## SPONSOR STATEMENT House Bill 216

**“An Act relating to fiscal notes for bills directing or resulting in the adoption, amendment, or repeal of regulations, and to the notice required for the proposed adoption, amendment, or repeal of a regulation; and providing for an effective date.”**

---

HB 216 will accomplish two goals relating to changes to state regulations; increasing the speed with which regulations are written, and describing in plain, easy-to-understand language all regulations that are adopted, amended or repealed.

Legislators and the public have often been frustrated by the fact that months, or even years, sometimes pass between the time that a bill is passed by the legislature and the time the regulation is implemented. The result is; Alaska residents, businesses and legislators are confused about what the change means. As an example: as we were looking at the governor’s House Bill 110, on oil taxes, we didn’t have proof of what regulations were currently being enforced because the ACES regulations hadn’t even been written – three years after we passed the legislation. The same confusion can impact individuals who are unclear about when, or if, new regulations concerning their business or recreational activities take effect. HB 216 states that any bill requiring creation or modification of any regulation must include a regulation completion deadline.

The other problem addressed by this bill is the confusion and lack of understanding of many proposed regulation changes or new additions. This confusion is caused by the legalese used to describe proposed regulations. This language, while accurately and legally describing proposed regulations, is difficult to understand by the average individual. HB 216 will require that all proposed regulation changes include descriptions, in plain English, of what the original regulation does and what the proposed change will do.

Passage of this legislation will encourage public participation in the regulation review process, as people find it easier to understand what the regulations mean to them. It will also help speed passed legislation to implementation when regulations are completed in a set, scheduled timeframe.

Based on input from committee members and the Department of Law, several amendments were passed in the State Affairs and Judiciary committees that help to clarify the language used in the bill. No substantive changes have been made to the original intent of the bill.

RE: **CHANGES to HB 216 "Regulations: Informative Summary/Bills"**

Since the original version of HB 216 was drafted, it has had several amendments and language changes, but the basic premise of the bill has not changed.

The State Affairs committee passed two amendments that clarified the informative summary language.

The Judicial committee met several times and finessed additional changes that helped to make this bill very clear. We also worked with the Department of Law to incorporate some of their suggestions.

A summary of the changes made since the bill was introduced include:

- The deadline for adopting changes will now be stated in the fiscal note, rather than in the bill itself. This change necessitated a change in the title.
- Language stating that the agency, and not the legislature, sets the deadline - is clarified.
- The AHFC, AIDEA, AEA, APOC, and AOGCC are expected to comply with the requirements of Section 1, but all other state boards and commissions are exempted.
- Agencies must now report to the Legislative Regulatory Review committee if a deadline is not met; and set a new deadline for adoption of the regulation.
- The brief descriptive summaries will accompany **new** regulations, as well as changes and repeals of regulations.
- Changes in Section 2 clarify that the 'posted notice' should not be confused with the formal 'notice'.
- Language was changed to target the brief descriptive summaries to online and email notification, rather than to print media.
- Protection from legal action is provided to agencies, should the clarity or readability of the brief descriptive summary be misinterpreted or questioned.
- An effective date was added.

**FISCAL NOTE**

**STATE OF ALASKA  
2012 LEGISLATIVE SESSION**

**BILL NO. CSHB 216**

**Analysis**

"An Act relating to deadlines in bills directing the adoption of regulations and to the informative summary required for the proposed adoption, amendment, or repeal of a regulation."

If a proposed bill will require regulations or result in a change to existing regulations, Section 1 would require agencies to state in the fiscal note for the bill a time by which the agency is to adopt, amend, or repeal the regulation. If the agency does not meet the deadline, it would set a new deadline and report to the Administrative Regulation Review Committee the new deadline and the reasons for not meeting the deadline that was established in the fiscal note.

Section 2 would require for a notice, posted on the Online Public Notice site or furnished electronically by a state agency, proposing adoption, amendment, or repeal of existing regulations, that a brief description accompany the notice and be written in clear, easily readable language that a person without a legal background is able to understand. The Regulatory Commission of Alaska, the Board of Fisheries, and the Board of Game would be exempt from Section 2.

No fiscal impact is expected as a result of Section 1. The fiscal impact resulting from Section 2 for future legislation is expected to be minimal. If the cost cannot be absorbed within an agency's budget, agencies will reflect this in the note for future legislation.
