Senate Finance Committee

DATE: April 1, 2011

FROM: Don Habeger, Division Director

RE: Department Response to Questions
regarding SB 92: Dental Practice

In response to the Committee's questions on SB92 – Dental Practice, regarding investigative case number comparison the Division of Corporation, Business and Professional Licensing has the following information to offer.

Time period for case numbers for the Medical Board and the Dental Board is January 1, 2009 through March 30, 2011:

- Dental Board cases are: Total cases = 40: 19 have been closed; 21 open status, of these none involve AAG or litigation.
- Medical Board cases are: Total cases = 162: 85 have been closed; 77 open status, of these 4 are with AAG and 4 are in litigation.

Notes: Open status may include the following: initial notification of an alleged violation, intakes, receiving of formal complaint, fact gathering (interviews, records review, etc.); expert witness review and advice as to case merits; board subcommittee review for case merits; accusations filing, Consent Agreements, and presentation to Boards and Commissions for final action.

Currently there are 21 open matters concerning Dental and Dental Hygienist. The open matter includes complaints and intakes. Intakes are when Investigations receive a telephone call or letter alleging a complaint against a licensed practitioner. Investigations respond by sending out a complaint packet and once it is returned, turn the intake into a complaint. It does not turn into an "open" investigation, until we have evidence of a violation. Of the 21 only 5 are considered "open" investigations, the rest are in the intake or complaint stages. This process, although discussed specifically in relation to the Dental Board's investigation activity, is similar for all boards and commissions.

Please let me know if you have any further questions or concerns.

Legislative Chairman

Dear Dr. Logan:

Thank you for your email suggesting language to further amend Section 16 of SB 92. Southcentral Foundation (SCF) agrees with you that the language in the bill as introduced, adding an exemption under AS 08.32.187(a) for certain dental hygienists, needs additional work. Your suggestion was that it read:

(4) a dental hygienist employed in the state by an Alaska Native organization that is recognized by and eligible to receive services from the United States Department of the Interior, Bureau of Indian Affairs, while providing dental hygiene services to a member of a tribe that is recognized by the United States Secretary of the Interior under 25 U.S.C. 479a (Federally Recognized Indian Tribe List Act of 1994).

You asked SCF to identify any problems it might have with that language and it is happy to do so.

Operation of health programs by Alaska Native tribes and tribal organizations is governed by two laws: the Indian Self-Determination and Education Assistance Act (ISDEAA), Pub. L. 93-638, (codified as amended at 25 U.S.C. 450 *et seq.*), and the Indian Health Care Improvement Act (IHCIA), Pub. L. 94-437, (codified as amended 25 U.S.C. 1601 *et seq.*). The ISDEAA specifies which tribal entities are allowed to operate services of the Indian Health Service (IHS). These entities include tribes, tribal organizations, and inter-tribal consortia. There is no process by which the Department of Interior, Bureau of Indian Affairs, recognized "Alaska Native Organizations." as the language above suggests, and the definition of tribe in the latter clause is inconsistent with the definition of tribe in either the ISDEAA or IHCIA.

This is a matter of great concern to SCF, and very likely many other tribal organizations throughout the State, since the proposed language would exclude all of the regional tribal health organizations and would also narrow who may be served significantly over that authorized under applicable Federal law, specifically the ISDEAA and IHCIA.

SCF appreciates the interests that the Alaska Dental Society is attempting to address, however,

and wants to help find the correct language. A really simple version could read:

(4) a dental hygienist employed in the state by an Indian health program, as that term is defined at 25 U.S.C. 1603(12), while providing dental hygiene services to a person that the Indian health program is entitled to serve under the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, as amended, and the Indian Health Care Improvement Act, Pub. L. 94-437, as amended.

An alternative version that would spell out the provisions somewhat more could read:

(4) a dental hygienist

(A) employed in the state by

(i) the Indian Health Service;

(ii) an Indian tribe or tribal organization that operates any health program, service, function, activity, or facility funded, in whole or part, by the [Indian Health] Service through, or provided for in, a contract or compact with the Service under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.); or

(iii) any Indian tribe or tribal organization to which the Secretary [of Health and Human Services] provides funding pursuant to section 23 of the Act of June 25, 1910 (25 U.S.C. 47) (commonly known as the "Buy Indian Act"); and

(B) while providing dental hygiene services to a person that the Indian health program is entitled to serve under the Indian Self-Determination and Education Assistance Act, Pub. L. 93-638, as amended, and the Indian Health Care Improvement Act, Pub. L. 94-437, as amended.

SCF encloses the definitions of terms used in either of these versions for your reference since whatever we might agree on, the language will have to be sent to Legislative Counsel for final drafting. As you can see in these definitions, the complexities of Indian health programs are many.

SCF appreciates the effort to clearly define the new exemption, but also needs to assure that the exemption does not inadvertently limit the population SCF and other Indian health programs may serve under their compact with the Indian Health Service. Accordingly, SCF also changed the last part of your proposed amendment. SCF did not try to detail every section of the IHCA that addresses who can be served in an Indian health program. This is a complex matter in which

that addresses who can be served in an Indian health program. This is a complex matter in which one must refer to multiple sections of the law and Federal regulations. SCF is concerned that that level of detail would bog down the limitation on who can be served to the point that the Legislature would exclude that language entirely.

SCF looks forward to continuing to work with you, other stakeholders, and the Legislature on this important piece of legislation.

Sincerely,

SOUTHCENTRAL FOUNDATION

SENATOR DENNIS EGAN

CSSB 92 (L&C)

"An Act relating to dental hygienists, dentists, dental assistants, dental hygiene, and dentistry."

SPONSOR STATEMENT

CSSB92 (L&C) clarifies the statutes for dental hygienists, dentists and the board of dental examiners.

The dental statutes set the requirements to obtain and renew a dental license, specify the grounds for discipline and set the requirements for training of a dental assistant.

The dental hygiene statutes also set the requirements to obtain and renew a dental hygiene license, list the procedures that a dental hygienist may perform and specify the grounds for discipline.

The board meets at least four times a year and consists of nine members appointed by the governor. Six members are dentists, two members are dental hygienists and one member is from the general public. The statutes governing the board of dental examiners specify the makeup of the board, the times the board shall meet and the powers of the board.

The board adopts regulations to carry out the laws governing the practice of dentistry and dental hygiene in Alaska. It makes final licensing decisions and takes disciplinary action against people who violate the licensing laws.

While incremental changes have been made to these statutes from time to time, it has been many years since anyone comprehensively reviewed them. CSSB 92 (L&C) represents the work of a committee of dentist and dental hygienists who seek to bring the laws governing those professions into line with current standards and practice.
