Thank you Rep. Gara for your support in this program. My child has been in the program since she was one years old she is now four years old. Her desire is to go to "big school". She enjoys the program so much. This has encouraged me as a parent to become involved in school activities. This is positive and very encouraging program for children and parents. Once again, Thank you for your support.

Subject: Fw: home base schools

My name is Audrey Jones from Fairbanks, Alaska. I had my son in the home base program (Parents as Teachers) starting when he was 2 years old. I am a stay at home mom and it was eye opening for me to realize how much I could teach him at home.

The program helped me teach him colors, shapes, sorting and more importantly how to play and explore with him. I've played some but, I'm always trying to clean the house, run the errands, cook dinner, do the laundry and I never saw play with him as imortant. If it wasn't for this program, him and I would have driven each other nuts.

He is now four years old and in the headstart program, but we have made a connection with each other that I think we would have missed out on if it had not been for the home base program. A speech impediment was recognized early on and the home base teacher helped us find a speech therapist for my son.

Plus, I always looked forward to the home base visiting us just to have an adult to chat with during the week. She gave me helpful ideas, encouragement and sometimes a shoulder when none others were available.

The program also offered us socials to attend, once a month, to get together with other kids and their parents. They offered lunch or dinners and opportunities to play in groups. He has transitioned nicely into a headstart program through these socials and the structure and regularity that our home base teacher provided.

Thank you for funding these programs that reached out to a home bound mother that luckily was accepted as a recipient of their services.

A sunbeam to warm you,
A moonbeam to charm you,
A sheltering angel, so nothing can harm you.
~Irish Blessing

Representative Chris Tuck

State Capitol Building

4th Floor, Room 426

Juneau, AK 99801

Phone: (907) 465-2095

Dear Representative Chris Tuck,

I am writing to ask you to support continued funding for the RurAL CAP Parents as Teachers (PAT) Program. My daughter and I are participants in the Anchorage PAT Program and I want to share with you some of the ways the program has impacted our lives.

Our PAT Family Visitor provides home visits every other week. At each visit she shares information on brain development and how I can foster my daughter's growth and development. We always learn a new activity that is specific to my daughter and her milestones. Each visit also includes a book or literacy activity and often we get a book to keep and add to our own collection. We enjoy each visit and the fun activities our PAT Family Visitor shares with us.

The PAT Program holds group socializations at least twice every month. These provide opportunities for children and parents to get together, play, learn something new and have fun! We are looking forward to our next group social at the public library where we will learn about all of the activities they provide for children.

Our PAT Family Visitor has also been a huge support to me in the loss of one of my children. She has offered me resources and even more importantly an ear to listen when I'm having a rough day. Although I don't think I will ever completely heal from this loss; the PAT Program has provided me with some of the tools I need to be the best mother I can be for my daughter.

The PAT Program has taught me that I am my daughter's first and best teacher. My daughter was born 10 weeks premature and is flourishing; I am certain that our participation in the PAT Program has given her an advantage and has given me the tools and resources I need to better support her growth and development. The PAT Program has empowered me to be an advocate for my daughter.

I hope that you will share this with your colleagues and please encourage them to also support funding for the RurAL CAP PAT Program.

Sincerely,

Alicia Notti

RurAL CAP PAT Parent

Subject: Parents As Teachers

Chris Tuck,

I am writing this letter to express how bless i am to be in the PAT program. I am a single mother of one and also young. I teach bilingual for elementary level kids but didn't know how to teach my 1 year. Rozel is a wonderful person to learn from she is very understanding flexible and down to earth. I am very happy that she is the type of person she is which reflex on the program. She always shared different resources with me and does researoh on various things that I might need. My daughter is learning three different languages and is also speaking all three of them. We love coming out to our PAT nights and learn new ways that I can help my daughter with and also she knows that she'll end up with a free book. I've learned how to use just regular stuff around the house to teach my daughter to learn how to be more independent and grow. I've learn so many ways that I can spend with her just doing little things that she can use later on in life i am so bless and eternally thankful that I could be in a program that teaches me how to be a better mother something I personally pray about everyday. I'm bless for the guidance. When Rozel left me a message wondering if i could write to you and sharing with you why I think that the PAT program deserve the states Grant I was very happy to write because the program changed my life and my daughters it's helping us learn from each other. I even use some of the wonderful learning tactics with my little kindergartens so it works. Again the PAT progam deserve the State grants and every other grants out there. Thank you Have a great day.

Subject: HB 69 Alaska Parents as Teachers

Representatives of the House Education Committee,

I needed to summarize for other public uses my last week's testimony regarding Parents as Teachers. I thought it may be of some use to you for your future deliberations on HB 69.

I have worked in the Parents as Teachers program for the past 14 years. I was fortunate enough to be the first parent educator hired when Hoonah implemented PAT in 1995, the first program in Alaska. The program has now expanded to 47 communities across Alaska.....because it works!

PAT is a win-win program: parents are empowered to take control of their children's learning from birth. Parent educators offer families personalized visits, which are conducted at the location of the parents' choosing. Usually it is in the home, but visits also occur at Head Start, child care centers/homes, McDonald's, or church basements. Visits occur where the families choose to visit. The advantage of the homes is that parent educators can coach the parent with the parent-child activity using the materials normally found in the child's environment. 70% of Hoonah's visits occur at homes; 30% occur at other places.

PAT is a "strengths model" which stresses that parents are the experts of their children, and that families will set their own goals for their children. Empowerment results when the parent educator is the resource who offers research-based strategies and options. It is the parents who choose which options are appropriate for their family and circumstances.

I became a National Trainer for the Parents as Teachers National Center in 1995. I periodically train new parent educators in Alaska and the lower 48, although Alaska is my priority. The training is intense, and parent educators must pass daily assessments, a role-play of a personal visit with a family, and be evaluated as competent to deliver the PAT services to families. Not every participant in the trainings is certified, and the standards are strict. Parent educators are not state employees or caseworkers, but are local residents hired by the local program who operates Parents as Teachers.

Parents as Teachers works with all family configurations: single parents, teen parents, grandparents raising grandchildren, foster and adoptive parents, and extended families rearing children. Each family's goals are different; each personal visit is different as a result.

Parents as Teachers works equally well with families who choose differing education avenues for their children: home schooling, public schools, or private schools. PAT is the first step in parents taking control of their children's learning at birth. Private schools aren't an option in Hoonah, but PAT has been popular with home-schooling parents here. One of our current PAT parent educators and one of our previous parent educators also homeschooled their children, a clear indication

that the partnership works very well.

School readiness is so vital to children. Independent research shows that children who participate in Parents as Teachers enter Kindergarten ready to learn, and they have great success throughout their elementary years. This is true regardless of which educational option families choose at age 5.

I urge you to vote yes on HB 69. The Parents as Teachers' vision is that "All children will learn, grow, and develop to their full potential." All Alaskan communities can achieve this as a reality through Parents as Teachers.

If I can provide any information about the Parents as Teachers program, the training component, or other aspects of PAT, please don't hesitate to contact me.

Thank you for your time and for your work on the Education Committee on behalf of Alaska's youngest citizens.

Subject: One more letter of support

Dear Representative Gara,

I am writing this letter in support of establishing voluntary Parents As Teachers home visiting programs for children ages prenatally to age five in the state of Alaska.

I am the Director of Homer Children's Services/Birth 2 Three, an Early Intervention-Infant Learning Program in Homer, Alaska. I am also a Developmental Specialist for this agency. We currently provide early intervention services such as physical therapy, speech therapy, occupational therapy, special instruction and family service coordination to children in southern Kenai Peninsula that are experiencing developmental delays.

We also have a "Universal Access" program, which is operated under our "Parents As Teachers" program model. This program is offered to children and families prenatally to age three, regardless of delay. We team this program with our weekly playgroup activities, and have had huge success with identifying and meeting the needs of families in our community whose children may not meet the 50% developmental delay requirement that "Part C" early intervention dictates.

Our agency educator provides home visiting services utilizing "Parents as Teachers" curriculum as an added service to our weekly playgroup activity. This service is offered universally to families, with the only requirement being age (prenatal to age three for our agency).

The benefits of having this service available to families has been astonishing, to say the least. I can tell you with all certainty that this truly falls in the category of "proactive" care and support to families with young children. We are able to begin the journey with the family right from the start; ideally prenatally. This journey includes education in prenatal topics, breastfeeding, preparing for your newborn, fatherhood, postpartum depression, child development, parenting techniques, etc. The journey with our agency's home visitor/educator includes family support, community resource connection, a rich lending library of toys/equipment/books and other educational resources. We also join with other related agencies such as Public Health Nurses, to offer joint home visits to further support child and family needs.

The results of this effective service have been exciting. Our agency is able to establish a relationship early with a family, helping them to become more familiar with child development and early education needs. We are involved early in the child's life, and therefore if we have concerns about development, we can address the needs quickly and often with results that will bring the child to age appropriate development in a shorter span of time. We have been able to identify children and refer them to early intervention through this program.

Additionally, our program offers services of developmental screening through the Child Abuse Prevention and Treatment Act (CAPTA), which is an unfunded mandate. We have seen an increase in the number of referrals to our agency over the past year by 300%. The referrals are received from our local Office of Children's Services, and are children under the age of three that have experienced substantiated abuse or neglect. In other words, they are the children who are under age three, whose families are referred to OCS. Birth 2 Three provides developmental screening to these children and provides services as appropriately determined by the results of the screening.

Many of these children are not yet significantly delayed in development, but are living within a family that poses a high risk environment. It may just be a matter of time until a developmental delay exists with many of these children. The "Parents As Teachers" home visiting program is often a great fit for these families, whose child may not qualify for early intervention. Home visiting allows for relationship building with the family, support and mentorship. The burden that this lifts from our OCS system has been established already and results have been positive.

As wonderful as this sounds, I would like to address the limitation that our agency is experiencing. This involves adequate funding of our "Parents As Teachers" home visiting program. We must locate other sources of funding, which for Homer Children's Services/Birth 2 Three, is sought after through United Way of Kenai Peninsula and the City of Homer. Although very much appreciated, this has not adequately funded the need of the "Parents As Teachers" program. We could be offering a great deal more to families; frequency of home visits, more resources, educational materials, activities, and increasing our enrollment of families. Additionally, our funds for this program are being threatened with the existing trends of the economy. Birth 2 Three may not be able to continue to offer this service to families in the future without support.

"Parents As Teachers" is a program that is modeled after best practices, is family-centered and family-strengthening. I believe that if we can get behind this initiative and bring this home visiting model to our state of Alaska, while funding it appropriately, we will see positive results. These results could be obtained within a fairly short time-span and with cost-effectiveness, quite possibly acting as the catalyst in moving our state toward reducing the incidence of child abuse and neglect.

Thank you for your consideration, passion and hard work on this initiative. If you have any questions, comments, or need further information, please don't hesitate to call me.

Respectfully,

I am writing in support of Alaska's Parents As Teachers.

Twenty-one employees from our Early Childhood Partnership districts (Chugach School District, Bering Strait School District, Kuspuk School District, and Lake and Peninsula School District) were able to participate in an excellent training provided by RurAL Cap called Parents As Teachers November 3-11, 2008. The PAT home intervention program and family group meetings are being implemented in 14/24 sites (58.33%) in the partnership districts. It will be implemented next year in the remaining sites. Our partnership currently serves 150 students ages 3 and 4.

We were only able to offer this service due to an ANE grant we received. We are currently in funding year 1 of 3.

The following are quotes by participants in the training:

Julie Egli, Unalakleet: "I believe with proper implementation, PAT may be the answer to our search for a quality research-based program to help our preschool children transition successfully into kindergarten."

Tonya Christensen, Port Heiden: "If we can get parents more involved, children will have more success in school."

Evelyn Chamberlain, Aniak: "PAT has lots of ideas on how to read to a child to issues such as toilet training biting, etc."

Valerie Engebretson, Nondalton: "There is so much we take for granted in our busy lives that we don't see all the great things we can share and learn with our children. PAT is a great experience for you to share with your child."

LeeAnn Galusha, Chenega Bay: "I love the resources that PAT provides."

Anna Gregorieff, Tatitlek: "Great material, great info!"

Unknown: "PAT empowers parents and gives our children the early interventions they need."

Waynna Fremin, Aniak: "The children in our communities deserve to be given this opportunity! Thanks for providing our district with this training."

Glenda Egli, King Salmon: "PAT provides a wealth of resources to support parents with their child's early learning and growth."

Sponsor Statement
HB 70
Alaska Grown Agricultural Products

The Farm-to-School Act is similar to programs proposed in several other states. Its intent is to strengthen links between state agriculture and state food procurement in schools, expand local markets, improve nutrition, and even benefit the environment. It improves upon current law that requires schools receiving state moneys to purchase agricultural products harvested if the state if, and only if, they are priced no more than seven percent higher than similar products imported to Alaska.

A Farm-to-School Program is created to facilitate increased procurement of Alaska grown foods by schools. The program will, in order of priority:

- Identify and develop policies and procedure, including proposed uniform procurement procedures, to implement and evaluate the program;
- Assist food producers, distributors, and brokers to market Alaska grown food to schools by informing them of opportunities and requirements;
- Assist schools in connecting with local producers by informing them of sources, availability and benefits of Alaska grown foods;
- Identify and recommend ways to increase predictability of sales and adequacy of supply;
- Make available publications allowing students to see benefits of preparing and consuming locally-grown food;
- Support efforts to advance other farm-to-school extensions such as school gardens or farms, and farm visits; and
- Seek additional funds to leverage state expenditures;

The Division of Agriculture must, cooperating with the Department of Education & Early Development, collect data on program activities and report biennially to the Legislature their progress beginning January 2010.

HB 70 also gives schools the authorization to create a school garden or even a farm. In doing so they must also allow students representing student organizations the opportunity to be involved in the garden or farm operation. Schools may teach both organic and traditional farming methods.

This bill sunsets on July 1, 2013.

Representative Carl Gatto

Chair, House Military and Veteran Affairs Committee
District 13 - Palmer

Fact Sheet HB 70

"An Act establishing the Farm-to-School program in the Department of Natural Resources, and relating to school gardens and Farms."

What is the Farm-to-school Program?

- Fresh local foods served in schools
- In class nutrition education
- School gardens or farms
- Farm tours

Farm-to-School impacts:

- Increased fruit & vegetable consumption
- Improved knowledge, attitudes, and behavior concerning healthy eating

Sustainable food is:

- Grown organically/with natural methods…
- On a small or medium sized family farm…
- That treats its workers well…
- And then is sold for a fair price…
- Transported and bought relatively close to where it was grown…
- And eaten fresh and in season.

Impacts of current food system

- Chronic diseases, antibiotic resistance & food-borne illnesses
- Sprawl & farmland loss
- Water contamination
- Crop and biological diversity
- Pesticide exposure
- Air quality & energy use
- Economic justice

Farm-to-School can:

- Support sustainable farmers
- Teach kids to make lifelong healthy choices
- Reinvigorate school meal programs
- Support the local economy

ANALYSIS: *(Attach a separate page if necessary)*

A Farm-to School program – as outlined in Sec. 2 of HB 70 – would be created in the Division of Agriculture to increase procurement and use of Alaska grown foods in the public schools and make available existing curricula, programs and publications that educate students on the benefits of preparing and consuming foods grown locally. A Development Specialist, Range 18, $81.9, would implement Section 2, in conjunction with a seasonal Agriculture Inspector, Range 16, $44.2 to implement section 4. Travel expenses will be used to cover travel to ***selected*** districts to educate students on the benefit of growing and consuming healthy local produce. Contractual will cover the cost of curriculum coordinated with the Department of Education to educate youth on the benefit of growing and consuming healthy local produce. Section 5 of the bill repeals the Farm to School Program July 1, 2013.
*Alaska has 55 school districts with approximately 500 public schools.

CS FOR HOUSE BILL NO. 70(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): REPRESENTATIVES GATTO, Ramras, Guttenberg, Gruenberg

A BILL

FOR AN ACT ENTITLED

"An Act establishing the farm-to-school program in the Department of Natural Resources, and relating to school gardens, greenhouses, and farms."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 03.05.010(a) is amended to read:

(a) The commissioner of natural resources shall

(1) direct, administer, and supervise promotional and experimental work, extension services, and agricultural projects for the purpose of promoting and developing the agricultural industry within the state including such fields as horticulture, dairying, cattle raising, fur farming, grain production, vegetable production, and development of other agricultural products;

(2) procure and preserve all information pertaining to the development of the agricultural industry and disseminate that information to the public;

(3) assist prospective settlers and others desiring to engage in the agricultural industry in the state with information concerning areas suitable for

agriculture and other activities and programs essential to the development of the agricultural industry in the state;

(4) review the marketing, financing, and development of agricultural products inside the state including transportation, with special emphasis upon local production, and negotiate for the marketing of agricultural products of the state with federal and state agencies operating in the state;

(5) regulate and control the entry into the state and the transportation, sale, or use inside the state of plants, seeds, vegetables, shell eggs, fruits and berries, nursery stock, animal feeds, remedies and mineral supplements, fertilizers, and agricultural chemicals in order to prevent the spread of pests, diseases, or toxic substances injurious to the public interest, and to protect the agricultural industry against fraud, deception, and misrepresentation; in this connection, the commissioner may require registration, inspection, and testing, and establish procedures and fees; [AND]

(6) regulate the farming of elk in a manner similar to the manner in which the commissioner regulates domestic animals and livestock, to the extent that is appropriate;

(7) implement the farm-to-school program established in AS 03.20.100.

*** Sec. 2.** AS 03.20 is amended by adding a new section to read:

Article 2. Farm-to-school Program.

Sec. 03.20.100. Farm-to-school program established. (a) The farm-to-school program is established in the department to increase the procurement and use by public schools of food grown in the state.

(b) The department, in consultation with the Department of Health and Social Services, the Department of Education and Early Development, the Department of Administration, and the University of Alaska Cooperative Extension Service, shall, in order of priority,

(1) coordinate with school procurement officials, buying cooperatives, and other appropriate organizations to develop uniform procurement policies and procedures, as well as materials and practical recommendations, to facilitate the

procurement and use by public schools of food grown in the state; these policies, procedures, materials, and recommendations shall be made available to school districts to adopt at their discretion;

(2) assist food producers, distributors, and food brokers to market food grown in the state to public schools by informing school districts of food procurement opportunities, bid procedures, purchasing criteria, and other relevant requirements;

(3) assist public schools in connecting with local producers by informing the schools of the resources and availability of food grown in the state and the nutritional, environmental, and economic benefits of purchasing the food grown in the state;

(4) identify and recommend mechanisms that will increase the predictability of sales for producers and the adequacy of supply for purchasers;

(5) identify and make available to public schools existing curricula, programs, and publications that educate students on the nutritional, environmental, and economic benefits of preparing and consuming food grown in the state;

(6) support efforts to advance other farm-to-school activities, including school gardens, school farms, and farm visits;

(7) as resources allow, seek additional funding to leverage state expenditures for the program.

(c) Beginning January 25, 2011, the department, in cooperation with the Department of Education and Early Development, shall collect data on the activities conducted under this section and report the data biennially to the legislature. The data collected must include the number of schools and farms participating in the program established under (a) of this section and the increase, if any, in the procurement by the public schools of food grown in the state.

(d) This section does not modify AS 36.15.050 and 36.15.060 regarding preferences for Alaska agricultural and fisheries products.

(e) In this section,

(1) "food grown in the state" includes fruits and vegetables grown in the state and meat and dairy products produced in the state;

(2) "program" means the farm-to-school program described in this

section.

* **Sec. 3.** AS 14.07.020(a) is amended to read:

(a) The department shall

(1) exercise general supervision over the public schools of the state except the University of Alaska;

(2) study the conditions and needs of the public schools of the state, adopt or recommend plans, administer and evaluate grants to improve school performance awarded under AS 14.03.125, and adopt regulations for the improvement of the public schools;

(3) provide advisory and consultative services to all public school governing bodies and personnel;

(4) prescribe by regulation a minimum course of study for the public schools; the regulations must provide that, if a course in American Sign Language is given, the course shall be given credit as a course in a foreign language;

(5) establish, in coordination with the Department of Health and Social Services, a program for the continuing education of children who are held in detention facilities in the state during the period of detention;

(6) accredit those public schools that meet accreditation standards prescribed by regulation by the department; these regulations shall be adopted by the department and presented to the legislature during the first 10 days of any regular session, and become effective 45 days after presentation or at the end of the session, whichever is earlier, unless disapproved by a resolution concurred in by a majority of the members of each house;

(7) prescribe by regulation, after consultation with the state fire marshal and the state sanitarian, standards that will assure healthful and safe conditions in the public and private schools of the state, including a requirement of physical examinations and immunizations in pre-elementary schools; the standards for private schools may not be more stringent than those for public schools;

(8) exercise general supervision over pre-elementary schools that receive direct state or federal funding;

(9) exercise general supervision over elementary and secondary

correspondence study programs offered by municipal school districts or regional educational attendance areas; the department may also offer and make available to any Alaskan through a centralized office a correspondence study program;

(10) accredit private schools that request accreditation and that meet accreditation standards prescribed by regulation by the department; nothing in this paragraph authorizes the department to require religious or other private schools to be licensed;

(11) review plans for construction of new public elementary and secondary schools and for additions to and major rehabilitation of existing public elementary and secondary schools and, in accordance with regulations adopted by the department, determine and approve the extent of eligibility for state aid of a school construction or major maintenance project; for the purposes of this paragraph, "plans" include educational specifications, schematic designs, and final contract documents;

(12) provide educational opportunities in the areas of vocational education and training, and basic education to individuals over 16 years of age who are no longer attending school;

(13) administer the grants awarded under AS 14.11;

(14) establish, in coordination with the Department of Public Safety, a school bus driver training course;

(15) require the reporting of information relating to school disciplinary and safety programs under AS 14.33.120 and of incidents of disruptive or violent behavior;

(16) establish by regulation criteria, based on low student performance, under which the department may intervene in a school district to improve instructional practices, as described in AS 14.07.030(14) or (15); the regulations must include

(A) a notice provision that alerts the district to the deficiencies and the instructional practice changes proposed by the department;

(B) an end date for departmental intervention, as described in AS 14.07.030(14)(A) and (B) and (15), after the district demonstrates three consecutive years of improvement consisting of not less than two percent increases in student proficiency on standards-based assessments in math,

reading, and writing as provided in AS 14.03.123(f)(2)(A); and

(C) a process for districts to petition the department for continuing or discontinuing the department's intervention;

(17) notify the legislative committees having jurisdiction over education before intervening in a school district under AS 14.07.030(14) or redirecting public school funding under AS 14.07.030(15)**;**

(18) assist the Department of Natural Resources in developing and implementing the farm-to-school program established under AS 03.20.100.

*** Sec. 4.** AS 14.30 is amended by adding a new section to article 7 to read:

Sec. 14.30.375. School gardens, greenhouses, and farms. (a) A school district may authorize or operate a school garden, greenhouse, or farm. The garden, greenhouse, or farm must be used for educational purposes and for growing fruits and vegetables for consumption by the students through the school district's meal and snack program.

(b) If a school district operates a school garden, greenhouse, or farm, the district shall give students representing student organizations, including vocational programs, the opportunity to be involved in the operation of the school garden, greenhouse, or farm.

(c) When a school garden, greenhouse, or farm is used for educating students about agricultural practices, students shall be afforded the opportunity to learn about both organic and conventional growing methods.

(d) If a school district operates a school garden, greenhouse, or farm, the excess fruit and vegetables may be sold.

*** Sec. 5.** AS 03.05.010(a)(7); AS 03.20.100; AS 14.07.020(a)(18); and AS 14.30.375 are repealed July 1, 2014.

Representative Carl Gatto

Memorandum

Date: February 1, 2010

To: Representative Bill Stoltze, Co-Chairman
Representative Mike Hawker, Co-Chairman
House Finance Committee

From: Representative Carl Gatto, Chair
House Military and Veteran Affairs Committee

Re: Explanation of Changes between HB 70 Original and (CS) for HB 70, Version 26-LS0284\S, Bannister,3/25/09 out of the House Resources Committee

Section 4 of the original bill created an Alaskan Grown Fresh Fruit and Vegetable Program to provide students with free locally grown produce as snacks throughout the school day. Snacks would have been accompanied by education on nutrition, agricultural stewardship, and environmental issues. It was removed from the Committee Substitute due to fiscal concerns.

Section 7 of the original bill was also removed due to fiscal concerns. This section would have created a pilot program in small and rural communities through which the state facilitated the use of locally grown products in area food banks.

Section 6 of the original bill was designed to increase the use of food stamps and WIC cards at local farmers' markets. The section was removed at the request of the Department of Health and Social Services since the department was already developing a similar program.

The House Resources Committee passed Conceptual Amendment 1 stating:
Page 6, line 10, following "gardens":
Insert ", greenhouses"

Page 6, line 11, following "school garden":
Insert ", greenhouse"

Page 6, line 11, following "The garden":
Insert ", greenhouse"

Page 6, line 14, following "garden":
Insert ", greenhouse"

Page 6, line 17, following "garden":
Insert ", greenhouse"

Page 6, line 20":
Insert a new subsection to read:
"(d) When a school garden, greenhouse, or farm is used the excess fruits or vegetables may be sold, if the revenues are used to support the program."

Conceptual Amendment 1 inserts an explicit mention of greenhouses into several portions of the bill to guard against any confusion as to their eligibility for the program. Subsection (d) helps ease any financial strain on other school organizations by allowing school gardens to sell excess products to help fund the program.

Version S of (CS)HB70 deleted page 6, lines 23-24, to avoid constitutional problems concerning dedicated funds. The new language allows for excess produce to be sold without specifying the use of the funds. The House Resource Committee suggested that the House Finance Committee might be better suited to consider language that heeded the constitution but ensured that the funds from selling excess fruit remained under local control.

CASE STUDY

Healdsburg, CA

Movers and Shakers
Nancy May, the School Food Service Supervisor, is the main organizer behind this Farm to School project. She came to Healdsburg Junior High School at a time when the cafeteria was being renovated, and decided to change the emphasis from ordering a la carte items from windows to eating a healthy, appealing meal using a cafeteria line.

Project Description
Ms. May has instituted an eye-catching salad bar, using farm products wherever possible. This salad bar operates two days a week at one middle school and the high school. She has opened three old school kitchens – including one at an elementary school and is serving up virtually home-cooked lunches every day. The a la carte items such as burritos and tamales, are nutritious and freshly made, and have helped boost a la carte sales.

Other Components
School gardens have been organized at each school with the help of community donations. One garden fence, including the labor, was donated by a local gardening group. Materials for raised beds were donated by a local home and garden business. Ms. May aggressively markets the farm to school project, by actions such as serving school lunches at school board meetings. She has also hosted the state Superintendent of Schools to visit the school garden.

Students and parents also help with the menu planning and Ms. May holds occasional product tastings to help determine students' preferences.

Funding
Ms. May has received $30,000 from a Shaping Health as Partners in Education (SHAPE) grant that has been used to help develop nutrition education, teacher training, and to purchase equipment such as the salad bars and a portable cooking cart for classrooms. She received a second SHAPE grant for $50,000 that was used for developing the school garden, establishing links between the garden and farm to school project, and for supporting an agriculture curricula.

Labor
The bulk of the organizing work has been done by Ms. May. She has incorporated student workers in the cafeteria to help with food preparation and food serving. Students over 13 years old can work up to 6 hours per week.

Farmers/Crops
The district buys from three local farmers who were located by Nancy May at the local farmers' market and through word-of-mouth. The crops they provided on a seasonal

basis include: tomatoes, cucumbers, apples, pears, herbs, peppers, onions, and lettuces. Ms. May buys organic produce whenever possible.

Product Delivery
The farmers deliver directly to the district on Monday mornings for the salad bar that operates twice a week at both the junior high and high school.

Price
The farmers charge a fair price that is generally comparable to the wholesale price.

School Food Service Support
This program was organized by the school food service staff. However, staff is working to garner further administrative support to expand the existing program.

Kitchen Facilities
When Ms. May came to the district three years ago, she began reopening three old kitchens so that meals could be freshly prepared instead of reheating prepackaged frozen meals. Both the kitchens at the elementary schools have been renovated within the last three years. The high school kitchen is also being renovated. Despite these improvements, more space is needed for food preparation and storage.

Sustainability
While this program is sustainable, additional funding would help to expand and improve what currently exists. Funding would be used for storage and refrigeration facilities, additional serving tables and utensils, to pay for more labor-intensive meal preparation, and for hiring a garden/farm to school coordinator.

CASE STUDY

Florida

Movers and Shakers

In 1995, a group of farmers formed the New North Florida Marketing Cooperative. The goal of the cooperative was to provide marketing services to the participating farmers, and provide training and education in marketing options such as farmers' markets, roadside stands, and selling to local school districts. The goal is to increase the amount of product being sold, thereby increasing the farmers' incomes.

Description

The New North Florida Cooperative began by selling farm fresh produce to 13 schools in Gadsden County, Florida. In six years, the marketing efforts have increased so that the Cooperative now sells to 15 school districts in Florida, Georgia and Alabama. Through these districts, they are serving 300,000 students!

The farmers focus on producing three to four main items, on a seasonal basis, and sell to schools year-round. The items are incorporated into menu planning, generally as a side dish or as a fresh fruit dessert. The Cooperative has developed a good reputation by providing high-quality produce, prompt deliveries, fair prices and for their courteous professionalism. They refer to this as "relationship marketing". The positive word-of-mouth has been very effective in opening the door to the program in other school districts.

Other Project Components

As part of its marketing and promotion, the Cooperative has developed posters showing the life cycle of a crop – from planting to harvesting. These posters are displayed in school cafeterias.

Funding

Approximately 90% of the funding for the Cooperative's marketing efforts come from the sales of their members and participants. These sales come from a variety of direct marketing alternatives, including farmers' markets, roadside stands, and through their sales to schools. When the initial farm to school program was ready to launch, the Cooperative did receive a $4,000 grant from the USDA Agriculture Marketing Service. They also received a $3,000 loan from the West Florida Resource Conservation and Development Council (WFRCDC). Most of the grant money received by the Cooperative has been used for infrastructure and equipment purchase, such as refrigerated trucks and cool and cold storage facilities.

Labor

Most of the labor for preparing the products, as well as growing, them comes from the Cooperative members and participants. During particularly busy times, day labor is also utilized. Since the farmers have the ability to wash, chop and bag the produce, there is no additional labor on the part of the school food service.

Farmers and Crops
The Cooperative provides marketing services and opportunities for over 100 members and participants in Florida, Georgia and Alabama. Their primary crops are collards, field peas, muscadine grapes and a few turnip greens.

Product Delivery
Deliveries are made 2 ½ to 3 days per week depending on school menus. While much of the produce is delivered by the Cooperative, they do work with other produce vendors as well. The produce that is delivered is packaged and has a label with a logo and a nutritional analysis. The Florida A & M University provided some technical assistance to develop the label.

A delivery trailer was purchased by the Cooperative, and a cooling system from a recreational camper was installed to keep the produce at a relatively low temperature while in transit. Styrofoam insulation was also installed to protect the produce from the outside heat. The logo is printed on the side of the trailer along with the name of the Cooperative and the phrase, "The Pinnacle of Quality".

Price
The Cooperative has developed a niche market as there is little competition in providing fresh, washed, chopped, bagged, and delivered greens. Consequently, the Cooperative is able to negotiate a price that is both fair to the school district and profitable for the growers.

School Food Service
The Cooperative members gained the respect of the school food purchasers by initially *donating a sample of their product – 3,000 pounds of greens.* The greens and fruits have been met with an enthusiastic reaction from children, which has been a big factor in administrative acceptance of the product. All members of the Cooperative go out of their way to be helpful and courteous when delivering the product, and they unload the boxes and stack them neatly in cold storage facilities. After each delivery, the cafeteria manager is notified that the order was delivered. The Cooperative demonstrates courtesy, provides convenience, and protects the high quality of its products by taking this extra step.

Kitchen Facilities
Since schools are not processing the product, facilities become more of an issue for the Cooperative members, who must have storage, refrigeration, and a covered area for washing, cutting, and bagging equipment. Originally, all of the washing was done in large steel tubs, and chopping was done by hand. There was no refrigeration system and therefore no storage capacity. As a result, harvesting and processing had to be done in one day – one very long day. To continue in business, the Cooperative purchased a packing/processing shed, a cutting/chopping machine, wash sinks, and a refrigeration and storage system. Funds for purchasing equipment came from grant funding and bank loans.

Sustainability
The New North Florida Cooperative has been sustainable since it began, as 90% of its funding comes from direct marketing sales. The few loans and grants they have received have helped it to build infrastructure with equipment purchases.

CASE STUDY

Santa Monica-Malibu

Movers and Shakers

The initial impetus for this project came from Bob Gottlieb, a parent at one of the schools in the Santa Monica-Malibu Unified School District (SMMUSD). He approached Rodney Taylor, the School Food Service Director, about implementing a salad bar, and initially received a lukewarm reception. However, Mr. Taylor was open to trying a pilot project as long as Mr. Gottlieb was willing to do most of the organizational work. As a university professor, Mr. Gottlieb was able to incorporate students into the project, as well as write grant proposals to hire full-time staff.

Project Description

The Farm to School Project encompasses all of the 15 schools in the SMMUSD district, including elementary, junior high and high schools. Each school has a Farmers' Market Salad Bar which features produce that consists entirely of farm products that are purchased at local farmers' markets. The salad bar also contains protein, grain, and dairy products. Because of the year-round growing season, and year-round farmers' markets, the project is able to always include regionally grown produce. While the project began in one school, within a four year period the Farmers' Market Salad Bar was instituted on a district wide basis. The children have the daily choice of the salad bar or the hot meal.

Other Components

Each of the schools in the district also has a school garden that is maintained by teachers or parent volunteers. A child nutritionist was hired on a temporary basis to teach nutrition education, including a class on salad bar etiquette and an introduction of the items found at the salad bar. A cooking cart is also used for classroom demonstrations.

Another component of the project is field trips to both farms and the farmers' markets. Teachers sign up their classes for farm field trips and the Salad Bar Coordinator arranges tours of the farmers' markets. The latter includes a talk by the Market Manager about the different products at the market accompanied by hands-on experience with the products, and of course, an opportunity to sample them.

Funding

During the first year, funding was provided by the California Endowment to UCLA/Occidental College through a grant directed by Mr. Gottlieb. In the next year, the district took on the staffing of the project and obtained funding from a Department of Health Services Nutrition Network grant. However, only six schools in the district qualified for this grant, due to the requirement that a specific number of children be eligible for free or reduced meal pricing. At the other schools, the PTA donated $5,000 - for each school - to get the program up and going. The Santa Monica Farmers' Market also donates $10,000 per year to the Farm to School project. Funds from ala carte sales also help to support the Farmers' Market Salad Bar.

Labor
In the first year, labor was provided primarily by UCLA/Occidental College staff and parent volunteers. However, the school labor unions do not allow parent volunteer labor, and eventually, a part-time person was hired at each school to help with the salad bar preparation, serving and clean-up. There is also a Salad Bar Coordinator who oversees the entire program.

Farmers/Crops
There are two tremendously successful year-round farmers' markets within a mile of the SMMUSD central office. Twice a week, on Wednesdays and Saturdays, the Salad Bar Coordinator visits the markets to purchase the produce. Some of the products purchased seasonally include: strawberries, apples, melons, cherries, lettuce, carrots, celery, tomatoes, citrus, raisins, peppers, broccoli, cauliflower, potatoes, and peaches. Over the school year, about 20 farmers will provide crops for the salad bar, and the district will spend a total of approximately $100,000 on produce from the farmers' market.

Product Delivery
The SMMUSD has its own truck to transport the produce. The district purchased the truck prior to the implementation of the Farmers' Market Salad Bar. The produce is brought directly from the farmers' market to the central kitchen where one driver delivers produce to the Santa Monica schools and another driver transports the produce to the schools in Malibu. This is done twice weekly.

Price
As the farmers are already making the trip to the farmers' market, and do not have additional delivery costs to the schools, they are able to sell at wholesale instead of retail prices. In the beginning of the project, some farmers sold below wholesale because they believed in the idea of kids eating great produce. With the Farmers' Market Salad Bar now in all 15 schools, the prices are generally comparable to wholesale.

School Food Service Support
Initially, support from school food service folks was slow in coming. The real change occurred when the staff saw children choosing the salad bar for lunch, and eating what was on their plate! There is now overwhelming support for the project, and Rodney Taylor has on his business card, "Home of the Farmers' Market Salad Bar".

Kitchen Facilities
Each of the schools has their own facilities for food preparation. The actual salad bars were purchased before the farmers' market component was added.

Sustainability
After four years in operation, the Farmers' Market Salad Bar is able to operate without grant funding. However, some of the other project components, such as the nutrition education, can only be done if additional funding is obtained. The SMMUSD has found that costs spread out over 15 schools make it a much more viable program than when it operated in only 2 or 3 locations.

CASE STUDY

Iowa

Movers and Shakers

The three major organizers of the Iowa Farm to School project are Merl Steines, Michael Nash, and Joan Lubke. Mr. Steines and Mr. Nash are farmers with the GROWN Locally cooperative. Ms. Lubke, is a Dietary Manager, Food Service Director at the Decorah Community School District in Northeast Iowa, and she and her husband are farmers who produce organic soybeans, corn, oats, and raise organic cattle.

Ms. Lubke, Mr. Steines and Mr. Nash have known each other for several years, but became better acquainted at a Farm to School forum in Ames, sponsored by the USDA and organized by the Practical Farmers of Iowa.

Project Description

Through the Iowa Farm to School Project, Ms. Lubke uses locally grown products for a salad bar and as a la carte items. She works with four schools, two elementary, one middle school and one high school, and the farm-fresh items are particularly popular with students in the middle school and high school.

Other Components

Horticulture classes are offered through the local Future Farmers of America (FFA), and information about agriculture, farming and nutrition are provided as well in classes focusing on the environment and culinary arts. GROWN Locally is also preparing printed materials and will organize farm tours in the spring.

Funding

The program has not received special funding to buy directly from the GROWN Locally cooperative. With additional funding, we would able to purchase a greater amount of local products.

Labor

The GROWN Locally cooperative provides much of the produce already washed to help reduce labor costs. However, some food preparation is needed to cut and chop the produce. The price of labor is the prohibiting factor in expanding this program. GROWN Locally is planning to purchase processing equipment to help reduce these costs for the school district.

Farmers/Crops

There are 11 members in the GROWN Locally cooperative, and they coordinate both the production of the crops as well as the distribution to schools and other institutions. One invoice is presented from the cooperative to the school, so that there is no need for the school to pay each individual farmer Individual farm payments are then distributed by GROWN Locally. The crops that have been the most popular with the students are apples, cucumbers, lettuces, carrots, broccoli and cauliflower.

Product Delivery
Deliveries are made to the school by the cooperative once per week. With the exception of the apples, this is the first year that GROWN Locally has sold to the school district. It is expected that the program will expand with additional products in the coming year.

Price
The members of the cooperative check wholesale prices for their products, and set their prices competitively with these standards. At this time, 20% of the money received from the sales goes back into running the cooperative.

Even with prices set to be competitive with major distributors, the cost is still somewhat high for the school district. These prices are to a degree offset by the use of commodity items. School food services acknowledges that price is an issue, but is willing to pay for a quality product in order to provide great tasting meals for the children.

School Food Service Support
As the school food service staff was instrumental in organizing farm sales to schools, they are very supportive of the project. The farmers in GROWN Locally have done some marketing around their direct sales, and it has generated good public relations for the school. There is also good support from school board members.

Kitchen Facilities
The kitchen facilities are up-to-date with an adequate amount of space for food preparation and storage. GROWN locally is planning to build a small processing center to provide their products in forms that are more accessible to school food service personnel and to extend the times when products are available.

Sustainability
Since this project has not require additional funding, it is sustainable. However, it is also limited in any possible expansion by labor costs. With additional funding for the labor required for food preparation, the farm to school project would be able to grow beyond its present operation.

CASE STUDY

Kentucky

How it Started

Official introduction occurred in May 2000 through cooperative efforts of the USDA, the Kentucky Department of Ag., University of Kentucky Extension and the Kentucky Department of Education. Some school districts in Kentucky had noted the North Carolina model and had been purchasing produce through the DOD fresh program and from local cooperatives. In the first year the program was piloted in regions 4 and 8. Schools were encouraged to request product grown in Kentucky, if prices were comparable. The program went statewide this year. Farm-to-School in Kentucky now has a full time coordinator who handles communications with farmers and schools funded by the State Department of Agriculture.

Farm to School Project and Components

Clark County is Kentucky's model program for integrating Farm to School with nutrition and health education. There they are developing and piloting the Clover CAT (Cooking, Activity, and Time to be well) curriculum. This curriculum includes nutrition, time management, exercise and self-esteem. The curriculum is being piloted in the 5th, 7th, and 9th grades with introductory, intermediate and advanced levels. In some areas the YMCA offers a three-month scholarship to obese children who attend these classes. If the children work out at the YMCA 30 times in three months they are offered another three-month free membership. Intergenerational gardens are being piloted but not always in conjunction with the farm to school program.

Farm-to-school coordinator plans to develop additional components (ag education, nutrition education) in the future.

Funding

The farm to school program is incorporated into the jobs of nearly all those involved. The program is broadly supported by the State of Kentucky. No additional funding has been required.

Farmers/Crops

The Kentucky Department of Agriculture facilitates communication between farmers and schools. They promote products grown in Kentucky such as seedless watermelons, sweet potatoes, broccoli and seasonal decorative products. Local and Kentucky grown cannot always provide quantities needed by school districts. In these cases commodities and out-of-state foods are used. Farm cooperatives comprise the majority of farms involved in the program. Few independent farms participate. There is some question as to how beneficial this program is to new, small-scale, or non-traditional farms.

School food service commented that farmers have not approached schools independently. If they did, they might be well received. Additional product is needed for summer feeding program and school food service might be willing to purchase direct if farmers made the effort.

DOD provides purchasing expertise some contact with growers. DOD helps set prices, work with growers and seek out small-scale growers

Delivery
School Districts place their orders in May each year. Contracted produce distributors ship their produce to larger distribution sites 5 located in Kentucky, one in Ohio and one in Tennessee. Product is shipped from these sites to schools. Department of Ag. inspects and approves distributors prior to their involvement with farm-to-school

In districts served by a central kitchen food service directors at individual schools can order from their local distributor to supplement what is provided by the central kitchen. The central kitchen places a request once a month for bid. Bids are published and individual schools may order from that list. Schools are encouraged to choose lowest bid first, Kentucky grown second. Produce is delivered once a week.

Price
Farm-gate price is negotiated by Kentucky Dept. of Ag and DOD. A 5.6% surcharge is added to farm gate price and this price is offered to schools. Price for Kentucky grown has not been an issue with product purchased through State farm-to-school program but price for locally grown can be an issue when purchasing from local distributors. Commodities and low prices take precedence over locally grown.

School Food Service Support
School food service was supportive from the beginning. At the May 2000 conference they shared the barriers they had confronted and overcome as well as barriers that persist. For the last year and a half Jefferson County has prepared food in the central kitchen and delivered to schools in refrigerated trucks owned and operated by Food Service. Menus are developed for periods of 6-months. Seasonality impacts price but is not necessarily a consideration in menu development.

USDA rep provides regular training to food service in handling fresh product and some nutrition education.

Kitchen Facilities
Jefferson County has a model central kitchen which can process huge quantities of food with little additional staffing. Food for school lunches is prepared at this site and shipped to individual schools. Other schools have some processing capability but prefer pre-cut, prepackaged product. No additional labor has been necessary.

Sustainability
This project has a great deal of State support. Nearly all aspects of the program are incorporated into the jobs of those involved. Elementary and middle schools do not allow students to leave campus during school hours. Ala carte items, which are part of school menu, are sold during lunch but no competitive foods are sold on campus. Although high schools have soft drink contracts, the machines cannot be turned on until ½ hour after last lunch period. Under these conditions the program is sustainable.

CASE STUDY

New Mexico

Movers and Shakers

The primary organizer behind the Farm to School project in Santa Fe is Lynn Walters. Lynn is a chef and previous restaurant owner as well as a concerned mother of two school-aged children. She is Program Coordinator of Cooking with Kids, a multicultural food education program. Lynn arranged a visit to the Santa Monica Farmers' Market Salad Bar for several school food service staff members and New Mexico Department of Agriculture Marketing Specialist Craig Mapel. The Director of Student Nutrition Services, Judi Jaquez, fondly calls Lynn "the thorn in her side" that moved her to support and develop a farm to school program in Santa Fe, New Mexico. Judi is a self-described "convert" who touts the flavor and quality of locally grown fresh fruits and vegetables.

Farm to School Project and Components

Three Santa Fe public schools are participating in this project, two elementary and one high school. One of the elementary schools has a salad bar every day. The meal at this site includes a meat entree three times a week and a vegetarian item twice a week. The other elementary school offers a side salad of mixed greens, sunflower sprouts, and other seasonal items with lunch. The high school has a separate salad bar; students have the choice of the salad bar or a hot lunch.

Nutrition education in the classroom has had a big impact on the salad bar line. The first session conducted by Farms to Schools Coordinator Betsy Cull discussed proper salad bar etiquette as well as what is required for a reimbursable meal. Betsy followed the hands-on model of the Santa Monica Farmers' Market Salad Bar Program and brought the salad bar into the classroom for a lesson about food groups and portion sizes. The students were then able to prepare a tray to eat, practicing what they just learned.

Student Comments

"I've never tasted this stuff before; it's good"
"I love fruits and vegetables."
"I didn't use to like this kind of lettuce much, but I'm starting to like it more now that I've tasted it"

Funding

Three grants have provided start-up funds for this project: a USDA Community Food Projects grant will be providing $30,750 over three years and the New Mexico Department of Agriculture (NMDA) is contributing $30,000 to this project this year. In addition, USDA's Federal State Marketing and Improvement Program awarded NMDA $27,000 to further develop the program into next year.

Labor

Collaboration got this program going. A group of folks, including Lynn Walters, Craig Mapel, and Judi Jaquez, worked with the support of members of the Student Nutrition Advisory Council, including Registered Dietician and former NET Coordinator Blanche Harrison, to organize this project. Betsy Cull was hired as the Farms to Schools Coordinator, a newly created school district position. School food service staff prepare the fruits and vegetables for the salad bars.

Farmers/Crops
Organizers worked with the NM Department of Agriculture and the state Farmers' Marketing Association to locate farmers. Approximately forty farmers sell to the school district, primarily through a farmers' coop, during the fall and spring months. Farmers see a tremendous potential to sell more crops if they can extend their season, and they are working to develop hothouse techniques to do just that. The crops that the children see seasonally include salad greens, sunflower sprouts, apples, pears, watermelons, tomatoes, corn, cucumbers, peppers, squash, potatoes, onions, carrots, broccoli, and radishes.

Product Delivery
The school district is working with the New Mexico Farmers' Market Association to coordinate deliveries through a cooperative distribution system. Deliveries are made either directly to the school sites or to the central warehouse.

Price
There are price barriers that are not easily overcome in New Mexico and are quite likely the greatest hurdle facing the pilot project. New Mexico procurement law requires most state agencies (including school districts) to go out to bid on virtually any item, including produce, that will be over $10,000. In addition, to insure that the public dollar is being wisely spent, the agency requesting the bid must accept the lowest bid submitted. No real weight is assigned to what in reality is a higher quality, fresher, locally grown product.

This problem is further complicated by the size of the average farm (particularly those in north central New Mexico), which tends to be around 10 to 15 acres. It is difficult to compete with larger, out of state producers, submitting bids on the same type of produce.

The pilot program with the three Santa Fe schools selected by the coordinators has been able to circumvent these problems to a great extent. The coordinators designed bid requests to specify the freshness of the product, i.e. picked and delivered within 2 days, and by using monies from grants to ensure that no state monies were involved in the project to purchase food.

School Food Service Support
School food service personnel have been overwhelmingly supportive, as has been the District Administration. They were brought into this program fairly early in its conception, and were active in helping to design the program.

Kitchen Facilities
The three schools participating in the program had the equipment and facilities necessary to prepare and store the product. The high school kitchen had just gone through a renovation and was well-equipped for a salad bar.

Sustainability
When this program started, all of the collaborators knew it would be difficult to sustain in its present form. The organizers have been working at a state and national level to pass legislation that would allow schools to give preference to local growers and to make it easier for area farmers to participate in the program. There is consensus among the collaborators that by working closely with District purchasing personnel to create very specific purchasing requests, that local farmers will have a greater opportunity to participate in the program.

Farm to school program changes kids' views on food

By LISA RATHKE
Associated Press Writer

SHARON, Vt. (AP) – The third and fourth graders at Sharon Elementary know where the veggies in their soup come from because they've visited the farms.

They know the nutritional value of the carrots, onions, and cabbage because they've studied them in class, and they know how they're grown because they've nurtured them in raised beds out back.

The 105-student school is part of the National Farm to School Network, aimed at getting healthier meals into school cafeterias, teaching kids about agriculture and nutrition, and supporting local farmers.

About 40 states have farm-to-school programs, but Vermont is a leader in incorporating all three missions into its programs.

"Vermont has really taken it on in quite the most holistic way and not just in a couple of school districts but statewide," said Anupama Joshi, director of the Farm to School program, based at the Center for Food and Justice at Occidental College in Los Angeles.

Vermont may be a step ahead of other states because a nonprofit partnership called Vermont FEED had already been working to get local foods into schools.

The state also has backed the farm-to-school effort with funding to help schools buy equipment to chop or process the local food and buy meat from a local farmer.

What started as a handful of pilot programs has grown into 45 Vermont schools getting grants and about 60 with farm-to-school activities.

The funding is expected to dry up next year with budget cuts.

Sharon used its $13,500 grant to buy a potato chopper and a food processor. Food service director Lin-Ann Perry now uses the food processor machine to slice squash and tomatoes picked from the school's gardens and area farms in the summer and fall, later to be frozen. The school also bought a salad bar, which has been a huge hit.

When Perry used to prepare salads for the kids, there was a lot of waste. But when kids could choose what they wanted in their bowls or on their plates, more were eating fruits and vegetables, she said.

The number of students buying hot lunch has jumped by 50 percent since the school added the salad bar, Perry said. The salad bar is also used for tacos and stir-fries.

The students take part in lunch room taste tests to see what they like. Harvest soup, also known as cabbage soup, with and without beef, got rave reviews.

"This is great, guys," said sixth grader Daniel Lazar.

The third and fourth graders who chopped up vegetables for the soup also tried to sell other kids on the meal. They hung up posters in the cafeteria that advertised the nutritional value and cancer-fighting properties of the ingredients, which they learned about that morning.

"Super onions say no to cancer," one read.

See FARM/SCHOOL, page 11

REBATE, from page 8

at least 30 days prior to purchase in order to be eligible for the $500 rebate. The participating dealer will apply the discount towards the vehicle purchase price. The cash allowance will then be paid to the selling dealer by Dodge.

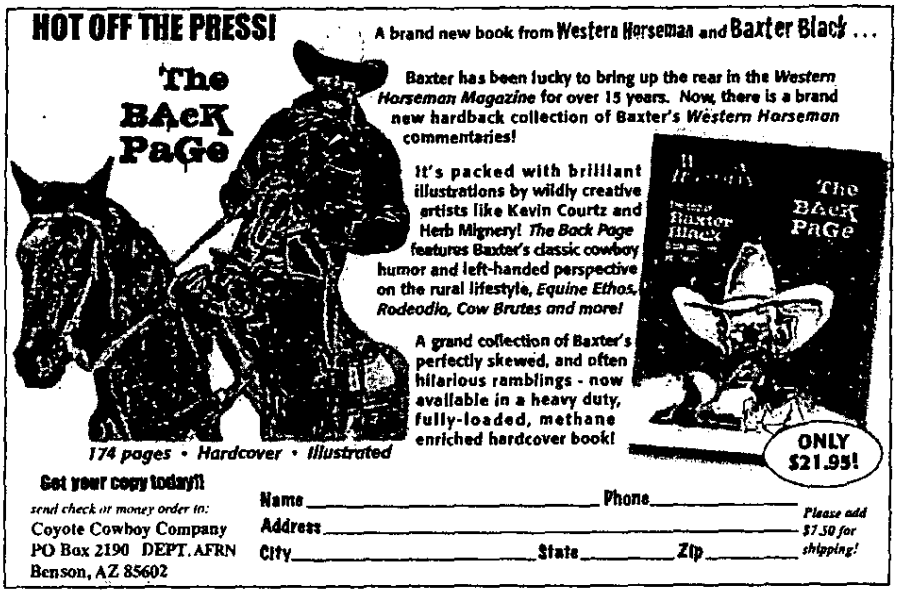
The 2010 models eligible for this membership benefit are: Journey, Grand Caravan, Ram Pickup 1500/2500/3500, Ram 3500/4500/5500 Chassis Cab, Dakota, Durango, Nitro, Charger, Avenger, and Caliber.

Please call the Alaska Farm Bureau Office if you have questions about the Dodge rebate, this change, or if your dealer has questions. The telephone number is (907) 895-4752. The discount applies to purchases made at participating dealers in Alaska as well as those in other states.

QUOTA, from page 8

cent of its 135-member quota; the Copper River Valley Chapter is at 60 percent of its quota of 10 members, and the Kenai Peninsula Chapter has met 50 percent of its 48-member quota.

The membership year ends on October 31 of each year. Chapters that have met quota will be recognized, and the president of that chapter will receive a Farm Bureau memento at the annual meeting each year. The next annual meeting will be held at the Alpine Lodge in Fairbanks on November 13, 2010.



FARM/SCHOOL, from page 9

The students are learning to eat healthier, and the focus on agriculture, local food, and nutrition is paying off in the classroom, said principal Barrett Williams.

Kids are interested, and teachers are given more diversity in the curriculum – they can work the food angle in science, reading, and health classes, he said.

But activities like the farm field trips are what Williams really likes.

Working with local farmers helps build community, he said, although that food may be more expensive than the commodity food that some schools use.

The grant helped to buy at least 200 pounds of ground beef from Back Beyond Farm in Chelsea, which cost about a dollar more per pound than hamburger from an area distributor, Perry said. But Vermont apples are cheaper than apples from other states, she said.

The school has raised money for the program by hosting a winter farmers market.

Farm to School Legislation: A State by State Listing

Eighteen states have passed legislation regarding farm to school programs. Below are summaries and links to the text of this legislation. This information should reflect legislation that has passed as of June 10, 2008.

California

To search for California state legislation text: http://www.assembly.ca.gov/acs/acsframeset2text.htm

SB 281 (2005 California Statute, Chapter #236)
Introduced in 2005, SB 281 established the California Fresh Start Program that provides an additional 10 cents per a meal for fruits and vegetables. SB 281 also encourages schools to buy California products when commercially available. As a part of nutrition education, sampling of produce is required, and may include purchase of local products for this purpose.

According to SB 281 the State Department of Education will have $400,000 to provide grants, on a competitive basis, to a county office of education or community college. Of this $400,000, no more than $100,000 can be used to cultivate an online professional development seminar for school-site staff on serving, safe-handling guidelines, marketing, and promoting nutritious fruits and vegetables. Also no more than $300,000 is to be used to conduct a comprehensive evaluation of educational materials and marketing of California Fresh Start Pilot Program.

Colorado

To search for Colorado state legislation text:
http://www.state.co.us/gov_dir/leg_dir/olls/session_laws_of_colorado.htm

SB 127 (2006 Colorado Session Laws, Chapter #242)
http://www.state.co.us/gov_dir/leg_dir/olls/sl2006a/sl_242.htm

SB 127 established the Fresh Fruits and Vegetables pilot program for the 2006-2007 and 2007-2008 school years, to provide students in participating public schools with free fruits and vegetables. Interested school districts must apply for the program through the Department of Education. Eligible schools are selected based on a variety of criteria, one of which is to ensure that a certain percentage of students enrolled in a particular school district are eligible for reduced or free lunch under the federal "National School Lunch Act." This bill also requires that participating schools use Colorado fruits and vegetables to the maximum extent possible.

$500,000 was appropriated. $350,000 was used to convert reduced price meals to free meals. $150,000 went to the Fresh Fruits and Vegetables Pilot Program.

HB 1307 (2005 Colorado Session Laws, Chapter #317)
http://www.leg.state.co.us/CLICS2005A/csl.nsf/fsbillcont3/7D29AAABBE3A21EA87256FA3007CC90B?Open&file=1307_enr.pdf

Under HB 1307 governmental bodies purchasing agricultural products are allowed to preference Colorado products over out of state products as long as the quality is equal, the Colorado producer is able to meet requested quantity, and price is either lower than the lowest out of state bid, or "reasonably exceeds" the lowest bid. "Reasonably exceeds" is defined as a bid that may exceed the lowest bid and can be paid for by the existing fiscal budget.

Connecticut

To search for Connecticut state legislation text: http://www.cga.ct.gov/

HB 5847 (2006 Connecticut Acts, P.A. 06-135)

http://www.cga.ct.gov/2006/ACT/PA/2006PA-00135-R00HB-05847-PA.htm
HB 5847 is "an act implementing the provisions of the budget concerning education" and therefore pertains to a variety education related programs including farm to school. The farm to school program is established within the Department of Agriculture, which will collaborate with the Department of Education to promote the sale of Connecticut-grown farm products to school districts, individual schools and educational institutions that are under the jurisdiction of the Department of Education.

The Department of Agriculture's (DOA) role is to encourage, solicit, and guide Connecticut farmers through the process to sell their products to school districts, individual schools and educational institutions, while also working with the Department of Education to support schools through the local procurement process. The DOA is also required to develop and maintain a database of farmers interested in farm to school, and to outreach to these farmers.

According to this bill the Department of Education (DOE) will promote events such as Connecticut Grown for Connecticut Kids week to bring school kids together with Connecticut agriculture inside and outside of the classroom. The DOE should "encourage and solicit school districts, individual schools and other educational institutions under its jurisdiction to purchase Connecticut-grown farm products, and provide outreach, guidance and training to districts, parent and teacher organizations, schools and school food service directors concerning the value of and procedure for purchasing and incorporating into their regular menus Connecticut-grown farm products."

PA 05-228 (2005 Substitute Senate Bill #410)
http://www.cga.ct.gov/asp/cgabillstatus/cgabillstatus.asp?selBillType=Public+Act&bill_num=228&which_year=2005&SUBMIT1.x=7&SUBMIT1.y=12&SUBMIT1=Normal
Allocates $100,000 annually to encourage the sale of Connecticut-grown food to schools, restaurants, retailers, and other institutions and businesses in the state.

SB 589 (2004 Connecticut Acts, P.A. 04-222)
http://www.cga.ct.gov/2004/act/Pa/2004PA-00222-R00SB-00589-PA.htm
SB 589 is "an act concerning the preservation of the family farm and Long Island Sound" and therefore pertains to various agriculture-related programs including the Connecticut Farm Fresh Schools program. Administered by the Commissioner of Agriculture, Connecticut Farm Fresh Schools is to promote Connecticut schools that are serving Connecticut farm products. Schools, including public, non-public, and higher education institutions, in which 20% or more of the food served by the school consists of Connecticut grown/produced foods are eligible to be certified as a "Connecticut Farm Fresh School" and are able to use "Connecticut Farm Fresh School" in promotional materials and activities.

Delaware

To search for Delaware state legislation: http://legis.delaware.gov/

HR 74 (2004)
http://legis.delaware.gov/LIS/LIS142.NSF/vwLegislation/HR+74?Opendocument

House Resolution 74 urges Congress to pass the Farm to Cafeteria Projects Act (Child Nutrition Reauthorization), and any other legislation promoting farm to school partnerships. The goals of this bill are to assist schools in purchasing locally grown food, provide more healthy fresh food for school children, educate children and their families about foods grown in their communities, and to expand market opportunities for local farms.

Iowa

To search for Iowa state legislation: http://www.legis.state.ia.us/

SF 601 (2007)
http://coolice.legis.state.ia.us/Cool-ICE/default.asp?Category=billinfo&Service=Billbook&menu=false&ga=82&hbill=SF601

Iowa's farm to school program was originally part of SF 209 and SF 452, and is currently written into SF 601. This bill establishes a statewide Iowa farm to school program that is administered by the Department of Agriculture and Land Stewardship and a Farm to School Council. The purpose of this program is to improve child nutrition in schools and strengthen local and regional farm economies. This program encourages the relationships between Iowa farms and Iowa schools (elementary and secondary) to purchase locally and regionally produced or processed foods to provide Iowa's children with fresh minimally processed food for inclusion in school lunches.

SF 551 (2007)
http://coolice.legis.state.ia.us/Cool-ICE/default.asp?Category=billinfo&Service=Billbook&menu=false&hbill=SF551
$80,000 was appropriated for farm to school in FY08 and another $80,000 was appropriated for FY09. Money will go toward salaries, support, maintenance, and other miscellaneous needs.

Kentucky

To search for Kentucky state legislation: http://www.lrc.ky.gov/record_search.htm

HB 484 (2008 Kentucky Acts, Chap. # 37)
http://www.ncsl.org/programs/environ/healthyCommunity/healthyCommunity_search.cfm
This bill would extend the provisions of KRS 45A.645 to encourage governing boards of public post secondary institutions to purchase Kentucky-grown agricultural products if the vendor can meet quality and pricing requirements; and if the institutions purchase agricultural products. See HB 669 from 2006 for further details. (Last Update: 6/3/2008)

HB 626 (2008 Kentucky Laws, Chap. #154)
http://www.ncsl.org/programs/environ/healthyCommunity/healthyCommunity_search.cfm
This bill amends current law concerning the Kentucky Proud program. It creates a Kentucky Proud Advisory Council and creates a Kentucky Proud promotion fund, with a grant program using available funds. Before a state agency may purchase Kentucky-grown agricultural products, the vendor shall be required to participate in the Kentucky Proud program, if the vendor can meet quality and pricing requirements. See HB 669 from 2006 for further details.

KRS 45A.645 (2006)
http://www.lrc.ky.gov/KRS/045A00/645.PDF
This bill addresses the direct marketing of Kentucky-grown products to state agencies. Under KRS 45A.645 State agencies shall purchase Kentucky-grown agricultural products if quality and pricing requirements can be met. All vendors selling to state agencies must participate in the Kentucky-Grown Labeling Program. All Kentucky-grown products that are purchased by state agencies must also be reported to the legislature. Also non-U.S. grown agricultural products must be labeled with a country of origin label if they are purchased by a state agency.

HB 669 (2006 Kentucky Acts, Chapter 244)
http://www.lrc.ky.gov/record/06RS/HB669/bill.doc
This bill amends KRS 45A.645, requiring state agencies to purchase Kentucky-grown agriculture products if vendors can meet quality and pricing requirements. Also, prospective vendors may also apply for marketing assistance from the state, as long as the vendor is participating in the Kentucky grown labeling and logo program.

Maryland

To search Maryland state legislation text: http://mlis.state.md.us/#pryr

HB 883 (2006 Maryland Laws, Chapter 360)
http://mlis.state.md.us/2006rs/bills/hb/hb0883t.pdf
HB 883 requires the Board of Works to adopt regulations allowing a 5% price preference above the lowest bid for MD grown products. Schools and state facilities are to review procurement regulations and

use the 5% price preference for purchasing local products. This section does not apply if it is inconsistent with federal law.

SB 158 (2008 Maryland Laws, Chapter #371)
http://www.ncsl.org/programs/environ/healthyCommunity/healthyCommunity_search.cfm
This bill establishes the "Jane Lawton Farm to School Program" in the Department of Agriculture to promote the sale of farm products grown in the state to schools. This includes developing a database of farmers interested in selling their farm products to schools, creating a promotional event entitled "Maryland Homegrown School Lunch Week," and providing experiential learning for students, such as trips to local farms. The companion to this bill is HB 696.

Massachusetts

To search for Massachusetts state legislation text: http://www.mass.gov/legis/laws/seslaws.htm

HB 4429 (Chapter 123 of Acts of 2006)
http://www.mass.gov/legis/laws/seslaw06/sl060123.htm
Earlier versions of this bill include HB 4324, HB 4381, HB 4404. Language was originally made part of the Economic Stimulus Package 2006, and is now a law as Section 4 of Chapter 123 of Acts 2006. HB 4429 allows state agencies to pay up to 10% above the lowest bid to purchase in-state agriculture products as long as there is no conflict with other state or federal laws. State procurement officers may award contracts up to $25,000 without seeking other bids, as required by standard procurement procedures. A governmental body may establish a preference for purchasing local products by majority vote.

Montana

To search for original text o Montana state legislation text: http://leg.mt.gov/css/bills/default.asp

SB 328 (2007 Montana Laws, Chapter #146)
http://data.opi.mt.gov/bills/2007/billpdf/SB0328.pdf
SB 328 allows public agencies to preference Montana agricultural products when price "reasonably" exceeds the lowest price quoted for a similar out of state product. "Reasonably" exceeding the lowest price quoted means that the public agency can remain within its budget without supplemental or additional appropriation to pay for the potentially higher cost of local procurement. This provides an optional exemption from the Montana Procurement Act for public institutions.

New Mexico

To search for New Mexico state legislation text: http://legis.state.nm.us/lcs/BillFinder.asp

SM 54 (2008)
This resolution commits the Senate to having additional fresh fruits and vegetables served in school meals to every New Mexico student and to strengthening New Mexico's farming communities and increasing farmers' incomes by purchasing fruits and vegetables, when available, from New Mexico farmers.

The Senate requests that the school districts and their respective boards of education and superintendents place great emphasis on, and make a high priority as a matter of educational policy for, the purchase of locally grown foods in their school food programs for the benefit of their students.

The Senate should encourage the food service directors of New Mexico school districts to search out in their various locales, with the assistance of the New Mexico department of agriculture and farm to table, local farmers who want to supply locally grown foods for school food programs.

SB 90 and HB 264 (2007)
http://www.ncsl.org/programs/environ/healthyCommunity/healthyCommunity_search.cfm
This bill appropriates $85,000 from the general fund to provide New Mexico grown fresh fruits and vegetables when available to the Valley High School cluster in the Albuquerque public school district.

HJM 34 (2001)
http://legis.state.nm.us/lcs/_session.asp?chamber=H&type=JM&number=34&Submit=Search&year=01
This bill encourages the Department of Agriculture and the Department of Education to collaborate on increasing the use of New Mexico agricultural products in public school meals. One of the goals in New Mexico is to expand marketing and selling opportunities for the state's farmers and ranchers.

New York

To search for New York state legislation text:
http://public.leginfo.state.ny.us/frmload.cgi?MENU-09735958

AND
2002 New York Laws Article 7, Section 305, subdivision 31 under Education
http://public.leginfo.state.ny.us/menugetf.cgi?COMMONQUERY=LAWS (Click "EDN Education", "Article 7", "305")

Under the jurisdiction of the Education Department with cooperation from the Commissioner of Education and Commissioner of Agriculture and Markets this law establishes a farm to school program to facilitate and promote the purchase of New York farm products by educational institutions in New York. The department will also work on making relevant information available to farmers, farm organizations, and institutions interested in establishing farm to school programs. The department shall also coordinate promotional events such as New York Harvest for New York Kids Week in early October each year.

S 6024 (2004 New York Laws, Chapter #269)
http://public.leginfo.state.ny.us/menugetf.cgi?COMMONQUERY=LAWS (Click "GMU General Municipal", "Article 5-A", "103")

Allows school districts to apply for permission to purchase directly from associations of more than 10 farmers when no other farmers or smaller associations are available. Raises the dollar cap on direct purchases $0.15 to $0.20 per meal per student.

Requires the NYS Education Department to develop regulations with input from the Department of Agriculture and Markets that should:
1. accommodate the provisions of the State Farm-to-School Law;
2. allow schools to pay farmers prices comparable to what they would otherwise pay for locally grown foods through their conventional channels as opposed to comparing to national wholesale prices;
3. allow school districts interested in purchasing local farm products to notify interested farmers statewide in accordance with provisions of the Farm-to-School Law by using publications, websites and other mechanisms;
4. ensure that schools provide a fair opportunity to all farmers interested in selling to them and that schools select the seller or sellers based on the usual traditional purchasing criteria (i.e. low price, quality, reliability, delivery, etc.) without having to divide up purchases proportionally among competing bidders;
5. provide guidelines for dept of education approval of purchases by schools from associations of 10 or more farmers;

HB 2655 (2006 Oklahoma Session Laws, Chapter #257)

http://webserver1.lsb.state.ok.us/2005-06bills/HB/HB2655_ENR.RTF
In HB 2655, the director of the Oklahoma Farm to School Program is established under the Department of Agriculture, Food and Forestry. The Director will establish public and non-profit partnerships to develop farm to school programs; provide state leadership to encourage school districts to buy from local farmers; and provide workshops and training for food service, farmers, processors, and others involved in farm to school work. Staff shall be made available from the departments of Health, Education and Human Services to assist in implementation of the program, seek grant funding and private donations for the program, and develop a web site to assist farmers in coordinating fresh food procurement.

$100,000 was permanently allocated to the Department of Agriculture for the program but not written in the specific language of the bill. The money has been appropriated in total for the past two years

HB 2833 (56 O.S. Supplemental 2007, Section 245)
This bill continues the "Oklahoma Food Security Act" until December of 2012. The Food Security Committee will continue to meet and work on issues such as supporting community food security initiatives and encouraging food production on the local level, supporting efforts to provide farmers' markets with the technology for accepting food stamps, encouraging the use of home and community gardens for food production, and supporting creative transportation methods for connecting at-risk populations with nutritious foods.

This year, HB 2833 included the schools as part of the overall goals of the Oklahoma Food Security Task Force: "Involve schools in identifying and improving students' access to sufficient and nutritious foods." The Governor signed HB 2833 on Friday, June 6th, 2008.

Oregon

HB 3601 (2008 Oregon Laws, Chapter #21)
http://www.ncsl.org/programs/environ/healthyCommunity/healthyCommunity_search.cfm
This bill requires the Department of Education to establish the Oregon Farm to School and School Garden Program. These programs help schools utilize Oregon food products and produce from school gardens, promote food and garden-based educational activities, and work with the state Department of Agriculture to develop farm to school related programs. For the purpose of paying the costs of the Department of Education of administering the Oregon Farm to School and School Garden Program, the department may accept contributions of moneys and assistance from any source, public or private.

On or before February 1, 2009, the Department of Education shall report, in the manner provided in ORS 192.245, to the Seventy-fifth Legislative Assembly on the activities related to the Oregon Farm to School and School Garden Program established under section 1 of this 2008 Act.

Pennsylvania

To search for Pennsylvania state legislation text: http://www.legis.state.pa.us/

SB 1209 (2006 Pennsylvania Laws, Act #184)
http://www.legis.state.pa.us/CFDOCS/Legis/PN/Public/btCheck.cfm?txtType=HTM&sessYr=2005&sessInd=0&billBody=S&billTyp=B&billNbr=1209&pn=2047
SB 1209 is known as the Healthy Farms and Healthy Schools bill. This law creates a statewide program modeled after the Kindergarten Initiative. Recognizing the benefits of integrated programs that combine nutrition education, parent involvement, and a connection to local agriculture for students and farmers in Pennsylvania, this program trains teachers and other educational staff on nutrition and agriculture education. Also, a list of Pennsylvania farmers who have agreed to supply foods to Pennsylvania schools was established, and grants have been awarded to schools for procurement of local produce and implementation of educational programs. Grant amounts are limited to 75% of the amount necessary to develop the program and are not to exceed $15,000 annually, per school. Applicants may use in-kind support to match the amount granted.

Money for the Healthy Farms and Healthy Schools is provided by the Governor's budget (http://www.state.pa.us/papower/cwp/view.asp?A=11&Q=471208). $500,000 has been appropriated for 2007 and 2008 with a similar budget for the same amount through 2012.

HR 821 (2004)
http://www.legis.state.pa.us/cfdocs/billinfo/billinfo.cfm?syear=2003&sind=0&body=H&type=R&BN=0821
Almost word for word the same as Delaware resolution [HR74], urging Congress to support the Farm to School Projects Act of 2003 and any other legislation that assists schools in purchasing local foods, provides more healthy and fresh food for school children, educates children and their families about foods grown in their communities, and expands market opportunities for local farms.

Tennessee

SB 3341 (2008 Tenn. Public Acts, Chapter # 963)
http://www.ncsl.org/programs/environ/healthyCommunity/healthyCommunity_search.cfm
This bill specifies that each local school board's plan for compliance with nutritional breakfast and lunch programs include specific provisions to encourage purchasing local agricultural products. This would include setting preferences for the use of agriculture products from each local school board's county or geographical region, as well as allowing flexible bidding processes to assist farmers to bid competitively on portions of a given nutrition plan, rather than an entire nutrition plan. The legislation requires each local school board to submit to the commissioner a plan for compliance with this part sixty (60) days prior to the beginning of the school year. For each subsequent school year, it requires each local school board to submit modifications to the plan sixty (60) days prior to the beginning of the school year.

Vermont

To search for Vermont state legislation text: http://www.leg.state.vt.us/docs/docs2.cfm

SJR 59 (2004)
http://www.leg.state.vt.us/docs/legdoc.cfm?URL=/docs/2004/acts/ACTR386.HTM
This resolution urges Congress to enact the proposed "Farm to Cafeteria Projects Act."

HB 456 (Act 145 of 2006)
http://www.leg.state.vt.us/docs/legdoc.cfm?URL=/docs/2006/acts/ACT145.HTM
HB 456 encourages farm to school initiatives through improvements to local infrastructure and education. The Commissioner of Education is to award small grants from the education fund to schools that use Vermont products in their school meals and provide nutrition education for students. It also establishes a mini-grant program, with maximum awards being $15,000, to assist with purchasing equipment, resources and materials that increase local purchasing and education regarding nutrition and agriculture. Grants may also be used for professional development for teachers to learn more about farm to school connections. The Department of Agriculture is to make one-time awards to local processors who are processing local produce for Vermont schools or institutions, while the food service personnel and Commissioner of Education are to provide training in local purchasing and processing for food service providers. This bill also requires that a report be submitted to appropriate legislative committees on how to increase local purchasing by state entities.

HB 522 (Act # 38 of 2007)
http://www.leg.state.vt.us/docs/legdoc.cfm?URL=/docs/2008/acts/ACT038SUM.HTM
HB 522 sets goals for Vermont to support in-state agriculture. This includes Vermont's own "buy local" campaign that promotes the purchasing of locally produced foods and dairy products. This bill also establishes systems to connect local producers and processors with state purchasing entities to facilitate marketing local foods. Strategic and technical assistance will also be made available to local producers and processors to create or enlarge facilities necessary to expand sales to the state and other markets. [Although this is a broad direct marketing bill, it does encourage farm to school initiatives, as schools are considered "other markets."]

HB 91 (Act # 24 of 2007)

http://www.leg.state.vt.us/docs/legdoc.cfm?URL=/docs/2008/bills/passed/H-091.HTM
HB 91 makes the mini-grant farm to school program created by Act #145 of 2006, also referred to as HB 456, permanent. Each grant awarded is not to exceed $15,000.

$110,000 was designated for this Act in the 2008 session. $85,000 will go to farm to school mini grants, and another $25,000 will go to training and technical assistance for schools to develop their farm to school programs.

Virginia

To search for Virginia state legislation text: http://leg1.state.va.us/

SB 797 (Chapter #352 of 2007 Virginia Laws)
http://leg1.state.va.us/cgi-bin/legp504.exe?071+ful+SB797ER
SB 797 authorizes the Commissioner of Agriculture and Consumer Services to create a website that promotes Virginia agricultural products to educational institutions. The website should include information such as farmers' contact information, amount and types of produce available.

The website is available at: http://www.vdacs.virginia.gov/vagrown-july/index.shtml.

SJ 347 (2007)
http://leg1.state.va.us/cgi-bin/legp504.exe?071+ful+SJ347ER
SJ 347 authorizes the Secretary of Agriculture and Forestry and the Secretary of Education to establish a Farm to School Task Force that will develop a plan for implementing a farm to school program in Virginia. The task force will study methods for providing information to the Virginia Department of Education, interested schools divisions and institutions of higher education regarding the availability of Virginia products. The task force has been formed.

Washington

To search for Washington state legislation text:
http://apps.leg.wa.gov/billinfo/search.aspx?term=farm%20to%20school

HB 2657 (2002 Washington Laws, Chapter #166)
According to HB 2657, the Department of General Administration, through the state purchasing director, shall encourage state agencies and local agencies doing business with the state to purchase Washington agricultural products when available. The Department of General Administration shall work with the Department of Agriculture to identify strategies to increase the purchase of Washington products. This was declared emergency legislation to improve the health of rural economies and the agricultural economy.
HB 2657 is still on the books; however, SB 6483 goes far beyond 2657.

SB 6483 (2008)
This is a comprehensive piece of legislation, requiring the following:
1. The State Department of Agriculture will facilitate the purchase of Washington grown food by schools, by linking school districts and local producers, as well as integrating curricula and programs that demonstrate the benefits of local food.
2. The creation of the Washington Grown Fresh Fruit and Vegetable Grant Program in the Office of the Superintendent of Public Instruction, to facilitate consumption of Washington grown-nutritious snacks to improve student health and expand the market for locally grown fresh produce.
3. Revision of food procurement and food contract procedures to facilitate the purchase of Washington grown food by state agencies and institutions to the maximum extent practicable. A school district may develop and implement policies and procedures to facilitate and maximize purchases of Washington grown food.
4. School districts may operate school gardens or farms as appropriate for the purpose of growing fruits and vegetables to be used for educational purposes.

5. The creation of the Washington State Farmers Market Technology Improvement Pilot Program to lend technological hardware to farmers markets to assist farmers markets and Washington farmers develop the capability to accept electronic payment cards, including electronic benefits transfers.
6. The creation of the Farmers to Food Banks Pilot Program. The Office of Financial Management shall work to develop measures for reporting on changes and trends in the purchasing of Washington-grown food by state agencies, institutions of higher education, and schools. The companion to this bill is HB 2798.

If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2008, in the omnibus appropriations act, this act is null and void.

$1.49 million in funding was appropriated to implement 6483. $600,000 will be used to provide grant funds to elementary schools with high numbers of low-income students to make available a locally-grown fruit and vegetable snack program.

Representative Carl Gatto
State Capitol, Room 108
Juneau, AK 99801-1182

Dear Representative Gatto:

It is my pleasure to write a letter in support of House Bill 70, Alaska Grown Agricultural Products. This bill would truly improve the health and lives of school children in Alaska while at the same time providing positive benefits to the natural environment.

The craze for locally grown foods is increasing rapidly throughout the US, and for good reason. Through supplying local schools with Alaskan grown food, students will be eating vegetables and fruits at their prime. Fresh food from local farms is healthier because it doesn't spend days sitting on trucks, barges and planes losing nutrients. Eating locally in Alaska is especially important. Most of our imported food comes from thousands of miles away, resulting in wilted, nutrient deficient food and the burning of a tremendous amount of fossil fuels. Also, locally grown food is often subjected to fewer pesticides and preservatives, resulting in healthier, better tasting food.

If enacted, House Bill 70 would provide wonderful benefits for Alaskan communities and for the health of the environment. I am happy to express SEACC's support for this bill.

Sincerely,

Lindsey Ketchel
Executive Director

March 10, 2009

Dear Representative Carl Gatto.

My name is Amy Lee and I currently reside in Anchorage. I am writing to you regarding House Bill 70: Alaskan Grown Agricultural Products. I am so happy to hear that you are the sponsor for this bill. As a teacher, I believe it is important for students to learn about their own environment and this bill providing teaching gardens and small farms is exactly what students need to enhance their understanding of natural resources. In addition, the students will be nourished with local products and learn about self-sustainability at a smaller scale. There are so many benefits of this bill and I am in full support.

Thank you again and best of luck.

Sincerely,

Amy Lee

March 17, 2009

Dear Representative Gatto,

We are youth members of Alaska Youth for Environmental Action. We are writing in support of the House Bill # 70, Alaska Grown Agricultural Products. We are supportive of the bill because we directly see the health, economic and environmental costs of unsustainable food systems.

Current food is, for the most part, cooked and packaged elsewhere and flown in from out of state. This creates an unsustainable food system. We feel little connection to the food and shipping uses fossil fuels. Local food would be less processed, would use less fossil fuel in shipping, and would improve Alaskan economy by keeping money in the state. Our experience with school foods as they are now motivates us to advocate for change.

As students we care about our health and the food served because it directly impacts our health and well being. As citizens of the earth we care about our environment. As Alaskans we care about our local economy.

We support House bill #70, Alaska Grown Agricultural Products. Thank you for introducing and promoting the Alaska Grown Agricultural Products bill. We appreciate your efforts to improve environmental, economic, and human health.

Sincerely,

Zoe Fuller

CS for HB 73 (26-LS0303\S)
Sponsor Statement

Special license plates for firefighters and emergency service providers are a way to say "thank you" to those who give of their time and risk their lives, to serve the people and communities of Alaska.

The purpose of these plates is two-fold. One is to recognize and thank firefighters and emergency service providers (EMS, Rescue), both volunteer and paid, active and former, who we know give much and ask so little.

The second is to encourage volunteerism.

By providing these license plates the hope is that residents of Alaska will recognize and acknowledge the importance of volunteerism, and possibly plant a seed in the hearts of some that will grow into action, resulting in more individuals volunteering not only in fire departments, but in their communities.

ANALYSIS: *(Attach a separate page if necessary)*

This bill does not fiscally impact the Division of Motor Vehicles. Revenue derived from the sale of the fire fighter and emergency medical service provider plates is expected to be minimal. The agency therefore, submits a zero fiscal note.

CS FOR HOUSE BILL NO. 73( )

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - SECOND SESSION

BY

Offered:
Referred:

Sponsor(s): REPRESENTATIVES LYNN, Harris, Peggy Wilson

A BILL

FOR AN ACT ENTITLED

"An Act relating to special fire fighter and emergency medical service provider license plates; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 28.10.181 is amended by adding new subsections to read:

(z) Special request active fire fighter and emergency medical service provider plates, former fire fighter and emergency medical service provider plates, and plates commemorating fire fighters and emergency medical service providers. On application by the owner of a motor vehicle, the department may issue registration plates for active fire fighters and emergency medical service providers, registration plates for former fire fighters and emergency medical service providers, and registration plates commemorating fire fighters and emergency medical service providers. The commissioner shall determine the design and color of the plates. The department may disapprove the issuance of registration plates under this subsection when the requested plates are a duplication of an existing registration. To be eligible for

(1) an active fire fighter and emergency medical service provider plate, a person must present satisfactory proof that the person is an active member of

(A) a fire department in this state and the fire department is recognized as a fire department by the state fire marshal; or

(B) an out-of-hospital emergency medical service certified by the Department of Health and Social Services;

(2) a former fire fighter and emergency medical service provider plate a person must present satisfactory proof that the person was an active member of

(A) a fire department in this state for a minimum of 10 years; or

(B) an out-of-hospital emergency medical service certified by the Department of Health and Social Services for a minimum of 10 years.

*** Sec. 2.** AS 28.10.421(d) is amended by adding a new paragraph to read:

(18) special request plates

(A) for active fire fighter and emergency medical service provider $30;

(B) for former fire fighter and emergency medical service provider $50;

(C) commemorating fire fighters and emergency medical service providers $100

plus a fee of $35 and the fee required for that vehicle under (b), (c), (h), or (i) of this section; the fee required by (A) - (C) of this paragraph shall be collected only on the first issuance of and the replacement of the plates; the $35 fee required by this paragraph shall be collected biennially in the same manner as the fee required under (b), (c), (h), or (i) of this section; the commissioner of administration shall separately account for the fees received under this paragraph that the department deposits in the general fund; notwithstanding (g) of this section, the annual estimated balance in the account that is in excess of the cost of issuing special request plates may be appropriated by the legislature for the purposes provided in AS 14.43.085.

*** Sec. 3.** This Act takes effect July 1, 2010.

Subject: Questions regarding CS for HB 73

Hi Nancy:

I know this is late in coming, but I have several questions regarding the draft CS for HB 73:

1. Are volunteer fire fighters and EMS providers covered under this bill?
2. What sort of proof would an active fire fighter or EMS provider show to the DMV to prove that they are active? Technically under this bill, an individual could be a firefighter or EMS provider for a month and get this license plate so long as they provide proof that they are active at the time of registration. Correct?
3. What sort of proof would a former fire fighter or EMS provider show to the DMV to prove that they were an active member for 10 years?
4. Is there a particular group that Rep. Lynn envisions the DMV working with in order to develop a plate design?
5. Anyone could get the commemorative fire fighter and EMS provider plate so long as they pay the initial $100 fee and the biennial fee of $35. Correct?

Thanks for any information you can provide me.

Sincerely,

Whitney

Sent: Tuesday, March 24, 2009 2:12 PM
To: Nancy Manly
Cc: Dave Miller
Subject: Re: FW: Questions regarding CS for HB 73

Sure Nancy -

1. Yes - both paid and volunteer are covered under this bill.

2. We would develop a form (approved by DMV) that fire chiefs would issue to members and former members, upon request that would verify that they were active or former members in good standing of a fire department or ems service. I imagine that the chiefs we have on board here in the state of Alaska have good enough judgement to not give someone the said form until they have been on board for more than a month as the training necessary to even perform either of these duties is quite extensive and they (the chiefs) may have their own "built-in" rules regarding when they consider "active member". In my department you have to attend so many meetings a year, so many trainings, calls, etc. to be considered an active member. If someone comes to a community from "outside" and were active in their departments and then joined a department here, they would still have to meet the departments definition of "active" before they would get the form from the chief.

3. The former member would get a form signed by his former chief/department, documenting his service - these records are pretty well kept due to the amount of training required to perform these duties.

4. We have a plate design that we have on standby - it was developed by the fire service statewide last year.

5. Yes - it is a community members way of supporting the fire service.

Let me know if you have more -

thanks again for all your work -

Matt Claman,
Acting Mayor

Fire Department

March 23, 2009

Dear Alaska House Representatives:

On behalf myself and the Anchorage Fire Department, I would like to offer my support of House Bill 73 which provides for Firefighter and Emergency Service Provider License Plates.

Having such a license plate would allow for immediate recognition on the scene of an accident or any other emergency situation which would ultimately save valuable time getting through to the site.

Also, a large portion of Alaskan communities are served by volunteer firefighters and emergency medical technicians that routinely leave their family and jobs day or night to provide service to their local communities and assist their neighbors in their time of need. Having a specialized license plate would provide them recognition for the sacrifice they make – much like those recognizing our Veterans.

This is an excellent idea and I would like to thank you for considering this addition to House Bill 73.

Sincerely,

Michelle Weston, Acting for

Craig P. Goodrich
Fire Chief

Community, Security, Prosperity

ALASKA FIRE CHIEF'S ASSOCIATION

Phone: (907) 488-3400 FAX: (907) 488-6118 EIN #92-0098649

March 23, 2009

Dear Alaska House Representatives:

The Alaska Fire Chief's Association fully endorses and supports the addition of Firefighter and Emergency Service Provider License Plates to House Bill 73.

The majority of Alaskan communities are served by volunteer firefighters and emergency medical technicians that routinely leave their family and jobs day and night to provide service to their local communities. These volunteers need recognition for the work they do and the service they provide in their neighbors times of need.

Establishing firefighter and emergency medical service provider license plates will give statewide recognition of the service and sacrifice these men and women make to their community and hopefully foster a spirit of volunteerism in Alaska.

Thank you for considering this addition to HB 73.

Cordially,

Michelle Weston
Government Relations
Alaska Fire Chief's Association

PO Box 22092, Juneau, Alaska 99802

March 20, 2009

Representative Bob Lynn
Representative John Harris

On behalf of the Alaska State Firefighters Association, I would like to voice our unified support via this letter to HB 73, "An Act relating to special firefighter and emergency medical service provider license plates; and providing for an effective date."

As we have stated before, not only is this bill to recognize and thank both volunteer and paid personnel statewide, we feel it would be an effective tool in the recruitment and retention of volunteers.

Nationwide, as in Alaska, departments struggle with the recruitment of volunteers. Firefighters and emergency medical responders are called upon to do more than "show up" at an event. For volunteers their jobs require extensive training, taking valuable time from their families and home life. This is time given freely, without compensation and many times, without thanks from those they serve. People have just come to expect them to "show up" – paid or volunteer when there is an incident – and they do.

Our Mission:

To serve our members through professionalism and leadership there by

enhancing the Fire/Rescue services of Alaska.

PO Box 22092, Juneau, Alaska 99802

Both paid and volunteer personnel in the fire service, give more than is required by their jobs, they more times than naught volunteer in their off time within their communities to support various causes – helping their communities raise monies and put on programs that improve and add to the quality of life in communities all across the state.

The Alaska State Firefighters Association has applied for and been awarded more than $600,000 dollars in SAFER (Staffing for Adequate Fire and Emergency Response) Grants through FEMA. With these monies our organization is working with departments statewide to promote volunteerism and fund training for personnel. The Alaska State Firefighters Association is made up of both paid and volunteer firefighters and emergency service personnel – striving to enhance the fire and rescue service of the State of Alaska.

This bill would be a small token of appreciation and hopefully a "seed" of encouragement towards volunteerism.

Sincerely,

Dave Miller
President

Our Mission:

To serve our members through professionalism and leadership there by

enhancing the Fire/Rescue services of Alaska.

Representative Bob Lynn
Alaska State Capital, Room 104
Juneau, Alaska 99801-1182

Honorable, Representative Lynn,

The Alaska Division of Fire and Life Safety is pleased to support House Bill 73, "An Act relating to special fire fighter and emergency medical service provider license plates; and providing for an effective date".

The establishment of special license plates is an excellent way to recognize firefighters and EMT's for their efforts and sacrifices as they work to improve the safety of their communities. These emergency responders are a proud dedicated group of professionals who spend hundreds of hours training and preparing to respond to those in need. The majority of emergency responders in Alaska work for little or no pay and spend a large amount of time away from their families to provide this service. These commendable efforts are rarely recognized. HB 73 will provide a method for that daily recognition and also allow the firefighters and EMT's an opportunity to show their pride in belonging to the emergency services family.

My office whole heartedly supports this bill as an effective incentive to recognize the emergency responders within the community and encourage others to get involved.

Respectfully,

David L. Tyler
State Fire Marshal

Subject: HB 73

From 2005 to 2007 I lived in Washington State where I saw numerous vehicles with the Maltese Cross firefighter emblem on their license plates. I worked for a private ambulance service which works directly with the surrounding fire departments. After talking with these firefighters I discovered these vehicles with the "fire department" license plates were all members of the IAFF(International Association of Fire Fighters) union.
As we all know, emergency apparatus have warning lights to identify themselves and to alert the public. There are many different stores where anyone is able to purchase these warning lights and to use them for unlawful purposes. A second identifier, such as a license plate, would help to eliminate this type of misuse.
I began my fire service career as a volunteer firefighter/EMT in 1994 here in Alaska. As stated above, I worked for two years in Washington State as an EMT. I now work as a full-time firefighter/EMT here in southeast Alaska and intend to complete my years of service here in the state.
Whether you are a career firefighter or a volunteer firefighter we all have a duty and the commitment to represent and serve our communities.
I would be proud to display my commitment and service!
I support HB 73 that would provide special license plates for firefighters and ems providers.

To: Nancy Manly
Subject: Support for HB 73

Rep. Manly,

Please hear this plea in support of HB 73 – Special License Plates for firefighters and emergency service providers. I strongly support this measure.

As a 35+ year veteran of the fire service, including a 29 year career with the Anchorage Fire Department and some Volunteer service, I recognize that we are the unheralded heroes of a safe everyday life. We are usually proclaimed heroes just after a major event but most often simply overlooked most of the rest of the time.

We recognize Armed Service Veterans, appropriately, with vanity plates acknowledging their contribution to world and national security and peace. It is not inappropriate to recognize firefighters and other emergency responders for their contribution toward the common man's tranquility knowing that they can dial 911 and be taken care of.

It is said that "Only two defining forces have ever offered to die for you, Jesus Christ and the American G.I. One died for your soul, the other for your freedom. Thank them both today." (quote variously attributed) I often add the following when using this quote: "Firefighters and Police are the present-day, local representatives of this ethic. They willingly stand between you and your greatest fears."

Thank you for your effort on this bill.

Sincerely,
Dan

Dear Ms. Manly,

I live in Nome and volunteer with the Nome Ambulance Department as an EMT. I have also served as an EMT with Copper River EMS out of Glennallen. I understand Representative Lynn has sponsored legislation in conjunction with Speaker Harris known as House Bill 73, an act providing for special license plates for firefighter and EMS personnel. I support this bill/amendment that I understand will be read into consideration some time next week. I have attached a copy of this bill which I have reviewed.

As I'm sure you are aware, in many areas of our state firefighting and EMS service is done by skilled volunteers, not paid professionals. These volunteers typically volunteer many long hours not only in the performance of their duties, but also in training time. This is a huge commitment of the individuals as well as their families. This is of course in addition to the many paid professionals who dedicate their careers to serving the residents of our great and wonderful state.

I believe these special commemorative license plates are a simple yet significant and appropriate way to recognize these individuals and their contribution to our communities and society in general.

Your assistance in passage of this legislation to the Senate would be very much appreciated.

Respectfully,

Scott A. Johnson

Subject: Firefighter/EMS provider license plates

Ms. Manly,

I am wrtting you in support of HB 73 which provides for special license plate for firefighters and emergency services providers. I support this legislation for two basic reasons. First, I am a volunteer firefighter in my local community as well as an EMS responder. Secondly, and most importantly, if it were not for the acts of a group of EMS providers that came to my aid a year and a half ago I would not be here to send this email. I would have died of a major MI but with their assistance was able to pull through.

I have been to many incidents where similar fire/EMS has given their all and then some to protect property, save lives and provide a safe environment for us all to live in. They do this with very little, if any, recognition. I feel that a license plate would be a fitting was to recognize these dedicated individuals.

One last thing, in those communities utilizing volunteer fire/EMS personnel to protect their communities, having a special license plate would be a way for non-responders to recognize responding individuals when there was an emergency response in progress.

Thanks you for your time and I hope your support in recognizing these very important and dedicated individuals.

Greetings from Skagway where I am stranded (weather) in the middle of an EMT 2 class. I had hoped to get back to Juneau for the Firefighter 1 class Saturday but we had to turn back due to snow squalls. I think that this email may be late but I do so heartily support HB 73 providing special license plates for fire fighting and EMS providers. I am currently a Public Health Nurse, in training to be an effective fire/EMS volunteer. I do know that when the 'all call' sounds for a fire or motor vehicle accident that we need to have a consistent, efficient way for law enforcement or other providers to recognize our vehicles for effective scene access. Not everyone will have a 'blue light' in their vehicle...in addition to which I suspect that lights can be purchased by 'anyone'. A special plate would be more official as well as a recognized identifier.

Thank you for working on HB 73, Kathy Miller RN, MPH, EMT 1 and Lynn Canal Station volunteer for CCF/R-Juneau

Caveats: NONE

I support HB 73 that would provide special license plates for firefighters and EMS providers. This is a potential recruiting tool to get more people involved into the drastically under manned public services with much needed staffing.

I am honored to be a veteran as well to know that our state has special license plates to honor them but our public also needs to be aware of then thousands of men and women who devote their lives to public safety.

nancy:
I just wanted to let you know that I support the license plates for volunteer firefighter/EMS responders. It is about the worst job in the world cutting some poor person out of a car and tring to get them out alive. The risks are extreme. A little show of recognition would be nice.
Fred

Good afternoon,

I support HB 73 that would provide special license plates for firefighters and ems providers. I am a current EMS lieutenant with the Petersburg Volunteer Fire Department and think this is a great way for the State to show our volunteers that we appreciate what they do for their communities.

Thank you,

Valerie Allen

Rych, can you send this along? I can't seem to get the email address for Ms. Manly to work. Thanks. - G

This note is written in support of HB 73. I have been a firefighter/EMS provider in Juneau since 1974, am the retired District Chief for the Lynn Canal/Auke Bay District and currently serve in the capacity of Captain, Special Rescue Teams for Capitol City Fire/Rescue. In the 35 years that I have been a volunteer in the fire service I have been blessed to serve with numerous dedicated individuals, received great training opportunities and to had the satisfaction of serving my community. The rewards of saving property, protecting the environment and in several instances actually saving lives has enriched my life in ways that words can scarcely describe. As I near the end of this important and defining part of my life I realize that HB 73 makes the transition a little easier; we don't retire our pagers and helmets without profound regret or an acceptance that we'll not miss the calls and opportunity to serve.

Thanks,

George Reifenstein Jr., Captain, Special Teams, CCF/R
4202 Auke Lane,
Juneau, AK 99801

I totally support HB 73 that would provide special license plates for firefighters! Many states have a similar program honoring firefighters that risk their lives for others.

Sven Pearson

SPONSOR STATEMENT

HB 77 - Red Cross Disaster Assistance Bill

Disasters can strike anywhere at any time. Alaska's unique geography, small population and distance from the Lower-48 can make it even more difficult for the Red Cross of Alaska to respond to an in-state disaster.

Forty seven other states permit state employees to take unpaid time off and volunteer for the Red Cross when a disaster occurs. Alaska is one of the three states that do not.

House Bill 77 addresses this problem by permitting our state employees to join the Red Cross and use their skills to help their fellow Alaskans when a flood, earthquake, wildfire or other type of disaster hits our state.

The legislation makes Alaska more self sufficient when a disaster happens and state government benefits by having workers with this important supplemental training. Red Cross Disaster training is also provided at no cost to the state and its employees.

HB 77 is wholeheartedly endorsed by the Red Cross of Alaska.

FOR IMMEDIATE RELEASE **CONTACT:** Rep. Millett, 907-465-3879

MILLETT INTRO'S RED CROSS DISASTER ASSISTANCE BILL

HB 77 Would Allow State Employees to Assist Agency in Times of Need

Tuesday, January 20, 2009, Juneau, Alaska – Alaska's state employees will be able to serve on the front lines the next time a disaster strikes our state.

Representative Charisse Millett, R-Anchorage, is sponsoring House Bill (HB) 77, the Red Cross Disaster Assistance Bill. It allows state employees to take unpaid leave and serve as a disaster relief volunteer with the Red Cross of Alaska.

"Alaska is one of only three states in the nation that does not have this type of legislation in place," Millett said. "Our state employees can be an invaluable resource to the Red Cross and other Alaskans if a flood, earthquake, wildfire or other type of natural disaster strikes Alaska."

"This is an amazing partnership opportunity for state employees and the American Red Cross here in Alaska," Red Cross of Alaska Executive Director Michelle Houlihan said. "These volunteer opportunities will not only allow us to be more prepared but also allow us to be self-sustaining during times of large scale disaster. The free training that is provided to all American Red Cross volunteers will hopefully provide critical supplemental training to those state employees who join us in helping better prepare and respond to Alaska's need in times of disaster."

HB 77 has been referred to the House State Affairs and the House Finance Committees.

American Red Cross

Alaska Needs a Disaster Leave Bill

The American Red Cross is a unique private, nonprofit organization with a humanitarian mission to provide relief to victims of disasters and help people prevent, prepare for, and respond to emergencies. A state Disaster Leave Bill will go a long way toward helping the Red Cross fulfill its mission locally, as well as help Alaska to be better prepared.

For over 125 years the American Red Cross has provided help to victims of disasters. Disaster relief is the primary service that Red Cross provides in communities across the United States. Every year Red Cross disaster workers respond to over 70,000 disasters including hurricanes, floods, earthquakes, tornadoes, and single family and apartment fires, along with other natural and human-caused disasters. Everyday in Alaska and across our nation someone is in need of emergency services. When a disaster strikes, American Red Cross needs qualified and trained volunteers who can answer the call for immediate recovery support.

This bill would allow state employees a maximum of 15 days paid leave during a 12-month period, without loss of seniority, vacation time, sick leave or earned overtime accumulation. This bill does not restrict the areas in which a state worker may serve and allows Alaskans to lend support to our fellow Alaskans. This proposed bill will provide Alaska with instant access to locally trained disaster workers, thus increasing our state's ability to respond to disasters independently and to be self sustaining.

There are 47 states that currently have disaster leave policies. The first state to enact disaster leave was Ohio in 1983. Since then 46 other states plus the US Virgin Islands and Puerto Rico have instituted Disaster Leave to help provide trained volunteers that are so critical during disaster response. These are volunteers that would have been able to help in the Tanana Valley this past summer when floods impacted thousands of Alaskans. Red Cross was asked to open and staff three shelters that providing a warm, dry place to sleep as well as hundreds of hot meals to impacted families and first responders. In 1964 Governor Egan declared American Red Cross the lead disaster relief agency for the state. This was all possible from the support of volunteers from all over the state.

This fall Alaskans were called upon to help with supporting operations after Hurricanes Gustav and Ike. American Red Cross of Alaska deployed 23 volunteers to assist in shelters and provide client casework in Alabama, Mississippi, Louisiana and Texas helping hundreds of thousands of displaced Americans. Hurricane Katrina and the terrorist attacks on September 11 have been other national disasters where American Red Cross of Alaska has been asked to help support our fellow Americans.

American Red Cross

3 Important Reasons to Support an Alaskan Disaster Leave Bill

1. State employees already possess many skills needed during times of disaster. Some state employees have skills that can easily be transferred to disaster operations, such as, shelter management, mass feeding, damage assessment, and family services. While on assignment, state employees will gain experience and training that will benefit the state employee, their agencies, and the citizens they serve.

2. This Bill will strengthen our state disaster preparedness allowing us to be self sustaining until additional help arrives if ever needed. Locally trained volunteers would increase the state's ability to respond to disasters.

3. Disaster leave is not an additional expense for state government-state agencies have full authority to grant orderly requests for leave. The Bill states that employees must get approval from their supervisors, who can base decisions on competing demands. The training of state employees to become Red Cross certified disaster volunteers does not cost the state anything as all Red Cross training is provided at no cost.

CS FOR HOUSE BILL NO. 77(STA)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE STATE AFFAIRS COMMITTEE

Offered: 3/12/09
Referred: Finance

Sponsor(s): REPRESENTATIVES MILLETT, Holmes, Dahlstrom

A BILL

FOR AN ACT ENTITLED

"An Act allowing certain public employees to take leave without pay to volunteer with the American Red Cross in a disaster."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 23.30.244 is amended by adding a new subsection to read:

(d) A person who is injured during the course and within the scope of providing service as an American Red Cross volunteer while on leave without pay from state service under AS 39.20.285 is not an employee of the state for purposes of a claim under this chapter for compensation for that injury.

*** Sec. 2.** AS 39.20 is amended by adding a new section to read:

Sec. 39.20.285. Leave without pay for disaster relief. (a) Notwithstanding AS 39.20.310(1) - (3) and (6) - (8), an employee may take leave without pay not to exceed 15 regularly scheduled work days in a calendar year to volunteer with the American Red Cross while that organization is providing relief from a disaster located in the state.

(b) Leave without pay under this section is subject to approval by the supervisor of the employee who requests it; however, approval may not be unreasonably withheld.) delete Amendment # 2

(c) While on leave without pay under this section,

(1) an employee is not eligible to accrue state employee pay and benefits;

(2) the employee, for the limited purpose of ensuring that the employee's eligibility for employer-provided group health or group life insurance is unaffected by the leave, shall be considered to be in pay status.

(d) Notwithstanding (g) of this section, an employee of the Alaska Housing Finance Corporation or the Alaska Railroad Corporation is not eligible for leave without pay under this section.

(e) A claim by an employee for an injury the employee sustains while on leave without pay under this section is subject to the limitations of AS 23.30.244(d).

(f) The director of personnel in the Department of Administration shall adopt regulations to carry out the purposes of (a) - (d) of this section.

(g) In this section,

(1) "disaster" means an event or circumstance that has been formally designated a disaster at level II or higher by the American Red Cross;

(2) "employee" means an employee of a branch of state government, including the University of Alaska, whether the employee is a permanent, nonpermanent, or temporary employee.

* **Sec. 3.** AS 39.20.310 is amended to read:

Sec. 39.20.310. Exceptions. Except as provided in AS 39.20.275 **and 39.20.285**, AS 39.20.200 - 39.20.330 do not apply to

(1) members of the state legislature, the governor, the lieutenant governor, and justices and judges of the supreme and superior courts and of the court of appeals, but nothing in AS 39.20.200 - 39.20.330 may be construed to diminish the salaries fixed by law for these officers by reason of absence from duty on account of illness or otherwise;

(2) magistrates serving the state on less than a full-time basis;

(3) officers, members of the teaching staff, and employees of the University of Alaska;

(4) persons employed in a professional capacity to make a temporary and special inquiry, study, or examination as authorized by the governor, the legislature, or a legislative committee;

(5) members of boards, commissions, and authorities who are not otherwise employed by the state;

(6) temporary employees hired for periods of less than 12 consecutive months;

(7) persons employed by the division of marine transportation as masters and members of the crews operating the state ferry system who are covered by collective bargaining agreements as provided in AS 23.40.040, except as expressly provided by law;

(8) persons employed by the state who are covered by collective bargaining agreements as provided in AS 23.40.210, except as expressly provided by law.

Help at Home
ALASKANS TO ALASKA

American Red Cross of Alaska

January 8, 2009

Representative Charisse Millett
State Capitol, Room 412
Juneau, Alaska 99801

Dear Representative Millett

This letter of support is on behalf of American Red Cross of Alaska volunteers and staff who firmly believe that House Bill 77 will be of great benefit to all Alaskans. This bill will allow State employees to volunteer their time, without penalty to their personal leave or seniority, during times of large scale disaster. Any state employee interested in volunteering within the Red Cross Disaster Preparedness and Response network will receive free training and instruction in disaster relief services.

This partnership will help to increase the number of volunteers engaged, from throughout Alaska, who will be trained in sheltering, case management, mass care and mental health to name just a few areas. The more people who are trained and prepared to respond the better our state will be able to sustain ourselves when a situation like the 1964 earthquake arrives or the floods within the Interior this past summer. All the training that is provided through American Red Cross is free, to any volunteer, which will allow minimal to no fiscal impact on our state operating budget. House Bill 77 will also set an example for other employers throughout our state, leading the way and demonstrating the importance and value of allowing individuals to give back to their community and the importance in investing in our State's level of preparedness and ability to respond to our own immediate needs during a disaster.

I thank you for identifying and realizing the importance of HB 77. American Red Cross looks forward to working with the State and its employees as we continue to raise our level of readiness throughout Alaska.

Sincerely,

Michelle Houlihan
Chief Executive Officer

Oregon

401.485 Leaves of absence for disaster relief volunteers; requirements; maximum period; effect on status of employees. (1) State agencies and political subdivisions described in ORS 243.325 (2) to (6) may grant leaves of absence to any public employee who is a certified disaster services volunteer of the American Red Cross to participate in disaster relief services in the State of Oregon. Cumulative leave granted shall not exceed 15 work days in any 12-month period. Such leave granted shall not result in a loss of compensation, seniority, vacation time, sick leave or accrued overtime for which the employee is otherwise eligible. Compensation to an employee granted leave under this section shall be at the employee's regular rate of pay for those regular work hours during which the employee is absent from work.

(2) As used in this section, "disaster" means those disasters designated at level II and above by the American Red Cross. [1995 c.70 §1]

Note: 401.485 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 401 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

MILLETT INTRO'S RED CROSS DISASTER ASSISTANCE BILL

HB 77 Would Allow State Employees to Assist Agency in Times of Need

Tuesday, January 20, 2009, Juneau, Alaska – Alaska's state employees will be able to serve on the front lines the next time a disaster strikes our state.

Representative Charisse Millett, R-Anchorage, is sponsoring House Bill (HB) 77, the Red Cross Disaster Assistance Bill. It allows state employees to take unpaid leave and serve as a disaster relief volunteer with the Red Cross of Alaska.

"Alaska is one of only three states in the nation that does not have this type of legislation in place," Millett said. "Our state employees can be an invaluable resource to the Red Cross and other Alaskans if a flood, earthquake, wildfire or other type of natural disaster strikes Alaska."

"This is an amazing partnership opportunity for state employees and the American Red Cross here in Alaska," Red Cross of Alaska Executive Director Michelle Houlihan said. "These volunteer opportunities will not only allow us to be more prepared but also allow us to be self-sustaining during times of large scale disaster. The free training that is provided to all American Red Cross volunteers will hopefully provide critical supplemental training to those state employees who join us in helping better prepare and respond to Alaska's need in times of disaster."

HB 77 has been referred to the House State Affairs and the House Finance Committees.

MEMORANDUM March 16, 2009

SUBJECT: Exemption of the Alaska National Guard and the Alaska Railroad Corporation from disaster relief leave bill (CSHB 77(STA), Work Order No. 26-LS0250\P)

TO: Representative Charisse Millett
Attn: Jeff Turner

FROM: Dan Wayne
Legislative Counsel

I spoke with Jeff Turner of your staff about whether or not the above-referenced bill would affect employees of the Alaska Railroad Corporation or the Alaska National Guard, and he asked that I summarize in a memorandum the legal points we discussed.

1. Alaska Railroad Corporation. The bill specifically exempts from its provisions the Alaska Railroad Corporation. You should also note that under AS 42.40.710(a) employees of the Alaska Railroad are employees of the corporation and not the state, and provisions of AS 39 other than AS 39.52 (the Executive Branch Ethics Act) do not apply to them. This means the bill, if adopted in its current form, would not give employees of the Alaska Railroad Corporation an opportunity to take leave without pay for disaster relief.

2. The Alaska National Guard. The Alaska National Guard is part of the organized militia of the state, established under AS 26.05.010, and the governor is commander in chief. The Guard functions as part of a state agency in the executive branch, the Department of Military and Veteran's Affairs. The Guard consists of two classes of members: persons who have voluntarily enlisted and persons who are commissioned officers or warrant officers who have qualifications prescribed by federal law and have been appointed and either commissioned or warranted by the governor. AS 39.20.200 - 39.20.350, the statutes governing leave by officers and employees of the state, do not include a generally applicable definition of "employee," the term used in the bill to designate who may take leave without pay for disaster relief. However, in *State v. Bowen*, 953 P.2d 888 (Alaska 1998), the Alaska Supreme Court held that a person working in the active state service of the state organized militia (which is comprised of the Alaska National Guard, the Alaska Naval Militia, and the Alaska Defense Force) is a state employee (although for exceptional reasons that the court determines applied at the time, the person was not to be regarded as subject to the State Personnel Act (AS 39.25)).

Moreover, sec. 2 of the bill does include a definition of "employee" applicable only to the proposed disaster relief leave that could be interpreted as including members of the Alaska National Guard.

Mr. Turner has asked if this definition could be modified in such a way as to exclude members of the Alaska National Guard from employees who would be able to take leave without pay for disaster relief under sec. 2 of the bill. The answer is yes; as in the example I related to Mr. Turner, you could modify the definition to read:

> (2) "employee" means an employee of a branch of state government, including the University of Alaska, whether the employee is a permanent, non-permanent, or temporary employee, but does not include civilian or enlisted members of the organized militia under AS 26.05.010.[1]

The definition in this example would exclude members of the Alaska National Guard, the Alaska Naval Militia, and the Alaska Defense Force from the leave option created by the bill.

If I may be of further assistance, please advise.

Sponsor Statement
House Bill 78

An act extending the termination date of the Board of Public Accountancy; and providing for an effective date.

HB 78 extends the termination date of the Board of Public Accountancy. Currently the board will sunset on June 30, 2009. HB 78 extends this date by four years, to June 30, 2013.

To quote the audit summary, "In our opinion, the termination date for the board should be extended. The board is serving the public interest by effectively licensing and regulating certified public accounts. Moreover, the board is serving the public interest by policing the profession and ensuring that only properly qualified individuals practice in Alaska as certified public accountants."

I encourage all the members to review the Legislative Audit report.

Although the Legislature could extend this board up to eight years, it is the recommendation of the auditor to extend four years. This decision was reached after board discussions concerning future services that may be out-sourced, possible changes in the board structure and new statutes and regulations that may be pursued in the near future.

I urge your support of this bill.

ANALYSIS: *(Attach a separate page if necessary)*

HB 78 extends the Board of Public Accountancy to June 30, 2013. In accordance with AS 08.03.020 funding extends one year following the termination date allowing the Board to conclude its affairs. The FY2010 funding is included in the Operating Budget request and costs shown are an average of direct costs for a biennial licensing period.

Travel expenses represent transportation and per diem for the 7 member board and 2 staff to meet at least 4 times each year in accordance with AS 08.04.025.

The program is required to cover costs with licensing fees under AS 08.01.065, and revenue generated by board fees are anticipated tc cover its full operating costs. New funds are not required to implement this bill.

Division of Legislative Audit

Report Digest #08-20056-09

SUMMARY OF: A Sunset Review of the Department of Commerce, Community, and Economic Development, Board of Public Accountancy.

PURPOSE OF THE REPORT

In accordance with Title 24 and Title 44 of the Alaska Statues, we have reviewed the activities of the Board of Public Accountancy (board). As required by AS 44.66.050(a), the legislative committees of reference are to consider this report during the legislative oversight process involved in determining if the board should be reestablished. Currently, AS 08.03.010(c)(1) states that the board will terminate on June 30, 2009. If the legislature does not extend the termination date before then, the board will have one year to conclude its administrative operations.

REPORT CONCLUSIONS

In our opinion, the termination date for the board should be extended. The board is serving the public interest by effectively licensing and regulating certified public accountants. Moreover, the board is serving the public interest by policing the profession and ensuring that only properly qualified individuals practice in Alaska as certified public accountants.

The board has promoted and effectively assisted in updating the statutes governing the practice of public accounting. As statutes were updated, the board produced regulations to further define the new requirements affecting each professional under its purview. When the board discovered omissions in statute that acted to block an avenue to licensure that should have been grandfathered into the new rules, the board immediately requested a legislative "fix" and assisted with testimony during the legislative session in order to mitigate this omission. As a result, fifteen candidates who had been pursuing licensure under the old statute gained a legitimate avenue to become licensed.

The board was able to re-establish a Fairbanks site for the certified public accountant exam. However, a site in Southeast Alaska is still out of reach due to cost.

The board has also improved the application process to take the Certified Public Accountants exam by contracting for on-line services from the National Association of State Boards of Accountancy. The decision to contract these services has had the added benefit of redirecting staff time to important problem-solving and licensure activities.

The board has been proactive in shaping the future of the accounting profession by working with committees of national professional societies that set professional standards.

Alaska Statute 08.03.010(c)(1) requires the Board of Public Accountancy be terminated on June 30, 2009. Under AS 08.03.020, if the termination date is not extended by the legislature, the board will have a one-year period to administratively conclude its affairs.

Although AS 08.03.020(c) allows the legislature to extend the termination date of the board for up to eight years, we recommend the legislature extend the board's termination date for four years, to June 30, 2013. This recommendation is offered based on the board's discussions concerning future services that may be out-sourced, possible changes in board structure and new statutes and regulations that may be pursued in the near future.

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

Vacant board positions should be filled in accordance with AS 08.04.040.

Recommendation No. 2

The board, in concert with the Professional Licensing section, should review current and projected funding needs with the intent of reducing fees.

Recommendation No. 3

The Investigation Section should implement an effective case tracking system.

December 3, 2008

Members of the Legislative Budget
and Audit Committee:

In accordance with the provisions of Title 24 and Title 44 of the Alaska Statutes, the attached report is submitted for your review.

DEPARTMENT OF COMMERCE, COMMUNITY,
AND ECONOMIC DEVELOPMENT
BOARD OF PUBLIC ACCOUNTANCY

December 1, 2008

Control Number
08-20056-09

Article IX, Section 14 of the Alaska Constitution, requires that the position of Legislative Auditor be filled by a certified public accountant (CPA). Likewise, the professional staff at the Division of Legislative Audit are either licensed or are pursuing licensure as CPAs. Since the board is responsible for licensing and regulating CPAs, our agency does not meet the independence standard required by generally accepted government auditing standards.

Therefore, to provide the legislature with an independent evaluation of the Board of Public Accountancy we contracted the services of LeResche & Co. a consulting firm to perform a management review. The management review is not an audit, but does use the criteria in AS 44.66.050(c), to assess whether there is a public need to continue the Board of Public Accountancy. Currently under AS 08.03.010(c)(1), the Board of Public Accountancy is scheduled to terminate on June 30, 2009 and has one year in which to conclude its administrative operations.

This report recommends the legislature extend the board's termination date to June 30, 2013.

Pat Davidson, CPA
Legislative Auditor

Board of Public Accountancy	21

OBJECTIVES, SCOPE, AND METHODOLOGY

The management review of the Board of Public Accountancy (board) was conducted in accordance with Title 44 of the Alaska Statutes. As required by AS 44.66.050(a), the legislative committees of reference are to consider this report during the legislative oversight process involved in determining if the board should be reestablished. Currently, AS 08.03.010(c)(1) states that the board will terminate on June 30, 2009. If the legislature does not extend the termination date, the board will have one year to conclude its administrative operations.

Objectives:

1. To determine if the board should be extended and for how long.
2. To determine if the board is operating in the public interest.
3. To determine if the board has exercised appropriate regulatory oversight of certified public accountants.

The assessment of the operations and performance of the board was based on criteria set out in AS 44.66.050(c). Criteria set out in this statute relate to the determination of a demonstrated public need for the board.

Scope and Methodology

During the course of our examination, the following was reviewed and evaluated:

1. Compliance with statutes and regulations related to the certification of public accountants. The evaluation addressed considerations of applications, testing of candidates, and continuing education necessary for certified public accountants to maintain their licenses in good standing.

2. Minutes of the meetings of the board.

3. Annual reports issued by the board.

4. Complaints filed with the Division of Corporations, Business, and Professional Licensing.

5. The contract with the National Association of State Boards of Accounting to manage the application process for all candidates who wish to take the exam under the Alaska jurisdiction.

6. Information concerning other states for comparison of pertinent statistics.

Additionally, the following staff were interviewed: staff of the Professional Licensing, Financial and Investigative Sections of the Department of Commerce, Community, and Economic Development, the Chair of the Board of Public Accountancy, and a board member.

(Intentionally left blank)

ORGANIZATION AND FUNCTION

The Board of Public Accountancy (board) is established under the authority of AS 08.04.010. The seven-member board is appointed by the governor to staggered four-year terms.

Board Membership

The board consists of five professional members, who must be certified public accountants currently licensed in the State of Alaska. Additionally, there are two public members who must be independent from the influence of a certified public accountant. Current members of the board are listed to the right.

Board of Public Accountancy

(As of June 30, 2008)

Professional Members

Max Mertz, CPA Chair

Carla Bassler, CPA

Bruce Gabrys, CPA

Elaine Williamson, CPA

Vacant, CPA[1]

Public Member

Rebecca Jensen

Vacant

Board Duties

The board designs under statues, the regulatory regime under which individuals are allowed to take the uniform certified public accounting exam, are deemed qualified to obtain a license to practice public accounting in the State and are qualified to continue the practice of public accounting by completing appropriate continuing education. Moreover, the board is responsible for policing the profession to ensure that only qualified individuals hold themselves out as certified public accountants.

The Department of Commerce, Community, and Economic Development, Division of Corporations, Business, and Professional Licensing

The Department of Commerce, Community, and Economic Development (DCCED), Division of Corporations, Business, and Professional Licensing provides administrative and investigative assistance to the board. Administrative services include budgeting, revenue collection, expenditure reporting and control; regulation support; public notices; and various form and file maintenance.

Alaska Statute 08.01.065, mandates that DCCED, with the concurrence of the board, adopt regulations to establish the amount and manner of payment of application fees, examination fees, license fees, registration fees, permit fees, investigation fees, and all other fees as appropriate for the occupations covered by the statute.

Alaska Statue 08.01.087 grants the Division of Corporations, Business, and Professional Licensing the authority to act on its own initiative or in response to a complaint. Professional Licensing may:

---

[1] On October 16, 2008, the Governor appointed Kathleen Reid, CPA to the vacant professional position.

- Conduct an investigation if it appears a person is engaged or is about to engage in a prohibited professional practice;
- Issue Cease and Desist Orders;
- Bring an action in Superior Court to enjoin the act;
- Issue subpoenas for the attendance of witnesses and records; and,
- Examine the books and records of an individual licensed by the division.

REPORT CONCLUSIONS

In our opinion, the termination date for the Board of Public Accountancy (board) should be extended. The board is serving the public interest by effectively licensing and regulating certified public accountants. Moreover, the board is serving the public interest by policing the profession and ensuring that only properly qualified individuals practice in Alaska as certified public accountants.

The board has promoted and effectively assisted in updating the statutes governing the practice of public accounting. As statutes were updated the board produced regulations to further define the new requirements affecting each professional under its purview. When the board discovered omissions in statute that acted to block an avenue to licensure that should have been grandfathered into the new rules, the board immediately requested a legislative "fix" and assisted with testimony during the legislative session in order to mitigate this omission. As a result, fifteen candidates who had been pursuing licensure under the old statute gained a legitimate avenue to become licensed.

The board was able to re-establish a Fairbanks site for the certified public accountant exam. However, a site in Southeast Alaska is still out of reach due to cost.

The board has also improved the application process to take the Certified Public Accountants (CPA) exam by contracting for on-line services from the National Association of State Boards of Accountancy. The decision to contract these services has had the added benefit of redirecting staff time to important problem-solving and licensure activities.

The board has been proactive in shaping the future of the accounting profession by working with committees of national professional societies that set professional standards.

Alaska Statute 08.03.010(c)(1) requires the Board of Public Accountancy be terminated on June 30, 2009. Under AS 08.03.020, if the termination date is not extended by the legislature, the board will have a one-year period to administratively conclude its affairs.

Although AS 08.03.020(c) allows the legislature to extend the termination date of the board for up to eight years, we recommend the legislature extend the board's termination date for four years, to June 30, 2013. This recommendation is offered based on the board's discussions concerning future services that may be out-sourced, possible changes in board structure and new statutes and regulations that may be pursued in the near future.

(Intentionally left blank)

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

Vacant Board of Public Accountancy (board) positions should be filled in accordance with AS 08.04.040.

Alaska Statute 08.04.040 requires that vacant board positions be filled within 60 days of becoming vacant. Two positions, one professional and one public, have been vacant for seven months and eight months, respectively. (On October 16, 2008, the Governor's Office filled the professional position but the public position remains vacant).

The board is striving to be proactive in shaping the professional standards required of each individual applying to practice public accounting in Alaska. Changes in business practices challenge the board to periodically update education and experience requirements and regulations. Additionally, barriers between states and countries are disappearing as the profession devises methods to ease practice across borders while still protecting the public. This board is properly reluctant to sit back and let others write the rules for Alaska.

In order to succeed in this effort, the board requires depth and consistency. The Governor's Office should make every effort to appoint members in a timely manner so the board can be most efficient in reaching its goals.

Recommendation No. 2

The board, in concert with the Professional Licensing section, should review current and projected funding needs with the intent of reducing fees.

Alaska Statute 08.01.65(c) established fees based on the principal that total fees collected would approximately equal actual regulatory costs for the occupation.

In FY 08 the fee surplus accruing to the Board of Public Accountancy was 192% more than the fee surplus in FY 05. During this same time expenditures increased 25% from $142,700 to $178,800. Currently, the board is carrying a $271,000 cumulative balance that represents approximately 150% of annual expenditures.

The Licensing Section reviews fees every two years. During the last review, they noticed the accumulation of funds, as did the board. However, the board needed to complete a large, complex regulation project that would draw down on the existing surplus. It was the opinion of staff that fees should be held steady until the project was complete. Since the regulation project is now complete, there now should be room to reduce fees on the profession.

The recommended fee review should incorporate estimates of the cost of achieving changes the board may wish to make to its structure. In addition, it should incorporate estimates of costs that might accrue from a further agreement with National Association of State Boards of Accountancy to provide services now provided by the board.

Recommendation No. 3

The Investigation Section should implement an effective case tracking system.

Since the last management review of the investigative effort, a procedural change in the complaint process has successfully reduced the number of investigation cases and has allowed investigative staff to focus on valid cases. Consequently, average duration of cases of unlicensed activity has dropped from 15.7 months to 5.1 months. The investigation section should be complimented on this effort.

Further, of the forty-seven cases closed during the review period, nine cases (19 %) had time gaps of 6 to 27 months during which no notations to the file abstract were made. Five of these cases involved determinations of no violation and are examples of cases that would be resolved prior to a case file being opened under the new system. This new procedure has increased the efficiency and effectiveness of the investigation section.

However, the investigation section has been hampered in efficiently pursuing some cases because of staff turnover that led to serious inattention to cases. One complex case reviewed in the last sunset review is still open and shows long periods where no progress was made. This case was opened in 2002 and is in litigation with the Department of Law pursuing the case. (This case is the combination of 4 complaints against the same person.) Additionally, of the nine closed cases mentioned above, four had serious periods of inattention.

Under these circumstances, the section would benefit from a priority tracking system that reports to investigators and supervisors when a case has been dormant for a certain time period. This would provide supervisors with a timely tool to ensure high priority cases are pursued in a timely manner.

Prior Finding and Recommendation

The board should continue to be proactive in providing better access to its primary licensing examination – the Uniform Certified Public Accountant Examination (CPA exam).

In 2004, the manner in which the CPA exam is administered in Alaska was changed. Previously, the examination was administered twice a year at a minimum of three testing sites typically located in Anchorage, Fairbanks, and Juneau.

In 2004, in conjunction with changes of format and structure that were made nationally by the American Institute of Certified Public Accountants (AICPA), the examination was changed to an all-computerized format that could be taken in whole or in parts up to three, and eventually four, times a year. By increasing the availability of the examination across the full year, access for applicants was improved. However, as the new testing regimen was implemented in Alaska, this improved access was offset to a large degree by the restriction in the number of available testing sites. Under the new testing regimen, applicants can take the examination at only one test site, located in Anchorage.

Such circumstances make taking the examination much more expensive for applicants in the Interior and Southeast Alaska. Applicants from these regions must now travel to Anchorage

and arrange for transportation and accommodations, in addition to paying a higher examination fee.

Current Status

During 2005, the board was successful in adding Fairbanks as a test site for the CPA exam. This was possible because Prometric (the service that administers the CPA exam) was providing testing services to an existing program at the University of Alaska Fairbanks. This allowed the board to take advantage of existing facilities in which to offer the CPA exam.

The board pursued the possibility of the same type of arrangement with the University of Alaska Southeast. However, no existing infrastructure was available and after analyzing the capital and operating costs, the board determined that the number of applicants from Southeast would be insufficient to cover the continuing costs of the facility.

Other professions that require a national exam and are administered by the Professional Licensing Section also have limited statewide sites for their tests. Five professions have no exam site in Alaska (for example: geologist and naturopaths); and eleven have an exam site only in Anchorage (for example: physicians and physician assistants). Three professions have test sites both in Anchorage and Fairbanks: CPAs, professional counselors, and social workers. Twelve professions have more than two sites. In comparison to other licensed professionals who are required to take a national exam, the CPA candidates have comparable opportunities to take the exam.

In conclusion, while a third site for the CPA exam in Southeast Alaska is preferable and the effort to establish it should not be abandoned, the board has succeeded in increasing the number of sites available to take the CPA exam in order to reduce the cost to applicants.

(Intentionally left blank)

ANALYSIS OF PUBLIC NEED

The following analysis of board activities relates to the public need factors defined in AS 44.66.050. The analysis is not intended to be comprehensive, but only to address those areas I became aware of during my review.

Determine the extent to which the board, commission, or program has operated in the public interest.

In 2004, when the Board of Public Accountancy (board) adopted the computerized National Certified Public Accountant (CPA) exam provided by the American Institute of Certified Public Accountants (AICPA), the service provider, Prometric, provided only one Alaska site to take the exam. During 2005, the board was successful in adding Fairbanks as a test site for the CPA exam. This was possible because Prometric was providing testing services to an existing program at the University of Alaska Fairbanks. This allowed the board to take advantage of existing facilities at which to offer the CPA exam.

The board pursued the possibility of the same type of arrangement with the University of Alaska Southeast. However, no existing infrastructure was available and after analyzing the capital and operating costs the board determined that the number of applicants from Southeast would be insufficient to cover the continuing costs of the facility.

Because applicants have the option to take the National computerized CPA exam under the auspices of any state or country jurisdiction, many people who had no intention of practicing in Alaska were applying with the Alaska licensing section. To reduce the impact on the licensing section, the board contracted with National Association of State Boards of Accountancy (NASBA) to process applications for the CPA exam. In FY 08, approximately 1150 people applied to take the CPA exam under Alaska rules while only 185 of those actually took the test in Alaska. Contracting with NASBA to manage applications substantially reduced the workload of the licensing examiner in Alaska and allowed more focus on efficient problem resolution and licensure of accountants. In addition, the on-line application process is faster and easier for those applying to take the exam, than was the previous process.

The board increased educational requirements for persons wishing to become CPAs in Alaska in order to ensure a more informed and educated profession serving the Alaska public.

Determine the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices that it has adopted, and any other matter, including budgetary, resource and personnel matters.

As discussed above, the board has contracted out the application process for the CPA exam. This has reduced the workload on the board and the licensing examiner and freed up time to focus on other tasks.

The board is actively engaging in shaping the rules in the accounting profession by its membership in national professional organizations. The board needs a full contingent of members if it is to perform most effectively. As described in Recommendation No. 1, the board has been pursuing its goals while lacking two members.

License fees remained at $220 from FY 05 through FY 08. A schedule of license revenues and board expenditure is presented below. (See Recommendation No. 2 for a discussion of the ending cumulative surplus).

State of Alaska
Board of Public Accountancy
FY 05-FY 08
Schedule of License Revenues and Board Expenditures
(unaudited)

	FY 05	FY 06	FY 07	FY 08
Revenues	$44,000	$278,500	$128,100	$290,600
Direct Expenditures				
Personal Services	56,300	64,400	61,700	61,800
Travel	15,300	13,600	18,600	26,300
Contractual	18,600	15,800	23,400	29,300
Supplies	100	100	1,000	200
Total Direct Expenditures	90,300	93,900	104,700	117,600
Indirect Expenditures	52,400	47,600	93,900	61,200
Total Expenditures	142,700	141,500	198,600	178,800
Net Income (Loss)	(98,700)	137,000	(70,500)	111,800
Beginning Cumulative Surplus (Deficit)	191,400	92,700	229,700	159,200
Ending Cumulative Surplus (Deficit)	$92,700	$229,700	$159,200	$271,000

Determine the extent to which the board, commission, or agency has recommended statutory changes that are generally of benefit to the public interest.

The board, in concert with the Alaska Society of CPAs and other professional organizations, assisted in passing a major update of the governing statutes of public accounting. This rewrite increased the education required to obtain a CPA license in Alaska. The rewrite included sections covering substantial equivalency, interstate reciprocity (which eased the ability of qualified persons to obtain Alaska certification) and "attest" experience requirements that ensure individuals are qualified to audit financial statements.

After discovering that the new statute unfairly impacted a class of accountants that had been pursuing licensure under the old law, the board immediately acted to obtain a legislative "fix". The board action provided a path to licensure for this small group of candidates.

The board worked diligently to provide a package of regulations to complement the new laws. The regulations were adopted and in effect concurrent with the effective date of the new legislation.

Determine the extent to which the board, commission, or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service that it has provided.

When the board adopted the AICPA National computerized CPA exam, it was concerned about the impact on the applicants taking the exam. The board created a survey and provided it to each applicant. The survey asked about various aspects of the test environment. As a result of this survey, the board was instrumental in getting new equipment for the Anchorage test site.

Each meeting of the board is noticed in the Anchorage Daily News and in an email from the Licensing Examiner to interested parties. Each meeting agenda has a public comment section and minutes confirm that public comments are welcome at these meetings. Representatives from Alaska professional organizations frequently attend and are provided the opportunity to comment.

Determine the extent to which the board, commission, or agency has encouraged public participation in the making of its regulations and decisions.

Draft regulations are developed in a coordinated manner with Alaska professional accounting organizations. Usually a committee of professionals prepares a draft, sends it out to members for comment, and may incorporate those comments into the draft. The draft is provided to the board for review and discussion. Thus, the board attempts to thoroughly vet the proposed regulations before offering them for public review. Then public notice is published and directly provided to groups that have an interest in the regulations.

During the last regulation update, each regulated professional was provided a copy of the draft regulations and notified of the time for comment. Those professionals who are not CPAs but had an interest in understanding the ramifications of the new rules were also provided notice of the meetings and were welcome to provide comments. Board minutes confirm that interested parties commented on the draft regulations.

Determine the efficiency with which public inquires or complaints regarding the activities of the board, commission, or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of victims' rights or the office of the ombudsman have been processed and resolved.

Overall, the investigation section has reduced the average time taken to resolve a case by implementation of a new complaint policy that confirms the complaint is valid before

opening a case. This policy was instituted in 2006 and has substantially increased efficiency of the section. The section still needs to address lapses due to staff turnover and absence of an effective tracking system that would periodically provide reports of activity to supervisors in order to identify "dormant" cases.

For example, four investigative cases (all involving the same person) have been open for more than six years. These cases are an example of the problems in staff turnover/reassignment and lack of an effective system to notify supervisors or investigators that a case has been dormant for an extended period of time. The cases are complex and are in litigation. Recommendation No. 3 is offered to help reduce the amount of time some cases are left unattended.

Since the implementation of the new complaint procedure in FY 2006, twenty complaints have been received. Twelve resulted in case files and eight were determined to be invalid. Of the twelve cases only two are still open. One involves a CPA licensed in Colorado who performed an audit in Alaska without getting a practice privilege, and the other involves an accountant who was denied licensure based on lack of experience and has requested an Administrative Hearing. Of these twenty complaints, seven were received from the licensing section, six from members of the public, one from a board member, and four from a state or federal agency.

Unlicensed activity cases opened under this new policy have an average duration of 5.1 months, in contrast to 15.7 months for the same type of cases opened prior to implementation of the new policy. This is a significant increase in efficiency.

Of the forty-seven investigative cases closed since the last review, thirty-two (68%) were determined to be unfounded. Most of the cases alleged unlicensed activity.

Of eighteen cases of unlicensed activity, eight resulted in a license action and ten were based on unfounded complaints. There were six cases alleging fraud or misrepresentation. Four of these were resolved with no violation and two ended in license action. Three cases were brought for negligence of which two were determined unfounded and one licensee complied with board directions.

Eight cases alleging incompetence resulted in determinations that no violation had occurred. Two cases were opened because an applicant had checked the box that he/she had a criminal conviction. Each of these cases was resolved with no violation. Three cases were for violation of professional ethics, and no license action was taken against any license.

Three cases concerning license application problems were investigated. One was determined to involve no violation, one resulted in license action and one respondent complied without license action. One case concerned a licensee who violated a Memorandum of Agreement and resulted in further license action. The final two cases involved falsified applications for licenses. The applicant withdrew one case, and the other received an Advisement Letter.

The board received no complaints against its activities.

Determine the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission, or agency to its own activities and the area of activity or interest.

We found no evidence that the board, by any of its actions, acted contrary to any state personnel practices or affirmative action requirements.

Determine the extent to which a board or commission that regulates entry into an occupation or profession has presented qualified applicants to serve the public.

The board has increased the amount of accounting education required to qualify for licensure to practice in Alaska. The board continues to require appropriate continuing education in order for a CPA license to be renewed. Each applicant for licensure is required to pass a national competency exam and to have appropriate experience prior to licensure.

Below is a summary of new licenses and permits issued by the board. The information was obtained from Annual Reports published by the board and verified with the licensing examiner.

New Permits Issued	FY 05	FY 06	FY 07	FY 08	Current Licenses
Certified Public Accountants	47	52	45	97	929
Resident Partnerships Corporations and Limited Liability Co.	2	5	2	8	84
Nonresident General Permits	9	18	16	21	57

Determine the extent to which statutory, regulatory, budgeting, or other changes are necessary to enable the agency, board, or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

The board is reviewing the concept of "mobility." Mobility would improve an accountant's ability to practice in many states and be subject to the laws of each state. Presently, if a problem arises with a CPA who is not licensed in Alaska, the board must work through the board of the state where that individual is licensed. If mobility were implemented as contemplated in Alaska, the Alaska board could directly enforce Alaska statutes and regulations on the CPA doing business in Alaska to ensure the public is protected. Increased mobility has the added advantage of making it easier for Alaskans to remain with chosen CPAs and still be assured they are regulated under Alaska rules.

The profession the board regulates changes in response to economic changes. The profession is complex and problems that arise can affect the economic well being of members of the public. In order to respond to this environment, the board is considering some structural

changes to insure that emerging issues in the accounting field will be properly researched and will improve the board's ability to be proactive in shaping the profession.

Determine the extent to which the board, commission, or agency has effectively attained its objectives and purposes and the efficiency with which the board, commission or agency has operated.

The board has been very effective in attaining its objectives. Statutory changes were instituted and regulations were adopted to coincide with the effective date of the legislation. The board identifies practical, achievable, objectives and proceeds efficiently to attain those objectives.

Determine the extent to which the board, commission, or agency duplicates the activities of another governmental agency or the private sector.

The board does not duplicate the activities of the private sector or another governmental agency. In fact, the board has endeavored to reduce workload by contracting the CPA exam applications process to a national, professional entity, NASBA. Currently, the board is reviewing the credentialing services offered by NASBA to see if contracting would 1) comply with Alaska law and, 2) provide a consistently more efficient method of licensure. The board would retain the authority to grant final approval of a license.

Juneau, AK 99811-3300

Dear Ms. Davidson:

This letter is in response to your December 1, 2008 confidential preliminary audit report on the Board of Public Accountancy.

Recommendation No. 1

Vacant Board of Public Accountancy (board) positions should be filled in accordance with AS 08.04.040.

The Office of the Governor concurs with this recommendation. I am pleased to report that the Governor recently selected the CPA/PA member for the board, however, and we are close to filling the remaining vacant public member. We find it challenging to find volunteers from the public who have an interest in specific licensing boards and the willingness to serve, but do not have inherent conflicts that would prevent them from serving. We will continue to make every effort to fill vacant positions in a timely manner.

If you need additional information, please contact me at 907-269-7450.

Sincerely,

Frank Bailey
Director
Boards and Commissions

Division of Legislative Audit
PO Box 113300
Juneau, Alaska 99811-3300

Dear Ms. Davidson:

Thank you for the opportunity to comment on the Preliminary audit report on the Alaska Board of Public Accountancy.

Recommendation No. 1: Vacant Board of Public Accountancy (board) positions should be filled in accordance with AS 08.04.040.

The department agrees with this recommendation.

Recommendation No. 2: The board, in concert with the Professional Licensing section, should review current and projected funding needs with the intent of reducing fees.

The department agrees with this recommendation and will be adjusting fees at the next licensing renewal period.

Recommendation No. 3: The Investigation Section should implement an effective case tracking system.

The department strongly supports this recommendation and has already taken steps to request funding through the State's Budget process to procure an effective Investigative case management tracking system. This tool will benefit all regulatory programs within the division.

In summary, we fully support your findings and recommendations; and that the Legislature extend the Board to June 30, 2013. Your audit report supports our belief that the Board is operating in the best interest of the public and in accordance with its statutory mandates.

P.O. Box 110800, Juneau, Alaska 99811-0800

RE: Board of Public Accountancy Response to 2008 Management Review

Dear Ms. Davidson:

Thank you for the opportunity to respond to the findings resulting from your review. The Board concurs with your recommendations with the following comments.

Recommendation No. 1

The landscape for the regulation of accountants has changed dramatically over the past seven to ten years. Some of the change has been driven by Congress, but much has been led by the National Association of State Boards of Accountancy, NASBA, which is an association of the fifty-five jurisdictions that make up the regulatory framework of accountants in the United States. The Alaska Board of Public Accountancy is one of those jurisdictions and a member of NASBA.

During this time, NASBA, working through its structure of over 30 standing committees, has made many significant and positive changes including substantial revision to the Uniform Accountancy Act, changes to the educational requirements for CPA candidates, changes to initial licensing experience requirements, computerization of the national CPA exam, and working to increase the mobility of CPA's across State lines, among others. Not all of these changes, however, necessarily make sense for Alaska. It is important for the Alaska Board of Accountancy to stay abreast of the changes so that those implemented here are appropriate. It is also important that we effectively participate in NASBA in order to have a voice in changes that affect the public in Alaska.

The Alaska Board has worked diligently over recent years to increase its presence at NASBA. Board vacancies that go unfilled for many months greatly hamper these efforts since there are fewer board members to carry on the work of the board. Alaska is also only one of about seven jurisdictions that do not have a full-time Executive Director to manage the affairs of the Board. Much of the ongoing dialogue between NASBA and the States occurs between Executive Directors. As such, it is even more important that the Alaska Board work to participate in NASBA through participation on committees and attendance at various NASBA meetings. Vacant board positions make this more difficult.

AN INDEPENDENT MEMBER OF BDO SEIDMAN ALLIANCE

Recommendation No. 2
The Board is very supportive of minimizing fees. Over the last two or three years has encouraged the Professional Licensing section to evaluate our fees in light of the Board's cumulative balance.

As alluded in your letter, the Alaska Board is working to determine whether a change to the Board's operating structure is needed in light of the changes in the regulatory environment for CPA's. The work includes evaluating how other boards in Alaska and other State's Accountancy Boards operate around the country. Any adjustment of licensing fees should consider the costs of potential changes to the Board's operating structure as those potential changes are identified.

NASBA and other countries are moving to international standards for both financial reporting and regulation of accountants. Proximity to Canada, Russia and Asia frequently impact the exam application and licensing of CPA's in Alaska. As internationalization continues to take shape over the next few years, it will be important for the Alaska Board to stay abreast of these changes. As such, it will be necessary for the Alaska Board to involve itself, through NASBA committees, travel to meetings on the topic or potentially engaging Department of Law or other experts to evaluate these changes to Alaska. Changes to fees should be made in this light as well.

Recommendation No. 3
The Board believes that turnover in the investigator assigned to the Board has reduced timeliness and effectiveness of investigations. Also, the investigators recently assigned to the Board appear to not have a background in accounting regulatory matters.

Recently, NASBA created a new Enforcement Practices Committee. This committee, to which Carla Bassler of the Alaska Board has been appointed, has a mission to evaluate and examine enforcement practices in the various boards and develop best practices relating to evaluation of the effectiveness of state boards' enforcement efforts. The Committee will also develop resource materials including expert witnesses for special areas and provide resources for advice and enforcement issues to state boards.

This committee is also evaluating the creation of a "Certified Regulatory Investigator" which will offer uniform training and continuing competency material for State accountancy investigators. I encourage the investigative section to familiarize itself with NASBA's efforts to determine whether this can benefit investigations in Alaska.

Thank you for your work on the review of the Board of Accountancy. Please let me know if there is anything further I can assist you with.

Sincerely,

Max E. Mertz, CPA
Chair, Alaska Board of Accountancy

ADD: $45,000 General Funds (1004)

EXPLANATION: The current head of the Northwest Alaska Career and Technical Center has been selected to this Education Specialist Position, which will oversee the education components of the gasline strategic training plan, including better training program and industry coordination, curriculum sharing, and articulation.

$85,000 of original request to be addressed in the supplemental bill.

OPERATING BUDGET AMENDMENT

O+G #7

Adopted

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN) / CSHB 83(FIN)

OFFERED BY: Representative Hawker

DEPARTMENT:	Law
APPROPRIATION:	BP Corrosion
ALLOCATION:	BP Corrosion
ADD:	$3,500,000 Inc OTI
FUNDING SOURCE:	General Funds - 1004

EXPLANATION:
The Department of Law (DOL) requests an appropriation for FY10 in the amount of $3.5 million to continue the pursuit of claims for penalties and lost revenues for the 2006 Prudhoe Bay pipeline spills and production shutdowns. DOL believes that it is unlikely that an agreement can be reached to resolve the claims and anticipates the need to file a court case later this year or risk certain claims being time barred; hence this request for an appropriation to fund the anticipated litigation in FY10.

Due to delays in obtaining documents and information from British Petroleum Exploration Alaska (BPXA), the investigation was only recently completed. Based upon information gathered to date, DOL anticipates making a recommendation to seek recovery of the state's revenue losses, as well as civil penalties and damages under the state's environmental statutes.

In March and August of 2006, crude oil leaked from Oil Transit Lines (OTLs) operated by BPXA at Prudhoe Bay. In its Plea Agreement with the United States executed in October 2007, BPXA acknowledged that it "acted negligently by failing to adequately inspect and clean the OTLs." The company is "required to operate the OTLs as a reasonable operator." BPXA "did not expend sufficient resources to address the complex issues of corrosion in the OTLs." "BPXA failed to clean the OTLs with a piece of equipment called a maintenance (or cleaning) pig and inspect the pipe for corrosion activity with a smart pig." These admissions are borne out by our investigation.

BPXA's documents substantiate that these failings resulted in shutdowns and reduced production of tens of millions of barrels of crude oil in 2006-08. The loss of revenue in royalties and taxes to the state for those years potentially amounts to hundreds of millions of dollars.
This is a complex matter with many documents. It is anticipated that the FY10 litigation activities will cost an additional $3.5 million for costs of counsel, document management, experts, and litigation costs. DOL anticipates the litigation will last at least three to four years and that appropriations will be needed in future years.

This issue is independent of gasline appropriations.

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN) / CSHB 83(FIN)

OFFERED BY: Representative Hawker

DEPARTMENT:	Law
APPROPRIATION:	Civil Division
ALLOCATION:	Oil, Gas and Mining
ADD:	$5,109,200 Inc OTI
FUNDING SOURCE:	General Funds - 1004

EXPLANATION:
The Department of Law's Oil, Gas and Mining section continues to play a major role in the State's top priority project related to the construction of a gas pipeline and bringing natural gas to market. In addition, the Department of Law has a number of other major projects underway that will continue to require outside counsel and experts beyond the funding included in the base operating budget. The most noteworthy are Pt. Thomson litigation, ongoing proceedings before the Federal Energy Regulatory Commission (FERC) on TransAlaska Pipeline Service (TAPS) tariffs issues; and two major corporate income tax matters.

This issue is independent of gasline appropriations.

O+G #9

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN) / CSHB 83(FIN)

OFFERED BY: Representative Hawker

DEPARTMENT:	Law
APPROPRIATION:	Civil Division
ALLOCATION:	Oil, Gas and Mining
ADD:	$1,900,000 Inc OTI
FUNDING SOURCE:	General Funds - 1004

EXPLANATION: The Department of Law is requesting $1,900.0 to cover preparation and other related costs associated with the TAPS Strategic Reconfiguration. The State is protesting imprudent capital expenditures on the TAPS Strategic Reconfiguration project that are included in rates from 2005 forward.

This issue is independent of gasline appropriations.

OFFERED BY: Hawker

DEPARTMENT:	Natural Resources
APPROPRIATION:	Oil and Gas Development

ADD:	Lapse Extension
	$ 2,224.3 General Funds
	$ 741.5 Perm Fund Rcpts

Adopted as amended

Amendment O&G 11

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Hawker

DEPARTMENT:	Natural Resources
APPROPRIATION:	Resource Development
ALLOCATION:	State Coordinator—Gas Pipeline

ADD: $3,200,00 General Fund (1004) Inc OTI
$391,700 General Fund

EXPLANATION: This amendment includes funding for three positions that will assist with the review and coordination of all state and federal permits and processes, to ensure that all state and federal environmental requirements have been completed, and assist with title work for natural gas transportation projects in Alaska, including AGIA implementation.

A $3.2 million FY2010 capital project request for this purpose will be deleted from the capital budget. An anticipated lapsing balance of $2.7 million GF of an operating appropriation for this purpose will be addressed as a supplemental request.

O+G #12

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Hawker

DEPARTMENT:	Natural Resources
APPROPRIATION:	Resource Development
ALLOCATION:	Pipeline Coordinator

ADD: $2,500,000 Statutory Designated Program Receipts (1108)

EXPLANATION: To fund work required for multi-agency coordination and review of AGIA, Denali, ANGDA and ENSTAR right-of-way pre-application work. Under AS 38.35, the pre-applicant, applicant or lessee is required to reimburse the State for these efforts. Authorization is needed to receive funds to do work for applicants.

O+G #14

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Hawker

DEPARTMENT:	Revenue
APPROPRIATION:	Administration and Support
ALLOCATION:	Natural Gas Commercialization

ADD: $771,000 General Funds (1004) Inc OTI

EXPLANATION: This funding is needed to respond in FY2010 to issues associated with the holding of open seasons in the fall of FY2010 by the major gas line projects. The administration has stated that when economic information becomes available, they will analyze the economics underpinning proposed major gas line projects prior to an open season and assess the need for changes in the state's fiscal system. The work will be on a tight time frame as any changes ideally should be in place prior to or during the open season and will require the assistance of contractors. The need for economic evaluations is critical in moving gas line projects along as quickly as possible. DOR has the ability to contract with the appropriate financial institutions to facilitate the evaluations. This funding has typically been managed through the Commissioner's Office appropriation.

OPERATING BUDGET AMENDMENT

Withdrawn

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representative Gara

DEPARTMENT: Health and Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: Behavioral Health Grants

ADD: $210,000 General Fund/Mental Health (1037)

ADD INTENT: It is the intent of the legislature that at least $210,000 be expended to serve individuals on waiting lists for Heroin addiction treatment at facilities that have a waiting list. The funding is to be utilized in addition to any other behavioral health grants that a heroin addiction treatment facility may qualify for, and it shall not prevent such a facility from qualifying for any additional behavioral health grant funds.

EXPLANATION: The funding is intended to expand the capacity of Heroin treatment facilities for individuals that are on a waiting list. This supplemental funding is to be targeted to Heroin addiction treatment facilities that have a waiting list and not prevent those facilities from qualifying for other behavioral health grant funds.

NDTC INC.

NARCOTIC DRUG TREATMENT CENTER, INC.

CENTER FOR DRUG PROBLEMS

CHEMICAL SCREENING PROJECT • S.T.O.P. AIDS PROJECT

March 10, 2009

Representative Les Gara
State Capitol
Juneau, Alaska 99801-1182

Dear Representative Gara,

Narcotic Drug Treatment Center Inc. is submitting the following information regarding the on-going heroin addiction problem in the state of Alaska.

Narcotic Drug Treatment Center is an out-patient methadone clinic that is currently funded to provide 75 treatment slots for opioid addiction in the Anchorage Bowl.

As you are aware, seizures of heroin by the state troopers has increased from 113.3 grams in 2004 to 4,970.18 grams in 2008. The waiting list and demand for treatment at NDTC, Inc. has increased due to the drastic influx of heroin into the community.

Currently we are operating beyond capacity and are only able to admit pregnant women. During the last quarter we admitted 11 pregnant women on demand, and average 8 pregnant women in treatment at all times.

With an additional $120,000 of state funds we will be able to increase treatment slots to provide services for 100 patients. This would allow us to continue to provide treatment on demand to pregnant women and clear our waiting list, allowing all individuals access to treatment on demand for opioid dependency in Anchorage and the Mat-Su Valley.

Any assistance you can give in helping us treat this threat to public health and safety would be appreciated. Please contact me at your convenience if you need further information or assistance.

Sincerely,

Cynthia Aiken, MS,LPA,DAPA,FAPA,MAC

www.interioraids.org

March 10, 2009

Representative Les Gara
State Capitol
Juneau, Alaska 99801-1182

Dear Representative Gara,

Project Special Delivery, a methadone program sponsored by the Interior AIDS Association, is the only substance abuse treatment program in the Interior that focuses solely on opiate addiction, including the growing problem with heroin in our region.

Project Special Delivery receives state grant funding and is approved for 29 outpatient treatment slots to serve the Fairbanks area.

During the last few months, we have received more applications from individuals citing Heroin as their primary drug of abuse than during the past seven years. Currently, we have 12 applications in process, and we receive calls frequently asking about the availability of services. For most, when they find out that it may be six months before they get into the program, they do not even follow through to fill out an application.

With an additional $90,000 of state funds we would be able to increase available treatment slots to provide services to 49 individuals. This would provide services to all current applicants and open the window of opportunity for those who have given up hope of getting treatment in Fairbanks. The number of heroin users who reach the point where they seek treatment will only increase as heroin becomes more available.

We certainly appreciate your consideration. We have grown accustomed to turning people away – and that is never a good place to be when your mission is to help people get their lives back.

If I can provide any further information, please do not hesitate to ask.

Sincerely,

Anna Nelson
Executive Director

OPERATING BUDGET AMENDMENT

OFFERED IN: House Finance Committee

TO: CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representative Les Gara

DEPARTMENT: Department of Labor and Workforce Development
APPROPRIATION: Division of Vocational Rehabilitation
ALLOCATION: Independent Living

ADD: $70.0 General Funds (1004)

EXPLANATION:
Outreach to Visually-Impaired in Rural Communities

This increment would allow The Center for the Blind and Visually Impaired to reach out to provide life skill and services to visually impaired Alaskans in those small communities, where no or few services are offered. The Increment was recommended by the Division and not forwarded to the Legislature by the Governor.

Statewide, Community-Based

Vision Rehabilitation Outreach & Services

Request: $70,000 incremental increase to current grant to the Alaska Center for the Blind & Visually Impaired (for a total of $125,000) – ***Division of Vocational Rehabilitation, DOLWD***

Purpose:

- take vision rehabilitation to communities statewide
- identify people with visual disabilities whose needs are not being met
- increase safety, employability, and quality of life for Alaskans with visual disabilities

Need: Without vision rehabilitation, people may experience poverty due to unemployment, nursing home admission or death because of falls or fires, health complications from not being able to read medicine labels, and depression. The need is growing as the number of older Alaskans and the rate of diabetes both increase.

The grant focuses on the 60% of 10,000 visually disabled Alaskans who live outside of Anchorage. In addition to the Center's current 250 clients, ***this grant, when expanded, could serve over 100 more people each year.***

Home visit in Cordova... learning how to use a special lighted magnifier

Who benefits?

People like the 90-year-old gentlemen with advanced macular degeneration living alone in a rural village, population 410. He's still building an addition on his cabin and wants to stay safe and connected.

Because of this grant, he has had a low vision assessment and knows which specialized magnifiers will help him get the most out of his remaining vision. He uses new fire safety measures in his kitchen, can label staple food supplies and choose the right one by touch, and uses tactile aids to dial his phone accurately.

He knows an Alaska Center for the Blind & Visually Impaired vision rehabilitation professional will teach him to walk with a white cane if his eyesight deteriorates further – and he plans to order a talking tape measure to continue his building project!

Saves money in tough times:

This grant finds people who don't know that it's possible to learn new skills to get and keep a job. It allows loved ones to work because their family member is independent and safe. Vision rehabilitation and low vision services save the medical costs of falls, accidents, and medication mistakes.

Alaska Center
FOR THE BLIND AND VISUALLY IMPAIRED

adopted #1

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Hawker

Part A—Technical Correction (duplicated transaction)

DEPARTMENT: Health and Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: Behavioral Health Grants

DELETE: $75,000 Mental Health Trust Authority Authorized Receipts (1092)
DELETE: $75,000 General Fund/Mental Health (1037)

EXPLANATION: This amendment removes subcommittee transactions that duplicated Governor's transactions. Governor's transactions accomplishing the same purpose will be retained.

Part B—Technical Correction (duplicated transaction)

DEPARTMENT: Natural Resources
APPROPRIATION: Resource Development
ALLOCATION: Claims, Permits & Leases

DELETE: One Permanent Full-Time Position (PFT)

Line Item Transfer:

ADD:	$42,100	Contractual
DELETE:	$37,600	Personal Services
	$3,300	Travel
	$1,200	Commodities

EXPLANATION: This amendment reverses one of two similar transactions that duplicated the House Finance Budget Subcommittee's intent.

3483

Part C—Correction (omitted transaction)

DEPARTMENT: Fish and Game
APPROPRIATION: Wildlife Conservation
ALLOCATION: Wildlife Conservation

ADD: $150,000 Federal Receipts (1002)

DELETE: $150,000 Fish and Game Fund (1024)

EXPLANATION: This amendment adds a fund source change transaction that was inadvertently omitted from the committee substitute bill.

Part D—Correction (unnecessary wordage)

DEPARTMENT: Commerce, Community and Economic Development
APPROPRIATION: Alaska Aerospace Development Corporation
ALLOCATION: Alaska Aerospace Development Corporation

DELETE: Intent Wordage sec.1, page 6, line 23.

It is the intent of the legislature that the Alaska Aerospace Development Corporation fully pay its portion of the DOA and DCCED cost allocation plans.

EXPLANATION: This amendment removes FY09 intent language that is no longer necessary. AADC complied with the intent in FY09 and intends to do so in the future.

Part E—Correction (position adjustment)

DEPARTMENT: Natural Resources
APPROPRIATION: Resource Development
ALLOCATION: Petroleum Systems Integrity Office

ADD: Four Permanent Full-Time Positions (PFT)

EXPLANATION: This amendment restores four PFT positions that were inadvertently deleted during subcommittee close out.

Part F—Correction (overlooked Governor's language)

Amend language section 10 (Department of Commerce, Community, and Economic Development) by adding two new subsections:

f) If the amount necessary to make national forest receipts payments exceeds the amount appropriated in sec. 1 of this Act, the amount necessary is appropriated from federal receipts to the Department of Commerce, Community, and Economic Development, national forest receipts, for the fiscal year ending June 30, 2010.

g) If the amount necessary to make payment in lieu of taxes (PILT) payments exceeds the amount appropriated in sec. 1 of this Act, the amount necessary is appropriated from federal receipts to the Department of Commerce, Community and Economic Development, payment in lieu of taxes (PILT), for the fiscal year ending June 30, 2010.

Explanation: The new sections allow the department to pass federal receipts to eligible recipients and communities without going through the Legislative Budget and Audit review process.

These two subsections were requested by the Governor but were omitted from the Committee Substitute for House Bill 81 (FIN).

Part G—Correction (overlooked Governor's language)

Amend language section 11 (Department of Labor and Workforce Development) by adding a new subsection:

(d) If the amount of designated program receipts received under AS 43.20.014(a)(3) and deposited in the vocational education account (AS 37.10.200) during the fiscal year ending June 30, 2010 exceeds the amount appropriated in sec. 1 of this Act for purposes described in AS 37.10.200, the additional designated program receipts are appropriated to the Department of Labor and Workforce Development, Alaska Vocational Technical Center, for the fiscal year ending June 30, 2010.

Explanation: The language section (d) allows the department to spend any Statutory Designated Program Receipts (SDPR) they receive for vocational education purposes in FY2010.

Part H—Correction (drafting errors)

Amend section 25:

(c) The sum of **$30,248,000** [30,455,300] is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2010.

(e) The sum of **$10,275,000** [10,067,700] is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2010.

(n) The sum of **$22,917,325** [22,917,300] is appropriated from the general fund to the Department of Administration for the fiscal year ending June 30, 2010, for payment of obligations and fees for the following facilities:

FACILITY	ALLOCATION
(1) Anchorage Jail	$5,103,900
(2) Goose Creek Correctional Center	**17,813,425** [17,813,400]

Explanation: This amendment will correct the amounts necessary for state debt and other obligations in sec. 25 (c), 25(e), 25(n) of the House CS for CSHB 81(FIN).

Amend section 20(q)

The sum of $459,200 is appropriated from the **permanent fund dividend (PFD) in lieu of dividends to criminals account within the dividend fund (AS 43.23.045(a))** [general fund] to the crime victim compensation fund (AS 18.67.162).

Explanation: Restores language requested by the Governor.

adopted

#2

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representatives Thomas and Hawker

Part A—Fund Source Change

DEPARTMENT: Administration

APPROPRIATION: Centralized Administrative Services
ALLOCATION: Personnel

FUND CHANGE: $472,200 General Fund (1004)
($472,200) Interagency Receipts Fund (1007)

APPROPRIATION: Enterprise Technology Services
ALLOCATION: Enterprise Technology Services

FUND CHANGE: $415,900 General Fund (1004)
($415,900) Interagency Receipts Fund (1007)

EXPLANATION: Part A of this amendment pays bargaining unit agreement costs with GF in order to avoid an increase in chargeback rates paid by agencies. This action was requested by the Governor, but denied by subcommittee pending receipt of information pertaining to recovery of non-general funds. The fund source information requested by the subcommittee is part B of this amendment.

Part B—Cost Recovery of Non-general Funds

APPROPRIATION:		Centralized Administrative Services
ALLOCATION:		Personnel
ADD:	$37,200	Federal Receipts (1002)
	$6,300	Interagency Receipts (1007)
	$1,100	Commercial Fishing Loan Fund (1036)
	$100	Fisheries Enhancement Revolving Loan Fund (1070)
	$1,200	Alaska Industrial Development & Export Authority Receipts (1102)
	$1,900	Regulatory Commission of Alaska Receipts (1141)
	$7,600	Receipt Supported Services (1156)
	$800	Business License & Corporation Filing Fees and Taxes (1175)
	$2,800	Permanent Fund Dividend Fund (1050)
	$400	Permanent Fund Corporation Receipts (1105)
	$100	Statutory Designated Program Receipts (1108)
	$2,500	Workers Safety and Compensation Administration Account (1157)
	$100	Second Injury Fund Reserve Account (1031)
	$100	Fishermen's Fund (1032)
	$600	Building Safety Account (1172)
	$1,000	Group Health and Life Benefits Fund (1017)
	$1,200	Public Employees Retirement Trust Fund (1029)
	$500	Teachers Retirement Trust Fund (1034)
	$900	Alaska Oil & Gas Conservation Commission Receipts (1162)
DELETE:	$66,400	General Fund (1004)
APPROPRIATION:		Enterprise Technology Services
ALLOCATION:		Enterprise Technology Services
ADD:	$58,500	Federal Receipts (1002)
	$4,200	Interagency Receipts (1007)
	$700	Commercial Fishing Loan Fund (1036)
	$100	Fisheries Enhancement Revolving Loan Fund (1070)
	$800	Alaska Industrial Development & Export Authority Receipts (1102)
	$1,200	Regulatory Commission of Alaska Receipts (1141)
	$14,600	Receipt Supported Services (1156)
	$500	Business License & Corporation Filing Fees and Taxes (1175)

	$8,400	Permanent Fund Dividend Fund (1050)
	$200	Permanent Fund Corporation Receipts (1105)
	$100	Statutory Designated Program Receipts (1108)
	$1,500	Workers Safety and Compensation Administration Account (1157)
	$400	Building Safety Account (1172)
	$1,800	Group Health and Life Benefits Fund (1017)
	$2,200	Public Employees Retirement Trust Fund (1029)
	$900	Teachers Retirement Trust Fund (1034)
	$1,100	Alaska Oil & Gas Conservation Commission Receipts (1162)
DELETE:	$97,200	General Fund (1004)

EXPLANATION: The Department of Administration charges other agencies for personnel and enterprise technology services. In order to minimize FY2010 rate increases, the Governor requested an addition of general funds to DOA. This action causes the general fund to bear the full burden of cost increases. Part B of this amendment replaces general funds with a variety of other funds. These non-general funds (along with the remaining general funds in increments for this purpose) will be distributed to agencies and recovered through rate increases. The impact is to shift $163,600 of costs from general funds to other funds.

Part C—Add Wordage

APPROPRIATION: Centralized Administrative Services
ALLOCATION: Personnel

ADD: The money appropriated by this appropriation may be distributed to state departments and agencies in order to pay service costs charged by the Department of Administration for centralized personnel services.

APPROPRIATION: Enterprise Technology Services
ALLOCATION: Enterprise Technology Services

ADD: The money appropriated by this appropriation may be distributed to state departments and agencies in order to pay service costs charged by the Department of Administration for enterprise technology services.

EXPLANATION: Part C allows funding appropriated in parts A and B to be distributed to various agencies to offset chargeback rate increases.

adopted

OPERATING BUDGET AMENDMENT

#3

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Austerman and Hawker

DEPARTMENT: Commerce, Community and Economic Development
APPROPRIATION: Community Assistance & Economic Development
ALLOCATION: Community and Regional Affairs

ADD: $1,571,300 General Fund (1004)

EXPLANATION: Governor's 2008 legislation cut business license fees in half, reducing state revenue by about $3.2 million and leaving insufficient business license revenue to pay for program costs. The Governor requested replacement of $1,971.3 business license receipts with GF in Community and Regional Affairs. The subcommittee added 400.0 in business license receipts, which left the program with a 1,571.3 reduction in funding. This amendment restores program funding to the level requested by the Governor.

adopted

OPERATING BUDGET AMENDMENT

#4

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Austerman and Hawker

DEPARTMENT: Commerce, Community and Economic Development
APPROPRIATION: Alaska Energy Authority
ALLOCATION: Alaska Energy Authority Power Cost Equalization

DELETE: $4,000,000 PCE Fund (1089)

EXPLANATION: The Committee Substitute bill bypasses the PCE fund and appropriates money directly to the PCE program. The appropriation of $4 million from the fund is unnecessary because an open-ended appropriation of GF to the PCE program for FY09 will leave the PCE fund with a zero balance at the end of FY09. Removing this "hollow authorization" will have no programmatic impact; the PCE program is fully funded in FY2010 with an open-ended GF appropriation.

Adopted

Amendment 5B

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representative Thomas and Hawker

DEPARTMENT: Department of Commerce, Community & Economic Development

ADD: It is the intent of the legislature that any marketing entities that receive state funding shall to the maximum extent practicable coordinate their efforts when implementing their marketing strategies. This shall include, but is not limited to, fishing, tourism, and agriculture.

EXPLANATION:
It is economical to ask that the entities who receive state funding should work together when marketing Alaska and Alaskan products.

Amendment 5A

OPERATING BUDGET AMENDMENT

withdrawn

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representative Thomas and Hawker

DEPARTMENT: Department of Commerce, Community & Economic Development

ADD: It is the intent of the legislature that any marketing entities that receive state funding shall not engage in any lobbying efforts of any kind.

EXPLANATION:
It is inappropriate for entities who receive general fund money from the state to engage in lobbying activities.

Adopted

OPERATING BUDGET AMENDMENT

#6

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Joule and Hawker

DEPARTMENT: Health and Social Services
APPROPRIATION: Juvenile Justice
ALLOCATION: Probation Services

ADD: $225,000 General Fund (1004)

EXPLANATION: This amendment provides base funding for guard hires for escorts, travel for juveniles who are not Medicaid-eligible, psychiatric evaluations that are not Medicaid-eligible and other various court-ordered costs. The funding applies to youth either in division custody or under court order to receive specified services.

In recent years, the legislature has directed the department to include these costs as supplemental request. This amendment will reduce or eliminate the need for supplemental funding.

#7

adopted 8-3

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representatives Hawker and Joule

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Public Health
ALLOCATION:	Chronic Disease Prevention and Health Promotion

DELETE: $923,100 General Fund (1004)

EXPLANATION:

This amendment deletes funding for the establishment of a new childhood obesity prevention program. The program as proposed appears to be an investment in data collection and analysis, with very little funding being used to address the core issues of the problem. As childhood obesity is a concern, further consideration should be given to working together with the Anchorage School District in expanding their very successful model to other school districts.

The very gradual inclusion of school districts into the program is of concern, as is the limited use of these resources to assist the school districts and communities in directly addressing this issue.

Long range cost projects for this program are projected to be over $16 million.

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Hawker by request of Governor

DEPARTMENT: Law
APPROPRIATION: Criminal Division
ALLOCATION: See below

Department	Appropriation/Allocation	Description	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
Law **Item #1**	Second Judicial District	See attached IncOTI		90.0			90.0
Law **Item #2**	Fourth Judicial District	See attached IncOTI		285.0			285.0
Law **Item #3**	Criminal Appeals/Special Litigation	See attached IncOTI		271.6			271.6
Total			**$ -**	**$ 646.6**	**$ -**		**$ 646.6**

EXPLANATION: This amendment moves Governor's requests for lapse extensions from the supplemental bill to the operating bill. In an effort to ensure that all money that will be available for agency expenditure is reviewed in conjunction with regular operating requests, this amendment puts the Department of Law's Federal lapse extensions before the full finance committee for consideration as FY2010 increments. Please see the following pages for details provided by OMB.

Change Record Detail with Description

Department of Law

Scenario: FY2010 Governor Amended (7328)
Component: Second Judicial District (2199)
RDU: Criminal Division (33)
Title: AMD: Sexual Assault/Domestic Violence Federal Earmark

Trans Type	Totals	Personal	Tr	Ser	Comm	Capital	Grant	Positions Misc.	PFT	PPT	NP
IncOTI	90.0	48.0	5.0	28.0	3.0	6.0	0.0	0.0	0	0	0

1002 Fed Rcpts 90.0

Per sec. 27(d), ch. 11, SLA 2008, page 104, line 24, the appropriation made for implementation of the United States Department of Justice grant to stop violence against women lapses June 30, 2009. It is estimated that approximately $90,000 will lapse.

Appropriating the estimated balance from the FY09 appropriation in FY10 will enable the department to continue to fund additional attorneys and paralegals in Bethel, Barrow and Anchorage to aid in the prosecution of domestic violence as well as adult and child sexual assault cases.

#9

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representatives Hawker and Kelly

DEPARTMENT: Department of Natural Resources
APPROPRIATION: Parks and Recreation Management
ALLOCATION: Parks Management

ADD: $138,500 general fund (fund code 1004)

EXPLANATION:

Since 1997 the State Parks in the Prince William Sound area have been managed by volunteer organizations. Despite their enormous and admirable efforts, these organizations can no longer afford to continue losing money and are giving up on their efforts to manage the State Parks at places like the Worthington Glacier (which receives over 40,000 visits annually). Alaska State Parks has no permanent Parks presence in Valdez or the Prince William Sound. The nearest office is located in Soldotna, and rarely ever does a district ranger visit the entire Prince William Sound or Valdez area.

These parks are beautiful and are heavily used by Alaskan residents and tourists. Unless a Valdez State Park Ranger position is established, at least one state park – Worthington Glacier – is almost certain to be closed this coming summer. Additional parks in the area are likely to also close since volunteer organizations currently operating the parks can not continue to lose money.

The addition of a Park Ranger position in Valdez would vitalize volunteer efforts by allowing the parks to remain open. This new position would oversee maintenance and upkeep of 14 state marine parks in Prince William Sound.

The Valdez Area State Parks Citizens Advisory Board has prioritized this request as their number 1 issue and has expressed the critical nature of the situation to me directly. A survey conducted last summer indicates that visitors spend $12.2 million annually to enjoy PWS state parks, which results in 103 local jobs.

Here is breakdown of the budget request:

Park Ranger (Range 16A – 12 months)	$71,200
Vehicles: Ranger (4WD pickup truck) & Fuel ACC/volunteer (surplus truck) & Fuel	$7,500
Park Maintenance & Janitorial Supplies	$6,500
Toilet Pumping (Worthington & Blueberry Lake)	$900
Garbage Removal (Worthington & Blueberry Lake)	$5,900
Travel & Per Diem for Park Maintenance in PWS	$8,000
Boat Maintenance, Harbor Slip, Operation	$4,500
Volunteer Support	$2,000
Alaska Conservation Corps (4 months)	$10,000
Office/Shop Rental & Utilities	$12,000
Road Maintenance: Annual Grading and Snow Removal at Blueberry Lake & Worthington Glacier	$10,000
TOTAL	**$138,500**

adopted

Amendment 10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough, Stoltze, Hawker, Gara, Crawford, and Salmon

DEPARTMENT:	Public Safety
APPROPRIATION:	Council on Domestic Violence and Sexual Assault
ALLOCATION:	Council on Domestic Violence and Sexual Assault

ADD: $500,000 PFD Criminal Funds (1171)

EXPLANATION: This amendment brings the FY2010 budget for the Council on Domestic Violence closer to the FY2010 Governor's request. The Governor requested an increase of $1,677.9. The Committee Substitute bill includes an increase of $296.0. Due to extraordinarily high PFDs, the amount of available PFD criminal funds is sufficient to fund this amendment.

#10 back-up

#11

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Foster and Hawker

DEPARTMENT:	Transportation and Public Facilities
APPROPRIATION:	Marine Highway System
ALLOCATION:	Marine Vessel Operations

ADD: $4,617,600 Marine Highway Fund (1076)

ADD: New subsections to section 20 (fund capitalization)

(t) The sum of $5,000,000 is appropriated from the general fund to the Alaska marine highway system fund (AS 19.65.060(a)).

(u) The unexpended and unobligated balance of the appropriation made in sec. 19 (d) (1), ch. 27, SLA 2008 to the Department of Transportation & Public Facilities is reappropriated to the Alaska marine highway system fund (AS 19.65.060(a)). *(Effective date June 30, 2009)*

EXPLANATION: The addition of $4.6 million to the FY2010 base budget will allow the AMHS to continue the schedule covering operations through September 2009. However, in combination with subcommittee actions, the additional expenditures authorized by this amendment leave the marine highway fund with a projected year-end FY2010 deficit in excess of $4 million.

New section (t) eliminates the projected deficit. New section (u) reappropriates available FY09 fuel trigger funding (estimated to be $9.2 million) to the marine highway fund, allowing the fund to fulfill its role as a stabilizing force.

Language (in section 19 of the committee substitute bill) allowing expenditures of marine highway program receipts in excess of the appropriations made in the operating budget (subject to LB&A Committee review) permits the Department to spend additional marine highway funds through the RPL process.

adopted

OPERATING BUDGET AMENDMENT

#12

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Thomas and Hawker

DEPARTMENT:	Transportation and Public Facilities
APPROPRIATION:	Marine Highway System
ALLOCATION:	Marine Vessel Operations

ADD INTENT:

It is the intent of the legislature that money allocated for the Marine Transportation Advisory Board not be spent for any other purpose.

adopted #13

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough and Hawker

DEPARTMENT: University of Alaska
APPROPRIATION: University of Alaska
ALLOCATION: Systemwide Education and Outreach

TRIN: $1,253,000 Total and 9 PFT positions
$922,600 General Fund (1004)
$320,400 Univ Rcpts (1048)
$ 10,000 UA Interagency Rcpts (1174)

APPROPRIATION: University of Alaska
ALLOCATION: Kenai Peninsula College

TROUT: $1,253,000 Total with 9 PFT positions
$922,600 General Fund (1004)
$320,400 Univ Rcpts (1048)
$ 10,000 UA Interagency Rcpts (1174)

EXPLANATION: This amendment accepts a pair of transactions proposed in the Governor's budget which transfers the Mining and Petroleum Training Services (MAPTS) from Kenai Peninsula College to Systemwide Education and Outreach.

adopted

#14

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough and Hawker

DEPARTMENT:	University of Alaska
APPROPRIATION:	University of Alaska
ALLOCATION:	Small Business Development Center

ADD:	$550,000 General Fund (1004)
DELETE:	$550,000 Business License Receipts (1175)

EXPLANATION: Replaces business license receipts with general funds as requested by the Governor. Governor's legislation cut business license fees in half, leaving insufficient revenue to pay for program costs.

Adopted #15

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough and Hawker

DEPARTMENT: University of Alaska
APPROPRIATION: University of Alaska
ALLOCATION: Anchorage Campus

ADD: $500,000 General Fund (1004)

EXPLANATION: This amendment funds the operating and maintenance costs necessary to open the new Integrated Sciences Building (ISB) in the fall of 2009. Completion of the 120,000 square foot facility will approximately double the amount of space devoted to science instruction and research programs.

Failed
8-3 #16

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Commerce, Community, and Economic Development
APPROPRIATION: Alaska Energy Authority
ALLOCATION: Statewide Project Development, Alternative Energy and Efficiency

ADD: $360,300 General Funds (1004)
Support for Energy Planning- $150.0
Funding for AEA Executive Director- $210.3

DELETE: n/a

EXPLANATION: This restores funding recommended in the Governor's Amended budget for senior staff in the AEA office including the executive director.

AEA staff are charged with statewide energy planning, preparing for the governor's transition to a 50% renewable grid by 2025, and reviewing and recommending projects for the Renewable Energy Grant Fund.

The change made by the subcommittee reflects more than a 30% reduction to the governor's requested budget. In the FY09 budget, these functions were funded in part through a fund transfer from the Governor's Executive Operations budget.

OPERATING BUDGET AMENDMENT

OFFERED IN: **The House Finance Committee**

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Commerce, Community, and Economic Development
APPROPRIATION: Community Assistance & Economic Development
ALLOCATION: Community and Regional Affairs

ADD: $1,971,300 General Funds (1004)

DELETE: $400,000 BLicC (1175)

EXPLANATION: This replaces business license receipts resulting from a decrease in the annual cost of a business license. The anticipated revenues are $1,971,300 less than FY09, which were requested as GF in the Governor's budget. The subcommittee approved adding $400,000 of BLicC (business license receipts). However, it appears that most of the $400,000 BLicC may not be available at the end of FY09, so really the entire $1,971,300 is necessary to keep the agency flat-funded.

Without this increment, the division is facing a 20% cut from the FY09 budget. Community and Regional Affairs is the only constitutionally-mandated state agency:

> **Art. 10, Sec 14 Local Government Agency** An agency shall be established by law in the executive branch of the state government to advise and assist local governments. It shall review their activities, collect and publish local government information, and perform other duties prescribed by law.

This agency should not be forced to absorb such a large budget cut due to a tax reduction not related to the agency.

failed 3-7

#18

OPERATING BUDGET AMENDMENT

OFFERED IN:	**The House Finance Committee**
TO:	CSHB 81(FIN)
OFFERED BY:	Rep. Crawford
DEPARTMENT:	Fish and Game
APPROPRIATION:	Division of Wildlife Conservation
ALLOCATION:	Wildlife Conservation

ADD: $200,100 General Funds (1004)

Wildlife Biologist II (PCN 11-2218; range 16)	*$74.3*
F&W Technician 3 (range 11)	*$40.8*
Travel, signage, small equipment, trail maintenance, supplies	*$85.0*

DELETE: n/a

EXPLANATION: Several constituent groups and organizations have concerns about inadequate funding for the management of wildlife refuges in Southcentral Alaska and the problem it is creating. This is an area-wide issue that primarily affects Anchorage, Mat-Su and Kenai.

There are 25 wildlife refuges in Southcentral, covering 2.5 million acres of land. Thirteen of these refuges, with nearly a million acres, are found in the Anchorage, Mat-Su, and Kenai areas alone. The budget for managing these 25 refuges, which span from Yakutat to Dillingham, is $15,000. This level of funding has created a number of public safety issues and habitat degradation in those refuges closest to population centers.

People are using the refuges as a place to dump cars, appliances, and trash. There is a substantial amount of illegal target shooting, illegal tree cutting, and in some cases illegal cabins are being built on public lands.

The division has had a vacant Refuge Manager position for the last four years. This is a Palmer-based wildlife biologist PCN. Filling this position and adding a seasonal Fish and Wildlife Technician 3 would help solve the public safety issues outlined above. In addition, increasing the current $15,000 management budget by $85,000 to a total of $100,000 would enable the division to effectively manage this resource and make the refuges safer and more accessible for Southcentral families.

OPERATING BUDGET AMENDMENT

OFFERED IN: **The House Finance Committee**

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Health and Social Services
APPROPRIATION: Public Assistance
ALLOCATION: Child Care Benefits

ADD: $1,500,000 General Funds (1004)

DELETE: n/a

EXPLANATION: This replaces the balance of an increment requested by the governor to increase the reimbursement rate based upon recommendations from a 2007 statewide provider survey.

Currently, parents eligible for child care assistance are capped at the median price for their city or region. This creates problems for both parents and providers. Parents who are eligible for the benefit are forced into accepting possibly lower-quality care for their children because they are not able to afford better care. If they cannot find such care, they must enroll their child in care that costs more than the benefit they are entitled to, which often places a heavy burden on the family as they choose between paying the rent, for their groceries, or for child care.

For many providers, the maximum child care benefit often becomes the de facto amount they charge. Even though it does not cover their costs, providers know that all they will collect from parents is how much the state will pay, so that is how they set their prices.

An increment proposed by the governor was calculated to increase the maximum payment to the 75th percentile of cost within the range of local child care providers. The current CS includes half the governor's request, raising the reimbursement level to approximately the 63rd percentile.

failed 3-6
#20

OPERATING BUDGET AMENDMENT

OFFERED IN: **The House Finance Committee**

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Department of Labor and Workforce Development
APPROPRIATION: Workers' Compensation and Safety
ALLOCATION: Wage and Hour Administration

ADD: $150,000 *General Fund $75.0 (1004)*
Workers Safety $75.0 (1157),

DELETE: n/a

EXPLANATION: This increment is to fund two investigators in the Wage and Hour Agency. The investigators will perform Title 36 and workers' compensation classification fraud investigations. The positions will also assist in child labor, uninsured employer and other necessary wage and hour and workers' compensation investigations.

OFFERED IN:	**The House Finance Committee**	
TO:	CSHB 81(FIN)	
OFFERED BY:	Rep. Crawford	
DEPARTMENT:	Revenue	
APPROPRIATION:	Administration and Support	
ALLOCATION:	Commissioner's Office	
ADD:	$119,000	*General Fund $46.4 (1004)* *I/A Receipts $72.6 (1007)*
DELETE:	n/a	

EXPLANATION: This reverses a decrement made by the budget subcommittee, and restores a Special Assistant position in the commissioner's office.

The position in question is an essential liaison between the Department and the legislature for oil and gas issues. He is also a well regarded researcher and aide who helps maximize the efficiency and effectiveness of the commissioner and deputy commissioner in his department.

The 2010 legislative session will face several significant issues and it would benefit the state to have this person continue in his position.

Totals	**$1,071,700**	*$922,000 Gen Fund (1004)*
		$149,700 Univ Rcpt (1048)

EXPLANATION:
This amendment restores Priority Program Enhancement and Growth Increments for Health Academic Programs to the funding level supported by the Governor.
Program requests will support UA's next step in building strong health occupation training programs. UA has accomplished significant results in health instructional programs; however, the state needs and opportunities in this area are monumental and require this as well as future state investments.

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN)

OFFERED BY: Representative Crawford

DEPARTMENT: University of Alaska
APPROPRIATION: University of Alaska
ALLOCATION: Tanana Valley Campus

ADD: $162,900 *$98,600 General Funds (1004)*
$64,300 Univ Rcpt (1048)

EXPLANATION:
Law Enforcement Academy Base Funding
This request provides base funding for the Tanana Valley Campus (TVC) Law Enforcement Academy. The academy conducts basic police training for Interior Alaska, rural municipalities, and employers of security personnel. The training consists of students who are both current recruit employees of a law enforcement academy as well as students who are considering a career in law enforcement. All students in the program will be seeking Alaska Police Standards Certification, which will make them eligible for employment with any of the approximately 21 State Enforcement Agencies, or the 43 municipal police departments within the State of Alaska. In addition to these agencies, many private security companies give enhanced consideration to hiring a candidate who possesses an Alaska Police Standards Council certificate. Approval of Law Enforcement as a new "occupational endorsement" at UAF is anticipated, recognizing the value to students of completing this academy and securing Alaska Police Standards certification.

#25

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Rep. Gara

DEPARTMENT:	Education and Early Development
APPROPRIATION:	Teaching and Learning Support
ALLOCATION:	Early Learning Coordination

ADD: $1,200,000, 1004 Gen Fund, (Increase Head Start Grant program Funding).

EXPLANATION: The amendment is intended to increase the current Head Start Grant Program Funding increment from $800,000.00 to $2,000,000. Head Start anticipates with a funding increase to $2,000,000 they could serve 200 more children. Head Start estimates that 7,727 eligible children do not participate in the program and there is currently a 900-1,000 child waitlist.

ALASKA HEAD START ASSOCIATION
Critical Issues
2009

#25 backup

- **INCREASE STATE OF ALASKA INVESTMENT IN HEAD START BY $2,000,000**

During the summer of 2008 the Alaska Head Start Association worked to put together a comprehensive two-year Head Start expansion plan to present to the Department of Education and Early Development. This plan called for $1.8 million in new funding from the state of Alaska to serve approximately 200 new children in the upcoming fiscal year, and for $200,000 to assist grantees to maintain existing slots that would otherwise be eliminated due to increased operating costs. While AHSA supports and appreciates the Governor's proposal for a Head Start expansion of $800,000, this amount will only allow grantees to serve 60-80 new children. In addition, programs across the state have struggled to maintain the same quality and quantity of services available because appropriations have failed to keep pace with rising costs. Since 2003, Alaska Head Start programs have eliminated services to 361 children, closed services in six communities, reduced classroom hours, changed program options, scaled back transportation services, frozen staff wages, deferred on-going maintenance and repairs to facilities, and relied more heavily on in kind donations from the communities for the provision of essential services. In addition, the recent spike in energy costs continues to be a serious concern for programs.

ACTION NEEDED: Increase Head Start funding by a total of $2,000,000. This will allow approximately 200 additional children in Alaska to receive Head Start services and prevent additional Head Start slots from being eliminated.

- **DEVELOP A COMPREHENSIVE STATE-WIDE PLAN TO ENSURE THAT ALL EARLY CHILDHOOD EDUCATIONAL SYSTEMS AND SERVICES ARE COORDINATED AND COMPLEMENTARY**

The Alaska Head Start Association strongly supports implementation of a Pilot Preschool Program. AHSA believes that the need for Early Childhood Education in our state far exceeds what our existing systems can provide. However, the association also believes that the state has a responsibility to ensure that all publicly funded systems, existing and new, are working together to provide services in a coordinated and complementary manner. Written agreements addressing eligibility, enrollment, and recruitment need to be in place between all early childhood systems that are providing services in a common area.

ACTION NEEDED: Ensure that a comprehensive state-wide plan addressing how early childhood services will be delivered is developed and implemented. Any new legislation should require written coordination agreements between early childhood systems to eliminate duplication or competition in early childhood service delivery.

#25 backup

Alaska Head Start Association
Fact Sheet 2008-2009 Program Year

There are 17 Head Start grantees in Alaska providing comprehensive child development services in 100 communities. The Alaska Head Start Association's two year funding plan proposes expanding enrollment by 195 children in FY 2010 (see below) and 80 children in FY 2011.

Head Start Programs in Alaska

adopted

NEW #26

NEW OPERATING BUDGET AMENDMENT #26

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Gara and Representative Hawker

DEPARTMENT: Health and Social Services
APPROPRIATION: Office of Children's Services
ALLOCATION: Office of Children's Services

ADD: $30,000, general funds, 1004

EXPLANATION: Produce a television and radio Public Service Announcement (PSA), highlighting the need for Alaska foster homes in the state, and urging Alaskans to learn more about becoming a foster parent. The PSAs would air on television and radio via the Alaska Broadcaster's Association's Non-commercial Sustaining Announcement Program (NCSA). Through this "Community Voice" program the PSAs would be placed on 21 television stations and 60 radio stations across the state for approximately a month and a half at two different times during the year. The PSA would also be placed on APRN for four weeks (two weeks at two times during the year) because of its reach into rural Alaska. The $30,000 includes visual scripting, direction, talent coordination, on location shoot, pre/post production work and dub to stations. The ads would reach approximately 80,000 Alaskans, and the response rate is expected to be about 3%--that's 2,400 people who will seek out more information about becoming foster parents. The Department shall in its discretion, utilize these funds at radio and television outlets that produce the most effective outreach.

Adopted

Amendment 27

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Rep. Gara and Hawker

DEPARTMENT:	Department of Health and Social Services
APPROPRIATION:	Behavioral Health, Health Care Services, Office of Children's Services, Senior Disability Services
ALLOCATION:	Denali KidCare

ADD: $25,000 General Funds, 1004.

DELETE:

EXPLANATION: Provide $25,000 in funding for television and/or radio advertising for Denali KidCare. All of the advertisements would occur in two non-consecutive calendar months.

Support Full Funding for the Council on Domestic Violence and Sexual Assault

The Alaska Women's Lobby supports full funding for CDVSA. The Governor's requested increment provides much needed funds for research, prevention work and the day-to-day operations of shelters and rape crisis centers. Most of these funds will go directly to community-based programs responding twenty-four hours a day to the ever present threats to victims' safety.

During FY 08, the Troopers investigated 13 homicides. Nine of them were domestic violence related and one further involved sexual assault. Alaska shelter programs participated in a national one day census count. Last year on September 17th, 550 victims sought and received services from Council funded programs. 269 received shelter and 281 adults and children received non-residential assistance including legal advocacy, counseling and children's support groups. Also on that day, funded programs responded to 73 crisis calls and provided 14 training sessions attended by 215 individuals.

Many programs reported a critical shortage of funds and staff to assist victims. Unfortunately, 47 people (24 of whom needed emergency shelter or transitional housing) who sought services on September 17th were not able to get their needs met. While this is only a snapshot of services on one particular day, it is enough to see that services in Alaska are necessary.

We've all heard the statistic that Alaska ranks number one in the nation for reported per capita sexual assault. We have approximately 2X the national average of reported sexual assault, so if one in four women will be sexually assaulted during her lifetime, look around the room--for every four Alaskan women two have or will be raped. It is past time to say enough is enough.

Previous legislatures have dealt with the aftermath of sexual assault, enacting tough crime legislation with stiff penalties, but more work needs to be done to prevent these crimes from ever happening. Part of the Governor's increment would support prevention activities across the state. As someone once said, "It is not enough to pull drowning people out of the river, at some point someone has to wade upstream and keep them from falling in."

The Women's Lobby urges the full House Finance Committee to restore all the GF taken from the CDVSA budget to fully realize the requested increment. Give community-based programs the funds they need so that people are not turned away from the services that can lead them to a life free from the violence they now suffer.

Juneau, Alaska 99801

Re: HB 81

Dear Representative Gara:

Although I do not live in District 23, I am president-elect of Abused Women's Aid in Crisis, Inc., which operates a shelter in your district. I am also active in domestic violence issues on the state and national levels and a member of the American Bar Association's 17-member Commission on Domestic Violence.

I understand that the governor's proposed Public Safety Department budget contained a $1.7 million increase in funding for the Council on Domestic Violence and Sexual Assault, most of it for existing programs like AWAIC. I am also aware that the proposed increase covered the bare minimum in direct costs to the 19 existing programs statewide.

While I realize that these are difficult economic times, our state still has among the highest rates of rape, homicide of intimate female partners and domestic violence in the nation. The AWAIC Shelter, for example, has been about 40 percent above its capacity for most of the past three months. It is essential that these needs be given the priority that the safety of our fellow Alaskans demands. **Please urge the House Finance Committee to restore the incremental increase in funding to CDVSA.**

Thank you.

Sincerely,
LAW OFFICES OF ALLEN M. BAILEY

ALLEN M. BAILEY

K-12 Outreach - Bridging

Briefing Paper

Third graders who can't read or sixth graders who can't do math are not a challenge for the K-12 community alone – they are a challenge for us all. Our state simply cannot succeed in any endeavor unless its people are educated.

The lines between work ready and college ready have blurred. Most jobs require technical skills that can only develop in the mind of someone who has already learned the basics. The same is true of vocational schools, trade unions...and the University of Alaska. To be successful, employers and postsecondary educators must assume Alaska's high school graduates possess these basic skills when they come to them for further training or a job. Unfortunately, it's increasingly evident that too many Alaska students lack these basic skills.

The Board of Regents recognizes this, and in an attempt to go upstream in the process, has made outreach to the K-12 system its number one funding priority in the FY10 budget request. UA has available resources in facilities, human capital, experience and research that can be of great benefit to the elementary and secondary school systems of Alaska.

UA's budget request for K-12 outreach includes bridging programs and summer academies for engineering; early college high school initiatives; math camps; tech prep; and teacher education. UA already conducts these programs, with promising results. But these investments must be broadened to benefit more schools, more students and the social and economic fabric of Alaska.

Bottom Line: UA's bridging programs are crucial for making Alaska more competitive.

	GF	NGF	Total
K-12 Outreach	$2628.1	$846.6	$3474.7
Bridging, Tech Prep, Career Awareness	1490.0	305.0	1795.0
Outreach, Testing, Placement, Teacher Prep	1138.1	541.6	1679.7

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN) / CSHB 83(FIN)

OFFERED BY: Representative Gara

DEPARTMENT:	University of Alaska
APPROPRIATION:	University of Alaska
ALLOCATION:	System Reductions/Additions
ADD:	$2,500,000
FUNDING SOURCE:	General Funds 1004

EXPLANATION:
Need Based Grants

To minimize any added administrative burdens, the university's intent is to administer these funds through existing mechanisms for the university's existing, internally funded, needs-based grant aid program, the UA Grant. This program reserves one percent of tuition revenue for needs-based financial aid awards.

General Fund revenue of $2.5 million will be added to the University of Alaska's System Reductions and Additions allocation. This funding will be distributed to campuses in a manner consistent with the UA Grant program for financial aid awards.

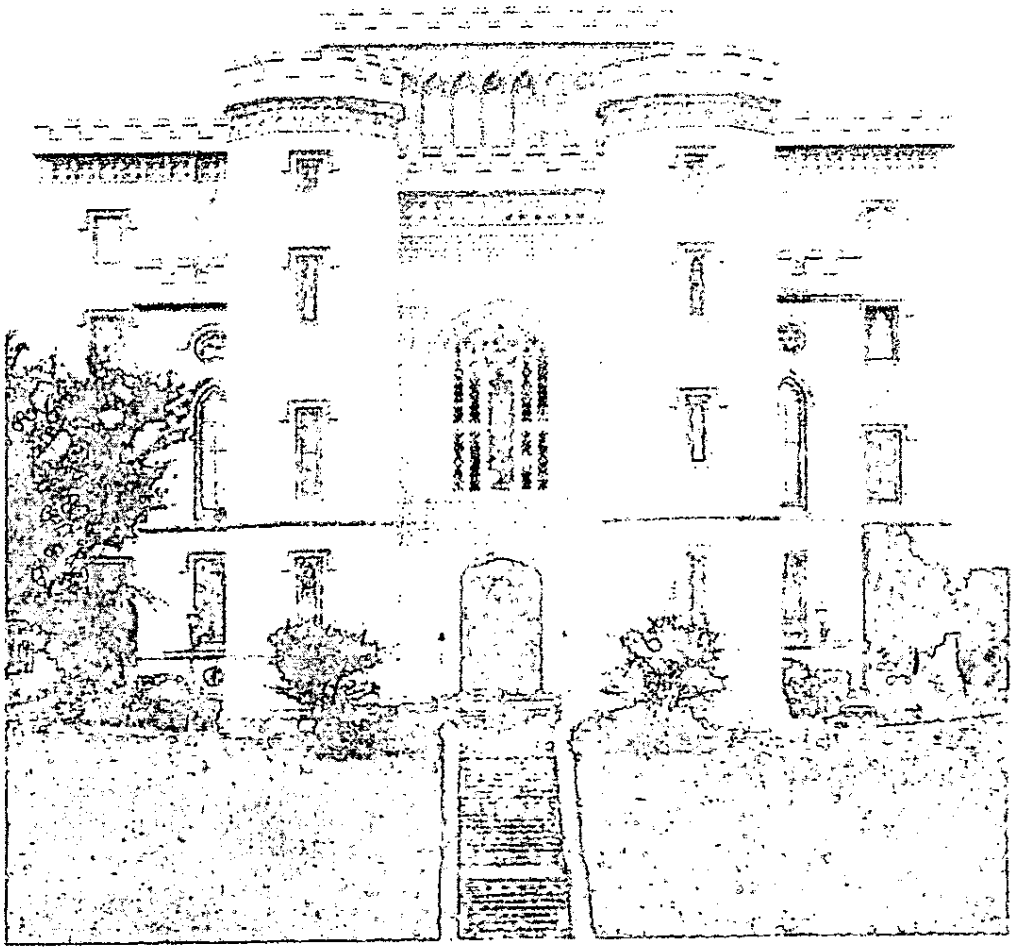
NASSGAP

38th Annual Survey Report on State-Sponsored Student Financial Aid

2006-2007 Academic Year

National Association of State Student Grant and Aid Programs



3538

#32 bu

About NASSGAP

The National Association of State Student Grant and Aid Programs (NASSGAP) is dedicated to the promotion, strengthening, encouragement, and enhancement of high standards in the administration and operation of student grant and aid programs so that these programs shall be available to students in all states to expand and further postsecondary educational opportunities. NASSGAP's membership is drawn from single agencies in each state or territory which are responsible for state-funded student aid programs.

NASSGAP serves as a forum for the development and exchange of information, ideas, policy positions, procedures, and needs for student financial assistance for the benefit of member agencies and other organizations. NASSGAP also acts as a collective voice of reasoned opinion before state, regional, and national councils with respect to student financial aid programs whose objective is the furtherance of postsecondary education in the United States, including grants, scholarships, loans, college work study and other forms of government-sponsored assistance to students.

NASSGAP works with other associations, councils, and agencies to design, implement, and operate simplified student application procedures for student financial assistance and design a uniform method of determining the ability of the family to pay costs of postsecondary education. NASSGAP conducts research, publishes reports, holds conferences, and otherwise engages in activities which help existing student aid programs to become more responsive to federal, regional, and state public policy goals and objectives; encourages the development of new programs as the need arises; works toward the prevention and elimination of fraud and abuse in student financial aid programs; and, provides a forum for the development and exchange of information, ideas, policy positions, and procedures for student financial assistance for the benefit of member agencies and other organizations.

About this Report

Each year, NASSGAP completes a survey regarding state-funded expenditures for postsecondary student financial aid. This report, the 38th annual survey, represents data from academic year 2006-07. Please note row and column data in tables may not add to row and column table totals throughout the report due to rounding.

Electronic copies of this report, and reports from several previous years, are available in PDF format free of charge at www.nassgap.org. Additional 2006-07 data, including tables not in this published report, are also available at www.nassgap.org. Comments, suggestions, or questions concerning this report may be directed to NASSGAP at 212.776.2599 or nassgapsurvey@nassgap.org.

Federal LEAP (Leveraging Education Assistance Partnership) and SLEAP (Special Leveraging Education Assistance Partnership) funds are included in individual state figures. Primary need-based grant programs are designated by individual states.

Data for several states include programs entirely or partially funded by student tuition revenue. These programs and the student funded amount include:

Arizona	Financial Aid Trust	$ 4,012,500	Texas	Student Deposit Scholarships	$ 3,460,937
Connecticut	Tuition Set Aside	$ 58,843,012	Texas	Texas Public Education Grant	$129,293,176
Nevada	Student Access Grants	$ 10,989,910	West Virginia	Higher Education Grant Program	$ 1,800,000

South Carolina figures represent the combined reporting of the South Carolina Commission on Higher Education (SCCHE) and the South Carolina Tuition Grants Commission (SCTGC). Colorado, Massachusetts, and New Mexico data are partially estimated based on incomplete reporting and previous year figures.

#32bu

March 5, 2009

Representative Les Gara
Capitol Room 500
Juneau, Alaska 99801

via e-mail: Representative_Les_Gara@legis.state.ak.us

Dear Representative Gara,

The university stands in support of any effort to increase need-based aid to those Alaskans seeking a postsecondary education. The university provides programs across the state specifically designed to get Alaskans into the job market with marketable skills. Unfortunately, many of our citizens are not able to access the opportunity a postsecondary education will give them because they lack the financial resources to attend our schools.

Alaska ranks last in the nation in college-bound rates for low-income youth (FY1994 to FY 2005). Lost opportunity for these low income students is a lost opportunity for the state because we deny ourselves access to a pool of talent and leadership that will never be developed without necessary training. Adopting this amendment would greatly benefit Alaska and put us on our way to meeting the need, but it would still leave us far below the average of other states.

Alaska needs these students to have the opportunity to attend college. If they go to school in the state, it is very likely they will stay in Alaska, providing us with the myriad benefits that come with an educated population.

Sincerely,

Mark Hamilton, President
University of Alaska System

#1

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Hawker

Part A—Technical Correction (duplicated transaction)

DEPARTMENT: Health and Social Services
APPROPRIATION: Behavioral Health
ALLOCATION: Behavioral Health Grants

DELETE: $75,000 Mental Health Trust Authority Authorized Receipts (1092)
DELETE: $75,000 General Fund/Mental Health (1037)

EXPLANATION: This amendment removes subcommittee transactions that duplicated Governor's transactions. Governor's transactions accomplishing the same purpose will be retained.

Part B—Technical Correction (duplicated transaction)

DEPARTMENT: Natural Resources
APPROPRIATION: Resource Development
ALLOCATION: Claims, Permits & Leases

DELETE: One Permanent Full-Time Position (PFT)

Line Item Transfer:

ADD:	$42,100	Contractual
DELETE:	$37,600	Personal Services
	$3,300	Travel
	$1,200	Commodities

EXPLANATION: This amendment reverses one of two similar transactions that duplicated the House Finance Budget Subcommittee's intent.

3544

Part C—Correction (omitted transaction)

DEPARTMENT: Fish and Game
APPROPRIATION: Wildlife Conservation
ALLOCATION: Wildlife Conservation

ADD: $150,000 Federal Receipts (1002)

DELETE: $150,000 Fish and Game Fund (1024)

EXPLANATION: This amendment adds a fund source change transaction that was inadvertently omitted from the committee substitute bill.

Part D—Correction (unnecessary wordage)

DEPARTMENT: Commerce, Community and Economic Development
APPROPRIATION: Alaska Aerospace Development Corporation
ALLOCATION: Alaska Aerospace Development Corporation

DELETE: Intent Wordage sec.1, page 6, line 23.

It is the intent of the legislature that the Alaska Aerospace Development Corporation fully pay its portion of the DOA and DCCED cost allocation plans.

EXPLANATION: This amendment removes FY09 intent language that is no longer necessary. AADC complied with the intent in FY09 and intends to do so in the future.

Part E—Correction (position adjustment)

DEPARTMENT: Natural Resources
APPROPRIATION: Resource Development
ALLOCATION: Petroleum Systems Integrity Office

ADD: Four Permanent Full-Time Positions (PFT)

EXPLANATION: This amendment restores four PFT positions that were inadvertently deleted during subcommittee close out.

Part F—Correction (overlooked Governor's language)

Amend language section 10 (Department of Commerce, Community, and Economic Development) by adding two new subsections:

f) If the amount necessary to make national forest receipts payments exceeds the amount appropriated in sec. 1 of this Act, the amount necessary is appropriated from federal receipts to the Department of Commerce, Community, and Economic Development, national forest receipts, for the fiscal year ending June 30, 2010.

g) If the amount necessary to make payment in lieu of taxes (PILT) payments exceeds the amount appropriated in sec. 1 of this Act, the amount necessary is appropriated from federal receipts to the Department of Commerce, Community and Economic Development, payment in lieu of taxes (PILT), for the fiscal year ending June 30, 2010.

Explanation: The new sections allow the department to pass federal receipts to eligible recipients and communities without going through the Legislative Budget and Audit review process.

These two subsections were requested by the Governor but were omitted from the Committee Substitute for House Bill 81 (FIN).

Part G—Correction (overlooked Governor's language)

Amend language section 11 (Department of Labor and Workforce Development) by adding a new subsection:

(d) If the amount of designated program receipts received under AS 43.20.014(a)(3) and deposited in the vocational education account (AS 37.10.200) during the fiscal year ending June 30, 2010 exceeds the amount appropriated in sec. 1 of this Act for purposes described in AS 37.10.200, the additional designated program receipts are appropriated to the Department of Labor and Workforce Development, Alaska Vocational Technical Center, for the fiscal year ending June 30, 2010.

Explanation: The language section (d) allows the department to spend any Statutory Designated Program Receipts (SDPR) they receive for vocational education purposes in FY2010.

Part H—Correction (drafting errors)

Amend section 25:

(c) The sum of **$30,248,000** [30,455,300] is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2010.

(e) The sum of **$10,275,000** [10,067,700] is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2010.

(n) The sum of **$22,917,325** [22,917,300] is appropriated from the general fund to the Department of Administration for the fiscal year ending June 30, 2010, for payment of obligations and fees for the following facilities:

FACILITY		ALLOCATION
(1) Anchorage Jail		$5,103,900
(2) Goose Creek Correctional Center	**17,813,425**	[17,813,400]

Explanation: This amendment will correct the amounts necessary for state debt and other obligations in sec. 25 (c), 25(e), 25(n) of the House CS for CSHB 81(FIN).

Amend section 20(q)

The sum of $459,200 is appropriated from the **permanent fund dividend (PFD) in lieu of dividends to criminals account within the dividend fund (AS 43.23.045(a))** [general fund] to the crime victim compensation fund (AS 18.67.162).

Explanation: Restores language requested by the Governor.

adopted

#2

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representatives Thomas and Hawker

Part A—Fund Source Change

DEPARTMENT: Administration

APPROPRIATION: Centralized Administrative Services
ALLOCATION: Personnel

FUND CHANGE: $472,200 General Fund (1004)
($472,200) Interagency Receipts Fund (1007)

APPROPRIATION: Enterprise Technology Services
ALLOCATION: Enterprise Technology Services

FUND CHANGE: $415,900 General Fund (1004)
($415,900) Interagency Receipts Fund (1007)

EXPLANATION: Part A of this amendment pays bargaining unit agreement costs with GF in order to avoid an increase in chargeback rates paid by agencies. This action was requested by the Governor, but denied by subcommittee pending receipt of information pertaining to recovery of non-general funds. The fund source information requested by the subcommittee is part B of this amendment.

Part B—Cost Recovery of Non-general Funds

APPROPRIATION:		Centralized Administrative Services
ALLOCATION:		Personnel
ADD:	$37,200	Federal Receipts (1002)
	$6,300	Interagency Receipts (1007)
	$1,100	Commercial Fishing Loan Fund (1036)
	$100	Fisheries Enhancement Revolving Loan Fund (1070)
	$1,200	Alaska Industrial Development & Export Authority Receipts (1102)
	$1,900	Regulatory Commission of Alaska Receipts (1141)
	$7,600	Receipt Supported Services (1156)
	$800	Business License & Corporation Filing Fees and Taxes (1175)
	$2,800	Permanent Fund Dividend Fund (1050)
	$400	Permanent Fund Corporation Receipts (1105)
	$100	Statutory Designated Program Receipts (1108)
	$2,500	Workers Safety and Compensation Administration Account (1157)
	$100	Second Injury Fund Reserve Account (1031)
	$100	Fishermen's Fund (1032)
	$600	Building Safety Account (1172)
	$1,000	Group Health and Life Benefits Fund (1017)
	$1,200	Public Employees Retirement Trust Fund (1029)
	$500	Teachers Retirement Trust Fund (1034)
	$900	Alaska Oil & Gas Conservation Commission Receipts (1162)
DELETE:	$66,400	General Fund (1004)
APPROPRIATION:		Enterprise Technology Services
ALLOCATION:		Enterprise Technology Services
ADD:	$58,500	Federal Receipts (1002)
	$4,200	Interagency Receipts (1007)
	$700	Commercial Fishing Loan Fund (1036)
	$100	Fisheries Enhancement Revolving Loan Fund (1070)
	$800	Alaska Industrial Development & Export Authority Receipts (1102)
	$1,200	Regulatory Commission of Alaska Receipts (1141)
	$14,600	Receipt Supported Services (1156)
	$500	Business License & Corporation Filing Fees and Taxes (1175)

	$8,400	Permanent Fund Dividend Fund (1050)
	$200	Permanent Fund Corporation Receipts (1105)
	$100	Statutory Designated Program Receipts (1108)
	$1,500	Workers Safety and Compensation Administration Account (1157)
	$400	Building Safety Account (1172)
	$1,800	Group Health and Life Benefits Fund (1017)
	$2,200	Public Employees Retirement Trust Fund (1029)
	$900	Teachers Retirement Trust Fund (1034)
	$1,100	Alaska Oil & Gas Conservation Commission Receipts (1162)
DELETE:	$97,200	General Fund (1004)

EXPLANATION: The Department of Administration charges other agencies for personnel and enterprise technology services. In order to minimize FY2010 rate increases, the Governor requested an addition of general funds to DOA. This action causes the general fund to bear the full burden of cost increases. Part B of this amendment replaces general funds with a variety of other funds. These non-general funds (along with the remaining general funds in increments for this purpose) will be distributed to agencies and recovered through rate increases. The impact is to shift $163,600 of costs from general funds to other funds.

Part C—Add Wordage

APPROPRIATION: Centralized Administrative Services
ALLOCATION: Personnel

ADD: The money appropriated by this appropriation may be distributed to state departments and agencies in order to pay service costs charged by the Department of Administration for centralized personnel services.

APPROPRIATION: Enterprise Technology Services
ALLOCATION: Enterprise Technology Services

ADD: The money appropriated by this appropriation may be distributed to state departments and agencies in order to pay service costs charged by the Department of Administration for enterprise technology services.

EXPLANATION: Part C allows funding appropriated in parts A and B to be distributed to various agencies to offset chargeback rate increases.

adopted

OPERATING BUDGET AMENDMENT

#3

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Austerman and Hawker

DEPARTMENT: Commerce, Community and Economic Development
APPROPRIATION: Community Assistance & Economic Development
ALLOCATION: Community and Regional Affairs

ADD: $1,571,300 General Fund (1004)

EXPLANATION: Governor's 2008 legislation cut business license fees in half, reducing state revenue by about $3.2 million and leaving insufficient business license revenue to pay for program costs. The Governor requested replacement of $1,971.3 business license receipts with GF in Community and Regional Affairs. The subcommittee added 400.0 in business license receipts, which left the program with a 1,571.3 reduction in funding. This amendment restores program funding to the level requested by the Governor.

adopted

OPERATING BUDGET AMENDMENT

#4

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Austerman and Hawker

DEPARTMENT: Commerce, Community and Economic Development
APPROPRIATION: Alaska Energy Authority
ALLOCATION: Alaska Energy Authority Power Cost Equalization

DELETE: $4,000,000 PCE Fund (1089)

EXPLANATION: The Committee Substitute bill bypasses the PCE fund and appropriates money directly to the PCE program. The appropriation of $4 million from the fund is unnecessary because an open-ended appropriation of GF to the PCE program for FY09 will leave the PCE fund with a zero balance at the end of FY09. Removing this "hollow authorization" will have no programmatic impact; the PCE program is fully funded in FY2010 with an open-ended GF appropriation.

Adopted

Amendment 5B

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representative Thomas and Hawker

DEPARTMENT: Department of Commerce, Community & Economic Development

ADD: It is the intent of the legislature that any marketing entities that receive state funding shall to the maximum extent practicable coordinate their efforts when implementing their marketing strategies. This shall include, but is not limited to, fishing, tourism, and agriculture.

EXPLANATION:
It is economical to ask that the entities who receive state funding should work together when marketing Alaska and Alaskan products.

Amendment 5A

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representative Thomas and Hawker

DEPARTMENT: Department of Commerce, Community & Economic Development

ADD: It is the intent of the legislature that any marketing entities that receive state funding shall not engage in any lobbying efforts of any kind.

EXPLANATION:
It is inappropriate for entities who receive general fund money from the state to engage in lobbying activities.

Adopted

OPERATING BUDGET AMENDMENT

#6

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Joule and Hawker

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Juvenile Justice
ALLOCATION:	Probation Services

ADD: $225,000 General Fund (1004)

EXPLANATION: This amendment provides base funding for guard hires for escorts, travel for juveniles who are not Medicaid-eligible, psychiatric evaluations that are not Medicaid-eligible and other various court-ordered costs. The funding applies to youth either in division custody or under court order to receive specified services.

In recent years, the legislature has directed the department to include these costs as supplemental request. This amendment will reduce or eliminate the need for supplemental funding.

#7

adopted 9-3

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representatives Hawker and Joule

DEPARTMENT:	Health and Social Services
APPROPRIATION:	Public Health
ALLOCATION:	Chronic Disease Prevention and Health Promotion

DELETE: $923,100 General Fund (1004)

EXPLANATION:

This amendment deletes funding for the establishment of a new childhood obesity prevention program. The program as proposed appears to be an investment in data collection and analysis, with very little funding being used to address the core issues of the problem. As childhood obesity is a concern, further consideration should be given to working together with the Anchorage School District in expanding their very successful model to other school districts.

The very gradual inclusion of school districts into the program is of concern, as is the limited use of these resources to assist the school districts and communities in directly addressing this issue.

Long range cost projects for this program are projected to be over $16 million.

2009 HOUSE
FINANCE
COMMITTEE

#8

adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Hawker by request of Governor

DEPARTMENT: Law
APPROPRIATION: Criminal Division
ALLOCATION: See below

Department	Appropriation/Allocation	Description	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
Law **Item #1**	Second Judicial District	See attached IncOTI		90.0			90.0
Law **Item #2**	Fourth Judicial District	See attached IncOTI		285.0			285.0
Law **Item #3**	Criminal Appeals/Special Litigation	See attached IncOTI		271.6			271.6
Total			**$ -**	**$ 646.6**	**$ -**		**$ 646.6**

EXPLANATION: This amendment moves Governor's requests for lapse extensions from the supplemental bill to the operating bill. In an effort to ensure that all money that will be available for agency expenditure is reviewed in conjunction with regular operating requests, this amendment puts the Department of Law's Federal lapse extensions before the full finance committee for consideration as FY2010 increments. Please see the following pages for details provided by OMB.

#9

adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Representatives Hawker and Kelly

DEPARTMENT: Department of Natural Resources
APPROPRIATION: Parks and Recreation Management
ALLOCATION: Parks Management

ADD: $138,500 general fund (fund code 1004)

EXPLANATION:

Since 1997 the State Parks in the Prince William Sound area have been managed by volunteer organizations. Despite their enormous and admirable efforts, these organizations can no longer afford to continue losing money and are giving up on their efforts to manage the State Parks at places like the Worthington Glacier (which receives over 40,000 visits annually). Alaska State Parks has no permanent Parks presence in Valdez or the Prince William Sound. The nearest office is located in Soldotna, and rarely ever does a district ranger visit the entire Prince William Sound or Valdez area.

These parks are beautiful and are heavily used by Alaskan residents and tourists. Unless a Valdez State Park Ranger position is established, at least one state park – Worthington Glacier – is almost certain to be closed this coming summer. Additional parks in the area are likely to also close since volunteer organizations currently operating the parks can not continue to lose money.

The addition of a Park Ranger position in Valdez would vitalize volunteer efforts by allowing the parks to remain open. This new position would oversee maintenance and upkeep of 14 state marine parks in Prince William Sound.

The Valdez Area State Parks Citizens Advisory Board has prioritized this request as their number 1 issue and has expressed the critical nature of the situation to me directly. A survey conducted last summer indicates that visitors spend $12.2 million annually to enjoy PWS state parks, which results in 103 local jobs.

Here is breakdown of the budget request:

Park Ranger (Range 16A – 12 months)	$71,200
Vehicles: Ranger (4WD pickup truck) & Fuel ACC/volunteer (surplus truck) & Fuel	$7,500
Park Maintenance & Janitorial Supplies	$6,500
Toilet Pumping (Worthington & Blueberry Lake)	$900
Garbage Removal (Worthington & Blueberry Lake)	$5,900
Travel & Per Diem for Park Maintenance in PWS	$8,000

Road Maintenance: Annual Grading and Snow Removal at Blueberry Lake & Worthington Glacier	$10,000
TOTAL	**$138,500**

adopted

Amendment 10

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough, Stoltze, Hawker, Gara, Crawford, and Salmon

DEPARTMENT:	Public Safety
APPROPRIATION:	Council on Domestic Violence and Sexual Assault
ALLOCATION:	Council on Domestic Violence and Sexual Assault

ADD: $500,000 PFD Criminal Funds (1171)

EXPLANATION: This amendment brings the FY2010 budget for the Council on Domestic Violence closer to the FY2010 Governor's request. The Governor requested an increase of $1,677.9. The Committee Substitute bill includes an increase of $296.0. Due to extraordinarily high PFDs, the amount of available PFD criminal funds is sufficient to fund this amendment.

#11

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Foster and Hawker

DEPARTMENT:	Transportation and Public Facilities
APPROPRIATION:	Marine Highway System
ALLOCATION:	Marine Vessel Operations

ADD: $4,617,600 Marine Highway Fund (1076)

ADD: New subsections to section 20 (fund capitalization)

(t) The sum of $5,000,000 is appropriated from the general fund to the Alaska marine highway system fund (AS 19.65.060(a)).

(u) The unexpended and unobligated balance of the appropriation made in sec. 19 (d) (1), ch. 27, SLA 2008 to the Department of Transportation & Public Facilities is reappropriated to the Alaska marine highway system fund (AS 19.65.060(a)). *(Effective date June 30, 2009)*

EXPLANATION: The addition of $4.6 million to the FY2010 base budget will allow the AMHS to continue the schedule covering operations through September 2009. However, in combination with subcommittee actions, the additional expenditures authorized by this amendment leave the marine highway fund with a projected year-end FY2010 deficit in excess of $4 million.

New section (t) eliminates the projected deficit. New section (u) reappropriates available FY09 fuel trigger funding (estimated to be $9.2 million) to the marine highway fund, allowing the fund to fulfill its role as a stabilizing force.

Language (in section 19 of the committee substitute bill) allowing expenditures of marine highway program receipts in excess of the appropriations made in the operating budget (subject to LB&A Committee review) permits the Department to spend additional marine highway funds through the RPL process.

adopted

OPERATING BUDGET AMENDMENT

#12

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Thomas and Hawker

DEPARTMENT:	Transportation and Public Facilities
APPROPRIATION:	Marine Highway System
ALLOCATION:	Marine Vessel Operations

ADD INTENT:

It is the intent of the legislature that money allocated for the Marine Transportation Advisory Board not be spent for any other purpose.

adopted #13

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough and Hawker

DEPARTMENT: University of Alaska
APPROPRIATION: University of Alaska
ALLOCATION: Systemwide Education and Outreach

TRIN: $1,253,000 Total and 9 PFT positions
$922,600 General Fund (1004)
$320,400 Univ Rcpts (1048)
$ 10,000 UA Interagency Rcpts (1174)

APPROPRIATION: University of Alaska
ALLOCATION: Kenai Peninsula College

TROUT: $1,253,000 Total with 9 PFT positions
$922,600 General Fund (1004)
$320,400 Univ Rcpts (1048)
$ 10,000 UA Interagency Rcpts (1174)

EXPLANATION: This amendment accepts a pair of transactions proposed in the Governor's budget which transfers the Mining and Petroleum Training Services (MAPTS) from Kenai Peninsula College to Systemwide Education and Outreach.

adopted

#14

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough and Hawker

DEPARTMENT:	University of Alaska
APPROPRIATION:	University of Alaska
ALLOCATION:	Small Business Development Center

ADD:	$550,000 General Fund (1004)
DELETE:	$550,000 Business License Receipts (1175)

EXPLANATION: Replaces business license receipts with general funds as requested by the Governor. Governor's legislation cut business license fees in half, leaving insufficient revenue to pay for program costs.

Adopted #15

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representatives Fairclough and Hawker

DEPARTMENT:	University of Alaska
APPROPRIATION:	University of Alaska
ALLOCATION:	Anchorage Campus

ADD: $500,000 General Fund (1004)

EXPLANATION: This amendment funds the operating and maintenance costs necessary to open the new Integrated Sciences Building (ISB) in the fall of 2009. Completion of the 120,000 square foot facility will approximately double the amount of space devoted to science instruction and research programs.

Failed
8-3 #16

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Commerce, Community, and Economic Development
APPROPRIATION: Alaska Energy Authority
ALLOCATION: Statewide Project Development, Alternative Energy and Efficiency

ADD: $360,300 General Funds (1004)
Support for Energy Planning- $150.0
Funding for AEA Executive Director- $210.3

DELETE: n/a

EXPLANATION: This restores funding recommended in the Governor's Amended budget for senior staff in the AEA office including the executive director.

AEA staff are charged with statewide energy planning, preparing for the governor's transition to a 50% renewable grid by 2025, and reviewing and recommending projects for the Renewable Energy Grant Fund.

The change made by the subcommittee reflects more than a 30% reduction to the governor's requested budget. In the FY09 budget, these functions were funded in part through a fund transfer from the Governor's Executive Operations budget.

OPERATING BUDGET AMENDMENT

OFFERED IN:	**The House Finance Committee**
TO:	CSHB 81(FIN)
OFFERED BY:	Rep. Crawford
DEPARTMENT:	Commerce, Community, and Economic Development
APPROPRIATION:	Community Assistance & Economic Development
ALLOCATION:	Community and Regional Affairs
ADD:	$1,971,300 General Funds (1004)
DELETE:	$400,000 BLicC (1175)

EXPLANATION: This replaces business license receipts resulting from a decrease in the annual cost of a business license. The anticipated revenues are $1,971,300 less than FY09, which were requested as GF in the Governor's budget. The subcommittee approved adding $400,000 of BLicC (business license receipts). However, it appears that most of the $400,000 BLicC may not be available at the end of FY09, so really the entire $1,971,300 is necessary to keep the agency flat-funded.

Without this increment, the division is facing a 20% cut from the FY09 budget. Community and Regional Affairs is the only constitutionally-mandated state agency:

> **Art. 10, Sec 14 Local Government Agency** An agency shall be established by law in the executive branch of the state government to advise and assist local governments. It shall review their activities, collect and publish local government information, and perform other duties prescribed by law.

This agency should not be forced to absorb such a large budget cut due to a tax reduction not related to the agency.

Failed 3-7

#18

OPERATING BUDGET AMENDMENT

OFFERED IN:	**The House Finance Committee**
TO:	CSHB 81(FIN)
OFFERED BY:	Rep. Crawford
DEPARTMENT:	Fish and Game
APPROPRIATION:	Division of Wildlife Conservation
ALLOCATION:	Wildlife Conservation

ADD: $200,100 General Funds (1004)

Wildlife Biologist II (PCN 11-2218; range 16)	*$74.3*
F&W Technician 3 (range 11)	*$40.8*
Travel, signage, small equipment, trail maintenance, supplies	*$85.0*

DELETE: n/a

EXPLANATION: Several constituent groups and organizations have concerns about inadequate funding for the management of wildlife refuges in Southcentral Alaska and the problem it is creating. This is an area-wide issue that primarily affects Anchorage, Mat-Su and Kenai.

There are 25 wildlife refuges in Southcentral, covering 2.5 million acres of land. Thirteen of these refuges, with nearly a million acres, are found in the Anchorage, Mat-Su, and Kenai areas alone. The budget for managing these 25 refuges, which span from Yakutat to Dillingham, is $15,000. This level of funding has created a number of public safety issues and habitat degradation in those refuges closest to population centers.

People are using the refuges as a place to dump cars, appliances, and trash. There is a substantial amount of illegal target shooting, illegal tree cutting, and in some cases illegal cabins are being built on public lands.

The division has had a vacant Refuge Manager position for the last four years. This is a Palmer-based wildlife biologist PCN. Filling this position and adding a seasonal Fish and Wildlife Technician 3 would help solve the public safety issues outlined above. In addition, increasing the current $15,000 management budget by $85,000 to a total of $100,000 would enable the division to effectively manage this resource and make the refuges safer and more accessible for Southcentral families.

OPERATING BUDGET AMENDMENT

OFFERED IN: **The House Finance Committee**

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Health and Social Services
APPROPRIATION: Public Assistance
ALLOCATION: Child Care Benefits

ADD: $1,500,000 General Funds (1004)

DELETE: n/a

EXPLANATION: This replaces the balance of an increment requested by the governor to increase the reimbursement rate based upon recommendations from a 2007 statewide provider survey.

Currently, parents eligible for child care assistance are capped at the median price for their city or region. This creates problems for both parents and providers. Parents who are eligible for the benefit are forced into accepting possibly lower-quality care for their children because they are not able to afford better care. If they cannot find such care, they must enroll their child in care that costs more than the benefit they are entitled to, which often places a heavy burden on the family as they choose between paying the rent, for their groceries, or for child care.

For many providers, the maximum child care benefit often becomes the de facto amount they charge. Even though it does not cover their costs, providers know that all they will collect from parents is how much the state will pay, so that is how they set their prices.

An increment proposed by the governor was calculated to increase the maximum payment to the 75th percentile of cost within the range of local child care providers. The current CS includes half the governor's request, raising the reimbursement level to approximately the 63rd percentile.

OPERATING BUDGET AMENDMENT

OFFERED IN: **The House Finance Committee**

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Department of Labor and Workforce Development
APPROPRIATION: Workers' Compensation and Safety
ALLOCATION: Wage and Hour Administration

ADD: $150,000 *General Fund $75.0 (1004)*
Workers Safety $75.0 (1157),

DELETE: n/a

EXPLANATION: This increment is to fund two investigators in the Wage and Hour Agency. The investigators will perform Title 36 and workers' compensation classification fraud investigations. The positions will also assist in child labor, uninsured employer and other necessary wage and hour and workers' compensation investigations.

OPERATING BUDGET AMENDMENT

OFFERED IN: **The House Finance Committee**

TO: CSHB 81(FIN)

OFFERED BY: Rep. Crawford

DEPARTMENT: Revenue
APPROPRIATION: Administration and Support
ALLOCATION: Commissioner's Office

ADD: $119,000 *General Fund $46.4 (1004)*
I/A Receipts $72.6 (1007)

DELETE: n/a

EXPLANATION: This reverses a decrement made by the budget subcommittee, and restores a Special Assistant position in the commissioner's office.

The position in question is an essential liaison between the Department and the legislature for oil and gas issues. He is also a well regarded researcher and aide who helps maximize the efficiency and effectiveness of the commissioner and deputy commissioner in his department.

The 2010 legislative session will face several significant issues and it would benefit the state to have this person continue in his position.

		$8,000 Univ Rcpt (1048)
Fairbanks Campus	$ 112,400	*$87,400 Gen Fund (1004)*
		$25,000 Univ Rcpt (1048)
Totals	**$1,071,700**	*$922,000 Gen Fund (1004)*
		$149,700 Univ Rcpt (1048)

EXPLANATION:
This amendment restores Priority Program Enhancement and Growth Increments for Health Academic Programs to the funding level supported by the Governor.
Program requests will support UA's next step in building strong health occupation training programs. UA has accomplished significant results in health instructional programs; however, the state needs and opportunities in this area are monumental and require this as well as future state investments.

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN)

OFFERED BY: Representative Crawford

DEPARTMENT: University of Alaska
APPROPRIATION: University of Alaska
ALLOCATION: Tanana Valley Campus

ADD: $162,900 *$98,600 General Funds (1004)*
$64,300 Univ Rcpt (1048)

EXPLANATION:
Law Enforcement Academy Base Funding
This request provides base funding for the Tanana Valley Campus (TVC) Law Enforcement Academy. The academy conducts basic police training for Interior Alaska, rural municipalities, and employers of security personnel. The training consists of students who are both current recruit employees of a law enforcement academy as well as students who are considering a career in law enforcement. All students in the program will be seeking Alaska Police Standards Certification, which will make them eligible for employment with any of the approximately 21 State Enforcement Agencies, or the 43 municipal police departments within the State of Alaska. In addition to these agencies, many private security companies give enhanced consideration to hiring a candidate who possesses an Alaska Police Standards Council certificate. Approval of Law Enforcement as a new "occupational endorsement" at UAF is anticipated, recognizing the value to students of completing this academy and securing Alaska Police Standards certification.

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)/CSHB 83(FIN)

OFFERED BY: Rep. Gara

DEPARTMENT:	Education and Early Development
APPROPRIATION:	Teaching and Learning Support
ALLOCATION:	Early Learning Coordination

ADD: $1,200,000, 1004 Gen Fund, (Increase Head Start Grant program Funding).

EXPLANATION: The amendment is intended to increase the current Head Start Grant Program Funding increment from $800,000.00 to $2,000,000. Head Start anticipates with a funding increase to $2,000,000 they could serve 200 more children. Head Start estimates that 7,727 eligible children do not participate in the program and there is currently a 900-1,000 child waitlist.

adopted

NEW #26

NEW OPERATING BUDGET AMENDMENT #26

OFFERED IN: The House Finance Committee

TO: House CS for CSHB 81(FIN)

OFFERED BY: Representative Gara and Representative Hawker

DEPARTMENT: Health and Social Services
APPROPRIATION: Office of Children's Services
ALLOCATION: Office of Children's Services

ADD: $30,000, general funds, 1004

EXPLANATION: Produce a television and radio Public Service Announcement (PSA), highlighting the need for Alaska foster homes in the state, and urging Alaskans to learn more about becoming a foster parent. The PSAs would air on television and radio via the Alaska Broadcaster's Association's Non-commercial Sustaining Announcement Program (NCSA). Through this "Community Voice" program the PSAs would be placed on 21 television stations and 60 radio stations across the state for approximately a month and a half at two different times during the year. The PSA would also be placed on APRN for four weeks (two weeks at two times during the year) because of its reach into rural Alaska. The $30,000 includes visual scripting, direction, talent coordination, on location shoot, pre/post production work and dub to stations. The ads would reach approximately 80,000 Alaskans, and the response rate is expected to be about 3%--that's 2,400 people who will seek out more information about becoming foster parents. The Department shall in its discretion, utilize these funds at radio and television outlets that produce the most effective outreach.

Adopted

OPERATING BUDGET AMENDMENT

OFFERED IN: The House Finance Committee

TO: CSHB 81(FIN) / CSHB 83(FIN)

OFFERED BY: Representative Gara

DEPARTMENT:	University of Alaska
APPROPRIATION:	University of Alaska
ALLOCATION:	System Reductions/Additions

ADD: $2,500,000

FUNDING SOURCE: General Funds 1004

EXPLANATION:
Need Based Grants

To minimize any added administrative burdens, the university's intent is to administer these funds through existing mechanisms for the university's existing, internally funded, needs-based grant aid program, the UA Grant. This program reserves one percent of tuition revenue for needs-based financial aid awards.

General Fund revenue of $2.5 million will be added to the University of Alaska's System Reductions and Additions allocation. This funding will be distributed to campuses in a manner consistent with the UA Grant program for financial aid awards.

Department of Administration
FY 10 Budget Subcommittee
February 26, 2009

Recommendations

Members:
Rep. Bill Thomas, Chair
Rep. Kurt Olson
Rep. Craig Johnson
Rep. Charisse Millett
Rep. Wes Keller
Rep. Chris Tuck
Rep. Max Gruenberg

The House Finance Budget Subcommittee for the Department of Administration submits an operating budget for FY 10 to the House Finance Committee as follows:

General Funds: $72,849.9
Federal Funds: $2,782.4
Other Funds: $217,610.1
Total: $293,242.4

The Subcommittee held four meetings with the Department and took the following actions:

Budget Action

Analyzed all transactions submitted by the Governor. The following are budget action highlights:

- Reviewed requests from the Alaska Public Broadcasting Commission for station operating grants and an internal budget increase. Alaska Public Radio received an increase in FY 09 of $400,000. The committee denies the requested increase.

- Reviewed requests from Partners for Progress, a non-profit entity that provides support to Therapeutic Courts, for an increase in program operating grants of $65,000 to replace federal funds that are expiring. Partners for Progress received an increase in FY 09 of $65,000; the requested increase would bring their total GF to $130,000. The committee denies the requested increase.

- Reviewed budget request for ALMR and did a three-year look back at the entire program. Committee recommends that the Department work with the municipalities and begin requiring the municipalities who participate in this program to pay their part of the operating and maintenance costs. The committee recommends a phase out approach to the state subsidy for the municipalities' share with full participation by the municipalities to begin in FY11. (Intent language has been added to the budget.)

- Reviewed the State Travel Office. The committee recommends that all out-of-state trips taken by state employees should be conducted on a mileage ticket where possible. (Intent language has been added to the budget.)

- Reviewed Centralized Administrative Services. Recommend that Finance Operations replace $220,000 in general fund monies with Capital Improvement Project receipts.

- Reviewed Finance Operations' request for additional authority to spend receipts anticipated under a new contract with the U.S. Bank for the Bank One Card. The funding from these receipts would be used to offset cost increases related to the Alaska Data Enterprise Reporting warehouse and to provide for vacancy factor reductions. The committee recommends a fund source change to General Fund monies in compliance with AS 37.05.142-144.

- Reviewed budget request from Enterprise Technology Services to increase the State of Alaska Telecommunications System (SATS) for operations and maintenance. The requested funding would assist in maintaining the operations of the SATS microwave network system which serves areas outside of Anchorage. Many state agencies use this system and the increase is important to its continued operation. The committee accepts the $300.0 general fund request, but feels that those that use this system should assist in its funding. The Department is asked to present the House Finance Co-Chairs with information on how the Department plans to charge the various other departments to recoup these costs.

- Reviewed fund source changes for unrealized contractual wage and health benefit increases. The committee rejects the Department's request to change the fund source of these increases from interagency receipts to general fund monies, and requests that the Department present the House Finance Co-Chairs with information on how the Department plans to charge the various other departments to recoup these costs within 10 days of this closeout.

Amendment Action

Reviewed amendments submitted by the Governor.

Accepted the following Governor's proposed amendments:

1.) Centralized Administrative Services	Dec	-$7.5	GF
2.) Public Defender Agency	Inc	$1,000.0	GF

Items of Concern

The committee is extremely concerned about the Alaska Land Mobile Radio program. This program has been in place for several years and thus far the Department has been unable to get the municipalities participating in the program to pay their share of the costs. The committee recommends that the Department do its best to work with the participating municipalities over the interim and strategize on how best to phase out this state subsidy and begin charging the municipalities the full amount of their share of the costs.

Attached Reports

The committee adopts the reports attached:

DCCED House Finance Subcommittee

SUBJ: Department of Commerce, Community and Economic Development FY10 Closeout Narrative | Summary Excel Notebook | Legislative Finance Reports

The House Finance Budget Subcommittee on the Department of Commerce, Community and Economic Development submits an operating budget for FY10 as follows:

GF: $17,563.6 Fed Funds: $64,592.7 Other Funds: $103,920.1 TOTAL: $186,076.4

The DCCED Subcommittee conducted five hearings regarding the FY10 Governor's Operating Budget Request for the Department of Commerce, Community and Economic Development. The following actions took place at the closeout meeting of February 25, 2009. A quorum was established at the closeout as Austerman, Edgmon, Johansen, Neuman, Seaton, Gardner were all present. The vote to move this out of subcommittee was 6-0.

Budget Action

The subcommittee accepted the FY10 Governor's Amended Budget except for the following changes:

1. Delete 150.0 GF for Support for Energy Planning under the Alaska Energy Authority
2. Delete 210.3 GF for AEA Executive Director under the Alaska Energy Authority
3. Delete 1,971.3 GF that was recommended to replace a reduction in Business License & Corp Receipts (BLic&Corp).

4. 1,5713.3 of excess BLic&Corp authority was deleted, while 400.0 was authorized for BLic&Corp.

Items of Concern

1. The AEA Executive Director/Statewide Energy Coordinator was funded in FY09 with CIP receipts from a statewide energy plan capital project. Although the statewide energy plan is completed and has been released, the department argued that the need for this position and support services will continue into the foreseeable future. The subcommittee disagreed with this premise and advised the department to look for additional funds already allocated to AEA. In addition, there is currently about $300,000 left in FY09 money from the CIP receipts discussed above. The AEA executive director testified that most if not all of this money will be spent by June 30, 2009. According to the department, if any money is left over, it is carried forward into FY10 as CIP funds are not "swept."

2. The Division of Community and Regional Affairs (C&RA) operating expenses are partially funded with business license fees. Passage of HB111 last year cut the business license fees from $100/year down to $50/year, which will cause a significant reduction in that revenue stream. This law is effective October 1, 2009. The subcommittee allowed 400.0 in Business License & Corp Receipts (BLic&Corp) to the FY2010 budget and removed 1,571.3 of excess BLic&Corp authority. The subcommittee was steadfast in their belief that since HB111 was by request of the Governor, that the administration should now find the funds to replace the loss of the BLic&Corp money. Since the department testified that the loss of this funding will cost 20 to 25 jobs and could close down two regional C&RA offices, it is the intent of the chair to recommend to the full house finance committee that they consider taking the 1,571.3 GF as an unallocated reduction across the entire department and that the BLic&Corp authority be restored.

House Finance Budget Subcommittee
FY10 Department of Corrections

Subcommittee Report for FY10 February 27, 2009

The House Finance Budget Subcommittee for the Department of Corrections submits an operating budget for FY10 to the full House Finance Committee as follows:

Operating Budget	Gen Fund	Federal	Other	Total
FY10 Adjusted Base [1]	$211,944,000	$3,003,400	$30,233,000	$245,180,400
FY10 Gov Amend	$214,041,400	$3,174,400	$31,985,100	$249,200,900
(HFS) Recommendation	**$212,494,200**	**$3,187,300**	**$31,977,000**	**$247,658,500**

The Budget Subcommittee recommends an operating budget that authorizes $1,547,200 less general funds and three fewer employees than the FY10 Governor's Amended request. The recommended budget requests a total increment from the FY10 Adjusted Base of $550,200.

Subcommittee Recommendations

The subcommittee reviewed all aspects of the Department of Corrections budget, including a three-year look back to review the growth in the department's budget from FY07 to FY10 Governor's Amended proposal, and accepted the changes with the following major exceptions:

Research and Records

- Denied a request to fund $180,000 that the department received in FY09 as a one-time item for on-going records imaging.

Population Management

- Denied an increment of $302,200 for operating costs for an 80-bed expansion project that is not completed at the Wildwood Correctional Center.

[1] The Adjusted Base is the starting point for subcommittee discussion of the Governor's request. It removes one-time appropriations, reappropriations, and carryforward of multi-year appropriations. It incorporates the FY10 contractual salary increases. (Source: *Legislative Fiscal Analyst's Overview of the Governor's Request*, Page 12)

- Reduced the operating base for the Wildwood expansion project ($1,115,000) by $889,400, allowing the department to retain $217,500 for DOC employees to supervise and complete the expansion plans with inmate labor.
- Funded an additional probation officer position for $80,000.

Inmate Health Care

- Reduced an increment of $485,300 in PFD Criminal dollars for periodic polygraph testing and treatment of sex offenders on probation by fifty percent.
- Modified and funded a proposed $500,000 General Fund increment to expand substance abuse treatment programs within the institutions, $257,3000 from General Fund and $242,700 from PFD Criminal

Intent Language

The House Finance Budget Subcommittee approved the following Intent Language:

Office of the Commissioner

- Requested the Department of Corrections to define its future facility needs including specific attention to the communities of Bethel, Seward, and Fairbanks and report the findings before February 1, 2010.

Goose Creek Correctional Center

- Requested that no state funds, other than the amount required to reimburse the Mat-Su Borough for debt service costs, be used for capital costs associated with the Goose Creek Correctional Center
- Requested the Department of Corrections to investigate the privatization of the operation and maintenance of the Goose Creek Correctional Center and report the findings before February 1, 2010.

It was an honor and a privilege to chair the House Finance Budget Subcommittee for the Department of Corrections and I thank everyone who was involved with the process. If you wish a copy of the spreadsheet discussed in subcommittee, please contact my legislative aide, Ms. Sheila Peterson, at 465-4936.

Respectfully Submitted,

Representative Mike Kelly, Chair
House Finance Budget Subcommittee

House Finance Budget Subcommittee
FY 10 Alaska Court System

Subcommittee Report FY10 February 27, 2009

The House Finance Budget Subcommittee (HFBS) on the Alaska Court System submits an operating budget for FY10 as follows:

GF $ 87,212.8 Fed Funds $ 1,675.6 Other Funds $ 1,481.3 Total $ 90.369.7

Alaska Court System
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $2,414.3 less general funds and 22 less employees than the FY10 Court System request. The FY10 subcommittee budget requests a total increment from 09 Revised Management Plan of $2,727.0 general funds.

In reviewing the Alaska Court System's FY 10 budget request, the subcommittee worked closely with the court system administration to determine their priorities, as well as to examine the function and necessity of each budget item. The highest priority needs for material support were fully funded as was the highest priority request for an additional Judge and Clerk in South Central Alaska. The request to implement a classification study of magistrate salaries which have not been adjusted since 1995 was approved. Increased funding for the No Dark Courtrooms initiative was approved at the same level of increase as was provided in FY09. The requested creation of numerous permanent full and part-time positions was not approved. A significant savings was also found by removing unnecessary funding for transcript costs for PD and OPA. Funding for a pro tem pay increase was also removed, as pro tem pay is intended to be a stipend.

The full amount of funding requested by the Alaska Commission on Judicial Conduct was approved. The Judicial Council also received full funding of their request and a very small legislatively sponsored increase supporting the Alaska Judicial Observers.

Most significantly, the subcommittee also made a structural change to the budget creating a separate component for the Therapeutic Courts. This adjustment establishes the Therapeutic Courts as a distinct budget allocation under the Alaska Court System. Therapeutic Courts have proven successful and are becoming financially significant meriting segregation from traditional court operations. The subcommittee added intent language requesting that, as much as is practical in the FY 11 budget, therapeutic court funding be transferred from other agencies to this appropriation, rather than continuing the current practice of scattering a multitude of small individual items throughout Health and Social Services, the Department of Law, and the Department of Corrections.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)
6. Wordage Report – FY10 Operating Budget – House Structure

MEMORANDUM

DATE: February 27, 2009

TO: Representative Mike Hawker, Co-chair
Representative Bill Stoltze, Co-chair
House Finance Committee

FROM: Representative Alan Austerman, Chair
DEC House Finance Subcommittee

SUBJ: Department of Environmental Conservation FY10 Closeout
Narrative | Summary Excel Notebook | Legislative Finance Reports

The House Finance Budget Subcommittee on the Department of Environmental Conservation submits an operating budget for FY10 as follows:

GF: $19,140.5 Fed Funds: $21,497.6 Other Funds: $33,496.9 TOTAL: $74,135.0

The DEC Subcommittee conducted three hearings regarding the FY10 Governor's Operating Budget Request for the Department of Environmental Conservation. The following actions took place at the closeout meeting of February 23, 2009. A quorum was established at the closeout as Austerman, Dahlstrom, Johansen, Olson, and Seaton were all present. The vote to move this out of subcommittee was 5-0.

Budget Action
The subcommittee accepted the FY10 Governor's Amended Budget except for the following change:

1. >Commissioner's Office deletes 184.0 GF OTI from Climate Impact Work Group
   >Environmental Health/Air Quality adds 184.0 GF into Base for the Climate Change Sub-Cabinet Activity.
   - **Subcommittee accepted the increment of 184.0 GF as a one-time item (OTI)**

Wordage Action
The subcommittee accepted additional Intent under the Water Quality allocation concerning the Ocean Ranger program. See the Wordage Report for the specific language.

Amendment Action
Only one amendment (#1) was offered before the subcommittee. This amendment was to the Food Safety and Sanitation allocation under Environmental Health for an increment of 2,000.0 GF (1004). This amendment failed by a vote of 0-5.

Items of Concern
1. The intent of the amendment above was to provide funding for the department to hire sixteen additional permanent full time food inspectors. The general consensus of the subcommittee was that food safety and sanitary inspections were exceedingly deficient around the state. This not only involves your typical restaurants, grocery stores, coffee shops, etc, but also seafood processors both shoreside and at-sea. While the department seems to be doing a good job in the training and testing of food handlers and managers, the subcommittee was very troubled that safety of the public was at risk because the department was not asking for the funding they needed to accomplish their mission.

2. Crowley Marine Services Inc. is the contractor for the Ocean Ranger program under DEC. This program consists of marine engineers licensed by the U.S. Coast Guard to serve as observers onboard large cruise ships to monitor state and federal requirements for marine discharge and pollution. The contract with Crowley requires an Alaskan hiring preference. In 2008, Crowley employed only one Alaskan as an Ocean Ranger and two other Alaskans as administrative type personnel. There was considerable discussion by the subcommittee regarding the lack of more Ocean Ranger hires from Alaska. We discussed the minimum requirements in subcommittee and received additional information from the department. The level of concern was such that the subcommittee placed intent language into this report instructing DEC to conduct an audit of Crowley pertaining to the contract provisions regarding the hiring preference.

3. There is quite a list of fees currently being charged by the Environmental Health Lab (EHL) under DEC. Fees charged by the EHL are determined by a variety of regulations implemented by other State programs. The subcommittee expressed some concern that milk and cheese testing do not generate a fee to those specific industries. It was noted however, that since cheese production is a new industry in Alaska, no regulations exist yet to regulate that activity at all.

House Finance Budget Subcommittee
FY 10 Alaska Department of Fish and Game

Subcommittee Report FY 10 February 27, 2009

GF $57,112.7 Fed $54,962.5 Other $67,010.1 Total $179,085.3

Alaska Department of Fish and Game
House Finance Budget Subcommittee FY 10 Highlights

The Alaska Department of Fish and Game Budget Subcommittee authorizes $1,120.0 less general funds than the Governor's FY 10 amended request and $765.3 less general funds than the FY 09 revised management plan.

The subcommittee was very concerned with the low returns of salmon to the AYK region of the state and approved four increments totaling $190.0 general funds for projects to allow for better management of the region's salmon resource.

The subcommittee approved $708.6 general funds to pay for 'unrealizable' salary fund source changes related to salary adjustments.

Requests for FY 10 program expansions and replacing lost federal funds with general funds were looked at closely. A $190.0 GF increment for a Wildlife Conservation Response Team pilot program was denied. An increment of $930.0 GF to replace lost federal funds for pinniped research was also denied.

The subcommittee recognizes that many state wildlife refuges have a problem with people illegally abandoning vehicles and dumping trash within their boundaries. As such, the subcommittee recommends that the full finance committee support an amendment to the capital budget to clean-up and make our wildlife refuges safer.

House Finance Budget Subcommittee
FY 10 Office of the Governor

Subcommittee Report FY10 February 26, 2009

The House Finance Budget Subcommittee (HFBS) on the Office of the Governor submits an operating budget for FY10 as follows:

GF	$ 22,485.0	Fed Funds	$ 187.6	Other Funds	$ 834.5	Total	$ 23, 507.1

Office of the Governor
House Finance Budget Subcommittee FY10 Highlights

The subcommittee chair worked with the administration and agreed to a HFBS budget authorizing $ 400.0 less general funds than the original Governor's FY10 request. The FY10 subcommittee budget requests an aggregate increment from 09 Revised Management Plan of $3,550.7 general funds and authorizes 3 additional temporary positions to establish the Redistricting Planning Committee.

The governor's request fully funds all non-discretionary increments related to wages and other contractual obligations. The only significant new request was for $1 million to establish a planning committee for the Redistricting Planning Commission.

A total of $2,744.8 of FY09 carryforward funds were identified. $876.6 of these funds were removed, at the administration's request, from the FY10 budget. The remaining $1,868.2 were converted to increments in various components within the Office of the Governor.

The Agency wide fuel allocation, previously reported under the Governor's Office has been moved to a separate component within the budget. The Governor will still be responsible for allocating those funds in compliance with other budget language.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)

House Finance Budget Subcommittee
FY 10 Department of Health and Social Services

Subcommittee Report FY10 February 27, 2009

The House Finance Budget Subcommittee (HFBS) on The Department of Health and Social Services submits an operating budget for FY10 as follows:

GF $ 849,332.2 Fed Funds $1,056,715.9 Other Funds $159,659.6 Total $2,065,707.7

Department of Health and Social Services
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $17,013.3 less general funds and ten fewer employees below the Governor's FY10 Amended request. The FY10 subcommittee budget requests a total **decrement** from FY09 Revised Management Plan of $66,094.2 general funds.

The approach taken by the subcommittee was to first fully fund all grantee rate or inflation increases for programs not receiving rate increases in FY09. Included in this category were prevention grants, family preservation grants, infant learning, child care grants, WIC grants, community health grants and grants to EMS providers.

There were several requests to complete projects or initiatives that began in FY09 or previous years. These types of requests were all approved. Included in this category is finalizing new staff for OCS Front Line Social Workers based on the recent workload study, funding the Fairbanks Detox Facility, funding operation of the new Virology Lab that is expected to open in FY10, and continuing the Alaska Heating Assistance program in FY10 at $5 million and key investments in Autism services.

Requested funding to replace lost federal funds that are no longer available is approved at requested levels for Therapeutic Courts, Child Advocacy Centers, and Birth Defects and Cancer Registries in Public Health.

Requests for programs that received substantial funding in FY09 were reviewed and in most cases either half or two-thirds of the request was approved. These included grant increases for mentally ill and substance abuse services, Subsidized Adoption and Guardianships, second year rate increases for Medicaid dental services, Infant Learning grants and Child Care subsidies.

Requests for the Bring the Kids Home initiative in Behavioral Health were reviewed and approved to keep the momentum going for this important initiative that has reduced Medicaid costs.

The department's requests for expected growth in the Medicaid program were reviewed and approved at requested levels. In the last two years growth in the Medicaid program has slowed, so constant monitoring of spending levels will be critical to assure the appropriate amount of state general funds is authorized for the program.

Requests to enhance or continue staffing at the Pioneer Homes (funded with program receipts), Juvenile Justice (mental health clinicians and probation services), and Senior and Disability Services (eligibility assessments), were approved at requested levels. It was determined that without these increases critical activity would be diminished.

Requests for new initiatives were reviewed carefully; the requests for a new Behavioral Health pilot program for Corrections, year one of front line staffing increases at Juvenile Youth Facilities, the Alaska Health Care Commission created by Administrative Order, and the Governor's Live Well Alaska health initiative were not funded However, a new initiative for Reversing Alaska's Childhood Obesity Trend was approved.

All Governor Budget Amendments were approved including increasing federal funding for Medicaid from the Economic Stimulus bill. The Medicaid Federal Matching Percentage (FMAP) was increased by 6.2 percent for FY10 resulting in a general fund decrease of $73.5 million. Also included in the amendments was a reduction of $5.1 million general fund from continuing to use Temporary Assistance for Needy Families (TANF) funding in the Office of Children's Services. The Governor's original budget had replaced the TANF funding with general fund, but it was reversed by the subcommittee and through the amendment process.

Several amendments were added in the subcommittee process for important initiatives not included in the Governors Amended Budget. They included funding the operation of Volunteers of America's ARCH residential treatment center, Senior Community Based Grants to prevent reductions in service from the implementation of a new funding formula, and travel for the Office of Children's Services Citizen Review Panel.

The subcommittee reduced funding in a few key areas, including reducing Medicaid general funds to match new information on current trends at a middle level forecast and reducing the Senior Benefits Program to match new projections.

The final House Finance Budget Subcommittee recommendation funds the majority of the Governor's amended request for FY10. Since this department is so large, it is important for the legislature to critically analyze requests for new funding to assure the public that these investments are achieving the desired results.

The following Subcommittee reports are attached:

1. FY10 Budget Subcommittee recommendations
2. FY10 Final Recommendations

The following Legislative Finance reports are attached:

Alaska State Legislature

Representative Anna Fairclough – House District 17

Labor & Workforce Development
FY10 House Finance Subcommittee Recommendations

The House Finance Subcommittee on Labor & Workforce Development submits an operating budget to the full House Finance Committee as follows:

General Funds	$3,304.2	(12.7% increase over adjusted base)
Federal Funds	$ 783.8	(0.9% increase over adjusted base)
Other Funds	$2,828.4	(4.9% increase over adjusted base)

The subcommittee took the following actions:

Budget Action:

1. Adopted the FY10 Adjusted Base
2. Reviewed each of the increments and decrements submitted by the Governor:
   - Commissioner's Office – No Change
   - Alaska Labor Relations Agency – No Change
   - Management Services – No Change
   - Human Resources – No Change
   - Leasing – No Change
   - Data Processing – $93.2 Fund Source Change from Federal Receipts and Interagency Receipt to GF to Correct Unrealizable Fund Sources in the Salary Adjustment for the Existing Bargaining Unit Agreements
   - Labor Market Information – Recommend House Finance to look at adopting Sec. 16.(2) in Language Section which adds a $145.0 GF Increment for Gasline Training Program Guide and Regional Economic Analysis; $57.3 Fund Source Change from Federal Receipts and Interagency Receipt to GF to Correct Unrealizable Fund Sources in the Salary Adjustment for the Existing Bargaining Unit Agreements
   - **Workers' Compensation – $108 Worker Safety Account Increment for Increased Leased Space Cost (FY10 Gov Am)**
   - Workers' Compensation Appeals Commission – No Change
   - Workers' Compensation Benefits Guaranty Fund – $30.0 Workers' Compensation Benefits Guaranty Fund Increment to Add Authorization for Contractual Legal Support Services
   - Second Injury Fund – No Changes
   - Fishermens Fund – $14.0 Fish Fund Decrement to Decrease Expenditure Authorization to Align with Staffing Plan

Session: Alaska State Capitol • Juneau, AK 99801 • 907-465-3777 • Fax 907-465-2819

Re: Law Budget Close Out

House Finance Budget Subcommittee
FY 10 Department of Law

The House Finance Budget Subcommittee (HFBS) on The Department of Law (DOL) submits an operating budget for FY10 as follows:

General Funds	$ 46,299.9
Federal Funds	$ 3,233.7
Other Funds	$ 25,193.1
Total	$ 74,726.7

The HFBS budget authorizes $10,525.5 less general funds than the Governor's FY10 DOL request. The FY10 subcommittee budget requests a total decrement from the 09 Revised Management Plan of $5,039.4 general funds.

Department of Law
House Finance Budget Subcommittee FY10 Highlights

INTRODUCTION

In determining the appropriation levels for FY10, the Department of Law Subcommittee utilized the FY10 adjusted base. The basic approach of the subcommittee revolved around the preservation of the budget base while maintaining the ability of the department to continue beneficial litigation for the State of Alaska.

ISSUES

In FY10, the Department of Law anticipated various issues that would require various funding increases. These issues include lease cost increases and funding lapses; training and position costs; and one-time incremental items. All transactions were approved, with the exception of the request from the Environmental Law section. It was the determination of the subcommittee that the amount requested could be made up within the flexibility of the Civil Division and re-allocated if necessary.

OTHER ISSUES

Three items were removed from the proposed budget and are recommended to be moved to the language section so as to not affect the adjusted base going forward. The three allocations were for BP Corrosion litigation, which is anticipated to be filed in FY10, and two Oil, Gas and Mining issues, which are Oil and Non-Gas Pipeline Matters and Trans Alaska Pipeline System Strategic Reconfiguration. These items comprised of the bulk of the funding increase in the Governor's Budget. It is the recommendation of the subcommittee that these items should be approved and the amount of funding should be determined by the co-chairs.

RECOMMENDATIONS

The subcommittee recommends that all items be approved, with the exception of the fund change for the Environmental Law section. Also, the subcommittee further recommends that the proposed Oil, Gas and Mining and BP Corrosion appropriations be moved to the language section and funding amounts should be determined by the co-chairs.

House Finance Budget Subcommittee
FY 10 Alaska Legislature

Subcommittee Report FY10 February 26, 2009

The House Finance Budget Subcommittee (HFBS) on the Alaska Legislature submits an operating budget for FY10 as follows:

GF	$ 64,962.7	Fed Funds	$ 0.0	Other Funds	$ 1,107.3	Total	$ 66,070.0

Alaska Legislature
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $ 980.5 less general funds than the Alaska Legislature request submitted in the Governor's FY10 Operating Budget. The FY10 subcommittee budget requests a total increment from 09 Revised Management Plan of $ 714.2 general funds.

The final budget requests prepared by Legislative Audit for the Legislative Budget and Audit Committee and by Legislative Affairs for the Legislative Council were approved as submitted. Those requests included non-discretionary adjustments for wages and other contractual obligations. Approximately $2.3 million in one time project appropriations that were included in the FY09 budget were removed from the FY10 requests. The legislative operating budget includes adequate funding for multiple special sessions that have become routine in recent years.

The FY10 request was increased by the amount estimated to implement the legislative pay adjustment in January 2010. This increase automatically takes effect unless rejected by the legislature. Accordingly, in the absence of formal action being taken by the legislature, the budget presumes the status quo, that is, that the pay increase will take effect. If the legislature rejects the pay increase, a corresponding adjustment will be made to the budget at that time.

The following Legislative Finance reports are attached:

House Finance Budget Subcommittee
FY 10 Department of Military and Veterans' Affairs

Subcommittee Report FY10 February 19, 2009

The House Finance Budget Subcommittee (HFBS) on The Department of Military and Veterans Affairs submits an operating budget for FY10 as follows:

GF $ 11,276.9 Fed Funds $ 22,235.3 Other Funds $ 13,017.9 Total $ 46,530.1

Department of Military and Veterans Affairs
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $0 less general funds and 0 less employees than the Governor's FY10 Department of Military and Veterans Affairs request. The FY10 subcommittee budget requests a total decrement from 09 Revised Management Plan of $51.5 general funds.

Personnel

There is no change in the number of Department personnel: 283 Perm Full Time, 2 Perm Part Time, and 1 Temporary.

Three Year Look-back

The Budget Subcommittee did a three year look back to review changes in the Department's budget from the FY07 Final Budget to the FY10 Governor's Request.

The greatest increase in General Funds, $300.0 was a change in funding source since the Local Planning Committee Grants had been funded with Oil/Haz Funds. There were increments in four other areas: Homeland Security & Emergency Mgt. 9%; Veterans' Services 18%; Office of the Commissioner 3%; and AK Emergency Communications 8%.

The $143.4 increase in Veterans' Services is to increase grants for the Veterans' Outreach Program. This has been used to increase counselor training and to expand travel into rural areas to contact veterans and help them to identify and qualify for benefits.

The Department budget has been relatively flat for the past three years. Changes in mission and organization have, where possible, been absorbed by reorganization and reassignment of personnel to fill positions where needed.

Governor's Proposed FY 10 Budget

Total budget growth from the FY 09 Management Plan Revised to the Governor's Request as amended is $1,141.9 which is an increase of 2.5%. General Fund growth in the budget is $180.0 (1.6%) above the FY10 Adj. Base.

There is a $50.0 General Fund increment to increase grants for the Veterans' Outreach Program in the Veterans' Services component of the budget. This is to increase travel to rural areas of the

state. This is important since Guard personnel who have been deployed to combat zones have returned to their home communities.

The $130.0 General Fund increment in Alaska National Guard Retirement Benefits reflects the amount approved by the ARM Board. This does not appear to reflect the $10.0 million that was appropriated last year to reduce the unfunded liability within the retirement account. Typically one would expect to see the actuarial amount decrease when the unfunded liability decreases. Pension fund investments have in all probability been impacted by recent market declines. If the increment is excessive it will be reflected in a reduced rate the next time the State's contribution is adjusted.

Educational Benefits is an area which has been of concern to past Subcommittees. The $328.5 (80.4%) reduction is only a reduction to the DMVA budget. The Guard tuition funding is included in the Governor's University's budget request. The residual $80.0 is for vocational and other training programs.

The $185.2 increase in funding for the Alaska Military Youth Academy is authority to receive this amount in I/A funding from DEED. This is based on an anticipated $100 increase in the Base Student Allocation.

There is a $500.0 increment increasing Federal Receipt authority for Army Guard Facilities Maintenance and an adopted Governor's amendment for $300.0 increasing Federal Receipt authority for Air Guard Facilities Maintenance. This reflects the increased cost of maintenance that has been seen systemically throughout the State. Note: this is not an increase in State General Funds.

Two areas of responsibility are transferred from the Department. One position transfers the Alaska Aviation Safety Project to DOT Aviation. The second position transferred to Alaska State Wide Emergency Communications. In this instance the PCN filling that slot was reassigned to other duties within the Department. An unbudgeted PCN was budgeted which accounts for the net zero change in personnel numbers.

Subcommittee action

After reviewing the proposed budget the Subcommittee adopted the FY 10 Governor's Requested Operating Budget, as amended, for the Department of Military and Veterans' Affairs along with the listed supporting Legislative Finance reports.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure

House Finance Budget Subcommittee
FY10 Department of Natural Resources

Subcommittee Report for FY10 February 27, 2009

The House Finance Budget Subcommittee for the Department of Natural Resources submits an operating budget for FY10 to the full House Finance Committee as follows:

Operating Budget	Gen Fund	Federal	Other	Total
FY10 Adjusted Base [1]	$66,436,700	$13,939,900	$44,544,800	$124,921,400
FY10 Gov Amend	$71,231,900	$13,804,300	$46,593,200	$131,629,400
(HFS) Recommendation	**$70,183,900**	**$14,054,300**	**$46,234,700**	**$130,472,900**

The Budget Subcommittee recommends an operating budget that authorizes $1,048,000 less general funds and three fewer employees than the FY10 Governor's Amended request. The recommended budget requests a total increment from the FY10 Adjusted Base of $3,747,200.

Subcommittee Recommendations

The subcommittee reviewed all aspects of the Department of Natural Resources budget, including a three-year look back to review the growth in the department's budget from FY07 to FY10 Governor's Amended proposal, and accepted the changes with the following major exceptions:

State Coordinator – Gas Pipeline

- Transferred two AGIA positions from the Office of the Governor to a new component in the Department of Natural Resources and reduced the funding by $100,000 to reflect a vacancy.

Oil and Gas Development

- Funded oil and gas positions as a one-time item (OTI) to address the workload of the Oil and Gas Division, but reduced the funding by $175,000 to reflect a vacancy
- Reduced the FY09 OTI of $523,000 for four additional positions within the Petroleum Systems Integrity Office (PSIO) by $423,000 to reflect the three vacancies and to wait for the results of the PSIO "Gap and Overlap Analysis"

[1] The Adjusted Base is the starting point for subcommittee discussion of the Governor's request. It removes one-time appropriations, reappropriations, and carryforward of multi-year appropriates. It incorporates the FY10 contractual salary increases. (Source: *Legislative Fiscal Analyst's Overview of the Governor's Request*, Page 12)

- Denied authority for the Pipeline Coordinator to receive funds from industry to establish a TAPS Fire Safety program until the PSIO "Gap and Overlap Analysis" is completed

Geological Development

- Denied a fund source change to replace federal dollars with general fund money to help support the Alaska Volcano Observatory

North Latitude Plant Material Center

- Funded an FY09 OTI ($500,000) in the base of the North Latitude Plant Material Center and reduced another FY09 OTI ($225,000) by $100,000. This combination funds the total FY10 appropriation at $625,000.

Ag Revolving Loan Program Administration

- Deleted a vacant loan/collection officer position ($70,000) funded through the Ag Revolving Loan Fund proceeds

Because of the uncertainty of the gas pipeline timing and workload in Division of Oil and Gas, the Department of Natural Resources has several positions or programs funded through one-time items. This funding category requires the department to justify the funding request each year and allows the Legislature to adjust the funding level accordingly so that extraordinary costs associated with the gasline construction do not become embedded in the DNR operating base.

As the Department of Natural Resources has several OTI appropriations, and the accompanying dollars are deducted in the Adjusted Base calculations, it appears that the department is receiving a substantial amount of "new" General Fund dollars in FY10. This is not the case. Contractual salary increases is the bulk of the department's actual budget increase when existing one-time items are considered.

It was an honor and a privilege to chair the House Finance Budget Subcommittee for the Department of Natural Resources and I thank everyone who was involved with the process. If you wish a copy of the spreadsheet discussed in subcommittee, please contact my legislative aide, Ms. Sheila Peterson, at 465-4936.

Respectfully Submitted,

Representative Mike Kelly, Chair

Memorandum

To:	Representative Mike Hawker Co-Chair, House Finance Committee
From:	Bill Stoltze, Chair – Public Safety Budget Subcommittee Representatives Lynn, Harris, Dahlstrom, Salmon and Kawasaki, Public Safety Subcommittee Members
Re:	Public Safety Budget Close out
Date:	March 2, 2009

Introduction

The Department of Public Safety sub-committee used the FY10 adjusted base when determining appropriation levels. The subcommittee accepted all departmental budget transactions from the FY09 Management Plan to the FY10 adjusted base.

Your office has the attached spreadsheet along with the legislative finance close-out reports document recommended subcommittee level of spending for FY10.

FY10 Language recommendations (Language sections)

The subcommittee recommends that the language section provision be adopted in full finance that allocates $1,270,000 in general funds to the Alaska State Troopers appropriation in the event the agency is unable to obtain federal rural alcohol interdiction funds in the upcoming federal fiscal year.

The subcommittee recommends that the language section provision be adopted in full finance that allocates $1,392,200 in general funds to the Alaska State Troopers appropriation in the event the agency is unable to obtain federal drug and alcohol enforcement funds in the upcoming federal fiscal year.

FY10 recommendations to the full Finance committee

The subcommittee recommends that a majority of the increments to fully fund all trooper positions be accepted. The subcommittee did deny some smaller increment request for these efforts.

With regard to the Council on Sexual Assault and Domestic Violence, the subcommittee recommended an increase of $296,000 of permanent fund felon funds for FY10. The subcommittee also switched out $1,381,900 in general funds and replaced those funds with excess permanent fund felon funds. The freed up general funds were used to help fund the Alaska State Trooper increments.

The subcommittee recommends that partial funding for increased vehicle costs, trooper dispatching and prisoner transportation costs be accepted.

With regard to the Village Public Safety program, the subcommittee added funds to annualize the positions added in FY09. The subcommittee added ½ funding for new positions and for the COLA and merit increases requested in FY10.

The subcommittee also recommends the follow intent language be added to the operating budget:

> *It is the intent of the legislature that the Department of Public Safety provide additional state trooper coverage for international border communities to help meet Federal and Homeland Security requirements.*

If you have any questions, please contact James Armstrong in my office at 6824.

House Finance Budget Subcommittee
FY 10 Department of Revenue

Subcommittee Report FY10 February 25, 2009

The House Finance Budget Subcommittee (HFBS) on the Department of Revenue submits an operating budget for FY10 as follows:

GF $ 18,164.1 Fed Funds$ 39,611.0 Other Funds$ 191,562.7 Total $ 249,337.8

Department of Revenue
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $ 2,250.7 less general funds and 1 less employee than the Governor's FY10 Department of Revenue request. The FY10 subcommittee budget requests a total increment from 09 Revised Management Plan of $979.9 general funds.

The Governor requested minimal increases in the original FY10 budget request. The department was required to update the state's Cost Allocation Plan for Federal Compliance which, as a result of the increased state financial assets under management, shifted $572 to state general funds. The tax division continues to utilize contract auditors; however the subcommittee budget approved half the original request, shifting the responsibility to a newly funded state Master Auditor position.

Several adjustments were made in Other Funds appropriated for the ARM Board, PFD division, Mental Health Trust Authority administration, AHFC operations, and the Alaska Permanent Fund Corporation. The FY 09 budget for investment management fees at the ARM Board was reduced $8,546.7 and at the Permanent Fund Corporation, $10,000. These management fees are generally based on the value of investments under management. The reductions reflect market value declines experienced in recent months.

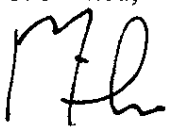
With the concurrence of the agency, the subcommittee did not approve a $1,900.0 fund source change from FED to GF for the Child Support Services Division. It is now believed that continuing federal funding will be available.

Small general fund increments requested as fund source changes for "unrealizable fund sources" were not approved. The subcommittee removed a special assistant position in the commissioner's office that the agency established contrary to legislative intent in the FY09 budget.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)
6. Wordage Report – FY10 Operating Budget – House Structure

Submitted,



Representative Mike Hawker
House Finance Subcommittee Chairman

House Finance Budget Subcommittee
FY 10 Department of Transportation

Subcommittee Report FY10 February 10, 2009

The House Finance Budget Subcommittee (HFBS) on The Department of Transportation (DOT) submits an operating budget for FY10 as follows:

GF $206,471.5 Fed Funds $3,988.2 Other Funds $301,188.9 Total $511,648.6

Department of Transportation
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $13,077.6 less general funds and 8 less employees than the Governor's FY10 DOT request. The FY10 subcommittee budget requests, in general funds, a total decrement from 09 Revised Management Plan of $3,375.6, and a total increment from the 09 Adjusted Base of $1,126.4

The approach taken by the subcommittee was to first fully fund all non-discretionary funding increments related to wages, contractual increases and the like. The funding sources for these non-discretionary increments were evaluate and changed to minimized impact to the General Fund.

Fund source changes from CIP to GF were denied. The transfers of CIP Rcpts to GF fund may suggest that support costs are increasing more rapidly than the dollar value of Capital Improvement Projects, since they should be driven by that component of the budget. This results in less Capitol Improvement money being spent on construction because it is being used to fund overhead. The Department is also reaching the limit of what can be recovered through the Indirect Cost Allocation Plan (ICAP). DOT is still responsible for the same activities and bears the burden of those associated costs. GF might be an appropriate source to fund these cost increases, but during this budget cycle there is considerable pressure on the General Fund portion of the Operating Budget. Additionally the Economic Stimulus Package will bring in additional CIP funds and should relieve some of the pressure on the Indirect Cost Allocation Plan.

Fund source changes from RSS and SDPR to GF were denied. Fund source changes from Statutory Designated Program Receipts and Receipt-Supported Services, $25.3 are related to the cost of services provided by the Department exceeding the revenue generated. Receipts and fees are fixed by statute, regulation or fair market value and control the amount of revenue received. The Department should work with the House Finance Committee to determine what portion of the Department's increased costs should be born by users.

Fund source changes from AMHSF to GF were denied. The Alaska Marine Highway System Fund has two funding sources; revenues from operations and capitalization from the State's General Fund. Recently the Alaska Marine Highway System (AMHS) has been increasing the GF potion of its' funding though fund source changes and GF increments. Keeping AMHSF as the primary funding source allows the Legislature to more easily monitor AMHS needs and expenditures. This enables the Legislature to looks at budget short falls in operations and decided at what level increased costs should be born by users or subsidized by capitalization of the Fund.

Fund source changes from FED to GF were denied. The only requested change that fit this criterion is too insignificant to justify reorganization.

Whittier Tunnel fund source changes were denied. Changing operations of the tunnel from CIP to Gambling Tax is a change to GF and was denied for the reasons listed for all CIP to GF fund source change denials. The request to fund extended hours for summer operations with Gambling Tax was denied and was funded instead with Cruise Ship Tax Revenue. This was the revenue source used last year, and it is a dedicated fund source which must be used to directly benefit the Cruise Ship industry. As the extended summer hours fit this criterion it is a more appropriate fund source than the Gambling Tax (GF).

Requests to restore one-time increments (OTI) to the Alaska Marine Highway System as a reoccurring increment were denied. In FY09 the Department requested that a funding increment be approved to compensate for additional expenditure of running a particular mix of vessels. Due to dry dock work the department was forced to use less economical vessels on route where they could not expect to increase revenue with increased ridership. As this was a budget scenario that would not extend into the next fiscal year it was funded as an OTI. To date There has not been sufficient explanation by the Department to justify either another OTI or a reoccurring increment.

The Governor's Request contains two new programs for Sidewalk Snow Removal; in Anchorage $500,000 and in Juneau $47,100.

The Department indicated that they have received Federal notification to increase sidewalk snow clearing as part of standard road maintenance. Funds for sidewalk snow removal equipment were appropriated in FY09 Capital Budget. This request is an operating increment to hire 8 permanent part time operators in Anchorage and 1 permanent part time operator in Juneau. The increments also reflect fuel and State Equipment Fleet costs.

The Personnel portion of the increment is denied for all 9 positions ($327.1). Since the State is under a hiring freeze, new positions were not approved. The $220.0 remaining in those increments for fuel and State Equipment Fleet rental is approved.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)
6. Wordage Report – FY10 Operating Budget – House Structure

University of Alaska
FY10 House Finance Subcommittee Recommendations

The House Finance Subcommittee on the University of Alaska submits an operating budget to the full House Finance Committee as follows:

General Funds	$319,178.0	(0.7% increase from adjusted base)
Federal Funds	$130,658.5	(16.3% decrease from adjusted base)
Other Funds	$365,802.0	(3.3% decrease from adjusted base)

As an additional note this represents a Total Decrease of 4.2% from FY09.

The subcommittee took the following actions:

Budget Action:

1. Adopted the FY10 Adjusted Base.
2. Reviewed each of the increments and decrements submitted by the Governor and highlighted the following recommendations:
   - Priority Program Enhancement and Growth Increments
     i. Health Programs Total $1,071.7 – $922.0 GF and $149.7 Non-GF
        1. Anchorage Campus – $690.3 GF and $90.0 Non-GF
        2. Fairbanks Campus – $87.4 GF and $25.0 Non-GF
        3. College of Rural & Comm. Dev. – $40.8 GF and $8.0 Non-GF
        4. Tanana Valley Campus – $47.2 GF and $16.0 Non-GF
        5. Juneau Campus – $56.3 GF and $10.7 Non-GF
   - Other Governor's Increments
     ii. Non-Personnel Services Fixed Cost Increases – $7,614.3 Non-GF
     iii. Compliance Mandates – $400.0 Non GF
     iv. New Facility Operating and Maintenance Costs – $350.0 GF and $344.3 Non-GF
   - Governor's Budget Amendments
     i. State Virology Lab (UAF Portion) Total $150.0 IncOTI GF
     ii. Facilities Maintenance and Repair Total $825.0 GF
        1. Statewide Services – $18.4
        2. Anchorage Campus – $222.9
        3. Kenai Peninsula Campus – $26.2
        4. Kodiak College – $10.4

CS FOR HOUSE BILL NO. 81(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making appropriations for the operating and loan program expenses of state government, for certain programs, and to capitalize funds; making supplemental appropriations; making appropriations under art. IX, sec. 17(c), Constitution of the State of Alaska; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2009 and ending June 30, 2010, unless otherwise indicated. A department-wide, agency-wide, or branch-wide unallocated reduction set out in this section may be allocated among the appropriations made in this section to that department, agency, or branch.

	Allocations	Appropriation Items	General Funds	Other Funds
*****		*****		
***** **Department of Administration** *****				
*****		*****		
Centralized Administrative Services		**73,962,300**	**12,987,000**	**60,975,300**

The amount appropriated by this appropriation includes the unexpended and unobligated balance on June 30, 2009, of inter-agency receipts appropriated in sec. 1, ch. 27, SLA 2008, page 2, line 12, and collected in the Department of Administration's federally approved cost allocation plans.

Office of Administrative Hearings	1,547,400

***** Department of Health and Social Services *****				
*****		*****		

No money appropriated in this appropriation may be expended for an abortion that is not a mandatory service required under AS 47.07.030(a). The money appropriated for Health and Social Services may be expended only for mandatory services required under Title XIX of the Social Security Act and for optional services offered by the state under the state plan for medical assistance that has been approved by the United States Department of Health and

	Allocations	Appropriation Items	General Funds	Other Funds
Human Services.				
It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2010 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.				
It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are $50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.				
It is the intent of the legislature that the Department of Health and Social Services make a single 'upfront' payment for any grant award that is $50,000 or less and includes a signature of the grantee certifying compliance with the terms of the grant with their approved application. Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during the selection process.				
Alaska Pioneer Homes		**43,309,900**	**19,080,300**	**24,229,600**

	Allocations	Appropriation Items	General Funds	Other Funds

It is the intent of the legislature that the Department maintain regulations requiring all residents of the Pioneer Homes to apply for all appropriate benefit programs prior to a state subsidy being provided for their care from the State Payment Assistance program.

It is the intent of the legislature that all pioneers' homes and veterans' homes applicants shall complete any forms to determine eligibility for supplemental program funding, such as Medicaid, Medicare, SSI, and other benefits as part of the application process. If an applicant is not able to complete the forms him/herself, or if relatives or guardians of the applicant are not able to complete the forms, Department of Health and Social Services staff may complete the forms for him/her, obtain the individuals' or designee's signature and submit for eligibility per AS 47.25.120.

Alaska Pioneer Homes Management	1,433,300			
Pioneer Homes	41,862,900

Alcohol Safety Action Program (ASAP)	2,938,300			
Behavioral Health Medicaid Services	98,849,900			
Behavioral Health Grants	6,651,900			

It is the intent of the legislature that the department continue developing policies and procedures surrounding the awarding of recurring grants to assure that applicants are regularly evaluated on their performance in achieving outcomes consistent with the expectations and missions of the Department related to their specific grant. The recipient's specific performance should be measured and incorporated into the decision whether to continue awarding grants. Performance measurement should be standardized, accurate, objective and fair, recognizing and compensating for differences among grant recipients including acuity of services provided, client base, geographic location and other factors necessary and appropriate

	Allocations	Appropriation Items	General Funds	Other Funds
to reconcile and compare grant recipient performances across the array of providers and services involved.				
It is the intent of the legislature that the $181.0 increment in the FY10 budget for Behavioral Health Grants be used for the Volunteers of America ARCH residential treatment center for adolescents with substance abuse/dependency and co-occurring disorders.

State Medical Examiner	2,244,400			

	Allocations	Appropriation Items	General Funds	Other Funds
Public Health Laboratories	6,510,600			
Tobacco Prevention and Control	7,413,300			
Senior and Disabilities Services		**388,196,600**	**151,240,200**	**236,956,400**

It is the intent of the legislature that regulations related to the General Relief / Temporary Assisted Living program be reviewed and revised as needed to minimize the length of time that the state provides housing alternatives and assure the services are provided only to intended beneficiaries who are actually experiencing harm, abuse or neglect. The department should educate care coordinators and direct service providers about who should be referred and when they are correctly referred to the program in order that referring agents correctly match consumer needs with the program services intended by the department.

General Relief/Temporary Assisted Living	2,748,400
Senior and Disabilities Medicaid Services	354,681,300
Senior and Disabilities Services Administration	10,735,900
Senior Community Based Grants	9,876,100

It is the intent of the legislature that funding in the FY 2010 budget for Senior Community Based Grants be used to invest in successful home and community based supports provided by grantees who have demonstrated successful outcomes documented in accordance with the department's performance based evaluation procedures.

Senior Residential Services	815,000
Community Developmental Disabilities Grants	6,727,000
Commission on Aging	364,500
Governor's Council on Disabilities and Special Education	2,248,400

	Allocations	Appropriation Items	General Funds	Other Funds
Departmental Support Services		**47,416,500**	**16,632,300**	**30,784,200**
Public Affairs	1,960,100			
Quality Assurance and Audit	1,174,600			
Commissioner's Office	2,095,000			

It is the intent of the legislature that the Department of Health and Social Services complete the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid providers:

1. Develop regulations addressing the use of extrapolation methodology following an audit of Medicaid providers that clearly defines the difference between actual overpayment of funds to a provider and ministerial omission or clerical billing error that does not result in overpayment to the provider. The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.

2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts.

All audits initiated after the effective date of this intent and resulting in findings of overpayment will be calculated under the Department's new regulations governing overpayment standards and extrapolation methodology.

It is the intent of the legislature that the department develops a ten year funding source and use of funds projection for the entire department.

It is the intent of the legislature that the department continue working on implementing a provider rate rebasing process and specific funding recommendations for both Medicaid and non-Medicaid providers to be completed and available to the legislature no later than December 15, 2009.

Assessment and Planning	250,000

(SECTION 4 OF THIS ACT BEGINS ON PAGE 58)

* **Sec. 4.** LEGISLATIVE INTENT. (a) It is the intent of the legislature that the amounts appropriated by this Act are the full amounts that will be appropriated for those purposes for the fiscal year ending June 30, 2010.

(b) It is the intent of the legislature that money appropriated from the general fund be expended conservatively. If an appropriation includes the unexpended and unobligated balance of program receipts collected in a prior fiscal year, it is the intent of the legislature that the program receipts be expended, as allowed, before the expenditure of other money appropriated from the general fund. It is the intent of the legislature that the office of management and budget and the Department of Administration assist the legislature in carrying out this intent.

* **Sec. 5.** COSTS OF JOB RECLASSIFICATIONS. The money appropriated in this Act includes the amount necessary to pay the costs of personal services due to reclassification of job classes during the fiscal year ending June 30, 2010.

* **Sec. 6.** PERSONAL SERVICES TRANSFERS. It is the intent of the legislature that agencies restrict transfers to and from the personal services line. It is the intent of the legislature that the office of management and budget submit a report to the legislature on January 15, 2010, that describes and justifies all transfers to and from the personal services line by executive branch agencies during the first half of the fiscal year ending June 30, 2010. It is the intent of the legislature that the office of management and budget submit a report to the legislature on August 1, 2010, that describes and justifies all transfers to and from the personal services line by executive branch agencies during the second half of the fiscal year ending June 30, 2010.

* **Sec. 7.** ALASKA AEROSPACE DEVELOPMENT CORPORATION. Federal receipts and other corporate receipts of the Alaska Aerospace Development Corporation received during the fiscal year ending June 30, 2010, that are in excess of the amount appropriated in sec. 1 of this Act are appropriated to the Alaska Aerospace Development Corporation for operations for the fiscal year ending June 30, 2010.

* **Sec. 8.** ALASKA PERMANENT FUND CORPORATION. (a) The amount authorized under AS 37.13.145(b) for transfer by the Alaska Permanent Fund Corporation on June 30, 2010, is appropriated from the earnings reserve account (AS 37.13.145(a)) to the dividend fund (AS 43.23.045(a)) for the payment of permanent fund dividends and administrative and

associated costs for the fiscal year ending June 30, 2010.

(b) After money is transferred to the dividend fund under (a) of this section, the amount calculated under AS 37.13.145(c) to offset the effect of inflation on the principal of the Alaska permanent fund during fiscal year 2010 is appropriated from the earnings reserve account (AS 37.13.145(a)) to the principal of the Alaska permanent fund.

(c) The amount required to be deposited under AS 37.13.010(a)(1) and (2) during fiscal year 2010 is appropriated to the principal of the Alaska permanent fund in satisfaction of that requirement.

*** Sec. 9.** DEPARTMENT OF ADMINISTRATION. The amount necessary to fund the uses of the state insurance catastrophe reserve account described in AS 37.05.289(a) is appropriated from that account to the Department of Administration for those uses during the fiscal year ending June 30, 2010.

*** Sec. 10.** DEPARTMENT OF COMMERCE, COMMUNITY, AND ECONOMIC DEVELOPMENT. (a) The unexpended and unobligated balance of federal money apportioned to the state as national forest income that the Department of Commerce, Community, and Economic Development determines would lapse into the unrestricted portion of the general fund June 30, 2010, under AS 41.15.180(j) is appropriated as follows:

(1) up to $170,000 is appropriated to the Department of Transportation and Public Facilities, commissioner's office, for road maintenance in the unorganized borough, for the fiscal year ending June 30, 2010;

(2) the balance remaining after the appropriation made by (1) of this subsection is appropriated to home rule cities, first class cities, second class cities, a municipality organized under federal law, or regional educational attendance areas entitled to payment from the national forest income for the fiscal year ending June 30, 2010, to be allocated among the recipients of national forest income according to their pro rata share of the total amount distributed under AS 41.15.180(c) and (d) for the fiscal year ending June 30, 2010.

(b) An amount equal to the salmon enhancement tax collected under AS 43.76.001 - 43.76.028 in calendar year 2008 and deposited in the general fund under AS 43.76.025(c) is appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment in fiscal year 2010 to qualified regional associations

operating within a region designated under AS 16.10.375.

(c) An amount equal to the seafood development tax collected under AS 43.76.350 - 43.76.399 in calendar year 2008 and deposited in the general fund under AS 43.76.380(d) is appropriated from the general fund to the Department of Commerce, Community, and Economic Development for payment in fiscal year 2010 to qualified regional seafood development associations.

(d) The sum of $20,892,700 is appropriated from the power cost equalization endowment fund (AS 42.45.070) to the Department of Commerce, Community, and Economic Development, Alaska Energy Authority, power cost equalization allocation, for the fiscal year ending June 30, 2010.

(e) If the amount appropriated in (d) of this section is not sufficient to pay power cost equalization program costs without proration, the amount necessary to pay power cost equalization program costs without proration, estimated to be $11,267,300, is appropriated from the general fund to the Department of Commerce, Community, and Economic Development, Alaska Energy Authority, power cost equalization allocation, for the fiscal year ending June 30, 2010.

* **Sec. 11.** DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT. (a) If the amount necessary to pay benefit payments from the fishermen's fund (AS 23.35.060) exceeds the amounts appropriated in sec. 1 of this Act, the additional amount necessary to pay those benefit payments is appropriated from that fund to the Department of Labor and Workforce Development, fishermen's fund allocation, for the fiscal year ending June 30, 2010.

(b) If the amount necessary to pay benefit payments from the second injury fund (AS 23.30.040(a)) exceeds the amount appropriated in sec. 1 of this Act, the additional amount necessary to make those benefit payments is appropriated from the second injury fund to the Department of Labor and Workforce Development, second injury fund allocation, for the fiscal year ending June 30, 2010.

(c) If the amount necessary to pay benefit payments from the workers' compensation benefits guaranty fund (AS 23.30.082) exceeds the amount appropriated in sec. 1 of this Act, the additional amount necessary to pay those benefit payments is appropriated from that fund to the Department of Labor and Workforce Development, workers' compensation benefits guaranty fund allocation, for the fiscal year ending June 30, 2010.

*** Sec. 12.** DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS. Five percent of the market value of the average ending balances in the Alaska veterans' memorial endowment fund (AS 37.14.700) for the fiscal years ending June 30, 2007, June 30, 2008, and June 30, 2009, is appropriated from the Alaska veterans' memorial endowment fund to the Department of Military and Veterans' Affairs for the purposes specified in AS 37.14.730(b) for the fiscal year ending June 30, 2010.

*** Sec. 13.** DEPARTMENT OF NATURAL RESOURCES. (a) Federal receipts received for fire suppression during the fiscal year ending June 30, 2010, are appropriated to the Department of Natural Resources for fire suppression activities for the fiscal year ending June 30, 2010.

(b) The amount necessary for the purposes specified in AS 37.14.820 for the fiscal year ending June 30, 2010, is appropriated from the mine reclamation trust fund operating account (AS 37.14.800(a)) to the Department of Natural Resources.

(c) The sum of $250,000 is appropriated from the general fund to the Department of Natural Resources, forest management and development allocation, for a private and public forest assessment for the fiscal years ending June 30, 2010, and June 30, 2011.

*** Sec. 14.** DEPARTMENT OF PUBLIC SAFETY. (a) The sum of $1,393,200 is appropriated from the general fund to the Department of Public Safety, division of Alaska state troopers, narcotics task force, for drug and alcohol enforcement efforts during the fiscal year ending June 30, 2010.

(b) If the amount of federal receipts received by the Department of Public Safety from the justice assistance grant program during the fiscal year ending June 30, 2010, for drug and alcohol enforcement efforts exceeds $1,289,100, the appropriation in (a) of this section is reduced by the amount by which the federal receipts exceed $1,289,100.

(c) The sum of $1,270,000 is appropriated from the general fund to the Department of Public Safety, division of Alaska state troopers, special projects, for rural alcohol interdiction efforts for the fiscal year ending June 30, 2010.

(d) If federal receipts are received by the Department of Public Safety for the rural alcohol interdiction program for the fiscal year ending June 30, 2010, the appropriation in (c) of this section is reduced by the amount of the federal receipts.

*** Sec. 15.** DEPARTMENT OF REVENUE. (a) The minimum amount of program receipts

received for the fiscal year ending June 30, 2010, by the child support services agency that is required to secure the federal funding appropriated from those program receipts for the child support enforcement program in sec. 1 of this Act is appropriated to the Department of Revenue, child support services agency, for the fiscal year ending June 30, 2010.

(b) Program receipts collected as cost recovery for paternity testing administered by the child support services agency, as required under AS 25.27.040 and 25.27.165, and as collected under AS 25.20.050(f), are appropriated to the Department of Revenue, child support services agency, for the fiscal year ending June 30, 2010.

*** Sec. 16.** OFFICE OF THE GOVERNOR. (a) If the 2010 fiscal year-to-date average price of Alaska North Slope crude oil exceeds $35 a barrel on August 1, 2009, the amount of money corresponding to the 2010 fiscal year-to-date average price, rounded to the nearest dollar, as set out in the table in (c) of this section is appropriated from the general fund to the Office of the Governor for distribution to state agencies to offset increased fuel and utility costs.

(b) If the 2010 fiscal year-to-date average price of Alaska North Slope crude oil exceeds $35 a barrel on December 1, 2009, the amount of money corresponding to the 2010 fiscal year-to-date average price, rounded to the nearest dollar, as set out in the table in (c) of this section is appropriated from the general fund to the Office of the Governor for distribution to state agencies to offset increased fuel and utility costs.

(c) The following table shall be used in determining the amount of the appropriations in (a) and (b) of this section:

2010 FISCAL YEAR-TO-DATE AVERAGE PRICE OF ALASKA NORTH SLOPE CRUDE OIL	AMOUNT
$90 or more	$27,500,000
89	27,000,000
88	26,500,000
87	26,000,000

37	1,000,000
36	500,000
35	0

(d) It is the intent of the legislature that a payment under (a) or (b) of this section be used to offset the effects of higher fuel and utility costs for the fiscal year ending June 30, 2010.

(e) The governor shall allocate amounts appropriated in (a) and (b) of this section as follows:

(1) to the Department of Transportation and Public Facilities, 65 percent of the total plus or minus 10 percent;

(2) to the University of Alaska, eight percent of the total plus or minus three percent;

(3) to the Department of Health and Social Services and the Department of Corrections, not more than five percent each of the total amount appropriated;

(4) to any other state agency, not more than four percent of the total amount appropriated;

(5) the aggregate amount allocated may not exceed 100 percent of the appropriation.

*** Sec. 17.** UNIVERSITY OF ALASKA. The amount of the fees collected under AS 28.10.421(d) during the fiscal year ending June 30, 2009, for the issuance of special request university plates, less the cost of issuing the license plates, is appropriated from the general fund to the University of Alaska for support of alumni programs at the campuses of the university for the fiscal year ending June 30, 2010.

*** Sec. 18.** BOND CLAIMS. The amount received in settlement of a claim against a bond guaranteeing the reclamation of state, federal, or private land, including the plugging or repair of a well, is appropriated to the agency secured by the bond for the fiscal year ending June 30, 2010, for the purpose of reclaiming the state, federal, or private land affected by a use covered by the bond.

*** Sec. 19.** FEDERAL AND OTHER PROGRAM RECEIPTS. (a) Federal receipts, designated program receipts as defined in AS 37.05.146(b)(3), information services fund program receipts as described in AS 44.21.045(b), Exxon Valdez oil spill trust receipts described in AS 37.05.146(b)(4), receipts of the Alaska Housing Finance Corporation, receipts of the Alaska marine highway system fund described in AS 19.65.060(a), receipts of the University of Alaska as described in AS 37.05.146(b)(2), and receipts of the Alaska Fire Standards Council described in AS 37.05.146(b)(5) that are received during the fiscal year ending June 30, 2010, and that exceed the amounts appropriated by this Act, are appropriated conditioned on compliance with the program review provisions of AS 37.07.080(h).

(b) If federal or other program receipts as defined in AS 37.05.146 and in AS 44.21.045(b) that are received during the fiscal year ending June 30, 2010, exceed the amounts appropriated by this Act, the appropriations from state funds for the affected program shall be reduced by the excess if the reductions are consistent with applicable federal statutes.

(c) If federal or other program receipts as defined in AS 37.05.146 and in AS 44.21.045(b) that are received during the fiscal year ending June 30, 2010, fall short of the amounts appropriated by this Act, the affected appropriation is reduced by the amount of the

shortfall in receipts.

*** Sec. 20.** FUND TRANSFERS. (a) The following amounts are appropriated to the Alaska debt retirement fund (AS 37.15.011):

(1) the sum of $118,571,000 from the general fund;

(2) the sum of $12,007,700 from federal receipts for state-guaranteed transportation revenue anticipation bonds, series 2003B;

(3) the sum of $2,837,400 from the investment earnings on the bond proceeds deposited in the capital project funds for the series 2003A general obligation bonds;

(4) the sum of $877,400 from the investment earnings on the bond proceeds deposited in the capital project fund for the state guaranteed transportation revenue anticipation bonds, series 2003B;

(5) the sum of $26,000 from the investment loss trust fund (AS 37.14.300);

(6) if the Alaska debt retirement fund balance is insufficient to pay the debt service obligations on the State of Alaska general obligation bonds, series 2003A and 2009A, the amount necessary is appropriated from the general fund.

(b) The federal funds received by the state under 42 U.S.C. 6506a(*l*) or former 42 U.S.C. 6508 not appropriated for grants under AS 37.05.530(d) are appropriated as follows:

(1) to the principal of the Alaska permanent fund and the public school trust fund (AS 37.14.110), according to AS 37.05.530(g)(1) and (2); and

(2) to the principal of the Alaska permanent fund, the public school trust fund (AS 37.14.110), and the power cost equalization and rural electric capitalization fund (AS 42.45.100), according to AS 37.05.530(g)(3).

(c) The following amounts of revenue collected during the fiscal year ending June 30, 2010, are appropriated to the fish and game fund (AS 16.05.100):

(1) receipts from the sale of crewmember fishing licenses (AS 16.05.480(a)) that are not deposited into the fishermen's fund under AS 23.35.060;

(2) range fees collected at shooting ranges operated by the Department of Fish and Game (AS 16.05.050(a)(15));

(3) fees collected at boating and angling access sites described in AS 16.05.050(a)(6) and managed by the Department of Natural Resources, division of parks and outdoor recreation, under a cooperative agreement;

(4) receipts from the sale of waterfowl conservation stamp limited edition prints (AS 16.05.826(a));

(5) fees collected for sanctuary access permits (AS 16.05.050(a)(15)).

(d) The following amounts are appropriated to the oil and hazardous substance release prevention account (AS 46.08.010(a)(1)) in the oil and hazardous substance release prevention and response fund (AS 46.08.010) from the sources indicated:

(1) the balance of the oil and hazardous substance release prevention mitigation account (AS 46.08.020(b)) in the general fund on July 1, 2009, not otherwise appropriated by this Act;

(2) the amount collected for the fiscal year ending June 30, 2009, estimated to be $11,100,000, from the surcharge levied under AS 43.55.300.

(e) The following amounts are appropriated to the oil and hazardous substance release response account (AS 46.08.010(a)(2)) in the oil and hazardous substance release prevention and response fund (AS 46.08.010) from the following sources:

(1) the balance of the oil and hazardous substance release response mitigation account (AS 46.08.025(b)) in the general fund on July 1, 2009, not otherwise appropriated by this Act;

(2) the amount collected for the fiscal year ending June 30, 2009, from the surcharge levied under AS 43.55.201;

(f) The portions of the fees listed in this subsection that are collected during the fiscal year ending June 30, 2010, are appropriated to the Alaska children's trust (AS 37.14.200):

(1) fees collected under AS 18.50.225, less the cost of supplies, for the issuance of birth certificates;

(2) fees collected under AS 18.50.272, less the cost of supplies, for the issuance of heirloom marriage certificates;

(3) fees collected under AS 28.10.421(d) for the issuance of special request Alaska children's trust license plates, less the cost of issuing the license plates.

(g) The loan origination fees collected by the Alaska Commission on Postsecondary Education for the fiscal year ending June 30, 2010, are appropriated to the origination fee account (AS 14.43.120(u)) in the education loan fund (AS 14.42.210) of the Alaska Student Loan Corporation for the purposes specified in AS 14.43.120(u).

(h) The amount of federal receipts received for disaster relief during the fiscal year ending June 30, 2010, is appropriated to the disaster relief fund (AS 26.23.300).

(i) The sum of $7,500,000 is appropriated from the general fund to the disaster relief fund (AS 26.23.300).

(j) The balance of the mine reclamation trust fund income account (AS 37.14.800(a)) on June 30, 2009, and money deposited in that account during the fiscal year ending June 30, 2010, are appropriated to the mine reclamation trust fund operating account (AS 37.14.800(a)) for the fiscal year ending June 30, 2010.

(k) The sum of $6,000,000 is appropriated to the Alaska clean water fund (AS 46.03.032) for the Alaska clean water loan program from the following sources:

Alaska clean water fund revenue bond receipts	$1,000,000
Federal receipts	5,000,000

(*l*) The sum of $7,660,000 is appropriated to the Alaska drinking water fund (AS 46.03.036) for the Alaska drinking water loan program from the following sources:

Alaska drinking water fund revenue bond receipts	$1,660,000
Federal receipts	6,000,000

(m) The amount of municipal bond bank receipts determined under AS 44.85.270(h) to be available for transfer by the Alaska Municipal Bond Bank Authority for the fiscal year ending June 30, 2009, is appropriated to the Alaska municipal bond bank authority reserve fund (AS 44.85.270(a)).

(n) An amount equal to the bulk fuel revolving loan fund fees established under AS 42.45.250(j) and collected under AS 42.45.250(k) from July 1, 2008, through June 30, 2009, estimated to be $45,000, is appropriated from the general fund to the bulk fuel revolving loan fund (AS 42.45.250).

(o) The sum of $8,400,000 is appropriated from the Alaska sport fishing enterprise account (AS 16.05.130(e)) in the fish and game fund (AS 16.05.100) to the Alaska fish and game revenue bond redemption fund (AS 37.15.770).

(p) An amount equal to the federal receipts deposited in the Alaska sport fishing enterprise account (AS 16.05.130(e)), not to exceed $1,584,200, as reimbursement for the federally allowable portion of the principal balance payment on the sport fishing revenue bonds series 2006 is appropriated from the Alaska sport fishing enterprise account

(AS 16.05.130(e)) to the fish and game fund (AS 16.05.100).

(q) The sum of $459,200 is appropriated from the general fund to the crime victim compensation fund (AS 18.67.162).

(r) The amount received under AS 18.67.162 as program receipts, including donations and recoveries of or reimbursement for awards made from the fund, during the fiscal year ending June 30, 2010, is appropriated to the crime victim compensation fund (AS 18.67.162).

(s) If the Alaska Municipal Bond Bank Authority must draw on the Alaska municipal bond bank authority reserve fund (AS 44.85.270), 2005 general bond resolution reserve, because of a default by a borrower, an amount equal to the amount drawn from the reserve is appropriated from the general fund to the Alaska municipal bond bank authority reserve fund (AS 44.85.270).

* **Sec. 21.** RETAINED FEES AND BANKCARD SERVICE FEES. (a) The amount retained to compensate the collector or trustee of fees, licenses, taxes, or other money belonging to the state during the fiscal year ending June 30, 2010, is appropriated for that purpose to the agency authorized by law to generate the revenue. In this subsection, "collector or trustee" includes vendors retained by the state on a contingency fee basis.

(b) The amount retained to compensate the provider of bankcard or credit card services to the state during the fiscal year ending June 30, 2010, is appropriated for that purpose to each agency of the executive, legislative, and judicial branches that accepts payment by bankcard or credit card for licenses, permits, goods, and services provided by that agency on behalf of the state, and to the Department of Law for accepting payment of restitution in accordance with AS 12.55.051 by bankcard or credit card, from the funds and accounts in which the payments received by the state are deposited.

* **Sec. 22.** RETIREMENT SYSTEM FUNDING. (a) The sum of $173,462,000 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the teachers' retirement system as an additional state contribution under AS 14.25.085 for the fiscal year ending June 30, 2010.

(b) The sum of $107,953,000 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the public employees' retirement system as an additional state contribution under AS 39.35.280 for the fiscal year ending June 30, 2010.

(c) The sum of $1,722,500 is appropriated from the general fund to the Department of Military and Veterans' Affairs for deposit in the defined benefit plan account in the Alaska National Guard and Alaska Naval Militia retirement system for the purpose of funding the Alaska National Guard and Alaska Naval Militia retirement system under AS 26.05.226 for the fiscal year ending June 30, 2010.

(d) The sum of $1,550,000 is appropriated from the general fund to the Department of Administration for deposit in the defined benefit plan account in the judicial retirement system for the purpose of funding the judicial retirement system under AS 22.25.046 for the fiscal year ending June 30, 2010.

* **Sec. 23.** SALARY AND BENEFIT ADJUSTMENTS. (a) The operating budget appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2010, of the following ongoing collective bargaining agreements:

(1) Alaska Public Employees Association, for the confidential unit;

(2) Alaska State Employees Association, for the general government unit;

(3) Alaska Public Employees Association, for the supervisory unit;

(4) Alaska Vocational Technical Center Teachers' Association - National Education Association, representing employees of the Alaska Vocational Technical Center;

(5) Public Safety Employees Association, representing regularly commissioned public safety officers;

(6) Inlandboatmen's Union of the Pacific, for the unlicensed marine unit; and

(7) International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit.

(b) The operating budget appropriations made to the University of Alaska in this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2010, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

(d) The operating appropriations made in sec. 1 of this Act are intended to fully fund the compensation and benefits of an executive department head under AS 39.23.540(g).

* **Sec. 24.** SHARED TAXES AND FEES. (a) The amount necessary to refund to local governments their share of taxes and fees collected in the listed fiscal years under the following programs is appropriated from the general fund to the Department of Revenue for payment to local governments in the fiscal year ending June 30, 2010:

REVENUE SOURCE	FISCAL YEAR COLLECTED
Commercial passenger vessel excise tax (AS 43.52.230(a))	2009
Fisheries business tax (AS 43.75)	2009
Fishery resource landing tax (AS 43.77)	2009
Aviation fuel tax (AS 43.40.010)	2010
Electric and telephone cooperative tax (AS 10.25.570)	2010
Liquor license fee (AS 04.11)	2010

(b) The amount necessary, estimated to be $55,000, to pay to municipalities that amount of aviation fuel tax proceeds to which the municipalities would have been entitled under AS 43.40.010(e) for aviation fuel taxes that would have been due under AS 43.40.010 during the fiscal year ending June 30, 2010, but were not collected during a suspension from July 1, 2009, through August 31, 2009, of motor fuel taxes imposed under AS 43.40.010 is appropriated from the general fund to the Department of Revenue for the fiscal year ending June 30, 2010, for payment to municipalities of the amounts to which the municipalities would have been entitled to under AS 43.40.010(e) had the motor fuel tax not been suspended.

(c) It is the intent of the legislature that the payments to local governments set out in (a) and (b) of this section may be assigned by a local government to another state agency.

*** Sec. 25.** STATE DEBT AND OTHER OBLIGATIONS. (a) The amount required to pay interest on any revenue anticipation notes issued by the commissioner of revenue under AS 43.08 during the fiscal year ending June 30, 2010, is appropriated from the general fund to the Department of Revenue for payment of the interest on those notes.

(b) The amount required to be paid by the state for principal and interest on all issued and outstanding state-guaranteed bonds is appropriated from the general fund to the Alaska Housing Finance Corporation for payment of principal and interest on those bonds, for the fiscal year ending June 30, 2010.

(c) The sum of $30,455,300 is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2010.

(d) The sum of $221,500 is appropriated to the state bond committee from State of Alaska general obligation bonds, series 2003A bond issue premium, interest earnings, and accrued interest held in the debt service fund of the series 2003A bonds for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2003A, for the fiscal year ending June 30, 2010.

(e) The sum of $10,067,700 is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding State of Alaska general obligation bonds, series 2009A, for the fiscal year ending June 30, 2010.

(f) If the amount necessary to pay the debt service obligations on the outstanding State of Alaska general obligation bonds, series 2003A and 2009A, exceeds the amounts appropriated in (c), (d), or (e) of this section, the additional amount necessary is appropriated from the Alaska debt retirement fund (AS 37.15.011) for payment of those obligations for the fiscal year ending June 30, 2010.

(g) The sum of $12,885,100 is appropriated to the state bond committee from the Alaska debt retirement fund (AS 37.15.011) for payment of debt service, accrued interest, and trustee fees on outstanding state-guaranteed transportation revenue anticipation bonds, series

2003B, for the fiscal year ending June 30, 2010.

(h) The sum of $1,300 is appropriated to the state bond committee from state-guaranteed transportation revenue anticipation bonds, series 2003B bond issue premium, interest earnings, and accrued interest held in the debt service fund of the series 2003B bonds for payment of debt service and trustee fees on outstanding state-guaranteed transportation revenue anticipation bonds, series 2003B, for the fiscal year ending June 30, 2010.

(i) The sum of $50,028,700 is appropriated to the state bond committee for payment of debt service and trustee fees on outstanding international airports revenue bonds for the fiscal year ending June 30, 2010, from the following sources in the amounts stated:

SOURCE	AMOUNT
International Airports Revenue Fund (AS 37.15.430)	$46,828,700
Passenger facility charge	3,200,000

(j) The sum of $1,005,000 is appropriated from interest earnings of the Alaska clean water fund (AS 46.03.032) to the Alaska clean water fund revenue bond redemption fund (AS 37.15.565) for payment of principal and interest, redemption premium, and trustee fees, if any, on bonds issued by the state bond committee under AS 37.15.560 for the fiscal year ending June 30, 2010.

(k) The sum of $1,670,000 is appropriated from interest earnings of the Alaska drinking water fund (AS 46.03.036) to the Alaska drinking water fund revenue bond redemption fund (AS 37.15.565) for payment of principal and interest, redemption premium, and trustee fees, if any, on bonds issued by the state bond committee under AS 37.15.560 for the fiscal year ending June 30, 2010.

(*l*) The sum of $8,036,300 is appropriated from the Alaska debt retirement fund (AS 37.15.011) to the state bond committee for trustee fees and lease payments relating to certificates of participation issued for real property, for the fiscal year ending June 30, 2010.

(m) The sum of $3,467,100 is appropriated from the general fund to the Department of Administration for payment of obligations to the Alaska Housing Finance Corporation for the Robert B. Atwood Building in Anchorage, for the fiscal year ending June 30, 2010.

(n) The sum of $22,917,300 is appropriated from the general fund to the Department of Administration for the fiscal year ending June 30, 2010, for payment of obligations and fees for the following facilities:

FACILITY	ALLOCATION
(1) Anchorage Jail	$ 5,103,900
(2) Goose Creek Correctional Center	17,813,400

(o) The sum of $3,303,500 is appropriated from the general fund to the Department of Administration for payment of obligations to the Alaska Housing Finance Corporation for the Linny Pacillo Parking Garage in Anchorage, for the fiscal year ending June 30, 2010.

(p) The sum of $100,045,300 is appropriated to the Department of Education and Early Development for state aid for costs of school construction under AS 14.11.100 from the following sources:

Alaska debt retirement fund (AS 37.15.011)	$77,045,300
School fund (AS 43.50.140)	23,000,000

(q) The sum of $5,548,923 is appropriated from the general fund to the following agencies for the fiscal year ending June 30, 2010, for payment of debt service on outstanding debt authorized by AS 14.40.257, AS 29.60.700, and AS 42.45.065, respectively, for the following projects:

AGENCY AND PROJECT	APPROPRIATION AMOUNT
(1) University of Alaska	$1,412,615
Anchorage Community and Technical College Center	
Juneau Readiness Center/UAS Joint Facility	
(2) Department of Transportation and Public Facilities	
(A) Nome (port facility addition and renovation)	127,500
(B) Matanuska-Susitna Borough (deep water port and road upgrade)	755,120
(C) Aleutians East Borough/False Pass (small boat harbor)	101,840
(D) Lake and Peninsula Borough/Chignik (dock project)	117,844
(E) City of Fairbanks (fire headquarters station replacement)	872,115

(F) City of Valdez (harbor renovations)		225,743
(G) Aleutians East Borough/Akutan (small boat harbor)		303,948
(H) Fairbanks North Star Borough (Eielson AFB Schools, major maintenance and upgrades)		337,343
(3) Alaska Energy Authority		
(A) Kodiak Electric Association (Nyman combined cycle cogeneration plant)		943,676
(B) Copper Valley Electric Association (cogeneration projects)		351,179

(r) The sum of $8,900,000 is appropriated from the Alaska fish and game revenue bond redemption fund (AS 37.15.770) to the state bond committee for payment of debt service, accrued interest, and trustee fees on outstanding sport fish hatchery revenue bonds. It is the intent of the legislature that the sum of $3,600,000 of the appropriation made by this subsection be used for early redemption of the bonds.

* **Sec. 26.** CONSTITUTIONAL BUDGET RESERVE FUND. (a) Deposits in the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) for fiscal year 2009 that are made from subfunds and accounts other than the operating general fund (state accounting system fund number 11100) by operation of art. IX, sec. 17(d), Constitution of the State of Alaska, to repay appropriations from the budget reserve fund are appropriated from the budget reserve fund to the subfunds and accounts from which those funds were transferred.

(b) Unrestricted interest earned on investment of the general fund balances for the fiscal year ending June 30, 2010, is appropriated to the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska). The appropriation made by this subsection is intended to compensate the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) for any lost earnings caused by use of the fund's balance to permit expenditure of operating and capital appropriations in the fiscal year ending June 30, 2010, in anticipation of receiving unrestricted general fund revenue. The amount appropriated by this subsection may not exceed an amount equal to the earnings lost by the budget reserve fund as the result of the use of money from the budget reserve fund to permit expenditure of operating and capital

appropriations in the fiscal year ending June 30, 2010, in anticipation of receiving unrestricted general fund revenue.

(c) The sum of $1,673,000 is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the Department of Revenue, treasury division, for operating costs related to management of the budget reserve fund for the fiscal year ending June 30, 2010.

(d) If the unrestricted state revenue available for appropriation in fiscal year 2009 is insufficient to cover the general fund appropriations that take effect in fiscal year 2009, the amount necessary to balance revenue and general fund appropriations is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the general fund.

(e) An amount equal to 20 percent of the revenue collected under AS 43.55.011(g), not to exceed $60,000,000, is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the community revenue sharing fund (AS 29.60.850).

(f) The sum of $1,111,914,700 is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the public education fund (AS 14.17.300).

(g) If the unrestricted state revenue available for appropriation in fiscal year 2010 is insufficient to cover the general fund appropriations that take effect in fiscal year 2010, the amount necessary to balance revenue and general fund appropriations is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the general fund.

(h) The appropriations made by (a) and (c) - (g) of this section are made under art. IX, sec. 17(c), Constitution of the State of Alaska.

*** Sec. 27.** NONLAPSE OF APPROPRIATIONS. The appropriations made by secs. 8, 20, 22, 25(j), 25(k), 26(e), and 26(f) of this Act are for the capitalization of funds and do not lapse.

*** Sec. 28.** RETROACTIVITY. Those portions of the appropriations made in sec. 1 of this Act that appropriate either the unexpended and unobligated balance of specific fiscal year 2009 program receipts or the unexpended and unobligated balance on June 30, 2009, of a specified account are retroactive to June 30, 2009, solely for the purpose of carrying forward a prior fiscal year balance.

*** Sec. 29.** Sections 26(d) and 28 of this Act take effect June 30, 2009.

*** Sec. 30.** Except as provided in sec. 29 of this Act, this Act takes effect July 1, 2009.

CS FOR HOUSE BILL NO. 83(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making appropriations for the operating and capital expenses of the state's integrated comprehensive mental health program; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2009 and ending June 30, 2010, unless otherwise indicated. A department-wide, agency-wide, or branch-wide unallocated reduction set out in this section may be allocated among the appropriations made in this section to that department, agency, or branch.

	Allocations	Appropriation Items	General Funds	Other Funds
* * * * *		* * * * *		
* * * * * **Department of Administration** * * * * *				
* * * * *		* * * * *		
Legal and Advocacy Services		**2,024,500**	**1,873,200**	**151,300**
Office of Public Advocacy	1,723,100			
Public Defender Agency	301,400			
* * * * *		* * * * *		
* * * * * **Department of Corrections** * * * * *				
* * * * *		* * * * *		
Inmate Health Care		**7,169,900**	**6,795,900**	**374,000**
Inmate Health Care	7,169,900

* * * * *			* * * * *	
* * * * * **Department of Health and Social Services** * * * * *				
* * * * *			* * * * *	

No money appropriated in this appropriation may be expended for an abortion that is not a mandatory service required under AS 47.07.030(a). The money appropriated for Health and Social Services may be expended only for mandatory services required under Title XIX of the

	Appropriation	General	Other
	Allocations	Items	Funds	Funds

Social Security Act and for optional services offered by the state under the state plan for medical assistance that has been approved by the United States Department of Health and Human Services.

It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2010 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.

It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are $50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.

It is the intent of the legislature that the Department of Health and Social Services make a single 'upfront' payment for any grant award that is $50,000 or less and includes a signature of the grantee certifying compliance with the terms of the grant with their approved application. Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during

	Allocations	Appropriation Items	General Funds	Other Funds
the selection process.				
Alaska Pioneer Homes		**13,757,100**	**13,757,100**	
It is the intent of the legislature that the Department maintain regulations requiring all residents of the Pioneer Homes to apply for all appropriate benefit programs prior to a state subsidy being provided for their care from the State Payment Assistance program.				
It is the intent of the legislature that all pioneers' homes and veterans' homes applicants shall complete any forms to determine eligibility for supplemental program funding, such as Medicaid, Medicare, SSI, and other benefits as part of the application process. If an applicant is not able to complete the forms him/herself, or if relatives or guardians of the applicant are not able to complete the forms, Department of Health and Social Services staff may complete the forms for him/her, obtain the individuals' or designee's signature and submit for eligibility per AS 47.25.120.				
Alaska Pioneer Homes Management	64,300			
Pioneer Homes	13,692,800			
Behavioral Health		**119,198,000**	**95,626,100**	**23,571,900**
AK Fetal Alcohol Syndrome Program	59,500			
Alcohol Safety Action Program (ASAP)	1,188,300			
Behavioral Health Medicaid Services	43,862,400			
Behavioral Health Grants	25,307,300			
It is the intent of the legislature that the department continue developing policies and procedures surrounding the awarding of recurring grants to assure that applicants are regularly evaluated on their performance in achieving outcomes consistent with the expectations and missions of the Department related to their specific grant. The recipient's specific performance should be measured and incorporated into the decision whether to continue awarding grants. Performance measurement should be standardized, accurate, objective and fair, recognizing and compensating for differences among grant recipients including acuity of services provided, client base, geographic location and other factors necessary and appropriate				

	Allocations	Appropriation Items	General Funds	Other Funds
to reconcile and compare grant recipient performances across the array of providers and services involved.				
It is the intent of the legislature that the $181.0 increment in the FY10 budget for Behavioral Health Grants be used for the Volunteers of America ARCH residential treatment center for adolescents with substance abuse/dependency and co-occurring disorders.				
Behavioral Health Administration	3,392,000			
Community Action Prevention & Intervention Grants	1,047,200			
Rural Services and Suicide Prevention	2,135,700			
Psychiatric Emergency Services	7,673,000			
Services to the Seriously Mentally Ill	12,724,200			
Designated Evaluation and Treatment	3,031,900			
Services for Severely Emotionally Disturbed Youth	11,947,200			
Alaska Psychiatric Institute	5,861,900			
AK Mental Health & Alcohol & Drug Abuse Boards	884,600			
Suicide Prevention Council	82,800			
Children's Services		**13,314,700**	**12,984,700**	**330,000**
Children's Medicaid Services	4,185,600			
Children's Services Management	69,600			

	Allocations	Appropriation Items	General Funds	Other Funds
Front Line Social Workers	148,600			
Family Preservation	150,000			
Foster Care Augmented Rate	500,000			
Foster Care Special Need	747,900			
Residential Child Care	1,956,300			
Infant Learning Program Grants	5,556,700			
Health Care Services		**456,000**	**350,000**	**106,000**
Health Planning and Infrastructure	456,000			
Juvenile Justice		**1,055,100**	**865,900**	**189,200**
McLaughlin Youth Center	654,700			
Fairbanks Youth Facility	103,700			
Bethel Youth Facility	57,100			
Probation Services	239,600			
Public Assistance		**13,200**	**13,200**	
Public Assistance Administration	13,200			
Public Health		**1,096,800**	**971,800**	**125,000**
Nursing	98,300			
Women, Children and Family Health	877,700			
Certification and Licensing	120,800			
Senior and Disabilities Services		**15,058,000**	**13,602,200**	**1,455,800**

It is the intent of the legislature that regulations related to the General Relief / Temporary Assisted Living program be reviewed and revised as needed to minimize the length of time that the state provides housing alternatives and assure the services are provided only to intended beneficiaries who are actually experiencing harm, abuse or neglect. The department should educate care coordinators and direct service providers about who should be referred and when they are correctly referred to the program in order that referring agents correctly

	Allocations	Appropriation Items	General Funds	Other Funds
match consumer needs with the program services intended by the department.				
General Relief/Temporary Assisted Living	740,300			
Senior and Disabilities Services Administration	2,737,900			
Senior Community Based Grants	3,069,400			
It is the intent of the legislature that funding in the FY 2010 budget for Senior Community Based Grants be used to invest in successful home and community based supports provided by grantees who have demonstrated successful outcomes documented in accordance with the department's performance based evaluation procedures.				
Community Developmental Disabilities Grants	7,924,800			
Commission on Aging	117,000			
Governor's Council on Disabilities and Special Education	468,600			
Departmental Support Services		**1,453,800**	**1,403,800**	**50,000**
Commissioner's Office	157,800			
It is the intent of the legislature that the Department of Health and Social Services complete the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid providers:				
1. Develop regulations addressing the use of extrapolation methodology following an audit of Medicaid providers that clearly defines the difference between actual overpayment of funds to a provider and ministerial omission or clerical billing error that does not result in overpayment to the provider. The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.				
2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts.				
All audits initiated after the effective date of this intent and resulting in findings of

overpayment will be calculated under the Department's new regulations governing overpayment standards and extrapolation methodology.				
It is the intent of the legislature that the department develops a ten year funding source and use of funds projection for the entire department.				
It is the intent of the legislature that the department continue working on implementing a provider rate rebasing process and specific funding recommendations for both Medicaid and non-Medicaid providers to be completed and available to the legislature no later than December 15, 2009.

(SECTION 4 OF THIS ACT BEGINS ON PAGE 13)

* **Sec. 4.** The following sets out the funding by agency for the appropriations made in sec. 3 of this Act.

Funding Source	Amount
Department of Transportation/Public Facilities	
1037 General Fund / Mental Health	800,000
1092 Mental Health Trust Authority Authorized Receipts	300,000
*** Total Agency Funding ***	$1,100,000
* * * * * Total Budget * * * * *	$1,100,000

(SECTION 5 OF THIS ACT BEGINS ON PAGE 14)

*** Sec. 5.** PURPOSE. In accordance with AS 37.14.003 and 37.14.005, the appropriations made by this Act are for the state's integrated comprehensive mental health program.

*** Sec. 6.** NONGENERAL FUND RECEIPTS. (a) Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) that exceed the amounts appropriated by this Act are appropriated conditioned upon compliance with the program review provisions of AS 37.07.080(h).

(b) If Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) fall short of the estimates appropriated in this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 7.** SALARY AND BENEFIT ADJUSTMENTS. (a) The appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2010, of the following ongoing collective bargaining agreements:

(1) Alaska Public Employees Association, for the confidential unit;

(2) Alaska State Employees Association, for the general government unit;

(3) Alaska Public Employees Association, for the supervisory unit;

(4) Alaska Vocational Technical Center Teachers' Association - National Education Association, for employees of the Alaska Vocational Technical Center;

(5) Public Safety Employees Association, for regularly commissioned public safety officers.

(b) The operating budget appropriations made to the University of Alaska in this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2010, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

(d) Appropriations made in sec. 1 of this Act for salary and benefit adjustments as described in (a) and (b) of this section are for the benefit of the state's integrated comprehensive mental health program only and do not necessarily affect every group of noncovered employees or every collective bargaining unit listed in (a) and (b) of this section.

*** Sec. 8.** This Act takes effect July 1, 2009.

Department of Administration
FY 10 Budget Subcommittee
February 26, 2009

Recommendations

Members:
Rep. Bill Thomas, Chair
Rep. Kurt Olson
Rep. Craig Johnson
Rep. Charisse Millett
Rep. Wes Keller
Rep. Chris Tuck
Rep. Max Gruenberg

The House Finance Budget Subcommittee for the Department of Administration submits an operating budget for FY 10 to the House Finance Committee as follows:

General Funds: $72,849.9
Federal Funds: $2,782.4
Other Funds: $217,610.1
Total: $293,242.4

The Subcommittee held four meetings with the Department and took the following actions:

Budget Action

Analyzed all transactions submitted by the Governor. The following are budget action highlights:

- Reviewed requests from the Alaska Public Broadcasting Commission for station operating grants and an internal budget increase. Alaska Public Radio received an increase in FY 09 of $400,000. The committee denies the requested increase.

- Reviewed requests from Partners for Progress, a non-profit entity that provides support to Therapeutic Courts, for an increase in program operating grants of $65,000 to replace federal funds that are expiring. Partners for Progress received an increase in FY 09 of $65,000; the requested increase would bring their total GF to $130,000. The committee denies the requested increase.

- Reviewed budget request for ALMR and did a three-year look back at the entire program. Committee recommends that the Department work with the municipalities and begin requiring the municipalities who participate in this program to pay their part of the operating and maintenance costs. The committee recommends a phase out approach to the state subsidy for the municipalities' share with full participation by the municipalities to begin in FY11. (Intent language has been added to the budget.)

- Reviewed the State Travel Office. The committee recommends that all out-of-state trips taken by state employees should be conducted on a mileage ticket where possible. (Intent language has been added to the budget.)

- Reviewed Centralized Administrative Services. Recommend that Finance Operations replace $220,000 in general fund monies with Capital Improvement Project receipts.

- Reviewed Finance Operations' request for additional authority to spend receipts anticipated under a new contract with the U.S. Bank for the Bank One Card. The funding from these receipts would be used to offset cost increases related to the Alaska Data Enterprise Reporting warehouse and to provide for vacancy factor reductions. The committee recommends a fund source change to General Fund monies in compliance with AS 37.05.142-144.

- Reviewed budget request from Enterprise Technology Services to increase the State of Alaska Telecommunications System (SATS) for operations and maintenance. The requested funding would assist in maintaining the operations of the SATS microwave network system which serves areas outside of Anchorage. Many state agencies use this system and the increase is important to its continued operation. The committee accepts the $300.0 general fund request, but feels that those that use this system should assist in its funding. The Department is asked to present the House Finance Co-Chairs with information on how the Department plans to charge the various other departments to recoup these costs.

- Reviewed fund source changes for unrealized contractual wage and health benefit increases. The committee rejects the Department's request to change the fund source of these increases from interagency receipts to general fund monies, and requests that the Department present the House Finance Co-Chairs with information on how the Department plans to charge the various other departments to recoup these costs within 10 days of this closeout.

Amendment Action

Reviewed amendments submitted by the Governor.

Accepted the following Governor's proposed amendments:

1.) Centralized Administrative Services	Dec	-$7.5	GF
2.) Public Defender Agency	Inc	$1,000.0	GF

Items of Concern

The committee is extremely concerned about the Alaska Land Mobile Radio program. This program has been in place for several years and thus far the Department has been unable to get the municipalities participating in the program to pay their share of the costs. The committee recommends that the Department do its best to work with the participating municipalities over the interim and strategize on how best to phase out this state subsidy and begin charging the municipalities the full amount of their share of the costs.

Attached Reports

The committee adopts the reports attached:

MEMORANDUM

DATE: February 27, 2009

TO: Representative Mike Hawker, Co-chair
Representative Bill Stoltze, Co-chair
House Finance Committee

FROM: Representative Alan Austerman, Chair
DCCED House Finance Subcommittee

SUBJ: Department of Commerce, Community and Economic Development FY10 Closeout Narrative | Summary Excel Notebook | Legislative Finance Reports

The House Finance Budget Subcommittee on the Department of Commerce, Community and Economic Development submits an operating budget for FY10 as follows:

GF: $17,563.6 Fed Funds: $64,592.7 Other Funds: $103,920.1 TOTAL: $186,076.4

The DCCED Subcommittee conducted five hearings regarding the FY10 Governor's Operating Budget Request for the Department of Commerce, Community and Economic Development. The following actions took place at the closeout meeting of February 25, 2009. A quorum was established at the closeout as Austerman, Edgmon, Johansen, Neuman, Seaton, Gardner were all present. The vote to move this out of subcommittee was 6-0.

Budget Action
The subcommittee accepted the FY10 Governor's Amended Budget except for the following changes:

1. Delete 150.0 GF for Support for Energy Planning under the Alaska Energy Authority
2. Delete 210.3 GF for AEA Executive Director under the Alaska Energy Authority
3. Delete 1,971.3 GF that was recommended to replace a reduction in Business License & Corp Receipts (BLic&Corp).

4. 1,5713.3 of excess BLic&Corp authority was deleted, while 400.0 was authorized for BLic&Corp.

Items of Concern

1. The AEA Executive Director/Statewide Energy Coordinator was funded in FY09 with CIP receipts from a statewide energy plan capital project. Although the statewide energy plan is completed and has been released, the department argued that the need for this position and support services will continue into the foreseeable future. The subcommittee disagreed with this premise and advised the department to look for additional funds already allocated to AEA. In addition, there is currently about $300,000 left in FY09 money from the CIP receipts discussed above. The AEA executive director testified that most if not all of this money will be spent by June 30, 2009. According to the department, if any money is left over, it is carried forward into FY10 as CIP funds are not "swept."

2. The Division of Community and Regional Affairs (C&RA) operating expenses are partially funded with business license fees. Passage of HB111 last year cut the business license fees from $100/year down to $50/year, which will cause a significant reduction in that revenue stream. This law is effective October 1, 2009. The subcommittee allowed 400.0 in Business License & Corp Receipts (BLic&Corp) to the FY2010 budget and removed 1,571.3 of excess BLic&Corp authority. The subcommittee was steadfast in their belief that since HB111 was by request of the Governor, that the administration should now find the funds to replace the loss of the BLic&Corp money. Since the department testified that the loss of this funding will cost 20 to 25 jobs and could close down two regional C&RA offices, it is the intent of the chair to recommend to the full house finance committee that they consider taking the 1,571.3 GF as an unallocated reduction across the entire department and that the BLic&Corp authority be restored.

House Finance Budget Subcommittee
FY10 Department of Corrections

Subcommittee Report for FY10 February 27, 2009

The House Finance Budget Subcommittee for the Department of Corrections submits an operating budget for FY10 to the full House Finance Committee as follows:

Operating Budget	Gen Fund	Federal	Other	Total
FY10 Adjusted Base [1]	$211,944,000	$3,003,400	$30,233,000	$245,180,400
FY10 Gov Amend	$214,041,400	$3,174,400	$31,985,100	$249,200,900
(HFS) Recommendation	**$212,494,200**	**$3,187,300**	**$31,977,000**	**$247,658,500**

The Budget Subcommittee recommends an operating budget that authorizes $1,547,200 less general funds and three fewer employees than the FY10 Governor's Amended request. The recommended budget requests a total increment from the FY10 Adjusted Base of $550,200.

Subcommittee Recommendations

The subcommittee reviewed all aspects of the Department of Corrections budget, including a three-year look back to review the growth in the department's budget from FY07 to FY10 Governor's Amended proposal, and accepted the changes with the following major exceptions:

Research and Records

- Denied a request to fund $180,000 that the department received in FY09 as a one-time item for on-going records imaging.

Population Management

- Denied an increment of $302,200 for operating costs for an 80-bed expansion project that is not completed at the Wildwood Correctional Center.

[1] The Adjusted Base is the starting point for subcommittee discussion of the Governor's request. It removes one-time appropriations, reappropriations, and carryforward of multi-year appropriations. It incorporates the FY10 contractual salary increases. (Source: *Legislative Fiscal Analyst's Overview of the Governor's Request*, Page 12)

- Reduced the operating base for the Wildwood expansion project ($1,115,000) by $889,400, allowing the department to retain $217,500 for DOC employees to supervise and complete the expansion plans with inmate labor.
- Funded an additional probation officer position for $80,000.

Inmate Health Care

- Reduced an increment of $485,300 in PFD Criminal dollars for periodic polygraph testing and treatment of sex offenders on probation by fifty percent.
- Modified and funded a proposed $500,000 General Fund increment to expand substance abuse treatment programs within the institutions, $257,3000 from General Fund and $242,700 from PFD Criminal

Intent Language

The House Finance Budget Subcommittee approved the following Intent Language:

Office of the Commissioner

- Requested the Department of Corrections to define its future facility needs including specific attention to the communities of Bethel, Seward, and Fairbanks and report the findings before February 1, 2010.

Goose Creek Correctional Center

- Requested that no state funds, other than the amount required to reimburse the Mat-Su Borough for debt service costs, be used for capital costs associated with the Goose Creek Correctional Center
- Requested the Department of Corrections to investigate the privatization of the operation and maintenance of the Goose Creek Correctional Center and report the findings before February 1, 2010.

It was an honor and a privilege to chair the House Finance Budget Subcommittee for the Department of Corrections and I thank everyone who was involved with the process. If you wish a copy of the spreadsheet discussed in subcommittee, please contact my legislative aide, Ms. Sheila Peterson, at 465-4936.

Respectfully Submitted,

Representative Mike Kelly, Chair
House Finance Budget Subcommittee

House Finance Budget Subcommittee
FY 10 Alaska Court System

Subcommittee Report FY10 February 27, 2009

The House Finance Budget Subcommittee (HFBS) on the Alaska Court System submits an operating budget for FY10 as follows:

GF	$ 87,212.8	Fed Funds $ 1,675.6	Other Funds	$ 1,481.3	Total	$ 90.369.7

Alaska Court System
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $2,414.3 less general funds and 22 less employees than the FY10 Court System request. The FY10 subcommittee budget requests a total increment from 09 Revised Management Plan of $2,727.0 general funds.

In reviewing the Alaska Court System's FY 10 budget request, the subcommittee worked closely with the court system administration to determine their priorities, as well as to examine the function and necessity of each budget item. The highest priority needs for material support were fully funded as was the highest priority request for an additional Judge and Clerk in South Central Alaska. The request to implement a classification study of magistrate salaries which have not been adjusted since 1995 was approved. Increased funding for the No Dark Courtrooms initiative was approved at the same level of increase as was provided in FY09. The requested creation of numerous permanent full and part-time positions was not approved. A significant savings was also found by removing unnecessary funding for transcript costs for PD and OPA. Funding for a pro tem pay increase was also removed, as pro tem pay is intended to be a stipend.

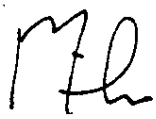
The full amount of funding requested by the Alaska Commission on Judicial Conduct was approved. The Judicial Council also received full funding of their request and a very small legislatively sponsored increase supporting the Alaska Judicial Observers.

Most significantly, the subcommittee also made a structural change to the budget creating a separate component for the Therapeutic Courts. This adjustment establishes the Therapeutic Courts as a distinct budget allocation under the Alaska Court System. Therapeutic Courts have proven successful and are becoming financially significant meriting segregation from traditional court operations. The subcommittee added intent language requesting that, as much as is practical in the FY 11 budget, therapeutic court funding be transferred from other agencies to this appropriation, rather than continuing the current practice of scattering a multitude of small individual items throughout Health and Social Services, the Department of Law, and the Department of Corrections.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)
6. Wordage Report – FY10 Operating Budget – House Structure

Submitted,



Representative Mike Hawker

MEMORANDUM

DATE: February 27, 2009

TO: Representative Mike Hawker, Co-chair
Representative Bill Stoltze, Co-chair
House Finance Committee

FROM: Representative Alan Austerman, Chair
DEC House Finance Subcommittee

SUBJ: Department of Environmental Conservation FY10 Closeout
Narrative | Summary Excel Notebook | Legislative Finance Reports

The House Finance Budget Subcommittee on the Department of Environmental Conservation submits an operating budget for FY10 as follows:

GF: $19,140.5 Fed Funds: $21,497.6 Other Funds: $33,496.9 TOTAL: $74,135.0

The DEC Subcommittee conducted three hearings regarding the FY10 Governor's Operating Budget Request for the Department of Environmental Conservation. The following actions took place at the closeout meeting of February 23, 2009. A quorum was established at the closeout as Austerman, Dahlstrom, Johansen, Olson, and Seaton were all present. The vote to move this out of subcommittee was 5-0.

Budget Action
The subcommittee accepted the FY10 Governor's Amended Budget except for the following change:

1. >Commissioner's Office deletes 184.0 GF OTI from Climate Impact Work Group
   >Environmental Health/Air Quality adds 184.0 GF into Base for the Climate Change Sub-Cabinet Activity.
   - **Subcommittee accepted the increment of 184.0 GF as a one-time item (OTI)**

Wordage Action
The subcommittee accepted additional Intent under the Water Quality allocation concerning the Ocean Ranger program. See the Wordage Report for the specific language.

Amendment Action
Only one amendment (#1) was offered before the subcommittee. This amendment was to the Food Safety and Sanitation allocation under Environmental Health for an increment of 2,000.0 GF (1004). This amendment failed by a vote of 0-5.

Items of Concern
1. The intent of the amendment above was to provide funding for the department to hire sixteen additional permanent full time food inspectors. The general consensus of the subcommittee was that food safety and sanitary inspections were exceedingly deficient around the state. This not only involves your typical restaurants, grocery stores, coffee shops, etc, but also seafood processors both shoreside and at-sea. While the department seems to be doing a good job in the training and testing of food handlers and managers, the subcommittee was very troubled that safety of the public was at risk because the department was not asking for the funding they needed to accomplish their mission.

2. Crowley Marine Services Inc. is the contractor for the Ocean Ranger program under DEC. This program consists of marine engineers licensed by the U.S. Coast Guard to serve as observers onboard large cruise ships to monitor state and federal requirements for marine discharge and pollution. The contract with Crowley requires an Alaskan hiring preference. In 2008, Crowley employed only one Alaskan as an Ocean Ranger and two other Alaskans as administrative type personnel. There was considerable discussion by the subcommittee regarding the lack of more Ocean Ranger hires from Alaska. We discussed the minimum requirements in subcommittee and received additional information from the department. The level of concern was such that the subcommittee placed intent language into this report instructing DEC to conduct an audit of Crowley pertaining to the contract provisions regarding the hiring preference.

3. There is quite a list of fees currently being charged by the Environmental Health Lab (EHL) under DEC. Fees charged by the EHL are determined by a variety of regulations implemented by other State programs. The subcommittee expressed some concern that milk and cheese testing do not generate a fee to those specific industries. It was noted however, that since cheese production is a new industry in Alaska, no regulations exist yet to regulate that activity at all.

House Finance Budget Subcommittee
FY 10 Alaska Department of Fish and Game

Subcommittee Report FY 10 February 27, 2009

GF $57,112.7 Fed $54,962.5 Other $67,010.1 Total $179,085.3

Alaska Department of Fish and Game
House Finance Budget Subcommittee FY 10 Highlights

The Alaska Department of Fish and Game Budget Subcommittee authorizes $1,120.0 less general funds than the Governor's FY 10 amended request and $765.3 less general funds than the FY 09 revised management plan.

The subcommittee was very concerned with the low returns of salmon to the AYK region of the state and approved four increments totaling $190.0 general funds for projects to allow for better management of the region's salmon resource.

The subcommittee approved $708.6 general funds to pay for 'unrealizable' salary fund source changes related to salary adjustments.

Requests for FY 10 program expansions and replacing lost federal funds with general funds were looked at closely. A $190.0 GF increment for a Wildlife Conservation Response Team pilot program was denied. An increment of $930.0 GF to replace lost federal funds for pinniped research was also denied.

The subcommittee recognizes that many state wildlife refuges have a problem with people illegally abandoning vehicles and dumping trash within their boundaries. As such, the subcommittee recommends that the full finance committee support an amendment to the capital budget to clean-up and make our wildlife refuges safer.

House Finance Budget Subcommittee
FY 10 Office of the Governor

Subcommittee Report FY10 February 26, 2009

The House Finance Budget Subcommittee (HFBS) on the Office of the Governor submits an operating budget for FY10 as follows:

GF	$ 22,485.0	Fed Funds	$ 187.6	Other Funds	$ 834.5	Total	$ 23, 507.1

Office of the Governor
House Finance Budget Subcommittee FY10 Highlights

The subcommittee chair worked with the administration and agreed to a HFBS budget authorizing $ 400.0 less general funds than the original Governor's FY10 request. The FY10 subcommittee budget requests an aggregate increment from 09 Revised Management Plan of $3,550.7 general funds and authorizes 3 additional temporary positions to establish the Redistricting Planning Committee.

The governor's request fully funds all non-discretionary increments related to wages and other contractual obligations. The only significant new request was for $1 million to establish a planning committee for the Redistricting Planning Commission.

A total of $2,744.8 of FY09 carryforward funds were identified. $876.6 of these funds were removed, at the administration's request, from the FY10 budget. The remaining $1,868.2 were converted to increments in various components within the Office of the Governor.

The Agency wide fuel allocation, previously reported under the Governor's Office has been moved to a separate component within the budget. The Governor will still be responsible for allocating those funds in compliance with other budget language.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)

House Finance Budget Subcommittee
FY 10 Department of Health and Social Services

Subcommittee Report FY10 February 27, 2009

The House Finance Budget Subcommittee (HFBS) on The Department of Health and Social Services submits an operating budget for FY10 as follows:

GF $ 849,332.2 Fed Funds $1,056,715.9 Other Funds $159,659.6 Total $2,065,707.7

Department of Health and Social Services
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $17,013.3 less general funds and ten fewer employees below the Governor's FY10 Amended request. The FY10 subcommittee budget requests a total **decrement** from FY09 Revised Management Plan of $66,094.2 general funds.

The approach taken by the subcommittee was to first fully fund all grantee rate or inflation increases for programs not receiving rate increases in FY09. Included in this category were prevention grants, family preservation grants, infant learning, child care grants, WIC grants, community health grants and grants to EMS providers.

There were several requests to complete projects or initiatives that began in FY09 or previous years. These types of requests were all approved. Included in this category is finalizing new staff for OCS Front Line Social Workers based on the recent workload study, funding the Fairbanks Detox Facility, funding operation of the new Virology Lab that is expected to open in FY10, and continuing the Alaska Heating Assistance program in FY10 at $5 million and key investments in Autism services.

Requested funding to replace lost federal funds that are no longer available is approved at requested levels for Therapeutic Courts, Child Advocacy Centers, and Birth Defects and Cancer Registries in Public Health.

Requests for programs that received substantial funding in FY09 were reviewed and in most cases either half or two-thirds of the request was approved. These included grant increases for mentally ill and substance abuse services, Subsidized Adoption and Guardianships, second year rate increases for Medicaid dental services, Infant Learning grants and Child Care subsidies.

Requests for the Bring the Kids Home initiative in Behavioral Health were reviewed and approved to keep the momentum going for this important initiative that has reduced Medicaid costs.

The department's requests for expected growth in the Medicaid program were reviewed and approved at requested levels. In the last two years growth in the Medicaid program has slowed, so constant monitoring of spending levels will be critical to assure the appropriate amount of state general funds is authorized for the program.

Requests to enhance or continue staffing at the Pioneer Homes (funded with program receipts), Juvenile Justice (mental health clinicians and probation services), and Senior and Disability Services (eligibility assessments), were approved at requested levels. It was determined that without these increases critical activity would be diminished.

Requests for new initiatives were reviewed carefully; the requests for a new Behavioral Health pilot program for Corrections, year one of front line staffing increases at Juvenile Youth Facilities, the Alaska Health Care Commission created by Administrative Order, and the Governor's Live Well Alaska health initiative were not funded However, a new initiative for Reversing Alaska's Childhood Obesity Trend was approved.

All Governor Budget Amendments were approved including increasing federal funding for Medicaid from the Economic Stimulus bill. The Medicaid Federal Matching Percentage (FMAP) was increased by 6.2 percent for FY10 resulting in a general fund decrease of $73.5 million. Also included in the amendments was a reduction of $5.1 million general fund from continuing to use Temporary Assistance for Needy Families (TANF) funding in the Office of Children's Services. The Governor's original budget had replaced the TANF funding with general fund, but it was reversed by the subcommittee and through the amendment process.

Several amendments were added in the subcommittee process for important initiatives not included in the Governors Amended Budget. They included funding the operation of Volunteers of America's ARCH residential treatment center, Senior Community Based Grants to prevent reductions in service from the implementation of a new funding formula, and travel for the Office of Children's Services Citizen Review Panel.

The subcommittee reduced funding in a few key areas, including reducing Medicaid general funds to match new information on current trends at a middle level forecast and reducing the Senior Benefits Program to match new projections.

The final House Finance Budget Subcommittee recommendation funds the majority of the Governor's amended request for FY10. Since this department is so large, it is important for the legislature to critically analyze requests for new funding to assure the public that these investments are achieving the desired results.

The following Subcommittee reports are attached:

1. FY10 Budget Subcommittee recommendations
2. FY10 Final Recommendations

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)
6. Wordage Report – FY10 Operating Budget – House Structure
7. Transaction Comparison (Gov. and House Subcom)

Submitted,

Representative Reggie Joule

Re: Law Budget Close Out

House Finance Budget Subcommittee
FY 10 Department of Law

The House Finance Budget Subcommittee (HFBS) on The Department of Law (DOL) submits an operating budget for FY10 as follows:

General Funds	$ 46,299.9
Federal Funds	$ 3,233.7
Other Funds	$ 25,193.1
Total	$ 74,726.7

The HFBS budget authorizes $10,525.5 less general funds than the Governor's FY10 DOL request. The FY10 subcommittee budget requests a total decrement from the 09 Revised Management Plan of $5,039.4 general funds.

Department of Law
House Finance Budget Subcommittee FY10 Highlights

INTRODUCTION

In determining the appropriation levels for FY10, the Department of Law Subcommittee utilized the FY10 adjusted base. The basic approach of the subcommittee revolved around the preservation of the budget base while maintaining the ability of the department to continue beneficial litigation for the State of Alaska.

ISSUES

In FY10, the Department of Law anticipated various issues that would require various funding increases. These issues include lease cost increases and funding lapses; training and position costs; and one-time incremental items. All transactions were approved, with the exception of the request from the Environmental Law section. It was the determination of the subcommittee that the amount requested could be made up within the flexibility of the Civil Division and re-allocated if necessary.

OTHER ISSUES

Three items were removed from the proposed budget and are recommended to be moved to the language section so as to not affect the adjusted base going forward. The three allocations were for BP Corrosion litigation, which is anticipated to be filed in FY10, and two Oil, Gas and Mining issues, which are Oil and Non-Gas Pipeline Matters and Trans Alaska Pipeline System Strategic Reconfiguration. These items comprised of the bulk of the funding increase in the Governor's Budget. It is the recommendation of the subcommittee that these items should be approved and the amount of funding should be determined by the co-chairs.

RECOMMENDATIONS

The subcommittee recommends that all items be approved, with the exception of the fund change for the Environmental Law section. Also, the subcommittee further recommends that the proposed Oil, Gas and Mining and BP Corrosion appropriations be moved to the language section and funding amounts should be determined by the co-chairs.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)
6. Wordage Report – FY10 Operating Budget – House Structure

House Finance Budget Subcommittee
FY 10 Alaska Legislature

Subcommittee Report FY10 February 26, 2009

The House Finance Budget Subcommittee (HFBS) on the Alaska Legislature submits an operating budget for FY10 as follows:

GF	$ 64,962.7	Fed Funds	$ 0.0	Other Funds	$ 1,107.3	Total	$ 66,070.0

Alaska Legislature
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $ 980.5 less general funds than the Alaska Legislature request submitted in the Governor's FY10 Operating Budget. The FY10 subcommittee budget requests a total increment from 09 Revised Management Plan of $ 714.2 general funds.

The final budget requests prepared by Legislative Audit for the Legislative Budget and Audit Committee and by Legislative Affairs for the Legislative Council were approved as submitted. Those requests included non-discretionary adjustments for wages and other contractual obligations. Approximately $2.3 million in one time project appropriations that were included in the FY09 budget were removed from the FY10 requests. The legislative operating budget includes adequate funding for multiple special sessions that have become routine in recent years.

The FY10 request was increased by the amount estimated to implement the legislative pay adjustment in January 2010. This increase automatically takes effect unless rejected by the legislature. Accordingly, in the absence of formal action being taken by the legislature, the budget presumes the status quo, that is, that the pay increase will take effect. If the legislature rejects the pay increase, a corresponding adjustment will be made to the budget at that time.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)
5. Transaction Comparison (Gov. Amd and House Subcom)

House Finance Budget Subcommittee
FY 10 Department of Military and Veterans' Affairs

Subcommittee Report FY10 February 19, 2009

The House Finance Budget Subcommittee (HFBS) on The Department of Military and Veterans Affairs submits an operating budget for FY10 as follows:

GF $ 11,276.9 Fed Funds $ 22,235.3 Other Funds $ 13,017.9 Total $ 46,530.1

Department of Military and Veterans Affairs
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $0 less general funds and 0 less employees than the Governor's FY10 Department of Military and Veterans Affairs request. The FY10 subcommittee budget requests a total decrement from 09 Revised Management Plan of $51.5 general funds.

Personnel

There is no change in the number of Department personnel: 283 Perm Full Time, 2 Perm Part Time, and 1 Temporary.

Three Year Look-back

The Budget Subcommittee did a three year look back to review changes in the Department's budget from the FY07 Final Budget to the FY10 Governor's Request.

The greatest increase in General Funds, $300.0 was a change in funding source since the Local Planning Committee Grants had been funded with Oil/Haz Funds. There were increments in four other areas: Homeland Security & Emergency Mgt. 9%; Veterans' Services 18%; Office of the Commissioner 3%; and AK Emergency Communications 8%.

The $143.4 increase in Veterans' Services is to increase grants for the Veterans' Outreach Program. This has been used to increase counselor training and to expand travel into rural areas to contact veterans and help them to identify and qualify for benefits.

The Department budget has been relatively flat for the past three years. Changes in mission and organization have, where possible, been absorbed by reorganization and reassignment of personnel to fill positions where needed.

Governor's Proposed FY 10 Budget

Total budget growth from the FY 09 Management Plan Revised to the Governor's Request as amended is $1,141.9 which is an increase of 2.5%. General Fund growth in the budget is $180.0 (1.6%) above the FY10 Adj. Base.

There is a $50.0 General Fund increment to increase grants for the Veterans' Outreach Program in the Veterans' Services component of the budget. This is to increase travel to rural areas of the

state. This is important since Guard personnel who have been deployed to combat zones have returned to their home communities.

The $130.0 General Fund increment in Alaska National Guard Retirement Benefits reflects the amount approved by the ARM Board. This does not appear to reflect the $10.0 million that was appropriated last year to reduce the unfunded liability within the retirement account. Typically one would expect to see the actuarial amount decrease when the unfunded liability decreases. Pension fund investments have in all probability been impacted by recent market declines. If the increment is excessive it will be reflected in a reduced rate the next time the State's contribution is adjusted.

Educational Benefits is an area which has been of concern to past Subcommittees. The $328.5 (80.4%) reduction is only a reduction to the DMVA budget. The Guard tuition funding is included in the Governor's University's budget request. The residual $80.0 is for vocational and other training programs.

The $185.2 increase in funding for the Alaska Military Youth Academy is authority to receive this amount in I/A funding from DEED. This is based on an anticipated $100 increase in the Base Student Allocation.

There is a $500.0 increment increasing Federal Receipt authority for Army Guard Facilities Maintenance and an adopted Governor's amendment for $300.0 increasing Federal Receipt authority for Air Guard Facilities Maintenance. This reflects the increased cost of maintenance that has been seen systemically throughout the State. Note: this is not an increase in State General Funds.

Two areas of responsibility are transferred from the Department. One position transfers the Alaska Aviation Safety Project to DOT Aviation. The second position transferred to Alaska State Wide Emergency Communications. In this instance the PCN filling that slot was reassigned to other duties within the Department. An unbudgeted PCN was budgeted which accounts for the net zero change in personnel numbers.

Subcommittee action

After reviewing the proposed budget the Subcommittee adopted the FY 10 Governor's Requested Operating Budget, as amended, for the Department of Military and Veterans' Affairs along with the listed supporting Legislative Finance reports.

The following Legislative Finance reports are attached:

1. Agency Totals – FY10 Operating Budget – House Structure
2. Appropriation/Allocation Summary (GF) – House Structure
3. Appropriation/Allocation Summary (all funds) – House Structure
4. Transaction Comparison (Adj. Base and House Subcom)

House Finance Budget Subcommittee
FY10 Department of Natural Resources

Subcommittee Report for FY10 February 27, 2009

The House Finance Budget Subcommittee for the Department of Natural Resources submits an operating budget for FY10 to the full House Finance Committee as follows:

Operating Budget	Gen Fund	Federal	Other	Total
FY10 Adjusted Base [1]	$66,436,700	$13,939,900	$44,544,800	$124,921,400
FY10 Gov Amend	$71,231,900	$13,804,300	$46,593,200	$131,629,400
(HFS) Recommendation	**$70,183,900**	**$14,054,300**	**$46,234,700**	**$130,472,900**

The Budget Subcommittee recommends an operating budget that authorizes $1,048,000 less general funds and three fewer employees than the FY10 Governor's Amended request. The recommended budget requests a total increment from the FY10 Adjusted Base of $3,747,200.

Subcommittee Recommendations

The subcommittee reviewed all aspects of the Department of Natural Resources budget, including a three-year look back to review the growth in the department's budget from FY07 to FY10 Governor's Amended proposal, and accepted the changes with the following major exceptions:

State Coordinator – Gas Pipeline

- Transferred two AGIA positions from the Office of the Governor to a new component in the Department of Natural Resources and reduced the funding by $100,000 to reflect a vacancy.

Oil and Gas Development

- Funded oil and gas positions as a one-time item (OTI) to address the workload of the Oil and Gas Division, but reduced the funding by $175,000 to reflect a vacancy
- Reduced the FY09 OTI of $523,000 for four additional positions within the Petroleum Systems Integrity Office (PSIO) by $423,000 to reflect the three vacancies and to wait for the results of the PSIO "Gap and Overlap Analysis"

[1] The Adjusted Base is the starting point for subcommittee discussion of the Governor's request. It removes one-time appropriations, reappropriations, and carryforward of multi-year appropriates. It incorporates the FY10 contractual salary increases. (Source: *Legislative Fiscal Analyst's Overview of the Governor's Request*, Page 12)

- Denied authority for the Pipeline Coordinator to receive funds from industry to establish a TAPS Fire Safety program until the PSIO "Gap and Overlap Analysis" is completed

Geological Development

- Denied a fund source change to replace federal dollars with general fund money to help support the Alaska Volcano Observatory

North Latitude Plant Material Center

- Funded an FY09 OTI ($500,000) in the base of the North Latitude Plant Material Center and reduced another FY09 OTI ($225,000) by $100,000. This combination funds the total FY10 appropriation at $625,000.

Ag Revolving Loan Program Administration

- Deleted a vacant loan/collection officer position ($70,000) funded through the Ag Revolving Loan Fund proceeds

Because of the uncertainty of the gas pipeline timing and workload in Division of Oil and Gas, the Department of Natural Resources has several positions or programs funded through one-time items. This funding category requires the department to justify the funding request each year and allows the Legislature to adjust the funding level accordingly so that extraordinary costs associated with the gasline construction do not become embedded in the DNR operating base.

As the Department of Natural Resources has several OTI appropriations, and the accompanying dollars are deducted in the Adjusted Base calculations, it appears that the department is receiving a substantial amount of "new" General Fund dollars in FY10. This is not the case. Contractual salary increases is the bulk of the department's actual budget increase when existing one-time items are considered.

It was an honor and a privilege to chair the House Finance Budget Subcommittee for the Department of Natural Resources and I thank everyone who was involved with the process. If you wish a copy of the spreadsheet discussed in subcommittee, please contact my legislative aide, Ms. Sheila Peterson, at 465-4936.

Respectfully Submitted,

Representative Mike Kelly, Chair
House Finance Budget Subcommittee

Memorandum

To:	Representative Mike Hawker Co-Chair, House Finance Committee
From:	Bill Stoltze, Chair – Public Safety Budget Subcommittee Representatives Lynn, Harris, Dahlstrom, Salmon and Kawasaki, Public Safety Subcommittee Members
Re:	Public Safety Budget Close out
Date:	March 2, 2009

Introduction

The Department of Public Safety sub-committee used the FY10 adjusted base when determining appropriation levels. The subcommittee accepted all departmental budget transactions from the FY09 Management Plan to the FY10 adjusted base.

Your office has the attached spreadsheet along with the legislative finance close-out reports document recommended subcommittee level of spending for FY10.

FY10 Language recommendations (Language sections)

The subcommittee recommends that the language section provision be adopted in full finance that allocates $1,270,000 in general funds to the Alaska State Troopers appropriation in the event the agency is unable to obtain federal rural alcohol interdiction funds in the upcoming federal fiscal year.

The subcommittee recommends that the language section provision be adopted in full finance that allocates $1,392,200 in general funds to the Alaska State Troopers appropriation in the event the agency is unable to obtain federal drug and alcohol enforcement funds in the upcoming federal fiscal year.

FY10 recommendations to the full Finance committee

The subcommittee recommends that a majority of the increments to fully fund all trooper positions be accepted. The subcommittee did deny some smaller increment request for these efforts.

With regard to the Council on Sexual Assault and Domestic Violence, the subcommittee recommended an increase of $296,000 of permanent fund felon funds for FY10. The subcommittee also switched out $1,381,900 in general funds and replaced those funds with excess permanent fund felon funds. The freed up general funds were used to help fund the Alaska State Trooper increments.

The subcommittee recommends that partial funding for increased vehicle costs, trooper dispatching and prisoner transportation costs be accepted.

With regard to the Village Public Safety program, the subcommittee added funds to annualize the positions added in FY09. The subcommittee added ½ funding for new positions and for the COLA and merit increases requested in FY10.

The subcommittee also recommends the follow intent language be added to the operating budget:

> *It is the intent of the legislature that the Department of Public Safety provide additional state trooper coverage for international border communities to help meet Federal and Homeland Security requirements.*

If you have any questions, please contact James Armstrong in my office at 6824.

House Finance Budget Subcommittee
FY 10 Department of Revenue

Subcommittee Report FY10 February 25, 2009

The House Finance Budget Subcommittee (HFBS) on the Department of Revenue submits an operating budget for FY10 as follows:

GF $ 18,164.1 Fed Funds$ 39,611.0 Other Funds$ 191,562.7 Total $ 249,337.8

Department of Revenue
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $ 2,250.7 less general funds and 1 less employee than the Governor's FY10 Department of Revenue request. The FY10 subcommittee budget requests a total increment from 09 Revised Management Plan of $979.9 general funds.

The Governor requested minimal increases in the original FY10 budget request. The department was required to update the state's Cost Allocation Plan for Federal Compliance which, as a result of the increased state financial assets under management, shifted $572 to state general funds. The tax division continues to utilize contract auditors; however the subcommittee budget approved half the original request, shifting the responsibility to a newly funded state Master Auditor position.

Several adjustments were made in Other Funds appropriated for the ARM Board, PFD division, Mental Health Trust Authority administration, AHFC operations, and the Alaska Permanent Fund Corporation. The FY 09 budget for investment management fees at the ARM Board was reduced $8,546.7 and at the Permanent Fund Corporation, $10,000. These management fees are generally based on the value of investments under management. The reductions reflect market value declines experienced in recent months.

With the concurrence of the agency, the subcommittee did not approve a $1,900.0 fund source change from FED to GF for the Child Support Services Division. It is now believed that continuing federal funding will be available.

Small general fund increments requested as fund source changes for "unrealizable fund sources" were not approved. The subcommittee removed a special assistant position in the commissioner's office that the agency established contrary to legislative intent in the FY09 budget.

The following Legislative Finance reports are attached:

House Finance Budget Subcommittee
FY 10 Department of Transportation

Subcommittee Report FY10 February 10, 2009

The House Finance Budget Subcommittee (HFBS) on The Department of Transportation (DOT) submits an operating budget for FY10 as follows:

GF $206,471.5 Fed Funds $3,988.2 Other Funds $301,188.9 Total $511,648.6

Department of Transportation
House Finance Budget Subcommittee FY10 Highlights

The HFBS budget authorizes $13,077.6 less general funds and 8 less employees than the Governor's FY10 DOT request. The FY10 subcommittee budget requests, in general funds, a total decrement from 09 Revised Management Plan of $3,375.6, and a total increment from the 09 Adjusted Base of $1,126.4

The approach taken by the subcommittee was to first fully fund all non-discretionary funding increments related to wages, contractual increases and the like. The funding sources for these non-discretionary increments were evaluate and changed to minimized impact to the General Fund.

Fund source changes from CIP to GF were denied. The transfers of CIP Rcpts to GF fund may suggest that support costs are increasing more rapidly than the dollar value of Capital Improvement Projects, since they should be driven by that component of the budget. This results in less Capitol Improvement money being spent on construction because it is being used to fund overhead. The Department is also reaching the limit of what can be recovered through the Indirect Cost Allocation Plan (ICAP). DOT is still responsible for the same activities and bears the burden of those associated costs. GF might be an appropriate source to fund these cost increases, but during this budget cycle there is considerable pressure on the General Fund portion of the Operating Budget. Additionally the Economic Stimulus Package will bring in additional CIP funds and should relieve some of the pressure on the Indirect Cost Allocation Plan.

Fund source changes from RSS and SDPR to GF were denied. Fund source changes from Statutory Designated Program Receipts and Receipt-Supported Services, $25.3 are related to the cost of services provided by the Department exceeding the revenue generated. Receipts and fees are fixed by statute, regulation or fair market value and control the amount of revenue received. The Department should work with the House Finance Committee to determine what portion of the Department's increased costs should be born by users.

Fund source changes from AMHSF to GF were denied. The Alaska Marine Highway System Fund has two funding sources; revenues from operations and capitalization from the State's General Fund. Recently the Alaska Marine Highway System (AMHS) has been increasing the GF potion of its' funding though fund source changes and GF increments. Keeping AMHSF as the primary funding source allows the Legislature to more easily monitor AMHS needs and expenditures. This enables the Legislature to looks at budget short falls in operations and decided at what level increased costs should be born by users or subsidized by capitalization of the Fund.

Fund source changes from FED to GF were denied. The only requested change that fit this criterion is too insignificant to justify reorganization.

Whittier Tunnel fund source changes were denied. Changing operations of the tunnel from CIP to Gambling Tax is a change to GF and was denied for the reasons listed for all CIP to GF fund source change denials. The request to fund extended hours for summer operations with Gambling Tax was denied and was funded instead with Cruise Ship Tax Revenue. This was the revenue source used last year, and it is a dedicated fund source which must be used to directly benefit the Cruise Ship industry. As the extended summer hours fit this criterion it is a more appropriate fund source than the Gambling Tax (GF).

Requests to restore one-time increments (OTI) to the Alaska Marine Highway System as a reoccurring increment were denied. In FY09 the Department requested that a funding increment be approved to compensate for additional expenditure of running a particular mix of vessels. Due to dry dock work the department was forced to use less economical vessels on route where they could not expect to increase revenue with increased ridership. As this was a budget scenario that would not extend into the next fiscal year it was funded as an OTI. To date There has not been sufficient explanation by the Department to justify either another OTI or a reoccurring increment.

The Governor's Request contains two new programs for Sidewalk Snow Removal; in Anchorage $500,000 and in Juneau $47,100.

The Department indicated that they have received Federal notification to increase sidewalk snow clearing as part of standard road maintenance. Funds for sidewalk snow removal equipment were appropriated in FY09 Capital Budget. This request is an operating increment to hire 8 permanent part time operators in Anchorage and 1 permanent part time operator in Juneau. The increments also reflect fuel and State Equipment Fleet costs.

The Personnel portion of the increment is denied for all 9 positions ($327.1). Since the State is under a hiring freeze, new positions were not approved. The $220.0 remaining in those increments for fuel and State Equipment Fleet rental is approved.

Alaska State Legislature

Representative Anna Fairclough – House District 17

2/25/2009

University of Alaska
FY10 House Finance Subcommittee Recommendations

The House Finance Subcommittee on the University of Alaska submits an operating budget to the full House Finance Committee as follows:

General Funds	$319,178.0	(0.7% increase from adjusted base)
Federal Funds	$130,658.5	(16.3% decrease from adjusted base)
Other Funds	$365,802.0	(3.3% decrease from adjusted base)

As an additional note this represents a Total Decrease of 4.2% from FY09.

The subcommittee took the following actions:

Budget Action:

1. Adopted the FY10 Adjusted Base.
2. Reviewed each of the increments and decrements submitted by the Governor and highlighted the following recommendations:

- Priority Program Enhancement and Growth Increments
  - i. Health Programs Total $1,071.7 – $922.0 GF and $149.7 Non-GF
    1. Anchorage Campus – $690.3 GF and $90.0 Non-GF
    2. Fairbanks Campus – $87.4 GF and $25.0 Non-GF
    3. College of Rural & Comm. Dev. – $40.8 GF and $8.0 Non-GF
    4. Tanana Valley Campus – $47.2 GF and $16.0 Non-GF
    5. Juneau Campus – $56.3 GF and $10.7 Non-GF
- Other Governor's Increments
  - ii. Non-Personnel Services Fixed Cost Increases – $7,614.3 Non-GF
  - iii. Compliance Mandates – $400.0 Non GF
  - iv. New Facility Operating and Maintenance Costs – $350.0 GF and $344.3 Non-GF
- Governor's Budget Amendments
  - i. State Virology Lab (UAF Portion) Total $150.0 IncOTI GF
  - ii. Facilities Maintenance and Repair Total $825.0 GF
    1. Statewide Services – $18.4
    2. Anchorage Campus – $222.9
    3. Kenai Peninsula Campus – $26.2
    4. Kodiak College – $10.4

The Honorable Bill Stoltze
Co-Chair, House Finance Committee
Alaska State Legislature
State Capitol, Room 515
Juneau, AK 99801-1182

Dear Co-Chair Hawker and Co-Chair Stoltze:

During the Office of Management & Budget (OMB) presentation before the House Finance Committee on January 26, I was asked to provide a copy of the budget instructions provided to departments. I have enclosed:

- August 8, 2008, memorandum to departments which started the FY2010 budget process, and;
- August 15, 2008, capital budget instruction memorandum

These documents are the beginning of the budget development process each year. In addition, OMB annually produces a technical 123-page budget instruction manual, updates of the Alaska Budget System (ABS) operating budget module user's guide (202 pages), and capital budget module user's guide (81 pages). These instruction manuals are distributed to agency administrative directors and budget personnel who are responsible for preparing the budget documents which are submitted to the Legislature. I can certainly make these technical instructions available if they would be of interest to the committee.

Please let me know if you have further questions.

Sincerely,

Karen J. Rehfeld
Director

Subject: "Heads Up" Meetings on the FY2010 Budget

You and your staff are to be congratulated for the great work in developing and implementing Governor Palin's budget goals in the FY2009 operating and capital budgets. Controlling spending, living within our means, and saving for the future continue to be the focus for this administration. These goals will guide us in developing the FY2010 budget.

I would like to schedule the first round of agency meetings to discuss your preliminary FY2010 budget recommendations in September. These "Heads Up" Meetings will take place in the Juneau Governor's Office Conference Room and will include the Chief of Staff as his schedule allows, Governor's Office Special Assistants as their time allows, OMB Analysts, and anyone you chose to bring from your agency. Video-teleconferencing will be available. You can view the "Heads Up" Meetings Calendar by accessing Outlook Calendar - Shared Calendar - GOV OMB Departmental Meetings. The "Heads Up" Meetings are scheduled for September 8-12; 15-16; and 24-26. Please contact Kari Spencer at 465-4660 for scheduling your department's "Heads Up" Meeting.

The following agencies are requested to schedule a meeting to discuss their budget issues: the Alaska Industrial Development and Export Authority; Alaska Energy Authority, Alaska Seafood Marketing Institute, Permanent Fund Corporation, Mental Health Trust Authority, Alaska Housing Finance Corporation, the Alaska Commission on Postsecondary Education, and the University of Alaska.

Additional meetings may be scheduled in October to help finalize FY2010 budget recommendations for the Governor. I do appreciate the time it takes to prepare for these meetings, but it is very helpful to have the discussion on various budget items and issues to be as fully developed as possible. It is not necessary to bring written documents to this initial meeting nor is it necessary for each department to discuss statewide personal services cost increases.

Topics to be covered at the September "Heads Up" Meetings include:

1. Proposed changes in the department's operating funding levels by fund source compared to the FY09 level. In explaining the impact of your proposals, please use the performance management framework your department has developed to describe the anticipated change as a result of the proposed funding change. Link your funding needs to *results* by showing how results will be different from the status quo.

   Your budget information should be as specific as possible so please be prepared to answer the following questions:

   a. What is your current capacity - for example, if you are proposing to add a grant administrator position, describe the current number of grant administrators, funding required to support the existing effort, the desired results and how the proposed funding changes will impact the achievement of your desired end results?

   b. What are the anticipated changes in outcomes with the proposed changes in funding? If there are no changes in outcomes, why are you requesting funding?

   c. Will progress be improved or hindered - by how much?

   d. If you received funding for FY2008 or FY2009, then "What did the state "get" for the investment? Are we closer to the end result - if not, why not?

   Also be prepared to discuss:

   e. Formula-driven increases and options that could mitigate that growth (i.e., statute/other program changes);

   f. The effect of any proposed savings or requested funding increase on your department's performance targets and end results - again, how they'll be different from the status quo. Departments should be prepared to discuss their budget in terms of the performance framework, including:

      - What of value is brought to the public or customer through the department's or program's existence?
      - Are you making a difference? Use metrics to demonstrate progress or problem areas.
      - Is there a need to change course? If so, use data to demonstrate why.
      - Are more resources needed? Through use of metrics, link how additional funding or staff will move the department closer to bringing value to the public or customer?

3904

g. Any known FFY2010 federal funding requests.

2. Reorganization proposals:

   a. To realign programs with another department; and/or

   b. Program/other organizational consolidations in your department;

   Please explain your recommendation in terms of how that new alignment will improve the results to be delivered.

3. New revenue/financing ideas

   Your proposal must include revenue estimates that are as firm as possible, your methodology for arriving at those revenue estimates (i.e., no back of the envelope calculations!), and any obstacles or conditions that must be overcome in order for your proposal to be successful.

4. FY2010 capital budget requests with fund sources (describe your department's requests, including IT projects). IT projects will go through their separate review process, but we need to have a sense of the capital budget "universe." Please provide a brief status report on currently authorized IT projects.

5. Fund balances for dedicated/designated fund sources and any proposal to use those balances in FY2010;

6. Legislation needed to implement budget-related proposals;

   a. Please be ready to discuss any statutory changes that your agency is interested in pursuing.

   b. Also, please identify any programs or services that do not contribute to the mission of your agency that could be repealed from statute.

   c. The Governor is very interested in legislative or budgetary changes that will control the growth of government. In considering what can reasonably and realistically be accomplished over the next 2 ½ years, please focus on quality rather than quantity.

7. Current year issues:

   a. Potential FY2009 supplemental requests (discuss steps the department is taking to mitigate the need for a supplemental);

b. Current and potential liabilities, which may include potential lawsuits, update of current litigation and budget impact.

c. By the time of our meeting, some of you may have already opened law logs with the Department of Law for bill drafting. Please make sure that we discuss all legislative proposals and receive direction during the "Heads Up" Meetings prior to moving forward with opening additional law logs. If you have any questions about the legislative drafting process, please contact Kelly Goode, Legislative Director, at 465-3999 or 269-3033.

8. Budget Reductions/Savings

Several departments proposed cost-savings ideas during the development of the FY2009 budget, but needed more time to plan for implementation. In addition each department has submitted a FY2009 Savings Plan. For the FY2010 budget, each department should be aggressively reviewing its operations to find areas in the budget that can be reduced for our FY2010 Savings Plan.

9. Long-Range Fiscal Plan

House Bill 125, now Chapter 86, SLA 2008, includes requirements for the administration to submit a 10-year fiscal plan along with the December budget. We will be providing a template for each department to use in developing the plan, however, please be prepared to discuss the future in terms of the programs and core services, what you envision in terms of programmatic or financial changes that will be necessary in order to achieve the desired results. The goal is to come up with reasonable and realistic assumptions and estimates of costs over time to include in the plan. Legislators understand that the development of the plan will evolve over time as we develop the model, assumptions, and level of detail.

As I mentioned earlier, the Governor is committed to maintaining budget discipline, holding the line on new positions and programs, and limiting the growth of the operating budget. Your help in bringing forward proposals for efficiencies and savings in the budget is appreciated. We will need to find FY2010 savings in order to meet the overall spending target.

If you have any questions, please call me or your OMB Analyst. I look forward to our meeting. Thanks!

Subject: FY2010 Capital Budget Instructions

This memo provides guidelines for preparation of your department's FY2010 capital budget request.

Each department's brief capital project summaries are due to OMB via ABS two work days prior to your department's "Heads Up" Meeting in September. This is a change from last year, but it will be helpful to have as much information as possible at the "Heads Up" Meetings. These projects (including any proposed IT projects) should be discussed at the "Heads Up" Meeting. Please keep your OMB Analyst apprised as additional information is compiled for the initial project requests and if new capital project requests are developed after the "Heads Up" Meeting. After budget decisions are made, the final project descriptions for projects approved for inclusion in the FY2010 capital budget are due on November 17.

The technical aspects of how to submit capital projects via ABS can be reviewed in the most recent version of the ABS Capital Budget Module User Guide (Capital Guide): http://www.gov.state.ak.us/omb/budget_instructions/

Create your new scenario from any of the available fiscal year folders in the treeview (FY2010 won't be available to you until you've created your first FY2010 scenario). Select "FY2010" for the fiscal year from the drop-down menu available in the new scenario browser window. Then you will see the FY2010 folder appear automatically to house your new FY2010 scenario.

For the September deadline, departments must

1. Complete the Brief Summary on the Detail 1 tab;
2. Explain how the proposed project promotes the department's mission;
3. Identify to which "end result" the project contributes;
4. Provide enough information to fully describe the project request for funding decision-makers (since the Brief Summary is restricted to 750 characters, that will likely mean adding some narrative to the Project Justification, via the Detail 2 tab);

5. PRIORITIZE the requested projects;
6. Submit the department scenario to OMB.

Once the department scenario has been submitted to OMB, it will be reviewed for errors or omissions. If necessary, the department will be required to make corrections before the scenario data is accepted. Accepted projects then will be copied into an OMB-only scenario that consolidates all departments' projects.

When the projects have been copied into the OMB scenario, the original department scenario will be unsubmitted so that Project Justification can continue to be fleshed out for the November 17 submission. Use ABS for any supporting information rather than submitting separate attachments. Accepted changes will be copied into the OMB scenario. When completely finalized, this scenario will be used to print the capital budget bill and project summaries. When the budget is released to the public, the OMB scenario's scope will be changed to statewide.

In addition, please make sure that the following items are not neglected:

- **House District Table (page 13 of the Capital Guide)**

Select the "2002 Procl Eds" from the HD dropdown field when creating the department's FY2010 capital budget scenario.

- **Project Titles (page 20 of the Capital Guide)**

In the December budget release, the capital budget will be summarized in a spreadsheet that lists the project title and amount by fund source. Therefore, make sure project titles clearly communicate the gist of a project to the public and press. The titles should be clear and concise using terms that are commonly understood by the public. Titles should not contain slashes, ampersands, abbreviations (U.S., EPA, and AHFC are okay), Román numerals (except as required for federal program titles), or department names.

- **Project Beginning and Ending Dates (page 22)**

Enter realistic date estimates for each project. The default project dates are July 1, 2009 through June 30, 2014.

- **Brief Summary (page 23)**

Provide a clear, concise statement of the overall purpose for, and description of, the project that will be understandable to the press and public. Describe how the money will be spent and why the funds are needed now. The description must include an explanation of how the proposed project contributes to the department's mission and to which end result the project contributes.

- Prior Funding History (page 23)

This item must be completed. Either list prior years' funding amounts with section, chapter, SLA and page number, or state that this is the first year for the project. The information is important in the decision-making process and is also specifically requested by the legislature.

- Detail Project Justification (page 26)

Please review this section of the guide carefully. Capital ABS has a great deal of flexibility for entering the Detail Project Justification. It allows for spell-checking, formatted text, charts, graphs and pictures.

The detail project justification must describe the overall project need and scope, as well as specify what the funding will actually purchase, e.g., $XX site preparation estimate, $YY design estimate, $ZZ computer programming contract estimate, etc. Make sure to answer the question "Why can't the project wait until next year?"

For department-wide deferred maintenance requests, list the individual projects that are essential now, but qualify in the narrative that the list is subject to change as needs arise. Exclude any separately requested deferred maintenance, repair or renovation projects.

Please use the project templates when relevant, e.g., information technology. Be sure to note any operating funds that may be expended in conjunction with the capital appropriation. Use Arial 12 for narrative text.

- Project Class (One-Time, Phased - new, Phased - underway, or On-Going) (page 33)

Select the correct project class or verify the correct option with your OMB Analyst, if uncertain. The default "Not Applicable" should rarely be used.

Select "One-Time" if the entire scope of the project will start and end with the requested funding, e.g., Replace Eiffel Tower.

Select "Phased - new" or "Phased - underway" if the project is part of a multi-year or multi-phased plan, even if the amount requested could complete a discrete part of the whole. The first request for a phased project is "Phased - new", such as Eiffel Tower Planning and Design. A subsequent phase is "Phased - underway", such as Replace Eiffel Tower, Phase 2.

Select "On-Going" if there is no end to the need, such as the purchase of motor vehicle license plates, maintenance projects (deferred and other), or routine replacement of equipment, e.g., Eiffel Tower Annual Rust Removal.

- Historical Category (page 35)

Use the appropriate category for each project.

- Project Type (page 35)

Use the appropriate project type for each project.

- Management Groups (page 35)

As of today, there are only four types of capital projects that must be coded to a management group when submitted to OMB in September and November.

  - Code information technology projects to "Info Tech"
  - Code deferred maintenance projects to "Deferred Maint & Facility Repl"
  - Code gas pipeline development projects to "Gasline"
  - Code Mental Health Trust Authority project recommendations to "MH Trust Recommendation"

As we continue to develop the FY2010 budget package, you may be requested to assign other management groups to certain types of capital projects.

- Fund Capitalizations

The appropriations to capitalize funds used as a fund source for capital projects will be included in the capital budget bill. The tracking of those fund capitalizations, however, will continue to be done in Operating ABS. Please contact your OMB Analyst if any of your proposed capital projects are dependent upon a fund capitalization appropriation.

What and When Departments submit to OMB

Departments submit their initial capital project scenario to OMB two days prior to their "Heads Up" Meeting. The final department capital project scenario is due to OMB on November 17.

As always, if you have any questions, please contact your OMB Analyst.

Dear Finance Committee Co-Chairs:

Pursuant to statement of legislative intent in sec. 7, ch. 27, SLA 2008, I have enclosed the report on transfers to and from the personal services line in departments' FY2009 operating budgets. I apologize for the delay in providing the report by the January 15 due date.

As indicated in the report, the reasons for the transfers vary widely among the departments and include, but are not limited to, the following:

- transfers of positions and related funding between components;
- adjustments to reflect updated staffing costs and other costs;
- transfers of empty non-general fund expenditure authority from the personal services line to another line item for the purpose of placing restrictions on the funds (cannot be done in the personal services line);
- transfers to correct appropriations consolidated in the services, grants, or miscellaneous line items; and
- transfers to align with the terms of specific grants.

The transfers reflect the reallocation of resources to accomplish the organizations' responsibilities.

Please note that the vast majority of these transfers are documented in the FY2009 Authorized and FY2009 Management Plan scenarios in each department's FY2010 budget books.

Sincerely,

Karen J. Rehfeld
Director

Enclosure

cc: David Teal, Legislative Finance Division

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Administration	Administrative Services	(65.9)	Management Plan line item transfers to and from personal services in multiple components to adjust for changes in positions per staffing requirements and changes in merit steps due to turnover. Administration Total		**(567.3)**	
Commerce, Community, and Economic Development	Administrative Services	(119.8)	Management Plan Transaction - Personal services costs have been reduced through reorganization of several positions, making authorization available for increasing costs of support to offices in Anchorage and Fairbanks and increasing costs of services, supplies and equipment.
Commerce, Community, and Economic Development	Alaska Aerospace Development Corporation	147.0	Management Plan Transaction - A position and $147.0 associated funding are being transferred from the facilities component to Alaska Aerospace Development Corporation.
Commerce, Community, and Economic Development	Alaska Aerospace Development Corporation	338.0	Management Plan Transaction - The cost of positions is higher than previously budgeted and existing employees are being used instead of contractors. Funding is being transferred from the contractual line to accommodate these changes in costs.
Commerce, Community, and Economic Development	Alaska Aerospace Development Corporation Facilities Maintenance	(147.0)	Management Plan Transaction - A position and $147.0 associated funding are being transferred from the facilities component to Alaska Aerospace Development Corporation.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Commerce, Community, and Economic Development	Banking and Securities	45.0	Management Plan Transaction - Positions transferring to and from the component (Securities Examiner and Financial Institution Examiner transferred in from the Office of Consumer Affairs and Investigations and an Occupational Licensing Examiner transferred out to Corporations, Business and Professional Licensing) have resulted in the need for additional personal services authorization. Contractual expenditures are being adjusted to accommodate this need.
Commerce, Community, and Economic Development	Community and Regional Affairs	40.0	The initial budget was recorded in the contractual line for AR29807-09 SLA08 Ch. 1, P. 2, L. 19. Personal services and travel expenditure authority are also needed to administer this program. This transaction transfers $40.0 to the personal services line.
Commerce, Community, and Economic Development	Corporations, Business and Professional Licensing	(123.8)	Management Plan Transaction - Accounting positions have been transferred to Administrative Services for direct supervision and will be supported by a Reimbursable Services Agreement. Line item funding is being transferred to the services line to correctly reflect payment for the positions.
Commerce, Community, and Economic Development	Investments	417.6	Management Plan Transaction - Four positions, previously supported by a contract with Administrative Services, have been transferred back to the component for direct supervision. Funding is being transferred from contractual to personal services to continue funding the positions.
Commerce, Community, and Economic Development	Investments	(100.0)	This transfer from personal services is needed to meet the contractual obligations of the Division of Investments. Earlier estimates of the line item amounts needed for operations are being revised. Several revised programs have occurred and will continue to occur as a result of organizational changes and associated necessary budget adjustments.
Commerce, Community, and Economic Development	Office of Consumer Affairs and Investigations	(300.0)	In a Management Plan realignment, positions have been transferred to Banking and Securities to align functions. Associated Interagency funding is being transferred to contractual to correctly reflect personal services costs and hold for further evaluation of the ability to collect.
Commerce, Community, and Economic Development Total		**195.0**	
Corrections	Anchorage Correctional Complex	89.2	Management Plan transfer of a position and personal services authorization from Classification and Furlough -$89.2 to Anchorage CC $89.2. No net change in personal services authorization.
Corrections	Anchorage Correctional Complex	(18.9)	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Anchorage Correctional Complex	164.5	Management Plan transfer of 2 positions and personal services authorization from Electronic Monitoring -$164.5 to Anchorage CC $164.5. No net change in personal services authorization.
Corrections	Anchorage Correctional Complex	136.0	Management Plan allocation of positions and personal services authorization between components. No net change in personal services authorization. Anchorage CC $136.0, Hiland Mountain CC $340.0, Mat-Su CC $136.0, Palmer CC $136.0, Fairbanks CC -$748.0.
Corrections	Anvil Mountain Correctional Center	(14.6)	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Classification and Furlough	(89.2)	Management Plan transfer of a position and personal services authorization from Classification and Furlough -$89.2 to Anchorage CC $89.2. No net change in personal services authorization.
Corrections	Electronic Monitoring	(164.5)	Management Plan transfer of 2 positions and personal services authorization from Electronic Monitoring -$164.5 to Anchorage CC $164.5. No net change in personal services authorization.

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Corrections	Facility - Capital Improvement Unit	(7.4)	Funds are transferred from Personal Services to Services to meet Management Plan vacancy guidelines. The authorization is being transferred to the contractual line to meet the various increased expenditures for the Department of Administration Reimbursable Service Agreements (RSA) charge-backs such as: Building Leases, Risk Management, Information Technology (IT) Telecom, IT Non-Telecom, Central Mail, Human Resources, etc.
Corrections	Fairbanks Correctional Center	(748.0)	Management Plan allocation of positions and personal services authorization between components. No net change in personal services authorization. Anchorage CC $136.0, Hiland Mountain CC $340.0, Mat-Su CC $136.0, Palmer CC $136.0, Fairbanks CC -$748.0.
Corrections	Fairbanks Correctional Center	(13.1)	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Hiland Mountain Correctional Center	(56.7)	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Hiland Mountain Correctional Center	340.0	Management Plan allocation of positions and personal services authorization between components. No net change in personal services authorization. Anchorage CC $136.0, Hiland Mountain CC $340.0, Mat-Su CC $136.0, Palmer CC $136.0, Fairbanks CC -$748.0.
Corrections	Hiland Mountain Correctional Center	63.8	Management Plan transfer of 1 position and personal services authorization from Spring Creek CC -$63.8 to Hiland Mountain CC $63.8. No net change in personal services authorization.
Corrections	Inmate Transportation	58.6	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Ketchikan Correctional Center	27.7	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Lemon Creek Correctional Center	60.2	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Mat-Su Correctional Center	136.0	Management Plan allocation of positions and personal services authorization between components. No net change in personal services authorization. Anchorage CC $136.0, Hiland Mountain CC $340.0, Mat-Su CC $136.0, Palmer CC $136.0, Fairbanks CC -$748.0.
Corrections	Mat-Su Correctional Center	98.6	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Corrections	Out-of-State Contractual	(15.5)	Authorization is transferred from Personal Services to Commodities to meet Management Plan vacancy guidelines. The authorization is being transferred to the commodities line to meet the anticipated expenditures of electronic equipment and tools, and business supplies for this component.
Corrections	Palmer Correctional Center	136.0	Management Plan allocation of positions and personal services authorization between components. No net change in personal services authorization. Anchorage CC $136.0, Hiland Mountain CC $340.0, Mat-Su CC $136.0, Palmer CC $136.0, Fairbanks CC -$748.0.
Corrections	Palmer Correctional Center	13.3	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Prison System Expansion	(263.0)	This RP is necessary to meet the annual operating expenditures within this component for travel and contractual obligations associated with expansion planning and coordination of the prison system expansion projects. An increment was received in FY2009 to meet these costs, however, it was received as CIP Receipts which will not be realized in FY2009. The Personal Services authorization is available from position vacancies that are anticipated to be filled in FY2010 in preparation for the opening of the Goose Creek Correction Facility.
Corrections	Pt. MacKenzie Correctional Farm	34.7	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Spring Creek Correctional Center	(275.5)	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Spring Creek Correctional Center	(63.8)	Management Plan transfer of 1 position and personal services authorization from Spring Creek CC -$63.8 to Hiland Mountain CC $63.8. No net change in personal services authorization.
Corrections	Spring Creek Correctional Center	(340.0)	Management Plan transfer of 5 positions and personal services authorization from Spring Creek CC -$340.0 to Wildwood CC $340.0. No net change in personal services authorization.
Corrections	Wildwood Correctional Center	340.0	Management Plan transfer of 5 positions and personal services authorization from Spring Creek CC -$340.0 to Wildwood CC $340.0. No net change in personal services authorization.
Corrections	Wildwood Correctional Center	116.7	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections	Yukon-Kuskokwim Correctional Center	(31.0)	Management Plan allocation of Premium Pay and Vacancy and Turnover PS authorization between components. No net change is made in the Personal Services line item. Inmate Transportation 58.6, Anchorage CC -18.9, Anvil Mountain CC -14.6, Hiland Mountain CC -56.7, Fairbanks CC -13.1, Ketchikan CC 27.7, Lemon Creek CC 60.2, Mat-Su CC 98.6, Palmer CC 13.3, Spring Creek CC -275.5, Wildwood CC 116.7, Yukon-Kuskokwim CC -31.0, Pt. MacKenzie CF 34.7.
Corrections Total		**(285.9)**	

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Education and Early Development	ACPE - Program Administration and Operations	(347.2)	Management Plan transfer of $347.2 from personal services and $21.4 from capital outlay to contractual services and commodities. Funds are available for transfer due to efficiencies that reduced dependence on labor-intensive loan services. Instead, costs are relevant to implementing the related new technologies.
Education and Early Development	Archives	(10.5)	Management Plan transfer of $10.5 from personal services to contractual services. Funds are available for transfer because positions were re-filled at lower steps than those initially budgeted.
Education and Early Development	Early Learning Coordination	(0.6)	Management Plan transfer of $0.6 from personal services to contractual services due to unanticipated recruitment challenges and extended vacancies.
Education and Early Development	Executive Administration	(250.0)	Transfer $250.0 from personal services to contractual services and travel. Funds were available for transfer due to vacancy related to lengthy HR processes that were additionally hindered by failed recruitments most likely due to potential applicants (certified teachers) already being under contract for the year.
Education and Early Development	Information Services	36.6	Management Plan transfer of $36.6 to personal services from contractual services. Vacancy factor had been exceeded due to position upgrades reflecting higher level duties being performed by the positions.
Education and Early Development	Library Operations	85.0	Transfer $85.0 in unallocated federal funds to personal services from contractual. Excess federal is most conveniently kept in contractual line. Formerly, these federal funds could not be spent on personal services, but now they are allowed.
Education and Early Development	Professional Teaching Practices Commission	4.0	Management Plan transfer of $4.0 to personal services from travel because the step increase for the Executive Secretary position exceeded what was initially budgeted.
Education and Early Development	School Performance Incentive Program	80.0	This transfer of $80.0 to personal services from the grants line is in line with previous year's transfer as needed and described in original fiscal note for enabling legislation, Chapter 41 SLA 2006.
Education and Early Development	State Facility Maintenance	(4.3)	Management Plan transfer of $4.3 from personal services to contractual services. Due to continual position vacancies, the FY09 actuals are expected to be less than the amount budgeted in component.
Education and Early Development	Teacher Certification	(2.0)	Management Plan transfer of $2.0 from personal services to contractual services due to unanticipated recruitment challenges.
Education and Early Development Total		(409.0)	
Environmental Conservation		0.0	
Environmental Conservation Total		0.0	
Fish and Game	AYK Region Fisheries Management	(54.6)	Management Plan: Transfer $54.6 in personal services from Arctic Yukon Kuskokwim Region Fisheries Management to Commercial Fisheries Headquarters Fisheries Management. Excess personal services authority was available due to an adjustment made to the vacancy factor (increase the vacancy amount) between the FY09 Governor's budget and the FY09 Management Plan. $14.5 of this is transferred in as personal services and the remainder ($40.1) is to the services line. Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs (services line). General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Fish and Game	AYK Region Fisheries Management	(121.4)	Management Plan: Transfer to move excess personal services authority to the travel and contractual lines to meet the needs of the Joint Technical Committee (JTC) and Yukon River Panel (YRP) meetings. Personal services costs had been reduced due to transfers of two positions to other components. The Yukon River Treaty agreement between the United States and Canada requires the JTC and YRP to meet twice annually, with one meeting for each group occurring in Canada and one in Alaska. Due to increased travel costs, including the need for air charters along with hotel and meeting space, this line item adjustment is required.
Fish and Game	AYK Region Fisheries Management	50.5	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Central Region Fisheries Management	(20.6)	Management Plan: Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs. General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.
Fish and Game	Central Region Fisheries Management	24.1	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Commercial Fisheries Special Projects	(50.5)	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Commercial Fisheries Special Projects	(64.7)	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Commercial Fisheries Special Projects	(24.1)	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Commercial Fisheries Special Projects	1,298.0	Management Plan: In the FY09 Governor's Amended budget, a federal budget cut resulted in the decrement of $5,246.8 in federal receipt authority, with $3,717.3 reduced from the personal services line. After closely reviewing the federal budget and state authorization, Commercial Fisheries realized they have taken too much out of personal services. A line item transfer is now required to move authority back into personal services from the contractual line to allow the budgeting of the component's PCNs. This line item change is required to cover existing positions, but the change has no service impact of contractual as the authority exceeds proposed spending.
Fish and Game	Commercial Fisheries Special Projects	(51.0)	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.

Transfers in and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Fish and Game	Commercial Fisheries Special Projects	(28.8)	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs. PCN 11-1204, Fishery Biologist III stationed in Juneau, is being transferred from Commercial Fisheries Special Projects to Commercial Fisheries Headquarters Fisheries Management and will be assigned to the Extended Jurisdiction Section.
Fish and Game	Commissioner's Office	(89.0)	Management Plan: A transfer of $59.8 is needed from the personal services line to the services line to adjust ADN 11-9-0053 (Fiscal note for SB 214) done in the FY09 Authorized scenario. The funds were posted to the personal services line. During FY09, the funds will be RSA'd from the Commissioner's Office to Administrative Services for the Licensing data entry program which directly supports the Sport Fishing and Wildlife Conservation licensing program. The remaining $29.2 of this line item transfer from personal services to the services line is necessary to reconcile personal services per vacancy factor guidelines. There is no service impact due to this line item adjustment.
Fish and Game	EVOS Trustee Council	(82.0)	Management Plan: Adjust vacancy factor and personal services authorization to reflect anticipated personal services, based on proposed EVOS Program Development and Implementation budget. There is no expected change in service level due to this line item change.
Fish and Game	Headquarters Fisheries Management	20.6	Management Plan: Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs. General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.
Fish and Game	Headquarters Fisheries Management	14.8	Management Plan: Transfer $32.5 in personal services from Commercial Fisheries Southeast Region Fisheries Management to Commercial Fisheries Headquarters Fisheries Management. $17.7 is to the services line and $14.8 is transferred in as personal services to fund an Internet Specialist II position. Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs (services line). General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.
Fish and Game	Headquarters Fisheries Management	14.5	Management Plan: Transfer $54.6 in personal services from Arctic Yukon Kuskokwim Region Fisheries Management to Commercial Fisheries Headquarters Fisheries Management. $40.1 is to the services line and $14.5 is transferred in as personal services to fund an Internet Specialist II position. Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs (services line). General funds are also being transferred from each regional management component to the Headquarters Fisneries Management component to fund an Internet Specialist II position.

Transfers in and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Fish and Game	Headquarters Fisheries Management	20.9	Management Plan: Transfer $139.5 personal services from Commercial Fisheries Westward Region Fisheries Management to Commercial Fisheries Headquarters Fisheries Management. $118.6 is to the services line and $20.9 is transferred in as personal services to fund an Internet Specialist II position. Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs (services line). General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.
Fish and Game	Headquarters Fisheries Management	28.8	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs. PCN 11-1204, Fishery Biologist III stationed in Juneau, is being transferred from Commercial Fisheries Special Projects to Commercial Fisheries Headquarters Fisheries Management and will be assigned to the Extended Jurisdiction Section.
Fish and Game	Southeast Region Fisheries Management	64.7	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Southeast Region Fisheries Management	(116.7)	Management Plan: Funds are being transferred from the personal services line to the services line to align with the current spending plan following implementation of approved FY09 increments. There are no expected changes in service levels as a result of this line item transfer.
Fish and Game	Southeast Region Fisheries Management	(32.5)	Management Plan: Transfer $32.5 in personal services from Commercial Fisheries Southeast Region Fisheries Management to Commercial Fisheries Headquarters Fisheries Management. $14.8 of this is transferred in as personal services and the remainder ($17.7) is to the services line. Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs (services line). General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.
Fish and Game	Sport Fisheries	(309.4)	Management Plan: This line item adjustment transfers authority from the personal services line to the services line to align expenditure categories with expected spending plan. During review of PCNs in Management Plan, it was realized that the spread done in the FY09 Authorized budget put too much authority in the personal services line item. There are no expected changes in service levels as a result of this line item transfer.
Fish and Game	Sport Fisheries Research and Restoration	(604.7)	Management Plan: This moves personal services authority to contractual to cover RSAs to the Habitat Division. Per Executive Order #114, transferring the Habitat Division from the Department of Natural Resources back to the Department of Fish and Game. This transfer is related to the transfer out of positions from Sport Fisheries Research and Restoration to Habitat. In the FY10 budget, funding and authority will be transferred from the Sport Fisheries Division to the Habitat Division.
Fish and Game	Westward Region Fisheries Management	1,083.3	Authorized: transaction to spread the Westward Region's $1,965.1 increment replacing lost federal funds, from the miscellaneous line item to the correct line items. $1,083.3 was spread to the personal services line item.

Transfers in and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Fish and Game	Westward Region Fisheries Management	51.0	Management Plan: In the FY09 Governor's amended budget, the Division of Commercial Fisheries received general fund increments to replace federal grant project funding that was being cut or reduced. The PCNs associated with these increments were transferred from the Special Projects component to the various regional components. This change record transfers the appropriate amount of COLA associated with these PCNs.
Fish and Game	Westward Region Fisheries Management	(139.5)	Management Plan: Transfer $139.5 personal services from Commercial Fisheries Westward Region Fisheries Management to Commercial Fisheries Headquarters Fisheries Management. $20.9 of this is transferred in as personal services and the remainder ($118.6) is to the services line. Due to the loss of federal funds and the approval of general fund increments in the FY09 Governor's amended budget, general funds are being transferred from each regional management component to Headquarters Fisheries Management to replace the reduction of indirect funds, to pay for a variety of division-wide costs (services line). General funds are also being transferred from each regional management component to the Headquarters Fisheries Management component to fund an Internet Specialist II position.
Fish and Game	Westward Region Fisheries Management	(350.0)	Management Plan: This line item adjustment transfers authority from the personal services line to travel ($25.0), services ($300.0) and commodities ($25.0) to align expenditure categories with expected spending plan. During review of PCNs in Management Plan, it was realized that the spread done in the FY09 Authorized budget put too much authority in the personal services line item. There are no expected changes in service levels as a result of this line item transfer.
Fish and Game	Wildlife Conservation	52.5	Management Plan: A total of $90.0 in personal services is transferred from the Wildlife Conservation Restoration Program to the Wildlife Conservation component for the U.S. Fish & Wildlife Service for Pittman/Robertson (PR) Wildlife Restoration and Hunter Education programs. $37.5 is being transferred to the services line and the remaining $52.5 is transferred as personal services to increase capacity for the following: staffing for game management units around King Salmon will be increased with an additional Wildlife Biologist position; projects assigned to wildlife education positions will have a greater emphasis on big game management and hunting oriented education; hunter education program services will be emphasized with increased outreach to rural areas; staffing for technician and administrative assistance in the Galena office will be established.
Fish and Game	Wildlife Conservation	(50.0)	Management Plan: An FY09 budget increment added funding for a coordinated department response to the Endangered Species Act listings. A Wildlife Biologist III position in Juneau has been hired. Funding is more accurately budgeted in the Wildlife Conservation Restoration Program component; therefore the position and funding are being transferred between components.
Fish and Game	Wildlife Conservation Restoration Program	50.0	Management Plan: An FY09 budget increment added funding for a coordinated department response to the Endangered Species Act listings. A Wildlife Biologist III position in Juneau has been hired. Funding is more accurately budgeted in the Wildlife Conservation Restoration Program component; therefore the position and funding are being transferred between components.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Fish and Game	Wildlife Conservation Restoration Program	(90.0)	Management Plan: A total of $90.0 in personal services is transferred from the Wildlife Conservation Restoration Program to the Wildlife Conservation component. $37.5 is being transferred to the services line, as is needed for grant funding levels during FY09 from the U.S. Fish & Wildlife Service for Pittman/Robertson (PR) Wildlife Restoration and Hunter Education programs. The FY09 grant agreements for PR funding for these ongoing statewide programs has been awarded. The division will address field survey and research work for biologists and technicians statewide. Our programmatic work includes significant expenditures for contracted charter aircraft for field surveys and the testing of samples. The remaining $52.5 is transferred as personal services to increase capacity for the following: staffing for game management units around King Salmon will be increased with an additional Wildlife Biologist position; projects assigned to wildlife education positions will have a greater emphasis on big game management and hunting oriented education; hunter education program services will be emphasized with increased outreach to rural areas; staffing for technician and administrative assistance in the Galena office will be established.
Fish and Game Total		**494.2**	
Health and Social Services	Adult Public Assistance	134.6	Management Plan: Transfer position and funding of $134.6 to Adult Public Assistance from Work Services.
Health and Social Services	Alaska Mental Health and Alcohol and Drug Abuse Boards	(60.0)	Management Plan: Transfer $60.0 from personal services to travel ($23.0), services ($33.0) and commodities ($4.0) to align funding with FY09 spending plan.
Health and Social Services	Alaska Pioneer Homes Management	(109.8)	Management Plan: Transfer personal services funding for a deleted position from Alaska Pioneer Homes Management to the Pioneer Homes component personal services line.
Health and Social Services	Alaska Psychiatric Institute	90.0	Behavioral Health Administration is transferring federal authority to API for a health information technology grant; $316.1 will be transferred from contractual to API's personal services ($90.0), travel ($52.6), contractual ($166.9) and supplies ($6.6).
Health and Social Services	Alaska Psychiatric Institute	(526.1)	Transfer $526.1 from personal services to grants to cover locum tenens expenditures that occur when staff psychiatrist and physician positions are vacant. Locum tenens expenditures are spent from the grants line.
Health and Social Services	Alaska Psychiatric Institute	(700.0)	Transfer $700.0 from personal services to grants to cover locum tenens expenditures that occur when staff psychiatrist and physician positions are vacant. Locum tenens expenditures are made from the grants line.
Health and Social Services	Alcohol Safety Action Program	(85.0)	Management Plan: Alcohol Safety Action Program transfers $85.0 from personal services to travel ($25.0), services ($30.0), commodities ($27.0 and equipment ($3.0) to align authorization with FY09 spending plan.
Health and Social Services	Behavioral Health Administration	409.0	Management Plan: Transfer from Behavioral Health Medicaid grants line to Behavioral Health Administration personal services for Bring the Kids Home Care Coordination.
Health and Social Services	Behavioral Health Administration	46.3	Management Plan: Transfer from Suicide Prevention Council personal services line to Behavioral Health Administration personal services for support position for the Council.
Health and Social Services	Behavioral Health Administration	55.0	Management Plan: Transfer from Services to Seriously Emotionally Disturbed Youth personal services line to Behavioral Health Administration personal services where personal services costs for Utilization Review staff are centralized.
Health and Social Services	Bethel Youth Facility	70.9	Management Plan: Transfer of $70.9 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description).
Health and Social Services	Certification and Licensing	(101.0)	Management Plan: Transfer position and funding of $101.0 to Public Health Laboratories from Certification and Licensing.
Health and Social Services	Certification and Licensing	101.0	Management Plan: Transfer position and funding of $101.0 to Public Health Laboratories from Certification and Licensing.

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Health and Social Services	Child Care Benefits	52.1	Management Plan: Transfer position and funding of $52.1 to Public Assistance Field Services to Child Care Benefits.
Health and Social Services	Children's Services Management	(220.0)	Management Plan: Transfer $220.0 from personal services (funds available due to staff turnover and a position transferring to another component) to contractual to bring personal services within vacancy factor guidelines.
Health and Social Services	Commission on Aging	5.0	Management Plan: Transfer $5.0 to personal services to fund personal services within recommended vacancy rates.
Health and Social Services	Commissioner's Office	157.0	Management Plan: Transfer $10.0 from Quality Assurance and Audit's personal services to Commissioner's Office personal services to cover existing positions. Management Plan: Transfer $62.0 from Hearings and Appeals personal services to Commissioner's Office personal services to cover existing positions. Management Plan: Transfer $15.0 from travel and $70.0 from services to personal services to cover additional personal services costs.
Health and Social Services	Community Initiative Matching Grants	(34.9)	Management Plan: Transfers $34.9 from personal services to travel ($9.9), contractual ($15.0) and services ($10.0) to meet operational needs.
Health and Social Services	Fairbanks Youth Facility	129.3	Management Plan: Transfer of $129.3 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description).
Health and Social Services	Front Line Social Workers	(2,794.8)	Management Plan: Transfers $2,794.8 from personal services and $255.2 from grants to the services line where it will be restricted. This is "empty" federal, interagency receipts, and statutory designated program receipts authority. Federal funds are reduced in the FY10 budget (replaced with GF).
Health and Social Services	Governor's Council on Disabilities and Special Education	(25.0)	Management Plan: Transfer $25.0 from personal services to services to align funding with FY09 spending plan.
Health and Social Services	Hearings and Appeals	(62.0)	Management Plan: Transfer $62.0 from Hearings and Appeals personal services to Commissioner's Office personal services to cover existing positions.
Health and Social Services	Infant Learning Program Grants	95.0	Management Plan: Transfer from grants to personal services to meet current operational needs.
Health and Social Services	Information Technology	(58.0)	Transfer funding of $58.0 to Public Affairs from Information Technology Services for positions transferred earlier.
Health and Social Services	Johnson Youth Center	141.6	Management Plan: Transfer of $49.6 from Probation Services to fund a non-permanent position. Management Plan: Transfer of $92.0 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description).
Health and Social Services	Kenai Peninsula Youth Facility	(42.9)	Management Plan: Transfer of $37.7 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description). Management Plan: Transfer position and funding of $80.6 to Probation Services.
Health and Social Services	Ketchikan Regional Youth Facility	25.3	Management Plan: Transfer of $25.3 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description).
Health and Social Services	Mat-Su Youth Facility	(53.2)	Management Plan: Transfer of $25.2 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description). Management Plan: Transfer position and funding of $78.4 to Probation Services.

Transfers in and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Health and Social Services	McLaughlin Youth Center	(450.0)	Management Plan: Transfer personal services funding received for the FY09 increment for safety and security which had been consolidated in this component. Funding is allocated to Mat-Su Youth Facility ($25.2), Kenai Peninsula Youth Facility ($37.7), Fairbanks Youth Facility ($129.3), Bethel Youth Facility ($70.9), Nome Youth Facility ($69.6), Johnson Youth Center ($92.0) and Ketchikan Regional Youth Facility ($25.3) as laid out in the original change record description.
Health and Social Services	Medical Assistance Administration	(97.6)	Management Plan: Transfer position and associated funding from Medical Assistance Administration personal services to Rate Review personal services.
Health and Social Services	Nome Youth Facility	69.6	Management Plan: Transfer of $69.6 from McLaughlin Youth Center's personal services line as part of the allocation of the FY09 increment for safety and security (had been budgeted in McLaughlin but detailed the allocation in the description).
Health and Social Services	Pioneer Homes	109.8	Management Plan: Transfer personal services funding for a deleted position from Alaska Pioneer Homes Management to the Pioneer Homes component personal services line.
Health and Social Services	Pioneer Homes	(1,000.0)	Management Plan: Transfers $1,000.0 from personal services to contractual to bring personal services within approved vacancy rates and allow for increased contractual expenses such as utility and RSA cost increases.
Health and Social Services	Probation Services	159.0	Management Plan: Transfer position and funding of $80.6 to Probation Services from Kenai Peninsula Youth Facility. Management Plan: Transfer position and funding of $78.4 to Probation Services from Mat-Su Youth Facility.
Health and Social Services	Public Affairs	58.0	Management Plan: Transfer funding of $58.0 to Public Affairs from Information Technology Services for positions transferred earlier.
Health and Social Services	Public Assistance Administration	64.3	Management Plan: Transfer position and funding of $64.3 to Public Assistance Administration from Public Administration Field Services.
Health and Social Services	Public Assistance Administration	72.4	Management Plan: Transfer position and funding of $72.4 to Public Assistance Administration from Quality Control.
Health and Social Services	Public Assistance Administration	(64.3)	Management Plan: Transfer position and funding of $64.3 to Public Assistance Administration from Public Administration Field Services.
Health and Social Services	Public Assistance Field Services	(1,400.0)	Management Plan: Transfer $1,400.0 from personal services to contractual ($1,000.0) and commodities ($400.0) to cover increased lease costs, increases for Electronic Benefit Transfers and other cost increases.
Health and Social Services	Public Assistance Field Services	(52.1)	Management Plan: Transfer position and funding of $52.1 to Public Assistance Field Services to Child Care Benefits.
Health and Social Services	Quality Assurance and Audit	(50.0)	Management Plan: Transfer $40.0 from personal services to contractual for a Reimbursable Services Agreement with Health Care Services; Management Plan: Transfer $10.0 personal services to Commissioner's Office personal services to cover costs of existing positions as part of departmental realignment.
Health and Social Services	Quality Control	(72.4)	Management Plan: Transfer position and funding of $72.4 to Public Assistance Administration from Quality Control.
Health and Social Services	Rate Review	97.6	Management Plan: Transfer position and associated funding from Medical Assistance Administration personal services to Rate Review personal services.
Health and Social Services	Services for Severely Emotionally Disturbed Youth	(55.0)	Management Plan: Transfer from Services to Seriously Emotionally Disturbed Youth personal services line to Behavioral Health Administration personal services where personal services costs for Utilization Review staff are centralized.
Health and Social Services	State Medical Examiner	(200.0)	Transfer $200.0 from personal services to contractual to pay for locum tenens services required since staff medical examiner positions are vacant.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Health and Social Services	Suicide Prevention Council	(46.3)	Management Plan: Transfer from Suicide Prevention Council personal services line to Behavioral Health Administration personal services for support position for the Council.
Health and Social Services	Work Services	(134.6)	Management Plan: Transfer position and funding of $134.6 to Adult Public Assistance from Work Services.
Health and Social Services Total		(6,352.2)	
Labor and Workforce Development	Commissioner's Office	48.0	Management Plan Transaction - A Communication Coordinator has been created and assigned a special study to improve the department's efforts to inform Alaskans of job opportunities associated with natural resource development. The position will do education and outreach originally intended as a contract and funding is being transferred from contractual to support the position.
Labor and Workforce Development	Disability Determination	(150.0)	Management Plan Transaction - The component receives funding from the Social Security Administration (SSA). SSA requirements regarding reduced hiring and necessary training, contract rate increases for medical consultants and increased costs associated with telephone and voice mail system changes require adjustments to authority to meet anticipated expenditures. Funding is being transferred to the travel ($15.0), contractual ($125.0) and supply ($10.0) lines.
Labor and Workforce Development	Fishermen's Fund	10.5	Management Plan Transaction - Contractual requirements for supervisor differential pay and shifting split funded positions have increased personal services costs. Contractual funding is available for transfer to offset these costs because of a decrease in outside data testing necessary for the Fishermen's Fund system.
Labor and Workforce Development	Second Injury Fund	14.2	Management Plan Transaction - Contractual requirements for supervisor differential pay and shifting split funded positions have increased personal services costs. Contractual funding is available for transfer to offset these costs because of a decrease in outside data testing necessary for the Second Injury fund system.
Labor and Workforce Development	Workers' Compensation Appeals Commission	(33.8)	Management Plan Transaction - A Law Externship with Seattle University has been established to provide assistance writing decisions that can no longer be provided by the Attorney General's Office. Restrictions in the externship program allow the payment of housing and transportation costs only, not salary. Funding is being transferred from personal services to travel ($2.5) and contractual ($31.3) to provide allowed expenses for the extern.
Labor and Workforce Development	Workforce Investment Board	3.5	Management Plan Transaction - Appointment of an existing employee to a vacant position resulted in the costs of the position being higher than budgeted. This transfer is necessary to cover those increased costs. Contractual expenditures will be reduced to provide needed funding.
Labor and Workforce Development Total		(107.6)	
Law	Commercial and Fair Business	150.0	Management Plan line item transfer. Statutory designated program receipts were reduced in FY09 (Law Amendment # 1 in House Finance on 2-27-08) which affected the personal services budget. A line item transfer of $150.0 from contractual services to the personal services line item is necessary to align personal services costs with available fund sources.
Law	Criminal Appeals/Special Litigation	(150.0)	Management Plan line item transfer. Align Sexual Assault/Domestic Violence Federal Earmark with anticipated expenditures. Funding distribution originally established for the FY08 Supplemental was submitted prior to the actual grant being implemented. Due to changes in the actual grant spending plan, personal services for this component was overstated. This line item transfer better aligns the anticipated expenditures for the grant by transferring $150.0 from personal services to contractual services.

Natural Resources	Administrative Services	25.0	Transfer from Commissioner's Office to Administrative Services to cover workload costs.

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Natural Resources	Administrative Services	100.0	Management Plan net zero personal services transfer of excess Interagency Receipts from Claims, Permits & Leases to Administrative Services.
Natural Resources	Agricultural Development	50.0	Transfer from services to personal services for non-perm support for two new federal grants.
Natural Resources	Claims, Permits and Leases	(125.0)	Management Plan adjustment transferring uncollectable Interagency Receipts authorization out of personal services to services line for restriction.
Natural Resources	Claims, Permits and Leases	(37.5)	Management Plan adjustment transferring personal services to services to contract Guide Services work.
Natural Resources	Claims, Permits and Leases	(100.0)	Management Plan net zero personal services transfer of excess Interagency Receipts from Claims, Permits & Leases to Administrative Services.
Natural Resources	Claims, Permits and Leases	(4.3)	Transfer personal services from Claims Permits & Leases to Information Resource Management (Oil/Haz IA).
Natural Resources	Claims, Permits and Leases	(55.4)	Transfer out federal receipts from personal services to services. Increased federal was requested for a new position which was not approved.
Natural Resources	Claims, Permits and Leases	(26.0)	Transfer excess Interagency Receipts Authority from Claims Permits & Leases to Director's Office/Mining, Land & Water.
Natural Resources	Claims, Permits and Leases	(80.0)	Transfer excess federal personal services authorization to services in Plant Material Center.
Natural Resources	Claims, Permits and Leases	(30.6)	Transfer excess Interagency Receipt authority from Claims Permits & Leases to Geological and Geophysical Development. Net zero transfer.
Natural Resources	Commissioner's Office	(25.0)	Transfer from Commissioner's Office to Administrative Services to cover workload costs.
Natural Resources	Conservation and Development Board	(20.0)	Staff support for the Conservation and Development Board is being provided by Commissioner's Office. $20.0 is transferred to services in order to pay support costs via RSA.
Natural Resources	Director's Office/Mining, Land and Water	26.0	Transfer excess Interagency Receipts Authority from Claims Permits & Leases to Director's Office/Mining, Land & Water.
Natural Resources	Fire Suppression Activity	2,500.0	Transfer into personal services from travel and services to match federal fire expenditures.
Natural Resources	Fire Suppression Preparedness	(50.0)	Transfer funding from personal services to services to correct auto AB coding error.
Natural Resources	Geological Development	125.0	Transfer (federal) funding from services to personal services to pay increased Alaska Volcano Observatory personal services costs as outlined in the current federal grant agreement.
Natural Resources	Geological Development	30.6	Transfer excess Interagency Receipt authority from Claims Permits & Leases to Geological and Geophysical Development.
Natural Resources	Information Resource Management	50.0	Management Plan net zero transfer from Information Technology Chargeback to Information Resource Management with PCN 10-N185.
Natural Resources	Information Resource Management	4.3	Transfer personal services from Claims Permits & Leases to Information Resource Management (Oil/Haz IA).
Natural Resources	Intradepartmental Information Technology Chargeback	(50.0)	Management Plan net zero transfer from Information Technology Chargeback to Information Resource Management with PCN 10-N185.
Natural Resources	Land Sales	(20.0)	Transfer excess SDPR personal services authorization to Plant Material Center to support noxious weed program.
Natural Resources	North Latitude Plant Material Center	20.0	Transfer excess SDPR personal services authorization from Land Sales to support noxious weed program.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Natural Resources	Oil and Gas Development	325.7	Management Plan - FY09 funding was appropriated to the Office of the Governor in the services line. Funding was transferred to DNR in FY09 Authorized. This is the FY09 Management Plan adjustment to cover personal services cost of AGIA implementation staff .
Natural Resources	Pipeline Coordinator	(100.0)	Management Plan adjustment for anticipated new projects, including ENSTAR and Denali Gas Pipeline Right-of-Way applications. Personal services transfer to services. Personal services available to transfer due to vacant positions.
Natural Resources	Recorder's Office	(30.0)	Transfer excess personal services (due to staff turnover) to commodities for equipment upgrade.
Natural Resources	RS2477	(85.0)	Management Plan adjustment - funding should have been appropriated in Title component - moving to services to pay for RSA.
Natural Resources	Trustee Council Projects	60.0	Transfer from services to personal services to pay increased DNR support costs.
Natural Resources	Water Development	(30.0)	Management Plan adjustment moving uncollectable revenue out of personal services.

Public Safety	Alaska Fire Standards Council	29.5	Management Plan: Transfer into personal services from contractual to fully fund the positions within vacancy guidelines.
Public Safety	Alaska Police Standards Council	(1.4)	Management Plan: Transfer from personal services to contractual to bring personal services within vacancy guidelines. Funds are available due to staff turnover.
Public Safety	Alaska State Troopers Detachments	91.9	Management Plan: Transfer position and funding from Search and Rescue to Detachments where personal services for the function is located.
Public Safety	Alaska State Troopers Detachments	(21.1)	Management Plan: Transfer funding from Detachments to Alaska Bureau of Investigation to bring personal services in line with vacancy recommendations.
Public Safety	Alaska State Troopers Detachments	(29.1)	Management Plan: Transfer funding from Detachments to Alaska Bureau of Alcohol and Drug Enforcement to bring personal services in line with vacancy recommendations.
Public Safety	Alaska State Troopers Narcotics Task Force	84.7	Management Plan: Transfer position and funding from Special Projects to Narcotics Task Force.
Public Safety	Alaska State Troopers Search and Rescue	(91.9)	Management Plan: Transfer position and funding from Search and Rescue to Detachments where personal services for the function is located.
Public Safety	Alaska State Troopers Special Projects	826.7	Authorized: This transfer into personal services is due to the allocation of the rural alcohol interdiction language section from the miscellaneous line into the lines where the funds will be spent.
Public Safety	Alaska State Troopers Special Projects	59.2	Management Plan: Transfer into personal services from contractual to bring personal services within vacancy guidelines. Funds are available in contractual due to reallocation of consultant service funds in the Youth Policing grant.
Public Safety	Alaska State Troopers Special Projects	(84.7)	Management Plan: Transfer position and funding from Special Projects to Narcotics Task Force.
Public Safety	Alaska State Troopers/ Alaska Bureau of Alcohol and Drug Enforcement	29.1	Management Plan: Transfer funding from Detachments to Alaska Bureau of Alcohol and Drug Enforcement to bring personal services in line with vacancy recommendations.
Public Safety	Alaska State Troopers/ Alaska Bureau of Investigation	21.1	Management Plan: Transfer funding from Detachments to Alaska Bureau of Investigation to bring personal services in line with vacancy recommendations.
Public Safety	AST Director's Office	(22.0)	Transfer from personal services to travel ($6.0), services ($14.0) and supplies ($2.0) to meet divisional needs. Funds are available due to a vacant position reclassification with expected hire date in February 2009.

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Public Safety	Commissioner's Office	(11.4)	Management Plan: Transfer from personal services to travel to reflect anticipated expenditures and to bring personal services within vacancy guidelines. The funding is available due to step changes from position turnover.
Public Safety	Fire and Life Safety/ Training and Education Bureau	(172.0)	Management Plan: Transfer from personal services brings personal services within vacancy guidelines and reflects anticipated expenditures in the contractual line. Excess SDPR personal services is available due to the transfer, without funding, of a Fire Training Specialist to the Fire and Life Safety Operations component, and can be used to provide additional fee-generated fire training opportunities.
Public Safety	Village Public Safety Officer Contracts	(1,219.9)	Management Plan: Transfer from personal services to the grants line where these funds are spent. Funds were placed in the personal services line in error during the legislative process.
Public Safety	Village Public Safety Officer Program/Support	5.0	Management Plan: Transfer into personal services from supplies to bring personal services within vacancy guidelines. Funds are available due to decreased need to purchase uniforms and accessories for vacant Village Public Safety Officer positions.
Public Safety Total		(506.3)	
Revenue	Alaska Municipal bond Bank Authority Operations	30.8	Management Plan transfer of $30.8 to personal services from contractual services to correctly allocate the cost of the debt manager and an accountant shared with Treasury. The amount available for transfer is in line with the expected actuals.
Revenue	Long Term Care Ombudsman Office	10.7	Management Plan transfer of $10.7 to personal services from travel, contractual services, and commodities to cover cost of upgrading an administrative support specialist to a long term care specialist needed due to increased number of elders in nursing and assisted living homes.
Revenue	Mental Health Trust Operations	13.9	Management Plan transfer of $13.9 to personal services from contractual services, commodities, and capital outlay.
Revenue	Tax Division	(250.0)	Management Plan transfer of $250.0 from personal services and $4.9 from capital outlay to travel, contractual services, and commodities. Funds are available due to high vacancy level and will be used in part to fund division's efforts to retain, recruit, and train professional staff.
Revenue	Treasury Division	(113.0)	Management Plan transfer of $113.0 from personal services in Treasury Division to contractual services in the Alaska Retirement Management Board, who has fiduciary responsibility for the Alaska Retiree Health Care Trust.
Revenue Total		(307.6)	
Transportation and Public Facilities	Anchorage Airport Administration	(100.0)	Management Plan line item transfer. Funds are needed in Contractual Services due to a $250.0 annual wireless maintenance task order. Current Information Technology staff does not have the qualifications to work and maintain the new wireless network. An annual task order provides these services airport wide. The $100.0 transfer from Personal Services to the Contractual Services line item will help fully fund this annual maintenance cost. Funds are available in Personal Services due to longer vacancies and recruitment periods, with some recruitments being extended two or three times before hires are made due to no qualified applicants.
Transportation and Public Facilities	Anchorage Airport Administration	(48.2)	Management Plan line item transfer. Transfer excess Capital Improvement Project (CIP) authority from Personal Services to Contractual Services for deletion in FY10. The excess CIP authority is due to a time status change of PCN 25-969X, Ted Stevens Anchorage International Airport Director of Redevelopment and Construction, changing from full-time to part-time. The deletion of CIP authority due to the time status change of PCN 25-969X has been requested in the FY10 Governor's operating budget proposal.

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Transportation and Public Facilities	Anchorage Field and Equipment Maintenance	150.0	Management Plan line item transfer. Per ADN 25-8-1028, time status change of PCNs 25-N160, N161, N162, N163, N164 from non-permanent positions to permanent part-time seasonal positions. Permanent PCN#s are 25-3764, 25-3765, 25-3766, 25-3767 and 25-3768. Positions are needed as permanent part-time in this component due to recruitment and retention issues. Having these positions permanent is more attractive to applicants. These five non-permanent positions were previously unbudgeted. Funds are being transferred from the Facilities component's contractual services line item to the Field and Equipment Maintenance component's personal services line item and are available for transfer due to a maintenance and operations contract that was not renewed. Services were able to be provided by additional maintenance employees as well as by contracting directly for other services (window washing, etc.).
Transportation and Public Facilities	Central Region Highways and Aviation	9.0	Authorized line item transfer. The department requested a $182.0 General Fund increment in FY09 for the operation of the new runway and taxiways at the Bethel Airport. The Legislature fully funded the request but placed the entire $182.0 increment in the commodities line item. This transaction transfers $9.0 to personal services and $12.0 to contractual services from the commodities line item to align the authorized budget with the original FY09 operating budget request.
Transportation and Public Facilities	Commissioner's Office	(16.5)	Management Plan line item transfer. Transfer from personal services to travel to meet the needs of the component. State Travel Office fees and travel related costs continue to increase. Personal services authority transfer will be covered with vacancy factor and savings from the Chief Communications Officer being budgeted at the incorrect range in FY08.
Transportation and Public Facilities	Contracting and Appeals	(9.5)	Management Plan line item transfer. Transfer funds from personal services to travel to align the travel budget with the needs of the component. In FY08 the project employee in the component did not travel; the position is now vacant and when this position is filled the incumbent will be traveling to provide construction warrant training. Funds are available to transfer due to a decrease in commodity needs and general funds are available in personal services because a position (which is now vacant) was budgeted at too high a step.
Transportation and Public Facilities	Equal Employment and Civil Rights	2.9	Management Plan line item transfer. Transfer excess inter-agency receipt authority from the Statewide Aviation component's contractual services line item to the Equal Employment and Civil Rights component's personal services line item to fully fund Disadvantaged Business Enterprises Certification of Airport Concessionaries through a Reimbursable Services Agreement (RSA) with the Ted Stevens Anchorage International Airport.
Transportation and Public Facilities	Fairbanks Airport Administration	(35.0)	Management Plan line item transfer. Personal Services funding is available to transfer due to turnover savings and turnover of positions in longevity. Funding will be used in contractual services to fund various increased inter-agency expenses such as telephones, Enterprise Technology Services, investment management fees, etc.
Transportation and Public Facilities	Fairbanks Airport Facilities	(15.0)	Management Plan line item transfer. Personal services funding is available to transfer due to turnover of positions in longevity. Funding will be used in contractual services to fund increased costs for electricity, heating oil and natural gas utilities.
Transportation and Public Facilities	Marine Vessel Operations	1,787.2	Management Plan line item transfer. Funds are needed in personal services due to adjustments in crew manning for the M/V Aurora and the M/V Malaspina. When the new Operating Plan was established, the M/V Malaspina and M/V Kennicott manning levels and crew hours were an estimation of what the vessel manning levels and crew hours would be. After a review of actual data it was found that each needed an adjustment to Personal Services. The M/V Malaspina actual crew manning levels were found to be higher than estimated while operating as a day boat. The M/V Kennicott running on its new two weeks operating - two weeks lay-up schedule had a higher number of crew hours than estimated. An adjustment is also needed to meet the M/V Aurora overtime hours.

Transfers In and Out of Personal Services during July 1 - December 31, 2008

Department	Component	Amount Transferred In or (Out) of Personal Services	Explanation
Transportation and Public Facilities	Measurement Standards and Commercial Vehicle Enforcement	(50.0)	Management Plan line item transfer. Transfer funds from personal services to the travel and contractual services line items to reflect anticipated FY09 expenditures. Personal services funding is available to transfer due to anticipated vacancies as well as a decrease in overtime hours needed for this component.
Transportation and Public Facilities	Reservations and Marketing	94.6	Management Plan line item transfer. It was determined that to discontinue the use of Commission Sales Agents would save Alaska Marine Highway System over $1,000.0 in contractual expenses. At the same time, this would also increase the call volumes to our reservation lines. To meet this new demand the time status of eight seasonal Administrative Clerks in the Reservations and Marketing component was changed from part-time seasonal to full-time per RP 25-8-7209. These time status changes will add an additional $94.6 of personal service expenses to the Reservations and Marketing component. The funding for the position time status changes will come from a decrease in contractual expenses in the Marine Vessel Operations component and a transfer of $94.6 in budget authorization to Reservations and Marketing from Marine Vessel Operations.
Transportation and Public Facilities	Southeast Region Highways and Aviation	(35.1)	Revised Program line item transfer. Transfer budget authority from personal services to the commodities line item due to the reclassification of PCN 25-3349 from full-time to part-time. Funding will be used to cover the rising costs of winter maintenance supplies, especially winter chemicals. Revised programs have been needed the past several years to pay for supplies.
Transportation and Public Facilities	Southeast Region Highways and Aviation	(250.0)	Management Plan line item transfer. Reduce budgeted overtime and transfer funds to the commodities line item from personal services to cover the rising costs of winter maintenance supplies, especially winter chemicals. Overtime will be limited to that required to ensure the safety of the traveling public. Revised programs have been needed the past several years to pay for supplies.
Transportation and Public Facilities	Statewide Public Facilities	(3.5)	Management Plan line item transfer. Transfer from personal services to the travel line item to meet the needs of the component. State Travel Office fees and travel related costs continue to increase. Excess personal services funding ($1.0 Interagency Receipts and $2.5 General Fund) is being transferred to cover the increased cost for this component.
Transportation and Public Facilities	Vessel Operations Management	110.8	Management Plan line item transfer. Per ADN 25-8-7212, PCN 25-3174 was reclassified from a Naval Architect to a Port Captain. The Naval Architect position was funded with Capital Improvement Projects receipts. As a Port Captain, this position is not eligible to use that funding source. Funding for this reclassification will come from a decrease in contractual services in the Marine Vessel Operations (MVO) component and a transfer of $110.8 in budget authorization from MVO contractual services to Vessel Operations Management personal services. The decrease in contractual services will be realized through discontinuing the use of Commission Sales Agents for reservations on the vessels. It is anticipated this will reduce contractual expenses by over $1,000.0 in the MVO component.

Subject:

I enourage you, House Finance Committee members, to pass the budget submitted to you by the HSS subcommittee which has an increment of $609,917 for Senior Community Based Grants.

These grants are most important in keeping people 60 and older in their communities and own homes and out of costly institutional care, which is more than $12,000 a month in Kodiak.

Without this increment, our NTS services such as congregate and home delivered meals, support services and transportation, will be greatly cut. Senior services int he rural areas will have to be reduced without this increment.

With Alaska now having the fastest growing senior population it the country, it is imperative we continue to meet their needs with the most important services: home and community based ones that keep seniors living independently longer and continuing to be vital economic contributors to our communities' economy.

Thank you.

Pat Branson
Alaska Commission on Aging Member

Representative Mike Hawker
State Capitol Building
Juneau, AK 99801

Dear Representative Hawker:

I don't know what we would have done without the Theraputic Court Program that my oldest son went through. He was born with issues that grew as he got older. He had a TBI at age 12. When he was 22 he was diagnosed with Bi polar II, Major Depressive Disorder and Anxiety Disorder and Chronic Pain from a spinal injury from childhood. Before he was hospitalized in March 2005 he attempted suicide and was arrested and spent several days in jail before I could get him out. He was suicidal and very disoriented and no where near healthy. Before he attempted suicide he had never been violent but suffered with anxiety and depression. The CRP court in Palmer helped him get back on track. He would never had received the help he needed with out this program and he would most likely be dead, homeless or in jail today. He will always live at home with us as he has been totally disabled at this point. We learned a lot from the Theraputic Court Program and use what we learned every day. Today he is happy, healthy and is a wonderful help to our family. He will probably never function as a normal person but he deserves to be treated respectfully as he was by the CRP Court program. Please fully support the community mental health
programs. These programs not only help people they help the community when someone is put on the right track. Not everyone has the support at home that my son has. Many of the people that need these programs are on their own and it breaks my heart to think of what would happen to them with out the help they get from their community behavioral health services. Please fully fund the Governor's FY10 request for the community behavioral health services.

Sincerely,

Kelly Sidebottom

Subject: FW: funding for mental health and substance abuse treatment

-----Original Message-----
From: Christy McMurren [mailto:wawa907@mac.com]
Sent: Tuesday, March 03, 2009 9:09 PM
To: Rep. Mike Hawker; Rep. Bill Stoltze; Rep. Bill Thomas; Representative_Allen_Austerman@legis.state.ak.us; Rep. Anna Fairclough; Rep. Richard Foster; Rep. Reggie Joule; Rep. Mike Kelly; Rep. Woodie Salmon; Rep. Harry Crawford; Rep. Les Gara; Sen. Donny Olson
Subject: funding for mental health and substance abuse treatment

I am writing once again to urge you to fully fund treatment programs for persons with mental illness and substance abuse issues. Of course, by now, you must know that often those two things go hand in hand. It is well documented in mental health and substance abuse literature. It is also well documented that most people in prison suffer from mental illness. So, doesn't it make sense to treat these problems before they get so out of hand that people commit crimes. Then we have the added expense of court, lawyers, and housing criminals for years; never mind the injury that happens to other people.

I know a lot about this because my son suffers from mental illness. We are having a very hard time getting him educated because of lack of training of school personnel. So, he runs a great risk of not finishing high school. He has been to a residential treatment program, at great expense to the state. There was no discharge planning for him, and we have spent the last year trying to get services for him so that he wouldn't regress. Everywhere we turned, we were told that there was no appropriate service for him or too many people on a wait list. He is currently on a wait list for a therapist at Anch. Community Mental Health Center.

While waiting, he blew up at home, and is now at McLaughlin Youth Center. So, you can cut funding for mental health treatment and PREVENTION (now there's an idea!), but the people who need these services are not going to just disappear. You can cut the funding, and they will wind up in the justice system. It really doesn't make any sense.

You also must know how many people in Alaska suffer from fetal alcohol syndrome. We are learning more and more about the genetic aspects of mental illness. These are not people, who, if they just pulled themselves up by their bootstraps, they could do better. Their problems are very complicated.

I know you think that the state cannot afford to fund these programs. I'm telling you that we can't afford not to.
I know you probably think that "therapy" doesn't work. Then, I would say that we need to invest in ongoing training for mental health and substance abuse treatment providers so that we get the best treatment for our money.

Maybe some of you have relatives or friends who experience some of these kinds of problems. Then, you know what I'm talking about. If you don't, then thank God for your healthy families and friends. I would welcome any questions you may have about this most serious public health issue.

Respectfully yours,
Christy McMurren

To: The Interior Legislative Delegation

From: Valerie J. Dewey
P O Box 72757
Fairbanks Alaska 99707
907-458-7281
vjdewey@hotmail.com

Subject: Stabilization Center in the Interior for Mentally Ill Adults

As most of you know my name is Valerie J Dewey and I am a life-long resident of Fairbanks. My adult son is severally mentally ill and as a result he, and others like him, have been banished from this community because there is nowhere for adults with severe mental illness to live.

Recently, I was told by one of your legislative aides that I needed to raise $30,000,000 for an endowment before a stabilization center for adults with mental illness would be built in the Interior. We all know that was neither a helpful nor realistic response. In fact, those words were hurtful and a veiled way of saying, "We really don't care about the mentally ill."

I have three suggestions for making quality mental health care available to those of us who live north of the Alaska Range.

1. Pass Senate Bill 21: The Alaska Mental Health Parity because access to medical care is the first step in addressing mental illness.

2. Fund relocation bonuses and tuition reimbursement for doctors of psychiatry willing to practice north of the Alaska Range under a five year contract. The use of locum psychiatric physicians because we have no others, provides inconsistent patient care and bloats the cost of all mental health services for all Alaskans.

3. Renegotiate the royalty rate for recently discovered gold deposits on Alaska Mental Health Trust property in the Interior to a rate commensurate with the current 12% royalty rate levied against extracted oil and gas.

With gold currently selling between $650 and $1000 per ounce the State should be able to fund a $30,000,000 endowment in no time at all.

Once again, I remind you that mental illness hurts everyone.

To: LIO Fairbanks

To All The Legislatures (state of Alaska)

Dear Folks;

I have just learned of the cut in the governor's number that removed $1.4 million from the Dept. of Public Safety budget designated to go to the Council on Domestic Violence and Sexual Assault. I discovered that $1.2 million of that amount was to go to 20 domestic violence programs throughout the state and is critically needed. No other agency provides the service needed in these areas. They work together with other agencies to provide the best service they can with the dollars available. They are a critical piece of keeping victims safe and holding perpetrators accountable for their crimes. IAC provides a most valuable service in helping these folks look forward to hope, not only for themselves but also for their children.
I would appreciate your help in passing Bill HB81 so that these agencies can get on with doing the fine job they are doing.

Sincerely,

Willa Frey

Public testimony/HB 81

McCarty, Coralie S (HSS) [coralie.mccarty@alaska.gov]

Sent: Tuesday, March 03, 2009 2:05 PM

To: LIO Fairbanks

Dear Legislator,

I am writing to you to ask that you review and consider replacing the reduction of funding to its original amount and consider adding more financial support to the proposed budget of Council on Domestic Violence and Sexual Assault. The current close out amount suggested for funding the department of Public Safety will seriously impact the ability of shelters throughout the state that provide 24 hour a day resources and services to victims of domestic or family violence.

Funding over the past years has been decreased and there has been no appreciable change in the occurrence of domestic or family violence. Fairbanks has experienced an increase in reporting, due to many factors, one may be improved public education; however, the resource that provides assistance must be assisted to survive.

Our local shelter has been forced to cut staff and programs to adjust to reduced funding. With the latest decrease in funding, it may just be a choice to maintain overhead, electric, heat, water and sewer, and have minimal staffing, which may afford a place and no resources to assist in facilitating change in occurrences. Dealing with issues of violence requires a special skill set and major amounts of time and effort. Safety must be assured for a person to move forward.

Funding reductions remove people from practice that have special skill sets and removes services from people who need and may benefit from the services. Reductions remove the trooper/law enforcement officer who knows how to investigate, special medical professionals who process the needs, advocates to help people in navigating the legal system, acquire housing, and parenting, counselors and therapists from working with people who are involved, childcare providers who work with children in special programs to assist children and parents in the complicated process of healing and developing, and it takes away any safe haven for people to heal and develop. There appear to be no incentives for perpetrators to change; therefore, victims need resources to no longer be victimized.

These programs provide needed service that no other agency in the area provides under one roof. They work in tandem and collaborate with other agencies to ensure they are providing the best service they can with the dollars available and are a critical piece of keeping victims safe and holding perpetrators accountable for their crime.

I work daily in an environment that encourages self-sufficiency and independence from a temporary support system. Interior Alaska Center for Non-violent Living has been instrumental in assisting individuals to leave a violent situation and to garner the strength with constant support to move on. One single parent was able to leave a situation after four years of isolation, move into the shelter, have medical care to regain her health, and is now working a part-time job, will have income tax and earned income tax credit and will either stay in Fairbanks or relocate to family support and acquire another job. This family would have not been successful with Mom securing work without the shelter and therapeutic support of IAC.

Another parent with five children, recently divorced was victim to family violence, where ex-husband broke into home, attacked three of the children, broke furniture, did physical and mental damage to premises and people, and also jeopardized the family's subsidized housing. Through the efforts of an IAC advocate, a restraining order was secured, counseling is secured, and Mom is moving on with support and printed protection to become independent. The two older children are now refusing to go to

school as they feel they need to be at home to protect people and things. IAC will work with entire family to change the outcomes, as programs are in place through this agency for the children's training and future economic well-being.

I would appreciate your support and consideration to replacement of the $1.4 million that has been removed from this budget.

Sincerely,

Sue McCarty

Public Testimony on HB81

kristin mccombs [superkristin80@yahoo.com]

Sent: Tuesday, March 03, 2009 1:31 PM

To: LIO Fairbanks

My name is Kristin McCombs. Proudly, I work at the Interior Alaska Center for Non-Violent Living. I am blessed to work with survivors of sexual assault and domestic violence who are in the process of defending and changing their lives. The work that takes place in our agency, in our shelter, and in the emergency room is both exhaustive and important in our plight to be of service to our clients and to end violence against women.

Before I began working at the agency, I did have an academic knowledge of misogyny and the crimes committed in this name. I have to tell you that this knowledge looks a lot different to those of us who sit on the phone with a woman who is both afraid to stay in her home and afraid to leave it. It is different when you are sitting in a SART exam room with a woman who has just been raped. It is different, still, when you look into the eyes of a child whose life has been permanently altered by the violence in their home. The courage and the bravery of my clients brings me to work every day.

Our clients are doing the best that they can. We at the Interior Alaska Center for Non-Violent Living are doing the best we can. All of us need your help. We need you to do your best as well. I implore you to stand with us. Please reconsider your decision.

Public Testimony on HB81

Ken Carr [ken_carr56@hotmail.com]

Sent: Tuesday, March 03, 2009 12:37 PM

To: LIO Fairbanks

Hello,
My Name is Ken Carr, and I work for the Interior Alaska Center for Non-Violent Living. I apologize that I cannot appear to testify in person today, but I'm teaching a class at the same time and unable to attend. I would like to tell you a bit about why the full funding should be reinstated for domestic violence shelters in Alaska.

Every week at work, I see a very dedicated and caring group of people doing their best work to help those who are struggling with domestic violence, yet their job is constantly made harder by a lack of pay and quality benefits. Many are desperately trying to make ends meet in their own lives, and they know how to help clients navigate the system partly because they do it themselves to receive benefits for their families. I am particularly lucky to have a wife who makes a considerable amount more than I do per hour, but many of my coworkers do not.

Many people do not realize the challenging nature of the work done at shelters. This job is emotionally exhausting, and the stress is high enough that we regularly train on how to take care of ourselves so that our employees don't give up and go work somewhere easier for higher pay. We call it "self-care" and it is a necessary component in this line of work. This is not a job for the weak of heart, and we have seen literally dozens of people who can't make it. Those who do have an enormous amount of personal investment in seeing clients succeed, but it is made much more difficult by the personal sacrifice in wage and other benefits that comes with working here.

One thing that makes me very proud of what I do is that we focus on putting every dollar we get towards our clients. No catered lunches, we pay for our own yearly party during the holidays, and low wages to make sure we are providing the best services we can to those who need it the most. No dollar is wasted, and every employee here closely monitors what they are costing the company. I only plug my car in when it needs to be, to use the least electricity possible. I think very carefully about how many supplies I am using, whether my internet usage is too high, and any other thing I can to make sure I am not wasting money.

I am educated and have the skills to go and make much more money somewhere else, but I'll keep working away for the people who others will not help. I'll still spend many sleepless nights thinking about what is happening to the families I work with, and an increase in pay won't help me rest more easily. It would make me feel like our state cares a bit more about the people who do this incredibly hard work, our sleepless nights, and our families who don't get our full energy and attention because we can't get work off of our minds. But mostly, it would make me feel like our state cares about the people who are running for their lives, victims of members of their own families who have no where else to turn.

Thank you for listening to what I have to say, and please take it into consideration when looking at the budget in House Bill 81.
Sincerely,
Ken Carr

Public Testimony on HB81

Corinne White [corinne.vorenkamp@gmail.com]

Sent: Tuesday, March 03, 2009 3:02 PM

To: LIO Fairbanks

Dear Legislators,

I am out of State this week and unable to testify personally in Fairbanks today, but want to express my concern over the removal of $1.4 from the Department of Public Safety budget for funding to the Council on Domestic Violence and Sexual Assault. I ask for your support in replacing this $1. 4 from this budget in order to ensure adequate funding for critical services for victims of domestic violence and sexual assault.

As you no doubt are aware, Alaska has one of the highest rates per capita of crimes of domestic violence and sexual assault nationwide. There already are too few resources available for the victims of these crimes. Programs like domestic violence shelters -- which typically also provide crisis counseling and other support for sexual assault survivors as well -- are critical for these victims.

These programs provide needed service that no other agency in the area provides. They work in tandem and collaborate with other agencies to ensure they are providing the best service they can with the dollars available and are a critical piece of keeping victims safe and holding perpetrators accountable for their crime.

In Fairbanks, the Interior Alaska Center for Nonviolent Living (IAC) provides an outstanding example of an essential community resource for DV and SA victims. In addition to the shelter beds that IAC provides for victims of domestic violence and their children (who often suffer the most from domestic violence), IAC also provides assistance to victims in applying for and obtaining Domestic Violence Protective Orders and Stalking orders, ongoing support groups, and other valuable services.

I would greatly appreciate your support in the replacement of the $1.4 million that has been removed from this budget.

Sincerely,
Corinne Vorenkamp White

Child Care Assistance Position Paper
December 2008
Alaska Association for the Education of Young Children

What is it and why is it important?

Affordability of quality child care is a major issue for many Alaskan working families. The average monthly cost of full-time child care ranges from $400-$900 per month, depending on the age of the child and location of the care. 39,400 children under the age of six live in households where all available parents are in the workforce. Yet only 4,900 children received child care assistance in 2007.

- In Alaska, funds from the Child Care & Development Fund (CCDF) are used to subsidize the cost of child care for low income families to enable them to work.
- Under federal rules, the Child Care Assistance Program can provide financial assistance to help cover child care costs to families whose income is less than 85% of the state's median monthly income.
- The family eligibility has not been adjusted since 2002. The Consumer Price Index for Anchorage indicates a family would need to earn 20% less in 2007 to qualify for child care assistance, than a family in 2002. There are currently an increasing number of families that do not qualify for assistance, but still can't afford to enroll their child in a legal child care program.
- Child Care Assistance reimbursement rates were raised to the 50th percentile by the legislature in 2008. The recommendation from the U.S. Health and Social Services is the 75th percentile.
- Economic cost-benefit studies consistently show significant long range benefits when children from low income families receive high quality child care. Due to the financial burden of paying a required co-payment amount, in addition to the difference in what the state will reimburse for child care, families are choosing from lower priced and usually lower quality child care.

Recommendations:

- Increase child care reimbursement rates to the 75% percentile. This will allow low income children the opportunity to access higher quality programs that will lead to outcomes such as increased school readiness.

- Increase family eligibility to 85% of the state median income. This will enable more families to access child care in order to work. Without increased funding to the

program, this will result in a waiting list for the program. A waiting list will allow the Department of Health and Social Services to quantify the funding needed to support employment of parents in Alaska.

PUBLIC TESTIMONY ON HB 81"

To whom It May Concern: March 3, 2009

I came into the Emergency Shelter - IAC, Oct. 2007. I was homeless, physically disabled and in physical danger because of my perpetrator.

I'm from Anchorage and someone told me about IAC. When I entered IAC, I heard about the Re-Transitional Program. They were accepting applications and so I applied and thankfully - accepted.

Since entering the Re-T. program my life has completely changed. I have a bone disease and can't physically do alot. I had applied for SSI disability and had been denied. The Re-T program housed me, fed me, provided clothing, counseling, educated me about life choices. They made it possible for me to pay for my housing by doing chores that I could physically handle. They helped me get a lawyer and last December I won my disability case. Now I can get the medical care that I've needed for so very long. For the first time in 4 yrs I walk - I almost don't limp at all. It's unbelievable what Physical Therapy is doing for me.

Socially I'm a different person. With the help of the staff here at IAC, especially the Re-T

Program - I'm a different person - They have provided a position for me downstairs - where I work 2 days a week as a receptionist. I had absolutely no training for that and they've taken care of that too.

When it was too cold outside and I couldn't be in it - because of my bone disease - they've provided transportation for me.

I'm just about ready to move on with my life - when I'm done here I'm going back to Anchorage and I'm not afraid or worried anymore. Because of this place - I now have confidence and know that I will have a happy and successful life.

Sincerely,

Kathy Allegezza

What this place is doing and the staff here, to change women and their families lives is absolutely amazing.

Sincerely

Kathy Allegezza

My Name is Kara Carlson and I work for the Interior Alaska Center for Non-Violent Living which provides services to victims of domestic violence and sexual assault. I could make a lot more money if I worked just about anywhere else. I have a BA degree and I am currently living in low income housing and for a long time I received child care assistance, Denali Kid Care and I qualified for Public Assistance food stamps.

In the 3.5 years I have worked here I have spent countless hours at the hospital comforting a woman who has just been raped. I have watched several women attempt to end their lives because their world seemed unbearable, I knew one who was murdered by her partner. I have assisted with hundreds of restraining orders, been to court many times in support of a victim, and provided resources, support and safety to thousands of women who have been hurt by someone they love. And sadly watched many of the supportive services we do provide, disappear because of lack of funding or we were unable to fill the position with a qualified person.

I want to remind you that my position starts at $12.65 an hour. That is not a livable wage and I wonder how much the state pays to provide me affordable housing, child care, and insurance because the salary I make is not enough to survive on. I love my job and am very passionate about what I do but there have been many times where I have had to face the hard decision of leaving due to not being able to live off the salary I make. Some fast food restraints and retail stores start people off at a higher or close to equal wage and the work load and stress is much less. I'll leave you with this question: what kind of person would you like to assist your friend, family member, or child if they were raped or abused. My salary is the equivalent of an entry level position, and attracts those candidates. Do you really think that an entry level person should be doing my job?

Thank you for your time!

March 03, 2009

To Whom It May Concern:

I'm a current resident at The Women's Shelter (IAC), since 07/06/08 and part of the Pre-T program since September 08. I'm not from this country, and I have been here in Alaska with my son, for almost 2 years.

We arrived here related to our abusive situation that we where living with my ex-husband. Being here at this facility, has been a blessing. I received great advices and support from my internal legal advocate related to my divorce case and short term restraining order and she put me in contact with Alaska Legal Services for my long term restraining order, if it wasn't for their advices and my trust that they gain, I can see that we could be still attached to my abuser. The way that they told me how to act during the hearing was crucial, he get the message, with my cold attitude, and that's part of why we're free of that pathological circle.

The receptionist, shelter advocates, case managers, psychotherapist, and all the staff that works here, we receive from them all kind of services and protection. I clearly can see that they are doing their best with the resources that they have. I took really serious my situation, and I have a commitment with myself to change, and learn how to protect me and my son. That's why I'm involve in every class that they offer, like changing patterns, women's group, art healing, safety and sobriety, financial literacy, parenting classes. Some of them, I'm taking for second time, because it's good to reaffirm the knowledge. And extra from outside, I'm taking 12 steps, and bible study to help me to close my hurts from my abusive past and/or my divorce, all these classes and support are helping me to deal with my anxiety and heart health issues. I'm learning how to put boundaries, how to see red flags, how to live my life in freedom, how to be me and how to help my son. How to take care of my health, learning how to eat healthy to reduce my cholesterol, I'm doing exercise too (they provide the space). And they provide self-defense classes for the women interested. I have 2 free months of Tai-kuan-do, this is helping me to build confidence. The personnel here have been a big blessing for my son and for myself, I have the sense, that they put more then doing their job, they put humanity, care and love. Every time that I need to be heard, they do. They provide, when they can, transportation. They try always to look for more options in case that one is close, and they help me to reach our goals. Living here is not easy because there is so much pain in the residents, but I choose to focus on my own healing, and probably they can see, through my testimonies in the classes, that there is hope in the life of a person that is willing to change, to take the steps, the rules of the shelter for good.I'm full of gratitude with all of the people involve, God bless them.

Thank you all,

Rosa M Pinzon Sanchez

Postsecondary Education
OPPORTUNITY
Public Policy Analysis of Opportunity for Postsecondary Education

Number 200 **www.postsecondary.org** **February 2009**

College Participation Rates for Students from Low Income Families by State FY1993 to FY2007

College participation rates for students 18 to 24 years old from low income families declined slightly, to 23.8 percent from 23.9 percent in 2006. This continues a long term decline in low income college participation rates since the peak of 27.7 percent reached in 1999.

College participation rates for 18 to 24 year olds who were not from low income families also declined in 2007, for the first time since 2000. The 2007 rate was 42.9 percent, compared to 45.2 percent in 2006. The rate for non-low income students had risen steadily since 2000 from 38.7 percent that year to the peak of 45.2 percent in 2006.

The gap in college participation rates between students from low income families and those from higher income families has been growing steadily since 1999. The low income college participation rate fell 11.4 percentage points below the rate for non-low income students in 1999. By 2006 this gap had widened to 21.4 percent. For 2007 the gap narrowed to 19.1 percentage points, still the third largest gap in the last 15 years.

Of course the above data describe the national picture only. Within states the picture varied enormously. In 2007 the low income college participation rate ranged from 5.5 to 36.2 percent--a difference of 6.6 times between the top and bottom states.

In 2007 **Pennsylvania** and **New Hampshire** moved past perennial leader **Iowa** with the highest college participation rates for students from low income families. In our state rankings **Alaska** owns last place, by a wide margin.

Over the last 10 years, while the national low income college participation rate was declining by 3.9 percentage points, this rate actually managed to increase in eleven states. These states are mainly in the South where rates have traditionally been very low, including **Georgia, North Carolina, Tennessee** and **Mississippi**. But progress is clearly occurring in these states, unlike most of the rest of the country.

Between 1997 and 2007 low income college participation rates declined in the remaining 40 states (including DC). The declines were greatest in those states that historically had the highest college participation rates for students from low income families. These states include **Vermont, New Hampshire, North Dakota** and **Delaware**.

These and other findings are summarized in our annual update report on college participation rates for students from low income families. We do this report both because low income students have always been underrepresented in higher education, and because they represent such a rapidly growing share of K-12 and higher education enrollments. In an economy that has been losing low skill jobs for a century and growing jobs that require college-level preparation these low income students represent a vital asset for our country's future. Investing in their higher educations before they enter the workforce as adults can convert social and economic liabilities into constructive, productive and contributing social and economic assets.

Low Income Population

In this analysis low income college students are defined as dependent undergraduates with federal Pell Grants.

The low income college participation rate is the ratio of dependent Pell Grant recipients to the population of 4th to 9th grade students nine years earlier that were approved for free or reduced-price school lunches. For the United States the FY2007 low income college participation rate is:

1,989,254/(20,856,672*40.1%) = 23.8%

- There were 1,989,254 dependent Pell Grant recipients in the 2006-07 award year (Source: Office of Postsecondary Education, U.S. Department of Education).
- There were 20,856,672 4th to 9th graders enrolled in public schools in the fall of the 1997-98 school year (Source: *Digest of Education Statistics*).
- In 1997-98 40.1 percent of all K-12 students in public or non-profit schools were approved for free or reduced-price school lunches (Source: Food and Nutrition Service, U.S.Department of Agriculture).

These data and this calculation are replicated for all 50 states plus the District of Columbia to get the above national totals. These data are available as downloads to subscribers for each state from the OPPORTUNITY website in the state opportunity data books (Excel workbooks) at:

Mission Statement

This research letter is founded on two beliefs. First, sound public social policy requires accurate, current, independent, and focused information on the human condition. Second, education is essential to the development of human potential and resources for both private and public benefit. Therefore, the purpose of this research letter is to inform those who formulate, fund, and administer public policy and programs about the condition of and influences that affect postsecondary education opportunity for all Americans.

Not Copyrighted

Permission is granted to make copies from this research letter providing copies are not sold and the source is identified. Copies of research letter charts are available to subscribers in larger sizes at cost. Call for assistance.

The term "low income" is not defined clearly and consistently by many who use it (including us). Generally low income implies greater income than the poverty threshold which has specific meanings when family size, age and location are controlled.

Eligibility for free or reduced-price school lunches in K-12 is limited to school children from families with incomes below 185 percent of the federal poverty level. Likewise Pell Grant eligibility for 18 to 24 year olds is limited to family income above the poverty threshold allowing for meeting basic family needs, family size, assets, number of children in college, age of family head, etc. Very roughly our analysis is limited to families with incomes below about $40,000 per year, or the bottom quartile of 18 to 24 year old high school graduates.

Regardless of definitions or precision in calculating low income, the low income population is growing absolutely and relatively. The low income population is replacing the non-low income population in K-12 school enrollments and higher education enrollments.

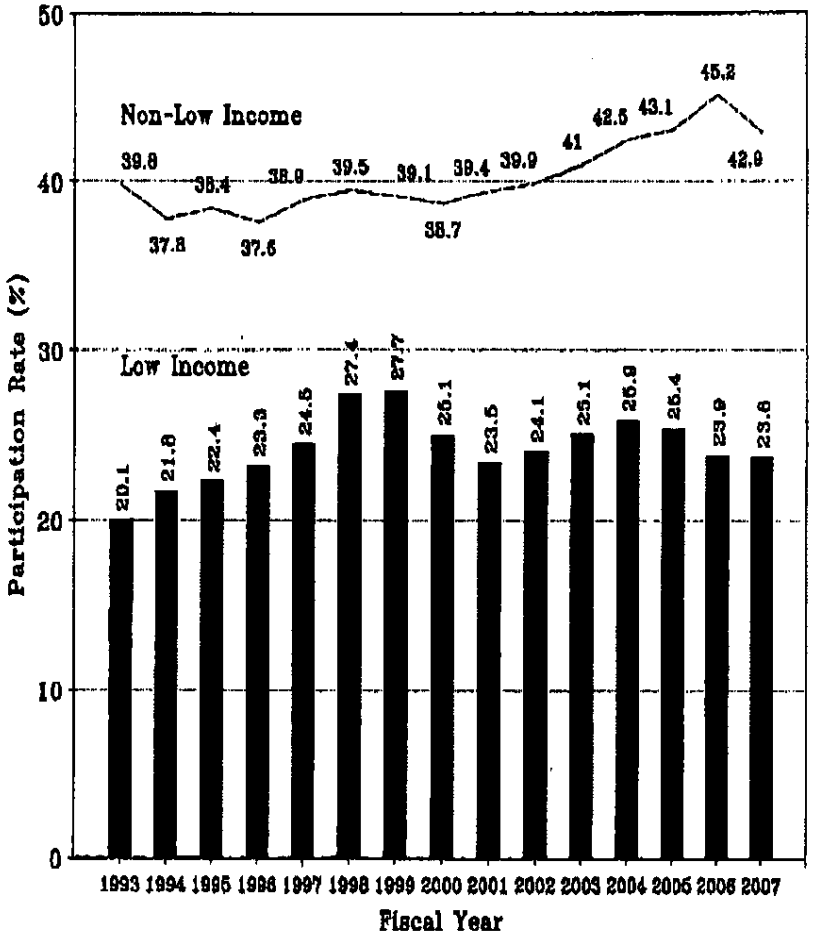
- The *share* of K-12 students approved for free and reduced-price school lunches

Eventually today's low income children will replace other children from affluent families in the adult workforce. How well they are higher educated for the jobs that will be there during their adult working lives will significantly influence the nation's prosperity for decades to come.

College Participation

Nation. In 2007 the low income college participation rate for 18 to 24 year olds was 23.8 percent. The 2007 rate was down slightly from 23.9 percent in 2006, and well below the peak of 27.7 percent reached in 1999. Generally the low income college participation rate rose yearly between 1993 and 1999, and has declined since 1999.

College Participation Rates for Students from Low Income and non-Low Income Families 1993 to 2007



The college participation rate for all 18 to 24 year olds is reported separately by the Census Bureau from the Current Population Survey. In 2007 the college participation rate was 37.3 percent (13.5 percentage points above the rate for students from low income families). This rate has been drifting upward since 1994 when it was 33.8 percent.

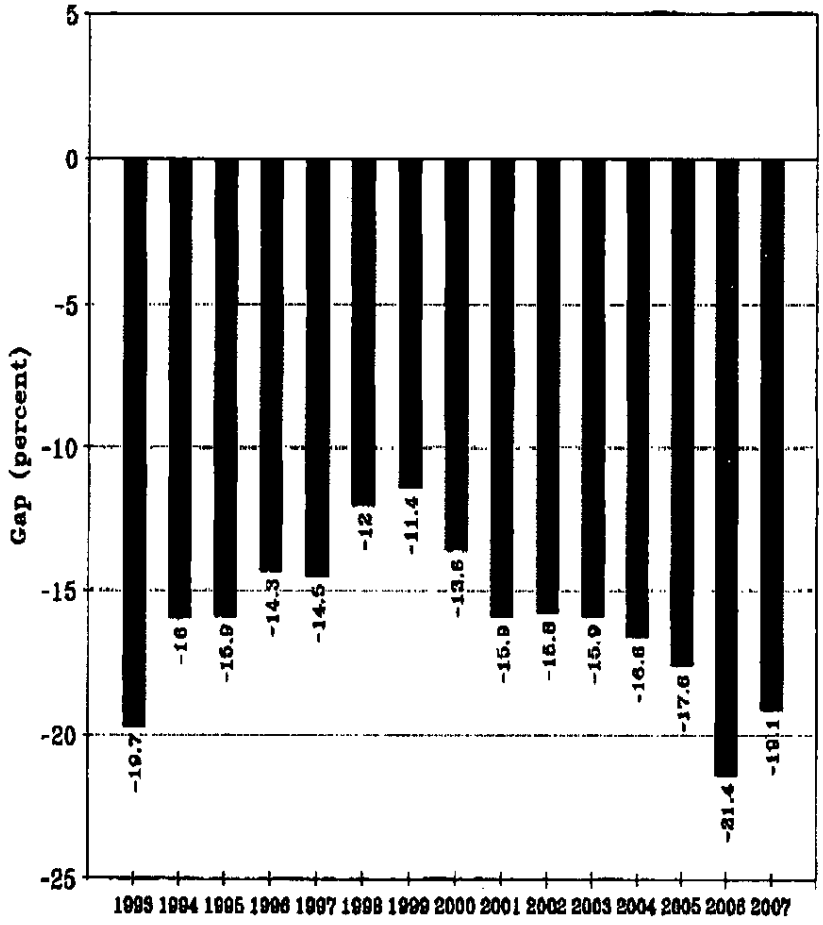
The difference between the college participation rates for students from low income families and for all 18 to 24 year olds is the college participation rate for students who are not from low income families--the affluent. Given the components of the first two rates, the rate for affluent students can be calculated from the difference. For 2007 that is:

8,597,746/20,024,439=42.9%

Thus in 2007 the three college participation rates are:

All 18 to 24 year olds:	37.3%
Low income 18 to 24:	23.8%
Affluent 18 to 24:	42.9%

College Participation Rate Gap Between Students from Low Income and Non-Low Income Families 1993 to 2007



The difference between the college participation rates for students from affluent and low income families was 19.1 percentage points in 2007. This was less than the gap of 21.4 percent in 2006, but it was the third largest gap for any year since 1993 when these data first became available.

In fact the gap between the college participation rate for students from low income and affluent families narrowed sharply between 1993 and 1999, from 19.7 to 11.4 percentage points. But beginning in 2000 this gap began to reopen, from 11.4 percentage points in 1999 to 21.4 percentage points in 2006. These data are shown in the chart on this page.

States. The national picture described in the preceding data is the summation of what has been happening in the 50 states plus the District of Columbia. While it provides a useful overall picture in fact it fails to describe what is happening in any particular state. Each state has its own unique story, as told in its own unique data.

While the low income college participation rate was 23.8 percent in 2007, across the states the low income college participation rate ranged from 5.5 to 36.2 percent. The low income college participation rate was 5.6 times greater in the highest state than it was in the lowest.

In 2007 the ten states with the highest low income college participation rates were:

Pennsylvania	36.2%
New Hampshire	36.0%
Iowa	35.5%
New Jersey	34.3%
New York	34.2%
Massachusetts	31.7%
Nebraska	31.4%
Vermont	31.4%
Maine	31.4%
Michigan	30.2%

These states are all located in the north and/or eastern regions of the country.

- Nine out of these ten states were in the top ten states in 2006. **Michigan** joined the top 10 from 14th in 2006, and **North Dakota** dropped from 10th in 2006 to 13th in 2007.
- **Iowa** had ranked first in four of the previous five years. While its rate remained unchanged in 2007 compared to 2006, Pennsylvania and New Hampshire surged past on increased rates.
- **Pennsylvania** had ranked between 5th and 10th between 1995 and 2005, then jumped to 2nd in 2006.
- **New Hampshire** had ranked 1st between 1995 and 1999, then slipped to 6th or 7th between 2001 and 2004.
- **Michigan** has seen the greatest increase in ranking among these top ten states. In 1994 Michigan ranked 25th. By 1999 it ranked 20th. Then 15th in 2004 and finally 10th by 2007.

In 2007 the ten states with the lowest low income college participation rates were:

Alaska	5.5%
Nevada	12.2%
Wyoming	14.6%

Arizona	14.8%
New Mexico	16.0%
Hawaii	16.5%
Utah	16.8%
Louisiana	17.2%
Oklahoma	17.4%
Delaware	18.9%

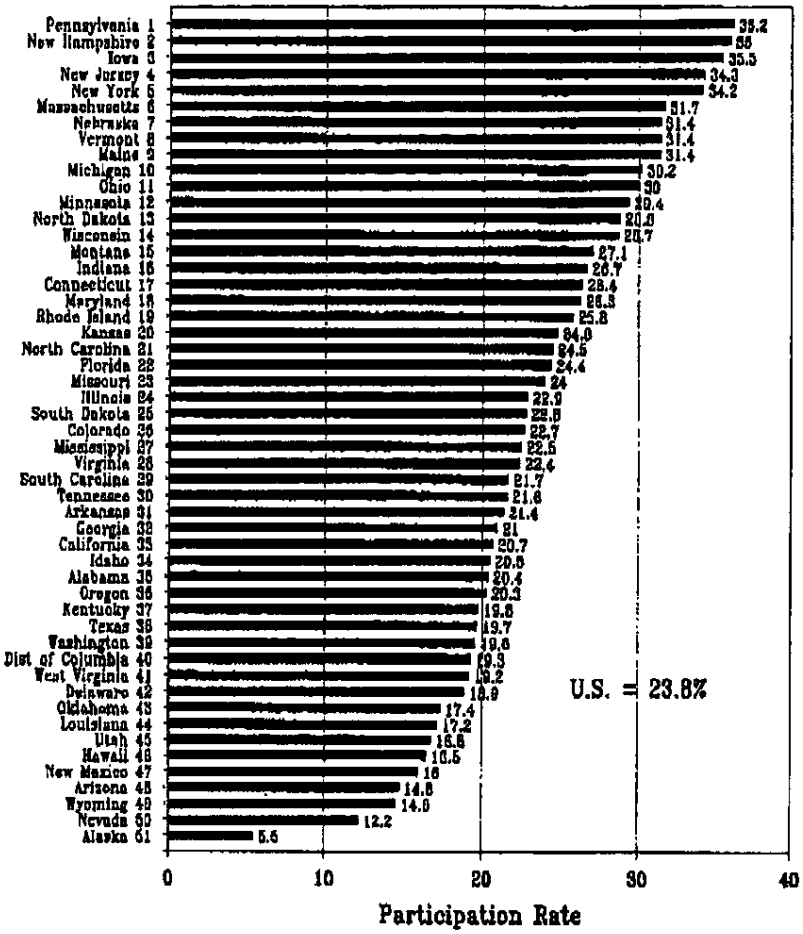
These states tend to be located in the western region of the United States.

- The bottom feeders are led by **Alaska** which owns last place. Every year for the last 15 years Alaska has ranked 51st. Out of 29,404 low income 4th to 9th graders in 1997-98, just 1,618 of them were enrolled in college with Pell Grants in 2006-07.
- **Nevada** has ranked 50th for the last seven years. Previously it had ranked as high as 31st in 1999. Looks like casino jobs make college unattractive.
- **Wyoming** has slid steadily down the rankings from 21st in 1998 to 49th by 2007. Looks like oil field jobs out draw college.
- **Arizona** has slid to the bottom too, from 33rd in 1998 to 49th from 2000 through 2006. Now that the construction boom has gone bust maybe these young people will get serious about their higher educations.
- **Hawaii** wins the race to the bottom hands down. In 2002 Hawaii ranked 11th with a low income college participation rate of 30.9 percent. By 2007 Hawaii ranked 46th with just 16.5 percent of its low income population enrolled in college.

Nine of these ten states were also ranked in the bottom ten states in 2006. **Oklahoma** joined the bottom ten in 2007, from 41st in 2006, and **West Virginia** left the bottom 10 in 2006 for 41st in 2007.

Between 1999 (when the low income college participation rate peaked) and 2007 the national rate declined by 3.9 percentage points, from 27.7 to 23.8 percent. However, when the states are examined separately, between 1999 and 2007 the low income college participation rate actually increased in 11 states (including DC) and declined in the remaining 40 states.

College Participation Rates by State for Students from Low Income Families 2007



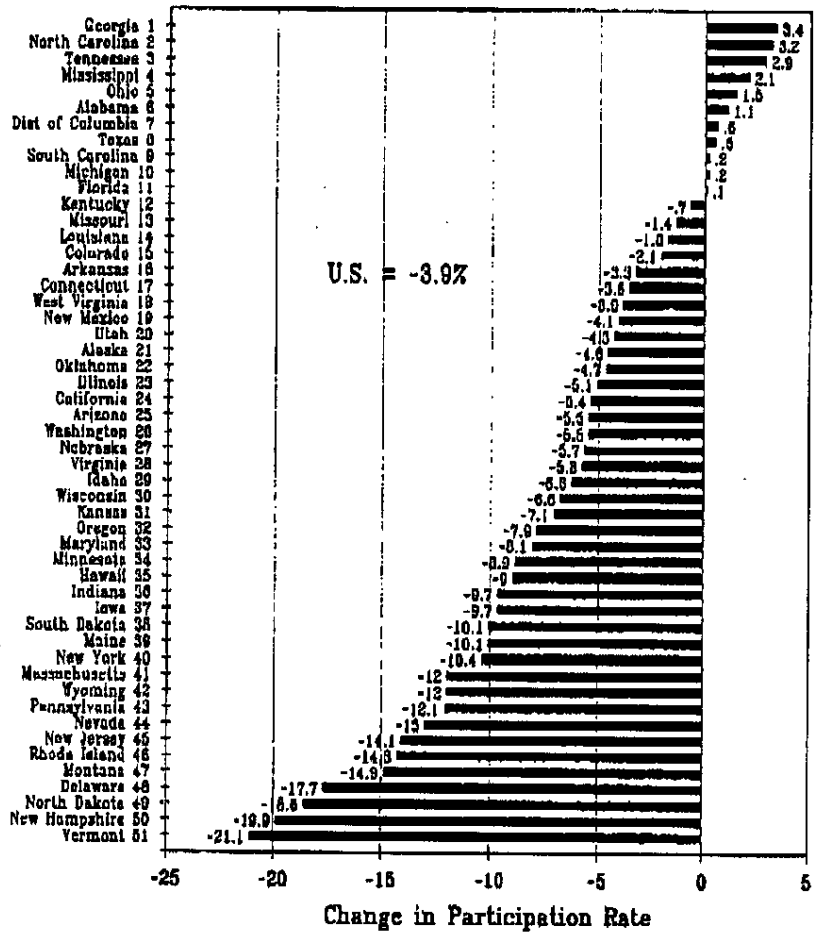
The eleven states where the low income college participation rate actually increased between 1999 and 2007 were:

Georgia	+3.4%
North Carolina	+3.2%
Tennessee	+2.9%
Mississippi	+2.1%
Ohio	+1.5%
Alabama	+1.1%
District of Columbia	+0.6%
Texas	+0.5%
South Carolina	+0.2%
Michigan	+0.2%
Florida	+0.1%

Most of these states are located in the South. Historically college participation rates for students from low income families have been relatively low in the South. But clearly this picture is changing.

- **Georgia's** low income college participation rate has jumped from 17.6 percent (50th) in 1999 to 21.0

Change in College Participation Rates for Students from Low Income Families by State 1999 to 2007



percent (32nd) by 2007. The home of the HOPE Scholarship--and no state need-based grant aid--is making notable progress increasing it's college participation for students from low income families.

- **North Carolina** is home of the Carolina Covenant. Here too there has been almost steady and quite substantial growth in low income college participation, from 21.3 percent (39th) in 1999 to 24.5 percent (21st) in 2007.
- **Tennessee** has also gone the state merit scholarship route. Its low income college participation rate has risen from 18.7 percent (48th) in 1999 to 21.6 percent (30th) by 2007.
- **Mississippi** increased it's low income rate from 20.4 percent (42nd) in 1999 to 22.5 percent (27th) by 2007.
- **Ohio's** low income college participation rate increased from 28.5 percent (22nd) in 1999 to 30.0 percent (11th) in 2007.
- **Alabama** increased it's low income rate from 19.3 percent (45th) in 1999 to 20.4 percent (35th) in 2007.

Clearly a few states are increasing their low income college participation rates.

But most are not. Among the 40 states where the low income college participation rate declined between 1999 and 2007 the eleven biggest losers were:

Vermont	-21.1%
New Hampshire	-19.9%
North Dakota	-18.6%
Delaware	-17.7%
Montana	-14.9%
Rhode Island	-14.3%
New Jersey	-14.1%
Nevada	-13.0%
Pennsylvania	-12.1%
Wyoming	-12.0%
Massachusetts	-12.0%

These states are mostly in the northern and eastern parts of the country. Moreover, most of these states have had historically high low income college participation rates, and still do. But the trend in the low income college participation rate is very strongly negative in these states.

Among the 40 states where low income college participation rates declined between 1999 and 2007 some of the biggest losers were:

- **Vermont** where the low income college participation rate dropped from 52.5 percent (2nd) in 1999 to 31.4 percent (8th) by 2007.
- **New Hampshire** where the low income rate declined from 55.9 percent (1st) in 1999 to 36.0 percent (2nd) in 2007.
- **North Dakota** where the low income rate declined from 47.4 percent (5th) in 1999 to 28.8 percent (13th) by 2007. The state had ranked 2nd in 2002.
- **Rhode Island** is clearly a state that is struggling with economic woes. Its low income college participation rate has declined from 40.2 percent (11th) in 1999 to 25.8 percent (19th) by 2007.

Convergence. This analysis has found

College Participation Rates for Students from Low Income Families by State

increasing college participation rates for students from low income families among states with historically low rates, and declining low income college participation rates in states with historically high rates.

This appears to be a case of convergence. So we tested this perception with our data using the coefficient of variation (CV) over a period of 15 years. This is a normalized measure of dispersion of a probability distribution. It is the ratio of the standard deviation of a set of data divided by its mean.

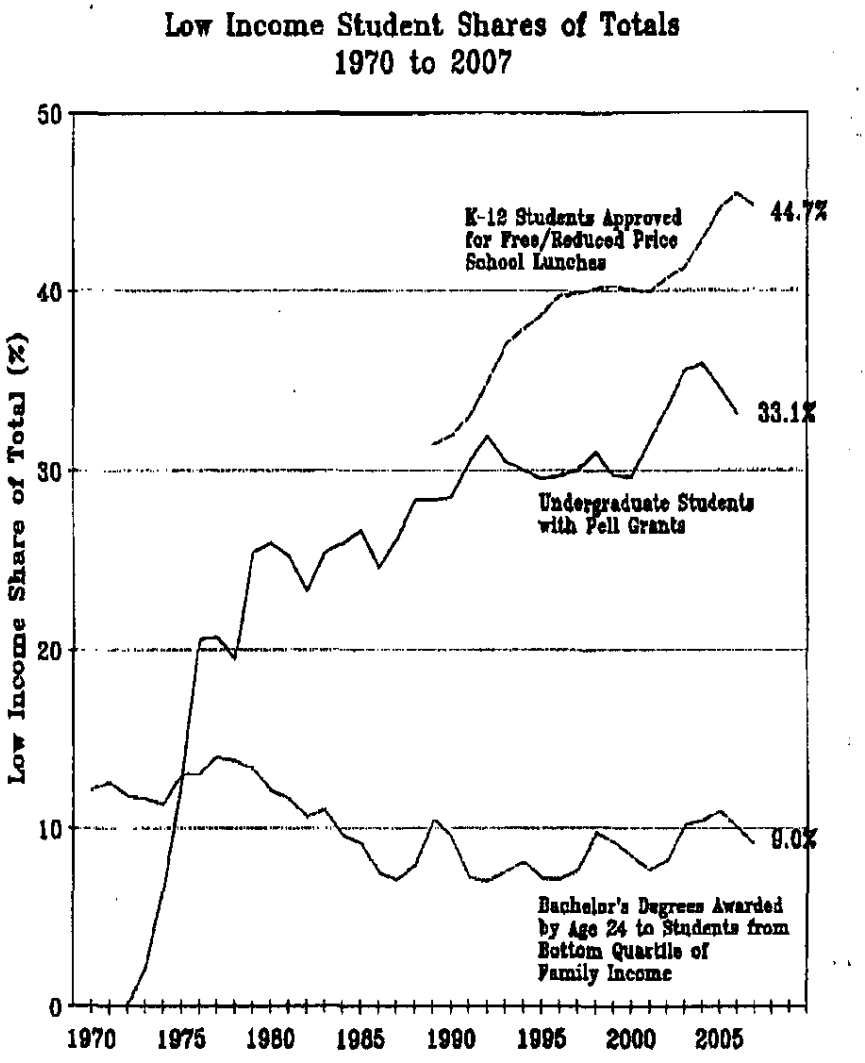
Over the fifteen year period from 1993 through 2007 we calculated the following coefficients of variation for the 51 low income college participation rates for each state. The results were:

Fiscal Year	Simple Mean	SD	CV
1993	20.2%	7.6%	37.4
1994	22.0%	8.7%	39.7
1995	22.2%	8.4%	37.9
1996	23.7%	11.8%	49.7
1997	25.4%	10.6%	41.9
1998	28.8%	9.9%	34.4
1999	30.1%	10.5%	35.0
2000	26.4%	9.2%	34.9
2001	24.4%	7.8%	31.9
2002	24.7%	7.1%	28.6
2003	25.7%	7.3%	28.4
2004	26.4%	7.1%	27.0
2005	26.1%	6.8%	26.1
2006	23.9%	6.1%	25.5
2007	23.7%	6.6%	27.8

These data indicate that the state mean data diverged between 1993 and 1996, and have quite substantially converged between 1996 and 2007. The low income college participation rate appears to be less influenced by variations between states, and more influenced by common conditions across states since 1996.

Summary

Students from low income families



represent 44.7 percent of K-12 student enrollment, up from about 31 percent in 1989. Students from low income families represent 33.1 percent of undergraduate college enrollments, up from about 20 percent in the late 1970s. By these measures students from low income families represent large and growing shares of the future adult populations of parents, workers, taxpayers, citizens and voters.

However, college participation rates for students from low income families have been in general decline since the late 1990s and are just over half the rate of students from affluent families. The share of bachelor's degrees awarded by age 24 to students from low income families stood at 9.0 percent in 2007, *down* from about 14 percent in the late 1970s.

Students from low income families reach college at far higher rates in some states than they do in others. But in every state the low income college participation rates are well below those of all 19 year olds. We know they are here. We know how many and where. We know they are not leaving. We cannot ignore them.

Dear Mr. Hawker,

I am emailing you at this time because I am very concerned about the many and complex mental health needs in our community. We have so few resources with so much need. We operate on a small budget – it is hard enough to attract strong Clinicians to our community – we currently have a wait list because we cannot afford to hire the staff we need here and in Skagway. I am writing to ask you to support increase, not cut backs in funding.

- Here are the facts: This funding supports grants to community behavioral health services providers **to maintain existing mental health and substance abuse treatment services for Alaskans without resources**.

- Without the increment, people with mental illness or substance abuse problems returning from out-of-state placements or prison, or veterans returning from service overseas suffering from mental or addiction disorders are at risk for not being served because the waiting lists in community-based centers are too long. They are too long because they are under-funded and cannot serve all the people needing services.

- As with any other industry, inflation affects the cost of providing behavioral health services. While the Alaska Department of Labor & Workforce Development reports low overall inflation for 2007, growing inflation in crucial sectors such as energy and health insurance puts pressure on providers to maintain existing services. This recommendation for additions to the base budget will minimize the impact of inflation on costs of providing services.

- We support the Governor's FY10 request for community behavioral health services grants: $1.75 million (GF/MH) for mental health, $1.75 million (GF/MH) for substance abuse.

- The most recent prevalence data shows that 56,479 Alaskans require behavioral health services, including 21,754 adults experiencing serious mental illness (SMI), 12,725 children experiencing serious emotional disturbance (SED) and 22,000 Alaskans dependent on alcohol.

- The FY2008 unduplicated count (clients served by community providers) totaled 22,882 = 7,347 (SMI) (34%); 6,197 (SED) (49%); 7,071(non-SMI); 2,267 (non-SED).

- In 2006, 7,914 clients received substance abuse treatment from community providers (36% of the estimated total of people dependent on alcohol).

- Most Sincerely, Robin Grace LCW, Program Director Lynn Canal Counseling Services

Subject: Funding for Mental Health Center services

Our 43 year old son has been receiving services from the Juneau Mental Health Center (JAMHI) for over 20 years and Medicaid Waiver services from Hope for 10 years. Previously, he spent over three years in API during the late 80's. However since he has been receiving Mental Health and Medicaid Waiver services he has been able to live independently and work in our community. He continues to do very well because of this support and ***has not needed readmission to a hospital or institution in over 20 years because of these excellent services.***

Please reinstate the needed funds to the Governor's FY10 request for community behavioral health services grants: $1.75 million (GF/MH) for mental health, $1.75 million (GF/MH) for substance abuse.

Also, we urge you to increase the funding for Medicaid waiver providers by ***supporting this bill - CSSB 32(HSS)***

Subject: Community Behavioral Health Services Grants

On behalf of the Board of Directors of Mat-Su Health Services I am respectfully requesting the restoration of funding for mental health services and substance abuse grants as submitted by the Governor in her budget. The full increment will not expand services, but will maintain our existing services.

I know that you are aware of the valuable services we provide in your communities. Without these treatment programs the cost of mental illness and substance abuse will just be transferred and indeed increased to other agencies in communities.

While we are not-for-profit organizations we operate as businesses to ensure sustainability. I do not know of many small businesses that could stay open without increased revenues to meet the increased costs for over 16 years. We have actually experienced decreases in State grants during that time.

Mat-Su Health Services is one of the largest centers in the state serving over 500 people with nearly 2,500 service encounters each month. In the past 10 years we have only been able to provide salary increases for the majority of our staff during one fiscal year. We have cut all but our core services and monitor our expenses very carefully. I am aware that there are some community behavioral health centers that are cutting programs and some are on the verge of closing.

Please help us to maintain our core services of emergency, outpatient, and rehabilitation services for our seriously and chronically mentally ill clients.

Maryalice Larson, CEO

Mat-Su Health Services

I encourage you to support full funding of the University of Alaska's budget request for the K-12.

As the State Director of the Alaska Association of the FFA, Along with the State Officers, we represent the students and educators of agriculture, natural resources, marine technology, and environmental science. The FFA can only exist within a systematic curricula of K-12 education as it is an activity within the classroom as per Federal Law. We have accomplished our objectives for the past 20 years without much support, however, with the assistance of the University of Alaska we can better serve the State of Alaska educational system, grow the FFA and other programs such as SkillsUSA and increase support and better serve our local communities.

We have been, and believe that we will always be, an integral part of Alaska's current and future economy dedicated to ensuring the food, fiber and natural resources to feed, fuel and finance Alaska. Your support for this item is great appreciated. Your investment in this K-12 request is an investment in the future of Alaska.

The FFA is an integral part of agricultural, natural resources, marine technology, and environmental science education nationwide. Although some think FFA is a club..it is not. It is a part of education, and supposed to be taught in the classroom. FFA is the leadership component as recognized by the US Department of Education, US Department of Agriculture, and the agricultural industry of these United States. The more than 300 students, and FFA Alumni members statewide are in full support of the University budget item and request your support.

There are agricultural, natural resources, marine science and technology programs that will greatly benefit from this activity in the following communities. Anchorage, Fairbanks, Palmer, Delta Junction, Homer, Kodiak, North Pole, Galena, Nome, Soldotna, Seward, Barrow, Kenny Lake, Wasilla. The entire state will benefit though a stable economy in the future.

--
Thank you for your support of the UA Budget.
Respectfully,

Jeff Werner

Juneau Alliance for Mental Health, Inc.

Quality Community-Based Mental Health Services Since 1985

March 2, 2009

Representative Mike Hawker and
Representative Bill Stoltz, Co-Chairs
House Finance Committee and
Committee Members

Dear Representatives Hawker and Stoltz:

As the House Finance Committee evaluates the proposed budget in the area of **Community Behavioral Health Services grants**, it is important to note the impacts of any reductions to the Governor's FY10 request for $1.75 million (GF/MH) for mental health, and $1.75 GF/MH for substance abuse. These increments to the budget will minimize the impact of significantly increased costs of providing services. The increased costs have been absorbed by programs for some time and have in many cases, resulted in services reductions in critical areas of need.

At Juneau Alliance for Mental Health, Inc. (JAMHI), the local community mental health center, our staff reductions in recent years include reducing the number of case managers to support severely mentally ill persons living in the community, and we reduced the number of clinicians in our Adult Outpatient Clinic over a year ago, from 4 to 3, resulting in longer waiting periods for persons needing access to services and less ability to provide ongoing clinical support to people. Unless the need is urgent, people seeking appointments now wait approximately 2 months for an initial appointment. This includes people with severe depression, schizophrenia, bi-polar disorder, and other serious mental illnesses that could be treated through psychiatric and clinical management.

JAMHI provides emergency mental health assessments for persons who may be suicidal, homicidal, or actively psychotic and who may meet statutory criteria for commitment to a psychiatric facility. The same counselors who provide outpatient clinical assessments and follow-up care, also conduct these often very time-consuming on-call emergency mental health assessments at the hospital, in between working in the Outpatient Clinic. These competing responsibilities limit the total number of individuals who can be treated in the Clinic by staff, so any reduction in the number of staff clearly reduces access to services. Recent increases in Medicaid rates might allow programs to fill some needed positions that are currently vacant due to increased operating costs, however, if base funding is inadequate many will be unable to do so.

Unserved or underserved mentally ill and/or chemically dependent youth and adults will enter "the system" somewhere, whether it is for treatment services, hospital care, courts and corrections, or homeless shelters. It all costs money. The most cost-effective means of helping these high-risk populations is through the treatment door. Please fully fund the recommended increments to the Community Behavioral Health Services grants.Thank you for your hard work and consideration of this important issue.

Sincerely,

Pamela L. Watts

State Capitol, Room 505
Juneau, AK 99801

Bill Stoltze, Representative
Co-Chair, House Finance Committee
State Capitol, Room 515
Juneau, AK 99801

Dear Representative Hawker and Representative Stoltze,

The Municipality of Anchorage Health and Human Services Commission supports the inclusion of $923,100 for Reversing Alaska's Childhood Obesity Trend: A Comprehensive Initiative. The primary mission of the Health and Human Services Commission is to ensure the health and well-being of the Anchorage community. In fulfilling that mission we are frequently confronted with the seemingly intractable effects of obesity in our community.

Obesity is a complex health problem that has reached epidemic proportions in Alaska and the nation. The Mayor's Taskforce on Obesity and Health and the resulting 10 Year Plan to combat obesity in the Municipality of Anchorage was developed through a cooperative effort between the Municipality, local businesses, insurance providers, health care providers, and the Anchorage School District. State funding for the initiative to reverse the childhood obesity trend will benefit Anchorage. Through the support of our Obesity Coalition, the state program will help provide the technical assistance and tools needed to implement our 10 Year Plan, by providing continued data collection and analysis of Anchorage School District height and weight data to track Obesity in our schools, and provide training for school district staff on health and physical activity education standards and evidence-based curricula.

School-based intervention programs that prevent even a small number of students from being overweight amount to costs averted through reduced medical costs, increased quality of life, and increased productivity. The Comprehensive Initiative and the Obesity Prevention and Control Program are crucial to Anchorage's efforts to reduce the toll of obesity on our children.

Sincerely,

Brian Saylor, PhD MPH, Chair
Anchorage Health and Human Services Commission

Public Testimony on HB81

Sheri Brechan [sbrechan@yahoo.com]

Sent: Wednesday, March 04, 2009 12:08 PM

To: LIO Fairbanks

Dear Representative Mike Kelly,

I have been educated regarding the recent actions in our government which has drastically decreased Governer Palin's budget for the Council on Domestic Violence and Sexual Assault. $500,000 was going to be allocated toward increased statewide collaboration and prevention and $1.2 million was to be allocated to 20 Domestic Violence and Sexual Assault Programs around the state. According to the information I received, in the final days of the Public Safety close out in the House - $1.4million of the $1.7million was removed. This funding that was slated to go to the 20 domestic violence programs throughout the state is imperative. In the Northern Region, a vast area of the State of Alaska, only two agencies provide these kinds of domestic violence services. These agencies are a critical piece of keeping victims safe and increasing accountability for perpetrators of domestic violence.

As a probation officer, I rely on these programs to assist the families I work with and to make sure victims and the perpetrators are receiving services that will truly help them. Interior Alaska Center for Non Violent Living (IAC) and LEAP collaborate on a daily basis with community agencies to make sure that we are all working together to meet the needs of this population. One of the few things IAC has collaborated on was providing trained volunteers to accompany law enforcement officers and probation officers for community outreach during the Alaska Federation of Natives conference. Collaborations like these over the years have been a huge success.

IAC created a domestic violence task force years ago involving and educating many community agencies. This task force which also includes the military, law enforcement, the District Attorney's office, juvenile and adult probation, and corrections, is still ongoing and proactive due to IAC and their continued support.

As a community member and professional who depends on these services, I would appreciate your support in the replacement of the $1.4 million that has been removed from this budget.

Sincerely,
Sheri Brechan

I would Recomend the the finance Committee continue to fund both Substance Abuse treatment & substance Abuse and mental Health Services. I have been working with youth and Family's who suffer from substance Abuse and mental health issues. Treatment has been a very important Life Line for People in ALASKA. If we do not help people get free of substances and seek Mental Health treatment we stand to Lose many Lives and witness continued tragedy for people caught in these circumstances. I have seen many people take back control of their Lives with the help of caring treatment providers. Please don't Turn your back on the folks who need your help. I Recommend that we increase the current Level of funding for these services.

I came to this treatment center from Correctional Facility
Before I came to this treatment I really did not understand my Disability of mental illness and co-occurring Disorders. I now have a better chance of Staying Sober after being educated about my co-occuring Disorders and: Drug addiction.
I have gotten One on one counciling that has helped me with my PTSD, and Thinking Errors to help me Change my Thinking. Im Graduating on 3/5/09 And I feel like I have a better chance after going Through this Treatment Center Of Success in Recovery where before I just lived Homeless in my addiction.

I am a client at Salvation Army Clitheroe Center. I have been in the Correctional System for ten years. This is the first opportunity I have had to address my Alcohol Abuse in an in depth manner. This center not only addresses my addiction, but how it has effected my community, my employment, my family and friends. This inpatient facility allows me to live in a controlled environment, with counselors and staff knowledgable in the field of addiction. In just the last three weeks here I feel my life can be managible and recovery is an achievable option. Not only here at Clitheroe, but in a functional life in the community and my home state, Alaska.

cont...

Without this in patient facility el believe el would not have been able to receive the power of healing on a day to day basis. elt teaches ~~no~~ one to rely on ones self, and give back to the community in general. Clithero makes sure it's clients get solid support after the are released from the program, making sure we understand that sobriety and recovery is a lifetime goal. elt involves family members and sponsors from non-profit organizations like N.A. and A.A.

el truly believe that state funding is absolutely necessary in these type of facilities. For the will lowers the cost of Department of Corrections and turn around the lives that are caught in that system and change the lives of so many people here in the State of Alaska.

Sincerely,

Cassie Mayer

This place is helping with my recovery. I think that the funding is real important because there are some of us that can't pay for sevice's and without treatment there would be a lot of more prombe's in are ~~community~~ community. There are a lot of crime do to addicts who don't seek treatment for there diseases. Fanding help people know that there not alone and there is help for them so that we can suceed in are diseases. I very thankful for funding and it has help me get ~~through~~ through my treatment without having that burden on my mind on how much if going to cost.

I think that Drug abuse treatment is vital to any Community. Alaska's Problem on drugs has grown! I am a drug addict from Wasilla, there are limited resources out there! There are no inpatient, with exceptions to Nexyrns Ranch which is very hard to get into. There is noo Needle exchange or methadone clinic. In myopinoin Drug abuse treatment is vital to our community. Affortable ones! Alot of People who abuse drugs do not have the money to go to treatmen, or get the assesments! Outpatient [redacted] Runs about 300$ a week, that is more than alot of people make! And you can get discharge from treatment for falling back on your payments Currently I am at Clithroe Center I am very thankful for this facility! like I said I am a drug addict and I need treatment! Out pasient Cansoling is another important thing for addicts. Most addits have mental heath problems, and Cansoling is expensive also, I am having a hard time finding affordable mental heath cansoling, Withch I will need when I leave here to help me with my sober life. I have met alot of people in treatment who Story is alot like mine, how will I pay for this how will I pay for that. Is all we want is to learn how to live clean and sober, and we need our State's help with that! The more money for Programs to help addicts become Productive members of Sosidy the better.

To Whomit may Concern,

I am a registered nurse and a heroin addict. I lost my job last year and needed inpatient treatment for my disease of addiction. Since I was financially unable to go to an outside treatment facility I found the Salvation Army Clitheroe Center, who is willing to give me the help I need, without giving them money upfront. When I am successful in my completion of treatment and continued recovery I will be able to be a valuable, contributing member of society. The Clitheroe Center has been valuable in facilitating my recovery, but it has been obvious that they are struggling financially and any budget cuts could take away from the effectiveness of this valued service. I feel this service is necessary for our community because of the amount of people in prison for drug related crimes that don't get treatment and then go back out and re-offend, when treatment can help cut down on re-offenders significantly. None of the ladies here at Clitheroe could have been here without Government funding

I have worked in the substance abuse field for approximately 8 1/2 years, while it can be a difficult job, the rewards all at times amazing. I work with women, all ages and ethnicities who have found themselves caught up in the vicious cycle that addiction can create. Many have lost and/or many lose their children. Many have suffered years of abuse, either from parents, other family members, perpetrators of various types. Many have been victimized to the point where they know no other way out than to keep repeating the "same" ol pattern. Coming into treatment exposes them to choices, education, healing, opportunity and above all hope that life can be different. It may take some of the women I've worked with more than one or two times through treatment to finally understand what they need to do to change their lives - it may take one time. Some succeed, some fail repeatedly but keep working at, and some die trying, a few give up. I am privileged & honored to actually see some of the change occur, I am no longer surprised to see the same faces return but I am touched that they keep trying. We are frequently understaffed and under resourced but I don't know any other work I'd rather be doing. But, I couldn't do it without your ongoing support and efforts. Thank you for your ear & consideration.

I am a client at Clitheroe Inpatient center, I can see these people are trying very hard to educate us on recovery & sobriety.
I have a long history of alcohol use. this program is helping me to become stronger person, by separating myself from old friends or even loved ones, it helps me to recover.
Recovery & sobriety means so much to me, I can't do it on my own.
I love America, the people here are very helpful, & also the clients here are very kind, they are all very understanding.
this program also will help me get my children back, I am a single parent of 5. I am the only parent they have.
I've made so many mistakes, & I'm here to fix my problem with help from Clitheroe staff. if you can please help fund the program because I care about my recovery. thank you for your time to read my letter, & I hope you make a good choice about the funds. God Bless you all.

I am currently a residence @ the Archorage Clithro Center, Substance abuse treatment Center. I have struggled with substance abuse throughout my life effecting many in a very negative way. I am fighting my disease by learning once again not only how to deal with my disease but how to live a clean and sober healthy lifestyle. I do have a disease & I could of never got better without the support and knowledge I have gained while attending treatment. & know by cutting budgets and closing doors on substance abuse things will only get worse. why, why make things worse and hurt our future? I feel the more positive changes we make now in our community and across the world the better our future. & feel treatment has not only saved my life but has educated me how to live clean, sober and healthy. I can now give away what I have gained I could save many more, who knows. But; I could never give away what I do not learn. & know alcohol/substance abuse disease will only increase without treatment/Education to offer which will then cost more. It would of cost me my life ... How many lives much we loose before we act?

Bill/Subject HEALTH SERVICE GRANT

THIS PLACE IS IMPORTANT TO ME BECAUSE ITS A PROGRAM THATS HELPING ME TO RECOVER AND WORK ON ME. IF THE FUNDINGS GET CUT THIS PROGRAM WOULD SOON BE CLOSED DOWN AND THOSE THAT ARE SEEKING HELP WOULD HAVE TO LOOK ELSEWHERE AND MIGHT EVEN HAVE TO CONSIDER GOING OUT OF STATE, WHICH WOULD CAUSE CIVILIANS TO BE FURTHER AWAY FROM THEIR LOVED ONES! THIS PROGRAM IS ONE OF THE BEST COMPARED TO OTHERS I'VE SEEN AND HEARD ABOUT. CUTTING FUNDS WOULD BE A LOT HARDER FOR ME TO ACHIEVE MY GOALS IN TREATMENT, BECAUSE IT WOULD MEAN THAT WE WOULD HAVE VERY LIMITED EDUCATION AND NOT MANY OF US HAVE A LOT OF MONEY TO SEEK HELP ELSEWHERE. THIS IS A PLACE WHERE I FEEL I CAN WORK ON MYSELF AT MY OWN PACE AND WITH FUNDINGS BEING A CONCERN, IT WOULD MEAN THAT US AS INDIVIDUALS WILL NOT BE GETTING MUCH SUPPORT FROM SPONSORS, GETTING INFORMATION CONCERNING OUR HEALTHS, AND COMING UP WITH STRATEGIES ON HOW WE CAN SEE OUR SOBRIETY WHEN WE RECONNECT WITH THE COMMUNITY AGAIN. THIS PLACE HELPS ME TO FOCUS ON MY FUTURE, MY LIFE, MY HEALTH, MY ABILITIES, MY STRENGTHS & WEAKNESSES, AND GETTING MY LIFE TOGETHER FOR THE SAKE OF MYSELF AND MY FAMILY. IF I WAS TO NEED THIS PLACE IN THE FUTURE HOW CAN I DEPEND ON THEM WHEN THE FUNDINGS ARE CUT? I WOULD HAVE TO SEEK HELP ELSEWHERE THAT PROBABLY WON'T DO A GOOD JOB!

To Whom it may Concern,

I have started working in the feild of substance abuse only 6 months and already I have noted a great need for more funding and support of the individuels in our community struggling with substance abuse and mental illness. No only do I work in this area but my family has also been greatly impacted by substance abuse and mental illness. This is a vulnerable population and with what we now know about substance abuse we know that these individuels need all the help they can get, not only for themselves but also for the community. When you look around there is not anyone who has not been impacted, whether directly or indirectly by substance abuse and the ramifications of it. Whether we like it or not this is a community issue and it needs to be addressed. Treatment is a very important part in addressing this issue and to be honest we are not functioning at our ful potential. We are understaffed and overworked with limited means to assist the caring and concerned people with know how who want nothing more but to help those in need. I understand money is tight for everyone but that is even more reason to give funding to this cause because the people struggling are the people who are not able to financially help themselves →

If we look at the bigger picture and at our community where our kids and family Live, we want the safest environment possible. Think about how many crimes and violence are drug related. The women that come in to our program are different than when we see them on the streets. This is why we need to help them so they can help us by being a productive member of society. This funding is desperately needed in order to help both this vulnerable population and our community. Please consider each of these individuals and their family and future familys when considering how much to help them. Also like I said earlier my own loved ones have been affected by drugs and alcohol. And I can really see how they are struggling and deep in a hole they feel. This is a very important issue, one that needs to be taken seriously. Please help us (treatment facilities) do the best we can to help people get healthy.

Thank you for your consideration !

To who it may Concern:

My name is Justin Clifford Eaton and I am a 34 year old carpenter and Father of one boy 10 years old, one girl 7 years old and a 6 month unborn child, unfortunitly I am also a alcoholic. I was born in Anchorage Alaska at Providance Hospital, I beleave I was also born a alcoholic because my mother drank while she was pregnant with me she had very few options for Help or treatment back Then. My mother and father both died here in Alaska in separate car accidents involving alcohal when I was just two years old. I became an Award of The State of Alaska and lived with my Fathers sister in California. I returned after High school in 1993, I started to drink alcohal at age 15, I was a heavy drinker by 20 years old and have been drinking ever since. I have been to 4 diffrent treatment center since I was 20 year's old Alcohal has ran my life and ruined it I could not stop drinking on my own. I have been a threat to myself my family and Society because of my addiction and have been in jail for several DUI convictions. I Am currently a active client with the Wellness court here in Anchorage. I was Hopeless to my situation and my addiction the last time I

03/04/2009 07:53 9077438780

I had give up all Hope of my Abillity to Live Life on Life's termes I struggled everyday. I gave up ~~back~~ was given a chanc to go to a inpatiant Treatment Center with the Felony DUI Court. I entered treatment 2 months ago here a Salvation Army Clithro Center Hopeless and Fustrated. I was give a Timeout on Life to focus on myself I started to see some light at the end of the tunnel I was trailing. Coming her has been the best chance and ~~choice~~ choice I ha made in my Adult Life. I now have Hop restored to my Life I see a future wit my children and confadince that I can overcome my addiction and be a positive person to my family and society/instea of a borden and menace. while here at SACC I have learned that it is more Than just stoping drinking I have learned That I must change my life for positi outcomes. This Timeout I have had here was and is so positive I have a whole new outlook on my sobriety and Life. My whole Attitude and personality have changed. I now can start rebuilding my Life with my family without the use of alcohal. I never really thought this possible before. I have this Treatment Center to thank for my new chance at Life. I've seen changes here at SACC that have had had an effect on Staff and Clients because of

PAGE 05/28 9077438780 03/04/2009 07:53

situation and we now are without a morning Cook and only have 2 out of 6 showers working now. with this place functioning properly I am afraid that people like me wont ge everything they need to change the lives. It takes alot to run one of these Treatment Centers so please loo at my voice on paper so you can and stand my Life as a alcoholic and se how important these places are for Hopless Drunks. Please understand Th for a cronic Alcoholic DUIer like me This place has saved my Life They are the only Hope we have without The it Jails or Death. I've been able t break my Addictive Vicious Cycle her and in my Life and I Hope you wil give others Like me the same cha at a new wonderful experiance.

Thank You for Reading my Letter

GOD Blees

Sincerly

Justin Clifford Eaton

To whom it may concern, I started drinking at the age of 15 I believe. It started out as just to have fun. My alcoholism progressed over the next four years, to where when I drank on the weekends I would lose all control, I would drink more than I planned on drinking and I would start to do stupid things.

I got an felony assault charge as an juvenile. This happened in 1997. When I was drinking in 1999 a misconduct about wielding weapons Damage to Property, and Malicious destruction of property because someone owed me money and I thought why not take it out on something of theirs. I was drunk and not thinking clearly. In 2000 I was not drinking and driving around with some friends, and I got an robbery charge, an assault charge.

They dropped the assault charge and reduced my Robbery to an class B felony I did five years on that. I got out in 2002 for about 6 months. I got an assesment at the clothroe center. I got kicked out for getting my first D.W.I.. I got violated and on my probation. In 2004 I went to the S.A.B.P. Program and got kicked out for racial remarks and sent back to prison, where I did the rest of my five years in jail.

PAGE 08/28 9077438780 03/04/2009 07:53

In 2004 I also got an Domestic Violence charge, and destruction of communication equipment. That was before I went to S.A.A.P. program. I was drinking at the time as well. When I got out from doing the last of my five years I went to the Copper River Native Association for an out patient program.

I completed that program so I could get my license back. I finally got it back and I stayed sober for an while. I got complacent with my recovery. I started going back to bars, hanging out with old friends, being an designated driver for friends, and finally I thought I could control my drinking. It worked for a while, but it progressed quickly. I got my second D.U.I. in 2007. When I got out I got drunk driving home to Glennallen and got my felony D.W.I.

I got 3 years with 1 suspended. Now I'm here at the inpatient program for the Cliffhouse center. I'm here because I want to be here this time, not to get the courts off my back, or to get my license back. I'm tired of putting my family through hell, not being there for my son, because I went to drink and then go to jail. I have caused an lot of pain, suffering, and worry amongst the community and my family.

03/04/2009 07:53 9077438780 PAGE 09/28

d have learned a lot of tools from this treatment center, that d didn't learn before because d wasn't open minded, and didn't want to change. This treatment has taught me how to change my life and live one day at a time. d've had many friends die because of alcohol. one tried to quite cold turkey and had heart failure. another got stranded and froze to death.

Clitheroe has had to cut staff back and we don't get hot breakfast any more because of budget cuts. d think you guys should put more money into treatment centers because the more help that is out there the more people would sober up. It would bring the crime rate down, the D.W.I. would drop eventually as well. My family and friends have been an big change in me this time around.

My family and friends are really proud of me, and are willing to go to any lengths to help keep me sober. Clitheroe teaches us of how important a sponsor is, and how having sober support will benefit our recovery. It would be nice to have hot Breakfasts again, and to keep the same kind of care they provide for us now. They also teach us ways to stop and catch our relapse in time before we drink or go out and use again. Treatment centers are

PAGE 10/28 9077438780 03/04/2009 07:53

really beneficial for an addict and alcoholic. It's nice to have an place to go to for help when we need it, instead of going to jail or causing ~~[illegible]~~ nuisance in the community and for our families. They help us look at all aspects of our lifes.

If an programs are not there when some one desperately needs it, it could cost them their lives or the lives of others and maybe your families. We all share the same border and the same state. Someone who is chemically dependant does not think clearly. It's how I exhibit. These programs teach us to look at our thinking Errors and how we can change them, to change our behaviors.

I think the more treatment centers we have and the quality of treatment would be beneficial for everyone who needs it and for the community as an whole.

Sincerly,
Edith L. Matthiesen

Chemical Dependency Treatment Funding

Alaska State Legislature, House Finance Committee

Dear Committee members,

I am writing in support of current levels, or increased levels, of funding for chemical dependency treatment. In my professional work, I see first hand the impact of substance abuse on individual Alaskans, their families, and the communities in which they live. I have witnessed the negative impact of untreated alcoholism and drug addiction. The problem is heart breaking and compounded by long wait lists for treatment space for individuals seeking treatment. We, in the field of chemical dependency treatment, have been task with assisting individuals with making profound changes in their lives, and we do this with an absolute bare minimum of funding, low pay scale and staff shortages. I have no complaint with these conditions. The critical decision rests with us as a community whether we are going to provide the opportunity for individuals with substances abuse and addiction to make the needed changes in their lives to take their rightful place as responsible, law bidding, productive members in their respective communities.

On a personal level, I can attest to the value of investing funding in chemical dependency treatment. I am in recovery from chemical dependency. Sixteen year ago I was a chronic fourth stage alcoholic and a burden to my family and the community. Although I was dying of alcoholism I was not able to help my self. I was frequently using the services of the Salvation Army, Clitheroe Center Detoxification unit to be medically supervised while withdrawing from alcohol. On one of these occasions I was approached by the staff and interviewed and encouraged to get help in the form of treatment. I was admitted to residential treatment with Salvation Army Clitheroe Center for several months. I started my recovery and have been in recovery for over sixteen years continuously. In the years since, I have been employed and have not needed the resources of the community i.e. police, jail, emergency services, food stamps the list could go on ad infinitum. Since my recovery, I have completed a BA degree from the University of Alaska Anchorage and have been an asset to the community. I am overwhelmed with the gratitude of being able to work as a chemical dependency counselor in the treatment center where I began my recovery sixteen years ago. I was as hopeless as any one individual could possibly be. I was an IV drug user and chronic alcoholic. I hope my personal information will not be viewed as any personal triumph on my part. The transformation in my life was a direct result of the availability of treatment at a crucial point in my life and all the people, altruistic and professional, who were in the right place at the right time with the right resources to help me. Please consider your decisions related to funding of chemical dependency carefully. It is my hope that my personal story will encourage all of the committee members to realize the value and imperative of fully funding chemical dependency treatment programs for those who have no money, no private health insurance, and no resources. Unfortunately, this condition describes most of my clients who are physically, emotionally, and spiritually exhausted.

Respectfully,

Kim Kavanaugh BA CDC I

To whom it may concern,

My name is Brad Holl I am a substance abuse counselor at the Clitheroe Center in Anchorage. I have had first hand experience with the effects of alcohol and drug abuse in Alaska for the last 15 years. Being born and raised here I have seen the devastation that people with addictions have caused and I myself have been one of those people. I started drinking and using illegal drugs when I was about 15 years old and that lifestyle continued and worsened dramatically for nine years. During that time I was arrested, I lost a long term relationship with the woman I intended to marry, I was mostly an absent father who was only drunk or high when I was around my son and I did too many things that I am ashamed of to list here. All this is to say that I have seen and participated in the terrible lifestyle of addictions. When I finally did get sober I spent several years going to 12 step meetings and hearing the stories there of others who were caught up in the insane life of an addict or alcoholic. The amazing thing is that almost none of us wanted this lifestyle, most of us genuinely wanted to quit. We wanted to stop hurting our loved ones we wanted to stop hurting ourselves and we wanted to stop putting everyone else in the community in danger by drinking and driving. However we were unable to do that alone or on our own will power. We needed the help of others, people with addictions need the help of others to get sober and maintain sobriety.

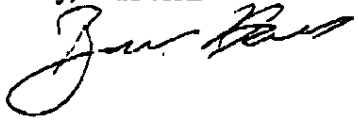
So once I got sober I decided to help others with addictions. I went and got a Bachelor of Arts in Psychology and I am currently working on a Masters in Counseling Psychology at APU. I also found a job doing substance abuse counseling at a residential treatment facility where I work with some of the most extreme alcoholics and addicts in the state. Most of the men I work with have lengthy criminal histories tied to their substance abuse. They have ruined their lives multiple times by pushing away loved ones, friends, losing their material possessions, wrecking their health, wasting years in jail, filling their lives with guilt and shame over who they have become and what they have done and most of all missing out on a good life that they could be living. However many of these people want to change as well just like I did and they are willing to work to stop their addiction, they are willing to work to stop hurting their families and stop putting the community at risk they are willing but most are unable to do it alone. They need help.

This brings us to the ongoing problem here in Alaska. We have a major problem with alcohol and drug addiction in the people in our population. The problem with drugs and alcohol is tied to many of our other problems specifically physical and sexual abuse, emotional abuse and neglect of elders and children, violent crimes like robberies and assaults, DUI's and so on. But the problem is not just related to legal problems there is much to be said about the impact on lost work hours, hospital visits, federal and state money spent on counseling and the wasted potential of Alaska's talented people. And unfortunately the problem is getting worse; children are being raised in unhealthy households and turning out like their parents. This has created a cycle that is rotting Alaska out from the inside; at the families.

We need an intervention to stop this cycle. We need to stop just barely having enough substance abuse treatment to get by. At our center there is up to a six month waiting list to get in and that is because we can't afford to operate at a higher capacity. Other substance abuse companies are the same. They cannot afford to hire more staff to take on more clients. The effect of this is that we are leaving people out there who want to get sober and would work to do it but need help; our help. While we wait these people hurt or kill themselves their families, and even strangers. They hurt society more, they fill up our prisons, they waste their lives and wait for their turn to get treatment. I know that everyone wants money from the state for different projects and I respect how hard it must be to allocate where funding goes and how much to spend but I would like to propose strongly supporting and funding substance abuse treatment as a long term strategy for the State of Alaska. Imagine if we had to fund the prisons less in ten years or the office of children's services, or STAR or AWAIC because of a decrease in crimes, offenses, abuse and so on. Imagine the difference in revenue for the state with more productive employees and less worksite accidents. On the other hand imagine not doing these things and hearing in ten years that we are still at the top of the national rankings for substance abuse, suicide, rape and alcohol related deaths.

Thank you for taking the time to read this letter.

Sincerely, Brad Holl



To Whom it may Concern.

My name is James Spears I am a war vet of Iraq and a alcohalic. I have a fiance and five children a 6yr old son a 5yr old daughter a 3yr old daughter and two twin girls who are two. If it was not for this treatment center at Clithroe my children would not have afather, I have been in jail for Domestic Violence and a DUI. I was out of control on my way to a coffin. I would drink until I passed out or all of the alcohal was gone, Sometimes for a week or more straight. I hurt myself my family and anyone else around me. I didn't care I was so deep in my sickness, My life was Unmanagable, I hadn't worked in months or

03/04/2009 07:53 9077438780 PAGE 19/28

acted like a father. I pushed my family away and isolated myself. Now with this treatment I'am happy, in recovery and I'am learning more everyday about living ~~sob~~ sober and personal responsability. I have a excellent group of peers who support me a great Counselor and a family who loves me to death. If it was not for this center I would not be writing this letter, it took me months before I got in here. I would hate ~~to~~ to see it done away with. Please please think wisely about your decions.

Clean and Sober,
James Spears

03/04/2009 07:53 9077438780 PAGE 20/28

TO Whome it may Concern

I am writting you this letter in hopes it will have a impact on funding for treatment programs. I am a client at the Salvation Army Clitheroe Center. I am a alcoholic and I am here trying to learn how to cope with my illness. I have never had any trouble in my life with the exception of alcohol. I have had two D.U.I.'s and it has caused a great strain on my family and community. Without programs like this where could people like myself go. Some people may say throw those guys in jail and keep them there. I think the cost of one year in prison for one person is $44,000 that is alot of money. Without programs like this that could be the outcome for me and many others.

You cant even bring money into this when dealing with lives and familys that are destroyed by something like this. Money can never replace those things but treatment can prevent the loss of both. With the help and education provided in programs like this one people like myself can return to society a productive person. Please take this into consideration when you make your vote.

Thank You

03/04/2009 07:53 9077438780 PAGE 22/28

To whom it may concern,

Well hello there this is Sheldon mckinney I have been a client here at The Salvation Army Clithroe Center for 23 days now. And let me tell you this much, I have learned so much about myself in this 23 day stay so far. Now if this treatment center wasn't available to me and thousands of other clients and soon to be clients. That would deffinetly be a tragity. Not only for me but for my community, and family. Now let me tell you a little about myself. I am a 24 year old heroine addict. I started using heroine when I was 19 years old. So they say I have a disease, and that very well may be true. Now what happens when a person is diagnosed with cancer? You give them treatment right. It is kind of the same thing, a disease is a disease. Now I don't think it would be right for me and also the other people in the state to have treatment taken from them. so please keep this thing going. You may be looking at the statistics of treatment centers and I know it isn't very high. But let me tell you something, lets just say that 1 out of every 5 people get this thing called long term sobriety. So now you have 1 out of 5 people that get to pass it on to the new person. Now that can go pretty darn far I would think. So then you would have more working, honest, trustworthy people working in this community to make it an over all better place. So once again please pretty please keep this thing going for us. Now if I didn't have this place who knows where I would be right now. probably on the street robbing and steeling from people in our community. Either that or probably in jail. And you and I know that the jails are already crowded as it is. Instead I am here getting the help I need to be a productive member of society. And that is exactly what I am going to be once I leave here. Reguardless if you all take the monies that support treatment centers. Like this one I am at right now. so please keep in mind that if the monies for treatment centers are cut or deducted. That you are doing a lot of people great harm.

Sincerely, Sheldon R Mckinney

To whom it may concern,

On November 10th of 2008 I had hit the lowest point of my life. I was cold, homeless & had no money. I was desperate & needed help. I was hooked on drugs. I didit know what to do or where to go or even if I would make it another day. I did know one thing though & that was I needed help.

I called my parents in Michigan & I was in tears. My parents were devastated & also saddened to hear that there son was a drug addict.

My parents set up an assessment with the Salvation Army Clithroe Center & I wes admitted to inpatient treatment.

Its been here that I've learned how to live, so that is hasn't been necessary for me use any kind of drugs in my daily life. It has been here that Ive learned alot about myself because we addicts are very much alike.

I have learned from my counselors in this program of recovery that there is hope for me & that I can once again be a productive member of the society & make my parents proud.

Thank GOD there is a program to help people such as me.

The Salvation Army Clithroe Center has given me a new meaning to life.

James Mannich

03/04/2009 07:53 9077438780 PAGE 25/28

To whom it may concern:

My name is Jonathan Cole. I am here at Clitheroe on a treatment furlough from Wildwood Correctional Complex.

I was incarcerated for a DWI. and two assults against the people that were riding in the vehicle with me. I had been using dangerous drugs and alcohol. I was on a very distructive path. That made everyone that I came into contact with threatened for their safety.

In jail there was almost no services made available to me. I was struggleing every day. With the reality that I would face, once I was released from jail.

With no support. My chances of recovery, and continued safety. Of the community and my family. Would be precarious at best. If I were to begin using and drinking again. I would eventually reoffend. Go back through the court system. Then return to prison for yet annotha lenthly incarceration.

In the short term. Is not providing abundant, or even limited recourses. To treat the chemicaly dependant. It might seem that the savings is there.

However, in the long term. The conciquences of not continueing to do all that is in your power to help prevent and treat those that so desperately need it. Would be immeasureable and damageing to the Economic and social structure of communities all ofer the state of Alaska. It would send shockwaves that reach all of it's infrastructures. Effect all of it's inhabetants.

The cost is just a drop in the bucket to the losses that would incur.

Jonathan Cole

Economic Distress and Intimate Partner Violence

NIJ has funded a number of studies that look at aspects of economic distress, unemployment, neighborhood characteristics and Intimate Partner Violence (IPV) including studies that examine the relationship between:

- Employment instability and risk for IPV
- IPV and financial strain
- Repeat victimization and financial strain.
- Financial strain and abusive relationships
- IPV victimization and employment stability
- Economic Disadvantage, Neighborhoods and IPV

A recent study looked at data from the National Survey of Families and Households to examine whether employment instability and financial strain were related to the risk for IPV against women. The study also looked at the relationship between feelings of financial strain and the likelihood of IPV.

Employment instability increases the risk for IPV

The study showed that for couples where the male was always employed, the rate of IPV was **4.7 percent**. When men experienced one period of unemployment the rate rose to **7.5 percent** and when men experienced two or more periods of unemployment the rate for IPV rose to **12.3 percent**.

Intimate partner violence is more likely to occur when couples feel financial strain

The same study showed that there was a strong relationship between subjective feelings of financial strain and the likelihood of IPV.

- The rate of IPV for couples experiencing low levels of subjective financial strain was **2.7** percent.
- The rate of IPV for couples experiencing high levels of subjective financial strain was **9.5** percent.

Repeat victimization of women is more frequent in couples feeling financial strain.

- Women in couples with low levels of financial strain report **less than 2 percent** of repeat victimizations or being injured by their male partner, while
- **Just over 5 percent** of women in couples with high levels of subjective strain report repeat victimizations or being injured by their male partner

Financial strain may keep women in abusive relationships.

Women at greatest risk of IPV tend to be those in couples with few economic resources, high subjective stress about finances, higher unemployment and proximity to economically disadvantaged neighborhoods. The choice to stay or leave violent relationships may be based on the decision that a partner's economic contribution to the relationship outweighs the risk of violence, and may compel women to live with men's violent behavior rather than seek help or take other steps to leave violent relationships.

Women who are victimized by IPV may experience unstable employment as a result.

One study examined the impact of intimate partner violence (IPV) on labor force participation. The study interviewed 1311 women in Illinois once a year for three years and found that:

- Women experiencing recent IPV (but not long past intimate violence) experienced unstable employment over the three year period.
- Women who were victims of recent IPV worked fewer months compared to women who were not abused during that period or were abused only in the past.
- Women who reported that they had been abused by their partner at time one rated their health as poorer and their need for mental health services as greater a year later as compared to non abused women.
- Women with abusive partners reported more stress related concerns and emotional problems. Additionally they reported more headaches, ulcers, and back problems than did non-abused women.
- Chronic IPV is associated with poor health.
- **Most notably:** IPV contributes to stress related physical and mental health problems for as long as a year after the abuse has occurred. In turn these health problems decrease women's ability to hold stable employment even as long as two years after the abuse has occurred.

Economic Disadvantage, Neighborhoods and IPV

Researchers examined two types of economic distress — employment instability and subjective financial strain and concluded that both are strong risk factors for intimate violence against women. This study defined employment instability as the number of periods of unemployment for men between waves of the National Survey of Families and Households (NSFH). Subjective financial strain was defined as perceptions of financial inadequacy and was operationalized by combining responses to questions about satisfaction with finances and questions regarding worry about money.

- Violence against women in intimate relationships occurred more often and was more severe in economically disadvantaged neighborhoods. According to a recent study the rate of IPV in economically disadvantaged neighborhoods is **8.7**

percent compared **with 4.3 percent** in more economically advantaged neighborhoods.

- Women living in disadvantaged neighborhoods were more than twice as likely to be the victims of intimate violence compared with women in more advantaged neighborhoods.
- Women who live in economically disadvantaged areas and while in relationships are struggling to make ends meet are at the greatest risk for IPV.
- African-Americans and whites with the same economic characteristics have similar rates of IPV however African-Americans have a higher overall rate of IPV due in part to higher levels of economic distress and residence in economically disadvantaged neighborhoods.
- Women in disadvantaged neighborhoods were more likely to be victimized repeatedly or injured severely by their partners then women who lived in more advantaged neighborhoods (**6% vs. 2%** respectively).

The link between individual economic stress and community economic disadvantage raises the possibility that these two conditions may combine or interact in ways to influence the risk of IPV against women.

Subject: Please HELP Mental Health

Dear Representative Hawker,

My name is James Johnson Sr. and I am writing this letter on behalf of my son who was diagnosed 5 years ago with paranoid schizophrenia. He has been in and out of Jail over a dozen times during this time due mostly to his medications no longer being effective or his non-compliance due to the side effects inducing terrible psychotic episodes because of the demons(voices) in his head. He lives with us because he has no where to go besides living on the streets. IF there was a Mental Health Court in Juneau like there is in Anchorage he might someday be able to get out on his own? He would not be denied housing because of his misdemeanors due to his illness. He was also denied his PFD and employment because of this and it is not fair for he did not ask to get this sick. Mental Health Services (JAMHI) have tried many different medications and some times the older meds have not worked because he has to start on a low dose and bui ld up to a dose that might work for him. It has been a roller coaster ride trying to get him the right combination of meds so that he is not a danger to himself or others. It is so important that my son and other mentally ill people like him have access to All and any Mental Services that are already hurting for adequate funding. It could save a life (while saving money for the State Judicial system) and or the future hope of any severely mentally ill person. There was a time that I did not have that hope for my son and was very depressed with the system. His Mental Health Services have saved his life a dozen times. 3 weeks ago my son was given a new dose of Haldol that has been an answered prayer. It is the first time in a long time that we have laughed together and shared some beautiful moments. I treasure these times and will prepare for his future. One day at a time. I know that you all will make the right decision for my son and for society. Please Support FULL funding o f the Governor's request. Thank You.

Sincerely,

James A. Johnson Sr.

March 7, 2009

Dear Representative Mike Hawker,

I am the President of the Alaska Psychiatric Association, the professional organization of Alaskan psychiatric physicians. We work in a broad spectrum of clinical settings that include for-profit and non-profit, community and hospital-based facilities, Alaskan Native Corporations, Veterans Affairs, state hospital (API), Department of Corrections, managed care, and disability determination.

Costs have risen in all these settings but the ability to provide even the same level service is particularly challenging for community based agencies. A number of agencies, including Alaska's largest community health center, the Anchorage Community Mental Health Services, have laid off people including clinicians who serve so many adults and children in crisis.

Please support the Governor's FY10 Budget request for Community Behavioral Health Service Grants and Substance Abuse Grants at the requested level of $1.75 million for each grant program for a total of $3.5 million. I recognize that this is an increase over the current year appropriation but one that is vital for Alaskans depending on these grant funds for treatment of serious mental illness and addition disorders.

Thank you very much your public service.

Mr. Chairman,

My name is John A. Yarbrough. I am representing myself.

My story dates back March 2008. Where I received Services for my Mental illness. At the time, I did not realize that I had a mental illness except for the fact that I ended up in the Emergency Room for Suicidal/Homicidal thoughts. The staff at Mental Health saved my life. They provided me with the right therapy and medications. I am now living my life with more security. In short I would not be alive, if it was not for Mental Health. Please do not reduce the funding for Mental Health.

Thank you
for hearing my testimony.

State of Alaska
State Legislature
Juneau, Alaska

Dear Representative,

Please do not reduce funding for behavioral services funding for the citizens of Alaska who are mentally disabled. The people who are in need of behavioral services are the least of our population to be able to speak of their needs and that is why it is so important that you not dismiss them when deciding to fund House Bill 83. You will probably be hearing from caregivers, family members and therapists. The mentally ill who are able to talk with you and write you letters are few and far between. They are the ones who were gifted with the ability to communicate where most people suffering behavioral disorders do not communicate well. So, we must be advocates for them and help them to get the services that will allow them to be full functioning citizens. Unless they can get therapy there is no way for a person with a mental illness to progress.

In our town we have incredible mental health services. Petersburg Mental Health Services has been assisting our daughter, Madeline Ray, for nearly two years now. Her illness is severe, so her progress has been gradual, but she is progressing and she has survived and that is only because she has had daily therapy. Her care providers see her without getting paid on the weekends because they care. Our community has mental health professionals who do not go to work for the paycheck. They are dedicated counselors who keep their clients on a coarse. I know this because I have recently started working as a file clerk/receptionist for Petersburg Mental Health Services. I have seen first hand how they treat all the clients of Petersburg and it is with the same seriousness that they treat my daughter, that they treat all of their clients. Their goal is to get the client well and be ready to treat the new clients coming in.

Our family has used all of our savings on care for our daughter. We do not regret that but it does depress our daughter because it makes her feel bad that we have no extra money for emergencies and it has put us in a heightened state of anxiety trying to juggle things. We are grateful our daughter is alive and we will continue to do whatever we need to do to help her get better. There are so many people with mental illnesses that have no caregivers and have so little that I really hope you will fund House Bill 83 and work towards always caring for the mentally ill. Many times family members give up on the mentally ill because they are so difficult. They then become institutionalized and are lost

or homeless. If there are services in the community to help when mental illness first starts, we will have a better chance to keep the ill person from becoming hospitalized and be able to help them get on track and deal with their disability so they can be independent, happy, working members of their family and community. Please fund House Bill 83 in its entirety.

Thanks for taking the time to read our letter,

Sincerely,

Jennifer Ray Jeffery Ray

Subject: FW: Budget Increases for Community Behavioral Health Services Grants

---

From: Fred [mailto:fred@voaak.org]
Sent: Thursday, March 05, 2009 4:53 PM
To: Rep. Mike Hawker; Representative_Bill_Stoltz@legis.state.ak.us
Cc: Sen. Donny Olson
Subject: Budget Increases for Community Behavioral Health Services Grants

Please consider reinstating the Governor's budget recommendations for Community Health Services Grants. She recommended increments of $1.75 million for both the community mental health and the community substance abuse grants. The House Finance Committee is recommending reducing the increments to $1 million for each of the two grant categories. While any increase is preferable, the Committee's recommendation is not sufficient for the unmet demands for treatment services. The Committee's recommendation is also not sufficient to maintain the viability of community-based systems undergoing extreme stress in our current economic environment.

I am sure you are aware that our state's community-based systems are meeting only about half of the statewide need for behavioral health services. The most recent data shows over 56,000 Alaskans need behavioral health services. In 2008 the unduplicated count of clients served by community providers totaled less than 23,000 Alaskans.
Treatment for these illnesses is often long in duration and costly. It is generally much less expensive to receive treatment in our own communities. These grants make it possible for Alaskans who otherwise could not afford this treatment to receive the care they need and to receive it near their home.

I am the Family Support Coordinator at Volunteers of America. I am not a professional counselor. I serve in this position because I am the parent of a recovering addict. It took our daughter eight years to reach the point that she was ready to seriously engage in recovery. Today, she is employed, engaged as a member of our family, contributing financially to our household, and a full-time student at UAA. As little as two years ago, we would have settled for her to merely be alive. During her journey to recovery she was in treatment three times. I do not believe we would have survived this ordeal if we did not have the support of dedicated employees of the State of Alaska and treatment staff at local nonprofit service providers.

Having seen several treatment facilities and programs, I know that Volunteers of America stands with the best of them in terms of their compassion, the quality of services, and dedication to the success of their clients. We are blessed as a community for their presence. One of the most frequent statements I hear regarding our excellent treatment staff and administrators is "We are not here for the money." I personally see every day why they are here. They are here because they believe they are saving the lives of children and families by their service. And they contribute monetarily by doing this for compensation well below their worth.

It should be your role as decision-makers to make their difficult task a bit easier by supporting a reasonable request. Please reconsider your action and restore the Governor's recommendation.

Thank you,

Fred Jenkins

To whom it may concern:

Re: Letter of support for UAF INE ACEP to use Event Data collected by Alaska Environmental Power as well as our proposed Delta Junction, Alaska Wind Facility

Alaska Environmental Power (AEP) is dedicated to the advancement of wind energy generation technology. We wish to include a multitude of people and organizations in our push for the acceptance of wind generated energy into Alaska's electrical grid. Towards this goal AEP is willing to work closely with University of Alaska Fairbanks (UAF) Institute of Northern Engineering (INE) Alaska Center for Energy and Power's (ACEP's) to further the research and development of cold weather wind turbines and all the associated technologies built to work in Alaska's unique climate, geography, and demographic.

Specifically, AEP is ready to share specific wind event data with UAF INE ACEP to assist in their research. Alaska Environmental Power has meteorological (met) towers in Healy, Alaska and Delta Junction, Alaska. In addition AEP has a 100 kW tower standing in Delta Junction. UAF INE ACEP would have access to specific wind event data, by request, collected by Alaska Environmental Power in their research. This would include Alaska Environmental Power's permission to publish that data and any results. UAF INE ACEP would also have access to AEP's facilities and infrastructure, by request, for experimentation. They would again have our permission to publish this data and any associated results.

It is our hope that such co-operation between organizations working for the advancement and acceptance of wind turbine technology will spearhead the growth of wind energy in Alaska's electrical grid.

Cordially Yours,

Mike Craft

Committee on HB 81 Operating Budget & HB 83 Mental Health Budget dated 3-4-09
bill # / subject public hearing date

Dear Chairman and Committee Members

My name is Tom Bearup and I am a former Mayor of Soldotna. I am also an organizer for the Kenai Peninsula Childcare Providers which is in the process of being formed.

I have spoken with many of the local providers and all of us are concerned as private childcare facility owners and employees that the objective of the Department of Education and their goals for a pre-school pilot program in the public schools would affect the established childcare providers on the Kenai Peninsula and throughout the state of Alaska in a negative way.

Childcare providers have been giving much love and care to Alaska's children for many years as professional childcare providers. It is concerning that the Department of Education would desire to take those children out of the people that have been providing this service for so many years, under the over site of the state of Alaska childcare licensing division in Anchorage.

We as a professional group of providers have no problem with the states desire to require additional education for workers and childcare providers that are licensed in the state but we do believe that with the additional requirements that monies be provided for that additional education.

We also believe that since the state is looking at the possibility of the pilot program for preschool age children that instead of creating a new area of education in the school system that they take any monies and provide it to the private sector through grants and other forms of assistance to the childcare providers for the purchase of additional equipment and upgrading their facilities.

The childcare providers here on the Kenai Peninsula are currently paid for state of Alaska clients lower than other areas of the state and that does not seem to be a fair practice. We do believe that the state payment should be on the same level as in cities like Anchorage and Fairbanks.

Should this pilot program be set into motion it is our belief that some of our employees would have to be let go, which would place additional burdens on them and their families and some facilities would have to close.

The private sector should not have to compete with the government when we have been successful for some many years in providing professional childcare services to our communities and the families that we serve.

Thank you for the time to share my thoughts and the thoughts of so many that are not able to either attend or draft comments for this meeting today.

Again, my name is Tom Bearup. My address is P.O. Box 2763, Soldotna, Alaska 99669-2763. My home phone number is 907-262-8741 and my cell phone is 907-953-9233 should you have any further questions.

The Honorable Mike Hawker
House of Representatives
State Capitol, Room 505
Juneau, AK 99801

Dear Representatives Fairclough and Hawker,

I am writing to request your consideration of full funding for House Bill 81. House Bill 81 contains a University of Alaska Anchorage (UAA) health package that includes funding for a nutrition degree program. Over the past year, a statewide Nutrition Advisory Committee has met and created the curriculum for a first-ever nutrition degree program. The nutrition degree program will offer three nutrition tracks:

1. A Dietetics Degree that is pending approval by the Commission on Accreditation for Dietetics Education that will enable students to be eligible to apply for a Dietetic Internship Program and ultimately be qualified to become a registered dietitian.
2. A Community Nutrition degree that will enable students who are interested in non-registered dietitian careers such as public health, wellness and WIC careers. This career track does not require completion of a dietetic internship.
3. A Nutrition Science degree for students interested in the advanced study of nutrition and who wish to continue their graduate nutrition work. This career track prepares students for careers in nutrition research or for students applying to medical school.

I have worked with nutrition professionals in our health consortium and understand that registered dietitian positions are difficult to recruit and fill. It is also my understanding that the University of Alaska Anchorage currently does have an approved post-graduate dietetic internship program, but does not have an approved undergraduate nutrition degree program. This creates obstacles for students residing here in Alaska because if they do want to pursue a nutrition career, they must first leave Alaska to attain a nutrition degree. This often times creates the "brain drain" situation where students leaving Alaska do not return to live here upon attainment of their college degree. I fully support the proposal to create and fully fund the three nutrition programs described because I believe that it will ultimately help

Alaska to "home grow" their own nutrition professionals who can attend college and internship programs here.

I urge you to consider funding the full $1.8 million to the University of Alaska Health Academic Programs. If you do so, this investment will pay dividends in the future when we join the rest of the nation in offering approved nutrition degree programs and can reap the benefits of educating and retaining nutrition professionals.

Sincerely,

General Counsel

House Finance Committee
Alaska State Capitol, Rooms 505 & 515
Juneau, AK 99801-1182

Subject: Support for Community Senior Grant Increment, CSHB 81 (HSS)

Dear Co-Chair Hawker & Co-Chair Stoltze:

The Alaska Commission on Aging (ACoA) supports the $609,917 increment amendment for Senior Community Based Grants appropriated to Senior and Disabilities Services (SDS) that was approved by the House HSS Finance Subcommittee for the operating budget in CSHB 81.

On behalf of the senior provider community and older Alaskans who depend on senior grant-funded services, ACoA wholeheartedly thanks the legislature for their support of the $1 million increment approved last year for FY2009 senior grants, which was the first substantive increase in ten years for these services. Because the Alaska senior population has grown by over 50 percent over the last decade, more seniors are now using senior-grant funded services. According to SDS, approximately 11,865 older Alaskans utilized grant-funded senior services in 2008.

The purpose of senior home- and community-based grants is to prevent or delay the progression of serious medical conditions by enhancing individuals' health. Grants to local senior centers and other nonprofit service providers fund a wide range of core home- and community-based services which maximize independence and support the physical and mental health of older adults. Services provided under the senior grants program include home-delivered meals, congregate meals, senior transportation, chore assistance, care coordination, respite care, and other essential services which make it possible for older Alaskans to remain in their homes and communities for as long as possible.

The proposed increment funds are needed to help providers address the major increases in the costs of food, gasoline, and heating fuel, most acutely felt in rural communities. They are also requested to prevent a reduction in the current level of funding and services for most regions of the state as the result of phasing in a new funding formula that uses updated population figures under the *Alaska State Plan for Senior Services, FY2008-FY2011* ("the State Plan") (www.alaskaaging.org). The State Plan is required by the U.S. Administration on Aging for the distribution of federal Older Americans Act funds for senior grant-funded programs.

The regional funding formula included in the State Plan was the result of a year-long process which included participation by many agency partners statewide and was presented for public review and comment in a number of venues. The funding formula itself was modified only slightly, however, use of updated population figures in the funding formula resulted in major changes in the amounts available for allocation among the state's nine regions.

Although every region of the state experienced an increase in the senior population, according to data from Alaska Department of Labor and Workforce Development's 2007 population estimates, the Railbelt regions experienced unusually rapid growth in their senior populations since the 2000 census and a subsequent gain in their allotted percentage of available funds at the expense of the other regions. Assuming no increase in State funding, it was understood that a number of regions would suffer a decrease in funding and a phased-in approach of the new funding formula was adopted. While the phased-in approach retained funding distributions for FY2008 and FY2009 according to those amounts prescribed in the earlier state plan, FY2010 would phase in 50 percent of the change calculated by the current plan with 100 percent implementation of the change in FY2011.

The $609,917 increment would be used to hold those regions harmless which would receive reduced grant amounts as a result of the phased-in implementation to maintain their level of service to Alaska seniors. Without this increment, funding reductions could lead to deterioration of services in the more remote areas.

Alaska is one of the foremost states in investing in home- and community-based services. While other states have built nursing homes and other institutional long-term care facilities to care for their elderly, Alaska has prudently invested in a continuum of long-term support services, a strategy that is less costly and desired by older Alaskans and their families.

ACoA supports the increment for Senior Community Based Grants. Research has established that providing these home- and community-based services helps to reduce the need for more intensive health care services. These services are also desired by older Alaskans and their families. Please feel free to contact Denise Daniello, ACoA's executive director (465-4879), should you have any questions regarding our position. Thank you for your consideration.

Sincerely,

Sharon Howerton-Clark

Dear Representatives Anna Fairclough and Mike Hawker,
I am writing to urge your consideration of full funding for House Bill 81. House Bill 81 contains a University of Alaska Anchorage (UAA) health package that includes funding for a nutrition degree program. Over the past year, I have been an active member of the statewide Nutrition Advisory Committee. The committee has created the curriculum for a first-ever nutrition degree program that will offer three nutrition tracks:

1. A Dietetics Degree that is pending approval by the Commission on Accreditation for Dietetics Education that will enable students to be eligible to apply for a Dietetic Internship Program and ultimately be qualified to become a registered dietitian.
2. A Community Nutrition degree that will enable students who are interested in non-registered dietitian careers such as public health, wellness and WIC careers.
3. A Nutrition Science degree for students who wish to continue their graduate nutrition work and work in the nutrition research field or apply for medical school.

I have worked as a nutrition professional in our health consortium over the past 19 years and as a supervisor I have experienced how difficult it is to recruit and fill registered dietitian positions. The UAA currently does have an approved post-graduate dietetic internship program, but does not have an approved undergraduate nutrition degree program. This creates obstacles for students residing here in Alaska because if they do want to pursue a nutrition career, they must first leave Alaska to attain a nutrition degree. This often creates the "brain drain" situation where students leaving Alaska do not return to live here upon attainment of their college degree. As an adult student who had the goal of becoming a registered dietitian, I had to leave Alaska to attain an approved nutrition degree, then return home to complete the UAA Dietetic Internship Program. During this time my husband Clint was in college full time and we had our son, who was a toddler at that time. The out of state tuition was very expensive for both of us, and as a result of that we are still repaying student loans for our undergraduate degrees. Many students would not even consider doing this because of the expense involved. For these reasons, I fully support the proposal to create and fully fund the three nutrition programs described and included in HB 81.

I strongly urge you to consider fully funding the $1.8 million to the University of Alaska Health Academic Programs. If you do so, we will join the rest of the nation in offering approved nutrition degree programs and will reap the benefits of educating and retaining nutrition professionals.

Sincerely,
Elizabeth Watanabe, MPA, RD, LD

Elizabeth "Libby" Watanabe, MPA, RD, LD

To: Rep. Mike Hawker
Subject: CDVSA Budget

Representative Mike Hawker:

My name is Janet Ahmasuk and I work for Bering Sea Women's Group in Nome Alaska.

I was of the understanding some time ago that the Governor's DPS budget had an increment of $1.7 million of which $1.2 million of that was for 19 existing programs statewide like Bering Sea Women's Group.

While our program appreciates the $296K increment it is not enough in fact it is devastating blow to the 19 DV/SA programs in the state.

$1.7 million reflects the bottom line – no frills/direct costs – that we as a Network, in conjunction with CDVSA and the Governor's office came up with.

Different legislators/committees don't seem to know exactly what happened? And we – BSWG - are at the point - way out here in the desolate expanse of tundra/ice/snow of western Alaska of not knowing at the last minute whether we have ADEQUATE funding or not to run our Battered Women's Shelter. What will happen to our battered clients if we have no funding?

Times are difficult for all of us right now but the choices are even more difficult for abused women and children.

Please do the right thing in setting priorities for DVSA programs.

Sincerely,

Janet Ahmasuk, Rural Victim's Service Coordinator, BSWG

And - Samaria Ross, Executive Director, BSWG

Support Full Funding for the Council on Domestic Violence and Sexual Assault

The Alaska Women's Lobby supports full funding for CDVSA. The Governor's requested increment provides much needed funds for research, prevention work and the day-to-day operations of shelters and rape crisis centers. Most of these funds will go directly to community-based programs responding twenty-four hours a day to the ever present threats to victims' safety.

During FY 08, the Troopers investigated 13 homicides. Nine of them were domestic violence related and one further involved sexual assault. Alaska shelter programs participated in a national one day census count. Last year on September 17th, 550 victims sought and received services from Council funded programs. 269 received shelter and 281 adults and children received non-residential assistance including legal advocacy, counseling and children's support groups. Also on that day, funded programs responded to 73 crisis calls and provided 14 training sessions attended by 215 individuals.

Many programs reported a critical shortage of funds and staff to assist victims. Unfortunately, 47 people (24 of whom needed emergency shelter or transitional housing) who sought services on September 17th were not able to get their needs met. While this is only a snapshot of services on one particular day, it is enough to see that services in Alaska are necessary.

We've all heard the statistic that Alaska ranks number one in the nation for reported per capita sexual assault. We have approximately 2X the national average of reported sexual assault, so if one in four women will be sexually assaulted during her lifetime, look around the room--for every four Alaskan women two have or will be raped. It is past time to say enough is enough.

Previous legislatures have dealt with the aftermath of sexual assault, enacting tough crime legislation with stiff penalties, but more work needs to be done to prevent these crimes from ever happening. Part of the Governor's increment would support prevention activities across the state. As someone once said, "It is not enough to pull drowning people out of the river, at some point someone has to wade upstream and keep them from falling in."

The Women's Lobby urges the full House Finance Committee to restore all the GF taken from the CDVSA budget to fully realize the requested increment. Give community-based programs the funds they need so that people are not turned away from the services that can lead them to a life free from the violence they now suffer.

My name is Andrea Story and I am a parent of a middle school student in the Juneau public schools. I also am a member of the Juneau School Board. My husband is co-owner of an engineering firm with 18 employees. To recruit and retain high caliber engineers, schools are part of the equation. He has found that prospective employees look at the quality of local schools.

I am here to thank you and testify in support of the increase to the foundation formula that you agreed upon last year in the Joint Legislative Education Funding Task Force; the area cost differential, increases to special education and increases to the Base Student Allocation. However, the Finance Committee needs to realize that even with increases it still translates into cuts in services to most students in Alaska. Increased funding for education is not keeping pace with education costs.

Why is this?
The number one way to increase student achievement is a skilled teacher. Having salaries and benefits that keep skilled teachers in Alaska, that help districts recruit the best teachers in the nation and interest teachers in coming to Alaska, can not be underestimated. It is important to pay competitive wages and offer desired benefits. Districts try and offer contracts that are attractive to staff even though it means probably cutting programs, or raising classroom teacher pupil ratio.

Another reason costs for education do not keep pace with funding is that schools need to provide students with tools and skills for job needs in today's work place. Career Tech opportunities, Computers, smartboards, and document cameras are expensive and cost more than traditional classroom book learning and pens and paper. For years our district has not had a technology coordinator and adequate infrastructure. I see Fairbanks is proposing cutting from their technology budget to balance their budget.

In addition, fixed costs do not stay the same, typically they increase, as we have seen with energy costs and insurance costs. The increased money goes to that cost, so money is still needed for education supplies, programs for students, and staff salary and benefit increases.

I urge you to talk to your local school board and look at what cuts they are proposing for the students in your schools in your district.

What does this means for students? In my district it means proposed supply budgets are cut and less hands on assignments are given which helps kids experience, besides listen to a science or math concept, music and art instruction are cut which I hear from parents is often the favorite instruction that keeps students engaged in school, and class size is increased. Raising class size, does erode quality. It makes for less attention for students and longer wait times to get your questions answered.

I urge the Finance Committee to invest in students and increase the BSA over the 100 increase and accelerate to full implementation the area cost factors and special education increments. As back up material, I have handouts of Juneau's proposed budget, and letters from our Budget review teams. The Juneau District has 4 Budget Review and Analysis teams, it helps be transparent with our budget and accountable with the money we receive from the legisltature, again thank you. Budget review teams are made up of staff and community members that look at current budgets and school needs and make recommendations for additions or eliminations in the budget. There are elementary, middle and high school and district wide budget teams. Please look at them, you will see what community members feel is needed, full time music, physical eduation, library, requests for additional help for English language learners, technology needs and much more.

Thank you.

Subject: Community Behavioral Health Services Funding

As the Executive Director of Mothers Against Drunk Driving in Anchorage for nearly ten years, and as the Alaska State Director, I have had the opportunity to work with members of the Alaska House and Senate on the impact of substance abuse on our State, Communities and families throughout Alaska. I have also worked closely with law enforcement, the courts and the Department of Corrections where substance abuse has consistently impacted increasing criminal activity, criminal court proceedings, and cost to both Institutions through incarceration and demands on probation/parole .

I have worked closely with treatment providers, faith-based organizations, injury prevention, and a coalition of committed organizations, workers and volunteers, all recognizing the harm done and the costs resulting from inappropriate, hurtful and criminal behaviors while under the influence of substance abuse, and the unending community efforts in attempting to find ways to identify, prevent and respond to the overwhelming problems and costs associated with substance abuse.

Additionally, I have met and spoken with numerous families who have been separated - broken apart - because Alaska does not have the needed mental health care and their family members have had to be sent 'outside' to find that care. We do not have the resources to take care of "our own."

I urge you to consider the intensely negative impact and the tremendous costs for not putting substance abuse and behavioral health at the top of priorities for the physical and mental health, and life itself for all Alaskans when you reconsider fully funding FY10 behavioral health services.

Sincerely,

Marti Greeson

To: Rep. Mike Hawker
Cc: Sen. Donny Olson; Sen. Hollis French; Representative_Lindsay_Holmes@legis.state.ak.us
Subject: Please support Senior Community Based Grants

Dear Rep. Hawker:
I urge that you support the $6091917 increment that will maintain current funding levels for community based senior programs in Regions I, III, IV, VI, VII and VIII. My own area is Anchorage, where I managed nutrition and chore services for seniors for several years and am still active as a volunteer for senior social programs. The community based services are critical to helping seniors maintain a healthy, independent lifestyle in their own homes. With the senior population increasing as it has continued to do over the years, even level funding has created the need for services to be at least temporarily delayed and wait lists implemented. Actual reduction in funding will seriously weaken the safety net that keeps Alaska seniors well.
Please five this important funding your support during upcoming budget considerations.
Thank you very much.
Susan S. Faith

From: Ek, Lauri M. [mailto:Lauri.Ek@providence.org]
Sent: Tuesday, March 03, 2009 5:37 PM
To: Rep. Mike Hawker
Subject: Funding of the UAA health package

Representative Mike Hawker,

As a member of the UAA Dietetics and Nutrition Advisory Committee, I encourage you to fund the FULL $1.8 million University of Alaska health package. Part of the health package includes a new nutrition degree which can lead to nutrition professionals obtaining their education IN THE STATE of Alaska and not having to go outside of the state for education. We have been working hard in Alaska to start a local nutrition program through UAA so that dietitians can receive their training in state and stay to benefit the community.

As the Clinical Nutrition Manager at Providence Alaska Medical Center it is very difficult to find registered dietitians in the state of Alaska. In the three years I have in this position I have almost always had 1 or more open positions, and most dietitians are recruited from out of state. The students interested in becoming dietitians must leave the state for education and often never return.

Dietitians are only one part of the healthcare shortage in Alaska. The health package at UAA involves training of physical therapists, dietitians, physician assistants, radiology technicians, etc. These careers are all in high demand and hard to recruit in Alaska. Why should we cut funds and have interested students go out of state to earn their degrees and diminish the chance of their returning to Alaska?

Thank you for your consideration in this matter.

Uniform Rule 42

UNIFORM RULES

RULE 42. CONFERENCE AND FREE CONFERENCE COMMITTEES.

(a) If one house refuses to concur in the amendments of the other it so notifies the amending house and requests that it recede from its amendments. The vote on receding from amendments is taken by the calling of the roll and the recording of the yeas and nays in the journal. A house recedes from its amendments only by a majority vote of the full membership of the house. If the house refuses to recede, the presiding officer of each house appoints three members to sit as a Conference Committee. The committee meets when mutually agreeable to its members. If the committee reaches agreement on previously adopted amendments to a bill adopted by either house, the committee then submits an identical report to each house. The report is not subject to amendment in either house. If the report is adopted by each house the bill is enrolled, signed, and transmitted to the governor. If the members of the Conference Committee cannot agree on amendments, or if on or both houses refuses to adopt the committee report, the Conference Committee submits an identical written report to each house listing the specific points of disagreement for which the committee requests powers of free conference. The presiding officer of each house may then give limited powers of free conference only on the specific points listed. If the members of a Conference Committee with limited powers of free conference cannot agree on amendments, or one or both houses refuses to adopt the committee report, it is then in order to appoint a Free Conference Committee. A member who served on a Conference Committee or a Conference Committee with limited powers of free conference may not be appointed to a subsequent Conference Committee or Free Conference Committee concerning the same measure. The vote on adoption of a conference committee report is taken by the calling of the roll and the recording of the yeas and nays in the journal. Adoption requires a majority vote of the full membership of each house.

(b) A Free Conference Committee is appointed in the same manner as a Conference Committee and may suggest in its report any new amendments clearly germane to the question. When a majority of the membership of the committee from each house agrees on amendments, the amendments are attached to the bill and reported back to each house in an identical report. The report is not subject to amendment in either house. If the report is adopted in each house, the bill is then ordered enrolled by its house of origin. If the members of a Free Conference Committee fail to agree on amendments or one or both houses refuses to adopt the free conference report, a second Free Conference Committee may be appointed, but no member of the first committee may be reappointed. A free conference report on a measure other than an appropriation bill may not be voted on by the house until at least 24 hours after the report is duplicated and delivered to the chief clerk or secretary of the house for distribution to each member. The chief clerk or secretary shall certify the time of delivery of the report for recording in the journal. The vote on adoption of a free conference committee report is taken by the calling of the roll and the recording of the yeas and nays in the journal. Adoption requires a majority vote of the full membership of each house.

(c) A Conference Committee with limited powers of free conference or a Free Conference Committee may not include in its report on an appropriation bill an item which was not included in a version of that appropriation bill adopted in third reading by a house and the amount appropriated by an item may not exceed the higher amount appropriated by that item in a version of the bill adopted in third reading by a house. An item in an appropriation bill includes a line item, an allocation, and an appropriation. The report on an appropriation bill of a Conference Committee, a Conference Committee with limited powers of free conference, or a Free Conference Committee may not be voted on by the house until at least 24 hours after the report is duplicated and delivered to the chief clerk or secretary of the house for distribution to each member. The chief clerk or secretary shall certify the time of delivery of the report for recording in the journal.

(d) Notwithstanding the provisions of (c) of this rule, a Free Conference Committee may consider and include in its report on an appropriation bill appropriations as requested by attached fiscal notes on new legislation and resolutions that have been passed by both houses.

(e) A Conference Committee, a Conference Committee with limited powers of free conference, or a Free Conference Committee may not adopt a report that requires a change in the title of a bill other than a clerical or technical change.

MEMORANDUM May 3, 2007

SUBJECT: Notice for conference committee meetings; notice required for vote on a conference committee report

TO: Representative Mike Chenault
Co-chair of the House Finance Committee
Attn: Louanne Christian

FROM: Tamara Brandt Cook
Director TBC

(1) What notice requirements apply to meetings of conference committees?
The notice requirements of Uniform Rule 23 apply to standing, special, and joint committees. It appears that the Rule is intended to apply to special and joint committees of the types formed under Uniform Rule 21 rather than to conference committees which are actually separate committees that meet jointly. (Mason's Manual, sec. 770(2)) There is no provision in the Uniform Rules that addresses a notice requirement applicable to conference committees. Nonetheless, the open meetings guidelines set in the legislative ethics law apply to conference committees, so meetings of conference committees are subject to open meetings requirements, including some form of notice. (AS 24.60.037(g)(2)(A)(iv)) Under the open meetings statute applicable to the executive branch and to municipalities, reasonable public notice of meetings is required and the notice must include the date, time, and place of the meeting. (AS 44.62.310(e)) This is the notice requirement that the legislature has applied to meetings of conference committees for many years, so, as a matter of past practice, it is reasonable to assume that this is the notice requirement that continues to apply to conference committee meetings. Obviously, what is reasonable notice will depend upon the circumstances under which a conference committee is meeting. If there is ample time remaining in a legislative session, it may be reasonable to provide several days' notice. On the other hand, in the face of an imminent adjournment, a notice provided only a few hours, or even minutes, in advance of a conference committee meeting may constitute reasonable notice.

(2) What are notice requirements for a concurrence vote on a conference committee report?
Under Uniform Rule 42(b), a free conference committee report may not be voted on until at least 24 hours after the report is duplicated and delivered to the chief clerk or secretary for distribution to each member. Under Rule 42(c), a report on an appropriation bill from a Conference Committee, with or without limited powers of free conference, or from a Free Conference Committee may not be voted on until at least 24 hours after the report is

duplicated and delivered for distribution to the chief clerk or secretary. Note that the chief clerk and secretary are required to certify the time of delivery of a report and record that time in the journals. There is no provision for waiving the 24-hour rules imposed under Uniform Rule 42, although those requirements could be suspended under Rule 54 by concurrent resolution concurred in by two-thirds vote of the full membership of each house. Nonetheless, I have noted one instance when the 24-hour requirement of Rule 42(c) was unanimously suspended upon a motion to do so made in the Senate. (Senate Journal, page 568, March 16, 1999)

CS FOR HOUSE BILL NO. 83(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making appropriations for the operating and capital expenses of the state's integrated comprehensive mental health program; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2009 and ending June 30, 2010, unless otherwise indicated. A department-wide, agency-wide, or branch-wide unallocated reduction set out in this section may be allocated among the appropriations made in this section to that department, agency, or branch.

	Allocations	Appropriation Items	General Funds	Other Funds

* * * * *			* * * * *	
* * * * * **Department of Health and Social Services** * * * * *				
* * * * *			* * * * *	

No money appropriated in this appropriation may be expended for an abortion that is not a mandatory service required under AS 47.07.030(a). The money appropriated for Health and Social Services may be expended only for mandatory services required under Title XIX of the

Social Security Act and for optional services offered by the state under the state plan for medical assistance that has been approved by the United States Department of Health and Human Services.

It is the intent of the legislature that the Department continues to aggressively pursue Medicaid cost containment initiatives. Efforts should continue where the Department believes additional cost containment is possible including further efforts to contain travel expenses. The Department must continue efforts imposing regulations controlling and materially reducing the cost of Personal Care Attendant (PCA) services. Efforts must be continued utilizing existing resources to impose regulations screening applicants for Residential Psychiatric Treatment Center (RPTC) services, especially for out-of-state services. The department must address the entire matrix of optional Medicaid services, reimbursement rates and eligibility requirements that are the basis of the Medicaid growth algorithm. This work is to utilize the results of the Medicaid Assessment and Planning analysis. The legislature requests that by January 2010 the Department be prepared to present projections of future Medicaid funding requirements under our existing statute and regulations and be prepared to present and evaluate the consequences of viable policy alternatives that could be implemented to lower growth rates and reducing projections of future costs.

It is the intent of the legislature that the Department of Health and Social Services eliminate the requirement for narrative and financial quarterly reports for all grant recipients whose grants are $50,000 or less. This is an unnecessary burden and is not a requirement of the federal grants.

It is the intent of the legislature that the Department of Health and Social Services make a single 'upfront' payment for any grant award that is $50,000 or less and includes a signature of the grantee certifying compliance with the terms of the grant with their approved application. Signature of the grantee would also certify that if a final report certifying completion of the grant requirements is not filed, future grants will not be considered for that grantee until all requirements of prior grants are completed satisfactorily. In the event a grantee is deemed ineligible for a future grant consideration due to improper filing of final reports, the grantee will be informed about the department's procedures for future consideration of grant eligibility. The department will establish procedures to consider retroactivity for specific grant consideration or express that the retroactivity cannot be considered for certain grants during

	Allocations	Appropriation Items	General Funds	Other Funds
the selection process.				
Alaska Pioneer Homes		**13,757,100**	**13,757,100**	
It is the intent of the legislature that the Department maintain regulations requiring all residents of the Pioneer Homes to apply for all appropriate benefit programs prior to a state subsidy being provided for their care from the State Payment Assistance program.				
It is the intent of the legislature that all pioneers' homes and veterans' homes applicants shall complete any forms to determine eligibility for supplemental program funding, such as Medicaid, Medicare, SSI, and other benefits as part of the application process. If an applicant is not able to complete the forms him/herself, or if relatives or guardians of the applicant are not able to complete the forms, Department of Health and Social Services staff may complete the forms for him/her, obtain the individuals' or designee's signature and submit for eligibility per AS 47.25.120.				
Alaska Pioneer Homes Management	64,300			
Pioneer Homes	13,692,800			
Behavioral Health		**119,198,000**	**95,626,100**	**23,571,900**

Alcohol Safety Action Program (ASAP)	1,188,300			
Behavioral Health Medicaid Services	43,862,400			
Behavioral Health Grants	25,307,300			
It is the intent of the legislature that the department continue developing policies and procedures surrounding the awarding of recurring grants to assure that applicants are regularly evaluated on their performance in achieving outcomes consistent with the expectations and missions of the Department related to their specific grant. The recipient's specific performance should be measured and incorporated into the decision whether to continue awarding grants. Performance measurement should be standardized, accurate, objective and fair, recognizing and compensating for differences among grant recipients including acuity of services provided, client base, geographic location and other factors necessary and appropriate				

	Allocations	Appropriation Items	General Funds	Other Funds
to reconcile and compare grant recipient performances across the array of providers and services involved.				
It is the intent of the legislature that the $181.0 increment in the FY10 budget for Behavioral Health Grants be used for the Volunteers of America ARCH residential treatment center for adolescents with substance abuse/dependency and co-occurring disorders.

Certification and Licensing	120,800			
Senior and Disabilities Services		**15,058,000**	**13,602,200**	**1,455,800**

It is the intent of the legislature that regulations related to the General Relief / Temporary Assisted Living program be reviewed and revised as needed to minimize the length of time that the state provides housing alternatives and assure the services are provided only to intended beneficiaries who are actually experiencing harm, abuse or neglect. The department should educate care coordinators and direct service providers about who should be referred and when they are correctly referred to the program in order that referring agents correctly

	Allocations	Appropriation Items	General Funds	Other Funds
match consumer needs with the program services intended by the department.				
General Relief/Temporary Assisted Living	740,300			
Senior and Disabilities Services Administration	2,737,900			
Senior Community Based Grants	3,069,400			
It is the intent of the legislature that funding in the FY 2010 budget for Senior Community Based Grants be used to invest in successful home and community based supports provided by grantees who have demonstrated successful outcomes documented in accordance with the department's performance based evaluation procedures.				
Community Developmental Disabilities Grants	7,924,800

Departmental Support Services		**1,453,800**	**1,403,800**	**50,000**
Commissioner's Office	157,800			
It is the intent of the legislature that the Department of Health and Social Services complete the following tasks related to fiscal audits required in chapter 66, SLA 2003 of all Medicaid providers:				
1. Develop regulations addressing the use of extrapolation methodology following an audit of Medicaid providers that clearly defines the difference between actual overpayment of funds to a provider and ministerial omission or clerical billing error that does not result in overpayment to the provider. The extrapolation methodology will also define percentage of 'safe harbor' overpayment rates for which extrapolation methodology will be applied.				
2. Develop training standards and definitions regarding ministerial and billing errors versus overpayments. Include the use of those standards and definitions in the State's audit contracts.				
All audits initiated after the effective date of this intent and resulting in findings of

* **Sec. 4.** The following sets out the funding by agency for the appropriations made in sec. 3 of this Act.

Funding Source	Amount
Department of Transportation/Public Facilities	
1037 General Fund / Mental Health	800,000
1092 Mental Health Trust Authority Authorized Receipts	300,000
*** Total Agency Funding ***	$1,100,000
* * * * * Total Budget * * * * *	$1,100,000

(SECTION 5 OF THIS ACT BEGINS ON PAGE 14)

*** Sec. 5.** PURPOSE. In accordance with AS 37.14.003 and 37.14.005, the appropriations made by this Act are for the state's integrated comprehensive mental health program.

*** Sec. 6.** NONGENERAL FUND RECEIPTS. (a) Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) that exceed the amounts appropriated by this Act are appropriated conditioned upon compliance with the program review provisions of AS 37.07.080(h).

(b) If Alaska Mental Health Trust Authority authorized receipts (AS 37.14.036) or administration receipts (AS 37.14.036) fall short of the estimates appropriated in this Act, the affected appropriation is reduced by the amount of the shortfall in receipts.

*** Sec. 7.** SALARY AND BENEFIT ADJUSTMENTS. (a) The appropriations made in sec. 1 of this Act include amounts for salary and benefit adjustments for public officials, officers, and employees of the executive branch, Alaska Court System employees, employees of the legislature, and legislators and to implement the terms for the fiscal year ending June 30, 2010, of the following ongoing collective bargaining agreements:

(1) Alaska Public Employees Association, for the confidential unit;

(2) Alaska State Employees Association, for the general government unit;

(3) Alaska Public Employees Association, for the supervisory unit;

(4) Alaska Vocational Technical Center Teachers' Association - National Education Association, for employees of the Alaska Vocational Technical Center;

(5) Public Safety Employees Association, for regularly commissioned public safety officers.

(b) The operating budget appropriations made to the University of Alaska in this Act include amounts for salary and benefit adjustments for the fiscal year ending June 30, 2010, for university employees who are not members of a collective bargaining unit and for implementing the monetary terms of the collective bargaining agreements including the terms of the agreement providing for the health benefit plan for university employees represented by the following entities:

(1) Alaska Higher Education Crafts and Trades Employees;

(2) University of Alaska Federation of Teachers;

(3) United Academics;

(4) United Academics-Adjuncts.

(c) If a collective bargaining agreement listed in (b) of this section is not ratified by the membership of the respective collective bargaining unit, the appropriations made by this Act that are applicable to that collective bargaining unit's agreement are reduced proportionately by the amount for that collective bargaining agreement, and the corresponding funding source amounts are reduced accordingly.

(d) Appropriations made in sec. 1 of this Act for salary and benefit adjustments as described in (a) and (b) of this section are for the benefit of the state's integrated comprehensive mental health program only and do not necessarily affect every group of noncovered employees or every collective bargaining unit listed in (a) and (b) of this section.

* **Sec. 8.** This Act takes effect July 1, 2009.

Sponsor Statement
House Bill 85

"An Act extending the termination date of the State Board of Registration for Architects, Engineers, and Land Surveyors; and providing for an effective date."

HB 85 extends the sunset date for the Board of Registration for Architects, Engineers and Land Surveyors (BRAELS) to 2017, the eight year extension recommended by Legislative Audit.

I encourage all the members to review the Legislative Audit report. In it, you will see that BRAELS serves a public purpose and has demonstrated an ability to conduct its business in a satisfactory manner.

The registration of qualified architects, engineers, land surveyors, and landscape architects benefits the public's safety and welfare. The board is self-funded by fees charged for these registrations.

Thank you for your support of this legislation.

BOARD OF REGISTRTION FOR ARCHITECTS, ENGINEERS AND LAND SURVEYORS

November 13, 2008

Mark Davis, Director
Division of Corporations, Business and Professional Licensing
PO Box 110806
Juneau, AK 99811-0806

Dear Mr. Davis:

Terry Schoenthal, of the Alaska Chapter of the American Society of Landscape Architects, has indicated to me that he met with you and John Walsh on October 10, 2008 and discussed legislation to change the board composition of the Board of Registration for Architect, Engineers and Land Surveyors (AELS Board). Specifically, an omnibus bill was discussed which would include legislation to change the temporary landscape architect seat on the board to a permanent, voting seat.

The AELS Board, at its August 2007 meeting voted in favor of making this change. Therefore, this letter is written to express the AELS Board's support of the Society of Landscape Architect's efforts to pass legislation changing the temporary landscape architect seat on the board to a permanent, voting seat.

Please feel free to contact me if you would like to discuss this matter.

Regards,

Ginger Morton
Executive Administrator
AELS Board

Division of Legislative Audit

Audit Digest #08-20058-08

SUMMARY OF: A Sunset Review of the Department of Commerce, Community, and Economic Development State Board of Registration for Architects, Engineers, and Land Surveyors.

PURPOSE OF THE REPORT

In accordance with Title 24 and Title 44 of the Alaska Statutes, sunset legislation, we have reviewed the activities of the State Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS or board). The purpose of this audit was to determine if there is a demonstrated public need for the continued existence of the board.

REPORT CONCLUSIONS

Under AS 08.03.010(c)(3), the State Board of Registration for Architects, Engineers, and Land Surveyors will terminate on June 30, 2009. If the legislature does not take action to extend the board's termination date, AS 08.03.020 provides that the board will have one year in which to conclude its administrative operations.

In our opinion, the termination date for the board should be extended. BRAELS serves a public purpose and has demonstrated an ability to conduct its business in a satisfactory manner. The registration of qualified architects, engineers, land surveyors, and landscape architects benefits the public's safety and welfare. **We recommend that the legislature extend the termination date of the board until June 30, 2017.**

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

1. The Department of Commerce, Community, and Economic Development Division of Corporations, Business, and Professional Licensing, in conjunction with BRAELS, should review registration fees as provided by statute and consider decreasing fees.

2. The director of Corporations, Business, and Professional Licensing should ensure that BRAELS registrants that are Corporations, Limited Liability Companies (LLC's), and Limited Liability Partnerships (LLP's) are licensed in accordance with state regulations.

3. The Office of the Governor should fill vacant seats on the State Board of Registration for Architects, Engineers, and Land Surveyors in a timely manner.

ANALYSIS: *(Attach a separate page if necessary)*

This bill extends the State Board of Registration for Architects, Engineers, and Land Surveyors from June 30, 2017. In accordance with AS 08.03.020 funding would extended one year following the termination date allowing the Board to conclude its affairs. FY 2010 funding is included in the Operating Budget request. The costs shown are an average of direct costs for a biennial licensing period and are included in the FY 2010 budget request.

Travel expenses represent transportation and per diem for the 10 member board and at least 3 staff to meet at least four times each year and to administer licensing examinations as required by statutes.

The program is required to cover costs with licensing fees under AS 08.01.065, and revenue generated by board fees are anticipated tc cover its full operating costs. New funds are not required to implement this bill.

Co-Chair House Finance

Re: HB 85, AELS Sunset
Subj: Testimony in Support

Rep. Stoltze, Rep. Hawker and committee members

I, Paul Whipple, a registered land surveyor am the Vice President of the Bering Straits Regional Housing Authority based in Nome.

I am offering my personal testimony in support of HB 85 and do requested that the committee adopt two amendments to the bill.

A) Landscape Architects – currently the bill does not extend the position of the Landscape Architectural representative. I believe it important to the public that the specialized unique knowledge and experiences of a Landscape Architect be an integral part of the AELS Board. The highly specializes experiences of a Landscape Architect are needed by the board to fully deliberate the issues that come before it.
I suggest that the language contained in SB 114, as a minimum, be incorporated.

B) Prohibit the Altering of Sealed Documents – I encourage the committee to adopt the statute amendment offered by the AELS .
This has been a long festering issue that has plagued all design professions and frequently presents public safety concerns. It is this potential harm to the public that I offer my own personal experience. Prior to working for the Housing Authority I was the General Manager of a Design firm. Approximately 3 years ago a former client altered the Architectural Floor Plans of an 8-plex Apartment Bldg so that he could build it in a different location. Additionally he modified the drawings to relocate a couple of walls and to build a plumbing chase. This may not seem to be a big deal to the casual observer except it did create numerous violations of the fire code. Had my Architect not received a call from a subcontractor bidding the project we may never have become aware of the issues and the project could have been built as altered.
In all reality this amendment will not stop the practice but, together with public education, can prevent some of it from happening.

I appreciate this opportunity to testify and will make myself available during the committee hearing for your questions.

Paul Whipple, RLS

Position paper
REASONING FOR PROPOSED AMENDMENT TO AELS LANGUAGE

Gary LoRusso
Registered Land Surveyor - Alaska
Licensed Land Surveyor - New Hampshire
Associate Real Estate Broker - Alaska

The public relies on the documents produced by Architects, Engineers and Land Surveyors authorized to practice by Alaska Statute. These documents are typically the biggest protection that the public has when involved in Real Estate transactions. The documents used in Real Estate transactions are generally in the form of a graphic representation of structures and/or land boundaries and will include important sets of data that delineate building setbacks, structural and fire safety requirements, land boundaries, locations of public facilities, easements, waste water facilities, drinking water facilities and more. As the cost of real estate increases and the cost to correct or retrofit deficient items increases the likelihood of alteration to these documents has likewise increased. This is a serious violation of the intent of the licensing statutes, the intent being the protection of the public.

In reviewing the existing statutes it is clear that the authors intended to prevent the alteration of documents that are sealed by an Architect, Engineer or Land Surveyor. The authors made it unlawful for any registrant to alter a document created by another registrant. It would be very unusual for registrants to alter each others documents, however, it is unlawful and it should remain unlawful. What the authors failed to consider was the alteration of sealed documents by the people most likely to do so, the person who willfully changes important data on a sealed drawing in order to facilitate a real estate transaction by deceiving the parties involved. This has become a reality more and more and is a larger problem than most people realize. Currently, as the statute is written it is not unlawful for any member of the general public to alter documents created by a registrant authorized under Alaska law to create those drawings.

We have been made increasingly aware of instances where documents have been altered in order to facilitate a real estate

transaction . Examples have been:

- Moving the graphic location of a well out of an easement so as to deceive the lender, purchaser and regulatory authority that the location is in compliance with regulations and law.
- Moving the graphic location of a well away from a septic system so as to deceive the lender, purchaser and regulatory authority that the location is in compliance with regulations and law.
- Changing the distance(s) from structures to property lines so as to deceive the lender, purchaser and regulatory authority that the structure is in compliance with setback regulations.
- Changing (erasing) objects or data on drawings in order to deceive the lender, purchaser and regulatory authority that the non-compliant item(s) does not exist.
- Essential life/safety items have been deleted or altered In order to deceive the purchaser, lender and regulatory authority that all is in compliance.
- Changes are made to structures and the drawings are changed to reflect the layman's interpretations of the location of those changes. Those altered drawings are then submitted to the lender, purchaser and/or regulatory authority as fact complete with the seal of the unsuspecting Architect, Engineer or Land Surveyor.

As values increase or decrease, or, as the economy weakens or strengthens the temptation and likelihood of alterations increases. With our present state of technology it has become increasingly difficult to recognize an alteration when it does occur. The transactions will occur and the unsuspecting purchaser, lender or regulatory authority will not become aware until many years later when new documents are produced and the problem that was "addressed" by alteration then becomes apparent. The cost to correct deficiencies is then born by the unsuspecting public as the perpetrator of the alteration is long gone.

We need to prevent the alteration of sealed documents. The change to the regulations as proposed will provide the legal basis to uphold what the creation of licensing statutes is intended to provide, the protection of the public.

TO: Representative Stoltze
Co-Chair, House Finance
ATTN: John Coan
SUBJ: HB85 written testimony

7 April, 2009

For the record, my name is Boyd J. Brownfield. I am a Professional Engineer and serve as the Chairman, Board of Registration for Architects, Engineers and Land Surveyors (BRAELS) as well as the profession of Landscape Architects which is presently assigned to BRAELS in a temporary, non-voting status.

First, it is my pleasure to offer the following testimony to the House Finance Committee regarding HB 85. I do so in behalf of BRAELS regarding several subjects that are important to the board and essential to the overall success of our statutory charge.

I have reviewed the original bill (sunset extension) and fully concur with the proposed extension of the board to the year 2017.

As chairman I was an addressee in both the draft and the final Legislative Audits. BRAELS concurred with the three final findings and recommendations. I submitted prepared remarks pledging the full support of our board. Recommendation #3 has already been fulfilled by the Office of the Governor. The board now has a full compliment of sitting members.

As previously noted, the profession of Landscape Architects is presently assigned to BRAELS in a temporary, non-voting status. BRAELS supports the continued inclusion of the temporary, non-voting Landscape Architect seat on the board and its inclusion in HB 85.

In addition to the above, BRAELS respectively requests that proposed statute language prohibiting the alteration of sealed drawings under certain circumstances also be included in HB 85.

The proposed language is the subject of the enclosed Briefing Paper prepared by Mr. Harley Hightower, a member of BRAELS (see enclosure #1).

I have also prepared additional testimony in support of the proposed language for your further consideration (see enclosure #2).

Both Mr. Hightower and myself will be attending the April 8, HFIN Hearing, 1:30p via teleconference. I can be reached at (907) 277-0069 and Mr. Hightower at (907) 644-0798. We will be using the (H)FIN teleconference number 1-(888) 295-4546.

In behalf of the BRAELS, I respectively request that the HFIN committee give favorable consideration to these important issues.

Boyd J. Brownfield, PE, Chairman

STATE OF ALASKA
BOARD OF REGISTRATION
FOR ARCHITECTS, ENGINEERS, AND LAND SURVEYORS (AELS)

BRIEFING PAPER
ALTERATIONS OF DOCUMENTS BY UNAUTHORIZED PERSONS

Within the State of Alaska there is common practice where documents prepared and sealed by design professionals are altered by unauthorized individuals. An example of this practice occurs frequently whereby an agency requires an as-built drawing of a site prior to issuance of a permit and requires the drawing to be sealed by a land surveyor. Subsequently changes are made to sites and/or structures to reflect the layman's interpretation of the location of the changes and requirements. The altered drawings are then re-submitted to the authority having jurisdiction, a lender, and/or a purchaser as fact complete with the seal of an unsuspecting design professional.

The consequences of alterations of documents by non-registrants are costly and misleading to the general public who rely on these documents for the protection of health, safety, and welfare Examples of issues created by unauthorized alterations of sealed documents include:

- Altering dimensions indicating distance(s) from structures to property line(s).
- Altering documents by deleting objects or data on drawings that may be non-compliant.
- Essential life/safety issues altered to indicate that a non-compliant condition is compliant.
- Altering the graphic location of a water well to show a proper separation from a septic system or utility easement.

The practice of alterations of documents by unauthorized persons may deceive lenders, purchasers, and/or regulatory agencies and conceal conditions that violate codes and standards. In addition to this practice creating hazards to the health, safety, and welfare of the public a condition is created that exposes unsuspecting registrants to liability and/or legal fees.

The AELS Board, which is charged with protecting the health, safety, and welfare of the public, has become increasingly aware of the problems associated with unauthorized alterations to sealed documents. The issue persists. Therefore the AELS Board recommends the adoption of **Sec. 08.48.281 Prohibited practice** and **Sec. 08.48.291 Violations and penalties,** as revised by the AELS Board as a resolution to this health, safety, welfare issue. The proposed recommended statutes are revised and included hereafter.

Sec. 08.48.281 Prohibited practice. *(a) A person may not practice or offer to practice the profession of architecture, engineering, land surveying, or landscape architecture in the state, or use in connection with the person's name or otherwise assume or advertise a title or description tending to convey the impression that the person is an architect, an engineer, a land surveyor, or a landscape architect unless the person has been registered under the provisions of this chapter or is a person to whom these provisions do not apply, or, in the case of a corporation, limited liability company, or limited liability partnership, unless it has been authorized under this chapter.*

(b) Notwithstanding (a) of this section, this chapter does not prohibit the practice of landscape architecture by a person who is not registered to practice landscape architecture if the services being performed by the person are within the scope of practice authorized by another license that is held by the person.

(c) It is unlawful for any person not registered under this chapter to alter, or contribute to the altering of, any document that has been sealed by a registrant authorized under this chapter.

Sec. 08.48.291. Violations and penalties. *A person who practices or offers to practice architecture, engineering, land surveying, or landscape architecture in the state without being registered or authorized to practice in accordance with the provisions of this chapter, or a person not registered under this chapter who alters or contributes to the altering of any document that has been sealed by a registrant authorized under this chapter, or a person presenting or attempting to use the certificate or the seal of another, or a person who gives false or forged evidence of any kind to the board or to a member of the board in obtaining or attempting to obtain a certificate, or a person who impersonates a registrant, or a person who uses or attempts to use an expired or revoked or nonexistent certificate, knowing of the certificate's status, or a person who falsely claims to be registered and authorized to practice under this chapter, or a person who violates any of the provisions of this chapter, is guilty of a misdemeanor and upon conviction is punishable by a fine of not more than $10,000, or by imprisonment for not more than one year, or by both.*

Note: Text in red indicates additions to existing statute.

ENCLOSURE #1

TESTIMONY
Alteration of Alaska Statute, Sec. 8.48.281 and Sec. 8.48.291
(by Boyd Brownfield, PE)

It is becoming more and more a common practice that government agencies at all levels and private institutions such as banking and loan institutions, owners and contractors who are non-registrants, to informally alter existing documents previously sealed by a professional registrant. Most frequently alterations involve existing boundary and as-built surveys as well as architectural and design drawings. The non-registrants freely alter the original work to meet new or revised concepts/projects. The altered documents are ultimately used in conjunction with financial or construction applications.

As an example, the alteration of an as-built for a building application was made by a non-registrant with the assistance of an agency. It was subsequently disclosed that the altered documents created a zoning encroachment which clearly impacted the interests of the affected public.

In another, an existing as-built was altered to accommodate a real estate transaction. Later during construction it was discovered that an existing septic system was encroaching on a neighboring property. The initial reaction was to lay blame on the registrant who sealed the original as-built. Upon further investigation it was found that one of the individuals involved in the real estate transaction had used "white-out" to mask the problem.

In the past, the board has attempted to curtail such activities through formal correspondence but have been largely challenged and/or ignored by the respondent. While our statutes governing the conduct of professional registrants are clearly addressed, we contribute the lack of conformance by non-registered participants to be partially a lack of clarity within our statutes.

The continued practice of non-registrants informally altering sealed documents clearly represents a potential threat to the health, safety and welfare of our general public.

The board, therefore, feels strongly that the present language of Sec 8.48.281 and Sec 8.48.291 lacks due clarity to sanctions prohibiting non-registered persons from altering, or contributing to the altering of documents previously sealed by proper registrants.

It is with this background that the AELS Board seeks a change to Sec. 08.48.281 and Sec. 08.48.291 to add language as reflected in the AELS Board Briefing Paper entitled, **"ALTERATIONS OF DOCUMENTS BY UNAUTHORIZED PERSONS".**

ENCLOSURE #2

ALASKA STATE LEGISLATURE

LEGISLATIVE BUDGET AND AUDIT COMMITTEE

Division of Legislative Audit

P.O. Box 113300
Juneau, AK 99811-3300

September 22, 2008

Members of the Legislative Budget
and Audit Committee:

In accordance with the provisions of Title 24 and Title 44 of the Alaska Statutes, sunset legislation, we have reviewed the activities of the State Board of Registration for Architects, Engineers, and Land Surveyors. The attached report is submitted for your review.

DEPARTMENT OF COMMERCE, COMMUNITY
AND ECONOMIC DEVELOPMENT
STATE BOARD OF REGISTRATION FOR ARCHITECTS,
ENGINEERS, AND LAND SURVEYORS

September 22, 2008

Audit Control Number
08-20058-08

This review examines the activities of the State Board of Registration for Architects, Engineers, and Land Surveyors to determine if there is a demonstrated need for its continued existence. Currently, under AS 08.03.010(c)(3), the State Board of Registration for Architects, Engineers, and Land Surveyors is scheduled to terminate on June 30, 2009. We recommend that the legislature extend the board's termination date to June 30, 2017.

The audit was conducted in accordance with generally accepted government audit standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives. Fieldwork procedures utilized in the course of developing the findings and discussion presented in this report are discussed in the Objectives, Scope, and Methodology.

Pat Davidson, CPA
Legislative Auditor

Board of Registration for Architects, Engineers, and Land Surveyors	25

OBJECTIVES, SCOPE, AND METHODOLOGY

In accordance with Titles 24 and 44 of the Alaska Statutes, we have reviewed the activities of the State Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS or board) to determine if there is a demonstrated public need for its continued existence and if it has been operating in an efficient and effective manner.

As required by AS 44.66.050(a), this report shall be considered by the committee of reference during the legislative oversight process in determining whether BRAELS shall be continued. Currently, AS 08.03.010(c)(3) states that the board will terminate on June 30, 2009. If the legislature does not extend the termination date for the board, BRAELS will have one year to conclude its administrative operations.

Objectives

The three central, interrelated objectives of our report are:

1. To determine if the termination date of the board should be extended.
2. To determine if the board is operating in the public's interest.
3. To determine if the board has exercised appropriate regulatory oversight of architects, engineers, land surveyors, and landscape architects.

Scope

The assessment of operations and performance of the board was based on criteria set out in AS 44.66.050(c). Criteria set out in this statute relates to the determination of a demonstrated public need for the board. We reviewed the board's activities for FY 05 through FY 08.

Methodology

The major areas of our review were board proceedings, licensing, and complaint investigation. During the course of our audit we:

- Reviewed applicable statutes and regulations.
- Tested for compliance with statutes and regulations related to the State Board of Registration for Architects, Engineers, and Land Surveyors.
- Reviewed meeting minutes of the board.
- Reviewed and tested licensing files for compliance with statutory and regulatory requirements.
- Reviewed and analyzed investigation files.
- Reviewed annual reports issued by the board.
- Corresponded with the Department of Administration, Division of Personnel, the Equal Employment Opportunity Commission, the Human Rights Commission, the Office of

Victim's Rights, and the State Ombudsman's Office regarding complaints against BRAELS.

- Reviewed the reading and correspondence files maintained with the Department of Commerce, Community, and Economic Development's Division of Corporations, Business, and Professional Licensing.
- Interviewed employees of the Division of Corporations, Business, and Professional Licensing and BRAELS board members.

ORGANIZATION AND FUNCTION

The State Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS or board) is a regulatory board consisting of 10 members appointed by the governor. The board consists of two civil engineers, two land surveyors, one mining engineer, one electrical or mechanical engineer, one engineer from another branch of the profession of engineering, two architects, and one public member[1].

Alaska Statute requires each board member to have been a resident of the State for three consecutive years immediately preceding an appointment to BRAELS.

Additionally, except for the public member, board members must be registered and have a minimum of five years of professional practice in their field.

Exhibit 1

STATE BOARD OF REGISTRATION FOR ARCHITECTS, ENGINEERS, AND LAND SURVEYORS
(As of June 30, 2008)

Professional Members
Boyd Brownfield, Chair, Civil Engineer
Craig Fredeen, Vice Chair, Mechanical Engineer
Mark Morris, Secretary, Electrical Engineer
Charles Leet, Civil Engineer
Clifford Baker, Land Surveyor
Richard Heieren, Land Surveyor
Daniel Walsh, Mining Engineer
Harley Hightower, Architect
Burdett Lent, Landscape Architect (non-voting)
Vacant, Architect

Public Member
Vacant

Alaska Statutes 08.48.101 and 08.48.111 establish the powers of the board. They include adopting regulations for:

1. Describing the contents, conducting, and establishing a minimum score for passing examinations.
2. Establishing bylaws governing its meetings and activities.
3. Publishing a code of ethics or professional conduct for those persons regulated by the board.
4. Establishing continuing education requirements for persons regulated by the board.

The board may issue registrations to architects, engineers, land surveyors, and landscape architects who meet the standards of education and training determined to be necessary by the board. In addition to issuing new or renewal registrations, the board may also suspend, refuse to renew, or revoke registrations.

By statute, the Department of Commerce, Community, and Economic Development's, Division of Corporations, Business, and Professional Licensing (division) provides administrative support to the board. Administrative support is carried out by the board's

[1] In August 2007, the board voted to introduce legislation to make the landscape architect representative a full voting member and increase the board to 11 members. This legislation was introduced in the 2007-2008 legislative session. The result was unsuccessful and legislation will again be introduced in the 2008 – 2009 legislative session. Currently, the Landscape Architect seat is non-voting.

Executive Administrator and Licensing Examiner and the division's Office of Consumer Affairs and Investigations.

Administrative support includes budgetary services and functions such as collecting fees, maintaining files, receiving application forms, and publishing notices of examinations and meetings.

AS 08.01.087 empowers the division with the authority to act on its own initiative or in response to a complaint. The division may:

1. Conduct an investigation if it appears a person is engaged or about to engage in a prohibited professional practice.
2. Bring an action in Superior Court to enjoin the act.
3. Examine the books and records of a registrant or an individual engaged in practices regulated by the board.
4. Issue subpoenas for the attendance of witnesses and records.

REPORT CONCLUSIONS

Under AS 08.03.010(c)(3), the Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS or board) will terminate on June 30, 2009. If the legislature does not take action to extend the board's termination date, AS 08.03.020 provides that the board will have one year in which to conclude its administrative operations.

In our opinion, the termination date for the board should be extended. BRAELS serves a public purpose and has demonstrated an ability to conduct its business in a satisfactory manner. The registration of qualified architects, engineers, land surveyors, and landscape architects benefits the public's health, safety, and welfare. We recommend that the legislature extend the termination date of the board until June 30, 2017.

(Intentionally left blank)

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

The Department of Commerce, Community, and Economic Development Division of Corporations, Business, and Professional Licensing, in conjunction with the State Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS), should review registration fees as provided by statute and consider decreasing fees.

BRAELS has a significant cumulative surplus of revenues. The FY 08 surplus income is almost twice the four year average of expenditures. Additionally, the division has not reviewed BRAELS registration rates since 2005.

Based on the division's 2005 review, BRAELS registration fees were increased for the 2006-2007 biennium registration period. However, the division's review was flawed due to understated revenue information. The division neglected to include over half a million dollars in registration fees paid through the internet in its analysis[2].

AS 08.01.065(c) states that:

> *...the department shall establish fee levels under (a) of this section so that the total amount of fees collected for an occupation approximately equals the actual regulatory costs for the occupation. The department shall annually review each fee level to determine whether the regulatory costs of each occupation are approximately equal to fee collections related to that occupation.*

The division was unable to provide an explanation of BRAELS's need for the cumulative surplus of excess revenue from registration fees. Without the required annual review of registration fee levels, it is likely that the board will continue to accumulate revenue in excess of its regulatory costs.

We recommend the division, in conjunction with the board, review registration fees and regulatory expenditures as required by statute and determine whether a fee decrease is necessary to reduce BRAELS's current surplus. Further, we recommend that the division perform the annual review of fee levels as defined in state statute.

[2] Specifically, revenues collected electronically over the internet were missing from the rate review. These missing revenues total: FY 02 (renewal year) $230,283, FY 03 $780, and FY 04 (renewal year) $435,318.

Recommendation No. 2

The director of Corporations, Business, and Professional Licensing should ensure that BRAELS registrants that are Corporations, Limited Liability Companies (LLC's), and Limited Liability Partnerships (LLP's) are licensed in accordance with state regulations.

In addition to registering individuals, the board also registers architects, engineer, land surveyor, and landscape architect corporations, LLC's and LLP's. State regulation[3] requires that:

1. Corporations, LLPs or LLCs designate an individual currently registered in Alaska as the responsible person for each field of practice, and;
2. The entity must provide full authority to the designated individual to make all final practice decisions on behalf of the corporation, LLC, or LLP.

In FY 08, over 35% of corporations, LLC's, and LLP's registered by division staff were registered without the required documentation showing the acceptance by the individual designated by the entity as the responsible person for each field of practice.

12 AAC 36.135(7) states that:

> *...a certified statement on a form provided by the board, stating that each licensee designated in responsible charge for each branch of practice acknowledges and agrees to that designation by the corporation, limited liability company, or limited liability partnership; the statement must include each responsible charge licensee's (A) state registration number; (B) registration expiration date; (C) professional seal; and (D) signature.*

We recommend that the director of Corporations, Business, and Professional Licensing obtain any missing certified statement of acceptance, from the responsible person, for all corporations, LLCs and LLPs currently licensed. The director should also have registration procedures corrected to ensure all required documentation is obtained prior to registering any corporations, LLCs or LLPs.

Recommendation No. 3

The Office of the Governor should fill vacant seats on the State Board of Registration for Architects, Engineers, and Land Surveyors in a timely manner.

For the past nine months, the board has not been in a position to serve in the best interest of the public due to board vacancies. The public member seat has been vacant since December 5, 2007 and an architect seat vacant since March 1, 2008.

[3] 12 AAC 36.135(3).

Alaska Statute 08.48.011(b) states that the board consists of ten members appointed by the governor having the qualifications as set out in AS 08.48.031. The board consists of two civil engineers, two land surveyors, one mining engineer, one electrical or mechanical engineer, one engineer from another branch of the profession of engineering, two architects, and one public member.

Staff turnover in the Office of Boards and Commissions has negatively impacted the Governor's ability to make timely appointments to the State Board of Registration for Architects, Engineers, and Land Surveyors.

The public has not been represented by a seat on the board for the past three meetings; architects have not been fully represented for the past two meetings.

We recommend that the Office of the Governor fill vacant seats on the State Board of Registration for Architects, Engineers, and Land Surveyors in a timely manner.

(Intentionally left blank)

ANALYSIS OF PUBLIC NEED

The following analyses of board activities relate to the public need factors defined in AS 44.66.050(c). These analyses are not intended to be comprehensive, but address those areas we were able to cover within the scope of our review.

Determine the extent to which the board, commission, or program has operated in the public interest.

The State Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS or board), through its registration of architects, engineers, land surveyors and landscape architects, has presented competent professionals to the public. There is a continued public need for this board because of the professional expertise required to practice the varied professions within its scope. The registering of applicants who meet the required qualifications is necessary to protect the public's safety, health, and welfare.

The board is responsible for adopting regulations to ensure only persons with the proper qualifications are admitted into the profession. The board disciplines, suspends, or revokes registrations of practitioners who have committed acts in violation of state law. Registrants are required to stamp final drawings, specifications, surveys, plats, plates, reports, and similar documents with a seal bearing the registrant's name, registration number, and the profession for which they are registered. By affixing this seal and signing the documents, the registrant certifies that these documents were prepared by or under the registrant's direct supervision, and the registrant has met the minimum standard set to protect public safety, health, and welfare.

Determine the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices that it has adopted, and any other matter, including budgetary, resource, and personnel matters.

The board receives its primary revenue from registration and renewal fees. Renewals are conducted on a biennial basis creating a two-year cycle in board revenues. The board has had an ending cumulative surplus since FY 06, see Exhibit 2 on the following page.

BRAELS registration fees have not been reviewed since October 2005 when fees were increased $100. This increase in registration fees was based on understated revenue information. We recommended that the division, using corrected revenue information, review registration rates and consider changes to fee levels to reduce this cumulative surplus in income, see Recommendation No. 1.

Exhibit 2

State Board of Registration for Architects, Engineers, and Land Surveyors
Schedule of License Revenue and Expenditures
As of June 30, 2008
(Unaudited)

	FY 05	FY 06	FY 07	FY 08
Regular Revenue	$170,065	$870,474	$185,778	$ 903,769
Online Revenue	1	890,983	4,425	864,941
Total Revenues	170,066	1,761,457	190,203	1,768,710
Direct Expenditures				
Personal Services	268,313	286,842	242,015	199,898
Travel	36,362	59,818	41,040	33,863
Services	146,170	176,596	100,339	147,836
Commodities	1,472	1,845	1,271	1,456
Total Direct Expenditures	452,317	525,101	384,665	383,053
Administrative Indirect Costs	303,021	273,258	353,890	310,652
Total Expenditures	755,338	798,359	738,555	693,705
Annual Revenues over (under) Expenditures	(585,272)	963,098	(548,352)	1,075,005
Beginning Cumulative Surplus (Deficit)	469,600	(115,672)	847,426	299,074
Ending Cumulative Surplus (Deficit)	$ (115,672)	$ 847,426	$ 299,074	$ 1,374,079

Determine the extent to which the board, commission, or agency has recommended statutory changes that are generally of benefit to the public interest.

In FY 08 the board supported SB 263 which was passed into law (Ch. 66, SLA 2005) on June 6, 2008. This law provided a BRAELS registration exemption for persons already authorized by the Department of Public Safety who are engaged in the design of fire detection and suppression systems. Additionally, this law allowed that if a mining engineer who qualifies for appointment to the board and is interested in serving on the board is not available, the governor may appoint a petroleum or chemical engineer to the seat designated for a mining engineer.

The board has also worked to make needed revisions to BRAELS regulations. Significant changes to regulations include:

- 12 AAC 36.061(a)(2) – Updating the National Council of Architectural Registration Boards' education standards.
- 12 AAC 36.067 – Changing the computation of qualifying experience days for admission to the examination.
- 12 AAC 36.068 – Updating landscape architect mentoring regulations.
- 12 AAC 36.100 – Mandating an applicant seeking registration by examination pass a jurisprudence questionnaire, with the exception of land surveyors.
- 12 AAC 36.910 – Enacting stricter policies to board member absences.
- 12 AAC 36.510 – Changing the continuing education requirements for architects, engineers, and landscape architects.

Determine the extent to which the board, commission, or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service that it has provided.

Board meeting dates, times and locations are published both on the State's Online Public Notice system and in the Anchorage Daily News. In addition, board members extend meeting invitations to peers and to the public, and promote use of the BRAELS ListServ[4] function. Meetings are rotated between the State's three largest cities and time was provided at every meeting for public comment.

Online public notice was not given for the board's November 17, 2006 and May 17, 2007 meetings. Additionally, public notice was only given ten days in advance of the August 9, 2007 meeting, instead of the required 15 days notice. These omissions were caused by staff turnover in the Department of Commerce, Community, and Economic Development's, Division of Corporations, Business, and Professional Licensing publications technician position.

Determine the extent to which the board, commission, or agency has encouraged public participation in the making of its regulations and decisions.

Meetings were sufficiently advertised; time was allotted in the agenda of each meeting for public discussion; and often, public members with knowledge in a specific field were sought to share their insights. Public notices of proposed regulations are published on the Alaska State website, and circulated to architects, engineers, land surveyors and landscape architects in professional trade journals, public notice advertisements, and direct mail correspondence with the division. The board reviews and considers all public correspondence at their meetings.

[4] ListServ is the board's electronic mailing list. Members receive agendas, minutes and other board-related materials.

Determine the efficiency with which public inquiries or complaints regarding the activities of the board, commission, or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of victims' rights or the office of the ombudsman have been processed and resolved.

Complaints

No complaints against the board were reported to the State Department of Administration's Division of Personnel, the Equal Employment Opportunity Commission, the Human Rights Commission, or the Office of Victim's Rights.

The State Ombudsman received four complaints against the board from FY 05 to FY 08. Three were declined based on a lack of jurisdiction and the fourth involved providing oral advice to the complainant. Each of these cases was closed the same day they were received.

We received a complaint regarding possibly inappropriate communications between the board and the administrative law judge (ALJ) while the board was meeting in executive session. In the cases of professional occupation boards, the dispute before an ALJ would be between the complainant and the attorney general's office. Since it is the board that decides to accept or reject the ALJ's decision, the board itself is not a party to the dispute.

Typically when transmitting their decision, the ALJ will offer the board an opportunity to meet and answer questions that the board might have. If the board meets with the ALJ as part of its deliberation regarding a possible licensing action, this would be done in executive session. This process appears reasonable given the relative duties and responsibilities of both the board and the ALJ.

Registrant Investigations

The board sets goals and then develops objectives in order to meet these goals. Two objectives related to investigations were developed and accomplished. These objectives included working to reduce the backlog of enforcement cases and having active participation in investigations. A special board committee was created to work with investigators on technical issues and expedite cases. The length of time between when cases opened and closed and the amount of cases open have significantly declined during the last four years.

From the period of July 1, 2005 through June 19, 2008, 245 investigation cases were open or opened with the Division of Corporations, Business and Professional Licensing's Office of Consumer Affairs and Investigations (OCAI)[5]. Types of cases are summarized on the next page.

[5] The investigations unit in the Department of Commerce, Community and Economic Development's Division of Corporations, Business, and Professional Licensing was reorganized effective July 1, 2008 as the Office of Consumer Affairs and Investigations.

- Unlicensed Practice/Activity (94)
- Violation of Licensing Regulations (65)
- Negligence (27)
- Practice Beyond Scope (17)
- Violating Professional Ethics (11)
- License Application Practice (8)
- Incompetence (5)
- Fraud/Misrepresentation (5)
- Other (4)
- Violation of Agreement (3)
- Contested License Denial (2)
- Action in Another State (2)
- Supervision (1)
- Malpractice (1)

Of these 245 cases open or opened, 230 were closed in an average of 2.5 months time. Exhibit 3 identifies the actions taken in these closed cases:

Exhibit 3

Case Closure Summary July 1, 2005 - June 19, 2008

Disposition of Closed Cases	Number of Cases
Advisement Letter	113
Compliance	57
No Action - No Violation, Unfounded or Insufficient Evidence	47
Other	6
License Action	4
Incomplete Complaint	2
Director Caseload Reduction	1

Of the remaining 15 cases open, 14 cases were assigned to OCAI and one case to the Office of Administrative Hearings. The average time these 14 cases have been opened with OCAI is 4.6 months and all have a case priority level of 3[6].

OCAI is effectively investigating cases, and the board has operated efficiently by taking necessary enforcement actions. These board actions were both fair and objective.

Determine the extent to which a board or commission that regulates entry into an occupation or profession has presented qualified applicants to serve the public.

The board registers architects, engineers, land surveyors, or landscape architects either by

[6] Case Priority levels are defined as:

Level 1 - Incident represents an immediate danger to public,

Level 2 - Incidents which by the severity of their nature dictate a high priority,

Level 3 - Incidents that are less serious in nature and do not appear to constitute immediate or severe pubic danger or serious damages,

Level 4 - Incidents involving failure to comply with statutes or regulations which are discovered through the course of proactive enforcement on the part of the Investigative Unit, but do not meet the criteria of priority 1 - 3. This type of enforcement can only occur when manpower and caseload allow.

examination or by using past performance records. Registration using past performance records is more commonly referred to as registration by comity. Each applicant is required to satisfy the requirements listed in State regulations for registration. In addition, architect, engineer, and landscape architect applicants are required to complete a board-approved university level course in arctic engineering. The registration application process appears to be reasonable and appropriate. We found no instances of unqualified applicants being registered.

In 35% of licenses issued to corporations, limited liability companies, and limited liability partnerships, the certified statement acknowledging and agreeing with the responsible party designation had not been obtained by the division. Obtaining this statement is required by regulation,[7] see Recommendation No. 2.

The board implemented continuing education (CE) requirements for Land Surveyors during the 2007 renewal period. Architects, engineers, and landscape architects will be required to fulfill CE requirements for the 2009 renewal period. Registrants fulfill CE requirements on the honor system and a sample is audited by division staff for compliance. Due to a procedural error, division staff only audited 7% sample of registrants for compliance instead of the 10% defined in regulations.

Concerns surfaced in FY 08 regarding the board's comity policy with Canada, specifically, that the Board waived the fundamentals of engineering examination (FE) if a Canadian engineer applicant had at least 5 years of experience.

The board's position is that Canada's education program for engineers differs from that of the United States (US) and therefore comity regulations[8] for Canadian engineers differ. As explained by a board member, in the US, engineering candidates receive a bachelor's degree and then sit for the FE exam. The FE exam tests engineering basics. After at least four years of work experience an US applicant sits for the Practice of Engineering (PE) exam prior to being registered.

In Canada, engineering candidates go to school longer and are subject to a rigorous mentoring program. These Canadian schools and mentoring programs' curriculums exceed what is tested on the US FE exam, and therefore the exam is waived. Canadian engineers applying for practice in the US are still required to pass the US PE exam. These regulations appear reasonable and a review of the 245 investigations shows no licensing actions taken against Alaskan registered engineers residing in Canada.

The exhibit on the following page summarizes new registrations issued by the board from FY 05 to FY 08.

[7] 12 AAC 36.135
[8] 12 AAC 36.105

Exhibit 4

New Licenses or Permits Issued (Exclusive of Renewals)	FY 05	FY 06	FY 07	FY 08	Current License Holders as of June 30, 2008

Certificate of Authority - LLC	12	15	27	14	90
Certificate of Authority - LLP	0	1	1	0	3

Determine the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission, or agency to its own activities and the area of activity or interest.

The board is in compliance with State personnel practices, including affirmative action in qualifying applicants. From FY 05 to FY 08, the board did not deny an applicant registration based on personal attributes.

Determine the extent to which statutory, regulatory, budgeting, or other changes are necessary to enable the agency, board, or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

Statutory

In August 2007, the board voted to support introduction of legislation to make the landscape architect representative a full voting member. The legislation introduced to revise the statute during the 2007/2008 legislative session was unsuccessful. Currently, board members are working with the Alaska Professional Design Council to craft new legislation to be introduced during the 2008/2009 legislative session. The board anticipates that the landscape architect representative will be a full voting member by spring 2009.

Regulatory

In May 2007, the board voted to begin registering structural, environmental, and fire protection engineers. The special committee assigned to studying additional engineering specialties for registering is now addressing issues such as regulation changes, definitions,

and grandfathering of civil engineers. The board anticipates having these disciplines registered by the end of FY 09.

Other Changes

For the past nine months, the board has been hampered in its work due to board vacancies. The public member seat has been vacant since December 05, 2007 and an architect seat vacant since March 1, 2008; see Recommendation No. 3.

Determine the extent to which the board, commission, or agency has effectively attained its objectives and purposes and the efficiency with which the board, commission, or agency has operated.

BRAELS's mission is to protect the public health, safety, and welfare through the regulation of the practice of architecture, engineering, land surveying, and landscape architecture by:

- Ensuring that those entering these practices meet minimum standards of competency, and maintain such standards during their practice;
- Requiring registration to practice in the State of Alaska; and
- Enforcing both the registration and competency requirements in a fair and uniform manner.

We reviewed the board's goals and objectives established to achieve this mission from FY 05 to FY 08. These goals and related objectives were aligned with the board's mission and they have either been met by the board or the board is in the process of attaining them.

Major goals and objectives the board has successfully met include:

- Implemented continuing education requirements for architects, engineers, land surveyors and landscape architects.
- Reviewed the Arctic Engineering course to ensure all materials used to establish competency in professions are appropriate.
- Evaluated administrative process and staffing functions to ensure effective use of human resources.
- Continually updated the board's website with new and changing information.
- Attended architect, engineer, land surveyor, and landscape architect zone and national meetings.
- Encouraged board members to assume leadership positions in national organizations.

Determine the extent to which the board, commission, or agency duplicates the activities of another governmental agency or the private sector.

BRAELS is the only such board that registers, investigates, and enforces continuing education requirements for architects, engineers, land surveyors and landscape architects in Alaska. BRAELS registrants have the option to affiliate with state and national organizations. We reviewed numerous state and national organizations and have found none that duplicate the efforts of the board.

Dear Ms. Davidson:

This letter is in response to your September 22, 2008 confidential preliminary audit report on the State Board of Registration for Architects, Engineers and Land Surveyors.

Recommendation No. 4

The Office of the Governor should fill vacant seats on the State Board of Registration for Architects, Engineers and Land Surveyors in a timely manner.

The Office of the Governor concurs with this recommendation. I appreciate your observation that turnover in the Boards and Commissions office may have played a role in the delay. I am pleased to report that the Governor recently selected the public member for the board, however, we are still working on identifying an architect to fill the remaining vacancy. We find it challenging to find volunteers from the various professions who are willing and able to devote the time necessary to serve on the licensing boards. We will continue to make every effort to fill vacant positions in a timely manner.

If you need additional information, please contact me at 269-7450.

Sincerely,

Frank Bailey, Director
Boards and Commissions

LEGISLATIVE AUDIT

Ms. Pat Davidson, CPA
Legislative Auditor
Legislative Budget and Audit Committee
Division of Legislative Audit
P.O. Box 113300
Juneau, AK 99811

Dear Ms. Davidson,

Re: Audit Report, CAN 08-20058-08
Board of Registration for Architects, Engineers and Land Surveyors

Thank you for allowing us to comment on the Audit Report of the State Board of Registration for Architect, Engineers and Land Surveyors.

We concur with your audit findings and recommendations that –

Recommendation No. 1: The Department of Commerce, Community, and Economic Development, Division of Corporations, Business, and Professional Licensing, in conjunction with the State Board of Registration for Architects, Engineers, and Land Surveyors (BRAELS), should review registration fees as provided by statute and consider decreasing fees.

We fully concur with this recommendation and will take immediate action to reassess expenditure and revenue data, and calculate new fee proposals to utilize the surplus of excess revenue. Staff turnover in the Division and miscommunications with the department's Fiscal staff have unfortunately caused this negative impact on incorrect fee assessments. The new fee assessments will be ready for implementation at the next license renewal cycle in December 2009.

Recommendation No. 2: The director of Corporations, Business, and Professional Licensing should ensure that BRAELS registrants that are Corporations, Limited Liability Companies (LLC's), and Limited Liability Partnerships (LLP's) are licensed in accordance with state regulations.

P.O. Box 110800, - 23 -Alaska 99811-0800
Telephone: (907) 465-2500 Fax: (907) 465-5442 Text Telephone: (907) 465-5437
Email: questions@commerce.state.ak.us Website: http://www.commerce.state.ak.us/

We concur with your recommendation. Staff has already initiated the process of reviewing files to obtain a "responsible charge" statement for each business. Since January 2008, there were 50 corporate authorizations issued. Of the 50, seventeen failed to contain the responsible charge statement or a copy of the seal of the responsible charge individual. Attempts to obtain the missing information are currently in progress.

Another item worth mentioning is while many of the files failed to contain a "responsible charge form" as required by regulation, the files do contain correspondence identifying or verifying the designation of the responsible charge individual. The department will ensure procedures are followed to satisfy regulation 12 AAC 36.135(7).

Recommendation No. 3: The Office of the Governor should fill vacant seats on the State Board of Registration for Architects, Engineers, and Land Surveyors in a timely manner.

We concur with this recommendation.

Thank you again for the opportunity to comment on your audit findings.

Sincerely,

LEGISLATIVE AUDIT

Dear Pat:

I have reviewed the "CONFIDENTIAL" preliminary audit report on:

Department of Commerce, Community, and Economic Development, State Board of Registration for Architects, Engineers and Land Surveyors, September 22, 2008

The Board agrees with the contents and substance of your Preliminary Audit Report dated September, 2008, most notably the three "FINDINGS AND RECOMMENDATIONS" contained therein.

It is further noted that the Preliminary Audit Report removed Recommendation number three of four recommendations contained in an earlier "Management Letter No. 1", State Board of Registration for Architects, Engineers, and Land Surveyors" dated September 9, 2008.

The board will work closely with our divisional staff to bring the recommendations to closure as follows:

- RECOMMENDATION #1. The board will avail itself to and cooperate with our division's budgeting and accounting activities to review registration fees and make appropriate recommendations as provided by statute.

- RECOMMENDATION #2. The board will work closely with our investigative support, as appropriate, to bring closure to those corporations, LLC's and LLP's who are operating without proper documentation and to correct procedures that will ensure the process is complete upon original application.

- RECOMMENDATION #3. The board will continue to emphasize the importance of fielding a complete representation of professionals as defined by statute/regulation. It is noted that, after an extended time without a Public Member, the board has recently received a replacement. Our board needs only to fill an Architect seat.

ANALYSIS: *(Attach a separate page if necessary)*

This bill extends the Board of Veterinary Examiners to June 30, 2017. In accordance with AS 08.03.020 funding would extend one year following the termination date allowing the Board to conclude its affairs. The FY 2010 funding is included in the Operating Budget request and the costs shown are an average of direct costs for a biennial licensing period.

Travel expenses represent transportation and per diem for the 5 member board and 2 staff to meet at least 3 times each year and to administer licensing examinations as required by AS 08.98.040.

The program is required to cover costs with licensing fees under AS 08.01.065, and revenue generated by board fees are anticipated to cover its full operating costs. New funds are not required to implement this bill.

HOUSE BILL NO. 86

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE LABOR AND COMMERCE COMMITTEE

Introduced: 1/26/08
Referred: Labor and Commerce, Finance

A BILL

FOR AN ACT ENTITLED

"An Act extending the termination date of the Board of Veterinary Examiners; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 08.03.010(c)(21) is amended to read:

(21) Board of Veterinary Examiners (AS 08.98.010) - June 30, **2017** [2009];

*** Sec. 2.** This Act takes effect immediately under AS 01.10.070(c).

Division of Legislative Audit

Audit Digest #08-20059-08

SUMMARY OF: A Sunset Review of the Department of Commerce, Community, and Economic Development, Board of Veterinary Examiners.

PURPOSE OF THE REPORT

In accordance with Title 24 and Title 44 of the Alaska Statutes, sunset legislation, we have reviewed the activities of the Board of Veterinary Examiners to determine if there is a demonstrated public need for the its continued existence and if it has been operating in an efficient and effective manner. As required by AS 44.66.050(a), this report shall be considered by the committee of reference during the legislative oversight process in determining whether the board should continue to exist.

REPORT CONCLUSIONS

Under AS 08.03.010(c)(21), the Board of Veterinary Examiners (BVE or board) will terminate on June 30, 2009. If the legislature does not take action to extend the board's termination date, AS 08.03.020 provides that the board will have one year in which to conclude its administrative operations.

The regulation and licensing of veterinarians and veterinary technicians benefits the public. BVE has demonstrated an ability to conduct its affairs in an efficient manner. The board continues to propose changes to regulations to improve the effectiveness of the board and ensure that veterinarians and veterinarian technicians licensed in the State of Alaska are competent and capable of maintaining the integrity of the profession.

In our opinion, the termination date of Board of the Veterinary Examiners should be extended to June 30, 2017.

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

1. The Department of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing, in conjunction with the Board of Veterinary Examiners, should review licensing fees as provided by statute and consider decreasing fees.

2. The Office of the Governor should fill vacant seats on the Board of Veterinary Examiners in a timely manner.

Rep. Bob Buch

Sponsor Statement
House Bill 86

An act extending the termination date of the Board of Veterinary Examiners; and providing for an effective date.

HB 86 extends the termination date of the Board of Veterinary Examiners (BVE). Currently the board will sunset on June 30, 2009. HB 86 extends this date by eight years, to June 30, 2017.

It is the opinion of the auditor that *"BVE has demonstrated an ability to conduct its affairs in an efficient manner. The board continues to propose changes to regulations to improve the effectiveness of the board and ensure that veterinarians and veterinarian technicians licensed in the State of Alaska are competent and capable of maintaining the integrity of the profession."*

I encourage all members to review the Legislative Audit report.

Through the efforts of the BVE our livestock and pets are afforded quality health care by competent and capable veterinarians and veterinarian technicians.

I urge your support of this bill.

Members of the Legislative Budget
and Audit Committee:

In accordance with the provisions of Title 24 and Title 44 of the Alaska Statutes (sunset legislation), we have reviewed the activities of the Board of Veterinary Examiners. The attached report is submitted for your review.

DEPARTMENT OF COMMERCE, COMMUNITY,
AND ECONOMIC DEVELOPMENT
BOARD OF VETERINARY EXAMINERS

September 22, 2008

Audit Control Number
08-20059-08

This review examines the activities of the Board of Veterinary Examiners to determine if there is a demonstrated public need for its continued existence. Under AS 08.03.010(c)(21), the Board of Veterinary Examiners is currently scheduled to terminate June 30, 2009. We recommend the legislature extended the board's termination date to June 30, 2017.

The audit was conducted in accordance with generally accepted government audit standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives. Fieldwork procedures utilized in the course of developing the findings and discussion presented in this report are discussed in the Objectives, Scope, and Methodology.

Pat Davidson, CPA
Legislative Auditor

OBJECTIVES, SCOPE, AND METHODOLOGY

In accordance with Titles 24 and 44 of the Alaska Statutes, we have reviewed the activities of the Board of Veterinary Examiners (BVE or board) to determine if there is a demonstrated public need for its continued existence and if it has been operating in an efficient and effective manner.

As required by AS 44.66.050(a), this report shall be considered by the committee of reference during the legislative oversight process in determining whether BVE shall be continued. Currently, AS 08.03.010(c)(21) states that the board will terminate on June 30, 2009. If the legislature does not extend the termination date for the board, BVE will have one year to conclude its administrative operations.

Objectives

The three central, interrelated objectives of our report are:

1. To determine if the termination date of the board should be extended

2. To determine if the board is operating in the public's interest

3. To determine if the board has exercised appropriate regulatory oversight of licensed veterinarians and veterinary technicians.

Scope

The assessment of operations and performance of the board was based on criteria set out in AS 44.66.050(c). Criteria set out in this statute relates to the determination of a demonstrated public need for the board. We reviewed the board's activities for FY 05 through FY 08.

Methodology

The major areas of our review were board proceedings, licensing, and complaint investigation. During the course of our audit we:

- Reviewed and evaluated applicable statutes and regulations related to the licensing of veterinarians and veterinarian technicians.
- Reviewed the minutes of BVE meetings.
- Reviewed the annual reports issued by the board.
- Analyzed the complaints filed with the Department of Commerce, Community and Economic Development's Office of Consumer Affairs and Investigations in order to evaluate the investigative support being provided to BVE.

- Requested information regarding any complaints regarding the BVE from the Department of Administration's Division of Personnel, the Equal Employment Opportunity Commission, the Human Rights Commission, The Office of Victim's Rights, and the State Ombudsman.
- Analyzed the financial records related to the revenues generated and the operating costs incurred by BVE to determine if sufficient revenues are being collected to cover the board's costs.
- Tested files related to applicants for, and holders of, licenses issued by BVE.
- Conducted interviews with employees of the Department of Commerce, Community, and Economic Development, Division of Corporations, Business, and Professional Licensing and the BVE chair and its members.
- Attended a BVE board meeting.

ORGANIZATION AND FUNCTION

The Board of Veterinary Examiners (BVE or board) was established for the purpose of controlling and regulating the practice of veterinary medicine in Alaska.

The board regulates the profession of veterinary care in the State by examining applicants and approving the issuance of licenses to qualified applicants, establishing or amending regulations necessary to enforce state statutes, and conducting disciplinary proceedings in accordance with law.

Applicants for a veterinary license are required to pass the North American Veterinary Licensing Examination and a state written exam which covers specific Alaskan issues of veterinary practice.

Exhibit 1

Board of Veterinary Examiners
(As of June 30, 2008)

Professional Members
Steve Torrence, DVM, Chair
Timothy Bowser, DVM
David Hunt, DVM
Vacant

Public Member
Martin Buser

BVE is made up of five members. State law requires four board positions be filled by licensed veterinarians that have been engaged in the practice of veterinary medicine in the State for at least five years prior to appointment. The remaining position is to be filled by an individual from the general public.

The Department of Commerce, Community, and Economic Development, Division of Corporations, Business, and Professional Licensing provides administrative and investigative assistance to the Board of Veterinary Examiners. Administrative assistance includes budgetary services and functions such as collecting fees, maintaining files, receiving and issuing application forms, and publishing notices of examinations and meetings.

Alaska Statute 08.01.065 mandates that the department shall adopt regulations that establish the amount and manner of payment of applications fees, examination fees, registration fees, permit fees, and investigative fees.

(Intentionally left blank)

REPORT CONCLUSIONS

Under AS 08.03.010(c)(21), the Board of Veterinary Examiners (BVE or board) will terminate on June 30, 2009. If the legislature does not take action to extend the board's termination date, AS 08.03.020 provides that the board will have one year in which to conclude its administrative operations.

The regulation and licensing of veterinarians and veterinary technicians benefits the public. BVE has demonstrated an ability to conduct its affairs in an efficient manner. The board continues to propose changes to regulations to improve the effectiveness of the board and ensure that veterinarians and veterinarian technicians licensed in the State of Alaska are competent and capable of maintaining the integrity of the profession.

In our opinion, the termination date of Board of Veterinary Examiners should be extended to June 30, 2017.

(Intentionally left blank)

FINDINGS AND RECOMMENDATIONS

Recommendation No. 1

The Department of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing, in conjunction with the Board of Veterinary Examiners, should review licensing fees as provided by statute and consider decreasing fees.

The Board of Veterinary Examiners (BVE or board) has had a significant cumulative surplus of revenues at the end of the last four fiscal years. Additionally, the Division of Corporations, Business and Professional Licensing has not reviewed BVE licensing rates since 2004. At the end of FY 08, the board had an estimated operating surplus of $78,000. This surplus exceeds the Board's total operating expenses for each of the prior three years (FY 05 – FY 07).

AS 08.01.065(c) states that:

> *...the department shall establish fee levels under (a) of this section so that the total amount of fees collected for an occupation approximately equals the actual regulatory costs for the occupation. The department shall annually review each fee level to determine whether the regulatory costs of each occupation are approximately equal to feel collections related to that occupation.*

The division was unable to provide an explanation of the Board's need for the cumulative surplus of excess revenue from licensing fees. Without the required annual review of licensing fee levels, it is likely that BVE will continue to accumulate revenue in excess of its regulatory costs.

We recommend the division, in conjunction with the Board, review the licensing fees and regulatory expenditures as required by statute and determine whether a fee decrease is necessary to reduce BVE's current surplus.

Recommendation No. 2

The Office of the Governor should fill vacant seats on the Board of Veterinary Examiners in a timely manner.

As of August 31, 2008, one of the veterinarian seats on the board has been vacant since March 2008. A vacancy of even one member on a board of five presents an undue hardship to the remaining board members.

Alaska Statute 08.01.020 states that board members are appointed by the Governor and serve at the pleasure of the Governor. Alaska Statute 08.98.010 states that four members of the board shall be licensed veterinarians who have been in active practice in the state for at least five years preceding appointment and one shall be a public member.

Turnover in the Office of Boards and Commissions has negatively impacted the Governor's ability to make timely appointments to the Board of Veterinary Examiners.

With only four board members[1], the board is continually at risk of not having a quorum and if for any reason, two of the current board members are unable to attend a scheduled meeting or continue as a member, the board will not be able to carry out its responsibilities.

We recommend that the Office of Boards and Commissions, Office of the Governor, fill vacancies on the board in a timelier manner.

[1] Three of the current board members are practicing veterinarians and/or practicing veterinarian/business owners and the public member is a musher/business owner.

ANALYSIS OF PUBLIC NEED

The following analyses of board activities relate to the public need factors defined in AS 44.66.050(c). This analysis was not intended to be comprehensive, but address those areas we were able to cover within the scope of our review.

Determine the extent to which the board, commission, or program has operated in the public interest.

The Board of Veterinary Examiners (BVE or board) has served the public through its examination and licensing of qualified applicants, by adopting regulations to carry out laws governing veterinary practice, and by making licensing decisions and taking disciplinary actions.

Determine the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices that it has adopted, and any other matter, including budgetary, resource, and personnel matters.

The board receives its primary revenue from licensing and renewal fees. Renewals are conducted on a biennial basis creating a two-year cycle in board revenues. The board has proven to be cognizant of expenditures and works to reduce costs when possible.

The BVE licensing fee level has not been reviewed since 2004. Since then, BVE has had a cumulative surplus at the end of every fiscal year from FY 05 to FY 08, see Exhibit 2 on the next page. We recommend that the division review licensing rates and consider changes to fee levels to reduce this cumulative surplus in licensing income, see Recommendation No. 1.

Exhibit 2

Board of Veterinary Examiners
Schedule of License Revenue and Expenditures
As of June 30, 2008
(Unaudited)

	FY 05	FY 06	FY 07	FY 08
Total Revenues	$153,495	$33,149	$158,806	$34,218
Direct Expenditures				
Personal Services	31,688	26,773	26,550	26,009
Travel	6,153	8,605	10,885	10,582
Services	10,439	10,446	4,832	33,462[2]
Commodities	8	54	8	0
Total Direct Expenditures	48,288	45,878	42,275	70,053
Administrative Indirect Costs	20,498	17,160	25,103	22,413
Total Expenditures	68,786	63,038	67,378	92,466
Annual Revenues over (under) Expenditures	84,709	(29,889)	91,428	(58,248)
Beginning Cumulative Surplus (Deficit)	(10,000)[3]	74,709	44,820	136,248
Ending Cumulative Surplus (Deficit)	$74,709	$44,820	$136,248	$78,000

Determine the extent to which the board, commission, or agency has recommended statutory changes that are generally of benefit to the public interest.

From FY 05 – FY 08 the board developed proposed statutory changes and sought legislative sponsorship to introduce a bill. House Bill 297 was introduced, the board chairman testified in support of it, and the bill was signed into law on June 24, 2008 (Chapter 108 SLA 08). This law amended licensing statutes allowing veterinary students in their final year of graduate studies to return to the State to work under the supervision of an Alaska licensed veterinarian. Additionally, this law clarified statutes related to out of state veterinarians performing wildlife services and the use of out-of-state consulting services.

The board has also worked on improvements to the veterinarian regulations. Regulation changes involved:

[2] The increase in FY 08 Services account was primarily due to the large amount of legal fees incurred for interagency legal services.
[3] The beginning cumulative deficit shown in FY 05 was obtained from Department of Commerce, Community, and Economic Development Board of Veterinary Examiners Sunset Review, Audit Control No. 08-20036-05.

- Reducing the passing score for the State's jurisprudence exam[4].
- Addressing time requirements for the division's receipt of applications for the North American Veterinarian Licensing Examination.
- Assessing and restructuring fees for veterinary technician exams.

Determine the extent to which the board, commission, or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service that it has provided.

Board meeting dates, times and locations are published both on the State's Online Public Notice system and in the Anchorage Daily News. In addition, the board's licensing examiner notifies all licensees and persons on the interested parties listing she maintains of upcoming board meetings. Board members also encourage their peers to attend. One board member attends the Alaska State Veterinary Medical Association meetings, at his own expense, and gives a BVE report.

Review of the State's Online Public Notice system determined public notice was not given for the board's May 17, 2007, meeting. This omission was caused by staff turnover in the division's publications technician position.

Time was provided at every public meeting for public comment and board meetings are purposely rotated between Fairbanks, Anchorage, and Juneau to give interested parties every opportunity to attend.

Determine the extent to which the board, commission, or agency has encouraged public participation in the making of its regulations and decisions.

Notice of proposed regulation changes are posted on the State's Online Public Notice system and in the Anchorage Daily News. Proposed regulation changes are subjected to the State's public notice practice. From FY 05 to FY 08 all regulation changes were public noticed.

Determine the efficiency with which public inquiries or complaints regarding the activities of the board, commission, or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of victims' rights or the office of the ombudsman have been processed and resolved.

No complaints have been filed with the State Department of Administration's Division of Personnel, the Equal Employment Opportunity Commission, the Human Rights Commission, the State Ombudsman, or the Office of Victim's Rights.

[4] The passing score was lowered from 95% to 90%. The jurisprudence exam tests a licensees understanding of Alaska statutes and regulations governing veterinary practice in Alaska. The exam is an open book test.

From the period of July 1, 2005 through June 19, 2008, 42 veterinarian/veterinarian technician investigation cases were open or opened with the Division of Corporations, Business and Professional Licensing's Office of Consumer Affairs and Investigations Section (OCAI).[5] Cases involving continuing education enforcement are assigned to the division's Juneau Paralegal section but are also assigned a case number by OCAI.

Types of cases open or opened include:

- Violating Professional Ethics (1)
- Unlicensed Practice (9)
- Standard of Care (6)
- Prescriptive Practice (3)
- Negligence (9)
- Licensing Application Problems (3)
- Incompetence (2)
- Fraud/Misrepresentation (3)
- Drug Diversion (1)
- Continuing Education (5)

Of these 42 cases open or opened, 24 were closed in an average of four months time. The disposition of the 24 closed cases were: 12 cases were closed with no action taken; six cases were closed with some licensing action taken; five cases were closed after the investigator had issued an advisement letter; and the final case was closed when the licensee came into compliance with regulations.

Of the remaining 18 open cases, four were assigned to the Juneau Paralegal and involve continuing education issues and a longer time to close, eight cases involve the same individual and are related in nature[6], and six cases remain open. These six cases have been open an average of seven months and have a priority level of 3 or lower[7].

OCAI is effectively investigating complaints and taking disciplinary action when necessary. Additionally, we conclude that the board is operating efficiently by taking necessary enforcement actions and that these actions are both fair and objective.

Determine the extent to which a board or commission that regulates entry into an occupation or profession has presented qualified applicants to serve the public.

Veterinary licensing requirements involve passing national and state examinations. The national examination is developed and graded nationally. The state examination is developed by the board and includes statutory and regulatory material specific to Alaska. This state exam is reviewed continually by the board for updates. In addition, the board and the

[5] The Investigations Unit within the Department of Commerce, Community and Economic Development's Division of Corporations, Business and Professional Licensing was reorganized effective July 1, 2008 as the Office of Consumer Affairs and Investigations.

[6] The Office of Consumer Affairs and Investigations is working to find this individual who may be currently out of state.

[7] Priority levels are defined as:

Level 1 - Incident represents an immediate danger to public,

Level 2 - Incidents which by the severity of their nature dictate a high priority,

Level 3 - Incidents that are less serious in nature and do not appear to constitute immediate or severe pubic danger or serious damages,

Level 4 - Incidents involving failure to comply with statutes or regulations which are discovered through the course of proactive enforcement on the part of the Investigative Unit, but do not meet the criteria of priority 1 - 3. This type of enforcement can only occur when manpower and caseload allow.

Department of Commerce, Community, and Economic Development, Division of Corporations, Business, and Professional Licensing work together to ensure continuing education requirements are met and license renewals are issued only to qualified licensees.

The exhibit below summarizes new licenses and permits issued by the board from FY 05 to FY 08.

Exhibit 3 **New Licenses or Permits Issued (Exclusive of Renewals)**	**FY 05**	**FY 06**	**FY 07**	**FY 08**	**Current License Holders as of June 30, 2008**
Veterinarians	18	17	13	18	296
Veterinary Technicians	20	12	11	17	130
Temporary Permits	7	4	3	8	-
Temporary Licenses	4	2	1	1	-
Courtesy Licenses	51	49	49	53	-

Determine the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission, or agency to its own activities and the area of activity or interest.

We did not find any evidence that the board was not complying with state personnel practices, including affirmative action in qualifying applicants. Each time the board denied an applicant, the reason for this denial was based on requirements set out in licensing regulations. Applicants are informed in writing of the reason for their denial, their rights, and the process to contest or appeal.

Determine the extent to which statutory, regulatory, budgeting, or other changes are necessary to enable the agency, board, or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

The majority of current board members are in their second term of service. Board member experience and the efficiency of their licensing examiner have allowed the board to consistently meet their goals. We have not identified any statutory changes necessary for the board to better serve the interests of the public.

Regulatory Changes

In 2008 a controversy arose regarding a possible conflict between a statute and regulation. The controversy centered on whether or not the client confidentiality aspects of 12 AAC 68.100 would impede a veterinarian in reporting animal cruelty under AS 03.55.110 to animal control, the department, or a peace officer when the client may be the perpetrator.

Legislative Affair's Division of Legal and Research Services addressed this controversy by opining:

> *...that there is not a recognized veterinarian-client testimonial privilege or other legal barriers in Alaska statute or regulation that currently serves to prevent a veterinarian from voluntarily reporting a suspected instance of animal cruelty.*

To ensure there is no lingering confusion regarding this issue, on June 13, 2008 the board unanimously approved a motion to initiate a regulation project to amend regulation, 12 AAC 68.100, with the following subsection:

> *...(b) Any veterinarian licensed in this state who reports, in good faith and in the normal course of business, a suspected incident of animal cruelty, as described by law, to the proper authorities shall be immune from liability in any civil or criminal action brought against such veterinarian for report of such incident.*

Other

As of August 31, 2008, one of the veterinarian seats on the board has been vacant since March 2008. Because the board is only five members, having a vacant seat on the board poses potential hardship, see Recommendation No. 2.

Determine the extent to which the board, commission, or agency has effectively attained its objectives and purposes and the efficiency with which the board, commission, or agency has operated.

The objectives adopted by the board are in line with its missions[8]. Major objectives the board has successfully met from FY 05 to FY 08 include:

- updating and distributing the Alaska Board of Veterinary Examiners Handbook annually;
- reviewing and evaluating current statutes and legislative proposals and developing new proposals as needed;
- continuing to license veterinarians and veterinarian technicians and monitoring continuing educations hours; and
- continuing to review and evaluate current regulations and develop new regulations as needed.

[8] The mission of the board is:

To protect the health, safety, and welfare of Alaskans by ensuring that veterinarian practitioners possess and maintain a level of skill and knowledge necessary to provide safe, competent professional veterinary services to consumers and to protect the public from veterinary practitioners who pose a risk to the public's health, safety, and welfare.

Determine the extent to which the board, commission, or agency duplicates the activities of another governmental agency or the private sector.

BVE does not duplicate the activities of another governmental agency or private sector organizations; however BVE collaborates with various state and local agencies/programs.

Within the Department of Environmental Conservation, Division of Environmental Health there is the State Veterinarian program. The relationship between this program and BVE board is one of collaboration rather than duplication. An example of this collaboration is the State Veterinarian providing the board with information for use in its handbook regarding reportable diseases, import/export and shipping regulations, and health certificate information.

We found that membership in the American Veterinary Medical Association (AVMA) is optional for veterinarians. Although most Alaska veterinarians are members of this association, AVMA does not regulate, investigate, or take disciplinary actions against its members. The State's version of the AVMA is the Alaska Veterinary Medical Association (AKVMA). The AKVMA seeks to promote excellence and professionalism of Alaska veterinarians and advance the health and well being of animals. Membership in AKVMA is voluntary and their efforts do not duplicate those of the board.

BVE is a member of the American Association of Veterinary State Boards (AAVSB). Among other duties, AAVSB is the single entity that reports national licensing examination scores to state boards and maintains a national clearinghouse for the approval of continuing education providers. The association with AAVSB merely is complimenting rather than duplicating BVE's efforts.

Lastly, we explored BVE's affiliation with the National Board of Veterinary Medical Examiners (NBVME). NBVME is organized and operated for the purpose of providing standard examinations that may be used by states as part of their licensure procedures for veterinarians. Again, this affiliation is complimenting rather than duplicating BVE's efforts.

LEGISLATIVE AUDIT

Dear Ms. Davidson:

This letter is in response to your September 22, 2008 confidential preliminary audit report on the Board of Veterinary Examiners.

Recommendation No. 2

The Office of the Governor should fill vacant seats on the Board of Veterinary Examiners in a timely manner.

The Office of the Governor concurs with this recommendation. I appreciate your observation that turnover in the Boards and Commissions office may have played a role in the delay. I am pleased to report that the Governor recently made her selection for the vacant veterinarian seat. We find it challenging to find volunteers from the various professions who are willing and able to devote the time necessary to serve on the licensing boards. We will continue to make every effort to fill vacant board and commission positions in a timely manner.

If you need additional information, please contact me at 269-7450.

Sincerely,

Frank Bailey, Director
Boards and Commissions

Legislative Budget and Audit Committee
Division of Legislative Audit
P.O. Box 113300
Juneau, Alaska 99811-3300

Dear Ms. Davidson,

Re: Audit Report, ACN 08-20059-08
Board of Veterinary Examiners

Thank you for allowing us to comment on the Audit Report of the Board of Veterinary Examiners.

We fully agree that the Board has conducted itself in an efficient manner and that the Board should be extended to June 30, 2017.

We concur with your audit findings and recommendations that –

Recommendation No. 1: The Department of Commerce, Community and Economic Development, Division of Corporations, Business and Professional Licensing, in conjunction with the Board of Veterinary Examiners, should review licensing fees as provided by statute and consider decreasing fees.

Staff turnover in the Division did have a negative impact on assessing fees in a timely manner. Fees for the December 2008 renewals are being reduced to utilize some of the surplus of excess revenue and to bring revenue more in line with program costs.

Recommendation No. 2: The Office of the Governor should fill vacant seats on the Board of Veterinary Examiners in a timely manner.

We concur with this recommendation. As noted, the vacancy of even one position on a five member Board does present an undue hardship to the remaining board members and the Division in coordinating actions with the Board on licensing issues.

Thank you again for the opportunity to comment on your audit findings.

Sincerely,

Emil Notti /by CH

Sponsor Statement
HB 88
"An Act extending the termination date of the Board of Governors of the Alaska Bar Association; and providing for an effective date."

The Alaska Bar Association was established in 1955. The Bar Association's primary functions are to screen applicants for admission, thereby ensuring all successful applicants are fit to practice law, and to provide discipline by investigating grievances against members of the Bar. The Bar Association also performs a wide variety of other functions including offering classes for continuing legal education, lawyer referral services, and fee arbitration.

The Board consists of twelve members, nine attorneys elected by the active membership of the Bar Association, and three non-attorney, public members appointed by the Governor and confirmed by the Legislature.

The Division of Legislative Audit, in its November 4, 2008, report concluded that "the board, through the Alaska Supreme Court, protects the public by ensuring that persons licensed to practice law are qualified. It also provides for the investigation of complaints and has established a disciplinary process designed to promote licensed individuals to act in a competent and professional manner." The Division of Legislative Audit further recommended that the termination date of the board be extended to June 30, 2017.

The Board of Governors of the Alaska Bar Association is currently scheduled to terminate on June 30, 2009, and would have one year to conclude its administrative operations unless the legislature acts this session. House Bill 88 will extend the termination date for the Board of Governors of the Alaska Bar Association for another eight years.

LEGISLATIVE AUDIT

Re: Preliminary Audit Report
Board of Governors of Alaska Bar Association
Sunset Review, November 8, 2008

Dear Ms. Davidson:

Thank you for the opportunity to offer a written response to the findings and recommendations contained in the above-referenced preliminary audit report. This response represents the views of the Administrative Office of the Alaska Court System (AOC).

The AOC takes no position on the findings and recommendations directed at the Board of Governors of the Alaska Bar Association. We agree with the conclusion that the Board protects the public by ensuring that persons licensed to practice law are qualified. We also concur in the recommendation to the legislature that the termination date of the Board be extended to June 30, 2017.

However, we take issue with the auditor's comments beginning on page 11. Those comments go beyond the scope of the audit by making conclusory observations about the merits of self-regulation by the Bar, and suggesting that attorney discipline in Alaska could be a government function. Specifically, it is suggested that the following options be considered:

- Disciplinary investigations performed by Alaska Court System employees
- Place disciplinary function under the Supreme Court with a Disciplinary Board appointed by the court

The historical record shows that attorney discipline has always been a matter of importance to the supreme court. In fact, when the supreme court first asserted control of the Bar over the Bar's strenuous objection in 1964, it did so by promulgating rules governing the discipline of attorneys, among other things. See *In the Matter of an Application for an Order Vacating ALASKA SUPREME COURT ORDERS NO. 64, 68, 69, 70 and 71, and Other Relief*, 395 P.2d 853 (Alaska 1964). Public confidence in the process of attorney discipline is essential.

Equally important, however, is the need to keep separate the prosecutorial and adjudicative functions inherent in attorney discipline. Under our system of government, it is imperative that those who have the duty of charging transgressors and proving their guilt do not have the final say in determining that guilt. As currently designed, the system of attorney discipline keeps a wall between those two roles. It is the Bar which has the duty to investigate and prosecute allegations of attorney misconduct, to make preliminary findings, and to recommend punishment. It is the supreme court which makes the final determination of guilt or innocence, and which makes the final determination regarding appropriate punishment.

The fundamental problem with placing the attorney discipline function within the court system is that the entity responsible for investigating and prosecuting attorney misconduct would also be the entity responsible for making the ultimate determination of guilt or innocence. As the final adjudicative body for cases decided under the Alaska Constitution, it is inappropriate for the supreme court to exercise both executive and judicial powers in disciplinary matters.

There may be other states in which the supreme court exercises both prosecutorial and adjudicative authority. However, that does not mean that it is good public policy to do so, or that doing so is consistent with the fundamental principles under which our system was intended to operate. Administrative convenience is not an adequate justification for this consolidation of government power.

If it is ever determined that the current system of attorney discipline does not work adequately and needs to be changed, a better model would be the one utilized by the Judicial Conduct Commission. This commission is part of the judicial branch of government, not the court system, and as such it is independent of the supreme court. The commission engages in investigatory and prosecutorial tasks when allegations of judicial misconduct are made, and makes recommendations to the supreme court. The supreme court exercises the judicial function, serving as the final arbiter of guilt or innocence.

It is true that a separate disciplinary entity such as this could be paid for by Bar dues and have no cost to the general fund at this time. However, the persons staffing said agency would be new state employees. The legislature has demonstrated an intent in recent years to limit the addition of permanent, full-time state employees, and absent concrete evidence that the current system does not adequately serve the public interest, it may be disinclined to create a new state bureaucracy.

Thank you for providing the opportunity to comment on this audit. Please feel free to contact me if you have any questions.

Very truly yours,

C. S. Christensen III
Deputy Administrative Director

RECEIVED
DEC 02 2008
LEGISLATIVE AUDIT

Pat Davidson
Legislative Auditor
c/o Division of Legislative Audit
4341 B Street, Ste. 400
Anchorage, AK 99503

Dear Ms. Davidson:

Thank you for the thorough sunset review of the Alaska Bar Association and the opportunity to respond to your preliminary audit report.

Sunset and Fiscal Note

The Board concurs with extending the sunset date of the Alaska Bar Association Board of Governors until June 30, 2017.

There will be no fiscal note attached to any bill filed with the legislature to extend the sunset date of the Board of Governors, as the Bar Association will not be seeking any state funding for its operational costs. The Bar Association has obtained state funding only during the limited time frame between 1981 and 1986, and only for the per diem and travel expenses of the three public members who sat on the Board. For the past 22 years, the Bar Association has paid those expenses without state funding.

As noted in the audit, the operations of the Bar Association are funded entirely by Bar members through bar dues, admission fees, Continuing Legal Education seminar fees, Lawyer Referral Service charges, convention fees, and interest income. Ironically, a decision to sunset the Bar would have a multi-million dollar fiscal impact to the state.

Response to Recommendation No. 1: The Supreme Court has adopted an MCLE rule and will review the program in three years.

The Alaska Supreme Court adopted an MCLE rule in December 2007, effective January 1, 2008. Bar Association members will be required to report for the first time by February 1, 2009.

The MCLE rule requires that all active Bar members complete at least three hours of ethics CLE per year and report that they have done so. Members must also report whether they have completed nine hours of general CLE, and if they have not done so, they must report the estimated hours of general CLE that they did complete.

In their commentary to the rule, the Supreme Court stated that "To protect the public, ensure that lawyers remain mindful of their obligations to their clients, and to address the area about which the Association receives the majority of questions from and complaints about lawyers, the Supreme Court is imposing a mandatory requirement for ethics CLE on all active Bar members."

The Court also stated that "At the end of three years, the Supreme Court will again assess the project's results, including recommendations and statistics provided by the Association, and will determine whether an expanded mandatory CLE program is necessary."

At the end of the three year period, the Association will have the benefit of its experience in administering the mandatory ethics and reporting program. It will be able to determine what issues and problems have arisen and will also allow the Association time to educate Bar members about complying with the educational and reporting requirements.

The Association has hired a part-time MCLE Administrator to administer the program. In addition, the Association is offering a free ethics CLE program on November 5, 2008, in accordance with the Supreme Court's wish that the Association provide at least three hours a year of ethics CLE at no cost to members. This program will be available in a variety of formats: live, via webcast or on DVD.

Response to Recommendation No. 2. We agree that Lawyer Public Discipline History should be available on the Alaska Bar Association website.

The legislative auditor notes that the Alaska Bar Association has joined a consortium of other state and local bars aimed at replacing our database with a new member management system. This will include a module specifically for lawyer discipline data. This system will provide a means to post public discipline information on the Bar's website.

It has been the Bar's goal since the website was first launched in 1998 to post public discipline information.

Like many computer programming projects, the implementation of the new database is taking longer than originally anticipated. Issues include the need to modify and test programs that are unique to Alaska. The new MCLE requirement also took priority over the implementation of other program modules, such as discipline.

In addition, the fact that only a minority of states publish their lawyers discipline list on their websites indicates the difficulty many states have in automating this information. Timeliness and accuracy are essential to this process.

The Board agrees that having public discipline information available on our website is a desirable goal and we will continue to work to that end. We anticipate that the new discipline module, including online reporting of public discipline, will be operational in the coming 12 – 18 months.

Response to Recommendation No. 3. We agree that the Bylaws of the Alaska Bar Association should be modified to specifically include conference call meetings of the Board and to provide for reasonable public notice of those meetings.

From time to time the Board of Governors finds it necessary to call meetings between regularly scheduled Board meetings to take up specific items which should not be delayed until the next Board meeting. The Board limits its action to those items listed in the call of the meeting.

Bar staff recognizes that the conference call meetings since June 30, 2006 did not meet the 30 day public notice requirement for Board meetings. However, the need for a conference call meeting of the Board is often realized only a week or two in advance, and therefore, it could not meet the 30 day notice requirement.

The staff will draft a proposed amendment to the Bylaws, to be taken up by the Board of Governors, to provide that the President may call a conference call meeting of the Board as appropriate to conduct business as necessary between regularly scheduled Board meetings. This will recognize conference calls as a unique type of Board meeting, and, in

accordance with AS 44.62.310(e), the proposed Bylaw will state that "reasonable public notice" will be given.

The Bylaws will also be amended to clarify that Board of Governors meetings, as well as Association meetings, are governed according to Roberts Rules of Order, Newly Revised. The Board has operated under these rules, but this will be clearly stated in the Bylaws.

Matters "not accepted" for investigation.

Page 17 states that 80% of the grievances received were not accepted for investigation due to lack of merit. While formal investigations were not conducted, these matters were thoroughly reviewed by discipline section staff counsel with expertise in attorney grievance matters and both complainants and respondent attorneys were informed in writing of the reasons that the matters were not accepted for investigation.

Concluding Comments: Lawyer self-regulation has been effective and efficient in Alaska.

The overall conclusion of the audit is that the Board effectively serves the public interest through its lawyer admission and discipline process. We also believe that lawyer self-regulation is working very effectively and efficiently in Alaska. To its credit, the Alaska Bar Association has one of the most aggressive and effective discipline systems in the country.

In 2006, the Bar Association conducted an e-mail and phone survey of the members of the National Organization of Bar Counsel whose members staff disciplinary jurisdictions nationwide. Of the 48 states the Bar was able to contact, 26 indicated that they were not state government agencies.

As reported in our December 16, 2005 response, 13[1] jurisdictions, in addition to Alaska, indicated that they were not state government agencies under their supreme courts; 13[2] generally indicated that they were considered creations of their supreme courts, but either not

[1] Alabama, Arizona, Hawaii, Idaho, Kentucky, Montana, Nevada, North Carolina, Oregon, South Dakota, Utah, Washington, and Wyoming.

[2] Arkansas, Florida, Idaho, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, North Dakota, Pennsylvania, and West Virginia.

considered state government agencies or state employees; and, 22[3] indicated that they were state government agencies under their supreme courts.

Based on this survey, Alaska is not unique in its approach to attorney discipline. Indeed, because the Bar Association performs these vital functions under the supervision of the Alaska Supreme Court, its system is similar to those in place in a significant number of other state jurisdictions.

We believe that there would be significant additional costs to both the court and the Bar Association if the attorney discipline system in Alaska was carried out by a government agency. Currently, the Bar Association has one bar counsel, two assistant bar counsel, one paralegal, two legal secretaries, and two other employees of the Bar who provide support to the discipline system in addition to their other Bar duties.

Currently these employees have the benefit of shared costs of office space, conference room, computer system, telephone system, copy machines, etc. with the rest of the Bar staff. In addition, the Bar's system administrator provides computer support to all Bar employees. If the discipline employees were split off from the Bar Association, they would lose the benefit of this shared functionality and they would have to purchase and maintain separate space and equipment.

Currently discipline hearings are heard by a members of a volunteer committee made up of attorneys and public members. If discipline were split off from the Bar Association, the state would need to staff this function with state hearing officers.

Currently bar counsel supervises the assistant bar counsel and discipline staff, as well as handling such other discipline matters as reinstatement, etc. He also handles approximately 800 calls a year giving informal ethics advice to members of the Bar. If a new state agency had less than three lawyers on staff, this valuable service would not be feasible and the current caseload would likely see a dramatic increase in processing time. The discipline section would also lose the assistance of the two staff persons who provide other support to the discipline section.

---

[3] California, Colorado, Connecticut, Delaware, Georgia, Illinois, Indiana, Louisiana, Minnesota, Nebraska, New Hampshire, New Jersey, New Mexico, New York, Ohio, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, and Wisconsin.

Meanwhile, the Board of Governors would still need to have its own staff counsel, so the Bar Association would still have the expense of a lawyer and legal secretary on its staff.

There would also be additional expense if there was a Disciplinary Board separate from the Board of Governors. Currently, the Board of Governors acts as the Disciplinary Board at its regularly scheduled board meetings. The budget for the Board travel is included in the Board of Governors budget, and is not included as part of the discipline budget, so Discipline Board meetings would be a new expense.

The cost to Bar members to support additional staff, separate offices and equipment and separate Boards would mean a significant increase in bar dues, the addition of a separate disciplinary assessment, or that these expenses come out of the state general fund.

We believe that the subjective benefit of splitting out the discipline function from the Bar is outweighed by the practical and economic realities.

It is also our belief that the present management system of the Bar provides a blend of private and governmental functions, insuring both accountability and good management. For example, the Bar is an instrumentality of the state and subject to legislative audits. Its meetings are open to the public. Members of the public sit on discipline hearings and fee arbitration panels as well as on the Board of Governors. Its rule making and discipline functions are overseen by the Supreme Court, which assures a sound investigative and judicial process of discipline. Finally, the statewide lawyer membership on the Board also ensures that the Bar Association is both responsive to the needs of its members, and qualified to address such issues as admission standards and peer review.

Reserves of the Alaska Bar

The Board has a policy to hold a working capital reserve in an amount equal to four month's expenses ($212,500/month or $850,000.) However it is not unusual for a non-profit association to hold a reserve in an amount equal to six to nine months of expenses. (Ranging from $1,275,000 - $1,912,000.)

Unlike state agencies, the Bar cannot request supplemental appropriations from the Legislature or pool resources if an unexpected event occurs which would incur significant financial expense. The Board also needs to be able to "save" for the financial viability of planned projects or events. For example, the Bar is in the process of replacing its entire database, a multi-year project that will cost nearly $200,000.

Between 1981 and 2005, Bar dues had only been raised twice: from $310 to $450 in 1994; and, from $450 to $550 in 2005.

At the October 2007 meeting, the Board of Governors approved the first bar dues reduction in the history of the Alaska Bar Association. To make the reduction, the Board voted to change a twenty-five year old budget policy that increased the unappropriated capital to offset future year deficits, deferring an increase in bar dues. Now the Board will budget on a "pay as you go" basis. This resulted in an approved draw down of the then $1.2 million unappropriated capital by approximately $400,000 for 2008. Active members of the bar saw their 2008 dues decrease to $410. 2008 inactive member dues were $135.

The Board reviewed the 2009 budget at the October 2008 meeting and voted to set 2009 active member bar dues at $450 (plus $10 for the Lawyers' Fund for Client Protection) and inactve dues at $150. This will result in an estimated loss in 2009 of $340,697, leaving a projected estimate of unappropriated capital of $670,536 at the end of 2009.

Lawyers' Fund for Client Protection

Every year, Bar members each pays ten dollars to the Lawyers' Fund for Client Protection. This is a trust fund which serves as a safety net primarily for clients who have suffered monetary losses as a result of dishonest acts by their lawyers. This Fund currently has $1,122,144. These funds are designed to protect the public and cannot be used for general operating expenses.

To date in 2008, $28,100 in claims was awarded to clients of attorneys who were found to be dishonest in their dealings with the clients. $127,235 was awarded in 2007 and $31,972 was awarded in 2006.

As an instrumentality that predates the ratification of the Alaska Constitution, the Alaska Bar maintains these funds under Article IX, Sec.

7 of the Alaska Constitution. It is unclear whether the Bar could continue to do so if portions of its powers were split to a state agency.

Again, thank you for the opportunity to comment on the audit report. We trust that our response has been helpful, and that it demonstrates the Board's continuing commitment to improving the legal profession and service to the public.

Sincerely,
Alaska Bar Association

Deborah O'Regan

for Mitchell Seaver

November 4, 2008

Members of the Legislative Budget
and Audit Committee:

In accordance with the provisions of Title 24 of the Alaska Statutes, the attached report is submitted for your review.

BOARD OF GOVERNORS OF THE
ALASKA BAR ASSOCIATION
SUNSET REVIEW

November 4, 2008

Audit Control Number
41-20057-08

The audit was conducted as required by AS 44.66.050 and under the authority of AS 24.20.271(1). Alaska Statute 44.66.050(c) lists criteria to be used to assess the demonstrated public need for a given board, commission, agency, or program subject to the sunset review process. Currently, under AS 08.03.010(c)(2), the Board of Governors of the Alaska Bar Association is scheduled to terminate on June 30, 2009.

In our opinion, the termination date for this board should be extended. The regulation and licensure of attorneys contributes to the protection of the public's welfare. We recommend the legislature extend the termination date to June 30, 2017.

The audit was conducted in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives. Fieldwork procedures utilized in the course of developing the findings and discussion presented in this report are discussed in the Objectives, Scope, and Methodology.

Pat Davidson, CPA
Legislative Auditor

OBJECTIVES, SCOPE, AND METHODOLOGY

In accordance with Title 24 and Title 44 of the Alaska Statutes (sunset legislation), we have reviewed the activities of the Board of Governors of the Alaska Bar Association (board). Under AS 44.66.050(a), the legislative committee of reference is to consider this report during the legislative oversight process to determine whether the board's termination date should be extended. Currently, AS 08.03.010(c)(2) requires the board to terminate on June 30, 2009. If the legislature takes no action to extend the termination date, the board will have one year from that date to conclude its operations.

Objectives

There are four central objectives of our report. They are:

1. To determine if the termination date for the board should be extended.

2. To determine if the board is operating in the public's interest.

3. To determine if the board has exercised appropriate oversight of licensed members of the Alaska Bar Association (Bar).

4. To provide a current status on the recommendations made in the prior report.

The assessment of the operations and performance of the board was based on criteria set in AS 44.66.050(c). Criteria set out in this statute relates to the determination of a demonstrated public need for the board.

Scope and Methodology

Our review focused on the continuing legal education requirement, discipline function provided by the Bar, as well as board proceedings. Our audit reviewed board operations and activities from July 1, 2006 through June 30, 2008.

We reviewed and evaluated the following:

- Applicable statutes, Alaska Bar Rules, Alaska Rules of Professional Conduct, and Bar bylaws

- Board minutes

- Bar annual reports

- Attorney discipline files
- Audited financial statement of the board

In addition, we conducted interviews of the board president, staff, including the executive director, board counsel, director of continuing legal education, and comptroller.

ORGANIZATION AND FUNCTION

The practice of law in the State of Alaska is regulated by the Board of Governors of the Alaska Bar Association (board). The board consists of 12 members including nine attorneys elected by the active membership of the Alaska Bar Association (Bar) and three non-attorney public members that are appointed by the governor and confirmed by the legislature in joint session.

The powers and duties of the board are conferred by the Alaska Integrated Bar Act (AS 08.08), the Alaska Bar Rules, and the Rules of Professional Conduct which are promulgated by the Alaska Supreme Court. The purpose of the board includes the following: to cultivate and advance the science of jurisprudence, to promote reform in the law and in judicial procedure, to facilitate the administration of justice, to encourage continuing legal education (CLE) for the membership, and to increase the public service and efficiency of the Bar.

Exhibit 1

The Board of Governors of the Alaska Bar Association (as of October 20, 2008)
Mitch Seaver, President ***First Judicial District***
Sidney K. Billingslea, President-elect ***Third Judicial District***
Don McLean, Vice-president ***Public Member***
Jason A. Weiner, Treasurer ***Second/Fourth Judicial District***
Christopher R. Cooke, Secretary ***Third Judicial District***
Carl Ekstrom ***Public Member***
William A. Granger ***Public Member***
Donald W. McClintock ***Third Judicial District***
Allison Mendel ***Third Judicial District***
Hanna Sebold ***First Judicial District***
Krista S. Stearns ***Third Judicial District***
John J. Tiemessen ***Second/Fourth Judicial District***

The two primary functions of the Bar are the admission and discipline of its members. To accomplish these and other functions, the Bar operated with a 2008 budget of $1,983,738. Funding is provided primarily by membership dues ($410 per year), admission fees, lawyer referral fees, CLE charges, administrative discipline fees, and interest income.

Admission Function The board is responsible for screening applicants for admission to the Bar. The board certifies to the Supreme Court that all successful applicants are fit to practice law. The board appoints an executive director who is responsible for directing all staff functions, including the oversight of the admissions function.

Discipline Function The board is responsible for investigating grievances against all members of the Bar. The board appoints the discipline counsel. This counsel is responsible for oversight of all disciplinary actions taken against the Bar's membership and provides an ethics course that is required for all applicants. The board selects hearing committee members from a group of individuals in each judicial district

appointed by the Chief Justice of the Supreme Court. The board is also responsible for issuing reprimands when warranted, and for recommending the Supreme Court impose disbarment, suspension, probation, or public censure when appropriate.

Miscellaneous Functions The Bar also performs a wide variety of miscellaneous functions that include providing classes for and accrediting CLE providers, a lawyer referral service, client mediation, and fee arbitration with clients. In conjunction with the Alaska Legal Services Corporation, the Bar sponsors the Alaska Pro Bono Program. The Bar provides a number of other member services including attorney liability protection, group insurance, the *Alaska Bar Rag*, ethics opinions, and alcohol and drug counseling. In addition, the association provides grants through the Alaska Bar Foundation from earnings of interest on the lawyers trust account program. These grants are used to support legal services for the economically disadvantaged and improve the administration of justice.

The Bar's office is located in Anchorage and is currently staffed by 19 full-time and job-share employees.

The board's decision involving examination and discipline may be appealed to the Alaska Supreme Court. The Alaska Supreme Court issues the order of admission to the Bar and lawyer disciplinary sanctions involving disbarment, suspension, probation, and public censure.

REPORT CONCLUSIONS

In our opinion, the termination date of the Board of Governors of the Alaska Bar Association (board) should be extended. The regulation and licensing of qualified attorneys contributes to the protection of the public's welfare.

The board, through the Alaska Supreme Court, protects the public by ensuring that persons licensed to practice law are qualified. It also provides for the investigation of complaints and has established a disciplinary process designed to promote licensed individuals to act in a competent and professional manner. Chapter 58, SLA 2005 amended AS 08.03.020(c) to increase from four to eight years the period for which a board scheduled for termination may be continued or reestablished by the legislature. As such, we recommend that the legislature extend the termination date of the board to June 30, 2017.

FINDINGS AND RECOMMENDATIONS

In the prior audit, *Board of Governors of the Alaska Bar Association, Follow Up, September 15, 2006*, (Audit Control No. 41-20050-06), there were three recommendations, one of which has been fully implemented. The implemented recommendation was to adopt a due date for timely issuance of annual reports. The recommendation was resolved at the board's September 7, 2006 meeting where the board voted to amend their Standing Policies, setting April 15 as the due date for the completion of the preceding year's annual report. Review of the 2006 and 2007 annual report documentation confirmed they were completed prior to the April 15 due date.

The recommendation to adopt mandatory minimum continuing legal education (CLE) for attorneys is partially implemented and is reiterated as Recommendation No. 1

The final recommendation, which relates to the Alaska Bar Association (Bar) developing a database of disciplined lawyers, has not been addressed and is reiterated as Recommendation No. 2. In addition, review of board meeting proceedings resulted in noted deficiencies. The deficiencies are further discussed in Recommendation No. 3

Recommendation No. 1

The board should recommend to the Alaska Supreme Court that mandatory minimum CLE for attorneys be adopted.

Prior Finding

CLE for attorneys is voluntary rather than required. The Supreme Court adopted voluntary CLE under Bar Rule 65 in 1999. It encouraged all active members of the Bar to complete at least 12 credit hours of approved CLE, including one credit hour of ethics. Incentives, such as reduction of Bar dues and eligibility to participate in the Lawyer Referral Service, are authorized to those who comply with the Bar rule.

Forty-one legal jurisdictions in the United States have a mandatory CLE requirement for attorneys desiring to practice law in their jurisdiction. Mandatory CLE requirements range from 8 to 27 credit hours per year with the majority of the jurisdictions requiring between 12 and 15 hours. Specific course requirements vary.

Most professions require continuing education to maintain licensure in Alaska. For example, Alaska-licensed dentists, doctors, pharmacists, and psychologists are required to meet minimum continuing education standards.

Overall, we believe a mandatory minimum CLE requirement will enhance the membership's continued professional competence and raise the public's confidence in attorneys. The board should encourage the Supreme Court to adopt an Alaska Bar Rule requiring mandatory minimum CLE.

Legislative Audit's Current Position

The board voted at their September 7, 2006 meeting to send the mandatory CLE rule, as published, to the Alaska Supreme Court. Based on this rule, the Alaska Supreme Court amended Alaska Bar Rule 65 through Supreme Court Order No. 1640, to require all members to complete three credit hours of mandatory ethics continuing legal education (MECLE) per year. In addition to MECLE, all members are encouraged to complete nine credit hours of approved voluntary continuing legal education (VCLE). Members must certify with the Bar that they have completed the required MECLE and provide the number or an estimated number of completed VCLE.

The Supreme Court Order No. 1640 also added Alaska Bar Rule 66 for the suspension of members who have not complied with completing the required MECLE or members who failed to report the MECLE and VCLE for the year. These rules became effective January 1, 2008.

The mandatory ethics requirement does not fully achieve the goal of promoting competency and professionalism in members of the Bar. Although ethics education is part of the goal, requiring CLE, as opposed to encouraging VCLE, will strengthen the public's confidence that attorneys are professional and competent. Therefore, we reiterate our prior recommendation.

Recommendation No. 2

The board should consider developing a database of disciplined lawyers in the Bar's website.

Prior Finding

While current procedures are adequate, the board could increase efficient and effective communication of lawyer discipline to the public by publishing their discipline list on the Bar's website.

Board procedures provide for public notice of all attorneys who have been disbarred, suspended, put on probation, publicly censured, or reprimanded. Currently, the board publishes the names of these attorneys in four major newspapers throughout the State, the local newspaper where the attorney practiced, the *Alaska Bar Rag*, and in the board's annual report. Notice of all disciplines imposed by the court, all orders granting reinstatements, and all public reprimands are also transmitted to the American Bar Association National Lawyer Regulatory Data Bank. These are long-standing means of providing public notice; however, 15 states currently also publish their lawyers discipline list on their websites.

The board should consider developing a database for the Bar's website of the disciplines imposed against lawyers. It would be an effective medium in addition to the others used to inform the public of lawyers who have been disciplined. It would enhance public notification and client protection through increased accessibility of discipline information.

Legislative Audit's Current Position

In their response to the prior recommendation, the board agreed that having public discipline information available on its website was a desirable goal and that they would work to that end. Although some steps have been taken towards the possible implementation of our recommendation, attorney discipline information is not yet available from the Bar's website.

The board stated in the prior recommendation that the new discipline module of the replacement database, including online reporting of public discipline would be operational in the summer of 2007. However, due to changing priorities, the Bar has not started implementing the discipline module, though it is tentatively scheduled for early 2009.

Legislative Audit's position remains unchanged. We continue to believe the board should develop a database of disciplined lawyers to which access is provided the public via the Bar's website.

Recommendation No. 3

The board should adhere to existing public notice requirements for all meetings or modify the bylaws to clearly address conference call board meeting procedures and public notice requirements.

The board, as the governing body of the Bar, is vested with the power and authority to adopt regulations and policies concerning activities, affairs, and organization of the Bar, as well as collect and disburse all monies of the organization. In order to achieve these responsibilities, the board meets at least four times during the year. In addition to the four regular meetings, the president may, or upon written request of three governors, call emergency meetings. Public notice for regular and emergency meetings must be provided at least thirty and three days prior to the meeting, respectively. The proceedings for these board meetings are outlined in the Bar bylaws under Article IV specific to the board.

Since June 30, 2006, there were eight regular and five conference call board meetings. None of the conference call meetings met the public notice requirements for board meetings. There appears to be some confusion by the board as to the public notice requirements for conference call meetings.

The bylaws do not identify conference call meetings as a unique type of board meeting with unique public notice requirements; therefore the board should adhere to the public notice requirements for regular board meetings. Adequate public notice of meetings is necessary to allow for maximum public participation in public activities.

If the board believes the conference call meetings are inherently different from regular meeting then the bylaws should be modified to clearly address conference call board meetings to ensure the appropriate procedures are followed and the public receives adequate notice for such meetings.

AUDITOR'S COMMENTS

The sunset process allows for an objective and independent review of various boards and commissions to determine if the public need for protection continues to exist and if the entity is satisfying that need. The overall conclusions of our review are that the Board of Governors of the Alaska Bar Association (board) is operating in the public interest and that there is a continuing public need for the attorney admission and discipline functions of the Alaska Bar Association (Bar). Nevertheless, an overall evaluation of the basic approach to these functions should be undertaken from time to time. Whether the discipline function is to be controlled by government or by attorneys is a policy-level determination that should be carefully considered by the Supreme Court, the board, and the legislature. The following comments are intended to assist in such consideration.

Self-regulation, whether by industry or profession, has always been viewed skeptically by the citizenry. There is often a perception of conflict of interest in whether actions are for the benefit of the organization's membership or for the citizens' benefit. The attorney discipline system of the Bar is a self-regulatory function that may suffer from this public perception.

The board is comprised of twelve members, of which nine are attorney members elected by the Bar's membership and three public members appointed by the governor. As the majority is elected by the membership, the Bar's discipline activities will likely be perceived as self-regulation.

We believe that the attorney discipline system in Alaska could be a government function. The American Bar Association concurs and, in fact has recommended that the disciplinary function of state bars be under the direct control of the Supreme Court. The American Bar Association's *Model Rules for Lawyer Disciplinary Enforcement,* August 1993,[1] recommended the following:

> *The disciplinary system should be controlled and managed exclusively by the state's highest court and not the state or local bar association...the disciplinary process should be directed solely by the disciplinary policy of the court and its appointees and not influenced by internal politics of the bar association... the disciplinary system should be free from even the appearance of conflicts of interest or impropriety.*

The following options should be considered in a move away from attorney self-regulation:

- Disciplinary investigations performed by judicial branch employees.

[1] The *Model Rules for Lawyer Disciplinary Enforcement,* August 1993 was amended on August 5, 1996, on February 8, 1999 and on August 12, 2002. The 1993 recommendation is in the commentary under Rule 2.

4262

- Disciplinary function placed under the Supreme Court with a Disciplinary Board appointed by the court.

There should be no general fund net cost to either of these options. They would be paid for by attorney licensing fees, the same as they currently are, and as they are for other occupations. Fees are established such that full costs are recouped.

From a citizen's perspective, there are no advantages to allowing the legal profession to self-regulate. However, there will always be the disadvantage of at least the perception of inadequate discipline. In a move away from self-regulation, the legal profession and the State's citizens would likely benefit.

ANALYSIS OF PUBLIC NEED

The following analyses of the Board of Governors of the Alaska Bar Association (board) activities relate to the public-need factors defined in AS 44.66.050(c). These analyses are not intended to be comprehensive, but to address the areas we were able to cover within the scope of our review.

Determine the extent to which the board, commission, or program has operated in the public interest.

The board admits applicants to practice law through an examination process that was designed in consultation with a national expert. The board also admits members by motion for reciprocity. This option is limited to attorneys in the active practice of law for five of the last seven years in states with which Alaska has a reciprocal agreement.[2]

Additionally, the Alaska Bar Association (Bar) also provides services that are more typically provided by professional associations rather than regulatory agencies. These include:

- The Bar has a committee to administer the Lawyers' Fund (fund) for Client Protection. This fund receives $10 from each active member's annual dues. The fund is used to reimburse clients for losses[3] caused by dishonest conduct[4] of a lawyer which is not covered by insurance or fidelity bond, whether of the lawyer or the client. The maximum amount payable to any individual is the lesser of $50,000 or 10% of the fund amount at the time of the award. The aggregate maximum amount that may be paid to all claimants under a fee arbitration case arising from the dishonest conduct of a particular lawyer is $200,000.

- Since 1976, the Bar has maintained a fee arbitration process allowing a client to resolve attorney fee disputes that have not been determined by statute or court rule or decision. For fee disputes of $5,000 or less, the process provides for a single arbitrator. Disputes over $5,000 are heard by a three-member panel that consists of two attorneys and one

[2] As of June 30, 2008, the Alaska Bar Association has reciprocal agreements with 33 states.

[3] Reimbursable losses are losses of money, property, or other things of value caused by the lawyer when: (1) acting in a fiduciary capacity customary to the practice of law, such as a administrator, executor, trustee, guardian or conservator; (2) acting as an escrow holder; or (3) filed within three years after the claimant knew or should have known of the dishonest conduct of the lawyer (Alaska Bar Rule 45).

[4] Alaska Bar Rule 45 defines dishonest conduct as,

> *. . .wrongful acts committed by a lawyer in the manner of defalcation or embezzlement of money, or the wrongful taking or conversion of money, property or other things of value.*

4264

public member. Failure by an attorney to participate in this process may be grounds for disciplinary action.

- The Bar also offers a mediation process that attempts to resolve the differences between attorneys and their clients. This process is not used when the issues are of a very serious nature such as allegations of intentional dishonesty, material misrepresentation, or the alleged conduct could lead to suspension or disbarment. Mediation requires the approval of both parties and the Bar counsel. The agreement is considered a contract and is legally enforceable in court.

- The Bar operates a lawyer referral service funded by enrollment fees from participating members. Members of the public can call an instate toll free number and obtain the names of three attorneys who have listed themselves as practicing law in a certain field. Lawyer referral service statistics are shown in Appendix D.

- The Bar provides grants to support legal services for the economically disadvantaged. Through the Alaska Bar Foundation, the earnings from the interest on Lawyers Trust Account are used to improve the administration of justice.

- The Bar jointly sponsors the Alaska Pro Bono Program with the Alaska Legal Services Corporation in which attorneys provide free legal advice to low-income Alaskans.

- The Bar also has a Lawyer Assistance Committee that provides assistance and counseling to members of the Bar, their families, or business associates when it appears a Bar member has substance abuse problems.

Determine the extent to which the operation of the board, commission, or agency program has been impeded or enhanced by existing statutes, procedures, and practices that it has adopted, and any other matter, including budgetary, resource, and personnel matters.

The operations of the board are funded entirely by the membership through dues, admission fees, continuing legal education charges, lawyer referral fees, convention fees, and interest income. In September 2005, the board adopted an amendment to Bylaw III, Section 1(a) which states that, "*the annual membership fee for an active member is the amount approved by the board.*" Thus, the board can set the dues amount in accordance with the operating expenses and number of Bar members.

The 2008 budgeted revenue is $1,983,738. The Bar has cumulative net assets of $3,496,544 as of the end of calendar year 2007. The net assets include approximately $1.1 million for the Lawyers' Fund for Client Protection. This fund is for clients who have suffered monetary losses as a result of dishonest acts by their lawyer. These funds are designed to protect the public and cannot be used for general operating expenses.

The maintenance of substantial net assets is not consistent with the other professions regulated by the State, under the jurisdiction of the Department of Commerce, Community, and Economic Development (DCCED) – Division of Corporations, Business, and Professional Licensing. Those professional fees are required by statute to be set so the total fee collections approximately equal the actual regulatory cost of the occupation. As the Bar is not included in DCCED's organizational structure, the ability to pool resources and meet funding shortages is not available. Although the Bar's funding needs are greater, the net assets are still substantial.

In order to address the cumulative net assets, the board voted at the end of 2007 to reduce the active members' due from $550 to $410, effective in the 2008 membership year. The Bar anticipates that with the reduction in membership dues net assets will be reduced by approximately $400,000 per year.

Determine the extent to which the board, commission, or agency has recommended statutory changes that are generally of benefit to the public interest.

Although the board has a Statutes, Bylaws, and Rules Committee, consisting of 12 members responsible for drafting proposed revisions of the statutes, bylaws, and rules which govern the activities of the Bar, the board has not recommended any statutory changes during July 1, 2006 through June 30, 2008. However, the board has been active in the process of evaluating and revising the Alaska Bar Rules, bylaws, and Rules of Professional Conduct that govern Bar policies and procedures.

Determine the extent to which the board, commission, or agency has encouraged interested persons to report to it concerning the effect of its regulations and decisions on the effectiveness of service, economy of service, and availability of service that it has provided.

The Bar's membership is involved in its operations. This operation may include service on one of the ten standing committees or five Alaska Bar Rules committees. It may include participation in one of 23 sections or groups of members with similar specialization (bankruptcy, criminal law, etc).

In addition to the above committees, members of the Bar may be appointed to serve in an adjunct organization, such as the Alaska Legal Services Corporation. Also, special committees are established from time to time by the president with the advice and consent of the board.

The Bar publishes all proposed changes to the Alaska Bar Rules in its quarterly publication, the *Alaska Bar Rag,* which is distributed to all members of the Bar and to interested members of the public. Members are asked to submit any and all comments on proposed rule changes for review by the board.

The board advertises board meetings on the Alaska Public Online Notice system and on the Bar's website. Members of the general public are encouraged to make comments and adequate time is allotted at all meetings.

Determine the extent to which the board, commission, or agency has encouraged public participation in the making of its regulations and decisions.

In addition to the three public members who serve on the board, non-attorneys serve on disciplinary hearing committees and fee arbitration panels throughout the State.

As mentioned above, the Bar publicly advertises meetings of the board. Time is allotted at all board meetings for public comments. However, some board meetings did not have adequate public notice. Further discussion on public notice of the conference call board meetings is in Recommendation No. 3.

Determine the efficiency with which public inquiries or complaints regarding the activities of the board, commission, or agency filed with it, with the department to which a board or commission is administratively assigned, or with the office of victims' rights or the office of the ombudsman have been processed and resolved.

The Bar is an instrumentality of the State, but is not administratively assigned to any department. However, the Alaska Supreme Court exercises a great degree of oversight. Two complaints specifically involving the actions and activities of the board were filed with and investigated by the Office of the Ombudsman during July 1, 2006 through June 30, 2008. The investigations were closed due to the Ombudsman not having jurisdiction over the activities of the Bar.

There were no complaints filed with the Office of Victim's Rights against the board from July 1, 2006 through June 30, 2008.

The board has a lawyer discipline process for investigation of grievances alleging attorney misconduct. If a grievance does not result in an investigation being opened by the bar counsel, the complainant may ask for that decision to be reviewed by the board discipline liaison. Additionally the Supreme Court may review decisions made by the bar counsel or the liaison, though this is done rarely.

Sanctions are imposed on those found in violation of the Rules of Professional Conduct. The Supreme Court reviews only the most serious disciplinary actions, such as public censure, disbarment, suspension, or probation. Other disciplinary cases are not subject to Supreme Court review. These sanctions would include written private admonition and board reprimand. This process for professional discipline was developed through a cooperative effort of the Alaska Supreme Court, the board, Bar staff, and a review team from the American Bar Association's Standing Committee on Professional Discipline.

The Bar receives an average of 228 complaints annually. Analyses of the complaints filed during July 1, 2006 through June 30, 2008 shows that all were reviewed, but relatively few were pursued beyond the initial investigation. Approximately 80% of the grievances received were not accepted for investigation due to lack of merit. The Bar estimates that 10 to 15 appeals are reviewed annually by the board discipline liaison, and 1 or 2 reviews by the Supreme Court.

Over 650 grievances were filed during 2006, 2007, and 2008,[5] resulting in 143 cases being opened and the remaining grievances were not accepted. The investigations resulted in thirty-two cases[6] with sanctions against a total of twenty-one attorneys. Four attorneys were disbarred, seventeen were suspended, three were publicly and two were privately reprimanded, five received private admonition, and one was publicly censured. Discipline statistics are shown in Appendix B. Closure of grievance cases with sanctions such as disbarment, suspension, public censure, public reprimand, and admonition appear reasonable.

Board procedures provide for public notice of all attorneys who have been disbarred, suspended, put on probation, publicly censured, or reprimanded. The names of these attorneys are published in four major newspapers throughout the State, the local newspaper where the attorney practiced, the *Alaska Bar Rag*, and in the board's annual report. Notice of all disciplines imposed by the court, all orders granting reinstatements, and all public reprimands are transmitted to the American Bar Association's National Lawyer Regulatory Data Bank. However, as discussed in Recommendation No. 2, the board does not publish the names of lawyers who were suspended, disbarred, publicly reprimanded or censured on their website.

Determine the extent to which a board or commission that regulates entry into an occupation or profession has presented qualified applicants to serve the public.

The board admits applicants to practice law through an examination process that was designed in consultation with a national expert. Admission is contingent on the following:

- Passing the Alaska Bar Examination.
- Passing the Multi-state Professional Responsibility Examination.
- Passing character investigation to determine if the applicant is of good moral character.
- Attendance[7] of a mandatory three hour ethics presentation by the board.

[5] Complaints received for 2008 include January 1 through June 30.
[6] A single attorney may have multiple cases filed against them.
[7] This requirement may be fulfilled by watching the ethics videotape and signing an affidavit.

The board also admits members by motion for reciprocity. This option is limited to attorneys in the active practice of law for five of the last seven years in the 33 states with which Alaska has a reciprocal agreement.

Examination and admission statistics are shown in Appendix C.

Per Bar Rule 65, in order to promote competence and professionalism, the Alaska Supreme Court and the Bar encourage all members to engage in continuing legal education (CLE).

Supreme Court issued Order No. 1640, which amended Bar Rule 65, to require all active Bar members to complete three credit hours per calendar year of approved mandatory ethics continuing legal education (MECLE). In addition, all active Bar members are encouraged to engage in nine hours per calendar year of approved voluntary continuing legal education (VCLE). This order became effective January 1, 2008.

The Supreme Court Order No. 1640 also added Alaska Bar Rule 66 for the suspension of members who have not complied with completing the required MECLE or members who failed to report the MECLE and VCLE for the year.

The Bar offers CLE for its membership and maintains an educational library. The majority of live CLE programs are presented and video taped in Anchorage. For lawyers located outside of Anchorage, the Bar has regularly scheduled video replays in Juneau, Fairbanks, and Kenai. Also available are DVDs and CLE materials for purchase through the Bar's online CLE library catalog.

In 2006, the Bar partnered with the online CLE provider LegalSpan to develop online CLE seminars and live webcasting of selected programs. The Bar presented 10 live webcasts in 2007. All of the video taped live seminars are also available as online CLE through LegalSpan.

Determine the extent to which state personnel practices, including affirmative action requirements, have been complied with by the board, commission, or agency to its own activities and the area of activity or interest.

The board allows special accommodations for applicants who have been determined to have disabilities.

We did not find any evidence that the board was not complying with state personnel laws, including affirmative action in qualifying applicants for licensure. In no instance did the board deny an applicant a license based on personal attributes.

Determine the extent to which statutory, regulatory, budgeting, or other changes are necessary to enable the agency, board, or commission to better serve the interests of the public and to comply with the factors enumerated in this subsection.

Please refer to the Findings and Recommendations and Auditor's Comments sections of this report.

Determine the extent to which the board, commission, or agency has effectively attained its objectives and purposes and the efficiency with which the board, commission, or agency has operated.

Article I Section 3 of the Bar bylaws sets out the purposes of the Bar which are:

1. To cultivate and advance the science of jurisprudence.
2. To promote reform in the law and in judicial procedure.
3. To facilitate the administration of justice.
4. To encourage legal education for the membership.
5. To increase the public service and efficiency of the Bar.

To achieve these purposes, the Bar has established and maintains various committees and performs certain functions. For example, the Bar maintains a Law Related Education Committee to present programs to the community and school system to aid in the understanding of the law and legal system. The committee is divided into subcommittees in Anchorage, Fairbanks, Juneau, Kenai, Matanuska-Susitna, and other communities where the board president sees the need to appoint a subcommittee.

The board appoints three attorneys to serve staggered six-year terms on the Alaska Judicial Council (Council). The Council recommends candidates for judicial office and conducts studies for the improvement of the administration of justice in Alaska. Council members survey, investigate, and evaluate incumbent justices and judges standing for retention. The evaluation is published in the Lieutenant Governor's Official Elections Pamphlet. They are also involved in screening of applicants for the state public defenders' office.

The Bar's CLE committee, consisting of 15 members, assists the CLE director in overseeing the presentation of substantive legal education programs to educate Alaskan lawyers about developments in the field of law, and emphasize their ethical responsibilities. The Bar has conducted 68 live, 2 satellite, 15 webcasts, and 36 conventions for CLE presentations for 3,926, 4,820, and 1,976 attorney participants from calendar year 2006 through 2008,[8] respectively.

Determine the extent to which the board, commission, or agency duplicates the activities of another governmental agency or the private sector.

[8] Data is presented as of June 30, 2008.

The board does not duplicate the activities of another governmental agency. However, many of its activities are those typically performed by a professional association. As discussed earlier, some of these more typical private sector activities include such things as fee arbitration, referral services, and sponsorship of a pro bono program.

APPENDICES

Alaska Bar Association
Funds

The Alaska Bar Association (Bar) maintains three separate funds for accounting and reporting purposes. These include a General Fund, the Lawyers' Fund for Client Protection, and the Court System Library Fund. The following describes these funds and their purpose.

- General Fund – This fund is the Bar's operating fund. It accounts for the financial resources and transactions not accounted for in other funds.

- Lawyers' Fund for Client Protection – In accordance with Alaska Bar Rules promulgated by the court system, this fund is maintained solely for the purpose of making reimbursements to clients who have incurred non-insured losses of money or property as a result of dishonest conduct by attorneys. Related trustee counsel compensation may be paid from this fund under certain circumstances.

- Court System Library Fund – This fund is maintained by the Bar, pursuant to a cooperative agreement with the Alaska Court System and the Anchorage Bar Association. The purpose of the fund is to account for the portion of receipts generated from copying services provided in the Anchorage Law Library that are to be used for purchasing legal research resources for the Alaska Court Libraries as designated by the State Law Librarian.

The financial information of Bar funds is from the Bar's audited financial statements for 2007.

Alaska Legislative Audit #41-20057-08 Alaska Bar Association Sunset June 30, 2009 recommends Alaska Bar Association extension. The Audit is online at http://www.legaudit.state.ak.us/pages/digests/2008/20057dig.htm

****

ALASKA BAR ASSOCIATION SHOULD BE SUNSET JUNE 30, 2009 during Alaska 50th Anniversary of Statehood year for the foreseeable future while Alaska Legislature has time to analyze the two essential functions of admissions and discipline. Alaska has unique circumstances as the only state without a law school or any elected attorney. Legislative Audit #41-20057-08 is a "white wash." Sunset should be reevaluated by 26th Alaska Legislature 2nd Session. Please review the "Summary" of the Audit "four objectives of our report" including the termination date extension of Board of Governors Alaska Bar Association (Board), whether the Board is operating in the public interest, to determine if the Board has exercised appropriate oversight of licensed attorneys, and to provide current status on the recommendations made in the prior report. Board of Governors Alaska Bar Association demonstrate none of these objectives at the present time. Ms. Patricia Davidson, Alaska Legislative Auditor, is unable to write the essence of the lack of accountability of Alaska Bar Association as she is a public employee without legal recourse. Alaska Bar Association Audit is the most important of all the State of Alaska Audits done because if any other Alaska professional has a problem with licensure in his/her profession, the applicant must hire a licensed Alaska attorney in order to appeal. Only Alaska Legislature can create accountability of Alaska Bar Association. Major issues follow:

1. American and Alaskan Jurisprudence

Please specifically review Page 19 of Alaska Bar Association Audit #41-20057-08. Article I Section 3 of the Alaska Bar Association Bylaws sets out the purposes of the Alaska Bar which are:

"1. To cultivate and advance the SCIENCE OF JURISPRUDENCE." (Emphasis added.) "Jurisprudence is the philosophy of the law or science . . . which has for its function to ascertain the principles on which legal rules are based . . . (in order to) produce the greatest advantage to the community" according to Black's Law Dictionary. Please see "In Re Obermeyer II

8/23/00" and In the Matter of the Application of Thomas S. Obermeyer 717 Pacific Reporter 2d 382, 57 American Law Reports 4th 1195 (Alaska 4/18/86), both of which can be found at http://www.state.ak.us/courts "Appellate Courts" "Alaska Case Law Precedent since 1960," Thomson-West page, "By Party Name" "Obermeyer." THESE CASES ARE AMERICAN AND ALASKAN JURISPRUDENCE.

2. Alaska Bar Association Admission by Reciprocity Gives More Rights to Out of State Attorneys than Alaska Attorneys

The current Alaska Bar Rules of Alaska Bar Association give an Alaska law license to any applicant by reciprocity if he/she has been licensed by written Bar Exam in the 33 of 50 reciprocal states, pays $1,500, and gets three letters from clients in the preceding state that the applicant has practiced law there for 5 out of the last 7 years. Alaska Active Out of State attorneys number over 18% of the Total Alaska attorneys or 530 out of 2,938 per Todd Communications Alaska Directory of Attorneys Fall, 2008 Page 2. **July, 2006-June, 2008 per the "Audit" Page 31, 45% of Alaska Bar Association admission has been by reciprocity – most of whom have never set foot on Alaska soil judging by their current addresses.** Why do these out of state applicants want reciprocity here? Obviously, these attorneys are making money off Alaska. Another almost 30% of Alaska In State Active Attorneys work for the Government per Directory Spring, 2008 Page 64.

Alaska Bar Exam, "a test of minimal competency," has an average 63% passage rate July, 2006-June, 2008 per Page 31 of the Audit. Alaska has as high requirements as any state in the U.S. for sitting for this Alaska Bar Exam but presumably has the lowest passage rate of the 50 states of Bar Association applicants, all of whom went to American Bar Association accredited law schools.

If 45% of Alaska Bar admissions currently are by reciprocity to those who overwhelmingly are not Alaska residents, what will the number be if Alaska Legislature goes along with the Audit recommendation and continues Alaska Bar Association without review until June 30, 2017 or eight long years?

3. Current licensure by exam or reciprocity does not assure competence, ethical behavior, protection, or service to the public. Board of Governors Alaska Bar Association (Board) offers no alternatives.

Massachusetts Supreme Judicial Court has allowed a Massachusetts Bar applicant who graduated from an on-line law school owned by testing-prep company, Kaplan, Inc., to sit for Massachusetts Bar Exam. See Ross E. Mitchell vs. Board of Bar Examiners, SJC-10157, September 3, 2008 – November 20, 2008. The applicant was allowed to take and pass the California Bar Exam, a state which allows applicants to sit for this Exam from unaccredited law schools. What does this tell the Alaska public about bar exams? About competency to practice? About ethics? About dealing with clients, peers, and the courts in a timely and courteous way? If the practice of law boils down to one exam, one score on one sheet of paper, does it truly protect the public and inspire confidence, when a legal education was acquired at whatever rate of speed on-line? Mr. Mitchell has made both Alaska's licensure practices and American Bar Association accredited law schools' three years of Socratic Method teaching archaic. At Alaska Statehood 1959 and after, some attorneys and judges obtained Alaska law licenses by clerking for the court without having gone to law school at all. The on-line law degree points out that there are alternatives to practice that Alaska Bar Association is unwilling to visit.

Unlike all the other 49 states, Alaska Bar Association Board of Governors offers no alternative methods of admission like a possible clerkship at a law firm or for a judge, even after the Alaska Bar applicant has faithfully obtained American Bar Association 3 year law school education. Furthermore, the Alaska Bar Rule 2.2(b)(3) disallows admission by reciprocity if applicants have failed Alaska Bar Exam in the last five years even if licensed by written Bar Exam in a reciprocal state. This harms Alaska residents who live and work in Alaska and only highlights the unfairness of reciprocity applicants from 33 states who have never sat for the Alaska Bar Exam simply paying

$1,500 to be licensed here. On point is Ms. Marla Greenstein, who as Executive Director, Alaska Commission of Judicial Conduct since 1982, was admitted by reciprocity in 1997 without having ever taken the Alaska Bar Exam. There are others including Ms. Angela O'Brien, licensed by reciprocity on September 30, 2008, who live in Alaska but have not taken Alaska Bar Exam. Alaskans currently would be fools to take Alaska Bar Exam with our low passage rate by going through our established Alaska Bar Association channels. The shrewd approach is to circumvent Alaska Bar Exam and become licensed in Alaska by reciprocity which is easier. Ms. Greenstein, Ms. O'Brien, and the others only had to have been licensed by written Bar Exam in a state that has reciprocity with Alaska and presumably proved in some perfunctory way that they had practiced five of seven years in their state of previous admission.

By contrast, Thomas S. Obermeyer, Alaska resident for 30 years and Attorney, licensed since 1990 by similar Missouri Bar Exam, a state that presumably has reciprocity with Alaska, has dedicated himself in good faith having paid for, studied for, and taken Alaska Bar Exam 34 times most recently "failed" on October 30, 2008 over an almost 25 year period in an effort to create fair Alaska law licensure. Tom has only chosen to go through the established process to obtain his Alaska law license and begin with his legal career. The lack of assistance given to Tom Obermeyer over such a long period of time shows how outrageously unfairly one Alaska Bar applicant could have been treated while seemingly everyone else is given favorable treatment.

4. Fairness to Alaska Bar Applicants for Admission

Please review attached "Draft Bill Authorizing Admission of Reciprocal Applicants to Alaska Bar Association" which can be downloaded at http://www.tobermeyer.info/pdfs/26thAKLeg1stSess2009.pdf and the precedent, "Laws of Alaska 1966 HB 520 Chapter 144 An Act-Authorizing the Department of Labor to enter into reciprocal agreements with other states regarding wage claims; and providing for an effective date," that can be downloaded at http://www.tobermeyer.info/pdfs/LawsofAK.pdf. The current practice of Board of Governors Alaska Bar Association penalizes local licensed attorneys who are admitted by Bar Exam in the 33 reciprocal states. "DRAFT Bill Authorizing Admission of Reciprocal Applicants to Alaska Bar Association" would change this practice that currently gives more rights to attorneys who have never landed on Alaska soil. Do Alaskans want those from other states to have more rights than we have? Does the "DRAFT Bill" protect the Alaska public?

5. The current Financial Position, Revenue, and Expense statements of Alaska Bar Association are jumbled and combined to confuse and hide actual expenses in the "ivory tower" Atwood Building #1900 in Anchorage.

The Audit fails to delineate details of operating expenses and personnel assigned to each activity, and it fails to list salaries of Executive Director, Bar Counsel, other attorneys and staff. RESULT: THE QUASI-GOVERNMENTAL ALASKA BAR ASSOCIATION HAS NO GOVERNMENTAL SUPERVISION. Auditor Patricia Davidson did not so much as discuss the details of Alaska Bar Association Operating Budget information in her Appendices. The salaries and travel of the Alaska staff attorneys of Alaska Bar Association especially Ms. Deborah O'Regan and Mr. Stephen Van Goor, who have been employed at Alaska Bar Association since 1980 and whose salaries the Obermeyers have been paying since 1984, are not included. **By contrast, when bills authorizing governmental activity are introduced in Alaska Legislature, attached are fiscal notes with personnel costs.**

The Alaska Supreme Court should take over the Alaska Bar Association as a governmental body for the foreseeable future.

Admissions

If Alaska Supreme Court administers both exams and admission by reciprocity, there would be better communication between Alaska Bar Association Board of Governors and the Court, fewer

admissions by reciprocity, more fairness and alternative options for admissions, better treatment of Alaska applicants, and more public trust. This would be an interim solution that should be tried for a year at a time with analysis by Alaska Legislature to see if it is working.

Alaska State Court justices/judges should be more fully scrutinized as well. I will update http://www.tobermeyer.info/asj.html which shows Alaska justices/judges got 50% salary increases per CSSB237 in 2006. Another increase was implemented by 25th Alaska Legislative 2nd Session SCS CSHB 417(FIN) Section 20 (a) (b) and (c). Research should be undertaken to analyze how many State of Alaska justice/judges are appropriate based on Alaska population and Alaska Bar Association membership. At the moment, becoming Alaska State Court justice/judge is much more coveted than actively practicing law as an Alaska attorney advocate. There is "Alaska Judicial Retirement System" through Alaska Retirement Management Board under Alaska Department of Revenue. Is there Alaska Judicial Retirement System Board? There should be more analysis of our Alaska State Court justices/judges by Alaska Legislature.

Discipline

Ms. Davidson indicates that discipline should be controlled by Alaska Supreme Court. Suspensions and disbarments are already submitted to the Supreme Court, but complete supervision of discipline should be imposed by the court. In many states there is a separate Office of the Disciplinary Counsel with a separate Board.

In the Alaska Bar Audit there is no discussion of "Citizen Complaints" against Alaska attorneys to Alaska Bar Association. The reader is expected to believe that there are no Alaska citizen initiated complaints at all to Alaska Bar Association. I have direct experience in this area per http://www.tobermeyer.info/pdfs/VanGoor41505.pdf about the lack of any discipline whatsoever at Alaska Bar Association regarding the 30 lengthy complaints that I filed at Alaska Bar Association 1993-2003. I would be pleased to produce the three boxes of comprehensive timely stamped filings with lengthy transcripts of my 30 complaints against licensed Alaska attorneys which resulted in my worse treatment by more Alaska attorneys. In other words, I am positive today that every complaint I filed was used against me.

Regarding Alaska Attorney "Discipline Function" per Page 3 of the Audit, I am aware that very high profile Alaska attorneys who have been convicted in courts of law of criminal offenses after pleading "No Contest" have not been disciplined by Alaska Bar Association including Mr. Robert C. Ely and Mr. Mitchell Gravo. Former Alaska Attorney General Gregg Renkes resigned February 5, 2005 over a highly publicized conflict of interest but was never disciplined. He is a licensed Alaska Active Out of State attorney today. I have observed Board of Governors "throwing the book" at a handful of unknown Alaska attorneys in private practice whose ethical lapses are grave but these attorneys do not have criminal convictions from a court of law. I have not observed any semblance of consistency in "Attorney Discipline" for sanctions for similar offenses. All are approved by Alaska Supreme Court which is ultimately responsible for equitable fairness and justice in the practice of law.

The current discipline procedures of Alaska Bar Association are probably a primary reason why Alaska has the highest number of government attorneys in the U.S. in addition to the fact the Alaska attorney government employment is exceedingly lucrative offering excellent benefits and outstanding retirement packages. Alaska Legislature should get the salaries and benefits packages for the 576 or more State of Alaska attorneys out of a total 705 including State of Alaska, Municipal, and U.S. Government attorneys. State of Alaska attorneys are 82% of the total of all Alaska In State Government attorneys. In Spring, 2008 30% of the total of 2,395 Alaska In State attorneys were employed by the Government according to Todd Communications Alaska Directory of Attorneys. Fall, 2008 stopped publishing the number which probably exceeds 30% at this time.

Continuing Legal Education

So far, voluntary CLE in Alaska has been a farce. Regarding "Findings and Recommendations" of Audit #41-20057-08, no specific recommendation was made about how many hours of Mandatory Continuing Legal Education (MCLE) should be required for practicing Alaska attorneys. Ms. Davidson wrote on Page 7 of the "Audit" that 41 of the 50 states have MCLE. To date, 3 clock hours of Mandatory Ethics Continuing Legal Education (MECLE) began on January 1, 2008 and "has teeth" in that there are sanctions for non-compliance to be imposed after January 1, 2009 per Alaska Supreme Court Order No. 1640. Alaska Legislature should ask for a full report on how the newly concluded December 31, 2008 MECLE went. To my knowledge, all other professions in Alaska have much longer and expensive mandatory requirements for continuing licensure. Alaska Bar Association should do so as well. At least twelve hours of mandatory MCLE would improve the profession greatly in Alaska. It would also assure collegiality among lawyers and impose a sense of purpose and ethical public service. Ethics training is important but most attorneys know right from wrong long before they deviate from the norm.

I follow actively Alaska Bar Association activities and this Audit is the first I have known that a "Bar CLE Committee consisting of 15 members assists CLE director" Page 19 exists. What I know is that Ms. Barbara Armstrong, CLE Director since about 1980, was President, American Continuing Legal Education Association, about 10 years ago when Alaska Bar did not require Continuing Legal Education and many years prior to January 1, 2008 MECLE three clock hours implementation.

There is a Law Related Education (LRE) Committee of Alaska Bar Association which to my knowledge only gives money to K-12 education. I applied for three grants including "Keep the Kids in School Initiative Anchorage School District," "Alaska Permanent Fund Board Confirmation Committee," and "Fair Alaska Law Licensure" on January 10, 2007 to Ms. Barbara Hood, Alaska Teaching Justice Network. All were rejected by Ms. Barbara A. Jones, Chair, LRE Committee on January 31, 2007. In 2008 I was unable to find out when the LRE grant applications were due. I intend to apply again by January 16, 2009 but will be applying to Ms. Deborah O'Regan, Executive Director, instead of the Chair, LRE Committee. Ms. O'Regan is in control of the entire process.

Ethics Reform was presumably implemented in 25th Alaska Legislature 1st Session. There can be no Ethics Reform unless Alaska Bar Association is improved. I filed Complaint AGO File No. 661-08-0157 in September, 2007 which was a paper copy of Alaska Permanent Fund Board Confirmation Committee per http://www.apfboardconfirmation.org to Ms. Julia Bockmon, State of Alaska Attorney General's Office, requesting an investigation. Instead, I got a letter dated November 30, 2007 from Ms. Bockman copying Mr. Michael J. Burns, Attorney who has never attempted to be licensed to practice law in Alaska, former Chair, University of Alaska Board of Regents, and current Executive Director, Alaska Permanent Fund, stating "Further statements regarding the existence of your complaint or our investigation may result in penalties for violation of the Executive Branch Ethics Act." In other words, I was threatened with economic sanctions for filing the complaint.

Conclusion

Alaska Bar Association offices and personnel should become a State of Alaska governmental agency under direct supervision of Alaska Supreme Court with annual governmental budgets subject to Alaska Legislative scrutiny for the immediate future. This decision should be subject to review yearly.

Alaska Legislative Audit #41-20057-08 does little to dig into the details of the operation of the Alaska Bar Association. The Audit does not recognize that Alaska Bar Association fails in several of its intended purposes as stated on Page 19 because Alaska Bar has the benefit of governmental protection without direct daily governmental oversight. Alaska Bar does not advance jurisprudence and justice; increase public service and efficiency of the bar; promote reform in the law and procedure; or mandate substantive legal education. The Audit proposes more public notice and participation of public in teleconference meetings but the public is afraid of Alaska Bar so public

notice and participation of the public in teleconferences will have no effect. Nothing could serve the public more than to make Alaska Bar functions a matter of total government control. Are the employees of the Alaska Bar Association staff, Bar Counsel, Executive Director, etc., the beneficiaries of State retirement and medical benefits? This should have been explained fully in the Audit but is not addressed.

Public participation currently is discouraged at all levels. When my husband, Thomas Obermeyer, Missouri Attorney since 1990, appeared before the Senate Judiciary Committee in May, 2007 regarding sunset of the Alaska Bar Association, he was the only person to appear. Bar Counsel Stephen Van Goor was on line by teleconference. When Tom asked for time to contradict Mr. Van Goor's statements, Hollis French, still current Alaska State Senate Judiciary Chair, cut him off. The minutes of the meeting were never transcribed. Would anyone be more articulate than Tom Obermeyer who had in 2007 weathered 23 years and 30 Alaska Bar Exam "failures?" This was the same Hollis French who as a State of Alaska Prosecutor charged and prosecuted me in State of Alaska/Hilton Anchorage vs. Theresa Nangle Obermeyer 3AN-S98-2211 CR for over nine months until I was acquitted in a seven day jury trial on November 10, 1998. How much did that cost?

In my case, I have been defamed endlessly by Alaska corrupt media which is about 95% owned in many Lower 48 states because I continue to believe that I have a right to attend a public meeting. I was jailed over night in a set-up orchestrated by Ms. O'Regan and Mr. Van Goor when Board of Governors was at court on January 15, 1999. If a person dares to go to an advertised "public meeting," he/she is made to look foolish and is targeted. I have lived this fact for many years. Governor Sarah Palin nominated me December 2, 2008 http://www.tobermeyer.info/pdfs/fbresponse.pdf for a position as a "Public Member" Board of Governors Alaska Bar Association. I hope that I will be appointed.

Alaska Bar Association has the best of both worlds – private and quasi-governmental. Currently, Alaska Supreme Court "rubber stamps" admissions and discipline actions and no Alaska State Agency oversees the Board's operations. This has to change. Alaska Bar dues are among the highest in the nation because Alaska attorneys do not want any competition. The Board allows the employees to lavish themselves with high salaries, travel, and plush offices as long as competition is limited. Alaska Active Out of State attorneys are very weak and totally depend on the handful of local Alaska attorneys who control everything that goes on in Alaska. Substantive truth and real numbers never surface.

This document is meant to create much more discussion about Alaska Bench and Bar. Alaska Legislature must send a strong message to Alaska Bar Association that "the light of day" will shine on its totally unaccountable practices that hurt all Alaskans.

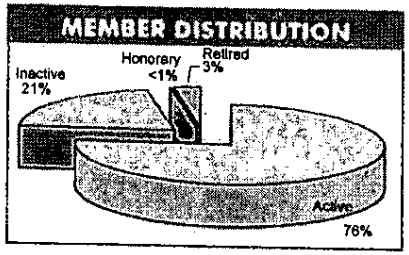
Introduction & Overview

In 2007, the Alaska Bar Association had 3,865 members in the following categories: 2,931 Active (2,406 In-state and 525 Outside), 825 Inactive, 108 Retired, and 1 Honorary. Its affairs are governed by a 12-member Board of nine attorneys and three non-attorney citizens. A (non-voting) New Lawyer Liaison also advises the Board.

Written guidelines for governance are contained in the Integrated Bar Act, the Alaska Bar Rules (promulgated by the Supreme Court of Alaska), the Alaska Rules of Professional Conduct, the Association's Bylaws and Regulations, the Board of Governors' Policy Manual, and a Personnel Manual.

The two most important functions of the Bar are the admission and discipline of its members, both of which are carried out under the supervision of the Supreme Court of Alaska.



There are presently 9 standing committees, 23 sections, 5 bar rule committees, and special committees as appointed by the Board. In addition, the Bar Association participates in a number of adjunct organizations and administers special projects, such as the Statewide Lawyer Referral Service. More than half of the membership participates, voluntarily and without remuneration, in the affairs of the association.

The staff of the Alaska Bar has grown from a part-time, volunteer executive secretary when it was founded in 1968, to 19 employees.

The association is primarily funded by its membership's annual dues, continuing legal education program registration fees, admissions, the annual convention, the Lawyer Referral Service, and interest income. The Association received no public monies in the 2007 fiscal year.

Principal Activities

• Bar Examination

The Alaska Bar Examination is conducted twice annually in Anchorage, Fairbanks and Juneau. It consists of: 1) one day of essay questions on Alaska law prepared by a permanent

"The two most important functions of the Bar are the admission and discipline of its members, both of which are carried out under the supervision of the Supreme Court of Alaska."

Admissions

All applicants are required to attend a course on ethics as prescribed by the Board prior to admission.

All applicants must also submit an affidavit that they have read and are familiar with the Alaska Rules of Professional Conduct. (Bar Rule 64)

committee of the Association known as the Alaska Law Examiners; 2) two half-days of objective, multiple choice questions (the Multistate Bar Examination or "MBE"), prepared by the National Conference of Bar Examiners (NCBE) and administered simultaneously in 48 states and D.C.; and 3) a half day of the performance test (the Multistate Performance Test or "MPT") prepared by NCBE.

In addition, a Multistate Professional Responsibility Exam (MPRE) is given separately three times a year (March, August, and November).

In 2007, 129 individuals took the Bar Exam and 78 passed the exam.

Admission Without Examination

Bar Rule 2, Section 2 provides an admission without examination rule, with reciprocity provisions. An applicant who has taken a written bar exam in a reciprocal jurisdiction and has engaged in the active practice of law for five of the previous seven years may be eligible for reciprocal admission.

In 2007, 43 applicants were approved for admission without examination.

• Discipline of Members

The Alaska Supreme Court has held that an attorney's license to practice law is "a continuing proclamation by the Court that the holder is fit to be entrusted with professional and judicial matters...as an officer of the courts." Investigation and recommendations for professional conduct matters have been delegated by the Court to the Bar Association.

Expenditures for the Discipline Section totaled $664,488 during 2007, a substantial allocation of Bar Association resources for the protection of clients, the public, and the legal system in Alaska.

2007 Grievances

The Discipline Section received 264 grievances in 2007, compared with 190 in 2006, representing a 39% increase. Summary statistical data related to discipline status are contained in the charts.

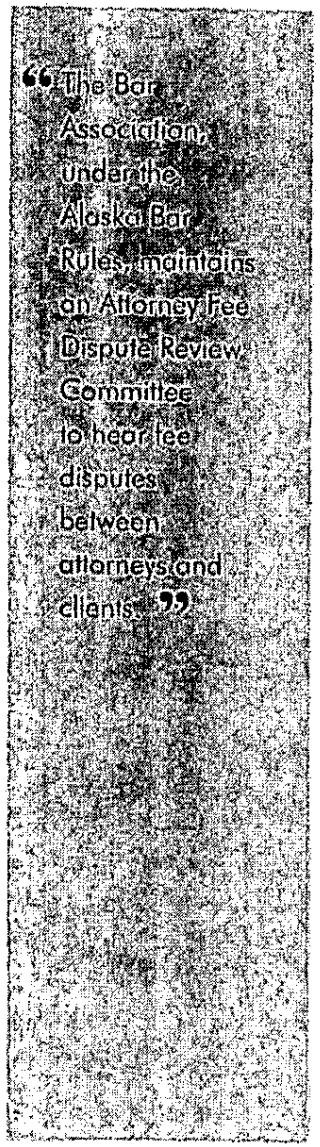
Summary of Public Discipline Actions in 2007

- The Alaska Supreme Court disbarred William S. Labahn effective September 14, 2007 and Mitchel J. Schapira effective November 21, 2007.
- The Court suspended Larry A. Wiggins for 180 days with 90 days stayed on conditions effective June 25, 2007.
- The Court issued a public censure to Anthony L. Strong effective August 22, 2007.
- The Court interimly suspended Mark J. Avery effective April 17, 2007.
- The Disciplinary Board publicly reprimanded James A. Wendt effective October 26, 2007.



Summary of Reinstatement Actions in 2007

A suspended or disbarred attorney may be reinstated by the Alaska Supreme Court, but only after the appropriate review procedures are followed.

The Court reinstated Eugene B. Cyrus effective March 23, 2007.

Summary of Disability Actions in 2007

The Rules of Disciplinary Enforcement also anticipate circumstances where the need for protection of the public arises from mental or physical infirmity, illness, or addiction to controlled substances.

Ronald W. Lorensen was transferred to disability inactive status due to a physical disability effective February 14, 2007. Unfortunately, Mr. Lorensen passed away on March 29, 2007. Clifford W. Holst was transferred to disability inactive status due to a physical disability effective March 30, 2007.

• The Attorney Fee Dispute Review Committee

The Bar Association, under the Alaska Bar Rules, maintains an Attorney Fee Dispute Review Committee to hear fee disputes between attorneys and clients where such disputes have not been determined by statute, court rule, or decision. Five subcommittees residing in Ketchikan, Juneau, Anchorage, Kenai and Fairbanks comprise the Committee. Each subcommittee consists of a "pool" of attorney and non-attorney members who serve for three years on a volunteer basis. From these subcommittees, a panel of two attorneys and one non-attorney is convened to hear a fee dispute. If the amount in dispute is $5,000 or less, a single panel member hears the matter.

• The Lawyers' Fund for Client Protection Committee

The Bar Association maintains a fund for the purpose of reimbursing attorneys' clients who have suffered non-insured losses of money, property, or other things of value, as a result of dishonest conduct by attorneys. Dishonest conduct is defined as acts of embezzlement, wrongful taking, or conversion of money, property, or other things of value. The fund also pays the cost of trustee counsel appointed by the superior court to close the practice of a deceased sole practitioner or a lawyer who has abandoned his or her practice. The monies of the fund come from yearly assessments on active members, paid concurrently with membership dues, as well as interest earned on the fund balance.

At the close of 2007, four (4) claims were pending before the LFCP Committee. The Committee and the Board of Governors took action on 21 claims during the year.

2007 LFCP Actions

Case Number	Reimbursement(s) Paid by Board	Reimbursement(s) Rejected by Board	Reimbursement(s) Rejected by LFCP Committee

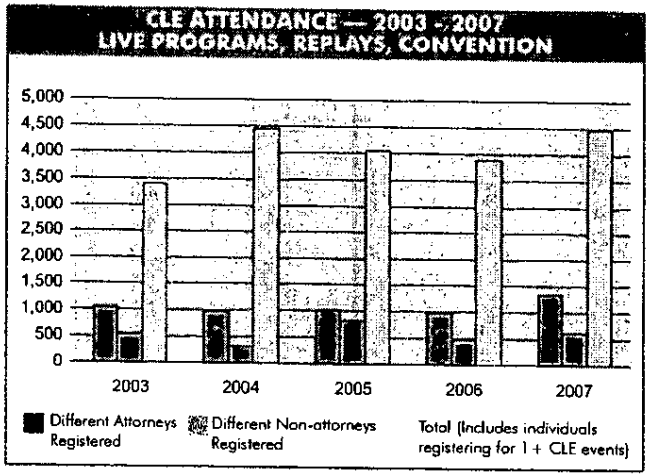
*These figures reflect reimbursements from the Fund which may be less than the amount requested by the claimant.
**Withdrawn when attorney agreed to pay claimant.

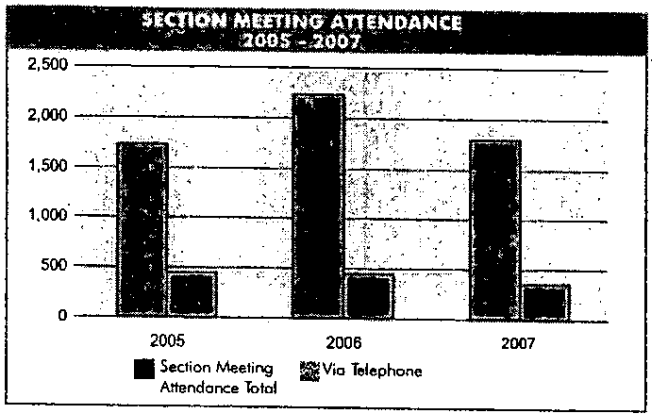
• Continuing Legal Education (CLE)

The Continuing Legal Education Committee and the Association's Director of Continuing Legal Education are responsible for presenting and administering all CLE programs and activities, including the CLE Library.

The substantive law sections of the Bar Association are responsible for sponsoring a minimum of one CLE seminar every two years. In 2007 there were 23 active substantive law sections, with a total membership of 2033 for all sections, an increase of 608 members over 2006 membership.

The majority of live CLE programs are presented in Anchorage, which has the largest concentration of lawyers in the state. All of these programs are videotaped.





Alaska Bar CLE Attendance

In 2007, registrations for CLE programs and events totaled 4,463.

Attendance at CLE programs totaled 2,110 (including 122 speakers), and 528 individuals attended one or more convention events.

Section Meeting Attendance

In addition, 1,439 attorneys attended in person and 359 participated by telephone in the Bar's substantive law sections' meetings. Attendance declined slightly in 2007 due to several sections opting to meet quarterly vs. monthly.

VCLE Compliance

A total of 1,096 active members of the Bar reported compliance with the VCLE Rule for the period of Jan. 1 - Dec. 31, 2007.

To provide CLE opportunities for attorneys practicing outside of Anchorage, the Bar has regularly scheduled video replays at law firms in Juneau, Fairbanks, and Kenai, as well having DVDs and CLE materials available for purchase through our online CLE Library Catalog. In 2006, the Bar began its partnership with the online CLE provider LegalSpan to develop online CLE seminars and live webcasting of selected programs. The Bar presented 10 live webcasts in 2007, and all of our videotaped live seminars are available 24/7 as online CLE through our online provider. The goal is to increase the number of programs we webcast live and to continue to add to our online CLE selections.

The Alaska Bar CLE program continues to work with Seattle University School of Law CLE and Summer Law School Programs. Faculty of the Seattle University's Summer Law Program at UAA meet with the Bar's substantive law sections, and section members make presentations to the law students enrolled in the program.

Live Webcasts	—	—	—	—	10

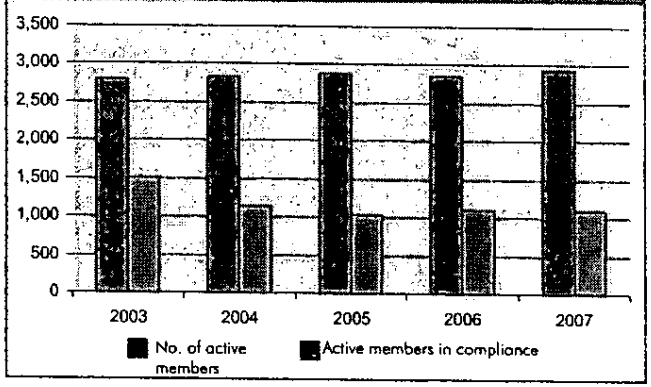
*"Don't Cross That Line: Practicing Ethically and Successfully In Your First Years – A Mandatory Course for New Lawyers in Alaska," a 1.5 hour DVD, is required viewing for admission to the Alaska Bar. Group video replays are scheduled in the spring and fall in Anchorage, and admittees may also view the DVD individually.

• Voluntary Continuing Legal Education (VCLE) – Final VCLE Year

The Voluntary CLE Rule, originally a three-year pilot project, became effective on September 2, 1999 and recommended a minimum of 12 hours of approved CLE credit (including one in ethics) each calendar year. This incentive-based VCLE rule was adopted by the Alaska Supreme Court in response to the rule proposed by the Alaska Bar.

In May 2005, the Board of Governors appointed a Mandatory CLE Task Force, comprised of representatives of the Board, the Alaska Court System, and the Alaska Judicial Council, to study the issue of whether MCLE should be adopted in Alaska. The Task Force subcommittee reports were submitted to the Board of Governors for consideration in January 2006.

VCLE Reporting Statistics — 2003-2007



4301

In September 2006, the Board of Governors voted to amend the Bar Rules to establish an MCLE program in Alaska, and to forward the proposed amendments to the Alaska Supreme Court for approval.

• Mandatory CLE Rule (MCLE)

In December 2007, the Alaska Supreme Court approved a Mandatory CLE Rule (MCLE) effective January 1, 2008. The new MCLE Rule requires all active Alaska Bar members to:

- Complete 3 hours of approved ethics CLE and report completion.
- Report whether the member has completed more than 9 hours of approved general (VCLE) CLE.
- Report an estimate of how many hours of approved general (VCLE) CLE completed if fewer than 9 hours completed.

• Lawyer Referral Service

The Bar Association operates a statewide Lawyer Referral Service for the purpose of providing the general public with names of enrolled active members of the Alaska Bar Association who are in good standing and are willing and able to accept referral clients at a reasonable fee.

Each caller requesting services is given the names of three lawyers in his/her geographic area who are listed in the category requested. Each lawyer pays a $4 surcharge to the Bar Association on each referral made, regardless of

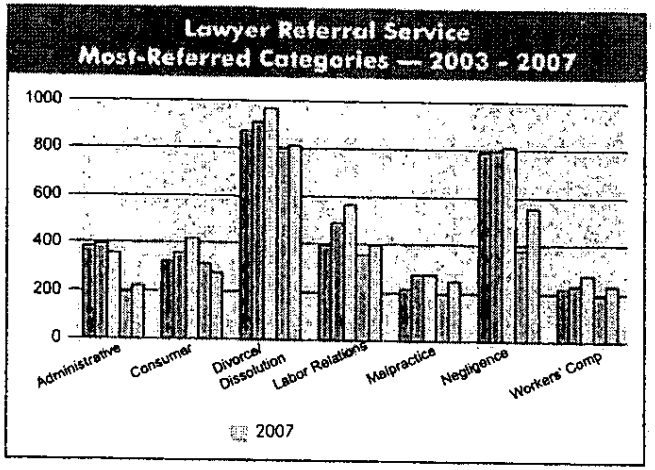
"At the end of 2007, 77 attorneys were enrolled in 33 practice categories in the Lawyer Referral Service with total referrals of 4,134—a 16% increase from 2006."

4302

> "In addition to services associated with CLE, the Bar Association provides other programs to assist members of the Bar in their practices."

whether the caller actually contacts the lawyer as a result of the referral. The first half-hour conference may be charged at a maximum of $50. Thereafter the fee is agreed upon by the attorney and the client.

At the end of 2007, a total of 77 attorneys were enrolled in 33 practice categories in the Lawyer Referral Service, with total referrals of 4,134 a 16 % increase from the 3,468 referrals in 2006.



• Pro Bono Services

The Alaska Bar Association's Pro Bono Director works in partnership with Alaska's legal service providers, the legal community, Pro Bono Services Committee of the Bar Association, and other organizations in Alaska to promote, educate, recognize and recruit attorneys and other professional services to assist low-income citizens. The program serves as an information clearinghouse for the membership regarding volunteer opportunities, resources, training, and other volunteer support services, as well as a point of contact for legal service providers.

Selected as an internship site by Seattle University School of Law since 2006, the program enjoyed the labor of a talented first year law student to help further the issues of pro bono needs in Alaska. Projects included volunteer attorney recruitment, legal literacy curriculum research and development, and organizational capacity building.

Through a partnership with the Anchorage Bar Association's Young Lawyer Section, the Pro Bono Director assisted in the creation, planning, and execution of a project to benefit Alaska's senior citizen population through the development of a legal resources guide. The project was one of eight selected for funding nationally by the American Bar Association and will be complete by July 2008.

In 2007, the Pro Bono Director, accompanied by the Bar President or a member of the Board of Governors traveled to seven communities—Kodiak, Nome, Kotzebue, Kenai, Soldotna, Homer, and Juneau—as an outreach function and to increase volunteerism in smaller communities. The director made presentations to 16 of the 23 substantive law sections, six community groups, assisted in the establishment of Alaska's only language interpreter center and served on the search committee for the organization's new director, spearheaded two community service projects in the areas of tax and estate planning, and presented at two swearing-in ceremonies of new attorneys to further educate them about the need for civil justice representation to Alaska's nearly 80,000 low-income citizens.

• Committees of the Alaska Bar

Substantial work is accomplished through the extensive committee structure of the Alaska Bar Association.

Governance is structured around the Board of Governors and its three major committees, with administrative and day-to-day activity as the responsibility of the Executive Director and staff.

Committees of the Bar include:

- The Bar Rules Committees, which include the Committee of Law Examiners, Area Disciplinary Hearing Committees, the Mediation Panel, the Attorney Fee Dispute Review Committees, the Lawyers' Fund for Client Protection Committee, and Admission Waiver Programs.
- The Standing Committees, including Bar Polls and Elections, Continuing Legal Education, Ethics, Bar Historians, Law Related Education, Pro Bono Services, Lawyers' Assistance, Fair & Impartial Courts, and Alaska Rules of Professional Conduct.
- The Substantive Law Sections, comprised of 23 peer groups practicing in specific areas of the law.

Members and chairs of these committees and sections are found in the appendices.

Membership Services

In addition to services associated with CLE and other activity areas, the Bar Association provides other programs that assist members of the Bar in their practices. Complete information about these as well as other Bar programs and services can be found on the Bar's website at www.alaskabar.org.

Programs include:

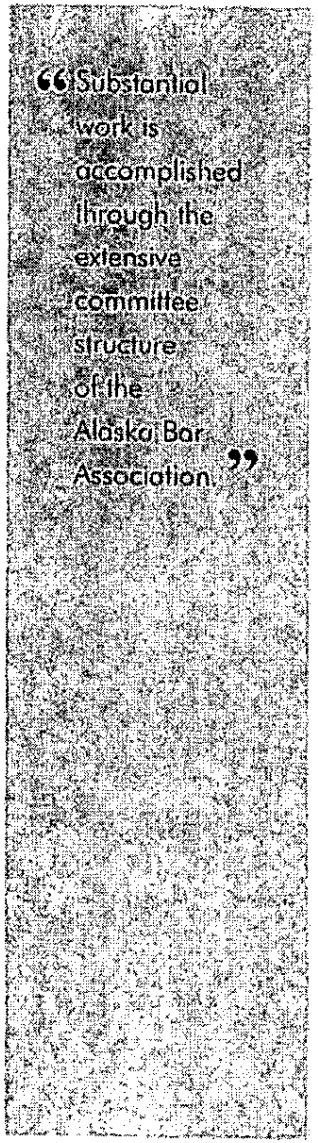
- **ALPS (Attorney Liability Protection Society).** The Alaska Bar Association is a member of a multi-state, lawyer-owned insurance company. Membership in ALPS increases the availability of coverage to Alaska lawyers at rates that are predictable and which avoid dramatic fluctuations caused by policies and practices over which the lawyers have no control.

- **Casemaker.** This online legal research tool is available to all Alaska Bar members at no cost to members. It is included in bar dues. The Alaska Unreported Court Opinions Database will now be hosted by Casemaker. Alaska joined about 28 other states offering this web-based research library and search engine to their Bar members

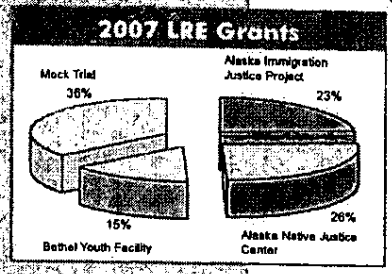
- **Computerized Legal Research.** The Bar Association sponsors a group program to provide members with access to LEXIS, a computer-assisted legal research service. Participating firms pay a $25 monthly subscription fee. Additionally, all members' use of LEXIS aggregates to take advantage of volume discounts.

- **Free Downloading of Alaska Bar CLE Materials.** All Alaska Bar CLE materials one calendar year old or older are available on the Bar website for free downloading. These materials are not searchable or linked.

- **Group Insurance.** The Bar Association sponsors a life insurance program for Bar members with LifeWise Assuance Company. All members of the Association and employees of their firms are eligible. The Bar Association



> "In 2007, the Board of Governors distributed $6,930 for grants to organizations delivering Law Related Education (LRE) programs and materials. These annual grants are targeted to programs that offer practical or direct LRE programs in urban and Bush areas."



also sponsors a group medical program. Medical, dental, vision, life and disability coverage are available to firms ranging in size from sole practitioners to those with more than 100 employees. The plan is underwritten by Premera Blue Cross Blue Shield of Alaska. The Bar Association also sponsors a disability insurance program offered by Unimerica Insurance Co.

- **The *Alaska Bar Rag*.** This quarterly periodical is the official publication of the Bar Association, with content provided by the Bar, attorneys, and organizations in the legal and justice communities. The editor is Thomas V. Van Flein.

- **E-News.** This weekly e-mail newsletter is sent to all members for whom the Bar has e-mail addresses, and contains announcements about Bar Association activities, court news, upcoming CLE programs, and other timely items of interest.

- **Unreported Court Opinions Database.** This database, formerly hosted on the Alaska Bar website, will now be available through Casemaker.

- **Section News.** This newsletter, containing notices of section meetings, CLE seminars, and information on new case law, is e-mailed monthly to 85% of substantive law section members. Members without e-mail are mailed a hard copy. Section meeting dates are posted on the website calendar, and the full newsletter is posted on the Bar website at www.alaskabar.org.

- **Ethics Opinions.** All Alaska Bar Ethics Opinions are published in the Alaska Bar Rag and online at the Bar's website at www.alaskabar.org.

- **Public Copying Machines.** The Alaska Bar Association and the Alaska Court System are continuing a cooperative agreement to provide copying services in the Anchorage Law Library. The Alaska Bar Association has a service agreement with the Anchorage Bar Association for the purpose of providing copiers in the Anchorage Law Library for the use of all library patrons. The revenue is divided as follows: Alaska Court System 40%; Anchorage Bar Association 50%; Alaska Bar Association 10%.

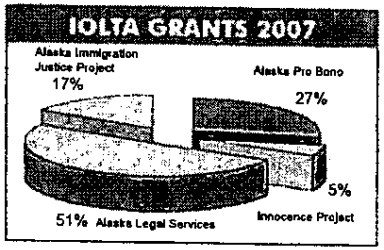
ADJUNCT INVOLVEMENT

The Alaska Bar Association cooperates, partners and supports with its membership a number of programs related to the Alaska legal and justice system:

- **The Alaska Bar Foundation** was established in 1972 for the purpose of fostering and maintaining the honor and integrity of the profession, improving and facilitating the administration of justice, promoting the study of law and continuing legal education, administering loans and scholarships, and maintaining a law library and research center.

- **IOLTA** is an opt-out Interest on Lawyers Trust Accounts program for the placement of client trust money into interest-bearing accounts. The interest earned on each account is paid periodically to the Alaska Bar Foundation for its charitable and public service work.

In 2007, the IOLTA program earned $161,415 from interest, and awarded grants totaling $140,000.



Foundation grants included: $71,000 to Alaska Legal Services Corp.; $38,000 to the Alaska Pro Bono Program; $23,500 to the Alaska Immigration Justice Project; and $7,500 to the Alaska Innocence Project.

- **Alaska Law Review,** edited by law students at Duke University School of Law in Durham, NC, includes articles by practicing attorneys, law professors, and notes and comments by Duke law students. The Bar publishes the law review semi-annually for the education of the legal community. Bar members receive the publication as part of their Bar dues benefits.

- **Alaska Legal Services Corporation** provides legal assistance to persons lacking the financial resources to obtain private counsel.

- **Alaska Code Revision Commission,** established in 1976, reviews and recommends revisions to the laws of Alaska.

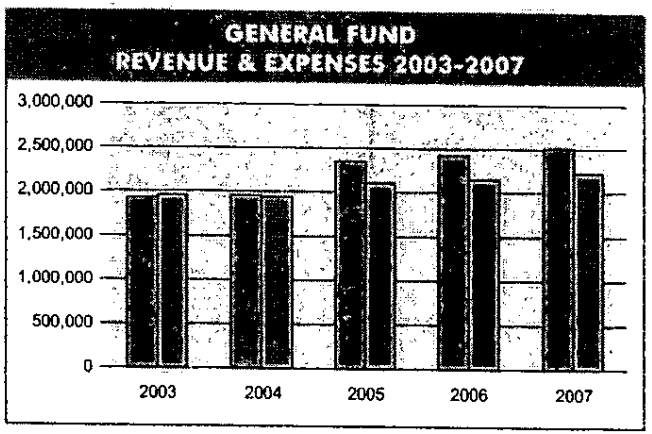
- **Alaska Commission on Judicial Conduct** includes three attorney members who have practiced law in Alaska for at least 10 years. They are appointed to the commission by the Governor from recommendations submitted by the Board of Governors.

- **Alaska Judicial Council** includes three attorneys who serve staggered, six-year terms. The council's purpose is to recommend candidates who are seeking judicial office and to conduct studies for the improvement of the administration of justice in Alaska.

- **Other Relationships.** The Bar Association maintains relationships with other, non-Alaskan organizations, usually with representation by a member of the Board of Governors or Bar executive staff. These include the American Bar Association, National Conference of Bar Presidents, Ninth Circuit Judicial Conference, National Association of Bar Executives, Association for Continuing Legal Education (ACLEA), CLEreg (MCLE Regulators), National Organization of Bar Counsel, National Conference of Bar Examiners, and Western States Bar Conference.

Financial Statements & Budget

The 2007 financial reports reflect total general fund revenue of $2,512,246, with total expenses of $2,234,380. The net gain of $277,866 was a slight decline from the 2006 gain of $280,251.



"The 2007 financial reports reflect total general fund revenue of $2,512,246, with total expenses of $2,234,380. The net gain of $277,866 was a slight decline from the 2006 gain of $280,251."

INDEPENDENT AUDITORS' REPORT

Board of Governors
Alaska Bar Association

We have audited the accompanying statements of financial position of the General Fund, the Lawyers' Fund for Client Protection and the Court System Library Fund of the Alaska Bar Association as of December 31, 2007, and the related statements of activities, functional expenses, and cash flows for the year then ended. These financial statements are the responsibility of the Association's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the General Fund, the Lawyers' Fund for Client Protection and the Court System Library Fund of the Alaska Bar Association as of December 31, 2006, and the changes in net assets and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

APPENDIX A

Bar Bylaws and Regulations Added, Modified, or Repealed in 2007

Article VII, Section 1(a)(11)

September 2007: The Board amended Bylaws, Article VII, Section 1(a)(11) to change the name of the "Judicial Independence Committee" to the "Committee for Fair and Impartial Courts."

Article VII, Section 1(a)(3)

October 2007: The Board amended Bylaws, Article VII, Section 1(a)(3) to change the reference from the "Code of Professional Responsibility" to the "Alaska Rules of Professional Conduct."

Bar Rules Proposed to the Supreme Court in 2007

Alaska Bar Rules

January 2007: The Board proposed an amendment to Bar Rule 39(a) correcting the Bar Association's address.

January 2007: The Board proposed an amendment to Bar Rule 40(u) correcting the citations to the uniform arbitration acts.

February 2007: The Board proposed a new rule, Bar Rule 15.1, that would require lawyers to have their trust accounts only at institutions that agree to provide trust account overdraft notices to bar counsel.

February 2007: The Board proposed an addition to Bar Rule 13 that would provide for a challenge procedure to mediators and referral back to grievance investigation or fee arbitration if there is no response to scheduling requests.

February 2007: The Board proposed an addition to Bar Rule 38 that would provide for the appointment of a mediator to the Executive Committee of the Fee Dispute Resolution Program and making the President-Elect a non-voting member.

February 2007: The Board proposed an amendment to Bar Rule 40 that would change the start of the time period for requesting modification of a fee arbitration decision from "delivery" to "service" of the decision and would change the start of the time period for objection from "receipt" of notice to "service" of notice.

February 2007: The Board proposed an amendment to Bar Rule 61(a) that would remove the filing date for a petition to suspend for nonpayment of dues. In addition, the amendment would direct the petition to the entire Supreme Court rather than an individual justice.

October 2007: The Board proposed amendments to Bar Rule 44 regarding legal intern permit eligibility and renewal as well as permitted acts by a legal intern.

October 2007: The Board proposed an amendment to Bar Rule 44.1(f)(2)(A) that would change the reference from the "Code of Professional Responsibility" to the "Alaska Rules of Professional Conduct."

November 2007: The Board proposed an amendment to Bar Rule 63 that would require a nonlawyer who prepares or completes documents for compensation to obtain and maintain for five years a signed statement from the consumer that warns that the preparer is not a lawyer, that the document may not be legally enforceable, that the document should be reviewed by a lawyer admitted to practice in Alaska, and that the consumer may report any problems with the document to the Bar Association.

December 2007: The Board proposed an amendment to Bar Rule 6, Section 7(b) that would delete the appeal provision relating to residency requirements since the residency requirement has been abolished.

December 2007: The Board proposed an amendment to Bar Rule 5, Section 3 that would allow any state or federal judicial officer to sign an order of admission if eligibility is certified and would permit any state or federal judicial officer or any person authorized to administer oaths to administer the oath of admission to the Bar.

Bar Rules Adopted by the Supreme Court in 2007

Alaska Bar Rules

Effective April 16, 2007: The Court amended Bar Rules 8(3) and 22(p) to clarify the contents of excerpts of record to be filed in admissions and discipline appeals.

Effective October 15, 2007: The Court amended Bar Rule 61(d) to correct the name of the "Child Support Enforcement Division" to the "Child Support Services Division."

Effective October 15, 2007: The Court amended Bar Rule 5, Section 1(b) to add the filing of the Bar Rule 64 affidavit to the requirement to file membership acceptance forms within 60 days of completion of certain admissions requirements.

Effective October 15, 2007: The Court added Bar Rule 43.2 permitting practice by Emeritus Attorneys for qualified legal services organizations.

Effective October 15, 2007: The Court amended Bar Rule 3, Section 6 to change the reapplication deadline for the July Alaska bar examination to June 15th.

Effective January 1, 2008: The Court modified Bar Rule 65 to provide for a mandatory ethics continuing legal education requirement of three hours per year and a voluntary continuing legal education recommendation of nine hours per year. In addition, the Court clarified activities that qualify for continuing education credit and other aspects of the program. The Court also amended Bar Rule 66 regarding suspension for failure to comply with the mandatory requirement. These modifications came as the result of a concerted effort on the part of the Court and the Board to achieve a meaningful program.

Effective April 15, 2008: The Court amended Bar Rule 29 to permit appeals or petitions for hearing in disciplinary reinstatement matters.

APPENDIX B
Bar Sections & Committees

Substantive Sections and Chairs, 2007

At the end of 2007 there were 23 active sections.

ANALYSIS: *(Attach a separate page if necessary)*

This bill excludes refunding and conduit bonds from AIDEA's $400 million 12-month bonding limitation; removes, rather than extends the previous statutory sunset date, the legislative approval requirement for bonds issued including the refunding of development finance projects; this bill does not change the requirement of legislative approval for bonds in excess of $10 million for development finance projects; clarifies that AIDEA may finance certain costs and expenses associated with refunding bonds of development finance projects with the refunding bond proceeds; amends AIDEA's confidentiality statute to clarify the confidentiality of certain records and the processes for determining confidentiality.

This bill has no operational fiscal impact on AIDEA.

Sec. 19. Section 3 of this Act takes effect November 30, **2012** [2009]."

Renumber the following bill section accordingly.

4316

Alaska Industrial Development and Export Authority
Description of Bond Terms

State of Alaska Has No Liability for AIDEA's Bonds
The State has no liability for any bonds issued by AIDEA, including AIDEA's general obligation bonds. AIDEA has statutory authority to issue moral obligation bonds only for a power transmission intertie [AS 44.88.100(d) (3)]. A moral obligation creates an expectation of state financial support, but not an actual liability. AIDEA has not issued bonds for power transmission interties

(1) **General Obligation Bonds:**
AIDEA's general obligation bonds are secured by the general assets and future revenues of the Authority. The DeLong Mountain Transportation System (the port and road that supports the Red Dog Mine) was financed in part by general obligation bonds. Total outstanding as of 6/30/08 - $118,955,000.

(2) **Revenue Bonds:**
Revenue bonds are payable only out of revenues derived from the projects financed or the businesses for which the projects are financed. Neither the Authority's assets nor credit are at risk for these bonds. The Authority may or may not own the financed project; the Snettisham Hydroelectric Project is owned by AIDEA, but all payments on the outstanding bonds are from Alaska Electric Light and Power. Total outstanding as of 6/30/08 - $82,465,000.

(3) **Conduit Revenue Bonds:**
Under AIDEA's conduit revenue bond program, the bonds issued are payable only out of revenues derived from the projects financed or the businesses for which the projects are financed. Neither the Authority's assets nor credit are at risk for these bonds. The Authority has no financial interest in the financed project. Total outstanding as of 6/30/08 - $435,093,000 for bonds issued after July 1st, 1995.

(4) **Refunding Bonds:**
Refunding bonds are issued to retire and replace already outstanding bonds. The proceeds of the bond sale retire the refunded (outstanding) bonds. Refunding bonds are typically issued to reduce future debt service costs. Any of the three types of bonds listed above can be refunded, and usually the refunding bond is of the same type as the refunded bond (that is, if the refunded bond was a conduit revenue bond, the refunding bond usually is also a conduit revenue bond).

Tax-Exempt Bonds
AIDEA's conduit revenue bond program is typically used to access the tax-exempt bond market and its lower interest rates.

Under the U.S. Tax Code, only states and municipalities (in Alaska, cities and boroughs) can issue tax-exempt bonds. A state or municipality can authorize an agency (like AIDEA) to authorize tax-exempt bonds on its behalf. Under very limited circumstances, a state or municipality can authorize a private corporation to issue tax-exempt bonds on its behalf. Certain Indian tribal governments (of which there are many in Alaska) can also issue tax-exempt bonds for limited purposes. Aside from the foregoing, no other entity can issue a tax-exempt bond. There is a wide misconception that nonprofit corporations can issue tax-exempt bonds. They cannot. If a nonprofit corporation (or any entity other than those described above) desires tax-exempt bond financing for a project, the entity must rely upon one of the entities able to issue tax-exempt bonds. Even an issuer that is capable of issuing tax-exempt bonds cannot issue tax-exempt bonds for every purpose; the Internal Revenue Code has very specific rules covering what qualifies for tax-exempt financing.

CSHB 90(L&C)
Sectional Analysis

Section 1. Section 1 (page 1, lines 5 – 7) amends AS 44.88.095(a) to exclude refunding and conduit revenue bonds from the $400,000,000 maximum amount of bonds the Alaska Industrial Development and Export Authority (the "Authority") may issue during any 12-month period. The maximum bond limits restrict the amount of bonds AIDEA may issue in any 12-month period to fund development finance projects, or to raise funds to purchase loan participations or for other program purposes. The maximum bond limits should not apply to refunding and conduit revenue bonds as each promotes the Authority's economic development mission without significantly increasing the Authority's financial obligation on outstanding bond debt. Applying the maximum bond limits to refunding and conduit revenue bonds may preclude the Authority from issuing bonds for worthy economic development purposes.

Refunding bonds refinance existing bonds with the proceeds of new bonds. Typically, the new bonds provide more favorable terms, absent which there would rarely be reason to refund. For example, the more favorable terms could be lower interest rates that will reduce interest costs paid by the Authority or the project developer, and provide economic benefit. Other than an incremental increase to fund reserves and pay for the costs and expenses of issuing the bonds, refunding bonds do not increase the amount of outstanding bond debt.

Conduit revenue bond proceeds finance the acquisition or construction of projects that promote economic development in Alaska. The Authority has no financial obligation to pay conduit revenue bonds. These bonds are payable solely by the project developer and related parties, primarily from revenue generated by the project.

Section 2. Section 2 (page 1, line 8 – page 2, line 6) amends AS 44.88.095(g) to accomplish two things. First, Section 2 will authorize the Authority to issue most bonds without further legislative approval; the sole exception being bonds in excess of $10,000,000 to assist in the financing of a development project under AS 44.88.172 – AS 44.88.177. This amendment would reinstate the Authority's ability to issue bonds that existed before a July 1, 2007, statutory sunset. The Authority currently requires legislative approval to issue any bonds, excepting refunding and conduit revenue bonds. The amendments to AS 44.88.095(g) would eliminate the sunset and enable the Authority to again issue most bonds without legislative approval. The Authority will still require

legislative approval to issue bonds in excess of $10,000,000 to assist in the financing of development projects, excluding refunding bonds.

Second, Section 2 will expressly clarify in statute that the Authority may use proceeds from refunding bonds to fund reserves and finance certain costs and expenses associated with issuing the refunding bonds. AS 44.88.095(g) currently empowers the Authority to issue refunding bonds, but does not provide sufficient clarity required by bond markets to enable proceeds from the refunding bonds to be used to pay more than the outstanding balance of the existing bonds. The proposed amendments, if enacted, will enable the Authority to issue refunding bonds, the proceeds from which can be used to pay both the outstanding balance of the existing bonds and the costs of refinancing, funding reserves, and other costs related to issuing refunding bonds. The ability to use refunding bond proceeds to pay these additional costs is anticipated to reduce the cost of financing, which would provide a direct economic benefit to project developers or the Authority.

Sections 3, 4 and 5. Sections 3, 4 and 5 (page 2, line 7 page 3, line 4) amend AS 44.88.215 and AS 44.88.900 to clarify that certain records and information provided to the Authority are confidential, and establish processes for the Authority to determine confidentiality.

AS 44.88.215 assists the mission of the Authority by assuring persons supplying records or information, and borrowers and applicants (e.g., of loan participations and development finance projects) that certain records and information they provide to the Authority will be kept confidential. The Authority has heard concerns from borrowers, applicants and project developers that AS 44.88.215 does not clearly establish that the Authority can retain the confidentiality of certain types of documents. Sections 3, 4 and 5 attempt to address these concerns in two ways.

First, the amendments clarify that certain types of records and information are confidential. Section 3 amends AS 44.88.215(a) to identify specific types of trade secrets that are confidential. Section 5 amends AS 44.88.900 to further clarify existing statutory language by adding a definition for "trade secrets" using the Alaska Uniform Trade Secrets Act (AS 45.50.940(3)), which defines "trade secret" to mean:

> information that (A) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and (B) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

Second, the amendments establish processes for the Executive Director of the Authority to determine the confidentiality of specific records and information. Currently, records and information that meet the statutory criteria of AS 44.88.215(a) are confidential and

not public records under AS 44.88.215(c). Because there is no process to determine confidentiality, the status of any specific document remains uncertain unless and until the Authority receives a public records request. Under the processes established within Sections 3 and 4, the applicant or borrower must request confidentiality, and make an adequate showing to the Executive Director that the documents meet the statutory criteria of AS 44.88.215(a). The Executive Director then must determine whether the records meet the statutory criteria. This determination can be made when records and information is provided to the Authority, so that applicants and borrowers have greater assurance that information they believe to be confidential or proprietary will remain confidential.

Section 6. Section 6 (page 3, lines 5 – 9) gives instruction to the revisor of statutes to make technical changes to the catchline heading of AS 44.88.215 to reflect amendments made by the bill.

Section 7. Section 7 (page 3, line 10) will make the Act effective on July 1, 2009.

AIDEA Alaska Industrial Development and Export Authority

ALASKA ENERGY AUTHORITY

February 26, 2009

The Honorable Mike Hawker
Co-Chair, House Finance Committee
Alaska State Legislature
State Capitol, Room 505

Juneau, Alaska 99801-1182

RE: HB 90, "An Act relating to bonding limitations and confidentiality of records and information of the Alaska Industrial Development and Export Authority; and providing for an effective date."

Dear Representatives Hawker and Stoltze:

On February 23, 2009, HB 90 (Companion Bill SB 84) was referred to your committee by House Labor and Commerce. The goal of this legislation is to exclude refunding and conduit revenue bonds from AIDEA's $400 million 12-month bonding limitation; to remove the previous statutory sunset date; to authorize AIDEA to issue most bonds without further legislative approval, without changing the requirement for legislative approval of bonds in excess of $10 million for development finance projects; to clarify that AIDEA may use proceeds from refunding bonds to finance certain costs and expenses associated with issuing the refunding bonds; and to clarify that certain records and information provided to AIDEA are confidential.

We respectfully request you to schedule HB 90 for hearing in your committee at the earliest possible date, and we urge favorable action on this bill. The related zero-fiscal note is attached. We will be happy to meet with you and other members of the committee to provide any other information you may require. Thank you for considering our request.

Sincerely,

ALASKA INDUSTRIAL DEVELOPMENT
AND EXPORT AUTHORITY

Ted Leonard
Executive Director

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

April 12, 2008

The Honorable Gary Wilken
Alaska State Senator
State Capitol, Room 7
Juneau, AK 99801-1182

Dear Senator Wilken:

Thank you for forwarding a copy of your information packet to my office raising questions about an amendment to Senate Bill 255. In order for my administration to formulate a sound position on the policy questions you raise, more time is necessary.

The issues raised here touch on multiple agencies, agreements between private interests and a state-owned corporation, and the mechanics of the PILT agreement between those same private interests and the Northwest Arctic Borough. It is long past time to assemble the various parties and resolve this situation on a permanent basis.

It appears from the packet you have assembled that previous administrations expressed their intent to address the long-term policy questions at the root of this dispute. However, the deadlines set by previous legislative actions have delayed review beyond the term of those previous governors. Unfortunately, delayed action on the proposed amendment could have a detrimental impact on the Northwest Arctic Borough School District. As such, I am willing to support a short extension of time on the previous law so that the question will be resolved during my term in office.

You have my assurance that this administration will not defer this question.

Sincerely,

Sarah Palin
Governor

STATE OF ALASKA
OFFICE OF THE GOVERNOR
JUNEAU

January 23, 2009

The Honorable Mike Chenault
Speaker of the House
Alaska State Legislature
State Capitol, Room 208
Juneau, AK 99801-1182

Dear Speaker Chenault:

Under the authority of Article. III, Section 18, of the Alaska Constitution, I am transmitting a bill relating to bonding limitations and confidentiality of records and information of the Alaska Industrial Development and Export Authority (AIDEA).

This bill would accomplish five things. Section 1 of the bill would exclude refunding and conduit revenue bonds from the 12-month bond limit of the Authority. AS 44.88.095(a) precludes AIDEA from issuing more than $400,000,000 of bonds during any 12-month period. Enactment of the bill would ensure that the 12-month bond limit would never preclude AIDEA from issuing refunding bonds to refinance existing development finance project debt on more favorable terms, or from issuing conduit revenue bonds for which AIDEA has no financial obligation to pay. Conduit revenue bonds are payable by the project developer and related parties, primarily from revenue generated by the project.

Section 2 of the bill would eliminate the sunset of the statutory ability of AIDEA issuing bonds. AS 44.88.095(g) severely limits the ability of AIDEA to issue bonds. Before the July 1, 2007 statutory sunset, AS 44.88.095(g) authorized AIDEA to issue most bonds without further legislative approval; the sole exception being bonds in excess of $10,000,000 to assist in the financing of a development project under AS 44.88.172 - 44.88.177. That authorization to issue bonds ended on July 1, 2007, with the statutory sunset. AIDEA currently requires legislative approval to issue any bonds, excepting refunding and conduit revenue bonds. Section 2 of the bill would amend AS 44.88.095(g) to eliminate the sunset and enable AIDEA to again issue most bonds without legislative approval. AIDEA will still require legislative approval to issue bonds in excess of $10,000,000 to assist in the financing of development projects, excluding refunding bonds.

Section 2 of the bill would also expressly clarify in statute that AIDEA may use proceeds from refunding bonds to finance certain costs and expenses associated with issuing the refunding bonds. AS 44.88.095(g) empowers AIDEA to issue refunding bonds for development projects, but does not provide sufficient clarity required by bond markets to enable proceeds from the refunding bonds to be used to pay more than the outstanding balance of the existing bonds. The bill, if enacted, would enable AIDEA to issue refunding bonds, the proceeds from which can be used to pay both the outstanding balance of the existing bonds and the costs of refinancing, funding reserves, and other costs related to issuing refunding bonds for development projects. The ability to use refunding bond proceeds to pay these additional costs is anticipated to reduce the cost of financing, which would provide a direct economic benefit to project developers.

Sections 3 and 4 of the bill would amend AS 44.88.215 to clarify confidential records and information of AIDEA, and processes for determining confidentiality. AS 44.88.215 assists the mission of AIDEA by assuring borrowers, applicants, and project developers that certain records and information provided to AIDEA will be kept confidential. AIDEA has heard complaints from borrowers, applicants, and project developers because AS 44.88.215 does not clearly establish that AIDEA can retain the confidentiality of certain types of documents. Sections 5 and 6 of the bill attempt to address these concerns by clarifying that certain types of records and information are confidential, defines "trade secrets" using the Alaska Uniform Trade Secrets Act to clarify existing statutory language, and establishes processes for the executive director of AIDEA to determine confidentiality of records and information.

Finally, Section 8 of the bill would make the Act effective on July 1, 2009.

I urge your prompt and favorable action on this measure.

Sincerely,

Sarah Palin

RE: HB90 - Responses to questions from March 17, 2009 Finance Committee Hearing

Dear Representatives Hawker and Stoltze:

This letter provides the Alaska Industrial Development and Export Authority's (AIDEA) response to questions asked at the March 17th House Finance Committee hearing on HB90.

The Committee asked if any conduit revenue bonds issued by AIDEA are currently in default. Attached is a list of the AIDEA conduit revenue bonds issued since 1995, including the outstanding bonds balance at June 30, 2008. AIDEA has not been informed of any payment problems or other defaults on any of the outstanding issues.

We were also directed to discuss the pending bill with the State's Debt Manager. We discussed the bill with Mr. Deven Mitchell, Debt Manager, and understand that he has contacted your office and will follow-up with an email.

Thank you for bringing HB90 before House Finance and for the opportunity for staff to make a presentation to the Committee. Please let me know if you require further information.

Sincerely,

ALASKA INDUSTRIAL DEVELOPMENT
AND EXPORT AUTHORITY

Ted Leonard
Executive Director

This bill amends AS 04.16.050(c) and (d) by clarifying when a person is guilty of repeat, or habitual minor consuming or in possession or control.

Passage of this legislation will not increase the number of arrests made or cases referred for prosecution. This bill will have no fiscal impact on the department.

Sponsor Statement
HB 98

"An Act relating to minor consuming and repeat minor consuming; and providing for an effective date."

HB 98 fixes a problem that occurred with the enactment of HB 359, a bill that passed the House unanimously in the 25th Legislative Session. HB 359 originated due to the desire of Alaskan youths to join the military and not being able to due to probation restrictions from a minor consuming charge that may have occurred 5 years previously. Unfortunately, when the bill was drafted, it left a loop-hole in the repeat minor consuming law.

HB 98 fixes this loop-hole by amending the language of AS 04.16.050(c) to include in the list of predicate offenses for repeat minor consuming "previously granted suspended imposition of sentence", and "a prior conviction under AS 04.16.050(b)(2)."

This new language will now cover all repeat offenders, no matter how their previous minor consuming charges were adjudicated.

AS § 04.16.050 Page 1

C

West's Alaska Statutes Annotated Currentness
Title 4. Alcoholic Beverages
Chapter 16. Regulation of Sales and Distribution
Article 1. Prohibited Acts
→ **§ 04.16.050. Possession, control, or consumption by persons under the age of 21**

(a) A person under the age of 21 years may not knowingly consume, possess, or control alcoholic beverages except those furnished persons under AS 04.16.051(b).

(b) A person who violates (a) of this section and who has not been previously convicted or received a suspended imposition of sentence under (1) of this subsection is guilty of minor consuming or in possession or control. Upon conviction in the district court, the court

(1) may grant a suspended imposition of sentence under AS 12.55.085 and place the person on probation for up to one year if the person has not been convicted of a violation of this section previously; among the conditions of probation, the court shall, with the consent of a community diversion panel, refer the person to the panel, and require the person to comply with conditions set by the panel, including counseling, education, treatment, community work, and payment of fees; in this paragraph, "community diversion panel" means a youth court or other group selected by the court to serve as a sentencing option for a person convicted under this section; or

(2) shall impose a fine of at least $200 but not more than $600, shall require the person to attend alcohol information school if the school is available, and shall place the person on probation for up to one year under (e) of this section; the court may suspend a portion of the fine imposed under this paragraph that exceeds $200 if the person is required to pay for education or treatment required under (e) of this section.

(c) A person is guilty of repeat minor consuming or in possession or control if the person was placed on probation under (b)(1) of this section or has been previously convicted once, and the person violates (a) of this section. Upon conviction in the district court, the court shall

(1) impose a fine of $1,000 and require at least 48 hours of community work;

(2) revoke the person's driver's license for three months;

(3) take possession of the person's driver's license; and

(4) suspend up to $500 of the fine and place the person on probation for up to one year under (e) of this section.

© 2009 Thomson Reuters/West. No Claim to Orig. US Gov. Works.

(d) A person is guilty of habitual minor consuming or in possession or control if the person was placed on probation under (c) of this section, or has been previously convicted twice, and the person violates (a) of this section. Habitual minor consuming or in possession or control is a class B misdemeanor. Upon conviction, the court may impose an appropriate period of imprisonment and fine and place the person on probation under (e) of this section for one year, or until the person is 21 years of age, whichever is later, and shall

(1) impose at least 96 hours of community work;

(2) revoke the person's driver's license for six months;

(3) within five working days, notify the agency responsible for the administration of motor vehicle laws of the revocation; and

(4) take possession of the person's driver's license.

(e) The court shall place a person sentenced under (b)(2), (c), or (d) of this section on probation for the appropriate period. The person may not refuse probation. The court may require the person to pay for and enroll in a juvenile alcohol safety action program, if one is available. The court shall impose the following conditions of probation:

(1) the person shall pay for and successfully complete any education or treatment recommended;

(2) the person may not consume inhalants or possess or consume controlled substances or alcoholic beverages, except as provided in AS 04.16. 051(b);

(3) the person shall timely complete any community work ordered, as provided in (f) of this section; and

(4) other conditions the court considers appropriate.

(f) A person ordered to perform community work under this section shall perform the work within 120 days of the entry of judgment for a conviction. The court may expand the time period for up to 30 days upon a showing of good cause. The person shall submit verification of completion of community work to the clerk of court on a form provided by the court. If the verification is not provided within the time period required by this subsection, the court shall, within 30 days, schedule further proceedings in the case to determine whether a violation of probation has occurred.

(g) The treatment recommended by a juvenile alcohol safety action program for a person placed on probation under (e) of this section may include a period of inpatient treatment if the judgment specifies the maximum period of inpatient treatment authorized. A person who has been recommended for inpatient treatment may make a written request to the sentencing court for review of the referral. A person shall make a request for review within seven days after the

© 2009 Thomson Reuters/West. No Claim to Orig. US Gov. Works.

recommendation and shall specifically set out the grounds upon which the request for review is based. The court may order a hearing on the request for review.

(h) The juvenile alcohol safety action program to which a person is referred under this section shall inform the court or a minor's juvenile probation officer if the person fails to submit to evaluation or fails to complete successfully any education or treatment recommended. If the court finds that the person has failed to perform community work as ordered, to submit to evaluation, or to complete successfully the education or treatment recommended, the court may impose the suspended fine, and may impose any period of suspended incarceration. If the person was convicted under (c) or (d) of this section, the court shall revoke the person's driver's license for an additional six months beyond the revocation imposed under (c) or (d) of this section. A court revoking a person's driver's license under this subsection shall notify the agency responsible for the administration of motor vehicle laws of the revocation within five working days.

(i) When considering the financial resources of a minor for purposes of determining eligibility for court-appointed counsel under this section, the court shall consider the resources of both the defendant and the defendant's parent or guardian, unless the court finds good cause to treat the defendant's or the defendant's parent's or guardian's resources as being unavailable to the defendant.

(j) A driver's license revocation under this section is consecutive to a revocation imposed under another provision of law, but is concurrent with a revocation under another provision of law based on a prior conviction, adjudication of delinquency, or informal adjustment under AS 47.12.060.

(k) Notwithstanding (b), (c), and (e) of this section, a person sentenced under (b) or (c) of this section may make a motion to the court to terminate probation of that person before the end of the probationary period required under those subsections. The court may grant the motion if the court finds, by clear and convincing evidence, that

(1) the person completed any community work ordered under (f) of this section;

(2) the person has successfully completed any education or treatment program ordered by the court and, if required by the court, has either

(A) paid for the programs; or

(B) made a good faith effort to pay for the programs, agreed to have the debt reduced to a civil judgment, entered into a repayment plan with the provider or the state, and agreed that the civil judgment may be enforced in the manner provided for restitution and fines in AS 12.55.051;

(3) the person has either

(A) paid the fine; or

(B) made a good faith effort to pay the fine, agreed to have the remaining fine amount reduced to a civil judgment, entered into a plan with the state, and agreed that the civil judgment may be enforced in the manner provided for restitution and fines in AS 12.55.051; and

(4) the person has substantially complied with the other conditions of probation.

(*l*) In this section,

(1) "driver's license" has the meaning given in AS 28.90.990;

(2) "juvenile alcohol safety action program" means

(A) a juvenile alcohol safety action program developed and implemented or approved by the Department of Health and Social Services under AS 47.37;

(B) any other alcohol education or treatment program approved by the Department of Health and Social Services under AS 47.37 if a program described in (A) of this paragraph is not available in the community in which the person resides; or

(C) a program or counseling approved by the court if a program or treatment described in (A) of this paragraph is not available in the community where the person resides;

(3) "previously convicted" means a conviction or an adjudication as a delinquent for a violation of AS 11.71, AS 28.35.030, 28.35.032, 28.35.280--28.35.290, or a law or ordinance in another jurisdiction with substantially similar elements.

HISTORICAL AND STATUTORY NOTES

SLA 2008, ch. 75, inserted "up to" after "on probation for" and deleted "or until the person is 21 years of age, whichever is later" after "one year" in subsec. (b)(1); inserted "for up to one year" after "person on probation" in subsec. (b)(2); substituted "(b)(1)" for "(b)" and inserted "once" after "previously convicted" in subsec. (c), and inserted "for up to one year" in subsec. (c)(4); inserted "for one year, or until the person is 21 years of age, whichever is later" in subsec. (d); substituted "(b)(2)" for "(b)" and "the appropriate period" for "one year, or until the person is 21 years of age, whichever is later" in subsec. (e); and added subsec. (*l*) (now subsec. k).

SLA 2008, ch. 75, § 43 provides:

© 2009 Thomson Reuters/West. No Claim to Orig. US Gov. Works.

"APPLICABILITY. (a) Sections 6--9, 14--16, 22--24, 29--31, and 40 of this Act apply to an offense occurring on or after July 1, 2008. References to previous convictions in secs. 8 and 9 of this Act apply to convictions occurring before, on, or after July 1, 2008.

"(b) Sections 5 and 13 of this Act apply to an offense occurring before, on, or after July 1, 2008.

"(c) Sections 17, 18, 39, and 41 of this Act apply to search warrants applied for on or after July 1, 2008, regardless of whether the offense occurred before, on, or after July 1, 2008.

"(d) Sections 19--21, 36, and 37 of this Act apply to procedures occurring after July 1, 2008, regardless of whether the offense occurred before, on, or after July 1, 2008.

"(e) Section 25 of this Act applies to applications for criminal extraditions submitted on or after July 1, 2008, regardless of whether the offense occurred before, on, or after July 1, 2008.

"(f) Section 12 of this Act applies to offenses occurring and actions arising on or after July 1, 2008.

"(g) Sections 26--28 and 42 of this Act apply to applications submitted on or after July 1, 2008."

SLA 2008, ch. 75, § 44 provides:

"SEVERABILITY. Under AS 01.10.030, if any provision of this Act, or the application of it to any person or circumstance, is held invalid, the remainder of this Act and the application to other persons or circumstances are not affected."

In 2008, new subsec. (*l*) was redesignated as (k) and existing subsec. (k) as (*l*) by the revisor.

Detention and custody 4.5
Double jeopardy 6
Nature of offense 2
Persons liable 4
Presumptions and burden of proof 8
Probation 10
Search warrants 3
Validity 1
Weight and sufficiency of evidence 9

1. Validity

Provision in statute prohibiting possessing, controlling, or consuming alcoholic beverages by a person under the age of 21, which provision requires younger offenders to stay on probation longer than older offenders by mandating that person convicted of violating statute be placed on probation for one year, or until the person reached 21 years of age, whichever is later, does not violate state equal protection clause; state has compelling interest in preserving health and welfare of minors and, given that younger offenders are more at risk than older offenders, challenged provision bears substantial relationship to legislature's goal of preserving minors' health and welfare by preventing unlawful underage drinking. Const. Art. 1, § 1; AS 04.16.050. State v. Morgan (2005) Alaska App., 111 P.3d 360. Constitutional Law ⚿ 3819; Intoxicating Liquors ⚿ 19

Portions of statute imposing automatic "probation," which made statute unconstitutional in denying underage drinkers right to jury trial and appointed counsel on showing of indigency, could not be stricken, leaving rest of statute intact, where offensive potential punishments of custodial in-patient treatment and community service were clearly important to achievement of legislative goals, and even if offensive portions were removed, fact that underage drinker

© 2009 Thomson Reuters/West. No Claim to Orig. US Gov. Works.

did not receive jury trial for first offense would prohibit imposition of increased penalties for subsequent offense, thus defeating legislative scheme of enhanced punishment for repeat offenders. U.S.C.A. Const.Amends. 6, 14; Const. Art. 1, § 11; AS 04.16.050. State v. Auliye (2002) Alaska App., 57 P.3d 711. Statutes ⚿ 64(6)

2. Nature of offense

Underage drinking violations are a class of quasi-criminal offenses which, while they are not serious, are to be disposed of within the criminal justice system. State v. Euteneier (2001) Alaska App., 31 P.3d 111. Intoxicating Liquors ⚿ 131

3. Search warrants

Underage drinking violations can be enforced by traditional criminal procedures, including the use of search warrants. State v. Euteneier (2001) Alaska App., 31 P.3d 111. Intoxicating Liquors ⚿ 249

4. Persons liable

Possibility that minor who purchases alcohol may drive automobile, and that alcohol-related accident may result, is well within scope of foreseeable risk, for purpose of determining liquor licensee's liability in negligence. AS 04.16.051, 04.21.020, 04.21.050. Loeb v. Rasmussen, 1991, 822 P.2d 914. Intoxicating Liquors ⚿ 288

4.5. Detention and custody

Police officers did not breach their duty to act reasonably in releasing intoxicated sixteen-year old to her parents, and thus city was not liable in wrongful death action brought by parents after sixteen-year old killed herself shortly after being released; officers initially and properly took sixteen-year old into custody based on their reasonable belief that she had violated law prohibiting minors from consuming alcohol, once officers detained sixteen-year old, they were then governed by statute that provided that the police must release a minor who has consumed alcohol to her parents unless there is a lawful reason not to do so, and parents did not show that there was a lawful reason to keep sixteen-year old in custody. Estate of Logusak ex rel. Logusak v. City of Togiak (2008) Alaska, 185 P.3d 103. Municipal Corporations ⚿ 747(3)

5. Defenses

Minor's willful misconduct in unlawfully purchasing and consuming alcohol, and in subsequently driving while intoxicated, did not bar recovery in negligence from owner of liquor store. AS 04.16.051, 04.21.020, 04.21.050. Loeb v. Rasmussen, 1991, 822 P.2d 914. Intoxicating Liquors ⚿ 295

6. Double jeopardy

Administrative revocation of a minor's driver's license for alcohol-related violation is not "punishment" for double jeopardy purposes; valid regulatory purpose exists in restricting or

© 2009 Thomson Reuters/West. No Claim to Orig. US Gov. Works.

revoking driver's licenses of underage drinkers. U.S.C.A. Const.Amend. 5; Const. Art. 1, § 9; AS 04.16.050, 28.15.183. Rexford v. State (1997) Alaska App., 941 P.2d 906. Double Jeopardy ⚿ 24

7. Counsel for accused

Statute requiring revocation of driver's license of minor convicted of underage drinking or possession of alcohol was a punitive measure, entitling minors, under State Constitution, to jury trial and court-appointed counsel if indigent. Const. Art. 1, § 11; AS 04.16.050(a), 28.15.185. State v. District Court, 1996, 927 P.2d 1295. Criminal Law ⚿ 1715; Jury ⚿ 19.5

8. Presumptions and burden of proof

Exceptions in statute making it offense for person under age of 21 years to consume, possess, or control alcoholic beverages in those cases where beverages are furnished by parents, guardians, spouses, or licensed physicians or nurses were "defenses" to criminal liability, and thus, if defendant wished to invoke one of these exceptions, defendant had to affirmatively raise exception and point to some evidence from which reasonable jury could decide on issue in his or her favor; state was not required to disprove possibility that exception applied. AS 04.16.050, 04.16.051(b). Trout v. State, 1994, 866 P.2d 1323. Intoxicating Liquors ⚿ 224

9. Weight and sufficiency of evidence

Defendant charged with consuming alcohol while under 21 years of age failed to properly raise any of the statutory exceptions to criminal liability by failing to present some evidence from which reasonable jury could decide that issue in his favor, and thus, defendant was not entitled to judgment of acquittal or to jury instruction that would have required state to disprove exceptions to criminal liability. AS 04.16.050, 04.16.051(b). Trout v. State, 1994, 866 P.2d 1323. Intoxicating Liquors ⚿ 236(1); Intoxicating Liquors ⚿ 239(2)

10. Probation

Trial court did not violate doctrine of separation of powers by requiring minor who was convicted of consuming alcoholic beverages to return to court every other week to report on her progress on probation; responsibilities for probation function were shared by executive and judicial branches, and legislative history of statute indicated that legislature wanted to assure that courts were part of the monitoring process for minors who were convicted of possessing or consuming alcoholic beverages. AS 04.16.050. Jackson v. State (2006) Alaska App., 127 P.3d 835, as amended. Constitutional Law ⚿ 2545(1); Infants ⚿ 225

Trial court's requirement that minor who was convicted of minor consuming alcoholic beverages return to court every other week to report on her progress on probation did not impermissibly relieve State's burden to prove a violation of probation, where trial court specifically stated that any petition to revoke minor's probation would have to be initiated by State, not by court. AS 04.16.050. Jackson v. State (2006) Alaska App., 127 P.3d 835, as amended. Infants ⚿ 225

© 2009 Thomson Reuters/West. No Claim to Orig. US Gov. Works.

Penalty of automatic "probation" for underage drinking, which permitted sentencing judge to order custodial in-patient treatment, community work service, and revocation of driver's license, were sufficiently severe that underage defendant was entitled to trial by jury and, if defendant was indigent, to counsel at public expense, where each of sentencing judge's permitted orders, if imposed as direct punishment, would have entitled defendant to trial by jury and right to appointed counsel upon finding of indigency. U.S.C.A. Const.Amends. 6, 14; Const. Art. 1, § 11; AS 04.16.050(e). State v. Auliye (2002) Alaska App., 57 P.3d 711. Infants ⚿ 68.4; Jury ⚿ 22(2)

REPRESENTATIVE JOHN COGHILL

SSHB 105 State Training and Employment Program
Sponsor Statement

The State Training and Employment Program (STEP) was established as a pilot program in 1989 to increase training opportunities for Alaskans affected by fluctuations in the economy or by technological changes in the workplace. Since its inception the program has been reauthorized by the legislature six times.

Last legislature I introduced HB 226 which would have made the STEP a permanent program without a sunset date. During the debate on the legislation it became apparent there needed to be a closer look at the program before eliminating a sunset. The legislature directed the Department of Labor to work with the "group of entities" that are eligible to participate in the STEP program over the interim and come back to the legislature this year with recommended revisions to the STEP program. HB 105 is the work product of that process.

HB 105 Redefines the powers and duties of the Department of Labor and enacts a working partnership between the Department of Labor and the Alaska Workforce Investment Board. HB 105 instructs DOL to adopt regulations to implement the recommendations of the workgroup and gives the Alaska Workforce Investment Board a seat at the table in determining what regulations will be adopted. Current regulations are seen as onerous, discouraging employers from participating in the program and inflating the Department's administrative costs.

Workforce development has never been more important in Alaska's public policy as it is today. The work group, the Alaska Workforce Investment Board, and the Department of Labor are committed to making the STEP program accountable, fair and balanced, and user friendly.

ANALYSIS: *(Attach a separate page if necessary)*

This legislation makes the State Training and Employment Program (STEP) permanent in addition to other program changes recommended by the STEP taskforce. There are no additional costs to the program anticipated as a result of the changes.

The amounts shown in this fiscal note reflect STEP's share of Unemployment Insurance tax collection costs as required by federal law.

ANALYSIS: *(Attach a separate page if necessary)*

This legislation makes the State Training and Employment Program (STEP) permanent in addition to other program changes recommended by the STEP taskforce. There are no additional costs to the program anticipated as a result of the changes.

A portion of STEP revenue is set aside for tax collection costs; a separate fiscal note has been submitted by the department to display the cost of collecting STEP by staff in the Unemployment Insurance component under a federally approved cost allocation formula.

CS FOR SPONSOR SUBSTITUTE FOR HOUSE BILL NO. 105(L&C)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE LABOR AND COMMERCE COMMITTEE

Offered: 4/7/09
Referred: Finance

Sponsor(s): REPRESENTATIVES COGHILL, Muñoz

A BILL

FOR AN ACT ENTITLED

"An Act relating to the state training and employment program; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

*** Section 1.** AS 23.15.580(b) is amended to read:

(b) The board shall

(1) facilitate the development of statewide policy for a coordinated and effective employment training and education system in this state;

(2) identify the human resource investment needs in the state and develop a plan to meet those needs;

(3) review the provision of services and the use of money and resources by the human resource programs listed in AS 23.15.575;

(4) assume the duties and functions of the state boards described under the laws relating to the federal human resource programs listed in AS 23.15.575;

(5) advise the governor, state and local agencies, the University of

4/11/09

SSHB 105 State Training and Employment Program

Sectional

Section 1. Expands the statutory responsibilities of the Alaska Workforce Investment Board to include performing the duties assigned to it for the management of the State Training and Employment Program in AS 23.15.620 – 23.15.660.

Section 2. Removes language from AS 23.15.580(f) describing people to be served under the STEP and inserts reference to AS 23.15.620 – 23.15.660 which expands guidelines for people to receive training and persons to provide training under the STEP program.

Section 3. AS 23.15.620 is repealed and reenacted to change the description to describe the goals and objectives of the STEP program as defined by the group of entities directed to review STEP by the legislature last year in House Bill 226. The goals and objectives include:

1. Enhance quality of in-state job training and employment assistance.

2. Make in-state job training and employment assistance more accessible to employers, employees, and future employees.

3. Combine resources of program with resources available outside of the program.

Section 3 also defines who qualifies to apply for a STEP grant as a person who provides training and employment services, including a registered apprenticeship program under the National Apprenticeship Act.

Section 4. Eliminates reference to AS 23.15.640 (Services for eligible people; repayment) and AS 23.15.651 (Duties of Alaska Workforce Investment Board; eligible entities), both of which are being repealed because of policy recommended by the entities in the rewriting of the STEP statutes.

This section deletes language requiring a person to be served to be likely to be displaced "within the next six months". If a person is "liable to be displaced" the person could qualify for training.

It also adds two additional groups of people to be served through STEP:

1. Certain recipients of unemployment insurance benefits.
2. People who have a child support order.

Section 5. This is a new section of law recommended by the group of entities giving direction the Department of Labor and the Alaska Workforce Investment Board by redefining the duties and powers of the department and the board.

1. Adopt regulations after being reviewed by the department **and the board.**
2. Distribute through grants the purchase of services and contracts.
3. Enter into interagency agreements with other state agencies for training and employment assistance, including the University of Alaska.
4. Conduct an annual review of workforce demand and prioritize grant funding strategies.
5. The **Board** will assist the department in evaluating grant proposals and awarding grants.

Section 6. Outlines the eligibility of grantees and how the grants are to be used:

AS 23.15.641 Grantees can be a government agency, a private business, an employer, or a nonprofit entity offering vocational training or employment assistance services that can demonstrate they have an acceptable accounting system who can provide industry specific training, on-the-job training, or institutional or classroom job training.

This new section of law also allows grant recipients to use grant monies for tools, clothing, relocation expenses, and other costs essential in training program participants to obtain or retain a job.

AS 23.15.643 A program participant must be a resident of the state, needs training to improve ability to obtain or retain a job, and has worked at a job contributing to Alaska's unemployment benefits program within the last five years.

Section 7. Implements program accountability and an appeals process.

AS 23.15.652 The department can expend no more than 20% of the amount appropriated for the program annually for administration of the program. The department and grantees must comply with all federal and state laws. The department shall prepare an annual report of the program to be presented to the Alaska Workforce Investment Board and notify the legislature of the release of the report.

AS 23.15.654 Provides that a person denied a grant by the Department of Labor has 60 days to file an appeal with the Alaska Workforce Investment Board. The Board has 60 days to render a decision on the appeal and their decision is final unless the appeal is then filed in Superior Court.

Section 8. The following statutes are repealed:

AS 23.15.640 The first portion of this statute is reenacted in Section 6 of this bill. The second section repealed required program participants to repay the

department for grant monies used to purchase clothing and tools. Under this repeal program participants will no longer have to reimburse the department.

AS 23.15.645 Repeals duties and powers of the department reenacted in Section 5.

AS 23.15.651 Repeals duties of Alaska Workforce Investment Board which are reenacted in Section 1,2, 3, 5 and 7.

Section 9. Repeals repeal provisions for the STEP in four past pieces of legislation relating to STEP.

Section 10. This bill has an immediate effective date clause.

STATE OF ALASKA

Department of Labor and Workforce Development

OFFICE OF THE COMMISSIONER

SARAH PALIN, GOVERNOR

P.O. BOX 111149
JUNEAU, ALASKA 99811-1149

PHONE: (907) 465-2700
FAX: (907) 465-2784

February 18, 2009

The Honorable Senator Gary Stevens
President of the Senate
State Capitol, Room 111
Juneau, Alaska 99801-1182

The Honorable Representative Mike Chenault
Speaker of the House
State Capitol, Room 208
Juneau, Alaska 99801-1182

Dear Senator Stevens and Representative Chenault:

Enclosed is a copy of the State Training and Employment Program (STEP) report which presents the findings of the STEP Task Force required by Chapter 46, SLA 2008.

The Task Force reached consensus that the STEP should be made permanent in statute, however they recommended the statute be changed to include financing and awarding grants to employers. They also suggested removing in statute a repayment clause and defining full employment. Specific recommendations were made to clarify the role of the Alaska Workforce Investment Board in providing program oversight and accountability. For changes to regulation and policy, the Task Force recommended that: regional occupational priorities are considered; an appeal process is established; administration and reporting improvements are made; the application for grant process is streamlined; and performance measures are updated. The Task Force will continue to convene in implementing recommendations to applicable regulations, policy and procedures.

If you have questions about the report, please contact me at (907) 465-2700.

Sincerely,

David G. Stone
Deputy Commissioner
STEP Task Force Co-Chair

Alaska Department of Labor and Workforce Development
Findings and Recommendations for the State Training and Employment Program
Task Force Report to the 26th Alaska Legislature
February 18, 2009

Background

Chapter 46, SLA – 08 on May 18, 2008, which extends the State Training and Employment Program (STEP) to June 30, 2010, requires a review of the program as follows:

> "The department shall work with representatives of entities who are eligible to submit a grant application under AS 23.15.620 - 23.15.660 and who provide industry-specific training, on-the-job training, institutional training, classroom job-linked training, and employment assistance to conduct a review of the priorities and procedures of the state training and employment program. The group of entities involved in the review must include representatives from organized labor and representatives that are not from organized labor. Following the review, the department shall publish a written report containing its findings and recommendations, including changes, if any, that it recommends be made to state statute and the department's regulations. The department shall deliver the report to the president of the senate and the speaker of the House of Representatives, and publish a summary of the recommendations made in the report on the Alaska Online Public Notice System (AS 44.62.175), on or before the 30th day of each regular legislative session of the Twenty-Sixth Alaska State Legislature."

This report presents the findings of the STEP Task Force appointed by Department of Labor and Workforce Development Commissioner Bishop in response to this requirement.

Synopsis of STEP Task Force Activity

The Task Force (Attachment A, STEP Task Force Membership) began meeting in March 2008 and continues both in a series of teleconferences and in-person meetings. All meetings have been supported with agendas and facilitated with staff support from the department, the Alaska Workforce Investment Board (AWIB), and with support from the Office of the Attorney General. Notes and documentation of the meetings are available.

The STEP Task Force developed the following recommendations for changes to statute. Following its work on the statutory recommendations, the STEP Task Force will commence consideration of regulation and policy for the STEP. There was considerable discussion regarding changing the purpose of the STEP which began as a pilot program in 1989, but there was ultimately consensus to maintain the current purpose as specified in statute connected to Unemployment Insurance.

There was consensus by the STEP Task Force to make the STEP permanent. The following are their recommendations to the changes in statute some of which were clarified by the department that could be addressed by either a policy and/or regulation change.

Recommended Changes to Statute

- AS 23.15.350 currently reads "There is created in the department a program to finance and award grants to employment assistance and training entities. Employment assistance and training entities shall give appropriate state agencies full access to accounting records concerning grants received to assure compliance with program standards." The STEP Task Force recommendation is to have the statute read "There is created in the department a program to finance and award grants to employers, employment assistance and training entities."

- AS 23.15.635 currently reads "Within the limits of its grant, an employment assistance and training entity receiving a grant under AS 23.15.651 shall provide services set out in AS 23.15.640(a) to state residents who, immediately before beginning training or receiving benefits under a grant financed by this program,
  - (2) are unemployed, but liable to be displaced within the next six months..." The STEP Task Force recommendation is to remove the section "within the next six months" in the applicable statute.
  - (3) "have worked in a position covered by AS 23.20 at any time during the last three years, and are not currently eligible for unemployment insurance benefits because they are underemployed, they are in need of employment assistance and training to obtain full employment." The STEP Task Force recommendation is to replace this section with "at least the average annual wage as determined under the applicable under 8 AAC 87.110 (REGULATION)."

- There was discussion of striking AS 23.15.640(c) which requires repayment of the amount received by an individual participating in a program funded by a STEP grant for tools, work-related clothing, safety gear, or other necessities to obtain or retain employment. Consensus was achieved to have this provision removed as it is difficult to administer and collect repayment. The STEP Task Force recommendation is to delete the requirement of repayment in the applicable statute.

- AS 23.15.645(a) currently reads "The department shall award a grant to the board to (1) administer a state training and employment program; and (2) award grants to qualified entities." There appeared to be interest from the STEP Task Force in clarifying the role of the AWIB in the STEP program, to provide oversight and improve accountability in statute.

- The STEP Task Force recommends revisions to the applicable STEP statute to define the duties and powers of the department and board in Section IV of the Proposed Changes to STEP Statutes. The revisions include the following:

  - The department shall develop and the board shall annually approve a priority list of targeted projects, services, and persons served.

  - The department and board shall consider giving preference to projects and services that train or assist individuals in vocations, businesses or industries identified in the resident hire report required under AS 36.10.130 as employing a disproportionate percentage of nonresidents.

  - The board shall make recommendations to the department regarding the award of grants to eligible employers, employment assistance, and training entities.

  - The department may provide funds to the board for purposes of assisting in the evaluation and award of grants under the program.

  - The department shall promulgate and the AWIB shall adopt regulations governing the allocation and accountability of funds provided and implemented through this program.

Comments and Recommended Changes for Regulation or Policy

- The STEP Task Force felt regional representation was an important consideration. Regional Advisory Councils could forward occupational priorities and provide input from local businesses to the AWIB. Loss of regional control and decision-making has affected service delivery. The recommendation

of the STEP Task Force is for the AWIB to utilize input from Regional Advisory Councils in the review of STEP grant applications.

- The STEP Task Force supports a recommendation for the incorporation of an appeals process for the STEP program in the applicable statute. Policy and regulation can be developed for the administration of the statutory appeals process.

- The STEP Task Force supports the improvement of administration and reporting for the STEP program, as the current reporting requirements are cumbersome and difficult. There was interest from the STEP Task Force to participate in the development of and provide recommendations for a new Management Information System (MIS). The Task Force is interested in support for funding for a new reporting system to upgrade the MIS. The statute should require that improvements be made to the reporting requirements, but the actual improvements can be made explicit by incorporating changes in regulation or policy.

- The STEP Task Force recommended that improvements be made to the application process for the STEP program, as the application process is cumbersome and needs to be updated. The STEP Task Force felt eligibility requirements need to be reviewed and there should be different tiers for STEP funding. Through a tiered approach to STEP, funds can be set aside for small businesses that require assistance in providing training to its employees with streamlined grant application and administrative procedures. Larger, more complex workforce improvement plans will have a different level of reporting requirements and oversight. The statute should reference tiers, but the department can recommend that it be incorporated in regulation or policy.

- The applicable statute currently allows the AWIB to set performance measures and outcomes for the STEP, including the amount charged for administrative costs. Performance measures for STEP grant recipients can be developed by the AWIB incorporating changes in regulation or policy.

Attachment A – STEP Task Force Membership Roster

Ginger Blaisdell, Senate President's Office

Diana Cartier, Alaska Operating Engineers/Employers Training

Krista Gonder, Northern Industrial Training

John Hakala, US Department of Labor, Office of Apprenticeship Training

Linda Hulbert, AWIB Member, New York Life Insurance Company

Eden Larson, Klebs Mechanical, Inc.

RESOLUTION NUMBER 09-01
RESOLUTION IN SUPPORT OF THE STATE TRAINING AND EMPLOYMENT PROGRAM (STEP) TASK FORCE REPORT

4/M/09

WHEREAS, the Alaska Workforce Investment Board is a public organization that is accountable through its members and staff to the residents, the Legislature and the Governor of Alaska;

WHEREAS, the Alaska Workforce Investment Board acts as the lead state planning and coordinating entity for state human resource programs involving employment training, vocational education, and workforce development;

WHEREAS, the primary purpose of the State Training and Employment Program (STEP) is to reduce current and future claims against Unemployment Insurance benefits through investment in job training;

WHEREAS, STEP promotes local hire and may be used to mitigate the impacts of Alaska's economic fluctuations through training or retraining for new or emerging industries and technologies;

WHEREAS, the Commissioner of Labor established a STEP Task Force to consult and work with entities from organized labor and not from organized labor eligible to submit a grant application and who provide training and employment assistance to conduct a review of the STEP program as required by Alaska Legislature in Chapter 46 SLA 08;

WHEREAS, the Commissioner of Labor determined that the Alaska Workforce Investment Board should be an active participant in the STEP Task Force to conduct a review of the STEP program;

WHEREAS, the STEP Task Force met in the spring and summer of 2008 to review the STEP program making recommendations for changes to statute, regulation, and policy; and

WHERES, the STEP Task Force Report was forwarded to the President of the Senate and Speaker of the House or Representatives on or before the 30th day of the 2009 legislative session.

NOW THEREFORE BE IT RESOLVED that the Alaska Workforce Investment Board fully supports the proposed recommendations contained in the STEP Task Force Report, including making the STEP program permanent, that was forwarded by the Department of Labor and Workforce Development to the President of the Senate and Speaker of the House of Representatives.

CERTIFICATION
The Alaska Workforce Investment Board held a meeting duly and regularly called, noticed, and convened this 23rd day of February, 2009 and the foregoing Resolution was adopted at said meeting.

Signed this 23rd day of February 2009.

Jim Lynch, Chair
Alaska Workforce Investment Board

Chapter 4c - Apprentice Labor

29 USC 50 - Sec. 50. Promotion of labor standards of apprenticeship

The Secretary of Labor is authorized and directed to formulate and promote the furtherance of labor standards necessary to safeguard the welfare of apprentices, to extend the application of such standards by encouraging the inclusion thereof in contracts of apprenticeship, to bring together employers and labor for the formulation of programs of apprenticeship, to cooperate with State agencies engaged in the formulation and promotion of standards of apprenticeship, and to cooperate with the Secretary of Education in accordance with section 17 of title 20. For the purposes of this chapter the term "State" shall include the District of Columbia.

29 USC 50 - Sec. 50a. Publication of information; national advisory committees

The Secretary of Labor may publish information relating to existing and proposed labor standards of apprenticeship, and may appoint national advisory committees to serve without compensation.

Such committees shall include representatives of employers, representatives of labor, educators, and officers of other executive departments, with the consent of the head of any such department.

29 USC 50 - Sec. 50b. Appointment of employees

The Secretary of Labor is authorized to appoint such employees as he may from time to time find necessary for the administration of this chapter, with regard to existing laws applicable to the appointment and compensation of employees of the United States.

ANALYSIS: *(Attach a separate page if necessary)*

This bill is intended to improve the quality of education loans sufficiently to maintain the Alaska Student Loan Corporation's (ASLC) capacity to issue revenue bonds, backed by loan assets, to finance future lending activities. Implementation of the proposed changes is not expected to require additional appropriations. It is feasible that these changes will positively impact ASLC revenues through improved collections on the loans, but it is not possible to estimate that impact at this time due to the complexity of factors impacting loan collections.

HB 109
Sponsor Statement

HB 109 requires that, as a condition of eligibility for an Alaska Supplemental Education Loan (ASEL), a borrower must have good credit or, if unable to document a history of good credit, must apply with a credit-worthy co-signer. Administered by the Alaska Commission on Postsecondary Education (ACPE), these loans are funded by the Alaska Student Loan Corporation (ASLC). ASLC issues bonds in the capital markets using its various AlaskAdvantage education loans as collateral pledged to support the bonds. The loans are in two categories: those with a federal guaranty (Stafford, Federal PLUS and Grad PLUS) and non-guaranteed State loans. With bonds collateralized by guaranteed loans, investors know they can rely on the backing by the federal government. ASELs have no guarantee and therefore the underlying quality is a primary concern. ASLC has determined that unless the credit quality of ASELs is improved, they will not be usable as collateral.

Compared to credit standards imposed by lenders in other states, ASEL credit requirements are among the least restrictive for alternative education loans. ACPE currently only reviews histories for bad credit. If an applicant has no credit history they may borrow without a co-signer. In today's national economic climate, bond investors are extremely averse to bonds backed by certain asset types. Unfortunately, in this new environment ASELs are viewed as subprime loans. ASLC financial advisors indicate there is little likelihood this conservative investor perspective will change in the future. Passage of HB 109 is intended to permit ACPE to improve ASEL quality so they will be more positively received in the bond market. If ASLC is unable to finance the ASEL program through the capital markets, in the future the State would have to directly fund this program or ASELs would be unavailable. ACPE estimates that its annual loan demand through the ASEL program will continue to be $40 to $50 million.

HB 109 also allows ASLC to set the interest rate for Family Education Loans (FEL) in accordance with the rate set for the ASEL (not to exceed 8.25%). The FEL program allows a family member to take out a loan on behalf of another family member. This program accounts for less than 2% of ASLC loans. Currently ASLC must charge the 5% interest rate set in statute for the FEL. HB 109 gives ASLC the flexibility to set the interest rate according to the current fiscal environment.

The Legislature should carefully examine changes that put limitations on borrowers. However, HB 109 is necessary for ACPE and ASLC to continue to meet their shared mission to promote, support, and provide access to postsecondary education for Alaskans and in Alaska, without relying on the State General Fund to finance its operations.

State Capitol, Room 102 Juneau, AK 99801 - Phone: 465-3923 - Fax: 465-3472 - Toll Free (800) 665-2689
Representative_Paul_Seaton@legis.state.ak.us

Briefing on: ASLC Liquidity Issues and Proposed Plan of Action

- The Alaska Student Loan Corporation (ASLC), created by the legislature in 1988 to provide a source of financing for state-administered education loans, has successfully issued bonds from 1988 through 2007. ASLC's tax-exempt bond issues have been structured using education loans as collateral.

- In 2008, due to the extended disruption in the capital markets, ASLC was unable to issue bonds. One reason for that was contagion from the sub-prime mortgage-backed bond market had spread to student loan-backed bonds—particularly in regards to non-federally guaranteed education loans such as the Alaska Supplemental Education Loans (ASELs). Rating agencies, financial partners and investors have substantially altered their level of scrutiny and qualitative standards for asset-backed bonds, resulting in ASELs being viewed as sub-prime loans.

- In short, ASELs as they exist today are no longer of sufficient quality to be effectively used to back bonds. In order for ASLC to be able to efficiently use ASELs to back bonds in the future, the credit standards applied to borrowers of these loans must be strengthened.

- Failure to make the proposed changes will seriously compromise ASLC's ability to finance its programs and operations in the capital markets. In that event the options will be 1) the State of Alaska will have to directly fund the ASEL program at an annual cost of approximately $50 million, or 2) ASLC will substantially cease originating ASELs effective in 2009.

- In addition to the proposal to raise the credit standard for the ASEL, because in the increases in the costs of financing the loan program, there is also a need to alter the interest rate on the Alaska Family Education Loan (FEL). That loan rate is currently set in statute at 5%. The proposal is to set the FEL rate at the same rate charged on the ASEL—currently that rate is 7.3% and is capped in statute at 8.25%. Proposal would allow the Corporation to set the rate on these loans using the same program-costs based formula used for the ASEL.

- The timing of a change in the ASEL credit standard is fortunate in that it coincides with the 2008 increase in the federal Stafford loan limits.[1] Stafford loans, also offered by ASLC for Alaska students, are a federal entitlement to any student attending an accredited institution and no credit standard is considered in making these loans (except that the borrower may not be in default on an existing federal education loan). Furthermore, in January 2009 congress introduced a stimulus bill which provides for an additional increase in the Stafford loan limits of $2,000 per year for an undergraduate program.

The actions described above are proposed at the recommendation of ASLC Executive Officer and Alaska Commission on Postsecondary Education Executive Director Diane Barrans. She is available to respond to questions or concerns and can be contacted at diane.barrans@alaska.gov or 465.2113.

[1] **Annual Stafford borrowing limits are for dependent and independent students respectively: 1) $5,500 and $9,500 (freshman), 2) $6,500 and $10,500 (sophomore), 3) $7,500 and $12,500 (junior/senior), and 4) $20,500 (all graduate).**

Career Training (Vocational)	$6,500
Undergraduate	$8,500
Graduate	$9,500

Eligibility

- Borrower (family member applying for loan) must be an Alaska resident
- Student must have a high school diploma or equivalent (i.e., GED)
- Student must be enrolled and admitted into an eligible program on a full-time basis
- Neither the student nor the borrower can be in default on a federal or state education loan
- Neither the student nor the borrower may be past due on an Alaska child support obligation
- Borrower must not have an adverse credit history

How to Apply

You can apply online, stop by our office in Anchorage or Juneau, or an application is available for download. Remember:

1. Family members may only borrow up to the student's cost of attendance as certified by the school, not to exceed the annual limits listed above.
2. Discuss financial aid options with the school. Many schools offer different financial aid programs. School financial aid experts can advise you regarding which aid is suitable for you. The school may also have specific criteria and deadlines, and you may miss out if you apply without first discussing your options with the school. Inform your school of your financial aid decisions.

[1]The APR assumes a principal loan amount of $8500, origination fee of 3%, freshman student, and a repayment term of 10 years. The APR does not include the effects of borrower benefits.

Alaska Supplemental Education Loan

The Alaska Supplemental Education Loan is an alternative, low-cost borrowing option to supplement funding for students with costs of attendance not fully covered by the AlaskAdvantage Stafford Loan. The interest rates listed below are fixed*, but borrower benefits are variable and may change annually.

Base Note Rate	7.30% (APR 8.27%)[1]	7.30% (APR 7.3%)[1]
Alaska Presence Benefit	-0.50%	-0.50%
Direct Payment Benefit		-0.25%
Timely Benefit After First 48 Repayment Months		-2.00%
Lowest Cost Interest Rate Equivalent	**6.80%**	**4.55%**

*Interest rates and AlaskAdvantage Borrower Benefits are subject to approval annually by the Alaska Student Loan Corporation. Interest rates on loans issued prior to the 2006/2007 academic year are variable and change annually. Click here for a chart of rates. AlaskAdvantage Borrower Benefits apply to both new fixed rate loans and existing variable loans.

Borrowing Limits	Annual Limit[1]	Lifetime Maximum
Career Training (Vocational)	$6,500	
Undergraduate	$8,500	$42,500
Graduate	$9,500	$47,500
Undergrad + Grad		$60,000

[1]Loan amounts are pro-rated based on the term of attendance; e.g., an undergraduate student attending only one semester is eligible for 1/2 the annual loan limit, or $4,250.

Eligibility

- FAFSA may be required
- High school diploma or equivalent (i.e., GED)
- Minimum half-time enrollment in eligible program
- Not in default on a federal or state loan
- Not have an adverse credit history (option to apply with credit-worthy cosigner)
- Alaska resident or attending an eligible school in Alaska
- Not past due in child support obligations

You can apply online, or you can download an application. Before you apply for loan programs, we recommend you:

1. Complete the Free Application for Federal Student Aid (FAFSA).
   You can complete the FAFSA online at http://www.fafsa.ed.gov/ anytime after January 1st.
2. Discuss your financial aid options with your school. Many schools offer different financial aid programs. Your school financial aid experts can advise you regarding which aid is suitable for you. Your school may also have specific criteria and deadlines, and you may miss out if you apply without first discussing your options with your school. Inform your school of your financial aid

College financial aid system facing stiff test

By DAVE CARPENTER
The Associated Press
Sunday, January 25, 2009; 4:26 AM

CHICAGO -- Finding financial aid for college this year promises to be tougher than any final exam. The quest for money that begins for students and parents every January has taken on new urgency in 2009 amid fears that loans and grants will be scarcer than in the past due to the recession.

"The financing system for college is in real crisis," said Barmak Nassirian, associate executive director of the American Association of College Registrars and Admissions Officers. "Every one of the participants in the system is experiencing hardship _ higher education institutions, states, aid donors and families all are cash-strapped."

Federal student loans remain readily available _ with some funding even increased recently by Congress. But the prospect that grants and scholarships may be cut at many schools, combined with the shrinking availability of private loans, has fueled widespread angst at a time when more people than ever are seeking help. Applications for federal aid for the current academic year already are running 10 percent above last year's record pace, according to the Department of Education.

Savings held in Section 529 plans _ the state-sponsored investment funds for college that are popular for their tax breaks _ have been depleted by the worst bear market in decades and home equity values have plummeted. That has sapped two sources most tapped by parents to fund their children's higher education. Colleges' endowments have been similarly walloped.

Private student loans are especially hard hit. Last year, 60 private lenders provided $19 billion to students. Now, 39 of those have stopped lending to students and the remaining firms have made it harder to borrow, according to Finaid.org, a Web site that tracks the industry.

"The stress level is high," said Rod Bugarin, financial aid adviser for the New York-based college consulting firm IvyWise.

Numerous revenue-short states are likely to consider cutting aid in one way or another, and public colleges and universities are expected to raise tuition _ in some cases by double digit percentages _ as they set rates for next year.

Scholarships from civic groups and local companies across the country also are likely to decline, Bugarin said, although it's too early to know the extent.

What it all means is that families and college counselors are having to hold difficult conversations about reduced savings and the need to take on more debt and lower sights to focus on more affordable schools.

"There are no sure answers because we're in new territory," said Bruce Hammond, a Washington, D.C.-based college admissions consultant and co-author of "The Fiske Guide to Getting into the Right College." "But students with high need and lesser credentials are going to have to brace themselves

for less aid."

Jean Kliphuis, 46, of Huntington, N.Y., is concerned about the tightening vise of college costs and how to pay for them as she studies aid prospects for daughter Katie, a high school senior who has applied to six schools. Jean is a librarian and her husband Tim is self-employed in the office equipment business. As middle-income parents of three children, their tab for college could be overwhelming if they didn't do all their homework on aid options.

"There is money out there, but you have to jump through a lot of hoops to get it," Kliphuis said. "So my husband and I are jumping through the hoops."

The key to success in the "convoluted" financial aid process is good information, she said, and there's lots of it available through schools' aid offices and online at such sites as Collegeboard.com and Princetonreview.com.

Indeed, the news isn't all bad. The federal government has authorized some $95 billion in grants, loans and work-study assistance to help almost 11 million students and their families pay for college this year, and its recent commitments mean that total will all but certainly be exceeded next year.

"It's scary, but not as scary as people might think," said Lauren Asher of the California-based Institute for College Access and Success, an independent nonprofit group.

Among the encouraging developments for parents and students:

_ The government broadened student borrowing in the midst of the credit crunch, ensuring the continued flow of federal loans that families depend on ahead of costlier private ones. Among other changes, annual borrowing limits for unsubsidized Stafford loans, which students can take out regardless of income, were raised by $2,000 and parents can now defer repayment of federal loans until after their child leaves school.

Stimulus proposals that would give students more financial aid also are progressing through Congress.

"This certainly has been an unprecedented disruption in the student loan marketplace," said Mark Kantrowitz, publisher of Finaid.org. "But Congress and the Department of Education have acted quickly to avert a crisis."

_ No school is known to have withdrawn pledged financial aid this academic year despite financial setbacks that have prompted them to make cuts elsewhere. A number of top institutions, from Harvard, Yale and Duke to smaller institutions with large endowments, announced expanded aid last year and have insisted they will stick to those commitments.

Aid can make a huge difference in affordability. The average list price of tuition and fees for the current academic year is $6,585 for in-state students at four-year public universities and $25,143 at private colleges, with some costing far more. But grants and tax breaks lower the average net price to about $2,900 at public universities and $14,900 at private schools, according to the College Board.

_ Some students will benefit from the turmoil, especially at colleges with high tuitions and scarce resources.

"These places continue to jack it up," Hammond said of tuition increases, "so if you can pay the full

outrageous fee in this economy, as long as you can walk and chew gum you will be admitted. And if you're pretty good _ average, even _ you might get a $10,000 merit scholarship."

Admissions experts recommend considering a range of fallback options, from lower-cost public schools to community colleges or even waiting a year to save more money. And colleges and parents alike are hedging their bets on next year and beyond.

Administrators at Ohio State University see no big immediate impact on aid from the economy but are concerned about what may happen over the longer term, said Bill Shkurti, chief financial officer. The school's endowment has fallen by as much as 30 percent from $1.5 billion a year ago but accounts for just 2 percent of operating revenue, he said.

The University of North Carolina at Wilmington, with a much smaller enrollment and endowment, similarly has taken a hit. In a scenario likely to be repeated on many campuses, financial aid director Emily Bliss says the school is bracing for unpleasant conversations with parents about next year as it relies more on loans in its aid packages and eliminates some of the "free" money.

"Grants and scholarships won't all come through," she said. "It's difficult for us to tell families that, because our heart is breaking for them knowing what they're going through."

NEWS FROM NASFAA

Financial Services Committee Holds Hearing On Auction Rate Securities Market Troubles

Broker-dealer firms that underwrote, marketed and sold auction-rate securities (ARS) misled investors by not disclosing the increasing risks associated with ARS and their reduced ability to support auctions, according to the testimony of Linda Thomsen, the director of the Securities and Exchange Commission's Division of Enforcement.

Thomsen testified Thursday at the House Financial Services Committee's hearing on problems and potential resolutions to the auction-rate securities market, which froze up in mid-February when investors stopped buying ARS - effectively drying up all the liquidity in the market. ARS had grown into a $330 billion market by early 2008. Until the ARS market froze in mid-February, auction failures were extremely rare and the market was highly liquid.

ARS and Student Loans

The current lack of liquidity in the ARS market and the Asset Backed Securities market combined with recent subsidy cuts has forced more than 130 Federal Family Education Loan Program (FFELP) loan providers to suspend or terminate a portion or all of their services. The freezing of the ARS market has hit nonprofit lenders especially hard because of their reliance on ARS to raise capital.

In her testimony before the committee, Tara E. Payne, vice president of Corporate Communications at the New Hampshire Higher Education Loan Corporation (NHHELCO), explained that thousands of students were forced to find a new, likely more expensive, student loan provider because funds NHHECLO would have used to make loans are frozen in the ARS market.

Payne testified that NHHELCO's once solid financial base had been significantly compromised by UBS Securities, LLC, NHHELCO's "long-standing, trusted" financial advisor and broker-dealer since 1997.

UBS actively encouraged NHHELCO to extend its commitment to student loan bonds, even when UBS knew that the market for these bonds was on the verge of collapse, according to Payne. UBS advised NHHELCO to reset the maximum rate on NHHELCO's taxable bonds to 17% to ensure liquidity and prevent auctions from failing.

"We know now that this was a 'scheme' to make the securities more attractive to investors and to keep NHHELCO in the Student Loan Auction Rate Securities market," Payne said.

Additionally, UBS would bid for bonds that went unsold to prevent auctions they ran from failing, but it was actively considering withdrawing its own holdings in the market. At the same time, it was advising NHHELCO to stay in the market. On February 13, 2008, UBS stopped supporting the ARS market and it collapsed, leaving NHHELCO and investors with billions of dollars frozen.

"UBS never disclosed to NHHELCO that the ARS market was at risk of freezing ... or that UBS was preparing to ends its support of the market," Payne said.

On August 14, 2008, the New Hampshire Bureau of Securities Regulation announced that is was taking action against UBS Securities, LLC for fraud and failing in its fiduciary and moral duty to NHHELCO. .

Fortunately, NHHELCO was able to raise $94 million from community lenders in order to continue making loans. Congress then passed the Ensuring Continued Access to Student Loans Act, which allows the Department of Education to provide liquidity to the market and enabled NHHELCO to continue making loans.

Proposed Solutions

Payne and others testifying before the committee agreed that it is unlikely that the ARS market will recover in the near future, if ever. Payne urged lawmakers to extend ECASLA to ensure students and families will be able to finance higher education.

"In New Hampshire we know that 82 percent of borrowers in repayment believe that the opportunity to go to college would not have been possible without access to student loans," Payne said. "The credit crisis has threatened many families' ability to get a second mortgage or for students to qualify for private education loans without parents as co-signers. As a result, some low- and middle-income families may be running out of college funding options. We understand that some are turning to borrowing from 401k plans and putting tuition on credit cards."

James Preston, president and CEO of the Pennsylvania Higher Education Assistance Agency (PHEAA) also advocated for an extension of ECASLA, but noted that it was only a temporary fix and a longer-term solution is needed.

"Unless Congress and the Administration address the underlying causes of the current liquidity difficulties, there will continue to be instability in the student loan marketplace and participants will continue to cease supporting student loans," Preston said.

Preston and other nonprofit loan providers have been championing a plan to have the Treasury replicate its efforts to rescue Fannie Mae and Freddie Mac for student loan providers. Under this plan, the Treasury would stand in place of the global markets which are unable to supply sufficient capital to student lenders.

A Wide-Spread Problem

NHHELCO's experience is not unique.

Broker-dealer firms that underwrote, marketed and sold ARS used their sales forces, marketing materials, and account statements to misrepresent to their customers that ARS were safe, highly liquid investments that were equivalent to cash or money market funds, according to Thomsen.

"These firms failed to disclose the increasing risks associated with ARS, including their reduced ability to support the auctions," she said. "By engaging in this conduct, those firms violated the Federal securities laws, including the broker-dealer antifraud provisions."

Federal and state law enforcement and securities regulatory officials have helped tens of thousands of investors get billions of dollars of liquidity restored to them. Before the hearing, the Financial Industry Regulatory Authority announced it reached agreements with SunTrust Banks Inc. (STI), Comerica Inc. (CMA), Washington Mutual Inc. (WM) and First Southwest Co. to settle queries about how they marketed and sold auction-rate securities. Finra said the companies have agreed to repurchase auction-rate securities bought by individual investors, charities and small businesses with $10 million or less in their accounts between May 31, 2006, and Feb. 28, 2008. The companies didn't admit or deny wrongdoing.

Causes of the ARS Market Freeze

The ARS market encountered significant problems during early 2008 for several reasons, according to Thomsen.

One factor was the significant increase in the size of the ARS market, which had grown to $330 billion by the time of the freeze. This larger market required the firms to find more and more customers to bid in the auctions.

An additional reason for the market seizure is the rating agencies' downgrades of the monoline insurers (e.g., Ambac Financial Group Inc, and MBIA Inc.), which provided insurance for many ARS to ensure that holders would receive repayment of their principal if the issuer defaulted. These downgrades resulted in the loss of customers willing to invest in ARS.

Another factor that contributed to the freeze is the sub-prime mortgage and credit crisis that unfolded throughout the second half of 2007, which limited the firms' ability to support the auctions with their own capital. In fact, firms stopped supporting the auctions in mid-February 2008, and the entire market froze in a matter of days. The securities became illiquid, leaving tens of thousands of customers unable to sell their

ARS holdings.

A complete list of witnesses who testified and their testimony is available online.

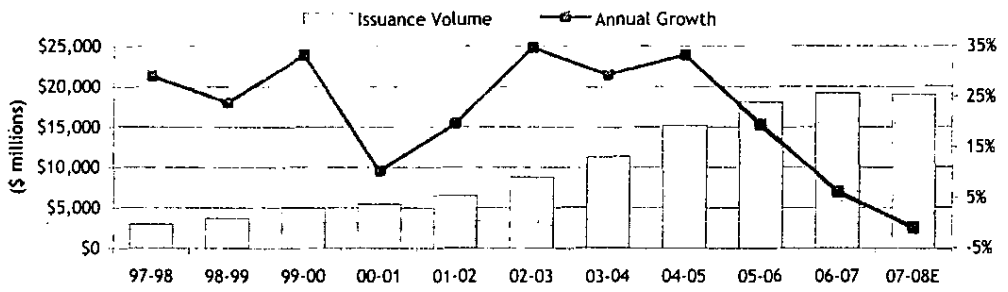
Overview

The rising cost of education has consistently outpaced growth in loan limits for federal student loan programs. The gap has been filled with the private education loan. Issuance of private, or nonfederal, education loans has grown from $3bn in academic year 1997-1998 to $19.1bn in academic year 2007-2008, according to College Board. Lenders involved in the federal student loan space have leveraged their school relationships, operating platform, and expertise to expand into private education lending. While early performance data seemed to indicate a smooth transition, the economic environment was strong and loan portfolios had yet to fully season. As the economy showed signs of weakness in 2007 and more private student loans entered repayment, cracks began to emerge in lender underwriting strategies.

Private Education Loan Growth



Source: College Board.

Deterioration in portfolio credit metrics combined with a widespread re-pricing of risk in the capital markets have made it more difficult for lenders to access the asset-backed securitization (ABS) markets for private student loan term funding. Lenders have pulled back on origination volume by tightening underwriting standards and cancelling certain school relationships, but many lenders have had to arrange expensive funding facilities for un-securitized private loans on their balance sheets. Government funding programs, like the Term Asset-Backed Loan Facility (TALF) may temporarily increase investor buying of private loan deals, but they will not truly re-ignite interest. This will necessitate re-educating investors on the risk/rewards of the product and, potentially, making changes to the loans to make them more attractive to investors. Continued deterioration in portfolio credit quality and an inability to secure cost-effective funding could result in negative rating action for student lenders.

In this report, Fitch will:

- Discuss how college costs, federal student aid, and legislation drive growth trends in the private education loan;
- Explain how dislocations in the capital markets have impacted funding options for loans and how the structure of the private student loan may need to change;
- Provide an analysis of recent credit trends for large private lenders; and

- Discuss the impact of the bankruptcy of The Education Resources Institute, Inc. (TERI) on the private education loan market.

Private Education Loans

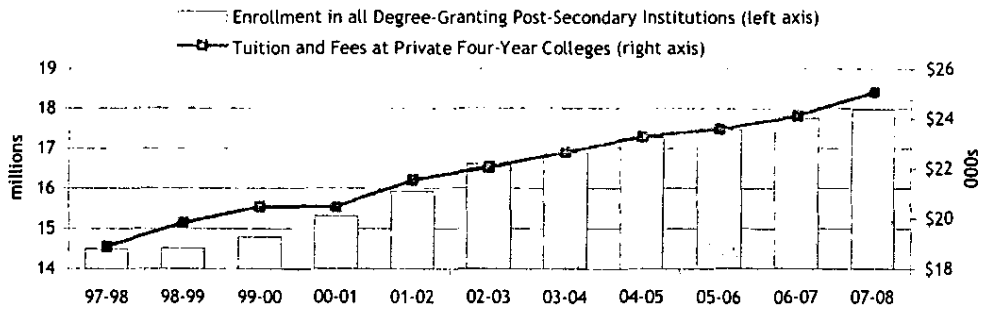
The private or nonfederal education loan has garnered increasing interest as growth in the product has surged over the last decade. Demand for private student loan ABS was relatively robust through 2006, given ample market liquidity and stable collateral performance, but investor interest waned in 2007 as market risk premiums increased and the weakening economic picture began to impact credit quality.

The following sections will discuss growth trends in the private education loan, funding alternatives, asset quality trends, and the impact of the bankruptcy of The Education Resources Institute), Inc. (TERI).

Growth

Private education loans have become an increasingly important component of education funding in the last decade, accounting for approximately 11.7% of total student aid in the 2007-2008 academic year, according to College Board, compared to 3.7% a decade ago. Growth in private student loans has been driven by increasing enrollment levels, rising tuition expenses and, until recently, static federal loan limits. Over the last ten years, enrollment in degree-granting post-secondary institutions grew 24% and average annual tuition and fees at private and public four-year institutions is up 32.7% and 53.3%, respectively. Meanwhile, federal Stafford loan limits remained static from October 1993 to June 2007.

Drivers of Private Education Loan Borrowing



Source: College Board and National Center for Education Statistics.

Fitch expects growth of the private loan product to change; however, as higher funding costs and deteriorating collateral performance have reduced the propensity to loan and some recent legislative change may have an impact on the demand for private education loans. On the legislative front, federal Stafford loan limits have increased twice in the last two years. The Deficit Reduction Act of 2006 increased base limits for freshman and sophomores receiving loans after July 1, 2007 by $875 and $1,000, respectively. Fitch believes this change contributed to the 0.9% decline in private education loans issued in academic year 2007-2008, as subsidized Stafford loans increased 11.1% during the year; well above the 3.3% average annual increase over the last ten years. The Ensuring Continued Access to Student Loans Act of 2008 (ECASLA) increased federal loan limits further by allowing undergraduates to borrow an additional $2,000 in unsubsidized loans per year after July 1, 2008.

Loan Limits for Subsidized and Unsubsidized Federal Stafford Loans

	Pre-Deficit Reduction Base Subsidized/ Unsubsidized	Post-Deficit Reduction Base Subsidized/ Unsubsidized	Pre-ECASLA Additional Unsubsidized	Post-ECASLA Additional Unsubsidized
1st year undergraduate	$2,625	$3,500	$4,000	$6,000
2nd year undergraduate	$3,500	$4,500	$4,000	$6,000
3rd year & beyond undergraduate	$5,500	$5,500	$5,000	$7,000
Graduate/Professional	$8,500	$8,500	$12,000	$12,000

Source: FinAid.org

The most critical change, however, was a provision in the Deficit Reduction Act which permits graduate and professional students to use PLUS loans to fund their entire cost of attendance, less other aid received. Historically, students funded a significant portion of their graduate programs, which tend to be more expensive than undergraduate programs, with variable-rate private education loans. Fitch expects graduate students to willingly switch to federal PLUS loans, which offer more attractive terms. PLUS loans were up a modest 1.25% in academic year 2007-2008, well-below the 12% annual average growth rate over the last decade, but Fitch believes PLUS loans will expand materially in the 2008-2009 academic year, at the expense of private loans.

Still, private education loans remain very relevant for international graduate students with no access to federal loans and in the undergraduate space, for borrowers whose parents cannot access PLUS loans, as the gap between federal loan limits and tuition expenses continues to be relatively wide. Fitch estimates that, based on current legislation, the gap between four-years of tuition and fees at a private undergraduate college and federal loan aid could be around $50,000. Recent dislocations in the capital markets and credit deterioration resulting from portfolio seasoning and a tougher economic environment, however, have reduced the profitability, and therefore, the availability of the private education loan. Fitch believes lenders that remain in the space are taking a closer look at the terms and structuring of the product in order to make them more attractive for investors while remaining useful for borrowers.

Lenders

Many large financial institutions participate in the private student loan market, particularly those with a sizeable retail franchise, as student loans are often part of the consumer product suite. Most large banks, however, do not disclose detailed information on their student loan portfolios, as it is not a significant contributor to the overall business. Large bank lenders include JPMorgan Chase, Bank of America, Citigroup, and Wells Fargo (including Wachovia).

Private Education Loan Portfolios

($m)

	2002	2003	2004	2005	2006	2007	3Q 2008
SLM Corporation	$5,822	$8,305	$11,482	$16,437	$22,588	$ 28,328	$32,800
Student Loan Corp	$1,784	$2,643	$3,649	$4,812	$3,072	$4,696	$5,816
NelNet	$75	$92	$90	$97	$197	$275	$276

Source: Company Filings and Fitch Estimates.

More robust information is available for non-bank student lenders like SLM Corporation, Student Loan Corp. (which is 80% owned by Citibank, N.A.), and Nelnet, Inc. The portfolios of each have grown rapidly since 2002, but growth slowed materially in 2008, given the more difficult environment.

Funding

Many private education loan providers have funded a portion of their portfolio in the ABS market in recent years, but investor risk aversion and underlying collateral deterioration has reduced the demand for private student loan ABS bonds.

SLM Corporation, the largest student loan provider, completed three private loan ABS transactions in 2006 totaling over $5bn in issuance, but it has not completed a private loan ABS transaction since its $2.2bn deal in March 2007. Only two private student loan deals were completed in 2008; one $140m deal from MRU Holdings, Inc. (My Rich Uncle) completed in July, which Fitch did not rate, and a $400m deal from the Massachusetts Educational Financing Authority, completed in August, rated 'AAA' by Fitch based on the financial guaranty provided by Assured Guaranty Corp.

SLM: Private Education Loan Securitization Activity

(For the Years Ended December 31; $ 000s)

2002	$690	1
2003	$3,503	3
2004	$2,535	2
2005	$3,005	2
2006	$5,088	3
2007	$2,001	1
2008	-	0
Total	$16,822	12

Source: Company Filings.

Large bank lenders have been able to leverage their deposit base to replace ABS funding, but non-bank lenders have had to rely on more expensive sources of debt to fund student loan portfolios. The weighted-average cost of SLM's March 2007 term ABS deal, excluding the auction rate tranche, was approximately LIBOR plus 15 basis points. In 2008, the company paid LIBOR plus 400 basis points for its $2.5bn, ten-year, unsecured corporate debt issuance and LIBOR plus 155 basis points for $3.8bn in private loan ABCP capacity, which matures in February 2009.

Higher funding costs and reduced margins led many lenders, like CIT, College Loan Corporation, KeyBank, and Astrive Student Loans (a registered trademark of The First Marblehead Corporation), to exit the business altogether. Those that remain have reduced origination volume and re-evaluated underwriting criteria. SLM, for example, has tightened its underwriting standards, terminated certain school relationships and reduced origination volume by 20% year-over-year, to approximately $6.3bn in 2008. Additionally, SLM is looking to expand the deposit base of its industrial bank, Sallie Mae Bank, in order to more cost-effectively fund the private loan portfolio. The bank had $2.3bn in term bank deposits as of December 31, 2008 and Fitch believes the deposit base will grow to keep pace with private loan originations in coming quarters.

Still, Fitch does not believe that lenders will abandon the ABS markets altogether, as it can be an efficient way to secure term funding for private student loans. While lenders are expected to re-educate investors on the attractive risk/return attributes of the private education loan in order to reduce funding spreads, the Federal Reserve is doing its part to get the ABS market functioning again with the introduction of the Term Asset-Backed Loan Facility.

Term Asset-Backed Loan Facility (TALF)

The Term Asset-Backed Loan Facility (TALF) is being developed with the intention of restoring liquidity to the ABS markets for consumer assets; including auto, credit cards, and student loans. Under the TALF, the Federal Reserve Bank of NY is expected to make up to $200bn of loans, which will be fully secured by eligible ABS. Eligible collateral will include, US dollar-denominated cash ABS with a long-term credit rating of 'AAA'. The underlying credit exposures must be auto loans, student loans, credit

card loans, or small business loans guaranteed by the US Small Business Administration. Student loans will include federally-guaranteed loans, including consolidation loans, and private student loans. Eligible ABS must be issued after January 1, 2009 and all or substantially all of the underlying credit exposures of eligible student loan ABS must have had a first disbursement date on or after May 1, 2007.

TALF loans will have a three-year term with interest payable monthly and the loans will not be subject to mark-to-market requirements. TALF loans are pre-payable, but will not allow for substitution of collateral and any repayment of principal on eligible collateral must be used to reduce the principal amount of the TALF loan. The interest rate will be set to encourage borrowers to purchase ABS. The facility will stop making loans on December 31, 2009, unless the facility is extended by the Federal Reserve. Expectations are for the TALF to be up and running in the first quarter of 2009.

Fitch believes the TALF could be an attractive, and much-needed, funding source for private student loans originated after May 1, 2007, although enhancement levels needed to create 'AAA' securities will likely be more expensive given revised stress scenarios which reflect more recent credit conditions. But restoring more permanent liquidity to the private education loan ABS market may take more than what the TALF, alone, can accomplish. Fitch believes lenders will need to convince investors that underwriting criteria is effective enough to identify and exclude the riskier borrowers and schools that yielded significant deterioration in their portfolios in 2007 and 2008.

Additionally, lenders may need to alter the structure of the private student loan, itself, to make it more liquid and attractive for investors. The maturity of a private student loan, for example, is typically 15 to 20 years, while the maturity of an auto loan is around 5 to 6 years. Investors may not be comfortable with the longer average life of a private student loan ABS transaction and it may be more difficult and more expensive to hedge the interest rate risks of a longer-dated asset. Still, shortening the life of the underlying loan can increase the borrower's monthly payments significantly, making it more difficult to stay current on payment and, therefore, leading to higher portfolio credit losses. Clearly, there will be a balancing act for lenders to consider.

Furthermore, Fitch believes the Deficit Reduction Act, which gave graduate students the increased ability to borrow federal loans, will change the make-up of private student loan portfolios. Of the last 7 private student loan ABS transactions facilitated by First Marblehead Corp, 10.4% of collateral, on average, was related to graduate student borrowers. Going forward, portfolios will be more heavily weighted to undergraduate students. Typically undergraduates do not have an extensive credit history, which means underwriting is often based on the credit risk of the co-borrower or co-signor, which is often a parent, guardian, or spouse. As underwriting policies have tightened, the portion of new loans with co-borrowers has increased. Therefore, newer originations are not solely dependent upon the student's ability to graduate and obtain meaningful employment, as the co-borrower, who is more likely to be established and have more at risk from a credit perspective, is also responsible for making payments. This should provide investors with additional comfort.

SLM has discussed adjusting its private education loan by shortening the product term, increasing the portion of the portfolio with a co-borrower, and requiring interest-only payments while students are in-school.

Asset Quality

Unlike federal student loans, private education loans do not come with a government guarantee against default, although the loans are generally non-dischargeable in bankruptcy and lenders will often obtain third-party insurance to limit the downside

Asset Quality: Private Education Loans

risk. Federal student loans are underwritten based on need, but private education loans are underwritten based on a credit evaluation of the borrower and/or co-borrower and risk-based pricing is employed. While early statistical data of collateral performance was sound, Fitch remained cautious about early credit data, as the surge in origination volume meant that only a small portion of loans outstanding were in repayment status. In recent years, as loan portfolios have seasoned and the economy has slowed, credit performance of the private education loan product has deteriorated.

Private student loan credit performance metrics for SLM Corp, Nelnet, Inc. and Student Loan Corp (SLC) are presented in the table above. Nelnet's portfolio is significantly smaller than the other lenders, but many metrics have followed a similar pattern. Surprisingly, delinquency metrics were actually down at the end of 2007 relative to the prior year, but Fitch believes this was because lenders were employing forbearance policies more aggressively, perhaps believing that a borrower's inability to pay was a temporary blip. But delinquency rates rebounded in 2008, as lenders pulled back on forbearance, after realizing the economic downturn would have a more prolonged impact on a borrower's ability to pay, particularly given the significant increase in the unemployment rate. Borrowers receiving forbearance are being awarded shorter grace periods to ensure they do not get out of the habit of paying every month. SLM's forbearance levels declined from 13.9% of loans in repayment and forbearance in 2007 to 11.5% in 3Q2008, while STU's declined from 8.1% to 6.2%. Fitch believes forbearance levels may decline further in 2009, as lender's award payment programs only to borrowers that they believe can truly benefit, but the decline will accelerate the recognition of credit losses into current periods.

From a net charge-off perspective, metrics have deteriorated for all three issuers since 2006, with SLC increasing 220 basis points to 2.9% as of September 30, 2008, and SLM increasing 180 basis points to 3.4%. Still, both issuers believe they have identified the main source of credit deterioration (outside normal pressure from economic weaknesses) and that is: lending to students attending schools with lower graduation rates and lower average earning potential, given the degree programs offered.

SLM has divided its portfolio into traditional schools and non-traditional schools, where the latter refers to 'loans made to borrowers that are expected to have a high default rate as a result of a number of factors, including having a lower tier credit rating, low program completion and graduation rates, or where the borrower is expected to graduate, a low expected income relative to the borrower's cost of attendance'. The dispersion in portfolio performance is clear, with the traditional portfolio posting net charge-offs of 2.5% in the fourth quarter of 2008, while the non-traditional portfolio posted net losses of 16.1%. Delinquency statistics are also significant with traditional and non-traditional delinquencies of 7.1% and 28.9%, respectively. SLM has ceased lending to non-traditional schools, but Fitch believes the impact of the $4.95bn portfolio will remain for some time as only 60.6% of the portfolio was in repayment as of December 31, 2008.

Net charge-offs on SLM's traditional portfolio, which represents about 86% of the total private loan portfolio, have increased as well, given the tougher economic environment, with net losses rising from 0.6% in 2006. Fitch expects credit metrics to deteriorate further in 2009, as the unemployment picture remains weak for borrowers in and just entering repayment status.

SLC has also segmented its private loan portfolio into the following three categories: Insured CitiAssist, Uninsured CitiAssist Standard and Uninsured CitiAssist Custom. Standard loans are primarily related to CitiAssist loans that have been approved based on standard underwriting criteria and were originated on or after January 1, 2008. Custom loans are related to loans made to non-traditional students or loans with less stringent underwriting standards.

Approximately 78% of the private loan portfolio carries private insurance through

United Guaranty Commercial Insurance Company of North Carolina/New Hampshire Insurance Company or through Arrowood Indemnity Company. Risk-sharing deductibles range from 5% to 20% up to maximum loss levels. As expected, net charge-offs on Insured CitiAssist loans remain relatively low at 0.8%, as of September 30, 2008, but SLC stopped insuring new CitiAssist loan originations on January 1, 2008, believing that higher loan losses would be more than offset by declines in insurance premiums paid.

Loans Covered by Risk-Sharing Agreements with Schools	75.9%	59.7%	47.7%	40.3%	37.3%

* Annualized.
Source: Company Filings and Fitch Estimates.

Net losses on the uninsured portfolio amounted to 7.3% in the third quarter of 2008. Standard loans account for approximately 29% of the uninsured portfolio while custom loans account for about 71%. Net charge-offs on the standard portfolio amounted to 0.2% in the third quarter of 2008, while losses on the custom portion amounted to 9.3%. In the second quarter of 2008, SLC discontinued relationships with schools that generated higher-risk uninsured CitiAssist originations, which Fitch believes would be included in the custom portion of the portfolio. SLC has tightened underwriting criteria in response to the economic environment and plans additional tightening in the near-term.

A portion of the uninsured portfolio is covered by risk-sharing agreements with schools and universities, although that portion has been on a declining trend; from 75.9% of the uninsured portfolio in 2006 to 37.3% in the third quarter of 2008. Under the agreements, the school reimburses a specified percentage when losses exceed a certain threshold or the school pays a percentage of the total disbursed amount to compensate for future expected losses. Lenders to schools with riskier borrower profiles are subject to adverse selection.

While lenders like SLM and SLC are segmenting portfolios and modifying underwriting standards; balance sheets and securitization trusts continue to contain a significant amount of loans already originated which have yet to enter repayment status. As of September 30, 2008, only 38.1% of SLC's private loan portfolio was in repayment status, compared to 57.7% of SLM's portfolio at year-end. Fitch believes lenders have and will continue to build reserves in anticipation of poorer performance of loans made to 'non-traditional' schools and to incorporate general portfolio weakening due to the weaker economic environment. SLM's allowance as a percent of loans in repayment amounted

to 7.2% at year-end 2008 and SLC's allowance amounted to 4.6% at the end of the third quarter 2008.

The fact that private education loans are non-dischargeable in bankruptcy has come under an increasing amount of scrutiny in recent years, in the face of bankruptcy reform and political transition. Consumer protection has been a hot topic in recent months and Fitch believes recent developments in the mortgage market aimed at reducing a borrower's debt burden could expand into other asset classes. Consumer protection advocates have also highlighted the higher interest rates charged by lenders on private loans. The imposition of interest rate caps or limits would also make the private loan less attractive to lenders and investors.

The Education Resources Institute, Inc.

The Education Resources Institute, Inc. (TERI), a private, non-profit corporation and the largest guarantor of private student loans, filed for Chapter 11 bankruptcy protection on April 7, 2008. TERI provided private education loan guarantees to commercial banks underwriting loans according to its articulated standards. Participating banks included Bank of America, Charter One Bank, JPMorgan Chase, and RBS Citizens. These banks would often partner with First Marblehead Corporation (FMD), a student loan facilitator, to structure private student loan ABS transactions. FMD conducted ABS transactions out of its wholly owned subsidiary, National Collegiate Funding LLC and TERI guaranteed 100% of principal and accrued interest on defaulted loans in the trusts.

As discussed in the Asset Quality section, private education loan credit performance began to deteriorate in 2007 and early 2008 as the economic picture weakened. But compounding the issue for TERI was that a large portion of the collateral included in the National Collegiate Student Loan Trust (NCSLT) was originated through the direct-to-consumer channel (as opposed to the school channel), which has been more susceptible to fraud, as there is typically no verification with schools to ensure that funds are being used to pay a borrower's tuition. On average, of the last 7 NCSLT ABS transactions, completed in 2006 and 2007, approximately 80% of loan collateral was originated in the direct-to-consumer channel. So as the economy weakened, some TERI-guaranteed portfolios deteriorated quickly, given the higher direct-to-consumer exposure. TERI received an increasing amount of default claims and its liquidity profile weakened.

Fitch has downgraded and/or placed on Rating Watch Negative numerous classes of NCSLT ABS due to deteriorating collateral performance, beyond Fitch's expectations, combined with operational uncertainties related to the bankruptcy proceedings of TERI and concerns regarding the level of recoveries on defaulted loans in a post-TERI environment. Ongoing analysis is focusing on default level and loss timing projections for each pool. Depending on the outcome, Fitch expects that ratings currently on Rating Watch Negative could be downgraded by an additional zero to three notches.

Fitch believes the impact of the TERI bankruptcy is not limited to ABS transactions, as there are TERI-guaranteed loans residing on bank balance sheets which may, therefore, end up performing well-below management expectations. While student loans are generally not a material component to a large commercial bank's profitability, unexpected losses on what were believed to be insured loans, will only add to the challenges facing banks in the current environment.

Summary

Fitch believes tighter underwriting standards and structural changes to the private education loan product will help peak investor interest in the collateral, but true market liquidity is not likely to return until investors have more information about how

private student loan portfolios perform in the current stressed environment and the ABS markets are fully functioning without government intervention.

Even so, ABS spreads are not likely to return to pre-2007 levels, which means that many lenders that have temporarily cut origination volume may need to reassess the long-term risk/return attributes of the business. Based on these dynamics, the private student loan market will find a new equilibrium; however, this may not align with public policy interests and could necessitate further legislative action to restore a healthier balance of financing for this asset class.

Paying for college

State stepping in as banks bail out of student loans

As the number of private lenders shrinks, Utah agency expects to help thousands of borrowers

By Brian Maffly
The Salt Lake Tribune
Salt Lake Tribune

Article Last Updated:08/15/2008 03:35:18 AM MDT

For the first time, the state of Utah has begun originating student loans, a shift that will ensure that any Utah college student who needs financial assistance can get it, although it will cost more.

The Utah Higher Education Assistance Authority (UHEAA), the agency that oversees financial aid to Utah students, is bracing for loan applications worth $100 million this academic year after big banks all but abandoned the federally guaranteed loan program.

Last fall, Congress cut what participating lenders could make on student loans at the same time money became more scarce. That created a double disincentive for financial institutions to lend to college students. With fewer lenders available, Utah students are expected to flock to UHEAA, agency director David Feitz told his board Thursday.

"We would rather have a full cadre of lenders, but that is unlikely to happen in the near future until Congress raises the yields," he said.

Adding to the pressure was a recent move by Congress to raise the maximum students can borrow by $2,000 (to $5,500 for freshman, $6,500 for sophomores and $7,500 for upperclassmen). Feitz estimated UHEAA will see applications worth one-fourth of the state's total student loan volume this coming year, but he won't know how much until students begin applying as they return to school.

"It could be $60 million, it could be $200 million," Feitz said of a development that represents a profound change in the way UHEAA conducts business.

UHEAA has access to $121 million to lend over the coming academic year.

The U.S. Department of Education promises to buy participating states' loans issued this year under the Federal Family and Education Loan program (FFELP). This would enable states to "recycle" the money back to students in the form of new loans. The UHEAA board voted unanimously Thursday to approve Utah's participation in the complex arrangement.

Feitz cautioned that the program, which runs only for one year, isn't a permanent solution to the liquidity mess that has caused "tremendous chaos" in the $50 billion system that subsidizes the popular Stafford and PLUS loan programs.

"Now we're calling on Congress and the departments of Treasury and Education to take additional action to further stabilize the student loan program for years to come," he said.

In recent months four banks - Wells Fargo, Zions, J.P. Morgan Chase and Key - pulled out of Utah's program, leaving only U.S. Bank. Fifteen credit unions, led by America First, still lend to students, but the banks' departure left a vacuum. Wells Fargo and Zions were the top lenders last year, accounting for more than half of the state's student loan volume.

Lenders also have become picky about which institutions they work with. One Utah school, Snow College, found itself with no lenders, so UHEAA last month began lending directly to students at the Ephraim school.

"Were in a pretty good place, a much better place than our sister agencies across the country," board chairman David Jordan said. "From the students' perspective, this will work. We will be able to help them without depleting our resources."

bmaffly@sltrib.com

Utah students can expect to pay more for college loans under steps taken by the Utah Higher Education Assistance Authority to preserve universal access to federally guaranteed loans.
But the news isn't all bad.

"I'm not aware of lenders offering better terms than what UHEAA is offering," said John Curl, the University of Utah's financial aid director. "We encourage students to research who they're going to get loans from and find the best terms they can get. They are going to have to pay more interest; that's unfortunate."

Congress last year cut the rate on some student loans from 6.8 to 6 percent. But in order to participate in an emergency federal bail-out measure, Utah slashed two rate reductions. Until now, students who had payments automatically drawn from their accounts received a 1.25-point reduction and another 2-point reduction after four years of timely payments. Losing these benefits adds $1,763 to the cost of servicing a $15,000 loan.

On Thursday, the UHEAA board suspended issuing consolidation loans to avoid tying up scarce capital needed to serve current students. Former students looking to simplify repayment plans have other options for consolidating their loans in the federal program.

But Utah students still get breaks on up-front costs of the most common loans, Stafford and PLUS. UHEAA continues to cover the 1 percent origination fee and 1 percent default fee, translating into a $100 subsidy on a $5,000 loan.

Financial aid
* **Students who are considering borrowing** for college for the upcoming school year should start researching their options now, said John Curl, financial aid director at the University of Utah.
* **Students should consult the financial aid office** at their school, check Web sites that serve as information clearinghouses, such as finaid.org, or www.uheaa.org, the Web site for the Utah Higher Education Assistance Authority.

The Boston Globe

A late try to salvage student loans

Patrick calls on pension board, colleges to invest in agency bonds

By Casey Ross, Globe Staff | August 7, 2008

Governor Deval Patrick has asked the state pension fund to invest $50 million and will ask Harvard University and other local colleges to invest millions more to provide student loans to thousands of families struggling to pay college tuition bills that are due in the coming weeks.

Patrick's 11th hour proposal, floated among key officials yesterday, would prop up the troubled 26-year-old Massachusetts Educational Financing Authority, which announced last week that it would be unable to provide student loans for this school year because of turmoil in the nation's credit markets.

The proposal would entail the investment funds buying portions of a $425 million bond sale that MEFA is planning this month. The agency would use the proceeds to finance student loans.

"We have 40,000 students and families who need help, and we're right up against it," Patrick said in an interview with the Globe last night. "This is a sound investment for the pension board and the endowments."

The governor and his aides, along with state lawmakers, have been brainstorming ways to restore student loan funds for the past week. MEFA had previously offered low-cost, fixed-rate loans, but now borrowers have to look to other lenders whose loans may carry higher rates and higher costs.

Yesterday, Patrick's top budget aide, Leslie Kirwan, asked the state pension board to consider buying $50 million of the upcoming MEFA bonds. Administration officials also hope the state investment would be seen as a show of confidence in the bond market and MEFA, spurring purchase by other investors that could finance more loans.

Patrick said he intends to call officials today from Harvard, Boston College, the University of Massachusetts, and the Massachusetts Institute of Technology, among other schools, about making similar investments in MEFA bonds.

The chairman of the state pension board, state Treasurer Timothy Cahill, was noncommittal about Patrick's request, but said the board would consider it.

The pension fund staff "will examine the options legally available to invest in any debt issuance set up by MEFA and report back to the trustees before any action is taken," Cahill said through a spokeswoman.

With $51.7 billion in assets, the pension fund invests monies for state employees and retirees. And while it is unusual for the fund to use anything other than financial returns as grounds for investment, the board has already committed funds to local projects that are intended to produce economic and social benefits within Massachusetts. The program was a major policy goal of Cahill, who got the pension board to adopt it in 2003.

Even without Cahill's commitment, Patrick has a strong start on getting the board to adopt his measure, as he appoints three of its nine members, one of whom is Kirwan.

Another board member, Robert Brousseau, reacted favorably to Patrick's request and said he did not hear strong objections from fellow board members at yesterday's meeting.

"I can't see anybody opposing it, but we have to see the parameters of the investment and what form it would take," said Brousseau, who represents teachers on the board.

Patrick said he is seeking swift consideration from the pension fund board because MEFA is planning to hold its bond sale within two weeks.

"We need action," he said. "If they need to call a special meeting to approve this, then I hope they will."

Meanwhile, representatives of the local colleges said the institutions will consider the investment.

"We're always more than happy to have discussions with the governor," said John Longbrake, a spokesman for Harvard University, the governor's alma mater. "We welcome the opportunity to learn more about the challenges MEFA is facing and to discuss ways to address them."

Robert Connolly, a spokesman for UMass President Jack Wilson, said: "This is an idea we're definitely willing to explore. We do see it as a potential win-win in terms of providing the university with a sound investment while helping families cope with their financial aid challenges."

Officials at the student lending agency, meanwhile, said Patrick's plan carries minimal risk to the investment funds because MEFA's bonds provide reliable returns. Executive Director Tom Graf said the default rate on the authority's loans is less than 1 percent. "This plan allows" the pension board "to make a stable investment that is especially warranted in this financial climate," he said.

The problems in the bond market, which started with the foreclosure crisis and spread to other credit markets, have imperiled student lenders across the country, prompting more than 50 agencies to stop making federal or private loans.

Graf said the size of the upcoming bond sale may change based on investor interest. If the sale is a success, he hopes the agency will then be able to offer loans with rates below 8.5 percent, which is the current charge for Federal Plus loans. Last year, the authority's private 20-year loan rate was 6.39 percent.

The agency made $400 million in private loans in the last school year, and another $110 million in federal student loans.

State Senator Brian A. Joyce, who authored a letter last week signed by other legislators urging Patrick to support MEFA, applauded the governor's actions. "This critically important to an awful lot of Massachusetts families," he said. "The governor can use his bully pulpit to ask for some assistance, and I wholeheartedly support what he's doing."

AP Associated Press

NH working on student loan problem

By Kathy McCormack, Associated Press Writer | August 6, 2008

CONCORD, N.H. --Turmoil in the financial markets has driven many lenders out of the student loan market, leaving students struggling to pay their fall tuition. That's a problem that New Hampshire officials are working on.

Many students "are being frozen out from having the loans they were expecting," said Mark Connolly, director of the state Bureau of Securities Regulation.

"In the last several days, our office has been engaged in discussions with some of the participants who have been involved in securitizing these loans in our state," Connolly said Wednesday.

"We are trying to encourage these participants to bring liquidity to these loans so students can plan for their academic year. If we are unable to successfully encourage these participants to bring liquidity to our student loan market, we will take regulatory action that in part will address the issue," Connolly said.

Connolly said his office has been involved with many other states in looking at the auction-rate securities market -- short-term investments that are a popular way for companies and some wealthy investors to store their cash -- which has rippled into the student loan market.

Dozens of lenders have left the federal student loan program, though where that has happened other lenders have stepped in or students have turned to a smaller program in which the Education Department makes loans directly to students.

Last month, the Massachusetts Educational Financing Authority, which provided more than $500 million worth of college financing last year, said it would not provide private loans this year because of turmoil in the financial markets. That affected about 650 New Hampshire college students from Massachusetts.

Earlier this year, the New Hampshire Higher Education Loan Corp., the state's leading provider of student loan financing, said it was suspending its private loan program because of market conditions. That meant more than 6,000 students had to find another place to borrow money.

ANALYSIS: *(Attach a separate page if necessary)*

This bill is intended to improve the quality of education loans sufficiently to maintain the Alaska Student Loan Corporation's (ASLC) capacity to issue revenue bonds, backed by loan assets, to finance future lending activities. Implementation of the proposed changes is not expected to require additional appropriations. It is feasible that these changes will positively impact ASLC revenues through improved collections on the loans, but it is not possible to estimate that impact at this time due to the complexity of factors impacting loan collections.

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		19	Recommendation			**Operating Lapse Extensions**		**Recommendation: Temporarily exclude all operating lapse extensions.** Operating lapse extensions circumvent the subcommittee process; they add money to the FY2010 budget without the benefit of subcommittees review. Subcommittees should have the opportunity to see the full budget for FY2010. These should be resubmitted as FY2010 increments and allowed as lapse extensions only after review in conjunction with the operating budget.					
		20											**OMB Response to Request for Operating Budget Amendment**
		21	[redacted]	Allow, per HFC	6	Administration	AOGCC	Extend lapse date of AOGCC appropriation for reservoir depletion studies, sec. 61(d), ch. 30, SLA 2007, as amended by sec. 34(a), ch. 29, SLA 2008, from June 30, 2009 to June 30, 2010. The estimated carryforward amount is $1.4 million.						Some of the money is currently being used to perform a similar study of the Pt. Thomson reservoir. Although this study has been underway for over 2-1/2 years, it is far from being completed due to numerous delays, all beyond the control of the AOGCC. These delays have all been due either to the litigation between the DNR and Exxon/Mobil or to internal process issues at Exxon/Mobil. The results of this study will assist the AOGCC in determining the appropriate gas off take allowable from the Pt. Thomson reservoir for sale into a North Slope gas line. AOGCC's goal is to complete the Pt. Thomson study during FY2010 but, given their lack of control over the schedule, it is very possible that the study may extend beyond that time. It is also possible that some funds may be used to study new issues, to update the Prudhoe study, and/or to hire consultants to testify at hearings.
3/13/2009	DOL 3	22	[redacted]	Allow, per HFC	10a	Labor	Commissioner's Office	Sec. 10(a) $100,000 to the Commissioner's Office for a detailed occupational forecast to be prepared by the department's Research and Analysis section and continued funding for three Steering Committee and Regional Training Center coordination meetings through June 30, 2010.						100.0 was not requested in FY2010
3/13/2009	DOL 4	23	[redacted]	Allow, per HFC	10b	Labor	Labor Market Information	Sec. 10(b) $145,000 to the Labor Management Information component for development and dissemination of regional employment data products and continued development of a web and print based Alaska Training Program guide through June 30, 2010.						Replaces FY2010 request for 145.0. Use lapse from Commissioner's Office
3/13/2009	DOL 5	24	[redacted]	Allow, per HFC	10c	Labor	Business Services	Sec. 10(c) $80,000 to the Business Services component for training and related instruction to at least 70 apprentices at Regional Training Centers for Gasline related occupations; and funding for cooperative training agreements with business and industry for registered apprentices and structured on-the-job training for approximately 125 workers through June 30, 2010.						In combination with 505.0 in HFC operating budget, matches 585 request
3/13/2009	DOL 6	25	[redacted]	Allow, per HFC	10d	Labor	Workforce Investment Board	The unexpended and unobligated general fund balance, not to exceed $85,000, of the appropriation made in sec. 1, ch. 27, SLA 2008, page 28, line 27, is reappropriated to the Department of Labor and Workforce Development, Workforce Investment Board for continuing gasline activities, for fiscal year ending June 30, 2010.						In combination with 45.0 in HFC operating budget, matches 130.0 request

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		26	[redacted]	Allow, per HFC	13	Natural Resources	Oil & Gas	Extend lapse date on sec. 24(p), ch. 159, SLA 2004 Gasline Right of Way and Application from June 30, 2009 to June 30, 2011. Due to the number of projects under development and the work involved with right of ways and associated permitting there is huge demand for work not covered by the companies involved: ANGDA, ENSTAR, Denali and TransCanada. The estimated carryforward is $2,965,800.	This $3.9 million appropriation for permitting and application processing for gas line right of way work was originally requested as a capital project as the department knew the amount of work would vary from year-to-year and would take years to complete. The legislature, however, made it a five-year operating appropriation. The department's original reasoning still applies and that is why the extension through FY2011 is requested in the supplemental bill.				
		27	[redacted]	Allow, per HFC	14a	Revenue	Resource Rebate	Extend lapse date from June 30, 2009 to June 30, 2010 for the Alaska Resource Rebate Program, appropriated in sec.1(b), ch. 1, 4SSLA 2008, in order to finalize determinations for approximately 10,000 applicants in some stage of having their eligibility determined, already denied but not yet appealed, or in appeal status.	The lapse extension will allow the department to have the necessary funding to finalize the determinations of the approximately 10,000 applicants in some stage of eligibility review and to pay the rebate should the applicant prevail. The department is not able to estimate the funding needed to finalize these cases. The resource rebate was truly a one-time appropriation.				
3/13/2009	DOT 4	28	[redacted]	Federal requirement	15e	Transportation	Central Region Highways and Aviation	Extend the lapse date from June 30, 2009 to June 30, 2014 for the $10 million federal funds appropriated for Adak airport operations. the estimated balance is $6.2 million.□ The Memorandum of Agreement signed by the Navy and the State require the funds provided for facility maintenance and operations to be spent solely on the Adak airport.					
[redacted]		29	[redacted]	Could wait because this is a lang change...but need ratification anyway		Transportation	Central Region Support Services	Extend the lapse date for costs related to Environmental Protection Agency enforcement actions and settlement costs, made in sec. 28(e), ch. 11, SLA 2008, page 105, lines 29 - 31 and page 106, line 1, from June 30, 2009 to June 30, 2010.					
		30	113	Per OMB, the lapse extension may be deleted.		Education	ACPE - Program Administration & Operations	Extend lapse date from June 30, 2009 to June 30, 2011 for the Mental Health Employee Loan Repayment Program, which is appropriated and allocated in sec 1, ch. 28, SLA 2008, page 2, line 31 - page 3, lines 3 - 5. This program makes payments on participant education loans over eight quarters. The lapse extension is necessary to be able to make payments for the entire period.					
		31	139	OMB offset		Labor	Commissioner's Office	The $850.0 fiscal note for ch. 22, SLA 2007 (HB 177, AGIA) was appropriated in sec. 2, ch. 28, SLA 2007, page 44, line 22. Sec 34(e), Ch 29, SLA 2008, Pg 210, Ln 22 extended the lapse date to June 30, 2009. The department will not spend the entire amount in FY09, therefore they request that the lapse date be extended through June 30, 2010 in order to complete the work with the estimated balance of $325.0.	The legislature agreed to extend this gas pipeline-related item last session. The department is continuing its AGIA-related work to deliver a comprehensive training program to provide a prepared Alaska workforce for the Alaska Gas Pipeline. Activities include continued funding of Steering Committee and Regional Training Center coordination meetings as well as a detailed occupational forecast to be prepared by the department's Research and Analysis section.				

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
3/13/2009	DOL 2	32	215	OMB offset		Labor	Commissioner's Office	Replace Sec. 10 - The previous supplemental request to extend the lapse date of funding received through the fiscal note for ch. 22 SLA 2007 (HB177, AGIA), is being replaced with the following three lines in order to distribute the $325.0 estimated lapse funding to separate components for ongoing gasline activities.					
		33	142	in OpBud		Law	Second Judicial District	Extend the lapse date for the Sexual Assault/Domestic Violence Federal Earmark, made in sec. 27(d), ch. 11, SLA 2008, page 104, line 29 (SB 256), from June 30, 2009 to June 30, 2010 Further extending the lapse date to June 30, 2010 will enable the department to continue to fund additional attorneys and paralegals in Bethel, Barrow and Anchorage to aid in the prosecution of domestic violence as well as adult and child sexual assault cases. It is estimated that approximately $89,700 would be available to carry forward.	The lapse extension is for federal receipts from the Department of Justice grant to stop violence against women.				
		34	143	in OpBud		Law	Third Judicial District: Anchorage	Same as OMB 142	The lapse extension is for federal receipts from the Department of Justice grant to stop violence against women.				
		35	144	in OpBud		Law	Fourth Judicial District	Same as OMB 142	The lapse extension is for federal receipts from the Department of Justice grant to stop violence against women.				
		36	145	in OpBud		Law	BP Corrosion	Extend the lapse date for the BPXA Corrosion Litigation appropriation made in sec. 1, ch. 27, SLA 2008, page 31, line 20, from June 30, 2009 to June 30, 2010 Further extending the lapse date to June 30, 2010 will enable the department to pursue claims for penalties and lost revenues for the 2006 Prudhoe Bay pipeline spills and production shutdowns. It is estimated that approximately $1,900,000 would be available to carry forward.	The Governor has requested an FY2010 operating budget amendment for $3.5 million

FY2009 SUPPLEMENTAL REQUESTS

Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
								Net addition to the Capital Income Fund	(3,163.0)				
		40	Recommendation			**Specific Operating Reductions**		**Recommendation: Review specific operating reductions.** There is perhaps no harm in specific reductions, but the reason for reducing authorization should be a desire to force spending reductions. In most of these cases, the authority has been identified as excess and money is expected to lapse at year-end. On the other hand, historic data series report the level of authorization. Reducing authorization improves the data series. Perhaps more importantly, it assures that reductions are made rather than passively allowing unused money to lapse.					
		41	[redacted]		8d	Education	School Performance Incentive program	Based on prior year trends, the department believes that only $2.5 million will be needed for this program in FY09, freeing up $2.3 million.	(2,300.0)				(2,300.0)
		42	[redacted]		1	HSS	Behavioral Health Medicaid	Reduce GF and federal authorizations based on current trends and projections.	(8,100.0)	(8,100.0)			(16,200.0)
		43	[redacted]		1	HSS	Medicaid Services	Reduce GF due to reduction of RSA with Nursing due to recent determination of error in billing methodology. See related items in Nursing and Administrative Support Services. A corresponding FY10 budget amendment is likely.	(2,000.0)				(2,000.0)
		44	[redacted]		1	HSS	Senior & Disabilities Medicaid Services	Reduce GF and federal authorizations based on current trends and projections.	(5,400.0)	(5,400.0)			(10,800.0)
		45	[redacted]		1	Revenue	ARM Board	Reduce the $300,000 one-time item for the estimated cost of an independent audit of the state's actuary. The actual cost of the audit contract is $135,000, so funding may be reduced.			(165.0)	(107.6) PERS (55.2) TRS (1.5) Jud Retire (0.7) Nat Guard Retire	(165.0)
		46	[redacted]		1	Transportation	International Airport Systems Office	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. This reduces the amount to be spent on a feasibility study and contract consulting fees. These services will be performed by the Controller and other AIAS staff.			(16.2)	International Airport Revenue Funds	(16.2)

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		47	[redacted]		1	Transportation	Anchorage Airport Administration	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce contractual services for Anchorage Airport Administration. Public relations, cargo, passenger marketing services and capital improvement project support contracts were all reduced.			(281.0)	International Airport Revenue Funds	(281.0)
		48	[redacted]		1	Transportation	Anchorage Airport Field and Equipment Maintenance	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce Anchorage Airport Field and Equipment Maintenance snow removal services contract and equipment rentals. Snow removal will be for priority areas only. Lease agreements will be reviewed to ensure tenants provide their own snow removal and do not request services from the Anchorage Airport. Only priority equipment rentals will be approved (loaders, other large equipment).			(400.0)	International Airport Revenue Funds	(400.0)

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)					
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		49	[redacted]		1	Transportation	Anchorage Airport Operations	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce Anchorage Airport Operations contractual services, commodity and equipment budget. Priority only items will be approved. A reduction in contractual services will reduce the contract for airport parking services.			(80.0)	International Airport Revenue Funds	(80.0)
		50	[redacted]		1	Transportation	Anchorage Airport Safety	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce Anchorage Airport Safety contract for unarmed security at the Anchorage Airport. The coverage previously provided will be monitored using current on duty Police and Fire Officers as well as other contracted unarmed guards.			(254.0)	International Airport Revenue Funds	(254.0)

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		51	[redacted]		1	Transportation	Fairbanks Airport Safety	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Delete funding for a part-time Radio Dispatcher II, PCN 25-3471. With a decrease in airport activity, the transfer of this PCN without funding to Statewide Aviation and the deletion of funding for this position will have little impact on the Fairbanks Airport. This action was taken as part of the FY10 Governor's Budget.			(47.3)	International Airport Revenue Funds	(47.3)
		52	[redacted]		1	Transportation	Anchorage Airport Facilities	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce contractual services for Anchorage Airport Facilities. A maintenance contract was cancelled in FY07 and those services were provided from newly created maintenance positions as well as individual contracts for services (such as window washing). These changes resulted in cost savings that are included in this reduction.			(800.0)	International Airport Revenue Funds	(800.0)

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)					
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		53	[redacted]		1	Transportation	Fairbanks Airport Field and Equipment Maintenance	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Delete funding for a full-time equipment operator position, PCN 25-2997. This position is no longer needed and will be transferred to Statewide Aviation where it will be reclassified to an Administrative Assistant II. In addition, a time status change for PCN 25-2992, Equipment Operator Journey from full-time to part-time seasonal has been implemented to better focus staffing resources on airfield snow and ice removal during the winter. These actions were also taken as part of the FY10 Governor's budget.			(157.4)	International Airport Revenue Funds	(157.4)
		54	[redacted]		1	Transportation	Fairbanks Airport Operations	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Funding for PCN 25-3367, Engineering Assistant II, can be deleted. PCN 25-3367 was transferred without funding to Statewide Aviation as part of the FY10 Governor's budget to be utilized as a Transportation Planner I. In addition, PCN 25-2999 was reclassified from an Operations Superintendent to an Operations Officer.			(117.0)	International Airport Revenue Funds	(117.0)
		55	[redacted]		17(b)	Debt Reimbursement	School Construction Debt Reimbursement	School construction bonds issued are below what was originally projected for FY2009.			(2,015.8)	Debt Retirement Fund	(2,015.8)
		56	[redacted]		17(b)	Debt Reimbursement	School Construction Debt Reimbursement	FY2009 projections of the cigarette tax revenue to the School Fund are above the original estimates, so funds are available to supplant the amount drawn from the Debt Retirement Fund.				(600.0) DRF 600.0 School Fund	-

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)					
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		68	Recommendation			**Operating Requests**		**These are operating appropriations that appear to be legitimate supplemental requests** None of the items appear to require fast track action, but OMB should be asked about the need for speed.					
		69	[redacted]		1	Administration	Office of Public Advocacy	Authorization is needed to accept and spend two federal grants. The two grants are Court Appointed Special Advocate (CASA) program funds from the National CASA Program. One is for $31,000.00 and the other is for $1,949.00 for a total of $32,949.00. Both were awarded to the Office of Public Advocacy after the end of the last legislative session.		33.0			33.0
		70	[redacted]		1	Administration	Public Defender Agency	Caseload and cost increases - For the 1st half of FY2009, the Public Defender Agency has experienced caseload growth in the following key areas: The Anchorage Criminal Section has experienced an 11% increase for all cases, a 30% increase in felony petitions to revoke probation, a 14% increase in misdemeanor cases, and a 70% increase in misdemeanor petitions to revoke probation. Fairbanks has experienced a 5% increase in felony cases and a 14% increase in juvenile delinquency cases. The Civil Section within the Public Defender Agency has experienced a 7% increase in all cases, a 15% increase in juvenile delinquency cases, and a 9% increase in civil commitment cases. The Palmer office has seen a 35% increase in Child in Need of Aid (CINA) cases. Multi-year trends show significant increases over the past five years and predict caseload increases for FY2009. Statewide closing rates, however, are below 100% for the most complex caseloads, which indicates an increase in workload due to the increasing complexity of casework and trial preparation.	1,000.0				1,000.0
		71	[redacted]		1	Administration	Retirement and Benefits	This adjustment is necessary to properly allocate costs of the defined contribution plan, Tier 4, to the correct fund sources, per the fiscal note for Ch. 9, FSSLA2005 An Act relating to the teachers' and public employees' retirement systems and creating defined contribution and health reimbursement plans (SB 141). 		72	[redacted]		1	Administration	Group Health Insurance	The Division of Retirement and Benefits is preparing to re-bid the health benefits Third Party Administrator (TPA) contract and needs additional funding to have the healthcare consultant (Buck) help prepare information for the bid process, audit the performance of the current TPA contractor, and analyze the long term care projections to determine if the State is carrying adequate reserves.			250.0	Group Health and Life Benefits Fund	250.0
		73	[redacted]		1	Administration	EPORS	Actual increased program retirement and health benefits	85.0				85.0
		74	[redacted]		1	Administration	Motor Vehicles	Additional funding is needed to provide for the purchase of license plates, driver manuals, and license tabs. The plates, manuals and tabs were previously funded in the capital budget. When the budget was established in the operating budget, the division underestimated the annualized costs and the amount added was insufficient to cover the costs now being incurred. In addition, some materials costs have increased. It is critical that Division of Motor Vehicles not run out of these materials and have to stop issuing licenses and plates. The funding requested here is necessary to purchase sufficient stock and inventory for the remainder of FY2009.			562.8	Receipt Supported Services	562.8
3/13/2009	DOC 1	75	[redacted]		1	Corrections	Anchorage Correctional Center	This is a fund source change reducing the current general fund authorization and increasing the federal receipt authorization. The Department of Corrections continues to see a fluctuation in the numbers of federal mandays which affects the dollar amount of federal receipts. At this date, the department is projecting FY2009 federal receipts to be over collected between $900,000 and $1,000.000. This number of mandays is based on a trend observed in the first half of FY2009 of increased federal holds which is currently anticipated to continue during the next five months of the fiscal year. 		76	[redacted]		1	Corrections	Inmate Health Care	The department is requesting a supplemental of $1,405.8 for increased inmate health care costs that includes fees-for-service, increased release medications for mentally ill inmates, and Inmate Health Care staff cost overages due to overtime for 24-hour medical coverage. $646.4 shortfall is projected in the in-state and out-of-state medical fees for service. The department is seeing an increase in chronic disease associated with diabetes, cancer, heart disease, surrounding health-related issues due to obesity, and health issues associated with care for geriatrics. $361.0 shortfall is projected for psychotropic drugs. As of September 2008, the department's Mental Health Unit began providing additional release medications to inmates with serious chronic mental illness as an interim measure until treatment begins with a community mental health provider. $398.4 shortfall is projected for overtime for 24-hour medical coverage; contractual nursing shortages; and the successful hiring of a Forensic Psychiatrist.	1,405.8				1,405.8

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)					
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
3/13/2009	DOT 7	143	[redacted]		15g	Transportation	Marine Vessel Operations	Marine Engineers Beneficial Association bargaining unit agreement□ This request is for the FY2009 one-time bonus of $2,381/employee in pay status on July 1, 2008 plus a health insurance increase of $16 from $851 to $867 per month. The contract calls for wage increases of 5% in FY2010 and 4% in FY2011, along with health insurance increases.□	463.7				463.7
		144	[redacted]		1	Transportation	Measurement Standards and Commercial Vehicle Enforcement	Unified Carrier Registration Fees The Unified Carrier Registration (UCR) program requires individuals and companies that operate commercial motor vehicles in interstate or international commerce to register their business with a participating state and pay an annual fee based on the size of their fleet. FY09 was the first year Alaska participated in this program. Per the Federal Motor Carrier Safety Administration, these revenues may only be used for administration of the unified carrier fee system, motor carrier safety programs, or motor carrier enforcement programs.			150.0	Receipt Supported Services	150.0
		145	[redacted]		1	Transportation	Measurement Standards and Commercial Vehicle Enforcement	Permit Fee Increase Changes to 17 AAC 25 are in process to increase the amounts charged for oversize/overweight permits. Measurement Standards and Commercial Vehicle Enforcement anticipates the permit fee increase to be in place mid-March 2009. This will be an overall average increase of 23%. This increased Receipt Supported Service revenue will be used to fund the following: $16.4 - Increased State equipment Fleet costs. $55.0 - Computer Equipment Replacement Program/Equipment for new inspector position. $31.1 Capital Outlay - which includes the following: Metrology Laboratory Air Quality Study $14.9. Anchorage Prover Truck Conversion $16.2.			102.5	Receipt Supported Services	102.5
		146	[redacted]		1	Transportation	State Equipment Fleet	Credit Card Payments for Fuel The State Equipment Fleet (SEF) maintains contracts which allow a vehicle credit card to be used to purchase fuel and necessary consumables. These charges are paid by SEF and subsequently billed to executive branch state agencies.			400.0	HWCF	400.0
		147	[redacted]		1	Transportation	State Equipment Fleet	Increased Travel Costs Related to Airfare in and Around Alaska's Rural Areas Increase receipt authority to cover travel costs in support of rural airports and highways for the repair and preventative maintenance of vehicles and equipment.			149.0	HWCF	149.0

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		148	67		1	Transportation	State Equipment Fleet	Increased Costs in Freight for Parts, Equipment and Vehicles Increased receipt authority to cover cost increases in freight (shipment of parts, commodities, vehicles and equipment around the state) and increased contractual costs for vendor supplied repairs or vehicle and equipment make-ready such as Trooper vehicle setups.			77.0	HWCF	77.0
		149	68		1	Transportation	State Equipment Fleet	Increased Costs Related to Parts and Commodities Used in the Maintenance and Repair of Wheeled Assets Increase receipt authority to cover parts and commodities costs. The transportation sector has not seen the cost decreases that the average retail sector has. Commodities like oils and lubricants have not seen price reductions that mirror fuel prices. Bulk quantities were purchased early in the fiscal year when fuel prices were at their highest for shipment to rural locations statewide.			800.0	HWCF	800.0
3-Apr-09	DOT 14	150	247	No additional funding requested; just authorization to spend	1	Transportation	State Equipment Fleet	Increased Costs in Vendor Repairs to Equipment The additional increase is needed to cover the unforeseen costs of vendor (outsourced) repairs to equipment. Due to higher vehicle and equipment usage in areas experiencing unusual winter events such as Western and Interior Alaska, State Equipment Fleet (SEF) has experienced additional increases in the cost of vendor repairs to equipment. This request is for additional spending authorization only, no additional funding is required.			115.0	HEWCF	115.0
3-Apr-09	DOT 15	151	248	Adds to 800.0 requested for same purpose. No additional funding requested; just authorization to spend	1	Transportation	State Equipment Fleet	Increased Costs Related to Parts and Commodities Used in the Maintenance and Repair of Wheeled Assets The additional increase is needed to cover unforeseen parts and commodities costs for internal preventive maintenance and repairs to equipment. State Equipment Fleet (SEF) has experienced additional increases in parts and commodities costs related to increased preventive maintenance schedules and internal repairs to equipment due to higher vehicle and equipment usage in areas experiencing unusual winter events such as Western and Interior Alaska. This request is for additional spending authorization only, no additional funding is required.			450.0	HEWCF	450.0

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		152	[redacted]	Was 250.0. Now new section allowing use of unallocated reductions	16j	Transportation	Central Region Highways and Aviation	Anchorage Sidewalk Snow Removal Funding is requested to operate newly acquired sidewalk tractors throughout the winter to blow, plow, and sweep the snow from Anchorage sidewalks, bus stops, trails and pathways. The Federal Highway Administration (FHWA) has notified the department that all infrastructure built with FHWA federal funds must be appropriately maintained. That maintenance includes snow removal from sidewalks and other pathways. Failure to meet these requirements could jeopardize future surface transportation funds and require reimbursement of previously expended funds.	-			Reapprop	-
3-Apr-09	DOT 19	153	252	Funded via unallocated. No reason to change; simply makes more $ available for SEF		Transportation	Central Region Highways and Aviation	Reduce Anchorage Sidewalk Snow Removal This amendment reduces the original request for authorization for Anchorage sidewalk snow removal from $250.0 to $171.0. Due to favorable weather conditions after the original request was submitted, we no longer need this additional funding.					0.0
3/13/2009	DOT 3	154	[redacted]		1	Transportation	Central Region Support Services	Legal fees associated with a dispute between Offshore Systems Kenai (OSK) and the State of Alaska over public access to a state-owned road and beach. □ This case is going to trial May 2nd and will require the Department of Law to complete depositions, expert witness reports, and trial preparation.	41.0				41.0
		155	[redacted]		1	Transportation	Central Region Highways and Aviation	Commodities Price Increases The increased cost for commodities has significantly impacted the operating budget for Central Region Maintenance and Operations. Competitive bids were completed last spring for delivery of commodities prior to winter maintenance needs. Purchases of sand and winter chemicals fall into this category. Similarly, competitive bids are completed during the fall for delivery of commodities prior to spring maintenance needs, such as paint for striping. Supplemental funding is needed for sand ($575.0), winter chemicals ($205.3) and paint ($334.0).	1,114.3				1,114.3

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		171	33	OMB offset		Law	Oil, Gas and Mining	Oil and Gas Projects The Department of Law has a number of major projects underway that will continue to require outside counsel and experts beyond the funding included in the base operating budget. The most noteworthy are the Pt. Thomson litigation, ongoing proceedings before the Federal Energy Regulatory Commission (FERC) on TransAlaska Pipeline Service (TAPS) tariffs issues, State of Alaska Assessment Review Board disputes and two major corporate income tax matters.	1,335.0				1,335.0
3/13/2009	LAW 1	172	221	OMB offset		Law	Civil Division - Oil, Gas and Mining	Oil and Gas Projects□ The Department of Law (DOL) is withdrawing its $1,335.0 supplemental request. DOL is close to settlement on one large case and thus anticipates not needing the funds requested earlier. In addition, judges on several other cases are not moving the cases through as quickly as expected. These cases will continue however, and will consume resources from the Oil, Gas and Mining component in FY10. DOL has included funding for them in their FY10 budget request.	(1,335.0)				(1,335.0)
		173	72	Increase from 218.5 to 250.0 and delete OMB item 153 **4/3/09 delete per OMB**	1	Transportation	Central Region Highways and Aviation	Anchorage Snow Haul (Roads) Snowfall in Anchorage this winter has returned to the amount that used to be considered normal for the area. Including the heavy snowstorms over the holidays, the accumulation of snow plowed from the roads onto the shoulders and sidewalk areas reached the level that required hauling it away. To date, snow haul expenses have nearly exhausted the annual operating budget of $250. Supplemental funding of $250.0 will allow for one additional snow haul for the remainder of the winter. In addition to this funding request, an additional $31.5 in funding required to fully fund one additional snow haul has been requested as a reappropriation in sec. 14(b).				was 218.5 GF, now adds 31.5 from former reapprop in OMB item 153	-

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		185	Recommendation			**Capital Projects--Old money no longer needed**		**Recommendation: All GF (and some other) reappropriations go to the capital income fund, leaving the "to side" of each reappropriation as a separate decision (both year and fund source).** Money can be lapsed administratively--no legislative action is necessary. GF reappropriations may appear to be free money, but the source of a reappropriation would otherwise go to the GF and reduce the FY09 CBR draw. The issue here is not whether projects are terminated administratively (easier) or legislatively, it is that terminating projects by either method reduces the deficit in FY09. Similarly, spending the money--either via a direct reappropriation (Governor's method), indirect reappropriation (through the capital income fund) or as an independent action has exactly the same impact on the deficit.					
		186	[redacted]	CIF	19b	Capital	Education	Repeal the $98,056 balance of the appropriation made in sec. 60, ch. 3, FSSLA 2005, page 140, line 24, for Alaska Gateway - Dot Lake School Mechanical Upgrade. 3/13/2009	DOR 1	221	[redacted]	in bill	14b	Capital	Revenue	Change the name of the FY2009 Power Builder Replacement Project Feasibility Study to Power Builder Replacement and SQL Database Evaluation, Equipment and Training□ □ Due to electronic filing and more records being stored electronically, PFD is currently storing more than 1.2 Terabytes of information. It is anticipated that this data storage may double in the next year. Also, PFD is slowly migrating off the states mainframe while working to fit within state data standards as established by the Department of Administration. The SQL Database is critical to the PFD computer systems ability to perform beyond the next years data. The feasibility study is now a moot point since PFD needs to improve its system and must meet state standards. None of the original $300.0 GF has been spent to date. This scope change also enables the removal of an FY2010 CIP request.					-
3/13/2009	DOT 10	222	[redacted]	should be fast, project well underway	15h	Capital	Transportation	Amend: Petersburg: Airport Runway Safety Area□ Amend the project description to include runway realignment and paving.□					-

FY2009 SUPPLEMENTAL REQUESTS

								Net addition to the Capital Income Fund	(3,163.0)				
Date	Amend #	Item	OMB Item	Notes	Sec. No.	Department or Capital	Component or, if capital, Department	Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		234	168	Consider in Regular Capital Budget		Capital	Transportation	Alaska Marine Highway System - Vessel and Terminal Overhaul and Rehabilitation This amends an existing FY2009 project (sec. 13, ch. 29, SLA2008, page 158, line 17), increasing the FY2009 appropriation to $10,600,000. Effective January 2009, the Ketchikan Shipyard increased their prices 18.5% to 20% to the Alaska Marine Highway System (AMHS) for state funded maintenance overhauls of AMHS vessels. This cost increase to AMHS will impact six scheduled vessel maintenance overhauls this fiscal year, with a budgeted value of $3,500,000. Total of secs. 14(l) and (m) is $702.1.			647.3	CIF, was GF	647.3
		235	173	Combine with OMB 168		Capital	Transportation (CORRECTED from "Education")	Reappropriate the $54,753 balance of the appropriation made in sec. 60, ch. 3, FSSLA 2005, page 142, line 13, for Southeast Island - Thorne Bay House Access Ramp to the Department of Transportation and Public Facilities, Alaska Marine Highway System -Vessel and Terminal Overhaul and Rehabilitation project. (The negative amount is shown in sec. 7(d)).			54.8	CIF, was GF	54.8
		236	163	Consider in Regular Capital Budget		Capital	Transportation	Alaska Marine Highway System: Columbia Fuel Management System This is a new FY2009 project. Install a Stellar Marine ESP 1000, Electronic Speed Pilot power management system to provide precision control of ship speed and fine tune throttle settings to maximize the vessel's propulsive efficiency.	-		499.5	CIF, was GF	499.5
		237	158	Consider in Regular Capital Budget		Capital	Transportation	Airport Rescue and Fire Fighting Safety Equipment Standards set by the National Fire Protection Association require Southeast Region to upgrade self-contained breathing equipment used in Airport Rescue and Fire Fighting (ARFF) operations. The upgrades include the Personal Alert Safety System (PASS) which activates an alarm when a firefighter becomes disabled inside a burning structure. Twenty-six sets are needed at a cost of over $5,000 per set. This equipment will reduce the risk of death and injuries to firefighters at Alaska's southeast rural airports. Reappropriation in 14(d) from sec. 7(d) provides $98.1 Reappropriation in 14(e) provides $39.0	137.1				137.1

3-Apr-09	DOT 24	272	259	Consider in CapBud.		Capital	Transportation	New: Alaska International Airport System: Development Fund These funds may be used for design and construction of both exclusive-use and common-use Alaska International Airport System (AIAS) projects. The funds allow for timely response to airport development needs and are required by the operating agreement in place between signatory air carriers and DOTPF/AIAS.			5,000.0	International Airports Revenue Fund	5,000.0
3-Apr-09	DOT 25	273	260	Consider in CapBud.		Capital	Transportation	New: Fairbanks International Airport: 1L-19R - Taxiway and Apron Improvements This amendment to the FY09 Governor's Supplemental Budget adds $3,000,000 Federal Funds for a new FY09 total of $21,250,000. This request will fund construction of the initial phase of Taxiway Echo and pave aircraft apron areas proximal to runway 1L-19R. The initial phase of Taxiway Echo consists of excavating, filling, grading, paving, lighting, and marking approximately 400' of new taxiway.		3,000.0			3,000.0
3-Apr-09	DOT 26	274	261	Consider in CapBud.		Capital	Transportation	New: Kodiak: Chemical Storage Building Construct a facility consisting of storage tanks, mixing tank and storage area for de-icing truck.		1,200.0			1,200.0
3-Apr-09	DOT 27	275	262	Consider in CapBud.		Capital	Transportation	New: Kotzebue: Apron Expansion Expand the terminal apron to the south and east. This project will also construct new general aviation aircraft parking, a new access road and taxiway, security fencing and drainage improvements, and will provide new leasing areas.		5,300.0			5,300.0
3-Apr-09	DOT 28	276	263	Consider in CapBud.		Capital	Transportation	**Surface Transportation Program - Appropriation**					0.0
3-Apr-09	DOT 29	277	264	Consider in CapBud.		Capital	Transportation	New: Fairbanks: LED Street Light Conversion Convert existing high pressure sodium (HPS) street lights to light-emitting diode (LED) lights in the City of Fairbanks and North Pole. The City of Fairbanks and North Pole operates approximately 2,900 high pressure sodium (HPS) street lights, which cost approximately $550,000 per year to power and $75,000 per year in maintenance and replacement bulb costs. The light-emitting diode (LED) street lights provide a 70% reduction in power usage and have a lifespan estimated from 50,000 to 100,000 hours. This would result in an annual savings of $400,000 or greater per year for the City of Fairbanks and North Pole residents.		3,310.0			3,310.0

CS FOR HOUSE BILL NO. 113(FIN)

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-SIXTH LEGISLATURE - FIRST SESSION

BY THE HOUSE FINANCE COMMITTEE

Offered:
Referred:

Sponsor(s): HOUSE RULES COMMITTEE BY REQUEST OF THE GOVERNOR

A BILL

FOR AN ACT ENTITLED

"An Act making supplemental appropriations, capital appropriations, and other appropriations; amending appropriations; making appropriations to capitalize funds; making an appropriation under art. IX, sec. 17(c), Constitution of the State of Alaska, from the constitutional budget reserve fund; and providing for an effective date."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF ALASKA:

(SECTION 1 OF THIS ACT BEGINS ON PAGE 2)

* **Section 1.** The following appropriation items are for operating expenditures from the general fund or other funds as set out in section 2 of this Act to the agencies named for the purposes expressed for the fiscal year beginning July 1, 2009 and ending June 30, 2010, unless otherwise indicated.

McLaughlin Youth Center	**18,337,300**	**4,033,800**	**14,303,500**
Renovation to Meet Safety and Security Needs, Phase 1 (HD 17-32)	[19,503,700]	[19,503,700]	

*** Sec. 8.** DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT. (a) The unexpended and unobligated balance, not to exceed $100,000, of the appropriation made in sec. 2, ch. 28, SLA 2007, page 44, lines 22 - 24, as amended by sec. 34(e), ch. 29, SLA 2008 (Department of Labor and Workforce Development, HB 177, natural gas pipeline project - $850,000) is reappropriated to the Department of Labor and Workforce Development, commissioner's office, for gas pipeline activities for the fiscal year ending June 30, 2010.

(b) The unexpended and unobligated balance, not to exceed $145,000, of the appropriation made in sec. 2, ch. 28, SLA 2007, page 44, lines 22 - 24, as amended by sec. 34(e), ch. 29, SLA 2008 (Department of Labor and Workforce Development, HB 177, natural gas pipeline project - $850,000) is reappropriated to the Department of Labor and Workforce Development, labor market information, for gas pipeline activities for the fiscal year ending June 30, 2010.

(c) The unexpended and unobligated balance, not to exceed $80,000, of the appropriation made in sec. 2, ch. 28, SLA 2007, page 44, lines 22 - 24, as amended by sec. 34(e), ch. 29, SLA 2008 (Department of Labor and Workforce Development, HB 177, natural gas pipeline project - $850,000) is reappropriated to the Department of Labor and Workforce Development, business services, for gas pipeline activities for the fiscal year ending June 30, 2010.

(d) The unexpended and unobligated balance, not to exceed $85,000, of the

appropriation made in sec. 1, ch. 27, SLA 2008, page 28, line 22, and allocated on line 27 (Department of Labor and Workforce Development, workforce development, Alaska Workforce Investment Board - $543,600) is reappropriated to the Department of Labor and Workforce Development, Alaska Workforce Investment Board, for gas pipeline activities for the fiscal year ending June 30, 2010.

(e) Section 71, ch. 29, SLA 2008, is amended to read:

Sec. 71. TECHNICAL VOCATIONAL EDUCATION PROGRAM. The following amounts are appropriated from the **Alaska technical and** vocational education **program** account **(AS 23.15.830)** [(AS 37.10.200)] to the following state agencies for operating expenditures for the institutions listed in AS 23.15.835(d), added by **sec. 2, ch. 47, SLA 2008** [A VERSION OF HB 2, TWENTY-FIFTH ALASKA STATE LEGISLATURE], for programs consistent with AS 23.15.820 - 23.15.850 for the fiscal year ending June 30, 2009:

	APPROPRIATION
HB 2 Technical and vocational education program appropriated to Department of Labor and Workforce Development	$1,704,300
HB 2 Technical and vocational education program appropriated to Department of Education and Early Development	120,200
HB 2 Technical and vocational education program appropriated to University of Alaska	1,180,700

(f) If the amount available for appropriation in (a) - (c) of this section is less than $325,000, the reappropriations made in (a) - (c) of this section shall be reduced in proportion to the amount of the shortfall.

* **Sec. 9.** DEPARTMENT OF LAW. (a) The sum of $1,351,361 is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments and settlements against the state for the fiscal year ending June 30, 2009.

(b) The amount necessary, after application of the amount appropriated in (a) of this

section, to pay judgments awarded against the state on or before June 30, 2009, is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments against the state for the fiscal year ending June 30, 2009.

(c) The unexpended and unobligated balance, not to exceed $1,250,000, of the appropriation made in sec. 70(b), ch. 29, SLA 2008 (Legislative Council, Alaska Conference on State and Federal Responsibility Related to Economic Impacts of ESA Listings) is reappropriated to the Department of Law, statehood defense, for costs associated with assessing and protecting the state's interest related to the Endangered Species Act for the fiscal years ending June 30, 2009, and June 30, 2010.

* **Sec. 10.** DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS. The sum of $2,470,000 is appropriated from federal receipts to the Department of Military and Veterans' Affairs for Alaska Military Youth Academy infrastructure improvements.

* **Sec. 11.** DEPARTMENT OF NATURAL RESOURCES. The unexpended and unobligated balance of the appropriation made in sec. 24(p), ch. 159, SLA 2004 (Department of Natural Resources, permitting and application processing related to the state gas pipeline right-of-way work related to bringing North Slope natural gas to market - $3,900,000) is reappropriated to the Department of Natural Resources for permitting and application processing related to the state gas pipeline right-of-way work related to bringing North Slope natural gas to market.

* **Sec. 12.** DEPARTMENT OF REVENUE. (a) Section 1(b), ch. 1, 4SSLA 2008, is amended to read:

(b) The amount necessary to pay a $1,200 resource rebate to all eligible individuals and related administrative costs, estimated to be $744,600,000, is appropriated from the general fund to the Department of Revenue for the Alaska resource rebate program and related administrative costs for the fiscal **years** [YEAR] ending June 30, 2009**, and June 30, 2010**.

(b) Section 13, ch. 29, SLA 2008, page 155, line 33, through page 156, line 4, is amended to read:

	APPROPRIATION ITEMS	GENERAL FUND

PowerBuilder Replacement **and SQL**	300,000	300,000
Database Evaluation, Equipment,		
and Training [FEASIBILITY STUDY]		
(HD 1-40)		

*** Sec. 13.** DEPARTMENT OF TRANSPORTATION AND PUBLIC FACILITIES. (a) The unexpended and unobligated balances of the following appropriations on the effective date of this section are reappropriated to the Department of Transportation and Public Facilities for the construction and maintenance in prior fiscal years of Alaska Railroad Corporation crossings on state roads:

(1) sec. 53, ch. 120, SLA 1980, page 91, line 14, and allocated on page 91, line 15, as amended by secs. 130(a) and (b), ch. 105, SLA 1985, and by sec. 115(a)(1), ch. 139, SLA 1998 (transportation planning - $10,295,900);

(2) sec. 163, ch. 96, SLA 1991, page 42, line 9, as amended by sec. 50(a)(1), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(3) sec. 152, ch. 5, FSSLA 1992, page 41, line 21, as amended by sec. 55(a) - (c), ch. 159, SLA 2004, and by sec. 56(d)(10), ch. 82, SLA 2006 (Department of Transportation and Public Facilities, central region highways and aviation for increased maintenance costs);

(4) sec. 152, ch. 5, FSSLA 1992, page 41, line 22, as amended by sec. 50(a)(5), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(5) sec. 19, ch. 79, SLA 1993, page 20, lines 30 - 31, as amended by sec. 50(a)(7), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(6) sec. 10, ch. 4, FSSLA 1994, page 12, line 29, and allocated on page 13, lines 33 - 34, as amended by sec. 50(a)(11), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(7) sec. 9(a), ch. 103, SLA 1995, as amended by sec. 50(a)(12), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(8) sec. 84(b)(2), ch. 103, SLA 1995, as amended by sec. 50(a)(13), ch. 30,

SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(9) sec. 135, ch. 103, SLA 1995, page 40, line 34, and allocated on page 41, lines 11 - 13, as amended by sec. 54(b)(11), ch. 159, SLA 2004 (Department of Transportation and Public Facilities, construction of Chandalar maintenance station);

(10) sec. 135, ch. 103, SLA 1995, page 40, line 34, and allocated on page 41, lines 14 - 15, as amended by sec. 50(a)(14), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(11) sec. 100, ch. 123, SLA 1996, page 58, line 30, and allocated on page 58, lines 31 - 32, as amended by sec. 50(a)(15), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(12) sec. 100, ch. 123, SLA 1996, page 58, line 30, and allocated on page 59, lines 4 - 5, as amended by sec. 50(a)(16), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(13) sec. 46(b)(1), ch. 100, SLA 1999, as amended by sec. 50(a)(18), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(14) sec. 46(b)(2), ch. 100, SLA 1999 (federal-aid aviation projects - $305,492);

(15) sec. 82, ch. 100, SLA 1997, page 58, line 8, and allocated on page 58, lines 9 - 12, as amended by sec. 50(a)(19), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(16) sec. 131, ch. 139, SLA 1998, page 56, lines 30 - 32 (state match for previously authorized federal-aid highway projects - $3,400,000);

(17) sec. 131, ch. 139, SLA 1998, page 83, line 13, and allocated on page 83, lines 14 - 15 (federal-aid aviation state match - $5,000,000).

(b) Section 13, ch. 29, SLA 2008, page 158, lines 21 - 22, is amended to read:

	APPROPRIATION ITEMS	GENERAL FUND
Bridge Repair and Upgrade (HD 3-4)	**49,600** [400,000]	**49,600** [400,000]

(c) The unexpended and unobligated balance of the appropriation from AHFC dividends, estimated to be $350,400, made in sec. 1, ch. 61, SLA 2001, page 23, lines 26 - 27 (Emergency Communications: Southeast Upgrade - $400,400) is reappropriated to the Department of Transportation and Public Facilities for bridge repair and upgrade.

(d) The sum of $1,601,200 is appropriated from the general fund to the Department of Transportation and Public Facilities, marine vessel operations, to implement the collective bargaining agreement with the Inlandboatmen's Union of the Pacific, representing the unlicensed marine unit, for the fiscal year ending June 30, 2009.

(e) The unexpended and unobligated balance, estimated to be $6,300,000, of the appropriation made in sec. 57, ch. 3, FSSLA 2005 (Department of Transportation and Public Facilities, multi-year contract for building, runway, and system improvements and to provide immediate and long-term operation and maintenance of the Adak air field) is reappropriated to the Department of Transportation and Public Facilities for Adak air field maintenance and operations.

(f) The sum of $408,200 is appropriated from the general fund to the Department of Transportation and Public Facilities, marine vessel operations, to implement the collective bargaining agreement with the International Organization of Masters, Mates, and Pilots, for the masters, mates, and pilots unit for the fiscal year ending June 30, 2009.

(g) The sum of $463,700 is appropriated from the general fund to the Department of Transportation and Public Facilities, marine vessel operations, to implement the collective bargaining agreement with the Marine Engineers' Beneficial Association, representing licensed engineers employed by the Alaska marine highway system, for the fiscal year ending June 30, 2009.

(h) Section 1, ch. 82, SLA 2006, page 91, lines 23 - 24, is amended to read:

	ALLOCATIONS
Petersburg: Airport Runway Safety Area **and Repaving** **Runway** (HD 2)	19,650,000

(i) The sum of $1,700,000 is appropriated from the Alaska capital income fund (AS 37.05.565) to the Department of Transportation and Public Facilities for emergency and

nonroutine repairs associated with the hillside slide at Mile 5, North Tongass Highway, in Ketchikan.

(j) The unexpended and unobligated balances, not to exceed $1,500,000, of the appropriations made in sec. 1, ch. 27, SLA 2008, page 39, line 10 (Department of Transportation and Public Facilities, administration and support - $40,992,100), sec. 1, ch. 27, SLA 2008, page 40, lines 12 - 13 (Department of Transportation and Public Facilities, design, engineering, and construction - $102,878,700), sec. 1, ch. 27, SLA 2008, page 40, line 32 (Department of Transportation and Public Facilities, state equipment fleet - $26,232,000), sec. 1, ch. 27, SLA 2008, page 41, lines 3 - 4 (Department of Transportation and Public Facilities, highways, aviation, and facilities - $141,887,200), sec. 1, ch. 27, SLA 2008, page 41, line 21 (Department of Transportation and Public Facilities, international airports - $71,143,100), and sec. 1, ch. 27, SLA 2008, page 42, line 9 (Department of Transportation and Public Facilities, marine highway system - $120,823,700) are reappropriated to the Department of Transportation and Public Facilities to pay the costs of removing snow from Anchorage sidewalks and to pay service agreements with the state equipment fleet, for the fiscal year ending June 30, 2009.

(k) Section 28(e), ch. 11, SLA 2008, is amended to read:

(e) The sum of $500,000 is appropriated from the general fund to the Department of Transportation and Public Facilities, central region support services, for costs related to Environmental Protection Agency enforcement actions and settlement costs, for the fiscal years ending June 30, 2008, [AND] June 30, 2009**, and June 30, 2010**.

(*l*) The sum of $4,250,000 is appropriated from the Alaska capital income fund (AS 37.05.565) to the Department of Transportation and Public Facilities for construction of a new Ketchikan airport ferry to replace the M/V Bob Ellis.

* **Sec. 14.** NATIONAL PETROLEUM RESERVE - ALASKA IMPACT GRANT PROGRAM. Section 38, ch. 29, SLA 2008, is amended to read:

Sec. 38. NATIONAL PETROLEUM RESERVE - ALASKA IMPACT GRANT PROGRAM. The amount received by the National Petroleum Reserve - Alaska special revenue fund (AS 37.05.530) under 42 U.S.C. 6506a(*l*) or former 42 U.S.C. 6508 by August 31, 2008, estimated to be $5,300,000, is appropriated from

that fund to the Department of Commerce, Community, and Economic Development for capital project grants under the National Petroleum Reserve - Alaska impact grant program to the following municipalities in the amounts stated:

International Airports Construction Fund		**25,000,000**
(AS 37.15.420)		

(d) Section 14, ch. 29, SLA 2008, page 177, lines 12 - 15, is amended to read:

1027	International Airports Revenue Fund	**45,165,000**
		[20,165,000]
1061	Capital Improvement Project Receipts	400,000
1108	Statutory Designated Program Receipts	46,500,000
1112	International Airports Construction Fund	**3,577,055**
		[28,577,055]

*** Sec. 16.** RATIFICATIONS OF CERTAIN EXPENDITURES. (a) The expenditures by the Department of Natural Resources for fire suppression for the fiscal year ending June 30, 2008 (AR 37313-08 Fire General Fund), are ratified in the amount of $1,470,229.86.

(b) The following departmental expenditures made in fiscal years 2005, 2006, 2007, and 2008 are ratified to reverse the negative account balances in the Alaska state accounting system in the amount listed for the AR number. The appropriations from which these expenditures were actually paid are amended by increasing those appropriations by the amount listed, as follows:

Department of Corrections	
(1) AR 51299-06 Offender Tracking Information System System Development	$ 59,856.00
Department of Education and Early Development	
(2) AR 17722-07 Student and School Achievement	3,954.34
Department of Health and Social Services	
(3) AR 22729-05 Integrated Strategic Planning	710.00
(4) AR 22733-05 Transitions to Work	6.49
Department of Public Safety	
(5) AR 47180-08 Domestic Violence and Sexual Assault	29,544.44

Department of Transportation and Public Facilities

(6) AR 57538-06 Anchorage Airport Safety 9,773.65

(7) AR 68983-08 SHSGP Critical Infrastructure Upgrades 4,158.00

* **Sec. 17.** ALASKA CAPITAL INCOME FUND. (a) The unexpended and unobligated balances of the following appropriations are reappropriated to the Alaska capital income fund (AS 37.05.565):

(1) sec. 53(c), ch. 2, FSSLA 1999 (Department of Transportation and Public Facilities, state matching funds for federal-aid highway projects);

(2) sec. 1, ch. 82, SLA 2006, page 84, lines 23 - 24 (Anchorage, Hillcrest Bridge repairs - $192,600);

(3) sec. 13, ch. 29, SLA 2008, page 160, lines 13 - 14, and allocated on page 160, lines 32 - 33 (Yakutat, multi-purpose dock - $555,000);

(4) sec. 7, ch. 82, SLA 2006, page 128, lines 22 - 23 (Willow, Fishhook Road plowing - $41,000);

(5) sec. 1, ch. 82, SLA 2006, page 73, lines 31 - 33 (Department of Health and Social Services, ready to read, ready to learn program development - $250,000);

(6) sec. 1, ch. 82, SLA 2006, page 75, lines 11 - 12 (Department of Military and Veterans' Affairs, Alaska Military Youth Academy expansion - $7,500,000);

(7) sec. 7, ch. 82, SLA 2006, page 127, lines 26 - 28 (Department of Natural Resources, Juneau subport asbestos abatement - mental health trust settlement - $625,300);

(8) sec. 4, ch. 30, SLA 2007, page 94, lines 25 - 26 (Department of Health and Social Services, Anchorage Pioneers' Home safety upgrades - $25,000);

(9) sec. 1, ch. 82, SLA 2003, page 33, lines 9 - 11 (Department of Public Safety, Fairbanks Public Safety Building, indoor firing range lead removal - $66,000);

(10) sec. 82, ch. 100, SLA 1997, page 59, line 11, and allocated on page 59, lines 12 - 14, as amended by sec. 50(a)(22), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(11) sec. 131, ch. 139, SLA 1998, page 56, lines 17 - 18 (Department of Transportation and Public Facilities, federal emergency and contingency projects - $8,888,900);

(12) sec. 1, ch. 82, SLA 2006, page 84, line 33, through page 85, line 5

(Department of Transportation and Public Facilities, Clark Wolverine Road 0-1.6 base work, ditching and overlay pavement from Glenn Highway Up Hill - $150,000);

(13) sec. 20(b), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Thompson Pass refueling station - $150,000);

(14) sec. 1, ch. 3, FSSLA 2005, page 3, lines 29 - 30 (Department of Commerce, Community, and Economic Development, organization grants - $75,000);

(15) sec. 1, ch. 82, SLA 2006, page 65, lines 25 - 27 (Department of Education and Early Development, demolition and site restoration, Northern Lights School - $50,000);

(16) sec. 4, ch. 30, SLA 2007, page 89, lines 24 - 25 (Department of Education and Early Development, Pedro Bay old school demolition - $350,000);

(17) sec. 4, ch. 30, SLA 2007, page 98, lines 30 - 32 (Department of Natural Resources, Juneau subport abatement phase 2 - mental health trust settlement - $725,000);

(18) sec. 50(a)(34), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(19) sec. 100, ch. 2, FSSLA 1999, page 56, line 10, and allocated on page 56, lines 18 - 20 (Anchorage, New Seward Highway at Dimond Interchange capacity improvement - $5,095,086);

(20) sec. 100, ch. 2, FSSLA 1999, page 63, lines 18 - 19, and allocated on page 63, line 20, as amended by sec. 50(a)(34), ch. 30, SLA 2007 (Department of Transportation and Public Facilities, Nome warm storage building);

(21) sec. 100, ch. 2, FSSLA 1999, page 56, line 23, and allocated on page 56, lines 26 - 28 (Anchorage, Dowling Road reconstruction: Lake Otis Parkway to Old Seward Highway - $3,572,606);

(22) sec. 100, ch. 2, FSSLA 1999, page 56, line 23, and allocated on page 56, line 33, through page 57, line 3 (Anchorage, Old Seward Highway reconstruction - $12,641,530);

(23) sec. 100, ch. 2, FSSLA 1999, page 69, lines 29 - 30, and allocated on page 69, lines 31 - 32 (Department of Transportation and Public Facilities, National Highway System (NHS) state match - $22,602,059).

(b) The unexpended and unobligated balance, not to exceed $98,056, of the

appropriation made in sec. 60, ch. 3, FSSLA 2005, page 140, lines 24 - 26 (Alaska Gateway, Dot Lake School mechanical upgrade - $1,087,118) is reappropriated to the Alaska capital income fund (AS 37.05.565).

(c) The unexpended and unobligated balance, not to exceed $54,753, of the appropriation made in sec. 60, ch. 3, FSSLA 2005, page 142, lines 13 - 14 (Southeast Island, Thorne Bay house access ramp - $141,415) is reappropriated to the Alaska capital income fund (AS 37.05.565).

* **Sec. 18.** CONSTITUTIONAL BUDGET RESERVE FUND. (a) If the unrestricted state revenue available for appropriation in fiscal year 2009 is insufficient to cover general fund appropriations made for fiscal year 2009, the amount necessary to balance revenue and general fund appropriations is appropriated from the budget reserve fund (art. IX, sec. 17, Constitution of the State of Alaska) to the general fund.

(b) The appropriation made by (a) of this section is made under art. IX, sec. 17(c), Constitution of the State of Alaska.

* **Sec. 19.** CONTINGENCY. Sections 13(f) and 13(g) of this Act are contingent on ratification by the members of the respective collective bargaining unit of its collective bargaining agreement.

* **Sec. 20.** LAPSE OF APPROPRIATIONS. (a) The appropriations made by secs. 5, 6(a), 6(b), 6(c), 7(c), 7(d), 10, 13(a), 13(c), 13(i), and 13(*l*) of this Act are for capital projects and lapse under AS 37.25.020.

(b) The appropriations made by sec. 17 of this Act are for the capitalization of a fund and do not lapse.

(c) Section 11 of this Act lapses June 30, 2011.

(d) Section 13(e) of this Act lapses June 30, 2014.

* **Sec. 21.** RETROACTIVITY. Section 13(i) of this Act is retroactive to February 10, 2009.

* **Sec. 22.** Sections 8(a) - (d) of this Act take effect June 30, 2009.

* **Sec. 23.** Except as provided in sec. 22 of this Act, this Act takes effect April 19, 2009.

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		1	1	Administration	Office of the Commissioner	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(1,100.0)				(1,100.0)
		2	1	Administration	Personnel	Personnel Board investigations and support - contracts for legal services for complaints filed with the board	725.0				725.0
		3	1	Administration	Retirement and Benefits	This adjustment is necessary to properly allocate costs of the defined contribution plan, Tier 4, to the correct fund sources, per the fiscal note for Ch. 9, FSSLA2005 An Act relating to the teachers' and public employees' retirement systems and creating defined contribution and health reimbursement plans (SB 141).	(107.6)		154.1	120.0 PERS 34.1 TRS	46.5
		4	1	Administration	Retirement and Benefits	Funding is needed to conduct an analysis of how pending legislation might affect retirement systems of the State. Per AS 24.08.036, a cost analysis must be done for legislation that may affect retirement systems of the State before that legislation is reported to the Rules Committee. General Funds are requested so that no current pension trust funds are impacted.	50.0				50.0
		5	1	Administration	Group Health Insurance	The Division of Retirement and Benefits is preparing to re-bid the health benefits Third Party Administrator (TPA) contract and needs additional funding to have the healthcare consultant (Buck) help prepare information for the bid process, audit the performance of the current TPA contractor, and analyze the the long term care projections to determine if the State is carrying adequate reserves.			250.0	Group Health and Life Benefits Fund	250.0
		6	1	Administration	EPORS	Actual increased program retirement and health benefits	85.0				85.0
		7	1	Administration	Office of Public Advocacy	Authorization is needed to accept and spend two federal grants. The two grants are Court Appointed Special Advocate (CASA) program funds from the National CASA Program. One is for $31,000.00 and the other is for $1,949.00 for a total of $32,949.00. Both were awarded to the Office of Public Advocacy after the end of the last legislative session.		33.0			33.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		8	1	Administration	Public Defender Agency	Caseload and cost increases - For the 1st half of FY2009, the Public Defender Agency has experienced caseload growth in the following key areas: The Anchorage Criminal Section has experienced an 11% increase for all cases, a 30% increase in felony petitions to revoke probation, a 14% increase in misdemeanor cases, and a 70% increase in misdemeanor petitions to revoke probation. Fairbanks has experienced a 5% increase in felony cases and a 14% increase in juvenile delinquency cases. The Civil Section within the Public Defender Agency has experienced a 7% increase in all cases, a 15% increase in juvenile delinquency cases, and a 9% increase in civil commitment cases. The Palmer office has seen a 35% increase in Child in Need of Aid (CINA) cases. Multi-year trends show significant increases over the past five years and predict caseload increases for FY2009. Statewide closing rates, however, are below 100% for the most complex caseloads, which indicates an increase in workload due to the increasing complexity of casework and trial preparation.	1,000.0				1,000.0
		9	1	Administration	Motor Vehicles	Additional funding is needed to provide for the purchase of license plates, driver manuals, and license tabs. The plates, manuals and tabs were previously funded in the capital budget. When the budget was established in the operating budget, the division underestimated the annualized costs and the amount added was insufficient to cover the costs now being incurred. In addition, some materials costs have increased. It is critical that Division of Motor Vehicles not run out of these materials and have to stop issuing licenses and plates. The funding requested here is necessary to purchase sufficient stock and inventory for the remainder of FY2009.			562.8	Receipt Supported Services	562.8
		10	1	Commerce	Commissioner's Office	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(80.0)				(80.0)
		11	1	Corrections	Office of the Commissioner	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(750.0)				(750.0)

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		12	1	Corrections	Inmate Health Care	The department is requesting a supplemental of $1,405.8 for increased inmate health care costs that includes fees-for-service, increased release medications for mentally ill inmates, and Inmate Health Care staff cost overages due to overtime for 24-hour medical coverage. $646.4 shortfall is projected in the in-state and out-of-state medical fees for service. The department is seeing an increase in chronic disease associated with diabetes, cancer, heart disease, surrounding health-related issues due to obesity, and health issues associated with care for geriatrics. $361.0 shortfall is projected for psychotropic drugs. As of September 2008, the department's Mental Health Unit began providing additional release medications to inmates with serious chronic mental illness as an interim measure until treatment begins with a community mental health provider. $398.4 shortfall is projected for overtime for 24-hour medical coverage; contractual nursing shortages; and the successful hiring of a Forensic Psychiatrist.	1,405.8				1,405.8
		13	1	Education	Executive Administration	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(270.0)				(270.0)
		14	1	Environ Cons	Office of the Commissioner	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(390.0)				(390.0)
		15	1	Fish and Game	Commercial Fisheries Special Projects	Transfer excess SDPR from Commercial Fisheries Special Projects to Administrative Services to cover indirect receipt costs The FY10 budget contains a corresponding transfer.			(145.0)	Statutory Designated Prgm. Rcpts.	(145.0)
		16	1	Fish and Game	Commercial Fisheries Special Projects	Transfer excess SDPR from Commercial Fisheries Special Projects to Fish and Game Boards and Advisory Committees to cover public information requests. The FY10 budget contains a corresponding transfer.			(6.0)	Statutory Designated Prgm. Rcpts.	(6.0)
		17	1	Fish and Game	Commercial Fisheries Special Projects	Transfer excess SDPR from Commercial Fisheries Special Projects to Habitat to cover the North Slope Borough Teshekpuk Lake Studies.			(22.0)	Statutory Designated Prgm. Rcpts.	(22.0)
		18	1	Fish and Game	Commissioner's Office	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(1,000.0)				(1,000.0)
		19	1	Fish and Game	Administrative Services	Transfer excess SDPR from Commercial Fisheries Special Projects to Administrative Services to cover indirect receipt costs. The FY10 budget contains a corresponding transfer.			145.0	Statutory Designated Prgm. Rcpts.	145.0

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		20	1	Fish and Game	Fish and Game Boards and Advisory Committees	Transfer excess SDPR from Commercial Fisheries Special Projects to Fish and Game Boards and Advisory Committees to cover public information requests. The FY10 budget contains a corresponding transfer.			6.0	Statutory Designated Prgm. Rcpts.	6.0
		21	1	Fish and Game	Habitat	Transfer excess SDPR from Commercial Fisheries Special Projects to Habitat to cover the North Slope Borough Teshekpuk Lake Studies.			22.0	Statutory Designated Prgm. Rcpts.	22.0
		22	1	Governor	Unallocated Reduction	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(465.0)				(465.0)
		23	1	Governor	Executive Office	Transfer AGIA Coordinator PCN and funds to DNR (PCN 01-802X) $158.0 from personal services and $25.0 from travel.	(183.0)				(183.0)
		24	1	Health & Soc Svcs	Behavioral Health Medicaid	Reduce GF and federal authorizations based on current trends and projections.	(8,100.0)	(8,100.0)			(16,200.0)
		25	1	Health & Soc Svcs	Medicaid Services	Reduce GF due to reduction of RSA with Nursing due to recent determination of error in billing methodology. See related items in Nursing and Administrative Support Services. A corresponding FY10 budget amendment is likely.	(2,000.0)				(2,000.0)
		26	1	Health & Soc Svcs	Medicaid Services	Medicaid rate increase for physician services effective 1/1/09 tied to increased Medicare rates. Many of the reimbursements for services are going up as much as 20-30% instead of the usual 4-5%. The ten most frequently used procedures are increasing 27%. The department analyzed nearly 3,000 medical proccdure codes to determine the estimated cost impact.	6,000.0	6,000.0			12,000.0
		27	1	Health & Soc Svcs	Probation Services	Funds necessary for guard hires for escorts, travel for juveniles who are not Medicaid-eligible, psychiatric evaluations that are not Medicaid-eligible and other various court-ordered costs. Recipients of the funds are youth either in division custody or under court order to receive specified services. The department previously received legislative direction to bring these costs forward as supplementals rather than include them in the base budget.	250.0				250.0
		28	1	Health & Soc Svcs	Senior & Disabilities Medicaid Services	Reduce GF and federal authorizations based on current trends and projections.	(5,400.0)	(5,400.0)			(10,800.0)
		29	1	Health & Soc Svcs	Unallocated Reduction	Departments have implemented savings plans and this unallocated reduction will allow the commissioner to apply the reduction to the specific components in which the savings will be achieved.	(4,760.0)				(4,760.0)

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		63	1	Transportation	Measurement Standards and Commercial Vehicle Enforcement	Unified Carrier Registration Fees The Unified Carrier Registration (UCR) program requires individuals and companies that operate commercial motor vehicles in interstate or international commerce to register their business with a participating state and pay an annual fee based on the size of their fleet. FY09 was the first year Alaska participated in this program. Per the Federal Motor Carrier Safety Administration, these revenues may only be used for administration of the unified carrier fee system, motor carrier safety programs, or motor carrier enforcement programs.			150.0	Receipt Supported Services	150.0
		64	1	Transportation	Measurement Standards and Commercial Vehicle Enforcement	Permit Fee Increase Changes to 17 AAC 25 are in process to increase the amounts charged for oversize/overweight permits. Measurement Standards and Commercial Vehicle Enforcement anticipates the permit fee increase to be in place mid-March 2009. This will be an overall average increase of 23%. This increased Receipt Supported Service revenue will be used to fund the following: $16.4 - Increased State equipment Fleet costs. $55.0 - Computer Equipment Replacement Program/Equipment for new inspector position. $31.1 Capital Outlay - which includes the following: Metrology Laboratory Air Quality Study $14.9. Anchorage Prover Truck Conversion $16.2.			102.5	Receipt Supported Services	102.5
		65	1	Transportation	State Equipment Fleet	Credit Card Payments for Fuel The State Equipment Fleet (SEF) maintains contracts which allow a vehicle credit card to be used to purchase fuel and necessary consumables. These charges are paid by SEF and subsequently billed to executive branch state agencies.			400.0	HWCF	400.0
		66	1	Transportation	State Equipment Fleet	Increased Travel Costs Related to Airfare in and Around Alaska's Rural Areas Increase receipt authority to cover travel costs in support of rural airports and highways for the repair and preventative maintenance of vehicles and equipment.			149.0	HWCF	149.0
		67	1	Transportation	State Equipment Fleet	Increased Costs in Freight for Parts, Equipment and Vehicles Increased receipt authority to cover cost increases in freight (shipment of parts, commodities, vehicles and equipment around the state) and increased contractual costs for vendor supplied repairs or vehicle and equipment make-ready such as Trooper vehicle setups.			77.0	HWCF	77.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		68	1	Transportation	State Equipment Fleet	Increased Costs Related to Parts and Commodities Used in the Maintenance and Repair of Wheeled Assets Increase receipt authority to cover parts and commodities costs. The transportation sector has not seen the cost decreases that the average retail sector has. Commodities like oils and lubricants have not seen price reductions that mirror fuel prices. Bulk quantities were purchased early in the fiscal year when fuel prices were at their highest for shipment to rural locations statewide.			800.0	HWCF	800.0
		69	1	Transportation	Central Region Facilities	State Equipment Fleet Costs Over the past few years the operating and replacement rates of state vehicles has increased without a corresponding increase in budgets to the Facilities components. Older vehicles have remained in the fleet and repair costs have been incurred to maintain these vehicles. Certain services, such as repairing damage from accidents, is a billable service and not part of operating rates established by the State Equipment Fleet (SEF). The accumulation of additional costs can no longer be absorbed in the operating budget.	54.8				54.8
		70	1	Transportation	Northern Region Facilities	State Equipment Fleet Costs Over the past few years the operating and replacement rates of state vehicles has increased without a corresponding increase in budgets to the Facilities components. Older vehicles have remained in the fleet to support full staffing and rotating schedules, and repair costs have been incurred to maintain these vehicles. Certain services, such as repairing damage from accidents, is a billable service and not part of operating rates established by the State Equipment Fleet (SEF). The accumulation of additional costs can no longer be absorbed in the operating budget.	116.7				116.7

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		71	1	Transportation	Central Region Highways and Aviation	Anchorage Sidewalk Snow Removal Funding is requested to operate newly acquired sidewalk tractors throughout the winter to blow, plow, and sweep the snow from Anchorage sidewalks, bus stops, trails and pathways. The Federal Highway Administration (FHWA) has notified the department that all infrastructure built with FHWA federal funds must be appropriately maintained. That maintenance includes snow removal from sidewalks and other pathways. Failure to meet these requirements could jeopardize future surface transportation funds and require reimbursement of previously expended funds.	250.0				250.0
		72	1	Transportation	Central Region Highways and Aviation	Anchorage Snow Haul (Roads) Snowfall in Anchorage this winter has returned to the amount that used to be considered normal for the area. Including the heavy snowstorms over the holidays, the accumulation of snow plowed from the roads onto the shoulders and sidewalk areas reached the level that required hauling it away. To date, snow haul expenses have nearly exhausted the annual operating budget of $250. Supplemental funding of $250.0 will allow for one additional snow haul for the remainder of the winter. In addition to this funding request, an additional $31.5 in funding required to fully fund one additional snow haul has been requested as a reappropriation in sec. 14(b).	218.5				218.5
		73	1	Transportation	Central Region Highways and Aviation	Commodities Price Increases The increased cost for commodities has significantly impacted the operating budget for Central Region Maintenance and Operations. Competitive bids were completed last spring for delivery of commodities prior to winter maintenance needs. Purchases of sand and winter chemicals fall into this category. Similarly, competitive bids are completed during the fall for delivery of commodities prior to spring maintenance needs, such as paint for striping. Supplemental funding is needed for sand ($575.0), winter chemicals ($205.3) and paint ($334.0).	1,114.3				1,114.3

		74	1	Transportation	Central Region Highways and Aviation	State Equipment Fleet Costs Older equipment and vehicles have remained in the fleet and repair costs have been incurred for maintenance and repairs. Certain services, such as repairing damage from accidents, is a billable service and not part of operating rates established by the State Equipment Fleet (SEF). The accumulation of additional costs cannot be absorbed in the operating budget.	284.8				284.8
		75	1	Transportation	Northern Region Highways and Aviation	Legal Costs for Material Site Lawsuits Due to ongoing lawsuits filed by one of the regional native corporations for supposed infringement on their land and rights of way, the department has incurred excessive costs this year for Department of Law attorneys. None of the three lawsuits filed have yet gone to court so the total cost is unknown at this time. Additional funding for $150.0 is based on the amount expended to date for attorneys and expert witnesses.	150.0				150.0
		76	1	Transportation	Northern Region Highways and Aviation	State Equipment Fleet Costs Older equipment and vehicles have remained in the fleet and repair costs have been incurred for maintenance and repairs. Certain services, such as repairing damage from accidents, is a billable service and not part of operating rates established by the State Equipment Fleet (SEF). The accumulation of additional costs cannot be absorbed in the operating budget.	554.0				554.0
		77	1	Transportation	Southeast Region Highways and Aviation	State Equipment Fleet Costs Older equipment and vehicles have remained in the fleet and repair costs have been incurred for maintenance and repairs. Certain services, such as repairing damage from accidents, is a billable service and not part of operating rates established by the State Equipment Fleet (SEF). The accumulation of additional costs cannot be absorbed in the operating budget.	241.4				241.4

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		78	1	Transportation	Anchorage Airport Administration	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce contractual services for Anchorage Airport Administration. Public relations, cargo, passenger marketing services and capital improvement project support contracts were all reduced.			(281.0)	International Airport Revenue Funds	(281.0)
		79	1	Transportation	Anchorage Airport Facilities	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce contractual services for Anchorage Airport Facilities. A maintenance contract was cancelled in FY07 and those services were provided from newly created maintenance positions as well as individual contracts for services (such as window washing). These changes resulted in cost savings that are included in this reduction.			(800.0)	International Airport Revenue Funds	(800.0)

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		80	1	Transportation	Anchorage Airport Field and Equipment Maintenance	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce Anchorage Airport Field and Equipment Maintenance snow removal services contract and equipment rentals. Snow removal will be for priority areas only. Lease agreements will be reviewed to ensure tenants provide their own snow removal and do not request services from the Anchorage Airport. Only priority equipment rentals will be approved (loaders, other large equipment).			(400.0)	International Airport Revenue Funds	(400.0)
		81	1	Transportation	Anchorage Airport Operations	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce Anchorage Airport Operations contractual services, commodity and equipment budget. Priority only items will be approved. A reduction in contractual services will reduce the contract for airport parking services.			(80.0)	International Airport Revenue Funds	(80.0)

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		82	1	Transportation	Anchorage Airport Safety	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Reduce Anchorage Airport Safety contract for unarmed security at the Anchorage Airport. The coverage previously provided will be monitored using current on duty Police and Fire Officers as well as other contracted unarmed guards.			(254.0)	International Airport Revenue Funds	(254.0)
		83	1	Transportation	Fairbanks Airport Field and Equipment Maintenance	Reduce Operating Budget in Response to Airline Carrier Economic Operating Environment In response to a multitude of requests for economic relief from airline carriers, the Commissioner and Deputy Commissioner directed the Alaska International Airport System (AIAS) to implement certain operating and capital cost reductions to stabilize rates and fees. This response was in recognition of the deterioration of the economic operating environment in which AIAS customers operate. Delete funding for a full-time equipment operator position, PCN 25-2997. This position is no longer needed and will be transferred to Statewide Aviation where it will be reclassified to an Administrative Assistant II. In addition, a time status change for PCN 25-2992, Equipment Operator Journey from full-time to part-time seasonal has been implemented to better focus staffing resources on airfield snow and ice removal during the winter. These actions were also taken as part of the FY10 Governor's budget.			(157.4)	International Airport Revenue Funds	(157.4)

FY2009 SUPPLEMENTAL REQUESTS

		93	3	Capital	Fish and Game	Cooperative Resource Program This program allows Habitat to accept funds from the private sector to pass through to the U.S. Geological Survey (USGS), as part of a funding agreement for cooperative water resource programs. Funds passed to the federal agency can then be matched up to 100% by the federal government.			55.0	Statutory Designated Prgm. Rcpts.	55.0
		94	3	Capital	Military & Vets	Alaska Military Youth Academy Infrastructure Project Improvements Unanticipated funding from a Department of Defense Appropriations Act, 2009 earmark for Camp Carroll Challenge Infrastructure Improvements will be used for health, safety and code compliance issues, including bringing plumbing up to code in various buildings, including dorms; replacing outdated washers and dryers; replacing outdated kitchen equipment, and upgrading information technology and management connectivity.		2,470.0			2,470.0
		95	3	Capital	Natural Resources	Transfer the capital project, State Parks Deferred Maintenance and Emergency Repairs, from the FY10 capital budget to the supplemental to allow for an earlier start date.	6,000.0			Cruise Ship Gambling Tax	6,000.0
		96	3	Capital	Transportation	**Airport Improvement Program Appropriation $64,590,000**					0.0
		97	3	Capital	Transportation	Bethel: Airport Parallel Runway and Other Improvements This is a new FY2009 project. Complete parallel runway, expand runway 18-36 safety area; rehabilitate south end of runway 18-36 pavement surface; expand old General Aviation (GA) apron as a new air taxi/cargo apron; expand the existing north air taxi apron and widen the air taxi access road and cul-de-sac.		4,000.0			4,000.0
		98	3	Capital	Transportation	Dillingham: 3 Bay Chemical Storage Building This amends an existing FY2009 project (sec. 13, ch. 29, SLA2008, page 162, line 25), increasing the FY2009 allocation to $1,500,000. Construct a new heated facility with concrete floor and new 20,000 gallon E-36 storage tanks. The engineers estimate has been revised and advertising of the project is expected in the spring.		500.0			500.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		99	3	Capital	Transportation	Fairbanks International Airport: Runway 1L-19R Reconstruction This is a new FY2009 project. Funding to complete the reconstruction of 1L-19R, including replacement of the runway pavement structure, reconstruction of airfield lighting systems as necessary to accommodate pavement replacement, drainage modifications, safety area upgrades, pavement marking, and pavement grooving.		17,337.5	912.5	International Airport Construction Funds	18,250.0
		100	3	Capital	Transportation	Fort Yukon: Airport Improvements This is a new FY2009 project. Resurface and include a dust palliative on the apron, taxiway and runway at the Fort Yukon Airport. Correct drainage problems, clear overgrown vegetation, and complete other improvements as funding allows. This request reflects an update to the engineer's estimate.		3,500.0			3,500.0
		101	3	Capital	Transportation	Fort Yukon: Snow Removal Equipment Building This is a new FY2009 project. Construct a new snow removal equipment building at Fort Yukon Airport to include a building pad with surfacing and drainage improvements. The City of Fort Yukon has been under a yearly contract to maintain the airport. However, they have advised the department that they are not interested in contracting to perform airport maintenance for more than an additional year or so. Consequently, the department needs to acquire maintenance equipment and construct a snow removal equipment building to house it, in accordance with Federal Aviation Administration (FAA) regulations.		1,500.0			1,500.0
		102	3	Capital	Transportation	Iliamna: Snow Removal Equipment / Sand and Chemical Storage / Office Building This is a new FY2009 project. Construct a 4-bay Maintenance and Operating building to provide inside heated storage for an expanded equipment fleet, sand and urea storage, as well as an office, training room and bathroom facilities. This project will add two equipment storage bays with a minimum of 22 foot door openings. It will also add a bay for storing approximately 400 cubic yards of sand and 50 tons of urea. It will add additional space for an office area, a training room, and a bathroom facility complete with a shower.		1,000.0			1,000.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		103	3	Capital	Transportation	Petersburg: Airport Runway Safety Area This is a new FY2009 project. This project consists of the design and construction of an expanded Runway Safety Area, shifting the existing runway, replacing undersized culverts, relocating navigation aids, and other required work. It also includes the acquisition of additional property adjacent to the airport in order to protect Runway Protection Zones from incompatible land uses.		26,000.0			26,000.0
		104	3	Capital	Transportation	Savoonga: Airport Improvements This is a new FY2009 project. This is the second stage for rehabilitating the Savoonga Airport. The work includes resurfacing the runway, taxiway, apron and airport access road, applying a dust palliative to the operating surfaces and replacing the lighting system. The taxiway will be realigned to meet geometric standards.		4,840.0			4,840.0
		105	3	Capital	Transportation	Takotna: Airport Relocation This amends an existing FY2009 project (sec. 13, ch. 29, SLA2008, page 164, line 16), increasing the FY2009 allocation to $10,500,000. Relocate the airport to a new location about a mile east of the village. This will include acquiring property and constructing the following to current standards: new runway, taxiway, apron, airport lighting and visual aids, snow removal equipment building and an airport access road.		5,000.0			5,000.0
		106	3	Capital	Transportation	**Surface Transportation Program Appropriation $15,750,000**					0.0
		107	3	Capital	Transportation	Chena Hot Springs Road: Milepost 24 to 56 Rehabilitation This is a new FY2009 project. The project consists of 32 miles of roadway reconditioning and paving with 1.5" of hot mix asphalt. The work includes bridge seismic retrofits and upgrading traffic signs, guardrail, striping, and approaches.		1,430.0			1,430.0

		108	3	Capital	Transportation	Ester Weigh Station Scale Replacement This is a new FY2009 project. Replace the scale at the Ester weigh station and return it to service. The Ester Weigh Scale has currently been removed from service due to inaccuracies in its measurements. The steel scale deck support system and steel scale mechanisms have deteriorated beyond the point of reasonable repair. The extensive corrosion present is almost certainly a direct cause of the recent loss of accuracy of the scale system.		120.0			120.0
		109	3	Capital	Transportation	Kotzebue: Shore Avenue Rehabilitation and Erosion Protection This amends an existing FY2009 project (sec. 13, ch. 29, SLA2008, page 170, line 3), increasing the FY2009 allocation to $20,590,000. This project was originally requested as an FY2010 project. A corresponding decrement for FY2010 will be submitted as a budget amendment. Reconstruct Shore Avenue from Lake Street, through the primary commercial area of Kotzebue, approximately 4,400 feet to the end of the road at Crowley Dock. Shore Avenue will be paved, new sidewalks, a pathway, parallel parking, an open space on the seaward side, and an erosion protection revetment on the seaside.		14,200.0			14,200.0
		110	4			Sets out the funding by agency for the appropriations in sec. 1.					0.0
		111	5			Summarizes by fund source the funding for the appropriations in secs. 1 and 3.					0.0
		112	6	Administration	AOGCC	Extend lapse date of AOGCC appropriation for reservoir depletion studies, sec. 61(d), ch. 30, SLA 2007, as amended by sec. 34(a), ch. 29, SLA 2008, from June 30, 2009 to June 30, 2010. The estimated carryforward amount is $1.4 million.					0.0
		113	7(a)	Education	ACPE - Program Administration & Operations	Extend lapse date from June 30, 2009 to June 30, 2011 for the Mental Health Employee Loan Repayment Program, which is appropriated and allocated in sec 1, ch. 28, SLA 2008, page 2, line 31 - page 3, lines 3 - 5. This program makes payments on participant education loans over eight quarters. The lapse extension is necessary to be able to make payments for the entire period.					0.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		114	7(b)-(c)	Capital	Education	Increase the FY09 appropriation and allocation for the Maudry J. Sommers K-12 School Major Maintenance project. When HB 373, now ch. 107, SLA 2008, passed last year, the participating share amounts for some districts were revised and funds were appropriated in sec. 61(b), ch. 29, SLA 2008, page 220 and 221, to those districts whose amounts were lowered. Tanana City School District should have received a similar adjustment to make up the difference between a 5% and 10% participating share.	392.5				392.5
		115	7(d)	Capital	Education	Repeal the $98,056 balance of the appropriation made in sec. 60, ch. 3, FSSLA 2005, page 140, line 24, for Alaska Gateway - Dot Lake School Mechanical Upgrade. In section 14(d) the funds are reappropriated to the Department of Transportation and Public Facilities, Southeast Region Highways and Aviation, for the purchase of required safety equipment at rural airports.	(98.1)				(98.1)
		116	7(d)	Capital	Education	Repeal the $54,753 balance of the appropriation made in sec. 60, ch. 3, FSSLA 2005, page 142, line 13, for Southeast Island - Thorne Bay House Access Ramp. In section 14(m) the funds are reappropriated to the Department of Transportation and Public Facilities, Alaska Marine Highway System for vessel and terminal overhaul and rehabilitation.	(54.8)				(54.8)
		117	7(e)	Education	School Performance Incentive program	Based on prior year trends, the department believes that only $2.5 million will be needed for this program in FY09, freeing up $2.3 million.	(2,300.0)				(2,300.0)
		118	7(f)	Education	School Performance Incentive program	This subsection appropriates the amount necessary if the $2.5 million left in the appropriation is insufficient to make the payments.					0.0
		119	8	Capital	Environmental Cons	Transfer the balance of $208,578 AHFC Dividend and $625,800 Federal funds from Tununak Flush Tank and Haul, and Washeteria Project (ED 38), made in sec. 1, ch. 135, SLA 2000, page 10, line 30, to a new Village Safe Water Study, Design and Construction Projects allocation.		(625.8)	(208.6)	AHFC Dividend	(834.4)
		120	8	Capital	Environmental Cons	New allocation:Village Safe Water Study, Design and Construction Projects $834,387 - Sec. 1, Ch. 135, SLA 2000. This supplemental is needed to meet federal funding agency requirements and to ensure that federal funds for water and sewer improvements throughout the state are retained.		625.8	208.6	AHFC Dividend	834.4

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		127	9(e)	Capital	Health & Soc Svcs	Amend the appropriation made in sec. 4, ch. 29, SLA 2007, page 13, lines 10 - 14, by changing the project's name by deleting "Eklutna" from the title: "MH Southcentral Foundation [EKLUTNA] Residential Psychiatric Treatment Center - Match for Bring the Kids Home" in order to expand the locations that can be considered for the center.					0.0
		128	9(f)	Health & Soc Svcs	Foster Care Special Needs	Miscellaneous claim for denied Medicaid billing from Providence Medical Center in FY06. A child in foster care with an emergency medical condition was hospitalized for surgery and recovery. The foster parents realized they would not be able to deal with the child's medical needs, so the child stayed in the hospital until a specialized foster home placement could be found. The department was notified of the unpaid bill in August 2008. The exact amount of the invoice is $217,603.41.	217.6				217.6
		129	9(g)	Health & Soc Svcs	Probation Services	Miscellaneous Claim in the amount of $298.75 from FY06. The invoice from the Bristol Bay Area Health Corporation was not received until June 2008.	0.3				0.3
		130	9(h)	Health & Soc Svcs	Alaska Pioneer Homes	Pioneer Homes have been collecting more revenues than projected from the residents' own resources, enabling them to reduce GF and increase RSS to stay authorization-neutral. They do not think there will be an effect on the FY10 budget since this revenue stream varies from year to year.	(740.0)		740.0	Receipt Supported Services	0.0
		131	9(i)	Health & Soc Svcs	Children's Services: Children's Services Management	Increase GF due to identified problems with School Based Claims process and resulting reduction in achievable revenues. See related items in Administrative Support Services, Front Line Social Workers, Information Technology and Women, Children and Family Health. 		138	9(l)-(o)	Health & Soc Svcs		Reflects fund source changes from sec. 9(h)-(k)					0.0
		139	10	Labor	Commissioner's Office	The $850.0 fiscal note for ch. 22, SLA 2007 (HB 177, AGIA) was appropriated in sec. 2, ch. 28, SLA 2007, page 44, line 22. Sec 34(e), Ch 29, SLA 2008, Pg 210, Ln 22 extended the lapse date to June 30, 2009. The department will not spend the entire amount in FY09, therefore they request that the lapse date be extended through June 30, 2010 in order to complete the work with the estimated balance of $325.0.					0.0
		140	11(a)	Law	Deputy Attorney General's Office	Judgments and Settlements The actual amount of the FY2009 Judgments and Settlements that are finalized as of February 2, 2009 is $90,061.64.	90.1				90.1
		141	11(b)	Law	Deputy Attorney General's Office	Judgments and Settlements Language The amount necessary to pay judgments awarded against the state on or before June 30, 2009, is appropriated from the general fund to the Department of Law, civil division, deputy attorney general's office, for the purpose of paying judgments against the state for the fiscal year ending June 30, 2009.					0.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		142	11(c)	Law	Second Judicial District	Extend the lapse date for the Sexual Assault/Domestic Violence Federal Earmark, made in sec. 27(d), ch. 11, SLA 2008, page 104, line 29 (SB 256), from June 30, 2009 to June 30, 2010 Further extending the lapse date to June 30, 2010 will enable the department to continue to fund additional attorneys and paralegals in Bethel, Barrow and Anchorage to aid in the prosecution of domestic violence as well as adult and child sexual assault cases. It is estimated that approximately $89,700 would be available to carry forward.					0.0
		143	11(c)	Law	Third Judicial District: Anchorage	Extend the lapse date for the Sexual Assault/Domestic Violence Federal Earmark, made in sec. 27(d), ch. 11, SLA 2008, page 104, line 30 (SB 256), from June 30, 2009 to June 30, 2010 Further extending the lapse date to June 30, 2010 will enable the department to continue to fund additional attorneys and paralegals in Bethel, Barrow and Anchorage to aid in the prosecution of domestic violence as well as adult and child sexual assault cases. It is estimated that approximately $149,000 would be available to carry forward.					0.0
		144	11(c)	Law	Fourth Judicial District	Extend the lapse date for the Sexual Assault/Domestic Violence Federal Earmark, made in sec. 27(d), ch. 11, SLA 2008, page 104, line 31 (SB 256), from June 30, 2009 to June 30, 2010 Further extending the lapse date to June 30, 2010 will enable the department to continue to fund additional attorneys and paralegals in Bethel, Barrow and Anchorage to aid in the prosecution of domestic violence as well as adult and child sexual assault cases. It is estimated that approximately $407,900 would be available to carry forward.					0.0
		145	11(d)	Law	BP Corrosion	Extend the lapse date for the BPXA Corrosion Litigation appropriation made in sec. 1, ch. 27, SLA 2008, page 31, line 20, from June 30, 2009 to June 30, 2010 Further extending the lapse date to June 30, 2010 will enable the department to pursue claims for penalties and lost revenues for the 2006 Prudhoe Bay pipeline spills and production shutdowns. It is estimated that approximately $1,900,000 would be available to carry forward.					0.0

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		146	12	Natural Resources	Oil & Gas	Extend lapse date on sec. 24(p), ch. 159, SLA 2004 Gasline Right of Way and Application from June 30, 2009 to June 30, 2011. Due to the number of projects under development and the work involved with right of ways and associated permitting there is huge demand for work not covered by the companies involved: ANGDA, ENSTAR, Denali and TransCanada. The estimated carryforward is $2,965,800.					0.0
		147	13(a)	Revenue	Resource Rebate	Extend lapse date from June 30, 2009 to June 30, 2010 for the Alaska Resource Rebate Program, appropriated in sec.1(b), ch. 1, 4SSLA 2008, in order to finalize determinations for approximately 10,000 applicants in some stage of having their eligibility determined, already denied but not yet appealed, or in appeal status.					0.0
		148	13(b)-(c)	Revenue	AHFC	Fund source change from corporate receipts to federal, mostly in personal services. Now that AHFC is in HUD's Moving to Work agency status, there are sufficient federal resources to cover these expenses. There is a corresponding increase in the FY10 budget.		674.3	(674.3)	AHFC Rcpts	0.0
		149	13(d)	Revenue	ARM Board	Implementation of cost allocation plan wherein FY09 is based on FY07 net asset values that realized a large increase in value of the funds under management. This is compounded by prior year allocations that were a flat amount and may not have charged benefit systems their full fair share, as well as an increase in the number of participants. Plus, ARM Board is managing additional new investment options for participants (SBS, deferred comp). The FY10 budget contains a corresponding increase of $249.0 relating to investment options and it is likely that an FY10 budget amendment will also be proposed.				890.0 Benefit Systems Rcpts (700.0) PERS (190.0) TRS	0.0
		150	14(a)	Capital	Transportation	Mission Road (Kodiak Island) - Upgrade and Repair This amends an existing FY2009 project (sec. 13, Ch 29, SLA 2008, page 159, line 14), increasing the FY2009 appropriation to $782,600. Additional funding is being requested to cover costs for the project because the low bid came in higher than expected. Project work was initiated during the fall of 2008 and will resume in the spring of 2009 and is scheduled for completion mid-summer of 2009.	207.6				207.6

FY2009 SUPPLEMENTAL REQUESTS

Date	No.		Sec. No.	Department or Capital	Component or, if capital, Department	Description of Supplemental Need	General Funds	Federal Funds	Other Funds	Fund Source	Total Funds
		151	14(a)(1)	Capital	Transportation	The unexpended and unobligated balance of the appropriation made in sec. 1, ch. 82, SLA 2006, page 84, line 23 (Anchorage: Hillcrest Bridge Repairs - $192,600) is reappropriated to the Department of Transportation and Public Facilities, Mission Road (Kodiak Island) – Upgrade and Repair. The bridge repairs have been completed and the trucking company's insurance covered the cost.	(192.6)				(192.6)
		152	14(a)(2)	Capital	Transportation	The unexpended and unobligated balance, not to exceed $15,000, of the appropriation made in sec. 7, ch. 82, SLA 2006, page 128, line 22 (Willow - Fishhook Road Plowing - $41,000) is reappropriated to the Department of Transportation and Public Facilities, Mission Road (Kodiak Island) – Upgrade and Repair.
