This bill makes changes to simplify, clarify and modernize the State Procurement Code to encourage broader competition and allow the state to achieve efficiencies and take advantage of today's technology. Sponsor Statement

Senate Bill 12

"An Act relating to state and public entity procurement, including the State Procurement Code, procurement preferences, contract awards, the use of small procurement provisions for certain amounts of leased space, the Alaska business license requirement for Alaska bidder and other procurement preferences, the proof of registration of construction contract bidders and offerors, the establishment and maintenance of lists of persons who want to provide supplies or services to the state, state agencies, and state instrumentalities, electronic bids and proposals, the chief procurement officer, small procurements, and writings; relating to the meaning of 'Alaska bidder'; and providing for an effective date."

Senate Bill 12 makes changes to the state's procurement code. Collectively, these changes streamline the procurement code to ensure consistent application of the law, resulting in a more understandable, efficient procurement process. These changes are needed to prevent failed procurements and provide modern procurement tools and techniques for the state's business partners as well as our employees who conduct procurements.

The bill simplifies the procurement process by standardizing complex and confusing preference language and increasing the small procurement thresholds so that more procurements are conducted with less formality. Small procurement procedures are easier for businesses to understand and less expensive for them to comply with, and they are faster and more efficient for the state to conduct.

These changes will encourage broader competition and allow the state to achieve efficiencies and take advantage of today's technology. This bill modernizes the procurement code, allowing for electronic receipt of bids and signatures. The bill also eliminates the requirement to maintain outdated vendor lists in a time when commerce is moving online.

The bill makes application of the preferences uniform – currently, preferences do not contain the same language so they must be applied differently. It also clarifies which preferences are cumulative and those that may not be combined.

The bill clarifies now complex requirements such as qualification for preferences and clearly explains when an Alaskan Business license is required to qualify for award of a contract. The bill modernizes and streamlines state procurement by elimination of outdated requirements such as bidders lists, and it allows for electronic bidding.

It has been many years since our procurement code has been modernized. These changes will reduce barriers to Alaskan businesses, especially small and rural based firms, and will decrease costs, and increase the effectiveness of state employees who procure and administer contracts for goods and services

I appreciate your support and consideration of this legislation.

Re: Senate Bill 12

Dear Senator Fairclough:

The mission of the Alaska State Chamber of Commerce (Alaska Chamber) is to promote a positive business environment in Alaska. The Alaska Chamber represents hundreds of businesses and local chambers from across Alaska. These member businesses share the goal of improving Alaska's low "business friendliness" rankings in national polls. Often government regulations erect unnecessary barriers to doing business. Senate Bill (SB 12) streamlines and clarifies the State's procurement code removing rather than adding barriers.

The Alaska Chamber supports SB 12. During its board meeting last week the Alaska Chamber Board of Directors affirmed a position similar to one that membership has advanced for the past several years. In part it states that the Alaska Chamber supports ensuring that the preferences currently in Alaska's procurement regulations are protected and continue to provide a competitive advantage to Alaska-based or Alaska-owned businesses.

Alaska Chamber members believe the State of Alaska has an interest in maintaining competitive procurement advantages for Alaska-based and Alaska-owned businesses. Alaska's private sector businesses create the jobs and livelihoods that fuel Alaska's economy and population growth.

Alaska businesses face more challenges compared to outside institutions. Outside firms have a lower cost of doing business and the preference currently in statute and regulation help offset the advantage outside firms have over Alaska businesses. The intent of these preferences is that when all factors are equal, a preference is provided to businesses located within Alaska. By advantaging Alaskan-based businesses over outside interests, that State of Alaska works to keep Alaskan companies from relocating to outside markets with larger labor pools and greater customer bases. SB 12 streamlines and clarifies Alaska bidder preferences in statute.

The Alaska Chamber appreciates your work to improve Alaska's business climate and fully supports SB 12.

Sincerely,

Rachael A. Petro

To Whom It May Concern,

On behalf of the University of Alaska Statewide System Procurement Office and the procurement offices located at the MAU's in Fairbanks, Anchorage and Juneau, I would like to express support for Senate Bill 12 (SB 12) relating to the State Procurement Code.

After review and consideration of the proposed changes, it is my opinion that this Bill will benefit the university, along with other public procurement units in Alaska, by helping to make its procurements in a timely, efficient manner while still meeting the needs of its various customers and maintaining fair treatment of the vending community.

The changes will shorten the time necessary to award contracts for space leases and purchases between the old and new thresholds without sacrificing the quality of public notice given to interested parties. Accepting electronic bids and proposals will allow for, and ensure, more timely receipt of competition, and along with the proposed changes to the requirements for Alaska Business Licenses, should stimulate competition. These changes are fair, reasonable, in some cases long overdue, and on the whole very much welcome.

Thank you for considering the passage of this much needed piece of legislation.

Respectfully,

University of Alaska

RE: SB 12

Dear Senator Fairclough,

On behalf of the Alaska Municipal League, we would like to thank you for the submission of SB 12. It is refreshing to see bills that actually intend to fix a problem that affects how Alaska deals with businesses and accomplishes goals.

This bill appears to reach a broad spectrum of business in the State of Alaska and can hopefully raise our position in national polls. Alaska's municipalities realize that without successful projects and business, our communities will not succeed. We hope to support what we can to make that happen. Due to our higher costs in Alaska, we must find ways to allow Alaska's businesses to have every advantage.

The Alaska Municipal League supports SB 12.

Sincerely,

Kathie Wasserman
Executive Director
Alaska Municipal League
