services in the state during each tax year for which a credit is allowable for a qualified capital investment for any gas reserve of the taxpayer or for each year that qualified costs are incurred for a gas reserve for which the taxpayer previously elected to claim a credit.

Section 2: Amends AS 43.20.043(b), Gas exploration and development tax credit. Adds before July 1, 2010, if a claim is made under (a)(1)(A) found in Section 1 or December 31, 2009, if the claim of credit is made under (a)(2)(A) also found in Section 1. Replaces the word "reserves" with wells and "paragraph" with "subparagraph". It adds language that includes expenditures for a gas well that is determined not to be capable of production in commercial quantities as qualifying for the taxpayer's qualified investment credit.

Section 3: Amends AS 43.20.043(c), Gas exploration and development tax credit. States the credit allowed will be made for each tax year rather than per year and eliminates the 50 per cent provision of the taxpayer's total tax liability.

Section 4: Amends AS 43.20.043(e), Gas exploration and development tax credit. Adds language that disallows a taxpayer from including in any rate base for a regulated facility the cost of any qualified capital investment or qualified services that have been offset by the receipt of a credit under this chapter.

Section 5: Amends AS 43.20.043(i)(1), Qualified capital investment. Deletes "reserves in a gas reservoir for which there has not been commercial production if the reserves produce gas for sale and delivery". It adds language that includes any gas reserve

Representative_Mike_Chenault@legis.state.ak.us

regardless of whether there has been commercial production in the area or whether the exploration and development activity results in the production of gas or a well not capable of production in commercial quantities.

Amends AS 43.20.043(i)(1)(C)(ii), Amends the language regarding what can be included as "property". Topping plants and processing units are deleted. Power plants are constrained to only those designed for field operations. Gas processing plants and gas treatment plants are added with the exclusion of liquefied natural gas or manufacturing plants.

Section 6: Amends AS 43.20.043, Adds a new subsection that reads: A taxpayer shall claim the credit authorized in (a) of this section on a timely filed tax return for the year in which the qualified capital investment is made, on a timely filed amended tax return, or on a timely filed tax return for the year immediately following the year in which the qualified capital investment is made. The election to apply the credit authorized in (a) of this section may not be an irrevocable election.

Section 7: Amends uncodified law enacted by Section 3, Chapter 61, SLA 2003. Adds secs. 2 and 5, ch. 61, SLA 2003 as amended by Section 8 of this bill. Also amends the carry forward of the tax xcredit from 2017 to 2024.

Section 8: Amends uncodified law enacted by Section 5, Chapter 61, SLA 2003. Adds ch. 61, SLA 2003 to take effect on January 1, 2020 instead of 2013.

Section 9: Immediate effective date.

Hypothetical example of Cook Inlet exploration well costs vs state contribution

Prepared 04/05/10 by Dan Stickel

	Current - law no EIC	Current law - with 40% EIC	SB 290 - #1	SB 290 - #2	SB 290 - #3	HB 280	SB 309 / HB 229	SB 271 / HB 337	Notes
Exploration Well Capital Cost	$20,000,000	$20,000,000	$20,000,000	$20,000,000	$20,000,000	$20,000,000	$20,000,000	$20,000,000	For illustrative purposes only
.025 Exploration Credit or .023 Capital Expenditure Credit									Current law allows for a 30% or 40% credit when certain parameters are met. SB 290 would increase this rate for qualifying wells.
Exploration Tax Credit									
Rate	NA	40%	100%	75%	50%	40%	40%	40%	
Amount	NA	$8,000,000	$20,000,000	$15,000,000	$10,000,000	$8,000,000	$8,000,000	$8,000,000	
.023 (a) Cap Ex Credit									*Current law allows for a 20% production tax credit for qualifying capital costs. SB 271 / HB 337 would increase this amount to 30% for well-related expenditures.*
Rate	20%	20%	20%	20%	20%	20%	20%	30%	
Amount	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$4,000,000	$6,000,000	
Higher of ETC or CapEx Credit	**$4,000,000**	**$8,000,000**	**$20,000,000**	**$15,000,000**	**$10,000,000**	**$8,000,000**	**$8,000,000**	**$8,000,000**	***Company can take the exploration tax credit OR the capital credit but not both.***
Lease Expense deduction or .023 (b) NOL credit	$5,000,000	$5,000,000	$5,000,000	$5,000,000	$5,000,000	$5,000,000	$5,000,000	$5,000,000	Assumes 25% tax rate (or NOL credit)
Exploration Incentive Credit - against Corporate Income Tax									A company claiming the EIC may not "claim a tax credit or royalty modification provided for under any other title" -AS 43.20.043 (g). We assume language will be changed to also disallow a tax credit under title 43. In most cases the exploration incentive credit will NOT be claimed because production tax credits provide greater benefit.
Rate	10%	10%	10%	10%	10%	10%	25%	10%	
Amount	$2,000,000	$2,000,000	$2,000,000	$2,000,000	$2,000,000	$2,000,000	$5,000,000	$2,000,000	
.024 Small Producer Credit	Can provide up to a $12 million / year benefit against production tax; cannot be used to reduce liability below zero. Applied on a company - wide basis.								
Other	Capital, exploration and NOL credits for production tax may be eligible for state purchase under AS 43.55.028								
						Corporate income tax credit for gas storage facilities.			
Total State Contribution	**$9,000,000**	**$13,000,000**	**$25,000,000**	**$20,000,000**	**$15,000,000**	**$13,000,000**	**$13,000,000**	**$13,000,000**	State contribution is Capital or exploration credit + Lease expenditure or NOL credit
State contribution % of cost	**45%**	**65%**	**125%**	**100%**	**75%**	**65%**	**65%**	**65%**	

Assumes Well will qualify as an exploration well for Exploration Tax Credit purposes.

FISCAL NOTE #1

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. CSHB 229(RES)

ANALYSIS CONTINUATION

Bill Language:

This bill extends the existing Gas Exploration and Development tax credit for investment in qualified capital expenditures and related qualified services, dealing with those capital expenditures. The Gas Exploration and Development tax credit is taken against the Corporate Income Tax (CIT), before any other federal or state credits are taken. One hundred percent of a company's tax liability can be offset by this credit in a given tax year. Additionally, credits from prior years must be used before current year credits can be used. A credit must be used within five years, otherwise it expires.

Currently, 10% of qualifying capital expenditures and operating expenditures can be taken as capital credits, sunsetting in 2013. The bill would increase the credit rate to 25% for qualifying capital and service expenditures incurred after June 30, 2011 for tax years beginning after December 31, 2010. The 25% rate would sunset on January 1, 2020. Under existing law all remaining tax credits under AS 43.20.043 expire December 31, 2017. This bill would change the sunset date to expire the tax year ending December 31, 2024.

In order for an expenditure to qualify for the 10% rate, cash expenditures or binding payment agreements must be made between June 30, 2003 and before July 1, 2011. Expenditures qualify for the 25% rate cash expenditures or binding payment agreements must be made after June 30, 2011.

The credit is limited to activities south of 68 degrees North latitude and exempts delivery of Alaska North Slope natural gas to tidewater.

Revenues:

It is difficult to determine the number of taxpayers who would take advantage of this tax credit, the degree to which the credit would be utilized, and other exogenous variables impacting the revenues the state would collect. Reduction in CIT are indeterminate at this time.

Additionally, the State of Alaska would most likely see a decline in the use of other credits. For example, since a taxpayer would have to utilize the Gas Exploration and Development tax credit first, it is likely we would see a reduction in the Education Credits. Especially, if the taxpayer has limited tax liabilities.

Expenditures:

The provisions of this bill could be implemented with existing state resources. No additional personnel or resources would be needed, since the DOR is already performing these duties.

Cook Inlet Natural Gas: The Way Forward

Study conducted by

Petrotechnical Resources of Alaska

Sponsored by:
ENSTAR Natural Gas
Chugach Electric Association
Municipal Light & Power

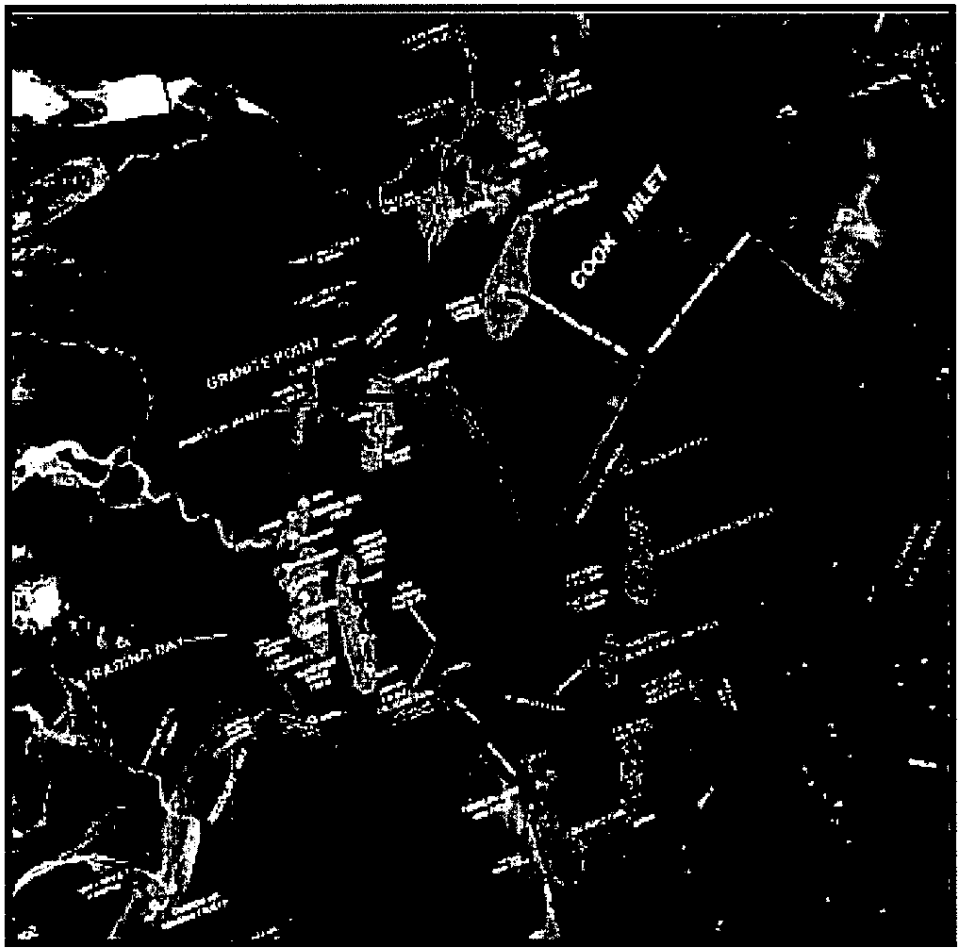
PRA
Petrotechnical Resources Alaska

Why Do Utilities Care About Cook Inlet Gas?

- ENSTAR
  - Cook Inlet gas provides 100% of supply
  - 2009 consumption: 32.5 Bcf
- Chugach
  - Cook Inlet gas used for 90% of generation
  - 2009 consumption: 26 Bcf
- ML&P
  - Cook Inlet gas used for 88% of generation
  - 2009 consumption: 10.8 Bcf

PRA
Petrotechnical Resources Alaska

Where Does Gas Come From?



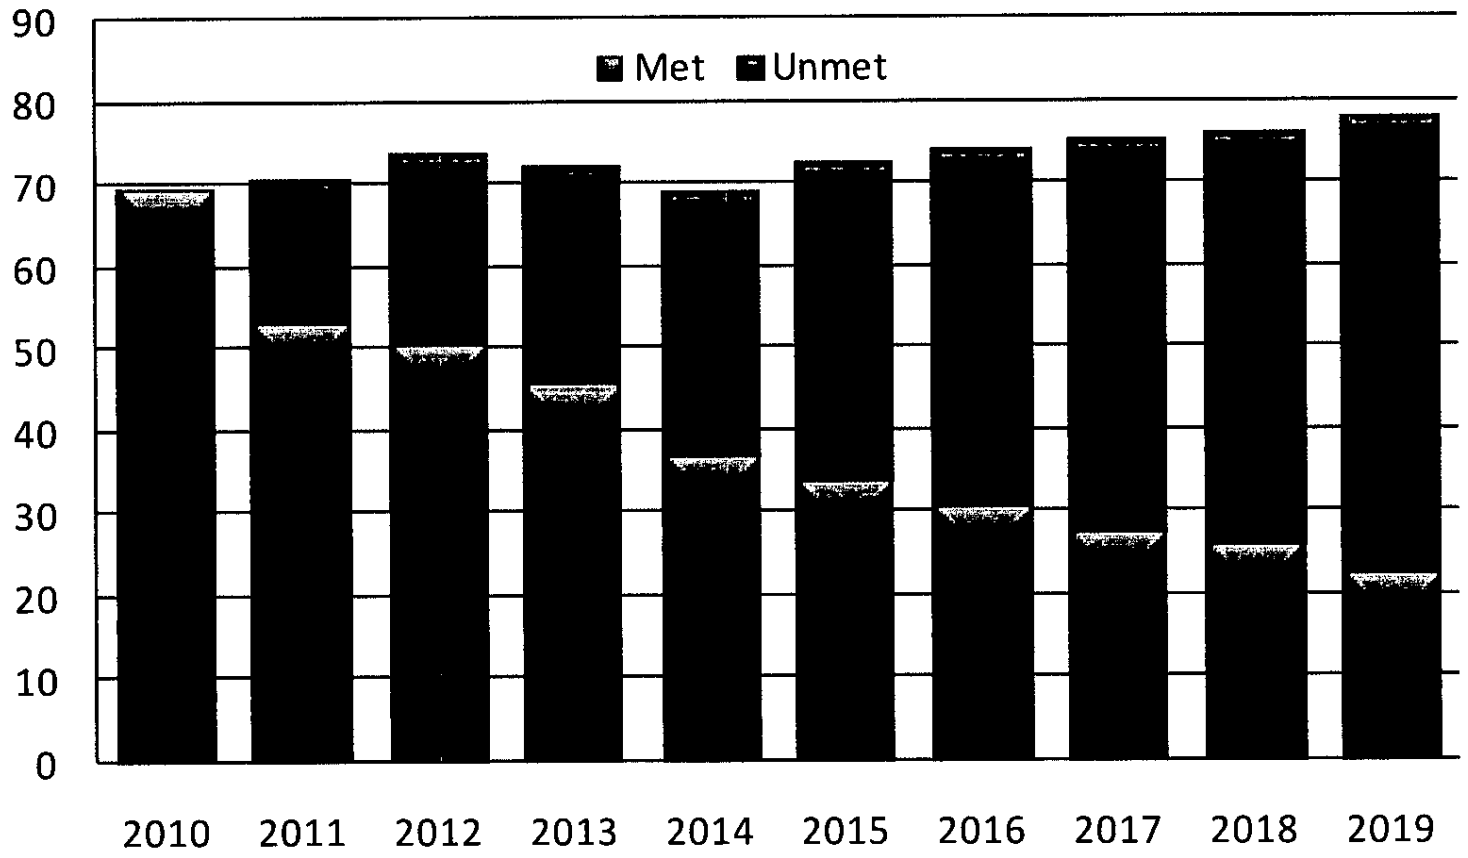
PRA
Petrotechnical Resources Alaska

Gas Under Contract/Ownership

- ENSTAR
  - 100% of needs met through 2010
  - Approximately 25% unmet needs beginning 2011
- Chugach
  - 100% of needs met to spring 2011
  - 50% met through 2014; 60% in 2015; 29% in 2016
- ML&P
  - Share of Beluga field estimated to meet majority of needs through 2015

PRA
Petrotechnical Resources Alaska

Combined Utility Met and Unmet Gas Demand



Supply Concepts

- Reserves
  - Proven
  - Probable
  - Possible
- Annual supply
- Deliverability (seasonal demand)
  - Storage
    - Needed by winter 2011-2012
    - Agreement in progress

Annual Supply

Cook Inlet Gas Study

PRA
Petroleum Resources Alaska

The Study

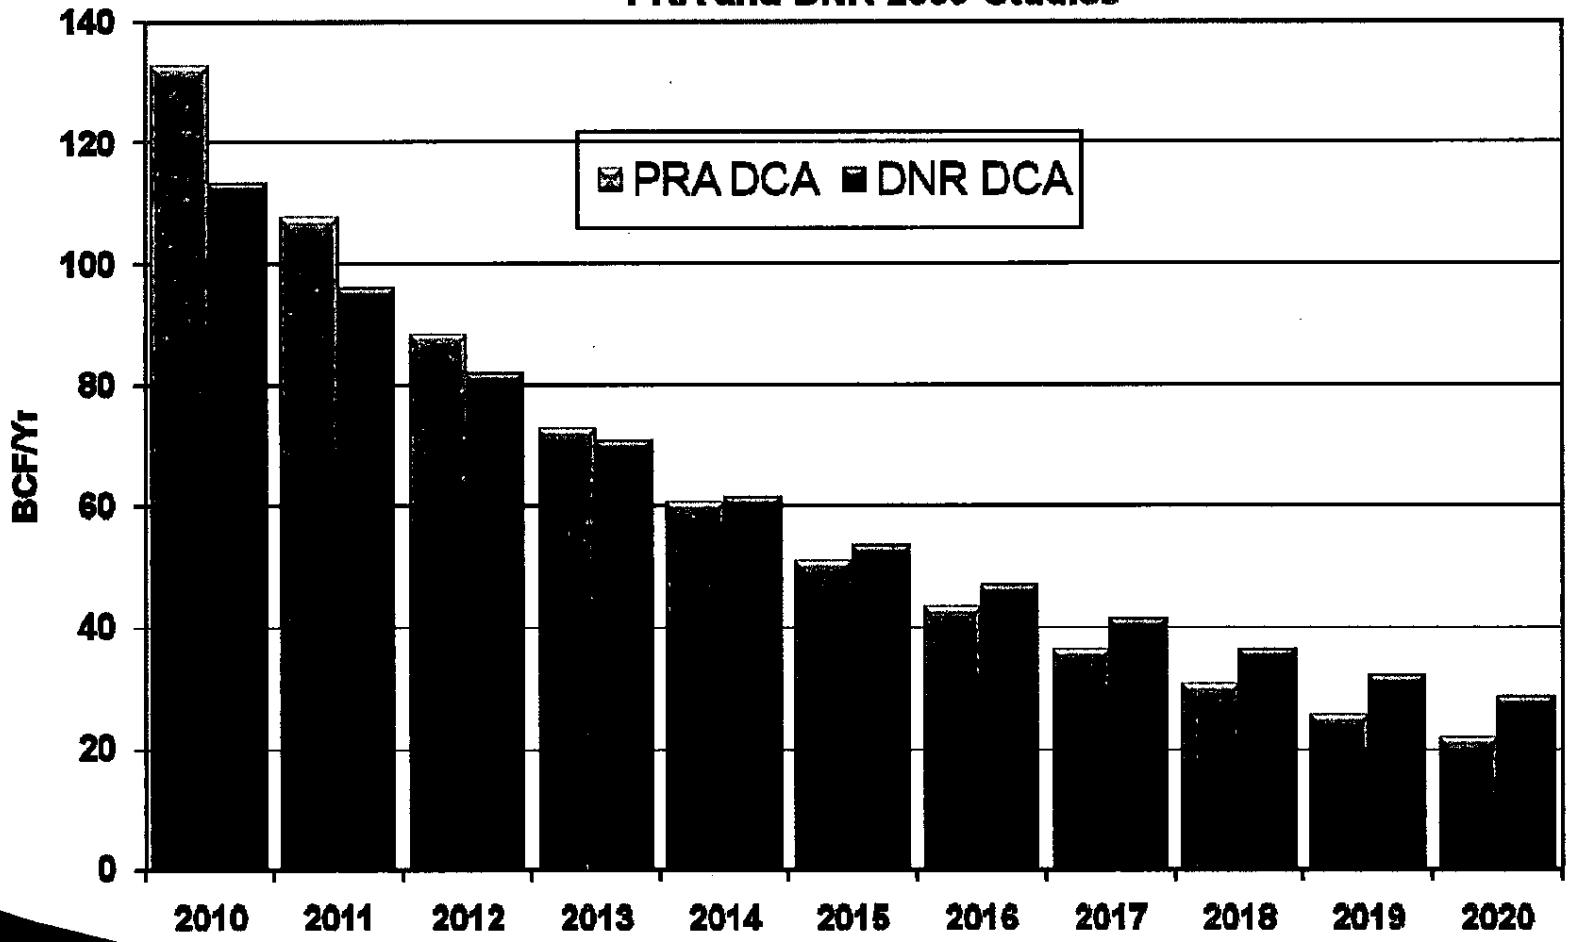
- Commissioned by ENSTAR, Chugach and ML&P
- Performed by PRA
- Completed March 2010

PRA
Petrotechnical Resources Alaska

Study Objectives

- Review DNR reserves analysis
- Review the deliverability of Cook Inlet gas wells drilled from 2001-2009
- Forecast deliverability of existing and future gas wells
- Analyze timing required for delivery of non-Cook Inlet gas sources

Cook Inlet Gas Production Forecast from Decline Curve Analysis PRA and DNR 2009 Studies



PRA
Petrotechnical Resources Alaska

Methodology

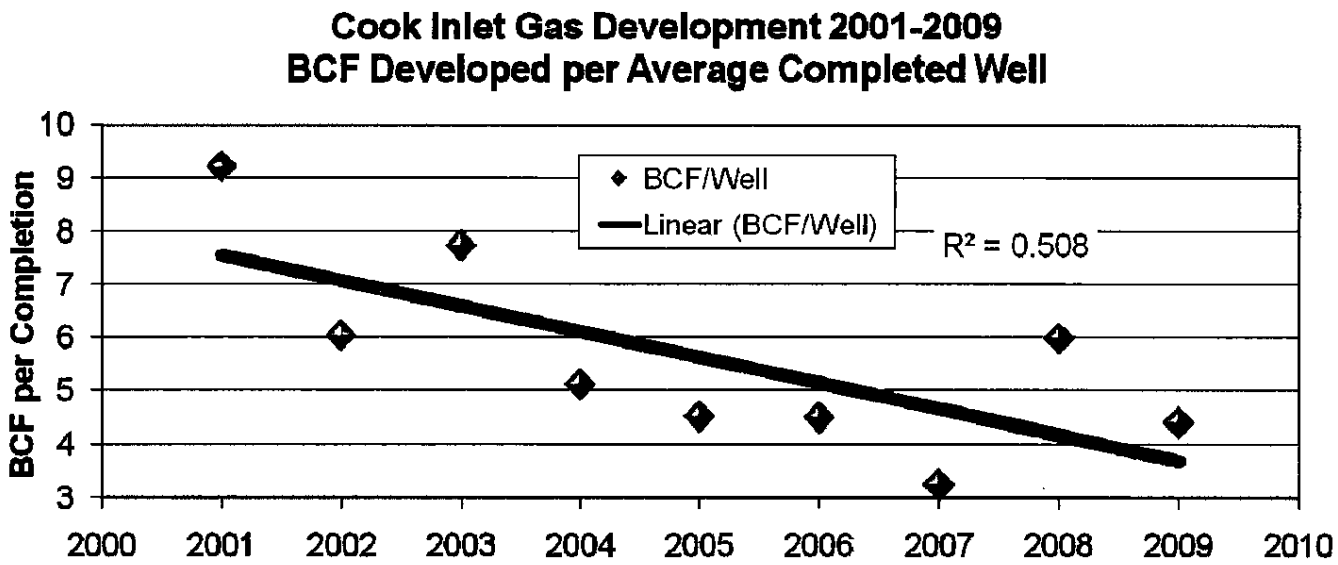
- Field-level decline curve analysis
- Individual well decline curve analysis
  - Initial Production
  - Production profile
- IP progression through time
- Calculate activity required to meet demand
- POD review
- Analysis of business drivers

Cook Inlet Drilling Results

Period	Gas Wells Drilled	Gas Wells Completed	Initial Production (MMCF/day)
2001–2009	128	105	3.6 per well
2007–2009	34	34	3.1 per well

PRA
Petroleum Resources Alaska

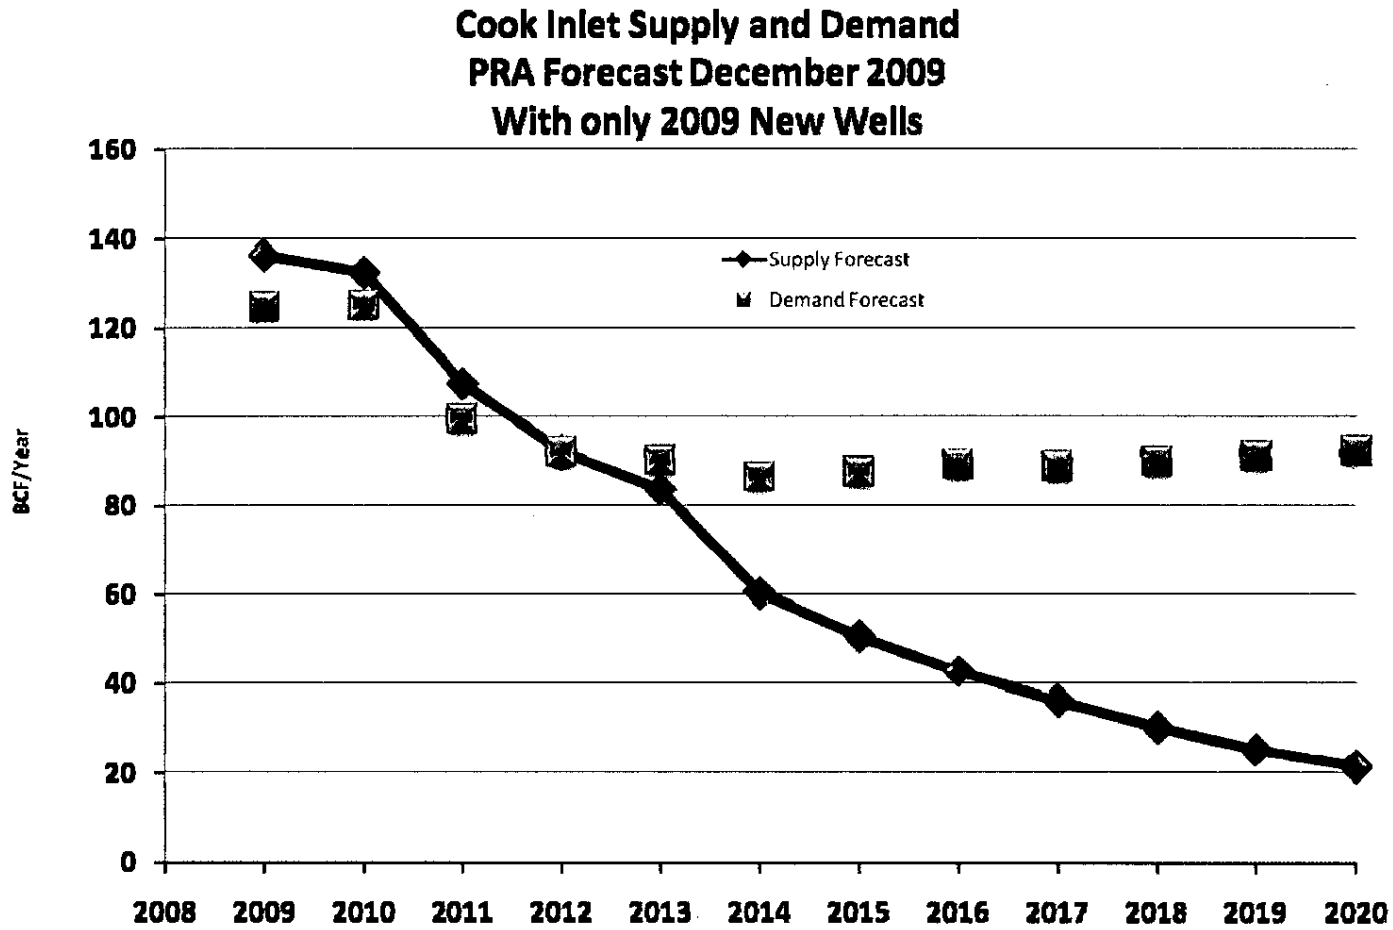
Cook Inlet Gas Development



The Problem

- Both PRA and DNR conclude from decline curves we have annual supply problems by 2013 if no new wells are drilled
- PRA study concludes that significant development activity is required

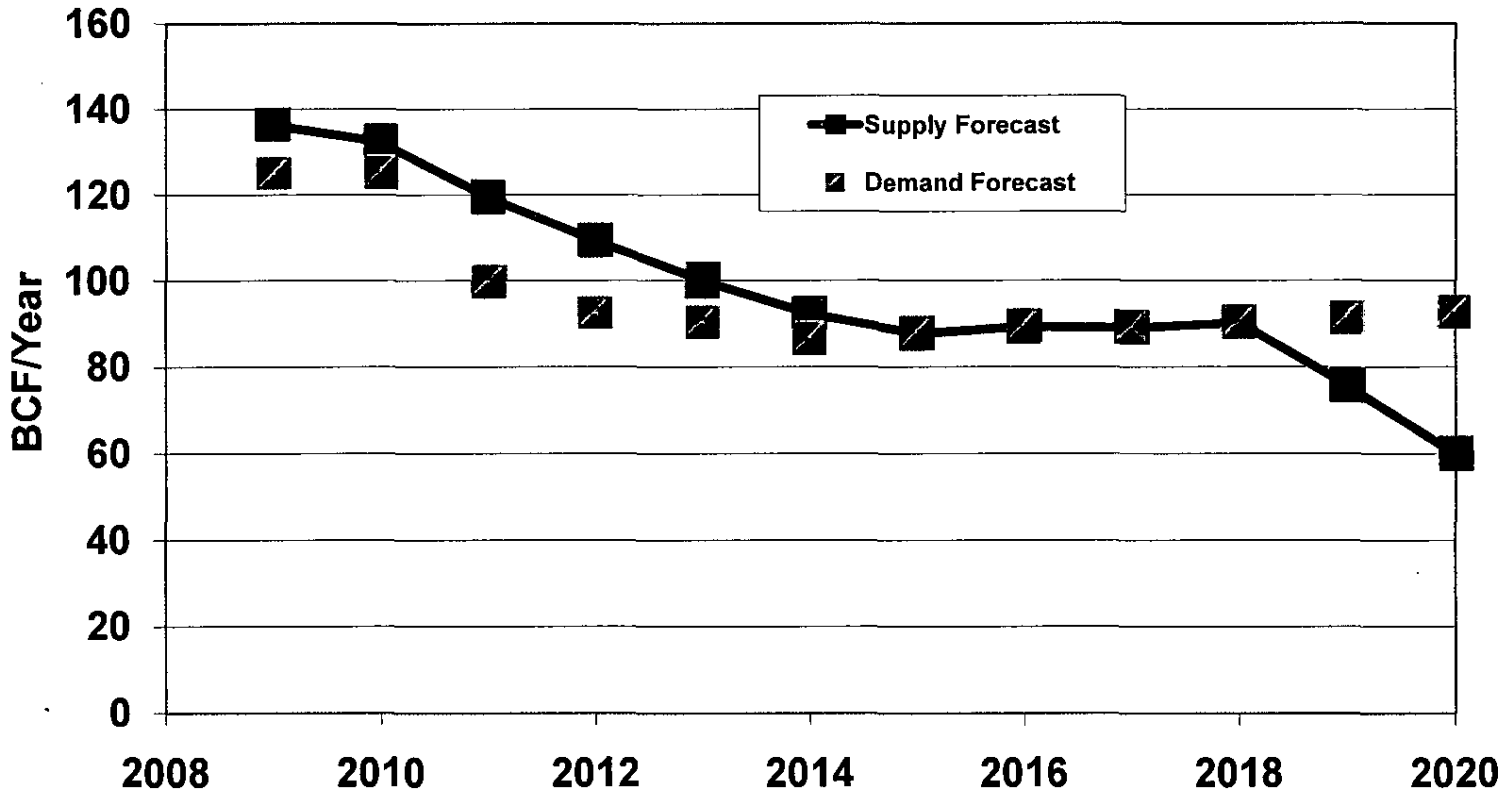
Annual Supply



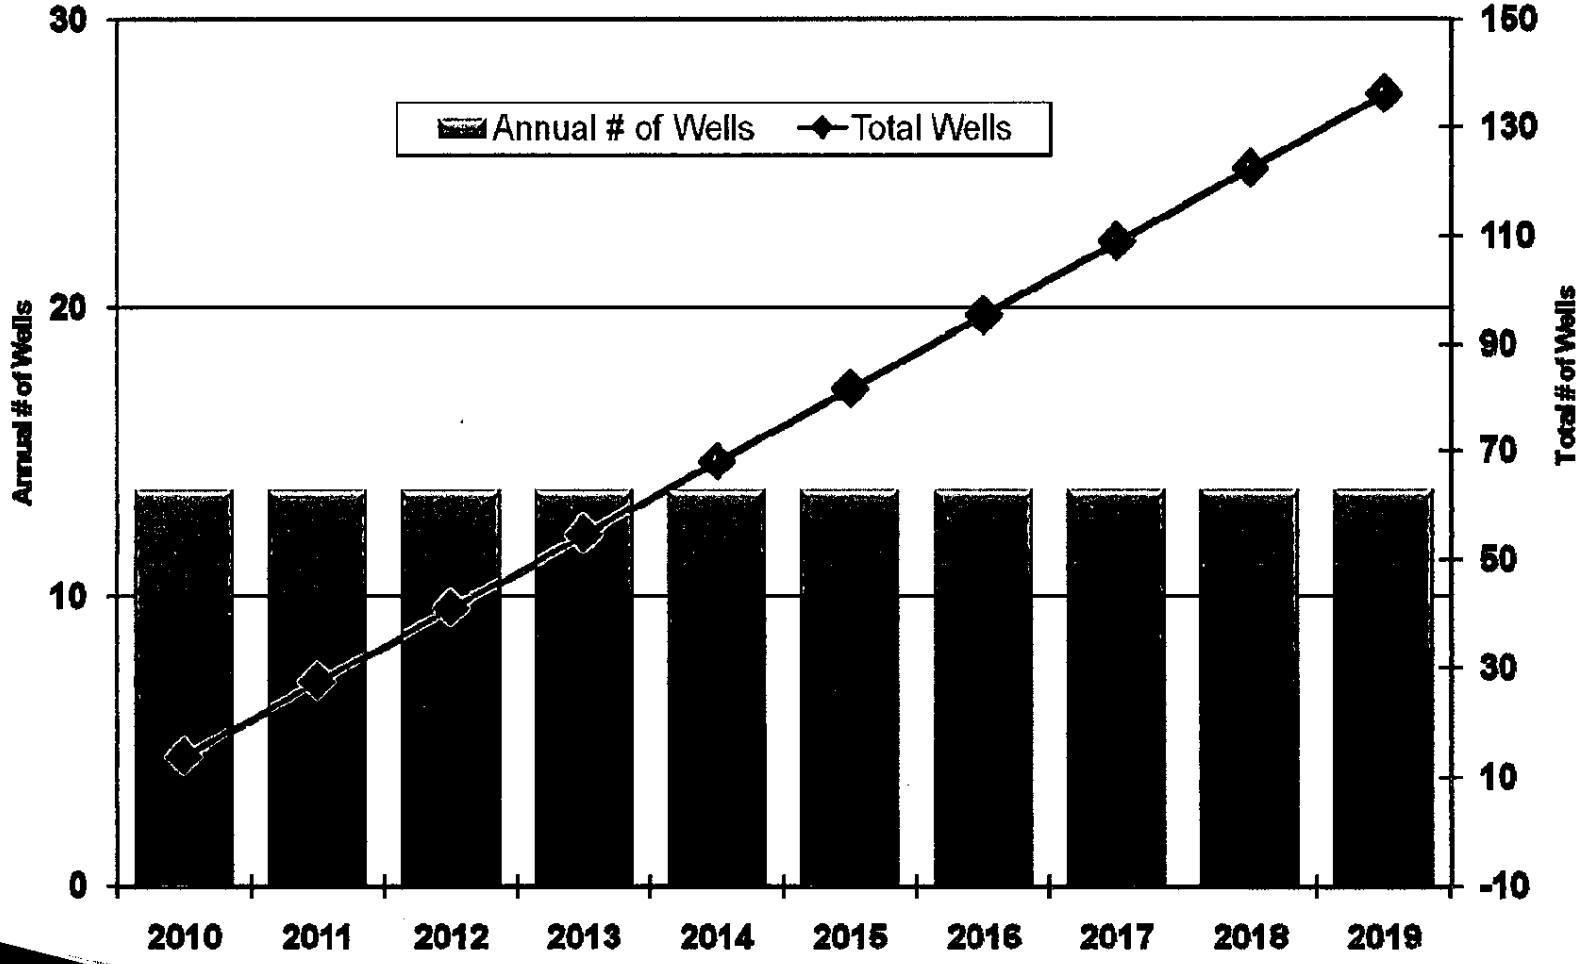
Scenarios

- With development drilling continuing at the same pace as in 2007-2009, supply is sufficient to meet demand until 2018, assumes 136 new wells being drilled

Cook Inlet Supply and Demand
PRA Forecast December 2009
Assumes 2007-09 Drilling Activity of 13.6 Completions/Yr 2010 to 2019



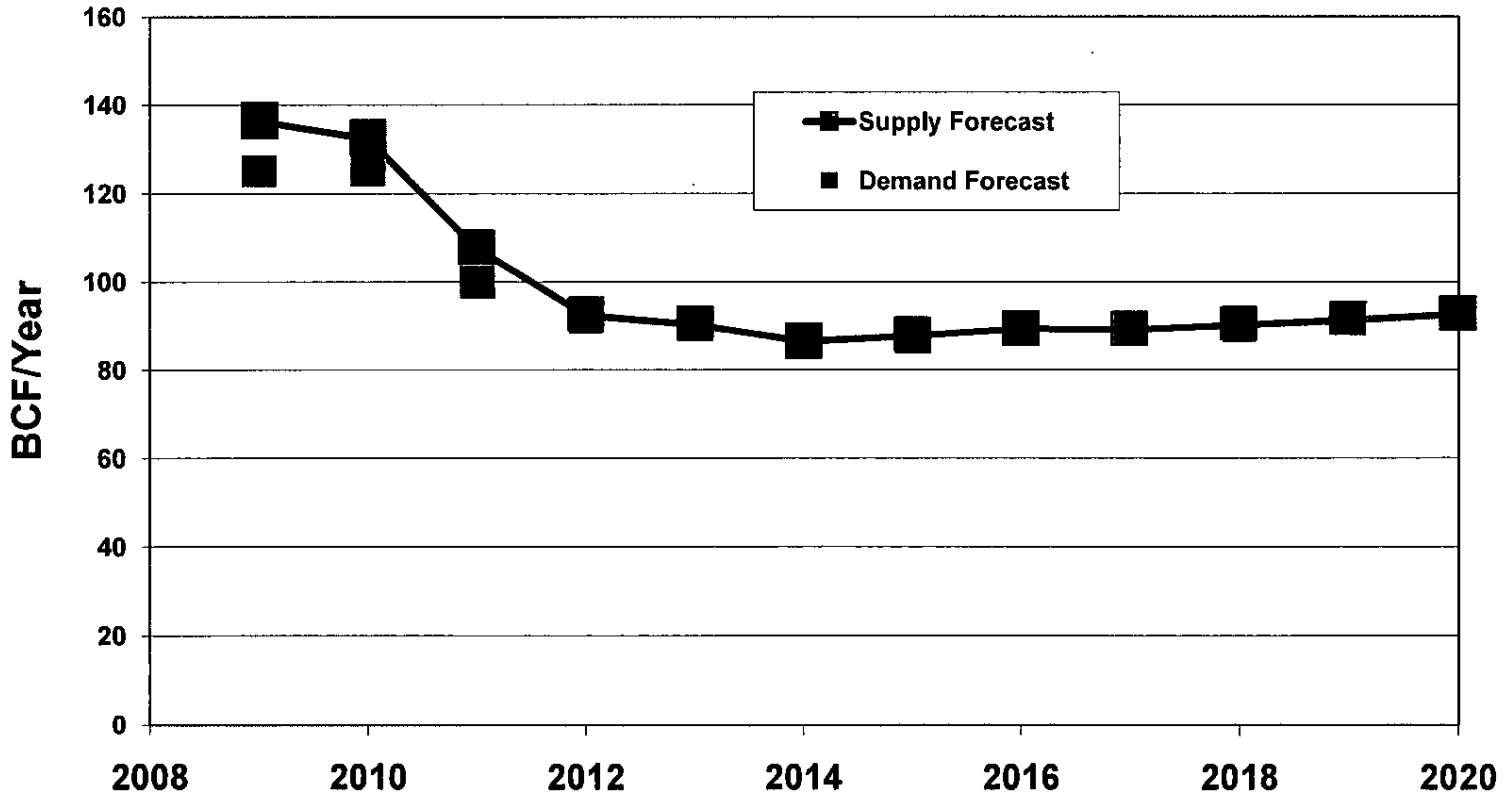
136 Wells Completed 2010 to 2019
(2007-09 Level of 13.6 Completions/Yr)



Scenarios

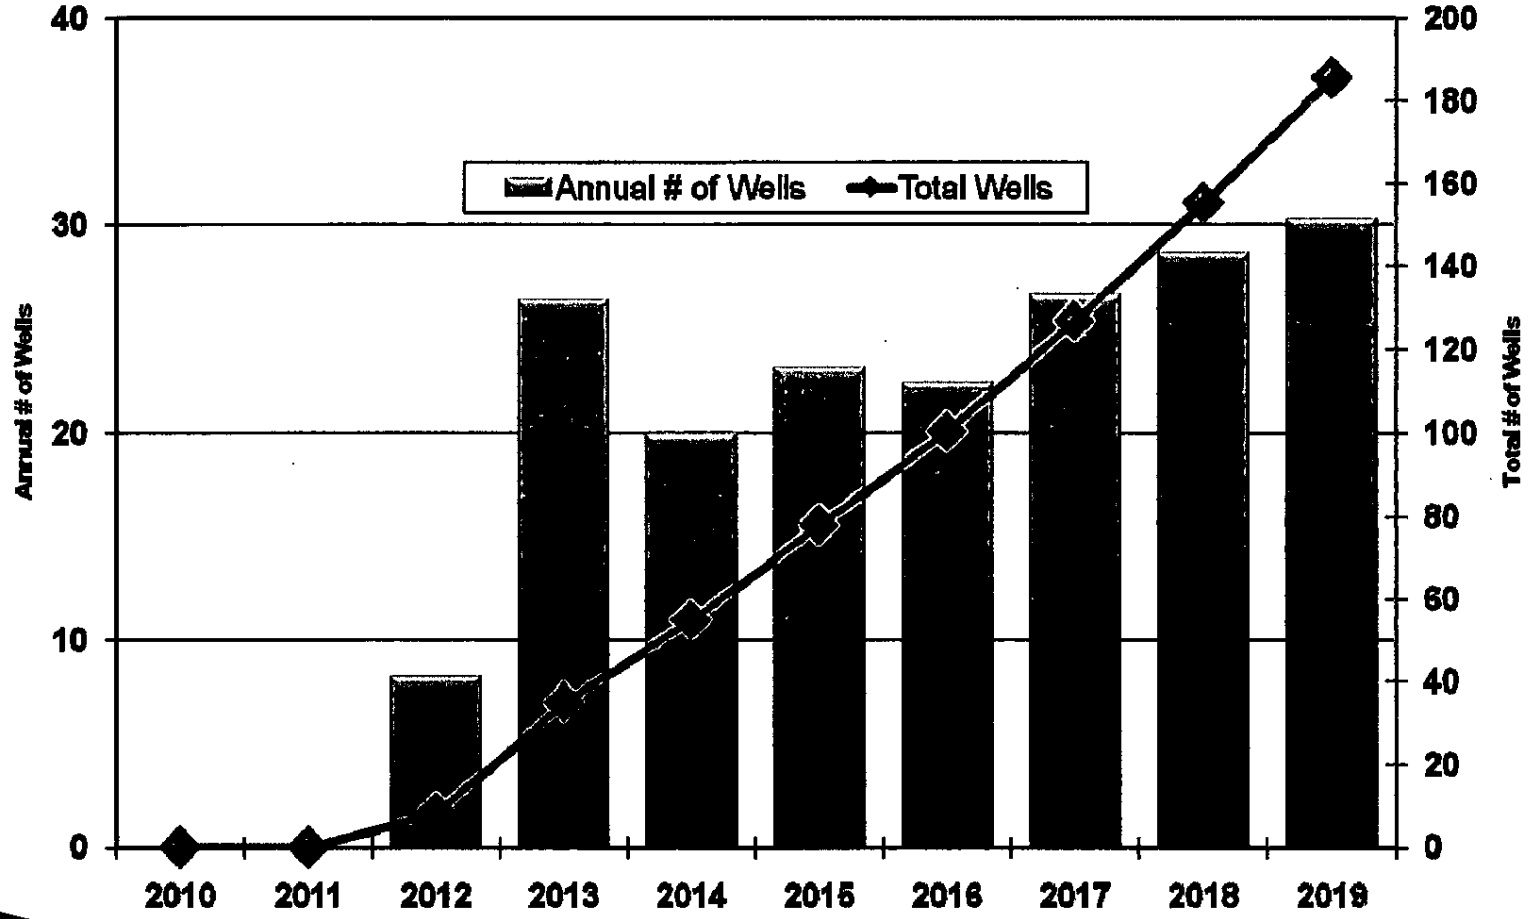
- If current trends in drilling success rates continue, an estimated 185 new wells must be drilled to meet utility needs between now and 2020

Cook Inlet Supply and Demand
PRA Forecast December 2009
Includes 185 Wells Completed to Meet Demand to 2020



PRA
Petroleum Resources Alaska

185 Wells Completed 2012 to 2019
Meet Demand Through 2020



PRA
Petrotechnical Resources Alaska

The Cost

- The estimated cost of drilling & development in the past decade was $1 – $1.2 billion
- The estimated cost of drilling & development in the coming decade is $1.9 - $2.8 billion
- Higher production costs will lead to higher prices for energy

Caveats

- Near-term drilling **must** be successful or gas resources from outside the Cook Inlet could be required as early as 2013
- If near-term drilling does not keep pace with demand, **the only viable option is LNG imports**; that option requires immediate action
- LNG imports could be necessary for several years until an in-state gas line is available

Where Must We Go From Here?

PRA
Petrotechnical Resources Alaska

Immediate Actions Needed

- New gas supply agreements between Cook Inlet Utilities and producers
- Predictable timelines and standards for RCA approval of agreements
- Utilities must secure storage
- Continue customer awareness, conservation and curtailment plans

PRA
Petrotechnical Resources Alaska

Immediate Actions Needed (cont.)

- Land management processes must be streamlined
- Determine how gas will come to the region to meet long-term needs of consumers
- Attract exploration & development companies

PRA
Petrotechnical Resources Alaska

2020
Projected level of demand for Cook Inlet natural gas
$1.9 to $2.8 billion capital investment required to increase supply of gas needed to meet demand from existing and new wells
Projected level of supply if no new Investment is made to develop additional production in the Cook Inlet

The Way Forward

- Increase drilling in Cook Inlet
  - Streamline resource development processes
  - Timely contract approval to incent drilling
- Facilitate natural gas storage
- To backstop drilling program, develop LNG import options for 2013
- In-state gas line offers long term solutions

State of Alaska

Department of Revenue

Commissioner's Office

SEAN PARNELL, GOVERNOR
333 Willoughby Avenue, 11th Floor
P.O. Box 110400
Juneau, Alaska 99811-0405
Phone: (907) 465-2300
Fax: (907) 465-2394

ALASKA DEPARTMENT OF REVENUE
TAX DIVISION

REPORT ON THE GAS EXPLORATION AND DEVELOPMENT TAX CREDIT UNDER AS 43.20.043

August 7, 2009

The uncodified law of Alaska requires the Department of Revenue to prepare and publish a report, not later than November 30, 2008, on the effect of the gas exploration credit under AS 43.20.043 Gas Exploration and Development Tax Credit.

The scope of the study is defined by

- legislation enacted in 2003
- tax year beginning after December 31, 2002
- NOT located in the area of Alaska lying north of 68 degrees north latitude

The metrics established to measure the effect are

- number of successful gas discoveries
- volume of new gas reserves
- credits allowed that are applied to the tax liability
- credits applied for that are not yet approved
- royalties obtained and production taxes paid

This report addresses each item in Sec. 4 according to the above metrics and scope.

(1) the number of successful gas discoveries for which a tax credit is provided under AS 43.20.043.

The Department has received claims for three operating units.

(2) the volume or amount of <u>new</u> gas reserves brought into production for which a tax credit is provided under AS 43.20.043.

None. The three operating units for which the Department received claims had already announced the discoveries prior to enactment of the legislation. The natural gas reserves associated with those discoveries are not considered new in the sense of being attributable to the legislation.

(3) the total credits <u>allowed</u> under AS 43.20.043 that are applied to the tax liability through the date of preparation of the report.

Confidentiality precludes disclosing the amount of credits claimed due to the number of credit claimants.

(4) the total credits applied for under AS 43.20.043 that are not yet approved as of the date of preparation of the report.

AS 43.20.043 does not contain any requirement for pre-approval. Pre-approval is not a customary provision for business tax credits in either the federal or state corporate income tax codes.

(5) royalties obtained and oil and gas property (and) production taxes paid from new gas production and anticipated from gas production for which credits are allowed under AS 43.20.043.

None. Companies applying for credits have not announced any new gas discoveries since enactment of the legislation. Without discoveries after the enactment of the legislation, there are no "new" reserves from which to produce "new" gas and thereby collect the associated royalties and taxes.

(6) any other information that, in the judgment of the commissioner of revenue, would evaluate the effectiveness of the gas exploration and development tax credit authorized under AS 43.20.043.

The Commissioner offers no additional information at this time.

Testimony of Carri Lockhart, Marathon Oil Co, in support of State of Alaska HB 229
House Resources Committee
March 15, 2010
DRAFT

Good afternoon. My name is Carri Lockhart and I am the Production Manager for Marathon Oil Company's Alaska Business. Before I begin, I would like to extend the appreciation of Marathon Oil Company, for this opportunity to testify in support of House Bill 229.

By way of background, Marathon Oil Company's Alaska operations are focused on natural gas production operations, limited to Cook Inlet. In 2009, our natural gas sales from Alaska averaged 87 mmcf/d. We sold to essentially every natural gas market available including the local utilities - Enstar and Chugach Electric, Tesoro, and the Department of Defense. We also provided natural gas to the ConocoPhillips/Marathon LNG plant. Marathon

has been in business in AK for over 55 years and we remain committed to serving the natural gas needs of SouthCentral AK through our various contractual commitments.

As you are aware, in 2003 the Legislature passed, and the Governor signed several bills directed at providing incentives for new exploration and development activities. Marathon was particularly interested in House Bill 61, which was intended to incentivize the exploration and development of natural gas reserves in the Cook Inlet. The bill under consideration by this committee, HB 229, will merely strengthen the incentives provided for by the earlier bill.

One might ask about the need to provide incentives for natural gas development in the Cook Inlet. The answer to this question is found by considering the long-term decline in natural gas reserves and deliverability which the Cook Inlet has experienced. What must be addressed is whether there is currently sufficient exploration and development activity to address such decline in reserves and deliverability, and not simply to ask whether the Cook

Inlet is running out of gas. At the current minimal level of Cook Inlet activity it is unlikely that Cook Inlet reserve additions will replace annual production on an ongoing long-term basis. As such, natural gas reserves and deliverability are at risk for continued decline in the Cook Inlet, resulting in the exposure to unmet utility needs in the future.

The lack of Cook Inlet activity (especially exploration) is an artifact of the historic oversupply of natural gas which kept prices well below lower-48 indexed prices, creating a lack of incentive for additional drilling. Furthermore the regulatory processes and deterioration in market availability have added to project uncertainty. The project economics and market uncertainties have made it difficult for projects to complete effectively for finite funding.

So how will HB 229 help?

As we are all painfully aware, Alaskan project economics are not considered solely on their absolute merit. They are also scrutinized on a relative scale in comparison to other worldwide opportunities in which companies such as Marathon may invest. The intent of HB 229 is to help level the playing field between Alaskan projects and other investment opportunities around the world.

HB 229 is intended to continue to provide an incentive to oil and gas exploration and development activities through an investment tax credit. You should have before you the committee substitute for HB229 (version E). Since this is the first hearing for HB229, let me walk through the main points of this new legislation: This legislation makes six significant changes to current law:

1. Section 1 increases the amount of the credit from 10% to 25% of the amount of qualified capital investment and qualified services spending as well as clarifying that the credits can apply to costs incurred for a gas reserve for which the taxpayer previously elected to claim a credit.

2. Section 2 adjusts the dates for when qualified expenditures must be made to qualify for the old 10% and new 25% credits. It also changes the term "reserves" to "wells" to clarify that "wells" produce gas whereas "reserves" are what is being produced.
3. Section 3 removes the 50% limitation on the amount of credits that can apply in a single year, increasing the time value of money for the credits.
4. Section 4 clarifies that the credits do not apply to North Slope gas that is brought into Southcentral.
5. Section 5 removes the "successful efforts" requirement that developers must find and deliver new gas resources to market to qualify for the credit. It also clarifies that the credits can be applied to a gas reserve regardless of whether or not there has been previous gas production in the area.
6. Section 6 clarifies that the credits can be taken on a current tax return, on a timely filed tax return or on a timely filed tax

return for the year immediately following the year the qualified capital investment is made.

7. Section 7 adjusts the date the credits expire from 2017 to 2024.
8. Section 8 extends the sunset date of the investment tax credit from January 1, 2013 to January 1, 2020.
9. Section 9 is gives this legislation an immediate effective date.

In summary, Marathon Oil Company believes HB 229 is one part of the equation to enhance Cook Inlet exploration and development activities, attempting to create more certainty in the overall natural gas deliverability in Cook Inlet. I would also add that timing is important. It takes multiple years to properly plan and execute drilling activity in Cook Inlet, which is necessary to meet future overall deliverability needs in SouthCentral AK.

I would be happy to answer any questions the committee may have.

AIDEA Role and Approach for HCR 19

Prepared for the House Finance Committee
By AIDEA
29 March 2010

HCR 19
Urging the Alaska Industrial Development and Export Authority to ***present a business case*** to the Alaska State Legislature that includes a method for financing, a plan to solicit proposals for a public and private venture, and an objective ***analysis of the economic and business feasibility*** of a state-built and privately operated fuel storage facility that would serve the public interest.

AIDEA's Role

- Provide an objective analysis examining both the economic development impact and feasibility of a storage facility as well as the long term viability of the project
- As part of the analysis identify potential private and public sector users of the facility
- In conjunction with EconOne, look all aspects of the fuel supply system in the State and the impact additional storage would have for the different regions
- Examine possible ways of financing this project which could include AIDEA financing through ownership as a Development Finance Project (AS 44..88)
- As a possible owner of the storage facility, act as a consolidator for multiple users and demands assuring open access to storage

Economic and Business Feasibility Analysis

- Examine jet fuel security, including:
  - Commercial – Air Cargo
  - Military – Elmendorf (currently short 350,000 barrels of storage), Eielson
- Examine opportunities and threats to the existing fuel supply chain
- Address potential storage opportunities for fuel delivery to Western Alaska
- Examine the supply needs for Railbelt gasoline
- Conduct an economic impact analysis on current and additional storage capacity with regards to net economic activity, job retention and growth, and economic diversification.
- Identify potential way forward to secure users of the facility (obtaining operator, open access to users, open season on storage commitments) prior to financing

Action Plan

1. Market Analysis – EconOne (Currently being performed under the direction of the Department of Law)
2. Engineering Layout and Cost Estimate (AIDEA)
3. Develop the requested business case looking at potential unmet market needs, impact on businesses, impact of market risks, impact of supply risks as well as determining the "best fit (AIDEA and EconOne)
4. Report back to the Legislature (AIDEA)

The mission of the Alaska Industrial Development and Export Authority is to promote, develop and advance economic growth and diversification in Alaska by providing various means of financing and investment

Sec. 43.20.043. Gas exploration and development tax credit.

(a) Subject to the terms and conditions of this section, and in addition to any other credit authorized to the taxpayer by this chapter, a taxpayer that is an operator or working interest owner directly engaging in the exploration for and development of gas may apply as a credit against the state tax liability that may be imposed on the taxpayer under this chapter, for a tax year beginning after December 31, 2002,

(1) 10 percent of the taxpayer's qualified capital investment; and

(2) 10 percent of the annual cost incurred by the taxpayer for qualified services in the state during each tax year for which a credit is allowable for a qualified capital investment under (1) of this subsection.

(b) Expenditures qualifying for the taxpayer's qualified investment credit under (a)(1) of this section must be

(1) cash expenditures or binding payment agreements entered into after June 30, 2003; and

(2) made for assets first placed in service in the state in or before the tax year in which the credit is claimed through the date the reserves produce gas for sale and delivery; for purposes of this paragraph, "placed in service in the state" means that the first use of the qualified investment is in this state; if the property on which the claim of the credit is based has been used elsewhere in the tax year of acquisition and is brought to this state during that year or a subsequent year, the property does not qualify for the investment credit.

(c) The credit per tax year allowed by (a) of this section may not exceed 50 percent of the taxpayer's total tax liability under this chapter, but shall be calculated before the application of any other credits allowed under this chapter. An unused portion of the credit for the tax year

(1) may be carried forward into one or more of the following tax years, except that the unused credit from one tax year may not be carried forward for more than five following tax years;

(2) shall be applied to the taxpayer's tax liability under this chapter during the following tax year before allowance of a credit allowed by (a) of this section for that following tax year.

(d) To obtain the credit allowed by this section, the taxpayer shall, with the taxpayer's tax return, submit, on a form prescribed by the department, information that demonstrates that the taxpayer is eligible for the credit and evidence of the expenses that are the basis of the claim of the credit. The taxpayer has the burden of demonstrating compliance with the requirements of this section to entitle the taxpayer to the claim of and the amount of the credit.

(e) A taxpayer entitled to a credit under this section

(1) may not convey, assign, or transfer the credit to another taxpayer or business entity unless the conveyance, assignment, or transfer of the credit is part of the conveyance, assignment, or transfer of the taxpayer's business;

(2) forfeits the credit to which the taxpayer is entitled during the tax year and any carryover of it under (c) of this section, but does not forfeit the portion of the credit that accrued in a previous taxable year that may be carried over under (c) of this section, if the taxpayer

(A) disposes of the qualified capital investment;

(B) takes the qualified investment out of service; or

(C) transfers the qualified investment out of this state.

(f) A taxpayer is not entitled to a credit under this section for expenditures that are made or incurred for the qualified capital investment or for qualified services made for exploration and development of gas that occur in the area of Alaska lying north of 68 degrees North latitude or that are made or incurred to transport gas from reserves located in the area of Alaska lying north of 68 degrees North latitude.

(g) A taxpayer who obtains a credit under this section may not claim a tax credit or royalty modification provided for under any other title. However, a taxpayer may, at the taxpayer's election, forgo a credit under this section in order to continue to qualify for a credit provided for in another title.

(h) For purposes of determining allowable credits under this section, the department shall allow only expenditures and payments that are not inconsistent with the expenditures authorized under 26 U.S.C. (Internal Revenue Code) for exploration and development of natural resources.

(i) In this section,

(1) "qualified capital investment" means a cash expenditure or binding payment agreement, as described in (b)(1) of this section, for real property or tangible personal property used in this state in the exploration and development of gas reserves in a gas reservoir for which there has not been commercial production if the reserves produce gas for sale and delivery; in this paragraph, "property" includes

(A) property used in the operation or maintenance of facilities for exploration or development of gas;

(B) property that is placed in use under a capitalized lease or an operating lease; and

(C) the following property used for the exploration and development of gas:

(i) machinery, appliances, supplies, and equipment;

(ii) drilling rigs, wells, gathering lines and transmission lines, pumping stations, compressor stations, power plants, topping plants, and processing units;

(iii) roads, docks and other port facilities, and helicopter pads;

(iv) maintenance equipment and facilities, and maintenance camps and other related facilities; and

(v) communications facilities owned by a person whose principal business in the state is the exploration for or development of gas and whose operation of the communications facilities directly relates to the conduct of that business;

(2) "qualified services"

(A) means expenditures for labor, seismic, and other services that are directly applicable to a qualified capital investment;

(B) does not include lease operating expenses.

History -

(Sec. 1 ch 61 SLA 2003)

Postponed Repeal Effective Date -.

Delayed repeal of section. - Under Sec. 2 and 5, ch. 61, SLA 2003, this section is repealed January 1, 2013.

Cross References -

For provision relating to the manner of handling the unused portion of the tax credit as a carry-forward during the period on or after January 1, 2013, and until December 31, 2017, see Sec. 3, ch. 61, SLA 2003, in the 2003 Temporary and Special Acts. For obligation of the Department of Revenue to prepare a report to the legislature on the effect of the tax credit authorized by this section, and to present the report at the beginning of the First Regular Session of the 26th Alaska Legislature, see Sec. 4, ch. 61, SLA 2003, in the 2003 Temporary and Special Acts.

Effective Date Notes -

Section 6, ch. 61, SLA 2003 makes this section effective June 12, 2003, in accordance with AS 01.10.070(c).

ALASKA DEPARTMENT OF REVENUE
TAX DIVISION

REPORT ON THE GAS EXPLORATION AND DEVELOPMENT TAX CREDIT UNDER AS 43.20.043

August 7, 2009

The uncodified law of Alaska requires the Department of Revenue to prepare and publish a report, not later than November 30, 2008, on the effect of the gas exploration credit under AS 43.20.043 Gas Exploration and Development Tax Credit.

The scope of the study is defined by

- legislation enacted in 2003
- tax year beginning after December 31, 2002
- NOT located in the area of Alaska lying north of 68 degrees north latitude

The metrics established to measure the effect are

- number of successful gas discoveries
- volume of new gas reserves
- credits allowed that are applied to the tax liability
- credits applied for that are not yet approved
- royalties obtained and production taxes paid

This report addresses each item in Sec. 4 according to the above metrics and scope.

(1) the number of successful gas discoveries for which a tax credit is provided under AS 43.20.043.

The Department has received claims for three operating units.

(2) the volume or amount of <u>new</u> gas reserves brought into production for which a tax credit is provided under AS 43.20.043.

None. The three operating units for which the Department received claims had already announced the discoveries prior to enactment of the legislation. The natural gas reserves associated with those discoveries are not considered new in the sense of being attributable to the legislation.

(3) the total credits <u>allowed</u> under AS 43.20.043 that are applied to the tax liability through the date of preparation of the report.

Confidentiality precludes disclosing the amount of credits claimed due to the number of credit claimants.

(4) the total credits applied for under AS 43.20.043 that are not yet approved as of the date of preparation of the report.

AS 43.20.043 does not contain any requirement for pre-approval. Pre-approval is not a customary provision for business tax credits in either the federal or state corporate income tax codes.

(5) royalties obtained and oil and gas property (and) production taxes paid from new gas production and anticipated from gas production for which credits are allowed under AS 43.20.043.

None. Companies applying for credits have not announced any new gas discoveries since enactment of the legislation. Without discoveries after the enactment of the legislation, there are no "new" reserves from which to produce "new" gas and thereby collect the associated royalties and taxes.

(6) any other information that, in the judgment of the commissioner of revenue, would evaluate the effectiveness of the gas exploration and development tax credit authorized under AS 43.20.043.

The Commissioner offers no additional information at this time.

LAWS OF ALASKA

2003

Chapter No.
_____

AN ACT

Establishing an exploration and development incentive tax credit for operators and working interest owners directly engaged in the exploration for and development of gas for sale and delivery without reference to volume from a lease or property in the state; and providing for an effective date.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

THE ACT FOLLOWS ON PAGE 1

AN ACT

Establishing an exploration and development incentive tax credit for operators and working interest owners directly engaged in the exploration for and development of gas for sale and delivery without reference to volume from a lease or property in the state; and providing for an effective date.

*** Section 1.** AS 43.20 is amended by adding a new section to read:

Sec. 43.20.043. Gas exploration and development tax credit. (a) Subject to the terms and conditions of this section, and in addition to any other credit authorized to the taxpayer by this chapter, a taxpayer that is an operator or working interest owner directly engaging in the exploration for and development of gas may apply as a credit against the state tax liability that may be imposed on the taxpayer under this chapter, for a tax year beginning after December 31, 2002,

(1) 10 percent of the taxpayer's qualified capital investment; and

(2) 10 percent of the annual cost incurred by the taxpayer for qualified

services in the state during each tax year for which a credit is allowable for a qualified capital investment under (1) of this subsection.

(b) Expenditures qualifying for the taxpayer's qualified investment credit under (a)(1) of this section must be

(1) cash expenditures or binding payment agreements entered into after June 30, 2003; and

(2) made for assets first placed in service in the state in or before the tax year in which the credit is claimed through the date the reserves produce gas for sale and delivery; for purposes of this paragraph, "placed in service in the state" means that the first use of the qualified investment is in this state; if the property on which the claim of the credit is based has been used elsewhere in the tax year of acquisition and is brought to this state during that year or a subsequent year, the property does not qualify for the investment credit.

(c) The credit per tax year allowed by (a) of this section may not exceed 50 percent of the taxpayer's total tax liability under this chapter, but shall be calculated before the application of any other credits allowed under this chapter. An unused portion of the credit for the tax year

(1) may be carried forward into one or more of the following tax years, except that the unused credit from one tax year may not be carried forward for more than five following tax years;

(2) shall be applied to the taxpayer's tax liability under this chapter during the following tax year before allowance of a credit allowed by (a) of this section for that following tax year.

(d) To obtain the credit allowed by this section, the taxpayer shall, with the taxpayer's tax return, submit, on a form prescribed by the department, information that demonstrates that the taxpayer is eligible for the credit and evidence of the expenses that are the basis of the claim of the credit. The taxpayer has the burden of demonstrating compliance with the requirements of this section to entitle the taxpayer to the claim of and the amount of the credit.

(e) A taxpayer entitled to a credit under this section

(1) may not convey, assign, or transfer the credit to another taxpayer or

business entity unless the conveyance, assignment, or transfer of the credit is part of the conveyance, assignment, or transfer of the taxpayer's business;

(2) forfeits the credit to which the taxpayer is entitled during the tax year and any carryover of it under (c) of this section, but does not forfeit the portion of the credit that accrued in a previous taxable year that may be carried over under (c) of this section, if the taxpayer

(A) disposes of the qualified capital investment;

(B) takes the qualified investment out of service; or

(C) transfers the qualified investment out of this state.

(f) A taxpayer is not entitled to a credit under this section for expenditures that are made or incurred for the qualified capital investment or for qualified services made for exploration and development of gas that occur in the area of Alaska lying north of 68 degrees North latitude or that are made or incurred to transport gas from reserves located in the area of Alaska lying north of 68 degrees North latitude.

(g) A taxpayer who obtains a credit under this section may not claim a tax credit or royalty modification provided for under any other title. However, a taxpayer may, at the taxpayer's election, forgo a credit under this section in order to continue to qualify for a credit provided for in another title.

(h) For purposes of determining allowable credits under this section, the department shall allow only expenditures and payments that are not inconsistent with the expenditures authorized under 26 U.S.C. (Internal Revenue Code) for exploration and development of natural resources.

(i) In this section,

(1) "qualified capital investment" means a cash expenditure or binding payment agreement, as described in (b)(1) of this section, for real property or tangible personal property used in this state in the exploration and development of gas reserves in a gas reservoir for which there has not been commercial production if the reserves produce gas for sale and delivery; in this paragraph, "property" includes

(A) property used in the operation or maintenance of facilities for exploration or development of gas;

(B) property that is placed in use under a capitalized lease or an

operating lease; and

(C) the following property used for the exploration and development of gas:

(i) machinery, appliances, supplies, and equipment;

(ii) drilling rigs, wells, gathering lines and transmission lines, pumping stations, compressor stations, power plants, topping plants, and processing units;

(iii) roads, docks and other port facilities, and helicopter pads;

(iv) maintenance equipment and facilities, and maintenance camps and other related facilities; and

(v) communications facilities owned by a person whose principal business in the state is the exploration for or development of gas and whose operation of the communications facilities directly relates to the conduct of that business;

(2) "qualified services"

(A) means expenditures for labor, seismic, and other services that are directly applicable to a qualified capital investment;

(B) does not include lease operating expenses.

*** Sec. 2.** AS 43.20.043 is repealed.

*** Sec. 3.** The uncodified law of the State of Alaska is amended by adding a new section to read:

CLAIM OF GAS EXPLORATION AND DEVELOPMENT TAX CREDIT CONTINUED. A taxpayer who, on the effective date of repeal of AS 43.20.043 by sec. 2 of this Act, claims the balance of any unused portion of the gas exploration and development tax credit as a carry-forward under AS 43.20.043(c), may, notwithstanding the repeal of that subsection, continue to claim the balance of the credit until the claim of the credit is exhausted or until the tax year ending December 31, 2017, whichever occurs earlier. The provisions of AS 43.20.043 as they read on the day immediately preceding the effective date of the repeal of that section apply to the claim of the credit if carried forward under this section.

*** Sec. 4.** The uncodified law of the State of Alaska is amended by adding a new section to

read:

REPORT ON EFFECT OF GAS EXPLORATION AND DEVELOPMENT TAX CREDIT. Not later than November 30, 2008, the Department of Revenue shall prepare and publish a report on the effect of the gas exploration and development tax credit authorized by AS 43.20.043, added by sec. 1 of this Act. The department shall advise the legislature of the availability of the report and, within the first 10 days of the First Regular Session of the Twenty-Sixth Alaska State Legislature, transmit copies of the report to the chairs or co-chairs of the House and Senate Resources Committees and the chairs or co-chairs of the House and Senate Special Committees on Oil and Gas, if established. The report must address

(1) the number of successful gas discoveries for which a tax credit is provided under AS 43.20.043;

(2) the volume or amount of new gas reserves brought into production for which a tax credit is provided under AS 43.20.043;

(3) the total credits allowed under AS 43.20.043 that are applied to the tax liability through the date of preparation of the report;

(4) the total credits applied for under AS 43.20.043 that are not yet approved as of the date of preparation of the report;

(5) royalties obtained and oil and gas property production taxes paid from new gas production and anticipated from gas production for production for which credits are allowed under AS 43.20.043; and

(6) any other information that, in the judgment of the commissioner of revenue, would evaluate the effectiveness of the gas exploration and development tax credit authorized under AS 43.20.043.

*** Sec. 5.** Section 2 of this Act takes effect January 1, 2013.

*** Sec. 6.** Except as provided in sec. 5 of this Act, this Act takes effect immediately under AS 01.10.070(c).

HB235 - Prof Student Exchange Loan Forgiveness

"An Act relating to professional student exchange program availability and conditions for loan forgiveness."

Status: PREFILE RELEASED >> (H) EDC : 2009-04-16

Through the Western Interstate Commission for Higher Education (WICHE), Alaska residents will be able to attend professional health care programs in dentistry, optometry and pharmacy which are not offered in the State of Alaska. HB 235 establishes a student loan forgiveness program entitlement of 25 percent forgiveness for participants who meet the following criteria: Alaska residency with intent to practice and maintain their license in the State of Alaska. An additional 25 percent loan forgiveness will be offered to participants who, in addition to previous criteria, practice in an underserved area or serve patients who are covered under the medical assistance program.

The WICHE program will resemble the WWAMI (Washington, Wyoming, Alaska, Montana, and Idaho) program which has been successful as a collaborative partnership between the University of Washington School of Medicine and the five northwestern states. The purpose of WWAMI is to provide publicly supported medical education to residents of this five state region, and train physicians who will return to practice in their home states.

Alaska communities continually face a decreasing number of health care providers and are seeing an increased trend in the number of retirees in certain professions. This is becoming an increasing concern as the number of underserved areas continue to grow and residents in many communities have to travel out of their communities in order to receive care.

Enticing health care providers to Alaska has been an ongoing challenge. Although our university system is constantly improving and adding more educational opportunities, we still lack many needed medical programs. House Bill 235 creates an incentive for the health care professions of dentistry, optometry, and pharmacy by offering a loan forgiveness program for practicing in Alaska.

February 4, 2010

The Honorable Paul Seaton
Chair, Education Committee
Alaska House of Representatives
State Capitol, Room 102
Juneau, Alaska 99801

Subject: CSHB 235 - An Act relating to the professional student exchange program...

Dear Representative Seaton:

At the February 1, 2010 committee meeting you posed two questions which required some additional analysis on my part to provide a response.

First you asked what, if any, impact would there be for borrowers of education loans if both CSHB 235 and CSHB 58(EDC) were to be enacted. As you know, CSHB 235 proposes to provide forgiveness benefits of up to a 50% discharge of the loan principal to certain borrowers in the Professional Student Exchange Program (PSEP).

CSHB 58(EDC) provides for repayment benefits to a much broader category of education loan borrowers, and is specifically described as an employee recruitment program. In that legislation, the Commissioners of Administration and Labor and Workforce Development are empowered to jointly identify professional fields and occupations for which there are worker shortages in Alaska. New employees in Alaska (subsequent to the date of enactment) serving in relevant positions and who have outstanding education loan debt could apply for repayment benefits in accordance with either of the two benefit schedules included in the bill. One schedule provides for full repayment of outstanding loans over four years in non-rural areas, and the other provides for full repayment over six years for employment in rural areas.

The bill does indicate that loans which are otherwise eligible for repayment benefits under another program are *not* eligible for benefits under CSHB 58(EDC). The net result, in my opinion, is that the PSEP borrowers would be eligible to apply for benefits under the other program only on *other* education loans they may have, or on their PSEP loan *after* they had exhausted their forgiveness benefits under the PSEP loan contract.

printed on recycled paper

The other issue you raised was whether, under the current bill language, ACPE would be unable to make non-forgivable loans to applicants in the three referenced fields in the event the Legislature failed to provide the funding for the loans. In fact, that would be problematic without some explicit provision to do so. Please find enclosed a copy of the advice I requested from the Department of Law on this matter.

I hope this information is responsive to your inquiry. Do not hesitate to contact me if there is other information I can provide.

Sincerely,

Diane Barrans
Executive Director

Enclosure

MEMORANDUM

State of Alaska
Department of Law

TO: Diane Barrans, Executive Director
Alaska Commission on
Postsecondary Education

DATE: February 2, 2010

FILE NO.: AN2009103894

FROM: Mary Ellen Beardsley MEB
Assistant Attorney General
Commercial/Fair Business Section
Anchorage AGO

TEL. NO.: 269-5213

SUBJECT: HB 235

You have asked me to look at HB 235 (and the draft CS for this bill) to determine what impact it will have on the Alaska Commission on Postsecondary Education (ACPE). I have reviewed the draft CS and the statutes being amended by this legislation.

AS 14.44.025 currently requires ACPE to establish funding priorities for the Professional Student Exchange Program (PSEP) that is administered by WICHE for certain fields of study. Participants in PSEP are required to repay the State the support provided to them under PSEP and the money repaid by the participants is placed in the education loan fund created under AS 14.42.210. There is currently no forgiveness provision in AS 14.44.040(a)

HB 235 proposes to establish a forgiveness provision in PSEP. HB 235 would require ACPE to forgive up to 50% of the total PSEP loan amount should the participant fulfill the requirements set out in AS 14.44.041. The language of HB 235 is mandatory and does not allow ACPE to issue PSEP loans without the loan forgiveness benefit. There is a funding concern as it relates to this mandatory language. There needs to be an ability on the part of ACPE to issue PSEP loans to participants without the loan forgiveness benefit in the event the legislature does not provide funding for loans containing the forgiveness benefit. Without this ability, ACPE might be required to exclude these fields from the PSEP in the years in which there is no funding since there would be no provision for offering PSEP loans that have no forgiveness benefit.

If I can be of further assistance please let me know.

MEMORANDUM January 12, 2010

SUBJECT: WICHE loan forgiveness (CSHB 235( ))
(Work Order No. 26-LS0913\R)

TO: Representative Cathy Muñoz
Attn: Kendra Kloster

FROM: Jean M. Mischel
Legislative Counsel

You have requested a sectional summary of the above-described bill.

As a preliminary matter, note that a sectional summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents. If you would like an interpretation of the bill as it may apply to a particular set of circumstances, please advise.

Section 1. Adds a subsection that requires the Alaska Commission on Postsecondary Education to provide funding for no fewer than five students in each of three areas of a four year program in dentistry, optometry, and pharmacy under the existing Professional Student Exchange Program of the Western Interstate Commission on Higher Education (WICHE) loan program.

Section 2. Adds a cross-reference to section 4 (sec. 3 in the A version) of the bill for loan forgiveness in the existing administration section for WICHE loans.

Section 3. Amends repayment provision for WICHE loans by cross-referencing current law that provides for repayment terms and conditions for medical school loans provided by the state. This is a modification of version A that established an annual five percent interest rate and limiting accrual of interest to program completion period.

Section 4. Adds two types of loan forgiveness for WICHE loans: (1) a five year five percent loan forgiveness option for state residents who practice here in the areas of dentistry, optometry, and pharmacy; and (2) a five year ten percent loan forgiveness option for professionals practicing in geographically underserved areas or by providing a minimum amount in gross billings under medical assistance coverage in the state. The percentage for type (2) forgiveness was doubled from five to 10 percent from version A. In addition, version R adds a cumulative maximum of fifty percent forgiveness of the original loan principal.

REPRESENTATIVE CATHY MUÑOZ

MEMORANDUM

TO: Representatives Hawker and Stoltze
Co-Chairs, House Finance

CC: Juli Lucky, Committee Aide to Rep. Hawker
Ben Mulligan, Committee Aide to Rep. Stoltze

FROM: Representative Cathy Muñoz

DATE: February 10, 2010

RE: Explanation of Changes

The House Education Committee adopted a committee substitute to HB 235 which included clarification language that sights a definition for the medical assistance program, AS 47.07, and clarification language which puts the WICHE program's interest rate on par with the current WWAMI program for medical students, AS 14.43.510.

In addition, the Department of Law issued an opinion sighting a funding concern with the mandatory language for funding the WICHE program. Language was added in section 4 which would allow the Alaska Commission on Postsecondary Education to issue loans through the WICHE program even without the loan forgiveness benefit should the legislature decide not to fund the program.

The Honorable Paul Seaton, Chairman
House Education Committee
State Capitol Rm. 102
Juneau, AK 99801

Dear Rep. Seaton and Committee Members:

On behalf of the members of the Alaska Dental Society I'm writing to urge passage of HB235 by your committee.

HB235 and its companion bill SB 174 will establish new funding and program guidelines for Alaska's participation in the Western Interstate Commission on Higher Education (WICHE). This bill will provide funding under the WICHE program for a partial tuition incentive for Alaskan residents to attend healthcare education programs not offered in Alaska: dentistry, pharmacy and optometry. The program would provide support in the form of a low interest loan that would be partially forgiven if the graduate returns to Alaska and an additional amount would be forgiven if the graduate practices in an underserved area or provides a percentage of care under the Medicaid system.

Alaska has long faced a shortage of healthcare providers in rural areas. A rapidly graying workforce and lack of providers to replace retiring practioners is quickly leading to a shortage in non-rural areas. The problem has become especially acute in Southeast. Petersburg has lost one of its two dentists, Wrangell has lost both of its private dentists and Ketchikan has lost one of its five private dentists. All sought replacement dentists for several years but ultimately were forced to retire without a dentist to take over their practices. This problem is not isolated to Southeast, however, it is merely riding the crest of the wave.

The cost to attend professional school has rapidly escalated resulting in heavy loan repayment burdens for graduating professionals. This forces new graduates to choose practice location based economic choices. In 44-four states there are one or more incentive programs for health professionals – Alaska is one of 6 states without a program. Encouraging Alaskan residents to seek careers in healthcare fields will pay several dividends. Returning Alaskan residents are more likely to remain in Alaska for their practicing careers providing a stable source of healthcare providers. In a troubled economy healthcare fields provide stable, well paying jobs and healthcare providers will employ additional people providing an economic boost for communities. Smaller communities without adequate healthcare professionals will continue to see population drift to larger communities and out of the state due to real and perceived inadequacies.

Respectfully yours

Gary A. Moeller, DDS
President, Alaska Dental Society

State Dental Loan Repayment Programs
Examples from Other States

Alabama
The Board of Dental Scholarship Awards was established to provide scholarships and scholarship loans for the education of qualified applicants for admission to dental schools in Alabama who agreed to practice in underserved areas. Repayment could be based on service alone, or on a combination of service and payments, depending on the location of the practice, rural verses urban, and the duration of time in that practice. The terms of various types of repayment are set out in the law.

Arizona
In exchange for loan repayment, a primary care provider shall contract with the Department to provide full-time continuous services at a specific eligible service site for a minimum of 24 months. Requires: a signed contract for current or prospective employment at an eligible service site or a letter of intent of employment at an eligible service site; A contract with the Department to serve full-time providing primary care services at the eligible service site for a minimum of 24 months, with 12-or 24-month contract extensions available upon mutual agreement with the individual in the senior leadership position at the service site; Agreement to work at least 32 of the minimum 40 hours per week; provider to charge for services at the usual and customary rates in the primary care area, except that patients unable to pay are to be charged a reduced rate according to the service site's sliding-fee scale or not charged; Agreement not to discriminate on basis of patient's ability to pay for care or the payment source, including Medicare or AHCCCS, &; Agreement to accept assignment for payment under Medicare & to participate in AHCCCS.

Arkansas
The state provides a forgivable loan program to assist Arkansas dental students attending specified out-of-state health and medical professional schools. The loans may be forgiven at the rate of one (1) year's loan for one (1) year's practice in Arkansas.

California
Provides loan repayment to recent dental school graduates who practice for three years in a community clinic or office in an underserved area. A "Dentally underserved area" is eligible for designation via the federal shortage designation criteria defined Title 42, Chapter I, Part, Appendix B (Criteria for Designation of Areas Having Shortages of Dental Professionals) or an area where unmet needs exist as determined by the state. Loan repayments are limited to ($105,000) per individual. After completing one year of service, $25,000 is awarded. After two consecutive years, $35,000 is awarded, for a total loan repayment of up to $60,000. After three consecutive years, $45,000 is awarded, for a total loan repayment of up to $105,000.

Colorado
The state dental loan repayment program pays all or part of the principal, interest, and related expenses of the educational loans of each eligible dental professional who agrees to provide care to underserved populations for at least 2 years. Funding includes moneys credited to the tobacco litigation settlement fund to extent available, appropriations from state general fund, and other public & private donations.

Delaware
The State Loan Repayment Program for Dentists and Physicians is designed to recruit physicians and dentists to underserved areas of the state by repaying a portion of their educational debt in exchange for their commitment to practice in underserved area. The dental component was launched in 2001.

Idaho
The Rural Health Care Access Fund provides grants to improve access to primary care medical services in areas designated as primary care health professional shortage areas and medically underserved areas. Individual grant awards are limited to $35,000, direct and indirect costs, per year.
Applicants may propose projects for funding for up to three years.

Illinois
Provides grants to Illinois students enrolled or accepted in Illinois dental schools, and who contract to practice dentistry in a designated shortage area in the State. Student must be certified by the school as being eligible to receive financial aid. Upon the Illinois licensure of the student to practice dentistry, the student shall serve as a general practice dentist in a designated shortage area in the State. The term of this service shall be as provided in the Dental Student Grant Act.

Indiana
The Indiana health care professional recruitment and retention fund provides loan repayment for student loans up to $40,000 ($20,000 per year) incurred by dentists agreeing to serve a two-year stint in federally designated shortage area or an area approved by the state as underserved.

Maine
The Finance Authority of Maine awards up to 3 loans or loan repayment agreements annually up to an aggregate of 12. Under the program, loans may be awarded to Maine residents who have been accepted into dental school. If, upon completing dental education, the loan recipient elects to practice dentistry in an area determined to be underserved, the loan recipient may be forgiven a 25% portion of the loan per year after executing a loan repayment agreement.

Maryland
Maryland's new law provides up to $100,000 total loan assistance over a three-year period, during which a dentist accepts 30% of his/her caseload from the Medicaid-eligible population. Assistance is limited to 5 dentists per year for a total of 15 dentists over the three-year program.

Minnesota
Students accepted into the program serve at least three years during which at least 25 percent of the patient encounters are state public program enrollees or patients receiving sliding fee schedule discounts. The state pays $10,000 per year up to four years, not to exceed the lesser of $40,000 or the balance of the qualifying loans.

Missouri
Dentists and dental school students enrolled in their final year of course study may participate in the Health Professional Student Loan Repayment Program. The maximum amount of repayment assistance is not to exceed the maximum allowed under the National Health Services Corps Repayment Program.
Program participants must agree to see all patients regardless of their ability to pay. Students breaching contracts will be responsible for damages incurred by the Department of Health and legal costs incurred in the collection of damages.

Nebraska
Pays educational expenses and repay loans for dental students who agree to practice in a designated health profession shortage area, within 3 months of graduation. The amount of financial assistance is limited $80,000 over the course of schooling. Each loan repayment recipient agrees to provide services for at least 3 years and accept Medicaid patients. Failure to complete the 3-year commitment, without good cause, results in repaying outstanding amount plus 25% of the amount of financial assistance received.

Nevada
Under the Western Regional Higher Education Compact (agreement among 13 western states & NV), a dentist receives a support fee, 25% of which is a loan to be repaid by the dental graduate. Practicing in a medically underserved area of this state for at least 2 years results in a forgiveness of the loan balance (25% of the support fee). If a person returns to this state under the compact, but does not practice in a medically underserved area of this state for at least 2 years, the state assesses a default charge and interest. (Chapter 397 of NRS)

North Dakota
The state annually selects up to three dentists who enter a four-year nonrenewable contract where education loans are repaid in exchange for the dentist(s) agreeing to practice in underserved communities identified by the state health council. The council establishes a priority ranking for participation in the program for the selected communities. Dentists are eligible to receive funds for the repayment of their education loans, which may not exceed eighty thousand dollars per applicant over a four-year period. 2007 S 2152 was enacted. Enacts provisions for a dentist to receive school loan repayments as an incentive to practice: the practice cannot be within a 15 mile radius of Bismarck, Fargo or Grand Forks (the largest cities in ND), the dentist must receive medical assistant reimbursement for dental care of at least $20,000 or must practice at least 2 days a week at a public health clinic or at a nonprofit dental clinic that uses a sliding fee schedule to bill the nonprofit dental clinic's patients.

Ohio
The dentist loan repayment program provides up to $20,000 per year in loan repayment assistance for new dentists who agree to practice at least 40 hours per week in a designated dental health professional shortage area and treat patients regardless of their ability to pay. The program will be funded with a $20 increase in dentists' licensing fees, government funding and private contributions.

Oklahoma
The state will establish loan repayment assistance up to $25,000 per year for up to five dentists who agree to practice in a designated Dental Health Professional Shortage Area (DHPSA) in the state and agree to provide dental care and services to Medicaid recipients. Dentists' performance will be reviewed after a two-year period to determine eligibility to continue in the program for an additional three years.

Rhode Island
Provides educational loan repayment for healthcare professionals committed to working in primary care health professional shortage areas or dental health professional shortage areas. Requires a two year commitment to provide full-time services at a site that has been approved for funding.
Must charge for professional services at the usual and customary rates prevailing in the areas in which such services are provided. If a person is unable to pay such charge, they'll be charged a reduced rate or no fee. The professional also must serve full time (40 hours per week), with no more than 20% of the time devoted to administrative work and agree not to discriminate on the basis of the ability of the individual to pay for such care or on the basis that payment for such care will be made through Medicare or Medicaid. The professional must enter into an appropriate agreement with the State agency that administers Medicaid.

South Carolina
Each loan or scholarship lasts for a period of one year only. However, recipients who successfully complete the related year of study have first priority on unobligated funds for renewal of the loan or scholarship for the succeeding year. Each loan or scholarship has two parts: (1) Payment of tuition and other school related expenses up to a total of $5000 per year, and (2) an allowance of $100 per month for living expenses. Requires practice in a county with a dentist ratio of not more than one dentist for each four thousand people. For each year an applicant benefits from a loan or scholarship s/he is required to practice in the underserved county.
Applicants who receive a scholarship or loan for four years are only required to practice in a county for three years, at the end of which time the loan is considered paid in full.

South Dakota
Provides that up to 3 dentists are eligible to receive tuition reimbursement payments if the licensed to practice dentistry and (s)he agrees to practice general dentistry in an eligible community for a minimum period of three years.

Texas
Texas makes annual repayment(s) within a time frame determined by the Board upon the dentist's completion of each twelve-month service period. Dentists must complete at least one year of dental practice in an area of the state that is underserved with respect to dental care. A dentist may receive up to $10,000 repayment assistance grants for each of not more than five years.

Utah
Creates a new Utah Health Care Workforce offering loan repayment & scholarship grants for dentists, who locate or continue to practice in underserved areas. The Program will have an advisory committee one member of which will be a member of the Utah Dental Association.

Virginia
The dental loan repayment program provides incentives to dental students agreeing to practice in underserved areas designated by the State Board of Health through criteria derived by comparing population data, dentist population and dental health professional shortage areas determined by the federal HHS department. Preference will be given to graduates of Virginia Commonwealth University's School of Dentistry. Scholarship recipients may receive a max of five scholarships. The award(s) equal one-year in-state tuition at Virginia Commonwealth University School of Dentistry for the year in which the loan was acquired.

Wisconsin
To benefit from loan assistance, the dentist must agree to provide dental services to at least 50 unduplicated medical assistance or badger care recipients, not to fall below a minimum of $8,000 in claims paid. In year two of the dentist's agreement, the dentist must see at least 70 unduplicated medical assistance or badger care recipients, not falling below $11,000 in claims paid. Year three, the dentist must provide dental services to at least 90 recipients, with a minimum claim amount of $15,000.

Wyoming
Will pay the cost of dental education for up to 10 dental students per year in exchange for their agreeing to practice for up to 3 years on patients eligible for medical assistance or the child and parent health insurance program. If the student fails to fulfill the terms of the agreement then the costs of education are repayable to the state of Wyoming.

ANALYSIS: *(Attach a separate page if necessary)*

This legislation modifies the terms and conditions for Alaska residents participating in certain professional programs of study through the Western Interstate Commission on Higher Education's (WICHE) Professional Student Exchange Program (PSEP). Under the terms of the bill, Alaska participants, who would otherwise bear the full costs of the loan associated with the annual PSEP support fee paid to the professional school at which they are receiving their training, will be entitled to a discharge (forgiveness) of up to 50% of the related PSEP loan principal. The bill sets a minimum number of participants to be funded.

The PSEP operates as a multi-state student exchange program by which compact member states that have institutions offering certain professional programs of study agree to provide preferential admission consideration to residents of member states whose institutions do not offer those programs. WICHE facilitates the collection of a per

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. CSHB 235(EDC)

ANALYSIS CONTINUATION

resident fee for each person accepted into a participating institution. The Support Fee amount varies according to the professional field of study and is set through a negotiated process facilitated by WICHE staff and involving all of the receiving institutions.

In 1998 the Alaska Legislature authorized the funding of the Support Fee in the form of a loan to each participant, financed by the Alaska Student Loan Corporation. The terms by which the Support Fee loan would be offered under this bill are such that it is not feasible for ASLC to use bond proceeds to finance the loans.

The cost estimates shown reflect the participation growth over a four-year timeframe as five additional participants enrolled in each successive year, from 15 students in FY11 to a total of 60 students in the fourth and subsequent years. Historically the Support Fees have increased 3.4% on an annual basis.

Given that the maximum discharge a borrower may receive is 50 percent of their PSEP loan principal, beginning in the fifth year following program implementation, there will be an income stream from borrower repayments. In FY15 the first fifteen supported participants will be in repayment. The standard repayment period is a fifteen-year term. Participants qualifying for some or all of their discharge will receive annual credits to their loan balances that will have the effect of either shortening their period of repayment or allowing for a reduction in their monthly payment amount. In FY15 repayments would be approximately $40,000, in FY16, $116,400 and, within the subsequent three years increase to approximately $420,000 annually.

Dear Representative,

On behalf of Alaska Doctors of Optometry, I am writing in support of HB 235.

Communities throughout the state struggle to find optometrists who are willing to move to their area and it is even more difficult to encourage them to stay. Alaska does not offer a doctor of optometry degree program so students must leave the state in order to earn their degree. HB 235 offers an incentive to encourage them to return.

Although there are more than 115 doctors of optometry in Alaska serving more than 25 communities throughout the state and traveling to more than 60 additional sites, many communities are still left with no eyecare. Doctors of optometry are trained to examine, diagnose, treat, and manage disorders that affect the eye or vision. Because optometrists are also trained to recognize critical health issues, such as diabetes and hypertension, while examining the eye, having an optometrists in all Alaska communities can not only save vision, it can save lives.

I welcome any questions you have regarding optometry in Alaska and urge your support of HB 235.

Sincerely,

Tracy Oman

PROVISIONS FOR LOAN FORGIVENESS/SCHOLARSHIPS AND GRANTS

Information derived from state statutes, regulations and various reports about programs that provide loan benefits and scholarship assistance in return for serving defined low-access communities or populations

More than half of the states have some kind of loan forgiveness / scholarship assistance programs in place.

States vary on the delivery and amount of the incentives. Some states provide scholarships while other state incentive programs pay off the loan *after* graduation. Either way, it is the equivalent of students not having to pay for some or all of dental school with the agreement that they will practice for a set amount of time in a manner that is intended to reduce access problems.

Overview of States:
The framework of each state law is basically the same—a contract with a limited number of dentists to perform dental services in an area designated underserved for a period of time (2-5 years). The amounts allocated per provider range from about $20,000 total to $125,000. The laws are pretty broad with respect to practice location and patients served—but are consistent in that they require that underserved patients be the focus of care delivery.

For instance, **Arizona** requires the dentists to serve full-time providing primary care services at eligible service sites. Many states use the federal designation Dental Health Professional Shortage Area (i.e. **California, Indiana, Oklahoma** and **Washington D.C.**) to determine where a dentist must locate. **Minnesota** dentists must agree to deliver at least 25 percent of the annual patient encounters to state public program enrollees or patients receiving sliding fee schedule discounts through a formal sliding fee schedule.

Presented here is a state-by-state summary of their loan forgiveness / scholarship grant programs. While the information contained in this document is of general interest the information presented here is a snapshot at a particular point in time. One cannot rely solely on this document as being a comprehensive and up-to-date list of states that have such provisions. For specific details on a particular state please contact the state dental society.

Alabama
The Board of Dental Scholarship Awards was established to provide scholarships and scholarship loans for the education of qualified applicants for admission to dental schools in Alabama who agreed to practice in underserved areas. Repayment could be based on service alone, or on a combination of service and payments, depending on the location of the practice, rural verses urban, and the duration of time in that practice. The terms of various types of repayment are set out in the law. The law was amended in 2007

(C) American Dental Association

to create the "Rural Dental Health Scholars Program" to provide for loans and scholarships to both high school and dental students who are interested in practicing in rural areas of the state.

Arizona

Requires primary care provider to contract with the Department to provide full-time continuous services at a specific eligible service site for a minimum of 24 months. Requires: a signed contract for current or prospective employment at an eligible service site or a letter of intent of employment at an eligible service site; A contract with the Department to serve full-time providing primary care services at the eligible service site for a minimum of 24 months, with 12-or 24-month contract extensions available upon mutual agreement with the individual in the senior leadership position at the service site; Agreement to work at least 32 of the minimum 40 hours per week; provider to charge for services at the usual and customary rates in the primary care area, except that patients unable to pay are to be charged a reduced rate according to the service site's sliding-fee scale or not charged; Agreement not to discriminate on the basis of a patient's ability to pay for care or the payment source, including Medicare or AHCCCS, and; Agreement to accept assignment for payment under Medicare and to participate in AHCCCS.

Arkansas

The state provides a forgivable loan program to assist Arkansas dental students attending specified out-of-state health and medical professional schools. The loans may be forgiven at the rate of one (1) year's loan for one (1) year's practice in Arkansas.

California

Provides loan repayment to recent dental school graduates who practice for three years in a community clinic or office in an underserved area. A "Dentally underserved area" is eligible for designation via the federal shortage designation criteria defined Title 42, Chapter I, Part, Appendix B (Criteria for Designation of Areas Having Shortages of Dental Professionals) or an area where unmet needs exist as determined by the state. Loan repayments are limited to ($105,000) per individual. After completing one year of service, $25,000 is awarded. After two consecutive years, $35,000 is awarded, for a total loan repayment of up to $60,000. After three consecutive years, $45,000 is awarded, for a total loan repayment of up to $105,000. Program extended until July 1, 2012 in 2009 S 599.

Colorado

The state dental loan repayment program pays all or part of the principal, interest, and related expenses of the educational loans of each eligible dental professional who agrees to provide care to underserved populations for at least 2 years. Funding includes moneys credited to the tobacco litigation settlement fund to the extent available, appropriations from state general fund, as well as other public and private donations. Section 25-23-104 (1), C.R.S.

Connecticut

Connecticut pays for part or all of qualifying educational loans (principal, interest and related expenses for dentists and hygienists). $15,000 per year, for minimum of 2 years and up to four (4) years with an extension in Community Health Centers and other eligible primary care sites in the state, designated by the federal government as Medically Underserved Areas (MUA) and as Health Professional Shortage Areas HPSA). Work time requirements under the Connecticut SLRP program are for a minimum of 40 hours/wk, (max of 8 hrs may be practice-related administrative activities).

Delaware

The State Loan Repayment Program for Dentists and Physicians is designed to recruit physicians and dentists to underserved areas of the state by repaying a portion of their educational debt in exchange for their commitment to practice in underserved area. The dental component was launched in 2001.

Georgia

Provides loan assistance to dentists who agree to practice full time (minimum 40 hours / week) in rural areas of the state. The dentist must maintain a Georgia Medicaid number and actively treat Medicaid patients.

The contracts with the "Dentists for Rural Areas Assistance Program" will be for one

year, renewable up to three times for a total of 4 years. The amount of the award shall be determined by the State Medical Education Board (SMEB) annually.

If the dentist defaults the penalty shall be immediate liability for two times the original principal amount of the loan award.

Hawaii

A Hawaii law enacted in 2008 establishes the Hawaii Health Corps Program working group; provides for the development of a plan to establish a program for tuition loan repayments and stipends for physician and dentist participants serving in underserved areas; provides that priority placement in the program will be for graduates of the John A. Burns School of Medicine; requires participants to commit and serve as first responders in the event of a declared emergency.

Idaho

The Rural Health Care Access Fund provides grants to improve access to primary care medical services in areas designated as primary care health professional shortage areas and medically underserved areas. Individual grant awards are limited to $35,000, direct and indirect costs, per year. Applicants may propose projects for funding for up to three years. Title 39, Chapter 59, Idaho Code.

Illinois

Provides grants to Illinois students enrolled or accepted in Illinois dental schools, and who contract to practice dentistry in a designated shortage area in the State. Student must be certified by the school as being eligible to receive financial aid. Upon the Illinois licensure of the student to practice dentistry, the student shall serve as a general practice dentist in a designated shortage area in the State. The term of this service shall be as provided in the Dental Student Grant Act.

2007 S 387 was enacted. Creates the Loan Repayment Assistance for Dentists Act (110 ILCS 948). Requires the Department of Public Health to establish an educational loan repayment assistance program for dentists who practice in designated shortage areas in this State for 2 years. There law enumerates requirements of participation and the penalty is to repay the amount of the benefit received if the dentist does not fulfill the terms agreed upon. The law was amended in 2009 by adding eligibility of dental hygienists for loan repayment assistance and by adding up to two subsequent one-year grants for dentists. Dentists currently are eligible for a two year grant. 2009 S 275.

Indiana

The Indiana health care professional recruitment and retention fund provides loan repayment for student loans up to $40,000 ($20,000 per year) incurred by dentists agreeing to serve a two-year stint in federally designated shortage area or an area approved by the state as underserved.

In 2009 H 1573 was enacted:
The Indiana dental recruitment fund is established to provide grants to dentists and dental hygienists to encourage the full-time delivery of dental care in underserved areas and to increase the number of minority dentists and dental hygienists in Indiana. To qualify one must be licensed and have entered into an agreement with the recruitment committee to: (A) either: (i) commit to working five (5) years in a underserved area or as a minority dentist or dental hygienist in Indiana for a yearly grant of thirty-five thousand dollars ($35,000); or (ii) commit to working two (2) years in a underserved area or as a minority dentist or dental hygienist in Indiana for a yearly grant of thirty thousand dollars ($30,000) with the option by the dentist or dental hygienist to serve up to three (3) additional years for a yearly grant of thirty-five thousand dollars ($35,000); (B) provide an average of at least forty (40) hours of dentistry per week in underserved areas or as a minority dentist or dental hygienist in Indiana; (C) maintain a patient base that includes at least thirty percent (30%) as Medicaid patients; and (D) provide a sliding fee scale, as approved by the committee, for low income patients.
The agreement shall include a clause that if the dentist or dental hygienist does not comply with the requirements they will pay back to the committee seven thousand five hundred dollars ($7,500), plus interest, for each month that they do not serve or had left to serve under the terms of the agreement.

Maine

The Finance Authority of Maine awards up to 3 loans or loan repayment agreements annually up to an aggregate of 12. Under the program, loans may be awarded to Maine residents who have been accepted into dental school. If, upon completing dental education, the loan recipient elects to practice dentistry in an area determined to be underserved, the loan recipient may be forgiven a 25% portion of the loan per year after executing a loan repayment agreement.

Maryland

Maryland's new law provides up to $100,000 total loan assistance over a three-year period, during which a dentist accepts 30% of his/her caseload from the Medicaid-eligible population. Assistance is limited to 5 dentists per year for a total of 15 dentists over the three-year program.

Massachusetts

The Massachusetts Dental Society reports that as of 2009, there are two state programs that offer loan repayment or tuition reimbursement. However, that there is not enough funding in these programs to make a difference to many students. In fact, with one of these programs, dentists are forced to compete with physicians for limited financial resources.

The Massachusetts State Loan Repayment Program (MSLRP) offers loan repayment for dentists and hygienists who agree to practice in a community health center or a public licensed clinic for two years. The Commonwealth's $250,000 is matched by the federal government, resulting in a $500,000 program. The program is administered by the Massachusetts Department of Public Health (DPH) and is available to health professionals—including, but not limited to, dentists and hygienists—who work in designated Health Professional Shortage Areas (HPSAs).

The MDS reports that dental professionals are under-represented in the program because there are fewer community health centers in these shortage areas in Massachusetts, and rules that accompany federal matching funds preclude the DPH from structuring the program in a manner that would attract more dental professionals to more health centers.

Additionally, the state provides $1 million, administered by the University of Massachusetts, with 50 percent earmarked for loan repayment and tuition reimbursement. Of this amount, $120,000 funds a scholarship at each of the state's three dental schools for students agreeing to work in a community health center for two years, $380,000 goes to loan repayment for dentists already working in community health centers, and $500,000 is designated for community health center infrastructure.

Minnesota

Students accepted into the program serve at least three years during which at least 25 percent of the patient encounters are state public program enrollees or patients receiving sliding fee schedule discounts. The state pays $10,000 per year up to four years, not to exceed the lesser of $40,000 or the balance of the qualifying loans.

Missouri

Dentists and dental school students enrolled in their final year of course study may participate in the Health Professional Student Loan Repayment Program. The maximum amount of repayment assistance is not to exceed the maximum allowed under the National Health Services Corps Repayment Program. Program participants must agree to see all patients regardless of their ability to pay. Students breaching contracts will be responsible for damages incurred by the Department of Health and legal costs incurred in the collection of damages.

Nebraska

Pays educational expenses and repay loans for dental students who agree to practice in a designated health profession shortage area, within 3 months of graduation. The amount of financial assistance is limited $80,000 over the course of schooling. Each loan repayment recipient agrees to provide services for at least 3 years and accept Medicaid patients. Failure to complete the 3-year commitment, without good cause, results in repaying outstanding amount plus 25% of the amount of financial assistance received.

Nevada

Under the Western Regional Higher Education Compact (agreement among 13 western states & NV), a dentist receives a support fee,

(C) American Dental Association

25% of which is a loan to be repaid by the dental graduate. Practicing in a medically underserved area of this state for at least 2 years results in a forgiveness of the loan balance (25% of the support fee). If a person returns to this state under the compact, but does not practice in a medically underserved area of this state for at least 2 years, the state assesses a default charge and interest. (Chapter 397 of NRS)

New Jersey

N.J.S.18A:71C-33 Primary care practitioner (includes dentists) loan redemption program. To be eligible a dentist must serve at least an initial two-year period at an approved site in full-time clinical practice in designated underserved areas and allow a patient who is unable to pay the usual and customary charge to pay at a reduced rate or receive care at no charge. Part-time practice maybe allowed based on special circumstances after the initial two years. The qualifying dentist shall be permitted a total redemption of eligible qualifying loan expenses for four years of service up to, but not to exceed, $120,000, or the maximum amount authorized by the federal government, whichever is greater, in State funds. A program participant who has previously entered into a contract for service and loan redemption may nullify the agreement by notifying the authority in writing and reassuming full responsibility for the remaining outstanding balance of the loan debt. A program participant seeking to nullify the contract before completing a second full year of service shall be required to pay 50% of the redeemed portion of indebtedness in not more than one year following nullification of the agreement. Enacted Nov. 20, 2009, SB 1220.

New Mexico (2 programs)

The HEALTH PROFESSIONALS LOAN REPAYMENT PROGRAM requires a two year service commitment in a health professional shortage area. Primary Care Physicians; Physician Assistants; Advanced Practice Nurses; **Dentists**, Podiatrists, Optometrists & Allied Health Care Providers may receive up to $35,000 annually.

Eligibility for the NEW MEXICO HEALTH SERVICE CORPS: a New Mexico resident enrolled or accepted by an accredited or approved educational program of study or be engaged in a residency training program or preceptorship that is within 24 months of completion of the program of study and becoming eligible to apply for a license or certificate in the profession of study. Primary Care Physicians, Family Nurse Practitioners, Physician Assistants, **Dentists**, Dental Hygienists, Emergency Medical Technician-Paramedics may earn up to a $40,000 stipend (2 awards of $20,000, less for non-physician). Requires a two year service commitment (1600 hours a year) in a designated health professional shortage area.

Western Interstate Commission on Higher Education (WICHE). Average $21,300 per year up to 4 years and must return to New Mexico.

North Carolina

Loan repayment assistance is provided for General Dentists and Dental Hygienists who accept positions in approved public health/safety net dental clinics. The state Loan Repayment Program offers 2-4 year repayment schedules for general dentists and dental hygienists in exchange for working full time at approved safety net dental sites. Principle plus interest maximums for dentists are $70,000 in exchange for a four year commitment; $30,000 for dental hygienists in exchange for a 3 year commitment. In addition, a 39% tax stipend is added to help offset the provider's increased tax liability.

North Dakota

The state annually selects up to three dentists who enter a four-year nonrenewable contract where education loans are repaid in exchange for the dentist(s) agreeing to practice in underserved communities identified by the state health council. The council establishes a priority ranking for participation in the program for the selected communities. Dentists are eligible to receive funds for the repayment of their education loans, which may not exceed eighty thousand dollars per applicant over a four-year period.

2007 S 2152 was enacted. Enacts provisions for a dentist to receive school loan repayments as an incentive to practice: the practice cannot be within a 15 mile radius of Bismarck, Fargo or Grand Forks (the largest cities in ND), the

dentist must receive medical assistant reimbursement for dental care of at least $20,000 or must practice at least 2 days a week at a public health clinic or at a nonprofit dental clinic that uses a sliding fee schedule to bill the nonprofit dental clinic's patients.

Ohio

The dentist loan repayment program provides loan repayment assistance in amounts of up to $25,000 for each of the first two years of service and up to $35,000 per year for the third and fourth years of service for new dentists who agree to practice at least 40 hours per week in a designated dental health professional shortage area and treat patients regardless of their ability to pay. The program will be funded with a $20 increase in dentists' licensing fees, government funding and private contributions.

Oklahoma

In 2006, the Oklahoma Legislature passed the Oklahoma Dental Loan Repayment Act (S.B. 1737), authorizing an additional $125,000 each year for five years to fund the Oklahoma Dental Loan Repayment Program. This program provides $25,000 per year, per dentist, for four dentists to practice in counties determined by the Oklahoma State Department of Health to be dental health professional shortage areas and one dentist to practice and teach at the OU College of Dentistry. The state currently has 42 counties designated as shortage areas through 2009. As part of their agreement, participating dentists must treat a minimum of 30% Medicaid patients. All participating dentists also must commit to practice in a shortage area for two years, with an option to renew for up to five years total.

Pennsylvania

A physician or dentist who agrees to treat patients eligible for medical assistance and Medicare in a designated medically underserved area as a primary health care practitioner for not less than three years is eligible to receive up to $64,000 in loan exonerations based on the following schedule: (i) Year one, 15%, (ii) Year two, 20%, (iii) Year three, 30%, (iv) Year four, 35%. Failure to begin or complete the obligations contracted for shall pay to the agency three times the amount of assistance received.

Rhode Island

Provides educational loan repayment for healthcare professionals committed to working in primary care health professional shortage areas or dental health professional shortage areas. Requires a two year commitment to provide full-time services at a site that has been approved for funding. Must charge for professional services at the usual and customary rates prevailing in the areas in which such services are provided. If a person is unable to pay such charge, they'll be charged a reduced rate or no fee. The professional also must serve full time (40 hours per week), with no more than 20% of the time devoted to administrative work and agree not to discriminate on the basis of the ability of the individual to pay for such care or on the basis that payment for such care will be made through Medicare or Medicaid. The professional must enter into an appropriate agreement with the State agency that administers Medicaid.

South Carolina

Each loan or scholarship lasts for a period of one year only. However, recipients who successfully complete the related year of study have first priority on unobligated funds for renewal of the loan or scholarship for the succeeding year. Each loan or scholarship has two parts: (1) Payment of tuition and other school related expenses up to a total of $5000 per year, and (2) an allowance of $100 per month for living expenses. Requires practice in a county with a dentist ratio of not more than one dentist for each four thousand people. For each year an applicant benefits from a loan or scholarship s/he is required to practice in the underserved county.
Applicants who receive a scholarship or loan for four years are only required to practice in a county for three years, at the end of which time the loan is considered paid in full.

South Dakota

Provides that up to 3 dentists are eligible to receive tuition reimbursement payments if the licensed to practice dentistry and (s)he agrees to practice general dentistry in an eligible community for a minimum period of three years. Section 1-16A-73.20

(C) American Dental Association

Texas

Texas makes annual repayment(s) within a time frame determined by the Board upon the dentist's completion of each twelve-month service period. Dentists must complete at least one year of dental practice in an area of the state that is underserved with respect to dental care. The commissioner of higher education may determine how much a dentist may receive in assistance grants for each of not more than five years. Amended in 2009.

Utah

Creates Utah Health Care Workforce offering loan repayment & scholarship grants for dentists, who locate or continue to practice in underserved areas. The Program will have an advisory committee one member of which will be a member of the Utah Dental Association.

Vermont

The loan repayment fund established under 18 V.S.A. Section 10a or for the Vermont student assistance corporation for loan forgiveness programs for health care providers through the dental hygienist incentive loan program and the dental student incentive loan program.

Virginia

The dental loan repayment program provides incentives to dental students agreeing to practice in underserved areas designated by the State Board of Health through criteria derived by comparing population data, dentist population and dental health professional shortage areas determined by the federal HHS department. Preference will be given to graduates of Virginia Commonwealth University's School of Dentistry. Scholarship recipients may receive a max of five scholarships. The award(s) equal one-year in-state tuition at Virginia Commonwealth University School of Dentistry for the year in which the loan was acquired.

Wisconsin

To benefit from loan assistance, the dentist must agree to provide dental services to at least 50 unduplicated medical assistance or badger care recipients, not to fall below a minimum of $8,000 in claims paid. In year two of the dentist's agreement, the dentist must see at least 70 unduplicated medical assistance or badger care recipients, not falling below $11,000 in claims paid. Year three, the dentist must provide dental services to at least 90 recipients, with a minimum claim amount of $15,000.

Wyoming

Will pay the cost of dental education for up to 10 dental students per year in exchange for their agreeing to practice for up to 3 years on patients eligible for medical assistance or the child and parent health insurance program. If the student fails to fulfill the terms of the agreement then the costs of education are repayable to the state of Wyoming.

Alaska Pharmacists Association

January 25, 2010

RE: HB235
Loan Forgiveness – Professional Student Exchange Program

Dear Members of the House Education Committee:

"The Mission of the Alaska Pharmacists Association is to preserve, promote and lead the profession of pharmacy in Alaska."

With alarming and rising vacancy rates, Alaska is posed for a crisis without intervention. Alaska is one of only six states without a state-sponsored support-for-service program such as a loan repayment and incentive program and loan forgiveness for pharmacists and is losing ground. Alaska is also the only WICHE state without a School of Pharmacy. As a result, the competition for recruitment of pharmacists is very difficult. *National Trend: Pharmacy, with more than 230,000 practitioners today, is the third-largest health profession in the U.S. after nurses (2.4 million) and physicians (830,000).

Based on statistics provided by Laura Miller, PhD, Senior Economist with the National Association of Chain Drug Stores, the national average of community pharmacists per 10,000 people is 5.36. For Alaska, the figure is 3.35. To get to the national average, Alaska would need an additional 137 pharmacists. The average number of people per community retail pharmacy is about 5,300 nationally, and in Alaska it is 8,900. Even if you add in the 15 Indian Health Service (IHS) pharmacies, Alaska's pharmacies average about 7,500 people, much higher than the national average.

Respectfully,

Nancy O. Davis
Executive Director

Pharmacy Workforce Needs

National Trends

Pharmacy, with more than 230,000 practitioners today, is the third-largest health profession in the United States after nurses (2.4 million) and physicians (830,000).

Projected Shortages and Causes

Research on the national pharmacist workforce points to a continuing shortage of pharmacists, related to growth in medication use, the aging of the baby boomer generation, and the emergence of more clinical activities within pharmacies. Surveys that track shortage levels showed that there was a slow downward trend in the severity of shortages up until fall 2005, followed by higher shortage levels during the past year. Changes in shortage levels appear to parallel growth in prescription medication usage.

Expanding Career Options

Increasing numbers of pharmacists are working in nontraditional positions. For example, career options have emerged with medication-use programs within managed care organizations and health plans; Medicare's adoption of a prescription drug benefit; Medicaid programs' prescription-drug benefit; and any healthcare provision that includes a formulary for medications and outcomes analysis for medication use.

Within traditional pharmacy practice, clinical activities have expanded, with the universal adoption of the doctor of pharmacy (PharmD) degree as the entry-level educational requirement for pharmacy practice. The growth of postgraduate pharmacy residencies has also had an effect. The PharmD degree includes additional biomedical and clinical training that enables pharmacists to assume more clinical and management responsibilities. Younger pharmacists are trained in providing educational and monitoring services for chronic diseases, administering immunizations, and offering medication management services for Medicare patients.

In institutions pharmacists are being added to transplant units, critical-care units, emergency departments, oncology services, and other areas where intensive medication-therapy management is enhanced by pharmacy expertise. To fill these roles, pharmacists require advanced training, which is generally acquired through formal postgraduate professional education in pharmacy residencies.

The number of accredited pharmacy residencies nationally has expanded from about 1,000 annually 10 years ago to over 1,500 annually; and specialized residencies (a second year with a focus in a specific area, such as critical care) have increased concomitantly. The Board of Pharmaceutical Specialties (BPS) offers certification examinations in five practice areas, and board-certified pharmacists are increasing in each of these areas: pharmacotherapy (3,191), oncology (557), nutrition (348), psychiatric pharmacy (463), and nuclear pharmacy (495) (*www.bpsweb.org*).

Factors Driving Workforce Demand

Growing Part-time and Female Workforce

The Bureau of Health Professions' pharmacist supply model estimates that 3,911 pharmacists will retire in 2007. This number will gradually increase to 4,562 in 2020. Recent studies have shown that since 2000, pharmacists are remaining in the workforce longer, and more are working part-time. Retiring pharmacists are predominantly male; this is significant because male pharmacists have traditionally worked more than female pharmacists.

The increasing female pharmacist workforce is an important supply issue because women pharmacists have consistently worked fewer hours than their male counterparts. Recent surveys show women pharmacists working 0.81 FTE on average, compared to male pharmacists at 0.91 FTE (*Mott et al., National Pharmacist Workforce Data, 2004*). The current pharmacy-student population is about two-thirds female. Supply models estimate that part-time participation will reduce the workforce "headcount" by about 15 percent (*Knapp and Cultice, 2007, in press*).

Recent Increases in Prescription Volume

The demand for pharmacists is closely tied to the number of retail prescriptions (*Walton et al., 2004*). Prescription volume continues to grow each year, but the growth rate has varied greatly in the last 10 years, as shown in the table below. The growth rate hit its highest level in 1999 and fell steadily to about two percent in 2004. Growth increased again in 2005 and 2006.

	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
	4.5	4.2774	7.1244	9.1092	5.8367	5.0262	4.2871	2.4538	1.9907	2.8	5
	2221	2316	2481	2707	2865	3009	3138	3215	3279	3370.8	3539.4

Source: Knapp and Cultice, "New Pharmacist Supply Projections: Lower Separation Rates and Increased Graduates Boost Supply Estimates," *Journal of the American Pharmacists Association*, 2007, in press.

Beyond Prescriptions

When we think of pharmacists, dispensing medications comes to mind. However, their expanded role now includes many other tasks, like managing medication therapy related to Medicare Part D. Many immunization programs are now administered through community pharmacies. Pharmacists are also active in chronic disease medication-management programs and elsewhere, as noted above.

Aging Baby Boomers

Counterbalancing the increased supply of pharmacists is the aging baby boomer generation, which will increase the

demand for pharmacy services. For example, people under 65 annually consume 10.1 prescriptions on average, while those 65 years and over consume 23.5 prescriptions on average *(Agency for Healthcare Research and Quality (AHRQ), derived from Medical Expenditure Panel Survey Data, 1997-2000)*. The oldest baby boomers have not yet reached 65 years, where medication consumption increases significantly.

Filling the Gaps: Technicians

There are approximately 250,000 certified pharmacist technicians in the United States. These allied health professionals play an important role in increasing productivity in pharmacies. A 2004 state-level study showed that technicians generally complement pharmacists rather than substitute for them; there are more technicians where there are more pharmacists.

Growth of the Biotech Industries

The number of pharmacists working in drug development is relatively small. Pharmacists sometimes play roles in clinical trials, but not often. The principal relationship between the biotech industry and the pharmacist workforce is that pharmacists are clinically involved in the use of expensive and potentially dangerous biotech drugs in hospitals and elsewhere. Oral dosage forms of biotech drugs, such as oral oncology medications and transplant maintenance medications, are now readily available. The biotech industry acknowledges the significant role that community pharmacies and pharmacists play in helping patients use these medications effectively.

Technology's Effects on Pharmacy Demand

Pharmacists play a significant role in medication error reduction. New technologies such as electronic prescription generation and transmission increase pharmacist productivity and reduce medication errors. Generally, where technology is introduced on a large scale — for example, in the Veterans Affairs system and in Kaiser Permanente — pharmacists have been redeployed to clinical roles in chronic disease clinics, where their activities have been shown to be cost effective.

Regional Occupational Outlook for Pharmacists in the WICHE States

Region	Population 2005	ADI* Feb. 2007
United States	**296,410,404**	**4.13**
WICHE States	**69,703,732**	**4.34**
Alaska	663,661	4.00

Wyoming	509,294	3.33

*Aggregate Demand Index (ADI)

Demand for Pharmacists in the West

The preceding table presents Aggregate Demand Index (ADI) data for WICHE states as compared to national averages. The ADI is a monthly, national survey of the unmet demand for pharmacists by the Pharmacy Manpower Project Inc. The survey is conducted by having panelists, selected by their direct involvement in hiring pharmacists, submit monthly ratings for each state where they hire pharmacists, based on this five-point scale:

- **5** = High demand; difficult to fill open positions.
- **4** = Moderate demand; some difficulty filling open positions.
- **3** = Demand is in balance with supply.
- **2** = Demand is less than the pharmacist supply available.
- **1** = Demand is much less than the pharmacist supply available.

Ratings are aggregated, and a population-weighted average is determined for the month; they are also available at the regional, divisional, and state levels.

Demand data show that the Western region consistently has the highest level of unmet pharmacist demand. At the division level, the Pacific division has frequently had the highest ADI ratings, while the Mountain division has generally been closer to national averages. These findings are consistent across several national surveys and support attention to producing more pharmacists in the West just to meet current population demands.

For the future, baby boomers retiring in the next three decades are likely to move to Western states in disproportionate numbers. This trend will likely increase the population of many Western states beyond national averages for growth and will increase the need for pharmacists and other health care professionals. Most Western schools of pharmacy have high percentages of in-state students already (see the table on p. 4) so expansion and stimulating in-migration of pharmacists from other states are important options for increasing the workforce.

Expansion of Pharmacy Education

In the last decade new pharmacy programs, expansion of existing programs, and development of distance-learning campuses have increased the number of pharmacy seats across the nation. The Accreditation Council for Pharmacy Education reports that the expansion of existing programs is generating even more new pharmacists than new schools and colleges are (*Knapp and Cultice, 2007, paper in press*).

Part of the educational expansion effort results from the recognition that pharmacists in rural areas will be retiring in the next 10 to 15 years without a significant prospect of their being replaced.

During the early 2000s, a plan to include pharmacy students in the National Health Service Corps to assist in loan repayment was introduced but not funded. A difficulty in implementing pharmacy programs for medically underserved areas is that there are no measures of pharmacist service levels, like those that exist for medicine and dentistry.

Schools in Western states that have large rural areas generally have very high percentages of in-state students who are more likely to remain in their home state to practice. Expansion of programs in these states and establishing new campuses in rural areas are strategies that several states have adopted to maintain pharmacy services in rural areas.

Five new pharmacy schools have opened in the West in just the last four years. Three of them graduated their first classes in 2006: the University of Southern Nevada, a private institution, now fully accredited; Loma Linda University School of Pharmacy; a private institution that is not yet fully accredited but holds candidate status; and the University of California, San Diego, a public institution that also holds candidate status.

Two new programs in the West are scheduled to receive full accreditation by fall 2009. Touro University's College of Pharmacy (California campus) admitted its first class in fall 2005 and is a traditional four-year program. Pacific University's School of Pharmacy (Oregon) admitted its first class in fall 2006 for its three-year intensive program.

Two pharmacy schools are in the planning phase: the University of Hawaii Hilo's College of Pharmacy plans to admit its first class in fall 2007. The University of Nevada Reno and the University of Nevada Las Vegas have planned a pharmacy school as part of Nevada's proposed health sciences center. Unfortunately, approval of state funding for the initiative has proved illusive over the past few legislative sessions.

There is a strong interest in the field of pharmacy, and there has been a steady increase in the number of applications over the past five years. According to the American Association of Colleges of Pharmacy, the applications to pharmacy schools increased 53.9 percent to 72,799 in 2003-04 from 47,306 in 2002-03. Nationally, schools of pharmacy reported receiving 7.4 applications per entering student in fall 2005, a slight increase from 7.0 from the previous year. Graduates are courted before they have their diplomas in hand, with starting salaries in the $80,000 range.

WICHE's Professional Student Exchange Program (PSEP) allows students from states that do not have a public school of pharmacy to pay reduced tuition to a cooperating institution in the West. Sending states determine the number of new students to be supported each year. In 2006-07, 40 students from Alaska, Hawaii, and Nevada attended 16 cooperating pharmacy schools.

For more information, visit *www.wiche.edu/sep/psep.*

The chart below shows that an estimated 7,080 students will graduate with a PharmD in 2007; schools located in WICHE states will graduate 26 percent of the nation's PharmD students (1,817) in the same year. There are 92 schools of pharmacy in the U.S.; 23 of them are located in the Western states. The higher graduation numbers in 2007 are due to new schools and program expansion. The nation saw a 39 percent increase in the number of graduates from 1999 to 2007; during the same period, the WICHE states saw a 48 increase.

WICHE thanks Katherine K. Knapp, dean of Touro University – California's College of Pharmacy, for her assistance in writing this workforce brief.

Projected Increase in Pharmacy Graduates: 1999 and 2007

State	Population 2005	Pharmacy Graduates 1999	Estimated Pharmacy Graduates 2007	No. of Pharmacy Schools 2007	Annual Average No. of Graduates per 1,000,000: 1990-1999	Percent of Pharmacy Enrollment from In-State Applicants 1998
United States	**296,410,404**	**7,080**	**9,857**	**92**	**28**	**80**
WICHE States	**69,226,623**	**1,225**	**1,817**	**23**		
Alaska*	663,661	0	0	0	0	N/A

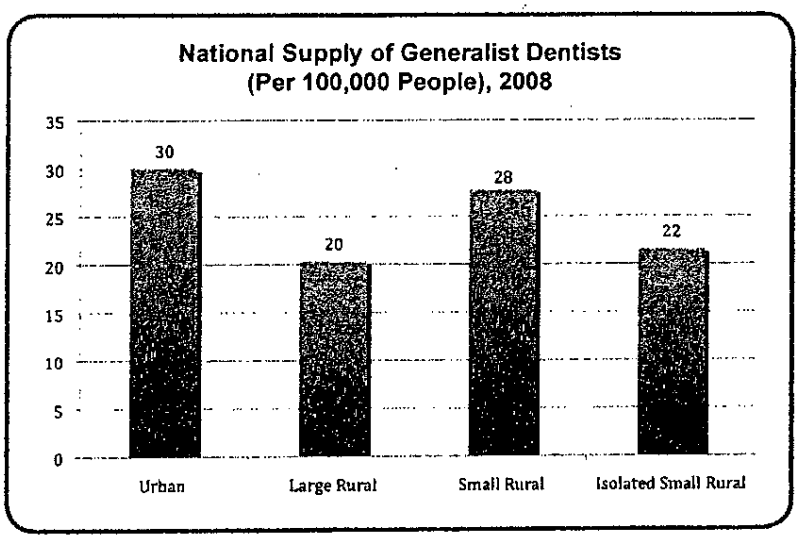
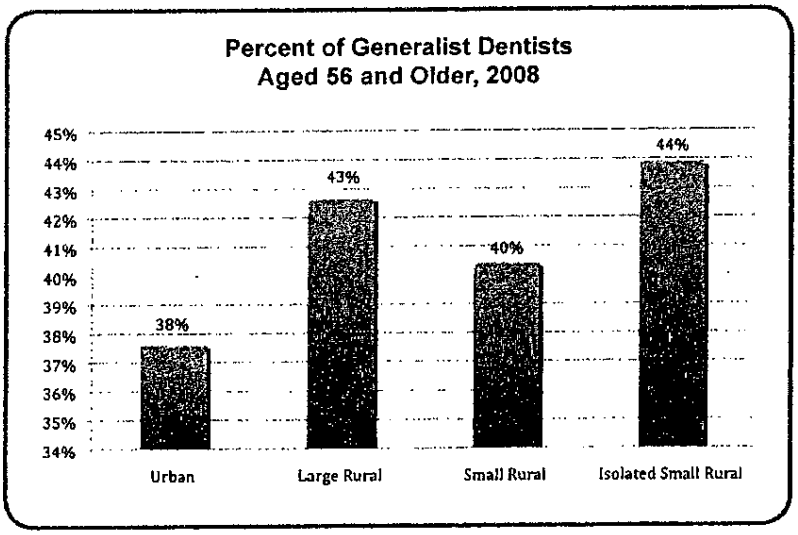
www.ruralhealthresearch.org

The Crisis in Rural Dentistry

Issues

Rural populations have fewer dentists, lower dental care utilization, and higher rates of dental caries and permanent tooth loss than urban populations.[1-5] Reports from the Surgeon General[4] and the Institute of Medicine[6] call for more dentists in rural locations. Federal and state programs have focused on expanding rural dentist supply to increase dental access and improve oral health, but efforts may need to intensify to meet the needs of rural communities.





Evidence

- Of the 2,050 U.S. rural counties, 1,221 (60%) are designated dental health professional shortage areas (HPSAs).[6]
- In 2008, there were 22 "generalist" (general practice, pediatric, or public health) dentists per 100,000 persons in rural areas compared with 30 in urban areas, nationally.[7]
- Nationally, rural areas had a higher percentage of generalist dentists aged 56 or older than urban areas (42% vs. 38%). This percentage was 44% in remote rural locations.[7]
- In 2004, dentists working at rural federally-qualified community health centers (CHCs) were in high demand and short supply. Almost half of rural CHCs had vacant dentist positions for over 7 months.[8]

Potential Solutions

The following strategies could be used to bolster the rural oral health care workforce:

- Admit dental students likely to choose rural careers, such as those from rural locations.
- Focus dental school expansion on the shortage of rural providers.
- Support rural programs and divisions within dental schools and their roles in teaching and mentoring students (e.g., training programs in rural general practice and pediatric dentistry).
- Provide rural experiences during dental education, such as rural training tracks.
- Increase opportunities for dental students and residents interested in rural careers to acquire the broad skill set needed for rural practice.
- Support loan repayment programs for dental students who enter rural practice.
- Enhance the ability of rural communities to recruit and retain dentists through locally-driven community, economic, and leadership development efforts.

HB 245 Licensure of Optometrists
Sectional

Section 1:

Technical amendments for grammar and removes high school requirement as it is unnecessary. Also outlines educational requirements required for licensure.
Applicant must have completed:

1.) Examination on ocular pharmacology
2.) 23 hours of course work on ocular disease
3.) 7 hours of course work on therapeutic pharmaceutical agent injections.
4.) Other course work established in regulation

Section 2:

Allows an applicant to retake the exam if they fail.

Section 3:

Requires applicants for licensure by credentials to have a license from a state that has licensure requirements equivalent to Alaska, pass the Alaska state exam, and the National Board of Examiners of Optometry exam.

Section 4:

Deals with renewal of licenses. Outlines requirements that must be obtained before a license may be renewed. The applicant must have:

1.) 8 hours of continuing education concerning the prescription of pharmaceutical agents;
2.) 7 hours of continuing education on the injection of nontopical therapeutic pharmaceutical agents;
3.) Met other requirements outlined by the Board through regulation

Section 5:

Deals with retired status licenses. Upon retirement a licensee may apply for a retired license. A retired license does not have to be renewed and the person may not practice optometry in Alaska. However, a person may go from retired status to active status upon application and upon meeting certain educational criteria.

Section 6:

Removes reference to certain class of optometry license as the bill creates only one class of license that is allowed to practice in this state.
Also, outlines the circumstances that an optometrist can prescribe pharmaceuticals (already in statute).

Section 7:

Repeals references to different classes of licenses.

Section 8:

Transitional Section: Allows a person who is not currently licensed at the highest level to be grandfathered in and get a restricted license. This will allow them to continue to practice but still not exceed their educational level.

Section 9:

Revisor Instruction: retitling a section heading

Section 10:

Immediate effective date.

Sponsor Statement for HB 245 Optometrist Licensure

HB 245 makes some necessary changes to the licensure criteria for optometrists in this state.

Currently, Alaska has three levels of licensure for optometrists:

1.) Basic License (no pharmaceuticals)
2.) License with Pharmaceutical Endorsement (in-office eye drops)
3.) License with Pharmaceutical Prescription and Use Endorsement (prescribing authority).

The Board of Optometry would like to have a standard level of care that everyone receives from optometrists. Therefore, some adjustments need to be made in statute to require the highest level of care.

HB 245 brings Alaska statutes in line with current educational levels. Students graduating from optometry schools within the last five years have already received the level of education necessary to obtain a license at the highest level currently provided in Alaska. Further, most licensed optometrists in Alaska have already obtained the level of education necessary for the highest level of licensure. There are only a handful of people who have not received that education and most of these optometrists are nearing retirement age. These optometrists would be issued a restricted license which would allow them to continue to practice but still not allow them to provide services that go beyond their level of education.

The level of education required in HB 245 has been standard in most optometrist schools across the country and most older optometrists have already obtained this level of education on their own. Many states are currently working on or have already passed similar legislation. Our citizens deserve the most current and highest level of care possible; allowing the licensure of optometrists with less than the standard education levels puts our citizens at risk. HB 245 remedies this problem by standardizing the licensure requirements for optometrists in Alaska.

I urge your support of HB 245.

ANALYSIS: *(Attach a separate page if necessary)*

HB 245 amends licensing requirements for Optometrists in AS 08.72 to be commensurate with current Optometry education and training; and provides a restricted license to the few licensees that have not achieved the higher-level training and endorsement. The bill also provides for a retired status license.

New funds are not required to implement this bill.

BOARD OF EXAMINERS IN OPTOMETRY

NARRATIVE STATEMENT

Two board meetings were held during Fiscal Year 2009. A teleconference was held on December 19, 2008 and a face to face meeting was held in Kodiak, Alaska on June 10, 2009.

Major Issues:

The board has been working with applicants and licensees to ensure they meet new requirements for a TPA endorsement.

The board is in support of HB 245 and SB 193 which were introduced in April 2009. These bills will clean up outdated language and move toward one level of licensure for all licensees.

These desired statute changes are consistent with the board's previously stated goals and objectives.

The Board is in support of the national proposal of Joint Board Certification Project Team (JBCPT). The certification process is about continued competency and professionals keeping current on the quality of care they provide to the public. Certification is not something state boards look at for licensure but health care providers' look at for payment to providers. There is concern that if the board does not join in support of this project, optometrists may not be qualified for payments from Medicare/Medicaid if the Federal Government moves ahead and requires board certification for reimbursement.

BOARD OF EXAMINERS IN OPTOMETRY

REVIEW OF GOALS AND OBJECTIVES FOR 2009

1. Continue regular review of optometry statutes and regulations. This review is necessary to be sure that the laws are adequately protecting the public and properly regulating the modern practice of optometry. Possible examples:

   Consider "standard of care" issues. – **Continuing.**

2. Develop a list of recommended changes to legislative statutes for the audit committee to take note of. Possible examples:

   a. Licensure by endorsement should be restricted to those coming in at the highest level of license. – **Continuing.**

   b. All <u>new</u> licenses should be at the highest level. – **Continuing.**

   c. All <u>current</u> Alaska licenses to be at the highest level of licensure by 2012. – **Continuing**

   d. Refusal of license: authority for the board to refuse to grant a new license for certain reasons and/or to impose certain stipulations. – **Accomplished SB 255**

3. Make active Alaska licensed optometrists aware of recent amendments to regulation. – **Continued Association Board Report and Website.**

4. Show support for pharmaceutical agent amplification legislation. – **Continued**

5. Continue to meet twice per year. – **Continued**

6. If possible send a board member to ARBO. – **Continued**

7. Keep informed of <u>and</u> support legislation on the state and federal level concerning patient protection and access to care.

8. Continue to support provider non-discrimination language in state and federal legislation.

BOARD OF EXAMINERS IN OPTOMETRY

GOALS AND OBJECTIVES FOR 2010

1. Continue regular review of optometry statutes and regulations. This review is necessary to be sure that the laws are adequately protecting the public and properly regulating the modern practice of optometry. Possible examples:

    a. Consider "standard of care" issues.
    b. Review the approval of alternate and electronic forms of continuing education such as webinars and virtual grand rounds.
    c. 12 AAC 48.210(a)(1) and (a)(2) could be improved by removing "contact" and just stating 36 hours continuing education.

2. Develop a list of recommended changes to legislative statutes for the audit committee to take note of. Possible examples:

    a. Licensure by endorsement should be restricted to those coming in at the highest level of license. HB245/SB193 was introduced to accomplish this

    b. All <u>new</u> licenses should be at the highest level. HB245/SB193 was introduced to accomplish this.

    c. All <u>current</u> Alaska licenses to be at the highest level of licensure by 2012. HB 245/SB193 was introduced to accomplish this.

    d. Refusal of license: authority for the board to refuse to grant a new license for certain reasons and/or to impose certain stipulations. **<u>Include in the division's Omnibus statutes for standardizing licensing, if possible.</u>**

3. Make active Alaska licensed optometrists aware of recent amendments to regulation.

4. Continue to meet twice per year.

5. Send a board member to ARBO.

6. Keep informed of and support legislation on the state and federal level concerning patient protection and access to care.

7. Continue to support provider non-discrimination language in state and federal legislation.

BOARD OF EXAMINERS IN OPTOMETRY

LEGISLATIVE RECOMMENDATIONS

Licensure:

The board reiterates the Legislative recommendations as stated in last year's report and is pleased that HB 245 and SB 193 were introduced in April 2009.

Alaska currently has three levels of optometry licensure: License; License with DPA Endorsement; and License with TPA Endorsement. The board wants legislation to issue all new licenses at the highest level. What is now a license with a TPA Endorsement (Pharmaceutical Agent Prescription and Use Endorsement) would be an Optometry License, and licensees with the two lower levels would either have to meet the requirements to upgrade, or could be grandfathered with restricted licenses. There are currently only 30 licensees with DPA endorsements (Pharmaceutical Agent Use Endorsement) and 1 with no Endorsement. No new restricted licenses will be issued and a full license would not be downgraded to a restricted license.

As optometry education and training has advanced, it is important to the public safety that new licensees are at the highest level. Some other states have required all licensees to upgrade their education and renew at the highest level (after a reasonable period of time), as this best insures the safety of the public with all licensees at the same level. Granting restricted licenses to the few remaining at the lower levels is a practical possibility, but not the ideal recommendation.

The CE requirement for **all** licensees is 36 hours per biennium as prescribed by the board in regulation (with least 24 hours in Pharmacology and/or Ocular Pathology and 12 hours in other optometry related courses, spectacles, contact lenses, refractive technology).

The board suggests:

1. Repealing Statute AS 08.72.175 without or with a grandfather clause for current DPA and no Endorsement licensees, allowing them the choice to keep their restricted license or to upgrade if they choose.
2. Amending Statute AS 08.72.272(a): Change "a license endorsement" to "a license" or "a license that is not restricted" per (the new) AS 08.72.175. Repeal (b) and (c).
3. Amend licensing law to remove any reference to a specific hourly requirement for continuing education allowing the board to set the number of hours for continuing education in regulation (AS 08.72.175(d)(1)-(2)).
4. Defining minimum educational standards for licensure and other changes as necessary to implement the recommendations.

Housekeeping:

Amend AS 08.72.140 to read:

Sec. 08.72.140. Qualifications for licensing ~~examination~~. To be eligible for licensure by the board as an optometrist, an applicant shall ~~The board shall admit to the examination a person who furnishes proof that the person~~

(1) ~~has had education equivalent to fours years attendance at a state high school~~;

(2) be ~~is~~ a graduate of a recognized school or college of optometry;

(3) ~~has~~ not have committed an act in any jurisdiction that would have constituted a violation of this chapter or regulations adopted under this chapter at the time the act was committed;

(4) ~~has~~ not have been disciplined by an optometry licensing entity in another jurisdiction and is not the subject of a pending disciplinary proceeding conducted by an optometry licensing entity in another jurisdiction; however, the board may consider the disciplinary action and, in the board's discretion, determine if the person is qualified to be admitted to the examination.
(5) meet other qualifications for licensure under this chapter and as established in regulations adopted by the board under AS 08.72.050

Repeal AS 08.72.150 Application for Examination and issuance of license. This statute is no longer necessary. Applicants take the national board directly through the national organization (NBEO); the state law examination is addressed under AS 08.72.160 and 12 AAC 48.015 and 12 AAC 48.020.

Amend AS 08.72.160(c) to address that an applicant who fails the board's state law examination may retake the examination by submitting the required examination fee.

Repeal AS 08.72.160(d) which reads: "An applicant who fails more than one portion of the examination shall retake the entire examination and pay the examination fee." This statute is no longer applicable due to the fact that applicants deal directly with the NBEO for the national examination and there is no longer a state practical examination.

Amend Sec. 08.72.170 (4) to require applicants by credentials have a current state license in another state equivalent to Alaska requirements, and **(5)** successfully passed all parts of the National Board required when originally licensed.

Repeal Sec. 08.72.240 (9) which reads: "failed to refer a patient to a physician after ascertaining the presence of ocular or systemic conditions requiring management by a physician." This statute is obsolete. Optometrists are defined as "physicians" currently under federal law, and are held to the same standard of care as other medical providers.

Over the years, more and more states are requiring optometrists to hold an optometry license at the highest level. In fact, effective January 2010, optometrists in the state of Oregon must be licensed at the highest level to even practice optometry. The chart below is a survey of states showing the movement among states to require licensees meet the highest educational requirements.

Initial and Renewal License Requirements to Seek/Maintain Highest Level

Last Revised January, 2010

STATE:	Can an **applicant for initial licensure** (could be a new grad or someone coming from another state) apply for a license other than one at the highest level of prescriptive authority authorized in your state?	Can a **licensee within your state holding an active license** drop "down" to a lower level license at renewal or other time (i.e., they hold a TPA license, but now only want a basic or DPA-only license)?
Alabama	**NO**	**YES** Technically, yes. We hope to tighten up the wording of our law so that this cannot happen. We have had one instance of this with a licensee who was about to retire. He asked to lower his licensure status to non-therapeutic for the few months he planned to practice. We could find nothing in our law that prevented this. He saved $110!
Alaska	**YES** 2010 Legislation is aimed at changing this to No.	**YES** 2010 Legislation is aimed at changing this to No.
Arizona	**NO**	**NO**
Arkansas	**NO**	Yes, under health reasons and maybe has retired, but still wants to keep their basic licenses. The cost difference is $50
California		
Colorado	**NO**	**NO**
Connecticut		
Delaware	**NO**	**NO**
D.C.		
Florida	**NO**	**NO**
Georgia	**NO**	**NO**
Hawaii		
Idaho	**NO**	**NO**
Illinois	**NO** All licensees had to upgrade to the highest level by 2007	**NO**

For more information contact Tracy Oman, Alaska Optometric Association, at (907) 272-2972 or akoa@alaska.com

Indiana	**YES** Our applicants apply for an optometry license and if they are going to be prescribing, administering, or dispensing legend drugs then they can obtain an optometric legend drug certificate. It is not mandatory to obtain the legend drug certificate.	**YES**
Iowa	**NO**	**NO** We have no definite rule but would probably be denied.
Kansas	**NO** As of May 31, 2010, everyone must come in at the highest level.	**NO** As of May 31, 2010, everyone must be at the highest level.
Kentucky		
Louisiana	**NO**	**NO** Must be TPA to practice in the state.
Maine	**NO**	**NO**
Maryland		
Massachusetts	**NO**	**NO**
Michigan		
Minnesota		
Mississippi	**NO**	**NO**
Missouri	**NO**	**NO**
Montana		
Nebraska	**NO**	**NO**
Nevada	**YES** All new licensees come in at a DPA level. Subsequent to licensure, they can apply for TPA certification after they have completed the statutorily required 40 hour preceptorship with an ophthalmologist. They can elect to stay DPA. Most of those who are only DPA are not practicing in the state.	**NO**
New Hampshire	**NO**	**NO**
New Jersey		
New Mexico		
New York		
North Carolina	**NO AND YES** Beginning with the graduating classes of 2008 from the accredited schools and colleges of optometry applicants will come in at the highest level (includes injectables). Current licensees do not have to move up to the highest level with injectables.	**NO**
North Dakota	**NO** As of 2001	**NO**
Ohio	**NO**	The Ohio law does not specifically address this issue one way or another. The law does provide that they MAY renew each certificate of licensure and agents certificate. If

		someone only wanted to renew there license and not a certificate they would drop down to just an optometric license but would not be able to drop from a TPA to a DPA. There have not been any licensees who have dropped to a lower level in the past 5 years. The cost for a TPA or DPA certificate is $25 above the annual renewal cost of $110 for just licensure.
Oklahoma	**NO**	**NO**
Oregon	**NO** As of January 2010 applicants must be at highest level, ***except for*** injectables authority which will remain optional. NOTE: Over the last five years they have had 159 applicants who have not sought licensure at the highest level.	**NO** As of January 2010.
Pennsylvania	**NO & YES** New grads automatically get the highest level of licensure. Older grads coming in from another state may apply for a lower level license, but it is infrequent. The cost is the same.	**NO** They are not given that option.
Rhode Island		
South Carolina	**NO**	**NO**
South Dakota	**NO**	**NO**
Tennessee		
Texas	**NO & YES** An applicant from another state can only come in as a therapeutic OD or higher.	**NO**
Utah		
Vermont		
Virginia		
Washington	**NO**	**NO**
West Virginia	**NO**	**NO**
Wisconsin	**NO** Could until Aug 2006.	**NO** Could until Aug 2006.
Wyoming	**NO**	**NO**

FEB 25 2010

2/22/2010

After reading S.B. 193 and H.B. 245 it would seem there is little value in protecting the public's visual well-being.

Reasons:

1. Board Authority to approve schools-
   All 18 U.S. teaching schools of optometry issue a Dr. of Optometry degree and all are accredited.
2. The Board of Optometry may give a restricted license to practice.
   There are 20 licenses that do not hold the highest certification of practice. I am not aware of any demonstrated record that shows a license of these 20 is a threat to the public visual well-being; rather this allows the board to put an existing license out of practice.
3. Putting C.E. course requirements in statute-
   Not a good idea. Technology and practice procedures change rapidly.

What appears to be the intent of these two bills is to get in stature the authority for the Board of Optometry to function in an arbitrary and capricious manner.

REPRESENTATIVE PEGGY WILSON
HOUSE DISTRICT 2

SPONSOR STATEMENT

Committee Substitute for House Bill 273

"An Act relating to general grant land entitlements for the City and Borough of Wrangell; and providing for an effective date."

HB 273 is introduced to complete the formation of the Wrangell borough and the land entitlements that the state grants to support local government. This bill would grant 6,506 acres to CBW.

The City and Borough of Wrangell (CBW) was formed in May 2008. Upon formation each borough receives a general land grant entitlement from the state under AS.29.65.010.

CBW's land grant would be 1,952.5 acres according to Department of Natural Resources; this is the smallest entitlement of any borough.

Our residents have identified, in our Borough comprehensive planning process, areas for future energy and port development to enhance the economic opportunities of the area. The additional acreage is critically important to provide for the needs of the Borough and its citizens in order to accomplish their economic, cultural, habitat, settlement and resource development goals.

Sec. 14.40.365. University land grant.

(a) Except as provided in (b) of this section, before July 1, 2008, the commissioner of natural resources shall convey to the Board of Regents in trust for the University of Alaska, by quitclaim deed, the state land identified for conveyance to the university and described in the document titled "University of Alaska Land Grant List 2005," dated January 12, 2005.

(b) As soon as practicable after June 30, 2055, the commissioner of natural resources shall convey to the Board of Regents in trust for the University of Alaska, by quitclaim deed, the state land described as the "University Research Forest" and identified for conveyance to the university in the document titled "University of Alaska Land Grant List 2005," dated January 12, 2005.

(c) As soon as practicable after the receipt of patent from the United States, but not before the land is otherwise required to be conveyed under this section, the commissioner of natural resources shall convey to the Board of Regents in trust for the University of Alaska, by quitclaim deed, federal land that has been selected for conveyance to the state under the Alaska Statehood Act but is subject to a federal mining claim, and that is identified in the document titled "University of Alaska Land Grant List 2005," dated January 12, 2005, for conveyance to the university upon the state's acquisition of patent.

(d) Notwithstanding AS 38.05.125 (a), and except as otherwise provided in this section, the transfer of ownership of land from the commissioner of natural resources to the Board of Regents in trust for the University of Alaska under this section includes the interest of the state in the coal, ores, minerals, fissionable materials, geothermal resources, and fossils, oil, and gas that may be in or on the land.

(e) Land conveyed under this section to the Board of Regents in trust for the University of Alaska is subject to any valid possessory interest or other valid existing right, including any lease, license, contract, prospecting site, claim, sale, permit, right-of-way, Native allotment, or easement held by another person, including a federal, state, or municipal agency, on October 23, 2005.

(f) Before conveying land under this section, the commissioner of natural resources shall reserve access under AS 38.05.127, but other provisions of AS 38.04 and AS 38.05 do not apply to the commissioner's preparation for conveyance of land to the Board of Regents in trust for the University of Alaska under this section. In addition to access under AS 38.05.127, the commissioner may reserve in the conveyance document existing offshore uses such as aquatic fish farm sites, anchorages for vessels, fish buying stations, trails, roads, and other access routes that provide public access to adjacent land and public waterways; however, an easement along tidewater reserved by the commissioner under AS 38.05.127 may not exceed 25 feet.

(g) In addition to rights or an interest held by a person under (e) of this section, land conveyed to the Board of Regents in trust for the University of Alaska under this section

(1) is subject to

2005 Univ Land Grant
submitted by Rep. P. Wilson (copy on file)

(A) sec. 6(i) of the Alaska Statehood Act (P.L. 85-508, 72 Stat. 339);

(B) AS 19.10.010 ;

(C) any easement, right-of-way, or other access under former 43 U.S.C. 932 (sec. 8, Act of July 26, 1866, 14 Stat. 253);

(D) the provisions of any memorandum of agreement entered into between the University of Alaska and the commissioner of natural resources governing shared benefits or costs associated with land to be conveyed to the Board of Regents in trust for the University of Alaska;

(E) any interest transferred to the state by quitclaim deed dated June 30, 1959, under authority of the Alaska Omnibus Act (P.L. 86-70, 73 Stat. 141); and

(2) excludes the mineral estate on land that is subject to a valid state mining claim.

(h) As soon as practicable after the extinguishment, release, or expiration of a valid state mining claim located on land to be conveyed under this section, but not before the land is otherwise required to be conveyed under this section, the commissioner of natural resources shall convey the mineral estate excluded from conveyance under (g)(2) of this section.

(i) The responsibility for the management of land conveyed to the Board of Regents in trust for the University of Alaska under this section vests with the Board of Regents in trust for the University of Alaska on the date of recording of that conveyance.

(j) The Board of Regents of the University of Alaska is entitled to receive any income derived from land conveyed to the Board of Regents in trust for the University of Alaska under this section accruing after the date of conveyance, including any income accruing from an existing lease, license, contract, prospecting site sale, permit, right-of-way, easement, or trespass claim.

(k) Notwithstanding any other provision of this section, within 10 years after conveyance of land under this section, the Board of Regents may reconvey to the Department of Natural Resources land

(1) containing hazardous waste that was present on the land before conveyance under this section;

(2) on which is located a historic or archeological site that is subject to management under AS 41.35; or

(3) that the Board of Regents and the commissioner of natural resources jointly agree is in the best interests of the state and the university to reconvey.

(l) After October 23, 2005 and before the conveyance of a parcel of land to the Board of Regents in trust for the University of Alaska under this section, the commissioner of natural

resources may not convey, without consent of the university, any irrevocable interest in a parcel that is required to be conveyed to the Board of Regents in trust for the University of Alaska under this section.

(m) The commissioner of natural resources may make minor adjustments to the maps or legal descriptions of the state land identified for conveyance to the university and described in the document titled "University of Alaska Land Grant List 2005," dated January 12, 2005, to correct omissions or errors.

(n) Notwithstanding (a) of this section, the following state land described in the document entitled "University of Alaska Land Grant List 2005," dated January 12, 2005, may not be conveyed to the University of Alaska under this section:

(1) Parcel Number CS.DI.1001, Duke Island;

(2) Parcel Number MF.1002, Idaho Inlet;

(3) Parcel Number CS.KI.1001, Kelp Island;

(4) Parcel Number HA.CH.1001, Haines-Chilkoot;

(5) Parcel Number KT.1004, Neets Creek;

(6) Parcel Number MA.KR.1001, Kodiak Rocket Range;

(7) Parcel Number ST.1002, Pelican;

(8) Parcel Number PA.1001, Port Alexander; and

(9) Parcel Number ST.1002, Warm Springs Bay.

(o) Notwithstanding (a) of this section, the state land identified in this subsection and described in the document entitled "University of Alaska Land Grant List 2005," dated January 12, 2005, may not be conveyed to the University of Alaska under this section if the land is included in a borough formed before July 1, 2009, that includes Wrangell or Petersburg. If a borough is not formed before July 1, 2009, land described in this subsection shall be conveyed to the University of Alaska on July 1, 2009. If a borough is formed before July 1, 2009, and the borough does not select land described in this subsection before January 1, 2013, the land not selected by the borough shall be conveyed to the University of Alaska on June 30, 2013. The following land is subject to this subsection:

Wrangell was a borough in 2008.

(1) Parcel Number SD.1001, Beecher Pass;

(2) Parcel Number SD.1001, Favor Peak;

(3) Parcel Number CS.TL.1001, Three Lake Road;

(4) Parcel Number SD.1001, Read Island;

(5) Parcel Number SD.1001, Whitney Island;

(6) Parcel Number CS.EW.1001, Earl West Cove;

(7) Parcel Number CS.OV.1001, Olive Cove; and

(8) Parcel Number SD.1001, Thoms Place.

(p) Notwithstanding (a) of this section, each of the following parcels described in the document entitled "University of Alaska Land Grant List 2005," dated January 12, 2005, may not be conveyed to the University of Alaska under this section until all Native allotment applications applicable to that parcel have been denied:

(1) Parcel Number PA.1002, Biorka Island; and

(2) Parcel Number NS.NS.1001, Lisianski Peninsula.

(q) Notwithstanding (a) of this section, the state land identified in this subsection and described in the document entitled "University of Alaska Land Grant List 2005," dated January 12, 2005, may not be conveyed to the University of Alaska under this section if the land is included in a borough formed before July 1, 2009. If a borough is not formed before July 1, 2009, the land described in this subsection shall be conveyed to the University of Alaska on July 1, 2009. If a borough is formed before July 1, 2009, and the borough does not select land described in this subsection before January 1, 2013, the land not selected by the borough shall be conveyed to the University of Alaska on June 30, 2013. The following land is subject to the provisions of this subsection: Parcel Number PA.1002, Mite Cove.

The Honorable Representative Bill Thomas
Alaska State Capital Building
Juneau, Alaska 99811

Re: CSHB 273

Dear Representative Thomas:

The Haines Borough appreciates your efforts to correct an inequity regarding municipal land grants afforded to boroughs upon incorporation. This amendment will address two shortcomings. Haines was one of the first areas of the state surveyed (due to its rich resources). This resulted in a severe limitation of the total VUU (vacant, unappropriated, unreserved) lands available for conveyance under AS.29.65.010. The former Third-class Haines Borough received the smallest entitlement of any borough in the state.

With encouragement from the State and approval of its citizens, the Third-class borough was dissolved and a new home-rule borough incorporated in October 2002. This new municipality, incorporated after July 1, 1978 per AS.29.65.030, should have been considered for an entitlement of 10% of VUU lands within the boundaries of the municipality. This was not done and the Haines Borough is not requesting that full entitlement that perhaps is due under the law.

The Haines Borough has identified through its public process 1,809 acres of VUU land it would respectfully request under an amendment to HB 273. The bulk of these lands are contiguous to lands already selected by the borough that surround vital watershed and economic resources in Excursion Inlet. All of these parcels have been identified by AKDNR as available for selection by the borough.

On March 9, 2010, the Haines Borough Assembly unanimously approved the selection of these lands and respectfully requests passage of this amendment on behalf of the Haines Borough.

Thank you,

Janice Hill

8. STAFF REPORTS

A. Borough Manager

- **Haines Borough Additional Lands Selection**

  The manager reported that he is working with Representative Thomas on an amendment to HB 273, relating to general grant land entitlements for the City and Borough of Wrangell. The amendment would allow the Haines Borough to have an additional general grant land entitlement. He has been working with other borough staff as well as AK-DNR to identify conveyable parcels.

Motion: **VICK** moved that "the assembly authorizes the borough manager to pursue the selection of additional lands and submit whatever is needed to get on the list to make it happen." The motion carried unanimously.

HAINES BOROUGH INCORPORATED SEAL OCTOBER 17 2002 STATE OF ALASKA

Attest:

Julie Cozzi, Borough Clerk
Haines Borough, Alaska

	State ID	State Designation	Total VUU (Selectable acres) in Parcel	Wrangell 2/11/2010 selected acreage	Wrangell 2/19/2010 selected acreage	Description	Future Growth Map Designation(s)	BOROUGH COMMENTS
1	W01	Gu	3,410	1,290	420	**Crittenden Creek Watershed**	Remote Residential; Important Habitat/Special Areas; Resource Development with Scenic Protection; Recreation	We are proposing to reduce our selection by a third, reducing the value of potential timber for the borough, because DNR has objected to losing state timberlands that affects their calculation of the sustained yield. This area is very important to Borough residents, however, for uses/issues described. Infrastructure and proposed roads should be considered for access to shoreline development potential. Any LTF deveoloped should remain usable for use by the public.
						This parcel is located east of Wrangell, across the eastern passage on the mainland. The area is popular for hunting, fishing and recreation and there are two prehistoric sites located on the coast. There is potential for commercial timber harvest. Municipal selection is from bay that is east of Babblers Point, north. Selection includes area outside of the proposed State Forest parcel as well as along the shoreline within the proposed State Forest parcel. Uses include southwest facing area for residential, important cultural sites to protect, area for potential commercial recreational use, small area for commercial or personal use timber, buffer between any State harvests and shoreline uses. This area is important to residents for fisheries, recreation, subsistence and local salmon derby also. Borough's desired acreage is western portion of parcel, west of Crittenden Creek.		

	State ID	State Designation	Total WAU (selectable acres) in Parcel	Wrangell 2/12/2010 selected acreage	Wrangell 2/19/2010 selected acreage	Description	Future Growth Map Designation(s)	BOROUGH COMMENTS
2	W08	Gu	1,679	1,679	745	**Areas in Wrangell East** Parcel is located on the eastern side of Wrangell Island, south of the airport. Roads gave access to municipal and state timber sale in late 1990s and now provides some access to residential properties with more being sought. The northwestern section of this parcel is on the road network, is close to Downtown Wrangell and city services could easily be extended and would be a good location for industrial development. Commercial timber in isolated pockets along entire parcel. Buffer residential parcels.. Borough owns tidelands.	Industrial; Recreation, Parks or Open Space	We are proposing to reduce our proposed selection by 44%, reducing the value of potential timber for the borough, because DNR has objected to losing state timberlands that affects their calculation of the sustained yield. This area is vital to the borough. Being on the road system it is a critical area for community expansion – residential, commercial and industrial. Timber could be made available to operators through a borough sale. Community access for recreation, to existing and future settlement development. We are looking at small areas of timber that can be provided to timber operators, shoreline uses creating a buffer between state timber sales and the use, scenic uses. Infrastructure and proposed roads should be considered for access to shoreline development potential. Most important would be to connect the road coming down from the north Spur Road and connecting to the road coming up from the South from Pats Lake Road.

	State ID	State Designation	Total VUU (selectable acres) in Parcel	Wrangell 2/12/2010 selected acreage	Wrangell 2/19/2010 selected acreage	Description	Future Growth Map Designation(s)	BOROUGH COMMENTS
3	W10	Gu	3,061	700	535	**Eastern end of Pat's Lake Road adjacent to W-08**		
						Part of a larger parcel that stretches east to west across Wrangell Island, on either side of Pat's Creek Road. Recommended selection is at the eastern end of Pat's Creek Road. This area has water access and is on the Island road network, on the colder side of the Island, and close to a power source (Tyee intertie). It is a potential site for a regional solid waste or other industrial uses that need water and road access, power and are remote a more densely populated area. Also isolated pockets of commercial grade timber here. Borough owns tidelands.	Industrial	
4	W27	Gu	659	659	659	**Uplands at end of Zimovia Hwy, South of Pats Lake on Wrangell Island**	Rural Residential	
						Located on the eastern side of Wrangell Island, south of the Pat's Lake and north of McCormacks Creek. This area is on the Wrangell Road System and would is one of the only areas along Zimovia Highway that is suitable for rural residential development.		
5	W14	Gu, S, Ha	3,555	1,130	1,130	**Coastal Area and Uplands Northwest of Thoms Place**		
						This area is north of Thoms Place on Wrangell Island. This area has a range of potential uses. The coastline, northwest of the existing residential lots would be appropriate for remote residential development. The area to the northeast of this has high timber values and could be selected by the Borough for commercial timber harvest. The parcel the Borough is selecting will transfer to the University if not selected by the Borough.	Remote Residential and Resource Development with Scenic Viewshed	

	State ID	State Designation	Total VUU: (selectable acres) in Parcel	Wrangell 2/12/2010 selected acreage	Wrangell 2/19/2010 selected acreage	Description	Future Growth Map Designation(s)	BOROUGH COMMENTS
6	W15	Gu, Ru	450	450	450	**Snake Creek at Olive Cove**		
						This parcel is located on the east side of Etolin Island south of Anita Bay and is located on a flat coastal plain vegetated, in part by hemlock and spruce forest. An existing residential subdivision is to the north. The Snake River and its watershed is especially important to Olive Cove property owners as well as to those who utilize the cove's commercial salmon and crab fisheries. It is a healthy anadromous stream and the surrounding watershed is important habitat for salmon, steelhead and migratory birds, supplies nutrients that sustain the cove's commercial, sport and subsistence fish and crab harvests, and is used by local residents for recreation and subsistence hunting and fishing. The parcel will be transferred to the University if it is not selected by the Borough.	Parks, Recreation or Open Space; Resource Development with Scenic Protection	
7	W21	Gu	2,778	2,778	667	**Bradfield River Floodplain and Adjacent Uplands**		
						This parcel occupies the broad floodplain of the Bradfield River. Large portions are covered by wetlands especially in the western part of the parcel. Portions for the parcel are occupied by structures related to the Tyee Hydroelectric facility, including an airstrip and seaplane float/dock. There is the possibility of an inter-island road through parts of the parcel, design to link the central southeast with Canada. This parcel has the potential for the development of facilities to support the existing hyrdoelectrical facility, the proposed intertie or the transportation corridor. The Borough's selection focuses on the road and electrical intertie corridor.	Industrial; Important Habitat/Special Areas	We are proposing to reduce our selection by 25%, reducing the potential road/electrical port development opportunities for the borough should Bradfield Road be constructed. The reduction is because DNR has objected to losing state timberlands that affects their calculation of the sustained yield and for the proposed State Forest. This area is one of the key future economic development opportunities for the borough and the area has been important to Borough residents for more than 60 years.
8	W20	Gu	574	574	330	**South Shore of Upper Bradfield Canal**		

	Score ID	State Designation	Total VUU (selectable acres) in Parcel	Wrangell 2/12/2010 selected acreage	Wrangell 2/19/2010 selected acreage	Description	Future Growth Map Designation(s)	BOROUGH COMMENTS
						This area covers the steeply sloping land rising out of the southeastern side of the head of Bradfield Canal. Most of the area has very steep slopes covered in hemlock and spruce forests. Much of the forested area is considered commercial quality. The area is located near the Tyee Lake Electrical facility and has potential to be developed for industrial uses related to the proposed electrical intertie and road corridor. The Borough's selection focuses on a port that would be tied to other area development (road etc).	Industrial	This area is very important for Port Development for the Bradfield Road

	State ID	State Designation	Total VUU (selectable acres) in Parcel	Wrangell 2/12/2010 selected acreage	Wrangell 2/19/2010 selected acreage	Description	Future Growth Map Designation(s)	BOROUGH COMMENTS
9	W12	Gu	3,564	3,564	845	**Earl West Cove**		
						Earl Cove West is located along the eastern shore of Wrangell Island. The parcel has road access and contains a river floodplain and steep valley walls on both sides. Some previous timber sales have taken place and a log transfer facility provides water access. There is a campsite and the area is a popular recreation site for locals. The parcel will be transferred to the University if it is not selected by the Borough. Borough selection is for further development of the recreational facilities, possible small port facility, areas along shore for remote residential properties, possible rock source, and some commercial timber harvest.	Remote Residential; Waterfront Development; Parks, Recreation or Open Space; Resource Development with Scenic Protection; Impt Habitat	The acreage has been reduced further based on DNR's objection to reducing the amount of acreage that UA will receive from this parcel after our selection. However this area is heavily used by the community, has road access with potential for recreation, settlement, commercial uses.
10	W-02	Gu, S	1,679	839	520	**St Johns Harbor, Zarembo Island**		
						State timber sales; residential subdivision opportunities. Wrangell is selecting 1/3 the total acreage, and is interested in partnering with the State to develop a remote residential subdivision and sell land.	Remote Residential	We reduced the acreage amount further because DNR has objected to losing state timberlands that affects their calculation of the sustained yield. There is interest in providing remote settlement opportunities, potential commercial services, support areas for area mining activities and small timber areas.
	W-23	Ru	752		75	**McHenry Anchorage:** For remote recreational use, or potential remote commercial recreational opportunities and commercial mariculture support activities in the area.		For remote recreational use, or potential remote commercial recreational opportunities and commercial mariculture support activities in the area.
	W-07	Gu, Ru, Pr	976		130	**Mill Creek south GU:** For recreational uses and potential commercial recreational uses.		For recreational uses and potential commercial recreational uses.

House Bill 280
"The Cook Inlet Recovery Act"
Sponsor Statement

Residents of South Central Alaska are at risk that in the near future there will not be enough natural gas produced in Cook Inlet to heat and light their homes and businesses. Legislative action now can help address this challenge before it becomes a crisis.

A critical and universally recognized part of the solution is large-scale gas storage, allowing utilities to purchase gas during lower demand periods; hold the gas in storage; then withdraw it when needed. Establishing gas storage is crucial, and the state needs to promote the rapid development of storage facilities. House Bill 280, the Cook Inlet Recovery Act (CIRA), provides tax incentives and regulatory assurances to attract the private investment necessary to develop storage facilities and help reduce the cost of storage to consumers.

Specifically, CIRA provides a 10-year exemption from state land lease fees and rents to owners of new gas storage facilities. Since storage is needed urgently, these financial incentives will be available only for facilities put into operation before December 31, 2015. CIRA sets standards, such as minimum size and access requirements, for qualifying projects. Consumers will benefit from increased energy security and lower energy costs, as any financial incentives are required to pass through the supply chain to utilities and, in turn, to their customers.

In addition to storage, South Central also needs new gas discoveries. CIRA increases the incentives for exploration in Cook Inlet and allows explorers and producers to take their full benefit in one year rather than over two years.

CIRA also provides statutory guidance to the Regulatory Commission of Alaska in its consideration of utility gas supply contracts to help ensure adequate supplies of reasonably priced gas in the years ahead.

2/5/10

HB 280
Cook Inlet Recovery Act - Sectional Analysis
Prepared by Representative Mike Hawker's Office

Section 1: Sets out a short title for the legislation: Cook Inlet Recovery Act (CIRA).

Section 2: Establishes an application process, criteria and timeline for the Alaska Oil and Gas Conservation Commission (AOGCC) to certify that a gas storage facility (GSF) meets the minimum working gas storage capacity and daily delivery rate requirements to be eligible for the financial incentives provided in this bill.

Section 3: Requires a GSF owner to notify the AOGCC if the facility ceases operation.

Provides definitions for terms used in CIRA.

Requires the Director of the Division of Mining, Land and Water to give priority to and expedite "when reasonably possible" any applications, permits and lease assignments needed for development and operation of a GSF.

Section 4: Directs the Department of Natural Resources (DNR) to waive any state land lease fees or rents for the first 10 years of a GSF's operation. The waiver would stop if the storage facility ceases commercial operations.

States that any waivers of lease fees or rents would be public record.

Requires that the GSF pass on the financial benefits of any lease exemption to utilities that use its service.

Clarifies that any gas withdrawn from a GSF is considered to be non-native gas and not subject to royalty until all non-native gas is withdrawn.

Section 5: Directs the Regulatory Commission of Alaska (RCA), when considering the approval of a utility's gas supply contract, to consider the impact on consumers if the commission rejects a utility's gas supply contract and to recognize the value of a utility holding a diversified portfolio of gas supply contracts with different pricing mechanisms in order to protect consumers from inadequate gas supplies and the risk of a single pricing mechanism.

Section 6: Requires that a utility's cost of gas storage that is passed on to consumers reflect the financial benefits of any tax credits and state lease exemptions provided in this legislation.

Section 7: Specifies that the Regulatory Commission of Alaska has jurisdiction over natural gas storage services provided for gas that is owned by a regulated utility.

(Copy on file)

Section 8: Further defines "natural gas storage facility" and clarifies what is considered part of the storage facility.

Further defines that RCA regulation of gas storage facilities is limited to facilities operated primarily or exclusively for third-party customers; regulation does not extend to a proprietary storage facility operated exclusively or primarily to hold gas owned by the storage facility owner or operator.

Section 9: Clarifies that the names of taxpayers and the amount of credits claimed for gas storage facilities under this legislation shall be public information. Requires the Department of Revenue (DOR) to furnish the information to the RCA.

Section 10: Establishes a credit against corporate income taxes of $1.50 per thousand cubic feet of new gas storage capacity opened in Alaska during 2011-2015. The credit is limited to $15 million per GSF. This section sets out minimum capacity and deliverability requirements to qualify for the credit, including that the GSF must be available for use by regulated utilities and, if utilizing state land, must be in compliance with its DNR storage lease. The credit can be refunded by the state at full value if the owner does not have enough taxable income to fully utilize it.

Section 11: Sunsets on Jan. 1, 2011, the rule that limits how certain tax credits arising from activity in Cook Inlet or from producing gas for in-state use are used. This would allow a Cook Inlet explorer or producer to explore or produce elsewhere in the state and have full access to the credits it earned from its Cook Inlet activities.

Section 12: Clarifies that any native gas in a gas storage facility shall be deemed not to be produced for production tax purposes until all of the non-native gas injected into the storage facility has been withdrawn.

Section 13: Allows explorers in Cook Inlet to receive their full production tax credit in the first year rather than over two years (as in current statute).

Section 14: Makes additional statutory changes to allow explorers in Cook Inlet to receive their full production tax credit the first year rather than over two years (as in current statute).

Section 15: Adds the new Cook Inlet-related well tax credits to the section in statute dealing with audits of transferred tax credits.

Section 16: Provides a 40% credit for exploration expenses in Cook Inlet against production taxes, rather than the two-tiered 30% / 40% credit in existing statute. In addition, all well-related lease expenditures in Cook Inlet, including non-capital and non-exploration related lease expenditures, also qualify for the credit.

Section 17: Allows the state to use funds from the oil and gas tax credit fund to refund the tax credits issued to a GSF.

Section 18: Makes additional changes to make it easier for a company to sell its Cook Inlet exploration credits to the state. Current law requires that before a company can sell credits back to the state it must prove it has spent an amount equal to the credit in Alaska. HB 280 would eliminate that requirement for Cook Inlet exploration credits.

Section 19: Authorizes the Department of Revenue to write regulations implementing certain aspects of Section 17.

Section 20: Directs the Office of Public Advocacy for regulatory affairs at the Department of Law, when considering whether to participate in a utility rate case regarding a utility's gas supply contract before the RCA, to consider the impact to consumers if the commission rejects a utility's gas supply contract and to recognize the value of a utility holding a diversified portfolio of gas supply contracts with different pricing mechanisms in order to protect consumers from inadequate gas supplies and the risk of a single pricing mechanism.

Section 21: Immediate effective date clause.

HB 280 Overview (cont.)
Definitions

Gas storage facility: A depleted or nearly depleted reservoir or aboveground tank used to store natural gas produced offsite and delivered to the storage facility to hold until needed. The owner of the gas — a utility, for example — would inject gas into the facility and would pay the facility operator for storage service.

Working gas storage capacity: The maximum amount of natural gas the storage facility could safely hold for its storage customers.

Cushion gas (also known as pad gas): The volume of gas that must be maintained in the storage facility to provide adequate pressure for operations. The storage operator, not the storage customers, would own the cushion gas.

Native gas: In the case of a nearly depleted reservoir, native gas is the natural gas that exists in the reservoir at the time it is developed for use as a storage facility. Native gas is used as cushion gas to maintain pressurization. If all of the non-native working gas that was injected for storage is withdrawn and native gas is eventually produced, state tax and royalty would be assessed.

Non-native working gas: Natural gas that is produced from another reservoir and delivered to the storage facility and held until needed. For example, a utility could purchase gas from a Cook Inlet producer and have it delivered to the storage facility for safekeeping until the utility needs the gas to meet customer demand. At that point, the utility would instruct the gas storage operator to deliver the quantity of gas required. The utility, not the storage operator, would own the gas in storage. State tax and royalty would be assessed on the non-native working gas when it is first produced and sold to the utility; no additional taxes or royalties would be due when it is withdrawn from storage for delivery to the utility.

HB 280 Overview (cont.)
FAQs

1. What are the minimum requirements for a gas storage facility (GSF) to qualify for financial incentives in the Cook Inlet Recovery Act? Who determines if a GSF meets these requirements?

   In order to qualify for the financial incentives in CIRA, a GSF must have the capacity to store more than 500 million cubic feet of working gas and deliver gas at a rate of at least 10 million cubic feet per day. The Alaska Oil and Gas Conservation Commission (AOGCC) will be required to certify these capacities within six months of receiving an application and provide the certification to the applicant, the Department of Natural Resources and the Department of Revenue.

2. What happens if the GSF stops operating?

   A GSF ceases operations if it doesn't inject or withdraw at least 100 million cubic feet of gas in a calendar year. The operator is required to notify the AOGCC by April 1st of the following year. If this happens, the GSF will no longer be eligible for state lease fees exemptions or tax credits.

3. Sections 4 and 12 of the bill state that gas withdrawn from a GSF is considered to be non-native gas and not considered to be produced until all non-native gas has been withdrawn. What does this mean and why do we need this language?

   This language requires that state follow last-in, first-out accounting rules for gas in a GSF. "Native gas" is any gas that is already in a storage facility and will be subject to existing royalty and production taxes when it is produced. "Non-native gas" includes all gas that is injected into the facility for temporary storage - royalty and production taxes were assessed when it was produced. By including this language, it is clear that non-native gas extracted from a GSF is not taxed twice and native gas is not subject to royalty and production taxes until all non-native gas is withdrawn.

4. Gas storage companies are receiving lease exemptions and tax breaks under CIRA. Are these savings passed on to the consumer?

   Yes. Language in sections 4, 6 and 10 require the owner of a GSF to reflect the savings of any financial benefits enacted in CIRA in their gas storage price.

Subject: RCA and gas storage regulation

I prepared the following report from today's order issued by the Regulatory Commission of Alaska. The commission responded to a request for declaratory judgment from Cook Inlet Natural Gas Storage, which is looking for certainty on the question whether gas storage is or is not regulated by the RCA under state statute.

Larry, 465-6959

RCA says legislative answer would be best decision on gas storage regulation

The Regulatory Commission of Alaska Jan. 28 denied the request from Cook Inlet Natural Gas Storage (CINGS) for a declaratory judgment that gas storage is outside the regulatory jurisdiction of the commission. The RCA essentially said the Legislature is the best place for this decision.

There was no consensus among parties to the docket, with some arguing that state statute requires or at least allows the RCA to regulate a gas storage operation and others contending that state statute does not allow the RCA to regulate a storage operation.

"The most expeditious way to clarify our jurisdiction is through amendment to our statutes, explicitly authorizing us to regulate natural gas storage or exempting natural gas storage from our regulation," the commission stated in its order. "The Alaska Legislature is the only entity that has the power and the process necessary to provide CINGS the immediate certainty it seeks."

CINGS, a newly created subsidiary of TransCanada, is looking at developing a gas storage operation in a nearly depleted reservoir at the Cannery Loop Unit near Kenai. It would like to know before it commits to the project whether it would be directly regulated by the state or indirectly regulated when each utility that contracts for storage requests RCA approval of its costs before passing them on to their customers. State statute does not include "gas storage" in its definition of a utility subject to direct RCA regulation, though some have argued the commission could interpret its laws to assume such authority.

"We find that our statutes do not provide explicit authority to regulate natural gas storage, nor do they definitely set natural gas storage outside of our jurisdictional boundaries," the commission stated in its order. "With no consensus among interested persons on statutory interpretation and the question being a matter of legal interpretation, our own opinion on jurisdiction would hardly be the final word," the commission said.

A legislative decision would avoid the risk that a party could challenge an RCA interpretation of statute, possibly sending the issue to court and delaying development of gas storage for Southcentral gas customers.

"Despite their conflicting conclusions about our jurisdiction, all interested persons agreed that storage in the Cook Inlet area is a serious or even critical need," the commission said.

"Whether it is good public policy or bad public policy to regulate CINGS is not a valid factor in deciding whether we have jurisdiction to regulate CINGS," the commission added.

Rep. Hawker is reviewing the RCA order and will bring forward a proposal to deal with the issue when the Cook Inlet Recovery Act (HB280), co-prime sponsored by Speaker Chenault, comes before House Labor and Commerce Committee.

ANALYSIS: *(Attach a separate page if necessary)*

The proposed legislation would provide financial incentives for natural gas storage facilities and for exploration in the Cook Inlet basin, and provide general guidance to the Regulatory Commission of Alaska (RCA) on natural gas pricing. Statutes governing the general powers and duties of the RCA would be revised to require the RCA, when considering whether approval of a natural gas supply contract is in the public interest, to (1) recognize the public benefits of a utility's ability to negotiate different pricing mechanisms with different suppliers and maintain a diversified portfolio of gas supply contracts to protect customers from the risks of inadequate supply or excessive costs that may arise from a single pricing mechanism, and (2) consider whether the utility could meet its responsibility to the public in a timely manner should the rate of gas supply contract not be approved.

2010 LEGISLATIVE SESSION

BILL NO. CSHB 280(L&C)

ANALYSIS CONTINUATION

This legislation would require that certain factors be recognized or considered when the RCA determines whether to approve natural gas supply contracts. The RCA expects to implement the provisions of this legislation with existing resources. The RCA can incorporate this review into the existing review process for natural gas supply contracts.

ANALYSIS: *(Attach a separate page if necessary)*

HB 280 offers tax credits for Cook Inlet gas storage facilities and attempts to promote gas exploration and production in the Cook Inlet.

There is no anticipated fiscal impact to the Division of Oil and Gas for the management of gas storage on state land. However, Sec. 4 of the bill will provide a ten year "holiday" on all storage fees and rentals for the storage lease. Also, the accounting convention described means that "non-native" gas will be withdrawn from storage first and no royalty revenue will acrue to "native" gas until all non-native gas is withdrawn. How industry will respond to the tax credits offered by this bill is unknown, therefore, the impact on fees, rents, and royalty revenues is negative indeterminate.

CONCEPTUAL AMENDMENT #4 adopted 3/18/10

OFFERED IN THE HOUSE BY REPRESENTATIVE HAWKER

TO: CS HB 280 (RES)

INTENT: To ensure that the last-in, first-out (LIFO) accounting rules for gas in a storage facility apply only to open-access storage facilities that qualify for financial incentives under this legislation.

Suggested language is:

Page 6, line 17, following "facility"

INSERT "regulated under AS 42.05.990(4)"

Page 12, line 12, following "facility"

ANALYSIS: *(Attach a separate page if necessary)*

HB 280 would make multiple changes to the existing law on tax credits and gas storage facilities. The portions of the bill that specifically apply to the Department of Revenue would change the treatment of credits under AS 43.55.023 (Qualifying Capital Expenditures) and create a credit against corporate income tax (CIT) for gas storage facilities (AS 43.20.046). Nothing in this bill limits the gas storage credit to Cook Inlet. As a result, it is possible that gas storage credits could be provided for gas stored on the North Slope and in other areas of Alaska.

Any estimate of the change in revenues to the state under this legislation would be based on hypothetical development in the future. As a result, the full revenue impact of this legislation cannot be accurately determined at this time.

(Revised 11/6/2009 OMB)

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 280

ANALYSIS CONTINUATION

The Department is requesting a Corporate Income Tax Auditor III position (Range 22) to audit the tax credits and manage the approval, issuance and tracking of the new and modified state credits.

The credit for gas storage created under this bill is $1.50/Mcf of certified working gas storage capacity. The credit will range from $750,000 to $15 million per facility under the bill.

Under this bill any remaining native gas in a field used for storage can be produced at the end of commercial operations for the gas storage facility. The time value of deferred production is not calculated but could be substantial.

Under HB280, the limitation on application of credits does not apply to Cook Inlet production after January 1, 2011. This change would allow credits from Cook Inlet expenditures earned under AS 38.05.180(i), AS 41.09.010, AS 43.55.024 and AS 43.55.025 to also be applied to other non-Cook Inlet tax liability.

Applying a sunset to AS 43.55.011(m)is likely to reduce Cook Inlet production tax collections to zero and allow Cook Inlet credits to be used to reduce production taxes due from operations in other parts of Alaska such as the North Slope.

Additional Issues and Fiscal Impacts:

The effect of increasing the value of credits for well work in Cook Inlet to 40% under AS 43.55.023(m) is not quantified in this analysis but the change would reduce tax revenues.

ANALYSIS: *(Attach a separate page if necessary)*

HB 280 would make multiple changes to the existing law on tax credits and gas storage facilities. The portions of the bill that specifically apply to the Department of Revenue would change the treatment of credits under AS 43.55.023 (Qualifying Capital Expenditures) and create a credit against corporate income tax (CIT) for gas storage facilities (AS 43.20.046). The language relating to credits has the potential to be interpreted quite broadly with the potential for large reductions in state revenues when compared to future developments that might occur under the current law.

The Department is requesting a Corporate Income Tax Auditor III position (Range 22) to audit the tax credits and manage the approval, issuance and tracking of the new and modified state credits. (continued)

Prepared by: Cody Rice, Petroleum Economist II — Phone 907-269-1024

Approved by: Ginger Blaisdell, Director — Date 03-07-10; 1:31pm
Administrative Services Division

ANALYSIS CONTINUATION

There are three gas storage facilities currently operating in the Cook Inlet region. None of the existing gas storage facilities would qualify for the corporate income tax credits under this bill as currently written. However, it is unclear if the existing gas storage facilities could qualify for credits if they shut-down and re-opened or changed ownership. Any estimate of the change in revenues to the state under this legislation would be based on hypothetical development in the future. As a result, the full revenue impact of this legislation cannot be accurately determined at this time.

The following scenarios may provide some perspective on the range of potential revenue impacts.

Scenario 1: Corporate income tax credit effects on a small facility

The first scenario assumes the construction of a small gas storage facility in a depleted reservoir similar to one of the smaller currently operating gas storage facilities. The facility is assumed to be capable of approximately 1.25 cycles a year and to have a working gas capacity of approximately 1Bcf. Under the terms of HB 280 this facility would be entitled to a credit of $1.5 Million against state CIT.

In 2004, the Federal Energy Regulatory Commission (FERC) estimated the median cost-of-service rate for firm storage service at $0.64/Decatherm. One Decatherm is equal to one Mcf of natural gas if the natural gas contains 1,000 Btu/cubic foot. Escalating this cost for inflation produces a 2009 cost-of-service rate of approximately $0.72/Mcf of firm storage service.

Given the estimated cost-of-service, volume of gas cycled and reasonable assumptions about debt to equity and other factors, the Department of Revenue estimates that this gas storage facility would owe approximately $95,000/year in state CIT. This rough estimate suggests that the corporate income tax credit for gas storage created under AS 43.20.046 of this bill would entirely offset the state corporate tax liability for nearly the first 16 years of operation. It is important to note that the credit created in this bill under AS 43.20.046 is eligible to be transferred or refunded.

There is a credit clawback provision that applies if the gas storage ceases commercial operations within ten years. However, in this scenario, the amount of the original credit remaining after ten years of commercial operations is estimated to be $550,000. This means the storage operator in this scenario could cease to operate at the beginning of year 11 and theoretically retain as much as $550,000 in refundable state credits. Additionally, under HB 280, the facility would be exempt from rental and storage fees charged by the Department of Natural resources (DNR) for the first ten years of commercial operations. There is also some question about whether the existing statute of limitations would allow the state to exercise the clawback provision.

Under this scenario the reduction in state taxes to the state is $1.5 million in undiscounted terms for each qualifying facility of this type. This does not include reductions in estimated rental and storage fees.

Scenario 2: Corporate income tax credit effects on a large facility

Scenario two assumes the construction of a large gas storage facility in a depleted reservoir. The facility is assumed to be capable of cycling approximately one time each year and to have a working gas capacity of

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. CSHB 280(RES)

ANALYSIS CONTINUATION

Under the terms of HB 280 this facility would be entitled to the maximum credit of $30 million against state corporate income tax.

Using the same cost-of-service and financial assumptions as scenario one, the Department of Revenue estimates that the gas storage facility owner would owe approximately $1.5 million annually in state CIT. This rough estimate suggests that the corporate income tax credit created under AS 43.20.046 would completely offset the state corporate income tax liability for about 20 years of operation. It is important to note again that the credit created in this bill under AS 43.20.046 is eligible to be transferred or refunded. There is a credit clawback provision that applies if the gas storage ceases commercial operations within ten years. However, in this scenario, the amount of the original credit remaining after ten years of commercial operations is estimated to be $15,000,000. This means the storage operator in this scenario could cease to operate at the beginning of year 11 and theoretically retain as much as $15,000,000 in refundable state credits. The facility would also be exempt from rental and storage fees charged by the Department of Natural resources (DNR) for the first ten years of commercial operations.

Under this scenario the reduction in state taxes to the state is $30 million in undiscounted terms for each qualifying facility of this type. This does not include reductions in estimated rental and storage fees.

Scenario 3: Broader interpretation of HB 280 benefits

Previous scenarios have assumed gas storage facilities operated at nearly 100% of capacity, using 100% of certified storage capacity. This scenario assumes a gas storage operator takes full economic advantage of a broad interpretation of the language in HB 280. Specifically, the facility uses a reservoir with a working gas capacity of 20 Bcf and the operator only cycles the minimum amount of gas to prevent the loss of the credits: 10,000 Mcf of natural gas annually. Using the same cost-of-service and financial assumptions as the previous two scenarios, the Department of Revenue estimates that the gas storage facility owner would owe less than $1,000 annually in state CIT. The storage facility owner would be eligible for a credit of $30,000,000 for the facility based on the working gas capacity. In this scenario it would take nearly 4,000 years of operation under this scenario for a gas storage operator to exhaust the state corporate income tax credit provided under this bill. Alternatively, after 10 years of commercial operation the owner could shut the facility down and retain $29,990,000 in refundable state credits.

Scenario 4: Lost or deferred production and production tax revenue

Previous scenarios have assumed gas storage in a depleted reservoir. It is possible that an oil and gas lessee could elect to shut-in production at a currently producing field earlier than would have otherwise occurred in order to take full advantage of plentiful native gas for free cushion gas. Under this bill the remaining native gas could be produced at the end of commercial operations for the gas storage facility. This deferred or lost production tax revenue would be in addition to lost revenue impacts equivalent to any of the previous three scenarios. The time value of deferred production is not calculated but could be substantial.

Scenario 5: Tax Ceiling

Existing state law provides the benefit of a tax ceiling for certain production under AS 43.55.011(j)(k) and (o). The tax ceiling applies to Cook Inlet production as well as any natural gas produced for use in state. Currently, credits earned under AS 38.05.180(i), AS 41.09.010, AS 43.55.024 or AS 43.55.025 are required to be applied first to a producers tax liability under AS 43.55.011(e) as though it were not limited by AS 43.55.011(j)(k) or (o).

ANALYSIS CONTINUATION

Under HB280, the limitation on application of credits does not apply to Cook Inlet production after January 1, 2011. This change would allow credits from Cook Inlet expenditures to also be applied to other non-Cook Inlet tax liability. In essence producers would earn credits and apply their full value against state wide tax liability and also receive the benefit of the reduced tax rate resulting from the comparison of actual tax rate (using those credits) and the prior ELF rate or ceiling rate. This repeal is likely to have the effect of reducing Cook Inlet tax collections to zero and allowing Cook Inlet credits to be used to shield taxes due from operations in other parts of Alaska such as the North Slope. This provision would be a particular benefit to companies operating in both Cook Inlet and on the North Slope.

Scenario five entails a producer with production in both Cook Inlet and on the North Slope. Assume the producer is entitled to a credit of $12 million under AS 43.55.025 because of Cook Inlet Exploration Expenditures, and assume that the producer's total production taxes are approximately $18 million, with $16 million attributed to North Slope production and $2 million attributed to Cook Inlet production.

Under existing law, AS 43.55.011(m) requires the producer to apply the $12 million in Cook Inlet credits to the full value of its hypothetical .011(e) Cook Inlet tax liability even though the Cook Inlet tax ceiling rate is applicable. Applying the $12 million credit against $2 million of .011(e) Cook Inlet production tax leaves $10 million in excess credits that may be used to offset tax liability elsewhere in the state. The tax ceiling rate on Cook Inlet oil is zero; therefore $2 million of the credit is considered "used" under AS 43.55.011(m).

Under current law, the North Slope tax liability of $16 million would be offset by the $10 million in credits left over after application of AS43.55.011(m), leaving a production tax liability of $6 million. Under HB 280, the producer would not have to draw down its $12 million of Cook Inlet tax credits, and instead be allowed to apply the full $12 million to the $16 million North Slope tax liability. As a result, the producer would pay a total of $4 million in production tax under this scenario, or $2 million less than under the existing law.

This scenario is a simplified version of how HB 280 might affect state revenues. Because AS 43.55.011(m) applies to multiple types of credits, and multiple taxpayers, the revenue effects could be significant.

Additional Scenarios and Fiscal Impacts:

The effect of increasing the value of credits for well work in Cook Inlet to 40% under AS 43.55.023(m) is not quantified in this analysis but would reduce tax revenues.

There could be additional reductions in state tax revenues if other existing facilities or natural gas pipelines were certified as gas storage and eligible for credits. This bill does not limit the credit for gas storage to the Cook Inlet, and in fact could be applied to gas stored on the North Slope or other areas of the state.

Cook Inlet production tax and additional production caused by the injection or withdrawal requirements under this proposal are very unlikely to generate more than a small fraction of the revenue that would be required to fund this credit. This means production taxes from other areas of the state, such as the North Slope would likely be the source of funds to the tax credit fund for the state to repurchase this credit.

ANALYSIS: *(Attach a separate page if necessary)*

The proposed legislation would provide financial incentives for natural gas storage facilities and for exploration in the Cook Inlet basin, and provide general guidance to the Regulatory Commission of Alaska (RCA) on natural gas pricing. Statutes governing the general powers and duties of the RCA would be revised to require the RCA, when considering whether approval of a natural gas supply contract is in the public interest, to (1) recognize the public benefits of a utility's ability to negotiate different pricing mechanisms with different suppliers and maintain a diversified portfolio of gas supply contracts to protect customers from the risks of inadequate supply or excessive costs that may arise from a single pricing mechanism, and (2) consider whether the utility could meet its responsibility to the public in a timely manner should the rate of gas supply contract not be approved.

BILL NO. CSHB 280(L&C)

ANALYSIS CONTINUATION

This legislation would require that certain factors be recognized or considered when the RCA determines whether to approve natural gas supply contracts. The RCA expects to implement the provisions of this legislation with existing resources. The RCA can incorporate this review into the existing review process for natural gas supply contracts.

ANALYSIS: *(Attach a separate page if necessary)*

HB 280 offers tax credits for Cook Inlet gas storage facilities and attempts to promote gas exploration and production in the Cook Inlet.

There is no anticipated fiscal impact to the Division of Oil and Gas for the management of gas storage on state land. However, Sec. 4 of the bill will provide a ten year "holiday" on all storage fees and rentals for the storage lease. Also, the accounting convention described means that "non-native" gas will be withdrawn from storage first and no royalty revenue will acrue to "native" gas until all non-native gas is withdrawn. How industry will respond to the tax credits offered by this bill is unknown, therefore, the impact on fees, rents, and royalty revenues is negative indeterminate.

HB 280
Cook Inlet Recovery Act (CIRA) - Overview

Prepared by Representative Mike Hawker's Office

CIRA provides a statutory framework and financial incentives for developing large-scale natural gas storage facilities and also makes changes to Cook Inlet exploration tax credits to encourage exploration and development of new gas discoveries.

Gas Storage Facilities

- Incentives include:
  - Land lease and fee exemption for 10 years
  - NEW income tax credit
    - Credit is based on capacity, certified by AOGCC: $1.50/1,000 cubic feet (cf) of working storage capacity
    - Maximum credit is $15 million per facility
    - Credit is fully refundable by the state
  - Expedited/priority processing of applications by DNR, when reasonably possible
- Incentives apply to gas storage facility that meets minimum capacity and delivery requirements, certified by AOGCC:
  - Minimum Working Storage Capacity: 500 million cf
  - Minimum Daily Delivery Capacity: 10 million cf
- Incentives are available for gas storage facilities that commence operations between Jan. 1, 2011, and Dec. 31, 2015
- All financial benefits and the names of those receiving the benefits are public information
- All financial benefits must be passed on to utilities, which then pass on to consumers
- All financial benefits stop when a project ceases operation
- CIRA also mandates RCA regulation of gas storage facilities that hold gas owned by regulated utilities.

Gas Exploration in Cook Inlet

- Changes to existing credits:
  - Allows 100% of credits earned by explorers in the Cook Inlet to be used elsewhere in the state; current statute generally limits those credits to be applied only to actual taxes paid on Cook Inlet production
  - Allows the full amount of the credit to be used in the year issued; current statute allows only half of the credit to be used in one year
  - Provides a 40% credit for exploration within Cook Inlet; current statute contains a variable (30% or 40%) credit based on the proximity of the exploration to an existing well

Energy

Gassing up

Rena Delbridge
Dec 27, 2009

Southcentral's 350,000 residents are snug this winter in homes with plenty of heat and Christmas lights twinkling.

But the sense of security fed by light and warmth is a false one in the state's major population area, where utilities are a step or two away from rolling power outages if the weather turns bitter cold -- cold enough to put out of order the complex metal machinery that pushes natural gas through lines and into homes; cold enough to push demand off the charts.

And by the winter of 2011-12, deliverability could be an issue beyond peak demand in the coldest spells.

Natural gas, used to heat buildings and to generate 90 percent of the region's electricity, is probably not going to be available in quantities enough to meet peak demand on cold winter days -- this winter, or next -- under certain scenarios.

Along with deliverability challenges, a recent state geological report shows there's about 10 years worth of gas left in Cook Inlet, should companies choose to invest their global dollars in production for a limited, small market.

One company, a TransCanada subsidiary, wants to build a storage facility to warehouse gas produced in summer months, when demand is one-fourteenth of peak winter loads. The resource could be drawn out in winter.

The company's proposal is a dream come true for some -- a private-sector solution that isn't seeking a dime from the government. All that Cook Inlet Natural Gas Storage, LLC, needs is assurance that the Regulatory Commission of Alaska will allow utilities -- its customers -- to recover storage fees in rates charged to consumers.

But lawmakers, state officials and even utility chiefs could tangle over whether gas storage facilities -- new to the 49th state -- should fall under the Regulatory Commission of Alaska's jurisdiction. If they take too long sorting that out, TransCanada's plans will be delayed -- possibly enough to leave Southcentral facing a nightmare by winter 2012 or 2013.

"On the coldest day of the year, what will we pay to stay warm?" Sen. Hollis French asked. "You'll probably pay anything, which is a bad place to be as a consumer. You don't have an alternate source for your natural gas supply. You want to have some oversight so there's not price gouging at a time when you are most vulnerable."

The problem

To be clear, Cook Inlet isn't near running out of gas next year, or in the next five years. On the contrary, the state estimates there are hundreds of trillions of cubic feet remaining, although that gas is more difficult to access -- and thus, more expensive to produce and purchase.

The real problem is deliverability. Utility and municipal managers, lawmakers and others are seriously concerned that when Southcentral soaks up huge amounts of gas to ward off Alaska's bitter winter temperatures, the supply may not hold.

Municipality of Anchorage Mayor Dan Sullivan drafted an energy task force that's studying the potential for emergencies and running tabletop exercises to test procedures in case of extreme shortages or -- more likely -- breakdowns in the machinery that pushes gas to pilot lights.

"If we had to go to that extent, to call upon people to conserve ... and go to rolling blackouts, at least we have a procedure in place," Municipal Manager George Vakalis said. "We know how to do it."

Since 1969, the liquefied natural gas export plant at Nikiski has provided a buffer for the supply and demand swings -- in essence, offering companies an outlet for gas that the Southcentral market couldn't absorb. However, a shortfall is annual production supply is anticipated in 2012 or 2013. The federal LNG export permit runs out in March 2011, and ConocoPhillips hasn't announced whether it will apply for an extension.

"We're faced with a unique environment in Cook Inlet with the demand swings," said John Sims, Enstar's spokesman. "The LNG facility is very important. It creates incentive for (companies) by having that large, industrial export customer."

ConocoPhillips, financially strapped after the past year's global economic downturn, hasn't said yet whether it will close or sell the facility, turn it into storage, or seek continued exports.

Solution on the table

Cook Inlet Natural Gas Storage, the newly formed TransCanada subsidiary, wants to build a 19 billion cubic foot gas storage facility near Kenai. A member of TransCanada's projec team, Bob Gibb said the company is working on land purchases and, if regulatory issues can be sorted out, is ready to start construction next summer

The timeline is tight, and critical work must be done in summer, Gibb said. He figured the schedule has enough to flexibility to still meet an in-service date for winter 2012-13, if politics delay immediate approval.

Gibb confirmed the company is talking with prospective clients Enstar, an anchor tenant; Municipal Light & Power; and Chugach Electric Association, which is representing two smaller electric utilities, Homer Electric Association and Matanuska Electric Association.

He isn't releasing cost estimates at this point.

CINGS wants to build 20-year contracts with its clients, with warehousing fees to be paid out equally over the full term -- also called levelized rates. The big question is whether the

RCA will allow some certainty that the long-term rates are acceptable, and that the utilities will be allowed to recoup their gas-warehousing costs from customers.

To regulate or not to regulate?

Attorneys, policymakers and company reps packed an RCA meeting room in Anchorage in early December for a daylong workshop on storage. The participation was significant, with nearly all parties involved discussing solutions, potential hangups and how rate payers could fare under different gas storage scenarios.

"We were very encouraged by the workshop," Sims said. "That not only shows the urgency that everyone realizes, but also how willing everyone is to work together and try to resolve the issues."

At the heart of the discussion was whether or not gas storage should fall under the RCA's jurisdiction, which would involve time-consuming hearings but, in return, offer consumers some protection in rates charged.

But the RCA statutes don't allow for regulation of storage facilities that supply to utilities. Instead, the commission's authority rests in regulating utilities that supply consumers, and approving the contracts those utilities make with suppliers to ensure customers are getting a reasonable deal.

TransCanada reps at the meeting said they don't mind being regulated, and in fact, storage operations in the Midwest are regulated. But they need to know, and soon, whether they'll face regulation and the filings, hearings and challenges that come with it and could soak up so much of the construction timeline that the company may have to forfeit next summer.

"There are pros and cons with both," Sims said. "The nice thing about it being regulated is there would be some sort of surety from Enstar's standpoint for rate recovery."

The utility needs to know whether it will be able to recover storage costs in rates -- and if so, to what extent. CINGS needs that assurance, as well.

"We need to have surety ... before we can close on some of the properties and move forward with some of the construction," Gibb said. "It is critical."

Lawmakers step in

Some lawmakers are heading out in front with bills they'll file when the session starts Jan. 19 enabling a storage facility and, ideally, additional drilling.

In December, Sen. Hollis French, an Anchorage Democrat, released a draft of a bill he plans to introduce during the session allowing a substantial tax credit of 20 percent of capital costs for companies who invest in storage to serve Southcentral gas needs. He expects to tack on a caveat once the session starts, enabling the credit only if the storage facility owner agrees to come under the RCA's jurisdiction.

The RCA issue is the biggest one for Southcentral's gas problems, French said.

"At least one avenue is to get away from the gas storage operation, and focus more on the contracts that CINGS strikes with the utilities, which is a function the RCA is far more experienced with," he said.

A farther-reaching bill, the Cook Inlet Recovery Act, was proposed last week by House Speaker Mike Chenault of Nikiski and Rep. Mike Hawker of Anchorage, both Republicans. Their working draft offers incentives for storage, but also smoothes state bureaucratic processes to spur private investment in finding new reserves.

"This bill is narrowly focused on Cook Inlet production," Hawker said. "It's all about the urgency of the issue. We need to address these challenges and address them now ... Every penny of cost relief or credit we can provide here ultimately flows through as savings to consumers. Adding storage, which is critical, is going to add money. It's not going to be cheap."

The bill also included direction for the RCA to consider the consequences of saying no to a matter -- something the commissioners haven't had the authority to do. Beyond that, changes to the commission's authority aren't addressed in the draft, in part because of the potential for prolonged conflict in the Capitol.

"If the extent of the RCA's authority becomes an uncertainty because the legislature has thrown it into the ping pong match, no one is going to move one step forward on any project until that issue is totally resolved," Hawker said.

Chenault said he couldn't say yet whether storage should be regulated.

"But if you have people out there interested in doing it, and you have a need, then the decision needs to be made," he said. "We can't wait around for years. The longer you wait, the less opportunities you have and, probably, the more it's going to cost."

Enstar and CINGS haven't formed opinions on the legislation yet.

"We are moving forward with our contracts as if there were no additional input from the Legislature," Gibb said. "If it comes into being, we'll consider it as it does."

Lawmakers get another wake-up call on Inlet gas supply

By Tim Bradner
Alaska Journal of Commerce

It's a tough thing to say, but the days will start getting shorter soon and January is only six months away. The usual midwinter cold snap is almost surely in the cards, and the gas distribution system serving consumers and local electric utilities is likely to be strained once again. No one wants their supply of natural gas to be cut when it's minus 20 degrees.

There's nothing very secure, or simple, about the supply of natural gas in Southcentral Alaska, however. Aging gas fields in the region are being depleted and gas wells, many 30 years old, can't produce enough now to guarantee meeting midwinter demand.

What keeps disaster at bay is the liquefied natural gas, or LNG, plant near Kenai, which stops making LNG in very cold weather so gas can be diverted to the local utilities. The LNG plant may close in 2011, however, when its federal license to export LNG expires.

So far the utilities have no plan B for that possibility, although they are working on one.

There are large reserves of gas on the North Slope, but without a pipeline there's no way to get the gas to the state's largest communities. Studies are now underway by the state for a 24-inch bullet pipeline to bring gas to Southcentral from the Slope but no one knows how much this will cost. It couldn't be finished until 2016 to 2018 in any event.

There's also more gas to be found in Cook Inlet but there's little new drilling, for a complex set of reasons.

Cook Inlet oil and gas platforms supply natural gas to local utilities as well as crude oil for the Tesoro Alaska refinery near Kenai. The platforms are more than 30 years old, and are approaching their economic limits. *Photo/Rob Stapleton/AJOC*

State legislators got an earful about all this on June 5, when the Senate Resources Committee, meeting in Anchorage, listened to managers of gas producing companies, utilities, and state and federal officials, as well as private landowners.

State Sen. Bill Wielechowski set a sober tone for the meeting.

"Cook Inlet gas production has declined considerably," he said. "In the last three years it has declined by more than 50 billion cubic feet annually. Current demand is about 140 billion cubic feet per year, so this is significant."

By 2012, annual in-state demand will exceed supply from existing wells. This assumes no export of Cook Inlet gas, Wielechowski said.

"We have three years before we have a supply problem if we look at production from existing wells," he said.

State oil and gas director Kevin Banks said it's almost certain that oil and gas companies will add reserves in the producing fields if they drill more wells.

But petroleum companies told legislators too few new wells are being drilled, and that consumers and local utilities aren't doing enough to promote energy conservation, which is the cheapest was to ease the tight supply situation. Companies also said the Regulatory Commission of Alaska is too focused on price and should weigh energy security for consumers in its decisions as well.

John Zager, Chevron Corp.'s Alaska manager, said Cook Inlet is not attracting sufficient investment capital to offset the reserve declines, and that remaining resources are likely to be in smaller gas deposits that will be more expensive to drill.

Zager said he believes government estimates of remaining reserves in the Inlet are too optimistic. Estimates are that 1.3 trillion cubic feet to 1.7 trillion cubic feet of proven gas reserves remain in producing gas fields.

The State Division of Oil and Gas plans to have an updated estimate of gas reserves by early fall, said Kevin Banks, the division director.

For now, the economics just aren't right for drilling a lot of new production wells. "People have to accept the concept that the (gas) price must be high enough to encourage investment, and there are recent indications that this is not the case. The recent state lease sale in the Inlet was a no-show," in terms of bidding, Zager said.

Zager and Marathon Oil manager Carri Lockhart criticized regulatory agencies for inconsistencies and creating an environment of uncertainty as to whether gas sales contracts with utilities will be approved. The uncertainty that creates is almost as important as the price of gas.

A contract negotiated several years ago with Enstar Natural Gas Co., but rejected by the regulatory commission would have met all of Enstar's needs until 2016, Lockhart said. The utility now has short-term gas supply contracts and after 2011 it will have only two-thirds of the gas it needs under contract, Mark Slaughter, Enstar's gas supply manager, told legislators.

"It's a situation we don't like to be in," Slaughter said.

Lockhart also said regional electric utilities should focus more on power plant efficiency. "There should be dual-fuel capability when new generation capacity is built," she said, an indirect criticism of Chugach Electric Association for its plan to build a new gas-fired power plant in south Anchorage without also adding standby capability to use oil as a standby fuel. Anchorage's city-owned Municipal Light and Power has dual-fuel capability in one of its power plants.

Zager and others said there must be investment in gas storage, facilities that can store gas produced in the summer, when demand is low, for use during peak demand periods in

winter. Chevron and Marathon both maintain some storage capabilities of gas in depleted gas reservoirs for their customers, but this isn't enough to meet the total need.

The LNG plant near Kenai could play a long-term role in storage, or even imports of LNG if the export license ends in 2011.

Dan Clark, ConocoPhillips' asset manager for south Alaska, whose responsibilities include the LNG plant, said it is possible that facilities at the plant could be available for gas storage or even regasification of LNG that would be imported if LNG exports end in 2011.

"It's possible," Clark told the legislators. "There are marine terminal facilities and storage tanks, although added investment would be needed."

Zager said has producers have invested in some storage but in other U.S. states utilities invest in and operate gas storage. Suzanne Gibson, Chugach Electric's gas supply manager, said Chugach, ML&P and Enstar are working jointly to determine how much storage might be needed, but there are concerns as to whether enough suitable underground reservoirs are available, because not all depleted gas reservoirs can be efficiently to store gas.

Above-ground storage could supplement underground storage but that will be costly, she said. The utilities may need state assistance.

Also, gas stored underground in depleted reservoirs is usually withdrawn gradually as used to supplement gas wells through the winter. It's difficult to get large volumes of gas at short notice needed to meet unexpected needs during a cold snap.

Stored LNG is very efficient at meeting this "peaking need," however, because the LNG can be regasified fairly quickly. LNG regasification facilities have been built in many parts of the U.S. to handle mid-winter peaks.

Facilities at the existing ConocoPhillips-Marathon LNG plant could help support a long-term storage role, but some utility managers think the plant's facilities are too big, too aged, to be efficiently used to support a small regional market.

New, smaller LNG regasification units, like those commonly used in the Lower 48, might be more appropriate, said Jim Posey, manager of Anchorage's ML&P.

Storage will help resolve the issue of meeting mid-winter peaks but it's not a solution when overall annual production from the gas fields dips below annual demand. At that point new gas is needed from somewhere, wither from new discoveries, by pipeline from the North Slope, or through imports of LNG.

Summary of the 2006 Southcentral Energy Forum

Sponsored by Alaska Oil and Gas Conservation Commission

Anchorage • Sept. 20-21, 2006

Prepared by Peter Larsen, Pamela Cravez, and Scott Goldsmith
Institute of Social and Economic Research, University of Alaska Anchorage

Why Was There an Energy Forum?

Nearly 70% of Alaskans rely on relatively inexpensive natural gas from Cook Inlet. That gas heats homes and businesses, generates electricity, and fuels industrial processes.

Cook Inlet gas benefits the state economy not only because it provides inexpensive energy for homes and businesses but also because industrial uses of the gas create jobs and add to the local tax base. More than half the gas currently being produced is either processed and exported as liquefied natural gas (LNG) or used to create fertilizer for export.

But growing demand has depleted 80% of the known Cook Inlet gas reserves. Many Alaskans are concerned about where Southcentral Alaska will get affordable energy in the future.

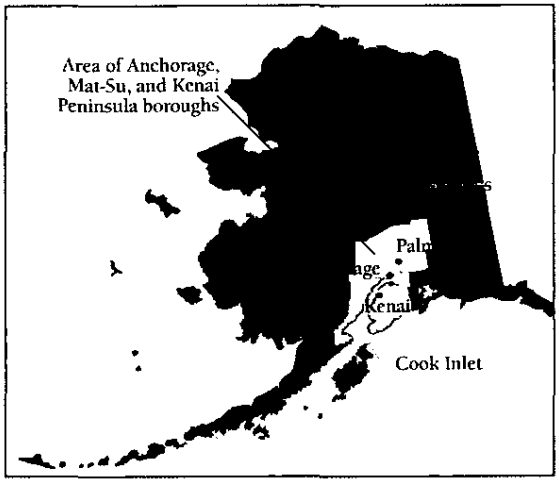
There are big unknowns. Will the Cook Inlet producers look for more gas? When will a natural gas pipeline from the North Slope be built, and will there be a spur line to bring gas to Southcentral? What will future industrial demand be? Will alternative energy sources help offset demand for gas?

In September 2006, the Alaska Oil and Gas Conservation Commission brought community leaders, gas producers, large consumers, geologists, engineers, economists, and the general public together at a two-day forum in Anchorage to talk about the problem and propose solutions for meeting the region's future energy needs.

The commission asked the Institute of Social and Economic Research (ISER) at the University of Alaska Anchorage to summarize forum proceedings. The information presented here is not a product of ISER research. It is a summary of statements, opinions, and projections of those attending the forum.

Why is This Gas "Inexpensive"?

"Inexpensive" natural gas from Cook Inlet means relative to prices of gas in the rest of the country and to prices of other energy sources in Alaska. The price residential customers pay for Cook Inlet gas has more than doubled since 1996—but it remains 30% to 50% below prices in other states, according to ENSTAR Natural Gas Company. It's also far cheaper than the diesel Alaskans without access to natural gas rely on.



The price of Cook Inlet gas has historically been low because oil companies incidentally found trillions of cubic feet in the 1950s and 1960s, while they were looking for oil. The absence of a ready market for that gas provided Alaskans with a much less expensive energy source, compared with oil, and it made some industrial development possible.

Who are Consumers and How Do They Use Gas?

Most of the consumers are in Anchorage and the Kenai Peninsula and Mat-Su boroughs—where more than 60% of all Alaskans live (see map). That regional population has almost tripled since 1970. Communities along the railbelt north to Fairbanks also use electricity generated by Cook Inlet gas, and some gas is super-chilled to a liquid form so it can be trucked to Fairbanks .

The biggest current uses of Cook Inlet gas are industrial– 37% is liquefied and exported and another 19% is used to produce fertilizer for export. Heating homes and businesses in Southcentral Alaska takes about 16% of production, and another 20% is used to generate electricity throughout Southcentral and into the Interior. The remaining 8% is used for oil and gas field operations and refining oil.

How Does Cook Inlet Gas Get to Consumers?

Current gas producers in Cook Inlet include Chevron, Marathon Oil, Conoco Phillips, and others. Most, but not all, the gas for heating goes through ENSTAR Natural Gas Company, a major public utility in Alaska and a subsidiary of Semco Energy, headquartered in Michigan. The producers themselves also market a small amount of gas directly to consumers.

ENSTAR is regulated by the Regulatory Commission of Alaska (RCA). ENSTAR and the producers negotiate, with RCA oversight, future prices and conditions for gas delivery from the producing fields to the consumer. The RCA must approve rates ENSTAR proposes to charge consumers.

ENSTAR supplies gas to about 325,000 commercial and residential users and also delivers gas to electric utilities. It has about 3,000 miles of distribution and transmission mains.

Municipal Light and Power and Chugach Electric Association are electric utilities also regulated by the RCA. They generate electricity almost entirely with gas. Together they serve about 473,000 residential and commercial customers from Southcentral into the Interior, either directly or through sales to other electric utilities.

Why Worry?

With the reserves declining, it's become harder to deliver gas to consumers as they need it, on a daily basis. Assuming no new investments in exploration or development, that problem is expected to worsen, especially in the winter. Consultants to the U.S. Department of Energy and others have projected the future demand for and supply of Cook Inlet gas.

The assumptions used in individual studies vary somewhat, but they all show the same general result: that the demand for Cook Inlet gas will soon exceed the current supply, even if industrial uses drop sharply.

Projections by Science Applications International Corporation (Figure 2), a consultant to the U.S. Department of Energy, are based on specific assumptions that other analysts may disagree with. Those include:

- Assumption: that the Agrium fertilizer plant will cease operating in the near future. Agrium hasn't run at full capacity since 2001, and it recently announced it will shut down during peak use winter months. Agrium has identified high gas prices as the main reason for the cutbacks—but high prices are related to short supply. (Agrium is, however, investigating alternatives to gas; see page 7.)
- Assumption: that the federal Office of Fossil Energy in the U.S. Department of Energy will not renew the export license for the LNG facility, which expires in 2009. To have the license renewed, the operator has to show that exporting LNG will not jeopardize local gas supplies.
- Assumptions: that a spur pipeline to carry North Slope natural gas to the Southcentral region will be built by 2015 and that most of the future demand will be residential and commercial, including the proposed Pebble mine in southwest Alaska.
- Assumption: that some industrial uses might be feasible, but that the cost of North Slope natural gas will make the current methane-intensive industrial uses (like producing fertilizer) uneconomic.

The projected decline in gas supply is essentially based on known reserves. Economists would argue that as supply shrinks, prices rise—and that rising prices would ultimately cause the producers to look for more gas. (But in the largely regulated Cook Inlet market, that might not happen).

Is There More Undiscovered Gas?

In the 1950s and 1960s, oil companies drilled as many as 30 wells a year in Cook Inlet (Figure 3). They were looking for oil—and found oil as well as trillions of cubic feet of natural gas. Those gas reserves, large enough to last for many years, left no need to look for more.

Then, in the late 1960s, world-class oil reserves were discovered at Prudhoe Bay, on the North Slope, and the petroleum industry's focus shifted away from Cook Inlet. The last commercial gas discovery in Cook Inlet was in 1979 and the last major oil discovery in 1991.

Net gas production—that is, production beyond what the producers re-injected to increase oil recovery—peaked in 1996 at 223 billion cubic feet. By 2005, net production had dropped to 208 billion cubic feet.

Many geologists think Cook Inlet basin is under-explored, compared with other gas exploration regions. Speakers at the forum said analysis of the distribution of field sizes in the basin suggests there may be large undiscovered fields remaining.

Figure 2 . Projected Supply of and Demand for Cook Inlet Gas

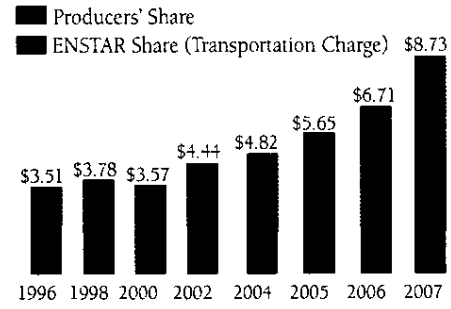
Figure 5. Residential Natural Gas Price
(Per Thousand Cubic Feet)



Source: ENSTAR Natural Gas Company

But no one is certain how much gas may be left in the basin, because few exploratory gas wells have been drilled there since the 1970s. Data from the Alaska Department of Revenue show that the bulk of the 240 exploration wells drilled in Cook Inlet since 1955 have been for oil. Only in the last five years has there been any focus on locating more natural gas—and that increased exploration coincides with rising gas prices (Figure 3).

The Alaska Department of Natural Resources estimates that 8.8 trillion cubic feet of gas have been found in Cook Inlet basin to date, with 7.1 already produced and 1.7 remaining. The U.S. Department of Energy estimates potential undiscovered natural gas reserves at between 13 and 17 trillion cubic feet. Other estimates are lower, with no analysis conclusively showing where new fields may be located. Whatever the remaining reserves, the level of future exploration will depend on gas prices.

How Have Prices Changed?

As the supply dwindles, the price of Cook Inlet gas has increased rapidly —although not as rapidly as elsewhere in the nation (Figure 4).

The price residential customers pay for Cook Inlet gas roughly doubled between 1996 and 2006, and it will increase another 30% in 2007 (Figure 5).

But that price includes both what the oil companies get for producing the gas and what ENSTAR charges for transporting it to customers.

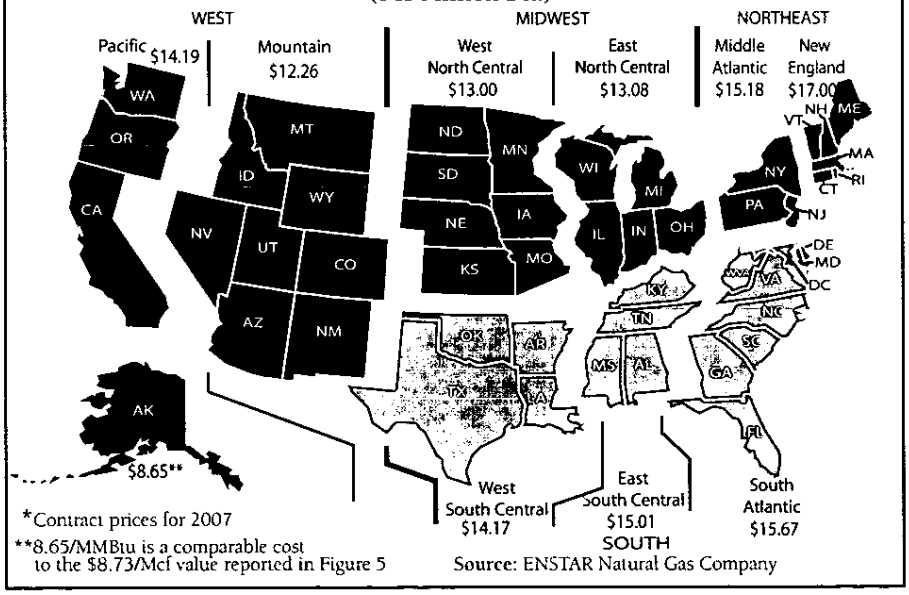
ENSTAR is a regulated utility, and it reports charging about the same (per thousand cubic feet) to transport gas today as in 1996. Virtually all the recent increase in the price to residential customers has gone to the producers.

ENSTAR also reports that despite sharp increases in what Alaskans pay for natural gas, they still pay about 30% to 50% less than other Americans.

Figure 6 compares 2007 contract prices for residential customers nationwide. In 2007 Alaskans will pay $8.65 per million Btus (British thermal unit, a standard energy measurement). Customers in the mountain states and the north-central states will pay $12 to $13. The highest natural gas prices will be in the mid-Atlantic, south-Atlantic, and New England states, where prices are expected to be nearly double the Alaska price.

Natural gas is also much less expensive than alternative ways of heating homes and businesses in Alaska. Figure 7, provided by ENSTAR, shows that natural gas for heating is about one-quarter to one-half the price of diesel, propane, or electricity, as measured by energy content.

Figure 6. Prices of Natural Gas for Residential Customers, 2007*
(Per Million Btu)

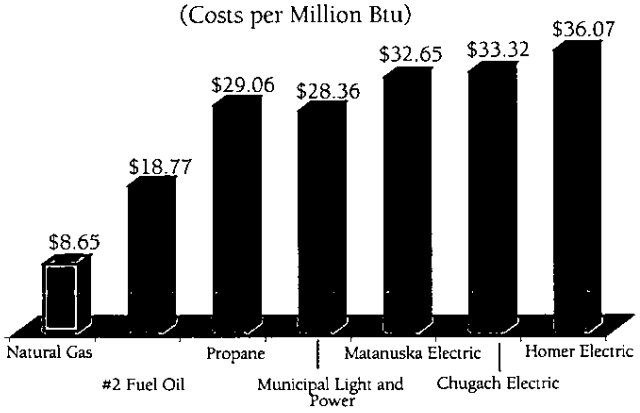


*Contract prices for 2007
**8.65/MMBtu is a comparable cost to the $8.73/Mcf value reported in Figure 5

Source: ENSTAR Natural Gas Company

Figure 7. Comparing Current Costs of Home Heating Sources for Southcentral Alaska

(Costs per Million Btu)



Source: ENSTAR Natural Gas Company

As for the electric utilities using Cook Inlet gas, Municipal Light and Power is not actively seeking new gas contracts now—because it owns part of a Cook Inlet gas field estimated to meet its demand for the next 10 to 15 years. Chugach Electric Association has sufficient gas under contract to meet demand only until 2011.

What Determines Price?

The price residential customers pay for Cook Inlet gas is actually the average of various prices in several contracts ENSTAR currently has with the producers. The contracts were all negotiated separately, and each has its own terms that can influence price.

In some contracts, for instance, the gas price is linked to oil prices. In two of the most recent contracts, Cook Inlet gas prices are linked to gas prices at what is known as the Henry Hub. That hub is in Louisiana, near where gas supplies from the Gulf of Mexico arrive. It is the pricing point for natural gas futures contracts traded on the New York Mercantile Exchange.

Increasingly, gas contracts in the U.S. are being set in relation to the Henry Hub benchmark price, with transportation and other charges added to that base to determine local prices.

Some analysts believe linking Cook Inlet prices to that hub will stimulate exploration, by raising those prices closer to the U.S. average.

However, application of Henry Hub prices to Cook Inlet gas has been controversial, and the RCA recently rejected a proposed new contract between ENSTAR and Marathon Oil Company, benchmarking a portion of ENSTAR's future purchases of Cook Inlet gas to that hub.

The RCA found that "responsibility for paying gas prices that encourage new gas exploration and production should not rest exclusively with gas ratepayers."

ENSTAR is now in the process of renegotiating that contract with Marathon, which—if successful—would give it enough gas to meet its projected requirements through 2017. Today the utility has enough gas contracted only through 2008.

Where is the Price Headed?

As Figure 8 shows, the Alaska Division of Oil and Gas forecasts that the price of Cook Inlet gas will increase until 2008 and then drop, staying in the range of $6 per thousand cubic feet through 2016. (This forecast takes into account the recent ruling by the RCA.)

Figure 9 shows the division's estimates of the potential range of future demand from residential and commercial consumers, at higher or lower gas prices. The higher the price, the less consumption increases.

Figure 8. Projected Price of Natural Gas

(Price per Thousand Cubic Feet)

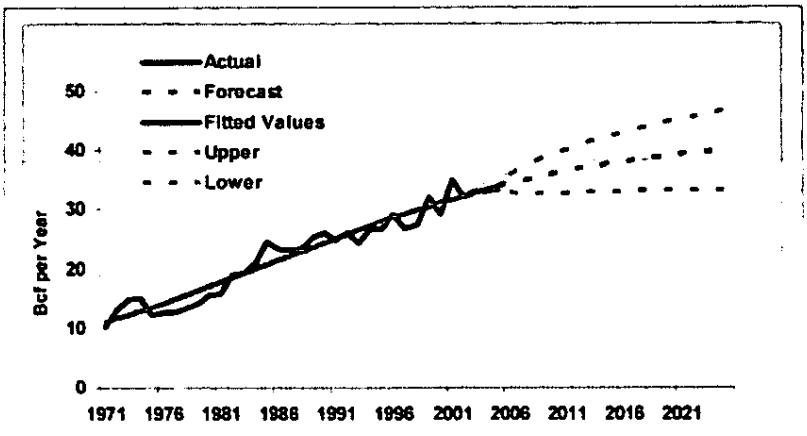
Source: Alaska Division of Oil and Gas

Figure 9. Projected Residential And Commercial Demand for Cook Inlet Gas

(In Billions of Cubic Feet per Year)



Source: Alaska Division of Oil and Gas

These forecasts are based on the best current information—but it is difficult to predict future costs of natural gas, because all public gas and electric utility contracts are subject to approval by the RCA.

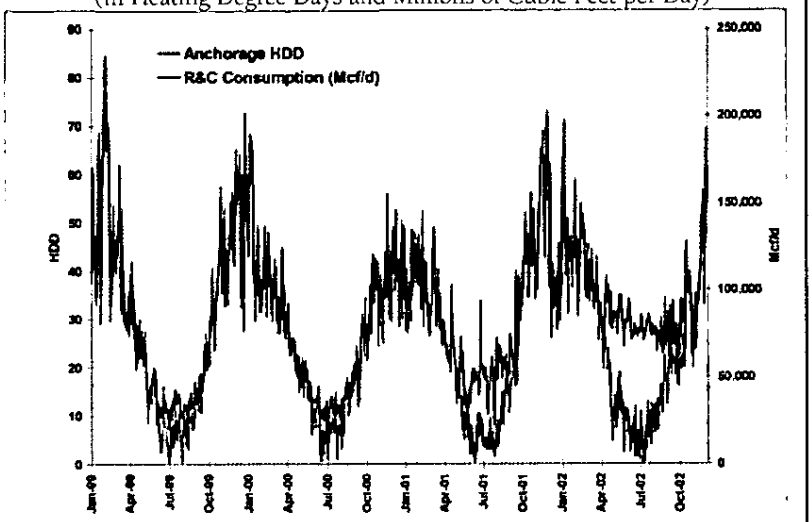
What is the Current Situation?

The Alaska Division of Oil and Gas reports that with gas reserves shrinking, increased residential and commercial consumption in the winter has occasionally outstripped the system's capacity to deliver. Figure 10 shows the sharp winter increases in demand for Cook Inlet gas. Spokesmen for the division say that if no new reserves are added, the number of days when peak demand exceeds the system's capacity will increase as time goes on.

Current industrial users—the Agrium and LNG plants and oil and gas field operations—consume almost two-thirds of the gas produced in Cook Inlet. (See Figure 1). Industry representatives at the forum said that industrial demand for gas is driven by export markets and depends on the availability of cheap gas to use in industrial processes.

Figure 10. Seasonal Residential and Commercial Demand for Cook Inlet Gas, 1999-2002

(In Heating Degree Days and Millions of Cubic Feet per Day)



Source: Alaska Division of Oil and Gas

The fertilizer plant has not run at full capacity since 2001. With the price of gas rising and supplies uncertain, Agrium reported at the forum that it is now making only year-to-year contracts for Cook Inlet natural gas. It is looking for long-term solutions—like coal gasification—to replace Cook Inlet gas.

The other big industrial user is the LNG plant at Nikiski, which currently uses more than a third of the gas produced. However, the plant needs approval from the federal Office of Fossil Energy to export LNG, and its current export license will expire in early 2009. (As of late 2006, no application to renew had been filed.)

To renew the license, the company needs to show that it is in the public interest to extend the contract and that exporting LNG would not jeopardize gas supplies for local consumers. Demonstrating that will become increasingly difficult as the supply of Cook Inlet gas declines.

However, representatives of the producers said at the forum that the loss of these big industrial users would reduce their incentive to explore and, consequently, hurt long-term stability of the supply of Cook Inlet gas

What are Short-Term Solutions?

One short-term way of meeting peak utility demand is temporarily storing gas. Since 2001, producers in Cook Inlet have stored their own gas underground in depleted reservoirs, to help meet utility demand.

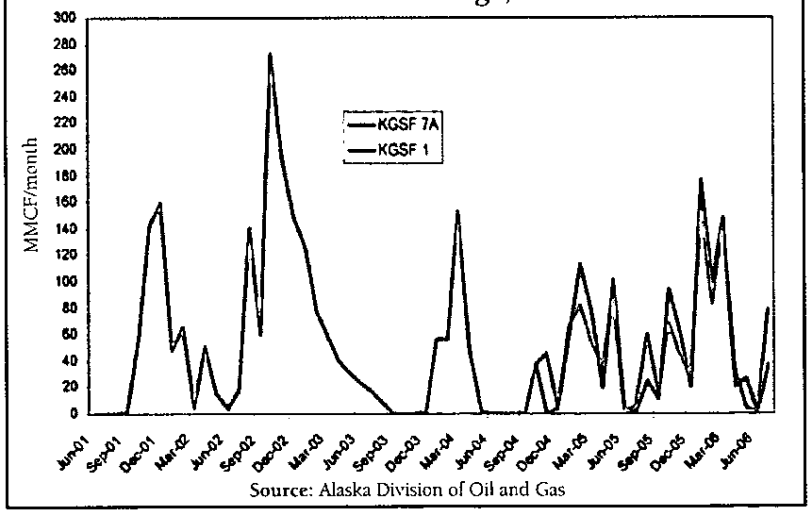
To date the federal Bureau of Land Management has approved three gas storage agreements with Chevron at the Swanson River field; two of those are currently storing and delivering gas. The Alaska Department of Natural Resources and the Alaska Oil and Gas Conservation Commission have approved two gas storage leases for active facilities at Chevron's Pretty Creek field and Marathon's Kenai field.

Figure 11 shows how draw-downs for utility demand from the storage facilities at the Swanson River field vary with the season, spiking in the winter.

Another way of easing short-term supply problems is interruptible contracts (allowing producers to curtail sales when demand is high). Agrium's fertilizer plant uses them to accommodate winter shutdowns. Also, as long as the LNG plant is operating, it can continue its historical role of providing "swing" gas that can be diverted to consumers when needed.

But industry speakers said at the forum that in the long run better solutions are needed—encouraging more exploration in Cook Inlet; bringing gas in from elsewhere (North Slope gas or imported LNG); or examining the feasibility of alternatives to natural gas—ranging from coal to tidal power.

Figure 11. Seasonal Draw-Downs for Utility Demand from Cook Inlet Storage, 2001-2006



Source: Alaska Division of Oil and Gas

Why Isn't There More Exploration?

There is some ongoing exploration in Cook Inlet basin. A number of both established and new companies are looking for oil and gas in the basin, according to petroleum industry presenters at the forum. Chevron, Marathon Oil, Aurora Gas, Forest Oil, and Conoco Phillips are among the Cook Inlet producers exploring for oil or gas.

Chevron reported in late 2006 that it has found about 150 billion cubic feet of gas since 2000, and that Chevron and its partner companies expect to spend $300 to $350 million for exploration and capital projects in Cook Inlet over the next several years.

Newer companies include Benchmark Oil and Gas, which is focusing on Upper Cook Inlet; Pioneer Natural Resources, which has one oil-producing project in Southcentral; and Rutter and Wilbanks, which is operating three projects: the Copper River project (gas), the Northern Lights project (oil), and the onshore Eagle/West Eagle project (oil and gas). Renaissance Resources and Stormcat Energy are also involved in exploration of undeveloped areas.

Many of the smaller companies are staying onshore, according to industry spokesmen, and all companies are affected by the higher costs of exploration in Alaska and the lower price of gas, compared with other areas of the country.

The number of exploratory wells in the past few years falls far short of the numbers in the 1960s, despite rising prices. At the forum, representatives of the gas producers said the price still hasn't offset the high costs of doing business in the inlet. The U.S. Department of Energy estimates the cost of identifying and developing just half the reserves it believes may remain in the inlet (13 to 17 trillion cubic feet) at more than $5 billion, in current dollars.

Figure 12 shows the U.S. Minerals Management Service's estimate of how much the supply of Cook Inlet gas would increase, at different wholesale prices for that gas. MMS estimates that at a price of $4.50 per thousand cubic feet, the additional supply might be 0.64 trillion cubic feet. But at double that price, the additional new supply would also nearly double—because the oil companies would have more incentive to explore.

The Cook Inlet producers also argue that they need more access to prospective fields. The producers estimate that between 30% and 50% of the prime exploration areas have restricted access or are entirely off limits, because they fall within protected areas of federal or state conservation units.

Industry spokesmen and representatives of the Minerals Management Service identified other things hindering large-scale exploration in Cook Inlet. Those include aging platforms, lack of a jack-up rig, regulatory matters—including gas well spacing and bonding requirements—and a general lack of 3-D seismic data of the basin. They say that these problems, as well as company reorganizations and the limited sale area in 1997, continue to hinder exploration.

The next Cook Inlet Special Interest lease sales are scheduled for 2009 and 2011.

Figure 12. Estimated Effects of Price on Additional Cook Inlet Gas Supply

Source: U.S. Department of the Interior, Minerals Management Service

What About Tax Incentives?

In 2006 the Alaska Legislature passed the Petroleum Production Tax (PPT), a major revision in the state's method of taxing oil and gas production. Among other things, the new PPT is intended to encourage more investment in oil and gas exploration.

The PPT operates differently on the North Slope and in Cook Inlet. It caps per-unit tax liability for Cook Inlet producers at the level of the old production tax system, during the year before the PPT was passed in April 2006. This means that even if the price of gas or production rises, Cook Inlet producers—current and future—will never pay more than the average per-unit tax rate in April 2006.

In essence, the PPT will not just limit or lower taxes in Cook Inlet—*it should also encourage new exploration and production.* Because the PPT is so new, it's too early to say what effect it might have on future gas supplies.

What are the Alternatives?

What about finding other energy sources or reducing consumption as a means of dealing with falling gas reserves? At the forum Dunmire Consulting discussed alternatives for increasing gas supplies from outside Cook Inlet, reducing consumption, and replacing gas with other sources.

The Dunmire analysis was funded by the Alaska Natural Gas Development Authority, which is a state corporation approved by Alaska voters in 2002 to promote construction of a natural gas pipeline from the North Slope. ANGDA has so far concentrated on plans for some sort of pipeline—either a spur from a main pipeline or a pipeline directly from the North Slope to Southcentral Alaska—to supply in-state consumers with North Slope gas.

Below we just report the alternatives Dunmire Consulting identified. Their order below doesn't indicate feasibility or the length of time they would take to develop, if they were feasible. Some could help ease potential gas shortages relatively soon, but many would have long lead times and uncertain capital costs.

• **Conservation.** If Alaskans conserved more natural gas and electricity, they could save anywhere from 3.0 to 7.5 billion cubic feet of gas a year, according to estimates of Dunmire Consulting. Conservation measures include things like upgrading residential and commercial appliances and improving weatherization of houses and businesses. Some analysts believe Alaskans won't conserve more unless the prices of residential and commercial heat and electricity increase more than they already have.

• **North Slope Gas.** A major uncertainty affecting the future of Cook Inlet gas development is when North Slope gas might be available to Southcentral consumers. That uncertainty makes it more complicated for Cook Inlet producers to decide how much to invest in exploration and development in Cook Inlet and for utilities and other consumers to decide about investing in gas-using equipment.

The North Slope has very large known reserves of natural gas. The North Slope oil producers have said they support construction of a pipeline to carry natural gas to world markets—although by the end of 2006 they hadn't actually committed to building a pipeline.

But at some future time, Southcentral consumers could get North Slope gas either through a spur line from a main pipeline or through a direct bullet line—that is, a pipeline direct from the North Slope to Southcentral. A pipeline bringing North Slope gas to Southcentral could also be enriched with hydrocarbons, to make certain kinds of industrial development feasible.

• **Coal Gasification**. Agrium is investigating a proposal to substitute synthetic gas from coal for natural gas from Cook Inlet. The proposed Project Blue Sky would take coal from Healy in the Interior south by rail, transfer it to barge, and ship it to a coal gasification plant on the Kenai Peninsula. The synthetic gas would be used to produce fertilizer and could also add electricity to the Southcentral power grid.

Proponents say coal gasification allows for efficient capture of concentrated streams of carbon dioxide (CO_2), virtually eliminating emissions of this greenhouse gas. The captured CO_2 could then be used for advanced oil recovery. It's estimated that 13 Cook Inlet oil fields might produce an additional 300 million barrels, through enhanced oil recovery using CO_2.

• **Other Potential Sources of Gas in Southcentral.** The Bristol Bay area and Alaska Peninsula have been estimated to hold anywhere from 7 to 23 trillion cubic feet of gas and the Nenana Basin 3 to 10. It's beyond the scope of this paper to describe how this gas could be brought to market.

• **Import LNG**. Southcentral Alaska could import LNG via the Kenai LNG plant, if the plant were modified to import rather than export LNG. This option would not have as long a lead time as some other alternatives and it would ensure ample supply—but Alaskans would be exposed to world market prices (which are significantly higher than current local prices). A big consideration in the feasibility of this option would be the capital costs of modifying the LNG plant.

• **Coal-Bed Methane**. Coal-bed methane is a form of natural gas that has been identified in the Susitna Basin north of Anchorage. However, the economic potential of coal-bed natural gas has not been established, and its development in Alaska has been controversial.

• **Coal**. Alaska has abundant sources of coal. An objection to coal is that it has higher CO_2 emissions than other energy sources. But the state government sponsored construction of a clean-coal plant at Healy, to help generate electricity. That plant has yet to be operated, because the utility originally planning to use the coal decided not to—but there are now plans to start it up, possibly within the next 18 months. It could offset some demand for gas to generate electricity. Additional coal supplies could further reduce natural gas use for electricity but at a high capital cost.

• **Wind Power**. With support from Chugach Electric, Municipal Light and Power, and others, the Fire Island Wind project is underway, with preliminary permitting and feasibility to be completed by 2011. This project would involve construction of wind turbines on Fire Island, just offshore from Anchorage. The turbines would be able to supply electricity to the Southcentral power grid and help offset demand for natural gas. However, there is uncertainty about how the wind turbines might affect air traffic at Anchorage's nearby international airport.

• **Hydropower**. Chugach Electric already uses hydropower to a small extent. Proponents say use of this renewable resource has relatively few effects on land and water systems. But further development of hydropower in this region would require a long lead time for licensing and a significant amount of capital for plant development.

• **Nuclear Power**. A small-scale nuclear "demonstration project" is being proposed for the community of Galena along the Yukon River. It would start up in 2012. Power from this facility, if it were built, would not be available for Southcentral. However, if it were successful it could promote more local interest in this abundant but controversial source of energy. Problems with nuclear power include long-term land use, the risk of accidents, and nuclear waste storage.

• **Tidal Power**. A demonstration project of tidal power in Knik Arm is scheduled to be under construction by 2015. Tidal power is a renewable resource—but it might affect aquatic life and boat traffic.

• **Geothermal Power.** A geothermal unit began operating at Chena Hot Springs Resort in the Interior in August 2006. Other potential geothermal sites, including Mt. Spurr in Southcentral, are under consideration. Geothermal power is a renewable resource, but the costs of connecting to the local electrical grid may make many sites uneconomic to develop.

• **Distributed Generation.** Distributed generation is the practice of replacing central gas-fired generation with on-site co-generation, or fuel cells. If those systems were fueled by sources other than gas, they could reduce gas consumption. Distributed generation may eventually become a realistic option in Southcentral, as the costs of the technology continue to fall.

What About Economic Contributions of Cook Inlet Gas?

So far in this summary we've talked about the importance of Cook Inlet gas to residential, commercial, and industrial consumers. The gas also broadly contributes to the state economy, because it is an inexpensive source of energy. ENSTAR estimates, for example, that it makes an annual economic contribution of $230 million to the economy.

People attending the forum pointed out that petroleum operations in Cook Inlet also create jobs for Alaskans and add to local tax bases. The economic effects of Cook Inlet gas are most concentrated in the Kenai Peninsula Borough.

In 2006, the oil and gas industry paid property taxes of over $10 million in that borough. The Cook Inlet producers and Agrium made up nine of the top ten taxpayers, with the highest assessed property valuations in the borough. In 2005, the industry supported 1,340 jobs, or 7.4% of borough employment, and 18.7% of total borough payroll.

Petroleum industry jobs also pay well—the average annual wage for oil and gas workers in 2005 was $88,764, compared with the average of $35,148 among all workers in the Kenai Peninsula Borough.

Statistics on the economic contribution of Cook Inlet gas for the other two boroughs were not provided at the forum. But it is clear that the petroleum industry also provides a significant wage and tax base for both Anchorage and the Mat-Su Borough.

What Did We Learn from the Forum?

In the past few decades, residents of Southcentral Alaska have enjoyed abundant gas supplies at low prices. Unfortunately for consumers, demand is now starting to run ahead of supply. Opinions differ on how much more gas is yet to be found in Cook Inlet and on the best way to stimulate exploration for new supplies.

Whether the two biggest current users of Cook Inlet gas—the LNG and fertilizer plants on the Kenai Peninsula—will keep operating in the face of shrinking supplies and rising prices makes the future market for gas uncertain. However, residential and commercial demand for both heating and gas-generated electricity are expected to keep growing.

Uncertainty also surrounds the future sources of gas supply (including gas from the North Slope) and the feasibility of developing alternative fuels that may be able to help offset some of the demand for natural gas. Many of the proposed alternatives come with long lead times and unpredictable costs.

But one thing is clear. Southcentral Alaska needs to find additional supplies of gas, or ways to offset demand. Otherwise, the region may soon see large-scale shortages.

A list of forum participants and transcripts of presentations are on AOGCC's Web site: www.aogcc.alaska.gov

Acknowledgments

The authors thank many people for help with this summary. AOGCC commissioners Dan Seamount and John Norman sponsored the preparation of the summary and tried to ensure that the forum's agenda was objective and represented as many stakeholders as possible. Bill Popp of the Kenai Peninsula Borough also helped the commission line up participants for this forum. The Oil and Gas Division of the Alaska Department of Natural Resources also contributed to the forum's success.

Jody Colombie and Ceresa Tolley at the AOGCC provided the forum with logistical support and helped the authors collect and disseminate information from the proceedings.

Dan Dieckgraeff of ENSTAR, Will Nebesky and Brian Havelock of the Alaska Division of Oil and Gas, and Charles Thomas of Science Applications International Corporation promptly answered follow-up questions from the authors.

The authors appreciate help from Fran Ulmer, Linda Leask, Clemencia Merrill, and Darla Siver of ISER.

Finally, the authors thank all the forum participants for taking the time to discuss this important issue.

HOUSE COMMITTEE REPORT

(11)
Date Referred to Committee: March 17, 2010 **FURTHER REFERRALS:**

Date of Committee Action: 3/18/10

The FINANCE Committee considered: **HOUSE BILL NO. 280**

"An Act relating to natural gas; relating to a gas storage facility; relating to the Regulatory Commission of Alaska; relating to the participation by the attorney general in a matter involving the approval of a rate or a gas supply contract; relating to an income tax credit for a gas storage facility; relating to oil and gas production tax credits; relating to the powers and duties of the Alaska Oil and Gas Conservation Commission; relating to production tax credits for certain losses and expenditures, including exploration expenditures; relating to the powers and duties of the director of the division of lands and to lease fees for the storage of gas on state land; and providing for an effective date."

ANALYSIS: *(Attach a separate page if necessary)*

Using data from the Alaska Justice Statistical Analysis Center and the Alaska Court System, DMV estimates it will have to enter an alcohol restriction on 7,000 additional licenses each year.

Supply Costs: It cost approximately $2.50 in supplies to produce each card (7,000 x $2.50 = $17,500).

Revenues: DMV collects $50 for each alcohol restricted license (7,000 x $50 = $350,000)

ANALYSIS: *(Attach a separate page if necessary)*

This bill provides that a person who is restricted from purchasing alcohol many not solicit another to purchase alcoholic beverages or misrepresent the restriction to a licensee. The bill also provides that the court, as part of a sentence, may order the defendant to refrain from consuming alcohol for the period of the sentence and any period of probation, suspended sentence, or suspended imposition of sentence if the conviction was for a felony substantially influenced by alcohol consumption or the defendant had a history of drunk driving offenses.

Enactment of the bill is not anticipated to fiscally impact the Department of Law.

ANALYSIS: *(Attach a separate page if nece*

If passed and enforced, this bill would increase monitoring hours, urine analysis testing, and number of court appearances, which would have a significant impact on the workload of the Adult Probation Officers in the Alcohol Safety Action Program (ASAP). ASAP referrals could increase by 20% or more, requiring one additional Adult Probation Officer and one additional Criminal Justice Technician. The impact on the Therapeutic Court program would not be as significant, and could be accommodated with existing staff. The actual workload impact will depend greatly on the level of enforcement.

Currently, alcohol restrictions are a part of probation conditions for 75% of all ASAP misdemeanor clients and approximately 90% of the Therapeutic Court participants. Currently, a very small percentage of ASAP clients are charged with probation violations related to consuming alcohol while on probation.

STATE OF ALASKA

BILL NO. HB 283

2010 LEGISLATIVE SESSION

ANALYSIS CONTINUATION

An aspect of the bill that could significantly increase workload is the "lifetime" ban option available to the court. However, the impact will not begin immediately and will not be fully-realized for decades. Currently, ASAP and the Therapeutic Court program cases are time-limited, with monitoring ending with probation.

Cost estimate detail:

1 FTE Criminal Justice Technician	$59.7
1 FTE Adult Probation Officer, ASAP	$75.3
Telecommunications	$1.0
Facility	$4.7
Equipment repair & maintenance	$0.6
Printing	$0.5
Mail	$2.2
Employee training	$0.4
Department support costs	$2.1
State equipment fleet	$0.5
Business supplies	$3.3

SPONSOR STATEMENT: CS for HOUSE BILL HB 283

HB 283 amends the current law concerning people who are restricted from the purchase and consumption of alcoholic beverages. The bill adds people who commit crimes where alcohol contributed to the commission of the crime.

The bill will allow a court to restrict people, who are convicted of a felony or a third misdemeanor, from consuming and purchasing alcohol. These persons will be required to have an alcohol restricted drivers license or ID. It also restricts a person from purchasing alcohol for someone who is restricted from consuming. The bill further prevents a person who has been restricted from consuming alcohol from misrepresenting themselves as being able to purchase and consume alcohol.

The Bill will also prevent a person who was issued a youth drivers license or ID from purchasing alcohol. The youth driver's licenses and identification cards are vertically oriented documents. This change will make it simple for a licensee or their employees to determine the correct documentation for purchasing alcohol.

According to the Department of Corrections over 90% of the crimes that are committed in Alaska are either directly or indirectly related to the consumption of alcohol or drugs. This bill will help prevent the people that are committing these crimes from purchasing and consuming alcohol. I believe this will provide additional tools to keep the problem drinkers from purchasing alcohol.

Sectional Analysis: CS for HOUSE BILL 283

Sec 1 amends AS 04.16.47(a) adding two more prohibitions into this subsection: A person who is restricted from purchasing may not solicit another to purchase alcoholic beverages; A person who is restricted from purchasing alcohol may not misrepresent themselves as able to purchase alcohol.

Sec 2 amends AS.04.16047 by adding a new subsection (d) a person may not purchase alcohol for a person who is restricted from purchasing.

Sec 3 amends AS 04.16.160(a) adds certain people that commit a crime under the influence of alcohol from consuming alcohol under AS 12.55.15(a)(13)

Sec 4 amends AS 04.21.050(b) to recognizes the new subsection 04.21.050(d)

Sec 5 amends AS 04.21.050 by adding a new subsection (d): restricting a person from purchasing alcohol with a youth driver's license or identification card.

Sec 6 amends AS 12.55.015 (a) by adding subsection (13) to the list of potential sentencing tools: A court may order a defendant to refrain from the use of alcohol if the person was convicted of a felony or a third misdemeanor that was substantially influenced by the consumption of alcohol.

Sec 7 amends AS 12.15.015 by adding a new subsection (k) stating nothing in (a)(13) t restricts the authority of a court to order a person to refrain from the consumption of alcohol.

The passage of this legislation would require the bonding proposition to appear on the 2010 general election ballot. The cost of providing information about the bonding proposition in the Official Election Pamphlet, as required by AS 15.58 is $1.5. Should the addition of this question require printing an 8-1/2 by 18 inch ballot, the cost will increase to $22.0.

ANALYSIS: *(Attach a separate page if necessary)*

This bill authorizes a statewide public vote on $600 million in revenue bonds to finance the Veterans Mortgage Program. Alaska is one of five states in the nation that established this program under the federal tax code. AHFC administers the program on behalf of the State.

Costs associated with the issuance of these bonds are anticipated to be covered with annual operating budget authorizations. Anticipated costs related to voter information education and dissemination about the bonds and the program will be approximately $150,000.

If approved by voters, bond issuances in the future will be done based on loan demand.

Federal Definition of "Qualified Veteran" for the Veterans Mortgage Loan Program

Qualified Veterans

A "qualified veteran" must meet the following criteria.

1. The veteran has not been discharged from active duty for more than **25** years prior to the date of submission to AHFC for loan commitment.

2. If retired, discharged, or released from duty, separation must have been under conditions other than dishonorable.

3. If not retired, discharged, or released from active duty, has completed his or her initial period of duty and would have been entitled to a discharge or release under conditions other than dishonorable at the end of his or her initial period of duty.

B. Active Duty

1. Duty in Armed Forces

   Full time duty, **other than for training**, in the United States Army, Navy, Marine Corps, Air Force, or Coast Guard or in a reserve component of the United States Army, Navy, Marine Corps, Air Force or Coast Guard.

   Note: "Full time" duty for a reservist should not be confused with weekend duty."Full time" duty means reporting for regular, full time employment that constitutes the individuals "primary" employment. Upon discharge from "full time" duty, the soldier receives a Form DD-214. "Weekend" duty is considered active duty for training and the individual normally has other "primary" employment. Upon discharge from "weekend" duty, which does not meet the eligibility criteria, the soldier is issued a Form NGB-22.

2. Duty in Public Health Service

Full time duty, **other than for training**, as a Commissioned Officer of the Public Health Service, or of the Reserve Corps of the Public Health Service, on or after July 29, 1945, or, if the duty occurred prior to that date, under circumstances affording entitlement to full military benefits. The corporation will seek the assistance of the VA in determining whether an individuals service before July 29, 1945, in the Public Health Service was under circumstances affording entitlement to full military benefits.

3. Duty in National Oceanic and Atmospheric Administration or in Coast and Geodetic Survey

Full time duty as a Commissioned Officer of the National Oceanic and Atmospheric Administration or of the Coast and Geodetic Survey on or after July 29, 1945, or, if the duty occurred prior to that date; the person was on transfer to the United States Army, Navy, Marine Corps, Air Force, or Coast Guard; or if during time of war or national emergency declared by the President, the person was assigned to duty on a project for the US Army, Navy, Marine Corps, Air Force or Coast Guard in an area determined by the Secretary of Defense to be of immediate military hazard; or the person served continuously in the Philippine Islands from December 7, 1941 to July 28, 1945.

4. Duty in United States Military, Air Force, Coast Guard or Naval Academy

Service as a cadet at the US Military, Air Force, or Coast Guard Academy or as a midshipman at the US Naval Academy.

ALASKA HOUSING FINANCE CORPORATION
VETERANS MORTGAGE LOAN PROGRAM ACTIVITY
FISCAL YEAR 1994-2010

Fiscal Year	Number Of Loans	Loan Total
2010	27	$8,045,305
2009	305	$86,179,506
2008	495	$139,253,152
2007	419	$114,744,164
2006	44	$11,549,485
2005	57	$12,260,899
2004	125	$25,472,549
2003	187	$38,782,068
2002	315	$59,339,089
2001	430	$73,184,764
2000	496	$85,877,200
1999	540	$91,249,038
1998	597	$93,885,910
1997	340	$52,161,904
1996	246	$35,650,186
1995	482	$68,947,388
1994	177	$24,435,920
Total	**4758**	**$834,117,886**

On January 25, 2010, Standard and Poor's looked at the delinquency rates of the loan portfolios of 34 state Housing Finance Agency bond programs. Of those, the Alaska Housing Finance Corporation's Veterans Mortgage Loan program had the LOWEST delinquency rate of any other state program at 1.28 percent.

House Bill 291 Sectional Analysis

Section 1 -
Section 1 adds the unconditional guarantee of the state of Alaska to bonds issued by the Alaska Housing Finance Corporation for the purchase of mortgage loans made to qualifying veterans. The principal amount of the bonds shall not exceed $600 million.

Section 2 -
Section 2 gives the Alaska Housing Finance Corporation the authorization to sell bonds guaranteed under Section 1 of the bill, pending the approval of the voters of Alaska.

Section 3 -
Section 3 changes the definition of 'qualifying veteran' in state statute to conform to the federal definition that was changed effective May 30, 2006. The federal definition for eligibility changed from a veteran having served in the military prior to January 1, 1977 and not having been out of the service more than 30 years to the new definition of a veteran not having been out of the military more than 25 years with no specific dates during which he/she must have served.

Section 4 -
Section 4 adds the language that will be included on the general election ballot in 2010.

Section 5 -
Section 5 provides for an immediate effective date.

HB 291 AHFC Vets Bonds
Sponsor Statement

House Bill 291 will place a question on the ballot for the general election of 2010 asking voters to approve an additional $600 million of state guaranteed bonds to be issued by the Alaska Housing Finance Corporation for the purchase of mortgage loans made to qualifying veterans. The Veterans Mortgage Loan Program allows the Alaska Housing Finance Corporation to sell tax-exempt bonds to fund the program. Because of this, the Veterans Mortgage Loan Program generally offers a lower interest rate than the conventional single family mortgage loan program. As of December 23, 2009, the Veterans program interest rate was 3/8 of a percent below the Corporation's conventional taxable mortgage loan program.

To qualify, veterans must apply to AHFC within 25 years of his/her date of discharge from "active duty service." (Active duty service is full-time duty, other than for training.) Active duty service in the US Armed Forces, US Armed Forces Reserves, Public Health Service, NOAA, or service as a cadet at the US Military, Air Force, Coast Guard or Naval Academy may meet requirements.

Qualified veterans may be retired or active duty personnel. If retired, discharged, or released from active duty, separation must have been under conditions other than dishonorable. Active duty personnel must have completed their initial military obligation.

The last time veterans bonds were on the general election ballot was 2002, when Alaskans approved the bonds by over seventy percent. As a result of recent passed legislation in Congress, Alaska along with the states of California, Oregon, Texas and Wisconsin have been able to offer more loans to veterans through the program than the previous years. Because of this, it is estimated that the Corporation could run out of bond authorization for the veterans loan program some time in 2011. This is the reason for the urgency of getting the issue to the ballot in 2010.

Governor Sean Parnell
STATE OF ALASKA

January 8, 2010

The Honorable Mike Chenault
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Chenault,

Under the authority of Art. III, Sec. 18, of the Alaska Constitution, I am transmitting a bill that increases the existing limit on State grants for major disaster victims in the State of Alaska.

This bill would change an existing limitation on the Governor's authority to issue assistance grants to victims of a major disaster in this state, which has not been updated for nearly 20 years. Under current law, when the Governor declares a disaster emergency, a grant can only be provided to a victim of the disaster in this state in an amount not to exceed $5,000. After witnessing the widespread disaster of the 2009 spring floods, it has become obvious that the maximum amount of $5,000 per household is not enough to cover incurred costs from damages in today's economy. It is clearly time to revise the limit and give the State the ability to provide improved relief to victims of major disasters in this state.

This proposed legislation increases the maximum amount that can be granted to a household in 2010 to $14,950 for a State-declared disaster. This is calculated by setting it at half of the amount of a federally declared disaster. The amount will be adjusted each year based upon the consumer price index.

I urge your prompt and favorable action on this bill.

Sincerely,

Sean Parnell
Governor

Enclosure

FISCAL NOTE

STATE OF ALASKA BILL NO. HB292-DMVA-HS&EM-3-24-10

ANALYSIS CONTINUATION

Funding for this legislation is authorized under the Alaska Disaster Act 26.23 and provided through fund transfers to the Disaster Relief Fund (DRF). In recent years, the Legislature has provided an annual appropriation to the DRF ensuring funds are quickly available once a disaster declaration is made and legislative concurrence is obtained, when required. Therefore, determining an annual amount for a fiscal note is dependent upon the number of disasters we incur that affect individuals and families. This cannot be predicted but historial references are provided for analysis and we made the assumption that there may be 2 events per year that qualify for this benefit.

2009 Spring Flood Disaster is used as an example - a large portion of this disaster was approved for a Presidential Disaster Declaration and there the State Individual Assistance Program was only enacted for a total of 30 eligible applicants. If all applicants had major damages, they would be eligible for the maximum current grant of $5,000 for a total of $150,000. Under proposed legislative language change, each applicant would be eligible for $14,950 (one half of the maximum grant amount established under Section 1 of the bill) if their damages equaled this amount under the State Individual Assistance Plan. The total maximum grant funds for the 30 applicants would have totaled $448,500, an increase in State Disaster Relief Funding requirements of $298,500 for this disaster.

In order to provide an average, we have the following statistics. Since 2002, we have had 10 disasters where we implemented the State Individual Assistance Program with an average of 133 applicants. under our current legislation, the maximum total grant funds per disaster would have been an average of $665,000. With the implementation of new legislation, the increase would have been an average of over $1.3 million per event. These are only estimates and would depend on levels of damages incurred by each individual applicant.

In FY2011 we anticipate $595.5 GFM in addition to the budgeted amount of $300.0 GFM. In out years through FY2016, we anticipate the amount required to meet this legislation being $895.5 GFM.

STATE INDIVIDUAL and FAMILY GRANT PROGRAM (IFG)

History of State IFG Program:

Authority: **Alaska Statute 26.23.090**

Enacted in: 1977

Amended in 1990

$5,000 limit dates back to original date statute was enacted (1977)

Regulations: **06 Alaska Administrative Codes (AAC) 94.200 – 94.280**

Adopted in: 2000

Individual Assistance Task Force:

- **The Individual Assistance Task Force convened January 2008 to examine Individual Assistance programs and current program capacity to provide prompt and effective relief to individuals and families affected by disasters.**
- **Agencies involved in review of IFG program:**
  - **Division of Homeland Security and Emergency Management, Department of Commerce, Community, and Economic Development, Department of Health and Social Services, Alaska Housing Finance Corporation, Alaska VOAD, American Red Cross of Alaska, and USDA Rural Development**
- **Agencies met 10 times over a six month period**
- **Task Force recommended that maximum awards increase and that funding levels be tied to an annual figure such as the FEMA Individual and Households Program award or the Consumer Price Index.**

IFG Program Requirements:

- **AS 26.23.090**
  - **Governor authorized to make grants to individuals and families to meet disaster related expenses or serious needs that cannot be met from other means of assistance.**
  - **Current funding limits:**
    - **State Disaster Limit - $5,000**
    - **Legislative Recommendation – One-Half of Federal IA Program (based on CPI)**
- **06 AAC 94.200 – 94.280**
  - **Must incur a necessary expense or serious need in the declared disaster area as a result of the disaster, and be unable to meet that expense or need**
  - **Grants may be given to meet necessary expenses or serious needs by providing essential items or services in the following categories: housing; housing repair; personal property, transportation; medical or dental expenses; expenses related to funerals, burials, and cremations.**

- Disaster victims' needs will be identified on the Disaster Assistance Application and confirmed by verifications. Verifications can be accomplished by on-site visits, photographs, Loss Verification Statement forms, and other documentation deemed appropriate by the IA Officer.
- Applicants will be denied eligibility for a current disaster claims if they have not complied with requirements on previous disasters. Therefore, applicants will be cross-referenced for any past disaster non-compliance.
- If the grantee is in a Special Flood Hazard Area, as determined by the National Flood Insurance Program (NFIP), and the grantee is a homeowner, flood insurance coverage must be maintained on the residence at the flood-damaged property address for as long as the grantee owns the structure, in order for the grantee to be eligible for a future grant for acquisition and construction purposes. If the grantee is a renter, flood insurance required under this section must be maintained on the contents of the rental unit for as long as the grantee resides at the flood-damaged property address.

HB 294
USE, REGULATION, AND OPERATION OF BOATS

House Bill 294 extends the sunset dates of the Statewide Boating Safety and Education program for six years. In 2009 HB 151 was passed which extended the program for one year, allowing funding to continue to 2010.

This program has been successful as more boaters follow safety rules and boating fatalities have steadily decreased during the tenure of the law while bringing Alaskan law into compliance with federal regulations. Under this program, boating deaths in Alaska have decreased by 20% and the lives of at least 17 Alaskan children have been saved by a Kids Don't Float life jacket.

Furthermore, the Statewide Boating Safety and Education Act has allowed the State of Alaska to consistently receive over one million dollars a year in federal funds. To receive full funding for the federal FY 2011 this sunset must either be extended or repealed during the 2010 legislative session.

Passage of HB 294 will ensure that a successful program will continue to save lives and that the State of Alaska will continue to have clear and consistent boating safety regulations with ample federal funds to administer safety and educational programs.

I ask for your support extending an effective program that has successfully saved lives.

ANALYSIS: *(Attach a separate page if necessary)*

No fiscal Impact is associated with this bill. The project is included in the governor's operating budget.

The primary purpose of this bill is to extend the sunset date of the Alaska Boating Safety Act.

The program is funded primarily by a federal grant.

CS FOR HOUSE BILL NO. 294(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): REPRESENTATIVES NEUMAN, Buch, Olson, Chenault, Holmes, Tammie Wilson, Austerman

A BILL

FOR AN ACT ENTITLED

"An Act amending the termination date of certain statutes relating to the use, operation, and regulation of boats, a uniform state waterway marking system, and civil liability for boat owners by extending the termination date by two years; providing for an effective date by amending the effective date of secs. 3, 5, 7, 9, 11, 14, 16, 18, 20, 23, 26, and 27, ch. 28, SLA 2000, as amended; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** Section 30, ch. 28, SLA 2000, as amended by sec. 3, ch. 34, SLA 2004, and by sec. 1, ch. 19, SLA 2009, is amended to read:

Sec. 30. Sections 3, 5, 7, 9, 11, 14, 16, 18, 20, 23, 26, and 27 of this Act take effect on the earlier of the following dates:

(1) July 1, **2013** [2011]; or

(2) 90 days after the date the chair of the Alaska Legislative Council notifies the revisor of statutes that in the previous state fiscal year the state did not

receive and does not anticipate receiving federal funding for a statewide boating and safety education program; the director of the division of legislative finance shall notify the chair of the Alaska Legislative Council when the state, in the previous fiscal year, did not receive federal funding for a statewide boating and safety program; the chair of the Alaska Legislative Council may not give the notice described in this paragraph unless the notice is approved by a vote of a majority of the members of the Alaska Legislative Council.

*** Sec. 2.** This Act takes effect immediately under AS 01.10.070(c).

White Paper

Alaska's Boating Safety Dollars at Work

Alaska Division of Parks and Outdoor Recreation
Office of Boating Safety

BACKGROUND

While Congressional attention to recreational boating safety began as early as 1910, the Federal Boat Safety Act of 1971 (46 U.S.C. 13101) provided the first federal funding to the states to *"encourage greater state participation and uniformity in boating safety efforts, and particularly to permit the states to assume the greater share of boating safety education, assistance, and enforcement activities."* Since this act was passed, the U.S. Coast Guard estimates that more than 27,000 lives have been saved. Nationally, the number of non-commercial boating fatalities has been cut in half; even though boat ownership more than doubled over the same period. Even so, recreational boating safety remains on the National Transportation Safety Board's "*12 Most Wanted List*" for needed transportation safety improvements.

Boats are an integral part of the lifestyle of many Alaskans. Alaskans use boats to enjoy the state's world-class recreational opportunities, but also as a primary means of transportation and subsistence. Unfortunately, Alaska's boating fatality rate is nearly 10 times the national average and among the nation's highest. In Alaska, only highway accidents account for more unintentional death than does drowning. Most of these fatalities could have been prevented. However, from 1987 to 1998, Alaska was the *only* state without a boating program. As a result, Alaska's share of federal funding available for boating safety was divided among all the other states. At the same time, because U.S. Coast Guard registered our boats, Alaska's registration fees went into the U.S. Treasury instead of remaining in the state. In June 1998 Alaska became the last state to establish a boating safety program when the Office of Boating Safety was established by Department Order. The Alaska Boating Safety Act (AS 05.25) was drafted and introduced in the 1999 legislative session. The act was signed into law on May 11, 2000, and Alaska qualified for the state's full share of federal grant money for state boating programs. The Alaska Boating Safety Program relies almost entirely on this federal grant. Federal funds for boating safety now contribute more than $1,000,000 a year to Alaska's economy.

Alaska's investment in boating safety is small when compared to the lives saved

9/22/09

PROGRAM MISSION AND OBJECTIVES

Mission

The mission and objectives of the Alaska Boating Safety Program are identified by Alaska statute: *It is the policy of the state to promote the safety of persons and property in and connected with the use, operation, and equipment of boats on the water of the state and to promote the uniformity of laws relating to boat safety* (AS 05.25.050). The program implements this mission with the intended purpose of reducing boating deaths, injuries and property damage, and enhancing enjoyment on Alaska's waterways.

Objectives

1. Cooperate with other state and federal agencies and organizations to provide for statewide boating safety programs in Alaska.
2. Secure the benefits available to the state under 46 U.S.C. 13101 - 13110; and take the actions necessary to continue to qualify for federal grant funding under 46 U.S.C. 13102, and the U.S. Coast Guard / State of Alaska Memorandum of Understanding.
3. Provide and expand the boating safety education program to increase public awareness of boating risks and the knowledge, skills, and abilities of Alaska's boaters, including:
    - The production of educational materials relevant to the needs of Alaska's urban and rural boaters.
    - Support for statewide boating safety education programs for children 1 and other high - risk groups.
    - Training, certification, and support of boating safety instructors.
    - Evaluation, on an ongoing basis, of the effectiveness of programs.
4. Support the Alaska Boating Safety Advisory Council.
5. Provide for a uniform state waterway marking system.
6. Provide for boating accident and casualties reporting.
7. Serve as liaison between the U.S. Coast Guard and the Division of Motor Vehicles as necessary on state boat registration issues.
8. Provide for boating law enforcement training.
9. Promote the uniformity of laws relating to boating safety.

Alaska faces significant challenges in meeting these objectives:

- Less than one third of the state is served by the road system, and many communities are difficult to reach.
- Alaska's population is the second most culturally diverse in the nation. Over 56 different cultural groups, including about 102,000 Eskimo, Athabascan, Aleut, Tlingit, Tsimshian, and Haida natives, are represented. Learning and communication styles differ widely between these groups.
- Alaska's cold water presents a significant risk to boaters and our vast distances often make a timely rescue impossible, significantly reducing the odds of surviving a boating emergency in Alaska.

Because the Alaska Boating Safety program is small compared to most other states, maintaining dynamic and productive partnerships is critical if we are to meet objectives. To that end, the program works closely with the U.S. Coast Guard, the U.S Coast Guard Auxiliary, other agencies, and boating organizations, to make the most out of limited resources and avoid duplication of effort. Alaska also maintains relationships with other states and participates in regional and national boating organizations to identify and adopt best practices of other boating programs, maximize resources, and increase program quality, productivity, and effectiveness.

---

2 According to data published by the State of Alaska, Dept. of Heath and Social Services, drowning was the second leading cause of unintentional death for children and youth under 20 between 1991 and 1998, with an average of 9.2 lives lost per year. From 1994 – 1998 the drowning death rate of Alaska's children, per 100,000, was 4.8 as compared to the national rate of 1.8 per 100,000.

PROGRAM HIGHLIGHTS

The *Kids Don't Float* life jacket loaner program is a collaborative partnership between the Alaska Department of Health and Social Services, the Alaska Boating Safety Program, the U.S. Coast Guard, and local sponsors. A total of **514** life jacket loaner board stations in **153** communities have been established statewide. The Alaska Boating Safety Program is the primary supplier of life jackets for the program, **30,287** life jackets for *Kids Don't Float.*

Kids Don't Float has an educational component that provides boating safety programs for Alaska's students. To date, attendance numbers total over **71,000.**

The program offers *Alaska Water Wise (AWW)*, Alaska's nationally approved and Alaska – relevant, boating safety course.

- A total of **1,672** boaters (representing all of Alaska's census areas) have completed an *AWW* course.
- The program also trains Alaskans to teach *Alaska Water Wise* courses and supports their efforts to teach boating safety in and around their communities. **279** potential instructors from more than **52** Alaska communities in **24** of the state's **27** census areas have completed the *Alaska Water Wise Instructor* course.
- Those who meet program requirements for state instructor certification are placed on the state boating safety instructor registry and authorized to teach *Alaska Water Wise (AWW).* There are **110** instructors on the registry.

The program conducts an ongoing social marketing campaign on radio and television, produces publications and articles including the popular *Alaska Boater's Handbook*, and the handbook supplement series, award - winning posters, interpretive panels for display at boat launches, presents seminars, and produces instructional films such as *Boating Alaska* and *Cold Water Boating.*

The program develops curriculum and provides marine law enforcement training for the Alaska State Troopers and other Alaska law enforcement officers including instruction in boating laws at the Alaska Law Enforcement Training Academy, the 40 hr Alaska Boating Law Enforcement (ABLE) course, and financial support for officers attending NASBLA Boating Under the Influence and Boat Accident Investigation courses.

The program provides support for the U.S. Coast Guard Auxiliary Vessel Safety Check program.

The Alaska Boating Safety Program is entirely user – funded, through the federal *Sport Fish Restoration and Boating Trust Fund* and a portion of Alaska's state boat registration receipts.

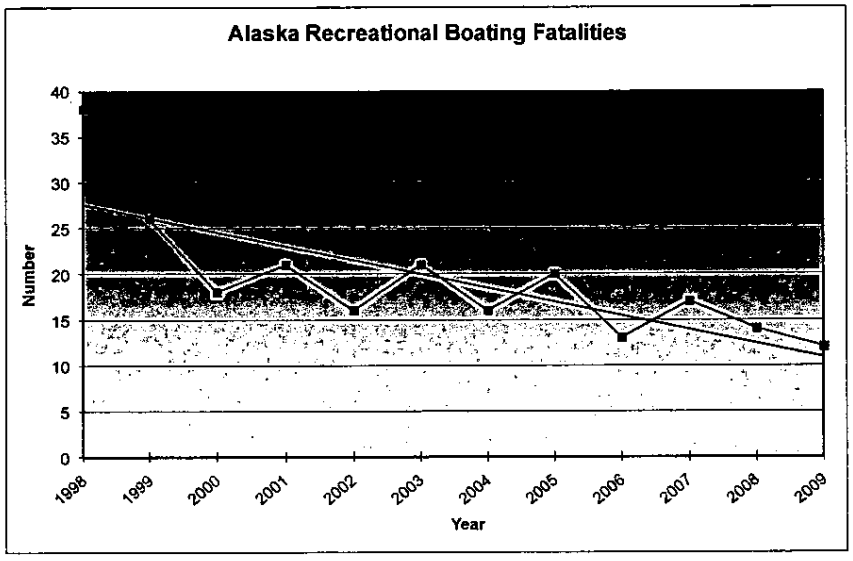
Observational behavior studies, statewide boater surveys, instructor and course evaluations, student testing, and U.S Coast Guard statistics are examples of sources used to evaluate program performance.

The Alaska Boating Safety Program and its staff have received numerous awards, including the prestigious *NASBLA Bonner Award*, the U.S. Coast Guard *Public Service Commendation*, and the U.S. Department of Transportation's *Partnering for Excellence Award.* The *Kids Don't Float Peer Educator Program* was a 2002 regional winner of the National Safe Boating Council's *Boating Education Advancement Award.* The *Kids Don't Float* schools program was the 2009 national winner of the Council's *Boating Safety Youth Program Award.*

9/22/09

IS THE PROGRAM IS MAKING PROGRESS?

Alaska's recreational boating fatality rate (fatalities per 100,000 boats) has dropped steadily from 144 in 1998 (when the state's Alaska Office of Boating Safety was established) to 34 in 2007. In comparing the number of fatalities during each of the two five - year periods within the previous 10 years, fatalities have dropped 20% between the two periods.



At least 17 Alaskan children have survived a water emergency thanks to a *Kids Don't Float* loaner life jacket.

<u>Alaska Boater Survey Results:</u>

25% of Alaskan boaters say they wear a life jacket more often today than they did five years ago

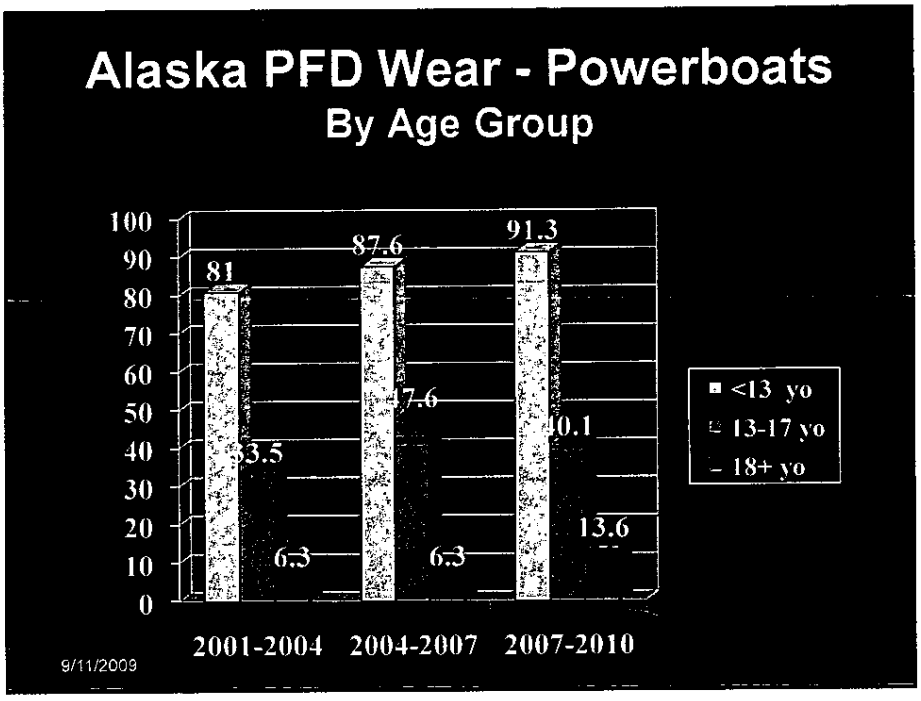
12% of Alaskan boaters say a life jacket saved the life of someone in their household

77% of Alaskan boaters believe everyone should be required to wear life jackets when in open boats

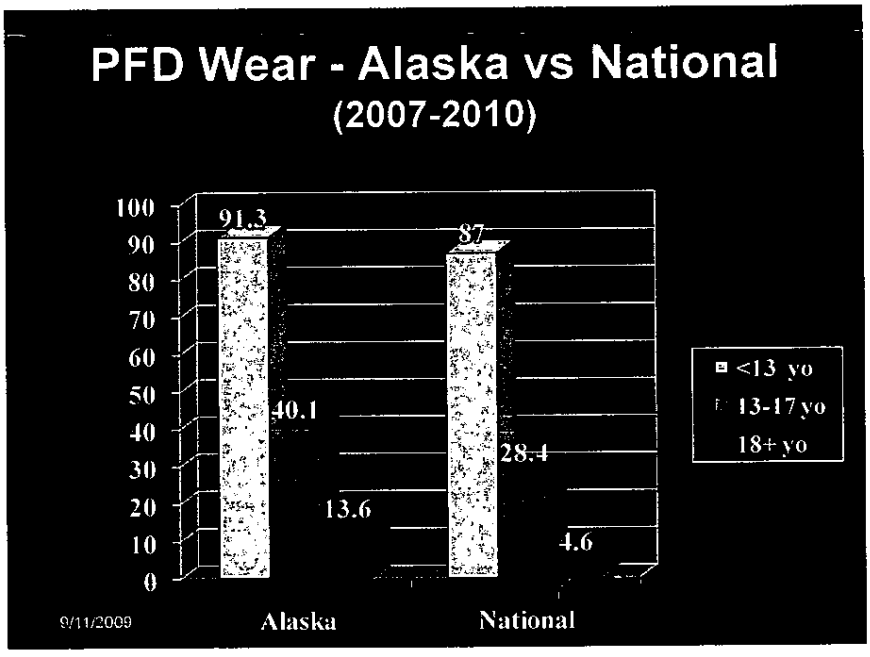
72% of Alaskan boaters say they have taken a boating safety course, compared to 46% five years ago

U.S. Coast Guard observational life jacket wear rate studies show increases in life jacket wear.

9/22/09



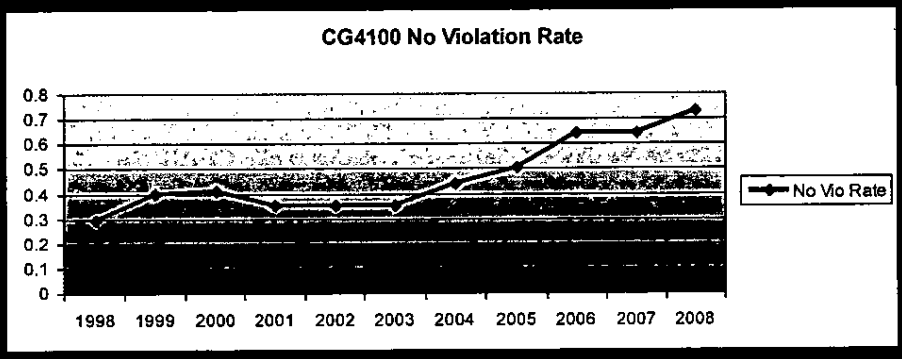
Alaska's life jacket wear rates are above the national average in all age groups.



USCG law enforcement boarding statistics show increasing compliance.

9/22/09

USCG Boarding Statistics



9/22/09

STAFFING DETAIL

The Alaska Boating Safety Program has four full time staff. Three were pre – existing positions within the Division of Parks that were moved to the boating safety program.

Boating Law Administrator – (Program Coordinator II, PCN 10-5101)
Each state's Boating Law Administrator plans, implements, and directs the functions of their state's boating program. This position formulates and revises the program's budget, policies, and management strategies, coordinates with other state agencies that provide Alaska's program elements, assures maximum utilization of financial and human resources, identifies and adopts the best practices of other state boating programs, designs ways to evaluate performance of the program, and leads the analysis of boating related issues affecting the State. The position serves as the state's official representative on local, regional, and national levels with regard to recreational boating issues, policy development, and program funding and also provides regulatory interpretive assistance to agencies and the public.

Boating Education Coordinator – (Park Ranger I, PCN 10-5257)
The Boating Education Coordinator plans, develops, and coordinates the delivery of a variety of educational programs statewide. This position's duties include curriculum development, professional training, and overseeing paid and volunteer boating safety instructors, overseeing all *Kid's Don't Float* schools programs, providing a variety of seminars and presentations, managing the Alaska Boating Safety Instructor Registry, and assisting and supporting boating safety instructors statewide. This position also trains law enforcement officers in boating law and marine law enforcement, and is a law enforcement field - training officer.

Boating Education Specialist – (Park Specialist, PCN 10-5260)
This position independently provides a variety of high quality and Alaska - relevant public boating education and interpretive programs that promote safe, enjoyable boating experiences, for children and adults, performs outreach and schedules programs, develops, prepares for, and executes boating education programs including *Alaska Water Wise* and *Kids Don't Float* classes, workshops, and presentations. Ensures all programs satisfy the standards and policies of the Division of Parks and Outdoor Recreation, Alaska Office of Boating Safety.

Administrative Assistant – (PCN 10-5062)
Administrative support functions in the areas of budget preparation and financial monitoring/reporting, purchasing, inventory, travel, training, personnel, and information dissemination. Duties include gathering information for and preparing budgets, federal grant applications and reports, fiscal and financial tracking of expenditures, procurement of equipment, supplies, and professional services, preparing and tracking reimbursable services agreements, executing payments, processing time sheets, arranging travel, preparing and processing travel authorizations, coding, certifying, and reconciling invoices, attending meetings and drafting meeting minutes, handling public and agency inquiries, assisting unit staff with boating safety program activities, preparing advertising orders, organizing media campaigns, developing and maintaining web pages, and setting up and maintaining a highly organized system of electronic databases, files and records.

The program also funds several other pre-existing Division staff. Currently, **13** seasonal park rangers and other Division staff work on specific boating education projects during a portion of their off season, particularly in the delivery of *Kids Don't Float* school programs.

House Bill 296
Sponsor Statement

House Bill 296 will establish an energy efficiency revolving loan fund in the Alaska Housing Finance Corporation and authorize the Corporation to sell up to $250 million in bonds to fund the program.

The federal ARRA bill appropriated $28.3 million to Alaska for the State Energy Program. Of that, Governor Parnell recommended spending $18 million to make energy efficiency improvements to public buildings. Of this, $10 million would go for energy efficient improvements to state facilities and $8 million would go for energy efficient improvements to school and municipal facilities.

HB 296 will use this $18 million to leverage up to $250 million in bonds to fund the program. The bill also establishes an energy efficiency revolving loan fund in AHFC.

As an example, a municipal government or school district would have an energy audit done on their building. Let's say the building needs $120,000 to make it more energy efficient and that those improvements would reduce their energy costs by $20,000 a year. They would take a loan out with AHFC to do the work and then pay the loan back with the funds available due to the savings achieved through the energy efficiency improvements. After the loan is paid back those funds would be available to that government for other purposes or to reduce the size of its budget. This would result in less energy used by public buildings as well as ultimately saving public money.

This type of program has proven to be successful in other states as well as by the Alaska state Department of Transportation and Public Facilities.

HB 296 Sectional Analysis

Section 1 -
Section 1 amends Alaska Housing Finance Corporation's statutes to add a new section establishing an Alaska energy efficiency revolving loan fund and making AHFC the administrator of this fund. This program would make loans to municipal governments, including subdivisions of municipal governments, or to the Department of Transportation and Public Facilities.

Section 2 -
Section 2 gives the Alaska Housing Finance Corporation the authorization to sell up to $250 million in bonds and that the funds shall be deposited in the Alaska energy efficiency revolving loan fund established in Section 1.

Section 3 –
Section 3 instructs the revisor of statutes to change the heading of article 6 of AS 18.56 from "Article 6. Energy Conservation" to "Article 6. Energy Efficiency and Conservation Programs."

Section 4 –
Section 4 allows for an immediate effective date.

Energy Savings Performance Contracting Summary
Prepared by DOT/PF

- Under an Energy Savings Performance Contract (ESPC), an Energy Savings Contractor (ESCO) is selected through a competitive Request for Proposal process to complete an energy audit, recommend, design and implement Energy Conservation Measures (ECM's), and guarantee energy savings.

- The contractor will first complete an investment grade energy audit that identifies conservation measures, along with their payback periods, and present it to the facilities owner or manager. The manager will select a set of conservation measures that meets their desired financial goals, and will negotiate the implementation cost with the ESCO.

- When selecting the ECM's to be implemented, it is critical to avoid "cherry picking" quick payback measures, such as lighting upgrades, and ignoring longer payback items such as heating and ventilation system upgrades. Since lighting upgrades are typically the quickest payback for an ECM, they can help to offset the cost of a longer payback ECM, such as a boiler upgrade, when accomplished under an ESPC.

- Example: Lighting Upgrade will pay back in 3 years. Boiler Upgrade will pay back in 12 years. Combined the payback will be 7 years. It is also common for an owner to package several buildings together under one agreement to leverage savings in one facility towards another, providing that the buildings have the same funding source. This allows for a greater amount of work to be accomplished.

- Capital funding can be used to fund the entire contract; however, more typically, financing is obtained from either the ESCO or third party financing. The amount financed, plus the interest charges, are paid back over time from the dollar savings that are realized from the reduction in energy consumption. The financing period may range from 8 to 25 years, depending upon the ECM's chosen and the owner's financial requirements (our contract with Siemens utilized third party financing with a payback ranging from 12 to 15 years).

- A combination of capital funding – such as the ARRA energy funds – and financing may be chosen to fund the project. Arizona is leveraging $10 million in ARRA energy funds with about $40 million in private financing to accomplish $50 million in energy efficiency projects in state facilities. This approach will also work for Alaska. Under any of these scenarios, a limited amount of capital or operating funding is required to pay personnel cost to implement the contract.

- The ESCO guarantees that the ECM's will reduce the energy consumption in the facility. If the energy savings are less than what the ESCO guarantees, the ESCO will monetize the difference in guaranteed versus actual savings and will reimburse the owner this amount. Example: ESCO guarantees a savings of 30,000 Btu's, but only 25,000 Btu's are saved, the ESCO will write a check for the cost of the missing

5,000 Btu's. Under some performance contracts, if the energy savings are greater than that which the ESCO guaranteed, the owner is required to share the monetized cost of the excess savings with the ESCO. Our contract with Siemens did not have this language, i.e. excess savings belong to the State.

- The U.S. Department of Energy guidance regarding the ARRA energy funds specifically encourages the use of these funds for energy performance contracting, as a method of leveraging and extending the life of the funds.

This bill will set up an energy efficiency revolving loan fund and authorize AHFC to sell up to $250 million in bonds to fund the program.

Costs associated with the issuance of these bonds are anticipated to be covered with annual operating budget authorizations. Operational costs for issuing and monitoring these bonds will be done with existing personnel and within the authorized operating budget for FY11 and beyond.

January 15, 2010

The Honorable Mike Chenault
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Chenault,

Under the authority of Art. III, Sec. 18, of the Alaska Constitution, I am transmitting a bill that will create a merit-based scholarship program for Alaska high school students who pursue higher education in Alaska.

This legislation, referred to as the Governor's Performance Scholarship (GPS), is patterned after successful scholarship programs in 22 other states. The GPS will improve high school graduation rates, prepare students for college or job training, provide Alaskan students with affordable opportunities for higher education, sustain Alaska's economy with a capable workforce, and retain equipped, hardworking Alaskan students.

This bill provides four tiers of scholarship payment for qualified high school graduates. Three of these tiers would be designated for academic scholarships, and the fourth for career and technical school scholarships.

The key feature of the scholarship program is that it is merit-based. All students who participate will be required to complete a more rigorous high school curriculum consisting of four years of language arts, mathematics, and science, and three years of social studies. Students will also be evaluated according to standards established for their grade-point averages and scores on college entrance or work-ready examinations.

The program will provide an incentive for students to challenge themselves in high school and to graduate. It also provides an impetus for schools to enhance curriculum. Studies have shown that students who take a rigorous curriculum in high school are more likely to do well in college and job training programs. Thus, the scholarship recipients will be more likely to achieve their certification or degree.

Students who achieve the highest attainable grade point average and examination scores will be awarded the highest tier of the academic scholarship for an Alaska-based college or university. This tier will equal the full cost of tuition at an Alaskan university for the 2010-2011 school year. The second and third tiers of the academic scholarship will be 75 and 50 percent the amount of

respective tuition. Students will be eligible for the academic scholarship for a maximum of eight semesters. Students who qualify for a career or technical school scholarship will receive an award of full fees for training, the maximum at $3,000 per year. The career and technical scholarship may be used by a student for up to two years.

The GPS will only be accessible to Alaska residents. However, this bill will allow that Alaskan military members and their families will not lose eligibility on account of their service.

The bill will require that money from these scholarships will only be spent at qualified Alaska post-secondary institutions or training programs. Students educated in the state are more likely to remain in the state. This provision encourages our best and brightest young people to remain in the state and prepare qualified Alaskan workers for Alaskan jobs.

The GPS program contains a "use it or lose it" provision: students will have a six-year window to apply the scholarship to a postsecondary institution. This protects the State of Alaska from an extended liability. As previously stated, the bill will provide extensions for Alaskans who serve in the military.

The GPS will be administered by the Alaska Department of Education and Early Development, the Department of Labor and Workforce Development, and the Alaska Commission on Postsecondary Education. Regulations will be adopted to govern the program, grade-point average standard, eligibility criteria and an appeals process to consider extraordinary circumstances. The Alaska Commission on Postsecondary Education will adopt regulations for streamlined application, award, and continuing eligibility standards.

Also, this bill will establish a fund whose earnings could be used to pay for scholarships. The proposed fund is based on other funds established in statute, such as the Alaska Veterans' Memorial endowment fund, and will be managed by the Department of Revenue. Nothing in this bill will establish a dedicated fund.

The GPS is modeled after the famous "Taylor plan," established by private businessman, Patrick Taylor, to keep students in school and motivate them to pursue successful postsecondary education. Currently, twenty-two states have "Taylor like" state-sponsored plans.

I urge your prompt and favorable action on this bill.

Sincerely,

Sean Parnell
Governor

March 3, 2010

The Honorable Paul Seaton
Chair, Education Committee
Alaska House of Representatives
State Capitol, Room 102
Juneau, Alaska 99801

Subject: CSHB 297 (ED) - An Act establishing the governor's performance scholarship...

Dear Representative Seaton:

At the February 26, 2010 committee meeting you asked that I provide information regarding potential programmatic impacts of a specific amendment to HB297. The amendment in question was to modify the provision within the bill that would require a student who is erroneously awarded a scholarship to return the erroneous amount. The amendment added the provision that the recipient would not have to refund the erroneous amount unless the error was "any fault of the student."

When asked to comment I did express my concern about the provision because it would prevent the Commission from recovering inappropriately disbursed state funds unless the student had engaged in some form of misconduct that contributed to the erroneous award. While I certainly understand the intention of the committee in adopting this change, it does establish an unusual student aid program provision. In general, student financial aid programs are operated with the understanding that should an error occur that results in an aid recipient receiving more funds than is received by any other similarly situated student, the aid recipient is expected to return the amount of the over award.

Members were interested in quantifying the frequency of such occurrences, and, although I did contact Director of Financial Aid Barbara Burnett at UAS, it does not appear that related statistics are available. Ms. Burnett and I did discuss the implications of the provision and she shared the following advice:

> *There are some scholarship/grant programs that say any aid awarded cannot exceed the cost of attendance (or the cost of tuition and/or some other budget item) - if the student got some of this money in addition to the GPS, then the other aid might have to be reduced if the total awards were greater than the cost of attendance. The Pell grant is an entitlement, as is the UA Scholars - the student would get those no matter how much other aid s/he was awarded... Need-based aid such as the SEOG would be reduced if the student got other aid in excess of*

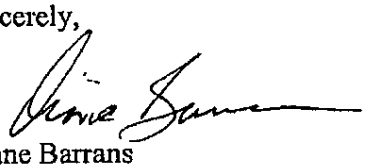
printed on recycled paper

the cost of attendance... The University's need based grant is awarded using equity packaging rules - the student does not get it if they have other grants and scholarships in excess of the equity level we are using - receipt of the GPS could likely reduce or eliminate the student's eligibility for this grant. If the student got only entitlements and other non-restrictive scholarships, then s/he could get the excess funds for personal use.

Based on this additional information, I must maintain my concerns regarding the unintended consequences of the referenced amendment. There are outcomes that I fear would be detrimental to the program. One is that, because we expect to package GPS awards fairly early in the financial aid award process, prior to distribution of other non-loan aid, we would lose the ability for financial aid officials at the institution to distribute subsequently received aid because it would result in an over award situation. In short, GPS would be supplanting rather than supplementing otherwise available financial aid. Another is that it appears to preclude Commission staff from recovering funds erroneously disbursed, regardless of the amount and regardless of the error, unless it was the student's fault.

I hope this information is helpful. Do not hesitate to contact me if there is other information I can provide.

Sincerely,



Diane Barrans
Executive Director

ANALYSIS: *(Attach a separate page if necessary)*

The contractual funds noted above represent the cost of implementation and year one support for scholarship management software.

Assumptions:

1) Baseline count of high school graduates (8,008) based on 2009 data.

2) Referenced utilization rate of 28.8% for similarly structured program in WY. While Alaska has lower college-going rates historically than WY, in recent years we have had a higher percentage of students who do continue on attend in Alaska.

3) Maximum GPS award at highest performance level is based upon the University of Alaska tuition for the 2010-11 school year ($4,755).

FISCAL NOTE #6

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. CSHB 297(EDC)

ANALYSIS CONTINUATION

4) Per student GPS merit award amount is an average of all award levels.
5) Scholar attrition rate is 25% per year based upon UA five-year graduation rate data.
Participation numbers are assumed to be: Year 1=2,305; Year 2=4,034; Year 3=5,187; Year 4=5,763

In 2009, Alaska had 8,008 high school graduates
In Wyoming, approximately 28.8% of graduates utilize the merit scholarship program.
At the same utilization rate, an estimated 2,305 AK high school grads will earn a scholarship.

Scenario #1 is an estimate for the highest award level
2,305 X $4,755/year = $10,960,275

Scenario #2 is an estimate at the lowest award level
2,305 X 2,378/year = $5,481,290

For this analysis, an averaged award level has been used.

According to Education Trust, the average graduation rate after 5 years for UAF is 25% and UAA is 16.5%.
The four-year graduation rate is significantly lower.

Cohort: 2,305 students per year

	Participation rates	Number of Students	Average Scholarship	Est. annual cost	Year 1 Estimated Cost	Year 2 Estimated Cost	Year 3 Estimated Cost
Year 1	100%	2,305	$3,567	$ 8,221,935	$8,221.9		
Year 2	75%	1,729	$3,567	$ 6,167,343		$14,389.3	
Year 3	50%	1,153	$3,567	$ 4,112.751			$18,502.0
Year 4	25%	576	$3,567	$ 2,054,592			
Est. merit-based cost (full implementation)		5,763		$20,556,621			

Unmet need costs based on cohort: 2,305 students per year

	Participation rates	Number of Students	Average Need	Est. annual cost	Year 1 Estimated Cost	Year 2 Estimated Cost	Year 3 Estimated Cost
Year 1	100%	2,305	$2,715	$ 6,258,075	$6,258.0		
Year 2	75%	1,729	$2,878	$ 4,976,062		$11,234.1	
Year 3	50%	1,153	$3,050	$ 3,516,650			$14,750.8
Year 4	25%	576	$3,233	$ 1,862,208			
Est. needs-based cost (full implementation)		5,763		$16,612,955			

Assumes average Expected Family Contribution of $7,500 + $2,000 required student contribution. This EFC amount relates to an average household income of approximately $65,000.
The cost of attendance used to estimate average need incorporates an annual growth factor of 6% in standard UA costs of attendance.

ANALYSIS: *(Attach a separate page if necessary)*

The bill provides for a separate fund to be established in the amount of $400 million to be managed by the Commissioner of Revenue. It is anticipated the fund will be managed with asset allocation of 60% fixed income and 40% domestic equity in order to yield a real annual rate of return of 5%. These costs include investment management fees, audit, accounting and custody fees and are projected based on the assumptions provided by the division's investment advisor and the division's cost allocation plan.

The operating budget appropriation bill funding language was removed so it is included in this fiscal note as a "capital expenditure" to capitalize the Governor's Performance Scholoarship program when the the scholarship program passes and the fiscal note approved is by the legislature.

Responses to Questions from (H) EDC Members from 2/12/2010 Hearing
Submitted by EED

1. **Rep. Seaton indicated that he would like additional information regarding home schooled students.**

Response:

- Home school students who are not affiliated with a state sponsored program must:
  a. Meet all Alaska graduation credit requirements
  b. Successfully complete the GPS curriculum requirements
  c. Achieve the GPS eligibility score on the ACT/SAT
  d. Achieve the GPS GPA eligibility score.

- Home School students affiliated with a district sponsored distance program must:
  a. Meet all graduation requirements for the State of Alaska and the sponsoring district
  b. Successfully complete the GPS curriculum requirements
  c. Achieve the GPS eligibility score on the ACT/SAT
  d. Achieve the GPS GPA eligibility score.

- Homes school students must meet the same criteria used for high school students.

- All transcripts should include 9th to 12th grade courses, and the time frame of each course (academic year and semester). In addition, an assessment of performance (letter grade, percentage, standards rubric, etc.) is required.

- Home schooled graduates must meet and apply for the award and enroll at an eligible college prior to age 19.

- The Department of Education and Early Development will act as the certification office for non-affiliated home school students.

2. **REPRESENTATIVE MUNOZ requested an analysis of the scoring matrix for SAT/ACT and how they compare to requirements of schools across the nation. She indicated that the samples indicated appeared high. What type of score is a competitive school in the Lower 48 in terms of average admission?**

Response:

About 1.48 million of the 3.3 million members of the high school class of 2009 took the ACT, typically in their junior year.

Scoring matrix for SAT/ACT and how they compare to requirements of schools across the nation.
The ACT® test assesses high school students' general educational development and their ability to complete college-level work.

- The multiple-choice tests cover four skill areas: English, mathematics, reading, and science.
- The Writing Test, which is optional, measures skill in planning and writing a short essay.
- To develop the test, ACT incorporates the objectives for instruction for middle and high schools throughout the United States, reviews approved textbooks for subjects taught in Grades 7–12, and surveys educators on which knowledge skills are relevant to success in postsecondary education. ACT publishes a technical manual that summarizes studies conducted of its validity in predicting freshman GPA, equating different high school GPAs, and measuring educational achievement.[8]
- Colleges use the ACT and the SAT Reasoning Test because there are substantial differences in funding, curricula, grading, and difficulty among U.S. secondary schools due to American, local control, and the prevalence of private, distance, home schooled students and, most importantly, lack of rigorous college entrance examination system like those used in other countries. ACT/SAT scores are used to supplement the secondary school record and help admission officers put local data—such as course work, grades, and class rank—in a national perspective.
- Most colleges use ACT scores as only one factor in their admission process.

ACT has identified the minimum score needed on each ACT test to indicate a **50% chance of obtaining a B** or higher or about a **75% chance of obtaining a C** or higher in the corresponding first-year college course.

Alaska SAT/ACT Scores

SAT / ACT scores are **not required** for **associate or certificate** admission at any UA campus.
SAT/ACT are **not required** for admission to UAA and UAS for baccalaureate admission.
UAF uses a more competitive admission standard for their baccalaureate programs. At UAF, ACT or SAT scores can be used in lieu of minimum HS GPA.

At UAF:

- 72% of students, who submit ACT scores, possess composite scores of 18 (or higher).
- 85% of students, who submit SAT scores, possess composite scores of 400 or higher. The average GPA for entering freshman at UAF is 3.15.

SAT scores for Alaska: for the year 2009 (includes graduating seniors in the class of 2009): 3589 Alaskan high school students took and received scores on the SAT. The average scores were:

- Critical Reading: 520
- Math: 516
- Writing: 492

For the same year for all test takers: over 1.5 million test takers. The average scores were:

- Critical Reading: 501
- Math: 515
- Writing: 493

Alaska

University of Alaska, Fairbanks Admissions Requirements

Baccalaureate Degree

- Must have a high school diploma, **AND**
- Pass the 16-credit high school core curriculum with a GPA of at least 2.5, **AND**
- Submit results of the ACT Plus Writing (preferred) or SAT exam taken within the last two years, **AND**
  Have a high school GPA of at least 3.0, **OR**
  Have a high school GPA of at least 2.5 and ACT Plus Writing score of at least 18 or SAT score of at least 1290 (including writing skills section).
- Freshman and transfer applicants with fewer than 30 semester credit hours must submit the results of either the ACT Plus Writing (preferred) or the SAT examination. Test results must be less than two years old. These test scores are used to help place the student in English, mathematics and other first-year courses.

Certificate or Associate Degree

- Must have a high school diploma, or GED
- Students with fewer than 30 transferable semester hours, who will take English or mathematics course work must submit results of the ACCUPLACER test. Alternatively, SAT or ACT Plus Writing test results are accepted.

Ability-to-Benefit (Accuplacer question)

Degree-seeking individuals 18 years or older who have not earned a high school diploma or GED must take the ATB Test, in order to demonstrate that they have the ability to benefit from a college education. To demonstrate this ability, the individual must achieve the following federally determined Accuplacer scores:

- **Arithmetic:** 34
- **Reading Comprehension:** 55
- **Sentence Skills:** 60

If individual has already completed 60 college credits, the ATB test is not necessary. Individuals taking the ATB test on Accuplacer are permitted to retake the entire test after a 14-day waiting period. The ATB provision does not allow candidates to retake only a portion of the test: all three parts of Accuplacer must be completed in one sitting. It is very important to inform the test proctor if you are testing under Ability-to-Benefit, to insure you will be administered the correct tests. The regular Accuplacer test cannot be used to validate Ability-to-Benefit.

3. **Rep. Seaton asked how will the residency requirements of the GPS interact with the university, private university or certificated programs in Alaska, i.e. AVTEC and resident programs?**

Response:

- The GPS statute draft provides minimal guidance. Residency requirements will be defined by regulation.

- In addition to specific GPS eligibility requirements, a student must demonstrate Alaska residency, which is determined by the post-secondary institution.

- A student whose custodial parent or legal guardian is an Alaska resident at the time the student graduates from high school or is in active military service and maintains Alaska as their domicile state is considered an Alaska resident.

- This is an important point with regard to tuition. If the university considers a student a non-resident, they will charge higher tuition.

Alaska Residency for Tuition Purposes at UA

Students who qualify for resident status should file an application for residency for the term they plan to attend, with required documentation at the appropriate university office prior to the published end of the add/drop period for regular semester-length courses.

The following is a summary of the Board of Regents policy to determine whether you are eligible for resident tuition. Students eligible for Alaska resident tuition must be United States citizens or eligible non-citizens and include those who:

- Received or have been qualified to receive an Alaska Permanent Fund Dividend within the last 12 months.
- Have graduated in the last 12 months from a qualified Alaska high school.
- Have been physically present in Alaska for the past two years.
- Are active-duty military personnel or members of the National Guard, or their spouses or dependent children.
- Are students from foreign cities and provinces that have established sister city or sister province relationships with the state of Alaska or Alaska municipalities, and have been approved by the president.
- Are participants in the UA Scholars program.
- Are participants in the University of Alaska College Savings Plan program who meet eligibility criteria as established by the Education Trust of Alaska.
- Are dependent children of a person who holds an associate, baccalaureate, or graduate degree from the University of Alaska.

- Are dependent children of an Alaska resident, as evidenced by the most current federal income tax return filed within the past 16 months.
- Are participating in the Western Interstate Commission on Higher Education (WICHE) or Western Regional Graduate Program (WRGP).
- Are enrolled in four or fewer credit hours within the UA system.

4. **REPRESENTATIVE GARDNER offered the question of the military families.**

- A student whose custodial parent or legal guardian is an Alaska resident at the time the student graduates from high school or is in active military service and maintains Alaska as their domicile state is considered an Alaska resident.

5. **CHAIR SEATON asked about the criteria for losing eligibility.**

Response:

A student will lose edibility if the student:

- does not take advantage of the scholarship within the six year limit following graduation from high school. Military service may extend this timeline;
- completes eight semesters of eligibility;
- does not maintain a grade-point average of 2.5 at a qualified postsecondary institution;
- does not meet other minimum qualifications to apply or continue to be eligible for a governor's scholarship;
    - ✓ has not complied with the military selective service registration requirements imposed under 50 U.S.C. App. 453 (Military Selective Service Act), if those requirements apply to the student;
    - ✓ is currently in default or owes a refund on a federal financial aid loan under the federal guaranteed student loan program or financial aid awarded under this chapter; or
    - ✓ has been convicted of a felony in the state or another jurisdiction and has not qualified for a waiv3er under standards adopted by the department.
- does not maintain Satisfactory Academic Progress (SAP) -- 12 credits every regular semester (fall and spring). Students who are on a part-time schedule (4-11) are not required to maintain SAP.

Students may regain eligibility following the completion of one full-time semester that meets the eligibility requirement.

6. **CHAIR SEATON requested a more detailed explanation of the role of GED's .**

- The GPS does not include a pathway for a G.E.D.
- The language of 14.43.820 addresses the requirement for home school students to meet both the curricular requirements necessary to achieve a diploma and the rigorous curriculum demands of the GPS. It is not a pathway for a G.E.D.
- Some states have a GED pathway to a scholarship. The points on a G.E.D. are used to qualify a student's attendance.

Hathaway GED Criteria

A student who attended a Wyoming high school, did not graduate, took the GED, and whose class has graduated, may qualify for a Hathaway Scholarship. Below are ACT and GED score requirements for Hathaway Scholarships. Students below a 550 GED do not qualify for UW admission.

Opportunity	Minimum GED of 500, and minimum ACT of 19
Performance	Minimum GED of 540, and minimum ACT of 21
Honors	Minimum GED of 575, and minimum ACT of 25

Information on Taking the GED in Alaska

The GED (General Educational Development) test in Alaska is a 5-part national exam for the high school equivalency; the five GED tests cover reading, writing, science, social studies and mathematics, and are taken individually. The GED test may be taken by any adult over 18 who is not currently enrolled in a high school diploma program; persons 16 to 18 years old must have written documentation that they have withdrawn from school, such as a transcript or withdrawal slip, and legal emancipation documentation or a parent or guardian's signature before GED testing is allowed. Two retests, per test purchased, are available for each of the five sections; there are no limits to how many times a person can retake the test. Your total score on the GED in Alaska must be at least 2,250 points and no one test can have a lower score than 410. The GED test is submitted to the Alaska Department of Labor and Workforce Development, where the score is computed. All GED applicants must reside in the state of Alaska at the time of their GED testing application; tests must also be taken at an official GED testing center in Alaska. Testing sites for the GED in Alaska include, but are not limited to, Anchorage, Nome, Kenai Peninsula, Homer, Palmer, Juneau, Sitka, Fairbanks, Dillingham, Soldotna and Kodiak.

**UA Associate Vice President, Saichi Oba will follow up with the committee on G.E.D.'s administered by the outlying UA campuses.

7. **Representatives Munoz and Wilson would like more information on the disparity between the cost of attending UA and technical schools. Why is the GPS set at $3,000 per year for the CTE?**

Response:
The CTE scholarship is an average. It could be increased to include room and board costs.

Estimated 2009-2010 UAF Annual Costs

FRESHMEN and SOPHOMORES	Alaska Resident	Non-Resident	WUE**
Tuition and Fees* *(30 credits, 100-200-level classes)*	$5,138	$15,218	$7,298
Room and Board *(double room & 19 meals/week on campus)*	$6,802	$6,802	$6,802
ANNUAL TOTAL	$11,940	$22,020	$14,100

JUNIORS and SENIORS	Alaska Resident	Non-Resident	WUE**
Tuition and Fees* *(30 credits, 300-400-level classes)*	$5,678	$15,788	$8,108
Room and Board *(double room & 19 meals/week on campus)*	$6,802	$6,802	$6,802
ANNUAL TOTAL	$12,480	$22,590	$14,910

GRADUATE STUDENTS	Alaska Resident	Non-Resident
Tuition and Fees* *(18 credits, 600-level classes)*	$6,536	$12,602
Room and Board *(double room & 19 meals/week on campus)*	$6,802	$6,802
ANNUAL TOTAL	$13,338	$19,404

ALL STUDENTS	Living Off Campus	Living On Campus
Books/Supplies	$1,300	$1,300
Miscellaneous/Personal	$2,070	$2,070
Transportation	$1,800	$432

** Includes Wood Center student life, student government, technology, transportation, UA network, athletics, Student Recreation Center and health center fees. Does not include health insurance, books, supplies, travel, parking, miscellaneous expenses or special costs associated with international or exchange students. Costs are subject to change.*

*** Western Undergraduate Exchange*

AVTEC Training Dates

Alaska Culinary Academy

- **Professional Cooking & Baking**, 210 training days
  Offered 01/05/10 to 12/16/10, 08/16/10 to 06/30/11

Alaska Maritime Training Center Courses

- **Marine License Preparation - Master Mate**, 45 training days
  TBA
- **Qualified Member of the Engine Department (QMED) Oiler**, 60 training days
  Offered 09/07/10 to 12/02/10
- See all AVTEC Maritime training dates and costs
  (Complete class listing)

Allied Health Department - Anchorage Training Facility

- **Certified Nurse Assistant (CNA)**, 38 training days
  Offered 01/04/10 to 02/26/10, 02/03/10 to 03/30/10, 03/08/10 to 04/28/10,
  04/05/10 to 05/27/10, 05/05/10 to 06/29/10, 06/07/10 to 08/03/10, 07/12/10 to 09/01/10
- **Licensed Practical Nurse (LPN)**, 176 training days
  Offered 01/04/10 to 11/18/10, 08/16/10 to 07/01/11

Applied Technologies Department

- **Automotive Technology**, 197 training days
  Offered 01/05/10 to 12/17/10, 08/16/10 to 06/09/11
- **Combination Welding**, 172 training days
  Offered 01/25/10 to 12/17/10, 08/16/10 to 05/04/11
- **Diesel/Heavy Equipment Technologies**, 197 training days
  Offered 01/05/10 to 12/17/10, 08/16/10 to 06/09/11
- **Industrial Electricity**, 197 training days
  Offered 08/16/10 to 6/09/11
- **Pipe Welding**, 75 training days
  Offered 01/19/10 to 05/05/10, 09/01/10 to 12/17/10
- **Power Plant Operation**, 40 training days
  Offered 01/11/10 to 03/05/10, 03/17/10 to 05/11/10
- **Structural Welding**, 97 training days
  Offered 01/25/10 to 06/11/10, 08/16/10 to 01/17/11

Information Technology Department

- **Business & Office Technology**, 183 training days
  Offered 01/05/10 to 12/17/10, 08/16/10 to 05/19/11
- **Information Technology**, 188 training days
  Offered 08/16/10 to 05/26/11
- **Web Development Technology**, 188 training days
  Offered 08/16/10 to 07/12/11

Building Trades Technology

- **Facility Maintenance Construction Trades**, 188 training days
  Offered 08/16/10 to 05/26/11
- **Plumbing & Heating**, 102 training days
  Offered 01/05/10 to 05/28/10

AVTEC Training Cost * Costs Effective July 1, 2009

8. **Rep. Seaton would like to know what the definition of a part-time student is.**

Response:

- Part-time students carry between 6 and 11 credits during a semester. Full-time students carry 12 or more credits per semester.
- Students who attend part-time use up a semester of eligibility.
- Students who attend during a summer session use up a semester of eligibility.

9. **Special Education and the GPS**

Response:

AS 14.30.180 Purpose. It is the purpose of AS14.30.180 - 14.30.350 to provide an appropriate public education for each child with a disability in the state who is at least three years of age but less than 22 years of age; (2) allow procedures and actions necessary to comply with the requirements of federal law, including 20 U.S.C. 1400 – 1487 (Individuals with Disabilities Education Act.)

10. **Representatives Edgmon and Buch asked about the Alternative Pathways: How will decisions be made pursuant to Section 14.43.830?**

Response:

The Commissioner will develop in conjunction with the State Board of Education, a process to consider requests for a make-up procedure or alternative pathway for students who are not eligible for a scholarship to make up a deficit by alternative means if the deficit was caused by circumstances that would make it unfair not to allow the student to make up the deficit.

Regulations adopted by the State Board of Education require an opportunity for public hearing, comment and public discussion.

11. Rep. Seaton asked if a student is able to graduate from a high school out of state and then enroll in an Alaska high school in an effort to gain eligibility of the GPS; essentially graduating from high school twice?

Response:

Practice in Alaska is to request the student's transcripts from the sending school. This practice allows the receiving Alaska high school to verify whether or not the student has in fact already graduated from an out of state high school.

The purpose of this document is to provide a quick glance at the 22 scholarship programs cited by the Taylor Foundation. Ever since Governor Parnell proposed the Governor's Performance Scholarship (GPS) people make references to 22 similar state programs. The GPS is a merit-only program, and the argument for this tends to cite the successes of these 22 other programs. Here I will show some additional information behind this number, primarily looking at the needs-based components within these programs.

To produce this list I researched the programs and states listed on the Taylor Foundation website labeled as "Taylor Plan States." The eligibility requirements listed are the most relevant to the scholarship discussions in the State of Alaska.

- 12 of the State programs cited by the Taylor Foundation have some sort of needs-based component (Arkansas, California, Indiana, Maryland, Mississippi, New Mexico, North Carolina, Oklahoma, Tennessee, Texas, Virginia, and Wyoming).
    - Of these 12, all but Wyoming have demonstrable financial need as an eligibility requirement. Wyoming's need component kicks in when remaining unmet need exists.
- Rhode Island's program is actually a private non-profit. The non-profit's focus is on low-income families
- Information on Alabama is incomplete, and of the State scholarship programs listed, only 2 are general scholarships (one of which is needs-based, the other has no clear merit requirements).

To demonstrate financial need many programs have family income ceilings or require the FAFSA. Those with notable income ceilings are: Indiana, Maryland, Mississippi, New Mexico, Oklahoma, and Tennessee.

For more information contact Ryan Buchholdt
rbuchholdt@gmail.com
(907) 317-2980

This document was created by Ryan Buchholdt as part of his Civic Engagement capstone at the University of Alaska Anchorage. Ryan is a member of UAA's Student Government and has been working on financial aid legislation for the past 2 years (SB33/HB94 – the Alaska Achieves Incentive Program).

Alabama: The Taylor Foundation lists: "Passed by the Legislature, not yet funded – 2003"
Unclear what program is being referenced. Most State financial aid programs in Alabama are specific, aside from 2 financial assistance grants: Alabama Student Assistance Program (needs-based, $300-$2,500 / year) and the Alabama Student Grant Program (up to $1,200 / year).

There are 2 programs under construction, but both are college savings plans.

http://www.ache.state.al.us/StudentAsst/Programs.htm

Arkansas: Academic Challenge Scholarship
Key requirements:

- demonstrate financial need
- ACT of at least 15
- 4 units of English (emphasis on writing), 3 units of Natural Sciences (1 of Biology, 1 of Chemistry or Physics, 1 of any natural science), 4 units of Math (Algebra I and II, Geometry, and 1 advanced math course), 3 units of Social Studies (1 of American History, 1 of World History, ½ of Civics or Government), 2 units of a Foreign Language.

Award of up to $3,500 annually.

http://acs.adhe.edu/aidprograms.html
http://acs.adhe.edu/pdfs/fa/acs_core_aug_2006.pdf

California: The Cal Grant Program
Key eligibility requirements: have demonstrated financial need, have family income and assets below ceilings, minimum GPA.

- GED applicable
- Includes a level for vocational education
- Grants are primarily entitlements based on FAFSA
- If denied the entitlement, competitiveness grants can be given based on GPA and financial need

http://www.calgrants.org/index.cfm?navId=10

Florida: Bright Futures Scholarship Program
3 levels:
1) Academic Scholars Award

- 3.5 GPA
- 4 units of English (3 with substantial writing), 3 units of Math (Algebra I and above), 3 units of Natural Sciences (2 with substantial lab), 3 units of Social Sciences, 2 units of a Foreign Language.
- 75 hours of approved community service
- Scored 1270 on SAT or 28 on ACT (both excluding the writing sections)

2) Medallion Scholars Award

- 3.0 GPA
- 4 units of English (3 with substantial writing), 3 units of Math (Algebra I and above), 3 units of Natural Sciences (2 with substantial lab), 3 units of Social Sciences, 2 units of a Foreign Language.

- No community service requirement
- Scored 970 on SAT or 20 on ACT (both excluding the writing sections)

3) Gold Seal Vocational Scholars Award
- 3.0 weighted GPA w/ a 4-year diploma and a 3.5 unweighted GPA in a minimum of three vocational credits in one vocational program
- 4 units of English, 3 units of Math (including Algebra I), 3 units of Natural Sciences, 3 units of Social Sciences, 1 unit of Practical Arts, ½ in Life Management Skills, ½ in Personal Fitness, ½ in Physical Education, 2 units of a Foreign Language. Plus a minimum of three Vocational Job-Preparatory or Technology Education Program credits in one vocational program.

http://www.floridastudentfinancialaid.org/ssfad/bf/acadrequire.htm

Georgia: Helping Outstanding Pupils Educationally (HOPE)
Eligibility: must meet one:
- 3.0 College Preparatory Diploma or 3.2 other diploma type
- Eligible home school program with 3.0 GPA
- Score in 85th percentile for ACT or SAT
- 3.0 in 30 semester hours or 45 quarterly hours of college degree-level courses.

The award for public institution covers tuition, HOPE-approved fees, book allowance ($100 / quarter or $150 / semester).

http://www.gacollege411.org/Financial_Aid_Planning/HOPE_Program/Georgia_s_HOPE_Scholarship_Program_Overview.aspx

Indiana: Twenty-first Century Scholars Program
Stated goal: "The Twenty-first Century Scholars Program began in 1990 as Indiana's way of raising the educational aspirations of low and moderate-income families. The program aims to ensure that all Indiana families can afford a college education for their children."

Eligibility requirements:
- meet applicable family income ceilings (http://www.in.gov/ssaci/2380.htm)
- Make a commitment to the Scholars Pledge (*will graduate high school, will get at least a 2.0 GPA, will not use drugs or commit a crime, will apply to eligible Indiana university, with apply on time for financial aid*) (http://www.in.gov/ssaci/2374.htm)

Award: the cost of 4 years of undergraduate tuition at public institutions.

http://www.in.gov/ssaci/2345.htm

Kentucky: Kentucky Education Excellence Scholarship (KEES)
Eligibility:
- 2.5 GPA in any year of High School
- 4 units of Language Arts, 3 units of Math, 3 units of Science, 3 units of Social Sciences, ½ unit of Health, ½ unit of Physical Education, 1 unit of Art Appreciation, 7 units of Electives (from the listed subjects, more rigorous than the minimum courses required for graduation)

Additionally there is a bonus award for students who received a score of 15 on ACT or 710 on SAT (critical reading and math).

Award: annual scholarship amount varies by high school GPA and ACT score (for bonus only). A 3.00 GPA gives $250 / year of college.

http://www.kheaa.org/website/kheaa/kees?main=1

Louisiana: Taylor Opportunity Program for Students (TOPS)
TOPS Core curriculum: (http://www.osfa.state.la.us/MainSitePDFs/Core_Curriculum_1.pdf)

- 4 units of English
- 3 units of Math
- 3 units of Science
- 1 additional unit of Math or Science
- 3 units of Social Studies
- 2 units of a Foreign Language
- 1 unit of Fine Arts
- ½ unit of Computer Science

There are 4 components:
1) TOPS Opportunity Award: 2.5 GPA and ACT of 20
2) TOPS Performance Award: 3.0 GPA and ACT of 23
3) TOPS Honors Award: 3.0 GPA and ACT of 27
4) TOPS Tech Award: 2.5 GPA, ACT of 17, and 17 Tech Core unit for Option 1, 19 for Option 2

Awards: based on TOPS level and University.

http://www.osfa.state.la.us/TOPS.htm
http://www.osfa.state.la.us/

Maryland: Educational Excellence Awards Program
2 components:
1) Guaranteed Access (GA) Grant
(http://www.mhec.state.md.us/financialAid/ProgramDescriptions/prog_ga.asp)

- 2.5 GPA in high school
- Must demonstrate financial need and family income must be under certain ceilings

Award: 100% of financial need, capped at $14,300

2) Educational Assistance (EA) Grant
(http://www.mhec.state.md.us/financialAid/ProgramDescriptions/prog_ea.asp)

- Must demonstrate financial need
- Applicants ranked by Estimated Family Contribution (EFC) as reported on the FAFSA

Award: 40% of need for 4-year institutions, 60% of need for community colleges, capped at $3,000.

Missouri: Academic Bright Flight Scholarship Program
Eligibility:

- ACT or SAT score in the top 3% of the state. For 2010 it was raised to 5%.

Award: $2,000 / year.
Starting in 2010-2011 Academic year the award will be divided between two levels determined by ACT or SAT score. ACT of 31 or above will receive $3,000 / year, while ACT of 30 will receive $1,000 / year

http://www.dhe.mo.gov/brightflight.shtml

Mississippi: Higher Education Legislative Plan for Needy Students (HELP)
"Created by the Mississippi Legislature this program is designed to provide tuition assistance to qualified students whose financial need, as demonstrated by federal student aid eligibility, will not be met with gift aid from other sources."

Eligiblity:

- 2.5 GPA
- Score of 20 on ACT
- 4 units of English, 3 units of Math (Algebra I and II, 1 unit of advanced math), 3 units of Science (1 of Biology, 1 of Chemistry, 1 other), 3 units of Social Studies (1 of American History, 1 of World History, 1 of Civics or Economics), 1 unit of Fine Arts, 2 units of a Foreign Language, ½ unit of Computer Science, 1 elective from above subjects.
- Family income must be under certain ceilings (http://www.mississippi.edu/pg2c/glomer/upload_repo/files/HELP_adj_gross_income.pdf)
- Demonstrate financial need via the FAFSA

Award: Tuition and required fees at a public institution, or if attending a private institution an award equal to the nearest comparable public institution.

http://www.mississippi.edu/riseupms/financialaid-step3-grants-loans.php?article_id=225
http://www.mississippi.edu/pg2c/glomer/upload_repo/files/HELP_core_reqs.pdf

Nevada: Millennium Scholarships
Eligibility:

- 3.25 GPA
- Must pass all areas of the Nevada High School Proficiency Exam
- 4 units of English, 4 units of Math (including Algebra II), 3 units of Natural Sciences, 3 units of Social Science and History

Award: based on per-credit basis. Within the Nevada System of Higher Education (NSHE) Scholars will receive $40 / lower division credit and $60 / upper division credit, capped at 12 credits / semester. Scholars attending eligible institutions outside of NSHE will receive $80 / credit.

https://nevadatreasurer.gov/documents/millennium/Doc-FactSheet.pdf

New Mexico: New Mexico Scholars Program
Eligiblity:

- 3.0 GPA in high school
- ACT score of 25 **OR** SAT of 1140 **OR** top 5% of graduating class

- Total combined family income cannot exceed $30,000 with one family member in college, $40,000 with two in college

Award: covers tuition, fees, and books

http://www.unm.edu/~schol/freshmen/nmscholars.html

North Carolina: Legislative College Opportunity Program
"The College Opportunity Program will recruit future students who might not otherwise finish high school or continue on to college. The program will provide financial and academic incentives that will encourage socially and economically disadvantaged students to do well in middle grades and high school and enroll in college following graduation. Improvement in academic performance, high school graduation rates, college going rates, and college graduation rates of under-performing students will be principal goals of the program."

Eligibility:
- "Be a first-generation college student and/or come from a family with an annual income that qualifies the family as disadvantaged based on federal guidelines"
- Maintain a B or better average throughout high school
- Maintain public school attendance of 95%
- Complete the PSAT and SAT or ACT
- Complete at least 15 hours of community service per year
- Remain drug free

Award: First year assistance that will cover tuition, fees, and books.

http://www.northcarolina.edu/policy/index.php?pg=vs&id=467

Oklahoma: Oklahoma Higher Learning Access Program or Oklahoma's Promise
Eligibility:
- 2.5 GPA
- Family income must be $50,000 or less
- 4 units of English, 3 units of Math, 3 units of Lab Sciences, 3 units of History and Citizenship, 2 units of a Foreign Language, 1 additional unit from listed subjects, and 1 unit of Fine Arts

Award: pays tuition at public institutions, and partial tuition at eligible private institutions.

http://www.okhighered.org/okpromise/student-requirements.shtml
http://www.okhighered.org/okpromise/required-courses.shtml

Rhode Island: Children's Crusade for Higher Education
Private, non-profit focused on "reducing school dropout rates and to increasing educational and career success for youth from low-income urban communities."

Eligibility:
- "Earn admission to an accredited college, university, junior college or trade school within one year of graduation or participate in a RI union apprenticeship or industry training program within one year of graduation"

- Full-time student
- Are low-income

Award: Varies by the kind of school and demonstrated need. Maximum scholarship is equal to the Federal Pell Grant ($4,310) or the school's tuition, whichever is lower.

www.childrenscrusade.org

South Carolina: Legislative Incentives for Future Excellence (LIFE) Scholarships
Eligibility: 2 of the 3 following:

- 3.0 High School GPA
- SAT score of 1100 **OR** ACT score of 24
- In top 30% of graduating class

Award: $5,000/year, with $4,700 for tuition and $300 for books.

http://www.clemson.edu/finaid/LIFEnew.htm

Tennessee: Education Lottery Scholarship Program (TELS)
There are a few components under this program:

Tennessee HOPE Scholarship: $4,000 for 4-year institutions or $2,000 for 2-year institutions
Eligibility:

- ACT of 21 **OR** SAT of 980
- High school GPA of 3.0

Tennessee HOPE Access Grant: $2,750 for 4-year institutions or $1,750 for 2-year institutions
Eligibility:

- ACT of 18-20 **OR** SAT of 860-970
- Family adjusted gross income $36,000 or less

General Assembly Merit Scholarship (GAMS) : $1,000 supplemental to HOPE Scholarship
Eligibility:

- ACT of 29 **OR** SAT of 1280
- High school GPA of 3.75

Aspire Award: $1,500 supplemental to HOPE Scholarship
Eligibility:

- Meeting HOPE Scholarship requirements
- Family adjusted gross income of $36,000 or less

Wilder-Naifeh Technical Skills Grant: $2,000
Eligibility:

- Available to all students enrolled at Tennessee Technology Center who are Tennessee residents 1 year prior to entrollment.

Virginia: Virginia Guaranteed Assistance Program
"The purpose of the Virginia Guaranteed Assistance Program (VGAP) is to provide an incentive to financially needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic performance and to consider higher education an achievable objective in their future. The law requires that the awards to undergraduates be proportional to need so that the students with the greatest need receive the largest awards."

Eligibility:

- Demonstrate financial need
- High school GPA of 2.5
- Be classified as a dependent for federal aid purposes

Awards: varies by institution, but neediest students will receive at least the cost of tuition.

Resolution of the State Board of Education & Early Development

The Governor's Performance Scholarship

Resolution 03-2010

WHEREAS, the proposed Governor's Performance Scholarship (GPS) invites Alaska's high school students to challenge themselves with a rigorous course of study;

WHEREAS, the GPS encourages high schools to offer four years of science and math courses as well as the currently required four years of language arts courses and three years of social studies courses;

WHEREAS, the GPS recognizes a variety of meritorious students by awarding technical and academic scholarships to students with grade point averages ranging from C+ to A;

WHEREAS, the GPS serves students in public schools, private schools and home schools;

WHEREAS, the GPS encourages parents and guardians to participate in planning their students' high school career;

WHEREAS, the GPS encourages students to complete high school and be better prepared to attend a postsecondary institution;

WHEREAS, the GPS helps Alaska's families afford postsecondary education;

WHEREAS, the GPS encourages students to receive their postsecondary education in Alaska;

WHEREAS, the GPS recognizes the value and variety of Alaska's private and public postsecondary education institutions;

WHEREAS, the GPS will help Alaska to train its own highly skilled work force;

THEREFORE, BE IT RESOLVED, the State Board of Education & Early Development strongly supports the proposed Governor's Performance Scholarship to meet the academic and financial needs of Alaska's youth.

Esther J. Cox, Chair
Alaska State Board of Education & Early Develop

UNIVERSITY OF ALASKA BOARD OF REGENTS

A Resolution in Support of the Governor's Performance Scholarship

WHEREAS, the State of Alaska does not provide enough need based or grant aid for students seeking postsecondary education compared to most other states; and

WHEREAS, the University of Alaska began the UA Scholars program in 1999, which has grown in usage over time and is funded entirely out of the university's Land Grant Trust Fund; and

WHEREAS, Governor Sean Parnell has proposed the Governor's Performance Scholarship, a grade- and curriculum based program that would provide financial assistance for students wishing to attend a postsecondary institution within the state of Alaska; and

WHEREAS, the University of Alaska Board of Regents has long supported all efforts to increase access to postsecondary education, workforce training and lifelong learning; and increased financial aid, both merit- and need-based, is critical for improving access to higher education for both rural and urban residents as well as current and future students; and

NOW THEREFORE BE IT RESOLVED that the University of Alaska Board of Regents supports Governor Sean Parnell's proposed Governor's Performance Scholarship; and

BE IT FURTHER RESOLVED that the University of Alaska Board of Regents urges additional support from the Alaska Legislature for both merit- and need-based programs that will be before the Alaska Legislature in the 2010 session; and

BE IT FURTHER RESOLVED that this resolution be appropriately engrossed and conveyed to the Honorable Governor Sean Parnell and Honorable members of the Alaska State Legislature, with a copy to be incorporated into the official minutes of the November 30-December 1, 2009 meeting of the University of Alaska Board of Regents.

GREATER FAIRBANKS CHAMBER OF COMMERCE

Interior Alaska – The "Place" To Do Business

Introduced By: Kurt Newman, Education Committee Chair
Date Introduced: January 4, 2010
Date Passed: January 11, 2010
Date Transmitted: January 12, 2010

RESOLUTION 10-0111
A RESOLUTION BY THE GREATER FAIRBANKS CHAMBER OF COMMERCE (GFCC) SUPPORTING THE GOVERNOR'S PERFORMANCE SCHOLARSHIP, A MERIT-BASED SCHOLARSHIP FOR ALASKA HIGH SCHOOL STUDENTS

WHEREAS, the Greater Fairbanks Chamber of Commerce recognizes the need to encourage our Alaska high school students to attain the necessary core education to enable them to go onto higher education or vocational training, and remain in the State as productive citizens and future leaders; and

WHEREAS, we should work to keep our best and brightest students in Alaska after college, to position Alaska's economy for growth with a better prepared workforce; and

WHEREAS, only half of Alaskan students who receive a high school diploma are academically prepared for post-secondary education (Greene and Winters 2005) and are ready for college-level reading assignments in the core study areas like math, history, science, and English (ACT, 2006); and

WHEREAS, a more rigorous high school curriculum will prepare Alaska's high school students for entrance into higher education or vocational education, including the recommended four years of math, four years of science, four years of language arts, and three years of social studies; and

WHEREAS, at graduation, students will receive scholarships based on academic achievement and their hard work. For example, at graduation from high school, an 'A' student with a 3.5 GPA or better would be eligible for a 100% tuition scholarship award; a 'B' student with a 3.0 GPA or higher would be eligible for a 75% tuition award, and a 'C' student with at least a 2.5 GPA would be eligible for a 50% tuition scholarship award; and

WHEREAS, the Governor's performance Scholarship could be used at the University of Alaska, at any certified, in-state job training institution and at other certified post-secondary institutions in Alaska; and

WHEREAS, by giving more Alaskan students the opportunity to earn a scholarship like this and requiring it to be used at an in-state institution, we are preparing our youth as the future workforce leaders for Alaska.

NOW THEREFORE BE IT RESOLVED, in recognizing the importance of affordable and accessible higher education, and the need to encourage our youth to stay in Alaska and to provide for future workforce and leadership roles, the Greater Fairbanks Chamber of Commerce supports the Alaska Governor's Performance Scholarship Initiative.

BE IT FURTHER RESOLVED that this resolution be distributed to:

STATE OF ALASKA

Department of Education & Early Development

Office of the Commissioner

SEAN PARNELL, GOVERNOR

Goldbelt Place
801 West 10th Street, Suite 200
P.O. Box 110500
Juneau, Alaska 99811-0500
Telephone: (907) 465-2800
Fax: (907) 465-4156

Dear Alaskans,

Alaska's high school graduation rate jumped 5 percentage points last year and we graduated 8,000 students, 1,000 more a year than in recent years. That's great news, and it's a tribute to the efforts of our families and educators. Those are 8,000 Alaskans who have pushed open the door to greater opportunities.

But many of our students still leave school without a diploma. That's why I'm excited that Gov. Parnell has sponsored legislation that provides families with an incentive to make high school a productive experience for students.

The Governor's Performance Scholarship says to our kids: Challenge yourself in high school, work hard, and you can earn a substantial scholarship that helps you fulfill *your* goals in life. We call it GPS because its course requirements help students navigate through high school and into their careers.

What I especially like about Gov. Parnell's program is that it creates both academic and career/technical scholarships. Alaska needs the talents of all of our youth. Our economy offers good jobs for a variety of skills. Let's fill those jobs ourselves.

I also like that the scholarships will be available for students with different levels of academic achievement. I was a school principal for decades, and I know that not every productive adult was an A student in high school. If you take tough courses, study hard and end up with a B or a C+ average, you also qualify for a Governor's Performance Scholarship. That's only right.

But it's not a giveaway program. Students who want to receive a Governor's Performance Scholarship must take four years of English, math and science, and three years of social studies. High school students who take a rigorous curriculum are more likely to do well in college.

You'll be hearing a lot about the Governor's Performance Scholarship this year as the Legislature considers the proposal. I hope you will review the bill and talk to your legislators about it. Please contact Information Officer Eric Fry at 465-2851 or eric.fry@alaska.gov if you have questions.

Sincerely,

Larry LeDoux
Commissioner

ANALYSIS: *(Attach a separate page if necessary)*

The bill provides for a separate fund to be established in the amount of $400 million to be managed by the Commissioner of Revenue. It is anticipated the fund will be managed with asset allocation of 60% fixed income and 40% domestic equity in order to yield a real annual rate of return of 5%. These costs include investment management fees, audit, accounting and custody fees and are projected based on the assumptions provided by the division's investment advisor and the division's cost allocation plan.

The operating budget appropriation bill funding language was removed so it is included in this fiscal note as a "capital expenditure" to capitalize the Governor's Performance Scholarship program when the the scholarship program passes.

March 23, 2010

The Honorable Bill Stolze
The Honorable Mike Hawker
Co-Chairs, Finance Committee
Alaska House of Representatives
State Capitol, Rooms 515, 505
Juneau, Alaska 99801

Subject: CSHB 297(EDC) - An Act establishing the governor's performance scholarship program...

Dear Representatives Stolze and Hawker:

During the committee's initial hearing on CSHB 297(EDC), members asked for additional information and clarification on relevant issues. The issues raised included:

- What does the current version of the bill provide for in terms of award amounts at various scholarship tiers when taking into consideration family income levels?
- Pursuant to Sec. 14.43.815. (Qualifications of applicants) (Page 7, Lines 17-18), which requires that a scholar "meets other minimum qualifications to apply or continue to be eligible for a governor's performance scholarship," what, if any, "academic grace period" will there be to mitigate negative grade impacts a scholar may experience as a student transitioning from a secondary to postsecondary educational setting?

In response to the first question, please find attached sample schedules which estimate the value of the scholarship awards at each of the three merit-based academic award tiers and at several levels of annual family income.

Relative to the second question, as Commissioner LeDoux testified, the bill does not contain any specific allowance for a drop in a scholar's grade performance upon entry into their postsecondary program of study. In fact, the bill does not contain a specific postsecondary performance standard. This is an area in which further program requirements will be set out in regulation. Pursuant to Section 4 of the legislation, both the Department of Education and Early Development and the Alaska Commission on

Postsecondary Education are authorized to set specific programmatic standards including to maintain eligibility and to regain eligibility once it is lost by a student. While regulations have yet to be drafted, one possible model would be for students in credit-based programs to have the continuing eligibility criteria set relative to class standing. Using that approach, there could be a more modest grade point average required for the first two semesters, and a more rigorous standard to be met subsequent to the completion of the third semester or end of the sophomore year.

I hope this information is helpful to you. Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

Diane Barrans
Executive Director

Subject: Math and Science Offerings

Ben,

Below is an updated chart of information. The original information was submitted earlier this week on Tuesday. Deputy Commissioner Morse did a review of the data and asked me to submit this update.

Could you please make sure that the House Finance Committee members are aware that this is available?

Let me know if you have any questions. Thank you.

Marcy Herman

2. How many schools do not currently offer the four years of math and science required in the GPS bill?

School Course Offering Counts for Mathematics and Science

339 schools were considered because they enroll high school students.

- Offer less than four years of mathematics ~~33~~ 32
  - 2 math courses ~~12~~ 16

- 3 math courses ~~21~~ 16

- Offer less than four years of science ~~72~~ 65
- 2 science courses ~~31~~ 32
- 3 science courses ~~41~~ 33

Of the total 97 schools listed above 16 are the same schools, from 7 districts, that do not offer either four years of math and science.

The Honorable Bill Stoltze
The Honorable Mike Hawker
Co-Chairs, Finance Committee
Alaska House of Representatives
State Capitol, Room 515, 505
Juneau, Alaska 99801

Subject: CSHB297(EDC) - An Act establishing the governor's performance scholarship program...

Dear Representatives Stoltze and Hawker:

During the committee's initial hearing on CSHB297(EDC), members asked for additional information and clarification on relevant issues. The issues included:

1. **Provide correspondence school analysis offered by Commissioner LeDoux.**

   23 out of 53 public school districts offer correspondences courses. Of those 23, ten offer correspondence courses on a statewide basis.

2. **How many schools do not currently offer the four years of math and science required in the GPS bill?**

School Course Offering Counts for Mathematics and Science

339 schools were considered because they enroll high school students.

• Offer less than four years of mathematics		33
o 2 math courses	12	
o 3 math courses	21	
• Offer less than four years of science		72
o 2 science courses	31	
o 3 science courses	41	

a) What is in place to help those schools?

Distance-delivered instruction has evolved dramatically in the last ten years as access to Internet technology and bandwidth have increased. Traditional distance delivery, where a lone student struggles on his/her own to learn complicated concepts with a book and a distantly connected adult proctor, is very rare. Today, a number of innovative program options and strategies are used by districts and colleges in Alaska to provide quality core and elective coursework for students. Strategies may include:

Learning Centers: Students using distance courses are commonly centralized into a learning center and actively supervised by a teacher who monitors course progress, learning focus, and technology utilization. Learning Center staff provide individual encouragement, instructional assistance and access to highly qualified teachers. Students are encouraged to work collaboratively and to assist one another.

Access to Highly Qualified Teachers: Some districts contract with off-site content teachers to provide remote assistance for students engaged in distance coursework. Students are encouraged to contact their assigned specialists as necessary. E-mail is usually the form of contact but voice contact is also common.

Asynchronous Distance Learning: Coursework that allows students to engage in high school or college-level learning activities at their own pace in any place that has Internet connectivity. While the quality of distance delivery options may vary, significant progress has been made to design and develop quality distance coursework. Many real-time options are embedded into distance delivery including interactive e-mail or voice discussions with other students or instructors. Asynchronous distance learning is popular in Alaska because it does not require extensive bandwidth to operate. Colleges and universities around the country are using this technology to offer college courses.

Synchronous Distance Learning: Synchronous learning connects teachers to students in real time through the use of internet-based, interactive videoconferencing. Synchronous learning technology allows students from multiple sites to receive instruction directly from a teacher. Some districts are even using this technology to teach band. While synchronous delivery holds real promise, it is limited in use because it is a heavy user of bandwidth and sensitive to inclement weather.

Alternative Education Programming: The sophistication of distance courseware has evolved to a point where many districts allow students in brick and mortar schools to select distance-learning courses as an alternative to classroom instruction.

Districts that provide asynchronous learning courseware for their students have several options to select courseware:

- District-designed
- State-approved distance delivery schools
- Commercial
- College and University

3. **Please speak to the reallocation of funding to districts in an effort to achieve the realignment of resources that would create the GPS curriculum, virtual school, etc.**

In Moore v. State of Alaska, Judge Gleason determined that districts do in fact have adequate resources to address students' educational needs. Districts will have to determine how to reallocate those resources in order to meet the scholarship program requirements.

Districts that offer distance options are responsible for the cost of the program. A number of commercial vendors are available. The vast majority of districts, if not all, support some form of distance delivery for students. The most commonly used correspondence vendors are Brigham Young University and University of Nebraska; both charge $125 per credit hour. In addition, districts may contract with other Alaska districts to provide distance delivered courses.

4. **Does EED know how much work must be done technologically to deliver GPS curriculum?**

As part of a federal report for Title II, Part D, all districts reported by school the Internet access for their unduplicated number of instructional computers in spring of 2009, with updates in the fall 2010. This report shows that all districts' schools have computers with Internet connectivity listed as high speed. Two schools in the Aleutian Region school district have *only* computers with dial-up capability. All Alaska schools would have the ability to participate in distance education with their current Internet capability. It is important to note that there will be a four-year phase-in of the program's requirements. This will allow time for districts to implement delivery strategies.

Over twenty districts have videoconferencing available to each of their school sites. About a half dozen of these districts are offering synchronous classes taught by district staff including Aleutian East, Bering Strait, Kodiak, Kuspuk, Lower Kuskokwim, and Yukon-Koyukuk school districts. In addition, other school districts are offering online courses, mostly asynchronous, including Anchorage, Craig, Delta Greely, Kenai, Petersburg and Wrangell. Most districts offer CTE and dual-credit courses as needed. Commissioner LeDoux has spoken to nearly all Superintendents and each one believes that he or she can implement the required curriculum for this program.

5. **Explain how the residency requirements will work.**

An option for residency requirement could be phrased as follows:

For purposes of the program, a student

(1) must have been physically present in this state for one year before claiming Alaska residency status that qualifies the student for the program;

(2) does not forfeit Alaska residency status by traveling outside this state after graduation from high school if the student

(A) does not claim residency in another state; and

(B) at all times maintains an intent to remain in this state indefinitely.

6. **Why won't students be allowed to take the scholarship out of state if Alaska does not provide the training necessary?**

Currently the program goals do not provide for a student to attend school out-of-state with the Governor's Performance Scholarship. The goals of the Governor's Performance Scholarship include:

1. increasing high school graduation rates in the state;
2. improving academic performance of students in kindergarten through grade 12 in the state;
3. improving preparedness of Alaska students for postsecondary education;
4. improving the quality of the educational programs offered by high schools in the state;
5. increasing the scores of high school students in the state on college entrance examinations;
6. increasing job training opportunities in the state;
7. improving the postsecondary academic achievement and graduation rates of students in the state;
8. expanding the pool of high school students in the state who pursue postsecondary opportunities;
9. providing a rigorous curriculum in all high schools in the state;
10. increasing participation of Alaska high school students in Alaska postsecondary institutions.

7. **How will EED provide for extensions outside of military service?**

The extensions outside of military service will be regulated by the State Board of Education. The Department of Education and Early Development will recommend an appeal process that will take into consideration each student's specific circumstance.

8. **Members were seeking information on potential costs of CTE programs.**

The cost of attendance at career and technical schools varies considerably. The highest cost of tuition at AVTEC is $5,000 for the Licensed Practical Nurse program (176 training days) and $1,320 for the Certified Nurse Assistant (38 training days). The cost of tools for the Automotive Technology (197 training days) and the Diesel/Heavy Equipment (197 training days) programs are both higher than the cost of tuition. The tuition for the majority of programs at AVTEC are below $3,000. Many of the programs at AVTEC are between 9-12 months. The scholarship program provides tuition for up to two years.

Students who qualify for one of the academic performance scholarships may carry that award to an approved technical school program. This is significant in that the majority of the career and technical school programs in Alaska are offered by the University of Alaska. Students who earn a career and technical scholarship may use it at the University of Alaska towards a program that leads to a certificate.

The unmet financial need proposed by the GPS will assist those students who qualify for a career and technical education GPS award and have unmet financial need. Unmet need includes the cost of room and board, tools and other costs of attendance.

AVTEC Training Dates
Alaska Culinary Academy
- **Professional Cooking & Baking**, 210 training days
  Offered 01/05/10 to 12/16/10, 08/16/10 to 06/30/11

Alaska Maritime Training Center Courses

- **Marine License Preparation - Master Mate**, 45 training days
of the Engine Department (QMED) Oiler, 60 training days
Offered 09/13/10 to 12/08/10

Allied Health Department - Anchorage Training Facility

- **Certified Nurse Assistant (CNA)**, 38 training days
Offered 01/04/10 to 02/26/10, 02/03/10 to 03/30/10, 03/08/10 to 04/28/10, 04/05/10 to 05/27/10, 05/05/10 to 06/29/10, 06/07/10 to 08/03/10, 07/12/10 to 09/01/10
- **Licensed Practical Nurse (LPN)**, 176 training days
Offered 01/04/10 to 11/18/10, 08/16/10 to 07/01/11

Applied Technologies Department

- **Automotive Technology**, 197 training days
Offered 01/05/10 to 12/17/10, 08/16/10 to 06/09/11
- **Combination Welding**, 172 training days
Offered 01/25/10 to 12/17/10, 08/16/10 to 05/04/11
- **Diesel/Heavy Equipment Technologies**, 197 training days
Offered 01/05/10 to 12/17/10, 08/16/10 to 06/09/11
- **Industrial Electricity**, 197 training days
Offered 08/16/10 to 6/09/11
- **Pipe Welding**, 75 training days
Offered 01/19/10 to 05/05/10, 09/01/10 to 12/17/10
- **Power Plant Operation**, 40 training days
Offered 01/11/10 to 03/05/10, 03/17/10 to 05/11/10
- **Structural Welding**, 97 training days
Offered 01/25/10 to 06/11/10, 08/16/10 to 01/17/11

Information Technology Department

- **Business & Office Technology**, 183 training days
Offered 01/05/10 to 12/17/10, 08/16/10 to 05/19/11
- **Information Technology**, 188 training days
Offered 08/16/10 to 05/26/11
- **Web Development Technology**, 188 training days
Offered 08/16/10 to 07/12/11

Building Trades Technology

- **Facility Maintenance Construction Trades**, 188 training days
Offered 08/16/10 to 05/26/11
- **Plumbing & Heating**, 102 training days
Offered 01/05/10 to 05/28/10

The Department of Labor and Workforce Development is happy to provide additional information as necessary.

9. Requested information on the Hathaway GED language.

Hathaway GED Criteria
A student who attended a Wyoming high school, did not graduate, took the GED, and whose class has graduated, may qualify for a Hathaway Scholarship. Below are ACT and GED score requirements for Hathaway Scholarships. Students below a 550 GED do not qualify for UW admission.

Opportunity	Minimum GED of 500, and minimum ACT of 19
Performance	Minimum GED of 540, and minimum ACT of 21
Honors	Minimum GED of 575, and minimum ACT of 25

10. Information on Mt. Edgecumbe's admission requirements.

4 AAC 33.080. Admission to Mount Edgecumbe High School

(a) The superintendent of Mount Edgecumbe High School shall appoint an admissions committee of at least three persons to make recommendations for students to be admitted to the school.
(b) A student residing in any school district in the state may submit to the admissions committee an application for admission to Mount Edgecumbe High School, on forms prescribed by the department, at the following address: Mount Edgecumbe High School, Admissions Committee, Alaska Department of Education and Early Development, 1330 Seward Avenue, Sitka, Alaska 99835.
(c) An application under (b) of this section must include statements by the student and the student's parent or guardian explaining why admission is sought and why the student should be accepted, a

copy of the student's school records, including attendance records, transcripts, and achievement test results, at least two recommendations from teachers or other adults who are not members of the student's family and who know the student well, and such other information as the admissions committee requests.

(d) The number of available openings at each grade level shall be established by the superintendent in advance of each semester, based upon the school's capacity, the number of returning students, and other relevant factors.

(e) The admissions committee shall recommend students for the available openings from among the applicants, and the superintendent shall make the final admissions decisions, based upon consideration of the following factors:

(1) the availability of a high school program in the student's home community adequate to meet the academic and social needs of the student;

(2) the degree to which the student is expected to benefit from the academic and social program at Mount Edgecumbe High School;

(3) the degree to which the student will bring background experiences, skills, and abilities that will enhance the diversity or academic potential of the student body;

(4) any particular school, family, or social situations that make the structured, residential setting of Mount Edgecumbe High School especially advisable for the student.

(f) Preference shall be given to students whose educational, emotional, or family requirements warrant attendance in a domiciliary environment.

(g) The admissions committee and superintendent may not discriminate in favor of or against any resident based on race, sex, creed, national origin, or location or type of residence in the state.

(h) Admissions at mid-semester may be made only upon consideration of the effects of transfer on the continuity of the student's education and on the Mount Edgecumbe High School program.

(i) Once admitted, a student may continue to attend Mount Edgecumbe High School from semester to semester until the student graduates, so long as the student remains in good standing under school rules governing academic and social performance.

I hope that this information is helpful to the committee. Please do not hesitate to contact me if you have any questions or need additional information.

Sincerely,

Larry LeDoux
Commissioner

ANALYSIS: *(Attach a separate page if necessary)*

This legislation would require a person to register in Alaska as a sex offender or child kidnapper if required to do so in another jurisdiction for crimes similar in nature to those in Alaska law.

For sex offender registration purposes, "jurisdiction" is defined at 13 AAC 09.900(a)(5) and includes the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Northern Mariana Islands, the U.S. Virgin Islands, and federally-recognized Indian tribes that have elected to function as a registration jurisdiction. Each jurisdiction has its own distinct laws pertaining to the registration of sex offenders, including which offenses require registration and the length of time an offender is required to register. (cont.)

FISCAL NOTE

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. CSHB298(JUD)

ANALYSIS CONTINUATION

For the department's Records & Identification unit to continue to accomplish a core service of providing public access to current information regarding sex offenders in Alaska, the determination that a person must register as a sex offender or child kidnapper in Alaska because of their requirement to register in another jurisdiction must be made timely and must be based on information that has been validated.

Considerable research and analysis of the criminal history background of persons with sex offense convictions outside of Alaska would be required to determine whether the offense of conviction is a registerable offense under the current laws of that jurisdiction and whether or not the person is subject to that jurisdiction's registration requirements. Coordination with the jurisdiction's sex offender central registry would need to occur to obtain source documents and other relevant information on the person.

Additionally, the department would need to continually monitor the status of registration laws and legal cases affecting sex offender registration in all jurisdictions to ensure a person required to register in Alaska under proposed AS 12.63.100(6)(D) continued to be subject to the registration requirements of the jurisdiction that their offense was committed in.

The department anticipates that these additional efforts will require one new full-time Criminal Justice Planner position. This position would be responsible to review and evaluate offender records with out-of-state sex offense convictions to determine the requirement to register under proposed AS 12.63.100(6)(D), to coordinate with other jurisdictions' sex offender central registry offices, and to monitor sex offender registration laws in other jurisdictions and any changes for possible impact to currently registered offenders.

ANALYSIS: *(Attach a separate page if necessary)*

This bill will have the effect of increasing the number of prisoners the Department of Corrections (DOC) will have to house beginning in Fiscal Year 2012. These approximate costs are based on the average number of new convictions or remands per year and the average estimated sentences associated with each change in the draft legislation. DOC will track the impact and could potentially request additional funding based on actual impacts.

FISCAL NOTE #4

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 298

ANALYSIS CONTINUATION

This bill specifically adds a number of new crimes, expands existing crimes, and enhances sentences for existing crimes:

- Sections 1 and 2 remove parolees from the statute. This change should have little to no fiscal impact.

- Section 3 changes the elements for failure to register as a Sex Offender or child kidnapper in the second degree. It is estimated this will generate 3 new convictions per year carrying an average 2 month sentence.

- Section 4 raises a form of harassment in the second degree to harassment in the first degree if the offensive physical contact is by the offender touching the other person's genitals, anus, or female breast. The change from a Class B misdemeanor to a Class A misdemeanor is estimated to generate 18 convictions per year that carry an average 30 day sentence.

- Sections 5, 6, and 7 address a problem with current Alaska law prohibiting possession of child pornography. This amendment prohibits possession of child pornography, and also prohibits a person from knowingly accessing child pornography on a computer with the intent to view. We anticipate a relatively low number of new convictions and a possible increase in remands. Convictions would generate an estimated average 4 year sentence. The actual impact will be closely tracked by DOC.

- Section 8, 9, and 10 changes the elements of distribution of indecent material to minors to include any distribution in addition to electronic distribution. Because most of these cases are by computer, the impact on DOC is small and is included in Sections 5-6-7.

- Section 11 prohibits the suspension of sentences for human trafficking and possession of child pornography. DOC will track the actual impact.

- Section 12 adds discretionary probation conditions for Sex Offenders providing available electronic mail addresses and prohibiting internet use, communication with children, and possession or use of a computer. DOC believes this will have minimal impact above the number of remands that occur each year for such violations, however, we will track any impact this change to the bill may have.

- Section 13 adds as a sentencing aggravator adding the incapacity of a victim by alcohol or drugs. Due to a lack of data, the DOC is unable to assess an impact. The impact will be closely tracked.

- Section 14 adds two sentencing aggravators in a sex offense: first, to increase a sentence for a crime against a person committed against a person that the defendant was dating or with whom the defendant has engaged a sexual relationship; second, the sentence is increased if the defendant is 18 or over and is convicted of sexual abuse of a minor in the second degree under AS 11.41.436(a). Due to a lack of data, the DOC is unable to assess an impact. The impact will be closely tracked.

- Section 15 expands the definition of sex offense for sex offender registration to include sex offenses committed in other states where a person must register as a Sex Offender or child kidnapper. There are too many factors involved to determine a fiscal impact. DOC will track the actual impact.

- Section 16 amends criminal discovery restriction regarding child pornography. This represents no fiscal impact for DOC.

ANALYSIS: *(Attach a separate page if necessary)*

This bill adopts a class A misdemeanor for offensive touching that does not arise to sexual assault in the first, second or third degree. The bill adopts a class C felony for a person who knowingly accesses child pornography on a computer. The bill extends the prohibition of distributing indecent material to a minor to all forms of distribution. The bill provides that a person convicted of human trafficking or possession or distribution of child pornography may not be given a suspended imposition of sentence, and imposes certain restrictions on defendants.

FISCAL NOTE #2

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 298

ANALYSIS CONTINUATION

The bill will create a new misdemeanor crime of harassment for touching another person without consent. Additionally, the bill will eliminate the mens rea element associated with circumstances under which someone fails to register as a sex offender.

This bill will also change the procedures for defense access to evidence in child pornography cases. Under the proposed change to Criminal Rule 16, the evidence that forms the basis of such charges must remain in the custody and control of a law enforcement agency and the prosecuting attorney, and no copies can be made. This could result in additional costs associated with the logistics of reviewing and evaluating evidence.

The agency does not predict a significant fiscal impact as a result of the proposed statute. Accordingly, the agency submits a zero fiscal note.

FISCAL NOTE #1

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 298

ANALYSIS CONTINUATION

The bill will create a new misdemeanor crime of harassment for touching another person's genitals, anus or female breast, directly or through clothing. Additionally, the bill will eliminate the mens rea element associated with circumstances under which someone fails to register as a sex offender. These changes could increase prosecutions and litigation associated with failure to register as a sex offender and child pornography cases.

This bill will also change the procedures for defense access to evidence in child pornography cases. Under the proposed change to Criminal Rule 16, the evidence that forms the basis of such charges must remain in the custody and control of a law enforcement agency and the prosecuting attorney, and no copies can be made. This could result in additional costs associated with the logistics of the defense reviewing and testing evidence. For example, in a child pornography case any experts hired to review evidence would have to be paid for time involved with traveling and reviewing evidence where it is being held by the prosecutor or police agency, and facilities will have to be made available for evidence review and testing.

The agency does not predict a significant fiscal impact as a result of the proposed statute. Accordingly, the agency submits a zero fiscal note.

CSHB 298(JUD)
SEXUAL ASSAULT AND DOMESTIC VIOLENCE
Sectional Analysis

Sections 1 and 2 correct an error made in 2007 when the legislature enacted AS 11.56.759, that adopted a class A misdemeanor if a sex offender violates specific conditions of probation or parole. One of the requirements of the crime is that the person have served the entire period of incarceration imposed for the crime. This is effective for probationers, but not for parolees, because a person is never on parole if he or she has served the entire period of incarceration. A member of the Parole Board brought this issue to our attention, because the statute has caused problems for the board in dealing with parolees. These sections remove parolees from the statute.

Section 3 rewrites AS 11.56.840, failure to register as a sex offender in the second degree. The proposal is similar to current law, but it sets out the elements more clearly. The section also adopts an affirmative defense that unforeseeable circumstances outside the control of the person prevented him or her from registering, and that the person contacted the Department of Public Safety immediately upon being able to do so.

Section 21 on page 11 of the bill adopts in uncodified law the legislative statement that the culpable mental state of knowing only applies to the sex offender or child kidnapper know that he or she is required to register. In the original version of the bill this provision was in the substantive part of the statute.

Section 4 would raise a form of harassment in the second degree (that is, with intent to harass or annoy another person, the person subjects the other person to offensive physical contact) to harassment in first degree if the offensive physical contact is by the offender touching the other person's genitals, anus, or female breast. Harassment in the first degree is a class A misdemeanor; the second degree offense is a class B misdemeanor. There have been prosecutions recently involving offensive touching that occurred so quickly that the court concluded that the victim did not have time to convey lack of consent to the offender. The court reduced these charges from sexual assault to harassment in the second degree. This conduct is more serious that a class B misdemeanor; the bill would raise it to a class A misdemeanor.

Sections 5, 6, and 7 address a problem with Alaska law prohibiting possession of child pornography that was raised by a recent decision of the Alaska Court of Appeals, *Worden v. State*, 213 P.3d 144 (Alaska App. 2009). *Worden* held that our current statute does not prohibit a

person from viewing child pornography on a computer; rather, the statute requires that the person must also save it on the computer to be considered to possess it. In response to this decision, the bill adopts the federal approach. It prohibits possession of child pornography, and it also prohibits a person from knowingly accessing child pornography on a computer with the intent to view it.

The bill adds to the child pornography law the prohibition of the depiction of a part of a child under 18 years of age that by manipulation appears to be engaged in conduct prohibited by AS 11.41.455(a). It also would prohibit material that appears to include a child under 18 years of age (often referred to as anime pornography) if the material is obscene.

Section 8 proposes an affirmative defense to possession of child pornography that is similar to federal law. The affirmative defense would address a situation where a person finds child pornography on their computer, and did not obtain it themselves. The defense requires that there are three or less depictions, and the person, without showing the material to another person except law enforcement, destroys the depictions or contacts law enforcement and turns it over to them.

Section 8 also adopts a definition of the "appears to include a child" for purposes of the prohibition of anime child pornography that references a definition of obscene.

Sections 9, 10, 11, and 12 amend the crime that prohibits the electronic distribution of indecent material to minors by expanding the offense to prohibit any form of distribution of indecent material to minors, in addition to electronic distribution. It also adds a new element of the offense that the state must prove that requires the material to be harmful to a child. Whether the material is harmful to a child is defined in **Section 12**, that defines that term.

Section 13 adds the crimes of human trafficking in the first and second degrees, distribution of child pornography, possession of child pornography, and distribution of indecent materials to minors to the crimes that are not eligible for a suspended imposition of sentence.

Section 13 also includes an amendment that removes "substantially" when describing a crime in another jurisdiction that may be a predicate conviction that would disallow the use of a suspended imposition of sentence for other offenses. This conforms with other statutes that require that a predicate offense in another jurisdiction be only similar to an offense in Alaska. Examples include AS 12.55.145(a) (presumptive sentencing), AS 11.41.320(a)(5) (third degree assault), and AS 11.41.110(a)(5) (murder in the second degree).

Section 14 adds to the conditions of probation that may be imposed on a person convicted of a sex offense. It gives the court discretion to order the person to submit e-mail addresses and other networking addresses to his or her probation officer, who would be required to give this information to the Troopers and to the local law enforcement agency. If the person was convicted of sexual abuse of a minor or an offense related to child pornography, it gives the court discretion

to prohibit the person from using an Internet site, communicating with children under 16 years of age, or possessing or using a computer.

Section 15 amends the aggravating factor at sentencing that allows the court to increase a sentence above the sentencing range if the defendant knew that the victim was particularly vulnerable. It does this by adding the consumption of alcohol or drugs as factors that might make a victim particularly vulnerable.

Section 16 adds two new aggravating factors to the sentencing law. First, it allows the court to increase a sentence above the sentencing range for a crime against a person (AS 11.41) committed against a person that the defendant was dating or with whom the defendant has engaged in a sexual relationship. Second, it allows the court to increase the sentence if the defendant is convicted of sexual abuse of a minor or distribution of indecent material to minors if the defendant is 10 years or more older than the victim.

Sections 17 and 18 add a new provision to sex offender registration law that requires a person present in Alaska, who is convicted of an offense out of state that requires registration in that jurisdiction, to register in Alaska. This requirement would apply even if Alaska does not have a criminal provision similar to the crime in the other state that requires registration there. A person would have to register for 15 years if convicted of only one offense, and for life if convicted for two or more offenses.

Section 19 authorizes the attorney general, in the investigation of online enticement of a minor, unlawful exploitation of a minor, and child pornography crimes, to issue a subpoena to an Internet service provider if there is reasonable cause to believe that the Internet service account has been used in the exploitation or attempted exploitation of children. The subpoena may require the provider to disclose the name, address, telephone connection records, and other information about the account. Other than use in the criminal case related to the subpoenaed materials, the information obtained must remain confidential.

Section 20 amends Rule 16(b), Alaska Rules of Criminal Procedure, by adding a prohibition of copying or otherwise reproducing child pornography as part of the discovery process in a criminal prosecution. The material must still be available for inspection for the defendant, defense counsel, and any person the defense may seek to qualify as an expert witness at trial. Federal law has a similar provision. 18 U.S.C.A. § 3509(m).

Section 21 provides a legislative statement that in a prosecution for failure to register as a sex offender, the state is not required to prove a culpable mental state for the conduct of not registering. The state would be required to prove that the defendant knew he or she was required to register as a sex offender.

Sections 22 and 23 include applicability and effective date provisions.

Re: House Bill 298
Constitutional Issues

Chairs Hawker & Stolze:

Thank you for the opportunity to submit written testimony regarding House Bill 298, [CS FOR HOUSE BILL NO. 298(JUD)]. The American Civil Liberties Union of Alaska represents thousands of members and activists throughout the State of Alaska who seek to preserve and expand individual freedoms and civil liberties guaranteed under the United States and Alaska Constitutions. From that perspective, we have several concerns with the proposed legislation, outlined in greater detail below.

With respect to the best use of resources of the State of Alaska, the Finance Committee should note that – if passed as currently worded – HB 298 would result in lengthy and costly litigation with the predictable result of the Alaska Supreme Court overturning the problematic provisions detailed. Appropriate revision of the bill would result in more timely and cost-effective protections for the safety of Alaskans.

Section 20 Proposed Amendments to
Rule 16 of the Rules of Criminal Procedure

Section Twenty of the Bill proposes changes to the rules of criminal procedure that violate the state and federal constitutional rights to a fair trial and to effective representation, and would involve the state in lengthy and costly litigation defending an unconstitutional provision.

(Copy on file)

The Section proposes that relevant evidence should be revealed to defendants, defense attorneys, and defense experts only at a state facility, under the control of a law enforcement agency. While protecting the privacy of the victims of certain crimes is an important interest, the proposed changes to the Rules of Criminal Procedure unnecessarily restrict the rights of the accused.

In some cases, the use of a technological expert is necessary. Defendants are entitled to establish, for example, that images at issue in a trial are not illegal material, were placed on the drive by another party, or were altered in some way. The computer source files would require review at length by an expert witness. Being forced to conduct the review at a local police department or District Attorney's office would make the work of these experts essentially impossible. Moreover, the analysis of hard drives and other media would likely require unique analysis programs which would necessitate examining the images on the expert's own computers. The proposed Rule Amendment would deprive defendants of the effective use of expert testimony, which would be a key defense resource in these cases.

Even where the use of an expert is unnecessary, the defense attorney may need to review the files at length to establish the exact nature of images or files. Requiring defense attorneys to do their work at times and places convenient to the state is unnecessarily and unconstitutionally restrictive.

A case from Washington State perfectly illustrates why the proposed rule would result in lengthy and expensive litigation which would ultimately result in the overturning of the statute. In *State v. Boyd*, the prosecution in a child pornography case sought and obtained a protective order from the court which only permitted the defense to view the evidence at a state facility. 158 P.3d 54 (Wash. 2007). ***The Supreme Court of Washington ruled that the Rules of Evidence, the Fifth Amendment right to a fair trial, and the Sixth Amendment right to effective representation by counsel all required that the protective order be struck down and the defendant be granted a new trial, because the defendant could not be adequately represented nor fairly tried under the order.***

The important privacy needs of victims can be protected without the measures laid out in Section 20. For example, the *Boyd* court upheld an order requiring the defense to keep "mirror image" hard drives of evidence under lock and key, to use firewall software on any computer viewing images that was connected to the internet, making the attorney personally and professionally responsible for any unauthorized release of the images, and allowing state experts to verify the complete eradication of the images after the conclusion of the case.

The power of a court to issue a protective order in a particular case already exists and needs no augmentation by the Legislature. An order issued after consideration of the unique facts of an individual case is far more likely to survive appellate review than a blanket rule set down by the Legislature.

Section 20 of H.B. 298 violates the state and federal constitutional rights to a fair trial and to effective representation. We recommend the Bill be revised so that the courts would be permitted

to manage the disclosure of evidence on a case-by-case basis, rather than by instituting a blanket rule that would guarantee entanglement of the State in litigation.

Section 17 Requirement for Registration of Sex Offenders from Other Jurisdictions

Section 17 proposes to expand the list of those required to register as sex offenders to include anyone required to register in another jurisdiction. This section would also entangle the state in lengthy and costly litigation defending a provision which has essentially already been ruled unconstitutional by the Alaska Supreme Court.

In *Doe v. State*, 189 P.3d 999 (Alaska 2008), the Supreme Court found that those convicted of sex offenses in Alaska before the enactment of the sex offender registry statutes in 1994 could not be required to register, as the statute would violate the *ex post facto* provision of the State Constitution. In many other jurisdictions, the state courts have not declared their state sex offender statutes to offend their own *ex post facto* rules. Thus, the Alaska *ex post facto* provision would likely prohibit mandatory registration for those convicted of offenses in another state prior to 1994. A final determination would need to be made by the Alaska Supreme Court, after lengthy litigation.

Additionally, the proposed amendment in Section 17 usurps the State's own policy making decisions, and adds needless expense that our lawmakers have previously determined are not appropriate or cost-effective. For instance, in Alaska, the Legislature has set the age of consent at sixteen. This amendment would nullify the legislature's judgment and require someone convicted of having sex with a 17-year-old in another state to report to the Department of Public Safety and face incarceration should he fail to report on time. Should he end up incarcerated, the people of the state of Alaska will be paying $44,000 a year to incarcerate someone as a consequence for committing an underlying act which would not even be a crime in Alaska.

The current state of the law in Alaska is that anyone convicted under appropriate Alaska statutes or similar statutes in another state, such as rape, sexual assault, etc., must register in Alaska. Section 17 would therefore expand the registry – not to the most culpable and the most dangerous – but to those who have committed acts such as having sex with a 17 year old; prostitution; and other minor offenses, like indecent exposure. These offenders are not likely to commit the rapes and molestations that the registry is designed to protect Alaskans from.

Of note, as well, registries have been ineffective in preventing crime. A Rutgers University study showed that the New Jersey sex offender registry had "no demonstrable effect in reducing sexual re-offenses." The study also showed the enactment of the law had no effect on the number of victims of sex offenses, no effect on how long those convicted of sex offenses remained arrest-free, and no effect on the type of sex offenses committed. The Legislature and the Finance Committee should look for proven, effective methods of preventing sex offenses. The proposed expansion of the sex offender registry in HB 298 is not a means to do this.

///

Sections Three and Twenty-One – Eliminating the Mental State Requirement of the Failure to Register Statute

Section Three of the Bill, along with Section Twenty-one, eliminates a criminal culpability mental state requirement, or *mens rea*, for the offense of failure to register, which means that a person who "knowingly" but accidentally or in good faith neglects to complete the registration requirement every three months could still be found guilty of the offense. Section 3, subsection (b) creates an affirmative defense that registration became impossible because of an unforeseen circumstance and that the individual orally and in writing contacted the Department of Public Safety as soon as possible.

Generally, the criminal law requires "not only the doing of some act by the person to be held liable, but also ***the existence of a guilty mind*** during the commission of the act." *Speidel v. State*, 460 P.2d 77, 80 (Alaska 1969). The Alaska courts have held that, for major felonies, a mental state requirement is **mandatory**, while some minor offenses, such as hunting or public health related offenses, may be strict liability offenses without a mental state requirement. *Speidel*, 460 P.2d 77 (holding that the statute declaring the failure to return a car to be a crime, regardless of mental state, violated due process); *see also* State v. Guest, 583 P.2d 836 (Alaska 1978); *State v. Fremgen*, 914 P.2d 1244 (Alaska 1996).

In some cases, the courts have avoided declaring a statute unconstitutional by creating a mental state requirement where a statute has neither a provision for mental state nor language stating that no mental state requirement exists. *Kimoktoak v. State*, 584 P.2d 25 (Alaska 1978); *Alex v. State*, 484 P.2d 677 (Alaska 1971). With an explicit statement only a "knowing" mental state is required in Section Three, the courts would not be able to avoid the constitutional conflict and would likely rule the statute unconstitutional.

Of note, as well, are the unique conditions here in Alaska. Many registered sex offenders live off the road system and in remote villages in which mail service gets interrupted, travel and telecommunications are irregular, and weather could keep an offender from being able to comply. Placing the burden on the defendant to prove his innocence reverses our legal tradition and the traditional balance of powers between the defense and the prosecution. The elimination of a criminally culpable mental state requirement and the substitution of a restrictive affirmative defense make Sections Three and Twenty-one subject to lengthy and costly litigation, with a likely eventual finding of unconstitutionality.

Conclusion

We hope that the Finance Committee will note the multiple constitutional infirmities in Sections Three, Seventeen, Twenty, and Twenty-one of House Bill 298, and consider amending them or eliminating them from the Bill to avoid these concerns.

///

While the ACLU of Alaska takes very seriously the need to address the incidence of sexual assault in Alaska, the sections detailed are not well-crafted to vindicate the state's purposes. The sections we have identified present substantial Constitutional problems and would entangle the state in lengthy, costly, and needless litigation, should HB 298 pass as currently written.

Thank you again for the opportunity to share our concerns. And please feel free to contact the undersigned should you require any additional information.

Sincerely,

Jeffrey Mittman
Executive Director
ACLU of Alaska

Sec. 11.81.900. Definitions.

(a) For purposes of this title, unless the context requires otherwise,

(1) a person acts "intentionally" with respect to a result described by a provision of law defining an offense when the person's conscious objective is to cause that result; when intentionally causing a particular result is an element of an offense, that intent need not be the person's only objective;

(2) a person acts "knowingly" with respect to conduct or to a circumstance described by a provision of law defining an offense when the person is aware that the conduct is of that nature or that the circumstance exists; when knowledge of the existence of a particular fact is an element of an offense, that knowledge is established if a person is aware of a substantial probability of its existence, unless the person actually believes it does not exist; a person who is unaware of conduct or a circumstance of which the person would have been aware had that person not been intoxicated acts knowingly with respect to that conduct or circumstance;

(3) a person acts "recklessly" with respect to a result or to a circumstance described by a provision of law defining an offense when the person is aware of and consciously disregards a substantial and unjustifiable risk that the result will occur or that the circumstance exists; the risk must be of such a nature and degree that disregard of it constitutes a gross deviation from the standard of conduct that a reasonable person would observe in the situation; a person who is unaware of a risk of which the person would have been aware had that person not been intoxicated acts recklessly with respect to that risk;

(4) a person acts with "criminal negligence" with respect to a result or to a circumstance described by a provision of law defining an offense when the person fails to perceive a substantial and unjustifiable risk that the result will occur or that the circumstance exists; the risk must be of such a nature and degree that the failure to perceive it constitutes a gross deviation from the standard of care that a reasonable person would observe in the situation.

(b) In this title, unless otherwise specified or unless the context requires otherwise,

(1) "access device" means a card, credit card, plate, code, account number, algorithm, or identification number, including a social security number, electronic serial number, or password, that is capable of being used, alone or in conjunction with another access device or identification document, to obtain

Governor Sean Parnell
STATE OF ALASKA

January 15, 2010

The Honorable Mike Chenault
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Chenault,

Under the authority of Art. III, Sec. 18, of the Alaska Constitution, I am transmitting a bill that provides Alaska law enforcement and other agencies the resources needed to prevent sexual assault and domestic violence crimes in Alaska. Sexual assault and domestic violence crimes destroy individuals and families, eroding the foundation of a just society. Alaska's challenge is to stop child pornography, sexual assault, and sexual abuse of minors in addition to ending the cycle of domestic violence.

Alaska's criminal laws concerning domestic violence, sexual assault, sexual abuse of a minor, and child pornography are strong. However, a few changes would improve prosecution of these offenses. The bill will adopt a class A misdemeanor for offensive touching that does not arise to sexual assault in the first, second, or third degree. It will also adopt a class C felony, the offense of knowingly accessing child pornography on a computer, and extend the prohibition of distributing indecent material to a minor to all forms of distribution.

The bill provides that a person convicted of human trafficking, possession, or distribution of child pornography may not be given a suspended imposition of sentence. It will specify conditions of probation for child predators that allow a court to forbid the defendant from using a computer or internet site, and prohibit contact with children.

The bill will give the courts more discretion in sentencing defendants. Specifically, it will allow a court to increase a person's sentence above the usual sentencing range if the defendant knew that the victim was particularly vulnerable as a result of having consumed alcohol or drugs. It will also allow an increased sentence if the crime is a felony and is committed against a person whom the offender is in a relationship of trust, such as dating or sexual relationship, or the offense involves a defendant who is 18 years of age or older and has sexual contact with a minor under 13 years of age.

Sex offenders and child kidnappers required to register elsewhere should not be able to move to Alaska and avoid registration. The bill will make it mandatory for a registered sex offender or child kidnapper from another state to register in Alaska when the intention is to live in Alaska. This would apply even when Alaska does not have a substantive law that is similar to the crime the person committed.

Finally, the bill protects victims of child pornography from being victimized or traumatized by the pre-trial discovery process in a criminal prosecution. While it allows the pornographic material to be inspected by the defendant, defense counsel, and experts the defense may use, copying the material would be prohibited and required to remain in the possession of law enforcement.

I urge your prompt and favorable consideration of this bill.

Sincerely,

Sean Parnell
Governor

HB 300

<target><bill>HB 300</bill><subject>HB 300</subject><comm>HFIN26</comm></target>

Department of Law
Gas Line Funding History

The Department of Law is requesting $2,500.0 for work related to the state natural gas pipeline and to bringing North Slope gas to market.

The Department of Law's Oil, Gas and Mining section continues to play a major role in the State's top priority project related to the development of a natural gas pipeline and bringing natural gas to market. A number of contracts with outside counsel and experts are underway and will continue as needed. Funding will assist the department in analyzing and responding to federal regulatory decision-making and other regulatory efforts to commercialize North Slope gas, and representing the Departments of Natural Resources and Revenue in addressing legal issues related to implementation of the AGIA license and the Alaska Pipeline Project (APP).

The Department of Law has contracts with law firms with extensive oil and gas experience. The primary contract is with Greenberg Traurig (GT), a Washington, D.C. based firm with gas pipeline experience and considerable expertise representing clients before the Federal Energy Regulatory Commission (FERC). The firm has assisted the state with analysis of federal regulatory issues including FERC rate making practices, federal open season requirements, use of precedent agreements for firm transportation capacity, analysis of Natural Gas Act requirements, analysis of the AGIA licensee's project plan, analysis of LNG export issues, analysis of royalty inducements for proposed regulations, and the successful request for a waiver of FERC capacity provisions to reduce risks to potential shippers related to the state's ability to switch between taking its royalty gas in-kind to in-value. The department has also contracted with Bennett Jones, a law firm that has assisted the department with Canadian regulatory issues relevant to the pipeline project. The legal work that the firms perform is highly specialized and critical to the pipeline project's success.

In FY 2009 $3.5 million was transferred from the Governor's office to the Department of Law. At the end of 2009, $1,697.2 was encumbered for an existing contract with Greenberg Trauig and expected to fund the Department's needs in FY10. As of February 22nd, $835,179 remains encumbered under that contract and we anticipate expending most if not all of these funds prior to the end of the FY10. Additionally, at the request of the Governor's Office, we identified $550.0 that would be available and returned the funds to the Office of the Governor.

The requested funds will be used to continue to assist the department in the upcoming open season, including review of the APP open season filing, continued monitoring of the FERC pre-filing process and analysis of FERC issues, resulting transportation agreements, FERC filings relating to a certificate of public convenience and necessity, filing and evaluations relating to Canadian regulatory issues and other FERC and regulatory issues.

AOGCC Gas Studies FY2010 Progress and Future Work

At the beginning of FY2010 the AOGCC had $1.5 million of the multi year operating appropriation (AR 3559-10) available. The entire amount of a capital appropriation, (AR 7699-12) $1.5 million is unexpended and remains available.

The multi year operating appropriation originated in SLA 2005, Chapter 3, Sec. 20 (a), where $1.2 million was appropriated. SLA 2007, Chapter 30, Sec. 13 (c) increased the amount to $2.2 million. Sec. 61 (d) of this same chapter extended the lapse date to June 30, 2008. SLA 2008, Chapter 29, Sec. 34 (a) extended the lapse date to June 30, 2009. SLA 2009, Chapter 14, Sec. 4 extended the lapse date to June 30, 2010.

The FY2010 expenditures are as follows:

Gaffney, Cline & Associates

9/11/2009	$54,230.00
10/6/2009	$3,795.00
10/9/2010	$44,785.00
12/14/2010	$16,790.00
1/13/2010	$2,385.00
TOTAL	$121,985.00

During FY2010 the Commission and its contractor Gaffney, Cline & Associates, expects to complete the data gathering and initial analysis of the existing reservoir data for the Thomson Sand in the Point Thomson Unit (PTU) as well as an independent reservoir simulation model based on the existing data. This will include geologic and reservoir simulation models based on data gathered from the existing exploration wells in the unit but will likely not include any new data from the wells being drilled as part of the ongoing PTU Initial Production System (IPS) since the drilling and testing of those wells will not likely be completed prior to FY2011. During FY2010 the Commission also expects to start gathering new information on the Prudhoe Bay Unit (PBU) based on a revised reservoir model created by the PBU owners. This is valuable because it will enable the Commission to understand this complex reservoir better, to anticipate additional information necessary to make appropriate determinations on pool rules and gas offtake, to respond timely on such rulings, and to advise legislators and others on important considerations in major gas sales planning.

Currently, $228,363.64 is encumbered. The funding will be used to continue work with the contractor Gaffney, Cline & Associates as described above.

For FY2011 we are requesting that $1,150,900 be appropriated. This is the amount of the previous GF gas pipeline funding appropriation that is estimated to be unexpended and unobligated at June 30, 2010. During FY2011 the Commission expects to complete work on the PTU reservoir study including

incorporating geologic and well testing information from the initial 2 wells, the producer/injector pair, being drilled as part of the IPS. The Commission also expects to continue to gather data from the new PBU reservoir models and may employ a contractor to help us analyze the new data and incorporate it into our existing studies.

Beyond FY2011 the Commission expects to incorporate production data from the IPS, which isn't expected to come online until 2014, into our analysis of the PTU and to gather and analyze updated information on PBU, such as data on new wells and pre-gas sales depletion planning, as it becomes available. If other productive reservoirs in the PTU are discovered the Commission will also evaluate and incorporate information from them in our analyses. Also, any other oil reservoir expected to contribute gas to major gas sales (such as Kuparuk, Lisburne, or even an as-yet-undiscovered reservoir) will need a similar analysis to that done for Prudhoe Bay and Pt Thomson.

Additionally, at some point in FY2011 and/or future years the Commission will likely hold hearings on gas offtake allowables for the PBU and PTU and pool rules for the PTU that would require the Commission to call upon the contractor for the PBU major gas study that was completed in 2007 and the contractor for the ongoing PTU reservoir study to provide testimony as expert witnesses.

The Commission has considered the pros and cons of relinquishing existing funds and feels strongly that it is important to have the funds available when needed so that the Commission does not create delays in the forward progress of major gas sales by having to reacquire the funds necessary to complete future tasks, which are certain to be required.

Prepared by the Department of Administration, Alaska Oil and Gas Conservation Commission, February 24, 2010

Alaska Department of Labor and Workforce Development
Gasline Funding History

The Alaska Gasline Inducement Act required the Commissioner of Labor and Workforce Development (DOLWD) to develop a job training program for Alaskans in gas pipeline project management, construction, operations, maintenance and other gas pipeline related positions (AS 43.90.470).

In FY 08, the department was appropriated $850.0 GF for the development of the program and the commissioner convened a steering committee to develop what became the Alaska Gasline Training Strategic Plan. The plan, first published in January 2008 identified four broad strategies to address system-wide improvements to Alaska's job training system and infrastructure focusing on preparing Alaskans for today's jobs that would give Alaskans an advantage in competing for gasline construction, maintenance and operation jobs as they became available. The steering committee emphasized that with or without the gasline Alaska has a skills gap that needs to be addressed through comprehensive system improvement. The lapse date for these funds was extended to year end FY09.

In FY 09, the department received a $600.0 GF capital appropriation to make improvements to the on-line labor exchange system, and the Alaska Works Partnership was granted $3 million GF toward construction of the Fairbanks Pipeline Training Center. In addition $860.0 GF was transferred to the department from an appropriation to Governor's Office to be used for Oil and Gas Development. These funds were provided to the department to continue the strategic planning effort, to implement targeted job training activities, to develop an on-line training provider data base and improve presentation of labor market data at the regional and local levels. Each of these items was called for in the Gasline Training Strategic Plan.

In FY 10, the department was authorized $410.0 GF carry-forward funding from the FY08 and FY09 appropriations and $550.0 GF in new authorization by the legislature to continue the strategic planning effort, to implement targeted job training activities, and to continue development of the on-line training provider data base and improve presentation of labor market data at the regional and local levels. The department also realigned other existing internal funding ($250.0 GF) to support Alaska Workforce Investment Board gasline activities.

In FY 11, due to a recognition that this planning, workforce development and training is necessary even without a gasline, the department instead of requesting continued gasline funding has reallocated funds within the existing budget to continue the strategic planning effort, to implement targeted job training activities, and improve the on-line training provider data base and presentation of labor market data at the regional and local levels. The realignment is included in the budget request which is currently before the House Finance Subcommittee for Labor and Workforce Development.

To date (FY 09 and FY 10 to date) the department has sponsored training for over 250 Alaskans in gasline related occupations with the funding identified above.

28, 2 2010].

FY10 Budget Narrative

The following appropriations to the Office of the Governor totaling $8,289,042 for the development of an in-state natural gas pipeline will lapse on February 28, 2010:

a. Sum of $4,322,000 appropriated from the Alaska capital income fund (AS 37.05.565)

b. The unexpended and unobligated balance of $3,967,042 of an appropriation made in Sec. 8, Ch. 1, 4SSLA 2008 (Department of Natural Resources, gas pipeline implementation)

Approval of this supplemental request will extend authorization for expenditure of the appropriations through June 30, 2010 so that work related to the development of an in-state natural gas pipeline can continue.

The funds will be used to pay personal services costs for the project director and project analyst, as well as travel, lease, and office expenses including office relocation. The majority of the funds will continue to be used to pay contractors for:

- Cost of Transportation analysis for the 16 pipeline configurations under investigation by the Baker engineering group
  - These data will be used to perform the model analyses for cost of service determination provide cost distributions for economic feasibility analyses
- Support of Permitting and Right of Way activity
  - Including field investigations on wetlands, culture, stream crossing and lakes.
  - Geotechnical evaluation of seismic hazards, landslides and permafrost mitigation along pipeline routes under investigation
- Continued refinement of project description and pipeline construction cost estimates as new engineering data is acquired
- Commercial feasibility and supply-demand opportunity identification
- Commercial Group meetings and information transfer to prospective developers
- Economic, environmental, and engineering reviews and reports in preparation for development of a sales package to be marketed to pipeline companies
- Continued Development of a GIS database and data library
- Facilitation of information data exchange and public meetings

All efforts are being made to coordinate with other state agencies to minimize overlap in the various permitting and ROW activities by State Agencies along the various pipeline routes.

FY10 Project Task Details: Alaska In-State Gas Pipeline

ASRC, Inc. - Progress Report

Total all tasks -Estimated Expenditures January 1 through June 30, 2010 $ 1,300,000

ASRC Energy Services' (AES) Project Management (PM) team will:

- continue to work with Michael Baker, Jr., Inc. to ensure that environmental factors are considered and incorporated into engineering pipeline designs and programs as they are developed,
- participate in weekly project team meetings,
- support to the Third-Party Environmental Consultant preparing the EIS,
- continue coordination of the permitting process, and
- manage environmental programs.
- coordinate the work study plan for preparation for the 2010 field work, ensure that safety training is complete, and qualified field staff are deployed to the field,

The AES PM team will work with technical and field staff to initiate field planning for the following 2010 season field programs:

- wetlands
- cultural resources
- stream, and
- lake studies .

The AES wetland team will continue to work on the 2008-2009 Wetlands Field Report and complete the wetlands pre-mapping work for the alternative Richardson Highway Stand Alone Route. The wetland team will prepare complete report and joint effort with Michael Baker Jr. on Minto Flats.

Michael Baker, Inc. - Progress Report - Alaska In-State Gas Pipeline

Total Estimated Expenditures **January 1, 2010 through June 30, 2010** **$3,504,000**

TASK 1 PROJECT MANAGEMENT:

Progress to Date:

- Ongoing internal project coordination/planning meetings to manage team activities
- Ongoing public relations
- Accounting activities, preparing invoices
- Preparing sub consulting scopes, schedules and budgets
- Requesting Notice to Proceeds
- Reviewing sub invoices
- Reviewing project expenditures, budget.
- Reporting activities

Forecast Task Activity:

Future activity will consist of continuing the same activities accomplished this far.

TASK 2 DATA MANAGEMENT/LIBRARY:

Progress to Date:

- Data gathering from federal, state and borough databases, ongoing and previous studies
- Geo database creation, compilation and assimilation of developed and acquired data
- Meta data research and compilation
- Data analysis
- Coordinating activities to support engineering, route analysis and environmental analysis. Map making to display requested information, support Alternatives Analysis and Project Description
- Developed SharePoint web based collaboration library site
- Ongoing SharePoint document population
- Quality control activities

Forecast Task Activity:

Future activity will consist of ongoing data collection and analysis to support the environmental analysis, engineering, cost estimating. At the end of the project, the geodatabase will be sufficiently developed to provide a basis for future design engineering activity if required.

TASK 3 OUTREACH:

Progress to Date:

- Established Commercial Working Group
- Conducted 2-day facilitated project planning with Commercial Working Group
- Conducted Legislative multi-day Field Reviews, Prudhoe Bay to Fairbanks (3)
- Conducted Legislative Briefing, presented Project Overview
- Conducted Legislative Briefing, presented Alternatives Analysis
- Conducted Legislative Briefing, presented initial Project Description
- Conducted Commercial Working Group meeting, presented initial Project Description
- Various Agency meetings
- Distributed Project Description to Legislative Contacts
- NEPA Public Scoping meeting support (Anchorage)
- NEPA Agency Scoping Meeting support

Forecast Task Activity:

Outreach activities will continue to support the permitting process and Legislative reporting requirements. Activities may also include a continuing dialogue with the commercial working group and coordinating work with ANGDA.

TASK 4 ALTERNATIVE ANALYSIS:

Progress to Date:

The Alternative Analysis was completed and presented to the Legislature. It compared the two standalone routes (Parks Highway and the Richardson Highway) using parametric cost analysis and concluded that the Parks Highway was approximately $500 million less expensive than the Richardson Highway Route. The two Spur line routes were also compared. Baker Progress Report 3

TASK 5 SUPPLY/DEMAND ANALYSIS:

Progress to Date:

An analysis of potential customers along the pipeline routes was completed to support the Alternatives Analysis document.

Forecast Task Activity:

Supply /Demand work will focus on potential markets including in-state demand for propane, GTL, CO2, butane and ethane.

TASK 6 PROJECT DESCRIPTION:

Progress to Date:

- An Initial Project Description derived from the results of the Alternative Analysis was compiled, presented to the Legislature and attached to the ROW Applications to provide a basis for the NEPA documentation.

- The final Project Description will be completed concurrent with the end of this project. It will include the GIS, Library, Mapping and Cost of Service products as its elements. The work on this task is focused on the construction cost. Progress on this task is described as follows:
- Design Basis is approximately 90 percent complete
- Alignment Sheet map templates have been created and are awaiting final background photography and mapping.
- Construction cost estimating has been divided into two areas: Facilities and Pipeline
- There are 16 separate facility scenarios being evaluated
- Facility cost estimating is approximately 20 percent complete
- Pipeline cost estimating is approximately 20 percent complete

Forecast Task Activity:

Construction Cost Estimates will be completed for use in calculating cost of service. Additional hard data such as geotechnical bore hole logs, soil temperature data and property ownership information will be gathered, analyzed and added to the Project Description as part of the GIS. Baker Progress Report 4

TASK 7 COST OF SERVICE:

Progress to Date: Minimal

Forecast Task Activity:

An economic model considering relevant factors such as system phasing, flow ramp up, the construction cost of facilities and pipeline, operating, maintenance construction administration and financing costs will be developed to predict the Cost of Service for the pipeline.

TASK 8 ROW APPLICATION:

Progress to Date: *Initial application*

Forecast Task Activity:

Responding to requests for further analysis or information from the BLM and DNR ROW permitting agencies

TASK 9 CONSTRUCTION PLANNING: *Not Currently Authorized*

TASK 10 EIS SUPPORT: *Not Currently Authorized*

ENTRIX, Inc. Progress Report - Alaska In-State Gas Pipeline

Total Estimated Expenditures **January 1, 2010 through June 30, 2010** **$720,000**

Progress to date –

- Project kickoff meeting with USACE, cooperating agencies and ADNR
- Reviewed Alternatives Report, Project Description, ROW applications and other project information
- Established FTP sites for agencies, ADNR and project team
- Developed NEPA overview for scoping meeting presentations
- Planned and executed scoping meetings and activities concerning the EIS process – Glennallen, Delta Junction, Nenana, Fairbanks, Denali Park, Anchorage, Wasilla, and Barrow. This included all materials, etc.
- Established the EIS website and protocol for accepting on-line and email comments.
- Developed Stakeholder Database

Alaska State Department of Natural Resources

Total Estimated Expenditures **January 1, 2010 through June 30, 2010** **$200,000**

- Develop deterministic pricing scenarios for In-State gas markets
- Evaluate various in-state natural gas demand scenarios using options defined by Baker through put options
- Build and evaluate the Tarriff and fiscal models to determine economic scenarios for various stand alone line configurations
- Review and perform gap analysis on costing and pipeline schedule for route and configuration analysis

US Bureau of Land Management

Total Estimated Expenditures **January 1, 2010 through June 30, 2010** **$ 150,000**

- Applicant Fee and cost recovery for Right of Way determination and the Environmental Impact Statement for the In-State Gas Line Project.

In-State Stand Alone Pipeline - FY11 Budget Narrative

1. Completion of environmental and permitting for USACE and State and Federal right-of-way approvals.

Total Estimated Expenditures **$ 2,000,000**

- Project Management - AES will continue to support the State of Alaska's project team and be involved with State of Alaska and the U.S. Army Corps of Engineers (USACE) in supporting the third-party EIS consultant with the NEPA review.
- Permitting - AES continue with the development and coordination with the USACE, BLM and State Pipeline Coordinator on the three major permits filed in 2009 and will begin working on ten other key permits for submission in late 2010 so that processing and the negotiations for permit approvals and mitigation measures may be completed in time for sale of the In-State pipeline asset to a future pipeline company.
- Stakeholder Engagement - Prepare and implement a stakeholder engagement program to support project development. Includes stakeholder contact database, and issues information. Engagement with the local boroughs, their communities and residents, tribal governments, the USACE, USFWS, BLM, State of Alaska, Native Corporations are critical.
- Wetlands - Conduct wetlands field program in the northern and southern sections of the proposed In-State Pipeline Project corridor to complete verification of wetlands pre-mapped to prepare for submission of the Preliminary Jurisdictional Determination to the USACE for their approval of the Section 404 Jurisdictional Determination; complete vegetation and habitat analysis. Provide assistance to the EIS contractor as required.
- Stream Crossings - compile the fish and wildlife resource data necessary for permit applications and assessing potential project impacts under the NEPA process. All data collection needs will be adjusted as necessary in accordance with the outcome of the draft EIS and provide information for engineering design and routing.
- Cultural - Phase one cultural resource studies will examine a potential corridor sufficiently large so that a right-of-way can be refined to the best possible alignment to avoid or minimize impacts to cultural resources.
- Lake Studies – Lake studies and surveys will be conducted primarily on the North Slope to assess the potential for water availability for use during winter construction.
- Wildlife and Bird Surveys – As needed to support the EIS process, wildlife and bird (raptor) studies will be conducted during the 2010 field season.
- Air and Noise Analysis – Evaluate compressor station locations for air emission issues and determine the need for air monitoring and weather stations to develop information for ADEC permitting.

- Pre-mapping - Prepare the wetlands pre-mapping information for route changes or alignments that have not been assessed such as the Gubik route, the Denali reroute, some of Minto Flats rerouted alignment, and so forth.

2. Engineering data acquisition for detailed engineering design of the project.

Total Estimated Expenditures: **$3,500,000**

- Gather detailed geotechnical data on major river crossings. The preferred river crossing method is assumed to be HDD (Horizontal Directional Drill). The assessment of the applicability of crossing rivers with HDD requires site specific geotechnical information. Additional field information on river approaches and total crossing length needs to be collected to verify use of HDD. This activity includes mapping and the drilling of geotechnical site investigation boreholes.

- Gather engineering field data. Pinch points such as Atigun Pass, Yukon River, and Denali Park require additional field verification of soils, available construction space and detailed routing to avoid conflicts with other facilities and to develop and verify conceptual design. Engineering field data is required to investigate and verify route geotechnical conditions and includes information on seasonal ground temperatures, geohazards and foundation conditions at project facilities (Gas Conditioning, Compressor Stations and NGL separation and storage). This information will be used to verify locations and develop conceptual designs to be included in final project documentation. This activity includes field mapping and the drilling of geotechnical site investigation boreholes with installation and monitoring of ground temperatures. Results will be analyzed and will be reported in a engineering report.

- Refine pipeline routing. The current pipeline routing is within a 2000 foot wide corridor. The actual centerline of the corridor has not been vetted and verified as the optimum route. Final route identification will be optimized for pipeline constructability, avoidance of environmentally sensitive areas, minimized TAPS, Highway and Railroad crossings, facilities location and optimized river crossings locations. These route adjustments will be made, if possible, within the 2000 foot wide corridor currently identified. Results of the engineering evaluation will be used to update the project GIS (Geographical Information System) and will be reported in a engineering report.

3. Refinement of Cost of Service estimates and Tariff modeling

Total Estimated Expenditures: **$750,000**

- Peer review engineering cost assessment of railbelt natural gas alternatives, and commercial assessment of options . There are a number of different project alternatives that have been proposed to alleviate the need for augmented for railbelt energy supply. They include two bullet line alternatives, two spur line alternatives, provision of propane from Prudhoe Bay to Fairbanks and other interior communities, LNG manufacturing on the North Slope to provide gas supply to Fairbanks and possibly other railbelt communities, and facilities to import LNG. Most of the analyses developed do not compare alternatives using similar assumptions for

input costs (e.g. steel prices, labor rates). Just as importantly, they do not make similar or consistent commercial assumptions. Peer review will assure that assumptions made by the various project proposals are consistent.

- Analyze the cost of Capital for in-state gas supply options, and Cost of Service Modeling. The commercial viability of all in-state gasline options depends on the cost of transportation. Because the contemplated scope of these projects would entail expenditures of several billion dollars, the transportation cost will be determined by the cost of capital – both the relative mix of debt and equity, and the cost of each. Assessment, for planning purposes, of the cost of capital for these small diameter pipelines is problematic and will be reviewed

- The cost-of-capital inputs need to be developed through scenario analysis. With the requested funds we will hire a financial advisor to help develop several realistic financing scenarios. Potential risks to the state's credit-rating, were the state to be called upon to take a major position in the project, will also be assessed. Some of the funds will be used for pipeline commercial expertise to develop realistic transportation contract scenarios and tariff modeling.

4. Prepare complete project documentation of In-State pipeline asset for consideration by private pipeline developer

Total Estimated Expenditures: **Budget Estimate; $250,000**

- Coordinate project team to include all, cost and design data, environmental, stakeholder, and permitting information for a 'data room' for prospective purchasers to review and evaluate. Be available to participate in presentations to the prospective purchasers and respond to technical questions that may be raised with regard to specific issues.

Less: Encumbrances		1,051,244	35,100		1,086,344
Unobligated balance at 2/22/2010	2,981,100	272,500	164,800	3,780,638	7,188,406

What has DNR done with the money spent in FY10?

Multi-Year Operating Appropriations for Right-of-Way permitting, $2,996,700 available, AR 37998 & AR 37934 (from FY05) – State Pipeline Coordinator's Office

- $22,200 has been utilized by the Joint Pipeline Office for 25% of a position that is providing planning and coordination support related to AGIA right-of-way work.

Multi-Year Operating Appropriations for Increased Workload, $239,100 available, AR 37905, AR 37936, AR 37995, AR 37996 (from FY05 and FY06) – Division of Oil & Gas, Commissioner's Office

- $95,000 has been used to pay part of the personal services costs of a project manager in the Commissioner's Office for AGIA Outreach.

- Due to multiple projects including gasline, the following projects for the Division of Oil and Gas were contracted out:
  - $64,910 has been used to pay a contract programmer for improvements to the royalty accounting system,
  - $78,290 has been used to pay for a contractor to perform two Best Interest Findings

Multi-Year Operating Appropriation for Gas Pipeline Analysis, $5,700 available, AR 40757

- No spending thus far in FY10 on this appropriation

One-time FY10 Operating Budget Item, $3.2 million for AGIA Implementation (Consultants), AR 37093 – AGIA Coordinator's Office
Actual expenditures of $1,876,256 thus far in FY10, with an additional $1,051,244 encumbered

- PINGO Int'l. - $593,171 for project plan monitoring of the AGIA licensee's pipeline project
  Review of pipeline design, construction and mitigation issues, review of cost and schedule estimates and licensee reimbursement requests

- Black & Veatch - $364,325 for economic risk & modeling
  Identified and developed a range of potential commercial instruments by which the state may reduce risks faced by potential shippers
- Black & Veatch - $428,556 for royalty inducement regulation assistance
  Assembled models relating to possible LNG shipments of N. Slope gas and valuation of substances such as CO2 and non-methane components of the gas stream
- Energey Capital Advisors/Energy Project Consultants - $197,876 for Commercial Advisor
  Monitor and review licensee's commercial and overall project plan, and provide assistance to state policy makers regarding various commercial measurs the state may take to increase the likelihood of project success
- Blaskovich Services, Inc. - $138,746 for oil and gas energy planning model
  Gathering large volumes of relevant data and meeting with state policy makers to determine framework needed for an Alaska Oil and Gas Energy Planning model
- Bonnie Robson - $153,581 for AGIA royalty regulations drafting assistance
  The contractor has incorporated policy decisions, based on information and analyses provided by other contractors, into an initial draft of the royalty regulations required under AS 43.90.310.

FY10 Base budget for AGIA Coordinator's Office - $681,700, AR 37093
Current expenditures are $360,725 in personal services, $64,576 in travel, $49,724 for services, and $6,775 for commodities: Total of $481,800 which is $72% of FY10 budget. An additional amount of $35,100 has been encumbered.

Capital Improvement Projects - $4,785,160 for two projects
Gasline Corridor Hazards Evaluations, $785,160 available from FY08 and FY09 CIP's, AR 40774 & AR 40841 – Division of Geological and Geophysical Surveys

- $267,827 has been used to pay contractors including Coastal Helicopters, Inc., Michael Smith, University of Alaska Fairbanks, Carver Geologic, and Alaska Aerofuel
- $79,333 has been used for in-house expense in the Division of Geological and Geophysical Surveys for personal services, travel, services and commodities for the project manager

Reservoir Modeling Studies, North Slope, $4.0 million available from FY09 CIP, AR 40852 – Division of Oil & Gas

- $657,400 was used to pay contractor PetroTel for completion of a study in the NorthStar unit.

What value was received?

1) Ensured licensee and state compliance and fulfillment of contractual obligations under AGIA

2) Ensured that the largest private project in North American history is moving forward on an accelerated schedule as required by the AGIA license and statute

3) Increased coordination between state and federal agencies as well as state and Canadian regulatory agencies

4) Increased information flow to the public

5) Completed field work to identify potential geologic hazards along the proposed corridor route

6) Established contracts for reservoir modeling to determine optimal use of N. Slope gas

OPERATING BUDGET AMENDMENT #1

OFFERED IN: The House Finance Committee

Adopted 3/8/10

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Doogan

Technical Amendment

Part 1:

DEPARTMENT:	**Commerce, Community & Economic Development**
APPROPRIATION:	Alaska Seafood Marketing Institute
ALLOCATION:	Alaska Seafood Marketing Institute
ADD:	$500.0 GF/PR (1005)
DELETE:	$500.0 RSS (1156)

EXPLANATION: $500.0 of the Governor's amended request for approximately $10 million of RSS was not switched from RSS to GF/PR in the House CS as part of the Budget Clarification Project. This amendment corrects this oversight and will not impact ASMI's budget.

Part 2:

DEPARTMENT:	**Environmental Conservation**
APPROPRIATION:	Environmental Health
ALLOCATION:	Laboratory Services
DELETE:	$100.4 GF (1004) Plus 1 PFT position
APPROPRIATION:	Environmental Health
ALLOCATION:	Food Safety & Sanitation
ADD:	$100.4 GF (1004) Plus 1 PFT position

EXPLANATION: This amendment is a technical correction to the **allocation** selected for amendment #1 that was offered and accepted at the DEC House Subcommittee closeout. The original increment adds an Environmental Health Technician and related costs in support of the permitting and inspection of new shellfish farms. This increment was placed in the Laboratory Services allocation but DEC wants the increment placed in the Food Safety and Sanitation allocation. Both allocations are within the Environmental Health appropriation in DEC.

Part 3:

DEPARTMENT: **Fish and Game**
APPROPRIATION: Sport Fisheries
ALLOCATION: Sport Fisheries

ADD: $450.1 Fish and Game Fund (1024)
DELETE: $450.1 General Fund Program Receipts (1005)

ADD: **The following new LANGUAGE subsection to Section 25:**

Fees collected at boating and angling access sites managed by the Department of Natural Resources, division of parks and outdoor recreation, under a cooperative agreement authorized under AS 16.05.050(a)(6), during the fiscal year ending June 30, 2011, estimated to be $450,100, are appropriated to the fish and game fund (AS 16.05.100).

EXPLANATION: The U.S. Fish and Wildlife Service expressed concern that a portion of the fund changes associated with the budget clarification project provide insufficient tracking of boating access fees. The federal government prefers that boating receipts be deposited into the F&G fund. This amendment aligns revenue and expenditures with federal requirements (see explanation below).

The U.S. Fish and Wildlife Service requires that all user fees collected on federally acquired or developed facilities must be used for maintenance and operation of those facilities. ADF&G Sport Fisheries division has current and ongoing grants with USFWS which creates a federal nexus to these user fees collected by Department of Natural Resources (DNR).

Under U.S. Fish and Wildlife Service (USFWS) federal grants, all user fees collected on federally acquired or developed facilities must be used for maintenance and operation of those facilities. ADF&G Sport Fisheries division has current and ongoing grants with USFWS which creates a federal nexus to these user fees collected by Department of Natural Resources (DNR).

A cooperative agreement provides the mechanism for transfer of user fees from DNR to ADF&G Fish and Game fund. Federal Office of Inspector General (OIG) auditors have approved this process and the deposit of the fees in the Fish and Game fund as it ensures ADF&G maintains control over the funds and the maintenance and operation of the facilities.

#1 pg 3

Part 4:

DEPARTMENT: **Natural Resources**
APPROPRIATION: Resource Development
ALLOCATION: Recorder's Office/Uniform Commercial Code

ADD: $4,470.4 GF/PR (1005)
DELETE: $4,470.4 RSS (1156)

EXPLANATION: $4,470.4 of the Governor's request of RSS was not switched from RSS to GF/PR in the House CS as part of the Budget Clarification Project. This amendment corrects this oversight and will not impact the Recorder's Office/Uniform Commercial Code's budget.

Part 5:

DEPARTMENT: **Public Safety**
APPROPRIATION: Alaska State Troopers
ALLOCATION: Narcotics Task Force

DELETE: $25.2 Stimulus09 (1212)

EXPLANATION: The Governor requested a $25.2 fund source change from one-time ARRA funding to general funds to cover salary adjustments for existing PSEA bargaining agreements. The basis of the request was that the ARRA fund source was "unrealizable" in this allocation in FY11.

While it may be true that no *new* ARRA receipts will be available in FY11, carryforward of $5.4 million ARRA receipts is anticipated. In this situation, the fund change is not necessary because the ARRA fund source will be available in FY11. However, by denying the agency's request, the subcommittee not only denied an increase in GF, but also appropriated *new* FY11 ARRA funding.

This amendment eliminates new ARRA authorization (which is not expected to be available) in anticipation of using a portion of the allocation's $5.4 million ARRA carryforward to pay the salary adjustments.

#1 pg 4

Part 6:

DEPARTMENT: **Revenue**
APPROPRIATION: Child Support Services Division
ALLOCATION: Child Support Services Division

DELETE: Page, 37, lines 6-9, all material, which reads

The amount appropriated by this appropriation includes the unexpended and unobligated balance on June 30, 2010, of the receipts collected under the state's share of child support collections for reimbursement of the cost of the Alaska temporary assistance program as provided under AS 25.27.120.

EXPLANATION: The deleted language permits CSSD to carry-forward receipts from the prior year. Because the CS replaced receipts with General Fund Match, the language is unnecessary.

Part 7:

DEPARTMENT: **Revenue**
APPROPRIATION: Child Support Services Division
ALLOCATION: Child Support Services Division

ADD: $297.0 Stimulus09 (1212)
Transaction Type: Inc OTI

EXPLANATION: This amendment authorizes expenditure of $297,000 of federal FY10 ARRA Stimulus Funds. This funding will be available to the Division in the 1st quarter of state FY11.

Part 8:

DEPARTMENT: **Transportation and Public Facilities**
APPROPRIATION: Design, Engineering and Construction
ALLOCATION: Southeast Design and Engineering Services

ADD: $50.0 General Fund Program Receipts (1005)
DELETE: $50.0 Receipt Supported Services (1156)

EXPLANATION: This was an omission in the fund source changes that are a part of the Budget Clarification Project.

#33a ~~Replacement~~ Adopted 3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representative Gara Doogan

DEPARTMENT:	Commerce, Community and Economic Development
APPROPRIATION:	Community Assistance and Economic Development
ALLOCATION:	Office of Economic Development

DELETE: $125,000 GF (1004)

EXPLANATION:
The governor requested $250,000 increment to develop policy on business and economic development. It is not clear why policy development cannot occur with executive agency staff, and the policy experts who exist in the department, Governor's office, and Lt. Governor's office. This amendment reduces the increment to $125,000.

Numbers Section

DEPARTMENT: Various—as shown in the table below
ADD: $17,055.3 UGF (1004) Unrestricted general funds
DELETE: $15,000.0 UGF (1004) Unrestricted general funds (estimate)

Agency	Amount Added to Base
Department of Administration	22.8
Department of Corrections	2,655.3
Department of Education and Early Development	57.2
Department of Environmental Conservation	37.8
Department of Fish and Game	77.7
Department of Health and Social Services	600.0
Department of Labor and Workforce Development	35.3
Department of Military and Veterans Affairs	327.3
Department of Natural Resources	68.0
Department of Public Safety	273.9
Department of Transportation & Public Facilities	11,250.0
University of Alaska	1,650.0
Total Unrestricted General (UGF)	**17,055.3**

EXPLANATION: This amendment revises the amounts appropriated under the "fuel trigger" provisions of section 21 by increasing the trigger start point from $36 to $51 dollars. This change reduces the projected annual appropriations for high fuel costs by $15 million annually at any oil price above $51. The reduction appears in budget reports as a revised estimate of the impact of section 21. The actual impact will depend upon fuel prices during FY11.

The amendment also distributes $15 million to various agencies to offset the reduction in funding through the trigger mechanism. That $15 million is distributed to agencies in the same manner and amount as occurred in FY10 under the August 1 trigger mechanism. In addition, $2,053,300 is appropriated to the Department of Corrections in order to align available funding for utilities with documented expenditures. The $17.05 million will be added to agency base budgets.

The intent of the amendment is to shift funding from contingency (trigger) to base in recognition of sustained high oil prices. The amendment reduces the projected trigger appropriations from $42 million to $27 million.

OPERATING BUDGET AMENDMENT #3

OFFERED IN: The House Finance Committee Adopted 3/8/10

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Dodson

Transfer In $ 2,230.8 to Alaska Court System/Therapeutic Courts

DEPARTMENT: Alaska Court System
APPROPRIATION: Therapeutic Courts **(new appropriation)**
ALLOCATION: Therapeutic Courts

TRANSFER IN:	General Funds 1004	$1,356.3
	GF/MH 1037	$ 357.2
	Alcohol and Other Drug Abuse Treatment & Prevention Fund 1180	$ 517.3

ADD: **Intent**

It is the intent of the legislature that contracts to purchase services associated with therapeutic courts be based loosely on the amounts transferred from other agencies into this appropriation. Contractual agreements should be for amounts determined by the Court System to be in the best interest of operating therapeutic courts in an efficient and effective manner.

EXPLANATION: This amendment will consolidate all funding for Therapeutic Courts into a new appropriation in the Alaska Court System. Funds will be transferred from the Departments of Law ($364.7), Health and Social Services ($1,663.7), Corrections ($252.2), and Administration ($355.0) and the Alaska Court System/Therapeutic Court's component ($2,018.3) in an effort to enhance coordination and accountability for the Therapeutic Courts programs.

Transfer Out $ 364.7

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly

DEPARTMENT: **University of Alaska**

APPROPRIATION: University of Alaska

DELETE: INTENT

It is the intent of the legislature that future requests by the University of Alaska for Unrestricted General Funds move toward a long-term goal of 125% of Actual University Receipts for the most recently closed fiscal year.

ADD: INTENT

It is the intent of the legislature that the University of Alaska's FY12 budget request for unrestricted general funds not exceed 129 percent of actual University Receipts for FY10. It is the intent of the legislature that future requests by the University of Alaska for unrestricted general funds move toward a long-term goal of 125 percent of actual University Receipts for the most recently closed fiscal year.

EXPLANATION: The addition of a specific target for FY12 is intended to clarify and limit the expectations of both the University and the legislature.

The unrestricted general fund (UGF) increment in the CS was based on the ratio of UGF to designated general funds (DGF). DGF includes TVEP funding (state funding for technical and vocational education) in addition to University Receipts. Inclusion of TVEP in future funding ratios would result in the state matching state funds appropriated to the University. If the match ratio used to determine the FY11 appropriation had used a ratio of UGF to University Receipts of 129 percent, the University would have received $1.5 million less in unrestricted general funds. Applying a 129 percent ratio in FY12 assures movement toward the long-term goal that UGF not exceed 125 percent of University Receipts.

OPERATING BUDGET AMENDMENT

#7

Adopted 3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Doogan, Gara

DEPARTMENT: Health and Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: AK Fetal Alcohol Syndrome Program

ADD: **Intent language at the allocation level**

It is the intent of the legislature that AK Fetal Alcohol Syndrome Programs located in Juneau, Kenai, Sitka, and Bethel be expanded.

EXPLANATION: This amendment specifies that an increment approved by the HSS subcommittee is intended to expand services in the four named communities. The transaction title will be modified to reflect the subcommittee's intent.

OPERATING BUDGET AMENDMENT

#8

Adopted 3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Dyson

STATEWIDE 10% GENERAL FUND TRAVEL REDUCTION

DEPARTMENT	10% Reduction	Amendment Reduction
Administration	(112.0)	(112.0)
Commerce, Community & Econ Dev	(135.2)	(135.2)
Corrections	(197.4)	(197.4)

Law	(118.4)	(118.4)
Military & Veterans Affairs	(17.2)	(17.2)
Natural Resources	(192.2)	(192.2)
Public Safety	(509.5)	-
Revenue	(48.1)	(48.1)
Transportation	(422.9)	(422.9)
University of Alaska	(1,496.8)	-
Alaska Court System	(171.9)	(171.9)
Legislature	(387.7)	(387.7)
TOTAL	**(4,670.4)**	**(2,664.1)**

Explanation: This amendment reduces travel authorization in allocations with budgeted travel and with general funds. Departments should prioritize travel and use existing technology as appropriate to facilitate meetings. The University and Public Safety are excluded from the reductions. In addition, three fund codes (PFD Criminal Funds,Vehicle Rental Taxes, and VoTech Ed) were excluded because the legislature fully appropriates these funds. Because the budget does not identify line items by fund source, the following method was used to determine the amount of travel that is reduced in each allocation.

Ratio of each general fund code (UGF and DGF) in the House CS to the total FY11 allocation's funding	X	10% of the FY09 actual travel expenditures	=	Amount of the travel reduction

Please see the Transaction Detail report for the amounts eliminated from each allocation.

Note: Combining this amendment with other House Finance Committee Actions may cause negative line items or fund sources. Should this occur, Legislative Finance will make technical adjustments to the amounts in the travel amendment to correct these errors.

OPERATING BUDGET AMENDMENT

9

OFFERED IN: **The House Finance Committee**

Adopted 3/8/10

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Dowson, Gara

DEPARTMENT: Health and Social Services
APPROPRIATION: Medicaid Services **(new appropriation)**

ADD: Transfer the following allocations from their existing locations to the newly created Medicaid Services appropriation:

Behavioral Health Medicaid Services
Children's Medicaid Services
Adult Preventative Dental Medicaid Services
Health Care Medicaid Services
Senior and Disabilities Medicaid Services

ADD: **Intent language at the appropriation level**

It is the intent of the legislature that the Department of Health and Social Services identify and investigate alternatives that could improve internal administrative management and accounting controls over the Medicaid program, including determining the viability of outsourcing those activities. The Department should be prepared to present its findings to the legislature during the 2011 session.

EXPLANATION: Consolidate all Medicaid allocations within the Department of Health and Social Services to the newly created Medicaid Services appropriation.

OPERATING BUDGET AMENDMENT

#10
Adopted
3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/ CSHB 302 (FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Doogan, Gara

DEPARTMENT:	Health and Social Services	
APPROPRIATION:	Medicaid Services (new appropriation)	
ALLOCATION:	Behavioral Health Medicaid Services	
DELETE:	$1,116.2	GF/MH (1037)
DELETE:	$1,628.1	Federal Receipts (1002)
DELETE:	$297.1	Stimulus09 (1212)
ALLOCATION:	Health Care Medicaid Services	
ADD:	$75.4	GF/Match (1003)
ADD:	$146.5	Federal Receipts (1002)
ADD:	$17.5	Stimulus09 (1212)
ALLOCATION:	Senior and Disabilities Medicaid Services	
DELETE:	$1,616.7	GF/Match (1003)
DELETE:	$2,201.5	Federal Receipts (1002)
DELETE:	$447.5	Stimulus09 (1212)

EXPLANATION: Funding adjustments to Medicaid allocations split the differences between the Governor's Amended Medicaid request and projections of a legislative consultant. The result is a reduction of 2,657.5 in general funds.

OPERATING BUDGET AMENDMENT #11

Adopted
3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Doogan

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Health Care Services
ALLOCATION:	Medicaid Services

DELETE: $4,900.0 General Fund (1004)

EXPLANATION:

Prior to the Medicare Part D program implementation, the State paid prescriptions for Medicaid dual-eligibles (enrollees in both Medicaid and Medicare) through Medicaid. With the implementation of Medicare Part D, the state no longer pays for dual eligibles' prescriptions but does help finance them through payments to the federal government. This is commonly referred to as the "Clawback." Payments are based on a per capita cost calculated by the federal government and made on a monthly basis. The state's portion is determined by the Title XIX FMAP rate.

In October 2008, ARRA provided an increase in the State's FMAP rate; it was initially determined that this higher FMAP rate would not apply to the Medicare Part D Clawback payments. On Feb 18, 2010, HHS announced a change to this decision and will now apply the ARRA FMAPs to the Clawback payments. This change will be retroactive to Oct 1, 2008. The State's overpayments of past monthly Clawback will be refunded in the form of a credit to offset future payments. Alaska's credit from Oct 1, 2008 through Dec 31, 2009 is approximately $5.1 million. In addition, future payments will be calculated using the ARRA FMAP and there will be savings from what was originally budgeted for Clawback payments. The savings will be approximately $390,000 per month for the remaining 6 months of SFY 2010 (Jan 1 – June 30, 2010). This is a total of $7.5 million in savings for SFY 2010 from original calculations.

These savings will continue through Dec 31, 2010 and are anticipated to be further extended through June 30, 2011 at approx. $414,000 per month for a total SFY2011 savings for $4.9 million over 12 months. Savings for SFY2010 are higher than those for SFY2011 due to the credit from past payments; in effect 21 months of savings are being realized in SFY2010.

OPERATING BUDGET AMENDMENT #12

OFFERED IN: The House Finance Committee Adopted 3/8/10

TO: CSHB 300(FIN)/ CSHB 302 (FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Dougan, Gara

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Office of Children's Services
ALLOCATION:	Children's Services Management
ADD:	$165.0 General Funds (1004)
ALLOCATION:	Front Line Social Workers
ADD:	$955.3 General Funds (1004)
APPROPRIATION:	Public Health
ALLOCATION:	Women, Children and Family Health
ADD:	$347.8 General Funds (1004)
APPROPRIATION:	Departmental Support Services
ALLOCATION:	Administrative Support Services
ADD:	$700.0 General Funds (1004)
ALLOCATION:	Information Technology Services
ADD:	$487.5 General Funds (1004)

EXPLANATION: Replace unrealizable interagency and federal receipts due to the loss of Medicaid School Based Claims funding. Reductions totaling $1.5 million in interagency receipts were accepted in the House Finance Subcommittee for the Children's Services Management, Front Line Social Workers, and Women, Children and Health allocations. An increase of $737.5 of general funds was accepted in the House Finance Subcommittee action for the Information Technology Services allocation. These changes total 2,655.6 of general funds.

#13

Adopted
3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Dongan

DEPARTMENT: Health and Social Services
APPROPRIATION: Behavioral Health and Children's Services
ALLOCATION: (various, see table below)

ADD: $412.5 General Fund/Mental Health (1037)

Amount	Fund	Fund #	Title	Appropriation	Allocation
$100.0	GF/ MH	1037	BTKH Tribal/rural system development	Behavioral Health	Behavioral Health Administration
$25.0	GF/ MH	1037	BTKH Transitional Aged Youth	Behavioral Health	Services for Severely Emotionally Disturbed Youth
$250.0	GF/ MH	1037	BTKH Community BH Centers Outpatient & Emergency Residential Svc & Training	Behavioral Health	Services for Severely Emotionally Disturbed Youth
$37.5	GF/ MH	1037	BTKH Foster Parent & Parent Recruitment training & support	Children's Services	Family Preservation

EXPLANATION:

The Bring the Kids Home (BTKH) general fund/mental health requests above provide a match to funding provided by the Mental Health Trust Authority. Without this match the BTKH strategies and goals outlined in the five-year plan will be difficult to achieve and the MHTAAR funding may not be provided.

The tribal/rural system development funding will assist in establishing serious emotional disturbance (SED) children's services in rural areas, improve strategies specific to tribal systems, and improve funding mechanisms (such as Medicaid at 100% FMAP). The funding will support tribes to expand health service delivery as recommended by Senate Bill 61 (Ch 10, SLA 2007) (Medicaid Reform report).

The Transitional Aged Youth project will start up and sustain community-based capacity for transitional aged youth to move into adulthood with age appropriate services ensuring productive work or educational activities. The goal of this increment is to target youth who are vulnerable to moving into adult systems such as adult justice, emergency mental health or substance abuse, early pregnancy or hospital based services.

The Community Behavioral Health Centers Outpatient & Emergency Residential Services and Training program provides innovative programs/training to reduce the need for costly residential level services for youth experiencing serious emotional disturbance. A separate evaluation component is funded by the Trust to demonstrate the cost effectiveness of these outpatient services.

The Foster Parent and Parent Recruitment Training and Support project provides resources to recruit and screen potential foster parents, and provide training and technical assistance for parents and foster parents. Therapeutic Foster Homes are recognized in BTKH planning as an economical and effective alternative to costlier types of residential care for youth experiencing serious emotional disturbance.

Failed
3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Kelly and Stoltze

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Health Care Services
ALLOCATION:	Medicaid Services

DELETE: $615.9 General Funds (1004)

ADD CONDITIONAL LANGUAGE:
No money appropriated in this appropriation may be expended for an abortion that is not a mandatory service required under AS 47.07.030(a). The money appropriated for Health and Social Services may be expended only for mandatory services required under Title XIX of the Social Security Act and for optional services offered by the state under the state plan for medical assistance that has been approved by the United States Department of Health and Human Services.

EXPLANATION: In the calendar year 2009, 1,875 abortions were performed in Alaska (6.6% increase over 2008). Of these, 1,033 individuals received either abortions or abortion-related services totaling the estimated expenditure of $615,900 in general fund dollars. None of these services qualified under the Hyde Amendment for Medicaid reimbursements.

For over a decade, the Department of Health and Social Services has been using general fund dollars to replace Medicaid funds when paying for abortions because the abortions were elective and did not qualify under the Hyde Amendment for Medicaid reimbursement.

The conditional language places on the record the Legislature's objection to the administration using general fund dollars to pay for elective abortions that do not qualify under federal law for reimbursement.

STATE OF ALASKA

DEPT. OF HEALTH AND SOCIAL SERVICES

OFFICE OF THE COMMISSIONER
FINANCE AND MANAGEMENT SERVICES

SEAN PARNELL, GOVERNOR

P.O. Box 110601
Juneau, AK 99811-0601
Phone: (907) 465-1630
Fax: (907) 465-2499

February 22, 2010

The Honorable John Coghill
State Capitol, Room 504
Juneau, AK 99801-1182

Dear Senator Coghill:

In response to your question on February 19th, regarding abortions, please see our response below:

- ***How much was spent on abortions in calendar year 2009 and how many abortions were there; also how many were covered with federal dollars?***

The Bureau of Vital Statistics reports that in calendar year 2009 there were 1,875 abortions performed.

The state paid $615.9 general funds for abortions or abortion-related Medicaid services incurred in the last half of FY2009 and the first half of FY2010 for 1,033 individuals based on claims paid in calendar year 2009. This is not necessarily the number of abortions performed, but rather the number of individuals receiving abortions or abortion-related Medicaid services. There were no such services paid for by federal Medicaid during that period.

If you have additional questions regarding this issue, please contact me at 465-1630.

Sincerely,

Alison Elgee
Assistant Commissioner

cc: William Hogan, Commissioner
Patrick Hefley, Deputy Commissioner

IMPORTANT NOTICE: PAYMENTS FOR ABORTION PROCEDURES
August 10, 2001

Dear Medical Assistance Provider:

As you know, Planned Parenthood of Alaska filed a lawsuit against the state in 1998 following the legislative action eliminating funding for the General Relief Medical program which had historically paid for therapeutic abortion procedures. The Superior Court ruled against the state, and the state appealed to the Alaska Supreme Court. On July 27, 2001, the Alaska Supreme Court affirmed, ruling that the state's failure to pay for therapeutic abortion violates equal protection under the Alaska Constitution, and that the state must pay for medically necessary abortions if it pays for prenatal care and childbirth. Because this is a state law issue, the Alaska Supreme Court is the final authority and there can be no appeal of this ruling.

At the end of the 2001 legislative session, the legislature passed two budget bills for fiscal year 2002 containing purpose language stating that the appropriated funding may only be expended for an abortion that is covered under the federal Medicaid program. Planned Parenthood filed a motion asking the court to clarify or amend its order to address this new budget language. On July 31, 2001, the Superior Court ruled that insofar as this budget language is unconstitutional under the recent Alaska Supreme Court ruling, it has no effect and the state must pay for medically necessary abortions within 90 days of receipt of a valid claim.

Accordingly, claims for therapeutic abortion procedures that were held pending the outcome of this lawsuit will be paid through the state Medicaid program. Future claims for reimbursement for therapeutic abortion will be paid within 90 days, subject to Medicaid claims processing requirements. Abortion claims that meet the federal Medicaid program requirements will not be affected.

Thank you for your patience during the litigation of this important issue.

Sincerely,

Bob Labbe
Director

Adopted
3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representative Hawker

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Health Care Services
ALLOCATION:	Medicaid Services

ADD CONDITIONAL LANGUAGE:
No money appropriated in this appropriation may be expended for an abortion that is not a mandatory service required under AS 47.07.030(a). The money appropriated for Health and Social Services may be expended only for mandatory services required under Title XIX of the Social Security Act and for optional services offered by the state under the state plan for medical assistance that has been approved by the United States Department of Health and Human Services.

OPERATING BUDGET AMENDMENT

15

Adopted 3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Doogan

DEPARTMENT: Law
APPROPRIATION: Civil Division
ALLOCATION: BP Corrosion

Convert the BP Corrosion allocation into a separate appropriation.

APPROPRIATION: BP Corrosion
ADD: $4,000.0 General Fund (1004) Inc OTI

EXPLANATION:

The State filed a complaint in Superior Court on March 31, 2009, seeking recovery of lost revenues for 2006-08 due to curtailments of oil production stemming from British Petroleum Alaska (BPXA)'s negligent corrosion practices. The 2006 pipeline spills and shutdowns, and the 2006-08 emergency pipeline replacements caused by the negligent corrosion practices reduced oil production during those years by at least 35 million barrels of oil. The state's lost revenue for the period 2006-08 (based on the royalties and tax revenue lost to the State) is preliminarily estimated at $900 million to $1.2 billion. Civil penalties and assessments under the environmental statues range from $1.6 million to more than $7 million depending on whether BPXA's corrosion practices are found to be grossly negligent. When this complaint was originally evaluated, the State estimated the cost of the case at $24 million.

FY2011 is a critical year for the litigation. The jury trial is scheduled for September 2011 (FY2012). The bulk of the discovery and post discovery pre-trial work will occur in FY2011 under the Pretrial Order entered by Judge Michalski last August. For the discovery phase, this means offensive and defensive discovery; discovery and dispositive motion practice; third party discovery; numerous depositions; and expert work, expert reports and expert depositions. The post discovery pre-trial phase will include dispositive motion practice, pre-trial evidentiary motions, trial preparation, witness testimony preparation, exhibits, demonstrative exhibits, and designation of deposition testimony.

This is an electronic document intensive case. Pursuant to the original investigative subpoenas, we have received over 2 million pages of electronic documents from BPXA. We are now engaged in document discovery with BPXA and its working interest owners. We have received over 120 discovery requests from BPXA for state documents and we are collecting and reviewing responsive documents. In anticipation of contentious discovery disputes over claims of business confidential information, the parties have agreed to the appointment of a discovery master and a protective order has been put in place. The case also requires a number of experts to address pipeline corrosion, oil field management, oil production mechanisms, reservoir issues, and economic loss calculations.

OPERATING BUDGET AMENDMENT #16

Adopted 3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)

OFFERED BY:
Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly Dugan

DEPARTMENT:	Law
APPROPRIATION:	Civil Division
ALLOCATION:	Oil, Gas and Mining

ADD: $3,000.0 General Funds (1004) Inc OTI

EXPLANATION:

In FY2009, the Oil, Gas and Mining section continued to receive funding with one-time increments. In FY2009, the increments were $5,109.2 for Oil and Gas matters including Pt. Thomson litigation and TAPS tariffs, and for TAPS Strategic Reconfiguration. Although we believe our FY2011 efforts will require a similar amount, our reduced request recognizes we are anticipating an estimated $1,500.0 available from the appropriation made in Section 1, Chapter 6 SLA 2007. The following pages discuss the larger cases covered by this request.

OPERATING BUDGET AMENDMENT

17

Adopted 3/10/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Fairclough, Thomas, Austerman, Joule, Kelly, Doogan, Foster, Gara, Salmon

DEPARTMENT:	Education and Early Development
APPROPRIATION:	K-12 Support
ALLOCATION:	Special Schools

ADD: $180.0 General Fund (1004)

EXPLANATION:

This request is needed to provide for additional transportation services for students from Mat-Su to the Alaska School for the Deaf.

According to 4 AAC 33.070, the department is required to operate a centralized school for the deaf. A school district may operate the school for the deaf under an agreement that includes an annual plan of service with the department.

The Anchorage School District has been the school district that operates the Alaska school for the deaf under an agreement for many years. This agreement constitutes a contractual relationship between the State of Alaska, Department of Education and Early Development and the Anchorage School District to provide these services.

OFFERED BY: Representatives Hawker, Stoltze, Fairclough, Thomas, Austerman, Joule, Kelly, Doogan, Foster, Gara, Salmon

DOMESTIC VIOLENCE AND SEXUAL ASSAULT PREVENTION INITIATIVE AMENDMENT

Domestic Violence and Sexual Assault Prevention Initiative Amendments Summary

Department	Component	Project	Amount
Governor	Executive Office	DVSA Coordinator	$200.0
Law	Various Components	Replacement of Federal earmark	$1,807.0
Public Safety	CDVSA	Victims' Services	$125.0
Public Safety	AST Detachments	DVSA investigations, training and victim exams (3 PCNS)	$725.0
Office of the Governor	Executive Office	Planning, development and execution	$3,000.0
		TOTAL	**$5,857.0**

DEPARTMENT: **Governor**
APPROPRIATION: Executive Operations
ALLOCATION: Executive Office

ADD: $100.0 GF (1004) and 1 PFT
$100.0 MHTAAR (1092)

EXPLANATION: The State of Alaska struggles to combat appalling levels of sexual assault. According to Crimes in the United States, 2006, the annual FBI compilation of crime statistics, Alaska has a rate of sexual assault of 76 per 100,000. This is over twice the national average. 48% of these sexual assaults are handled by C Detachment, Division of the Alaska State

Troopers located in Bethel. In 2005, the number of reported rapes in Bethel (population 6,468) was the same as Anchorage (population 279,243).

The Governor introduced budget proposals for a Domestic Violence/Sexual Assault initiative. Under a 10-year plan, he envisions the State ramping up prevention, victims' services, investigations and prosecutions to significantly reduce the incidence of these crimes.

A central element in the Governor's initiative is a request for a permanent, full-time, policy-level position to coordinate the related activities of multiple state agencies and nonprofits. To this end, the Department of Law requests one PFT and $200.0 GF funding for this Coordinator position.

DEPARTMENT: **Law**
APPROPRIATION: Criminal Division
ALLOCATION: Various – See allocations below

ADD: $1,807.0 GF (1004)

EXPLANATION: Three federal grants that employ approximately 17 FTEs are terminating this calendar year, one on June 30th, another on September 30th and the last December 31st. Twelve of these positions are exclusively devoted to sexual assault or domestic violence and the remainder prosecute primarily sexual assault and domestic violence. The Department is hoping to replace these funds with other yet-to-be-identified federal funds. Pending the identification of another funding source, the Department is requesting a $1,807.0 fund source switch from Federal funds to General funds. These were originally proposed as fund sources changes; House Finance accepted the federal decrements, leaving an unmet GF need of equal size. These replacement general funds will allow the department to continue employing attorneys and paralegals in Bethel, Barrow and Anchorage to aid in the prosecution of domestic violence as well as adult and child sexual assault cases.

The $1,807.0 GF amendment request is comprised of:

- 2nd Judicial: Earmark $90.0 and Rural Prosecution & Sexual Assault $90.1.
- 3rd Judicial-Anchorage: Rural Prosecution & Sexual Assault $335.6.
- 3rd Judicial-Outside Anchorage: Rural Prosecution & Sexual Assault $454.6.
- 4th Judicial: Earmark $285.0 and Rural Prosecution & Sexual Assault $11.1.
- OSPA: Earmark $271.6 and Rural Prosecution & Sexual Assault $269.0.

Allocations	GF (1004)
2nd Judicial	180.1
3rd Judicial - Anchorage	335.6
3rd Judicial - Outside Anchorage	454.6
4th Judicial	296.1
Criminal Appeals/Special Prosecution	540.6
	1,807.0

DEPARTMENT: **Public Safety**
APPROPRIATION: Council on Domestic Violence and Sexual Assault
ALLOCATION: Council on Domestic Violence and Sexual Assault

ADD: $125.0 General Fund (1004)

EXPLANATION: This increase will help to ensure ongoing funding of direct victims' services grants, and research and prevention activities in FY2011.

The amount of funding from federal competitive and/or one-time grants projected to be available over the course of state FY2011 is unknown. The Governor's goal is to ensure ongoing funding for this statewide priority of stopping the cycle of domestic violence and funding prevention and adequate victim services. Although the department and the Council will continue to aggressively seek additional grant funds, this increase in general funds will provide a reliable funding stream for victims' services providers and prevention activities.

DEPARTMENT: **Public Safety**
APPROPRIATION: Alaska State Troopers
ALLOCATION: Alaska State Trooper Detachments

ADD: $725.0 General Fund (1004) + 3 PFTs

EXPLANATION: This amendment restores the Governor's request to provide general funds to the Alaska State Troopers for increased domestic violence and sexual assault (DV/SA) related investigations, training, and victim exam costs. This increment is an important part of the Governor's comprehensive initiative to fight the cycle of sexual assault and domestic violence.

Three new State Trooper/Investigator positions in Anchorage ($500.0) will primarily focus on providing vital follow-up investigative activities specific to sexual assault and sexual abuse of minor cases. The trooper/investigators will coordinate their investigative activities with the responding trooper/officer as well as the prosecutor assigned to the case. Follow-up investigative activities will include locating and interviewing witnesses, investigating "prior bad acts" committed by the offender, determining if there are any additional victims, and conducting numerous other investigative actions recommended by the prosecution. The department anticipates that these follow-up activities will provide a more thorough report, and thus support the overall goal to enhance prosecution and hold offenders accountable.

The department will contract with a trainer ($75.0) to increase and enhance training to rural Alaska. Training will be provided on DV/SA related issues to Village Public Safety Officers, Village and Tribal Police Officers, and other first responders such as behavioral health aides and village health aides. The goal is to increase understanding and recognition of these crimes and

increase skills specific to the discipline in an effort to better enhance services to victims in rural Alaska as well as increase reporting. Research has shown that there is a 40 percent reduction in the rate of serious injury from assault in communities with VPSO or VPO.

Increased contractual services ($150.0) will assist local governments with paying the cost of forensic medical sexual assault exams. Funds will be used for emergency circumstances in cases in which, without the financial assistance, the necessary exam would not take place and vital evidence would be lost. Funds may be used to assist with transportation to and from a facility that conducts the initial exam as well as the follow-up exam. Collection of forensic evidence and documentation of injuries are two key components of a forensic exam and both of these increase successful prosecutorial outcomes (convictions). The funds will also allow certain victims access to services that may not be available in their communities.

Page 68, following line 22:

Insert a new subsection to read:

"(e) The sum of $3,000,000 is appropriated from the general fund to the Office of the Governor for planning, development, and execution of prevention and intervention strategies to reduce the occurrence of domestic violence and sexual assault in the state for the fiscal year ending June 30, 2011. It is the intent of the legislature that this appropriation be used to support planning, victimization studies, initiative evaluation activities, targeted wellness programs, multi-disciplinary rural community pilot projects, batterer intervention programs, evaluation of evidence-based best practices, children's advocacy activities, health and personal safety coordination, public education and marketing, pro bono legal referrals, trauma training for behavioral health providers, and similar activities."

#18 Back-up

The Governor's DVSA Initiative: Prevention Components

March 2010

The problems and social harm associated with domestic violence are complex. A comprehensive and multi-faceted approach is required to address the public safety, health and behavioral health impacts of domestic violence and sexual assault in Alaska. Prevention and intervention strategies are essential to reduce and ultimately end domestic violence and sexual assault from occurring in the future and to bring healing to those who have been impacted.

Title	Total Funds
Family Wellness Warriors Initiative	$ 400.0
Multi-disciplinary Rural Community Pilot Project	$1,350.0
• Planning • Victimization Study • Initiative Evaluation	$ 50.0 $ 300.0
Batterer's Intervention Evaluation and Investigation of Evidence Based Practice	$ 100.0
Children's Advocacy Center Expansion	$ 40.0
Health & Personal Safety Prevention Coordinator (Education Specialist II)	$ 200.0
Universal Public Education Marketing Campaign	$ 300.0
Pro-Bono Attorney Clearinghouse Alaska Network on Domestic Violence and Sexual Assault	$ 60.0
Trauma-Informed Training for BH Providers	$ 200.0

Total Funding	$ 3,000.0

Version 3. 3.5.10

#19
Adopted
3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/ CSHB 302 (FIN)

OFFERED BY: Representatives Hawker, Stoltze, Fairclough, Thomas, Austerman, Joule, Kelly, Doogan, Foster, Gara, Salmon

Part A - Job Training and University of Alaska tuition waivers; foster parent recruitment and notification

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Office of Children's Services
ALLOCATION:	Children's Services Management
ADD:	$175.0 GF (1004)

ADD: It is the intent of the Legislature that the Office of Children's Services shall effectively use these funds to address the stated foster youth stability and success goals stated below:

EXPLANATION:
$85,000: Supplement Employment Training Vouchers for youth covered by the Independent Living Program.

$55,000: Fund an additional 10 University of Alaska Presidential Tuition Waivers beyond the annual 10 waivers funded by the University.

$35,000: Television ads to recruit foster parents in shortage areas, including ads on highly watched television programs ($30,000); annual mailing to foster parents on the OCS FosterWear discount clothing plan ($5,000).

Part B - Mentorship Program

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Office of Children's Services
ALLOCATION:	Family Preservation
ADD:	$200.0 GF (1004)

ADD: It is the intent of the Legislature that the Office of Children's Services shall effectively use these funds to address the stated foster youth stability and success goals stated below:

EXPLANATION: $200,000: Competitive grant to non-profit agencies to match volunteer mentors statewide with foster youth and youth coming out of care for ages of 16 ½ through 21. OCS shall identify the youth to be served, and coordinate with the grantee that recruits, screens and trains the volunteer mentors.

Part C - Homeless Prevention

DEPARTMENT: Health and Social Services
APPROPRIATION: Office of Children's Services
ALLOCATION: Foster Care Augmented Rate

ADD: $100.0 GF (1004)

ADD: It is the intent of the Legislature that the Office of Children's Services shall effectively use these funds to address the stated foster youth stability and success goals stated below:

EXPLANATION: $100,000: Housing assistance for youth facing the prospect of homelessness after receiving the existing short-term rental help currently offered by the Independent Living Program.

Part D - Maintain Current School Enrollment

DEPARTMENT: Health and Social Services
APPROPRIATION: Office of Children's Services
ALLOCATION: Foster Care Special Need

ADD: $30.0 GF (1004)

ADD: It is the intent of the Legislature that the Office of Children's Services shall effectively use these funds to address the stated foster youth stability and success goals stated below:

EXPLANATION: $30,000: These funds shall be used to permit foster youth who move between placements to stay, when in the youth's best interest, in their original school for the remainder of the school term. These funds shall not be used for those "homeless" youth already being provided school stability services under the Federal McKinney-Vento Act.

Part E - Maintain Current School Enrollment

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Office of Children's Services
ALLOCATION:	Foster Care Special Need (Maintain Current School Enrollment)
DELETE:	$50.0 GF (1004) IncOTI
ADD:	$50.0 GF (1004)

ADD: It is the intent of the Legislature that the Office of Children's Services shall effectively use these funds to address the stated foster youth stability and success goals stated below:

EXPLANATION:
The Health and Social Services House subcommittee approved One-Time funding in the amount of $50,000 for transportation of foster youth. This amendment would place $50,000 of general funds in the base budget.

#20
Adopted
3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Fairclough, Thomas, Austerman, Joule, Kelly, Doogan, Foster, Gara, Salmon

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Office of Children's Services
ALLOCATION:	Family Preservation
ADD:	$160.5 GF (1004)
ADD:	Two Permanent Full-Time Positions

EXPLANATION:

The Independent Living Program (ILP) is OCS' effort to assist youth, after they leave care, with work, school, job training, and life skills. After-care outcomes, from homelessness to criminal involvement, and lack of success, are troubling. The ILP, which covers over 350 youth from ages 17-21, cannot possibly work with only four statewide staff. OCS concedes current staff are overwhelmed, and unable to help adequately in individual cases.

Two additional staff would help effectively extend educational, work and life skill guidance to youth coming out of care.

OPERATING BUDGET AMENDMENT #21

Adopted 3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Joule, Fairclough, Thomas, Austerman, Kelly, Doogan, Foster, Gara, Salmon

Add a section per M.12 (attached):

EXPLANATION:
This amendment provides funding that will allow the department to cooperate with the University of Alaska in funding the Alaska Native Science and Engineering Program (ANSEP) through grants and/or contracts with school districts and the University of Alaska.

Beginning with high school freshmen, structured programs lead students each step of the way through high school, into the undergraduate years, on to graduate school, and into professional life. The funding in this amendment will provide a pre-college opportunity for students to build a strong foundation preparing them for success in science and engineering. The pre-college component targets high school students to enroll and successfully complete trigonometry, chemistry, and physics, ensuring they are academically ready for the university level engineering and science coursework.

This funding will match federal and private funding and will provide programmatic support for this nationally recognized model for excellence in science and engineering education. Because the amount of federal funding is unknown, the amendment includes language that reduces general funds by up to $225,000 if the University receives federal grants for ANSEP.

3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly, Doogan, Foster, Gara, Salmon

DEPARTMENT:	Department of Commerce, Community and Economic Development
APPROPRIATION:	Community Assistance and Economic Development
ALLOCATION:	Community and Regional Affairs
ADD:	$700.0 GF

EXPLANATION: This funding would support an operating grant to Ilisagvik College for work force development programs. These programs include a satellite vocational technical instructor, driver's education and CDL instructor, marine licensing, regulatory mandated trainings for vocational occupations, and a workforce development training manager. Ilisagvik College is the only two year college in Northern region and it has a proven track record of providing training and college prep for students across the state.

OPERATING BUDGET AMENDMENT #24

Adopted 3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Joule and Hawker Doogan, Gara

DEPARTMENT:	Department of Commerce, Community and Economic Development
APPROPRIATION:	Corporation, Businesses, and Professional License
ALLOCATION:	Corporation, Businesses, and Professional License

ADD: $63.0 RSS (1156) Inc OTI

EXPLANATION: The funding would be used to hire an additional investigator for the Big Game Commercial Services Board to ensure compliance with transporter license requirements. Over the last several years there has been increasing user conflict in game units and the Big Game Commercial Services Board needs an additional investigator to begin to work on the growing problem. The investigator would focus primarily on transporter issues in areas of the state having the greatest concerns and would compile a report to the Legislature to be presented in 2011. Enforcement measures will include inspecting transporter licenses and conducting inspections at places of business and in the field.

OPERATING BUDGET AMENDMENT # 25

Withdrawn

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Gara and Doogan

DEPARTMENT:	Office of the Governor
APPROPRIATION:	Executive Operations
ALLOCATION:	Executive Office

ADD: Intent Language

ADD:

It is the intent of the Legislature that the Governor require Executive Agencies, and that the University President require senior staff to enhance their efforts where possible to find efficiencies in the way departments can achieve their program goals. In certain circumstances, the state will be best served by seeking high level agency management staff who may not have a background in an agency's core subject area, but have a background that will help the agency operate more effectively and efficiently in achieving its statutory and constitutional goals.

To this end, the Legislature intends that, where effective, agencies be directed to consider hiring senior management staff that have management or workforce efficiency skills that can help them identify areas of waste or inefficient operations, and help recommend internal corrective actions that will save the public resources.

This statement is not intended to express displeasure with any particular state management staff. It is intended to help the state and University to achieve their mandates in the most efficient manner in the future as the state faces the potential of increasing fixed costs and declining revenues.

OPERATING BUDGET AMENDMENT

OFFERED IN: **House Finance Committee**

TO: CSHB 300 (FIN)/ CSHB 302 (FIN)

OFFERED BY: Representative Gara Dougan

DEPARTMENT: University of Alaska
APPROPRIATION: University of Alaska
ALLOCATION: Budget Reductions / Additions—Systemwide

ADD: Priority Program Enhancement and Growth—$5,462.3 GF (1004), $1,988.4 Univ Rcpts (1048), $446.3 Federal Rcpts (1002), $380.0 I/A Rcpts (1007)

- Energy—$475.0 GF (1004)
- Science, Technology, Engineering & Math (STEM)—Total $983.7; $707.6 GF (1004), $243.7 Univ Rcpts (1048), $32.5 Federal Rcpts (1002),
- Climate—Total $1,508.0; $594.5 GF (1004), $476.0 Univ Rcpts (1048), $275.0 Federal Rcpts (1002), $162.5 I/A Rcpts (1007)
- High Demand Jobs—Total $4,032.8; $2,616.5 GF (1004), $1,065.1 Univ Rcpts (1048), $138.8 Federal Rcpts (1002), $217.5 I/A Rcpts (1007)
- Student Success Initiatives—Total $1,272.3; $1,068.7 GF (1004), $203.6 Univ Rcpts (1048)

EXPLANATION: The intent of this amendment is to provide additional funding for the University of Alaska's Priority Programs. University of Alaska's goal is to graduate an additional 640 students in high demand jobs by FY '15. This increment would provide resources to continue toward that goal by allowing UA to graduate an additional 170 students annually and increase retention of 100 students annually.

DEPARTMENT: Department of Health and Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: Behavioral Health Grants

ADD: MH Trust:
ABADA-Grants for community based substance abuse services, 1037 GF/MH, $2,000.0

EXPLANATION: The amendment is intended to increase funding for Behavioral Health Grants. The increment is to be distributed to existing grantees to in a manner to most efficiently decrease waitlists for alcohol and substance abuse treatment.

OPERATING BUDGET AMENDMENT

#28

Adopted 3/8/10

OFFERED IN: House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Representatives Hawker, Stoltze, Thomas, Austerman, Fairclough, Joule, Kelly, Doogan, Foster, Gara, Salmon

DEPARTMENT:	Department of Commerce Community and Economic Development
APPROPRIATION:	Serve Alaska
ALLOCATION:	Serve Alaska
ADD:	$125.0 General Fund Match, 1003
ADD:	$125.0 Federal Fund, 1002

EXPLANATION:

This amount will increase Serve Alaska's operating budget enough to hire one new staffer. Increased staff capacity will allow the agency to access 1:1 federal funding available for administrative services. Increased capacity also gives Serve Alaska the opportunity to access up to $1.4 million in new funds.

In 2005, the Corporation for National Community Service conducted a performance review of all its agencies, of which Serve Alaska is one. At that time, Serve Alaska provided services and funding for 3 grantees and 5 programs and the review found the agency was at maximum administrative capacity. Now, Serve Alaska provides services and funding for 5 grantees and 12 programs. New federal funds are available for Serve Alaska, should the agency create administrative capacity to manage the funds.

#29 Adopted as amended 3/8/10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Foster Thomas, Duggan Gara

DEPARTMENT: Commerce, Community & Economic Development
APPROPRIATION: Community Assistance & Economic Development
ALLOCATION: Community & Regional Affairs

ADD: ~~250,000~~ ~~$343.9~~ General Funds (1004) ~~and 1 PFT~~ Add one full time position added 5:37:58

EXPLANATION:

The Division of Community and Regional Affairs (DCRA) is requesting an increase to add $343.9 in general funds and one full-time position in the FY11 operating budget. The increase will pay for three Local Government Specialist (LGS) positions to provide local government advice and assistance as required in Article X of Alaska's state constitution. Two of the three positions were transferred in from within the Department.

The general funded LGS positions serve boroughs, cities, tribal governments, and community nonprofits that provide public services in rural communities. The LGS's provide public administration assistance on elections, Title 29 compliance, power cost equalization, accessing revenue sources, Title 4 Local Option, gaming, personnel and financial management.

There are 466 entities in Alaska eligible for general funded LGS services. Of these, 386 are located where there is a population of 25 to 2,500. Forty percent (40%) of the 386 entities are not meeting basic management indicators. Currently, three existing general funded LGS's provide these entities assistance when a situation reaches a crisis level or when services are likely to be cut off.

Within the last year, LGS assistance has resolved about $300.0 in tax issues for five communities, garnered PCE reimbursements for four communities, claimed $300.0 in revenue sharing/PILT, negotiated repayment schedules for $480.0 vendor debt in two communities (keeping the lights on), and saved .40/gallon on heating fuel and increased use of purchasing power agreements for five communities.

The addition of three fully funded LGS positions will allow DCRA to move the program from crisis response mode to working with the communities' requests for training and assistance that prevents crisis.

3/8/10

OFFERED IN: The House Finance Committee

TO: CSHB 300(FIN)/CSHB 302(FIN)

OFFERED BY: Foster Dougan

DEPARTMENT:	University of Alaska
APPROPRIATION:	University of Alaska
ALLOCATION:	Fairbanks Campus
ADD:	$614.0 General Fund, 1004
ADD:	$27.0 University Receipts (DGF), 1048

EXPLANATION:

The Marine Advisory Program, a unit in the School of Fisheries and Ocean Sciences, has been providing extension and educational services in rural, coastal Alaska for 45 years. The program serves as an extension arm of the Alaska Sea Grant College Program and has university faculty located in 10 coastal communities. The faculty provide information, technical assistance and workforce development opportunities in a variety of subjects, including the impact of climate change on local marine resources.

Currently, 30% of MAP's positions (located in Unalaska, Petersburg, Cordova and Nome) are funded either by short term grants due to sunset in 2009, are vacant while waiting for funding (Bristol Bay), or there is no MAP agent at all (Kodiak). This request is to solidify funding for MAP faculty in these sites by moving them to regular UAF funded faculty positions

CS FOR HOUSE BILL NO. 300(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making appropriations for the operating and loan program expenses of state government, for certain programs, and to capitalize funds; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2010 and ending June 30, 2011, unless otherwise indicated. A department-wide, agency-wide, or branch-wide unallocated reduction set out in this section may be allocated among the appropriations made in this section to that department, agency, or branch.

* * * * *			* * * * *	
* * * * * **Department of Health and Social Services** * * * * *				
* * * * *			* * * * *	

It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth

	Appropriation	General	Other
	Allocations	Items	Funds	Funds

algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2011 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.

It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are $50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.

It is the intent of the legislature that the Department of Health and Social Services make a single 'upfront' payment for any grant award that is $50,000 or less and includes a signature of the grantee certifying compliance with the terms of the grant with their approved application. Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during the selection process.

It is the intent of the legislature that the Department of Health and Social Services continue the Medicaid Reform work to improve efficiency and slow the need for General Funds in the Medicaid program. Specifically, but not exclusively, the Department is to:

1) Complete the evaluation of possible changes to program design, determine waiver changes necessary to secure federal funding and report back to the First Session of the 27th Alaska Legislature on suggested changes, expected outcomes related to Medicaid sustainability, and resources needed to accomplish the work.

2) Develop and implement public provider reimbursement methodologies and payment rates that will further the goals of Medicaid Reform.

3) Continue and enhance the State and Tribal Medicaid work and partnership to enhance our ability to provide Medicaid services through Tribal Health Organizations.

Public Affairs	1,588,500			
Quality Assurance and Audit	1,174,600			
Commissioner's Office	2,071,300			

It is the intent of the legislature that the Department of Health and Social Services complete the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid providers:

1. Develop regulations addressing the use of extrapolation methodology following an audit of Medicaid providers that clearly defines the difference between actual overpayment of funds to a provider and ministerial omission or clerical billing error that does not result in overpayment to the provider. The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.

2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts.

All audits initiated after the effective date of this intent and resulting in findings of overpayment will be calculated under the Department's new regulations governing overpayment standards and extrapolation methodology.

It is the intent of the legislature that the department develops a ten year funding source and use of funds projection for the entire department.

It is the intent of the legislature that the department continue working on implementing a provider rate rebasing process and specific funding recommendations for both Medicaid and non-Medicaid providers to be completed and available to the legislature no later than December 15, 2010.

1145	Art in Public Places Fund	30,000
1147	Public Building Fund	14,703,100
1174	University of Alaska Intra-Agency Transfers	51,521,000
Total Duplicated Funds		$646,154,600

(SECTION 4 OF THIS ACT BEGINS ON THE NEXT PAGE)

* **Sec. 4.** FINDINGS. The legislature finds that the state will realize savings in the amount of $114,081,600 during the fiscal year ending June 30, 2011, through the federal medical assistance percentage provisions of P.L. 111-5 (American Recovery and Reinvestment Act of 2009) that will be used to offset appropriations from the general fund made in this Act.

* **Sec. 5.** RATIFICATION OF SMALL AMOUNTS IN STATE ACCOUNTING SYSTEM. The appropriation to each department under this Act for the fiscal year ending June 30, 2011, is reduced to reverse negative account balances for the department in the state accounting system in amounts of $500 or less for each prior fiscal year in which a negative account balance of $500 or less exists. It is the intent of the legislature that the office of management and budget report to the legislature the amounts appropriated under this section.

* **Sec. 6.** LEGISLATIVE INTENT. It is the intent of the legislature that the amounts appropriated by this Act are the full amounts that will be appropriated for those purposes for the fiscal year ending June 30, 2011.

* **Sec. 7.** COSTS OF JOB RECLASSIFICATIONS. The money appropriated in this Act includes the amount necessary to pay the costs of personal services because of reclassification of job classes during the fiscal year ending June 30, 2011.

* **Sec. 8.** PERSONAL SERVICES TRANSFERS. It is the intent of the legislature that agencies restrict transfers to and from the personal services line. It is the intent of the legislature that the office of management and budget submit a report to the legislature on January 15, 2011, that describes and justifies all transfers to and from the personal services line by executive branch agencies during the first half of the fiscal year ending June 30, 2011. It is the intent of the legislature that the office of management and budget submit a report to the legislature on August 1, 2011, that describes and justifies all transfers to and from the personal services line by executive branch agencies during the second half of the fiscal year ending June 30, 2011.

* **Sec. 9.** ALASKA AEROSPACE CORPORATION. Federal receipts and other corporate receipts of the Alaska Aerospace Corporation received during the fiscal year ending June 30, 2011, that are in excess of the amount appropriated in sec. 1 of this Act are appropriated to the Alaska Aerospace Corporation for operations during the fiscal year ending June 30, 2011.

* **Sec. 10.** ALASKA HOUSING FINANCE CORPORATION. (a) The board of directors of the Alaska Housing Finance Corporation anticipates that $42,549,257 of the adjusted net

income from the second preceding fiscal year will be available during the fiscal year ending June 30, 2011, for appropriation.

(b) A portion of the amount set out in (a) of this section for the fiscal year ending June 30, 2011, will be retained by the Alaska Housing Finance Corporation for the following purposes in the following estimated amounts:

(1) $1,000,000 for debt service on University of Alaska, Anchorage, dormitory construction, authorized under ch. 26, SLA 1996;

(2) $2,592,558 for debt service on the bonds described under ch. 1, SSSLA 2002;

(3) $2,548,195 for debt service on the bonds authorized under sec. 4, ch. 120, SLA 2004.

(c) After deductions for the items set out in (b) of this section, $36,408,504 of the remainder of the amount set out in (a) of this section is available for appropriation.

(d) After deductions for the items set out in (b) of this section and deductions for appropriations for operating and capital purposes are made, any remaining balance of the amount set out in (a) of this section for the fiscal year ending June 30, 2011, is appropriated to the Alaska capital income fund (AS 37.05.565).

(e) All unrestricted mortgage loan interest payments, mortgage loan commitment fees, and other unrestricted receipts received by or accrued to the Alaska Housing Finance Corporation during the fiscal year ending June 30, 2011, and all income earned on assets of the corporation during that period are appropriated to the Alaska Housing Finance Corporation to hold as corporate receipts for the purposes described in AS 18.55 and AS 18.56. The corporation shall allocate its corporate receipts between the Alaska housing finance revolving fund (AS 18.56.082) and senior housing revolving fund (AS 18.56.710) in accordance with procedures adopted by the board of directors.

(f) The sum of $36,000,000 is appropriated from federal receipts to the Alaska Housing Finance Corporation for housing assistance payments under the Section 8 program for the fiscal year ending June 30, 2011.

* **Sec. 11.** ALASKA PERMANENT FUND CORPORATION. (a) The amount authorized under AS 37.13.145(b) for transfer by the Alaska Permanent Fund Corporation on June 30, 2011, estimated to be $637,000,000, is appropriated from the earnings reserve account

(AS 37.13.145) to the dividend fund (AS 43.23.045) for the payment of permanent fund dividends and for administrative and associated costs for the fiscal year ending June 30, 2011.

(b) After money is transferred to the dividend fund under (a) of this section, the amount calculated under AS 37.13.145(c) to offset the effect of inflation on the principal of the Alaska permanent fund during the fiscal year ending June 30, 2011, estimated to be $886,000,000, is appropriated from the earnings reserve account (AS 37.13.145) to the principal of the Alaska permanent fund.

(c) The amount required to be deposited in the Alaska permanent fund under AS 37.13.010(a)(1) and (2) during the fiscal year ending June 30, 2011, is appropriated to the principal of the Alaska permanent fund in satisfaction of that requirement.

*** Sec. 12.** ALASKA INDUSTRIAL DEVELOPMENT AND EXPORT AUTHORITY. (a) The sum of $23,423,000 has been declared available by the Alaska Industrial Development and Export Authority board of directors under AS 44.88.088 for appropriation as the dividend for the fiscal year ending June 30, 2011, from the unrestricted balance in the Alaska Industrial Development and Export Authority revolving fund (AS 44.88.060).

(b) After deductions for appropriations made for operating and capital purposes, any remaining balance of the amount set out in (a) of this section for the fiscal year ending June 30, 2011, is appropriated to the Alaska capital income fund (AS 37.05.565).

*** Sec. 13.** DEPARTMENT OF ADMINISTRATION. The amount necessary to fund the uses of the state insurance catastrophe reserve account described in AS 37.05.289(a) is appropriated from that account to the Department of Administration for those uses during the fiscal year ending June 30, 2011.

*** Sec. 14.** DEPARTMENT OF COMMERCE, COMMUNITY, AND ECONOMIC DEVELOPMENT. (a) The unexpended and unobligated balance of federal money apportioned to the state as national forest income that the Department of Commerce, Community, and Economic Development determines would lapse into the unrestricted portion of the general fund June 30, 2011, under AS 41.15.180(j) is appropriated as follows:

(1) up to $170,000 is appropriated to the Department of Transportation and Public Facilities, commissioner's office, for road maintenance in the unorganized borough, for the fiscal year ending June 30, 2011;

(2) the balance remaining after the appropriation made by (1) of this

subsection is appropriated to home rule cities, first class cities, second class cities, a municipality organized under federal law, or regional educational attendance areas entitled to payment from the national forest income for the fiscal year ending June 30, 2011, to be allocated among the recipients of national forest income according to their pro rata share of the total amount distributed under AS 41.15.180(c) and (d) for the fiscal year ending June 30, 2011.

(b) If the amount necessary to make national forest receipts payments under AS 41.15.180 exceeds the amount appropriated for that purpose in sec. 1 of this Act, the amount necessary to make national forest receipt payments is appropriated from federal receipts received for that purpose to the Department of Commerce, Community, and Economic Development, revenue sharing, national forest receipts allocation, for the fiscal year ending June 30, 2011.

(c) An amount equal to the salmon enhancement tax collected under AS 43.76.001 - 43.76.028 in calendar year 2009 and deposited in the general fund under AS 43.76.025(c) is appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment in the fiscal year ending June 30, 2011, to qualified regional associations operating within a region designated under AS 16.10.375.

(d) An amount equal to the seafood development tax collected under AS 43.76.350 - 43.76.399 in calendar year 2009 and deposited in the general fund under AS 43.76.380(d) is appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment in the fiscal year ending June 30, 2011, to qualified regional seafood development associations.

(e) The sum of $23,673,600 is appropriated from the power cost equalization endowment fund (AS 42.45.070) to the Department of Commerce, Community, and Economic Development, Alaska Energy Authority, power cost equalization allocation, for the fiscal year ending June 30, 2011.

(f) If the amount appropriated in (e) of this section is not sufficient to pay power cost equalization program costs without proration, the amount necessary to pay power cost equalization program costs without proration, estimated to be $12,626,400, is appropriated from the general fund to the Department of Commerce, Community, and Economic Development, Alaska Energy Authority, power cost equalization allocation, for the fiscal year

ending June 30, 2011.

(g) If the amount necessary to make payment in lieu of taxes payments under 3 AAC 152 exceeds the amount appropriated for that purpose in sec. 1 of this Act, the amount necessary to make payment in lieu of taxes payments is appropriated from federal receipts received for that purpose to the Department of Commerce, Community, and Economic Development, revenue sharing, payment in lieu of taxes allocation, for the fiscal year ending June 30, 2011.

* **Sec. 15.** DEPARTMENT OF HEALTH AND SOCIAL SERVICES. (a) The sum of $1,200,000 is appropriated from the general fund to the Department of Health and Social Services, office of children's services, for the purpose of paying judgments and settlements against the state for the fiscal year ending June 30, 2011.

(b) If the amount of federal receipts from P.L. 111-5 (American Recovery and Reinvestment Act of 2009) appropriated in sec. 1 of this Act for state Medicaid programs for the fiscal year ending June 30, 2011, is not available to the state in the amount appropriated, the appropriation of federal receipts is reduced by the unavailable amount, and the difference between the amount of federal receipts appropriated and the amount received is appropriated from the general fund to the Department of Health and Social Services for Medicaid programs for the fiscal year ending June 30, 2011.

* **Sec. 16.** DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT. (a) If the amount necessary to pay benefit payments from the fishermen's fund (AS 23.35.060) exceeds the amounts appropriated for that purpose in sec. 1 of this Act, the additional amount necessary to pay those benefit payments is appropriated for that purpose from that fund to the Department of Labor and Workforce Development, fishermen's fund allocation, for the fiscal year ending June 30, 2011.

(b) If the amount necessary to pay benefit payments from the second injury fund (AS 23.30.040(a)) exceeds the amount appropriated for that purpose in sec. 1 of this Act, the additional amount necessary to make those benefit payments is appropriated for that purpose from that fund to the Department of Labor and Workforce Development, second injury fund allocation, for the fiscal year ending June 30, 2011.

(c) If the amount necessary to pay benefit payments from the workers' compensation benefits guaranty fund (AS 23.30.082) exceeds the amount appropriated for that purpose in

sec. 1 of this Act, the additional amount necessary to pay those benefit payments is appropriated for that purpose from that fund to the Department of Labor and Workforce Development, workers' compensation benefits guaranty fund allocation, for the fiscal year ending June 30, 2011.

(d) If the amount of contributions received by the Alaska Vocational Technical Center under AS 21.89.070, AS 43.20.014, AS 43.55.019, AS 43.56.018, AS 43.65.018, AS 43.75.018, and AS 43.77.045 during the fiscal year ending June 30, 2011, exceeds the amount appropriated for that purpose in sec. 1 of this Act, the additional contributions are appropriated to the Department of Labor and Workforce Development, Alaska Vocational Technical Center, Alaska Vocational Technical Center allocation, for the fiscal year ending June 30, 2011.

*** Sec. 17.** DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS. Five percent of the market value of the average ending balances in the Alaska veterans' memorial endowment fund (AS 37.14.700) for the fiscal years ending June 30, 2008, June 30, 2009, and June 30, 2010, estimated to be $12,800, is appropriated from the Alaska veterans' memorial endowment fund to the Department of Military and Veterans' Affairs for the purposes specified in AS 37.14.730(b) for the fiscal year ending June 30, 2011.

*** Sec. 18.** DEPARTMENT OF NATURAL RESOURCES. (a) Federal receipts received for fire suppression during the fiscal year ending June 30, 2011, estimated to be $2,000,000, are appropriated to the Department of Natural Resources for fire suppression activities for the fiscal year ending June 30, 2011.

(b) The sum of $1,000,000 is appropriated from federal receipts to the Department of Natural Resources, state public domain and public access, RS 2477/Navigability Assertions and Litigation Support allocation, for state participation in the United States Department of the Interior Bureau of Land Management navigable water identification project, for the fiscal years ending June 30, 2011, and June 30, 2012.

(c) The amount necessary for the purposes specified in AS 37.14.820 for the fiscal year ending June 30, 2011, is appropriated from the mine reclamation trust fund operating account (AS 37.14.800(a)) to the Department of Natural Resources.

(d) The interest earned during the fiscal year ending June 30, 2011, on the reclamation bond posted by Cook Inlet Energy for operation of an oil production platform in Cook Inlet

under lease with the Department of Natural Resources, estimated to be $250,000, is appropriated from the general fund to the Department of Natural Resources for the purpose of the bond for the fiscal year ending June 30, 2011.

* **Sec. 19.** DEPARTMENT OF PUBLIC SAFETY. (a) The sum of $1,393,200 is appropriated from the general fund to the Department of Public Safety, division of Alaska state troopers, narcotics task force, for drug and alcohol enforcement efforts during the fiscal year ending June 30, 2011.

(b) If the amount of federal receipts received by the Department of Public Safety from the justice assistance grant program during the fiscal year ending June 30, 2011, for drug and alcohol enforcement efforts exceeds $1,289,100, the appropriation in (a) of this section is reduced by the amount by which the federal receipts exceed $1,289,100.

(c) The sum of $1,270,000 is appropriated from the general fund to the Department of Public Safety, division of Alaska state troopers, special projects, for rural alcohol interdiction efforts for the fiscal year ending June 30, 2011.

(d) If federal receipts are received by the Department of Public Safety for the rural alcohol interdiction program during the fiscal year ending June 30, 2011, the appropriation in (c) of this section is reduced by the amount of the federal receipts.

* **Sec. 20.** DEPARTMENT OF REVENUE. (a) If the amount of the federal incentive payments (AS 25.27.125) received by the child support services agency for the fiscal year ending June 30, 2011, that may be used by the state to match federal receipts for child support enforcement is less than $1,800,000, an amount equal to 66 percent of the difference between the incentive payments used to match federal receipts and $1,800,000 is appropriated from the general fund to the Department of Revenue, child support services agency, for child support enforcement for the fiscal year ending June 30, 2011.

(b) Program receipts collected as cost recovery for paternity testing administered by the child support services agency, as required under AS 25.27.040 and 25.27.165, and as collected under AS 25.20.050(f), estimated to be $46,000, are appropriated to the Department of Revenue, child support services agency, for the fiscal year ending June 30, 2011.

* **Sec. 21.** OFFICE OF THE GOVERNOR. (a) If the 2011 fiscal year-to-date average price of Alaska North Slope crude oil exceeds $35 a barrel on August 1, 2010, the amount of money corresponding to the 2011 fiscal year-to-date average price, rounded to the nearest

dollar, as set out in the table in (c) of this section is appropriated from the general fund to the Office of the Governor for distribution to state agencies to offset increased fuel and utility costs for the fiscal year ending June 30, 2011.

(b) If the 2011 fiscal year-to-date average price of Alaska North Slope crude oil exceeds $35 a barrel on December 1, 2010, the amount of money corresponding to the 2011 fiscal year-to-date average price, rounded to the nearest dollar, as set out in the table in (c) of this section is appropriated from the general fund to the Office of the Governor for distribution to state agencies to offset increased fuel and utility costs for the fiscal year ending June 30, 2011.

(c) The following table shall be used in determining the amount of the appropriations in (a) and (b) of this section:

2011 FISCAL YEAR-TO-DATE AVERAGE PRICE OF ALASKA NORTH SLOPE CRUDE OIL	AMOUNT
$90 or more	$27,500,000
89	27,000,000
88	26,500,000

35	0

(d) The governor shall allocate amounts appropriated in (a) and (b) of this section as follows:

(1) to the Department of Transportation and Public Facilities, 65 percent of the total plus or minus 10 percent;

(2) to the University of Alaska, eight percent of the total plus or minus three percent;

(3) to the Department of Health and Social Services and the Department of Corrections, not more than five percent each of the total amount appropriated;

(4) to any other state agency, not more than four percent of the total amount appropriated;

(5) the aggregate amount allocated may not exceed 100 percent of the appropriation.

* **Sec. 22.** UNIVERSITY OF ALASKA. The amount of the fees collected under AS 28.10.421(d) during the fiscal year ending June 30, 2010, for the issuance of special request university plates, less the cost of issuing the license plates, estimated to be $2,000, is appropriated from the general fund to the University of Alaska for support of alumni programs at the campuses of the university for the fiscal year ending June 30, 2011.

* **Sec. 23.** BOND CLAIMS. The amount received in settlement of a claim against a bond guaranteeing the reclamation of state, federal, or private land, including the plugging or repair of a well, estimated to be $50,000, is appropriated to the agency secured by the bond for the fiscal year ending June 30, 2011, for the purpose of reclaiming the state, federal, or private

land affected by a use covered by the bond.

*** Sec. 24.** FEDERAL AND OTHER PROGRAM RECEIPTS. (a) Federal receipts, designated program receipts as defined in AS 37.05.146(b)(3), information services fund program receipts as described in AS 44.21.045(b), Exxon Valdez oil spill trust receipts described in AS 37.05.146(b)(4), receipts of the Alaska Housing Finance Corporation, receipts of the Alaska marine highway system fund described in AS 19.65.060(a), and receipts of the University of Alaska as described in AS 37.05.146(b)(2) that are received during the fiscal year ending June 30, 2011, and that exceed the amounts appropriated by this Act, are appropriated conditioned on compliance with the program review provisions of AS 37.07.080(h).

(b) If federal or other program receipts as defined in AS 37.05.146 and in AS 44.21.045(b) that are received during the fiscal year ending June 30, 2011, exceed the amounts appropriated by this Act, the appropriations from state funds for the affected program shall be reduced by the excess if the reductions are consistent with applicable federal statutes.

(c) If federal or other program receipts as defined in AS 37.05.146 and in AS 44.21.045(b) that are received during the fiscal year ending June 30, 2011, fall short of the amounts appropriated by this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 25.** FUND TRANSFERS. (a) The federal funds received by the state under 42 U.S.C. 6506a(*l*) or former 42 U.S.C. 6508 not appropriated for grants under AS 37.05.530(d) are appropriated as follows:

(1) to the principal of the Alaska permanent fund (art. IX, sec. 15, Constitution of the State of Alaska) and the public school trust fund (AS 37.14.110(a)), according to AS 37.05.530(g)(1) and (2); and

(2) to the principal of the Alaska permanent fund (art. IX, sec. 15, Constitution of the State of Alaska), the public school trust fund (AS 37.14.110(a)), and the power cost equalization and rural electric capitalization fund (AS 42.45.100(a)), according to AS 37.05.530(g)(3).

(b) The following amounts are appropriated to the oil and hazardous substance release prevention account (AS 46.08.010(a)(1)) in the oil and hazardous substance release

prevention and response fund (AS 46.08.010(a)) from the sources indicated:

(1) the balance of the oil and hazardous substance release prevention mitigation account (AS 46.08.020(b)) in the general fund on July 1, 2010, estimated to be $3,209,500, not otherwise appropriated by this Act;

(2) the amount collected for the fiscal year ending June 30, 2010, estimated to be $8,400,000 from the surcharge levied under AS 43.55.300.

(c) The following amounts are appropriated to the oil and hazardous substance release response account (AS 46.08.010(a)(2)) in the oil and hazardous substance release prevention and response fund (AS 46.08.010) from the following sources:

(1) the balance of the oil and hazardous substance release response mitigation account (AS 46.08.025(b)) in the general fund on July 1, 2010, estimated to be $30,000, not otherwise appropriated by this Act;

(2) the amount collected for the fiscal year ending June 30, 2010, from the surcharge levied under AS 43.55.201, estimated to be $2,100,000.

(d) The portions of the fees listed in this subsection that are collected during the fiscal year ending June 30, 2011, estimated to be $35,000, are appropriated to the Alaska children's trust (AS 37.14.200):

(1) fees collected under AS 18.50.225, less the cost of supplies, for the issuance of birth certificates;

(2) fees collected under AS 18.50.272, less the cost of supplies, for the issuance of heirloom marriage certificates;

(3) fees collected under AS 28.10.421(d) for the issuance of special request Alaska children's trust license plates, less the cost of issuing the license plates.

(e) The loan origination fees collected by the Alaska Commission on Postsecondary Education for the fiscal year ending June 30, 2011, are appropriated to the origination fee account (AS 14.43.120(u)) within the education loan fund (AS 14.42.210) of the Alaska Student Loan Corporation for the purposes specified in AS 14.43.120(u).

(f) The balance of the mine reclamation trust fund income account (AS 37.14.800(a)) on June 30, 2010, and money deposited in that account during the fiscal year ending June 30, 2011, estimated to be $50,000, is appropriated to the mine reclamation trust fund operating account (AS 37.14.800(a)) for the fiscal year ending June 30, 2011.

(g) The sum of $15,660,000 is appropriated to the Alaska clean water fund (AS 46.03.032) for the Alaska clean water loan program from the following sources:

Alaska clean water fund revenue bond receipts	$ 2,700,000
Federal receipts	12,960,000

(h) The sum of $13,092,200 is appropriated to the Alaska drinking water fund (AS 46.03.036) for the Alaska drinking water loan program from the following sources:

Alaska drinking water fund revenue bond receipts	$ 2,963,000
Federal receipts	10,129,200

(i) The amount of municipal bond bank receipts determined under AS 44.85.270(h) to be available for transfer by the Alaska Municipal Bond Bank Authority for the fiscal year ending June 30, 2010, estimated to be $819,800, is appropriated to the Alaska municipal bond bank authority reserve fund (AS 44.85.270).

(j) An amount equal to the bulk fuel revolving loan fund fees established under AS 42.45.250(j) and collected under AS 42.45.250(k) from July 1, 2009, through June 30, 2010, estimated to be $45,000, is appropriated from the general fund to the bulk fuel revolving loan fund (AS 42.45.250(a)).

(k) The sum of $7,000,000 is appropriated from the Alaska sport fishing enterprise account (AS 16.05.130(e)) in the fish and game fund (AS 16.05.100) to the Alaska fish and game revenue bond redemption fund (AS 37.15.770).

(*l*) An amount equal to the federal receipts deposited in the Alaska sport fishing enterprise account (AS 16.05.130(e)), not to exceed $1,644,800, as reimbursement for the federally allowable portion of the principal balance payment on the sport fishing revenue bonds series 2006 is appropriated from the Alaska sport fishing enterprise account (AS 16.05.130(e)) to the fish and game fund (AS 16.05.100).

(m) If the Alaska Municipal Bond Bank Authority must draw on the Alaska municipal bond bank authority reserve fund (AS 44.85.270), 2005 general bond resolution reserve, because of a default by a borrower, an amount equal to the amount drawn from the reserve is appropriated from the general fund to the Alaska municipal bond bank authority reserve fund (AS 44.85.270).

(n) The sum of $1,130,982,400 is appropriated from the general fund to the public education fund (AS 14.17.300).

* **Sec. 26.** FUND CAPITALIZATION. (a) The amount of federal receipts received for disaster relief during the fiscal year ending June 30, 2011, estimated to be $9,000,000, is appropriated to the disaster relief fund (AS 26.23.300(a)).

(b) The sum of $7,500,000 is appropriated from the general fund to the disaster relief fund (AS 26.23.300(a)).

(c) The amount received under AS 18.67.162 as program receipts, estimated to be $21,000, including donations and recoveries of or reimbursement for awards made from the crime victim compensation fund, during the fiscal year ending June 30, 2011, is appropriated to the crime victim compensation fund (AS 18.67.162).

(d) If the balance of the oil and gas tax credit fund (AS 43.55.028) is insufficient to purchase transferable tax credit certificates issued under AS 43.55.023 and production tax credit certificates issued under AS 43.55.025 that are presented for purchase, the amount by which the tax credit certificates presented for purchase exceeds the balance of the fund, estimated to be $180,000,000, is appropriated from the general fund to the oil and gas tax credit fund (AS 43.55.028).

(e) An amount equal to 20 percent of the revenue collected under AS 43.55.011(g), not to exceed $60,000,000, is appropriated from the general fund to the community revenue sharing fund (AS 29.60.850).

* **Sec. 27.** RETAINED FEES AND BANKCARD SERVICE FEES. (a) The amount retained to compensate the collector or trustee of fees, licenses, taxes, or other money belonging to the state during the fiscal year ending June 30, 2011, is appropriated for that purpose to the agency authorized by law to generate the revenue. In this subsection, "collector or trustee" includes vendors retained by the state on a contingency fee basis.

(b) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2011, is appropriated for that purpose to each agency of the executive, legislative, and judicial branches that accepts payment by bankcard or credit card for licenses, permits, goods, and services provided by that agency on behalf of the state, from the funds and accounts in which the payments received by the state are deposited.

(c) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2011, is appropriated for that

purpose to the Department of Law for accepting payment of restitution in accordance with AS 12.55.051 and AS 47.12.170 by bankcard or credit card, from the funds and accounts in which the restitution payments received by the Department of Law are deposited.

* **Sec. 28.** RETIREMENT SYSTEM FUNDING. (a) The sum of $190,850,258 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the teachers' retirement system as an additional state contribution under AS 14.25.085 for the fiscal year ending June 30, 2011.

(b) The sum of $165,841,171 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the public employees' retirement system as an additional state contribution under AS 39.35.280 for the fiscal year ending June 30, 2011.

(c) The sum of $84,175 is appropriated from the general fund to the Department of Military and Veterans' Affairs for deposit in the defined benefit plan account in the Alaska National Guard and Alaska Naval Militia retirement system for the purpose of funding the Alaska National Guard and Alaska Naval Militia retirement system under AS 26.05.226 for the fiscal year ending June 30, 2011.

(d) The sum of $788,937 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the judicial retirement system for the purpose of funding the judicial retirement system under AS 22.25.046 for the fiscal year ending June 30, 2011.

* **Sec. 29.** SALARY AND BENEFIT ADJUSTMENTS. (a) The operating budget appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2011, of the following ongoing collective bargaining agreements:

(1) Alaska Vocational Technical Center Teachers' Association - National Education Association, representing the employees of the Alaska Vocational Technical Center;

(2) Public Safety Employees Association, representing the regularly commissioned public safety officers unit;

(3) Inlandboatmen's Union of the Pacific, for the unlicensed marine unit;

(4) International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit;

(5) Marine Engineers' Beneficial Association.

(b) The operating budget appropriations made to the University of Alaska in this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2011, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (a) or (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

*** Sec. 30.** SHARED TAXES AND FEES. (a) The amount necessary to refund to local governments their share of taxes and fees collected in the listed fiscal years under the following programs is appropriated to the Department of Revenue from the general fund for payment to local governments in the fiscal year ending June 30, 2011:

REVENUE SOURCE	FISCAL YEAR COLLECTED
Fisheries business tax (AS 43.75)	2010
Fishery resource landing tax (AS 43.77)	2010
Aviation fuel tax (AS 43.40.010)	2011
Electric and telephone cooperative tax (AS 10.25.570)	2011
Liquor license fee (AS 04.11)	2011

(b) The amount necessary to pay the first five ports of call their share of the tax collected under AS 43.52.220 in calendar year 2010 according to AS 43.52.230(b), estimated to be $8,500,000, is appropriated from the commercial vessel passenger tax account

(AS 43.52.230(a)) to the Department of Revenue for payment to the port of call during the fiscal year ending June 30, 2011.

(c) It is the intent of the legislature that the payments to local governments set out in (a) and (b) of this section may be assigned by a local government to another state agency.

* **Sec. 31.** STATE DEBT AND OTHER OBLIGATIONS. (a) The amount required to pay interest on any revenue anticipation notes issued by the commissioner of revenue under AS 43.08 during the fiscal year ending June 30, 2011, is appropriated from the general fund to the Department of Revenue for payment of the interest on those notes.

(b) The amount required to be paid by the state for principal and interest on all issued and outstanding state-guaranteed bonds is appropriated from the general fund to the Alaska Housing Finance Corporation for payment of principal and interest on those bonds for the fiscal year ending June 30, 2011.

(c) The sum of $7,066,800 is appropriated to the state bond committee from the investment earnings on the bond proceeds deposited in the capital project funds for the series 2003A general obligation bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2011.

(d) The sum of $42,300 is appropriated to the state bond committee from State of Alaska general obligation bonds, series 2003A bond issue premium, interest earnings, and accrued interest held in the debt service fund of the series 2003A bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2011.

(e) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2011, after the payments in (c) and (d) of this section, estimated to be $23,090,800, is appropriated from the general fund to the state bond committee for that purpose.

(f) The sum of $374,800 is appropriated to the state bond committee from the investment earnings on the bond proceeds deposited in the capital project fund for state guaranteed transportation revenue anticipation bonds, series 2003B, for payment of debt service, accrued interest, and trustee fees on outstanding state-guaranteed transportation

revenue anticipation bonds, series 2003B, for the fiscal year ending June 30, 2011.

(g) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding state-guaranteed transportation revenue anticipation bonds, series 2003B, for the fiscal year ending June 30, 2011, after the payment in (f) of this section, estimated to be $12,353,300, is appropriated from federal receipts to the state bond committee for that purpose.

(h) The sum of $1;902,400 is appropriated to the state bond committee from the investment earnings on the bond proceeds deposited in the capital project funds for the series 2009A general obligation bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2011.

(i) The sum of $2,278,900 is appropriated to the state bond committee from State of Alaska general obligation bonds, series 2009A bond issue premium, interest earnings, and accrued interest held in the debt service fund of the series 2009A bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2011.

(j) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2011, after the payments made in (h) and (i) of this section, estimated to be $6,650,800, is appropriated from the general fund to the state bond committee for that purpose.

(k) The sum of $1,039,000 is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011(a)) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2010A, for the fiscal year ending June 30, 2011.

(*l*) The sum of $34,000 is appropriated from the general fund to the state bond committee for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2010A, for the fiscal year ending June 30, 2011.

(m) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2010A, for the fiscal year ending June 30, 2011, after the payments made in (k) and (*l*) of this section, estimated to be

$3,927,000, is appropriated from the general fund to the state bond committee for that purpose.

(n) The sum of $50,047,900 is appropriated to the state bond committee for payment of debt service and trustee fees on outstanding international airports revenue bonds for the fiscal year ending June 30, 2011, from the following sources in the amounts stated:

SOURCE	AMOUNT
International Airports Revenue Fund (AS 37.15.430(a))	$46,847,900
Passenger facility charge	3,200,000

(o) The sum of $2,710,000 is appropriated from interest earnings of the Alaska clean water fund (AS 46.03.032) to the Alaska clean water fund revenue bond redemption fund (AS 37.15.565) for payment of principal and interest, redemption premium, and trustee fees, if any, on bonds issued by the state bond committee under AS 37.15.560 during the fiscal year ending June 30, 2011.

(p) The sum of $2,973,200 is appropriated from interest earnings of the Alaska drinking water fund (AS 46.03.036) to the Alaska drinking water fund revenue bond redemption fund (AS 37.15.565) for payment of principal and interest, redemption premium, and trustee fees, if any, on bonds issued by the state bond committee under AS 37.15.560 during the fiscal year ending June 30, 2011.

(q) The amount necessary for payment of lease payments and trustee fees relating to certificates of participation issued for real property for the fiscal year ending June 30, 2011, estimated to be $7,841,100, is appropriated from the general fund to the state bond committee for that purpose.

(r) The sum of $168,400 is appropriated from the debt retirement fund (AS 37.15.011) to the state bond committee for trustee fees and lease payments related to certificates of participation issued for real property for the Fairbanks virology laboratory replacement, for the fiscal year ending June 30, 2011.

(s) The sum of $3,467,100 is appropriated from the general fund to the Department of Administration for payment of obligations to the Alaska Housing Finance Corporation for the Robert B. Atwood Building in Anchorage for the fiscal year ending June 30, 2011.

(t) The sum of $22,924,500 is appropriated from the general fund to the Department of Administration for payment of obligations and fees for the following facilities for the fiscal

year ending June 30, 2011:

FACILITY	ALLOCATION
(1) Anchorage Jail	$ 5,108,000
(2) Goose Creek Correctional Center	17,816,500

(u) The sum of $3,303,500 is appropriated from the general fund to the Department of Administration for payment of obligations to the Alaska Housing Finance Corporation for the Linny Pacillo Parking Garage in Anchorage, for the fiscal year ending June 30, 2011.

(v) The sum of $106,258,500 is appropriated to the Department of Education and Early Development for state aid for costs of school construction under AS 14.11.100 for the fiscal year ending June 30, 2011, from the following sources:

General fund	$85,058,500
School Fund (AS 43.50.140)	21,200,000

(w) The sum of $5,707,302 is appropriated from the general fund to the following agencies for the fiscal year ending June 30, 2011, for payment of debt service on outstanding debt authorized by AS 14.40.257, AS 29.60.700, and AS 42.45.065, respectively, for the following projects:

AGENCY AND PROJECT	APPROPRIATION AMOUNT
(1) University of Alaska	$1,409,822
Anchorage Community and Technical College Center	
Juneau Readiness Center/UAS Joint Facility	
(2) Department of Transportation and Public Facilities	
(A) Nome (port facility addition and renovation)	127,000
(B) Matanuska-Susitna Borough (deep water port and road upgrade)	752,450
(C) Aleutians East Borough/False Pass (small boat harbor)	101,840
(D) Lake and Peninsula Borough/Chignik (dock project)	119,844
(E) City of Fairbanks (fire headquarters station replacement)	869,765

(F) City of Valdez (harbor renovations) 222,868
(G) Aleutians East Borough/Akutan (small boat harbor) 465,868
(H) Fairbanks North Star Borough (Eielson AFB Schools, major maintenance and upgrades) 342,990
(3) Alaska Energy Authority
(A) Kodiak Electric Association (Nyman combined cycle cogeneration plant) 943,676
(B) Copper Valley Electric Association (cogeneration projects) 351,179

(x) The sum of $7,500,000 is appropriated from the Alaska fish and game revenue bond redemption fund (AS 37.15.770) to the state bond committee for payment of debt service, accrued interest, and trustee fees on outstanding sport fish hatchery revenue bonds for the fiscal year ending June 30, 2011. It is the intent of the legislature that the sum of $2,200,000 of the appropriation made by this subsection be used for early redemption of the bonds.

* **Sec. 32.** BUDGET RESERVE FUND. If the unrestricted state revenue available for appropriation in fiscal year 2011 is insufficient to cover general fund appropriations made for fiscal year 2011, the amount necessary to balance revenue and general fund appropriations is appropriated from the budget reserve fund (AS 37.05.540(a)) to the general fund.

* **Sec. 33.** CONSTITUTIONAL BUDGET RESERVE FUND. (a) Unrestricted interest earned on investment of the general fund balances for the fiscal year ending June 30, 2011, is appropriated to the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska). The appropriation made by this subsection is intended to compensate the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) for any lost earnings caused by use of the fund's balance to permit expenditure of operating and capital appropriations in the fiscal year ending June 30, 2011, in anticipation of receiving unrestricted general fund revenue. The amount appropriated by this subsection may not exceed an amount equal to the earnings lost by the budget reserve fund as the result of the use of money from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to permit expenditure of operating and capital

appropriations in the fiscal year ending June 30, 2011, in anticipation of receiving unrestricted general fund revenue.

(b) The sum of $2,060,000 is appropriated from the general fund to the Department of Revenue, treasury division, for operating costs related to management of the budget reserve fund for the fiscal year ending June 30, 2011.

*** Sec. 34.** LAPSE EXTENSION OF APPROPRIATIONS. (a) Section 61(c), ch. 30, SLA 2007, is repealed and reenacted to read:

(c) The appropriation made in sec. 18(b), ch. 30, SLA 2007, lapses June 30, 2010, and the appropriation made in sec. 19(a), ch. 30, SLA 2007, lapses June 30, 2011.

(b) Section 16(b), ch. 17, SLA 2009, is amended to read:

(b) The appropriations made in secs. 1 and 14**, ch. 17, SLA 2009,** [OF THIS ACT] lapse June 30, **2011** [2010].

(c) The estimated amounts subject to the lapse extension under (b) of this section by department are as follows:

Department of Commerce, Community, and Economic Development	$ 200,000
Department of Education and Early Development	64,350,000
Department of Health and Social Services	5,478,300
Department of Labor and Workforce Development	6,102,700
Department of Public Safety	5,873,900
Department of Revenue	297,000
Total	$82,301,900

(d) The appropriation made to the Office of the Governor, commissions and special offices, redistricting planning committee allocation, in sec. 1, ch. 12, SLA 2009, page 16, line 28, and allocated on page 16, lines 30 - 31, lapses June 30, 2011.

*** Sec. 35.** NONLAPSE OF APPROPRIATIONS. The appropriations made by secs. 10(d), 11, 12(b), 25, 26, and 28 of this Act are for the capitalization of funds and do not lapse.

*** Sec. 36.** RETROACTIVITY. Those portions of the appropriations made in sec. 1 of this Act that appropriate either the unexpended and unobligated balance of specific fiscal year 2010 program receipts or the unexpended and unobligated balance on June 30, 2010, of a

specified account are retroactive to June 30, 2010, solely for the purpose of carrying forward a prior fiscal year balance.

* **Sec. 37.** Sections 34 and 36 of this Act take effect June 30, 2010.

* **Sec. 38.** Except as provided in sec. 37 of this Act, this Act takes effect July 1, 2010.

MEMORANDUM

DATE: March 1, 2010

TO: House Finance Committee Members

FROM: Representative Mike Hawker, Co-Chairman

RE: Operating Budget HFC CS – Today's Meeting Resources

Attached are the Operating Budget HFC CS 300 (\M version) and the Mental Health Budget HFC CS 302 (\P version) that include the work performed by budget subcommittees. At today's HFC meeting we will review and adopt these bill versions as working documents.

The following reports are included in this transmittal summarizing the monetary changes made in these bills.

Agency Summary – General Funds
A Summary of Gas Line Appropriation Requests
Agency Summary – Numbers and Language
Agency Summary – Language Only

Revisions of significance to the language section in the HFC CS will also be reviewed during today's meeting.

The CS bill versions being brought forward today incorporate all of the recommendations forwarded by the budget subcommittees. Complete subcommittee close-out reports and other detailed budget information documents are posted on the Legislative Finance web site at www.legfin.state.ak.us under the "FY 2011 House Subcommittee Operating Budget Reports" link.

Subcommittee Chairs should be prepared to respond to any questions that arise regarding their close-outs.

Several funds source transactions related to proper classification of General Fund Program Receipts, Statutory Designated Program Receipts and Receipt Supported Services are also included in the CS bills. These changes pretty much finalize the implementation of the budget clarification project, completing the task of bringing all general funds sources back "on budget." These final budget clarification fund source changes are implemented before subcommittee actions directly to the Governor's amended request in the BCPFdChg column in the summary reports. Detail transactions are available from Legislative Finance.

Public testimony on the operating budget bills will be taken as follows:

Tuesday, March 2, 2010 — House Finance Room 519 – 1:30 PM

HB 300 - APPROP: OPERATING BUDGET/LOANS/FUNDS
HB 302 - APPROP: MENTAL HEALTH BUDGET

Public Testimony**

1:30 – 2:30 p.m.	Juneau
2:45 – 3:45 p.m.	Bethel, Kotzebue, Barrow, Nome, Delta Junction, Offnets
4:00 – 5:15 p.m.	Anchorage

Wednesday, March 3, 2010 — House Finance Room 519 – 1:30 PM

HB 300 - APPROP: OPERATING BUDGET/LOANS/FUNDS
HB 302 - APPROP: MENTAL HEALTH BUDGET

Public Testimony**

1:30 – 2:45 pm	Fairbanks
3:00 – 4:00 p.m.	Sitka, Wrangell, Petersburg, Dillingham, Cordova
4:15 – 5:00 p.m.	Homer, Kenai, Valdez, Ketchikan, Kodiak, Seward, Matsu, Glennallen , Tok

The CS bill versions being offered today should be used as the basis for any further amendment proposals. In order to be considered, proposed amendments should be submitted to my office by 4:00 PM on Thursday, March 4, 2010. The current work plan is to take up amendments and begin committee deliberations on these bills on Monday, March 8, 2010 during our 1:30pm meeting.

CS FOR HOUSE BILL NO. 300(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making appropriations for the operating and loan program expenses of state government, for certain programs, and to capitalize funds; making supplemental appropriations; making appropriations under art. IX, sec. 17(c), Constitution of the State of Alaska; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2010 and ending June 30, 2011, unless otherwise indicated.

	Allocations	Appropriation Items	General Funds	Other Funds
*****		*****		
***** **Department of Administration** *****				
*****		*****		
Centralized Administrative Services		**71,848,700**	**13,380,100**	**58,468,600**

The amount appropriated by this appropriation includes the unexpended and unobligated balance on June 30, 2010, of inter-agency receipts appropriated in sec. 1, ch. 12, SLA 2009, page 2, line 12, and collected in the Department of Administration's federally approved cost allocation plans.

Office of Administrative Hearings	1,563,900
DOA Leases	1,814,900
Office of the Commissioner	948,100
Administrative Services	2,334,300
DOA Information Technology Support	1,248,200
Finance	8,592,100
E-Travel	2,940,700
Personnel	15,502,900
Labor Relations	1,289,200
Purchasing	1,241,700
Property Management	958,000
Central Mail	3,427,700
Centralized Human Resources	281,700

	Allocations	Appropriation Items	General Funds	Other Funds
Retirement and Benefits	14,216,700			
Group Health Insurance	15,100,400			
Labor Agreements	50,000			
Miscellaneous Items				
Centralized ETS Services	338,200			
Leases		**48,390,800**	**59,300**	**48,331,500**
The amount appropriated by this appropriation includes the unexpended and unobligated balance on June 30, 2010, of inter-agency receipts appropriated in sec. 1, ch. 12, SLA 2009, page 3, line 15, and collected in the Department of Administration's federally approved cost allocation plans.				
Leases	47,182,700			
Lease Administration	1,208,100			
State Owned Facilities		**17,403,200**	**1,394,100**	**16,009,100**
Facilities	15,258,700			
Facilities Administration	1,389,700			
Non-Public Building Fund Facilities	754,800

(SECTION 4 OF THIS ACT BEGINS ON PAGE 53)

*** Sec. 4.** ALASKA AEROSPACE CORPORATION. Federal receipts and other corporate receipts of the Alaska Aerospace Corporation received during the fiscal year ending June 30, 2011, that are in excess of the amount appropriated in sec. 1 of this Act are appropriated to the Alaska Aerospace Corporation for operations during the fiscal year ending June 30, 2011.

*** Sec. 5.** ALASKA HOUSING FINANCE CORPORATION. (a) The board of directors of the Alaska Housing Finance Corporation anticipates that $42,549,257 of the adjusted net income from the second preceding fiscal year will be available in fiscal year 2011 for payment of debt service, appropriation in this Act, appropriation for capital projects, and transfer to the Alaska debt retirement fund (AS 37.15.011(a)).

(b) A portion of the amount set out in (a) of this section for the fiscal year ending June 30, 2011, will be retained by the Alaska Housing Finance Corporation for the following purposes in the following estimated amounts:

(1) $1,000,000 for debt service on University of Alaska, Anchorage, dormitory construction, authorized under ch. 26, SLA 1996;

(2) $2,592,558 for debt service on the bonds authorized under ch. 1, SSSLA 2002;

(3) $2,548,195 for debt service on the bonds authorized under sec. 4, ch. 120, SLA 2004.

(c) After deductions for the items set out in (b) of this section, $36,408,504 of the remainder of the amount set out in (a) of this section is available for appropriation for capital projects.

(d) After deductions for the items set out in (b) of this section and deductions for appropriations for operating and capital purposes are made, any remaining balance of the amount set out in (a) of this section for the fiscal year ending June 30, 2011, is appropriated to the Alaska debt retirement fund (AS 37.15.011(a)).

(e) All unrestricted mortgage loan interest payments, mortgage loan commitment fees, and other unrestricted receipts received by or accrued to the Alaska Housing Finance Corporation during fiscal year 2011 and all income earned on assets of the corporation during that period are appropriated to the Alaska Housing Finance Corporation to hold as corporate receipts for the purposes described in AS 18.55 and AS 18.56. The corporation shall allocate its corporate receipts between the Alaska housing finance revolving fund (AS 18.56.082) and

senior housing revolving fund (AS 18.56.710(a)) in accordance with procedures adopted by the board of directors.

(f) The sum of $800,000,000 is appropriated from the corporate receipts appropriated to the Alaska Housing Finance Corporation and allocated between the Alaska housing finance revolving fund (AS 18.56.082) and senior housing revolving fund (AS 18.56.710(a)) under (e) of this section to the Alaska Housing Finance Corporation for the fiscal year ending June 30, 2011, for housing loan programs not subsidized by the corporation.

(g) The sum of $30,000,000 is appropriated from the portion of the corporate receipts appropriated to the Alaska Housing Finance Corporation and allocated between the Alaska housing finance revolving fund (AS 18.56.082) and senior housing revolving fund (AS 18.56.710(a)) under (e) of this section that is derived from arbitrage earnings to the Alaska Housing Finance Corporation for the fiscal year ending June 30, 2011, for housing loan programs and projects subsidized by the corporation.

(h) The sum of $36,000,000 is appropriated from federal receipts to the Alaska Housing Finance Corporation for housing assistance payments under the Section 8 program for the fiscal year ending June 30, 2011.

* **Sec. 6.** ALASKA PERMANENT FUND CORPORATION. (a) The amount authorized under AS 37.13.145(b) for transfer by the Alaska Permanent Fund Corporation on June 30, 2011, is appropriated from the earnings reserve account (AS 37.13.145(a)) to the dividend fund (AS 43.23.045(a)) for the payment of permanent fund dividends, and for administrative and associated costs for the fiscal year ending June 30, 2011.

(b) After money is transferred to the dividend fund under (a) of this section, the amount calculated under AS 37.13.145(c) to offset the effect of inflation on the principal of the Alaska permanent fund during fiscal year 2011 is appropriated from the earnings reserve account (AS 37.13.145(a)) to the principal of the Alaska permanent fund.

(c) The amount required to be deposited under AS 37.13.010(a)(1) and (2) during fiscal year 2011 is appropriated to the principal of the Alaska permanent fund in satisfaction of that requirement.

* **Sec. 7.** ALASKA INDUSTRIAL DEVELOPMENT AND EXPORT AUTHORITY. (a) The sum of $23,423,000 has been declared available by the Alaska Industrial Development and Export Authority board of directors for appropriation as the fiscal year 2011 dividend

from the unrestricted balance in the Alaska Industrial Development and Export Authority revolving fund (AS 44.88.060).

(b) After deductions for appropriations made for operating and capital purposes are made, any remaining balance of the amount set out in (a) of this section for the fiscal year ending June 30, 2011, is appropriated to the Alaska debt retirement fund (AS 37.15.011(a)).

*** Sec. 8.** DEPARTMENT OF ADMINISTRATION. The amount necessary to fund the uses of the state insurance catastrophe reserve account described in AS 37.05.289(a) is appropriated from that account to the Department of Administration for those uses during the fiscal year ending June 30, 2011.

*** Sec. 9.** DEPARTMENT OF COMMERCE, COMMUNITY, AND ECONOMIC DEVELOPMENT. (a) The unexpended and unobligated balance of federal money apportioned to the state as national forest income that the Department of Commerce, Community, and Economic Development determines would lapse into the unrestricted portion of the general fund June 30, 2011, under AS 41.15.180(j) is appropriated as follows:

(1) up to $170,000 is appropriated to the Department of Transportation and Public Facilities, commissioner's office, for road maintenance in the unorganized borough, for the fiscal year ending June 30, 2011;

(2) the balance remaining after the appropriation made by (1) of this subsection is appropriated to home rule cities, first class cities, second class cities, a municipality organized under federal law, or regional educational attendance areas entitled to payment from the national forest income for the fiscal year ending June 30, 2011, to be allocated among the recipients of national forest income according to their pro rata share of the total amount distributed under AS 41.15.180(c) and (d) for the fiscal year ending June 30, 2011.

(b) An amount equal to the salmon enhancement tax collected under AS 43.76.010 - 43.76.028 in calendar year 2009 and deposited in the general fund under AS 43.76.025(c) is appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment in fiscal year 2011 to qualified regional associations operating within a region designated under AS 16.10.375.

(c) An amount equal to the seafood development tax collected under AS 43.76.350 - 43.76.399 in calendar year 2009 and deposited in the general fund under AS 43.76.380(d) is

appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment in fiscal year 2011 to qualified regional seafood development associations.

(d) The sum of $23,673,600 is appropriated from the power cost equalization endowment fund (AS 42.45.070) to the Department of Commerce, Community, and Economic Development, Alaska Energy Authority, power cost equalization allocation, for the fiscal year ending June 30, 2011.

(e) If the amount appropriated in (d) of this section is not sufficient to pay power cost equalization program costs without proration, the amount necessary to pay power cost equalization program costs without proration, estimated to be $12,626,400 is appropriated from the general fund to the Department of Commerce, Community, and Economic Development, Alaska Energy Authority, power cost equalization allocation, for the fiscal year ending June 30, 2011.

(f) If the amount necessary to make national forest receipts payments under AS 41.15.180 exceeds the amount appropriated in sec. 1 of this Act, the amount necessary to make national forest receipt payments is appropriated from federal receipts received for that purpose to the Department of Commerce, Community, and Economic Development, revenue sharing, national forest receipts allocation, for the fiscal year ending June 30, 2011.

(g) If the amount necessary to make payment in lieu of taxes payments under 3 AAC 152 exceeds the amount appropriated in sec. 1 of this Act, the amount necessary to make payment in lieu of taxes payments is appropriated from federal receipts received for that purpose to the Department of Commerce, Community, and Economic Development, revenue sharing, payment in lieu of taxes allocation, for the fiscal year ending June 30, 2011.

* **Sec. 10.** DEPARTMENT OF HEALTH AND SOCIAL SERVICES. The sum of $1,200,000 is appropriated from the general fund to the Department of Health and Social Services, office of children's services, for the purpose of paying judgments and settlements against the state for the fiscal year ending June 30, 2011.

* **Sec. 11.** DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT. (a) If the amount necessary to pay benefit payments from the fishermen's fund (AS 23.35.060) exceeds the amounts appropriated in sec. 1 of this Act, the additional amount necessary to pay those benefit payments is appropriated from that fund to the Department of Labor and Workforce

Development, fishermen's fund allocation, for the fiscal year ending June 30, 2011.

(b) If the amount necessary to pay benefit payments from the second injury fund (AS 23.30.040(a)) exceeds the amount appropriated in sec. 1 of this Act, the additional amount necessary to make those benefit payments is appropriated from the second injury fund to the Department of Labor and Workforce Development, second injury fund allocation, for the fiscal year ending June 30, 2011.

(c) If the amount necessary to pay benefit payments from the workers' compensation benefits guaranty fund (AS 23.30.082) exceeds the amount appropriated in sec. 1 of this Act, the additional amount necessary to pay those benefit payments is appropriated from that fund to the Department of Labor and Workforce Development, workers' compensation benefits guaranty fund allocation, for the fiscal year ending June 30, 2011.

(d) If the amount of designated program receipts received under AS 43.20.014(a)(3) and deposited in the vocational education account (AS 37.10.200) during the fiscal year ending June 30, 2011, exceeds the amount appropriated in sec. 1 of this Act for purposes described in AS 37.10.200, the additional designated program receipts are appropriated to the Department of Labor and Workforce Development, Alaska Vocational Technical Center, Alaska Vocational Technical Center allocation, for the fiscal year ending June 30, 2011.

* **Sec. 12.** DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS. Five percent of the market value of the average ending balances in the Alaska veterans' memorial endowment fund (AS 37.14.700) for the fiscal years ending June 30, 2008, June 30, 2009, and June 30, 2010, is appropriated from the Alaska veterans' memorial endowment fund to the Department of Military and Veterans' Affairs for the purposes specified in AS 37.14.730(b) for the fiscal year ending June 30, 2011.

* **Sec. 13.** DEPARTMENT OF NATURAL RESOURCES. (a) Federal receipts received for fire suppression during the fiscal year ending June 30, 2011, are appropriated to the Department of Natural Resources for fire suppression activities for the fiscal year ending June 30, 2011.

(b) The sum of $1,000,000 is appropriated from federal receipts to the Department of Natural Resources, RS 2477/Navigability Assertions and Litigation Support allocation, for the United States Department of the Interior, Bureau of Land Management navigable water identification project, for the fiscal years ending June 30, 2011, and June 30, 2012.

*** Sec. 14.** DEPARTMENT OF PUBLIC SAFETY. (a) The sum of $1,393,200 is appropriated from the general fund to the Department of Public Safety, division of Alaska state troopers, narcotics task force, for drug and alcohol enforcement efforts during the fiscal year ending June 30, 2011.

(b) If the amount of federal receipts received by the Department of Public Safety from the justice assistance grant program during the fiscal year ending June 30, 2011, for drug and alcohol enforcement efforts exceeds $1,289,100, the appropriation in (a) of this section is reduced by the amount by which the federal receipts exceed $1,289,100.

(c) The sum of $1,270,000 is appropriated from the general fund to the Department of Public Safety, division of Alaska state troopers, special projects, for rural alcohol interdiction efforts for the fiscal year ending June 30, 2011.

(d) If federal receipts are received by the Department of Public Safety for the rural alcohol interdiction program during the fiscal year ending June 30, 2011, the appropriation in (c) of this section is reduced by the amount of the federal receipts.

*** Sec. 15.** DEPARTMENT OF REVENUE. (a) The minimum amount of program receipts received for the fiscal year ending June 30, 2011, by the child support services agency that is required to secure the federal funding appropriated from those program receipts for the child support enforcement program in sec. 1 of this Act is appropriated to the Department of Revenue, child support services agency, for the fiscal year ending June 30, 2011.

(b) Program receipts collected as cost recovery for paternity testing administered by the child support services agency, as required under AS 25.27.040 and 25.27.165, and as collected under AS 25.20.050(f), are appropriated to the Department of Revenue, child support services agency, for the fiscal year ending June 30, 2011.

*** Sec. 16.** OFFICE OF THE GOVERNOR. (a) If the 2011 fiscal year-to-date average price of Alaska North Slope crude oil exceeds $35 a barrel on August 1, 2010, the amount of money corresponding to the 2011 fiscal year-to-date average price, rounded to the nearest dollar, as set out in the table in (c) of this section is appropriated from the general fund to the office of the governor for distribution to state agencies to offset increased fuel and utility costs.

(b) If the 2011 fiscal year-to-date average price of Alaska North Slope crude oil exceeds $35 a barrel on December 1, 2010, the amount of money corresponding to the 2011

fiscal year-to-date average price, rounded to the nearest dollar, as set out in the table in (c) of this section is appropriated from the general fund to the office of the governor for distribution to state agencies to offset increased fuel and utility costs.

(c) The following table shall be used in determining the amount of the appropriations in (a) and (b) of this section:

2011 FISCAL YEAR-TO-DATE AVERAGE PRICE OF ALASKA NORTH SLOPE CRUDE OIL	AMOUNT
$90 or more	$27,500,000
89	27,000,000
88	26,500,000
87	26,000,000
86	25,500,000
85	25,000,000
84	24,500,000
83	24,000,000
82	23,500,000
81	23,000,000
80	22,500,000
79	22,000,000
78	21,500,000
77	21,000,000
76	20,500,000
75	20,000,000
74	19,500,000
73	19,000,000
72	18,500,000
71	18,000,000
70	17,500,000

1	69	17,000,000
2	68	16,500,000
3	67	16,000,000
4	66	15,500,000
5	65	15,000,000
6	64	14,500,000
7	63	14,000,000
8	62	13,500,000
9	61	13,000,000
10	60	12,500,000
11	59	12,000,000
12	58	11,500,000
13	57	11,000,000
14	56	10,500,000
15	55	10,000,000
16	54	9,500,000

(d) It is the intent of the legislature that a payment under (a) or (b) of this section be used to offset the effects of higher fuel and utility costs for the fiscal year ending June 30, 2011.

(e) The governor shall allocate amounts appropriated in (a) and (b) of this section as follows:

(1) to the Department of Transportation and Public Facilities, 65 percent of the total plus or minus 10 percent;

(2) to the University of Alaska, eight percent of the total plus or minus three percent;

(3) to the Department of Health and Social Services and the Department of Corrections, not more than five percent each of the total amount appropriated;

(4) to any other state agency, not more than four percent of the total amount appropriated;

(5) the aggregate amount allocated may not exceed 100 percent of the appropriation.

(f) The sum of $6,500,000 is appropriated from receipts of the Alaska Housing Capital Corporation created under AS 18.56.086 to the office of the governor for the development of an in-state natural gas pipeline.

* **Sec. 17.** UNIVERSITY OF ALASKA. The amount of the fees collected under AS 28.10.421(d) during the fiscal year ending June 30, 2010, for the issuance of special request university plates, less the cost of issuing the license plates, is appropriated from the general fund to the University of Alaska for support of alumni programs at the campuses of the university for the fiscal year ending June 30, 2011.

* **Sec. 18.** BOND CLAIMS. The amount received in settlement of a claim against a bond guaranteeing the reclamation of state, federal, or private land, including the plugging or repair of a well, is appropriated to the agency secured by the bond for the fiscal year ending June 30, 2011, for the purpose of reclaiming the state, federal, or private land affected by a use covered

by the bond.

*** Sec. 19.** GAS PIPELINE DEVELOPMENT. The following amounts are appropriated to the named department and components from receipts of the Alaska Housing Capital Corporation created under AS 18.56.086 in the amounts stated for work associated with development of a natural gas pipeline for the fiscal year ending June 30, 2011:

DEPARTMENT AND COMPONENT	APPROPRIATION AMOUNT
(1) Administration	
Alaska Oil and Gas Conservation Commission	$1,150,900
(2) Law	
Oil, gas, and mining	2,500,000
(3) Natural Resources	
Gas pipeline implementation	4,217,500
(4) Revenue	
Tax Division	1,100,000
Natural gas commercialization	1,550,000

*** Sec. 20.** FEDERAL AND OTHER PROGRAM RECEIPTS. (a) Federal receipts, designated program receipts as defined in AS 37.05.146(b)(3), information services fund program receipts as described in AS 44.21.045(b), Exxon Valdez oil spill trust receipts described in AS 37.05.146(b)(4), receipts of the Alaska Housing Finance Corporation, receipts of the Alaska marine highway system fund described in AS 19.65.060(a), receipts of the University of Alaska as described in AS 37.05.146(b)(2), and receipts of the Alaska Fire Standards Council described in AS 37.05.146(b)(5) that are received during the fiscal year ending June 30, 2011, and that exceed the amounts appropriated by this Act, are appropriated conditioned on compliance with the program review provisions of AS 37.07.080(h).

(b) If federal or other program receipts as defined in AS 37.05.146 and in AS 44.21.045(b) that are received during the fiscal year ending June 30, 2011, exceed the amounts appropriated by this Act, the appropriations from state funds for the affected program shall be reduced by the excess if the reductions are consistent with applicable federal statutes.

(c) If federal or other program receipts as defined in AS 37.05.146 and in AS 44.21.045(b) that are received during the fiscal year ending June 30, 2011, fall short of the

amounts appropriated by this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 21.** FUND TRANSFERS. (a) The federal funds received by the state under 42 U.S.C. 6506a(*l*) or former 42 U.S.C. 6508 not appropriated for grants under AS 37.05.530(d) are appropriated as follows:

(1) to the principal of the Alaska permanent fund (art. IX, sec. 15, Constitution of the State of Alaska) and the public school trust fund (AS 37.14.110(a)), according to AS 37.05.530(g)(1) and (2); and

(2) to the principal of the Alaska permanent fund (art. IX, sec. 15, Constitution of the State of Alaska), the public school trust fund (AS 37.14.110(a)), and the power cost equalization and rural electric capitalization fund (AS 42.45.100(a)), according to AS 37.05.530(g)(3).

(b) The following amounts of revenue collected during the fiscal year ending June 30, 2011, are appropriated to the fish and game fund (AS 16.05.100):

(1) receipts from the sale of crewmember fishing licenses (AS 16.05.480(a)) that are not deposited into the fishermen's fund under AS 23.35.060;

(2) range fees collected at shooting ranges operated by the Department of Fish and Game (AS 16.05.050(a)(15));

(3) fees collected at boating and angling access sites described in AS 16.05.050(a)(6) and managed by the Department of Natural Resources, division of parks and outdoor recreation, under a cooperative agreement;

(4) receipts from the sale of waterfowl conservation stamp limited edition prints (AS 16.05.826(a));

(5) fees collected for sanctuary access permits (AS 16.05.050(a)(15)).

(c) The following amounts are appropriated to the oil and hazardous substance release prevention account (AS 46.08.010(a)(1)) in the oil and hazardous substance release prevention and response fund (AS 46.08.010(a)) from the sources indicated:

(1) the balance of the oil and hazardous substance release prevention mitigation account (AS 46.08.020(b)) in the general fund on July 1, 2010, not otherwise appropriated by this Act;

(2) the amount collected for the fiscal year ending June 30, 2010, estimated to

be $8,300,000 from the surcharge levied under AS 43.55.300.

(d) The following amounts are appropriated to the oil and hazardous substance release response account (AS 46.08.010(a)(2)) in the oil and hazardous substance release prevention and response fund (AS 46.08.010) from the following sources:

(1) the balance of the oil and hazardous substance release response mitigation account (AS 46.08.025(b)) in the general fund on July 1, 2010, not otherwise appropriated by this Act;

(2) the amount collected for the fiscal year ending June 30, 2010, from the surcharge levied under AS 43.55.201.

(e) The portions of the fees listed in this subsection that are collected during the fiscal year ending June 30, 2011, are appropriated to the Alaska children's trust (AS 37.14.200(a)):

(1) fees collected under AS 18.50.225, less the cost of supplies, for the issuance of birth certificates;

(2) fees collected under AS 18.50.272, less the cost of supplies, for the issuance of heirloom marriage certificates;

(3) fees collected under AS 28.10.421(d) for the issuance of special request Alaska children's trust license plates, less the cost of issuing the license plates.

(f) The loan origination fees collected by the Alaska Commission on Postsecondary Education for the fiscal year ending June 30, 2011, are appropriated to the origination fee account (AS 14.43.120(u)) within the education loan fund (AS 14.42.210(a)) of the Alaska Student Loan Corporation for the purposes specified in AS 14.43.120(u).

(g) The amount of federal receipts received for disaster relief during the fiscal year ending June 30, 2011, is appropriated to the disaster relief fund (AS 26.23.300(a)).

(h) The sum of $7,500,000 is appropriated from the general fund to the disaster relief fund (AS 26.23.300(a)).

(i) The balance of the mine reclamation trust fund income account (AS 37.14.800(a)) on June 30, 2010, and money deposited in that account during the fiscal year ending June 30, 2011, is appropriated to the mine reclamation trust fund operating account (AS 37.14.800(a)) for the fiscal year ending June 30, 2011. The amount necessary for the purposes specified in AS 37.14.820 for the fiscal year ending June 30, 2011, is appropriated from the mine reclamation trust fund operating account (AS 37.14.800(a)) to the Department of Natural

Resources.

(j) The sum of $15,660,000 is appropriated to the Alaska clean water fund (AS 46.03.032(a)) for the Alaska clean water loan program from the following sources:

Alaska clean water fund revenue bond receipts	$2,700,000
Federal receipts	12,960,000

(k) The sum of $13,092,200 is appropriated to the Alaska drinking water fund (AS 46.03.036(a)) for the Alaska drinking water loan program from the following sources:

Alaska drinking water fund revenue bond receipts	$2,963,000
Federal receipts	10,129,200

(*l*) The amount of municipal bond bank receipts determined under AS 44.85.270(h) to be available for transfer by the Alaska Municipal Bond Bank Authority for the fiscal year ending June 30, 2010, is appropriated to the Alaska municipal bond bank authority reserve fund (AS 44.85.270(a)).

(m) An amount equal to the bulk fuel revolving loan fund fees established under AS 42.45.250(j) and collected under AS 42.45.250(k) from July 1, 2009, through June 30, 2010, estimated to be $45,000, are appropriated from the general fund to the bulk fuel revolving loan fund (AS 42.45.250(a)).

(n) The sum of $7,000,000 is appropriated from the Alaska sport fishing enterprise account (AS 16.05.130(e)) in the fish and game fund (AS 16.05.100) to the Alaska fish and game revenue bond redemption fund (AS 37.15.770).

(o) An amount equal to the federal receipts deposited in the Alaska sport fishing enterprise account (AS 16.05.130(e)), not to exceed $1,644,800, as reimbursement for the federally allowable portion of the principal balance payment on the sport fishing revenue bonds series 2006 is appropriated from the Alaska sport fishing enterprise account (AS 16.05.130(e)) to the fish and game fund (AS 16.05.100).

(p) The amount received under AS 18.67.162 as program receipts, including donations and recoveries of or reimbursement for awards made from the fund, during the fiscal year ending June 30, 2011, is appropriated to the crime victim compensation fund (AS 18.67.162).

(q) If the balance of the oil and gas tax credit fund (AS 43.55.028) is insufficient to purchase transferable tax credit certificates issued under AS 43.55.023 and production tax

credit certificates issued under AS 43.55.025 that are presented for purchase, the amount by which the tax credit certificates presented for purchase exceeds the balance of the fund is appropriated from the general fund to the oil and gas tax credit fund (AS 43.55.028).

(r) An amount equal to 20 percent of the revenue collected under AS 43.55.011(g), not to exceed $60,000,000, is appropriated from the general fund to the community revenue sharing fund (AS 29.60.850(a)).

(s) If the Alaska Municipal Bond Bank Authority must draw on the Alaska municipal bond bank authority reserve fund (AS 44.85.270(a)), 2005 general bond resolution reserve, because of a default by a borrower, an amount equal to the amount drawn from the reserve is appropriated from the general fund to the Alaska municipal bond bank authority reserve fund (AS 44.85.270(a)).

(t) The sum of $1,130,982,400 is appropriated from the general fund to the public education fund (AS 14.17.300).

* **Sec. 22.** RETAINED FEES AND BANKCARD SERVICE FEES. (a) The amount retained to compensate the collector or trustee of fees, licenses, taxes, or other money belonging to the state during the fiscal year ending June 30, 2011, is appropriated for that purpose to the agency authorized by law to generate the revenue. In this subsection, "collector or trustee" includes vendors retained by the state on a contingency fee basis.

(b) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2011, is appropriated for that purpose to each agency of the executive, legislative, and judicial branches that accepts payment by bankcard or credit card for licenses, permits, goods, and services provided by that agency on behalf of the state, from the funds and accounts in which the payments received by the state are deposited.

(c) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2011, is appropriated for that purpose to the Department of Law for accepting payment of restitution in accordance with AS 12.55.051 by bankcard or credit card, from the funds and accounts in which the restitution payments received by the Department of Law are deposited.

* **Sec. 23.** RETIREMENT SYSTEM FUNDING. (a) The sum of $190,850,258 is appropriated from the general fund to the Department of Administration for deposit in the

defined benefit plan account in the teachers' retirement system as an additional state contribution under AS 14.25.085 for the fiscal year ending June 30, 2011.

(b) The sum of $165,841,171 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the public employees' retirement system as an additional state contribution under AS 39.35.280 for the fiscal year ending June 30, 2011.

(c) The sum of $84,175 is appropriated from the general fund to the Department of Military and Veterans' Affairs for deposit in the defined benefit plan account in the Alaska National Guard and Alaska Naval Militia retirement system for the purpose of funding the Alaska National Guard and Alaska Naval Militia retirement system under AS 26.05.226 for the fiscal year ending June 30, 2011.

(d) The sum of $788,937 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the judicial retirement system for the purpose of funding the judicial retirement system under AS 22.25.046 for the fiscal year ending June 30, 2011.

* **Sec. 24.** SALARY AND BENEFIT ADJUSTMENTS. (a) The operating budget appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2011, of the following ongoing collective bargaining agreements:

(1) Alaska Vocational Technical Center Teachers' Association - National Education Association, representing the employees of the Alaska Vocational Technical Center;

(2) Public Safety Employees Association, representing the regularly commissioned public safety officers unit;

(3) Inlandboatmen's Union of the Pacific, for the unlicensed marine unit;

(4) International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit;

(5) Marine Engineers' Beneficial Association.

(b) The operating budget appropriations made to the University of Alaska in this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2011,

for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (b) of this section is not ratified by the membership of the respective collecting bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

*** Sec. 25.** SHARED TAXES AND FEES. (a) The amount necessary to refund to local governments their share of taxes and fees collected in the listed fiscal years under the following programs is appropriated to the Department of Revenue from the general fund for payment to local governments in fiscal year 2011:

REVENUE SOURCE	FISCAL YEAR COLLECTED
Fisheries business tax (AS 43.75)	2010
Fishery resource landing tax (AS 43.77)	2010
Aviation fuel tax (AS 43.40.010)	2011
Electric and telephone cooperative tax (AS 10.25.570)	2011
Liquor license fee (AS 04.11)	2011

(b) The amount necessary to pay the first five ports of call their share of the tax collected under AS 43.52.220 in calendar year 2010 according to AS 43.52.230(b) is appropriated from the commercial vessel passenger tax account (AS 43.52.230(a)) to the Department of Revenue for payment to the port of call during the fiscal year ending June 30, 2011.

(c) It is the intent of the legislature that the payments to local governments set out in (a) and (b) of this section may be assigned by a local government to another state agency.

*** Sec. 26.** STATE DEBT AND OTHER OBLIGATIONS. (a) The amount required to pay interest on any revenue anticipation notes issued by the commissioner of revenue under AS 43.08 during the fiscal year ending June 30, 2011, is appropriated from the general fund to the Department of Revenue for payment of the interest on those notes.

(b) The amount required to be paid by the state for principal and interest on all issued and outstanding state-guaranteed bonds is appropriated from the general fund to the Alaska Housing Finance Corporation for payment of principal and interest on those bonds for the fiscal year ending June 30, 2011.

(c) The sum of $7,066,800 is appropriated to the state bond committee from the investment earnings on the bond proceeds deposited in the capital project funds for the series 2003A general obligation bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2011.

(d) The sum of $42,300 is appropriated to the state bond committee from State of Alaska general obligation bonds, series 2003A bond issue premium, interest earnings, and accrued interest held in the debt service fund of the series 2003A bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2011.

(e) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A for the fiscal year ending June 30, 2011, after the payments in (c) and (d) of this section, estimated to be $23,090,800, is appropriated to the state bond committee from the general fund for that purpose.

(f) The sum of $374,800 is appropriated to the state bond committee from the investment earnings on the bond proceeds deposited in the capital project fund for state guaranteed transportation revenue anticipation bonds, series 2003B, for payment of debt service, accrued interest, and trustee fees on outstanding state-guaranteed transportation revenue anticipation bonds, series 2003B, for the fiscal year ending June 30, 2011.

(g) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding state-guaranteed transportation revenue anticipation bonds, series 2003B, for the fiscal year ending June 30, 2011, after the payment in (f) of this section, estimated to

be $12,353,300, is appropriated to the state bond committee from federal receipts for that purpose.

(h) The sum of $1,902,400 is appropriated to the state bond committee from the investment earnings on the bond proceeds deposited in the capital project funds for the series 2009A general obligation bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2011.

(i) The sum of $2,278,900 is appropriated to the state bond committee from State of Alaska general obligation bonds, series 2009A bond issue premium, interest earnings, and accrued interest held in the debt service fund of the series 2009A bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2011.

(j) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A for the fiscal year ending June 30, 2011, after the payments made in (h) and (i) of this section, estimated to be $6,650,800, is appropriated to the state bond committee from the general fund for that purpose.

(k) The sum of $1,039,000 is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011(a)) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2010A, for the fiscal year ending June 30, 2011.

(*l*) The sum of $34,000 is appropriated to the state bond committee from investment loss trust fund (AS 37.14.300(a)) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2010A, for the fiscal year ending June 30, 2011.

(m) The amount necessary for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2010A for the fiscal year ending June 30, 2011, after the payments made in (k) and (*l*) of this section, estimated to be $3,927,000, is appropriated to the state bond committee from the general fund for that purpose.

(n) The sum of $50,047,900 is appropriated to the state bond committee for payment

of debt service and trustee fees on outstanding international airports revenue bonds for the fiscal year ending June 30, 2011, from the following sources in the amounts stated:

SOURCE	AMOUNT
International Airports Revenue Fund (AS 37.15.430(a))	$46,847,900
Passenger facility charge	3,200,000

(o) The sum of $2,710,000 is appropriated from interest earnings of the Alaska clean water fund (AS 46.03.032(a)) to the Alaska clean water fund revenue bond redemption fund (AS 37.15.565(a)) for payment of principal and interest, redemption premium, and trustee fees, if any, on bonds issued by the state bond committee under AS 37.15.560 during the fiscal year ending June 30, 2011.

(p) The sum of $2,973,200 is appropriated from interest earnings of the Alaska drinking water fund (AS 46.03.036(a)) to the Alaska drinking water fund revenue bond redemption fund (AS 37.15.565(a)) for payment of principal and interest, redemption premium, and trustee fees, if any, on bonds issued by the state bond committee under AS 37.15.560 during the fiscal year ending June 30, 2011.

(q) The amount necessary for payment of lease payments and trustee fees relating to certificates of participation issued for real property for the fiscal year ending June 30, 2011, estimated to be $12,326,200, is appropriated to the state bond committee from the general fund for that purpose.

(r) The sum of $3,467,100 is appropriated from the general fund to the Department of Administration for the fiscal year ending June 30, 2011, for payment of obligations to the Alaska Housing Finance Corporation for the Robert B. Atwood Building in Anchorage.

(s) The sum of $22,924,500 is appropriated from the general fund to the Department of Administration for the fiscal year ending June 30, 2011, for payment of obligations and fees for the following facilities:

FACILITY	ALLOCATION
(1) Anchorage Jail	$5,108,000
(2) Goose Creek Correctional Center	17,816,500

(t) The sum of $3,303,500 is appropriated from the general fund to the Department of Administration for payment of obligations to the Alaska Housing Finance Corporation for the Linny Pacillo Parking Garage in Anchorage, for the fiscal year ending June 30, 2011.

(u) The sum of $106,258,500 is appropriated to the Department of Education and Early Development for state aid for costs of school construction under AS 14.11.100 from the following sources:

General fund	$85,058,500
School Fund (AS 43.50.140)	21,200,000

(v) The sum of $5,707,302 is appropriated from the general fund to the following agencies for the fiscal year ending June 30, 2011, for payment of debt service on outstanding debt authorized by AS 14.40.257, AS 29.60.700, and AS 42.45.065, respectively, for the following projects:

AGENCY AND PROJECT	APPROPRIATION AMOUNT
(1) University of Alaska	$1,409,822
Anchorage Community and Technical College Center	
Juneau Readiness Center/UAS Joint Facility	
(2) Department of Transportation and Public Facilities	
(A) Nome (port facility addition and renovation)	127,000
(B) Matanuska-Susitna Borough (deep water port and road upgrade)	752,450
(C) Aleutians East Borough/False Pass (small boat harbor)	101,840
(D) Lake and Peninsula Borough/Chignik (dock project)	119,844
(E) City of Fairbanks (fire headquarters station replacement)	869,765
(F) City of Valdez (harbor renovations)	222,868
(G) Aleutians East Borough/Akutan (small boat harbor)	465,868
(H) Fairbanks North Star Borough (Eielson AFB Schools, major maintenance and upgrades)	342,990

(3) Alaska Energy Authority

(A) Kodiak Electric Association (Nyman combined cycle cogeneration plant)	943,676
(B) Copper Valley Electric Association (cogeneration projects)	351,179

(w) The sum of $7,500,000 is appropriated from the Alaska fish and game revenue bond redemption fund (AS 37.15.770) to the state bond committee for payment of debt service, accrued interest, and trustee fees on outstanding sport fish hatchery revenue bonds. It is the intent of the legislature that the sum of $2,200,000 of the appropriation made by this subsection be used for early redemption of the bonds.

* **Sec. 27.** GOVERNOR'S PERFORMANCE SCHOLARSHIP FUND; CONTINGENCY. (a) The sum of $400,000,000 is appropriated from the general fund to the governor's performance scholarship fund for the fiscal year ending June 30, 2011.

(b) The appropriation made by (a) of this section is contingent on passage by the Twenty-Sixth Alaska State Legislature and enactment into law of a bill establishing the Governor's performance scholarship fund.

* **Sec. 28.** BUDGET RESERVE FUND. If the unrestricted state revenue available for appropriation in fiscal year 2011 is insufficient to cover general fund appropriations made for fiscal year 2011, the amount necessary to balance revenue and general fund appropriations is appropriated to the general fund from the budget reserve fund (AS 37.05.540(a)).

* **Sec. 29.** CONSTITUTIONAL BUDGET RESERVE FUND. (a) Deposits in the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) for fiscal year 2010 that are made from subfunds and accounts other than the operating general fund (state accounting system fund number 11100) by operation of art. IX, sec. 17(d), Constitution of the State of Alaska, to repay appropriations from the budget reserve fund are appropriated from the budget reserve fund to the subfunds and accounts from which those funds were transferred.

(b) Unrestricted interest earned on investment of the general fund balances for the fiscal year ending June 30, 2011, is appropriated to the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska). The appropriation made by this subsection is intended to compensate the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) for any lost earnings caused by use of the fund's balance to permit expenditure of operating and

capital appropriations in the fiscal year ending June 30, 2011, in anticipation of receiving unrestricted general fund revenue. The amount appropriated by this subsection may not exceed an amount equal to the earnings lost by the budget reserve fund as the result of the use of money from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to permit expenditure of operating and capital appropriations in the fiscal year ending June 30, 2011, in anticipation of receiving unrestricted general fund revenue.

(c) The sum of $2,060,000 is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the Department of Revenue, treasury division, for operating costs related to management of the budget reserve fund for the fiscal year ending June 30, 2011.

(d) The appropriations made by (a) and (c) of this section are made under art. IX, sec. 17(c), Constitution of the State of Alaska.

*** Sec. 30.** LAPSE EXTENSION OF APPROPRIATIONS. (a) The appropriation made in sec. 19(a) of ch. 30, SLA 2007, lapses June 30, 2011.

(b) The appropriations made in secs. 1 and 14 of ch. 17, SLA 2009, lapse June 30, 2011.

*** Sec. 31.** NONLAPSE OF APPROPRIATIONS. The appropriations made by secs. 6, 21, and 23 of this Act are for the capitalization of funds and do not lapse.

*** Sec. 32.** RETROACTIVITY. Those portions of the appropriations made in sec. 1 of this Act that appropriate either the unexpended and unobligated balance of specific fiscal year 2010 program receipts or the unexpended and unobligated balance on June 30, 2010, of a specified account are retroactive to June 30, 2010, solely for the purpose of carrying forward a prior fiscal year balance.

*** Sec. 33.** Sections 30 and 32 of this Act take effect June 30, 2010.

*** Sec. 34.** Except as provided in sec. 33 of this Act, this Act takes effect July 1, 2010.

OPERATING BUDGET AMENDMENT

Adopted
3/26/10
No Obj.

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Senator Hoffman

DEPARTMENT: Various—as shown in the table below
ADD: $17,055.3 UGF (1004) Unrestricted general funds
DELETE: $15,000.0 UGF (1004) Unrestricted general funds (estimate)

Agency	Amount Added to Base
Department of Administration	22.8
Department of Corrections	2,655.3
Department of Education and Early Development	57.2
Department of Environmental Conservation	37.8
Department of Fish and Game	77.7
Department of Health and Social Services	600.0
Department of Labor and Workforce Development	35.3
Department of Military and Veterans Affairs	327.3
Department of Natural Resources	68.0
Department of Public Safety	273.9
Department of Transportation & Public Facilities	11,250.0
University of Alaska	1,650.0
Total Unrestricted General (UGF)	**17,055.3**

EXPLANATION: This amendment revises the amounts appropriated under the "fuel trigger" provisions of section 22 by increasing the trigger start point from $36 to $51 dollars. This change reduces the projected annual appropriations for high fuel costs by $15 million annually at any oil price above $51. The reduction appears in budget reports as a revised estimate of the impact of section 22. The actual impact will depend upon fuel prices during FY11.

The amendment also distributes $15 million to various agencies to offset the reduction in funding through the trigger mechanism. That $15 million is distributed to agencies in the same manner and amount as occurred in FY10 under the August 1 trigger mechanism. In addition, $2,053,300 is appropriated to the Department of Corrections in order to align available funding for utilities with documented expenditures. The $17.05 million will be added to agency base budgets.

The intent of the amendment is to shift funding from contingency (trigger) to base in recognition of sustained high oil prices. The amendment reduces the projected trigger appropriations from $42 million to $27 million.

OPERATING BUDGET AMENDMENT

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/ SCS CSHB 302(FIN)

OFFERED BY: Senator Hoffman

STATEWIDE GENERAL FUND TRAVEL REDUCTION

DEPARTMENT	10% Reduction	Senate Amendment Reduction	House Amendment Reduction	Senate less House
Administration	(112.0)	(112.0)	(112.0)	-
Commerce, Community & Econ Dev	(135.2)	(135.2)	(135.2)	-
Corrections	(197.4)	-	(197.4)	197.4
Education & Early Dev	(68.4)	(27.4)	(68.4)	41.0
Environmental Conservation	(115.9)	(115.9)	(115.9)	-
Fish and Game	(191.5)	(174.3)	(191.5)	17.2
Governor	(107.9)	(107.9)	(107.9)	-
Health & Social Services	(311.0)	(311.0)	(311.0)	-
Labor & Workforce Dev	(66.4)	(66.4)	(66.4)	-
Law	(118.4)	(58.2)	(118.4)	60.2
Military & Veterans Affairs	(17.2)	(17.2)	(17.2)	-
Natural Resources	(192.2)	(192.2)	(192.2)	-
Public Safety	(509.5)	-		-
Revenue	(48.1)	(48.1)	(48.1)	-
Transportation	(422.9)	(422.9)	(422.9)	-
University of Alaska	(1,496.8)	-		-
Alaska Court System	(171.9)	-	(171.9)	171.9
Legislature	(387.7)	(387.7)	(387.7)	-
TOTAL	**(4,670.4)**	**(2,176.4)**	**(2,664.1)**	**487.7**

Explanation: This amendment reduces travel authorization in allocations with budgeted travel and with general funds. Because the budget does not identify line items by fund source, the following method was used to determine the amount of travel that is reduced in each allocation.

Ratio of each general fund code (UGF and DGF) in the House CS to the total FY11 allocation's funding	X	10% of the FY09 actual travel expenditures	=	Amount of the travel reduction

Departments exempted from the Senate's travel reduction: Corrections, University, Public Safety and the Alaska Court System.

Revisions to the across-the-board travel reduction were implemented in the following agencies:

- **Education and Early Development:** A 50 percent reduction was taken from the Senate CS travel line in the Executive Administration allocation. All other allocations were held harmless.

- **Law:** Funding for witness travel (totaling $60.2) was not cut.
- **Fish and Game Boards and Advisory Committees:** Exempt travel for members of the Board of Fisheries and the Board of Game to attend meetings; and for travel associated with 60 advisory committee meetings and participation of advisory committee representatives at the Board of Fisheries and the Board of Game meetings.

(3)

TECHNICAL OPERATING BUDGET AMENDMENT

Adopted
3/26/11
No Obj.

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Senator Hoffman

DEPARTMENT: Corrections

APPROPRIATION: Population Management
ALLOCATION: Institution Director's Office

DELETE: 8,000.0 General Funds (1004)
100.0 Federal Receipts (1002)

EXPLANATION: The FY10 supplemental bill includes FY11 wage, health insurance, and geographical differential increases for the Alaska Correctional Officers Association (ACOA) Bargaining Unit. This amendment removes the duplicated appropriation from the operating bill.

DEPARTMENT: Corrections

APPROPRIATION: Inmate Health Care

INSERT INTENT: It is the intent of the legislature that the Department of Corrections develop and implement cost containment strategies regarding the provision of health care, and that the Department report results of their efforts to the legislature by January 31, 2011.

DEPARTMENT: Health and Social Services

DELETE: Intent language at the department level

Sec. 1, Page 18, Lines 9-11 SCS CSHB 300(FIN)
Sec. 1, Page 4, Lines 23-25 SCS CSHB 302(FIN)

It is the intent of the legislature that the Department of Health and Social Services continue and enhance its efforts to reduce fraud by both providers and beneficiaries of the Medicaid program.

EXPLANATION: Intent language at the department level was duplicated. This amendment removes the duplicated intent language from the Senate Operating and Mental Health bills.

DEPARTMENT: Health and Social Services

APPROPRIATION: Community Initiative Matching Grants
ALLOCATION: Community Initiative Matching Grants

DELETE: $250.0 General Funds (1004)

APPROPRIATION: Human Services Community Matching Grants
ALLOCATION: Human Services Community Matching Grants

ADD: $250.0 General Funds (1004)

EXPLANATION: Due to an error, funds were added to the wrong grant program. This amendment corrects that error. The funds are intended for the Human Services Community Matching Grant program.

DEPARTMENT: Law

APPROPRIATION: Civil Division
ALLOCATION: BP Corrosion

Place the BP Corrosion allocation in a separate appropriation.

EXPLANATION: Funding for litigation regarding oil pipeline corrosion has been in a separate appropriation in prior years in order to prevent the funding from being used for other purposes. The Department requested that the funding be moved to an allocation within the Civil Division. This amendment matches the House structure—retaining the separate appropriation within the Department of Law.

DEPARTMENT: Fish and Game

APPROPRIATION: Sport Fisheries
ALLOCATION: Sport Fisheries

TRANSFER IN: 342.6 General Funds (1004)

APPROPRIATION: Commercial Fisheries
ALLOCATION: Central Region Fisheries Management

TRANSFER OUT: 342.6 General Funds (1004)

EXPLANATION: The Department of Fish and Game has indicated that two projects included in the Senate Subcommittee budget need to be moved from Central Region Fisheries Management to Sport Fisheries. These projects are the Alexander Creek Pike Control (127.6) and the Susitna River Fish Passage Restoration (215.0).

DEPARTMENT: Fish and Game

APPROPRIATION: Commercial Fisheries
ALLOCATION: Central Region Fisheries Management

DELETE: 75.0 General Funds (1004)

EXPLANATION: This amendment removes 75.0 from the operating budget for the following two projects: the Kasilof River Smolt out migration counts (25.0); and the Big Lake Smolt outmigration count (50.0). Because funding for these projects is needed before July 1, 2010, these projects will be included in the FY10 supplemental budget.

DEPARTMENT: University of Alaska

APPROPRIATION: Budget Reductions/Additions
ALLOCATION : Budget Reductions/Additions - Systemwide

ADD INTENT: It is the intent of the legislature that the University provide a report to the legislature by February 1, 2011 that specifies the amount of money transferred from and to each allocation in reference to the 3% transfer of federal receipts, unrestricted general funds, and university receipts into the Budget Reductions/Additions - Systemwide appropriation.

EXPLANATION:

A total of $22.5 million (3% of federal receipts, unrestricted general funds, and university receipts) was transferred out of University of Alaska allocations (except for the Small Business Development Center) and transferred into the Budget Reductions/Additions – Systemwide allocation to increase flexibility while retaining multiple appropriations. As needed, these funds may be transferred out to various appropriations/allocations as programs develop and budgets are solidified in the FY11 Management Plan.

Domestic Violence and Sexual Assault Prevention Initiative Amendment Summary

Department	Appropriation/Allocation	Title	Positions	Total (Unrestricted General Funds)
Education & Early Develop	Teaching and Learning Support/Student and School Achievement	Health & Personal Safety Prevention Coordinator	1	200.0
Health & Social Services	Behavioral Health/Behavioral Health Grants	Family Wellness Warriors Initiative		400.0
Health & Social Services	Behavioral Health/Community Action, Prevention, & Intervention Grants	Multi-disciplinary Rural Community Pilot Project		1,350.0
Health & Social Services	Behavioral Health/Behavioral Health Grants	Trauma-Informed Training for Behavioral Health Providers		200.0
Health & Social Services	Children's Services/Family Preservation	Children's Advocacy Center Expansion		40.0
Public Safety	Domestic Violence & Sexual Assault/Domestic Violence & Sexual Assault	Batterer's Intervention Evaluation and Investigation of Evidence Based Practice - ***one time funding***		100.0
Public Safety	Domestic Violence & Sexual Assault/Domestic Violence & Sexual Assault	Planning Grants, Victimization Study & Evaluation		350.0
Public Safety	Domestic Violence & Sexual Assault/Domestic Violence & Sexual Assault	Universal Public Education Marketing Campaign		300.0
Public Safety	Domestic Violence & Sexual Assault/Domestic Violence & Sexual Assault	Pro-Bono Attorney Clearinghouse		60.0
		Total	1	3,000.0

EXPLANATION: The State of Alaska struggles to combat appalling levels of sexual assault. According to the publication "Crimes in the United States, 2006" (the annual FBI compilation of crime statistics), Alaska has a sexual assault rate of 76 per 100,000. This is over twice the national average. 48% of these sexual assaults are handled by C Detachment, Division of the Alaska State Troopers, located in Bethel. In 2005, the number of reported rapes in Bethel (population 6,468) was the same as Anchorage (population 279,243).

This amendment is the first step of a Domestic Violence/Sexual Assault (DV/SA) initiative that ramps up (over a 10-year period) prevention, victims' services, investigations and prosecutions to significantly reduce the incidence of these crimes.

A permanent, full-time, policy-level position to coordinate the related activities of multiple state agencies and nonprofits is a central element of the initiative. That position is included in version U of the bill, so is not part of this amendment.

DEPARTMENT: Department of Education & Early Development
APPROPRIATION: Teaching and Learning Support
ALLOCATION: Student and School Achievement

ADD: $200.0 GF 1004 and 1 PFT

EXPLANATION: Health & Personal Safety Prevention Coordinator - This position within the Department of Education and Early Development will work in partnership with the Council on Domestic Violence & Sexual Assault to establish guidelines for school-based health and personal safety education programs. In addition, this position will work with school districts across Alaska to encourage and support their adoption of school-based health and personal safety education programs.

DEPARTMENT: Department of Health & Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: Behavioral Health Grants

ADD: $400.0 GF 1004

EXPLANATION: Family Wellness Warriors Initiative (FWWI) - This funding will be used to implement intervention strategies (developed by Southcentral Foundation, FWWI) in Dillingham and Bethel. FWWI is a movement that brings together leaders of the Alaska Native Community, the Faith community, regional corporations and agencies, health care providers and others to help restore wellness to the Alaska Native community; with special emphasis on addressing all forms of family violence.

ALLOCATION: Community Action, Prevention, & Intervention Grants

ADD: $1,350.0 GF 1004

EXPLANATION: Multi-disciplinary Rural Community Pilot Project - This initiative will identify a rural community interested in developing a model multi-disciplinary approach addressing DV/SA from a broad community perspective. The pilot project will use a planning process such as the Strategic Prevention Framework to conduct a community assessment and a review/assessment of available and missing community resources. Based on the first two assessments, the funding will be used to develop a plan for addressing DV/SA in a comprehensive manner, implement identified evidence-based strategies and evaluate these strategies through measurable outcomes.

ALLOCATION: Behavioral Health Grants

ADD: $200.0 GF 1004

EXPLANATION: Trauma-Informed Training for Behavioral Health Providers - Trauma is recognized as a significant factor in a wide range of health, behavioral health and social problems including heart disease, cancer, chronic lung disease, mental health and substance abuse disorders, violence victimization and perpetration, self-injury, homelessness, prostitution and delinquency and criminal behavior. This initiative will implement a specialized trauma-informed curriculum to assure that community-based behavioral health providers integrate an understanding of trauma into their programs and therapeutic approaches.

APPROPRIATION: Children's Services

ALLOCATION: Family Preservation

ADD: $40.0 GF 1004

EXPLANATION: Children's Advocacy Center Expansion - These funds will assist the community of Kodiak to develop a Children's Advocacy Center, which will aid children and families impacted by child sexual assault/abuse.

DEPARTMENT: Department of Public Safety

APPROPRIATION: Domestic Violence and Sexual Assault

ALLOCATION: Domestic Violence and Sexual Assault

ADD: $100.0 GF 1004 ***one time funding***

EXPLANATION: Batterer's Intervention Evaluation and Investigation of Evidence Based Practice – Recognizing the need for improved attention and service to individuals who perpetrate domestic violence against another person, this component will review current Batterer's Intervention Programs (BIP) and research national evidence-based programs and practices that are being used in other states. Through this research, recommendations will be made for improving Alaska's outcomes for perpetrators of DV/SA.

ALLOCATION: Domestic Violence and Sexual Assault

ADD: $350.0 GF 1004

EXPLANATION: Planning, Victimization Study & Evaluation - A portion of the funds will be available to the DVSA Coordinator for planning. Remaining funds will be used in partnership with the UAA Alaska Justice Center to construct a process to collect data to establish baseline rate of domestic violence in Alaska. Funding will also be used to design and conduct an evaluation of the success of the DV/SA Initiative.

(5)

ALLOCATION: Domestic Violence and Sexual Assault

ADD: $300.0 GF 1004

EXPLANATION: Universal Public Education Marketing Campaign – This funding will be used to develop and implement a strategy for changing public perception (knowledge, attitudes, beliefs and behaviors) related to domestic violence and sexual assault via a universal, multi-strategy public education campaign using print, radio, TV and internet.

ALLOCATION: Domestic Violence and Sexual Assault

ADD: $60.0 GF 1004

EXPLANATION: Pro-Bono Attorney Clearinghouse - This funding will contribute to the existing successful Legal Advocacy Project Pro Bono Program of the Alaska Network on Domestic Violence and Sexual Assault by establishing a clearinghouse for attorneys across Alaska who want to assist indigent victims with legal issues, mentor less experienced attorneys who have agreed to take a case, answer the legal information and referral hotline, and assist with legal research.

OPERATING BUDGET AMENDMENT

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Senator Lyman Hoffman

DEPARTMENT: Health and Social Services
APPROPRIATION: Departmental Support Services
ALLOCATION: Medicaid School Based Claims

DELETE: $5,543,800 Federal Receipts (1002)

ADD: Intent at the allocation level:

> It is the intent of the legislature that the Department explain the Medicaid school based claim program to all school districts in Alaska and encourage them to participate in the program.

ADD: language section on page 2

EXPLANATION: This amendment addresses problems associated with federal receipt authority that has been used to "refinance" various programs (by spreading anticipated federal reimbursement for Medicaid school based claims to those programs, replacing general funds). The federal revenue failed to materialize, causing ratifications amounting to several million dollars of general funds.

The reimbursement amounts are unrestricted federal funds that should not be mixed with regular federal receipts. The receipts will be coded as *unrestricted* federal receipts (code 1188) rather than as regular federal receipts (code 1002). Although the funds are unrestricted, the federal government strongly suggests that the money go to K-12 education.

The amendment removes $5,543,800 in restricted federal receipts from the Medicaid School Based Claims allocation and appropriates the funding in the same amount with unrestricted federal receipts.

Language sections will appropriate the amount received for reimbursement of Medicaid School Based Claims, estimated to be $5,543,800, as follows:

- $215,000 for program operating costs;
- An estimated $2.7 million to school districts participating in the program; and
- An estimated $2.7 million to the K-12 foundation program for distribution to all school districts via the foundation formula.

The fiscal impact of the amendment includes replacing $2.7 million of general funds transferred from the Public Education Fund to the K-12 program with these federal receipts, thereby reducing general fund expenditures by $2.7 million. Although the use of federal receipts in K-12 would allow a reduction of the general fund deposit to the Public Education Fund, that step is not taken in this amendment.

3/26/10

AMENDMENT

OFFERED IN THE SENATE BY SENATOR HOFFMAN

TO: SCS CSHB 300(FIN), Draft Version "U"

Page 65, following line 22:

Insert a new subsection to read:

"(c) The amount of federal receipts received during the fiscal year ending June 30, 2011, as reimbursement for school-based Medicaid claims, estimated to be $5,543,800, is appropriated for the fiscal year ending June 30, 2011, as follows:

(1) the sum of $215,000 is appropriated to the Department of Health and Social Services, Medicaid school-based claims allocation, for operating expenses;

(2) after deducting the amount appropriated in (1) of this subsection, 50 percent of the remainder is appropriated to the Department of Health and Social Services, Medicaid school-based claims allocation, for distribution to school districts participating in the Medicaid school-based claims program;

(3) after deducting the amount appropriated in (1) and (2) of this subsection, the remainder is appropriated to the Department of Education and Early Development, K-12 support, foundation program allocation for distribution to school districts through the foundation formula."

(7)

OPERATING BUDGET AMENDMENT

OFFERED IN: The Senate Finance Committee

Adopted 3/24/10 No Obj.

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Senator Lyman Hoffman

Transfer In $ 2,366.5 to Alaska Court System/Therapeutic Courts

DEPARTMENT: Alaska Court System
APPROPRIATION: Therapeutic Courts **(new appropriation)**
ALLOCATION: Therapeutic Courts

TRANSFER IN:	General Funds 1004	$1,354.0
	GF/MH 1037	$ 357.2
	MHTAAR 1092	$ 138.0
	Alcohol and Other Drug Abuse Treatment & Prevention Fund 1180	$ 517.3

ADD: **Intent**

It is the intent of the legislature that the Court System contract to purchase services associated with therapeutic courts in amounts it determines are in the best interest of operating therapeutic courts efficiently and effectively. Contract amounts should stem from the amounts transferred from other agencies into this appropriation.

EXPLANATION: In an effort to enhance coordination and accountability for the Therapeutic Courts programs, this amendment will consolidate all funding for Therapeutic Courts into a new appropriation in the Alaska Court System. Funds will be transferred from the Departments of Administration ($355.0), Corrections ($252.2), Health and Social Services ($1,394.6) and Law ($364.7).

ADD: **1 PFT**

EXPLANATION: For three years, the Court System has supported the Bethel Case Coordinator as a limited duration position. Because of this position's "limited duration" status, it was off-budget and not included in the Court System's position count. This amendment recognizes this position as a permanent full-time position.

(7)

Transfer Out $ 355.0

DEPARTMENT: Department of Administration
APPROPRIATION: Legal & Advocacy Services
ALLOCATION: Public Defender Agency

TRANSFER OUT: $290.0 General Funds 1004
ADD: $290.0 I/A Receipts 1007

ALLOCATION: Therapeutic Courts Support Services

TRANSFER OUT: $65.0 General Funds 1004

Transfer Out $ 252.2

DEPARTMENT: Department of Corrections
APPROPRIATION: Inmate Health Care
ALLOCATION: Behavioral Health Care

TRANSFER OUT: $207.2 GF/MH 1037
ADD: $207.2 I/A Receipts 1007

APPROPRIATION: Population Management
ALLOCATION: Statewide Probation and Parole

TRANSFER OUT: $45.0 General Funds 1004

(7)

Transfer Out $1,394.6

DEPARTMENT: Department of Health & Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: Behavioral Health Grants

TRANSFER OUT:	General Funds 1004	$ 272.0
	GF/MH 1037	$ 150.0
	Alcohol and Other Drug Abuse Treatment & Prevention Fund 1180	$ 450.0
ADD:	$872.0 I/A Receipts 1007	

ALLOCATION: Alcohol Safety Action Program (ASAP)

TRANSFER OUT:	General Funds 1004	$ 317.3
	MHTAAR 1092	$ 138.0
	Alcohol and Other Drug Abuse Treatment & Prevention Fund 1180	$ 67.3
ADD:	$390.4 I/A Receipts 1007	

Transfer Out $ 364.7

DEPARTMENT: Department of Law
APPROPRIATION: Criminal Division
ALLOCATION: 3rd Judicial District/Anchorage

TRANSFER OUT: $300.3 General Funds 1004
ADD: $300.3 I/A Receipts 1007

ALLOCATION: 4th Judicial District

TRANSFER OUT: $64.4 GF 1004
ADD: $64.4 I/A Receipts 1007

OPERATING BUDGET AMENDMENT

Adopted
3/26/10
No Obj.

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Hoffman

DEPARTMENT:	Transportation and Public Facilities
APPROPRIATION:	Highways, Aviation and Facilities
ALLOCATION:	Central Region Highways and Aviation

ADD: $2,233.4 General Funds (1004)

Explanation: Additional funding is required to meet the minimum requirements of the Environmental Protection Agency (EPA) Municipal Storm Sewer System (MS4) permit. The MS4 permit went into effect on February 1, 2010. The Department is required to comply with this permit in its entirety beginning in FY11. The Governor's initial request was for $1,682.0. Subsequent to the amendment deadline, RFP contract awards came in an additional $551.4 higher for a total need of $2,233.4.

(9)

OPERATING BUDGET AMENDMENT

Adopted
3/26/11
No Obj.

OFFERED IN: The Senate Finance Committee

TO: CSHB 300(FIN)

OFFERED BY: Senator Hoffman

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Department Support Svcs.
ALLOCATION:	Information Technology

ADD: $512.5 General Fund (1004)

EXPLANATION: Combined with funding included in the Senate CS, this amendment provides a total of $1 million of the Governor's $1,475.0 GF request.

The proposed budget included three specific requests: two requests were to correct funding problems with the mix of funds available for support of department IT efforts and the third request was to cover increased costs which are being experienced for new software maintenance and ETS costs for our mainframe EIS system which supports our eligibility system for Medicaid and other public assistance programs as well as produces assistance payments for the many programs operated through our Division of Public Assistance.

Proposed funding:	Governor	Senate
Unrealizable federal receipts	$750.0 GF	$375.0 GF
Replace HCS RSA funding	$225.0 GF	$112.5 GF
Cost Inc Software, EIS, etc.	$500.0 GF	$0 GF
Total	1475.0 GF	487.5 GF

The Department has been working to correct many deficiencies in the operating budget that have caused overspending in prior years because the mix of funds attributed to the program operations have not accurately reflected the actual amounts that can be collected from federal programs. In addition, the Department direct billed some expenses to divisions that are not allowed under our cost allocation plan which guides all federal revenue collections. The Governor's proposed budget was developed to partially remedy this problem. Because the IT budget includes primarily staffing costs and fixed contractual costs, the result of our inability to obtain adequate funding to maintain our operation will be the elimination of current staff. We have developed an attachment that

(9)

better outlines the systems supported throughout the department and what is potentially at risk if our IT efforts are inadequate to address department needs.

(10)

OPERATING BUDGET AMENDMENT

Adopted
3/26/10
No Obj.

OFFERED IN: The Senate Finance Committee

TO: SCS for CS HB 300(FIN)/SCSHB 302(FIN)

OFFERED BY:

DEPARTMENT: Law
APPROPRIATION: Civil Division
ALLOCATION: Transportation Section

ADD: $200.0 General Funds (1004)

EXPLANATION:
The Alaska Marine Highway System (AMHS) must file a lawsuit against the contractor responsible for the design and construction of the fast ferries Fairweather and Chenega. The suit will also name the companies responsible for the vessels' propulsion systems. AMHS must file suit now before the expiration of the statute of limitations.

Since AMHS accepted delivery of the vessels in 2004 and 2005, the propulsion systems have been subject to recurrent problems. Typical of the problems encountered with the vessels was the massive overhaul required on the Fairweather beginning in February 2006 at Ketchikan Ship and Drydock. All four diesel engines had hairline cracks in their steel sleeves, and there were additional problems with bull gears, shafts and bearings. If not addressed, the propulsion system problems will require continued maintenance, which will disrupt service, and will shorten the expected lifespan of the engines.

The lawsuit is against Robert E. Derecktor, Inc., the contractor responsible for the design and construction of the ferries, and against MTU Friedrichshafen, GmbH and MTU Detroit Diesel, Inc., the entities responsible for the vessels' propulsion systems.

OPERATING BUDGET AMENDMENT

Adopted
3/22/10
No Obj.

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Senators Ellis, Egan

EXPLANATION: This amendment will add $200.0 to continue funding Partners for Progress, which provides support services for Alaska's therapeutic courts. Partners for Progress has been an essential part of Alaska's therapeutic court system for 11 years, and provides crucial services that the Alaska Court System is unable to fulfill. It is a proven, evidence-based program that reduces recidivism and crime in communities across the state while saving the state money.

DEPARTMENT: Alaska Court System
APPROPRIATION: Therapeutic Courts (new appropriation)
ALLOCATION: Therapeutic Courts

Add: General Funds – 1004 $200.0

DEPARTMENT: Department of Health and Human Services
APPROPRIATION: Behavioral Health
ALLOCATION: Alcohol and Substance Abuse Programs

Add: I/A Receipts – 1007 $200.0

OPERATING BUDGET AMENDMENT

(12)

Adopted 3/24/10 No Obj.

TO: SCSHB 300(FIN)/SCSHB 302(FIN)

OFFERED BY: Senator Dennis Egan

APPORTION TRANSCRIPT COSTS FOR GRAND JURY PROCEEDINGS TO APPROPRIATE AGENCIES

EXPLANATION: This amendment covers the increased costs the Alaska Court System faces for transcribing criminal proceedings. It will apportion funding increases for grand jury transcripts among the Departments of Administration, Law and the Court System based on actual transcript requests in 2009. At present, transcription funding is centralized within the Alaska Court System.

DEPARTMENT: Department of Administration
APPROPRIATION: Legal & Advocacy Services
ALLOCATION: Public Defender Agency

ADD: $64.3 Unrestricted General Funds 1004

ALLOCATION: Office of Public Advocacy

ADD: $53.8 Unrestricted General Funds 1004

DEPARTMENT: Department of Law
APPROPRIATION: Criminal Division
ALLOCATION: Criminal Justice Litigation

ADD: $30.4 Unrestricted General Funds 1004

DEPARTMENT: Alaska Court System
APPROPRIATION: Alaska Court System
ALLOCATION: Trial Courts

ADD: $148.5 I/A Receipts 1007

ADD: **Intent**

It is the intent of the Legislature that the FY 12 budget will appropriate all transcription funding to the agencies that order those transcripts from the Alaska Court System.

(13)

OPERATING BUDGET AMENDMENT

Adopted
3/24/10
No Obj.

OFFERED IN: The Senate Finance Committee

TO: SCS CSHB 300(FIN)/SCS CSHB 302(FIN)

OFFERED BY: Senator Huggins

DEPARTMENT: Department of Environmental Conservation
APPROPRIATION: Water
ALLOCATION: Water Quality

ADD: Intent Language found on Page 14, Lines 5-7:

"It is also the intent of the legislature that measures to address sanitation or habitat concerns shall not reduce or restrict opportunities for the public to access and participate in these fisheries."

Therefore, the intent language should now read:

"It is the intent of the legislature that the Departments of Environmental Conservation, Fish and Game, and Natural Resources work together to develop a plan to remove fish waste from the Kenai and Kasilof Rivers dipnet fishery and maintain a safe and attractive riverfront. It is also the intent of the legislature that measures to address sanitation or habitat concerns shall not reduce or restrict opportunities for the public to access and participate in these fisheries."

EXPLANATION: While maintaining a safe and attractive riverfront on the Kenai and Kasilof rivers is a commendable goal, this language could be construed as a means to reduce or restrict opportunities for the public to access and participate in the fisheries on these waterways in the future.

Some habitat management and simple mitigation measures are what are needed at this time. The beaches below the mean high-water mark are public domain – access and camping should not be cut off in the process of addressing sanitation and habitat concerns. The personal use fisheries are of a relatively short duration and any impacts can be mitigated without interfering with the traditional use of public lands and waters or with fish harvesting.

I believe the original language included in the Senate CS is far too broad in scope and should be narrowed to clarify the intent is to preserve and protect public access and use of the fisheries.

(19)

BUDGET AMENDMENT
FY 2011 operating

DEPARTMENT: Statewide
ADD: $8,774,300
FUNDING SOURCE: Multiple fund sources per change records submitted electronically to the legislative Finance Division and as detailed on the attachment.

EXPLANATION:
The Labor, Trades, and Crafts bargaining unit has reached a tentative agreement with the state for fiscal years FY2010-FY2012.

In FY2011, there will be a conversion to a new wage schedule similar to that of the majority of state employees. Health Insurance will increase to $1,088 per employee per month.

(15)

BUDGET AMENDMENT
FY 2011 Operating

DEPARTMENT:	Education and Early Development
APPROPRIATION:	Mt. Edgecumbe Boarding School
ALLOCATION:	Mt. Edgecumbe Boarding School
ADD:	$21.9 General Funds (1004)
	$142.4 Interagency Receipts (1007)

EXPLANATION:

The State of Alaska's Department of Administration has reached an agreement on a three-year successor contract with the Teachers' Education Association of Mt. Edgecumbe (TEAME) covering the period of July 1, 2009 through June 30, 2012.

The agreement contains the following FY 2011 provisions:

- 5% Sitka, Alaska geographic differential beginning July 1, 2010.
- Beginning July 1, 2010, bargaining unit members will be returned to the State's Select Benefits Health Insurance program with a monthly health benefit of $1,088.00 per member.

This amendment funds these agreement provisions.

DEPARTMENT:	Fund Transfers
APPROPRIATION:	Fund Transfers
ALLOCATION:	Group Health and Life Benefits Fund
ADD:	$54.1 General Funds (1004)

The sum of $54,054 is appropriated from the general fund to the Group Health and Life Fund in the Department of Administration, division of retirement and benefits, as a lump sum payment for health benefits reserves, to implement the terms of the collective bargaining agreement for the Teachers' Education Association of Mt. Edgecumbe, for the fiscal year ending June 30, 2011.

The TEAME bargaining unit is returning to the State's Select Benefits Health Insurance program. This is the agreed upon amount to be deposited to the State Health Plan for reserves.

BUDGET AMENDMENT
FY 2010 Supplemental

DEPARTMENT: Administration
APPROPRIATION: Centralized Administrative Services

ALLOCATION: Office of the Commissioner
ADD: $12.8 General Funds (1004)

EXPLANATION:
The sum of $12,770 is appropriated from the general fund to the Department of Administration, office of the commissioner, as a lump sum payment to the union directed health trust, to implement the terms of the collective bargaining agreement for the Teachers' Education Association of Mt. Edgecumbe, for the fiscal year ending June 30, 2010.

Last week the State reached an agreement with the Teachers' Education Association of Mt. Edgecumbe (TEAME). The TEAME agreement covers FY10 – FY12.

Since the TEAME agreement is retroactive to the beginning of FY10, a supplemental is requested for $12, 770 General Funds for the Department of Administration, office of the commissioner, to pay the agreed upon FY10 insurance costs to the NEA Health Trust.

CS FOR HOUSE BILL NO. 302(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making appropriations for the operating and capital expenses of the state's integrated comprehensive mental health program; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2010 and ending June 30, 2011, unless otherwise indicated. A department-wide, agency-wide, or branch-wide unallocated reduction set out in this section may be allocated among the appropriations made in this section to that department, agency, or branch.

	Allocations	Appropriation Items	General Funds	Other Funds
*****		*****		
***** **Department of Administration** *****				
*****		*****		
Legal and Advocacy Services		**2,041,600**	**1,890,300**	**151,300**
Office of Public Advocacy	1,739,200			
Public Defender Agency	302,400			
*****		*****		
***** **Department of Corrections** *****				
*****		*****		
Inmate Health Care		**5,562,400**	**5,188,400**	**374,000**
Behavioral Health Care	5,562,400			
Offender Habilitation		**1,611,500**	**1,611,500**	

It is the intent of the legislature that the Department of Corrections will provide detailed information to the legislature on a quarterly basis regarding the success of the Offender Habilitation programs with a strong focus on performance and outcomes.

Substance Abuse Treatment Program	1,611,500			
*****			*****	
***** **Department of Education and Early Development** *****				
*****			*****	
Teaching and Learning Support		**551,800**	**339,800**	**212,000**
Student and School Achievement	551,800			

	Appropriation	General	Other
Allocations	Items	Funds	Funds
* * * * *		* * * * *	
* * * * * Department of Health and Social Services * * * * *			
* * * * *		* * * * *	

It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2011 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.

It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are $50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.

It is the intent of the legislature that the Department of Health and Social Services make a single 'upfront' payment for any grant award that is $50,000 or less and includes a signature of the grantee certifying compliance with the terms of the grant with their approved application. Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during

	Appropriation	General	Other
Allocations	Items	Funds	Funds

the selection process.

It is the intent of the legislature that the Department of Health and Social Services continue the Medicaid Reform work to improve efficiency and slow the need for General Funds in the Medicaid program. Specifically, but not exclusively, the Department is to:

1) Complete the evaluation of possible changes to program design, determine waiver changes necessary to secure federal funding and report back to the First Session of the 27th Alaska Legislature on suggested changes, expected outcomes related to Medicaid sustainability, and resources needed to accomplish the work.

2) Develop and implement public provider reimbursement methodologies and payment rates that will further the goals of Medicaid Reform.

3) Continue and enhance the State and Tribal Medicaid work and partnership to enhance our ability to provide Medicaid services through Tribal Health Organizations.

It is the intent of the legislature that the Department of Health and Social Services continue and enhance its efforts to reduce fraud by both providers and beneficiaries of the Medicaid program.

It is the intent of the legislature that the Department of Health and Social Services continue and enhance its efforts to reduce fraud by both providers and beneficiaries of the Medicaid program.

Alaska Pioneer Homes		**13,763,300**	**13,763,300**

It is the intent of the legislature that the Department maintain regulations requiring all residents of the Pioneer Homes to apply for all appropriate benefit programs prior to a state subsidy being provided for their care from the State Payment Assistance program.

It is the intent of the legislature that all pioneers' homes and veterans' homes applicants shall complete any forms to determine eligibility for supplemental program funding, such as Medicaid, Medicare, SSI, and other benefits as part of the application process. If an applicant is not able to complete the forms him/herself, or if relatives or guardians of the applicant are not able to complete the forms, Department of Health and Social Services staff may complete the forms for him/her, obtain the individuals' or designee's signature and submit for eligibility per AS 47.25.120.

Alaska Pioneer Homes	64,300	
Management		

	Allocations	Appropriation Items	General Funds	Other Funds
Pioneer Homes	13,699,000			
Behavioral Health		**132,576,400**	**128,374,100**	**4,202,300**

Alcohol Safety Action Program (ASAP)	1,188,300			
Behavioral Health Medicaid Services	53,166,500			
Behavioral Health Grants	27,125,600			

It is the intent of the legislature that the department continue developing policies and procedures surrounding the awarding of recurring grants to assure that applicants are regularly evaluated on their performance in achieving outcomes consistent with the expectations and missions of the Department related to their specific grant. The recipient's specific performance should be measured and incorporated into the decision whether to continue awarding grants. Performance measurement should be standardized, accurate, objective and fair, recognizing and compensating for differences among grant recipients including acuity of services provided, client base, geographic location and other factors necessary and appropriate to reconcile and compare grant recipient performances across the array of providers and services involved.

Behavioral Health Administration	3,939,100

Senior and Disabilities Services		**15,272,400**	**14,104,200**	**1,168,200**
General Relief/Temporary Assisted Living	740,300			

It is the intent of the legislature that regulations related to the General Relief / Temporary Assisted Living program be reviewed and revised as needed to minimize the length of time that the state provides housing alternatives and assure the services are provided only to intended beneficiaries who are actually experiencing harm, abuse or neglect. The department should educate care coordinators and direct service providers about who should be referred and when they are correctly referred to the program in order that referring agents correctly match consumer needs with the program services intended by the department.

Senior and Disabilities Services Administration	2,942,400
Senior Community Based Grants	2,809,100

It is the intent of the legislature that funding in the FY 2011 budget for Senior Community Based Grants be used to invest in successful home and community based supports provided by grantees who have demonstrated successful outcomes documented in accordance with the department's performance based evaluation procedures.

Community Developmental Disabilities Grants	7,924,800
Commission on Aging	117,400
Governor's Council on Disabilities and Special	738,400

	Allocations	Appropriation Items	General Funds	Other Funds
Education				
Departmental Support Services		**1,463,800**	**1,403,800**	**60,000**
Commissioner's Office	167,800			

It is the intent of the legislature that the Department of Health and Social Services complete the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid providers:

1. Develop regulations addressing the use of extrapolation methodology following an audit of Medicaid providers that clearly defines the difference between actual overpayment of funds to a provider and ministerial omission or clerical billing error that does not result in overpayment to the provider. The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.

2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts.

All audits initiated after the effective date of this intent and resulting in findings of overpayment will be calculated under the Department's new regulations governing overpayment standards and extrapolation methodology.

It is the intent of the legislature that the department develops a ten year funding source and use of funds projection for the entire department.

It is the intent of the legislature that the department continue working on implementing a provider rate rebasing process and specific funding recommendations for both Medicaid and non-Medicaid providers to be completed and available to the legislature no later than December 15, 2010.

* * * * * Total Budget * * * * *	$14,700,000

(SECTION 6 OF THIS ACT BEGINS ON THE NEXT PAGE)

*** Sec. 6.** PURPOSE. In accordance with AS 37.14.003 and 37.14.005, the appropriations made by this Act are for the state's integrated comprehensive mental health program.

*** Sec. 7.** NONGENERAL FUND RECEIPTS. (a) Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) that exceed the amounts appropriated by this Act are appropriated conditioned upon compliance with the program review provisions of AS 37.07.080(h).

(b) If Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) fall short of the estimates appropriated in this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 8.** SALARY AND BENEFIT ADJUSTMENTS. (a) The appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2011, of the following collective bargaining agreements:

(1) Marine Engineers' Beneficial Association, representing licensed engineers employed by the Alaska marine highway system;

(2) Inlandboatmen's Union of the Pacific, representing the unlicensed marine unit;

(3) International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit;

(4) Public Safety Employees Association, representing regularly commissioned public safety officers;

(5) Alaska Vocational Technical Center Teachers' Association - National Education Association, representing employees of the Alaska Vocational Technical Center.

(b) The operating budget appropriations made to the University of Alaska in sec. 1 of this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2011, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (a) or (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

(d) Appropriations made in sec. 1 of this Act for salary and benefit adjustments as described in (a) and (b) of this section are for the benefit of the state's integrated comprehensive mental health program only and do not necessarily affect every group of noncovered employees or every collective bargaining unit listed in (a) and (b) of this section.

*** Sec. 9.** This Act takes effect July 1, 2010.

Adopted 1/27/10

Total Other Non-Duplicated Funds		$2,050,000
Duplicated Funds		
Total Duplicated Funds		$0

(SECTION 7 OF THIS ACT BEGINS ON PAGE 14)

*** Sec. 7.** PURPOSE. In accordance with AS 37.14.003 and 37.14.005, the appropriations made by this Act are for the state's integrated comprehensive mental health program.

*** Sec. 8.** NONGENERAL FUND RECEIPTS. (a) Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) that exceed the amounts appropriated by this Act are appropriated conditioned upon compliance with the program review provisions of AS 37.07.080(h).

(b) If Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) fall short of the estimates appropriated in this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 9.** SALARY AND BENEFIT ADJUSTMENTS. (a) The appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2011, of the following collective bargaining agreements:

(1) Marine Engineers Beneficial Association, representing licensed engineers employed by the Alaska marine highway system;

(2) Inlandboatmen's Union of the Pacific, representing the unlicensed marine unit;

(3) International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit;

(4) Public Safety Employees Association, representing regularly commissioned public safety officers;

(5) Alaska Vocational Technical Center Teachers' Association - National Education Association, representing employees of the Alaska Vocational Technical Center.

(b) The operating budget appropriations made to the University of Alaska in sec. 1 of this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2011, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (a) or (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

(d) Appropriations made in sec. 1 of this Act for salary and benefit adjustments as described in (a) and (b) of this section are for the benefit of the state's integrated comprehensive mental health program only and do not necessarily affect every group of noncovered employees or every collective bargaining unit listed in (a) and (b) of this section.

*** Sec. 10.** This Act takes effect July 1, 2010.

1092	Mental Health Trust Authority Authorized Receipts	2,050,000
Total Other Non-Duplicated Funds		$2,050,000
Duplicated Funds		
Total Duplicated Funds		$0

(SECTION 7 OF THIS ACT BEGINS ON PAGE 14)

*** Sec. 7.** PURPOSE. In accordance with AS 37.14.003 and 37.14.005, the appropriations made by this Act are for the state's integrated comprehensive mental health program.

*** Sec. 8.** NONGENERAL FUND RECEIPTS. (a) Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) that exceed the amounts appropriated by this Act are appropriated conditioned upon compliance with the program review provisions of AS 37.07.080(h).

(b) If Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) fall short of the estimates appropriated in this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 9.** SALARY AND BENEFIT ADJUSTMENTS. (a) The appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2011, of the following collective bargaining agreements:

(1) Marine Engineers Beneficial Association, representing licensed engineers employed by the Alaska marine highway system;

(2) Inlandboatmen's Union of the Pacific, representing the unlicensed marine unit;

(3) International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit;

(4) Public Safety Employees Association, representing regularly commissioned public safety officers;

(5) Alaska Vocational Technical Center Teachers' Association - National Education Association, representing employees of the Alaska Vocational Technical Center.

(b) The operating budget appropriations made to the University of Alaska in sec. 1 of this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2011, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (a) or (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

(d) Appropriations made in sec. 1 of this Act for salary and benefit adjustments as described in (a) and (b) of this section are for the benefit of the state's integrated comprehensive mental health program only and do not necessarily affect every group of noncovered employees or every collective bargaining unit listed in (a) and (b) of this section.

*** Sec. 10.** This Act takes effect July 1, 2010.

ANALYSIS: *(Attach a separate page if necessary)*

The passage of this legislation would require the advisory vote to appear on the 2010 primary or general election ballot. The cost of providing information about the advisory vote in the Official Election Pamphlet, as required by AS 15.58 is $1.5. Should the addition of this question require printing an 8-1/2 by 18 inch ballot, the cost will increase to $22.0.

REPRESENTATIVE MIKE CHENAULT
SPEAKER OF THE HOUSE

SPONSOR STATEMENT
COMMITTEE SUBSTITUTE for HOUSE BILL 312 (RES)
"An Act authorizing an advisory vote on use of Alaska permanent fund earnings for an in-state natural gas pipeline; and providing for an effective date."

House Bill 312 places an advisory vote on the primary election ballot the question of using permanent fund earnings, after dividends are paid and the fund is inflation proofed, to help offset the costs of an in-state natural gas pipeline.

I view this option as a potential piece of the puzzle in putting together a financing plan for possible state participation in an in-state gasline. With all the discussion of energy needs throughout the state, it is time that the Legislature and the Administration begin to focus on one or two viable projects. It is my hope that we can focus state funding on one or two of these projects rather than taking a shotgun approach and partially fund a large number of concepts that may or may not bear fruition in the future. Providing natural gas to Alaskans first will be a huge first step in creating jobs, providing a long term source of energy and creating economic opportunities.

This bill was drafted to ensure that dividends are paid and the Permanent Fund is inflation proofed prior to using earnings. That part of the question needs to be particularly emphasized. I do not want Alaskans to believe or think this advisory vote is a raid on the earnings of the Permanent Fund. A positive vote would allow the state to use earnings from the Permanent Fund that is funded from resource development within the state. I believe that future generations of Alaskans will benefit from making an energy investment now while still keeping their benefits from the Permanent Fund.

HB 314
Summary of Changes
Version \A to Version \R (JUD)

During hearings in House Judiciary, HB 314 was amended.

Amendment \A.3 was adopted unanimously.

Amendment \A.3 deleted Section 1 of the bill. Because of this, the title was changed.

AS 23.30.250(a) was amended to make offenses listed in 250(a) workers' compensation fraud. Workers' compensation fraud and may be punishable under AS 11.

In Section 2 of the bill, the new subsection (D) was amended include category III charges as well as medical supplies, injections, emergency transportation and other medically related services. It also added a provision that the costs must reflect the cost in the geographical area where the services are provided and is at the 90th percentile.

This bill amends the existing statutes to provide that a person commits the crime of unsworn falsification in the first degree if the person submits a false written or recorded statement that the person does not believe to be true in an application for worker compensation benefits. This bill provides that the fee or other charge for medical treatment or service under the Workers' Compensation Act provided on or after December 31, 2010 may not exceed fees established by the board and include recent category I and category II codes published by the American Medical Association. The department does not anticipate any significant fiscal impact.

CS FOR HOUSE BILL NO. 314(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE LABOR AND COMMERCE COMMITTEE

A BILL

FOR AN ACT ENTITLED

"An Act relating to fees and charges for medical treatment or services, civil damages, and penalties as they relate to workers' compensation; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 23.30.097(a) is amended to read:

(a) All fees and other charges for medical treatment or service are subject to regulation by the board consistent with this section. A fee or other charge for medical treatment or service may not exceed the lowest of

(1) the usual, customary, and reasonable fees for the treatment or service in the community in which it is rendered, for treatment or service

(A) provided before August 1, 2007, not to exceed the fees in the board's fee schedule dated December 1, 2004;

(B) provided on or after August 1, 2007, but before March 31, 2009, not to exceed the fees otherwise applicable in (A) of this paragraph

adjusted by the percentage change from 2004 to 2006 in the medical care component of the Consumer Price Index for all urban consumers compiled by the United States Department of Labor, Bureau of Labor Statistics;

(C) provided on or after March 31, 2009, but before December 31, 2010, not to exceed the fees otherwise applicable in (A) of this paragraph adjusted by the percentage change from 2004 to 2008 in the medical care component of the Consumer Price Index for all urban consumers compiled by the United States Department of Labor, Bureau of Labor Statistics;

(D) provided on or after December 31, 2010, not to exceed the fees or other charges as specified in a fee schedule established by the board and adopted by reference in regulation; the fee schedule must be based on statistically credible data, including charges for the most recent category I, II, and III medical services maintained by the American Medical Association and the Health Care Procedure Coding System for medical supplies, injections, emergency transportation, and other medically related services, and must result in a schedule that

(i) reflects the cost in the geographical area where services are provided; and

(ii) is at the 90th percentile;

(2) the fee or charge for the treatment or service when provided to the general public; or

(3) the fee or charge for the treatment or service negotiated by the provider and the employer under (c) of this section.

*** Sec. 2.** AS 23.30.250(a) is amended to read:

(a) A person who (1) knowingly makes a false or misleading statement, representation, or submission related to a benefit under this chapter; (2) knowingly assists, abets, solicits, or conspires in making a false or misleading submission affecting the payment, coverage, or other benefit under this chapter; (3) knowingly misclassifies employees or engages in deceptive leasing practices for the purpose of evading full payment of workers' compensation insurance premiums; or (4) employs or contracts with a person or firm to coerce or encourage an individual to file a

fraudulent compensation claim [IS CIVILLY LIABLE TO A PERSON ADVERSELY AFFECTED BY THE CONDUCT, IS GUILTY OF THEFT BY DECEPTION AS DEFINED IN AS 11.46.180, AND] may be **prosecuted under AS 11** [PUNISHED AS PROVIDED BY AS 11.46.120 - 11.46.150].

*** Sec. 3.** AS 23.30.250(c) is repealed and reenacted to read:

(c) In addition to criminal penalties under this section, a person who violates this chapter is liable in a civil action brought by or on behalf of a person for compensatory damages as a result of the violation and an award of three times the amount of compensatory damages resulting from the violation, subject to adjustment under AS 09.17, and an award of reasonable attorney fees.

*** Sec. 4.** This Act takes effect immediately under AS 01.10.070(c).

Sponsor Statement

Committee Substitute for House Bill 314 (JUD)

"An Act relating to fees and charges for medical treatment or services, civil damages investigations, and penalties as they relate to workers' compensation; and providing for an effective date."

At the time of passage in 2005 of the revisions to the workers' compensation system, it was contemplated that the interested stakeholders, including the Workers' Compensation Legislative Task Force and the Medical Services Review Committee, would propose legislation acceptable to the various stakeholders before August 1, 2007. This proposal was to replace the repealed Usual, Customary and Reasonable (UCR) methodology for setting maximum fees for medical treatment and services under the Alaska Workers' Compensation Act. A replacement was not proposed and the repeal would have resulted in fees for medical treatment and services in workers' compensation matters going uncapped until such time as the law was changed to remedy the situation.

There have been two previous extensions to the workers' compensation schedule of fees for medical treatment and services in place since 2004 with adjustments made based on the Medical Component of the Consumer Price Index. The existing extension will expire on December 31, 2010. HB 314 proposes a full fee schedule again be established which would include the procedure codes that have been developed since the 2004 schedule was adopted as well as category II and III codes. The fee schedule would be constructed on the same basis as prior schedules using statistically credible data

The bill also clarifies that making false statements related to benefits or engaging in deceptive behaviors will constitute workers' compensation fraud and may be prosecuted under AS 11 – Criminal Law

I urge your support of this bill.

alaska spine institute

The Honorable Kurt Olson
Alaska House of Representatives
House Labor & Commerce Committee
State Capitol, Room 24-A
Juneau, AK 99801-1182

February 2, 2010

Dear Chairman Olson:

The physicians at Alaska Spine Institute have concerns regarding HB 314 - **"An Act relating to fees and charges for medical treatment or services, the crime of unsworn falsification, investigations, and penalties as they relate to workers' compensation; and providing for an effective date."**

First, we are concerned with the new language in Section 2, page2, lines 14-21/ Subsection AS23.30.097 (a) (1) (D). The new subsection reads:

provided on or after December 31, 2010, not to exceed the fees or other charges as specified in a usual, customary, and referenced in regulation; the fee schedule must include the most recent Current Procedural Terminology codes for both category I and category II medical treatment or other services published by the American Medical Association; not withstanding AS 44.62.010 - 44.62.290, the board shall update the schedule annually by order;

This revised language provides "the board" with an undefined and unlimited scope of authority to make changes and establish policy with respect to the medical fee schedule.

There are no specifications re: the personnel who constitute board members or their special areas of interest. Those medical providers and practices who will be most impacted by the decisions of the "board" may not be adequately represented in this body.

Copy on file

In addition, there are no listed frequencies as to how often the fee schedule can be or is required to be changed or updated. Further, there is no information as to how "board" representatives are selected or replaced should this be needed.

There are no provisions for making appeals to the "board's" determinations about fee schedule decisions as the language provided gives them compete authority to make these determinations. The "board" could in one year utilize the usual, reasonable and customary fees for this area using Ingenix but could then elect to use another standard for setting the fee schedule in another year such as a Medicare based fee schedule.

This would severely limit most medical practices in their ability to forecast financial risks associated with adding new equipment and new procedures and limit their ability to provide Alaska's injured workers the most current treatment technologies allowing them to remain in the state for care v/s traveling to other locations outside of Alaska.

Although we understand the need to address the fee schedule due to rising insurance costs to employers, significant changes in the medical fee schedule that include unilateral control by the "board" may limit access to local physicians in the same fashion that Medicare, Medicaid and Federal Workers' Compensation have impacted access. There are few medical providers willing to accept a new patient with Federal Workers' Compensation as the payer and these patients must travel outside Alaska for even simple procedures such as carpal tunnel release.

Second, Alaska Spine Institute has no objections to the update of the CPT (current procedural terminology) codes as this is long overdue. The code list has not been updated for many years and many new codes have been added or new procedures have been assigned codes from the AMA (American Medical Association) that are not reflected on the Alaska Workers' Compensation Fee Schedule.

However, there is no provision outlining which of these codes, both existing ones and additionally added ones, will be considered covered and reimbursable by the States' workers' compensation carriers. Will this then fall under the "board's" scope of authority to make these decisions?

Finally, the MSRC (Medical Services Review Committee) was formed under Gov. Murkowski's administration and was tasked with taking on this complex issue to provide their recommendations to the administration.

The MSRC worked for many months to review the issues and review several options to help create their report to the administration. Many of them volunteered time during the work week and on their own time as well to review an extensive reference manual that was created for them and to perform independent research on what other states were doing with regard to Worker's Compensation. It is unfortunate that none of the committee's recommendations are included in HB 314.

We appreciate your attention to, and consideration of, the concerns we have raised regarding this measure.

Respectfully,

Michel L. Gevaert, MD

Sectional Analysis

Committee Substitute for House Bill 314 (JUD)

"An Act relating to fees and charges for medical treatment or services, civil damages, investigations, and penalties as they relate to workers' compensation; and providing for an effective date."

This is a summary only. Note that this sectional analysis should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents.

Section 1. Amends AS 23.30.097(a) to provide that after December 31, 2010, the fee may not exceed the usual, customary and reasonable charges in a fee schedule adopted by the board which must include the most recent Current Procedural Terminology codes maintained by the American Medical Association for category I, II and III medical services and the Health Care Procedure Coding System for medical supplies, injections, emergency transportations and other medically related services. The fee schedule must reflect the cost in the geographical area where services are provided and is set at the 90th percentile.

Section 2. Amends AS 23.30.250(a) to clarify that the behaviors outlined are workers' compensation fraud which may be punished under AS 11.46.120 – 11.46.150 (criminal law).

Section 3. Amends AS 23.30.250 (c) clarifies that in addition to criminal penalties, a violation of this chapter may result in civil liability with an award of three times the amount of compensatory damages

Section 4. Amends AS 23.30.280(a) to change the specific statute citation of AS 23.30.250 to "this chapter" to broaden the investigative authority to the entire chapter.

Section 5. Amends AS 23.30.280(b) to delete reference to AS 23.30.250(a) to broaden the reporting of fraudulent acts to the employer.

Section 6. Provides for an immediate effective date under AS 01.10.070(c)

8 AAC 45.082. Medical treatment

(a) The employer's obligation to furnish medical treatment under AS 23.30.095 extends only to medical and dental services furnished by providers, unless otherwise ordered by the board after a hearing or consented to by the employer. The board will not order the employer to pay expenses incurred by an employee without the approval required by this subsection.

(b) In this section "provider" means any person or facility as defined in AS 47.08.140 and licensed under AS 08 to furnish medical or dental services, and includes an out-of-state person or facility that meets the requirements of this section and is otherwise qualified to be licensed under AS 08.

(c) Physicians may be changed as follows:

(1) An employee injured before July 1, 1988, may change treating physicians at any time without board approval by notifying the employer and the board of the change. Notice must be given in writing within 14 days after the change of treating physicians. If, after a hearing, the board finds that the employee's repeated changes were frivolous or unreasonable, the board will, in its discretion, refuse to order payment by the employer.

(2) Except as otherwise provided in this subsection, an employee injured on or after July 1, 1988, designates an attending physician by getting treatment, advice, an opinion, or any type of service from a physician for the injury. If an employee gets service from a physician at a clinic, all the physicians in the same clinic who provide service to the employee are considered the employee's attending physician. An employee does not designate a physician as an attending physician if the employee gets service

(A) at a hospital or an emergency care facility;

(B) from a physician

(i) whose name was given to the employee by the employer and the employee does not designate that physician as the attending physician;

(ii) whom the employer directed the employee to see and the employee does not designate that physician as the attending physician; or

(iii) whose appointment was set, scheduled, or arranged by the employer, and the employee does not designate that physician as the attending physician.

(3) For an employee injured on or after July 1, 1988, an employer's choice of physician is made by having a physician or panel of physicians selected by the employer give an oral or written opinion and advice after examining the employee, the employee's medical records, or an oral or written summary of the employee's medical records. To constitute a panel, for purposes of this paragraph, the panel must complete its examination, but not necessarily the report, within five days after the first physician sees the employee. If more than five days pass between the time the

first and last physicians see the employee, the physicians do not constitute a panel, but rather a change of physicians.

(4) Regardless of an employee's date of injury, the following is not a change of an attending physician:

(A) the employee moves a distance of 50 miles or more from the attending physician and the employee does not get services from the attending physician after moving; the first physician providing services to the employee after the employee moves is a substitution of physicians and not a change of attending physicians;

(B) the attending physician dies, moves the physician's practice 50 miles or more from the employee, or refuses to provide services to the employee; the first physician providing services to the employer thereafter is a substitution of physicians and not a change of attending physicians;

(C) the employer suggests, directs, or schedules an appointment with a physician other than the attending physician, the other physician provides services to the employee, and the employee does not designate in writing that physician as the attending physician;

(D) the employee requests in writing that the employer consent to a change of attending physicians, the employer does not give written consent or denial to the employee within 14 days after receiving the request, and thereafter the employee gets services from another physician.

(d) Medical bills for an employee's treatment are due and payable within 30 days after the date the employer received the medical provider's bill and a completed report on form 07-6102. Unless the employer controverts the prescription charges or transportation expenses, an employer shall reimburse an employee's prescription charges or transportation expenses for medical treatment within 30 days after the employer received the medical provider's completed report on form 07-6102 and an itemization of the prescription numbers or an itemization of the dates of travel, destination, and transportation expenses for each date of travel. If the employer controverts

(1) a medical bill or if the medical bill is not paid in full as billed, the employer shall notify the employee and medical provider in writing the reasons for not paying all or a part of the bill or the reason for delay in payment within 30 days after receipt of the bill and completed report on form 07-6102;

(2) a prescription or transportation expense reimbursement request in full, the employer shall notify the employee in writing the reason for not paying all or a part of the request or the reason for delay within the time allowed in this section in which to make payment; if the employer makes a partial payment, the employer shall also itemize in writing the prescription or transportation expense requests not paid.

(e) A written treatment plan under AS 23.30.095 is required for payment of services provided on an outpatient basis for an injury that occurs on or after July 1, 1988. A written treatment plan is not required before providing services while the employee is hospitalized.

(f) If an injury occurs on or after July 1, 1988, and requires continuing and multiple treatments of a similar nature, the standards for payment for frequency of outpatient treatment for the injury will be as follows. Except as provided in (h) of this section, payment for a course of treatment for the injury may not exceed more than three treatments per week for the first month, two treatments per week for the second and third months, one treatment per week for the fourth and fifth months, and one treatment per month for the sixth through twelfth months. Upon request, and in accordance with AS 23.30.095 (c), the board will, in its discretion, approve payment for more frequent treatments.

(g) The board will, in its discretion, require the employer to pay for treatments that exceed the frequency standards in (f) of this section only if the board finds that

(1) the written treatment plan was given to the employer and employee within 14 days after treatments began;

(2) the treatments improved or are likely to improve the employee's conditions; and

(3) a preponderance of the medical evidence supports a conclusion that the board's frequency standards are unreasonable considering the nature of the employee's injury.

(h) An employee or employer may choose to pay for a course of treatments that exceeds the frequency standards in (f) of this section even though payment is not required by the board or by AS 23.30.095 .

(i) Fees for medical treatment are determined as follows:

(1) The fee may not exceed the physician's actual fee or the usual, customary, and reasonable fee as determined under this subsection, whichever is lower.

(2) The board will publish annually a bulletin for the *"Workers' Compensation Manual,"* published by the department which gives the name and address of the organization whose schedule of providers' charge data must be used in determining the usual, customary, and reasonable fee for medical treatment or services for injuries that occur on or after July 1, 1988. The manual, and the organization's name and address are available upon request from the division.

(3) The usual, customary, and reasonable fee must be determined based on the 90th percentile of the range of charges for similar services reported to the organization described in (2) of this subsection. The organization charge data must be used as follows:

(A) The organization's annual publication of the schedule of usual, customary, and reasonable fees in effect at the time the employee received the treatment must be used. However, if the

organization publishes the schedule semi-annually, then the semi-annual publication for the period in which the employee received treatment must be used.

(B) If the community in which services were rendered is not included in the organization's data, or if the type of treatment the employee received is not included in the organization's data for the community in which services were rendered, the usual and customary fee must be based on the data reported for the community nearest to the community in which the services were rendered to the employee.

(C) If the type of treatment or service the employee received is not included in the organization's data and the employer has evidence that the fee exceeds the usual, customary, and reasonable fee charged in the community for the treatment or services rendered, the employer shall pay the physician based on the employer's evidence. In accordance with AS 23.30.110 and 8 AAC 45.070, the physician may request a hearing for a board determination of the usual, customary, and reasonable fee in the community for the treatment or service, and the board will determine and award the usual, customary, and reasonable fee.

ASMA

Draft Language
HB 314 Sec. 2.

* Sec. 2. AS23.30.097(a) is repealed and reenacted to read:

(a) All fees and other charges for medical treatment or service are subject to regulation by the board consistent with this section. A fee or other charge for medical treatment or service provided on or after December 31, 2010 may not exceed the lowest of the actual fee or charge submitted for a medical treatment or service, the fee or charge for the medical treatment or service when provided to the general public, or the fee or charge for the medical treatment or service at the 90th percentile for fees or charges submitted from the community in which care rendered for the associated Category I Current Procedural Terminology Code as published by the American Medical Association; but not, in any event, to exceed a fee or charge for the medical service or treatment negotiated by the provider and the employer under (c) of this section. The board must either develop or designate a source for a database that contains the submitted fees associated with each Category I Current Procedural Terminology code published by the American Medical Association and adopt that by regulation. The database must contain:

(1) data for each community in Alaska, but may, if statistically credible amounts of data do not exist for a community, include data from other communities in an amount sufficient to provide statistically credible data. However, the data from each community used must be adjusted by an appropriate factor that reflects the difference in the cost of rendering care in those other communities. Likewise, if statistically credible data does not exist for any Category I Current Procedural Terminology Code in Alaska, data from outside of Alaska may be included in an amount necessary to provide for statistically credible data but an adjustment must be made to that data for the difference in the Consumer Price Index for all Urban Consumers as compiled by the United States Department of Labor, Bureau of Labor Statistics for the area outside Alaska to that of Anchorage;

(2) the database for each ensuing calendar year must include those submitted fees or charges for each Category I Current Procedural Terminology Code for the most recent, previous twelve month period, and for an amount of additional months necessary to produce statistically credible data should twelve months of data not provide an amount of statistically credible data; and

(3) Category II Current Procedural Terminology Codes published by the American Medical Association must be incorporated into the database and captured for each Category I Current Procedural Terminology Code for which fees or charges are submitted for a medical treatment or service.

RE: HB 314 – Workers Compensation

Dear Representative Olson:

The Alaska State Medical Association (ASMA) represents physicians statewide and is primarily concerned with the health of all Alaskans.

ASMA's members are comprised of primarily, independently practicing physicians who practice in all types of subspecialties. Some of whom treat a substantial number of patients injured on the job and many other who treat few to no injured members. Those physicians who treat the few still have a keen interest in the Workers Compensation system in their capacity as employers. Indeed, those physicians with large numbers of injured workers in their practices have a keen interest as both care giver and as an employer.

ASMA will limit its comments to Sec. 2 of HB 314 and opposes the adoption of that section as currently written. Below, is a short description of ASMA's concerns about the current language and attached is draft language which will help to alleviate those concerns.

Since 2005 a "band aid" approach has been utilized to adjust the usual, customary, and reasonable fee schedule for physician payment. The fees have been frozen at the schedule in place on 12/1/2004, or increased by the percentage change in the Consumer Price Index. The latest was a percentage change in the CPI between 2008 and 2004 applied to that same fee schedule for dates of service stating 4/1/2009 and going through 12/30/2010. Now comes HB 314 which includes Sec. 2 which establishes the physician payment methodology for dates of service beginning 12/31/2010 and on into the future.

ASMA believes the language in Sec. 2 is not as clear as it could be and that the Legislature has the opportunity to make the payment methodology more efficacious and to make the policy decisions that are in your purview. Below is an outline for the changes that ASMA recommends and attached is draft language that would accommodate those changes.

1. define the appropriate fee as the lowest of:
   a. the physician's actual charge or fee for the service or treatment;

b. the charge or fee for the service or treatment when provided to the general public;
c. the charge or fee for the service or treatment for all fees or charges submitted for the associated Category I Current Procedural Terminology code at the 90th percentile; or
d. the charge or fee for the treatment or service negotiated by the provider and the employer under AS 23.30.097(c);

Note: This eliminates the terms "usual, customary, and reasonable" fee as no definition exists anyway in AS23.30 or in 8AAC45.082(i). Also, the 90th percentile is currently found in 8AAC45.082(i)(3).

2. direct the Board to either develop or designate a source (and adopt it by promulgating a regulation) for a database of current fees or charges for each Category I Current Procedural Terminology code that:
   a. includes the charges or fees submitted by Alaska physicians;
   b. includes the most recent 12 months of submitted charges but would allow for either older data to be included in order to have a statistically credible amount of data, or to allow submitted charges to be included from outside of Alaska in order to have a statistically credible amount of data. However, those charges from outside of Alaska need to be adjusted for the cost differential by a ratio of the CPI in Alaska versus where the fees came from; and

   Note: It is assumed that the database is continually updated as Alaska submitted charges or fees are added. Therefore, no direction for an annual update, per se, is necessary. However, a review of the statistical credibility of the data probably needs to be reviewed annually and adjusted accordingly. It is recommended that setting of the percentile be a policy call made by the Legislature.

3. direct that the Board, should it determine that it wishes to change its designated source for the database, that it needs to accomplish though the promulgation of a regulation.

ASMA will not provide comments regarding the establishment of the percentile (currently the 90th percentile) other than in general terms. To provide a specific recommendation, ASMA would have to have collected fee or charge data from its member physicians. It is generally, prohibited from doing so by federal anti-trust law. ASMA expects that individual physicians will provide you comments related to that policy decision. However, ASMA recommends that the Legislature makes this policy call as it is an extremely important one. If the percentile is set too low, physicians could limit their practice as far as caring for injured workers in Alaska. This has happened regarding access to care for injured federal workers under the Federal Workers Compensation system and for Medicare beneficiaries.

Thank you for the opportunity to provide testimony on HB 314. ASMA and I stand ready to assist you in addressing this most important issue.

Sincerely,

Brion J Beerle

Juneau, Alaska 99801-1182

Dear Representative Olson:

On behalf of the National Federation of Independent Business/Alaska, I wish to respectfully share our support for House bill 314 concerning the workers compensation program. The National Federation of Independent Business is the largest small-business advocacy group in Alaska.

HB 314 establishes a fee schedule for the Workers Compensation Program. We believe that this is a prudent first step toward reforming the program to reduce costs and improve the program.

As you know, the workers compensation premiums in Alaska are the highest in the nation. If we expect the program to continue to provide benefits without bankrupting employers, we must move to reduce the program costs and thus the premiums.

NFIB/AK members very much appreciate your willingness to begin addressing this critical problem.

Sincerely yours,

Dennis L. DeWitt
Alaska State Director

To: Rep. Kurt Olson
Subject: HB 314 Workman's Comp

Honorable Kurt Olson,

Dear Representative Olson,

I am an orthopedic Surgeon in Anchorage and have been the President of the advisory board for Alaska Surgical Center for eight years. My practice consists of approximately 30-40% W/C patients. I have reviewed Dr Brion Beerle' letter to you, regarding HB 314, representing the Alaska State Medical Association. As a representative of 34 partners in the Alaska Surgical Center, I feel that the letter from Dr Beerle well represents most surgeons and physicians in our community that care for W/C patients. Please recognize that those of us that care for W/C patients expend a significant amount of extra time and energy to care for W/C patients especially regarding the excessive paperwork requirements that follow these patients. Reduction in reimbursement will only jeopardize patient's access to care. Please review the ASMA recommendations and consider them seriously.

Sincerely and respectfully,

Mike G McNamara MD
Hand, Elbow and Shoulder Surgery

RE: House Bill 314 Amendments

Dear Chairman Olson,

It has come to my attention that there is to be a hearing this afternoon on House Bill 314. As a physical therapist in Alaska I am very concerned about the proposed addition of subsection (D) to Sec.2 AS23.30.097 (a) (1) as it is currently written in House Bill 314. My concern is specifically with the wording found on page 2, lines 14-17, where Workman's Compensation fees are, "not to exceed the fees or other charges as specified in a usual, customary, and reasonable fee schedule established by the board and adopted by reference in regulation".

The consequences of House Bill 314 would be a detrimental to Alaska's workers injured on the job and the health care professionals providing them with care. House Bill 314 would grant a great deal of power to this Board with the sovereignty to set fees without any basis other than "usual, customary, and reasonable". This wording is far too vague for such an important issue. It lacks an explanation of basis for fees, composition of board members, frequency of change for fees, or the process to appeal the fees determined by the board. At the very least, this board should have to recognize an established standard for fees, such as those from the United States Department of Labor. Failure to do so will drastically affect the care of injured workers and the providers that care for them.

Please do not allow House Bill 314 to be added into Alaska's Statutes. It has no place

Sincerely,

Paul Carlson, PT

Official Business

Sponsor Statement

HB 315 – Public Accounting

Today's businesses often have locations in multiple states and compliance responsibilities in multiple jurisdictions. Forty-five states recognize this fact and allow Certified Public Accountants (CPAs) the mobility necessary to operate in such a climate. Alaska does not. Certified Public Accountants licensed and located in another state are barred from serving clients in Alaska without obtaining a license and registering with the Alaska State Board of Public Accountancy.

House Bill 315 would change this fact, updating Alaska's uniform accountancy statues to allow for CPA mobility. Mobility is the ability of a licensee to gain a practice privilege outside his principle place of business without additional licensing or fees. It allows licensed CPAs and CPA firms to practice across state jurisdictions with greater ease and is key to keeping Alaska's CPAs and CPA firms nationally competitive.

In addition to allowing for greater mobility, HB 315 alters the ownership requirements for public accounting firms. The accounting profession consists of more than just CPAs, non-CPA professionals often provide vital services for accounting firms. While these non-accountants enhance the firm's ability to serve their clients, Alaska law bars them from having any ownership in a CPA firm. Under current state law, public accounting firms can only be owned by CPAs. Alaska is one of only five states with such stringent requirements; most states allow non-CPAs to own a minority interest. House Bill 315 brings Alaska into line with the vast majority of states which allow non CPAs to have minority ownership in CPA firms. Such a change puts Alaskan CPA firms on equal footing with those firms practicing in Alaska under out-of- state permits.

Passage of HB 315 will allow consumers to receive timely services from CPAs best suited for the job, regardless of location and without the hindrance of filings, forms, and increased costs that currently typify the system. The bill will ensure that CPA firms in the state are able to provide the best services to their clients and remain competitive with non-Alaskan firms operating in the state under out-of-state permits.

I respectfully ask for your consideration of this bill and look forward to hearing your questions and concerns.

Mobility for CPAs
Frequently Asked Questions

What is mobility?

- Practice mobility for CPAs is the ability of a licensee to gain a practice privilege outside of their home state without getting an additional license in another state where they will be serving a client.

Why is mobility important to CPAs and businesses in your state?

- Because the electronic age makes conducting business across state borders an everyday occurrence, there is a critical need for states to adopt a uniform mobility system that will allow licensed CPAs to provide services across state lines without unnecessary burdens that do not protect the public interest.

What is being done to correct the current system?

- Prior to this initiative, each state had its own rules, regulations and requirements to allow out-of-state CPAs to provide services in that state, resulting in a patchwork system that was inefficient and increasingly difficult to navigate.

- The American Institute of Certified Public Accountants (AICPA) and the National Association of State Boards of Accountancy (NASBA) analyzed the system for gaining practice privileges across state lines and concluded it simply was not working.

- The AICPA along with NASBA have been working with the state boards of accountancy and the state CPA societies across the country to gain a uniform interstate mobility provision through the Uniform Accountancy Act since 2007. Since that date over half of the states have enacted a uniform provision.

What is the solution?

- Uniform adoption of the substantial equivalency provision included in the *Uniform Accountancy Act* (the model bill for CPA regulation written and endorsed jointly by AICPA and NASBA) will create a system similar to the nation's driver license that will provide CPAs with mobility while retaining and strengthening state boards' ability to protect the public interest.

Why is a uniform mobility provision important in your state and to other states across the country?

- Compliance and enforcement of the existing system was almost impossible, with multiple, cumbersome processes and disparities in requirements. Business realities, including an increase in interstate commerce and virtual technologies require a uniform system that allows fluid practice across state lines.

- Implementation of a uniform provision would allow consumers to receive timely services from the CPA best suited to the job, regardless of location, without the hindrances of unnecessary filings, forms and increased costs that do not protect the public interest.

- Businesses today are often located in multiple states and have compliance responsibilities in multiple jurisdictions and a uniform process will give CPAs the flexibility to better serve these clients.

- This initiative is only successful if it is passed in all states. It is the "good neighbor theory" we all have to do it for one another.

How will State Boards of Accountancy regulate CPAs operating in their state if mobility provisions are adopted?

- State Boards of Accountancy will gain automatic jurisdiction over all CPAs practicing in their state, enabling states to discipline out-of-state licenses, whether they are registered or licensed in the state.

- The substantial equivalency provision of the Uniform Accountancy Act was written jointly by NASBA and AICPA, and is strongly supported by both organizations as the best path to a uniform mobility system with enhanced public protection.

Are states taking action to implement mobility legislation?

- Over 40 states have adopted a CPA mobility provision.

For More Information:

- **http://www.aicpa.org/Legislative+Activities+and+State+Licensing+Issues/Mobility+and+State+Licensing+Issues/.**

Is your state addressing the mobility issue for CPAs?

- Nearly all remaining jurisdictions have indicated there support of moving towards mobility in the 2010.

- Mobility Implemenation
- Articles

There is significant momentum across the country to enact a uniform practice mobility system for certified public accountants (CPAs) and CPA firms. A majority of states are in the process of considering this concept. View an overview of the activity.

Practice mobility for CPAs is the ability of a licensee to gain a practice privilege outside of his or her home jurisdiction without obtaining an additional license in another state where he or she will be serving a client or an employer.

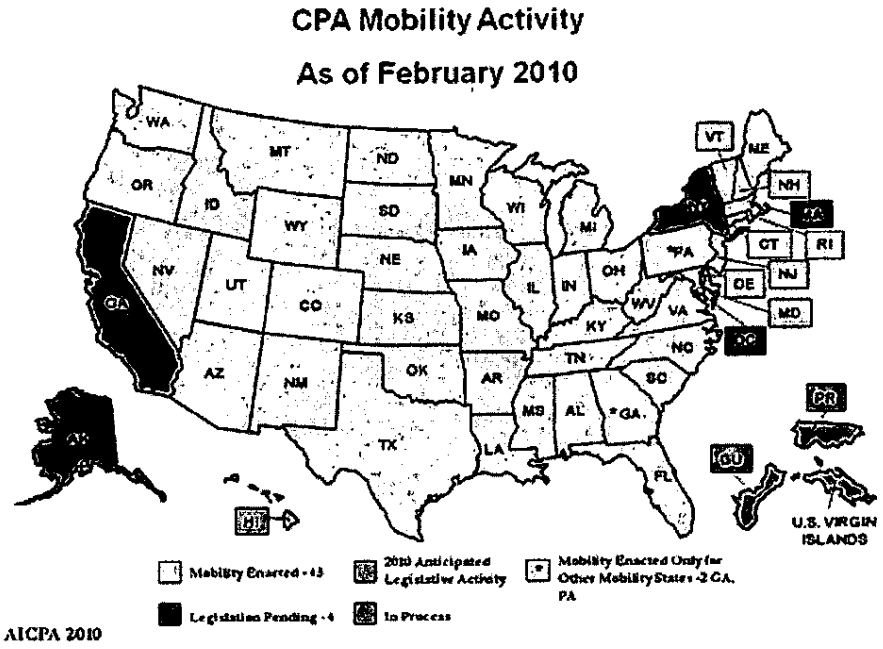
Because the electronic age makes conducting business across state borders an everyday occurrence, a *national effort* is underway to adopt a uniform system that will allow licensed CPAs the ability to provide services across state lines without being subject to unnecessary burdens that do not protect the public interest.

This uniform approach is endorsed by the AICPA and the National Association of State Boards of Accountancy (NASBA), the national organization of state boards of accountancy, through a provision in the AICPA/NASBA Uniform Accountancy Act (UAA) – Fifth Edition. The provision specifically allows for interstate practice by CPAs whose home jurisdiction or who individually meets the UAA licensure standard.

This provision provides the right balance of trust and public protection. Removing notification is being coupled with automatic jurisdiction. By removing boundaries to practice in the U.S., CPAs will be able to more readily serve individuals and businesses in need of their expertise. At the same time, the state board of accountancy's ability to discipline under the provision is enhanced and is based on the CPA and the CPA firm's performance of public accounting services, either physically, electronically or otherwise within a state, rather than restricting the board's authority to only those holding a state's license.

Prior to 2007, when this national effort was undertaken, four states had already eliminated notification and added automatic consent to enforcement (Ohio, Missouri, Virginia, and Wisconsin). In both Ohio and Virginia, states that have the longest history with this concept, there is no documented lapse in public protection.

Mobility Update
As of February 2010



Mobility Reference Materials

- For information about licensing requirements in other states, you can access the accountancy statutes and regulations directly from most states' board of accountancy Web sites. Find information about a specific state (simply locate the state on the map to link to the board of accountancy Web site in that state).
- For information about states that have enacted mobility, an additional clickable map is available to view individual state mobility implementation.

MEMORANDUM February 3, 2010

SUBJECT: Sectional summary of HB 315 relating to public accounting (Work Order No. 26-LS1380\A)

TO: Representative Kurt Olson
Attn: Jennifer Senette

FROM: Theresa Bannister
Legislative Counsel

You have requested a sectional summary of the above-described bill. As a preliminary matter, note that a sectional summary of a bill should not be considered an authoritative interpretation of the bill and the bill itself is the best statement of its contents.

Section 1. Amends AS 08.04.020(b) of the section dealing with the appointment and qualifications of members of the Board of Public Accountancy to reflect the new out-of-state exemption category added by the bill.

Section 2. Amends AS 08.04.075 (substantial equivalency) to require the board to determine whether the education, examination, and experience qualifications of another state or an individual are substantially equivalent to the national standard or to a board-established standard. Replaces "applicant" with "individual." Directs that the order in which the education, examination, or experience requirements were attained be disregarded.

Section 3. Amends AS 08.04.100 (certificates) to add the out-of-state exemption added by the bill.

Section 4. Amends AS 08.04.200 (use of CPA title by individual) to cover individuals with licenses or practice privileges.

Section 5. Rewrites AS 08.04.240(a). Directs the board to grant a permit to engage in the practice of public accounting to a partnership if the partnership applies and meets the listed requirements.

Section 6. Rewrites AS 08.04.240(b). Directs the board to grant a permit to engage in the practice of public accounting to a corporation that is organized for the practice of public accounting, if the corporation applies and meets the listed requirements.

Section 7. Amends AS 08.04.240(c) to add an individual with a practice privilege to the individuals who may make an affidavit necessary for a permit application under the section.

Section 8. Rewrites AS 08.04.240(d). Directs the board to grant a permit to engage in the practice of public accounting to a limited liability company engaged in the state in the practice of public accounting, if the company applies and meets the listed requirements.

Section 9. Amends AS 08.04.240(g). In the subsection that indicates when the board must renew a permit or a renewal, amends the requirements for renewal to limit the office maintenance requirement to offices located in this state, to limit certain continuing education and quality review requirements to individuals required to be CPAs of this state, and to specify some of the requirements that must be complied with.

Section 10. Adds new subsections to AS 08.04.240.
Sec. 08.04.240(i) indicates, with regard to permit issuance under the section, under what conditions a partnership, limited liability company, corporation, or other legal entity may include owners who are not certified public accountants.

Sec. 08.04.240(j) directs a legal entity that does not comply with (i) after it has received or renewed a permit to take corrective action within a reasonable time. Directs the board to determine what is a "reasonable time."

Section 11. Amends AS 08.04.370 (use of CPA title by legal entity). In this section, which indicates when "certified public accountant" may be used by persons who are not individuals, substitutes "legal entity" for "organization" and covers holders of a permit or out-of-state exemption unless the supervision requirement of AS 08.04.360 is satisfied.

Section 12. Changes the cross references at the beginning of AS 08.04.380 (waiver of requirements) to reflect the rewriting of AS 08.04.240.

Section 13. Rewrites AS 08.04.420 so that it just covers practice privileges. Indicates when an individual who is licensed in another state but not licensed in this state may engage in the practice of public accounting in this state under a practice privilege. If the individual is not a sole practitioner, restricts how the individual may provide certain services. Indicates that an individual who may practice under a practice privilege is not required to provide a notice, a fee, or documentation to the board.

Section 14. Adds two new sections, sec. 08.04.421 and 08.04.422.
Sec. 08.04.421(a). Addresses out-of-state permits and exemptions. Prohibits a legal entity that does not have an office in this state, that is authorized to practice public accounting in another state, and that performs designated functions for a client whose home office is located in this state from engaging in the practice of public accounting in this state without an out-of-state permit. Describes what a legal entity must submit to the board to obtain the out-of-state permit.

Sec. 08.04.421(b). Allows a legal entity that performs designated services but not designated functions for a client whose home office is located in this state to engage in the practice of public accounting in this state under an out-of-state exemption if the legal entity meets certain requirements.

Sec. 08.04.421(c). Allows a legal entity that does not have an office in this state, that is authorized to practice public accounting in another state, and that does not perform designated functions or designated services for a client whose home office is located in this state to engage in the practice of public accounting in this state under an out-of-state exemption if the performance of the services meets certain requirements.

Sec. 08.04.421(d). Requires the board to give notice of the denial of an out-of-state permit under (a) to the applying legal entity.

Sec. 08.04.421(e). Requires the board to establish by regulation the period for which an out-of-state permit under (a) is valid, but the initial term may not exceed three years. Allows the board to renew an out-of-state permit and to set by regulation renewal terms and length.

Sec. 08.04.421(f). States that a legal entity who may operate under an out-of-state exemption is not required to provide a notice, a fee, or documentation to the board. Allows the person to practice by mail, by telephone, by electronic means, or in person.

Sec. 08.04.421(g). Defines "designated service" for the section.

Sec. 08.04.422 (conditions of practice privileges, out-of-state permits, and out-of-state exemptions). Indicates that persons with practice privileges, out-of-state permits, or out-of-state exemptions and legal entities that hire individuals with practice privileges consent to the jurisdiction and disciplinary authority of the board, agree to comply with AS 08.04, agree to stop engaging in the practice of public accounting if the license from the state of the person's principal place of business becomes invalid, and consent to the state board that issued the individual's license being the person's agent for the service of process.

Section 15. Amends AS 08.04.440 (effect of failure to obtain license or permit). Deletes practice privileges from the coverage of the section.

Section 16. Amends AS 08.04.450 (revocation, suspension, or refusal to renew). Adds out-of-state exemptions to the section. Deletes practice privileges from (1). In (3), adds a failure to take corrective action regarding ownership as a basis for board action. In (11), with regard to the reference state for discipline, changes to the state where the act was committed.

Section 17. Adds a new subsection to AS 08.04.450. Directs the board to investigate a complaint made by the accountancy regulatory body of another state.

Section 18. Makes a technical change to AS 08.04.490 (reinstatement).

Section 19. Amends AS 08.04.500(b) (individuals posing as CPAs). Clarifies that the subsection covers a sole practitioner acting as a sole practitioner in the individual's home state. Expands the subsection to cover other titles allowed under (a) of the section.

Section 20. Amends AS 08.04.505 (issuance of reports), to cover persons holding out-of-state exemptions.

Section 21. Amends AS 08.04.510 (legal entities posing as CPAs). Makes technical change to "legal entity" throughout. In (a), adds legal entities holding out-of-state exemptions to the coverage of the section. Amends (b) to cover legal entities holding permits under AS 08.04.421 or out-of-state exemptions. Expands (b) to cover other titles allowed under (a) of the section.

Section 22. Amends AS 08.04.520 (individual posing as public accountant). Removes permits (not applicable to individuals).

Section 23. Amends AS 08.04.530 (partnership, limited liability company, or corporation posing as public accountant). Adds holders of out-of-state exemptions to the coverage of the section and makes a related drafting change.

Section 24. Amends AS 08.04.540 (use of deceptive title or abbreviation). Makes a change to "legal entity" in the provision prohibiting the use of deceptive titles or abbreviations. Allows persons with licenses, permits, out-of-state exemptions, or practice privileges to hold themselves out as accountants or auditors under certain conditions.

Section 25. Clarifies that AS 08.04.560 (individual assumption of title) does not require that the individual have an office in this state.

Section 26. Amends AS 08.04.580 (partnership posing as accountants or auditors) to add a partnership that holds an out-of-state exemption to the persons who are not subject to the prohibitions in the section.

Section 27. Amends AS 08.04.590 (use of title with corporate name) to add a partnership that holds an out-of-state exemption to the persons who are not subject to the prohibitions in the section.

Section 28. Amends AS 08.04.595 (limited liability company use of title) to add a limited liability company that holds an out-of-state exemption to the persons who are not subject to the prohibitions in the section.

Section 29. Amends AS 08.04.598 (other legal entity's use of title). Makes change to "legal entity." Adds a person who holds an out-of-state exemption to the persons who are not subject to the prohibition in the section.

Section 30. Amends AS 08.04.600 (disclosure of lack of license or permit) to add out-of-state exemption holders to the list of persons who are not subject to the prohibitions in the section.

Section 31. Amends AS 08.04.610 (deceptive use of title or designation) to make the shift to the term, "legal entity." Amends to add persons who hold out-of-state exemptions to the persons who are not subject to the section's prohibition.

Section 32. Amends AS 08.04.620 (exceptions) to add, in paragraph (1), persons holding out-of-state exemptions to the persons for whom an individual without a license or practice privilege may work under certain conditions. In paragraph (3), adds an out-of-state exemption to the list of state approvals that would allow certain persons holding certificates, licenses, or degrees from a foreign country to satisfy the requirements for indicating that their public accounting services are available to the public.

Section 33. Amends AS 08.04.662(a) (confidential communications) to cover persons who hold out-of-state exemptions.

Section 34. Amends AS 08.04.680(1) to rewrite the definition of the term, "attest function," for the chapter.

Section 35. Amends AS 08.04.680(9). Changes the cross references in the definition of "permit" to reflect changes made in the bill.

Section 36. Rewrites AS 08.04.680(12) to change the definition of "principal place of business."

Section 37. Amends AS 08.04.680(14) to change an exception from the definition of "report."

Section 38. Amends AS 08.04.680 to add definitions of "compilation service," "designated function," "home office," and "out-of-state exemption" for the chapter.

Section 39. Repeals AS 08.04.085 (regulations regarding attest functions).

Section 40. Provides transitional provisions authorizing the Board of Public Accountancy to adopt regulations to implement the bill.

Section 41. Provides transitional provisions to indicate the effect of the bill on current permittees and practice privilege holders.

Section 42. Gives sec. 40 an immediate effective date.

Section 43. Makes the bill, except sec. 40, effective January 1, 2011.

If I may be of further assistance, please advise.

ANALYSIS: *(Attach a separate page if necessary)*

This bill would create a procedure for DNA testing in post-conviction cases where a defendant was convicted of a crime under AS 11.41. The bill also creates a procedure for preserving and destroying physical evidence as well as a task force for standards for preservation of evidence. Because OPA handles all of the conflicts of interest from the Public Defender Agency, including any claims by clients that they received ineffective assistance of counsel from their PDA trial attorney, the agency receives a substantial portion of the post-conviction relief assignments. It is possible that cases filed under this new procedure could increase the attorney and support staff workload. Additionally, the agency must rely upon private contractors to handle a portion of these cases when the agency staff has a conflict of interest. The agency does not predict a significant fiscal impact as a resut of this statute and therefore submits a zero fiscal note.

FISCAL NOTE #2

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 316

ANALYSIS CONTINUATION

This bill creates procedures for obtaining post-conviction DNA testing, for preserving physical evidence, for destroying physical evidence, and creates a task force on standards for preservation of evidence.

It is expected that the Agency will receive new post-conviction appointments. The Innocence Project has recieved approximately 130 requests for assistance from convicted defendants asserting claims of innocence over the past 4 years. Additionally, the bill requires all petitioners whose convictions were entered before a certain date to file a petition by July 1, 2013. This is expected to increase the number of applications within the first three years of the bill.

The new appointments could increase costs due to attorney review and paralegal resources that must be applied to process the cases. It is difficult to predict how many cases or the level of review that will be required, but the Agency does not predict a significnat increase and therefore submits a zero fiscal note.

ANALYSIS: *(Attach a separate page if necessary)*

This proposed legislation would require post-conviction DNA testing for those who meet the legal requirements, allow for the preservation of certain evidence for possible future forensic testing, and requests amendments to the DNA identification registration system statute, 44.41.035, all of which would directly affect the State Crime Laboratory. The bill also contains proposals that would not affect the Crime Lab.

The State Crime Lab has hired and trained three new Forensic Technicians in the past year. With this addition in personnel the Evidence Section has been able to implement new procedures that have significantly reduced evidence turnaround time. Intensive inventory and focus on the creation of valuable space has brought that Section (cont.)

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 316

ANALYSIS CONTINUATION

forward in anticipation of a possible increase in evidence retention and submissions for analysis due to proposed legislation. These actions are believed to be sufficient to handle the increase in submissions should this proposed legislation become law and is believed to be able to carry the laboratory forward approximately 2-4 years before fiscal impact would become likely.

Because it is not understood just how much of an increase in evidence submissions for analysis and for retention the laboratory will ultimately see, it may be that a revised fiscal note will become necessary in the future; however, at this time the Department does not foresee a fiscal impact beyond its current needs.

The Section (s) revision to 44.41.035 speaks to the authority of the Department of Public Safety to obtain a subsequent DNA sample should the original sample not provide a profile adequate for database entry. Although the frequency of samples failing to provide sufficient information is relatively small, this is a critical concern and this addition to the statute would provide resolution. Because the number of subsequent sample requests is determined to be low, the laboratory does not anticipate fiscal impact resulting from passage of this amendment.

ANALYSIS: *(Attach a separate page if necessary)*

This bill relates to post-conviction DNA testing, preservation of certain evidence, and to the DNA identification system to post-conviction relief procedures.

Anticipated costs to the Department include:
Costs associated with one day quarterly meetings. The travel costs assumes that two of the positions will be reimbursed for their travel costs at approximately $1,000 per meeting.

The fiscal note anticipates the report to be delivered electronically to the governor and legislature.

CS FOR HOUSE BILL 316(JUD)
EVIDENCE RETENTION AND
POST-CONVICTION DNA TESTING
Sectional Analysis

Sections 1 and 2 are conforming amendments to clarify that the evidence retention provisions in the bill take precedence over the provisions of AS 12.36.010 – 12.36.090 that address disposition of evidence in various circumstances, including disposal of unclaimed property.

Section 3 proposes a new statute in AS 12.36, Preservation of Evidence, that would require municipal police departments, the Department of Public Safety, the Department of Law, and the Alaska Court System to preserve both physical evidence and biological evidence for the periods described below. The highlights include:

- The retention requirements apply to an investigation and prosecution of homicide (murder, manslaughter, and criminally negligent homicide), sexual assault in the first degree, and sexual abuse in the first degree.

  Because this is a new (and unfunded) duty imposed on municipal agencies in addition to state agencies, the bill was drafted to apply to a limited number of offenses; the offenses are the most likely to include evidence with DNA as part of the investigation and prosecution.

- Requires evidence (not including biological material) to be retained until the expiration of the prosecution, including the time for completing an appeal (including time for applying for review to the United States Supreme Court) or the litigation of any post-conviction relief application.

  The bill allows agencies to preserve samples of evidence if the item itself is impractical or hazardous to preserve. It recognizes that municipal police agencies will have varying storage capacity; that is, a rural agency may have a smaller storage ability that a larger municipality. The bill requires each agency to adopt written policies addressing removal and preservation of samples.

- Requires biological material to be retained by an agency until the defendant is unconditionally discharged for the crime (including any period of probation or parole), the period the person is required to register as a sex offender, or until the period for retention of physical evidence have expired, whichever is longer.

  Biological material is defined to include the contents of a sexual assault examination kit, all human bodily material collected in the investigation, slides, swabs, or test tubes containing human bodily material, and swabs or cuttings from other evidence that contain human bodily material.

- The bill adopts a procedure for an agency, after notice to the parties and their attorneys, to dispose of or return evidence or biological material if no party objects to the disposal or return of the evidence or biological material. If there is an objection, it allows the agency to request the court to allow the disposal or return of evidence or biological material.

- The remedy for an agency's failure to preserve evidence and biological material is left to the court. However, a court may not reverse or otherwise vacate a conviction based solely on a good faith violation of the new law.

- The bill prohibits a person from bringing a civil action against an agency for a good faith failure to abide by the new requirements.

Section 4 requires that a person who seeks post-conviction DNA testing to support a claim of innocence to bring the application for testing under AS 12.73, proposed in the bill.

Section 5 clarifies practice in the area of post-conviction relief by putting in statute the common law rule that requires an applicant to plead a prima facie case for post-conviction relief, and the court make a finding that a prima facie case has been pled before the state responds. Then the parties may pursue discovery on the matter. *State v. Jones*, 759 P.2d 558, 565-566.

Section 6 adopts procedures for post-conviction DNA testing. These include the following:

- **Sec. 12.73.010** sets out the information that must be included in an application for post-conviction DNA testing. The applicant must file

  - An affidavit by the applicant that states

- that the applicant did not commit the crime for which he was convicted or any lesser included offense;
- that the applicant did not solicit another person to commit, or aid or abet another person in planning or committing, the offense or any lesser included offense;
- that the applicant did not admit or concede guilt for the offense in any official proceeding; the entry of a plea of guilty or nolo contendere is not considered an admission or concession of guilt for purposes of this requirement;

- An affidavit by the applicant or the applicant's lawyer stating the results of each DNA test already performed on evidence in the prosecution of the defendant;
- An affidavit by the applicant or the applicant's lawyer describing previous efforts to obtain DNA testing;
- An affidavit by the applicant's trial lawyer stating the reason the DNA testing was not requested at the trial level, or an affidavit stating the efforts taken to obtain this affidavit.

- **Sec. 12.73.020** provides the standards for when a court may order post-conviction DNA testing. These include:
  - The applicant was convicted of a felony against a person (AS 11.41);
  - Completion of the affidavits required by AS 12.73.010 have been submitted;
  - The applicant has not admitted or conceded guilt in an official proceeding; again entry of a plea of guilty or nolo contendere is not considered an admission or concession for this sectional;
  - The evidence was obtained as part of an investigation of the crime;
  - Either
    - The evidence has not been tested;

- The evidence has been previously tested, the applicant is requesting a more probative test; or
- The court determines that granting the application is in the best interest of justice;

- The evidence has been retained under conditions that ensure that it has not changed in a way that would undermine the accuracy of the test;
- The applicant proposes a defense theory not inconsistent with the defense at trial, and that would establish innocence;
- If the defendant was convicted at trial, the identity of the perpetrator was an issue;
- There is a reasonable probability that the testing requested will produce new evidence that would support the new defense theory and could establish innocence;
- The applicant consents to give a DNA sample and to have that sample entered into the DNA identification registration system; and
- The application is timely.

- **Sec. 12.73.030** allows for summary dismissal by the court if the application does not include the information required. If the application is not summarily dismissed the prosecuting authority has 45 days to file a response.
- **Sec. 12.73.040** adopts presumptions regarding timeliness. There is a presumption that filing an application within three years after conviction is timely; this may be rebutted if the application is repetitive. There is a presumption that an application filed later is untimely; this may be rebutted for any good cause.
- **Sec. 12.73.050** adopts procedures for collecting DNA samples. It also provides that the testing must be performed at a laboratory operated by the state or approved by the state. The cost of testing will be paid for by the state; if the applicant requests additional testing, the applicant must pay for it, and it must be performed at an accredited laboratory or one approved by the Department of Public Safety.

- **Sec. 12.73.060** clarifies that the prosecution and an applicant may stipulate to DNA testing without following the procedures in the bill.

- **Sec. 12.73.070** includes definitions for the new chapter.

Section 7 provides that an indigent applicant is entitled to representation by the Public Defender Agency in bringing an application for post-conviction DNA testing.

Sections 8 – 12 make clarifying amendments to the DNA identification registration system statutes. The bill clarifies that a minor must be 16 years of age or older at the time of offense for the minor's DNA to be entered into the database. It also requires that the Department of Public Safety remove a DNA sample entered into the database if the individual was found not guilty for the offense that was the basis of the DNA entry. The bill also makes several draft changes to improve the readability of the law.

Section 13 provides that a DNA sample from the registration system may be used in a criminal investigation if it was mistakenly in the system, if the error was made in good faith. Section 13 also clarifies that if a sample does not include sufficient material to obtain an accurate identification, another sample may be taken.

Section 14 notes the effect the bill has on Rule 35.1, Alaska Rules of Criminal Procedure.

Section 15 creates a task force to consider and recommend standards for preservation of evidence. The task force would consist of the attorney general, the commissioner of public safety, a chief of police from a community not on the state's road system, a chief of police from a municipal department, the state medical examiner, representatives from the crime laboratory and the court system, the victims' advocate, the public defender, a member of the Alaska senate, a member of the Alaska house of representatives; a representative of the office of public advocacy, and a representative of the Alaska Native Justice Center.

The task force's work would be to recommend standards for collection, storage, organization, cataloging, disposal, return to owners, and retrieval of evidence; identify sources of financial help for implementing the standards; and recommend minimum qualification and training of persons responsible for storing evidence. After completing its work, the task force will report its recommendations to the legislature.

Sections 16 – 19 include applicability and effective date provisions.

Dear Representative Stoltze and Members of the House Finance Committee:

My name is Bill Oberly and I am the Executive Director of the Alaska Innocence Project. I will be providing oral testimony on HB 316 at the hearing tomorrow, March 25, 2010. However, in an attempt to keep that testimony short and concise, I have attached a more complete written testimony to this e-mail.

The Alaska Innocence Project is very interested in passage of fair and workable post-conviction DNA testing bill. I believe our proposed amendments to the current version of HB 316 will go a long way to insuring that is done.

Thank you for the opportunity to present this to you.

Bill Oberly

ALASKA INNOCENCE PROJECT

WRITTEN TESTIMONY IN SUPPORT OF ORAL TESTIMONY OF
WILLIAM B. OBERLY, EXECUTIVE DIRECTOR
ALASKA INNOCENCE PROJECT
BEFORE THE ALASKA HOUSE FINANCE COMMITTEE
HB 316 – AN ACT RELATING TO POST-CONVICTION DNA TESTING
MARCH 25, 2010

Thank you to the House Finance Committee for giving me the opportunity to give oral testimony and to submit this written document in support of those comments on HB 316.

Access to post-conviction DNA testing is among the most important issues for the Alaska Innocence Project. We thank Governor Parnell for recognizing the importance of this issue by proposing a bill dealing with this subject. However, the Alaska Innocence Project cannot support HB 316 as it is currently written. The effect of HB 316 as currently written is to drastically limit access to DNA testing in Alaska. A number of modifications will need to be made before this bill is in line with the current approach to DNA testing accepted in the rest of the country.

In this letter I will try and describe the specific areas of HB 316 which serve to deny DNA testing to individuals with innocence claims in the state of Alaska. I will discuss the sections of the bill in the order of significance and impact on innocence claims. If these sections are removed from the bill, HB 316 will then provide a procedure for wrongfully convicted Alaskans to obtain post-conviction DNA testing to establish their innocence.

The first area of concern is the prohibitions on testing contained in this bill. The combined effect of these prohibitions is to deny virtually every person currently in prison who would seek DNA testing. This approach flies directly in the face of current thinking, which was described by Senator Patrick Leahy when he sponsored the federal Innocence Protection Act. "The criminal justice system should err on the side of permitting testing, in light of the low cost of DNA testing and the high cost of keeping the wrong person locked up."

The most serious prohibition on testing in HB 316 is contained on page 10, lines 11 through 23 of the bill in Sec. 12.73.040, entitled Timeliness. This section establishes a presumption of untimeliness if an application for post-conviction testing is not filed within three years. This restriction will prohibit most, if not all, innocent individuals who are currently incarcerated from obtaining the testing necessary to establish their innocence. This section would make post-conviction DNA testing claims in Alaska much more limited then under the current process of

P.O. BOX 201656 • ANCHORAGE, ALASKA • 99520-1656
EMAIL: INFO@ALASKAINNOCENCE.ORG
WEB: WWW.ALASKAINNOCENCE.ORG
(907) 279-0454

post-conviction claims based on newly discovered evidence. Time limitations ignore the fact that without proper preservation standards and requirements, as well as state of the art identification methods, exculpatory DNA evidence may only be located after years have elapsed. It should be remembered that, unlike other forms of evidence, DNA evidence is not less reliable as time goes by, one of the main reasons for limiting the time within which to bring new evidence motions based on other evidence. Establishing that an incarcerated individual is actually innocent of the crime for which they have been convicted should not be limited by arbitrary time limits.

Page 9 section (5) at lines 2 through13. This section prohibits an individual from seeking testing if evidence was not subjected to DNA testing at the trial level or a more probative method of DNA testing was not used, and the applicant waived the testing or the applicant's lawyer did not test for tactical reasons. This section denies the reality of the real world that bad lawyering is one of the most common causes of wrongful convictions. Since we are dealing with claims of actual innocence, it would be improper to deny an individual the opportunity to perform the most accurate tests on evidence to establish innocence because a trial lawyer made a bad decision, or couldn't afford a test. The problem is compounded in this bill by allowing the trial lawyer to cover the bad decision by requiring an affidavit from the trial lawyer explaining their actions. It is presumed under this bill that if a lawyer chooses to spend the limited resources available in a defense case on other then DNA testing, this decision will preclude post-conviction testing to establish that an individual is innocent. In our system of justice, innocence should not be able to be waived.

Page 8 subsection (C) at lines 5 through 7 and section (3) at lines 29 through 30. These sections make post-conviction DNA testing unavailable to anyone who admits or concedes guilt in any official proceeding or whose statement of guilt was the basis of the conviction. This section, again, denies hard facts we have learned from the 249 DNA exonerations nationwide, that 25% of those exonerations have involved an innocent individual who admitted their guilt or pled guilty to the crime. While the State has amended its original version of HB 316 to exclude those people who pled guilty or no contest to a charge, the bill continues to prevent any individual who has made an admission under oath at any point in a case from obtaining DNA testing. This category of wrongfully convicted individuals is largely represented by the most vulnerable in society; young people, people with mental disabilities, those most susceptible to suggestion. Rather then protecting the vulnerable in our society, this bill aims to take advantage of them. Form is clearly more important then justice when a law takes advantage of our most vulnerable citizens.

Page 9 section (10) at lines 24 through 29. This section of the bill calls for the court considering a post-conviction DNA testing request to guess at the outcome of the requested testing based on the court's view of other evidence. Other states and the federal government, when establishing a standard for the court to apply to the requested evidence, reasonably assume a favorable result of the testing for the petitioner, and then have the court decide if that would establish a reasonable probability that the petitioner would not have been convicted. This long established standard does not require a judge to try and guess what the result of the requested DNA testing might be. Rather, it reasonably asks a court to decide whether a favorable test result would be significant in the outcome of the case.

Page 3 section (d), lines 29 through 31. Also page 11, lines 17 through 18. This term of the bill calls for the person requesting evidence be tested pay for its retrieval. This is a concept totally unique to the Alaska post-conviction DNA testing process. Not one statute passed by any other state or the federal government imagines such a requirement. An irony in including this section where it is in the bill is that it follows a section which requires an agency holding preserved evidence to produce an inventory of that evidence. It must be presumed that the agency will actually confirm they have each of the items on the inventory before providing it. Under this bill, after physically confirming they have each piece of evidence, the holding agency will then get to turn around and charge for going back again and collecting it. A more reasonable approach would envision the agency putting the evidence in a convenient place at the time of preparing the inventory, thus performing their work more efficiently, while doing away with the need to charge to collect evidence. A serious impact of this section will be that some individuals will be precluded from obtaining the evidence due to an inability to pay this tax on their right to DNA testing. The section is particularly offensive since evidence does not belong to one side or the other, but rather to the people. Charging a person claiming innocence to collect the evidence is inconsistent with this concept.

Page 2 lines 25 through 31 through page 3 lines 1 through 6. This section sets deadlines for destruction of evidence obtained during the investigation of a case rather then allows the Task Force which is established at the end of the bill to study the issue and make recommendations. SB110 also established a task force with a wide ranging mandate to study evidence preservation issues, including the issue of proper retention. Reasonably, one of the issues that task force was to report back on was destruction deadlines. HB316 also establishes a task force but, without any study, also creates time limits for destruction. This does not seem to be making the best use of the task force created.

As an example of why more study might be necessary, this section also seems to allow for destruction of evidence if a challenge to the conviction is filed in federal district court. The section defining "direct review" mentions only judgment on appeal, petition for hearing and review by the United States Supreme Court. A task force studying this issue and making recommendations would most likely recommend evidence be retained during the pendency of a habeas action filed in federal district court.

The concerns listed above set out serious shortfalls in the contents of HB 316. If these sections are allowed to remain in the bill, unchanged, not only would post-conviction DNA testing be more difficult for the wrongfully convicted in Alaska to obtain then it currently is, it would be more difficult then anywhere else in the country. I urge the committee to correct these problems by removing the language of HB 316 set out above before the bill is passed out of committee. If the sections I have identified are removed from HB 316, the bill will then actually provide innocent individuals with a procedure to obtain post-conviction DNA testing of potentially exculpatory evidence. Alaska will have a bill that works.

Thank you for allowing me to address this very important legislation. If the committee has any questions on any matters arising from HB 316 which I might help answer, please don't hesitate to contact me.

Governor Sean Parnell
STATE OF ALASKA

January 25, 2010

The Honorable Mike Chenault
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Chenault,

Under the authority of Art. III, Sec. 18, of the Alaska Constitution, I am transmitting a bill that adopts procedures for post-conviction deoxyribonucleic acid (DNA) testing and evidence retention.

This bill will adopt standards for evidence retention and disposal. As well as procedures for post conviction DNA testing and address changes in the DNA identification registration system.

The United States Supreme Court recently upheld Alaska's post-conviction procedures against a challenge based on due process of the law. In the District Attorney's Office for the *Third Judicial District v. Osborne,* 129 S. Ct. 2308 (2009), the court found Alaska's post-conviction relief statutes and procedures to be constitutional. While our current law is legally satisfactory, provide statutory guidance for granting post-conviction DNA testing will allow policy makers to adopt the most reasonable balance for ensuring that a person is not mistakenly convicted, and at the same time will protect the vast majority of convictions that are correct.

A person who has been convicted of a crime, and whose conviction has been upheld on appeal, has already had adequate opportunity to argue legal issues arising at trial and on appeal. The post-conviction DNA testing procedure should be limited to cases where the person reasonably claims that the wrong person was convicted. The bill provides for post-conviction DNA testing when there is a reasonable probability that the testing would produce evidence that could conclusively establish that the applicant is innocent.

The bill addresses retention of physical evidence and biological material in homicide, sexual assault, and abuse cases, and provides standards that may vary according to the community and the law enforcement resources of that community. A small community may be unable to retain large items of evidence in a criminal prosecution, but it can preserve samples of the evidence for use in future DNA testing or other post-conviction procedures. A larger community may have more space for evidence retention, and would be able to keep more of the original evidence rather than cutting representative samples of it. The bill also includes a procedure in which a law enforcement agency,

after giving notice to all parties, may dispose of physical evidence and biological material if there is no objection to the disposition.

In addition to keeping evidence so that it may be used at a later date, law enforcement and other agencies, such as courts and prosecution offices, must safeguard it so that it is useful for possible future testing. The bill authorizes the establishment of a task force to include law enforcement, prosecutors, the court system, a representative from the crime laboratory, and the medical examiner to develop policies and procedures for maintaining evidence in a way that will protect and safeguard against tampering or degradation. Standards for evidence collection and retention will be established as well.

Although the Alaska post-conviction law has been upheld by the United States Supreme Court, standards for evidence retention and a procedure for post-conviction DNA testing will strengthen the current law and provide one more protection in our justice system.

I urge your prompt and favorable consideration of this bill.

Sincerely,

Sean Parnell
Governor

Enclosure

Sent: Wednesday, March 31, 2010 1:09 PM
To: Cliff Stone
Subject: Austerman/HB316-Q's re:"System"

On page 13, lines 5-14 of the CS it states; "may request the Department of Public Safety to destroy the material in the system regarding the person or minor under the provisions described in (i) of this section."

The questions are these:

1. What is meant by the term "system?"

The system refers to the CODIS (Combined DNA Index System)database and the LIMS (Laboratory Information Management System) used by the laboratory. The CODIS database contains the actual DNA profile, identified by a unique numeric identifier. The LIMS contains the personal information assigned to the unique numeric identifier (i.e. name, DOB, APSIN #, place of birth, race and gender). When a sample is "expunged" the DNA profile is deleted from CODIS, the record in LIMS is secured (name and APSIN removed) and the sample (blood or buccal) is destroyed.

2. Is it exclusively APSIN or are there other elements of the system?

The DNA Identification Registration System and the Laboratory Information Management System are separate from the APSIN database.

3. Who has access to the system?

Access to the CODIS database is restricted to DNA personnel who have completed training and received clearance from the FBI. Access to the LIMS is restricted to laboratory personnel.

4. What protocols are in place to ensure that outdated info is purged completely from the system?

The laboratory has a procedure that is followed to expunge records from

CODIS and LIMS (in accordance with state statute and federal law). A checklist is maintained (by the CODIS Administrator) for each expunged sample. When a record is purged as the result of a court ordered expungement, a letter indicating compliance is sent to the originator of the request.

HOUSE EDUCATION COMMITTEE

CSHB 317(EDC)

Forward Funding of Education and Increasing Funding for Vocational Education

Sponsor Statement

HB 317 forward funds education by setting in statute a $125 increase in the Base Student Allocation (BSA) for the next two years. The bill also increases block funding to School Districts by 1.5% for the next two fiscal years and extends Consumer Price Index (CPI) adjustments to the formula for funding pupil transportation.

In 2008 the legislature instituted recommendations of the Joint Legislative Education Funding Task Force which included a three year increase in the BSA of $100 each year. HB 317 extends this concept for an additional two years by setting in statute an increase in the BSA of $125 for FY2012 and FY2013. The increase in block grant funding will bring the special education, gifted and talented, vocational education and bilingual education block grants from 20% of BSA (current) to 21.5% for FY2012 and 23% for FY2013. HB317 also extends the Anchorage CPI adjustment to pupil transportation established in 2008 by the Education Funding Task Force and amends it from "changes" to "increases" to guard against any potential decrease in the CPI. The total increase in state funding to school districts for the next two fiscal years is less than $60 million, which is consistent with the past three years of increases in education funding.

Letting School Districts know the amount of their funding in advance allows them to plan their budgets and avoids the destructive teacher layoff/re-hire cycle that has happened in the past. The intent of the increase to block funding is to allow school districts to direct more funds to career technical or vocational education. A letter of intent reflecting this sentiment accompanies the bill. Alaska needs to prepare and engage our students who are interested in skilled labor for the developing needs of our state.

HB 317 confirms to Alaskans, educators and parents the legislature's commitment to fund education by forward funding education for the next three years. It also recognizes the responsibility of the State and school districts to develop vocational education resources in Alaska's schools.

HOUSE EDUCATION COMMITTEE

Summary of changes between CSHB 317(EDC)v.S and HB 317v.E

There are two changes between HB 317v.E and the Education Committee Substitute before the House Finance Committee, CSHB 317(EDC)v.S

1. The original bill (HB 317v.E) forward funds education for three years by applying a $125 annual increase to the Base Student Allocation (BSA) until FY2013. The House Education Committee eliminated the third year, shortening the BSA increases to apply on to FY2011 and FY2012 (CSHB 317(EDC)v.S).

2. The original bill (HB 317v.E) increases block funding for special education, gifted and talented education, vocational education and bilingual education services by 1.5% in FY2011. The committee substitute extends this increase an additional fiscal year for a total 3% increase by FY2012 (CSHB 317(EDC)v.S).

HOUSE EDUCATION COMMITTEE

Letter of intent: HB 317

Introduced By: SEATON

Date: February 10, 2010

It is the intent of the legislature that the increases in block funding for education in AS.14.17.420(a)(1) as amended by HB 317 are meant to enhance a district's ability to offer career technical/vocational education as an addition to other funds that a district applies to career technical/vocational education. The increase is not to be interpreted as the *only* funds a district can designate for career technical/vocational education.

ANALYSIS: *(Attach a separate page if necessary)*

HB 317 beginning in FY 2012 the following increases will affect the foundation formula:
FY2012 special needs funding factor of 1.20 to 1.215; BSA increase of $125 to $5,805.
FY2013 speical needs funding factor of 1.215 to 1.230; BSA increases of $125 to $5,930.

In addition the Pupil Transportation language has been altered to use only increases to the CPI-U for all urban consumers for the Anchorage metropolitan area rather than changes. If there is a reduction in the CPI-U then the pupil transportation grants will be unaffected.

Rep. Berta Gardner

Rep. Paul Seaton, Chairman
HOUSE EDUCATION COMMITTEE

Letter of intent: HB 317

Introduced By: SEATON

Date: February 10, 2010

It is the intent of the legislature that the increases in block funding for education in AS.14.17.420(a)(1) as amended by HB 317 are meant to enhance a district's ability to offer career technical/vocational education as an addition to other funds that a district applies to career technical/vocational education. The increase is not to be interpreted as the *only* funds a district can designate for career technical/vocational education.

ANALYSIS: *(Attach a separate page if necessary)*

HB 317 beginning in FY 2012 the following increases will affect the foundation formula:
FY2012 special needs funding factor of 1.20 to 1.215; BSA increase of $125 to $5,805.
FY2013 speical needs funding factor of 1.215 to 1.230; BSA increases of $125 to $5,930.

In addition the Pupil Transportation language has been altered to use only increases to the CPI-U for all urban consumers for the Anchorage metropolitan area rather than changes. If there is a reduction in the CPI-U then the pupil transportation grants will be unaffected.

CS FOR HOUSE BILL NO. 317(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE EDUCATION COMMITTEE

A BILL

FOR AN ACT ENTITLED

"An Act increasing the special needs funding and base student allocation for public schools, and extending the adjustment for student transportation funding; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 14.17.420(a), as amended by sec. 6, ch. 9, SLA 2008, is amended to read:

(a) As a component of public school funding, a district is eligible for special needs funding and may be eligible for intensive services funding as follows:

(1) special needs funding is available to a district to assist the district in providing special education, gifted and talented education, vocational education, and bilingual education services to its students; a special needs funding factor of **1.215** [1.20] shall be applied as set out in AS 14.17.410(b)(1);

(2) in addition to the special needs funding for which a district is eligible under (1) of this subsection, a district is eligible for intensive services funding for each special education student who needs and receives intensive services and is

enrolled on the last day of the count period; for each such student, intensive services funding is equal to the intensive student count multiplied by 13.

*** Sec. 2.** AS 14.17.420(a), as amended by sec. 6, ch. 9, SLA 2008, and by sec. 1 of this Act, is amended to read:

(a) As a component of public school funding, a district is eligible for special needs funding and may be eligible for intensive services funding as follows:

(1) special needs funding is available to a district to assist the district in providing special education, gifted and talented education, vocational education, and bilingual education services to its students; a special needs funding factor of **1.23** [1.215] shall be applied as set out in AS 14.17.410(b)(1);

(2) in addition to the special needs funding for which a district is eligible under (1) of this subsection, a district is eligible for intensive services funding for each special education student who needs and receives intensive services and is enrolled on the last day of the count period; for each such student, intensive services funding is equal to the intensive student count multiplied by 13.

*** Sec. 3.** AS 14.17.470, as amended by sec. 10, ch. 9, SLA 2008, is amended to read:

Sec. 14.17.470. Base student allocation. The base student allocation is **$5,805** [$5,680].

*** Sec. 4.** AS 14.17.470, as amended by sec. 10, ch. 9, SLA 2008, and by sec. 3 of this Act, is amended to read:

Sec. 14.17.470. Base student allocation. The base student allocation is **$5,930** [$5,805].

*** Sec. 5.** Section 11, ch. 9, SLA 2008, is amended to read:

Sec. 11. AS 14.09.010(c), added by sec. 2**, ch. 9, SLA 2008** [OF THIS ACT], is repealed June 30, **2013** [2011].

*** Sec. 6.** Sections 1 and 3 of this Act take effect July 1, 2011.

*** Sec. 7.** Sections 2 and 4 of this Act take effect July 1, 2012.

Alaska State Legislature

Rep. Cathy Muñoz, Vice-Chair
Rep. Wes Keller
Rep. Bob Buch

Rep. Peggy Wilson
Rep. Bryce Edgmon
Rep. Berta Gardner

Rep. Paul Seaton, Chairman
HOUSE EDUCATION COMMITTEE

Letter of intent: HB 317

Introduced By: SEATON

Date: February 10, 2010

It is the intent of the legislature that the increases in block funding for education in AS.14.17.420(a)(1) as amended by HB 317 are meant to enhance a district's ability to offer career technical/vocational education as an addition to other funds that a district applies to career technical/vocational education. The increase is not to be interpreted as the *only* funds a district can designate for career technical/vocational education.

State Capitol, Room 102, Juneau, AK 99801 - Phone 465-3923 - Fax 465-3472 - Toll Free (800) 665-2689

ANALYSIS: *(Attach a separate page if necessary)*

HB 317 beginning in FY 2012 the following increases will affect the foundation formula:
FY2012 special needs funding factor of 1.20 to 1.215; BSA increase of $125 to $5,805.
FY2013 speical needs funding factor of 1.215 to 1.230; BSA increases of $125 to $5,930.

In addition the Pupil Transportation language has been altered to use only increases to the CPI-U for all urban consumers for the Anchorage metropolitan area rather than changes. If there is a reduction in the CPI-U then the pupil transportation grants will be unaffected.

CS FOR HOUSE BILL NO. 317(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE EDUCATION COMMITTEE

A BILL

FOR AN ACT ENTITLED

"An Act increasing the special needs funding and base student allocation for public schools, and extending the adjustment for student transportation funding; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 14.17.420(a), as amended by sec. 6, ch. 9, SLA 2008, is amended to read:

(a) As a component of public school funding, a district is eligible for special needs funding and may be eligible for intensive services funding as follows:

(1) special needs funding is available to a district to assist the district in providing special education, gifted and talented education, vocational education, and bilingual education services to its students; a special needs funding factor of **1.215** [1.20] shall be applied as set out in AS 14.17.410(b)(1);

(2) in addition to the special needs funding for which a district is eligible under (1) of this subsection, a district is eligible for intensive services funding for each special education student who needs and receives intensive services and is

enrolled on the last day of the count period; for each such student, intensive services funding is equal to the intensive student count multiplied by 13.

*** Sec. 2.** AS 14.17.420(a), as amended by sec. 6, ch. 9, SLA 2008, and by sec. 1 of this Act, is amended to read:

(a) As a component of public school funding, a district is eligible for special needs funding and may be eligible for intensive services funding as follows:

(1) special needs funding is available to a district to assist the district in providing special education, gifted and talented education, vocational education, and bilingual education services to its students; a special needs funding factor of **1.23** [1.215] shall be applied as set out in AS 14.17.410(b)(1);

(2) in addition to the special needs funding for which a district is eligible under (1) of this subsection, a district is eligible for intensive services funding for each special education student who needs and receives intensive services and is enrolled on the last day of the count period; for each such student, intensive services funding is equal to the intensive student count multiplied by 13.

*** Sec. 3.** AS 14.17.470, as amended by sec. 10, ch. 9, SLA 2008, is amended to read:

Sec. 14.17.470. Base student allocation. The base student allocation is **$5,805** [$5,680].

*** Sec. 4.** AS 14.17.470, as amended by sec. 10, ch. 9, SLA 2008, and by sec. 3 of this Act, is amended to read:

Sec. 14.17.470. Base student allocation. The base student allocation is **$5,930** [$5,805].

*** Sec. 5.** Sections 1 and 3 of this Act take effect July 1, 2011.

*** Sec. 6.** Sections 2 and 4 of this Act take effect July 1, 2012.

Adopted 4/14/10 #3

CONCEPTUAL AMENDMENT

Stalstee

OFFERED IN HOUSE FINANCE **BY REPRESENTATIVE** Hawker

To: Draft CS for HB 317 (FIN) 26-LS1378\P

Page 2, following line 24 Insert:

Sec. 7. Section 11, ch. 9, SLA 2008, is amended to read:

Sec. 11 AS 14.09.010(c), added by sec. 2, **ch. 9, SLA 2008** [OF THIS ACT] is replealed June 30, 2013 [2011].

Inflation Proofing the Base Student Allocation

Distributed by Rep. Gara

The current scheduled increase to the BSA in FY 11 is $100 raising it to $5,680. HB 317 proposes to change the annual BSA increase to $125. But inflation has outpaced both the $100 and $125 increases in recent years. In Anchorage, the cost of living has risen, on average, by 2.7% over the past three years. The FY 10 and FY 11 increases of $100 reflect an approximate 1.8% annual BSA increase and the proposed $125 annual increases would be approximately a 2.2% increase.

Actual BSA Increases Compared to an Inflation-Adjusted Increase

	Actual BSA Increase	Actual Total BSA	Inflation Adjusted Increase	Inflation Adjusted Total
FY 09	$100	$5,480	$145	$5,525
FY 10	$100	$5,580	$148	$5,628

Future Inflation-Adjusted BSA Increases (assuming a 3-year average 2.7% inflation rate)

	BSA Increase to Match CPI (2.7%)	BSA
FY 11	$151	$5,731
FY 12	$155	$5,886
FY 13	$159	$6,045

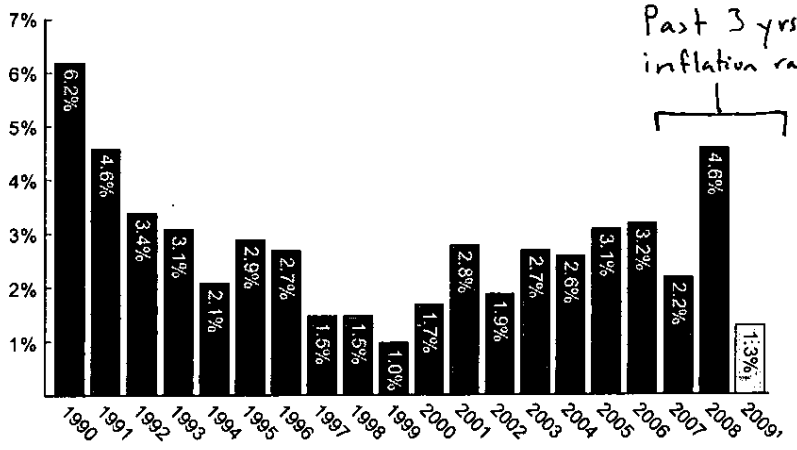
The Cost of Living in Alaska

By Neal Fried and Dan Robinson, Economists

Volatile energy prices and a new geographic study

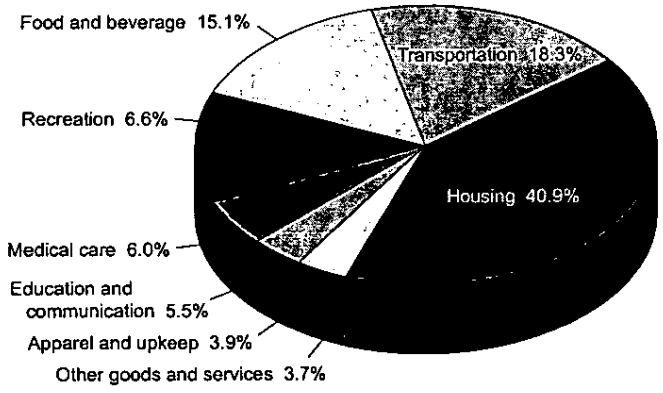
In Alaska, oil prices are usually discussed in the context of their impact on state revenue and budgets. With no state sales or income taxes, oil generates the dominant share of what state government spends.

1 Energy Accounts for Recent Volatility
Change in Anchorage CPI-U, 1990 to 2009



[1] The CPI for 2009 is the percent increase in the index from the first half of 2008 to the first half of 2009. All of the other percentages are the average of the index increases from the first and second halves of the previous years.
Source: U.S. Department of Labor, Bureau of Labor Statistics

2 Most is Spent on Housing
CPI weighting, December 2008



Source: U.S. Department of Labor, Bureau of Labor Statistics

But oil prices also have a large effect on consumer prices in a state where heating homes and transporting goods are major expenses. Oil prices shot up above $140 in 2008 before falling back to around $30 later in the same year. That unprecedented volatility affected Alaskans' household expenses in a variety of ways.

Two ways to look at the cost of living

There are two basic ways to look at the cost of living. One is to examine the changes in prices over time. For that, the Consumer Price Index[1] is the most frequently used. It's referred to generically as the inflation rate and is used to adjust salaries and rents, among other things, so they keep pace with inflation.

The other way to measure the cost of living is to compare the costs of different locations during the same time period. This is the type of information that helps a person trying to decide whether it makes economic sense to relocate from one city to another or a company trying to equalize wages for employees in different cities. There are a variety of these types of measures available.

High 2008 inflation, then a big drop in 2009

The Anchorage CPI[2] rose 4.6 percent in 2008 – the highest annual increase since 1991 – be-

[1] All references to the CPI in this article are to the CPI-U (Consumer Price Index for all Urban Consumers), produced by the U.S. Department of Labor's Bureau of Labor Statistics unless otherwise specified.
[2] Anchorage is the only Alaska city for which a consumer price index is calculated. A national CPI is produced every month and monthly CPI data are also available for the nation's four Census regions (Northeast, Midwest, South and West) and for three major metropolitan areas. Data for 11 smaller metropolitan areas are produced every two months. Anchorage is in a group of 13 smaller metropolitan areas for which data are published every six months.

But oil prices also have a large effect on consumer prices in a state where heating homes and transporting goods are major expenses. Oil prices shot up above $140 in 2008 before falling back to around $30 later in the same year. That unprecedented volatility affected Alaskans' household expenses in a variety of ways.

Two ways to look at the cost of living

There are two basic ways to look at the cost of living. One is to examine the changes in prices over time. For that, the Consumer Price Index[1] is the most frequently used. It's referred to generically as the inflation rate and is used to adjust salaries and rents, among other things, so they keep pace with inflation.

The other way to measure the cost of living is to compare the costs of different locations during the same time period. This is the type of information that helps a person trying to decide whether it makes economic sense to relocate from one city to another or a company trying to equalize wages for employees in different cities. There are a variety of these types of measures available.

High 2008 inflation, then a big drop in 2009

The Anchorage CPI[2] rose 4.6 percent in 2008 – the highest annual increase since 1991 – be-

[1] All references to the CPI in this article are to the CPI-U (Consumer Price Index for all Urban Consumers), produced by the U.S. Department of Labor's Bureau of Labor Statistics unless otherwise specified.
[2] Anchorage is the only Alaska city for which a consumer price index is calculated. A national CPI is produced every month and monthly CPI data are also available for the nation's four Census regions (Northeast, Midwest, South and West) and for three major metropolitan areas. Data for 11 smaller metropolitan areas are produced every two months. Anchorage is in a group of 13 smaller metropolitan areas for which data are published every six months.

AMENDMENT #1

OFFERED IN THE HOUSE BY REPRESENTATIVE GARA

TO: CSHB 317(EDC)

Page 2, following line 25:

Insert a new bill section to read:

"* **Sec. 5.** AS 14.17.470 is amended by adding a new subsection to read:

(b) Beginning July 1, 2011, the base student allocation established under (a) of this section shall be adjusted annually on October 1 according to increases in the Consumer Price Index for all urban consumers of the Anchorage metropolitan area compiled by the United States Department of Labor, Bureau of Labor Statistics. The index for 1982 to 1984 is the reference base index for an adjustment made under this subsection."

Renumber the following bill sections accordingly.

The Department of Education and Early Development – School Finance.
Response to House Education Committee Questions of 2/1/2010/

- #1 Does Alaska Military Youth Academy (AMYA) receive more or less funding than other residential programs?

The AMYA program is not of the same type as some other residential programs, for example the program serves all drop outs and runs two sessions of students (spring and fall) each year. State aid per ADM compares approximately: $18,249 (Galena); $20,703 (Lower Kuskokwim); $18,139 (Nenana); $19,441 (Mt Edgecumbe); and $27,756 plus $2,361-post residential mentoring for a separate pool of students (AMYA).

- #2 How does AMYA schedule the residential portion?

There are two 22 week residential sessions each year. Funding is provided once based on the October residential count. For example, the FY2010 count funded 209 ADM, this represents 209 students in the first session and a different 209 students in the second session. Residential is "24/7" students do not leave the campus.

- #3 Are pupil transportation contracts tied to the CPI?

Some contracts (Anchorage, Mat su, and Kodiak) adjust up and down with the CPI. Other districts have in house programs or contracts that do not adjust up and down with CPI.

- #4 How did total categorical funding for Voc Ed under the old formula compare to adding 1.5% to the current 20% special needs block grant?

1998, prior categorical funding for Voc Ed was 1.08% of total basic need.

Based on 2012 projections, adding .015% to the special needs factor for a total of 1.215% equates to 1.07% of basic need intended towards Career and Technical.

Adding a second .015% to the special needs factor for a total of 1.23% equates to 2.14% of basic need intended towards Career and Technical.

EED 2/11/2010
Summary Data FY2010 Residential Program Comparative Revenues
FY2010 Projected Data

	Galena		
	Residential ADM	Revenues	Residential per ADM
Foundation State Aid	163.7	2,044,982	12,492
State GF Residential Boarding Home	159	915,360	5,757
(Dec 1 residential count paid for 159 students)			
Total Support per residential ADM, not including Capital			$ 18,249

State GF Residential Boarding Home	10	47,322	4,732
(Dec 1 residential count paid for 10 students)			
Total Support per residential ADM, not including Capital			$ 20,703

	Nenana		
	Residential ADM	Revenues	Residential per ADM
Foundation State Aid	84	1,086,771	12,938
State GF Residential Boarding Home	84	436,917	5,201
Total Support per residential ADM, not including Capital			$ 18,139

	Mt Edgecumbe		
	Residential ADM	Revenues	Residential per ADM
Foundation State Aid	395.85	3,023,382	7,638
State GF Residential Boarding Home	395.85	3,971,800	10,034
State receipted Federal Impact Aid	395.85	700,647	1,770
Total Support per residential ADM, not including Capital			$ 19,441

ADM: Residential 209, post residential mentoring/education 266	Alaska Military Youth Academy		
	Residential ADM	Revenues	Residential per ADM
Foundation State Aid - residential w education program	209	8,163,540	39,060
Federal Grant Reduction	209	(2,362,500)	(11,304)
Total Support per residential ADM, not including Capital			27,756
Non residential component, after program mentoring			
Foundation State Aid - non residential	266	890,568	3,348
Federal Grant Reduction	266	(262,500)	(987)
Total Support per non residential/mentoring ADM			2,361

Note:
Does not include formula grants such as NCLB, Special Education, etc.. Does not include separate capital project funding.

Subject: Pupil Transportation - CPI increase impact

After a few telephone discussions about the contract language in different district contracts, I found out the following.

Anchorage, MatSu, and Kodiak all have language in their current contracts that have adjustments to their contract prices based on the ANC CPI index whether it goes up or down. Additional language in each also states that the increase will be 4% or the CPI whichever is less, with a cap of 6%.

Kenai has language in their contract that has no increases over the life of the contract. They have taken on the burden of paying for all fuel in the contract instead of building in an increase.

All of the above contracts expire on June 30, 2011 and will be up for renewal/bid.

page 3/5

Subject: AMYA...info

As requested.

I spoke with James Jones, Deputy Director at the military youth academy, (907)384-6105.
The academy runs 2 sessions of 22week or 5 ½ months, in a year.
The dates of those programs are: Oct 1 to Feb. 28 and April 1 to August 31.

The student attend the residential program for those 22 weeks and do not leave campus at all. It is 7 days a week 24 hours a day. Following the program the cadet leaves or graduates from the residential program/academy and then becomes a non-residential that works with a mentor that they check in with once a week and also once a month with academy, too.

Subject: HB 317

Chair Seaton and Committee Members:

I am writing to express my personal support of HB 317. This bill will increase the block grant funding for vocational education, gifted and talented, special education, and bilingual services by 1.5 percentage points. The current block grant is insufficient to cover all of our current costs, so this small increase is definitely needed.

HB 317 will also provide advance, programed increases to the Base Student Allocation. For the last three years, we have been able to count on known increases when planning our budget. This has been a huge success from my point of view.

Position Statement 09-15

Career and Technical Education

The Alaska Council of School Administrators supports the reestablishment of categorical Career and Technical Education funding to ensure our K-12 schools have the tools to prepare a workforce trained in 21st century work skills and to provide a viable mechanism to increase graduation rates by reengaging disenfranchised students in their high school education.

- Increased funding in Career and Technical Education professional development opportunities is critical to ensure CTE teachers can meet the wide array of learning needs of our students while also demonstrating content mastery through methods appropriate to their areas of expertise, utilizing industry-based credentials.

- All students need a strong array of reading, comprehension, reasoning, problem-solving and personal skills to be ready to enter the world of meaningful postsecondary education and training or to enter the high-skilled workplace.

- A strong and well-articulated Career and Technical Education model is critical to supporting high K-12 educational standards and Alaska's economic stability and growth.

Adopted by the Alaska Council of School Administrators (AASA, AAESP and AASSP) October 2009

Mary Francis

Position Statement 09-1

Increase to Base Student Allocation

The Alaska Council of School Administrators requests that the Legislature establish and fund a base student allocation beyond the amount currently in law.

- Increased energy costs, increases in health care costs, general labor expenses and other costs continue to result in funding pressures in school districts.
- Many districts project FY 11 staff and program cuts; the negative effects on student education would be mitigated by this additional funding.
- Provide adequate and equitable funding to all districts.

Adopted by the Alaska Council of School Administrators
October and December 2009

ANALYSIS: *(Attach a separate page if necessary)*

This proposed legislation will require the Department of Public Safety (DPS) to provide written notice of expiration via first class mail to concealed handgun permit holders at least 90 days before the expiration of their permit.

A permit is not required to carry a concealed handgun in Alaska but DPS makes them available to citizens of Alaska. Because the permit is not required in Alaska, some permit holders forget to renew their permits before the expiration date resulting in higher fees for the permit holder.

A concealed handgun permit is valid for five years from the date of issue. Prior to 10/07/2009, the permit renewal date was based on the date the permit was originally issued. (cont.)

FISCAL NOTE

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 319

ANALYSIS CONTINUATION

During the 2009 legislative session, HB 201 was passed which provides that permits issued/renewed on or after 10/07/2009 shall expire on the permittee's birthdate in the fifth year following issuance/renewal. HB 201 was a direct effort to assist permit holders with remembering to renew their concealed handgun permit by synchronizing their permit expiration date with their birthdate. The legislation proposed under Section 1 of HB 319 furthers this effort.

Records for concealed handgun permit holders are maintained in the concealed handgun permit (CHP) database which sends information to the Alaska Public Safety Information Network (APSIN). Programming changes to both the CHP database and APSIN will be required to systematically identify those permits expiring within 90 days and to automatically generate, print, and save notices of expiration and to update the CHP database to display the date the letter was generated. Automating the notification process will ensure all permit holders receive timely notice of expiration of their permit as this legislation proposes.

The programming changes will be implemented during the process of the APSIN redesign and upgrades. Section 1 (e) of the bill has an effective date of July 1, 2012, thus allowing time for the redesign to be in place.

The cost of one software license at $899. Based on an average of 1,535 renewal notices per year, the cost of supplies (paper, envelopes, and postage) is estimated to be $900 per year. The cost of the license and supplies will be absorbed within the departments budget.

ANALYSIS: *(Attach a separate page if necessary)*

This bill amends the statute relating to hand gun permits requiring Department of Public Safety to mail a notice to a permittee at least 90 days before expiration of the permit. The bill clarifies that a permittee is not required to return or surrender a permit upon expiration and a permittee may not represent an expired permit as valid unless the holder has submitted a timely renewal form. A permittee may not renew a permit if the permittee is not a resident of the state at time of renewal. This bill provides that the chief law enforcement officer in Alaska jurisdictions to execute within 30 days federal firearms forms required for the transfer of a firearm.

Enactment of the bill is not anticipated to fiscally impact the Department of Law.

House Bill 319
Sponsor Statement

"An Act relating to firearms."

In Alaska, anyone who is 21 years of age or older and legally allowed to own a firearm is allowed to carry it concealed without a permit. However, there are still people who obtain Alaska Concealed Handgun Permits (ACHP) for other reasons, including reciprocity with other states. In the past few years, a few glitches in the permit system have come to light.

House Bill 319 makes the following changes to the statutes regarding an ACHP permit:

- Clarifies that a permit does not have to be surrendered when it expires or when a permit holder moves out of the state;
- clarifies that an expired permit can be displayed, as long as the permit holder is not claiming that it is a valid permit; and
- requires the Department of Public Safety to mail a notice to the permit holder at least 90 days prior to the expiration of a permit.

HB 319 also requires the chief law enforcement officer (CLEO) in Alaska jurisdictions to complete, in a timely manner, the required certification on an application to the Bureau of Alcohol Tobacco, Firearms and Explosives (BATFE) for approval to transfer a firearm registered under the National Firearms Act (NFA) of 1934 to a person who is qualified under state law to possess the firearm.

The CLEO certification is a mandatory step in the BATFE transfer process and unjustified delays in processing or refusal to cooperate compromise Second Amendment rights.

House Bill 319 makes commonsense changes to our ACHP statutes and ensures that NFA firearms transfers are not inappropriately obstructed.

HB 319
Sectional Analysis
Prepared by Representative Mike Hawker's Office

Section 1: Adds two new sections to AS 18.65.725 (Alaska Concealed Handgun Permit renewal):

(e) Requires the department to send, via first class mail to the permittee, a notice that their permit is expiring. The notice must be sent at least 90 days prior to the permit expiration, which is the beginning of the renewal period.

(f) Clarifies that a person does not become ineligible to hold a permit and does not need to surrender the permit if he or she ceases to be a resident of the state. Alaska residency is still a requirement to obtain or renew a permit.

Section 2: Clarifies that a person can display an expired permit, but cannot represent it as valid, and that an expired permit does not need to be surrendered to the department.

Section 3: Requires the local law enforcement certification section of a Bureau of Alcohol, Tobacco, Firearms and Explosives firearm transfer application to be completed by the appropriate law enforcement officer within 30 days of submission by a person who is legally qualified to own the firearm.

HB 319
Background Information
Prepared by Representative Mike Hawker's Office

Section 3 of House Bill 319 requires the local law enforcement certification section of a Bureau of Alcohol, Tobacco, Firearms and Explosives (BATFE) firearm transfer application to be completed by the appropriate law enforcement officer within 30 days of submission by a person who is legally qualified to own the firearm. Attached is a copy of the BATFE firearm transfer application, also known as a "Form 4." Section 17 (highlighted on page 2 of the attached form) is the local law enforcement certification section that would have to be completed.

Transferee Information

The following questions must be answered by any transferee who is **not** a Federal firearms licensee or government agency. The transferee shall give full details on a separate sheet for all "YES" answers. *(See instruction 2d)*

13. Are You:	Yes	No	14. Have You:	Yes	No
a. Charged by information or under indictment in any court for a crime punishable by imprisonment for a term exceeding one year?			a. Been convicted in any court of a crime for which the judge could have imprisoned you for more than one year, even if the judge actually gave you a shorter sentence?		
b. A **fugitive** from justice?					
c. An alien who is **illegally** or unlawfully in the United States?			b. Been discharged from the armed forces under **dishonorable** conditions?		
d. Under 21 years of age?			c. Been adjudicated mentally defective or been committed to a mental institution?		
e. An unlawful user of or addicted to, marijuana, or any depressant, stimulant, or narcotic drug, or any other controlled substance?			d. Renounced your United States citizenship?		
f. Subject to a court order restraining you from harassing, stalking or threatening an intimate partner or child of such partner?			e. Been convicted in any court of a misdemeanor crime of domestic violence? This includes any misdemeanor conviction involving the use or attempted use of physical force committed by a current or former spouse, parent, or guardian of the victim, or by a person with a similar relationship with the victim.		

15. Transferee's Certification *(See instruction 2e)*

I, _____, have a reasonable necessity to
(Name of Transferee)
possess the machinegun, short-barreled rifle, short-barreled shotgun, or destructive device described on this application for the following reason(s) _____

_____

and my possession of the device or weapon would be consistent with public safety (18 U.S.C. 922(b) (4) and 27 CFR 478.98).

UNDER PENALTIES OF PERJURY, I declare that I have examined this application and the documents submitted in support thereof, and to the best of my knowledge and belief it is true, correct and complete.

Important Information for Currently Registered Firearms

If this registration document evidences the current registration of the firearm described on it, please note the following information.

Estate Procedures: For procedures regarding the transfer of firearms in an estate resulting from the death of the registrant identified in item 2a, the executor should contact the NFA Branch, Bureau of Alcohol, Tobacco, Firearms and Explosives, Washington, DC 20226.

Change of Address: Unless currently licensed under the Gun Control Act, the registrant shall notify the NFA Branch, Bureau of Alcohol, Tobacco, Firearms and Explosives, Washington, DC 20226, in writing, of any change to the address in Item 2a.

Change of Description: The registrant shall notify the NFA Branch, Bureau of Alcohol, Tobacco, Firearms and Explosives, Washington, DC 20226, in writing, of any change to the description of the firearm in Item 4.

Interstate Movement: If the firearm identified in item 4 is a machinegun, short-barreled rifle, short-barreled shotgun, or destructive device, the registrant may be required by 18 U.S.C. § 922(a)(4) to obtain permission from ATF prior to any transportation in interstate or foreign commerce.

Restrictions on Possession: Any restriction *(see approval block on face of form)* on the possession of the firearm identified in item 4 continues with the further transfer of the firearm.

Persons Prohibited from Possessing Firearms: If the registrant becomes prohibited by 18 U.S.C. § 922 from possessing a firearm, the registrant shall notify the NFA Branch, Bureau of Alcohol, Tobacco, Firearms and Explosives, Washington, DC 20226, in writing, immediately upon becoming prohibited for guidance on the disposal of the firearm.

Proof of Registration: This approved application is the registrant's proof of registration and it shall be made available to any ATF officer upon request.

Instructions

1. **Definitions**

   a. **National Firearms Act (NFA).** Title 26, United States Code, Chapter 53. The implementing regulations are found in Title 27, Code of Federal Regulations, Part 479.

   b. **Gun Control Act (GCA).** Title 18, United States Code, Chapter 44. The implementing regulations are found in Title 27, Code of Federal Regulations, Part 478.

   c. **Firearm.** The term "firearm" means: (1) a shotgun having a barrel or barrels of less than 18 inches in length; (2) a weapon made from a shotgun if such weapon as modified has an overall length of less than 26 inches or a barrel or barrels of less than 18 inches in length; (3) a rifle having a barrel or barrels of less than 16 inches in length; (4) a weapon made from a rifle if such weapon as modified has an overall length of less than 26 inches or a barrel or barrels of less than 16 inches in length; (5) any other weapon as defined in 18 U.S.C. § 5845(e); (6) a machinegun; (7) a muffler or silencer for any firearm whether or not such firearm is included within this definition; and (8) a destructive device.

   d. **Person.** The term "person" means a partnership, company, association, trust, estate, or corporation, as well as a natural person.

   e. **Employer Identification Number (EIN).** Required of taxpayer filing special (occupational) tax returns under 27 CFR § 479.35.

   f. **SPECIAL (OCCUPATIONAL) TAX.** Required by the NFA to be paid by a Federal firearms licensee engaged in the business of manufacturing (Class 2), importing (Class 1), or dealing (Class 3) in NFA firearms.

   g. **Federal Firearms License.** A license issued under the provisions of the GCA to manufacture, import or deal in firearms.

   h. **ATF Officer.** An officer or employee of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) authorized to perform any function relating to the administration of the NFA.

   i. **Transfer.** Selling, assigning, pledging, leasing, loaning, giving away, or otherwise disposing of a firearm.

   j. **Transferor.** The registered owner of a firearm who is applying to transfer it.

   k. **Transferee.** The person acquiring the firearm.

   l. **Misdemeanor Crime of Domestic Violence.** A crime that is a misdemeanor under Federal or State law and has, as an element, the use or attempted use of physical force, or the threatened use of a deadly weapon, committed by a current or former spouse, parent, or guardian of the victim, by a person with whom the victim shares a child in common, by a person who is co-habiting with or has cohabited with the victim as a spouse, parent, or guardian. The term includes all misdemeanors that involve the use or attempted use of physical force *(e.g., simple assault, assault and battery)*, if the offense is committed by one of the defined parties. The person is NOT considered to have been convicted of such crime unless the person was represented by a lawyer or gave up the right to a lawyer, and, if the person was entitled to a jury trial, was tried by a jury or gave up the right to a jury trial.

2. **Preparation of Application**

   a. **Authority.** As provided by 26 U.S.C. §§ 5811 and 5812, any person seeking to transfer a firearm tax paid must complete, in duplicate, an application on this form for each firearm. The transferor must furnish all the information called for on this application form.

   b. **Federal Firearms Licensees.** If the transferor or transferee is licensed under the GCA, the name, trade name *(if any)*, and address shall be identified on the ATF Form 4 as they appear on the license. If item 6 is completed, the entity identified must be the same as the entity identified in item 5. For example, **if item 5 identified a sole proprietor, item 6 cannot identify a corporation.** This also applies for the completion of items 7 and 8.

   c. **Transferee Qualifications.** If the transferee is an individual and not licensed under the GCA, the questions in items 13 and 14 must be answered.

   d. **Transferee Certification.** Item 15 must be completed by the transferee if:

      (1) the firearm to be transferred is a machinegun, short-barreled rifle, short-barreled shotgun, or destructive device;
      (2) the transferor is licensed under the GCA to deal in such device or firearm; and
      (3) the transferee is not licensed under the GCA to deal in such device or firearm.

   e. **Law Enforcement Certification.** Item 17 must be completed for an individual transferee, unless the transferee is licensed as a manufacturer, importer, or dealer under the GCA and is a special *(occupational)* taxpayer under the NFA at the time of the submission of the application for transfer. The chief law enforcement officer is considered to be the Chief of Police for the transferee's city or town of residence; the Sheriff for the transferee's county of residence; the Head of the State Police for the transferee's State of residence; a State or local district attorney or prosecutor having jurisdiction in the transferee's area of residence; or another person whose certification is acceptable to the Director, Bureau of Alcohol, Tobacco, Firearms and Explosives. If someone has specific delegated authority to sign on behalf of the Chief of Police, Sheriff, etc., this fact must be noted by printing the Chief's, Sheriff's, or other authorized official's name and title, followed by the word "by" and the full signature and title of the delegated person. The certificate must be dated no more than one year prior to the date of receipt of the application.

   f. **Photographs and Fingerprints.** An individual transferee, except if licensed as a manufacturer, importer, or dealer under the GCA, must (1) attach to Item 16, a 2 inch x 2 inch photograph of the frontal view of the transferee taken within 6 months prior to the date of the application and (2) attach two properly completed FBI Forms FD-258 *(Fingerprint Card with blue lines)* to the application. The fingerprints must be clear for accurate classification and taken by someone properly equipped to take them.

   g. **Signatures.** All signatures required on ATF Form 4 must be original in ink on both copies.

   h. **Remittance.** A check or money order, made payable to the Bureau of Alcohol, Tobacco, Firearms and Explosives, in the amount for the appropriate rate of tax *(see instruction 2i)* must be submitted with the ATF Form 4. Do not send cash.

   i. **Rate of Tax.** The tax on the transfer of any NFA firearm is $200.00, except that the tax is $5.00 on the transfer of a firearm classified as "any other weapon."

   j. **Photocopies, Computer Generated Versions, or Downloaded Version from ATF Website.** The ATF Form 4 may be photocopied, computer-generated *(as long as it is in the same format and contains all required information)*, or downloaded from the ATF website *(www.atf.gov)*. Please note the instructions on the website.

   k. **Estates.** If the firearm is being transferred from an estate, item 3a shall reflect: the executor's name, title *(executor (or executrix, administrator, administratrix)* of the estate of *(name))*, and the executor's address. Item 3c shall reflect the address of the decedent and the date of death. *(see the ATF Internet website at **www.atf.gov** for additional information about transfers from estates.)*

   l. **Submission.** All requested informtion must be entered in blue or black ink and must be legible. Send both copies of the ATF Form 4 and attachments to the address located in the upper right hand corner on the face side of the ATF Form 4. The return of the application or sending it to any other address will only delay the processing.

   m. **State or Local Permit.** If a State or local permit or license is required for the transferee prior to acquisition of the firearm, a copy of the permit must be included with the application.

3. **Approval of Application.** Upon approval of an application, the NFA Branch will affix the appropriate NFA transfer tax stamp, cancel it, and return the approved copy with the stamp affixed to the transferor for delivery with the firearm to the transferee. Since the approval of the application effectuates registration of the firearm to the transferee, the physical transfer of the firearm must be completed immediately; however, the transferor must not transfer the firearm until the application has been approved and received. If the physical transfer of the firearm cannot be completed immediately, the transferor must contact the NFA Branch with the specifics.

4. **Withdrawal of Application.** The transferor may withdraw an application prior to approval subsequent to a written request. The NFA Branch will arrange for a refund of the taxpaid.

5. **Cancellation of Approved Application.** The transferor may cancel an approved application only if the physical transfer of the firearm has not been completed. The transferor must return the approved application with the tax stamp affixed with a written request for cancellation, citing the need and that the physicaltransfer of the firearm did not take place. The NFA Branch will arrange for a refund of the tax paid.

6. **Disapproval of Application.** If the application is disapproved, the NFA Branch will note the reason for disapproval on the application and return one copy of the ATF Form 4 to the transferor. The NFA Branch will arrange for a refund of the tax paid.

7. **Reasons for Disapproval.** 26 U.S.C. § 5812 provides that applications shall be denied if the transfer, receipt, or possession of the firearm would place the transferee in violation of law.

   a. **State or Local Law.** If State or local law prohibits the receipt or possession of the firearm being transferred, the application will be disapproved.

   b. **Persons Prohibited from Receiving a Firearm.** The application will be disapproved if the transferee is a person prohibited from receiving a firearm by 18 U.S.C. § 922(g), which provides that it shall be unlawful for any person—

      (1) who has been convicted in any court of a crime punishable by imprisonment for a term exceeding one year;
      (2) who is a fugitive from justice;
      (3) who is an unlawful user of or addicted to any controlled substance;
      (4) who has been adjudicated as a mental defective or who has been committed to a mental institution;
      (5) who, being an alien, is illegally or unlawfully in the United States or except as provided in 18 U.S.C. 922(y)(2), has been admitted to the United States under a non-immigrant visa *(as that term is defined in 8 U.S.C. 1101(a)(26))*;
      (6) who has been discharged from the Armed Forces under dishonorable conditions;
      (7) who, having been a citizen of the United States, has renounced his citizenship;
      (8) who is subject to a court order that—

         (A) was issued after a hearing of which such person received actual notice, and at which such person had an opportunity to participate;
         (B) restrains such person from harassing, stalking, or threatening an intimate partner of such person or child of such intimate partner or person, or engaging in other conduct that would place an intimate partner in reasonable fear of bodily injury to the partner or child; and
         (C) (I) includes a finding that such person represents a credible threat to the physical safety of such intimate partner or child; or (II) by its terms explicitly prohibits the use, attempted use, or threatened use of physical force against such intimate partner or child that would reasonably be expected to cause bodily injury, or

      (9) who has been convicted in any court of a crime of domestic violence; to ship or transport in interstate or foreign commerce, or possess in or affecting commerce, any firearm or ammunition; or to receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.

8. **Status Inquiries and Questions.** Information relating to the NFA and other firearms laws is available at the ATF Internet website at **www.atf.gov**. Any inquiry relating to the status of an application to transfer an NFA firearm or about procedures in general should be directed to the NFA Branch at (202) 927-8330. Please be aware that any dissemination by ATF of information relating to the application to register an NFA firearm must conform with the restrictions in 26 U.S.C. § 6103. The opportunity provided in item 8 to authorize ATF to disclose information is intended to enable ATF to respond to inquiries by the transferee regarding the application. The failure to complete item 8 will be considered a declination of authorization to release the information.

9. **Penalties.** Any person who violates or fails to comply with any of the requirements of the NFA shall, upon conviction, be fined not more than $10,000 or be imprisoned for not more than 10 years, or both. Any firearm involved in a violation of the NFA shall be subject to seizure and forfeiture. It is unlawful for any person to make or cause the making of a false entry on any application or record required by the NFA knowing such entry to be false.

10. **Compliance with the Gun Control Act.** All provisions of the GCA must also be complied with, including the recordkeeping requirements for licensees and the retention of ATF Form 4473 (5300.9) by licensees for dispositions to non-licensees.

Privacy Act Information

The following information is provided pursuant to Section 3 of the Privacy Act of 1974 (5 U.S.C. § 552(e)(3)):

1. **Authority.** Solicitation of this information is made pursuant to the National Firearms Act (26 U.S.C. § 5812). Disclosure of this information by the applicant is mandatory for transfer of an NFA firearm, unless the transfer is otherwise exempt from tax.

2. **Purpose.** To insure payment of the tax imposed by 26 U.S.C. § 5811; to insure that the transfer would not be in violation of law; and to effect registration of the firearm.

3. **Routine Uses.** The information will be used by ATF to make the determinations set forth in paragraph 2. In addition, to effect registration of the firearm, information as to the identification of the firearm, date of registration, and the identification and address of person entitled to possess the firearm will be entered into the National Firearms Registration and Transfer Record. No information obtained from an application, registration, or records required to be submitted by a natural person in order to comply with any provision of the National Firearms Act or regulations issued thereunder, shall, except in connection with prosecution or other action for furnishing false information, be used, directly or indirectly, as evidence against that person in any criminal proceeding with respect to a violation of law occurring prior to or concurrently with the filing of the application. The information from this application may only be disclosed to Federal authorities for purposes of prosecution for violation of the National Firearms Act.

4. **Effects of not Supplying Information Requested.** Failure to supply complete information will delay processing and may cause denial of the application.

Paperwork Reduction Act Notice

This information request is in accordance with the Paperwork Reduction Act of 1995. The information your provide is used in applying to transfer serviceable firearms taxpaid to persons other than special taxpayers qualified to deal in NFA firearms or government entities. Data is used to identify transferor, transferee, and firearm, and to ensure legality for transfer under Federal, State and local laws. The furnishing of this information is mandatory. *(26 U.S.C. § 5812)*

The estimated average burden associated with this collection of information is 4 hour(s) per respondent or recordkeeper, depending on individual circum-stances. Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be addressed to Reports Management Officer, Document Services Branch, Bureau of Alcohol, Tobacco, Firearms and Explosives, Washington, DC 20226.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

CONFIRMATION COMMITTEE REPORT

Action date: 2·16·10

The **Finance Committee** has reviewed the qualifications of the following Governor's appointee(s) as shown on the attached Referral for Confirmation form(s) and recommends that the name(s) be forwarded to a joint session for consideration:

This does not reflect intent by any of the members to vote for or against this individual during any further sessions for the purposes of confirmation.

Governor Sean Parnell
STATE OF ALASKA

February 1, 2010

The Honorable Mike Chenault
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Chenault,

Under the authority of Art. III, Sec. 18, of the Alaska Constitution, I am transmitting a bill that revises State bail statutes and provides better direction to judicial officers in making decisions about the release of a person charged with a crime.

A judicial officer's decision to release or detain a person who has been charged with a crime is critical to the justice system and the safety of the community. The guidance currently provided in the State's bail statutes was in effect before statehood, and is in many respects outdated. The bill includes a general revision of the procedures and standards in AS 12.30.

Although the bill retains many of the general guidelines in current law for release of persons charged with crimes, there are important differences that would greatly improve the safety of Alaskans. For example, in cases where a person is charged with a serious crime such as sexual assault, the bill would adopt a rebuttable presumption that no release condition or combination of release conditions would assure the appearance of the defendant or the safety of others. This would result in a more serious inquiry into the release conditions that would reasonably assure that the person charged would appear in court and would not pose a danger to the victim or the public.

The bill would impose standards on persons who may serve as a third-party custodian for a defendant. Appointment of a third-party custodian is useful in certain cases, but only if the custodian takes their duties seriously. The bill requires a person to appear in court and acknowledge the responsibilities of a custodian, and be notified that failure to undertake these responsibilities can result in the custodian being charged with a crime or being held in contempt. It also prohibits a person from serving as a custodian if the person is a witness in the defendant's case, has recent criminal convictions, or is on probation.

Under current law, a person found guilty of an unclassified or class A felony may not be released before sentencing or during an appeal. The bill extends this prohibition to include persons convicted of a sexual felony, or of a class B or C felony if the person has a previous felony conviction within

the past 10 years. There are several reasons for these changes. First, a person convicted of a sexual felony is subject to a potential maximum term of imprisonment of 99 years, and for that reason poses a higher flight risk. Second, the high recidivism rate for sex offenders raises the danger to the public if the person is released. Further, the provision addressing persons convicted of a class B or C felony with a prior conviction responds to a decision by the Alaska Court of Appeals, *Bourdon v. State*, 28 P.3d 319 (Alaska App. 2001). *Bourdon* found the current law on release of persons with prior convictions to violate the equal protection clause of the Alaska Constitution. The bill corrects the concerns noted by the court in *Bourdon*.

The bill also would clarify how to deal with material witnesses that are unlikely to appear for trial even if served with a subpoena. Under current law a material witness may be arrested. Currently, there are no standards allowing for release from confinement. This bill would allow the witness to be released after providing deposition.

Current law requires a person who is arrested for a crime to be brought before a judicial officer within 24 hours of arrest. Many states and the federal law require the first appearance within 48 hours, and this deadline is proposed in the bill. There are good reasons for the change. Forty-eight hours would allow the prosecutor adequate time to see the police report, make informed charging decisions, and to make more rational bail arguments to the judicial officer. It would also allow time to contact a victim for input about whether the defendant would present a danger if released without particular conditions. A victim has a right to be heard at a bail hearing; 48 hours gives the prosecution time to make this right meaningful.

The bill addresses the safety of a victim of domestic violence by adopting tough standards for when a domestic violence offender may return to the victim's residence. The current statute forbids an offender from returning to the victim's residence. However, this prohibition was overturned by the court in *Williams v. State*, 151 P.3d 460 (Alaska App. 2006). The court found that the absolute prohibition violated the constitutional guarantee of equal protection of the law. In response to *Williams*, the bill adopts standards for the court to apply in deciding whether it is safe and appropriate to allow the person to return to the home of the victim. These standards emphasize the safety of the victim.

Passage of this bill would protect all Alaskans, and particularly many of our most vulnerable friends and neighbors. I urge your prompt and favorable consideration of this bill.

Sincerely,

Sean Parnell
Governor

Enclosure

HOUSE COMMITTEE REPORT

FISCAL NOTE

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. CSHB324(JUD)

ANALYSIS CONTINUATION

This bill revises the procedures and standards of the bail statutes, moves the substantive crime of failure to appear from Title 12 to Title 11, and eliminates the culpable mental state for failure to appear.

The bill creates a rebuttable presumption that may be overcome by a preponderance of evidence that no release condition or combination of release conditions would reasonably assure the appearance of a person or the safety of others for certain higher level offenses. The bill also imposes stricter standards on who may act as a third-party custodian. It also provides that a person found guilty of a sexual felony, or of a class B or C felony with a prior felony conviction, may not be released pending sentence or appeal.

The bill changes current law on the time limit for bringing an arrestee before a judicial officer from 24 hours to 48 hours; changes the law that prohibits a court from allowing a person charged with a crime involving domestic violence from returning to the residence of the victim adopting standards for court to apply in deciding whether it is appropriate to allow the person to return to the home of the victim.

The agency does not predict a significant fiscal impact as a result of the proposed statute. Accordingly, the agency submits a zero fiscal note.

ANALYSIS: *(Attach a separate page if necessary)*

This legislation would revise Alaska's bail law in the following ways: Changes the burden of proof in a bail hearing for persons considered a flight risk or a danger to others, moves the crime of failure to appear to Title 11 and changes the culpable mental state, for serious crimes adopts a presumption that no release condition(s) would assure the appearance of the person or safety of others, imposes a stricter standard on who may be a third party custodian, changes the deadline for bringing a person before a judicial officer from 24 to 48 hours, allows for a material witness to be arrested, changes domestic violence law to comply with current case law.

Passage of this legislation will not significantly change the daily operations of the department. This legislation will have no fiscal impact on the department.

ANALYSIS: *(Attach a separate page if necessary)*

The bill is a revision of out-of-date bail statutes. For persons who present a higher flight risk or greater danger to the community the bill requires that the offender must establish that they may be released with conditions that will reasonably assure their appearance and the safety of the community. It will change from 24 to 48 hours the deadline for bringing a person before a judicial officer after arrest. This should result in better charging decisions, more coherent bail arguments, and ultimately fewer bail hearings. It will also reduce the number of bail hearings on holidays and weekends. The fiscal impact will be positive but there is no way of quantifying this.

FISCAL NOTE #3

STATE OF ALASKA **BILL NO.** HB 324
2010 LEGISLATIVE SESSION

ANALYSIS CONTINUATION

This legislation relates to the crime of failure to appear, arrest for violating certain conditions of release, release before trial, before sentence, and pending appeal, material witnesses, temporary release, petition to revoke probation, first appearances, and domestive violence protective orders.

DOC projects there will be a shift of burden from the sentenced facilities to the State and Community Jails that house the unsentenced population during the adjudication process. While the total impact of the mandays of incarceration may not be significant when calculating time served for those convicted, there will be a significant increased number of mandays in the small jails. It is difficult for DOC to quantify the impact due to the multiple variables under this scenario, e.g. transportation costs from rural areas, medical costs based on need, plea bargains, dismissed cases, etc.

ANALYSIS: *(Attach a separate page if necessary)*

This bill makes changes and additions to the statutes applicable to bail in criminal cases , reduces the proof requirements to obtain convictions for failure to appear, expands the circumstances under which a material witness may be detained, and increases the maximum amount of time between arrest and initial appearance before a judicial officer from twenty-four to forty-eight hours.

Analysis continued on the second page.

FISCAL NOTE #1

STATE OF ALASKA
2010 LEGISLATIVE SESSION

BILL NO. HB 324

ANALYSIS CONTINUATION

Among the changes to the bail statutes, the bill includes a list of mandatory conditions of release for all defendants and a list of additional conditions of release that the court may impose. Under this legislation, a defendant will not be given a second bail review until the Court System provides information regarding a defendant's previous criminal charges and history of compliance with release. The bill will also codify a rebuttable presumption against release in certain categories of pretrial cases. Additionally, it will exclude certain categories of people from becoming third party custodians.

The agency does not predict a significant fiscal impact as a result of the proposed statute. Accordingly, the agency submits a zero fiscal note.

CS FOR HOUSE BILL NO. 324(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act relating to the crime of failure to appear; relating to arrest for violating certain conditions of release; relating to release before trial, before sentence, and pending appeal; relating to material witnesses; relating to temporary release; relating to release on a petition to revoke probation; relating to the first appearance before a judicial officer after arrest; relating to service of process for domestic violence protective orders; making conforming amendments; amending Rules 5 and 41, Alaska Rules of Criminal Procedure, and Rules 206 and 603, Alaska Rules of Appellate Procedure; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 11.56 is amended by adding a new section to read:

Sec. 11.56.730. Failure to appear. (a) A person commits the crime of failure to appear if the person

New Text Underlined [DELETED TEXT BRACKETED]

L
1006

(1) is released under the provisions of AS 12.30;

(2) knows that the person is required to appear before a court or judicial officer at the time and place of a scheduled hearing; and

(3) with criminal negligence does not appear before the court or judicial officer at the time and place of the scheduled hearing.

(b) In a prosecution for failure to appear under (a) of this section, it is an affirmative defense that unforeseeable circumstances, outside the person's control, prevented the person from appearing before the court or judicial officer at the time and place of the scheduled hearing, and the person contacted the court orally and in writing immediately upon being able to make the contact.

(c) A person who commits failure to appear incurs a forfeiture of any security for any appearance of the person that was given or pledged to the court for the person's release, and is guilty of a

(1) class C felony if the person was released in connection with a charge of a felony, or while awaiting sentence or appeal after conviction of a felony;

(2) class A misdemeanor if the person was released in connection with a

(A) charge of a misdemeanor, or while awaiting sentence or appeal after conviction of a misdemeanor; or

(B) requirement to appear as a material witness in a criminal proceeding.

*** Sec. 2.** AS 12.25.030(b) is amended to read:

(b) In addition to the authority granted by (a) of this section, a peace officer

(1) shall make an arrest under the circumstances described in AS 18.65.530;

(2) without a warrant may arrest a person if the officer has probable cause to believe the person has, either in or outside the presence of the officer,

(A) committed a crime involving domestic violence, whether the crime is a felony or a misdemeanor; in this subparagraph, "crime involving domestic violence" has the meaning given in AS 18.66.990;

(B) committed the crime of violating a protective order in

violation of AS 11.56.740; or

(C) violated a condition of release imposed under **AS 12.30.016(e)** [AS 12.30.025] or 12.30.027;

(3) without a warrant may arrest a person when the peace officer has **probable** [REASONABLE] cause for believing that the person has

(A) committed a crime under or violated conditions imposed as part of the person's release before trial on misdemeanor charges brought under AS 11.41.270;

(B) violated AS 04.16.050 or an ordinance with similar elements; however, unless there is a lawful reason for further detention, a person who is under [THE AGE OF] 18 **years of age** and who has been arrested for violating AS 04.16.050 or an ordinance with similar elements shall be cited for the offense and released to the person's parent, guardian, or legal custodian; or

(C) violated conditions imposed as part of the person's release **under the provisions of AS 12.30** [BEFORE TRIAL ON FELONY CHARGES BROUGHT UNDER AS 11.41.410 - 11.41.458].

*** Sec. 3.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.006. Release procedures. (a) At the first appearance before a judicial officer, a person charged with an offense shall be released or detained under the provisions of this chapter.

(b) At the first appearance before a judicial officer, a person who is charged with a felony may be detained up to 48 hours for the prosecuting authority to demonstrate that release of the person under AS 12.30.011(a) would not reasonably assure the appearance of the person or will pose a danger to the victim, other persons, or the community.

(c) A person who remains in custody 48 hours after appearing before a judicial officer because of inability to meet the conditions of release shall, upon application, be entitled to have the conditions reviewed by the judicial officer who imposed them. If the judicial officer who imposed the conditions of release is not available, any judicial officer in the judicial district may review the conditions.

(d) If a person remains in custody after review of conditions by a judicial officer under (c) of this section, the person may request a subsequent review of conditions. Unless the prosecuting authority stipulates otherwise or the person has been incarcerated for a period equal to the maximum sentence for the most serious charge for which the person is being held, a judicial officer may not schedule a bail review hearing under this subsection unless

(1) the person provides to the court and the prosecuting authority a written statement that new information not considered at the previous review will be presented at the hearing; the statement must include a description of the information and the reason the information was not presented at a previous hearing; in this paragraph, "new information" does not include the inability to post the required bail;

(2) the prosecuting authority and any surety, if applicable, have at least 48 hours' written notice before the time set for the review requested under this subsection; the defendant shall notify the surety; and

(3) at least seven days have elapsed between the previous review and the time set for the requested review.

(e) A judicial officer may solicit comments by the victim or a parent or guardian of a minor victim who is present at the bail review hearing and wishes to comment. The judicial officer shall consider those comments and any response by the person before making a decision concerning the release of the person.

(f) The judicial officer shall issue written or oral findings that explain the reasons the officer imposed the particular conditions of release or modifications or additions to conditions previously imposed. The judicial officer shall inform the person that a law enforcement officer may arrest the person without a warrant for violation of the court's order establishing conditions of release.

(g) Information offered or introduced at a bail hearing to determine conditions of release need not conform to the rules governing the admissibility of evidence.

*** Sec. 4.** AS 12.30 is amended by adding new sections to read:

Sec. 12.30.011. Release before trial. (a) Except as otherwise provided in this chapter, a judicial officer shall order a person charged with an offense to be released on the person's personal recognizance or upon execution of an unsecured appearance

bond, on the condition that the person

(1) obey all court orders and all federal, state, and local laws;

(2) appear in court when ordered;

(3) if represented, maintain contact with the person's lawyer; and

(4) notify the person's lawyer, who shall notify the prosecuting authority and the court, not more than 24 hours after the person changes residence.

(b) If a judicial officer determines that the release under (a) of this section will not reasonably assure the appearance of the person or will pose a danger to the victim, other persons, or the community, the officer shall impose the least restrictive condition or conditions that will reasonably assure the person's appearance and protect the victim, other persons, and the community. In addition to conditions under (a) of this section, the judicial officer may, singly or in combination,

(1) require the execution of an appearance bond in a specified amount of cash to be deposited into the registry of the court, in a sum not to exceed 10 percent of the amount of the bond;

(2) require the execution of a bail bond with sufficient solvent sureties or the deposit of cash;

(3) require the execution of a performance bond in a specified amount of cash to be deposited in the registry of the court;

(4) place restrictions on the person's travel, association, or residence;

(5) order the person to refrain from possessing a deadly weapon on the person or in the person's vehicle or residence;

(6) require the person to maintain employment, or if unemployed, actively seek employment;

(7) require the person to notify the person's lawyer and the prosecuting authority within two business days after any change in employment;

(8) require the person to avoid all contact with a victim, a potential witness, or a codefendant;

(9) require the person to refrain from the consumption and possession of alcoholic beverages;

(10) require the person to refrain from the use of a controlled substance

as defined by AS 11.71, unless prescribed by a licensed health care provider with prescriptive authority;

(11) require the person to be physically inside the person's residence, or in the residence of the person's third-party custodian, at time periods set by the court;

(12) require the person to keep regular contact with a law enforcement officer or agency;

(13) order the person to refrain from entering or remaining in premises licensed under AS 04;

(14) place the person in the custody of an individual who agrees to serve as a third-party custodian of the person as provided in AS 12.30.021;

(15) if the person is under the treatment of a licensed health care provider, order the person to follow the provider's treatment recommendations;

(16) order the person to take medication that has been prescribed for the person by a licensed health care provider with prescriptive authority;

(17) order the person to comply with any other condition that is reasonably necessary to assure the appearance of the person and to assure the safety of the victim, other persons, and the community.

(c) In determining the conditions of release under this chapter, the court shall consider the following:

(1) the nature and circumstances of the offense charged;

(2) the weight of the evidence against the person;

(3) the nature and extent of the person's family ties and relationships;

(4) the person's employment status and history;

(5) the length and character of the person's past and present residence;

(6) the person's record of convictions;

(7) the person's record of appearance at court proceedings;

(8) assets available to the person to meet monetary conditions of release;

(9) the person's reputation, character, and mental condition;

(10) the effect of the offense on the victim, any threats made to the

victim, and the danger that the person poses to the victim;

(11) any other facts that are relevant to the person's appearance or the person's danger to the victim, other persons, or the community.

(d) In making a finding regarding the release of a person under this chapter,

(1) except as otherwise provided in this chapter, the burden of proof is on the prosecuting authority that a person charged with an offense should be detained or released with conditions described in (b) of this section or AS 12.30.016;

(2) there is a rebuttable presumption that no condition or combination of conditions will reasonably assure the appearance of the person or the safety of the victim, other persons, or the community, if the person is

(A) charged with an unclassified felony, a class A felony, a sexual felony, or a felony under AS 28.35.30 or 28.35.032;

(B) charged with a felony crime against a person under AS 11.41, was previously convicted of a felony crime against a person under AS 11.41 in this state or a similar offense in another jurisdiction, and less than five years have elapsed between the date of the person's unconditional discharge on the immediately preceding offense and the commission of the present offense;

(C) charged with a felony offense committed while the person was on release under this chapter for a charge or conviction of another offense;

(D) charged with a crime involving domestic violence, and has been convicted in the previous five years of a crime involving domestic violence in this state or a similar offense in another jurisdiction;

(E) arrested in connection with an accusation that the person committed a felony outside the state or is a fugitive from justice from another jurisdiction, and the court is considering release under AS 12.70.

Sec. 12.30.016. Release before trial in certain cases. (a) A judicial officer may impose, in addition to those required or authorized under AS 12.30.011, conditions of release for offenses described in this section, if necessary to reasonably assure the person's appearance or the safety of the victim, other persons, or the community.

(b) In a prosecution charging a violation of AS 04.11.010, 04.11.499, AS 28.35.030, or 28.35.032, a judicial officer may order the person

(1) to refrain from

(A) consuming alcohol beverages; or

(B) possessing on the person, in the person's residence, or in any vehicle or other property over which the person has control, alcoholic beverages;

(2) to submit to a search without a warrant of the person, the person's personal property, the person's residence, or any vehicle or other property over which the person has control, for the presence of alcoholic beverages by a peace officer who has reasonable suspicion that the person is violating the conditions of the person's release by possessing alcoholic beverages;

(3) to submit to a breath test when requested by a law enforcement officer;

(4) to provide a sample for a urinalysis or blood test when requested by a law enforcement officer;

(5) to take a drug or combination of drugs intended to prevent substance abuse;

(6) to follow any treatment plan imposed by the court under AS 28.35.028.

(c) In a prosecution charging a violation of AS 11.71 or AS 11.73, a judicial officer may order the person

(1) to refrain from

(A) consuming a controlled substance; or

(B) possessing on the person, in the person's residence, or in any vehicle or other property over which the person has control, a controlled substance or drug paraphernalia;

(2) to submit to a search without a warrant of the person, the person's personal property, the person's residence, or any vehicle or other property over which the person has control, for the presence of a controlled substance or drug paraphernalia by a peace officer who has reasonable suspicion that the person is violating the terms

of the person's release by possessing controlled substances or drug paraphernalia;

(3) to enroll in a random drug testing program, at the person's expense, to detect the presence of a controlled substance, with testing to occur not less than once a week, and with the results being submitted to the court and the prosecuting authority;

(4) to refrain from entering or remaining in a place where a controlled substance is being used, manufactured, grown, or distributed;

(5) to refrain from being physically present, within a two-block area of, or within a designated area near, the location where the alleged offense occurred or at other designated places, unless the person actually resides within that area; or

(6) to refrain from the use or possession of an inhalant.

(d) In a prosecution charging misconduct involving a controlled substance under AS 11.71.020(a)(2) for the manufacture of methamphetamine, or its salts, isomers, or salts of isomers, if the person has been previously convicted in this or another jurisdiction of a crime involving the manufacturing, delivering, or possessing methamphetamine, or its salts, isomers, or salts of isomers, a judicial officer shall require the posting of a minimum of $250,000 cash bond before the person may be released. The judicial officer may reduce this requirement if the person proves to the satisfaction of the officer that the person's only role in the offense was as an aider or abettor and that the person did not stand to benefit financially from the manufacturing.

(e) In a prosecution charging the crime of stalking that is not a crime involving domestic violence, a judicial officer may order the person to

(1) follow the provisions of any protective order to which the person is respondent;

(2) refrain from contacting in any manner, including by telephone or electronic communication, the victim;

(3) engage in counseling; if available in the community, the judicial officer shall require that counseling ordered include counseling about alternatives to aggressive behavior.

(f) In a prosecution charging a crime under AS 11.41.410 - 11.41.458, a judicial officer

(1) may order the person to have no contact with the victim except as specifically allowed by the court;

(2) may order the person to reside in a place where the person is not likely to come into contact with the victim of the offense;

(3) may order the person to have no contact with any person under 18 years of age except in the normal course of business in a public place;

(4) shall assure that the victim and the parent or guardian of a minor victim have been notified by a law enforcement agency or the prosecuting authority of a hearing where release is being considered, or that a reasonable effort at notification has been made; and

(5) shall solicit comments from the victim or a parent or guardian of the minor victim who is present and wishes to comment, and consider those comments before making a decision concerning the release of the person.

* **Sec. 5.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.021. Third-party custodians. (a) In addition to other conditions imposed under AS 12.30.011 or 12.30.016, a judicial officer may appoint a third-party custodian if the officer finds that the appointment will, singly or in combination with other conditions, reasonably assure the person's appearance and the safety of the victim, other persons, and the community.

(b) A judicial officer may appoint an individual as a third-party custodian if the proposed custodian

(1) provides information to the judicial officer about the proposed custodian's residence, occupation, ties to the community, and relationship with the person, and provides any other information requested by the judicial officer;

(2) is physically able to perform the duties of custodian of the person;

(3) personally, by telephone, or by other technology approved by the court, appears in court with the person and acknowledges to the judicial officer orally and in writing that the proposed custodian

(A) understands the duties of custodian and agrees to perform them; the proposed custodian must specifically agree to immediately report in accordance with the terms of the order if the person released has violated a

condition of release; and

(B) understands that failure to perform those duties may result in the custodian being held criminally liable under AS 09.50.010 or AS 11.56.758.

(c) A judicial officer may not appoint a person as a third-party custodian if

(1) the proposed custodian is acting as a third-party custodian for another person;

(2) the proposed custodian has been convicted in the previous three years of a crime under AS 11.41 or a similar crime in this or another jurisdiction;

(3) criminal charges are pending in this state or another jurisdiction against the proposed custodian;

(4) the proposed custodian is on probation in this state or another jurisdiction for an offense;

(5) the proposed custodian may be called as a witness in the prosecution of the person;

(6) the proposed custodian resides out of state; however a nonresident may serve as a custodian if the nonresident resides in the state while serving as custodian.

*** Sec. 6.** AS 12.30.027(a) is amended to read:

(a) Before ordering release before or after trial, or pending appeal, of a person charged with or convicted of a crime involving domestic violence, the **judicial officer** [COURT] shall consider the safety of the [ALLEGED] victim or other household member. To protect the [ALLEGED] victim, household member, **other persons,** and the **community** [PUBLIC] and to reasonably assure the person's appearance, the **judicial officer shall impose conditions required under AS 12.30.011, and** [COURT] may impose [BAIL AND] any of the conditions authorized under **AS 12.30.011** [AS 12.30.020], any of the provisions of AS 18.66.100(c)(1) - (7) and (11), and any other condition necessary to protect the [ALLEGED] victim, household member, **other persons,** and the **community** [PUBLIC], and to ensure the appearance of the person in court, including ordering the person to refrain from the consumption of alcohol.

* **Sec. 7.** AS 12.30.027(b) is amended to read:

(b) A **judicial officer** [COURT] may not order or permit a person released under (a) of this section to return to the residence **or place of employment** of the [ALLEGED] victim or the residence **or place of employment** of a petitioner who has a protective order directed to the person and issued or filed under AS 18.66.100 - 18.66.180 **unless**

(1) 20 days have elapsed following the date the person was arrested;

(2) the victim or petitioner consents to the person's return to the residence or place of employment;

(3) the person does not have a prior conviction for an offense under AS 11.41 that is a crime involving domestic violence; and

(4) the court finds by clear and convincing evidence that the return to the residence or place of employment does not pose a danger to the victim or petitioner.

* **Sec. 8.** AS 12.30.030 is repealed and reenacted to read:

Sec. 12.30.030. Appeal from conditions of release. (a) If a person remains in custody after a review provided for in AS 12.30.006(c) or (d), an appeal may be taken to the court having appellate jurisdiction over the court imposing the conditions. The appellate court shall affirm the order unless it finds that the lower court abused its discretion.

(b) If the appellate court finds that the lower court abused its discretion, the appellate court may modify the order, remand the matter for further proceedings, or remand the matter directing entry of the appropriate order, including release under AS 12.30.011(a). The appeal shall be determined promptly.

* **Sec. 9.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.031. Temporary release. (a) A person either before trial or after conviction who is detained under this chapter may be released temporarily if

(1) the person is being held in connection with a misdemeanor or class B or C felony;

(2) the release is requested because of the

(A) death of an immediate family member of the person;

(B) birth of the person's child if the defendant executes an affidavit of paternity before the release;

(C) person's need for a mental health or substance abuse assessment that the court finds cannot be accommodated in the facility or telephonically; or

(D) person's need for a medical or dental examination required for acceptance into a residential treatment facility; and

(3) the court solicits information from the Department of Corrections regarding the defendant's conduct while incarcerated and considers that information when making a decision under this subsection.

(b) If a court orders temporary release of a person under (a) of this section, the court shall order the person to appear in court during normal business hours at the end of the period of temporary release and before the person is returned to a correctional facility.

*** Sec. 10.** AS 12.30.040 is repealed and reenacted to read:

Sec. 12.30.040. Release before sentence; release after conviction. (a) Except as provided in (b) of this section, a person who has been convicted of an offense and is awaiting sentence or who has filed an appeal may be released under the provisions of this chapter if the person establishes, by clear and convincing evidence, that the person can be released under conditions that will reasonably assure the appearance of the person and the safety of the victim, other persons, and the community.

(b) A person may not be released under (a) of this section if the person has been convicted of an offense that is

(1) an unclassified or class A felony;

(2) a sexual felony;

(3) a class B felony if the person has been convicted within the previous 10 years of a felony committed in this state or a similar offense committed in another jurisdiction; or

(4) a felony in violation of AS 11.41, and the person has been found guilty but mentally ill.

(c) A person who has been convicted of an offense and who has filed an application for post-conviction relief may not be released under this section until the court enters an order vacating all convictions against the person. A person who has prevailed in an application for post-conviction relief may seek release before trial in accordance with the provisions of this chapter.

*** Sec. 11.** AS 12.30.050 is repealed and reenacted to read:

Sec. 12.30.050. Release of material witnesses. (a) If the prosecution or defense establishes by affidavit or other evidence that the testimony of a person is material in a criminal proceeding, and that it may be impracticable to secure the presence of the person by subpoena, a judicial officer may order the arrest of the person and consider the release or detention of the person under the provisions of AS 12.30.011.

(b) A material witness may not be detained because of inability to comply with any condition of release if the testimony of the witness can adequately be secured by deposition, unless further detention is necessary to prevent a failure of justice.

(c) Release of a material witness under (a) of this section may be delayed for a reasonable period of time for the deposition of the witness to be taken.

*** Sec. 12.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.055. Persons appearing on petition to revoke. A person who is in custody in connection with a petition to revoke probation for a felony crime against a person under AS 11.41 does not have a right to be released under this chapter. A judicial officer may, however, release the person under the provisions of this chapter, if it is established by a preponderance of the evidence that the proposed release conditions will reasonably assure the appearance of the person and the safety of the victim, other persons, and the community.

*** Sec. 13.** AS 12.30.075(a) is amended to read:

(a) Cash or other security posted by a **person** [DEFENDANT] under **AS 12.30.011** [AS 12.30.020] that would otherwise be forfeited shall be held by the court in trust for the benefit of the victim if, within 30 days after an order of the court establishing a failure to appear or a violation of conditions of release, the prosecuting authority gives notice that restitution may be requested as part of the sentence if the

person [DEFENDANT] is convicted.

*** Sec. 14.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.078. Conviction occurrence. In this chapter, a conviction occurs at the time the person is found guilty, either by plea or verdict, of the offense.

*** Sec. 15.** AS 12.30.080 is amended by adding new paragraphs to read:

(3) "crime involving domestic violence" has the meaning given in AS 18.66.990;

(4) "knowingly" has the meaning given in AS 11.81.900;

(5) "peace officer" has the meaning given in AS 11.81.900;

(6) "sexual felony" has the meaning given in AS 12.55.185;

(7) "stalking" means a violation of AS 11.41.260 or 11.41.270.

*** Sec. 16.** AS 12.55.155(c)(12) is amended to read:

(12) the defendant was on release under **AS 12.30** [AS 12.30.020 OR 12.30.040] for another felony charge or conviction or for a misdemeanor charge or conviction having assault as a necessary element;

*** Sec. 17.** AS 12.80.060(g)(2) is amended to read:

(2) "offense" means conduct subjecting a person to arrest as an adult offender, or as a juvenile charged as an adult,

(A) due to a violation of a federal or state criminal law, or municipal criminal ordinance;

(B) under AS 12.25.180;

(C) under **AS 11.56.730** [AS 12.30.060]; or

(D) under AS 12.70.

*** Sec. 18.** AS 18.65.530(a) is amended to read:

(a) Except as provided in (b) or (c) of this section, a peace officer, with or without a warrant, shall arrest a person if the officer has probable cause to believe the person has, either in or outside the presence of the officer, within the previous 12 hours,

(1) committed domestic violence, except an offense under AS 11.41.100 - 11.41.130, whether the crime is a felony or a misdemeanor;

(2) committed the crime of violating a protective order in violation of

AS 11.56.740;

(3) violated a condition of release imposed under **AS 12.30.016(e) or (f) or 12.30.027** [AS 12.30.025, 12.30.027, OR 12.30.029].

*** Sec. 19.** AS 18.66.160(a) is amended to read:

(a) **Unless, on the record in court, the person has already been provided a copy of the court's order, process** [PROCESS] issued under this chapter shall be promptly served and executed. If process is to be served upon a person believed to be present or residing in a municipality, as defined in AS 29.71.800, or in an unincorporated community, process shall be served by a peace officer of that municipality or unincorporated community who has jurisdiction within the area of service. If a peace officer of the municipality or unincorporated community who has jurisdiction is not available, a superior court, district court, or magistrate may designate any other peace officer to serve and execute process. A state peace officer shall serve process in any area that is not within the jurisdiction of a peace officer of a municipality or unincorporated community. A peace officer shall use every reasonable means to serve process issued under this chapter. **A judge may not order a peace officer to serve a petition that has been denied by the court.**

*** Sec. 20.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 5(a)(1), Alaska Rules of Criminal Procedure, is amended to read:

(a) **Appearance Before the Judge or Magistrate.**

(1) Except when the person arrested is issued a citation for a misdemeanor or a violation and immediately thereafter released, the arrested person shall be taken before the nearest available judge or magistrate without unnecessary delay. This appearance may be accomplished by the use of telephonic or television equipment pursuant to Criminal Rules 38.1 and 38.2. **Necessary** [UNNECESSARY] delay within the meaning of this paragraph (a) is defined as a period not to exceed **forty-eight** [TWENTY-FOUR] hours after arrest, including Sundays and holidays.

*** Sec. 21.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 5(a)(2), Alaska Rules of Criminal Procedure, is amended to read:

(2) If

(i) The judge or magistrate commits the arrested person to jail for a purpose other than to serve a sentence, and

(ii) The jail is situated in a different community from the place where the judge or magistrate committed the arrested person to jail, and

(iii) The arrested person is not represented by counsel, and

(iv) The arrested person has not previously had a bail review, and

(v) The arrested person has no date, time and place established for his or her next court appearance, then the arrested person shall be taken before a judge or magistrate in the community where the jail is located within **forty-eight** [TWENTY-FOUR] hours of the person's detention in that jail

(aa) in order for bail to be reviewed, and

(bb) in order to determine if the person is represented by counsel, and

(cc) in order for [THE] counsel to be appointed, if appropriate.

*** Sec. 22.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 41(a), Alaska Rules of Criminal Procedure, is amended to read:

(a) **Admission to Bail.** The defendant in a criminal proceeding is entitled to be admitted to bail pursuant to **AS 12.30.006 - 12.30.080** [AS 12.30.010 -12.30.080].

*** Sec. 23.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 41(b), Alaska Rules of Criminal Procedure, is amended to read:

(b) **Types of Bonds.** The court may require:

(1) the execution of an unsecured appearance bond in an amount specified, under the criteria set forth in **AS 12.30.011** [AS 12.30.010(a)];

(2) the execution of an appearance bond in a specified amount and the deposit in the registry of the court, in cash [or other security], of a sum not to exceed 10 percent of the amount of the bond;

(3) the execution of a bail bond with sufficient solvent sureties or the deposit of cash; or

(4) the execution of a performance bond in a specified amount and the deposit in the registry of the court of cash [or other security].

*** Sec. 24.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 41(c), Alaska Rules of Criminal Procedure, is amended to read:

(c) **Separate Bonds.** If a performance bond is required, it must be enforced separately from any appearance or bail bond.

(1) Appearance in court may not be a condition of a performance bond. **A court may not order that an appearance bond be concurrent with an appearance bond in a pending case unless the surety who posed the first appearance bond approves.**

(2) The court may not change a performance or appearance bail requirement without agreement by the surety, unless

(A) the surety waives the requirement for agreement in advance and in writing; or

(B) the court, in writing, finds that the change in the condition of bail poses no increase in risk of loss to the surety and the court sets out in writing the reason for finding that there is no increase in the risk of loss to the surety.

*** Sec. 25.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 206(b), Alaska Rules of Appellate Procedure, is amended to read:

(b) **Release Pending Appeal.** When an appeal on the merits is pending, an appeal under **AS 12.30.030** [AS 12.30.030(b)] from an order refusing bail pending appeal or imposing conditions of release pending appeal shall be in the form of a motion filed in the merit appeal. The motion must be filed with the clerk of the appellate courts within 30 days after the date of the notice of the order from which review is sought. Date of notice is defined in Civil Rule 58.1(c) and Criminal Rule 32.3(c). The motion shall comply with Rule 503, and shall contain specific factual information relevant to **AS 12.30.011(c)** [AS 12.30.020(c)], including but not limited to the following:

(1) The full name of the appellant; the trial court case number; the offenses of which the appellant was convicted, if applicable; the date of sentencing; and the complete terms of the sentence;

(2) That application for release pending appeal has been made to the trial court, the reasons given by the trial court for denying the application in whole or in part, and facts and reasons demonstrating why the action of the trial court on the application was erroneous or an abuse of discretion;

(3) A concise statement of the question or questions to be raised on the appeal with a showing that the question or questions were raised in the trial court;

(4) Family: marital status; length of marriage; children, and their ages; other relatives in the area of residence;

(5) Employment and financial circumstances: name of employer at time of arrest and during pre-trial release; type of work; how long so employed; and offer or promise of employment if released pending appeal; assets of the appellant or of relatives or friends relevant to the ability to post money bail;

(6) Health: history of mental illness, alcoholism, or addiction to drugs, if any;

(7) Residence: length of residence in the city or town in which the appellant resided at the time of arrest;

(8) Criminal history: criminal convictions within ten years prior to the present arrest; if the appellant has ever forfeited bail, or had release, probation, or parole revoked, the date, the name and location of the court, and a brief description of

the circumstances; whether the present offense was committed while the appellant was on bail or other release or on probation or parole; any other criminal charges pending against the appellant at the time [OF] the motion is filed.

*** Sec. 26.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 603(b), Alaska Rules of Appellate Procedure, is amended to read:

(b) **Criminal Appeals.** If a sentence of imprisonment is imposed, **the court may admit the defendant to bail and stay the sentence as provided by law and by these rules** [ADMISSION TO BAIL WILL BE ALLOWED AND THE SENTENCE STAYED], pending appeal. A sentence to pay a fine or a fine and costs may be stayed, if an appeal is taken, by the district judge or magistrate or by the superior court upon such terms as the court deems proper. During appeal the court may require the defendant to deposit the whole or any part of the fine and costs in the registry of the superior court, or to give bond for the payment thereof, or to submit to an examination of assets, and it may make an appropriate order to restrain the defendant from dissipating his or her assets. An order placing the defendant on probation will be stayed if an appeal is taken.

*** Sec. 27.** AS 12.30.010, 12.30.020, 12.30.023, 12.30.025, 12.30.027(g), 12.30.029, and 12.30.060 are repealed.

*** Sec. 28.** The uncodified law of the State of Alaska is amended by adding a new section to read:

APPLICABILITY. (a) AS 11.56.730, enacted in sec. 1 of this Act, applies to acts committed on or after the effective date of this Act.

(b) The amendments to AS 12.25.030(b) made by sec. 2 of this Act apply to arrests for violation of conditions of release occurring on or after the effective date of this Act for offenses occurring before, on, or after the effective date of this Act.

(c) AS 12.30.006 - 12.30.021, enacted in secs. 3 - 5 of this Act; AS 12.30.030, repealed and reenacted in sec. 8 of this Act; AS 12.30.031, enacted in sec. 9 of this Act; AS 12.30.040, repealed and reenacted in sec. 10 of this Act; AS 12.30.055, enacted in sec. 12 of this Act; and AS 12.30.078, enacted in sec. 14 of this Act apply to bail proceedings

occurring on and after the effective date of this Act for offenses occurring on or after the effective date of this Act.

(d) AS 12.30.050, repealed and reenacted in sec. 11 of this Act, applies to bail proceedings occurring on or after the effective date of this Act for offenses occurring before, on, or after the effective date of this Act.

(e) The amendments to AS 12.30.027(a) and (b) made by secs. 6 and 7 of this Act; to AS 12.30.075 made by sec. 13 of this Act and to 12.30.080 made by sec. 15 of this Act apply to bail proceedings occurring on or after the effective date of this Act for offenses occurring before, on, or after the effective date of this Act.

(f) The amendments to Rule 5, Alaska Rules of Criminal Procedure, made by secs. 20 and 21 of this Act apply to offenses occurring on or after the effective date of this Act.

(g) The amendment to Rule 41(c), Alaska Rules of Criminal Procedure, made by sec. 24 of this Act applies to bail proceedings occurring on or after the effective date of this Act.

(h) The amendment to Rule 603(b), Alaska Rules of Criminal Procedure, made by sec. 26 of this Act applies to convictions occurring on or after the effective date of this Act.

*** Sec. 29.** This Act takes effect July 1, 2010.

CS FOR HOUSE BILL NO. 324(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act relating to the crime of failure to appear; relating to arrest for violating certain conditions of release; relating to release before trial, before sentence, and pending appeal; relating to material witnesses; relating to temporary release; relating to release on a petition to revoke probation; relating to the first appearance before a judicial officer after arrest; relating to service of process for domestic violence protective orders; making conforming amendments; amending Rules 5 and 41, Alaska Rules of Criminal Procedure, and Rules 206 and 603, Alaska Rules of Appellate Procedure; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 11.56 is amended by adding a new section to read:

Sec. 11.56.730. Failure to appear. (a) A person commits the crime of failure to appear if the person

(1) is released under the provisions of AS 12.30;

(2) knows that the person is required to appear before a court or judicial officer at the time and place of a scheduled hearing; and

(3) with criminal negligence does not appear before the court or judicial officer at the time and place of the scheduled hearing.

(b) In a prosecution for failure to appear under (a) of this section, it is an affirmative defense that unforeseeable circumstances, outside the person's control, prevented the person from appearing before the court or judicial officer at the time and place of the scheduled hearing, and the person contacted the court orally and in writing immediately upon being able to make the contact.

(c) A person who commits failure to appear incurs a forfeiture of any security for any appearance of the person that was given or pledged to the court for the person's release, and is guilty of a

(1) class C felony if the person was released in connection with a charge of a felony, or while awaiting sentence or appeal after conviction of a felony;

(2) class A misdemeanor if the person was released in connection with a

(A) charge of a misdemeanor, or while awaiting sentence or appeal after conviction of a misdemeanor; or

(B) requirement to appear as a material witness in a criminal proceeding.

*** Sec. 2.** AS 12.25.030(b) is amended to read:

(b) In addition to the authority granted by (a) of this section, a peace officer

(1) shall make an arrest under the circumstances described in AS 18.65.530;

(2) without a warrant may arrest a person if the officer has probable cause to believe the person has, either in or outside the presence of the officer,

(A) committed a crime involving domestic violence, whether the crime is a felony or a misdemeanor; in this subparagraph, "crime involving domestic violence" has the meaning given in AS 18.66.990;

(B) committed the crime of violating a protective order in

violation of AS 11.56.740; or

(C) violated a condition of release imposed under **AS 12.30.016(e)** [AS 12.30.025] or 12.30.027;

(3) without a warrant may arrest a person when the peace officer has **probable** [REASONABLE] cause for believing that the person has

(A) committed a crime under or violated conditions imposed as part of the person's release before trial on misdemeanor charges brought under AS 11.41.270;

(B) violated AS 04.16.050 or an ordinance with similar elements; however, unless there is a lawful reason for further detention, a person who is under [THE AGE OF] 18 **years of age** and who has been arrested for violating AS 04.16.050 or an ordinance with similar elements shall be cited for the offense and released to the person's parent, guardian, or legal custodian; or

(C) violated conditions imposed as part of the person's release **under the provisions of AS 12.30** [BEFORE TRIAL ON FELONY CHARGES BROUGHT UNDER AS 11.41.410 - 11.41.458].

* **Sec. 3.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.006. Release procedures. (a) At the first appearance before a judicial officer, a person charged with an offense shall be released or detained under the provisions of this chapter.

(b) At the first appearance before a judicial officer, a person who is charged with a felony may be detained up to 48 hours for the prosecuting authority to demonstrate that release of the person under AS 12.30.011(a) would not reasonably assure the appearance of the person or will pose a danger to the victim, other persons, or the community.

(c) A person who remains in custody 48 hours after appearing before a judicial officer because of inability to meet the conditions of release shall, upon application, be entitled to have the conditions reviewed by the judicial officer who imposed them. If the judicial officer who imposed the conditions of release is not available, any judicial officer in the judicial district may review the conditions.

(d) If a person remains in custody after review of conditions by a judicial officer under (c) of this section, the person may request a subsequent review of conditions. Unless the prosecuting authority stipulates otherwise or the person has been incarcerated for a period equal to the maximum sentence for the most serious charge for which the person is being held, a judicial officer may not schedule a bail review hearing under this subsection unless

(1) the person provides to the court and the prosecuting authority a written statement that new information not considered at the previous review will be presented at the hearing; the statement must include a description of the information and the reason the information was not presented at a previous hearing; in this paragraph, "new information" does not include the inability to post the required bail;

(2) the prosecuting authority and any surety, if applicable, have at least 48 hours' written notice before the time set for the review requested under this subsection; the defendant shall notify the surety; and

(3) at least seven days have elapsed between the previous review and the time set for the requested review.

(e) A judicial officer may solicit comments by the victim or a parent or guardian of a minor victim who is present at the bail review hearing and wishes to comment. The judicial officer shall consider those comments and any response by the person before making a decision concerning the release of the person.

(f) The judicial officer shall issue written or oral findings that explain the reasons the officer imposed the particular conditions of release or modifications or additions to conditions previously imposed. The judicial officer shall inform the person that a law enforcement officer may arrest the person without a warrant for violation of the court's order establishing conditions of release.

(g) Information offered or introduced at a bail hearing to determine conditions of release need not conform to the rules governing the admissibility of evidence.

* **Sec. 4.** AS 12.30 is amended by adding new sections to read:

Sec. 12.30.011. Release before trial. (a) Except as otherwise provided in this chapter, a judicial officer shall order a person charged with an offense to be released on the person's personal recognizance or upon execution of an unsecured appearance

bond, on the condition that the person

(1) obey all court orders and all federal, state, and local laws;

(2) appear in court when ordered;

(3) if represented, maintain contact with the person's lawyer; and

(4) notify the person's lawyer, who shall notify the prosecuting authority and the court, not more than 24 hours after the person changes residence.

(b) If a judicial officer determines that the release under (a) of this section will not reasonably assure the appearance of the person or will pose a danger to the victim, other persons, or the community, the officer shall impose the least restrictive condition or conditions that will reasonably assure the person's appearance and protect the victim, other persons, and the community. In addition to conditions under (a) of this section, the judicial officer may, singly or in combination,

(1) require the execution of an appearance bond in a specified amount of cash to be deposited into the registry of the court, in a sum not to exceed 10 percent of the amount of the bond;

(2) require the execution of a bail bond with sufficient solvent sureties or the deposit of cash;

(3) require the execution of a performance bond in a specified amount of cash to be deposited in the registry of the court;

(4) place restrictions on the person's travel, association, or residence;

(5) order the person to refrain from possessing a deadly weapon on the person or in the person's vehicle or residence;

(6) require the person to maintain employment, or if unemployed, actively seek employment;

(7) require the person to notify the person's lawyer and the prosecuting authority within two business days after any change in employment;

(8) require the person to avoid all contact with a victim, a potential witness, or a codefendant;

(9) require the person to refrain from the consumption and possession of alcoholic beverages;

(10) require the person to refrain from the use of a controlled substance

as defined by AS 11.71, unless prescribed by a licensed health care provider with prescriptive authority;

(11) require the person to be physically inside the person's residence, or in the residence of the person's third-party custodian, at time periods set by the court;

(12) require the person to keep regular contact with a law enforcement officer or agency;

(13) order the person to refrain from entering or remaining in premises licensed under AS 04;

(14) place the person in the custody of an individual who agrees to serve as a third-party custodian of the person as provided in AS 12.30.021;

(15) if the person is under the treatment of a licensed health care provider, order the person to follow the provider's treatment recommendations;

(16) order the person to take medication that has been prescribed for the person by a licensed health care provider with prescriptive authority;

(17) order the person to comply with any other condition that is reasonably necessary to assure the appearance of the person and to assure the safety of the victim, other persons, and the community.

(c) In determining the conditions of release under this chapter, the court shall consider the following:

(1) the nature and circumstances of the offense charged;

(2) the weight of the evidence against the person;

(3) the nature and extent of the person's family ties and relationships;

(4) the person's employment status and history;

(5) the length and character of the person's past and present residence;

(6) the person's record of convictions;

(7) the person's record of appearance at court proceedings;

(8) assets available to the person to meet monetary conditions of release;

(9) the person's reputation, character, and mental condition;

(10) the effect of the offense on the victim, any threats made to the

victim, and the danger that the person poses to the victim;

(11) any other facts that are relevant to the person's appearance or the person's danger to the victim, other persons, or the community.

(d) In making a finding regarding the release of a person under this chapter,

(1) except as otherwise provided in this chapter, the burden of proof is on the prosecuting authority that a person charged with an offense should be detained or released with conditions described in (b) of this section or AS 12.30.016;

(2) there is a rebuttable presumption that no condition or combination of conditions will reasonably assure the appearance of the person or the safety of the victim, other persons, or the community, if the person is

(A) charged with an unclassified felony, a class A felony, a sexual felony, or a felony under AS 28.35.30 or 28.35.032;

(B) charged with a felony crime against a person under AS 11.41, was previously convicted of a felony crime against a person under AS 11.41 in this state or a similar offense in another jurisdiction, and less than five years have elapsed between the date of the person's unconditional discharge on the immediately preceding offense and the commission of the present offense;

(C) charged with a felony offense committed while the person was on release under this chapter for a charge or conviction of another offense;

(D) charged with a crime involving domestic violence, and has been convicted in the previous five years of a crime involving domestic violence in this state or a similar offense in another jurisdiction;

(E) arrested in connection with an accusation that the person committed a felony outside the state or is a fugitive from justice from another jurisdiction, and the court is considering release under AS 12.70.

Sec. 12.30.016. Release before trial in certain cases. (a) A judicial officer may impose, in addition to those required or authorized under AS 12.30.011, conditions of release for offenses described in this section, if necessary to reasonably assure the person's appearance or the safety of the victim, other persons, or the community.

(b) In a prosecution charging a violation of AS 04.11.010, 04.11.499, AS 28.35.030, or 28.35.032, a judicial officer may order the person

(1) to refrain from

(A) consuming alcohol beverages; or

(B) possessing on the person, in the person's residence, or in any vehicle or other property over which the person has control, alcoholic beverages;

(2) to submit to a search without a warrant of the person, the person's personal property, the person's residence, or any vehicle or other property over which the person has control, for the presence of alcoholic beverages by a peace officer who has reasonable suspicion that the person is violating the conditions of the person's release by possessing alcoholic beverages;

(3) to submit to a breath test when requested by a law enforcement officer;

(4) to provide a sample for a urinalysis or blood test when requested by a law enforcement officer;

(5) to take a drug or combination of drugs intended to prevent substance abuse;

(6) to follow any treatment plan imposed by the court under AS 28.35.028.

(c) In a prosecution charging a violation of AS 11.71 or AS 11.73, a judicial officer may order the person

(1) to refrain from

(A) consuming a controlled substance; or

(B) possessing on the person, in the person's residence, or in any vehicle or other property over which the person has control, a controlled substance or drug paraphernalia;

(2) to submit to a search without a warrant of the person, the person's personal property, the person's residence, or any vehicle or other property over which the person has control, for the presence of a controlled substance or drug paraphernalia by a peace officer who has reasonable suspicion that the person is violating the terms

of the person's release by possessing controlled substances or drug paraphernalia;

(3) to enroll in a random drug testing program, at the person's expense, to detect the presence of a controlled substance, with testing to occur not less than once a week, and with the results being submitted to the court and the prosecuting authority;

(4) to refrain from entering or remaining in a place where a controlled substance is being used, manufactured, grown, or distributed;

(5) to refrain from being physically present, within a two-block area of, or within a designated area near, the location where the alleged offense occurred or at other designated places, unless the person actually resides within that area; or

(6) to refrain from the use or possession of an inhalant.

(d) In a prosecution charging misconduct involving a controlled substance under AS 11.71.020(a)(2) for the manufacture of methamphetamine, or its salts, isomers, or salts of isomers, if the person has been previously convicted in this or another jurisdiction of a crime involving the manufacturing, delivering, or possessing methamphetamine, or its salts, isomers, or salts of isomers, a judicial officer shall require the posting of a minimum of $250,000 cash bond before the person may be released. The judicial officer may reduce this requirement if the person proves to the satisfaction of the officer that the person's only role in the offense was as an aider or abettor and that the person did not stand to benefit financially from the manufacturing.

(e) In a prosecution charging the crime of stalking that is not a crime involving domestic violence, a judicial officer may order the person to

(1) follow the provisions of any protective order to which the person is respondent;

(2) refrain from contacting in any manner, including by telephone or electronic communication, the victim;

(3) engage in counseling; if available in the community, the judicial officer shall require that counseling ordered include counseling about alternatives to aggressive behavior.

(f) In a prosecution charging a crime under AS 11.41.410 - 11.41.458, a judicial officer

(1) may order the person to have no contact with the victim except as specifically allowed by the court;

(2) may order the person to reside in a place where the person is not likely to come into contact with the victim of the offense;

(3) may order the person to have no contact with any person under 18 years of age except in the normal course of business in a public place;

(4) shall assure that the victim and the parent or guardian of a minor victim have been notified by a law enforcement agency or the prosecuting authority of a hearing where release is being considered, or that a reasonable effort at notification has been made; and

(5) shall solicit comments from the victim or a parent or guardian of the minor victim who is present and wishes to comment, and consider those comments before making a decision concerning the release of the person.

* **Sec. 5.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.021. Third-party custodians. (a) In addition to other conditions imposed under AS 12.30.011 or 12.30.016, a judicial officer may appoint a third-party custodian if the officer finds that the appointment will, singly or in combination with other conditions, reasonably assure the person's appearance and the safety of the victim, other persons, and the community.

(b) A judicial officer may appoint an individual as a third-party custodian if the proposed custodian

(1) provides information to the judicial officer about the proposed custodian's residence, occupation, ties to the community, and relationship with the person, and provides any other information requested by the judicial officer;

(2) is physically able to perform the duties of custodian of the person;

(3) personally, by telephone, or by other technology approved by the court, appears in court with the person and acknowledges to the judicial officer orally and in writing that the proposed custodian

(A) understands the duties of custodian and agrees to perform them; the proposed custodian must specifically agree to immediately report in accordance with the terms of the order if the person released has violated a

condition of release; and

(B) understands that failure to perform those duties may result in the custodian being held criminally liable under AS 09.50.010 or AS 11.56.758.

(c) A judicial officer may not appoint a person as a third-party custodian if

(1) the proposed custodian is acting as a third-party custodian for another person;

(2) the proposed custodian has been convicted in the previous three years of a crime under AS 11.41 or a similar crime in this or another jurisdiction;

(3) criminal charges are pending in this state or another jurisdiction against the proposed custodian;

(4) the proposed custodian is on probation in this state or another jurisdiction for an offense;

(5) the proposed custodian may be called as a witness in the prosecution of the person;

(6) the proposed custodian resides out of state; however a nonresident may serve as a custodian if the nonresident resides in the state while serving as custodian.

*** Sec. 6.** AS 12.30.027(a) is amended to read:

(a) Before ordering release before or after trial, or pending appeal, of a person charged with or convicted of a crime involving domestic violence, the **judicial officer** [COURT] shall consider the safety of the [ALLEGED] victim or other household member. To protect the [ALLEGED] victim, household member, **other persons,** and the **community** [PUBLIC] and to reasonably assure the person's appearance, the **judicial officer shall impose conditions required under AS 12.30.011, and** [COURT] may impose [BAIL AND] any of the conditions authorized under **AS 12.30.011** [AS 12.30.020], any of the provisions of AS 18.66.100(c)(1) - (7) and (11), and any other condition necessary to protect the [ALLEGED] victim, household member, **other persons,** and the **community** [PUBLIC], and to ensure the appearance of the person in court, including ordering the person to refrain from the consumption of alcohol.

* **Sec. 7.** AS 12.30.027(b) is amended to read:

(b) A **judicial officer** [COURT] may not order or permit a person released under (a) of this section to return to the residence **or place of employment** of the [ALLEGED] victim or the residence **or place of employment** of a petitioner who has a protective order directed to the person and issued or filed under AS 18.66.100 - 18.66.180 **unless**

(1) 20 days have elapsed following the date the person was arrested;

(2) the victim or petitioner consents to the person's return to the residence or place of employment;

(3) the person does not have a prior conviction for an offense under AS 11.41 that is a crime involving domestic violence; and

(4) the court finds by clear and convincing evidence that the return to the residence or place of employment does not pose a danger to the victim or petitioner.

* **Sec. 8.** AS 12.30.030 is repealed and reenacted to read:

Sec. 12.30.030. Appeal from conditions of release. (a) If a person remains in custody after a review provided for in AS 12.30.006(c) or (d), an appeal may be taken to the court having appellate jurisdiction over the court imposing the conditions. The appellate court shall affirm the order unless it finds that the lower court abused its discretion.

(b) If the appellate court finds that the lower court abused its discretion, the appellate court may modify the order, remand the matter for further proceedings, or remand the matter directing entry of the appropriate order, including release under AS 12.30.011(a). The appeal shall be determined promptly.

* **Sec. 9.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.031. Temporary release. (a) A person either before trial or after conviction who is detained under this chapter may be released temporarily if

(1) the person is being held in connection with a misdemeanor or class B or C felony;

(2) the release is requested because of the

(A) death of an immediate family member of the person;

(B) birth of the person's child if the defendant executes an affidavit of paternity before the release;

(C) person's need for a mental health or substance abuse assessment that the court finds cannot be accommodated in the facility or telephonically; or

(D) person's need for a medical or dental examination required for acceptance into a residential treatment facility; and

(3) the court solicits information from the Department of Corrections regarding the defendant's conduct while incarcerated and considers that information when making a decision under this subsection.

(b) If a court orders temporary release of a person under (a) of this section, the court shall order the person to appear in court during normal business hours at the end of the period of temporary release and before the person is returned to a correctional facility.

* **Sec. 10.** AS 12.30.040 is repealed and reenacted to read:

Sec. 12.30.040. Release before sentence; release after conviction. (a) Except as provided in (b) of this section, a person who has been convicted of an offense and is awaiting sentence or who has filed an appeal may be released under the provisions of this chapter if the person establishes, by clear and convincing evidence, that the person can be released under conditions that will reasonably assure the appearance of the person and the safety of the victim, other persons, and the community.

(b) A person may not be released under (a) of this section if the person has been convicted of an offense that is

(1) an unclassified or class A felony;

(2) a sexual felony;

(3) a class B felony if the person has been convicted within the previous 10 years of a felony committed in this state or a similar offense committed in another jurisdiction; or

(4) a felony in violation of AS 11.41, and the person has been found guilty but mentally ill.

(c) A person who has been convicted of an offense and who has filed an application for post-conviction relief may not be released under this section until the court enters an order vacating all convictions against the person. A person who has prevailed in an application for post-conviction relief may seek release before trial in accordance with the provisions of this chapter.

* **Sec. 11.** AS 12.30.050 is repealed and reenacted to read:

Sec. 12.30.050. Release of material witnesses. (a) If the prosecution or defense establishes by affidavit or other evidence that the testimony of a person is material in a criminal proceeding, and that it may be impracticable to secure the presence of the person by subpoena, a judicial officer may order the arrest of the person and consider the release or detention of the person under the provisions of AS 12.30.011.

(b) A material witness may not be detained because of inability to comply with any condition of release if the testimony of the witness can adequately be secured by deposition, unless further detention is necessary to prevent a failure of justice.

(c) Release of a material witness under (a) of this section may be delayed for a reasonable period of time for the deposition of the witness to be taken.

* **Sec. 12.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.055. Persons appearing on petition to revoke. A person who is in custody in connection with a petition to revoke probation for a felony crime against a person under AS 11.41 does not have a right to be released under this chapter. A judicial officer may, however, release the person under the provisions of this chapter, if it is established by a preponderance of the evidence that the proposed release conditions will reasonably assure the appearance of the person and the safety of the victim, other persons, and the community.

* **Sec. 13.** AS 12.30.075(a) is amended to read:

(a) Cash or other security posted by a **person** [DEFENDANT] under **AS 12.30.011** [AS 12.30.020] that would otherwise be forfeited shall be held by the court in trust for the benefit of the victim if, within 30 days after an order of the court establishing a failure to appear or a violation of conditions of release, the prosecuting authority gives notice that restitution may be requested as part of the sentence if the

person [DEFENDANT] is convicted.

*** Sec. 14.** AS 12.30 is amended by adding a new section to read:

Sec. 12.30.078. Conviction occurrence. In this chapter, a conviction occurs at the time the person is found guilty, either by plea or verdict, of the offense.

*** Sec. 15.** AS 12.30.080 is amended by adding new paragraphs to read:

(3) "crime involving domestic violence" has the meaning given in AS 18.66.990;

(4) "knowingly" has the meaning given in AS 11.81.900;

(5) "peace officer" has the meaning given in AS 11.81.900;

(6) "sexual felony" has the meaning given in AS 12.55.185;

(7) "stalking" means a violation of AS 11.41.260 or 11.41.270.

*** Sec. 16.** AS 12.55.155(c)(12) is amended to read:

(12) the defendant was on release under **AS 12.30** [AS 12.30.020 OR 12.30.040] for another felony charge or conviction or for a misdemeanor charge or conviction having assault as a necessary element;

*** Sec. 17.** AS 12.80.060(g)(2) is amended to read:

(2) "offense" means conduct subjecting a person to arrest as an adult offender, or as a juvenile charged as an adult,

(A) due to a violation of a federal or state criminal law, or municipal criminal ordinance;

(B) under AS 12.25.180;

(C) under **AS 11.56.730** [AS 12.30.060]; or

(D) under AS 12.70.

*** Sec. 18.** AS 18.65.530(a) is amended to read:

(a) Except as provided in (b) or (c) of this section, a peace officer, with or without a warrant, shall arrest a person if the officer has probable cause to believe the person has, either in or outside the presence of the officer, within the previous 12 hours,

(1) committed domestic violence, except an offense under AS 11.41.100 - 11.41.130, whether the crime is a felony or a misdemeanor;

(2) committed the crime of violating a protective order in violation of

AS 11.56.740;

(3) violated a condition of release imposed under **AS 12.30.016(e) or (f) or 12.30.027** [AS 12.30.025, 12.30.027, OR 12.30.029].

*** Sec. 19.** AS 18.66.160(a) is amended to read:

(a) **Unless, on the record in court, the person has already been provided a copy of the court's order, process** [PROCESS] issued under this chapter shall be promptly served and executed. If process is to be served upon a person believed to be present or residing in a municipality, as defined in AS 29.71.800, or in an unincorporated community, process shall be served by a peace officer of that municipality or unincorporated community who has jurisdiction within the area of service. If a peace officer of the municipality or unincorporated community who has jurisdiction is not available, a superior court, district court, or magistrate may designate any other peace officer to serve and execute process. A state peace officer shall serve process in any area that is not within the jurisdiction of a peace officer of a municipality or unincorporated community. A peace officer shall use every reasonable means to serve process issued under this chapter. **A judge may not order a peace officer to serve a petition that has been denied by the court.**

*** Sec. 20.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 5(a)(1), Alaska Rules of Criminal Procedure, is amended to read:

(a) **Appearance Before the Judge or Magistrate.**

(1) Except when the person arrested is issued a citation for a misdemeanor or a violation and immediately thereafter released, the arrested person shall be taken before the nearest available judge or magistrate without unnecessary delay. This appearance may be accomplished by the use of telephonic or television equipment pursuant to Criminal Rules 38.1 and 38.2. **Necessary** [UNNECESSARY] delay within the meaning of this paragraph (a) is defined as a period not to exceed **forty-eight** [TWENTY-FOUR] hours after arrest, including Sundays and holidays.

*** Sec. 21.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 5(a)(2), Alaska Rules of Criminal Procedure, is amended to read:

(2) If

(i) The judge or magistrate commits the arrested person to jail for a purpose other than to serve a sentence, and

(ii) The jail is situated in a different community from the place where the judge or magistrate committed the arrested person to jail, and

(iii) The arrested person is not represented by counsel, and

(iv) The arrested person has not previously had a bail review, and

(v) The arrested person has no date, time and place established for his or her next court appearance, then the arrested person shall be taken before a judge or magistrate in the community where the jail is located within **forty-eight** [TWENTY-FOUR] hours of the person's detention in that jail

(aa) in order for bail to be reviewed, and

(bb) in order to determine if the person is represented by counsel, and

(cc) in order for [THE] counsel to be appointed, if appropriate.

*** Sec. 22.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 41(a), Alaska Rules of Criminal Procedure, is amended to read:

(a) **Admission to Bail.** The defendant in a criminal proceeding is entitled to be admitted to bail pursuant to **AS 12.30.006 - 12.30.080** [AS 12.30.010 -12.30.080].

*** Sec. 23.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 41(b), Alaska Rules of Criminal Procedure, is amended to read:

(b) **Types of Bonds.** The court may require:

(1) the execution of an unsecured appearance bond in an amount specified, under the criteria set forth in **AS 12.30.011** [AS 12.30.010(a)];

(2) the execution of an appearance bond in a specified amount and the deposit in the registry of the court, in cash [or other security], of a sum not to exceed 10 percent of the amount of the bond;

(3) the execution of a bail bond with sufficient solvent sureties or the deposit of cash; or

(4) the execution of a performance bond in a specified amount and the deposit in the registry of the court of cash [or other security].

* **Sec. 24.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 41(c), Alaska Rules of Criminal Procedure, is amended to read:

(c) **Separate Bonds.** If a performance bond is required, it must be enforced separately from any appearance or bail bond.

(1) Appearance in court may not be a condition of a performance bond. **A court may not order that an appearance bond be concurrent with an appearance bond in a pending case unless the surety who posed the first appearance bond approves.**

(2) The court may not change a performance or appearance bail requirement without agreement by the surety, unless

(A) the surety waives the requirement for agreement in advance and in writing; or

(B) the court, in writing, finds that the change in the condition of bail poses no increase in risk of loss to the surety and the court sets out in writing the reason for finding that there is no increase in the risk of loss to the surety.

* **Sec. 25.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 206(b), Alaska Rules of Appellate Procedure, is amended to read:

(b) **Release Pending Appeal.** When an appeal on the merits is pending, an appeal under **AS 12.30.030** [AS 12.30.030(b)] from an order refusing bail pending appeal or imposing conditions of release pending appeal shall be in the form of a motion filed in the merit appeal. The motion must be filed with the clerk of the appellate courts within 30 days after the date of the notice of the order from which review is sought. Date of notice is defined in Civil Rule 58.1(c) and Criminal Rule 32.3(c). The motion shall comply with Rule 503, and shall contain specific factual information relevant to **AS 12.30.011(c)** [AS 12.30.020(c)], including but not limited to the following:

(1) The full name of the appellant; the trial court case number; the offenses of which the appellant was convicted, if applicable; the date of sentencing; and the complete terms of the sentence;

(2) That application for release pending appeal has been made to the trial court, the reasons given by the trial court for denying the application in whole or in part, and facts and reasons demonstrating why the action of the trial court on the application was erroneous or an abuse of discretion;

(3) A concise statement of the question or questions to be raised on the appeal with a showing that the question or questions were raised in the trial court;

(4) Family: marital status; length of marriage; children, and their ages; other relatives in the area of residence;

(5) Employment and financial circumstances: name of employer at time of arrest and during pre-trial release; type of work; how long so employed; and offer or promise of employment if released pending appeal; assets of the appellant or of relatives or friends relevant to the ability to post money bail;

(6) Health: history of mental illness, alcoholism, or addiction to drugs, if any;

(7) Residence: length of residence in the city or town in which the appellant resided at the time of arrest;

(8) Criminal history: criminal convictions within ten years prior to the present arrest; if the appellant has ever forfeited bail, or had release, probation, or parole revoked, the date, the name and location of the court, and a brief description of

the circumstances; whether the present offense was committed while the appellant was on bail or other release or on probation or parole; any other criminal charges pending against the appellant at the time [OF] the motion is filed.

*** Sec. 26.** The uncodified law of the State of Alaska is amended by adding a new section to read:

DIRECT COURT RULE AMENDMENT. Rule 603(b), Alaska Rules of Appellate Procedure, is amended to read:

(b) **Criminal Appeals.** If a sentence of imprisonment is imposed, **the court may admit the defendant to bail and stay the sentence as provided by law and by these rules** [ADMISSION TO BAIL WILL BE ALLOWED AND THE SENTENCE STAYED], pending appeal. A sentence to pay a fine or a fine and costs may be stayed, if an appeal is taken, by the district judge or magistrate or by the superior court upon such terms as the court deems proper. During appeal the court may require the defendant to deposit the whole or any part of the fine and costs in the registry of the superior court, or to give bond for the payment thereof, or to submit to an examination of assets, and it may make an appropriate order to restrain the defendant from dissipating his or her assets. An order placing the defendant on probation will be stayed if an appeal is taken.

*** Sec. 27.** AS 12.30.010, 12.30.020, 12.30.023, 12.30.025, 12.30.027(g), 12.30.029, and 12.30.060 are repealed.

*** Sec. 28.** The uncodified law of the State of Alaska is amended by adding a new section to read:

APPLICABILITY. (a) AS 11.56.730, enacted in sec. 1 of this Act, applies to acts committed on or after the effective date of this Act.

(b) The amendments to AS 12.25.030(b) made by sec. 2 of this Act apply to arrests for violation of conditions of release occurring on or after the effective date of this Act for offenses occurring before, on, or after the effective date of this Act.

(c) AS 12.30.006 - 12.30.021, enacted in secs. 3 - 5 of this Act; AS 12.30.030, repealed and reenacted in sec. 8 of this Act; AS 12.30.031, enacted in sec. 9 of this Act; AS 12.30.040, repealed and reenacted in sec. 10 of this Act; AS 12.30.055, enacted in sec. 12 of this Act; and AS 12.30.078, enacted in sec. 14 of this Act apply to bail proceedings

occurring on and after the effective date of this Act for offenses occurring on or after the effective date of this Act.

(d) AS 12.30.050, repealed and reenacted in sec. 11 of this Act, applies to bail proceedings occurring on or after the effective date of this Act for offenses occurring before, on, or after the effective date of this Act.

(e) The amendments to AS 12.30.027(a) and (b) made by secs. 6 and 7 of this Act; to AS 12.30.075 made by sec. 13 of this Act and to 12.30.080 made by sec. 15 of this Act apply to bail proceedings occurring on or after the effective date of this Act for offenses occurring before, on, or after the effective date of this Act.

(f) The amendments to Rule 5, Alaska Rules of Criminal Procedure, made by secs. 20 and 21 of this Act apply to offenses occurring on or after the effective date of this Act.

(g) The amendment to Rule 41(c), Alaska Rules of Criminal Procedure, made by sec. 24 of this Act applies to bail proceedings occurring on or after the effective date of this Act.

(h) The amendment to Rule 603(b), Alaska Rules of Criminal Procedure, made by sec. 26 of this Act applies to convictions occurring on or after the effective date of this Act.

*** Sec. 29.** This Act takes effect July 1, 2010.

CSHB 324 (BAIL REFORM)
Sectional Analysis

Section 1 of the bill moves the crime of failure to appear at a court appearance from Title 12 to Title 11. The proposed law is similar to current law with one exception -- it provides that if a person knows that he or she is required to appear, the prosecution does not have to prove an additional culpable mental state regarding the conduct of not appearing. It also provides an affirmative defense that the defendant, due to unforeseeable circumstances outside his or her control, was prevented from appearing at the hearing, and that the defendant notified the court orally and in writing immediately upon being able to make the contact.

The penalties are the same as under current law.

Section 2 includes a conforming amendment to AS 12.25.030(b). It changes the standard for a law enforcement officer to make an arrest without a warrant in certain cases from "reasonable cause" to "probable cause". The standard in AS 12.25.030(b) would then be the same as in AS 12.25.030(a). Reasonable cause and probable cause are similar.

Section 2 also allows a law enforcement officer to arrest a person for violation of conditions of release if the officer has probable cause to believe the person has violated conditions in connection with release under AS 12.30. Law enforcement supports this change because it avoids, for example, an officer having to get an arrest warrant for a person if the person is ordered not to drink alcohol and is found intoxicated.

Section 3 adopts a new section, AS 12.20.006, that describes release procedures for a person charged with a crime. Although the procedures are similar to those under various sections of existing law, there are a few differences, which include:

- Before the third and subsequent bail hearings, current law and the bill require that certain prerequisites are met – such as seven days elapse between bail hearings unless certain other factors are present. Current law requires 48 hours notice to the prosecuting authority, and the bill requires

1049

the same notice, but it also requires 48 hours notice to any surety involved so that the surety has an opportunity to attend the hearing.

- The bill specifically requires the person being released to sign an agreement that describes the terms of the release and includes the person's promise to abide by the terms.

- The bill eliminates a provision in current law that allows a judicial officer to change, add to, or eliminate conditions of release at any time. The law already provides a process for asking the court to change conditions, and allowing a change at any time, without following the required procedures, has the potential of being unfair to the defendant, the prosecuting authority, or to the victim.

Section 4 revises the law addressing release before trial of a person charged with a crime. Proposed AS 12.30.011 adopts standards and conditions for release in general, and AS 12.30.016 adopts standards and conditions for release for specific crimes.

Proposed **AS 12.30.011** first adopts conditions that must he imposed on all persons released pending trial. They are very general – including a requirement that the person obey all laws, appear in court when ordered, and keep in contact with the person's attorney.

- Subsection (b) provides conditions that a court may impose on a person charged with a crime if, in the court's discretion the condition will reasonably assure the person's appearance and the safety of the victim, other persons, and the community. Many of these conditions are in current law. Others are included in federal bail law. Several were suggested by a retired judge who is doing contract work for the court system. There is also a general authorization for additional reasonable conditions.

- Subsection (c) describes the various circumstances that the court should consider in deciding what conditions are reasonable to impose on the person. These are similar to current law.

- Subsection (d) provides the evidentiary burdens that a court must apply in making a decision about the release of a person. Generally, the burden of proof is on the prosecuting authority to establish that particular conditions are reasonable to assure the defendant's appearance and the safety of the victim and others. However, the bill proposes a rebuttable presumption, that no condition or combination of conditions will assure the defendant's appearance or the safety of the victim or others if (1) the defendant is charged with an unclassified felony, a class A felony, or a sexual felony;

(2) the person is charged with a felony, has a previous conviction for a felony, and less that five years have elapsed since his or her unconditional release for the prior conviction; (3) the offense was committed while the defendant was on release for another offense; (4) the charge is for a crime involving domestic violence, and the defendant has been convicted within the previous five years of a crime involving domestic violence; or (5) the defendant has been arrested in connection with a felony warrant from another state that alleges that the defendant is a fugitive from justice from that state.

Proposed **AS 12.30.016** adopts conditions that may be imposed in particular cases. These conditions are in addition to the general conditions authorized under AS 12.30.011(a) and (b). Most of these additional conditions are found in current law.

- Subsection (b) provides additional conditions that may be imposed on persons charged with Title 04 violations such as selling alcohol without a license or bootlegging, and with drunk driving and refusal to submit to a breath test. These conditions include, for example, a judicial officer ordering a person to submit to a breath test when requested to do so by a law enforcement officer.

- Subsection (c) provides additional conditions that may be imposed on a person charged with violation of the drug laws, and include, for example, prohibiting the person from entering or remaining in a place where a controlled substance is being used, manufactured, grown, or distributed.

- Subsection (d) is a provision that was enacted in 2006, that adopts a mandatory requirement of $250,000 cash bond for a person charged with manufacturing methamphetamine, unless the defendant proves to the court that his or her role was only as an aider or abettor and that the defendant did not stand to gain financially from the offense.

- Subsection (e) adopts specific conditions for a person charged with stalking that is not a crime involving domestic violence. The conditions are similar to those in current law.

- Subsection (f) adopts specific conditions that a court may impose on a person charged with a sex offense. The conditions are similar to current law, except that it adds a condition that the court may order the defendant to have no contact with person under 18 years of age, except for contact made during the normal course of business in a public place. It requires the court, as does current law, to assure that the victim has been notified of the

hearing or reasonable efforts to do so have been made, and to consider the victim's comments in making a release decision.

Section 5 adopts standards for the appointment of a third-party custodian for a person released before trial. It requires a court to obtain information about the proposed custodian including the person's ties to the community and his or her relationship with the defendant. It also sets minimum standards for custodians such as requiring the person to be physically able to perform the duties of custodian, and requires the person to agree to report immediately if the defendant has violated conditions. The bill also prohibits a person from acting as third-party custodian under certain circumstances, such as if the person may be called as a witness in the case, the person is on probation, or resides out of state.

Section 6 amends the statute addressing the general release conditions of a person charged with a crime involving domestic violence by conforming it to the language used in the newly adopted sections of the bill. It does not include a substantive change.

Section 7 amends the law that prohibits a court from allowing a person charged with a crime involving domestic violence from returning to the residence of the victim or to the residence of a person who has a protective order directed at the defendant. This prohibition was found to violate equal protection of the law in *Williams v. State*, 151 P.3d 460 (Alaska App. 2006). This section is in response to *Williams*, and would overturn it to the extent that it would prohibit a person from returning to the residence of the victim unless certain conditions were met. These include requiring that 20 days have elapsed since the arrest, the victim or petitioner consents to the return, the defendant does not have a prior conviction for a domestic violence crime against a person, and the defendant establish by clear and convincing evidence that return to the residence does not pose a danger to the victim or petitioner.

Section 8 rewrites the provision addressing appeal from conditions of release. Current law and the bill provide specific procedures for requesting the court to change conditions of release. The bill does not reenact the provision in current law that allows the court that imposed the conditions to hear at any time a motion to amend the release order. Rather, the bill requires the person to follow the procedures provided in the bill for asking the court to amend conditions.

The appeal procedure from the trial court's bail decision is similar in the bill to current law. The standard for review is the same as current law – the appellate court shall affirm the lower court unless it finds that the lower court abused its discretion. The bill allows the appellate court to modify the order, remand the case for further proceedings, or to direct the entry of an appropriate release order. This is also similar to current law.

Section 9 adds a new section addressing the temporary release of a person for an emergency such as the death of a family member. It is similar to current law under AS 12.30.010(a).

Section 10 addresses the release of persons who have been found guilty but not yet sentenced or whose conviction is being appealed. It allows release under the general provisions of AS 12.30, but it requires the person seeking release to establish by clear and convincing evidence that the release sought will reasonably assure the person's appearance and the safety of the victim, other persons, and the community.

Under current law certain defendants may not be released after being found guilty, including a person convicted of an unclassified or class A felony. The current statute also prohibits release of persons convicted of class B or C felonies if they have a previous conviction for certain serious felonies. This later category was found by the court of appeals to violate the constitutional guarantee of equal protection of law. *Bourdon v. State*, 28 P. 3d 319 (Alaska App. 2001). The bill would prohibit release of a person found guilty of all sexual felonies, and a person found guilty of a class B felony who has been convicted of a felony in the prior 10 years. It avoids the problem in *Bourdon* by applying the prohibition to all persons convicted of class B felonies who have a conviction of a felony in the previous 10 years.

Section 11 makes clarifying changes to the law for the retention or release of a material witness who is not expected to respond to a subpoena to appear. The bill does not change the substance of current law to a great degree. It does, however, specify that the court may order a material witness who is not expected to respond to a subpoena to be arrested and released under the bail law. As does current law, it allows a material witness to be detained for enough time to take a deposition and then released, unless justice requires the person be personally present at trial.

Section 12 specifies that a person who is in custody in connection with a petition to revoke probation does not have a right to release under AS 12.30. This is the same as current law. *Burt v. State*, 823 P.2d 14 (Alaska App. 1991). However, a probationer may request release under AS 12.30. The bill provides that the probationer must establish by a preponderance of evidence that conditions on his or her release will reasonably assure the appearance of the probationer and the safety of the victim, other persons, and the community.

Section 13 is a conforming amendment to current law.

Section 14 provides that for purposes of the bail statutes, a conviction occurs at the time a person is found guilty, either by verdict of by plea.

Section 15 adds definitions to the bill.

Sections 16 – 18 are conforming amendments.

Section 19 provides that service of domestic violence protective orders on respondents need not by made by law enforcement officers if the respondent has already been served with the protective order on the record in court. It also specifies that when a judicial officer has denied a petition for a protective order, the order denying the petition need not be served on anyone.

Sections 20 and 21 amend Rule 5, Alaska Rules of Criminal Procedure. Current law requires a person who has been arrested to be brought before a judicial officer within 24 hours of being arrested. The bill changes this from 24 hours to 48 hours. Although the preferred procedure is to have persons arrested be brought as soon as possible before a judicial officer, the change in the deadline will give prosecutors and the police more time to gather information to provide the court in making a release decision, and allows more time to locate and inform the victim of the right to be present at release hearings.

Sections 22 and 23 are conforming amendments.

Section 24 amends Rule 41(c), Alaska Rules of Criminal Procedure, by providing that a court may not change or add to a bond requirement without the agreement of the surety.

Section 25 is a conforming amendment.

Section 26 amends Rule 603(b), Alaska Rules of Appellate Procedure, to clarify that release of a person whose conviction is being appealed may be allowed as provided by the provisions of AS 12.30.

Sections 27 – 29 include the repealers, the applicability sections, and the effective date provision.

March 10, 2010

Hon. Jay Ramras
Chair, House Judiciary Committee
Alaska State Capitol, Room 118
Juneau, Alaska 99801

Re: House Bill 324 – Bail Reform

Dear Chairman Ramras:

I am writing first to thank you for the thoughtful and thorough hearings that you held for HB 298 (sexual assault and abuse) and HB 316 (evidence retention and post-conviction DNA testing). I am also writing to ask again that you consider scheduling House Bill 324, the bail reform bill, for a hearing in the House Judiciary Committee. I hope you will not think we are too demanding, but there are good reasons to hear the bail bill: in addition to protection of the public and other victims, victims of sexual assault and sexual abuse will greatly benefit from the passage of the bill. Although bail reform is not directly targeted at sexual assault or sexual abuse in the state, the bill would provide additional protection to victims of these crimes.

The Problems with current law:

Our bail laws date back to 1966. It is clear that when the legislature adopted these statutes, times were not as difficult as present. For example, unless a person has been convicted of an unclassified felony or a class A felony, our bail laws allow a person found guilty of any other crime, either by plea or by verdict, to be released pending imposition of sentence or during an appeal. The following scenarios are only a few of many examples of the danger that can result from the application of the current law.

> Larry Berryhill, IJU-07-992CR, was convicted of two counts of Sexual Abuse of a Minor in the Second Degree for having sexual contact with a young boy who worked for him at his lodge in Gustavus. After being found guilty, and over the state's objection, the court released him on an unsecured signature bond, in lieu of posting bail, in the amount of $25,000. Mr. Berryhill did not appear for his sentencing. Alaska State Troopers and law enforcement agents from other states

(Mr. Berryhill had committed similar crimes in other states) found that Mr. Berryhill had fled to Argentina, and was vacationing in New Zealand and Europe when he should have appeared in court for his sentencing. Mr. Berryhill died before the Troopers were able to arrest him. He did not spend a single day in jail for his sexual abuse of that young boy.

Michael Williams, 3AN-10-166CR, has been convicted of a felony five times, two of the felonies were federal armed bank robbery convictions from the late 1980s. In January, 2008, he was charged with the Robbery in the First Degree for a home invasion robbery with multiple victims. The state proceeded with the prosecution under the three strikes law – with a 99 year sentence possible if convicted. This potential sentence is higher than most people convicted of homicide would receive. Over the state's objection, bail was set at $5,000 cash appearance bond and a third party custodian was appointed. The state requested several times that his bail be increased, but were unsuccessful. Mr. Williams skipped out soon after release, and a bench warrant was issued for his arrest. He has not been found.

James Spencer, 3AN-09-2113CR, was charged with Robbery in the First Degree after confronting a Carr's employee with a handgun. Over the state's objection, his bail was set at $1,000 cash performance bond, and $5,000 cash or corporate appearance bond. Last week, Mr. Spenser was arrested and charged with a new Robbery in the First Degree for an armed robbery at the Burger King (3AN010-2471CR).

Jack Lee Espinoza, Jr., 3AN-10-2113CR, was charged with two counts of Robbery in the First Degree. He had been convicted of more than 10 crimes in the past, several of them were felonies. Over the state's objection, Mr. Espinoza had been released on bail of $2,500 cash or corporate appearance bond and ankle monitoring. Within 48 hours of his release, Mr. Espinoza had cut off his ankle monitor, and with another person committed another armed robbery at a trailer in Anchorage. The victim was shot, allegedly by the other person, during the robbery.

How HB 324 will help avoid these problems

Section 10 of HB 324 (page 13, beginning at line 26) provides that a person found guilty of a sexual felony may not be released pending imposition of sentence or appeal. The legislature has raised the maximum term of imprisonment for a person convicted of a sexual felony to 99 years; with that maximum term the danger of flight is high. Additionally, the

danger of sex offenders victimizing others is significant. Mr. Berryhill would not have been released after being found guilty of sexual abuse under HB 324.

HB 324 is similar to federal law in part because it would adopt a presumption, that is rebuttable, that no combination of conditions or monetary bail would ensure the safety of the public and the appearance of the defendant in cases where the person is either charged with an unclassified or a class A felony (similar to current law), or the defendant is a higher risk of flight or danger to the public (new in HB 324). The bill provides that other persons with higher risk include the following:

- persons charged with a felony who have a prior felony conviction and less that five years have elapsed since unconditional release for the prior felony;
- persons charged with a crime committed while the person was on release for another charge or conviction;
- persons charged with a domestic violence crime if the person has a conviction for a domestic violence crime within the previous five years;
- persons arrested in connection with a felony charge or conviction out of state and the person is fugitive from the other jurisdiction.

The individuals described in the scenarios above (except for Mr. Berryhill), would have burden of going forward under HB 324 with suggestion for release conditions. For example, Mr. Williams would have to present information and suggestions for conditions of release that would satisfy a judicial officer that he would not be a danger to the public and he would not be a flight risk. Mr. Williams still has the constitutional right to have bail set for him.

Additionally, HB 324 would adopt standards for third party custodians so that, for example, a person charged with crimes, on probation, or with recent convictions could not act as a third party custodian. HB 324 would require a judicial officer to do basic screening of a person before appointing the person as a custodian. Defendants have taken advantage of third party custodians in the past. There have been advertisements on Craig's list for third party custodians (see attached).

Misconceptions about HB 324

We have heard several comments about HB 324 that are simply not accurate. For example, the bill changes the deadline for the first appearance before a court of a person arrested from 24 to 48 hours. This change has been described as contrary to the practice of a

majority of other states. As can be seen by the attached memorandum and chart, Alaska is one of only three states who require a first appearance within 24 hours. The remaining states have later deadlines. There are many good reasons to change this deadline. It would give all parties a chance to gather information for better informed bail hearings. Even more important is that victims in Alaska have a constitutional right to appear at arraignments and bail hearings. Often we are unable to notify them of a hearing that must be held within 24 hours of arrest; other times the victim is still in the hospital at this time. The change to a 48 hour deadline will help the system make the victim's right to be present much more meaningful.

We also have heard people say that HB 324 would prohibit certain people from being released on bail. This is not correct. Defendants have a constitutional right to have bail set for their release. HB 324 simply changes certain procedures for the courts to follow in setting bail. In doing so, it would protect the public and discourage bail jumping much better than does current law.

Sincerely,

DANIEL S. SULLIVAN
ATTORNEY GENERAL

By: Richard A. Svobodny
Deputy Attorney General

MEMORANDUM

STATE OF ALASKA

Department of Law - Criminal Division

To: Senate Judiciary Committee

Date: March 1, 2010

Thru: Richard Svobodny, Deputy Attorney General
Anne Carpeneti, Assistant Attorney General

From: Susan S. McLean SMc
Director, Criminal Division

Subject: **Other State Rules - First Appearance After Arrest**

General Considerations

The Fourth Amendment requires that a person must be released from custody after 48 hours if a court has not determined that there is probable cause for the arrest. *County of Riverside v. McLaughlin*, 500 U.S. 44, 57-59, 111 S.Ct. 1661, 1670-1671 (1991). Violation of the rule is but one factor to consider in determining whether to suppress a defendant's in-custody statements.

- Since probable cause (and the amount of bail) must be determined before an arrest warrant issues, a probable cause determination only applies to warrantless arrests.
- Since probable cause may be determined on the basis of affidavits and sworn testimony after a warrantless arrest, the defendant's presence is not required at a probable cause hearing.
- Many states require appearance before a magistrate without unnecessary delay, but most courts have not defined "without unnecessary delay" as a specific amount of time, and determine meaning on a case by case basis.

Only 3 of the 24 states which set specific time limits mandate appearance within 24 actual hours of arrest.

Summary - First Appearance Following Warrantless Arrest, By Total Number of States

3 states - 24 hours, calculated including weekends and holidays (AK, FL, MD)
1 state - 24 hours, weekends and holidays *may* be included or excluded (WA)
6 states - 24 hours, calculated *excluding* weekends and holidays (AZ, CT, DE, ID, MA, NH)

1 state - 36 hours, calculated *excluding* day of arrest, Sundays and holidays (MN)

7 states- 48 hours, including weekends and holidays (AL, AR, GA, HI, MS, NE, TX)
1 state - 48 hours, *excluding* Sunday, holiday, and days when court not in session (CA)
1 state - 48 hours, *excluding* Saturday, Sunday and holidays (ME)
1 state - 48 hours if 1st appearance is combined w/prob. cause hearing (court decision) (WI)

2 states - 72 hours, including weekends and holidays (NJ, WY)
1 state - 72 hours, *excluding* Saturday, Sunday and holidays (LA)
1 state - 72 hours is "without delay", if probable cause w/in 48 hours (court decision) (TN)
21 states - "without unnecessary delay" (CO, IL, IA, KS, KY, MI, MT, NV, NM, NY, NC, ND, OH, OK, OR, PA, RI, SD, UT, VT, WV)

2 states - "forthwith" (SC, VA)

1 state - "promptly" (repealed a 24- hour rule in 1995) (IN)

1 state - person must be released if not "charged" within 20 hours, but no provision for first appearance (MO)

State Time Limits for Initial Appearance Before Magistrate

State	Time Limit	Authority	Statutory language/construction
Alabama	48 hours - Warrantless arrest 72 hours - Arrest w/ warrant	Ala. R. Crim. P. 4.3(a)(1)(iii) Ala. R. Crim. P. 4.3(b)(2)(i)	
Alaska	24 hours, including weekends and holidays	Alaska R. Crim. P. 5(a)(1)	
Arizona	24 hours, excluding Sat., Sun and holidays	Ariz. R. Crim. P. 4.1(b) and Ariz. R. Crim. P. 1.3	*See, State v. Watkins,* 2008 WL 3171651 * 3 (Ariz. App. Aug.5, 2008) (Sat. Sun. and legal holiday excluded from calculation of 24 hrs; citing Rules 4.1(b) and 1.3))
Arkansas	48 hours Case law suggests that exception may exist for weekends and holidays	Ark. R. Crim. P. 4.1(e)	*See, Larson v. Dorney,*__ F.Supp.__, Slip. Op. 2009WL 903392 *4 (W.D. Ark, April 1, 2009)(delay between arrest on Good Friday and appearance on Monday was "as promptly as calendar would allow")
California	48 hours, excluding Sundays and holidays. If 48 hours expires when court is not in session, then next judicial day.	CA Penal Code § 825(a)(1) CA Penal Code § 825(a)(2)	
Colorado	without unnecessary delay	CRSA. § 16-2-112 Colo. R. Crim. P. 5	
Connecticut	24 hours, excluding Sat., Sun. and holidays	CRS 54-1(g) Conn. Practice Book R. 37-1	Statutory language "promptly before the court sitting next regularly" means the next court day, excluding weekends and holidays. *State v. Pirowski,* 11 Conn. App. 238,240, 526 A.2d 562 (1998)
Delaware	24 hours, excluding Sundays and holidays	11 Del. C. § 1909	
Florida	24 hours, including weekends and holidays	Fla. R. Crim. P 3.130	
Georgia	48 hours –warrantless arrest 72 hours – arrest with warrant	Ga. Uniform St. Ct. R. 26.1 Ga. St § 17-4-62; Ga. St § 117-4-26	
Hawaii	48 hours	H.R.S. 803-9(5)	
Idaho	24 hours, excluding Sat., Sun. and holidays	I.C.R. Rule 5(b)	
Illinois	without unnecessary delay	I.L.C.S. § 109-1	*See, People v. Willis,* 831 N.E.2d, 531, 538 (Ill., 2005) Ill Court cites *McLaughlin* as requiring 48 hours, but delay is only one factor to be examined in deciding whether confession is voluntary. Court has not otherwise defined "unnecessary delay".

Indiana	" promptly" 24 hr. rule repealed, 1995 Ct. decision implies that more than 48 hours can pass before initial appearance before magistrate	Ind. Code § 35-33-7-1	*See, State v. Larson*, 776 N.W.2d, 254, 258 (Ind. 2009) – probable cause must be determined with 48 hours, but can be based on hearsay and written testimony. "Arrested person has no right to be physically present at probable cause hearing." Ind. law does not provide for a specific period of time in defining how "promptly" a person is brought before magistrate
Iowa	without unnecessary delay	I.C.A. 804.22	
Kansas	without unnecessary delay	KSA 2003 Supp. 22- 2901	*See, State v. Carrow*, 2006 WL 399251 *4 (Kan. App., Feb. 17, 2006) - cites *McLaughlin* as defining "without unreasonable delay" to mean that period of delay "cannot be longer than 48 hours, excluding weekends and holidays"
Kentucky	without unnecessary delay	Ky. R. Crim. P. 3.02(2)	
Louisiana	72 hours excluding Sat., Sun, holidays	LSA – C.Cr. P. Art. 230-1(A)	
	48 hours probable cause hearing, which is not adversarial and conducted without presence of defendant	LSA –C. Cr. P. Art. 230.2(A)	
Maine	48 hours, excluding Sat., Sun and holidays	Me. R. Crim. P. 5(a)	
Maryland	24 hours, including weekends and holidays	Md. Rule 4-212(e) and (f)	Although statute does not specifically state "including weekends", it is clear from case law. *See, e.g., Odum v. State*, 846 A. 2d 145 (Md. App. 2004)
Massachusetts	24 hours, excluding weekends and holidays (see judicial interpretation re probable cause determination)	Mass. R. Crim. P. 7	"accused shall be brought before court then in session, and, if not at its next session". Language at the court's "next session" suggests that if an accused is arrested on Friday, the next session would be a regular court day. *See, Jenkins v. Chief Justice of Dist. Court Dept.*, 619 N.E.2d 324, 337,339 (Mass, 1993) holding that probable cause must be determined within 24 hours but that the determination may be made ex parte upon written documents.
Michigan	without unnecessary delay	M.C.L.A. § 764.13	
Minnesota	36 hours, excluding day of arrest, Sun and holidays	49 M.S.A. R. Crim. P. 4.02(5)	

Mississippi	without unnecessary delay, within 48 hours	M.C.A. 99-3-17 Uniform Cnty and Cir R 6.03	
Missouri	None – must be charged within 20 hours, but no requirement of personal appearance	V.Ann.Mo.C. Art. 544.170	All persons who are arrested without warrant shall be released if not charged and held by warrant within 20 hours of arrest
Montana	without unnecessary delay	MCA 46-7-101	*See, St. v. Brown*, 933 P.2d 672, 675-676 (Mont. 1999) acknowledging *McLaughlin* 48 hour time limit for probable cause determination, and holding that to be one factor in deciding voluntariness of confession.
Nebraska	48 hours	Neb. Crim. Rule 5.1(b)(1)	
Nevada	without unnecessary delay -warrantless arrest 72 hours- arrest with warrant	N.R.S. 171-1771 N.R.S. 171-178	*See, Powell v. State*, 930 P.2d 1123 (Nev. 1997), acknowledging that *McLaughlin* requires probable cause hearing within 48 hours
New Hampshire	24 hours, excluding Sat., Sun. and holidays	N.R.S. § 594:20(a)	
New Jersey	72 hours, provided that complaint showing probable cause is filed within 12 hours of arrest	N.J. Crim. Rules 3:4-1 and 3:4-2

Hon. Jay Ramras
Chair, House Judiciary Committee
Alaska State Capitol, Room 118
Juneau, Alaska 99801

Re: House Bill 324 – Bail Reform

Dear Chairman Ramras:

I am writing first to thank you for the thoughtful and thorough hearings that you held for HB 298 (sexual assault and abuse) and HB 316 (evidence retention and post-conviction DNA testing). I am also writing to ask again that you consider scheduling House Bill 324, the bail reform bill, for a hearing in the House Judiciary Committee. I hope you will not think we are too demanding, but there are good reasons to hear the bail bill: in addition to protection of the public and other victims, victims of sexual assault and sexual abuse will greatly benefit from the passage of the bill. Although bail reform is not directly targeted at sexual assault or sexual abuse in the state, the bill would provide additional protection to victims of these crimes.

The Problems with current law:

Our bail laws date back to 1966. It is clear that when the legislature adopted these statutes, times were not as difficult as present. For example, unless a person has been convicted of an unclassified felony or a class A felony, our bail laws allow a person found guilty of any other crime, either by plea or by verdict, to be released pending imposition of sentence or during an appeal. The following scenarios are only a few of many examples of the danger that can result from the application of the current law.

> Larry Berryhill, IJU-07-992CR, was convicted of two counts of Sexual Abuse of a Minor in the Second Degree for having sexual contact with a young boy who worked for him at his lodge in Gustavus. After being found guilty, and over the state's objection, the court released him on an unsecured signature bond, in lieu of posting bail, in the amount of $25,000. Mr. Berryhill did not appear for his sentencing. Alaska State Troopers and law enforcement agents from other states

(Mr. Berryhill had committed similar crimes in other states) found that Mr. Berryhill had fled to Argentina, and was vacationing in New Zealand and Europe when he should have appeared in court for his sentencing. Mr. Berryhill died before the Troopers were able to arrest him. He did not spend a single day in jail for his sexual abuse of that young boy.

Michael Williams, 3AN-10-166CR, has been convicted of a felony five times, two of the felonies were federal armed bank robbery convictions from the late 1980s. In January, 2008, he was charged with the Robbery in the First Degree for a home invasion robbery with multiple victims. The state proceeded with the prosecution under the three strikes law – with a 99 year sentence possible if convicted. This potential sentence is higher than most people convicted of homicide would receive. Over the state's objection, bail was set at $5,000 cash appearance bond and a third party custodian was appointed. The state requested several times that his bail be increased, but were unsuccessful. Mr. Williams skipped out soon after release, and a bench warrant was issued for his arrest. He has not been found.

James Spencer, 3AN-09-2113CR, was charged with Robbery in the First Degree after confronting a Carr's employee with a handgun. Over the state's objection, his bail was set at $1,000 cash performance bond, and $5,000 cash or corporate appearance bond. Last week, Mr. Spenser was arrested and charged with a new Robbery in the First Degree for an armed robbery at the Burger King (3AN010-2471CR).

Jack Lee Espinoza, Jr., 3AN-10-2113CR, was charged with two counts of Robbery in the First Degree. He had been convicted of more than 10 crimes in the past, several of them were felonies. Over the state's objection, Mr. Espinoza had been released on bail of $2,500 cash or corporate appearance bond and ankle monitoring. Within 48 hours of his release, Mr. Espinoza had cut off his ankle monitor, and with another person committed another armed robbery at a trailer in Anchorage. The victim was shot, allegedly by the other person, during the robbery.

How HB 324 will help avoid these problems

Section 10 of HB 324 (page 13, beginning at line 26) provides that a person found guilty of a sexual felony may not be released pending imposition of sentence or appeal. The legislature has raised the maximum term of imprisonment for a person convicted of a sexual felony to 99 years; with that maximum term the danger of flight is high. Additionally, the

danger of sex offenders victimizing others is significant. Mr. Berryhill would not have been released after being found guilty of sexual abuse under HB 324.

HB 324 is similar to federal law in part because it would adopt a presumption, that is rebuttable, that no combination of conditions or monetary bail would ensure the safety of the public and the appearance of the defendant in cases where the person is either charged with an unclassified or a class A felony (similar to current law), or the defendant is a higher risk of flight or danger to the public (new in HB 324). The bill provides that other persons with higher risk include the following:

- persons charged with a felony who have a prior felony conviction and less that five years have elapsed since unconditional release for the prior felony;
- persons charged with a crime committed while the person was on release for another charge or conviction;
- persons charged with a domestic violence crime if the person has a conviction for a domestic violence crime within the previous five years;
- persons arrested in connection with a felony charge or conviction out of state and the person is fugitive from the other jurisdiction.

The individuals described in the scenarios above (except for Mr. Berryhill), would have burden of going forward under HB 324 with suggestion for release conditions. For example, Mr. Williams would have to present information and suggestions for conditions of release that would satisfy a judicial officer that he would not be a danger to the public and he would not be a flight risk. Mr. Williams still has the constitutional right to have bail set for him.

Additionally, HB 324 would adopt standards for third party custodians so that, for example, a person charged with crimes, on probation, or with recent convictions could not act as a third party custodian. HB 324 would require a judicial officer to do basic screening of a person before appointing the person as a custodian. Defendants have taken advantage of third party custodians in the past. There have been advertisements on Craig's list for third party custodians (see attached).

Misconceptions about HB 324

We have heard several comments about HB 324 that are simply not accurate. For example, the bill changes the deadline for the first appearance before a court of a person arrested from 24 to 48 hours. This change has been described as contrary to the practice of a

majority of other states. As can be seen by the attached memorandum and chart, Alaska is one of only three states who require a first appearance within 24 hours. The remaining states have later deadlines. There are many good reasons to change this deadline. It would give all parties a chance to gather information for better informed bail hearings. Even more important is that victims in Alaska have a constitutional right to appear at arraignments and bail hearings. Often we are unable to notify them of a hearing that must be held within 24 hours of arrest; other times the victim is still in the hospital at this time. The change to a 48 hour deadline will help the system make the victim's right to be present much more meaningful.

We also have heard people say that HB 324 would prohibit certain people from being released on bail. This is not correct. Defendants have a constitutional right to have bail set for their release. HB 324 simply changes certain procedures for the courts to follow in setting bail. In doing so, it would protect the public and discourage bail jumping much better than does current law.

Sincerely,

DANIEL S. SULLIVAN
ATTORNEY GENERAL

By: Richard A. Svobodny
Deputy Attorney General

MEMORANDUM

STATE OF ALASKA

Department of Law - Criminal Division

To: Senate Judiciary Committee

Date: March 1, 2010

Thru: Richard Svobodny, Deputy Attorney General
Anne Carpeneti, Assistant Attorney General

From: Susan S. McLean SMc
Director, Criminal Division

Subject: **Other State Rules - First Appearance After Arrest**

General Considerations

The Fourth Amendment requires that a person must be released from custody after 48 hours if a court has not determined that there is probable cause for the arrest. *County of Riverside v. McLaughlin*, 500 U.S. 44, 57-59, 111 S.Ct. 1661, 1670-1671 (1991). Violation of the rule is but one factor to consider in determining whether to suppress a defendant's in-custody statements.

- Since probable cause (and the amount of bail) must be determined before an arrest warrant issues, a probable cause determination only applies to warrantless arrests.
- Since probable cause may be determined on the basis of affidavits and sworn testimony after a warrantless arrest, the defendant's presence is not required at a probable cause hearing.
- Many states require appearance before a magistrate without unnecessary delay, but most courts have not defined "without unnecessary delay" as a specific amount of time, and determine meaning on a case by case basis.

Only 3 of the 24 states which set specific time limits mandate appearance within 24 actual hours of arrest.

Summary - First Appearance Following Warrantless Arrest, By Total Number of States

3 states - 24 hours, calculated including weekends and holidays (AK, FL, MD)
1 state - 24 hours, weekends and holidays *may* be included or excluded (WA)
6 states - 24 hours, calculated *excluding* weekends and holidays (AZ, CT, DE, ID, MA, NH)

1 state - 36 hours, calculated *excluding* day of arrest, Sundays and holidays (MN)

7 states- 48 hours, including weekends and holidays (AL, AR, GA, HI, MS, NE, TX)
1 state - 48 hours, *excluding* Sunday, holiday, and days when court not in session (CA)
1 state - 48 hours, *excluding* Saturday, Sunday and holidays (ME)
1 state - 48 hours if 1st appearance is combined w/prob. cause hearing (court decision) (WI)

2 states - 72 hours, including weekends and holidays (NJ, WY)
1 state - 72 hours, *excluding* Saturday, Sunday and holidays (LA)
1 state - 72 hours is "without delay", if probable cause w/in 48 hours (court decision) (TN)
21 states - "without unnecessary delay" (CO, IL, IA, KS, KY, MI, MT, NV, NM, NY, NC, ND, OH, OK, OR, PA, RI, SD, UT, VT, WV)

2 states - "forthwith" (SC, VA)

1 state - "promptly" (repealed a 24- hour rule in 1995) (IN)

1 state - person must be released if not "charged" within 20 hours, but no provision for first appearance (MO)

State Time Limits for Initial Appearance Before Magistrate

State	Time Limit	Authority	Statutory language/construction
Alabama	48 hours - Warrantless arrest 72 hours - Arrest w/ warrant	Ala. R Crim. P. 4.3(a)(1)(iii) Ala. R. Crim. P. 4.3(b)(2)(i)	
Alaska	24 hours, including weekends and holidays	Alaska R. Crim. P. 5(a)(1)	
Arizona	24 hours, excluding Sat., Sun and holidays	Ariz. R. Crim. P. 4.1(b) and Ariz. R. Crim. P. 1.3	*See, State v. Watkins,* 2008 WL 3171651 * 3 (Ariz. App. Aug.5, 2008) (Sat. Sun. and legal holiday excluded from calculation of 24 hrs; citing Rules 4.1(b) and 1.3))
Arkansas	48 hours Case law suggests that exception may exist for weekends and holidays	Ark. R. Crim. P. 4.1(e)	*See, Larson v. Dorney,*__ F.Supp.__, Slip. Op. 2009WL 903392 *4 (W.D. Ark, April 1, 2009)(delay between arrest on Good Friday and appearance on Monday was "as promptly as calendar would allow")
California	48 hours, excluding Sundays and holidays. If 48 hours expires when court is not in session, then next judicial day.	CA Penal Code § 825(a)(1) CA Penal Code § 825(a)(2)	
Colorado	without unnecessary delay	CRSA. § 16-2-112 Colo. R. Crim. P. 5	
Connecticut	24 hours, excluding Sat., Sun. and holidays	CRS 54-1(g) Conn. Practice Book R. 37-1	Statutory language "promptly before the court sitting next regularly" means the next court day, excluding weekends and holidays. *State v. Pirowski,* 11 Conn. App. 238,240, 526 A.2d 562 (1996)
Delaware	24 hours, excluding Sundays and holidays	11 Del. C. § 1909	
Florida	24 hours, including weekends and holidays	Fla. R. Crim. P 3.130	
Georgia	48 hours –warrantless arrest 72 hours – arrest with warrant	Ga. Uniform St. Ct. R. 26.1 Ga. St § 17-4-62; Ga. St § 117-4-26	
Hawaii	48 hours	H.R.S. 803-9(5)	
Idaho	24 hours, excluding Sat., Sun. and holidays	I.C.R. Rule 5(b)	
Illinois	without unnecessary delay	I.L.C.S. § 109-1	*See, People v. Willis,* 831 N E.2d, 531, 538 (Ill., 2005) Ill Court cites *McLaughlin* as requiring 48 hours, but delay is only one factor to be examined in deciding whether confession is voluntary. Court has not otherwise defined "unnecessary delay".

Indiana	" promptly" 24 hr. rule repealed, 1995 Ct. decision implies that more than 48 hours can pass before initial appearance before magistrate	Ind. Code § 35-33-7-1	*See, State v. Larson*, 776 N.W.2d, 254, 258 (Ind. 2009) – probable cause must be determined with 48 hours, but can be based on hearsay and written testimony. "Arrested person has no right to be physically present at probable cause hearing." Ind. law does not provide for a specific period of time in defining how "promptly" a person is brought before magistrate
Iowa	without unnecessary delay	I.C.A. 804.22	
Kansas	without unnecessary delay	KSA 2003 Supp. 22- 2901	*See, State v. Carrow*, 2006 WL 399251 *4 (Kan. App., Feb. 17, 2006) - cites *McLaughlin* as defining "without unreasonable delay" to mean that period of delay "cannot be longer than 48 hours, excluding weekends and holidays"
Kentucky	without unnecessary delay	Ky. R. Crim. P. 3.02(2)	
Louisiana	72 hours excluding Sat., Sun, holidays 48 hours probable cause hearing, which is not adversarial and conducted without presence of defendant	LSA – C.Cr. P. Art. 230-1(A) LSA –C. Cr. P. Art. 230.2(A)	
Maine	48 hours, excluding Sat., Sun and holidays	Me. R. Crim. P. 5(a)	
Maryland	24 hours, including weekends and holidays	Md. Rule 4-212(e) and (f)	Although statute does not specifically state "including weekends", it is clear from case law. *See, e.g., Odum v. State*, 846 A. 2d 145 (Md. App. 2004)
Massachusetts	24 hours, excluding weekends and holidays (see judicial interpretation re probable cause determination)	Mass. R. Crim. P. 7	"accused shall be brought before court then in session, and, if not at its next session". Language at the court's "next session" suggests that if an accused is arrested on Friday, the next session would be a regular court day. *See, Jenkins v. Chief Justice of Dist. Court Dept.*, 619 N.E.2d 324, 337,339 (Mass, 1993) holding that probable cause must be determined within 24 hours but that the determination may be made ex parte upon written documents.

Subject: Court Statiscs for Bail Bill

Hello all. Our tech people have gone through our CourtView courts (all courts except those in the first district; first district cases are not included in these numbers) and come up with numbers for the various categories of offenses that will be subject to the rebuttable presumption of no bail. Now I have to figure out how to make sense of all of it. We have broken down the numbers by category, but because there will be a lot of overlap (for example a person counted in the category for any of the particular offense categories may also be counted in the category of persons subject to a petition to revoke probation), we can't just add up the categories and come to a number. Once I go through all of this I will let you know how I plan to assess the impact. Please let me know if you have any questions or comments about these data. Doug

These data are arranged by statute reference in sections 4 and 12 of the bill.

AS 12.30.011(d)(2)(A): See attached. Note that there is a difference between the number of offenses and the number of cases. I think that we need to look at the number of cases because one person may be charged with more than one offense that would trigger the presumption. I think that once the presumption is triggered, the presumption attaches and other offenses don't need to be counted.

AS 12.30.011(d)(2)(B): There were 4,134 defendants charged with a felony (other than a felony from the bill's list of specific offenses) during FY09.
Of those, **1,403** had been convicted of a felony in the prior 10 years. (7/1/1998 or later) This was our measure of those who commit a felony within five years of the date of their unconditional discharge. We can't directly track by unconditional discharge date, but we can track by conviction date. This search assumed that each felony defendant served 5 years probation and thus five years following their unconditional discharge would be ten years from the date of their conviction. Some of the periods of probation will be longer than 5 years and some less, but this was the average we settled on. This number does not include those with an out-of-state conviction

AS 12.30.011(d)(2)(C): We don't have a way to track those who commit an offense while on bail from an earlier charge.

AS 12.30.011(d)(2)(D): There were 3148 defendants charged with a DV related crime during FY09. Of those, **919** were previously convicted of a DV related crime in the prior 5 years.

AS 12.30.011(d)(2)(E): In CourtView locations during FY09 there were 96 cases where the defendant was charge with the following: AS12.70.120: Arrest Prior To Requisition (Fugitive from Justice)

AS 12.30.055 (in section 12 of the bill): See attached.

Re: House Bill 324
Constitutional Issues

Chair Ramras:

Thank you for the opportunity to submit written testimony regarding House Bill 324. The American Civil Liberties Union of Alaska represents thousands of members and activists throughout the State of Alaska who seek to preserve and expand individual freedoms and civil liberties guaranteed under the United States and Alaska Constitutions. From that perspective, we have several concerns with the proposed legislation.

Section 4 Unconstitutional Restrictions on Pre-Trial Release

Section Four of the Bill proposes a new section AS 12.30.011 with a myriad of constitutional infirmities.

The Alaska Constitution states that "an accused is entitled . . . to be released on bail, except for capital offenses when the proof is evident or the presumption great." Alaska Const., Art. I, Sec. 11. Subsection (d) of Section 4 of the Bill, however, proposes that for a wide group of defendants ***the court should presume, subject to rebuttal by the defendant, that no amount of bail and no conditions of release will ensure the appearance of the defendant and protect the victim and the public***. The language used for the presumption, that "no condition or combination of conditions will reasonably assure" public safety or the defendant's appearance, is a phrase used to

describe the basis by which a judge can deny bail entirely to a defendant. *See, e.g.*, 18 U.S.C.A. § 3142(e)(1); Pa. Const. Art. 1, § 14.

While the proposed new statutory language does not specifically state that those who cannot be safely released shall be held without bail, the language leaves no clear alternative. Thus ***it proposes to impermissibly negate the dictates of the Alaska Constitution and to deny bail entirely to many defendants***, while imposing on them the burden to refute the denial of bail. The categories of defendants to whom this denial would apply includes those arrested for class A or unclassified felonies, any sexual felony, anyone previously convicted of a felony except if the complete term (including any parole or probation term) had terminated more than five years ago, anyone also under charge in another case, anyone arrested for a domestic violence charge who had previously been convicted of a domestic violence charge within the last five years, or anyone arrested "in connection with" an allegation of commission of an offense outside the state or being a fugitive from justice in another state.

The Alaska Supreme Court has clearly and unequivocally held that the outright denial of bail violates the Alaska Constitution. *Martin v. State*, 517 P.2d 1389 (Alaska 1974) (holding that the refusal of bail to a person arrested on a charge of forgery who had three outstanding cases of forgery against him violated both Alaska statutes and Article I, Section 11 of the Alaska Constitution). In fact, the *Martin* court discussed a very similar argument by the Department of Law in these terms:

> "The State urges that these amendments [to the bail statutes] permit the detention of defendants without bail when the judicial officer determines that the defendant 'will pose a danger to other persons and the community.' . . . The legislature could not, of course, infringe upon the constitutional right of bail. . . . *[A] legislative enactment expressly permitting the detention of persons without right to bail would be unconstitutional unless a constitutional amendment were adopted.*" *Martin*, 517 P.2d at 1396-97 (emphasis added).

Should the plain language of Article I, Section 11 be insufficient to inform the State that pretrial bail is a right not subject revocation by the legislature or the courts, the history of the enactment of the bail clauses to the Alaska Constitution should make clear that any and all defendants should receive a bail hearing. Victor Fischer, delegate to the Constitutional Convention, commented during the convention that the phrase "when the proof is evident and the presumption great" had been enacted in Alaska, as in other states, to show that even defendants in capital offenses should generally be eligible for bail: "The actual determination of when a person is released on bail, if charged with a capital offense, is still up to the judge." 2 Proceedings of the Alaska Constitutional Convention 1344-45 (Jan. 6, 1956) *cited in State v. Wassillie*, 606 P.2d 1279, 1282 (Alaska 1980).

If the Constitutional Convention drafted Article I, Section 11 with the intent that even those charged with capital cases should receive a bail hearing, then the Governor's bill that defendants

charged with felonies should be presumed **not** to be eligible for bail must surely violate the terms of the bail clauses of the Alaska Constitution. The proposed amendments in Section 4 of H.B. 324 do not pass constitutional review, as they contradict both the language of Article I, Section 11, which vests all defendants except those in capital cases with the right to bail, and the Supreme Court's analysis in *Martin*.

Even were a finding that "no condition or combination of conditions" support release somehow constitutional, the burden-shifting provision of the statute is inappropriate in the context of a bail hearing conducted within hours of arrest. These hearings may be conducted in the absence of counsel; even where the defendant obtains counsel within a few hours of arrest, defense counsel will not likely be capable of carrying the burden to show that the defendant is not a danger and not likely to fail to appear. *See Stack v. Boyle*, 342 U.S. 1, 11 (1951) (stating that an initial bail hearing "must be done in haste – the defendant may be taken by surprise, counsel has just been engaged, or for other reasons the bail is fixed without that full inquiry and consideration which the matter deserves," Jackson, J., concurring). Bearing that burden would require witnesses and documentation on the defense side, resources likely impossible for even a privately retained counsel.

The ACLU of Alaska requests that this Committee delete or appropriately revise these clearly unconstitutional provisions in HB 324.

Section 4 Improper Proposed Expansion of Court Authority

The primary purpose of bail is to ensure the appearance of the accused. A judge may consider public safety or the safety of individuals in setting conditions for release. However, beyond specific findings relating to an individual defendant and specific reasons for concern that he may fail to appear or endanger others, **a judge does not have more interest in supervising an arrestee, who is presumed innocent, than he does over a member of the general public**. *U.S. v. Scott*, 450 F.3d 863, 874 (9th Cir. 2006).

Thus, certain provision in Section Four, subsection (b) of H.B. 324 violate the constitutional protections regarding granting of bail. Subsection (b)(6) permitting a judge to "require the person to maintain employment, or if unemployed, actively seek employment" has no bearing on either the likelihood of the individual to appear in court nor on any danger posed to the victim or the public. Pretrial supervision is not a period of "pre-probation" when the State may broadly supervise an accused. The State's legitimate interests are limited to ensuring public safety and ensuring the appearance of the accused. These kinds of provisions infringe on the right of the defendant to be considered an innocent person. Excessive bail conditions, unjustified by traditional state interests, resemble probationary supervision and thus constitute unconstitutional punishment prior to adjudication.

While other provisions in subsection (b) could have conceivable use in specific individual cases, the long list of bail conditions set forth essentially invites judges to overuse them. Prohibitions

on the use of alcohol and entry to licensed premises, for instance, are currently imposed excessively and frequently without the individualized inquiry required in *Scott*. Overuse of alcohol-related restrictions for Alaska Native defendants has been a basis of criticism for ethnic disparities in the criminal justice system. Instead of minimizing these existing disparities, H.B. 324 would institutionalize them.

Another area of particular concern in the enumerated bail conditions are two provisions relating to health care, subsections (b)(15) and (b)(16) which purport to permit a judge to require a defendant to adhere to courses of psychiatric and medical treatment and to compel a defendant to take prescription medications. The right to bodily privacy is an integral part of the right to privacy under the Alaska Constitution. Allowing the criminal justice system to shortcut the elaborate existing framework by which a person may be committed to psychiatric care would present serious constitutional problems. For instance, in a commitment proceeding, the individual has a right to notice of what treatment specifically has been proposed and then may line up appropriate experts to contest the treatment plan. Under this statute, the defendant has no notice of such a request, no opportunity to bring appropriate experts to court, and thus no way to contest whether the proposed plan of treatment is proper or not. The bill also invites an infringement of the right to privacy in one's medical information and records, since a judge must naturally inquire into the current medical and psychiatric treatment of the accused in order to ensure that the orders are carried out. In order to make sense, the provisions relating to medical care presuppose exposure of the accused's sensitive medical information in open court.

Again, given these important constitutional interests, the ACLU recommends the Committee delete or revise Section 4, subsection (b) of HB 324.

Section One's Proposed Addition of AS Sec. 11.56.730
Offends the Due Process Clause of the Alaska Constitution

Section One of H.B. 324 proposes creation of the offense of "failure to appear," and requires the state to show no mental state other than the knowledge that one should have been in court. Thus, a person could be convicted of a serious felony for inadvertently or accidentally failing to appear.

Generally, the criminal law requires "not only the doing of some act by the person to be held liable, but also the existence of a guilty mind *during the commission of the act." Speidel v. State*, 460 P.2d 77, 80 (Alaska 1969) (emphasis added). The Alaska courts have held that, for major felonies, a mental state requirement is mandatory, while some ***minor*** offenses, such as hunting or public health related offenses may be strict liability offenses without a mental state requirement. *Speidel*, 460 P.2d 77 (holding that the statute declaring the failure to return a car to be a crime, regardless of mental state, violated due process); *see also State v. Guest*, 583 P.2d 836 (Alaska 1978); *State v. Fremgen*, 914 P.2d 1244 (Alaska 1996). In some cases, the courts have avoided declaring a statute unconstitutional by creating a mental state requirement where a statute has no provision for mental state. *Kimoktoak v. State*, 584 P.2d 25 (Alaska 1978); *Alex v. State*, 484

P.2d 677 (Alaska 1971). However, given the explicit statement that no mental state is required in Section One, the courts would not be able to avoid the constitutional conflict and must rule the statute unconstitutional.

On a policy basis, the Committee should consider the impact of H.B. 324 on the prison population of the state. The ACLU of Alaska's recent review of the prison system showed that over the past seven years the population of prisoners in custody for most types of crimes (e.g., property offenses, offenses against the person, sex offenses) has remained largely stable. The expansion of the prison population from 2002 to 2008 was due almost exclusively to the *tripling* of the number of prisoners incarcerated for two types of offenses: for violations of probation and parole and for public order and administration offenses. Public order and administration offenses include victimless offenses relating to criminal justice administration, and the largest group of these offenders consists of those serving time for failure to appear in court. The state can hardly argue in the face of a tripling of the number of offenders incarcerated on those types of offenses that the judiciary has been too lenient on those who fail to appear. Passing this bill will ensure an even greater expansion in the Alaska prison population as a result of more prosecutions and more convictions for failures to appear.

The Committee should also take note that the equivalent federal rule, as well as many state rules, requires a showing that the defendant ***"deliberately" or "willfully"*** missed court. *Hutchison v. State*, 27 P.3d 774, 777-79 (Alaska App. 2001) (noting that the federal bail statute, 18 U.S.C. § 3150, as well as Connecticut, California, and Illinois statutes, require a showing of "willful" failure to appear). Given that the federal court system and several large state court systems do not find themselves facing large numbers of non-appearing defendants, even when only "willful" failures to appear are prosecuted, the current, stricter Alaska standard of "knowing" failure to appear should adequately ensure appearance of defendants.

The Committee should also consider the potential negative effects of this policy on judicial efficiency. As the law stands now, a defendant who misses court through neglect or confusion has a strong interest in appearing in court immediately upon realizing the mistake to have his bench warrant lifted, since that response will tend to show an innocent mental state and a sincere desire to participate in the court process. Under the proposed bill, a defendant who misses court through neglect or confusion will face the same penalty for turning himself in the next day as if he disappears for the next six months. Creating a stiffer penalty and eliminating any meaningful defense will encourage those who do miss court to absent themselves from court indefinitely. No policy or penalty is ever going to prevent neglect, mistake, and confusion. A flexible, and in some cases forgiving, policy will serve judicial efficiency best.

Problematic Extension of Time for Bail Hearing

Section Three proposes to extend the window of detention prior to a bail hearing to 48 hours. Under current Alaska law, a defendant must be brought before a judicial officer within 24 hours.

Under *Gerstein v. Pugh*, a probable cause hearing must be held without unreasonable delay. 420 U.S. 103 (1975).

After a standard of 24 hours was adopted by most states and most circuits, a narrowly divided US Supreme Court stated that the initial appearance must be made only within 48 hours. *Riverside v. McLaughlin*, 500 U.S. 44 (1991). However, *Riverside* does not bind the states in their interpretation of their own constitutions. In one accounting of state responses to *Gerstein*, most states had concluded that 24 hours was the appropriate term under the case, and only seven states explicitly permitted more than 24 hours prior to an initial hearing. *Jenkins v. Chief Justice of Dist. Court Dept.*, 619 N.E.2d 324, 333-34 (Mass. 1993).

Since Alaska has guaranteed a 24-hour window for initial appearances for ***18 years*** since the *Riverside* decision, the state courts may be hard pressed to see why a 48-hour window would not likely permit "unreasonable delay." The Alaska courts have not yet had a chance to rule on the dimensions of the "speedy trial" provision of Article I, section 11 as it relates to initial appearances, since Rule 5 has long guaranteed a 24-hour window of appearance. The Supreme Court could very well decide that the state constitutional provisions relating to speedy trial and due process require a 24-hour window prior to initial appearance, just as the Massachusetts Supreme Court did in *Jenkins*.

Given that the currently existing rules of criminal procedure already provide an exception for defendants arrested far from urban centers and allow the prosecution to request a delay to gather more information where necessary for a bail hearing, the state's success over the last 18 years in providing a hearing within 24 hours strongly suggests that a delay of more than 24 hours would represent unnecessary delay, making the statute unconstitutional.

Unconstitutional Imposition of Warrantless Search

Section Four's proposed addition of A.S. Sec. 12.30.016 seeks to allow unconstitutional warrantless searches. Subsections (b)(2), (c)(2). Compared to probationers and parolees, the rights of pretrial defendants against unreasonable search and seizure are strong.

While comparatively little case law exists in Alaska courts, a recent Ninth Circuit case strongly endorsed the rights of pretrial defendants against warrantless searches. In *United States v. Scott*, the defendant had been arrested on drug charges and his release was conditioned on his "consent" to suspicionless search of his home and random drug tests. 450 F.3d 863 (9th Cir. 2006). After a positive urine test for methamphetamine, officers searched his home and found a shotgun. *Id.* at 866. The Ninth Circuit held that his consent was not valid, as he would have been placed in custody if he had declined. *Id.* at 870. Most importantly, the court said: "if a defendant is to be released subject to bail conditions that will help protect the community from the risk of crimes he might commit while on bail, the conditions must be justified by a showing that defendant poses a heightened risk of misbehaving while on bail. The government cannot, as it is

trying to do in this case, short-circuit the process by claiming that the arrest itself is sufficient to establish that the conditions are required." *Id.* at 874.

Creating a blanket rule that a court may impose bail conditions that violate rights against unreasonable search without requiring any kind of individualized finding would violate the rule enunciated in *Scott*. A provision that states that such conditions may only be imposed after a written finding of the reasons particular to the individual defendant as to why such bail conditions are necessary may render this section constitutional.

Overly Broad Imposition of Third Party Custodians

Section 5 of the Bill unconstitutionally proposes to limit a pre-trial defendant's liberty. A pretrial defendant enjoys a right to be considered innocent; he also enjoys a default right to his liberty. *Stack v. Boyle*, 342 U.S. 1. ("This traditional right to freedom before conviction permits the unhampered preparation of a defense, and serves to prevent the infliction of punishment prior to conviction. Unless this right to bail before trial is preserved, the presumption of innocence, secured only after centuries of struggle, would lose its meaning."). No showing of proof, no adversarial proceeding is required for the filing of a complaint. As such, the court should require a showing from the prosecution to impose a condition of bail on the accused. Yet the third-party custodian provision imposes no restraint on the court's authority.

Contrast, for instance, the language from Section 5, "a judicial officer may appoint a third-party custodian if the officer finds that the appointment will, singly or in combination with other conditions, reasonably assure the person's appearance and the safety of the victim, other persons, and the community" to the language from Section 4, "the officer shall impose *the least restrictive condition* or conditions that will reasonably assure the person's appearance." The term "least restrictive," or any sense that a bail condition should be "necessary" rather than simply the court's preference, is missing from Section 5.

Arguably, the imposition of a third party custodian requirement would enhance the likelihood of *any* defendant's appearance in court. However, the courts are not free to impose any quantity of bail they like or to impose any conditions that seem like a good idea. Such conditions may be imposed only when found to be necessary.

The Committee should note that in a recent Alaska Judicial Council survey on the criminal justice system, excessive and arbitrary use of the third-party custodian requirement was one of the most frequent complaints. The original purpose of the third-party requirement – to ensure that impoverished defendants incapable of making cash bail could be released in a manner that assured community safety and court appearance – has been almost totally lost. A third-party custodian is now often imposed as a matter of course, rather than after specific findings, and in addition to, not in lieu of, cash bail. To prevent more abuse, a court should be required to make specific, written findings as to why a third-party custodian is necessary.

Conclusion

We hope that the Judiciary Committee will note these are just some of the constitutional infirmities in House Bill 324.

While the ACLU of Alaska supports appropriate revisions to the criminal justice system to address the special circumstances of our State, and its evolving needs, this Bill is not well-crafted to vindicate the state's purposes.

The sections we have identified present substantial Constitutional problems and will likely entangle the state in lengthy and costly litigation, should H.B. 324 pass as currently written.

Thank you again for the opportunity to share our concerns. And please feel free to contact the undersigned should you require any additional information.

Sincerely,

Jeffrey Mittman
Executive Director
ACLU of Alaska

2008	$ 14,841,627	$ 7,420,814.00		$ 3,737,350.00	$ 3,683,464.00	$ 4,754,585.00	$ -
2009	No program was conducted.						

Notes:

SFY 2003/04/05	During SFY 2003/04/05, DHSS RSA'd the school district funds to DEED. In turn, DEED disbursed to School District.
SFY 2005	DHSS assumption is the CMS deferral of $3,689,826, includes claims from FFY 2004.
SFY 2007	Ratification request for SFY 2007 is for claims made during the first six months of the State fiscal year.
SFY 2007/2008	CMS currently has the period Jan. 1, 2007 thru June 30, 2008 under audit review. Initial indication from CMS is they expect repayment of $10 million paid to the state for claims during this time period and denial of the $4+ million claim deferred. The State continues to negotiate with CMS regarding these audit findings.

CS FOR HOUSE BILL NO. 326(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making supplemental appropriations, capital appropriations, and other appropriations; amending appropriations; repealing appropriations; making appropriations to capitalize funds; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act for the purposes expressed for the fiscal year beginning July 1, 2009 and ending June 30, 2010, unless otherwise indicated.

	Allocations	Appropriation Items	General Funds	Other Funds

Kodiak Flood Emergency Repairs (HD 36)	500,000			

(SECTION 4 OF THIS ACT BEGINS ON THE NEXT PAGE)

* **Sec. 4.** The following sets out the funding by agency for the appropriations made in sec. 3 of this Act.

Funding Source	Amount
Department of Commerce, Community and Economic Development	
1004 Unrestricted General Fund Receipts	2,100,000
*** Total Agency Funding ***	$2,100,000
Department of Corrections	
1004 Unrestricted General Fund Receipts	2,850,000
*** Total Agency Funding ***	$2,850,000
Department of Health and Social Services	
1002 Federal Receipts	8,782,300
1003 General Fund Match	6,208,000
*** Total Agency Funding ***	$14,990,300
Department of Transportation/Public Facilities	
1002 Federal Receipts	5,257,500
1004 Unrestricted General Fund Receipts	16,077,123
1027 International Airports Revenue Fund	15,000,000
*** Total Agency Funding ***	$36,334,623
* * * * * Total Budget * * * * *	$56,274,923

(SECTION 5 OF THIS ACT BEGINS ON THE NEXT PAGE)

*** Sec. 5.** FINDINGS REGARDING SECS. 1, 3, 6, 7, 8, 10, 12(a), AND 12(c) OF THIS ACT. The legislature finds that the State of Alaska has realized savings of the general fund of $99,162,200 through the federal medical assistance percentage provisions of P.L. 111-5 (American Recovery and Reinvestment Act of 2009), and those savings, in part, are being used to finance the appropriations made from the general fund in secs. 1, 3, 6, 7, 8, 10, 12(a), and 12(c) of this Act.

*** Sec. 6.** DEPARTMENT OF CORRECTIONS. The sum of $3,335,000 is appropriated to the Department of Corrections to implement the interest arbitration decision dated March 19, 2009, establishing monetary terms of the collective bargaining agreement with the Alaska Correctional Officers Association, for the fiscal year ending June 30, 2010, from the following sources:

General fund	$3,302,300
Federal receipts	32,700

*** Sec. 7.** DEPARTMENT OF EDUCATION AND EARLY DEVELOPMENT. The sum of $180,000 is appropriated from the general fund to the Department of Education and Early Development, special schools, for transportation of students to receive services through the Alaska school for the deaf program for the fiscal year ending June 30, 2010.

*** Sec. 8.** DEPARTMENT OF HEALTH AND SOCIAL SERVICES. The sum of $242.72 is appropriated from the general fund to the Department of Health and Social Services, division of juvenile justice, for payment of unpaid bills for services received in 2003 and 2004, for fiscal year ending June 30, 2010.

*** Sec. 9.** DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT. The unexpended and unobligated balance, not to exceed $85,000, of the appropriation made in sec. 1, ch. 27, SLA 2008, page 17, lines 4 - 5 (Office of the Governor, Branch-wide Oil & Gas Development) is reappropriated to the Department of Labor and Workforce Development, Alaska Workforce Investment Board, for gas pipeline activities for the fiscal year ending June 30, 2010.

*** Sec. 10.** DEPARTMENT OF LAW. (a) The sum of $28,864.77 is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments and settlements against the state for the fiscal year ending June 30, 2010.

(b) The amount necessary, after application of the amount appropriated in (a) of this section, to pay judgments awarded against the state on or before June 30, 2010, is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments against the state for the fiscal year ending June 30, 2010.

*** Sec. 11.** DEPARTMENT OF NATURAL RESOURCES. (a) Section 10, ch. 29, SLA 2008, page 70, lines 28 - 32, is amended to read:

	APPROPRIATION ITEMS	GENERAL FUND
Architecture and Engineering for a New Geologic Material Center [IN EAGLE RIVER] - Phase 1 (HD 17-32)	1,500,000	1,500,000

(b) The proceeds from the sale of Department of Natural Resources aircraft and surplus aircraft parts and accessories, estimated to be $2,000,000, are appropriated from the general fund to the Department of Natural Resources for the purchase of replacement aircraft.

*** Sec. 12.** FUND TRANSFERS. (a) The sum of $1,116,986,600 is appropriated from the general fund to the public education fund (AS 14.17.300).

(b) The sum of $79,000 is appropriated from the Alaska Industrial Development and Export Authority revolving fund (AS 44.88.060) to the small business economic development revolving loan fund (AS 44.88.400).

(c) The sum of $5,000,000 is appropriated from the general fund to the disaster relief fund (AS 26.23.300(a)).

*** Sec. 13.** RATIFICATIONS OF CERTAIN EXPENDITURES. (a) The expenditures by the Department of Natural Resources for fire suppression for the fiscal year ending June 30, 2009 (AR 37313-09 Fire General Fund), are ratified in the amount of $10,297,678.22.

(b) The following departmental expenditures made in fiscal years 2003, 2005, 2006, 2007, 2008, and 2009 are ratified to reverse the negative account balances in the Alaska state accounting system in the amount listed for the AR number. The appropriations from which these expenditures were actually paid are amended by increasing those appropriations by the

amount listed, as follows:

Department of Commerce, Community, and Economic Development	
(1) AR 29605-08 Alaska Energy Authority Owned Facilities	$12.95
Department of Education and Early Development	
(2) AR 17722-07 Student and School Achievement	293.08
Department of Health and Social Services	
(3) AR 22708-03 DAS DMA Unbudgeted RSA for DAS Staff Support	140.40
(4) AR 22730-09 Alaska Commission on Aging Unbudgeted RSA	11.00
(5) AR 22736-03 DFYS DMA Unbudgeted RSA	.34
(6) AR 22791-08 Alaska Rural EMS Optimization Project Unbudgeted RSA	259.54
(7) AR 23125-05 Behavioral Health Administration	5,482.79
(8) AR 23932-08 Health Planning and Infrastructure	633.78
(9) AR 23934-06 Information Technology Services	4.92
(10) AR 23610-05 Epidemiology	295,356.97
(11) AR 23608-05 Certification and Licensing	31,701.51
(12) AR 23315-04 Medicaid State Programs	1,380,444.00
(13) AR 23928-05 Medicaid School Based Administrative Claims	221,290.00
(14) AR 23928-06 Medicaid School Based Administrative Claims	2,283,323.00
(15) AR 23928-07 Medicaid School Based Administrative Claims	3,060,691.00
Alaska Court System	
(16) AR 76560-08 Domestic Violence VAWA RSA	322.50

(c) The following departmental expenditures made in fiscal years 2002, 2003, 2004, 2005, 2007, 2008, and 2009 are ratified to charge off uncollectable accounts receivables in the Alaska state accounting system in the amount listed for the AR number. The appropriations from which these expenditures were actually paid are amended by increasing those appropriations by the amount listed, as follows:

Department of Corrections	
(1) AR 50662-05 Anchorage Correctional Complex	$409,334.19
(2) AR 50760-07 Probation and Parole Director's Office	2,661.22
Department of Education and Early Development	
(3) AR 18005-04 Program Administration	22,694.51
Department of Labor and Workforce Development	
(4) AR 28500-02 Employment Services	39.41
(5) AR 28190-05 Labor Market Information	290.99
(6) AR 28230-03 Independent Living Rehabilitation	649.53
(7) AR 28510-04 Unemployment Insurance	442.91
(8) AR 28510-05 Unemployment Insurance	14,592.60
(9) AR 28510-07 Unemployment Insurance	3,592.15
(10) AR 28510-08 Unemployment Insurance	150.00
(11) AR 27790-08 North Pacific Fisheries Disaster - Aid RSA	4,400.00
Department of Revenue	
(12) AR 15530-07 Long Term Care Ombudsman Office	7,004.19
Department of Transportation and Public Facilities	
(13) AR 61686-10 Federal Transit Administration Grants	2.18
(14) AR 58096-10 Cooperative Reimbursable Projects	29.65
(15) AR 58622-11 Cooperative Reimbursable Projects	.37
(16) AR 58662-11 Federal Transit Administration Grants	.72
(17) AR 59198-11 Alaska Marine Highway: Terminal - Alaska Marine Highway System Headquarters Building, Grounds, and Renovation	.22
(18) AR 58640-10 Alaska Mobility Coalition	.13
(19) AR 60252-10 Cooperative Reimbursable Projects	.88
(20) AR 61219-12 Federal Transit Administration Grants	.17
(21) AR 61009-10 Federal Transit Administration Grants	14,254.03
(22) AR 61812-10 Coffman Cove/Wrangell/Petersburg Ferry and Ferry Facilities	.21
(23) AR 63203-10 Surface Transportation Preconstruction	.09

(24) AR 61613-10 Federal Transit Administration Grants	2.02
(25) AR 61961-10 Statewide: Various Airports Runway and Heliport Lighting	205.06
(26) AR 62139-10 Alaska Marine Highway: Prince William Sound Fast Vehicle Ferry	1.19
(27) AR 62598-10 Kodiak: Selief Lane Reconstruction	1,062.98
(28) AR 62656-10 Cooperative Reimbursable Projects	.01

*** Sec. 14.** RETAINED FEES AND BANKCARD SERVICES. Section 22(b), ch. 12, SLA 2009, is amended to read:

(b) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2010, is appropriated for that purpose to each agency of the executive, legislative, and judicial branches that accepts payment by bankcard or credit card for licenses, permits, goods, and services provided by that agency on behalf of the state, and to the Department of Law for accepting payment of restitution in accordance with AS 12.55.051 **and AS 47.12.170** by bankcard or credit card, from the funds and accounts in which the payments received by the state are deposited.

*** Sec. 15.** STATE DEBT AND OTHER OBLIGATIONS. Section 26(i), ch. 12, SLA 2009, page 85, lines 9 - 14, is amended to read:

(i) The sum of $50,028,700 is appropriated to the state bond committee for payment of debt service and trustee fees on outstanding international airports revenue bonds for the fiscal year ending June 30, 2010, from the following sources in the amounts stated:

SOURCE	AMOUNT
International Airports Revenue Fund	**$36,828,700**
(AS 37.15.430)	[$46,828,700]
Passenger facility charge	3,200,000
International Airports Construction Fund (AS 37.15.420)	**10,000,000**

*** Sec. 16.** AMENDMENT OF LAPSE OF CERTAIN FISCAL YEAR 2010 APPROPRIATIONS. Section 22(e), ch. 14, SLA 2009, is amended to read:

(e) The appropriations made by sec. 19 of this Act lapse **June 30, 2010** [FEBRUARY 28, 2010].

* **Sec. 17.** REVENUE AND APPROPRIATION BALANCE; CONSTITUTIONAL BUDGET RESERVE. (a) The amount necessary for full repayment of the amounts owed the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska), as of June 30, 2010, estimated to be $401,617,000, is appropriated from the general fund to the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska).

(b) If the unrestricted state revenue available for appropriation in fiscal year 2010 is insufficient to cover general fund appropriations made for fiscal year 2010, the amount necessary to balance revenue and general fund appropriations is appropriated from the budget reserve fund (AS 37.05.540) to the general fund.

(c) Section 27(c), ch. 12, SLA 2009, is amended to read:

(c) The sum of $1,673,000 is appropriated from the **general fund** [BUDGET RESERVE FUND (ART. IX, SEC. 17, CONSTITUTION OF THE STATE OF ALASKA)] to the Department of Revenue, treasury division, for operating costs related to management of the budget reserve fund for the fiscal year ending June 30, 2010.

(d) Section 27(d), ch. 12, SLA 2009, is amended to read:

(d) The appropriations made by **(a)** [(a) AND (c)] of this section are made under art. IX, sec. 17(c), Constitution of the State of Alaska.

* **Sec. 18.** LAPSE OF APPROPRIATIONS. (a) The appropriations made by secs. 3 and 11 of this Act are for capital projects and lapse under AS 37.25.020.

(b) The appropriations made by sec. 12 of this Act are for the capitalization of funds and do not lapse.

* **Sec. 19.** REPEALER. Section 43(c), ch. 15, SLA 2009 is repealed.

* **Sec. 20.** Section 7 of this Act takes effect immediately under AS 01.10.070(c).

* **Sec. 21.** Except as provided in sec. 20 of this Act, this Act takes effect April 18, 2010.

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
1	1	Administration	Administrative Hearings	Tax appeal case cost increase - 27 open cases as of January 2010, driving a need to keep all Administrative Law Judge positions filled.	85.0				85.0
2	1	Administration	EPORS	Elected Public Officers' Retirement System - total of 38 members (retirees and survivors) - increased costs due to mandatory benefit increases based on the salaries of the position from which a member retired.	250.0				250.0
3	1	Administration	Office of Public Advocacy	Increased operating costs - During FY 2010, OPA has experienced a significant spike in case assignments throughout the state. In the first two quarters of this fiscal year, the agency has seen a 21% increase in case assignments over the same time period in FY 2009. The most notable areas of increase are as follows: criminal defense representation, 47%; child advocacy representation in Child in Need of Aid (CINA) cases, 20%; parental representation in CINA cases, 30%. This amounts to 869 more new cases than over the same time period last year. Due to unexpectedly high growth in the guardianship caseload of 13.6% in FY 2009, the agency added a public guardian position during this fiscal year. Also during FY 2010, to meet the needs of abused and neglected children in the Yukon-Kuskokwim Delta, the agency is issuing a contract for additional guardian ad litem services due to an 18.5% increase in CINA cases during FY 2009.	865.0				865.0
4	1	Administration	Office of Public Advocacy	Supplemental authorization is needed to accept and spend federal grant funds for the Court Appointed Special Advocate (CASA) program, awarded to the Office of Public Advocacy after the end of the last legislative session.		27.6			27.6
5	1	Administration	Public Defender Agency	Increased operating costs - The PD has experienced significant increases in caseloads throughout the state in all types of cases in the first and second quarters of FY2010 as compared to the same period in FY2009. All cases statewide are up approximately 10%, felonies are up 15%, and misdemeanors are up 11%. Anchorage felonies are up 16% and misdemeanors are up 8%. Northern Region cases are up 25%, felonies are up 37%, and misdemeanors are up 30%. Overall that means there are 1,000 more new cases assigned already this year than for the same period last year.	800.0				800.0
6	1	Administration	Motor Vehicles	Federally mandated programming improvements to the National Motor Vehicle Information System - funded via a Department of Justice grant.		100.0			100.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
7	1	Administration	Motor Vehicles	Purchase of current technology, digital driver's license printers to replace outdated and increasingly irreparable 2004-purchased printers.		191.8			191.8
8	1	Commerce, Community and Economic Development	Insurance Operations	Print, mail and legal costs have increased $300.0 in two years. The division is statutorily required to provide notification of changes in rules, regulations and policies to occupational licensees. The tremendous increase in licensees over the last several years has brought with it increased need for legal counsel. This increase will allow the Division of Insurance to provide basic core functions necessary to ensure a level of consumer protection.			77.1	Receipt Supported Services	77.1
9	1	Corrections	Institution Director's Office	Coverage of projected shortfalls in 24-hour facilities - fuel and utility costs, and commodities (inmate food, clothing, bedding, institutional cleaning supplies, etc.)	2,409.6				2,409.6
10	1	Corrections	Wildwood Correctional Center	Operating costs, Wildwood Correctional Center 32-bed prefabricated offender housing unit - opening February 2010 - covers partial-year costs for filling six existing vacant positions.	494.4				494.4
11	1	Corrections	Physical Health Care	The Department of Corrections is obligated to deliver essential medical care to incarcerated offenders. The department is requesting a supplemental of $4,650.1 for increased inmate health care costs that includes fees-for-service and Inmate Health Care staff cost overages due to overtime for 24-hour medical coverage. There has been a dramatic increase in catastrophic cases in FY2010, as well as increases in general medical costs.	4,650.1				4,650.1
12	1	Environmental Conservation	Laboratory Services	Coverage of lab maintenance and service contract shortfalls, in lieu of elimination of 4-5 filled positions - an action which would seriously compromise public health and result in the likely shutdown of the State Lab within a year.	260.0				260.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
13	1	Fish and Game	Wildlife Conservation Special Projects	Decrease excess EVOS authority and increase Statutory Designated Program Receipts (SDPR) authority by $150.0 to a) accept two grants from the National Fish and Wildlife Foundation (NFWF) during the spring of 2009 to support the following research projects: Dall Sheep ecology within northern Alaska, and Reduce conflicts between Grizzly bears and old development within northern Alaska; and b) work with the Matanuska-Susitna Borough to complete some restroom improvements at Reflections Lake in the Palmer Hay Flats. EVOS funding is being reduced as the Harlequin Duck research by the division was not funded by the EVOS Trustee Council for new work during FY10.			0.0	EVOS (150.0) SDPR 150.0	0.0
14	1	Governor	Elections	Offset increased operating costs - coverage of costs for two filed petitions, Dept. Law legal fees for the Nick case, printing and supply purchases specific to the on-election-year, additional election worker training costs, increased postage and printing costs, and annual maintenance of optical scan units.	477.0				477.0
15	1	Health and Social Services	Behavioral Health Medicaid Services	Medicaid growth - 17% enrollment expansion from October 2008 to December 2009 compounded by growth in utilization of Medicaid services by those enrolled - exceeding projections used to construct the original FY2010 Governor's Request.	4,166.8	4,378.3			8,545.1
16	1	Health and Social Services	Children's Services Management	Replace unrealizable interagency receipts for Medicaid School Based Claims, without which the division will be unable to meet program operating costs.	165.0				165.0
17	1	Health and Social Services	Front Line Social Workers	Replace unrealizable interagency receipts for Medicaid School Based Claims, without which the division will be unable to meet program operating costs.	955.3				955.3
18	1	Health and Social Services	Medicaid Services	Medicaid growth - 17% enrollment expansion from October 2008 to December 2009 compounded by growth in utilization of Medicaid services by those enrolled - exceeding projections used to construct the original FY2010 Governor's Request.	33,296.6	37,319.7			70,616.3
19	1	Health and Social Services	Health Facilities Survey	Funding to cover shortfall, operating costs - provision of mandated state and federal oversight of state health facilities' licenses - renewal, denial, suspension or revocation as needed - to promote safe and adequate treatment of individuals in state facilities.	396.1				396.1

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
20	1	Health and Social Services	Health Planning and Infrastructure	Funding to replace loss of federal revenues - to cover provision of health care data and policy analysis related to access to services, health insurance coverage, utilization of services, health workforce and industry analysis - and management of the statutorily required Comprehensive Integrated Mental Health Plan.	575.0				575.0
21	1	Health and Social Services	McLaughlin Youth Center	Funding to cover projected shortfall, mandated client medical services costs - supplemental to be redistributed among four Division of Juvenile Justice facilities.	136.0				136.0
22	1	Health and Social Services	McLaughlin Youth Center	Funding to cover projected personal services shortfall due to higher than anticipated premium pay costs.	130.6				130.6
23	1	Health and Social Services	Probation Services	Funding to cover projected personal services shortfall due to an actual vacancy factor lower than budgeted, and need to cover a loss of SDPR revenues funding one position only through 12/31/09.	300.0				300.0
24	1	Health and Social Services	Energy Assistance Program	Increased federal authority to accept an increase in federal Low Income Home Energy Assistance Program revenues, as announced by the National Energy Assistance Director's Association.		2,300.0			2,300.0
25	1	Health and Social Services	Women, Children, and Family Health	Replace unrealizable interagency receipts for Medicaid School Based Claims, without which the division will be unable to meet program operating costs.	347.8				347.8
26	1	Health and Social Services	State Medical Examiner	Unanticipated costs due to caseload increase - will cover one additional autopsy technician, one medical transcriptionist, and increased costs for body transport.	300.0				300.0
27	1	Health and Social Services	General Relief/Temporary Assisted Living	Additional funding to meet projected increase in both number of clients and service costs within the General Relief program - FY2010 actuals are 15% above those of FY2009 - applicant eligibility review and other cost containment measures in place.	3,800.0				3,800.0
28	1	Health and Social Services	Senior/Disabilities Medicaid Services	Medicaid growth - 17% enrollment expansion from October 2008 to December 2009 compounded by growth in utilization of Medicaid services by those enrolled - exceeding projections used to construct the original FY2010 Governor's Request.	6,152.4	3,056.8			9,209.2

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
29	1	Health and Social Services	Senior/Disabilities Services Administration	Costs associated with compliance with the Centers for Medicaid and Medicare Services' approved Corrective Action Plan - personal service costs for necessary nonpermanent positions, travel costs connected to conducting assessments under Medicaid Waivers, and modification of the management information system.	885.0	590.0			1,475.0
30	1	Health and Social Services	Medicaid School Based Administrative Claims	Replace unrealizable interagency receipts for unallowable costs under federally funded RSAs within the department, to stabilize funding for centralized Administrative Support Services.	700.0				700.0
31	1	Health and Social Services	Information Technology Services	Funding to replace uncollectible federal revenues and cover increased personal service costs for this centralized function - unfunded costs would otherwise either be passed to divisions, resulting in a displacement of core program services, or IT staffing and workload would have to be significantly cut.	1,050.0				1,050.0
32	1	Law	Deputy Attorney General's Office	Legal analysis and litigation on items not budgeted - Cruise ship study, Kaltag Supreme Court appeal, PERL bankruptcy, and others	964.2				964.2
33	1	Natural Resources	Gas Pipeline Implementation	The unanticipated agreement between TransCanada Corporation and ExxonMobil to work together to progress the Alaska Gasline Inducement Act (AGIA) Gas Pipeline Project has accelerated the pace of the project. There is currently not enough funding in the FY10 budget to fully fund the four positions in the office. With the faster pace of the project, due diligence contractual requirements have increased, meaning more travel. There may be increased need to represent the state's interest in Washington, D.C., as well as other locations. Competitive Benchmark Study - Competitive benchmarking will allow the state to better understand market and supply changes that have occurred since the AGIA finding that might affect the economic viability of the gasline. There is increased need for additional field work and other small contractual studies needed to ensure the state has the most up-to date and accurate data.	537.6				537.6
34	1	Natural Resources	Large Project Permitting	Completion of Environmental Impact Statements associated with proposed Outer Continental Shelf oil and gas leasing and exploration activities.	85.0				85.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
35	1	Natural Resources	Fire Suppression Activity	The funding included in the FY2010 budget of $6,712.5 for wildland fire suppression is a "placeholder" amount based on historical cost (SLA 2009, Ch 12, Sec 1, Pg. 34, Ln 7). The amount proved to be insufficient to address the heavy fire activity during the summer of 2009. On July 22, 2009, the Governor signed a Declaration of a Disaster Emergency to authorize the use of additional funds to continue fire suppression operations and activities. New declarations are issued every 30 days. The total of the those declarations for FY2010in excess of the FY2010 authorized budget is $35,371,400.	35,371.4				35,371.4
36	1	Public Safety	Special Projects	Authority for receipt of additional ARRA federal funding to augment personal services costs of a forensic examiner, provide training to investigators in combatting Internet crimes, and purchase computer forensic equipment.		97.0			97.0
37	1	Public Safety	Special Projects	Continue cold case investigations and illegal drug and alcohol enforcement.	369.5				369.5
38	1	Public Safety	Prisoner Transportation	Funding to cover projected shortfall in prisoner transportation costs - airline ticket and private charter costs, baggage fees, out-of-state extradition fees and state travel office fees - based on straight-line projection for the year from the past 6.5 months.	300.0				300.0
39	1	Revenue	Treasury Division	Establish partial-year funding and new state investment officer position, coinciding with a state investment strategy change to support an internal effort to begin active management of other public market investments. Approval of this request and related funding in the Alaska Retirement Management Board (ARMB) component will enable the department to reduce external investment manager fees in the ARMB Custody and Management Fee component.			50.0	I/A Receipts	50.0
40	1	Revenue	Alaska Retirement Management Board	Increases funding in the Alaska Retirement Management Board (ARMB) component to fund one new investment officer position requested by the Treasury Division. Approval of the new Investment Officer position and funding will enable the department to reduce external investment manager fees in the ARMB Custody and Management Fee component.			50.0	$8.8 Benefit Systems Receipts $28.3 PERS $12.5 TRS $0.3 JRS $0.1 NGRS	50.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
41	1	Revenue	Alaska Retirement Management Board Custody and Management Fees	Reduced authorization is requested to reflect a decline in management fees resulting from a reduction in actively managed large cap publicly traded stocks as well as a decrease in management fees resulting from manager terminations due to organizational and performance issues and renegotiated contracts at a lower rate. The request represents the potential savings to the State by establishing and funding a new in-house Investment Officer in the Treasury Division to make asset allocation decisions rather than contracting with external managers.			(850.0)	($584.6) PERS ($256.3) TRS ($7.1) JRS ($2.0) NGRS	(850.0)
42	1	Revenue	Permanent Fund Dividend Division	Postage and printing costs for an unanticipated and necessary additional public outreach about the change from hard copy PFD applications to the web version. During this transitional year, however, the division has encountered the need for additional public notification and outreach about the changes that had not initially been anticipated.			94.1	Permanent Fund Dividend	94.1
43	1	Revenue	Child Support Services Division	One-time fund source change from Receipt Supported Services to federal incentive receipt authority. The Child Support Services Division (CSSD) earned additional federal incentive receipts in FFY2008 for meeting or exceeding federal performance standards. The division received notification on December 17, 2009 that additional FFY08 incentive dollars had been earned.		217.7	(217.7)	Receipt Supported Services	0.0
44	1	Revenue	Administrative Services	The Department of Revenue's servers crashed on 9/20/2009, affecting the Permanent Fund Dividend Application Information System (DAIS), the Tax Division's systems, and State Treasury systems. The need to bring all systems back online was critical. As a result, the department entered into an emergency agreement with Microsoft to provide problem resolution services and assist in bringing the systems back online.	60.1				60.1

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
45	1	Revenue	Administrative Services	The Department of Revenue maintains significant server and database infrastructures that include the Permanent Fund Dividend Division, the Tax Division, and the State Treasury Division. These systems use Microsoft Windows Server, SQL production and test databases VMware, and two NetApp storage filers in Juneau and Anchorage. In order for the department to provide the appropriate level of reliability and operational support, these systems need best practices defined and implemented for security, change control, documentation, backups, disaster recovery and planning. This request is to fund the following two contracts: Disaster Recovery and Security Procedures Backup Support - $70.0 Windows Server, SQL Server, and Help Desk Support - $30.0	100.0				100.0
46	1	Transportation and Public Facilities	Central Region Support Services	Legal Costs Related to Nikishka Beach Road Case The Department of Transportation and Public Facilities (DOT&PF) contends that Offshore Systems Kenai (OSK) is illegally engaged in the obstruction, control and closure of public access to and through Nikishka Beach Road which is a public road owned and operated by DOT&PF. OSK has established a guard shack and gate to prevent access to the road and beach in response to U.S. Coast Guard requirements that they secure and protect OSK's facility from trespass, vandalism, theft, etc. The case began in late FY08 and a trial has taken place; however the Judge has still not issued a ruling on the trial. We have incurred $45.5 in legal costs through December 2009. If a "Notice of Appeal" is not filed, the estimated amount needed for the Department of Law to complete post trial work is approximately $15.0 for a total of $60.5 in FY10.	60.5				60.5

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
47	1	Transportation and Public Facilities	Program Development	Road Weather Information System (RWIS) Maintenance Costs State funding will provide the resources to conduct critical maintenance work on the Department's Road Weather Information System (RWIS) program. The funding is necessary to maintain the RWIS software, equipment and a network of forty-nine (49) environmental sensor stations (ESS) strategically located along the highway system. Each ESS provides weather sensor data (temperature, wind speed, wind direction, relative humidity, pavement and sub-surface temperatures) and camera images. RWIS maintenance activities are not eligible for federal dollars and without adequate funding there is a potential risk of the entire RWIS network becoming inoperable.	175.0				175.0
48	1	Transportation and Public Facilities	State Equipment Fleet	Increased Operational Costs for Parts, Commodities, Services, and Fuel Purchases Travel - Travel is required to support the repairs and preventative maintenance programs for vehicles and equipment at rural airports and highways. Due to the unprecedented increase in fuel costs, airfares throughout the state were increased, having a direct impact on maintaining existing services. Services - Costs continue stay at higher levels than currently reflected in the component's budget for the shipment of freight such as parts, commodities, vehicles and equipment, the mission of the program is seriously impacted. Additional costs for vendor repairs are also being passed along to the State by the contractors. Commodities - Fuel costs and necessary consumables paid by the State Equipment Fleet and billed to the corresponding executive branch agencies have increased substantially since FY07. An increase in budget authority is required based on the projected use of these services through historical data. Parts and other commodities used by the State have also increased in cost.			2,706.7	Highway Equipment Working Capital Fund	2,706.7
49	1	Transportation and Public Facilities	Northern Region Facilities	Galena Maintenance Facility Operating and Maintenance Costs The FY09 operating budget contained a $110.0 increment to maintain a maintenance building at Galena that was transferred to the Department from the U.S. Air Force. That funding level was based upon completion of some aggressive cost savings measures which would be accomplished as part of a capital project for energy improvements. The project is scheduled for completion in the summer of 2010. FY10 estimated expenditures are $209.9, leaving a projected shortfall of $99.9.	99.9				99.9

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
50	1	Transportation and Public Facilities	Central Region Highways and Aviation	Enforcement of Clean Water Act - Environmental Protection Agency (EPA) Street Sweeping and Permit Compliance Costs Additional funding is required to meet the minimum requirements of the Environmental Protection Agency (EPA) Municipal Separate Storm Sewer System (MS4) Permit. The MS4 permit will go into effect on February 1, 2010. The EPA's MS4 permit increases the street sweeping requirements that are above and beyond the current MS4 permit, monitoring various aspects of the permit and reporting to EPA with regards to the permit. The FY2011 Governor's budget request includes $1,682.0 for these new ongoing requirements.	606.0				606.0
51	1	Transportation and Public Facilities	Northern Region Highways and Aviation	Legal Costs for Material Site Lawsuits Due to ongoing lawsuits filed by one of the regional native corporations for alleged infringement on their land and rights of way, we have incurred excessive costs again this year for Department of Law attorneys. None of the three lawsuits filed have yet gone to court so the total cost is unknown. Additional funding for $150.0 is based on the amount expended to date for attorneys and expert witnesses.	150.0				150.0
52	1	Transportation and Public Facilities	Southeast Region Highways and Aviation	Transportation Security Agency Requirements - Door Lock System and Fingerprint Machine To continue to meet Transportation Security Agency requirements a new security access door lock system needs to be installed for the Sitka Airport Terminal. The control system for these doors is outdated and has become unreliable. A replacement system is estimated to cost $30.0. Transportation Security Administration regulations require the Department to fingerprint all badge holders at our certificated airports. The existing fingerprint machine is out of date and has become unreliable. A new machine is estimated to cost $14.9.	44.9				44.9

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
53	1	Transportation and Public Facilities	Whittier Access and Tunnel	Bid Protest Costs for Whittier Tunnel Operations Contract A bidder protested the award of a contract for operation of the Whittier Tunnel Toll Facility. This resulted in unplanned attorney and hearing officer costs which will continue until a settlement is reached. The Department of Law has billed $12.0 for attorney services through November 2009, and we estimate $8.0 of additional legal fees for the remainder of FY10. The Department of Administration has billed $11.7 for a hearing officer; we anticipate needing approximately $18.3 ($3.0 on average) for additional mediation services through June. It is unknown whether there will be additional expenses associated with this litigation such as potential settlement costs.	50.0				50.0
54	1	Transportation and Public Facilities	Whittier Access and Tunnel	Increased Operating Costs and Reduced Toll Revenue at the Whittier Tunnel Additional funding is necessary to fund the operation of the Whittier Tunnel Toll Facility for the remainder of FY10. Additional costs were incurred for cable repair, railroad crossing fees, increased State Equipment Fleet equipment replacement fees, CPI adjustments for the current contract, and additional roadway maintenance work leading up to the tunnel. In addition to increased costs, toll revenues have declined due to economic conditions, reduced cruise ship dockings, and gasoline prices.	385.0				385.0
55	1	Court System	Administration and Support	Appropriation of a settlement the State received on a claim for prepaid phone card long distance charges.	35.5				35.5
56	2			Sets out the funding by agency for the appropriations in Section 1.					
57	3	Commerce, Community and Economic Development	Capital	City of Kodiak: Public Safety Building Community Jail Completion The City of Kodiak requests a municipal grant for $2.1 million to finish the community jail portion of their new facility. The State contracts with the City of Kodiak for beds in their community jail. The $2.1 million amount is to finish out that portion of the new facility.	2,100.0				2,100.0
58	3	Corrections	Capital	Replacement of the failed fire alarm system located at the Combined Hiland Mountain Correctional Center, housing units I, II and III. Due to the system's age, repairs are no longer supported by the manufacturer. The department is meanwhile providing a 24/7 fire watch in lieu of the incalculable cost of relocating inmates to another site.	350.0				350.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
59	3	Corrections	Capital	Replacement of the Fairbanks Correctional Center frequently failing 1966 steam heating system, at the recommendation of a contracted engineer, with a hot water/glycol heating system that bears a lower cost of operation.	2,500.0				2,500.0
60	3	Health and Social Services	Capital	Medicaid Management Information System Completion.	6,208.0	8,782.3			14,990.3
61	3	Transportation and Public Facilities	Capital	Alaska Marine Highway System - Vessel and Terminal Overhaul and Rehabilitation This amends an existing FY2010 project (sec. 1, Ch 15, SLA 2009, page 21, lines 17 - 20), increasing the FY2010 appropriation to $10,000,000. Annual maintenance and overhaul on vessels and at terminals, particularly component or system failures which will impact service in the short term. Annual overhaul of vessels is necessary to pass United States Coast Guard (USGS) inspections and obtain a Certificate of Inspection (COI) necessary to operate.	4,000.0				4,000.0
62	3	**Transportation and Public Facilities**	**Capital**	**Airport Improvement Program - Appropriation Level**		**5,257.5**	**15,000.0**		**20,257.5**
63	3	Transportation and Public Facilities	Capital	Debt Defeasance - International Airports This is a new project request for FY2010. Implement recommendations by the State's bond counsel to minimize the amount of revenue needed to be collected from airport customers and to meet debt service coverage ratios required under the bond resolution rate covenant. This request will allow the International Airport System to meet the technical requirements of the bond resolution rate covenant while also minimizing the amount of revenue needed from rates and fees. Both are required to meet all fiscal obligations and maintain fiscal integrity.	0.0	0.0	15,000.0	International Airport Revenue Fund	15,000.0
64	3	Transportation and Public Facilities	Capital	Gustavus: Airport Runway Safety Area This amends an existing FY2010 project (sec. 1, Ch 15, SLA 2009, page 25, lines 10 - 11), increasing the FY2010 allocation to $10,500,000. The Gustavus Airport Runway Safety Area (RSA) does not meet Federal Aviation Administration (FAA) standards for the size of the area surrounding a runway that protects aircraft that land short, over-run, or veer off the paved runway surface. This project consists of the design and construction of an expanded RSA that will meet standards and improve safety for all aircraft operating at Gustavus. The engineer's estimate has been revised and advertising of the project is expected in mid-May, which would allow for construction during summer 2010.		500.0			500.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
65	3	Transportation and Public Facilities	Capital	King Cove: Airport Fencing This is a new project request for FY2010. The airport was recently reconstructed including installation of a new lighting system. The King Cove area borders on Izembek National Wildlife Refuge and experiences frequent visitation by brown bears. The new vertical elements of the lighting system are being subjected to intense ursine scrutiny as possible additions to their culinary menu. Resultant equipment damage is becoming excessive and a fencing project is needed to protect the Federal Aviation Administration funded investments and reduce maintenance costs. The engineer's estimate has been revised and advertising of the project is expected in mid-March with contract award expected in mid-May.		1,400.0			1,400.0
66	3	Transportation and Public Facilities	Capital	Kodiak: Chemical Storage Building This is a new project request for FY2010. This project will provide a safe storage and mixing area for liquid de-icing materials and equipment. Without the building and storage tanks to mix the dry urea for liquid application, the use of sand for runway de-icing will continue. New Alaska Airlines jets have a less-forgiving engine for sand or foreign object debris ingestion which could lead to engine failure. The need to switch from sand to chemical de-icing at Kodiak is further underscored by Central Region Maintenance and Operations' inability to obtain sand that meets the minimum specifications identified by the Federal Aviation Administration (FAA). The de-icing material storage facility will provide a controlled environment, thereby minimizing the possibility of a spill or handling accident. The engineer's estimate has been revised and advertising of the project is expected in mid-February with contract award expected in mid-April.		1,300.0			1,300.0
67	3	Transportation and Public Facilities	Capital	Nulato: Airport Improvements This is a new project request for FY2010. Resurface the airport operational surfaces, rehabilitate the access road, apply dust palliative, replace lighting, construct a snow removal equipment building, and other improvements as funds allow. This project is expected to be advertised in early March.		827.5			827.5

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
68	3	Transportation and Public Facilities	Capital	Unalaska: Chemical Storage Building This is a new project request for FY2010. This facility is needed in order to use the new de-icing vehicle already in place. The chemical de-icing material is needed to reduce the use of sand at the airport because Maintenance and Operations cannot obtain sand that meets the minimum specifications identified in the new Federal Aviation Administration Circular. Unalaska has frequent periods of zero traction ratings which result in closure of the airport. This building is needed to house the new specialized de-icing truck in a controlled environment minimizing the possibility of a spill or handling accident. The engineer's estimate has been revised and advertising of the project is expected in mid-February with contract award expected in mid-April.		1,230.0			1,230.0
69	3	**Transportation and Public Facilities**	**Capital**	**Emergency Repairs - Appropriation level**	**7,356.1**				**7,356.1**
70	3	Transportation and Public Facilities	Capital	Central Region Hightower Emergency Maintenance and Repairs This is a new project request for FY2010. Inspections of hightower lighting structures in Central Region have identified work that needs to be performed on 17 of these structures in order for them to remain structurally sound. This work includes welding repairs and foundation bolt tightening. The repairs will require the use of specialized equipment, crane services, materials, labor, and contracted welding/engineering support.	365.5				365.5
71	3	Transportation and Public Facilities	Capital	Dyea Road Washout Emergency Repair This is a new project request for FY2010. On August 28, 2009 the ADOT/PF Maintenance Foreman at our Skagway Station alerted us of erosion problems occurring along our Dyea Road adjacent to Taiya River. There are reported to be about 30 residents living beyond the erosion area. The roadway in this area is very narrow with rock wall on the one side and the river on the other. The area has been repaired several time over the years. The erosion caused several areas of the roadway to become very narrow and a major safety issue to the traveling public. Temporary barricades and notices were installed. All work was completed in a timely fashion, just prior to winter weather setting in.	101.6				101.6

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
72	3	Transportation and Public Facilities	Capital	Glenn Highway MP 63.5 Erosion Emergency Repairs This is a new project request for FY2010. The Matanuska River eroded into the roadway embankment approximately 400 feet in length, resulting in a 9-foot vertical drop close to the edge of the highway pavement, within one foot at some locations. Immediate repairs taken to preserve the integrity of the embankment and save the highway included placement of super sacks at the toe of the embankment to protect it from further erosion. Permanent repairs will include removal of temporary shore protection, removal of existing guardrail, and installation of new embankment and riprap rock armor for approximately 530 linear feet and installation of new guardrail.	1,125.0				1,125.0
73	3	Transportation and Public Facilities	Capital	Glenn Highway Slides at MP 101 and 115 Emergency Repairs This is a new project request for FY2010. Emergency repairs performed as a result of slides on the Glenn Highway at MP 101 and 115. MP 101 - A beaver dam failure on the uphill side of the Glenn Highway caused a slide with a large amount of water, gravel and debris overtopping the highway at MP 101 on July 9, 2009. M&O forces responded and initiated immediate repairs by removing debris and gravel from the road surface as well as removing debris from plugged culverts to allow the material to subside naturally. MP 115 - A slide with a large amount of water, mud, and debris overtopped the Glenn Highway am MP 115 on July 16, 2009. M&O forces responded and initiated immediate repairs by removing mud and debris from the highway and reestablished drainage features of the highway ditches.	225.0				225.0
74	3	Transportation and Public Facilities	Capital	Haines Highway MP 19 Slide Emergency Repairs This is a new project request for FY2010. On August 29, 2009 heavy rains in the Haines area created a gravel, rock and mud slide on, over, and across the Haines Highway from the adjacent hillside. This slide followed a creek bed down to the highway and clogged the culverts and closed the highway to traffic for approximately 4 hrs. Work was completed by ADOT/PF maintenance crews with some equipment rented from local sources. Material was hauled off, highway was cleaned, ditches and culverts were cleaned and re-established, and the upland creek bed was cleared of debris.	80.0				80.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
75	3	Transportation and Public Facilities	Capital	Kodiak Flood Emergency Repairs This is a new project request for FY2010. A major storm caused flooding and mudslides on Rezanof Drive, Anton Larsen Bay Road, Chiniak Highway and at the Kodiak Airport totaling approximately 2.3 million dollars. Damage on Anton Larsen Bay Road included replacement of failed culverts, reconstruction of sections of washed out roadway, and repairs to a portion of Red Cloud Bridge that had collapsed into the water. Rezanof Drive required cleaning of ditches, culverts and guardrail repair or replacement, debris removal and slope contouring. Chiniak Highway required culvert replacement, pavement repairs and ditch and culvert cleaning. Funding is requested for costs associated with the October 2009 declared emergency for flood damage on Kodiak Island that are not eligible for reimbursement by the Federal Highway Administration (FHWA) or the Federal Emergency Management Administration (FEMA).	500.0				500.0
76	3	Transportation and Public Facilities	Capital	Petersville Road Emergency Repairs This is a new project request for FY2010. In May of 2005, a section of Petersville Road near MP 14.5 at Kroto Creek failed. This section of road climbs along the side of the hill and is formed on steep embankments. Due to spring thaw and water a portion of the road embankment slid down the hill. Repair of the embankment failure by Central Region Maintenance and Operations forces is beyond what is considered maintenance. This supplemental request is needed to close the project.	113.7				113.7
77	3	Transportation and Public Facilities	Capital	Salmon River Road Emergency Repairs This is a new project request for FY2010. August rains and melting glaciers created a heavy river flow that eroded the banks of the Salmon River paralleling our Salmon River Road. This heavy flow washed out over 250 feet of roadway at Mile 7. This area had not been provided bank stabilization. The washout closed the road which at the time was providing access to crews working at a gold mine further up the road. The washout and continued erosion was threatening three power poles along the road. A closely coordinated effort by the ADOT/PF construction section, ADOT/PF maintenance section, the U.S. Forest Service and local private parties completed the project in a timely fashion.	425.3				425.3

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
78	3	Transportation and Public Facilities	Capital	Seward Airport Emergency Repair and Upgrade This is a new project request for FY2010. The Seward Airport Taxiway was damaged by flooding from the Resurrection River in July 2009. Emergency repairs were completed in August of 2009. The Taxiway's location is a low point in the airfield and is inundated with water every time the Resurrection River overflows its bank. A short term solution is to install 19 new 42" culverts alongside the three existing 42" culverts. If funding is not provided for permanent repairs, the State will have to continue performing emergency repairs along the taxiway when the Resurrection River floods. This will cause the taxiway to be shut down and impairs the usage for the Seward Airport.	2,020.0				2,020.0
79	3	Transportation and Public Facilities	Capital	Whittier Access Emergency Repairs This is a new project request for FY2010. A rockslide covered the Whittier Access Road on April 11, 2009 with approximately 40,000 cubic yards of rock causing a temporary closure, and the need for alternative transportation to and from the City of Whittier. Repairs needed to reopen the road included removing the rock, reestablishing the grade, replacing the guardrail and pavement, and installing concrete barriers.	2,400.0				2,400.0
80	3	**Transportation and Public Facilities**	**Capital**	**Highways and Facilities - Appropriation Level**	**3,021.1**				**3,021.1**
81	3	Transportation and Public Facilities	Capital	Coffman Cove Maintenance Station This is a new project request for FY2010. Beginning in 2008, Southeast Region Highways and Aviation assumed maintenance responsibility for the 22 mile long Coffman Cove Highway. The closest established maintenance station is at Klawock, approximately 57 miles from Coffman Cove, and too far away to provide efficient maintenance service. The original request in FY2009 underestimated the consultant design fees and construction contract cost, and did not account for construction engineering and administrative costs.	900.0				900.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
82	3	Transportation and Public Facilities	Capital	Ester Weigh Station Scale Replacement This is a new project request for FY2010. The Ester Weigh Scale has currently been removed form service due to inaccuracies in its measurements. The steel scale deck support system and steel scale mechanisms have deteriorated beyond the point of reasonable repair. The scale platform is closed and means have been utilized to prevent traffic from driving over this scale assembly for safety reasons. This project was originally requested last year as a supplemental for $120,000 in federal receive/expend authority. There were/are no federal funds available for this project and it should have been originally requested as general fund authority. The federal authority will be administratively lapsed at the end of the current fiscal year. This new request reflects the updated estimate to replace the scales and get the weigh station opened.	550.0				550.0
83	3	Transportation and Public Facilities	Capital	Klawock Maintenance Station – Door Replacement This is a new project request for FY2010. The initial project entailed replacing one unsafe door. On investigation by an overhead door technician, it was discovered three other doors have aged and deteriorated to a point replacement is required for safety reasons (doors falling out of control due to worn parts, thereby endangering Departmental staff).	60.0				60.0
84	3	Transportation and Public Facilities	Capital	Measurement Standards and Commercial Vehicle Enforcement Equipment Replacement This amends an existing FY2010 project (sec. 1, Ch 15, SLA 2009, page 22, lines 8 - 11), increasing the FY2010 appropriation to $464,100. MSCVE plans to replace a high mileage 3/4-ton pickup truck with a 1-ton class dual rear wheel flatbed with a light duty crane. The 1-ton class test trucks originally built in 2003 have exceeded our expectations for increased device testing efficiency and employee safety and the light duty scale testing fleet will be replaced with this vehicle design over the next decade. Additional capital funds totaling $30,500 is being requested to accomplish this upgrade. In addition, MSCVE has recently purchased several vehicles with capital funds. These vehicles are replacing older vehicles that were not in the replacement program. A one-time supplemental to bring the replacement program current is being requested in the amount of $372,100.	402.6				402.6

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
85	3	Transportation and Public Facilities	Capital	Retroactive Asphalt Material Price Adjustment - Glenn/Bragaw Interchange This is a new project request for FY2010. Average rack price for asphalt cement in Alaska increased from $373/ton in January 2008, to a high of $710/ton in August that year. Although contractors typically plan for some increase in material costs throughout the life of a contract, they couldn't reasonably anticipate this level of inflation. In August 2008 the department committed to retroactively add an asphalt cement price adjustment, to share the unanticipated inflationary costs with the contractors. The state general funded Glenn / Bragaw project met the criteria for receiving this price adjustment; however the projects budget to complete construction does not have sufficient funding available to reimburse the contractor.	151.5				151.5
86	3	Transportation and Public Facilities	Capital	Skagway Land Purchase This is a new project request for FY2010. The Skagway Maintenance Station is situated on leased property. In 2008 the Department entered a new lease agreement for the Skagway maintenance station with an option to purchase the 2.23 acre property plus the adjoining 1.59 acre vacant property for a fair market value price of $513,412. The Department has secured $107,000 for the purchase of the property and is requesting an additional $407,000. The option to purchase expires on September 12, 2010. This is the last opportunity to fund the purchase at the negotiated price.	407.0				407.0
87	3	Transportation and Public Facilities	Capital	Southeast Region Headquarters – Elevator Installation This is a new project request for FY2010. Project includes design, building modifications and installation of a new elevator to bring the state-owned facility into compliance with the Americans with Disabilities Act. Southeast Region does not have sufficient available space to provide ADA accommodations for staff working on the 2nd floor to relocate their workspace to the 1st floor when temporary or permanent disabilities prohibit access to their normal workspace. This lack of space is compounded when relocation does take place due to separation of staff from coworkers. Additionally, public access to all sections on the 2nd floor is inhibited by the lack of adequate conveyance.	450.0				450.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
88	3	Transportation and Public Facilities	Capital	State Equipment Fleet Vehicle Lifts This is a new project request for FY2010. Replace the original vehicle lift in Haines, AK. The original lift does not have safety features to prevent damage to equipment and/or injury to staff tasked with using it. Funding will allow for the purchase and installation of equipment that has life-safety features that will support the Department in meeting safe workplace requirements.	100.0				100.0
89	3	Transportation and Public Facilities	Capital	**Regulatory Compliance - Appropriation Level**	**1,700.0**				**1,700.0**
90	3	Transportation and Public Facilities	Capital	Kenai Peninsula Watershed Improvements - Clean Water Act, Section 404, Settlement This is a new project request for FY2010. Project fulfills one of two conditions of a negotiated settlement, between the State of Alaska, Department of Transportation (DOT&PF) and the Environmental Protection Agency, for alleged violations of Section 404 of the Clean Water Act (CWA). The funding will be provided to a qualified, third party, non-profit established to preserve, for public benefit, land with significant natural, recreational, or cultural value on the Kenai Peninsula. The non-profit is to purchase and place conservation easements over properties that will preserve water quality and salmon habitat.	900.0				900.0
91	3	Transportation and Public Facilities	Capital	Revegetation of Anchor River and Deep Creek Highway Embankments - Clean Water Act, Section 404 Settlement This is a new project request for FY2010. Project fulfills one of two conditions of a negotiated settlement, between the State of Alaska, Department of Transportation (DOT&PF) and the Environmental Protection Agency, for alleged violations of Section 404 of the Clean Water Act (CWA). The funding will be utilized to plant and establish natural vegetation and monitor those planting at three sites along the Sterling Highway. The vegetation is to enhance and improve water quality and habitat.	800.0				800.0
92	4			Sets out the funding by agency for the appropriations in Section 3.					0.0
93	5	Findings		FY2010 savings from ARRA 2009 Medicaid provisions are applied to the GF supplementals appropriated in this Act.					0.0
94	6	Corrections	(multiple)	Funding to implement the interest arbitration decision dated March 19, 2009, establishing monetary terms of the collective bargaining agreement with the Alaska Correctional Officers Association, for the fiscal year ending June 30, 2010	3,302.3	32.7			3,335.0

FY2010 SUPPLEMENTAL REQUESTS

	Sec. No.	Department	Component or Capital	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
95	7	Education and Early Development	Special Schools	Pupil transportation services from Mat-Su to the Alaska School for the Deaf, housed in the Russian Jack Elementary, Hanshew Middle School and East High School of the Anchorage area.	180.0				180.0
96	8	Health and Social Services	Probation Services	Miscellaneous claim to pay outstanding FY2004 medical bills for a minor in the custody of the Division of Juvenile Justice that received medical treatment from the Central Peninsula Hospital.	0.2				0.2
97	9	Labor and Workforce Development	Workforce Investment Board	Amend language - the unexpended/unobligated balance from Sec 1, Ch 27, SLA 2008, page 17, line 4 (Branch-wide Oil & Gas Development) is appropriated to Workforce Investment Board for continued work in FY2010.	85.0				85.0
98	10	Law	Deputy Attorney General's Office	Actual judgments and settlements finalized as of 1/11/2010.	28.9				28.9
99	11(a)	Natural Resources	Capital	Scope Change: Architecture and Engineering for a New Geologic Material Center [IN EAGLE RIVER] - Phase 1					0.0
100	11(b)	Natural Resources	Capital	Sale and Replacement of PC7 Aircraft for Wildland Firefighting. Language section to use the proceeds from the sale of aircraft, surplus aircraft parts, and engine escrows for the purchase of replacement aircraft.	2,000.0			General Fund Program Receipts	2,000.0
101	12(a)	Fund Transfer	Savings Public Education Fund	Fully capitalize the Public Education Fund for the projected FY2011 need for Foundation Formula $1,053,147.4 and Pupil Transportation $63,839.2.	1,116,986.6				1,116,986.6
102	12(b)	Fund Transfer	Small Business Economic Development RLF	Match for federal EDA funds transferred from the Kenai Peninsula Economic Development District - transfer $79.0 from Revolving Fund to Small Business Economic development Loan Fund - allows for receipt of $231.3 EDA federal grant funds.			79.0	AIDEA Receipts	79.0
103	12(c)	Fund Transfer	Disaster Relief Fund	Disaster relief funding - Kodiak Island flood, Pelican water system failure, Steward storm surge - plus fund replenishment in preparation for providing immediate assistance during spring floods and storms.	5,000.0				5,000.0
104	13	Ratifications (see below)							0.0
105	14	Retained Fees and Bankcard Services		Amends Section 22(b), ch. 12, SLA 2009 to include the Department of Law statutory authority for receipt of restitutions on juvenile cases.					0.0

IX, sec. 17, Constitution of the State of Alaska).	401,617.0				401,617.0
109	17(b)		Budget Reserve Fund	Adds language to access the budget reserve fund (AS 37.05.540) to balance the FY2010 budget, if necessary.					0.0
110	17(c)	Revenue	Treasury Division	Fund Source Change for Constitutional Budget Reserve Fund Investment Management Section 27(c), ch. 12, SLA 2009, is amended to read: (c) The sum of $1,673,000 is appropriated from the general fund [budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska] to the Department of Revenue, treasury division, for operating costs related to management of the budget reserve fund for the fiscal year ending June 30, 2010.	1,673.0		(1,673.0)	Constitutional Budget Reserve Fund	0.0
111	18	Lapse of Appropriations							0.0
112	19	Repealer		Section 43(c), ch. 15, SLA 2009 is repealed. That section reads: (c) The amount calculated to be available for appropriation under art. IX, sec. 17(b), Constitution of the State of Alaska, for fiscal year 2010 is appropriated under art. IX, sec. 17(b), Constitution of the State of Alaska, from the budget reserve fund to the general fund. The administration is proposing to repay in full the amount owed to the constitutional budget reserve fund in FY2010, and does not want to draw any amount from the fund. Current calculations indicate the above section is not necessary.					0.0

BUDGET AMENDMENT
FY 2010 Supplemental

CSHB 326(FIN)

DEPARTMENT: Administration
APPROPRIATION: Centralized Administrative Services

ALLOCATION: Office of the Commissioner
ADD: $12.8 General Funds (1004)

EXPLANATION:
The sum of $12,770 is appropriated from the general fund to the Department of Administration, office of the commissioner, as a lump sum payment to the union directed health trust, to implement the terms of the collective bargaining agreement for the Teachers' Education Association of Mt. Edgecumbe, for the fiscal year ending June 30, 2010.

Last week the State reached an agreement with the Teachers' Education Association of Mt. Edgecumbe (TEAME). The TEAME agreement covers FY10 – FY12.

Since the TEAME agreement is retroactive to the beginning of FY10, a supplemental is requested for $12, 770 General Funds for the Department of Administration, office of the commissioner, to pay the agreed upon FY10 insurance costs to the NEA Health Trust.

Adopted 3/26/10

BUDGET AMENDMENT
FY 2010 supplemental

#2
Hawker

CSHB 326(FIN)

DEPARTMENT:	Statewide
ADD:	$3,668,400
FUNDING SOURCE:	Multiple fund sources per change records submitted electronically to the legislative Finance Division and as detailed on the attachment.

ADD Conditional Language:

The appropriations made in this section are contingent on ratification of the collective bargaining agreement by the membership of the Public Employees Local 71, for the labor, trades and crafts unit.

EXPLANATION:
The Labor, Trades, and Crafts bargaining unit has reached a tentative agreement with the state for fiscal years FY2010-FY2012.

In FY2010 there is a lump sum payment for bargaining unit members ranging from $903 to $2,066, depending on the wage grade of the employee. Bargaining unit members who are seasonal or part time employees will have the lump sum payment reduced by 50%.

There is a lump sum payment to the LTC Health Trust to cover the FY2010 state's contribution for health insurance, which 8increased from $870 to $913 per employee per month.

Bargaining Unit Agreements			
	Monetary Terms	**FY 2010**	**FY 2011**
Teachers' Education Association of Mt. Edgecumbe			
	FY2010 lump sum appropriation to the Department of Administration to the NEA Health Trust	12.8	
	5% Sitka, Alaska geographic differential beginning July 1, 2010		93.8
	Beginning July 1, 2010, bargaining unit members will be returned to the State's Select Benefits Health Insurance program with a monthly health benefit of $1,088.00 per member.		70.5
	Lump Sum to Group Health and Life Benefits fund for reserves, as determined by Buck Consultants		54.1
	TOTAL TEAME	**12.8**	**218.4**
	231.2		
Labor, Trades and Crafts Unit			
	A lump sum payment for bargaining unit members ranging from $903 to $2,066, depending on the wage grade of the employee. Bargaining unit members who are seasonal or part time employees will have the lump sum payment reduced by 50%.	2,868.4	
	Payment of state's contribution for the FY2010 health insurance - from $870 to $913 per employee per month. LTC health trust has been fronting these costs.	800.0	
	Effective July 1, 2010, a conversion to a new wage schedule similar to that of the majority of State employees		4,564.1
	Health benefits increase to $1,088 per member per month.		4,210.2
	TOTAL LTC	**3,668.4**	**8,774.3**

1-Feb	1	Administration	Office of Administrative Hearings	Tax appeal case cost increase - 27 open cases as of January 2010, driving a need to keep all Administrative Law Judge positions filled.	1		85.0	-	-	-	85.0	85.0	-	-	-	85.0
1-Feb	1	Administration	Elected Public Officers Retirement System Benefits	Elected Public Officers' Retirement System - total of 38 members (retirees and survivors) - increased costs due to mandatory benefit increases based on the salaries of the position from which a member retired.	1		250.0	-	-	-	250.0	250.0	-	-	-	250.0
19-Mar	1	Administration	Office of Public Advocacy	Increased operating costs - During FY 2010, OPA has experienced a significant spike in case assignments throughout the state. In the first two quarters of this fiscal year, the agency has seen a 21% increase in case assignments over the same time period in FY 2009. The most notable areas of increase are as follows: criminal defense representation, 47%; child advocacy representation in Child in Need of Aid (CINA) cases, 20%; parental representation in CINA cases, 30%. This amounts to 869 more new cases than over the same time period last year. Due to unexpectedly high growth in the guardianship caseload of 13.6% in FY 2009, the agency added a public guardian position during this fiscal year. Also during FY 2010, to meet the needs of abused and neglected children in the Yukon-Kuskokwim Delta, the agency is issuing a contract for additional guardian ad litem services due to an 18.5% increase in CINA cases during FY 2009. **3/19: GovAMD decrease of $315.0**	1		550.0	-	-	-	550.0	550.0	-	-	-	550.0

329	1-Feb	1	Administration	Public Defender Agency	Increased operating costs - The PD has experienced significant increases in caseloads throughout the state in all types of cases in the first and second quarters of FY2010 as compared to the same period in FY2009. All cases statewide are up approximately 10%, felonies are up 15%, and misdemeanors are up 11%. Anchorage felonies are up 16% and misdemeanors are up 8%. Northern Region cases are up 25%, felonies are up 37%, and misdemeanors are up 30%. Overall that means there are 1,000 more new cases assigned already this year than for the same period last year.	1		800.0	-	-	-	800.0		800.0	-	-	-	800.0

375		1	Law	Civil Division Oil, Gas & Mining	Law reports a lapsing balance of $1.6 million that can be reappropriated.	1		-	-	-	-	-		(884.0)	-	-	-	(884.0)	
376	1-Feb	1	Natural Resources	Gas Pipeline Implementation	The unanticipated agreement between TransCanada Corporation and ExxonMobil to work together to progress the Alaska Gasline Inducement Act (AGIA) Gas Pipeline Project has accelerated the pace of the project. There is currently not enough funding in the FY10 budget to fully fund the four positions in the office. With the faster pace of the project, due diligence contractual requirements have increased, meaning more travel. There may be increased need to represent the state's interest in Washington, D.C., as well as other locations. Competitive Benchmark Study - Competitive benchmarking will allow the state to better understand market and supply changes that have occurred since the AGIA finding that might affect the economic viability of the gasline. There is increased need for additional field work and other small contractual studies needed to ensure the state has the most up-to date and accurate data.			537.6	-	-	-	537.6		0	-	-	-	0

395	1-Feb	1	Revenue	Administrative Services	The Department of Revenue maintains significant server and database infrastructures that include the Permanent Fund Dividend Division, the Tax Division, and the State Treasury Division. These systems use Microsoft Windows Server, SQL production and test databases VMware, and two NetApp storage filers in Juneau and Anchorage. In order for the department to provide the appropriate level of reliability and operational support, these systems need best practices defined and implemented for security, change control, documentation, backups, disaster recovery and planning. This request is to fund the following two contracts: Disaster Recovery and Security Procedures Backup Support - $70.0 Windows Server, SQL Server, and Help Desk Support - $30.0	0		100.0	-	-	-	100.0		-	-	-	-	-	
396	1-Feb	1	Transportation	Central Region Support Services	Legal Costs Related to Nikishka Beach Road Case The Department of Transportation and Public Facilities (DOT&PF) contends that Offshore Systems Kenai (OSK) is illegally engaged in the obstruction, control and closure of public access to and through Nikishka Beach Road which is a public road owned and operated by DOT&PF. OSK has established a guard shack and gate to prevent access to the road and beach in response to U.S. Coast Guard requirements that they secure and protect OSK's facility from trespass, vandalism, theft, etc. The case began in late FY08 and a trial has taken place; however the Judge has still not issued a ruling on the trial. We have incurred $45.5 in legal costs through December 2009. If a "Notice of Appeal" is not filed, the estimated amount needed for the Department of Law to complete post trial work is approximately $15.0 for a total of $60.5 in FY10.	0		60.5	-	-	-	60.5		-	-	-	-	-	
397	19-Mar	1	Transportation	Central Region Support Services	Central Region Support Services is requesting $240.0 GF supplemental funding for additional costs related to the Environmental Protection Agency's (EPA) enforcement action against the Department of Transportation and Public Facilities. Sec 28(e), Ch 11 SLA 08 P105 L29 (SB256), as amended by Section 14(k) of Ch 14 SLA 09 P22 L14 (HB113), provided $500.0 as a multi-year operating appropriation for defense costs related to EPA's allegations of multiple violations of the Clean Water Act. The unspent amount of $173.9 carried into FY10. Projected expenses for FY10 are $413.9, leaving a shortfall of approximately $240.0 primarily for Department of Law expenses. The Department anticipates that negotiations will continue, however, it is unknown at this time when a settlement may be reached. If a settlement cannot be reached, pre-trial motions will be taken to move the case forward to trial which increase costs substantially. Additional funding will be needed if the case goes to trial. **3/19: GovAMD increase of $240.0**	1		240.0	-	-	-	240.0		240.0	-	-	-	240.0

398	1-Feb	1	Transportation	Program Development	Road Weather Information System (RWIS) Maintenance Costs State funding will provide the resources to conduct critical maintenance work on the Department's Road Weather Information System (RWIS) program. The funding is necessary to maintain the RWIS software, equipment and a network of forty-nine (49) environmental sensor stations (ESS) strategically located along the highway system. Each ESS provides weather sensor data (temperature, wind speed, wind direction, relative humidity, pavement and sub-surface temperatures) and camera images. RWIS maintenance activities are not eligible for federal dollars and without adequate funding there is a potential risk of the entire RWIS network becoming inoperable.	0.571428571		175.0	-	-	-	175.0		100.0	-	-	-	100.0	
399	19-Mar	1	Transportation	Statewide Design and Engineering Services	Clean Water Act Compliance The department's actions, or inactions, resulting from repair work in response to the flooding on the Kenai Peninsula in 2002 and storm water violations involving Department of Transportation and Public Facilities contractors on three Central region projects in 2005 and 2006, resulted in non-compliance allegations by federal agencies. Under the current schedule of proposed settlement terms, the department will be required to meet compliance requirements by mid June 2010. In order to meet these requirements, the department requests $553.0 in general funds for storm water staff training, annual reporting requirement and related costs, and a civil penalty. **3/19: GovAMD $553.0**	1		553.0	-	-	-	553.0		298.5	-	-	-	298.5	
400	1-Feb	1	Transportation -	State Equipment Fleet	Increased Operational Costs for Parts, Commodities, Services, and Fuel Purchases Travel - Travel is required to support the repairs and preventative maintenance programs for vehicles and equipment at rural airports and highways. Due to the unprecedented increase in fuel costs, airfares throughout the state were increased, having a direct impact on maintaining existing services. Services - Costs continue stay at higher levels than currently reflected in the component's budget for the shipment of freight such as parts, commodities, vehicles and equipment, the mission of the program is seriously impacted. Additional costs for vendor repairs are also being passed along to the State by the contractors. Commodities - Fuel costs and necessary consumables paid by the State Equipment Fleet and billed to the corresponding executive branch agencies have increased substantially since FY07. An increase in budget authority is required based on the projected use of these services through historical data. Parts and other commodities used by the State have also increased in cost.	1		-	-	2,706.7	-	2,706.7		-	-	2,706.7	-	2,706.7	
401	1-Feb	1	Transportation	Northern Region Facilities	Galena Maintenance Facility Operating and Maintenance Costs The FY09 operating budget contained a $110.0 increment to maintain a maintenance building at Galena that was transferred to the Department from the U.S. Air Force. That funding level was based upon completion of some aggressive cost savings measures which would be accomplished as part of a capital project for energy improvements. The project is scheduled for completion in the summer of 2010. FY10 estimated expenditures are $209.9, leaving a projected shortfall of $99.9.	1		99.9	-	-	-	99.9		99.9	-	-	-	99.9

402	19-Mar	1	Transportation -	Central Region Highways and Aviation	Enforcement of Clean Water Act - Environmental Protection Agency (EPA) Street Sweeping and Permit Compliance Costs Additional funding is required to meet the minimum requirements of the Environmental Protection Agency (EPA) Municipal Separate Storm Sewer System (MS4) Permit. The MS4 permit will go into effect on February 1, 2010. The EPA's MS4 permit increases the street sweeping requirements that are above and beyond the current MS4 permit, monitoring various aspects of the permit and reporting to EPA with regards to the permit. The FY2011 Governor's budget request includes $1,682.0 for these new ongoing requirements. **3/19: GovAMD increase of $432.0**	0.5		1,038.1	-	-	-	1,038.1		519.0	-	-	-	519.0	
403	1-Feb	1	Transportation	Northern Region Highways and Aviation	Legal Costs for Material Site Lawsuits Due to ongoing lawsuits filed by one of the regional native corporations for alleged infringement on their land and rights of way, we have incurred excessive costs again this year for Department of Law attorneys. None of the three lawsuits filed have yet gone to court so the total cost is unknown. Additional funding for $150.0 is based on the amount expended to date for attorneys and expert witnesses.	0		150.0	-	-	-	150.0		0	-	-	-	0	
404	1-Feb	1	Transportation	Southeast Region Highways and Aviation	Transportation Security Agency Requirements - Door Lock System and Fingerprint Machine To continue to meet Transportation Security Agency requirements a new security access door lock system needs to be installed for the Sitka Airport Terminal. The control system for these doors is outdated and has become unreliable. A replacement system is estimated to cost $30.0. Transportation Security Administration regulations require the Department to fingerprint all badge holders at our certificated airports. The existing fingerprint machine is out of date and has become unreliable. A new machine is estimated to cost $14.9.	1		44.9	-	-	-	44.9		44.9	-	-	-	44.9	
405	1-Feb	1	Transportation	Whittier Access and Tunnel	Bid Protest Costs for Whittier Tunnel Operations Contract A bidder protested the award of a contract for operation of the Whittier Tunnel Toll Facility. This resulted in unplanned attorney and hearing officer costs which will continue until a settlement is reached. The Department of Law has billed $12.0 for attorney services through November 2009, and we estimate $8.0 of additional legal fees for the remainder of FY10. The Department of Administration has billed $11.7 for a hearing officer; we anticipate needing approximately $18.3 ($3.0 on average) for additional mediation services through June. It is unknown whether there will be additional expenses associated with this litigation such as potential settlement costs.	1		50.0	-	-	-	50.0		50.0	-	-	-	50.0	
406	1-Feb	1	Transportation	Whittier Access and Tunnel	Increased Operating Costs and Reduced Toll Revenue at the Whittier Tunnel Additional funding is necessary to fund the operation of the Whittier Tunnel Toll Facility for the remainder of FY10. Additional costs were incurred for cable repair, railroad crossing fees, increased State Equipment Fleet equipment replacement fees, CPI adjustments for the current contract, and additional roadway maintenance work leading up to the tunnel. In addition to increased costs, toll revenues have declined due to economic conditions, reduced cruise ship dockings, and gasoline prices.	1		385.0	-	-	-	385.0		385.0	-	-	-	385.0

FY10 Supplemental Bill--HB326

Shade Indicates Change from Governor's Request

2/24/2010 Capital items removed
3/3/2010 fast track cap back in--formulas not checked
3/7/2010 removed fast-track cap & added HSS clawback
3/9/2010 sync up sheet, add ARLF, incorporate notes
3/15/2010 HSS revisions, add DOT, add Law
3/16/2010 cross check with system-match
3/19/2010 send out for review, still some open items
3/21/2010 numbers, lang & fund transfers total in sync w/decisions to date
3/22/2010 update transactions
3/23/2010 Reformat for distribution
3/25/2010 Incorporate amendments

							Governor's Request					House Finance Committee				
	Date	Sec	Appropriation	Allocation	Description	Funding Multiplier	Unrestricted GF	Designated GF	Other State Funds	Federal	Total	Unrestricted GF	Designated GF	Other State Funds	Federal	Total
							104,486.3	(46.5)	1,956.7	55,527.4	161,923.9	100,957.8	(46.5)	2,131.7	55,608.8	158,651.8
	1-Feb	1	Administration	Office of Administrative Hearings	Tax appeal case cost increase - 27 open cases as of January 2010, driving a need to keep all Administrative Law Judge positions filled.	1	85.0	-	-	-	85.0	85.0	-	-	-	85.0
	1-Feb	1	Administration	Elected Public Officers Retirement System Benefits	Elected Public Officers' Retirement System - total of 38 members (retirees and survivors) - increased costs due to mandatory benefit increases based on the salaries of the position from which a member retired.	1	250.0	-	-	-	250.0	250.0	-	-	-	250.0
	19-Mar	1	Administration	Office of Public Advocacy	Increased operating costs - During FY 2010, OPA has experienced a significant spike in case assignments throughout the state. In the first two quarters of this fiscal year, the agency has seen a 21% increase in case assignments over the same time period in FY 2009. The most notable areas of increase are as follows: criminal defense representation, 47%, child advocacy representation in Child in Need of Aid (CINA) cases, 20%, parental representation in CINA cases, 30%. This amounts to 869 more new cases than over the same time period last year. Due to unexpectedly high growth in the guardianship caseload of 13.6% in FY 2009, the agency added a public guardian position during this fiscal year. Also during FY 2010, to meet the needs of abused and neglected children in the Yukon-Kuskokwim Delta, the agency is issuing a contract for additional guardian ad litem services due to an 18.5% increase in CINA cases during FY 2009. **3/19: GovAMD decrease of $315.0**	1	550.0	-	-	-	550.0	550.0	-	-	-	550.0
	19-Mar	1	Administration	Office of Public Advocacy	Supplemental authorization is needed to accept and spend federal grant funds for the Court Appointed Special Advocate (CASA) program, awarded to the Office of Public Advocacy after the end of the last legislative session. **3/19: GovAMD increase of $17.0.**	1	-	-	-	44.6	44.6	-	-	-	44.6	44.6

322																			
323	Date	Sec	Appropriation	Allocation	Description	Funding Multiplier		Unrestricted GF	Designated GF	Other State Funds	Federal	Total		Unrestricted GF	Designated GF	Other State Funds	Federal	Total	
324								104,486.3	(46.5)	1,956.7	55,527.4	161,923.9		100,957.8	(46.5)	2,131.7	55,608.8	158,651.8	
329	1-Feb	1	Administration	Public Defender Agency	Increased operating costs - The PD has experienced significant increases in caseloads throughout the state in all types of cases in the first and second quarters of FY2010 as compared to the same period in FY2009. All cases statewide are up approximately 10%, felonies are up 15%, and misdemeanors are up 11%. Anchorage felonies are up 16% and misdemeanors are up 8%. Northern Region cases are up 25%, felonies are up 37%, and misdemeanors are up 30%. Overall that means there are 1,000 more new cases assigned already this year than for the same period last year.	1		800.0	-	-	-	800.0		800.0	-	-	-	800.0	
330	1-Feb	1	Administration	Motor Vehicles	Federally mandated programming improvements to the National Motor Vehicle Information System - funded via a Department of Justice grant.	1		-	-	-	100.0	100.0		-	-	-	100.0	100.0	
331	1-Feb	1	Administration	Motor Vehicles	Purchase of current technology, digital driver's license printers to replace outdated and increasingly irreparable 2004-purchased printers.	1		-	-	-	191.8	191.8		-	-	-	191.8	191.8	
332	1-Feb	1	Commerce, Community & Econ Dev	Insurance Operations	Print, mail and legal costs have increased $300.0 in two years. The division is statutorily required to provide notification of changes in rules, regulations and policies to occupational licensees. The tremendous increase in licensees over the last several years has brought with it increased need for legal counsel. This increase will allow the Division of Insurance to provide basic core functions necessary to ensure a level of consumer protection.	1		-	77.1	-	-	77.1		-	77.1	-	-	77.1	
333	1-Feb	1	Corrections	Institution Director's Office	Coverage of projected shortfalls in 24-hour facilities - fuel and utility costs, and commodities (inmate food, clothing, bedding, institutional cleaning supplies, etc.)	1		2,409.6	-	-	-	2,409.6		2,409.6	-	-	-	2,409.6	
334	1-Feb	1	Corrections	Wildwood Correctional Center	Operating costs, Wildwood Correctional Center 32-bed prefabricated offender housing unit - opening February 2010 - covers partial-year costs for filling six existing vacant positions.	1		494.4	-	-	-	494.4		494.4	-	-	-	494.4	
335	1-Feb	1	Corrections	Physical Health Care	The Department of Corrections is obligated to deliver essential medical care to incarcerated offenders. The department is requesting a supplemental of $4,650.1 for increased inmate health care costs that includes fees-for-service and Inmate Health Care staff cost overages due to overtime for 24-hour medical coverage. There has been a dramatic increase in catastrophic cases in FY2010, as well as increases in general medical costs.	1		4,650.1	-	-	-	4,650.1		4,650.1	-	-	-	4,650.1	
336	1-Feb	1	Education & Early Dev	Special Schools	Pupil transportation services from Mat-Su to the Alaska School for the Deaf, housed in the Russian Jack Elementary, Hanshew Middle School and East High School of the Anchorage area. **Moved from language to numbers section.**	1		180.0	-	-	-	180.0		180.0	-	-	-	180.0	
337	1-Feb	1	Environmental Conservation	Laboratory Services	Coverage of lab maintenance and service contract shortfalls, in lieu of elimination of 4-5 filled positions - an action which would seriously compromise public health and result in the likely shutdown of the State Lab within a year.	0.5		260.0	-	-	-	260.0		130.0	-	-	-	130.0	

	B	D	E	F	G	K	L	M	N	O	P	Q	R	S	T	U	V	W	X

395	1-Feb	1	Revenue	Administrative Services	The Department of Revenue maintains significant server and database infrastructures that include the Permanent Fund Dividend Division, the Tax Division, and the State Treasury Division. These systems use Microsoft Windows Server, SQL production and test databases VMware, and two NetApp storage filers in Juneau and Anchorage. In order for the department to provide the appropriate level of reliability and operational support, these systems need best practices defined and implemented for security, change control, documentation, backups, disaster recovery and planning. This request is to fund the following two contracts: Disaster Recovery and Security Procedures Backup Support - $70.0 Windows Server, SQL Server, and Help Desk Support - $30.0	0		100.0	-	-	-	100.0		-	-	-	-	-	
396	1-Feb	1	Transportation	Central Region Support Services	Legal Costs Related to Nikishka Beach Road Case The Department of Transportation and Public Facilities (DOT&PF) contends that Offshore Systems Kenai (OSK) is illegally engaged in the obstruction, control and closure of public access to and through Nikishka Beach Road which is a public road owned and operated by DOT&PF. OSK has established a guard shack and gate to prevent access to the road and beach in response to U.S. Coast Guard requirements that they secure and protect OSK's facility from trespass, vandalism, theft, etc. The case began in late FY08 and a trial has taken place; however the Judge has still not issued a ruling on the trial. We have incurred $45.5 in legal costs through December 2009. If a "Notice of Appeal" is not filed, the estimated amount needed for the Department of Law to complete post trial work is approximately $15.0 for a total of $60.5 in FY10.	0		60.5	-	-	-	60.5		-	-	-	-	-	
397	19-Mar	1	Transportation	Central Region Support Services	Central Region Support Services is requesting $240.0 GF supplemental funding for additional costs related to the Environmental Protection Agency's (EPA) enforcement action against the Department of Transportation and Public Facilities. Sec 28(e), Ch 11 SLA 08 P105 L29 (SB256), as amended by Section 14(k) of Ch 14 SLA 09 P22 L14 (HB113), provided $500.0 as a multi-year operating appropriation for defense costs related to EPA's allegations of multiple violations of the Clean Water Act. The unspent amount of $173.9 carried into FY10. Projected expenses for FY10 are $413.9, leaving a shortfall of approximately $240.0 primarily for Department of Law expenses. The Department anticipates that negotiations will continue, however, it is unknown at this time when a settlement may be reached. If a settlement cannot be reached, pre-trial motions will be taken to move the case forward to trial which increase costs substantially. Additional funding will be needed if the case goes to trial. **3/19: GovAMD increase of $240.0**	1		240.0	-	-	-	240.0		240.0	-	-	-	240.0

398	1-Feb	1	Transportation	Program Development	Road Weather Information System (RWIS) Maintenance Costs State funding will provide the resources to conduct critical maintenance work on the Department's Road Weather Information System (RWIS) program. The funding is necessary to maintain the RWIS software, equipment and a network of forty-nine (49) environmental sensor stations (ESS) strategically located along the highway system. Each ESS provides weather sensor data (temperature, wind speed, wind direction, relative humidity, pavement and sub-surface temperatures) and camera images. RWIS maintenance activities are not eligible for federal dollars and without adequate funding there is a potential risk of the entire RWIS network becoming inoperable.	0.571428571		175.0	-	-	-	175.0		100.0	-	-	-	100.0	
399	25-Mar	1	Transportation	Statewide Design and Engineering Services	Clean Water Act Compliance The department's actions, or inactions, resulting from repair work in response to the flooding on the Kenai Peninsula in 2002 and storm water violations involving Department of Transportation and Public Facilities contractors on three Central region projects in 2005 and 2006, resulted in non-compliance allegations by federal agencies. Under the current schedule of proposed settlement terms, the department will be required to meet compliance requirements by mid June 2010. In order to meet these requirements, the department requests $553.0 in general funds for storm water staff training, annual reporting requirement and related costs, and a civil penalty. **3/25: Amendment increase of $256.5**	1		553.0	-	-	-	553.0		553.0	-	-	-	553.0	
400	1-Feb	1	Transportation -	State Equipment Fleet	Increased Operational Costs for Parts, Commodities, Services, and Fuel Purchases Travel - Travel is required to support the repairs and preventative maintenance programs for vehicles and equipment at rural airports and highways. Due to the unprecedented increase in fuel costs, airfares throughout the state were increased, having a direct impact on maintaining existing services. Services - Costs continue stay at higher levels than currently reflected in the component's budget for the shipment of freight such as parts, commodities, vehicles and equipment, the mission of the program is seriously impacted. Additional costs for vendor repairs are also being passed along to the State by the contractors. Commodities - Fuel costs and necessary consumables paid by the State Equipment Fleet and billed to the corresponding executive branch agencies have increased substantially since FY07. An increase in budget authority is required based on the projected use of these services through historical data. Parts and other commodities used by the State have also increased in cost.	1		-	-	2,706.7	-	2,706.7		-	-	2,706.7	-	2,706.7	
401	1-Feb	1	Transportation	Northern Region Facilities	Galena Maintenance Facility Operating and Maintenance Costs The FY09 operating budget contained a $110.0 increment to maintain a maintenance building at Galena that was transferred to the Department from the U.S. Air Force. That funding level was based upon completion of some aggressive cost savings measures which would be accomplished as part of a capital project for energy improvements. The project is scheduled for completion in the summer of 2010. FY10 estimated expenditures are $209.9, leaving a projected shortfall of $99.9.	1		99.9	-	-	-	99.9		99.9	-	-	-	99.9

402	25-Mar	1	Transportation -	Central Region Highways and Aviation	Enforcement of Clean Water Act - Environmental Protection Agency (EPA) Street Sweeping and Permit Compliance Costs Additional funding is required to meet the minimum requirements of the Environmental Protection Agency (EPA) Municipal Separate Storm Sewer System (MS4) Permit. The MS4 permit will go into effect on February 1, 2010. The EPA's MS4 permit increases the street sweeping requirements that are above and beyond the current MS4 permit, monitoring various aspects of the permit and reporting to EPA with regards to the permit. The FY2011 Governor's budget request includes $1,682.0 for these new ongoing requirements. **3/25: Amended** **3/19: GovAMD increase of $432.0**	1		1,038.1	-	-	-	1,038.1		1,038.1	-	-	-	1,038.1	
403	25-Mar	1	Transportation	Northern Region Highways and Aviation	Legal Costs for Material Site Lawsuits Due to ongoing lawsuits filed by one of the regional native corporations for alleged infringement on their land and rights of way, we have incurred excessive costs again this year for Department of Law attorneys. None of the three lawsuits filed have yet gone to court so the total cost is unknown. Additional funding for $150.0 is based on the amount expended to date for attorneys and expert witnesses. 3/25: Amended	1		150.0	-	-	-	150.0		150.0	-	-	-	150.0	
404	1-Feb	1	Transportation	Southeast Region Highways and Aviation	Transportation Security Agency Requirements - Door Lock System and Fingerprint Machine To continue to meet Transportation Security Agency requirements a new security access door lock system needs to be installed for the Sitka Airport Terminal. The control system for these doors is outdated and has become unreliable. A replacement system is estimated to cost $30.0. Transportation Security Administration regulations require the Department to fingerprint all badge holders at our certificated airports. The existing fingerprint machine is out of date and has become unreliable. A new machine is estimated to cost $14.9.	1		44.9	-	-	-	44.9		44.9	-	-	-	44.9	
405	1-Feb	1	Transportation	Whittier Access and Tunnel	Bid Protest Costs for Whittier Tunnel Operations Contract A bidder protested the award of a contract for operation of the Whittier Tunnel Toll Facility. This resulted in unplanned attorney and hearing officer costs which will continue until a settlement is reached. The Department of Law has billed $12.0 for attorney services through November 2009, and we estimate $8.0 of additional legal fees for the remainder of FY10. The Department of Administration has billed $11.7 for a hearing officer; we anticipate needing approximately $18.3 ($3.0 on average) for additional mediation services through June. It is unknown whether there will be additional expenses associated with this litigation such as potential settlement costs.	1		50.0	-	-	-	50.0		50.0	-	-	-	50.0	
406	1-Feb	1	Transportation	Whittier Access and Tunnel	Increased Operating Costs and Reduced Toll Revenue at the Whittier Tunnel Additional funding is necessary to fund the operation of the Whittier Tunnel Toll Facility for the remainder of FY10. Additional costs were incurred for cable repair, railroad crossing fees, increased State Equipment Fleet equipment replacement fees, CPI adjustments for the current contract, and additional roadway maintenance work leading up to the tunnel. In addition to increased costs, toll revenues have declined due to economic conditions, reduced cruise ship dockings, and gasoline prices.	1		385.0	-	-	-	385.0		385.0	-	-	-	385.0

443	1-Feb	19			Section 43(c), ch. 15, SLA 2009 is repealed. That section reads: (c) The amount calculated to be available for appropriation under art. IX, sec. 17(b), Constitution of the State of Alaska, for fiscal year 2010 is appropriated under art. IX, sec. 17(b), Constitution of the State of Alaska, from the budget reserve fund to the general fund. The administration is proposing to repay in full the amount owed to the constitutional budget reserve fund in FY2010, and does not want to draw any amount from the fund. Current calculations indicate the above section is not necessary.	1

* * * * *	Total Budget * * * * *	$143,017,300

(SECTION 3 OF THIS ACT BEGINS ON THE NEXT PAGE)

*** Sec. 3.** FINDINGS. The legislature finds that the State of Alaska has realized savings in the amount of $106,261,000 during the fiscal year ending June 30, 2010, through the federal medical assistance percentage provisions of P.L. 111-5 (American Recovery and Reinvestment Act of 2009) that are being used to finance appropriations made from the general fund in this Act.

*** Sec. 4.** DEPARTMENT OF COMMERCE, COMMUNITY, AND ECONOMIC DEVELOPMENT. The sum of $250,000 is appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment as a grant under AS 37.05.316 to World Trade Center Alaska for the 2010 world expo for the fiscal years ending June 30, 2010, and June 30, 2011.

*** Sec. 5.** DEPARTMENT OF CORRECTIONS. (a) The sum of $10,462,600 is appropriated to the Department of Corrections to implement the interest arbitration decision dated March 19, 2009, establishing monetary terms of the collective bargaining agreement with the Alaska Correctional Officers Association, for the fiscal years ending June 30, 2010, and June 30, 2011, from the following sources:

General fund	$10,348,500
Federal receipts	114,100

(b) For (a) of this section, it is the intent of the legislature that

(1) the Department of Corrections and the Department of Administration take all responsible actions necessary, including shift modification, to mitigate financial and other exposure as a result of the provisions for a 50 percent increase in personal leave accrual in the interest arbitration decision, dated March 19, 2009;

(2) the Department of Administration, in the conduct of current and future collective bargaining negotiations, refrain from considering the implementation of the Department of Corrections' interest arbitration decision, dated March 19, 2009, as suggestive or indicative of legislative endorsement of the arbitration award provisions for personal leave accrual rates for the Department of Corrections or any other bargained agreements.

*** Sec. 6.** DEPARTMENT OF HEALTH AND SOCIAL SERVICES. The sum of $242.72 is appropriated from the general fund to the Department of Health and Social Services, division of juvenile justice, for payment of unpaid bills for services received in 2003 and 2004, for fiscal year ending June 30, 2010.

*** Sec. 7.** DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT. Section 9(d), ch. 14, SLA 2009, is amended to read:

(d) The unexpended and unobligated balance, not to exceed $85,000, of the appropriation made in sec. 1, ch. 27, SLA 2008, **page 17, lines 4 - 5 (Office of the Governor, branch-wide oil and gas development - $7,290,800)** [PAGE 28, LINE 22, AND ALLOCATED ON LINE 27 (DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT, WORKFORCE DEVELOPMENT, ALASKA WORKFORCE INVESTMENT BOARD - $543,600)] is reappropriated to the Department of Labor and Workforce Development, Alaska Workforce Investment Board, for gas pipeline activities for the fiscal year ending June 30, 2010.

*** Sec. 8.** DEPARTMENT OF LAW. (a) The sum of $1,459,717.44 is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments and settlements against the state for the fiscal year ending June 30, 2010.

(b) The amount necessary, after application of the amount appropriated in (a) of this section, to pay judgments awarded against the state on or before June 30, 2010, is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments against the state for the fiscal year ending June 30, 2010.

*** Sec. 9.** DEPARTMENT OF NATURAL RESOURCES. (a) The sum of $40,000 is appropriated from the general fund to the Department of Natural Resources, claims, permits, and leases allocation, for providing trash and sanitation services at Kasilof Beach for the fiscal years ending June 30, 2010, and June 30, 2011.

(b) The interest earned during the fiscal year ending June 30, 2010, on the reclamation bond posted by Cook Inlet Energy for operation of an oil production platform in Cook Inlet under lease with the Department of Natural Resources, estimated to be $175,000, is appropriated to the Department of Natural Resources for the purposes of the bond.

*** Sec. 10.** DEPARTMENT OF PUBLIC SAFETY. The sum of $97,000 is appropriated from federal economic stimulus funds received by the state under P.L. 111-5 (American Recovery and Reinvestment Act of 2009) to the Department of Public Safety for combating Internet crimes for the fiscal years ending June 30, 2010, and June 30, 2011.

*** Sec. 11.** DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES. (a) The unexpended and unobligated balances, not to exceed $650,000, of the appropriations made in sec. 17(a), ch. 12, SLA 2009, and allocated in sec. 17(e)(1), ch. 12, SLA 2009 (Department of Transportation and Public Facilities, offset the effects of higher fuel and utility costs) and sec. 17(b), ch. 12, SLA 2009, and allocated in sec. 17(e)(1), ch. 12, SLA 2009 (Department of Transportation and Public Facilities, offset the effects of higher fuel and utility costs) are reappropriated to the Department of Transportation and Public Facilities for marine vessel operations to provide additional service to Unalaska and other communities along the Aleutian Island chain for the fiscal year ending June 30, 2010.

(b) The unexpended and unobligated balances, not to exceed $3,600,000, remaining after the appropriation made in (a) of this section, of the appropriations made in sec. 17(a), ch. 12, SLA 2009, and allocated in sec. 17(e)(1), ch. 12, SLA 2009 (Department of Transportation and Public Facilities, offset the effects of higher fuel and utility costs) and sec. 17(b), ch. 12, SLA 2009, and allocated in sec. 17(e)(1), ch. 12, SLA 2009 (Department of Transportation and Public Facilities, offset the effects of higher fuel and utility costs) are reappropriated to the Department of Transportation and Public Facilities for marine vessel operations to provide additional service to Unalaska and other communities along the Aleutian Island chain for the fiscal year ending June 30, 2011.

(c) The unexpended and unobligated balances, estimated to be $1,250,000, after the appropriations made in (a) and (b) of this section, of the appropriations made in sec. 17(a), ch. 12, SLA 2009, and allocated in sec. 17(e)(1), ch. 12, SLA 2009 (Department of Transportation and Public Facilities, offset the effects of higher fuel and utility costs) and sec. 17(b), ch. 12, SLA 2009, and allocated in sec. 17(e)(1), ch. 12, SLA 2009 (Department of Transportation and Public Facilities, offset the effects of higher fuel and utility costs) are reappropriated to the Alaska marine highway system fund (AS 19.65.060(a)).

*** Sec. 12.** FUND CAPITALIZATION. The sum of $5,000,000 is appropriated from the general fund to the disaster relief fund (AS 26.23.300(a)).

*** Sec. 13.** FUND TRANSFERS. (a) The sum of $1,116,986,600 is appropriated from the general fund to the public education fund (AS 14.17.300).

(b) The sum of $79,000 is appropriated from the Alaska Industrial Development and Export Authority revolving fund (AS 44.88.060) to the small business economic development

revolving loan fund (AS 44.88.400).

(c) The unexpended and unobligated balance of the appropriation made in sec. 18(b), ch. 30, SLA 2007 (Department of Natural Resources, assistance to the Creamery Corporation, dba Matanuska Maid Dairy - $600,000) is reappropriated to the agricultural revolving loan fund (AS 03.10.040).

*** Sec. 14.** RATIFICATIONS OF CERTAIN EXPENDITURES. (a) The expenditures by the Department of Natural Resources for fire suppression for the fiscal year ending June 30, 2009 (AR 37313-09 Fire General Fund), are ratified in the amount of $10,297,678.22.

(b) The following departmental expenditures made in fiscal years 2003, 2005, 2006, 2007, 2008, and 2009 are ratified to reverse the negative account balances in the Alaska state accounting system in the amount listed for the AR number. The appropriations from which those expenditures were actually paid are amended by increasing those appropriations by the amount listed, as follows:

Department of Commerce, Community, and Economic Development	
(1) AR 29605-08 Alaska Energy Authority Owned Facilities	$ 12.95
Department of Education and Early Development	
(2) AR 17722-07 Student and School Achievement	293.08
Department of Health and Social Services	
(3) AR 22708-03 DAS DMA Unbudgeted RSA for DAS Staff Support	140.40

*** Sec. 15.** RETAINED FEES AND BANKCARD SERVICES. Section 22(b), ch. 12, SLA 2009, is amended to read:

(b) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2010, is appropriated for that purpose to each agency of the executive, legislative, and judicial branches that accepts payment by bankcard or credit card for licenses, permits, goods, and services provided by that agency on behalf of the state, and to the Department of Law for accepting payment of restitution in accordance with AS 12.55.051 **and AS 47.12.170** by bankcard or credit card, from the funds and accounts in which the payments received by the state are deposited.

*** Sec. 16.** STATE DEBT AND OTHER OBLIGATIONS. Section 26(i), ch. 12, SLA 2009, is amended to read:

(i) The sum of $50,028,700 is appropriated to the state bond committee for payment of debt service and trustee fees on outstanding international airports revenue bonds for the fiscal year ending June 30, 2010, from the following sources in the amounts stated:

SOURCE	AMOUNT
International Airports Revenue Fund	**$36,828,700**
(AS 37.15.430)	[$46,828,700]
Passenger facility charge	3,200,000
International Airports Construction Fund	**10,000,000**
(AS 37.15.420)	

*** Sec. 17.** BUDGET RESERVE FUND. The amount available in the general fund at the end of the fiscal year ending June 30, 2010, after all other appropriations have been made, is appropriated from the general fund to the budget reserve fund (AS 37.05.540).

*** Sec. 18.** REVENUE AND APPROPRIATION BALANCE; CONSTITUTIONAL BUDGET RESERVE. (a) The amount necessary for full repayment of the amounts owed the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska), as of June 30, 2010, estimated to be $401,617,000, is appropriated from the general fund to the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska).

(b) If the unrestricted state revenue available for appropriation in fiscal year 2010 is insufficient to cover general fund appropriations made for fiscal year 2010, the amount necessary to balance revenue and general fund appropriations is appropriated from the budget reserve fund (AS 37.05.540) to the general fund.

(c) Section 27(c), ch. 12, SLA 2009, is amended to read:

(c) The sum of $1,673,000 is appropriated from the **general fund** [BUDGET RESERVE FUND (ART. IX, SEC. 17, CONSTITUTION OF THE STATE OF ALASKA)] to the Department of Revenue, treasury division, for operating costs related to management of the budget reserve fund for the fiscal year ending June 30, 2010.

(d) Section 27(d), ch. 12, SLA 2009, is amended to read:

(d) The **appropriation** [APPROPRIATIONS] made by (a) [AND (c)] of this section **is** [ARE] made under art. IX, sec. 17(c), Constitution of the State of Alaska.

* **Sec. 19.** Section 43(c), ch. 15, SLA 2009, is repealed.

* **Sec. 20.** LAPSE OF APPROPRIATIONS. (a) The appropriations made by secs. 11(c), 12, 13, and 17 of this Act are for the capitalization of funds and do not lapse.

(b) The appropriation made in sec. 9(b) of this Act lapses June 30, 2014.

* **Sec. 21.** RETROACTIVITY. Section 7 of this Act is retroactive to June 30, 2009.

* **Sec. 22.** This Act takes effect April 18, 2010.
